

Higher Cash Guarantee Seen For 1950 Major Farm Crops

WASHINGTON, June 1. — Higher dollar-and-cents government price guarantees appeared to be in the making today for this year's major farm crops.

The Agriculture Department is required by law to support prices of wheat, corn, cotton, tobacco, rice and peanuts at 90 per cent of par-

ity. Parity is a yardstick for measuring farm prices, declared by law to be fair to both producers and buyers.

Parity prices for most agricultural commodities are running higher now than they did a year ago. They rise and fall with changes in the prices of goods and services used by farmers in producing crops and in family living.

The department reported yesterday that the retail price level has advanced three per cent since last November to offset more than one-third of the price reductions during the previous 16 months.

The present parity price of wheat, for example, is \$2.19 a bushel compared with \$2.17 a year ago. If present price relationships continue until this year's price support is set, the wheat guarantee will be at least one cent a bushel higher than a year ago.

The present parity price of corn is four cents above the \$1.35 a bushel parity price used for setting the support for the 1949 corn crop.

Likewise, present parity prices are higher than a year ago for cotton, rice, and peanuts.

Increases in price support rates may not mean a greater government outlay for farm-aid programs. Poor spring crop planting and production prospects indicate a considerably smaller harvest. Small crops would mean little or no surpluses to move into government hands under price programs.

The rather unfavorable farm production outlook is being reflected in advances in farm prices. The department reported that between mid-April and mid-May, farm prices increased 2.4 per cent to reach the highest level since September, 1949. The biggest advances were shown for hogs, cotton, corn, wool and soybeans.

This upturn in farm prices is shaving some money off the government's investment in surpluses. Farmers are withdrawing crops from government loan stocks to

take advantage of the higher market prices.

The government's investment declined from a record of \$4,036,000,000 in February to \$3,958,000,000 in April, the department said yesterday. These figures did not show the full extent of the decline. By mid-May, farmers had paid off loans and withdrawn 40 per cent of the 1949 cotton they had placed under the price-guarantee program.

The higher farm prices does not mean, however, that agricultural income will increase. In fact, it is probable that farm cash receipts will continue a decline which started two years ago. The higher prices will be offset by a reduction in volume of production due to the unfavorable weather.

Doctor Says You Have Many More Than Five Senses

LOS ANGELES, (U) — Most people think they have five senses, but they really have many more, says Dr. Nowell Jones, University of California psychologist. For instance, the skin, besides a sense of touch has senses which record cold, warmth and pain.

There is also a muscle sense which Jones believes good athletes and musicians use intensely. There is a sense of balance besides a sense of hearing in the ear. A chemical sense causes your eyes to water when irritated.

Huge Forest Fire Rages In Nova Scotia

HALIFAX, N. S., June 1. (U) — Huge forest fire that has lapped up 15,000 acres of spruce in three days spread additional damage in East Halifax County today but veered away from two threatened villages.

The fire has destroyed already more timberland than all Nova Scotia forest fires in 1949.

The villages of Dean and Musquodoboit were no longer in the path of the blaze but minor outbreaks were reported from a dozen other places. Chief Forester D. A. S. Syer said some of the fires "have the semblance of being purposely set." Others were caused by careless smoking, burning of brush and fishermen's campfires.

Showers last night reduced the general Canadian fire hazard from Manitoba to New Brunswick. Nova Scotia is facing the most serious threat.

All Nova Scotia forests were closed to public travel Monday. The hazard still remained great in New Brunswick, although all fires except one were under control.

English Magazine Exactly Duplicated

PARIS, (U) — A first attempt to sell a British magazine in an exactly duplicated French-language edition began here May 1.

Michael Hall, editor of the London Mystery Magazine, which has its offices at 221 B Baker Street, London (the address made famous by Conan Doyle's detective Sherlock Holmes), claims his venture is the first ever to be made in which a magazine is printed simultaneously and with identical contents on both sides of the Channel.

Talk Flows In Flood In Desert Courtroom

BEERSHEBA, Israel, (U) — Down here in southern Israel at the edge of the Negev desert wilderness, Bedouin tribes have a pretty free hand in administering justice as they see fit.

And "a day in court" is something for a Hollywood Marx Brothers scenario. Talk flows in a flood. The judges and spectators smoke cigarettes and drink a sweetish amber-colored fluid called coffee. Flies stick to you tighter than

the buffalo on an American nickel. Donkeys bray, horses whinny and chickens fly into the "courtroom." But justice is done. And each one dips his hands into a food-laden pan that looks like a washbasin, lets the food ooze through sun-tanned fingers and flips it into his mouth.

BIG TURNOUT

DALLAS, June 1. (U) — More than 200 women golfers are expected to enter the Trans-Mississippi Tournament opening here next Monday at the Lakewood Country Club.

Personal To Women With Nagging Backache

As we get older, strain and stress, over exertion, excessive smoking or exposure to acid sometimes slow down kidney function. This may lead to nagging backache, loss of pep and energy, headache and dizziness. Getting up nights or frequent passages may result from minor bladder irritations due to cold, depression or dietary indiscretions. If your discomforts are due to these causes, don't wait, try Doan's Pills, a mild diuretic. Used successfully by millions for over 50 years. While these symptoms may often otherwise occur, it's amazing how many times Doan's give happy relief—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

ACHESON LISTENS—Secretary of State Acheson cups his right hand over his ear as he listens to a congressman's question while reporting to Senate and House members on recent talks in London with British and French foreign ministers. Acheson answered questions after telling legislators "balanced collective forces" are needed to oppose Communist expansion. (AP Wirephoto).

Motorman Fed Up, Lets Off His Passengers

NEW YORK, June 1. (U) — It started at 85th St. and Madison Ave.

A passenger — whose name was not learned — said he dropped seven cents in the fare box yesterday. Bus Driver James Coyne said he saw only two cents go in.

Finally, the driver, tired of the bickering, said: "All right, forget it, Jack."

But the passenger wouldn't forget it. He kept jawing at Coyne as the big bus rolled down Madison Ave.

Eventually, Coyne had enough. He pulled to the curb at 81st St., gave each of his 30 passengers a transfer and told them: "Everybody off the bus. I don't have to take this. I'm going back to the garage."

Off they trooped and watched him wheel around and drive to the north. Then they boarded another bus going downtown.

Out of their sight, Coyne turned around again, picked up a fresh batch of passengers and completed his run.

The company said his record was excellent. It did not indicate whether he would be disciplined.

Year Around Grass Is Devil Grass Version

LOS ANGELES, (U) — A new type of Bermuda grass, U-3, may give lawns which are green the year-around to many warm areas in the United States. Charles K. Hallowell, turf authority, says it is a tame version of devil grass.

Hallowell is working at the University of California on other types of grass to keep lawns green longer in cold areas and permanently in warm areas.

100 YEARS OLD SATURDAY

Kansas City Birthday Party To Be A Gigantic Spectacle

KANSAS CITY, June 1. (U)—The battle for Kansas City's centennial has been almost as rugged as the famous civil war battle of Westport here. But partner, come Saturday, it looks like a victory.

That day Kansas City officially will be 100 years old. And Kansas City is all set to celebrate.

It is going to tell its story how it began as a little Missouri River trading post, a wagon train stop, and became important through cattle, grain, rails and industry.

It is giving its biggest spectacle. It starts Saturday by a specially built outdoor theater which, including the parking lots, covers 27 acres. The show, with a cast of 1,200, is set for a 32-day run with fireworks every night depicting such scenes as the battle of West-

port. The battle for the centennial and the battle of Westport have something in common. Neither was easy pickings. At Westport, later annexed by Kansas City, Confederate Gen. Sterling Price's westward advance was stopped. What the centennial does remains to be seen.

But, like Westport, the centennial has had its troubles. There have been money troubles; complacency by some townsmen; aside remarks by neighboring towns about gangland killings, and even beard and Indian troubles.

The birthday party—that includes the spectacle and side attractions—started out to be a million-dollar affair. But haphazard financial backing quickly moved it down to \$630,000 and finally to \$400,000.

Herbert H. Wilson, merchant and nial Assn., soon discovered the general chairman of the Centennial called on the Junior Chamber money was going to come hard.

Commerce for help. The first 100 years of growth of Kansas City belonged to us; the next 100 belongs to you," he told the young men. He then suggested they help raise the money. They did.

Helps You Overcome FALSE TEETH Looseness and Worry

No longer be annoyed or feel ill-at-ease because of loose, wobbly false teeth. PASTERIZED, an improved alkaline (non-acid) powder, sprinkled on your plates holds them firmer so they feel more comfortable. Soothing and cooling to gum-made sore by excessive acid mouth. Avoid embarrassment caused by loose plates. Get PASTERIZED today at any drug store. (Adv.)

Today there is about \$300,000 on hand. Another \$100,000 is expected through ticket sales to the various attractions, including the spectacle. The money was contributed by firms, organizations and individuals.

The Indian troubles largely were of city council making. The city had been asked to put up \$23,000 for an Indian village downtown as a side attraction. Hopis and Navajos were to be imported from Arizona.

Councilman Joe Nolan understood the two tribes were unfriendly; he feared the possibility of Indian troubles downtown. Another councilman, Harry Davis, raised the question of the Indians' cleanliness.

But now the Indians, all 54 of them, are here—and living in tapacs across the street from municipal auditorium where Saturday the centennial opens its billion dollar industrial exposition. They say it will be Kansas City's biggest display of its industry. The displays will cover three acres of floor space.

Mayor William E. Kemp, to stir the man in the street, last February proclaimed every man in town should grow a beard or pay a \$1 fine. But the proposal missed fire, and whisks.

The first thing that happened a man lost his job over growing one.

Meat Prices Go Upward Once More

By The Associated Press

The upward trend in meat prices resumed this week after faltering shortly before the Memorial Day holiday.

Some pork items at mid-week were two to four cents a pound lower than last week-end in many competitive stores, but the reductions were expected to be short-lived because wholesale quotations were working higher.

Beef, lamb and veal all edged irregularly higher in most places. Top grade eggs turned one or two cents a dozen higher in many places for the first time in several weeks.

However, tryer and broiler chickens were off as much as four cents a pound.

Nearly all the price changes in produce items were downward.

Soviet Slows Down Berlin Truck Traffic

BERLIN, June 1. (U) — Soviet frontier guards slowed down western truck traffic on the Berlin highway today.

While it appeared here that the slowdown might have been in reprisal for detention of four East German barges in western Berlin canals, truck drivers at the Helmsdorf checkpoint said Russian zone guards told them the new restrictions were countermeasures against "mistreatment" of Communist youth going home from Sunday's gigantic East Berlin rail-

Israel had to learn the hard way. Even that was better than not learning wisdom at all, for neighboring nations long since ceased to exist at all. "My people are gone into captivity because they have no knowledge." — Isa. 5:13.

There Might Be Merit In Making 12-Months Use Of School Plants

Not many years ago the average church house, large or small, stood unused a good 90 percent of the time. It was used for Sunday services and for Wednesday night prayer meetings, and for little else. Many modern churches have become centers for many social activities, and the plant is used every day in the week. Now the auditorium is just one feature of the modern church; it has annexes and auxiliaries in which many activities of the fuller life are carried on.

The buildings occupied twelve months a year? Dallas school people were weighing that problem this week. They looked to Alliquippa, Penn., where it has been tried with success. Each child must go to school nine months a year, the same as now; but the school year is divided into four terms, and within reason each child is allowed to select his own continuous nine-month stint. Experience has shown that only five percent of the pupils fail to get the exact nine months they applied for. Teachers are paid on a twelve-month basis.

Unpleasantness As Well As More Pleasing Things Should Be Heard

Many opinions are attached to the conferences of Trygve Lie with Stalin and later President Truman. Some think he was essaying upon a peace mission. The prevailing opinion is that he was trying to resolve differences which were threatening the UN. Others think he exceeded his authority as UN secretary general in an effort to preserve his job.

on the surface to be better in Moscow, or at least that was his impression, and not a lot different from London or Brooklyn. For that impression, Mr. Lie has been subtly accused as being pro-Russian, a Russian propagandist, etc.

Holiday Deaths In Texas Not A Proud Record To Brag About

Texas brags, and rightly so, for it has a lot to brag about. However, here's a little "record" of which this state can ill afford to be proud—Texas led the nation in accidental deaths over the Memorial Day weekend.

It might not be a bad idea if the state should impose a little stiffer penalty in order to insure more careful driving. A \$100 fine for drunken driving is not enough, considering the fact that such a driver is risking too many lives.

LUCAS WANTS CONTROLS

Immediate Action Asked On Rents

WASHINGTON, June 1. (AP)—Sen. Douglas (D-Ill.) said today he is asking immediate action by the Senate Banking Committee on rent control extension.

Chairman Maybank (D-SC) of the committee told a reporter he would "ask for a discussion of what we are to do on rent control at our committee session today."

Both Douglas and Democratic Leader Lucas, also of Illinois, have been pressing Maybank for favorable action on the extension bill because of numerous requests from back home.

Lucas, who faces a hot re-election campaign, is the author of a bill that would extend existing federal rent control has been urging Maybank to delay action in his committee until the House had acted, which will be June 12 or later.

"But I think our committee will act regardless of what the House does," Maybank said.

He added that the compromise House extension "is about as far as I would go."

That would extend the existing federal rent controls to the end of this year and then allow them to continue six months beyond that in those cities or states whose city councils or state governments requested the additional controls.

Hunter, Vargas Are Peddled

The San Angelo Colts of the Longhorn league have disposed of two pitchers, according to announcements made Wednesday.

Sam Hunter, who had won five and lost as many for the Colts, has been sold to Abilene of the WT-NM league.

David Vargas has been peddled to the Vernon Dusters in a straight cash deal.

Both are limited service players.

Columbus Bus Service Back To Normal

COLUMBUS, O., June 1. (AP)—Bus service was back to normal today following a one-day operators' walkout that made many late for work and kept thousands of shoppers away from Columbus downtown stores.

Decision to end yesterday's walkout was reached late last night at a meeting of about 500 of the 600 members of Local 308 of the United Transport Workers (CIO).

The strike action had been voted for midnight Tuesday as a protest against a 10-day suspension of an operator by the Columbus Transit Co. One-half hour before the strike deadline Mayor James A. Rhodes' office announced the strike had been postponed for two weeks.

But the walkout of the bus and trolley operators went off as scheduled and the question of whether the men should return to work was delayed until last night's meeting.

Tomcats Evicted From Mansion

PROVIDENCE, R. I., June 1. (AP)—Three tomcats today were without the luxury of living in a 16-room mansion they had occupied alone for more than a year.

The big house, a probate judge ruled, is better suited for human habitation. So he evicted the cats.

Mrs. Sophie H. B. Howarth, who died in April, 1948, specified in her will that the cats live in the mansion and that Miss Elizabeth Bernie be paid \$10 a week to come each day and care for them.

But yesterday, with the approval of all principals involved in the Howarth estate, Miss Bernie was given the cats—and \$4,000 to care for them in her own home.

Junior Executive Suggests Awnings

CHICAGO, (AP)—Once a year youngsters "replace" executives for a brief time. Richard Moll, 14, was invited to sit in as president of the State Street Council, an association of merchants in the city's chief shopping center.

Richard pointed out that sun and rain beat down on shoppers and asked: "Why don't all the stores install awnings?"

The real boss, Randall H. Cooper, agreed that it was a sound suggestion.

Bing's Sons Will Be Altar Boys At Dedication Mass

HOLLYWOOD, June 1. (AP)—The four sons of Bing Crosby will serve as altar boys at the dedication Mass of the San Antonio De Padua Mission near Paso Robles, Calif., on June 24.

They will be among a host of other film colony celebrities who will attend the ceremonies. Others include Ruth Hussey, Ann Blythe, Joas Leslie, J. Carroll Nash, Sigrid Guria and Pedro de Cordoba. Church and state officials—including Gov. Earl Warren—also are expected to attend.

INSPECTS WHEEL FROM WRECKED PLANE—Lt. Comdr. M. W. Cagle of Knoxville, Tenn., inspects the nose wheel assembly from the Navy Privateer patrol plane shot down over the Baltic sea by Russian fighters on April 8, in Washington. He said Navy experts who inspected the landing gear concluded the plane must have exploded before hitting the sea. (AP Wirephoto).

Varied Rainfall Results In Spotty Farming Conditions, Report Shows

DALLAS, June 1. (AP)—Too little rain in the west and too much in the east and central portions have caused spotty farming and ranching conditions in the Eleventh Federal Reserve District, which spreads into four other states.

In other fields, the bank said today in its monthly business report, conditions are good.

The district includes all of Texas, northern half of Louisiana, southern half of Oklahoma, southern half of New Mexico and southern fourth of Arizona.

The bank said that despite the weather, generally good progress has been made in recent weeks with planting and cultivation of summer crops, although this is much later than usual.

Construction activity continued

at a high level in April for the 11th consecutive month. The value of construction contracts awarded during April was 12 per cent below the year-record total in March but 74 per cent above that in April last year.

Petroleum industry position has improved substantially in recent months. The bank said this reflects continued heavy domestic demand for petroleum and its products, and resulting large withdrawals of crude oil and refined products from storage.

People bought more goods in Eleventh District department stores during April than in most other districts. Sales were slightly larger than in March and two per cent above those of April last year.

French President Will Visit In U. S.

WASHINGTON, June 1. (AP)—President Auriol of France will visit the United States next March. The White House announced today that the French president and Madame Auriol are expected to come to the United States for a state visit in the second half of March, 1951.

Presidential Secretary Charles G. Ross said the visit will be in response to a long-standing invitation. Details are to be arranged later.

Drinks Champagne

LISBON, Portugal. (AP)—Portugal, the home of port wine, drank more than a million escudos (\$35,000) worth of French champagne last year twice the amount for 1948. Whiskey drinking dropped from \$3,133,000 to 2,482,000 escudos.

Ding Dong Bell

SILGUEIROS, Portugal. (AP)—Jose de Almeida, 70, fell down a well. His wife ran to help him, and also fell in. So did two friends. Neighbor Domingos Branco lowered a ladder and saved all four from drowning.

Woman Succumbs

PITTSBURGH, June 1. (AP)—Mrs. Sara Cortazzo, whom family records show to be 108 years old, died early at home in Wilmerding.

DEALERSHIP AVAILABLE WEST TEXAS TERRITORIES

Looking for reliable party for local distributorships. Distributing Hersheys, Nestles, Wilbur-Schard's, Chocolate Bars; also Beeman's and Dentyne Gum and Chicketts through brand new automatic merchandiser.

You serve industrial plants, large laundries and many other business establishments.

Excellent earnings start on your first week of operation, \$1,800 to \$2,870 cash required for inventory. Honesty and reliability more important than past experience.

Do not answer this ad unless you are definitely interested and have the required cash. Write for appointment with factory representative giving phone number, street address and name. (All replies will be seen) Box TX610 Herald.

Mental Patient Gives Himself Up Quietly With An Apology, Too

NAPA, Calif., June 1. (AP)—Edmund E. Whitfield's fourth escape from a state mental hospital ended quietly yesterday—with an apology.

Deputy Sheriffs Paul Hartman and Tim Linehan found the 25-year-old former University of Southern California athlete beside a county road five miles east of Napa. Whitfield, described by hospital officials as dangerous, climbed meekly into the deputies' car.

"I'm ashamed I caused so much commotion," he said as he sat down. "But I just wanted to go home."

Capture of the six-foot-four, 180-pound Negro ended a search of almost 24-hours in the hills around this northern California vineyard center.

The former USC junior varsity halfback and Yale graduate slipped through an unguarded door Tuesday morning and ran away from pursuing attendants into the countryside.

The Napa County sheriff's office told searchers he could live in the bushy woods for weeks if he could find food.

400 Yearling Steers Go On Sale Here Today

Four hundred yearling steers, all offered by one consignor, went on sale at the Big Spring Livestock Auction company Wednesday, along with the regular run of cattle. They brought up to 27.75.

Fat bulls sold for 20.00 to 21.00, fat cows for 17.50 to 20.00, butcher cows from 14.50 to 16.50 and fat calves and yearlings from 24.00 to 27.50.

Bids of 190.00 to 220.00 were received on cows beside calves. Heifer calves brought 25.00 to 26.00 and hogs 18.75 to 19.00.

In all, about 1,000 cattle and 50 hogs went through the ring.

Alice Police Hold Harmon Need For Big Spring Charge

Alice police are holding Harmon Need, wanted here on car theft. Need allegedly stole a 1949 Plymouth belonging to E. P. Manning last week. The vehicle was parked near Furr's Food store at the time.

The auto was recovered, Alice authorities informed Sheriff Bob Wolf.

Buckland Fined \$100 In County Court

T. O. Buckland entered a plea of guilty in county court this morning to the charge of driving while under the influence of intoxicants and was fined \$100 and costs by Judge John L. Dibrell, Jr.

Buckland's driving privileges were also suspended for six months, in accordance with prevailing statutes.

\$1,071,745 Total Is New High For Building Permits

Building permits were issued in May for a total of \$1,071,745 in construction, a new high for one month with the exception of March, 1948, when permit was granted for the Veterans Administration hospital.

A total of 130 permits were issued in May, F. W. Bettle, city building inspector, reported. These included a \$495,000 permit for Howard County Junior college buildings.

Construction total for the year now stands at \$2,208,745, Bettle said.

The total for March, 1948, was \$5,765,720 and included the \$5,642,600 permit for the VA hospital.

Hormone Spray Is Used For Pollination

DAVIS, Calif., (AP)—Fig wasps are no longer necessary for cross-pollinating figs. Dr. Julian C. Crane, pomologist at the University of California College of Agriculture, says a hormone spray can be used for artificial pollination.

The spray is applied at the same time wasps normally would do the job. The figs that develop are almost free of disease. They are normal in size and color, but are seedless and contain five per cent more sugar. Hormone spraying is cheaper than maintaining the wild fig trees in which the fig wasps hatch, he reports.

Work On Atomic Plant Returns To Near Normal

OAK RIDGE, Tenn., June 1. (AP)—Construction work on \$250 million worth of government projects including two atomic plants began picking up its normal pace today following a one-week walkout that paralyzed all building here.

Among the 4,500 workmen returning were the 700 members of AFL Laborers and Hodcarriers Local 818 who struck May 24, touching off the wildcat work stoppage. It spread to halt all construction by May 26.

Laborers union officials condemned the strike as unauthorized, but the laborers' picket lines held. And they halted hundreds of more workers on the K-29 and K-31 plants being built for \$27 million to step up production of fissionable Uranium-235, the atomic bomb element.

The other projects, including an atomic laboratory, were affected as union men honored the picket lines despite orders from their own union leaders to return to work.

The laborers voted Tuesday to resume work on the basis of a promised decision by June 15 from arbitrators who conducted a hearing on the laborers' demand for a wage hike from 95 cents to \$1.25 an hour.

First team representing an American city to win the Stanley Cup, ice hockey's top trophy, was Seattle.

NOT INCLUDING PARK CITIES

Dallas Census Expected To Show Population Of 450,000

By The Associated Press
C. W. Russell, district census director, says he expects the 1950 count to show Dallas has a population of just under 450,000 persons. That's only an estimate, but Russell

China Yuan In Recess

TAIPEI, Formosa, June 1. (AP)—Nationalist China's parliament, the legislative Yuan, recessed yesterday until September.

Many members said they intend to visit relatives in Hong Kong and Macao.

Their vacation coincides with the expected Chinese Communist invasion attempt. The government has ordered each person leaving Formosa to post the equivalent of \$375 to be forfeited if he fails to return within 30 to 60 days.

A Chinese fishing boat crew reported today sighting a submarine last Wednesday and Thursday 240 miles from Keelung, northern Formosa port. The Nationalists have said Russia is operating submarines off the China coast from Tientsin and Port Arthur bases.

The Nationalists started an insurance program for army officers today. The cost is shared. Families of those who kill themselves to avoid capture will get full benefits, the army said.

Crommelin Set For Politics

PENSACOLA, Fla., June 1. (AP)—The way has been cleared for Navy Capt. John G. Crommelin, severe critic of Pentagon policies, to enter Alabama politics.

Papers were signed yesterday at the Pensacola Naval Air Station ending his active naval career. He had requested retirement ending his two decades of active service.

Crommelin, an outstanding World War II naval aviator, announced recently he will be a candidate for U. S. senator on an independent ticket in the November general election. Sen. Lister Hill won Democratic nomination in the May 2 primaries.

Crommelin was outspoken in his criticism of national defense policies last year during the Navy-Air Force row.

sell said figuring the population of Dallas is just a fraction from complete.

His estimate of 450,000 doesn't include the park cities — University and Highland — or Cockrell Hill or Fruitdale. Though they are completely surrounded, these communities are separate municipalities.

Russell's estimate of Dallas' population was one of several census reports yesterday.

Figures for Throckmorton County show it has lost about 15 per cent of its population in the past decade and Hardeman County about eight per cent.

Waco's population jumped to 83,797, a hike of 27,815. These and the population of Tomball, Harris County, 1,032 today, 668 in 1940, are only preliminary census figures.

Russell figures that if Dallas' census hits 450,000 it will be a 64 per cent increase. In 1940 the North Texas city had 294,734.

He estimates Cockrell Hill has a 90 per cent increase over 1940's population of 1,246, or about 2,367. For Fruitdale, about 60 per cent increase over the old figure of 515, or about 824.

Russell said he couldn't estimate yet the population of Dallas County, but he gave these estimates for county towns, all subject to minor

Labor Board Man Says Unemployment Pay Should Be Upped

LONG BEACH, Calif., June 1. (AP)—To pay nondeferrable costs—food, shelter and clothing—weekly unemployment insurance payments should be increased, says a U. S. Department of Labor official.

The unemployment insurance program was designed to provide 50 per cent compensation of weekly wage losses within maximum limits, Director Robert C. Goodwin, of the Bureau of Employment Security, told a convention of the International Assn. of Public Employment Services. The maximums, he said, are not geared to present-day wages and should be raised.

Age Of Teeth Vary From Actual Age

CHICAGO, (AP)—Your teeth may be older or younger than you are. Dr. Alfred C. Young of Pittsburgh told members of the American Dental Association: "Premature senility may affect the teeth, the soft tissues and the supporting bony structures. On the other hand we see many old people with remarkably sound teeth and gums."

Studio Chauffeur Saves Film Actress From Certain Death

DAWSONVILLE, Ga., June 1. (AP)—An alert studio chauffeur risked his life yesterday to save Screen Star Susan Hayward from almost certain death when she lost her footing at a tall waterfall.

Miss Hayward is on location in North Georgia for the filming of "I'd Climb the Highest Mountain." She had a day off from the cameras yesterday and went out to photograph the 729-foot Amicalola Falls.

The red-haired star lost her footing, but was caught by William Gray, 20th Century Fox studio chauffeur. Both fell into the water above the falls, but escaped with minor injuries.

Dirty Egg Commands A Lower Price

BERKELEY, Calif., (AP)—There isn't much a poultryman can do about a dirty egg except sell it for less. You see "dirties" on sale now and then, marked below the price of clean eggs.

Wash, a "dirty," and it spoils easily. Dr. F. W. Lorenz of the University of California reports storage tests on thousands of eggs show that washed dirties turn up with a much higher percentage of spoilage than unwashed eggs. Unwashed dirties, however, keep just about as well as eggs that were laid clean, he reports. But they're still dirty, and command a lower price.

10 Big Spring (Texas) Herald, Thurs., June 1, 1950

Zulu Wife Is Worth \$483 In Damages

JOHANNESBURG, South Africa. (AP)—A Zulu tribesman, Fetebe Nguni, was awarded \$483 damages against his fellow-villagers for the

murder of his wife. The villagers burned down Fetebe's hut, with his wife inside, during a dispute. Fetebe's claim said he had paid ten head of cattle for his wife, she had borne him two children and he had been deprived of her work in the fields.

BIG SPRING

SOUTH PLAINS SHOW SPOT—The new home of Hemphill-Wells company at Lubbock, which was formally opened to the public Wednesday. Generally rated as one of the finest stores outside of metropolitan areas anywhere, the structure has cost in excess of \$1,000,000.

TWENTY-TWO MONTHS OF CONSTRUCTION CLIMAXED

Thousands Swarm Through Most Impressive Mart In Area As Hemphill-Wells Opens Lubbock Store

LUBBOCK, June 1.—Thousands upon thousands of Lubbock and South Plains citizens swarmed through the most impressive merchandise mart the area has yet produced, as Hemphill-Wells Company formally opened its new home here Wednesday.

Opening of the million-dollar-

plus structure at 13th and J Streets climaxed 22 months of construction work, and caps a 28-year merchandising history of the firm in this city.

Fore-runners of the company are linked to Texas merchandising history for more than 60 years.

With three floors, a mezzanine and basement, the new Hemphill-Wells store embodies all of the

latest features of modern and functional department store merchandising, has been called by many viewers as one of the most attractive stores anywhere, regardless of size.

Severe in line on the exterior, the building is windowless. The cast-stone exterior features eight-foot square sections on one side and reed-design vertical sections on the other street side.

The store features an escalator system, first in West Texas, and this feature Wednesday was catching the fancy of the hordes who poured through the store.

The Lubbock store has opened several new departments, including barber shop and Frigidaire lines in the basement; a home-made candy kitchen on the first floor; beauty salon and tea room on the mezzanine; a household appliance section on the second floor.

Interior design is in a striking display of colors, with sharp greens, browns and grays predominating in daring mixture. No less than 99 different colors were used in the decor. Lighting—combines fluorescent and incandescent, with spotlights and floodlights engineered for function and beauty.

Most interior fittings are in walnut, and a profusion of aluminum and glass is used to set these off.

The interior is of a high modern note, yet stresses the functional.

A public address system is connected throughout the store, and telephone outlets are at every convenient point. The new store has no less than 29 fitting rooms, and has new features such as a "French room" and a bridal room.

Preceding the public opening Wednesday, officials of the company were hosts at a preview showing of the store to merchandise representatives and manufacturers, as well as operators of other Texas department stores, on Wednesday morning.

This group had been entertained by Hemphill-Wells at a barbecue at the Lubbock country club Tuesday evening.

Official hosts were Spencer A. Wells, president who also presented the store to the public Wednesday afternoon; J. D. Hassell, Jr., vice president, who has active supervision of planning and putting into operation the new unit; and other officers of the company.

These included Lewis H. Price, treasurer of the company and manager of the Big Spring store. Hassell, too, is a former Big Spring, having at one time been associated with the Albert M. Fishner store.

Highballing Trainman To Switch To Court

SYLACAUGA, Ala., June 1. (AP)—A quick getaway in a locomotive while under arrest will switch Engineer Jason McCullom into court here Monday.

The highballing railroad faces charges of speeding, resisting arrest, and escaping from police.

The speeding charge, said Mayor Ed Howard, was filed against McCullom because he ran a Louisville & Nashville passenger train through Sylacauga at too fast a clip.

Police rushed to the next stop and placed McCullom under arrest.

When police allowed the engineer to return to the train "for just a minute," McCullom opened the throttle the mayor said, and highballed out of town so fast he almost got away without the conductor.

Once more the police set out after the local. At the next town down the line McCullom again was placed under arrest, and released in \$300 bond.

Monday he'll have to explain all the hoopla to the judge.

LOVE BURNS OVER YEARS

BALTIMORE, June 1. (AP)—Nearly 30 years ago, C. W. Barker fell head over heels in love. But she didn't have a divorce.

So he left town and went into business at Albemarle, N. C. But he didn't get married. The old flame kept flickering.

Back in Baltimore this week, he heard she had been widowed. But where was she? The police were trying to help him, but so far no luck.

Barker, now 50, thinks perhaps she might have stayed single, perhaps for the same reason he had.

"You can't tell, but I'd like to see her again," he said hopefully.

County 4-Hers Win All Their Lubbock Events

Howard county 4-H club judging teams won every event in which they were entered in district No. 8 contests held at Lubbock Tuesday.

In competition with representatives of three other districts they placed first in one event, fifth in one event, and sixth in a third event.

Winning the district contests were livestock, dairy cattle, grass, and crops judging teams, and a tractor maintenance squad. The livestock team, made up of Perry Walker, Martin Fryar, Wayne White and Lloyd Robinson, also won top honors in competition with district No. 1, No. 2, and No. 3 teams.

Walker was individual high point man of the meet with a total of 685 points. Martin Fryar topped third in individual scoring with 670 points.

Members of Howard county's dairy team, which won first in district and sixth among the four districts, are Woody Caffey, Delbert Davidson, Ronnie Davidson, and James Caudle.

Members of the grass judging team, which was called on to identify some 70 varieties of grasses, are Robert Hagan, Sonny Choate, Jimmy White, and Lewis Rice.

Weldon Appleton, Billy Fryar, and Robert Merworth make up the tractor team in competition with district No. 1, No. 2, and No. 3 teams.

The livestock team judged 12 classes of livestock, including three of quarter horses, four of beef cattle, three of hogs, and three of sheep. Eight classes of dairy cattle, four of Holstein and four of Jersey, were judged by the dairy team.

Crops judged included oats, wheat, grain sorghums, corn, cotton, peanuts, and cowpeas.

TREND CUTS GREASE FASTER

Don't Miss It! Trend's
1¢ SALE
Two packages for price of one—plus 1¢

Try TREND on this special offer. You'll marvel at suds that last and last...and glassware that is left so free of film it shines like crystal without wiping. Buy TREND today at this bargain price.

Guarantee

TREND is fully guaranteed to do a faster, better job of washing greasy dishes, pots and pans than any dishwashing soap you can buy—or double your money back. If you are not entirely satisfied, return the unused portion to your grocer. He is authorized to refund double your purchase price.

Made by the makers of PUREX—the gentle bleach

OR DOUBLE YOUR MONEY BACK!

TREND, the scientists say, has the finest "grease-stripping" action ever developed. It gets right under the grease on dishes, pots and pans—right under dried egg and cereal—strips it off like magic. Prove it yourself. Buy TREND today.

**MILDER THAN
PURE SOAP**

Patch tests, made on women's skin, show that TREND is milder for your skin than the purest soap. And why not? TREND is neutral. Imagine a dishwashing soda that cuts grease faster than any soap made...yet actually babies your hands!

Tangier Challenges Any Healthy Spirit To Wild Adventure With No Organization Except Gambling

TANGIER OF TODAY—Spreading out from the old town where "streets" are barely wide enough for two footmen to pass, is a model spacious building facing a palm-bordered boulevard with stone benches.

By J. EVETTS HALEY
TANGIER — Tangier is an intriguing place to visit, but obviously a rather tough place in which to live. Nature has done her part to make this northwestern tip of Africa attractive. Outwardly, this ancient town whose origins are lost in mythology is a lovely spot. Inside she is rotten enough for any debased taste. As usual only man has made a mess of things.

Yet Tangier will challenge any healthy spirit to wild adventure. As an international zone on the straits of Gibraltar just 20 miles from Spain, it is out of everybody's control. Tangier is free. Except for organized gambling it is wide open. One of its greatest charms seems to lie in the fact that nothing is organized. It is a strange combination of a dark, dirty, dungeon-like place of vast antiquity, and a bright and modern city shining in its emerald mountain setting in the brilliant Mediterranean sun. It is as colorful and bizarre as a crazy quilt, atmospheric to the point of nausea, and virtually without restraint.

A recent British writer of rare perception described Tangier as "the most law-abiding place on earth—for you can't break rules where there aren't any." Here Moslem, Christian, Jew and infidel vie with one another in the principal pursuit of man—the acquisition of gold. There is absolutely no pretense about it. Nature's primal law is vigorously asserted. The popular pastime and the chief occupation is not production, but that of skinning the other fellow.

Anybody with a sense of individual decency based on natural rights—the only true restraint in a free and civilized world, will, before he gets through Tangier, wish to the Lord that he had not left his gun at home. It is bad enough to work his way through the widest streets of the old part where packed burros have room for passage and sunlight filters down in the middle of the day. But at night he will elbow his way through the dark "streets" of this eerie city, these passages some of which are hardly a yard wide, missing the comforting companionship of the handy gadget old man Colt contributed to the civilization of the Western World.

It is true that he can go into any one of a number of shops and haggle the owner out of a fine assortment of antique but still marvelously effective dirks, daggers and knives. Still he may suffer a sense of inferiority among these thousands of dark and silently shuffling Moors passing in their long robes. For ever since Texans unfortunately forgot the art and traditions of old Jim Bowie, their knives have been used principally for vittles instead of victims.

The drift of these casual observations may suggest that the streets of Tangier are no place for a timid foreigner after night. More than that, this city is certainly no proper refuge for a retiring soul. The fact is entirely obvious from the moment the boat ties up at the

HALEY IN TANGIER—J. Evetts Haley author of this and other articles appearing in The Big Spring Herald, poses with two newly-made Moorish friends in Tangier. At Haley's left is Mahomed Pichi, Haley's "right hand man" on his recent visit to the international city.

does and you look down upon the wild and colorful conglomeration of humanity that await your arrival. All creeds, classes, colors and colors jam the pier. Bedlam breaks loose as the gang plank is lowered and a mob of dirty Moorish porters swarm aboard, wildly gesticulating and incoherently jabbering, to shake you loose from your baggage and your shekels.

Still optimistically aware of the old western belief that there is honor, even among thieves, I leaned over the railing of the boat as we arrived in Tangier and searched the mob for the reasonably virtuous face of somebody whom I could enlist as a confederate. I soon saw the robed figure of a massive man in his fifties who moved among this "milling" mob with the imperturbable poise of a born Moorish leader. I caught his eye and crooked my finger at him. He walked through the mass with vast dignity and confidence. In rather good English he immediately assured me that he was something of an old settler in Tangier—his people had lived there for more than 400 years—that he was experienced, thoroughly trustworthy, and, as a man of great honor, completely at my service—at a reasonable price! I was tremendously impressed with his virtue. Besides he looked like the right size in any rough community. Thus without regret I took on Mohamed Pichi for my tour of Tangier.

Leigh White, in a recent issue of The Reader's Digest, described this city of more than 125,000 people as a smugglers' paradise. "A den of thieves disguised as a noble experiment in international government." He went on to tell how dozens of murders and kidnappings occur every year with little or no effort to solve them. This zone, about the size of a good Texas ranch, is set apart as a neutral sector on the northern tip of Morocco. It could, in the hands of an unfriendly power, dominate the approach to the Mediterranean since it lies well to the west of Gibraltar. It is supposed to be administered by a committee from eight foreign nations. Naturally, where trouble is brewing, we are among them, and naturally too, where such an unequal division of authority exists, little care is evidenced or control exercised by anybody. And so Tangier more or less rocks along to suit itself. Smuggling is legitimate business.

Its newspapers are published in three languages, while its mail may go out through any one of three postoffices. French, British or Spanish. Such culprits as may be caught and tried fall into one of four different courts, owing to their racial or national origin. The principal money for local use seems to be the Moroccan franc, though the Spanish peseta is likewise current. But any sort of legitimate currency will get one by, for Tangier's business is based on a knowledge of the moles of the world.

But to emphasize that Tangier is a smuggler's paradise is to miss the genuine significance of this corrupt spot. There is no need to rail against it. It is not a misdeed in itself, but a pimple on the diseased body of the world that is symptomatic of a deep but not in-

curable economic disorder. Were this trouble rectified in keeping with the dictates of sound morals, good economics and common sense, smuggling would wither and disappear without resort to police power, and Tangier would virtually fade into the oblivion of its mythological past.

It is of immeasurable importance, however, in this make-believe economic world in which so many nations are now living. It is a free market where each nation's money—the symbol of its economic stability—is stripped of all pretense and support and rises or sinks to its proper level. It is, at present, the best and most easily understood fiscal barometer available to the average man. Tangier is rarely mentioned on the newspaper pages of the Paris edition of the internationally-minded New York Herald Tribune, by which the English-speaking people of continental Europe keep closely informed, is a daily quotation of Tangier's money rates.

And so the remarkable significance of this den of corruption is that it daily serves notice on the so-called civilian nations of the mighty Western World as what their monies are honestly worth. This is true because neither London or New York, but a smuggler's market in Africa, furnishes the only really free market, and hence the only true and honest market, for currencies in what is, and by nature's decree must remain, a competitive world. This strange situation is true because here, free of government supports and restrictions, the honest basis for the determination of value rests on two simple principles still holds forth. That basis of value, of course, depends on what the owner is willing to accept, and what the untrammelled or free buyer is willing to pay.

It is the habit of political re-

Japanese Formally State Intention To Sign Treaties With All Nations

TOKYO, June 1. (AP)—Japan formally expressed the desire today to sign peace treaties with all nations "willing to accord it independence and equality."

The foreign office said Japan "fully possesses the necessary qualifications" for a formal peace treaty but has failed to obtain one because of the American-Russian split.

The statement was made in a 2,800 word review of Japan's status under "de facto peace" issued by the foreign office's public information division. This is the first time under the occupation that a Japanese government agency has put forth an official view on foreign affairs.

Occupation headquarters sources said the statement had not been submitted. They said occupation officials had nothing to do with it. Calling attention to the big-power split, the foreign office said: "It is desirable that arrange-

ments as similar as possible to those existing under a peace treaty be made with various countries thereby alleviating as much as possible the impoverished condition of our economy."

"It is the hope of everyone that a so-called overall peace will be concluded; but we cannot be so nonchalant as to assert that it would be advisable to hope for overall peace and have the present system of control continue indefinitely."

Nothing in the statement excluded Russia or Communist China.

THE COLONEL'S UNHORSED—The rehearsal schedule of the Trooping of the Colour ceremony in London did not call for a Guards colonel to be unhorsed. Here he is though, getting to his feet while another officer calms his rearing charger. In the foreground are Guards recruits who attended the parade to see how things should be done. (AP Wirephoto).

Professor Dreams Of Hot, Cold Water For Heating And Cooling

STILLWATER, Okla.—A hot and cold running water for every home! That was the dream 50 years ago.

It's the dream today of Robert R. Irwin, but he wants to use it for heating and cooling homes.

Irwin, assistant professor in mechanical engineering at Oklahoma A&M college, is working on a variation of radiant heating that he hopes will be inexpensive enough for every home owner to install.

In his workshop at the college, Irwin has developed a "hot box" which has scientific instruments and controlled ventilation.

"The biggest drawback to air conditioning, or cooling a home now, is the cost," Irwin explained. "Refrigeration units are expensive for the average homeowner. Evaporative cooling systems are inexpensive but they are limited because while reducing the temperature, they also raise the humidity."

Irwin has found in experiments with his "hot box" that from 80 to 85 per cent of the heat flowing into a house comes through walls and windows. The remaining 15 per cent is supplied by body heat, electric lights and pilot lights.

The solution Irwin is working on is to circulate cool water between the inside and outside walls of a house and between ceiling and roof. The idea is not new in itself, but he is attempting to develop means to make it inexpensive enough for everyone to use.

Pipes running through the walls and ceiling would handle the cool water. In the winter, warm water would be put through the pipes for heating.

"Using warm water is being done now in many homes," Irwin said. "If we can perfect a suitable means of cooling water and sending it through the pipes, we could have year-round air-conditioning at a nominal cost."

Irwin's innovation in cooling the water would be an inexpensive cooling tower with a pump circulating the water. He figures a satisfactory heating and cooling system for an average house now runs around \$2,000. His radiant heating and cooling system would run from \$600 to \$700.

"Right now, builders figure it costs 10 per cent to install radiant heating throughout a home," he explained. "For one per cent more, the same system could be used for cooling in the summer."

The cool water running through the walls would absorb most of the heat before it could get into house. "The house isn't made cold," he said. "The system would just keep

Meat Follows A Spring Custom As Prices Go Rising Upward

CHICAGO, June 1. (U) — Meat prices, following their annual spring custom, are going up. So far, pork and lamb still are well below a year ago, but beef is higher. All are substantially above their seasonal low marks of a couple months ago.

Half a dozen reasons appear when meat and livestock experts start explaining the current rise.

1. There is a seasonal decline in supplies.
2. Producers are developing earlier marketing practices.
3. A late spring is maintaining consumer appetites for meat longer than usual.
4. Factory wage totals are rising, reaching a new high mark for April.
5. Hotels, restaurants, and summer resorts are stepping up their demands in anticipation of vacations.
6. Prices of corn and oats con-

tinued to rise, making it less economical to feed livestock to heavier weights which would yield a greater tonnage of meat.

A year ago, No. 1 fresh pork loins were running 45 to 60 cents a pound at wholesale. Now they are around 40 to 49, and at the low point of the season late in March they were 35 to 38 1-2 cents a pound.

As livestock, barrows and gilts of similar quality averaged about \$20.50 a hundred pounds a year ago, topping at \$21.50. Now they are averaging around \$19 with the top close to \$20.50, while at the low point the average was under \$15.75 and the market top at \$16.

Good and choice beef carcasses, on the other hand, were \$41 to \$45 a hundred pounds wholesale a year ago, compared with \$45 to \$49 now and a seasonal low early in April at \$41.50 to \$43.50. Medium to choice steers sold from \$24.50 to

\$28.50 a year ago, the best making \$28.00 a hundred pounds at the stockyards. Lately they have been \$26.75 to \$32.50 and a peak of \$32.00 to \$33.

Although lamb is more expensive, pound for pound, than either pork or beef, it too is lower than a year ago. At wholesale, good to choice fresh lamb carcasses were 58 to 61 cents a pound a year ago and now are about 50 to 54 cents now. Lambs have maintained fairly stable live levels since their low point in December when they ranged below \$24 a hundred pounds. Now they are about \$27, compared with \$29 to \$30 a year ago.

Elmer Schneider To Get Diploma From UT Saturday

AUSTIN, June 1.—Elmer Marvin Schneider, Big Spring, is among the 614 candidates to receive degrees from the University of Texas College of Arts and Sciences Saturday.

Schneider will receive a bachelor of arts degree during the TU commencement exercises.

Elizabeth Anne Brown, Colorado City, will also be awarded a degree Saturday. She is to receive the bachelor of journalism degree.

Fifth Of Stock Of Oil Company Sold At Houston

sociates of Dallas. The newspaper last night said the sale was by George and Herman Brown of Houston. Purchase price was reported at about \$20 a share.

Houston Post Takes On Television Unit

HOUSTON, June 1. (U) — The Houston Post today had assumed control of Television Station KLEE-TV. On July 3 the station's name

is to be changed to KPRC-TV. The post also owns Radio Station KPC and KPRC-FM. The federal communications commission last week approved the Post's purchase from W. Albert Lee for \$750,000.

Elks Meet Opens

BROWNSVILLE, June 1. (U) — The silver anniversary convention of the Texas State Elks Assn. opens here today and more than 1,200 members are expected to attend the three day meeting.

Half Million College Graduates Face Good Job Hunting News

NEW YORK, June 1. (U) — Fewer layoffs, higher job totals, longer workweeks and therefore greater take-home pay are reported. This is pleasant news today for half million college graduates hitting the job-hunting trail.

Most observers warn them that the trail will be rougher and longer than any time since the end of the war. But the pickup in business generally makes the prospect brighter than it was at mid-term.

Four out of every five college graduates this year will be employed by Oct. 1, the Northwestern National Life Insurance Co. of Minneapolis predicts today. It bases this on a survey of 128 colleges and universities.

The senior crop is at a record high, and pre-graduation hiring has been slower this year in most

schools. Large companies have been taking fewer new employees per firm, placement officials say. But many schools report a sharp increase this spring in the number of smaller companies seeking college graduates.

Most colleges have been warning their graduates this spring that they will have to hunt harder and longer for jobs than did last year's class. But the Northwestern National Life Insurance Co. contends that, even so, this will be a better year for the job-seeking college graduate than was considered normal before the war.

Its survey also shows that four out of every five schools report that starting salaries of their graduates this year will be as high as in 1949, and those reporting a drop say it is very slight.

Tennessee Governor Says Troops Are Only At Enka To Keep Order

MORRISTOWN, Tenn., June 1. (U) — Gov. Gordon Browning told union officials last night that national guardsmen and highway patrolmen were at the strife-torn Enka Corp. plant here only to maintain order. Union officials had charged that the guardsmen and patrolmen were engaged in strikebreaking and had embarked upon a "reign of terror."

CIO textile workers have been on strike at the plant since March 28.

The governor declared at his home at Huntingdon that "my duties at Morristown are under specific instruction to suppress violence only."

He added that he had urged both labor and management to meet and renew negotiations "because I'm not planning to keep the National Guard there indefinitely if they get together."

The strike has been marked by frequent violence and arrests, and Sheriff Robert M. Edlin asked Browning for highway patrolmen and National Guardsmen to augment his staff.

Under protection of the guards about 250 workers have entered the plant this week.

Braniff To Continue Serving Lubbock

WASHINGTON, June 1. (U) — Braniff Airways will continue to serve Waco and Lubbock, the Civil Aeronautics Board has notified Texas members of Congress. Earlier a CAB counsel had recommended Braniff's service be discontinued at these cities and service be handled by Pioneer Air Lines.

CHANGE OF HEART

Atlantic Pact Gets Blessing From Ex-Opponent, Gillette

WASHINGTON, June 1. (AP)—Sen. Gillette (D-Iowa) today declared himself a convert to the proposed Atlantic Union. He said it could turn what he called the militaristic Atlantic Pact into "a great coalition for world peace."

Gillette in an address prepared for the first luncheon session of a two-day meeting of the Atlantic Union Committee, Inc., said he is "astounded" at the reluctance of the administration to embrace the idea of a trans-Atlantic federation of democracies.

"What is ultimately needed is a world-wide union including as many nations as can be incorporated within it in the near future and including, someday, all the nations of the earth," the Iowa declared.

Gillette said he had once actually debated against the idea with the committee's president, former Associate Justice Owen J. Roberts of the Supreme Court. "Times and the world have changed since then," Gillette said, and so has he.

The senator told delegates from 25 states that he had voted reluctantly for the North Atlantic Alliance and had voted against military aid for western Europe. But when the latter was voted and, as he put it, thus helped divide the world into two opposing camps, he said he accepted the Atlantic Union proposal as a means of turning the military pact into an instrument of peace. "I believe that through a constitutional convention

of at least the Atlantic democracies, the military alliance could be transformed into a nuclear union leading to a steadily growing and widening federation of democratic peoples," he explained.

"Such a transformation, I thought and still think, would be a stupendous and ringing victory of reason over force, and for human dignity over brass-knuckles diplomacy."

Members of the committee yesterday visited Capitol Hill to urge senators to bring the Atlantic Union resolution, introduced by Sen. Kefauver (D-Tenn), out of a Senate foreign relations subcommittee and onto the floor. Hearings were held in February.

Acquire Big Library

WASHINGTON, June 1. (AP)—Dr. Cloyd Heck Marvin, president of George Washington University, said last night that the school has acquired the 70,000-volume library of the Carnegie Endowment for International Peace.

Seventy-one per cent of league basketball games played in the Borden Conference during the 1949-50 season were won by the home team.

Midland's Rodeo Will Open Tonight

MIDLAND, June 1. (AP)—Midland's giant rodeo parade was yesterday, but the first performance of the 16th annual world championship Midland rodeo won't be until tonight.

Rain flooded the area shortly after the parade yesterday and caused the postponement.

Gov. Allan Shivers, U. S. Rep. Ken Regan of Midland and State Sen. Hill D. Hudson of Pecos rode in the parade. Shivers spoke at a barbecue honoring him, saying "Texas' greatest needs today are good soil and water conservation programs and plenty of economy."

PROBABLY OUT FOR GOOD TIME

BELL, Calif., June 1. (AP)—These hoodlums may have been inspired by a Mack Sennett comedy. Market Mgr. J. E. Goyette told police they:

Threw his pies all over the place; smashed melons; dumped sugar and rice on the floor; mixed flour and dried peas; poured honey over pork sausage; frozen strawberries and milk cartons; drenched facial tissues with orange juice. The coin tills were untouched.

PARIS, June 1. (AP) — Billy Eugene Chennault, 11, drowned yesterday in a pool on his father's farm near Blossom.

EXPECTED TO COOPERATE

Truman Summons Senators To Discuss Gambling Probe

WASHINGTON, June 1. (AP) — President Truman today summoned five senators to the White House to discuss their investigation of big-time gambling and crime. The President was expected to give his blessings to the inquiry and pledge the full co-operation of the Justice Department and other government agencies.

The Senate's special committee of five — headed by Sen. Kefauver (D-Tenn.) — opened its investigation last Saturday with secret hearings in Miami, Fla. The inquiry is expected to shift soon to other cities under the same cloak of secrecy.

Sen. Tobey (R-NH), a committee member, said the group may ask President Truman for authority to look at the income tax returns of suspected gamblers and racketeers.

"I expect Mr. Truman to give us his co-operation and support," Tobey told reporters.

Other committee members are Sens. Hunt (D-Wyo), Wiley (R-Wis) and O'Connor (D-Md.). One committee member said "I rather suspect" that the crime situation in Kansas City, Mo., would be discussed during the White House visit.

The Senate committee's main objective is to uncover the underworld's sources of wealth—and to disclose any ties between criminal and political groups.

One source of information lies in income tax returns. This confidential information can be opened to senators only under a presidential order. It was through income tax returns that federal agents finally convicted Searface Al Capone and sent him to prison.

Jitney Service Now Operates In Strike-Bound Georgia City

ATLANTA, June 1. (AP) — The city of Atlanta began setting up a jitney service today as a makeshift replacement for trolleys and buses idled for two weeks by a drivers' strike.

Mayor William Hartsfield last night ordered "courtesy cars" off the streets as illegal. His action came on the heels of a ruling by Asst. City Atty. J. Charlie Murphy that courtesy cars which charge fares or accept donations are illegal unless licensed by the city.

Atlanta has been without a public transportation system for its approximately 400,000 citizens for two weeks. Members of the Amalgamated Assn. of Street, Electric Railway and Motor Coach Employees of America (AFL) walked out, demanding an eight cent hourly wage hike. The current scale for the 1,250 drivers is \$1.35 an hour. The Georgia Power Co. said it could not pay the requested increase.

The jitney will be allowed to charge a 10-cent fare, the same fare charged by the trolleys and buses before the strike. When the strike is over, all jitney permits will be voided, said Police Chief Herbert Jenkins.

When the operators struck, they began operating their own automobiles as "courtesy cars," charging no fares but accepting donations. There have been numerous reports of courtesy cars operated by persons other than trolley drivers, charging high fares.

When the operators struck, they began operating their own automobiles as "courtesy cars," charging no fares but accepting donations. There have been numerous reports of courtesy cars operated by persons other than trolley drivers, charging high fares.

Former Mental Patient Held In Kin's Death

SAN JOSE, Calif., June 1. (AP) — A former mental patient was under arrest today on suspicion of secretly killing his brother — then living next door to the undiscovered body for two years.

Junior College Student Orders Eggs And Shoots

INDEPENDENCE, Kan., June 1. (AP) — A junior college sociology student ordered a dozen eggs in a grocery store last night, then killed the proprietor as he started to fill the order.

Yesterday sheriff's deputies forced their way into the locked bedroom of a house on the edge of San Jose and found the shriveled body of Herman Boesen, 58, in bed. Brown spots, believed to be long-dried blood, were on a blanket. Investigators placed the time of death at about March, 1948.

The student, 32-year-old Wade Griffin, was charged with first degree murder shortly after he voluntarily gave himself up to police.

The officers then went to a crude shack 20 feet behind the house and questioned a brother, Peter, 62. He talked ramblingly of "seeing angels" and of "hearing Herman's voice."

The grocer, Herbert Scott, 55, was Griffin's ex-brother-in-law. Asst. County Atty. Tom Crossan said the student signed a statement admitting the shooting and blaming it on a long grudge with members of his ex-wife's family. The Griffins were divorced two years ago.

Three Persons Electrocutted

GREENVILLE, June 1. (AP) — Three persons — one a four-year-old girl — were electrocuted in Greenville last night when they came in contact with high voltage wires.

Five High School Students Killed In Auto Accident

HARLAN, Ia., June 1. (AP) — Five high school students — three boys and two girls — were killed last night in an automobile-truck accident.

V. A. Laird, 42, a city lineman was killed at 7:15 o'clock at night. Not quite two hours later Arch L. Stinebaugh, 50, and his granddaughter, Celina Stinebaugh, were electrocuted.

A fourth boy, the driver of the car, was seriously injured. The students were celebrating graduation exercises held earlier last night at Harlan High School. Two of the dead and the injured youth had received their diplomas.

Stinebaugh was driving around a light pole on an unpaved street when his car stuck in the mud. When he stepped out, he stepped on a 2,400 volt wire lying on the ground. Apparently the child got out to see what her grandfather was doing and came in contact with the wire.

The student, 32-year-old Wade Griffin, was charged with first degree murder shortly after he voluntarily gave himself up to police.

Red Fighter Pilot Said Bragging Over Loss Of Yank Plane

BERLIN, June 1. (AP) — The U. S. big commission newspaper, Neue Zeitung, claimed today that a Soviet fighter pilot during the East Berlin Communist youth rally had described the loss of a U. S. Navy privateer plane in the Baltic as "the first air victory."

Wall Collapses, Kills Worker

PRINCETON, Ind., June 1. (AP) — A stone wall for a new church collapsed at nearby Haunstadt yesterday, knocked down a scaffold, killed a stone mason and injured two of his six brothers.

The paper said the legless Soviet ace, Alexei Mereshev, made the remark "under the influence of numerous vodkas" at a party at the House of Soviet Culture in the eastern zone.

August Uebelhor, 56, St. Croix, Ind., died of a broken neck. His brothers Joe, 40, and Edward, 52, both of Evansville, Ind., were thrown off the scaffold, but they were reported in good condition in an Evansville hospital.

"An hour later he was taken away by the MVD (Soviet Security Police)," the paper said. Mereshev spoke yesterday, however, at youth ceremonies in East Berlin. The U. S. Navy patrol plane with 10 men aboard disappeared April 8,

French Paper Mill Destroyed By Fire
NANCY, France, June 1. (AP) — Fire destroyed last night a big paper and cardboard mill near here recently equipped with Marshall Plan funds.

FOREIGN INVESTMENTS
German Industrial Expansion Planned
BONN, Germany, June 1. (AP) — Plans for investing foreign funds to expand West German industry have been drafted by the allied high commission.
Details of the investment program were kept secret pending further consultations with West German officials. But one allied source said the first step will be a partial freeing of blocked accounts of German marks owned by foreign countries.
The Big Three foreign ministers in London last month agreed to drop their long-standing postwar ban on foreign investments in German industry. Allied officials said the decision would not mean foreigners can begin putting funds in German businesses at once but that present restrictions gradually would be relaxed.
Officials indicated that foreign companies owning blocked German marks probably will be permitted soon to use them in expanding their plants or businesses in West Germany. They probably will not be permitted immediately to trans-

Hotelman Desires An Accounting From Film Man Schenck
LOS ANGELES, June 1. (AP) — Hotelman Thomas D. Hull wants \$22,454 and an accounting from Jay Paley, radio executive and Joseph M. Schenck, movie executive, in a deal involving the Arrowhead Springs Hotel.
Hull, in a suit filed yesterday, said he leased the place from the pair until the Navy took it over for a hospital. He was not given his share of the rent, he contends. The property has since been sold.
