Playing According To Ground Rules

Friday, May 7, was Dissolution Day in heard; each party will be represented by carefully chosen speakers.

The parties will be strictly rationed as to time. For the two major parties, Great Britain, an occasion which Blackliament," in preparation for the election.
"Polling Day" comes on May 26, when
the government of Sir Anthony Eden stands or falls.

Meantime Britain solves without hiss and argument a problem that is agri-tating both political parties in this, country as well as all the radio and televine as between parties and candidates. The problem was simple in Britain beeause radio and television are under the paternal hand of the government, and there is no such thing as "buying time." (Commercial television is due to hit Brif-ain this fall.)

For the current campaign BBC has allocated 5 hours and 15 minutes to the political parties — not per day or per week, but per campaign. The Conservative and Labor parties will each have four radio broadcasts and three on television. The Liberal party will have only one in each medium. Pleas by indi-

one 30-minute broadcast and two 15-minute broadcasts each; for the minor Liberal party, only 15 minutes. The parties agree among themselves on how to divide the blocks of radio and TV time, which is donated by BBC. Any party which has 50 or more candidates in the field on nomination day, which will be May 16, will be given one 10-minute broadcast just after the 6 p.m. news bulletin,

To end the rising cost of reaching the public through radio and TV, some sort of voluntary mutual arrangement pattern-ed on the involuntary British model may eventually have to be established in the U. S. Under that arrangement the two major parties would agree on a certain number of hours at so much cost, as a means of heading off party bankruptcy.

Meantime, of course, newspapers will continue to carry full political coverage on this side of the Atlantic as a service their readers, without cost to the par-

Starting at Cadiz, which is a few miles from Gilbraltar, and running to Seville and then to a point near Madrid and finally across country to Saragossa, this modern means of transportation has been found necessary because of the meager facilities by rail and highway. It will take calendar days to complete the job. and the line should be functioning in the Latter half of 1956.

The government of Spain has given every-cooperation to the American and Spanish contractors who have joined together to build the line, which will cost a little less than \$5,000,000 for labor and an equal sum for materials. Bids were taken from various contractors, and the contractowas awarded to the lowest bidder. A Spanish company, as is required by regulation here, participates, with a minerity interest and virtually all the employes are Spanish. The wages paid are those that prevail in Spain and American contractors scrupulously comply with all the requirements for payment of holidays, including Sundays, and for social security compensation. While the wage rate, as set by the unions in cooperation with the government, is not high, relatively speaking, it s to be noted that the price level for living costs is not high here, either.

The entire construction is under the auspices of the U. S. Navy, which func-tions as a part of the Joint Military Mis-sion headed by Gen. August Kissper of the U. S. Air Forces. The pipeline crosses two mountain ranges, one in the south and one in the porth, and will be placed three feet under ground. It can be repaired quickly if there is any sabotage though it

this, there are some small appropriations for ecosomic aid so that the social ecosomic aid, so that the total spent by the United Staes in Spain over a four-year period may be around \$500,000,000. This is, however, the smallest sum spent in any/European country which plays a

major part in the Allied defense plans, Thus, latest figures from the U. S. Department of Commerce show that Britain has received in economic aid sione nearly \$7,000,000,000 and, France . \$5,200,000,000 SeWest Germany \$3.800,000,000; Italy \$2.700 000,000, Greece \$1,300,000,000, Netherlands \$1,100,000,000. Even Russia between the end of the war and 1947 got \$426,000,000, and all of eastern Europe about \$1,100,000,000. But Spain, for unexplained reasons, has been neglected and only now are officials in Washington awakening to the strategic importance of this country

at It would take so little, relatively speak ing, to bolster the Spanish economy and strengthen the whole country to assure effective military cooperation with the United States that it is unfortunate the Iberian Peninsula as a whole has not come in for more attention in the past. A contest of this kind opens up whole new and encouraging vistas for many of us who do not even have to ask what Martlyn Monroe and Jane Russell have got that we haven't got, because some stinker is always voluntarily stepping out of line

to give us that gratuitous information.

This bag-of-beautiful-benes contest emphasizes the intense diversification of beauty contests since World War II. A woman s never too young or too old to enter. Baby contests are a standard fixture of American civilization. And now the Pho-tographer's Association of America is sponsoring a beauty contest for the "most photogenic and charming" chit of 75.

Even the Miss America and Miss Universe contests have altered drastically, It used to be enough for a contestant to be well-stacked, look like Helen of Troy, and

contender for the crown. As for the Mrs. America contest, I couldn't even finish reading the qualifications demanded of this eager beaver: It exhausted me to see how many beds, meals, brooms, dirty dishes, kids and mops this contestant had to juggle even to get into the qualifying round.

If the contestant made the finals, surely her reward was housemaid's knee, dishpan hands and four weeks in a rest home. All"in all, the intervertebral fibrocartilage contest is the easiest. All that is required of the contestant is that she take off her skin and sit around in her bones and never mind what kind of packaging they come in.

McGibbon Oil Company, 601 E. 1st. is the Big Spring distributing agency for Phillips 65 products. Service stations throughout the immediate area are supplied from the above office, and the large fleet of trucks operated by McGibbon assures fast and efficient delivery. Not only are the service stations supplied by McGibbon Oil Company, but farms which operate off LPG systems are also on the delivery routes. Philips, the Phillips butane-propane product, has proved very popular with individuals in the area. McGibbon also has facilities to install Philips tanks—up to 1,000 gallon capacity—and convert tractors to butane. In addition to supplying gas, oil, butane and propane, the McGibbon agency also handles automobile accessories which are distributed to local stations, most popular of which is the new all-nylon tubeless double-life tire built by Lee. Phillips fertilizer is also distributed by McGibbon,

And that is saying a lot for Swaps whipped the mighty Nashua and eight other 3-year-olds last Saturday in one of the fastest Der-bles in the 81-year history of the turf classic, Time for the mile and one-quarter of the \$152,500 race was two minutes one and four-fifths seconds, just two-fifths of a second off the track and Derby record set by Whirlaway in

won the Little Rock Four-Ball lywood Park in California, where the colt's next big engagement will be in the \$50,000-added Westerner on July 9. The Westerner is at the same distance as the Derby. Rolla, Mo., 1 up. 2 "Our 1956 Derby candidate is full brother of Rolla, Mo., 1 up. 2 "Our 1956 Derby candidate of liskey and Wharton fired the low qualifying score of 65 to qualSwaps," said Ellsworth. "He's a great big gold colt with something great big gold colt with something to learn but we think he is a bet-

to learn but we think he is a better horse than Swaps."

Swaps and Like Magic were sired by Khaled, reported to have cost Elisworth \$60,000 when purchased from the Aga Khan in Eng-land. Their dam is Iron Reward and through her lineage they trace their blood lines to War Admirah, winner of the 1937 Kentucky Derby, and the Mighty Man O'Wag. by and take Mighty Man O'War. comfortable," said Tenney. "You
won't get any work done."
Willie Shoemaker, astride Swaps
for his first Derby triumph in four efforts, stayed around only a few hours after the 100,000 or so fans had departed from the downs, goes back to work Monday at Golden Gate Fields.

Most of the other Derby horses also were on their way to other tracks. Nashua, beaten a length and a half, was the first to leave. The big bay from William Wood-ward's Belair Stud outrained for New York to await the Preakness. Mrs. John W. Galbreath's Sum-mer Tan, a disappointing third, was to ship out for New York to-day with his future uncertain. He

had a slight fever in his front legs yesterday.

While preparations were being made to ship the derby horses, Ellsworth and Tonney held court

near Swaps' stalk.
"We ran Nashua's race," said
Ellsworth. "We didn't want to but found it necessary when Shoemak er saw the early pace was too slow. We had to go to the front." The first six furlongs were ru
