Whom must I work for to qualify for retirement pay?

For any "carrier." That means any railroad, express company, or sleeping car company which is sub-ject to the Interstats Commerce Act.

Am I included in the retirement

Am I included in the retirement plan?
Yes—if you have worked since June 18, 1933, for any "carrier" as above defined, or if you work for such a carrier now. If you reenter the service in the future, your past service will be counted for retirement nav.

No. Your total service is all that counts—whether for one or a dozen carriers. Your service does not have to be continuous. However, you must claim all this service, and must sustain it by evidence. It is not the Retirement Board's duty to claim or prove your service.

When can I retire?

You must retire when 65 years old, unless both you and your employer agree to extend your service year by year up to age 70, but no more. You can retire voluntarily after 30 years' service, at any age.

On any date you specify when you write your application for re-tirement, except that your retire-ment pay can't begin more than 60 days before the date you turn in your application.

No retirement annuities, however,

How much will I get?

How much will I get?

Here's how to figure it. First find your "average monthly active serv-

ice pay."

For service before August 1, 1934, this "average monthly pay" shall be the average pay you received from carriers during the eight cal-endar years ending December 31.

For service after August 1; 1931, your "average monthly pay" shall be the average pay you receive from carriers for all active service after that date.

Multiply the first \$50 of your "average monthly pay" by 0.02, the next \$100 or part thereof by 0.015, and from \$150 to \$300 multiply by 0.01. "Average monthly pay" over \$500 does not count.

Then add the three figures you got as above explained and multi-ply this sum by your total years of service. That gives you the amount of retirement pay you will

get each month.'
Example — Mr. John Railroader worked 30 years for the "carrier." His "average monthly pay" was

Then—
\$50 times 0.02 equals \$1.00
\$100 " 0.015 " \$1.50
\$20 " 0.01 " \$0.20

And \$2.70 multiplied by 30 equals

81 monthly retirement pay. If you retire after 30 years' service, when less than 65 years old, you will get 1-15 less retirement pay for each year you are younger than 65. For instance, if the above Mr. John Railroader retired at age 64 would get 14-15 of \$81 or \$75.60

However, if a carrier retires you for physical or mental disability your retirement pay will not be re-duced even though you are less than 65 years old. What will it cost me now?

You contribute 2 per cent of your "active service pay" to the retire ment fund. This percentage may be changed later on if it is found to be too much or too little to sustain the fund, but your employer must always contribute twice as

much to the fund as you do.
Your contributions will be deducted from your pay envelopes after August 1, 1934. What happens to my money if

Whether you die before or after retirement, the money you contrib-uted to the retirement fund is paid minus the amount you have your heirs, with 3 per cent com-pound interest. Your wife, children or other legal heirs get this money as an annuity or refund. Live or die-you can't lose under this re-

"But these are not real issues. Why doesn't the attorney general's department padiock the open saloons and the elaborate gambling quaes operating in violation of our laws. He says he is satisfied with the dry law yet he fails to close up these places. I say, either close them up or revise the law so that the saloon may be regulated to the end that the state may colhave liquor or not as they wish."

Senator Small said he believed the people of Texas want a safe, decent and honest governnent, one guided by hard work and efficiency, and this he pledged to give if elected.

He reported a "wonderful" support in other sections, outlined what he had striven to do for the Panhandle and West Texas and aid "if I am not elected it will not be because the folks in East Texas fail to vote for me this time.

"There are no brilliant candidates in this race for governor. They are all just common human beings. I know them all. It is not my proposal to do the impossible. However, I do believe that I know the resources of Texas and what she needs in the way of good clean Faith In Program

He closed, voicing faith in the ational administration and expressing pleasure at having had a little part in carrying out the state program. He severely criticized the entrance of politics into the relief situation and declared this should be eliminataed.

After spending the night here, Senator Small and son, Clint, Jr., who is a student at the University of Texas where he is a star foot ball player and Meeers. Howart and Beicher, left early Thursday morning for the east. He will speak at Colorado, Loraine, Sweetwater and then go north to Stamford, where he is scheduled to speak Thursday

Senator Small was greeted here by a number of local admirers.

Divisions-Five such groups are especially Five such groups are especially active at present—each with a specific field of operations where it won't tread on the others' toes.

1. Secretary Roper's Planning and Research Council—which unofficially sponsored the Hot Springs conference of industrial leaders and will follow it up with others. Its first objectives are to assure industry a permanent and potent voice in Washington and to make NRA safe for individualism. Its long range targets are a revised NRA of five master codes under industry's supervision and permanent suspension of anti-trust laws.
