Surprise Snowfall Deposits 12 Inches

Largest Snowfall Since February 1956

WAY TO GO!—At least that's the way to go in Muleshoe early Friday morning following a nearly 12 inch snowfall Thursday night. Jerry Harrison, front and Mac Brown on the snowmobile at the left and Albert Lee and Polly Harrison on the snowmobile at the right

found this out. They spent much of Friday morning skiing up and down the Muleshoe streets before a warm sun and snowplows started ending some of their fun.

A sneaky snow storm moved into the area late Thursday afternoon and before it was over, deposited at least 11 and one half inches of the fluffy white in a wide area.

This was the first time Muleshoe had so much snow at one time since the blizzard of February 1, 1957 when the area received 18-22 inches of snow, accompanied by 10-15 foot snowdrifts.

After a high Friday afternoon of 45 degrees, which melted snow and left slushy streets, the temperatures dropped to minus six degrees early Saturday morning.

Snowplows had piled snow into the middle of streets leaving an ice barrier dividing traffic. Traffic continued creeping in the area, and no accidents had been reported at presstime.

After a cold, foggy and drizzly day Thursday, snow started falling in the area shortly after 6:30 p.m. The snow was accompanied by a brisk wind that whipped the snow into drifts of up to two and three feet, paralyzing traffic and closing roads.

Because of the weather, a lot of people who had planned to attend the annual Muleshoe Chamber of Commerce and Agriculture banquet Thursday night elected to stay at home. The hardy souls who attended the banquet found themselves digging out their cars following the banquet.

Out of town guests were unable to go back to their homes, including stand-in special guest speaker and his aide, Colonel Bobby Bagley and Captain Bill Thurston of Reese Air Force of Lubbock. They spent the night in Muleshoe as did various other people.

Law Enforcement officers spent most of the night rescuing people who tried to travel on highways in the county after being informed they should stay in town as the roads were all but impassable.

THP officers Louis Cardinal and Larry King abandoned their regular patrol vehicle in favor of Cardinal's four-wheel drive vehicle which was radio equipped and more appropriate for German Sausage Dinner Planned By St. Ann's

Several Awards Presented At CofC Annual Banquet

"Let freedom begin in the home. Let your church and the school reinforce the teaching of the love of God, love of your fellowmen and love of your country. And, continue to respect the flag," concluded Colonel Bobby Bagley Thursday night at the annual Muleshoe Chamber of Commerce and Agriculture banquet.

Col. Bagley consented to stand in as guest speaker after Lewis Timberlake of Austin was weathered in at Austin. Tim-

berlake had been informed at the airport at Austin that due to the zero visibility at Lubbock, planes were not landing there.

Contacted by Jess Winn at Reese AFB in Lubbock, Col. Bagley, who is deputy commander of operations at the air base, consented to come to Muleshoe as speaker for the annual banquet. He was accompanied to Muleshoe by an aide, Captain Bill Thurston. They stayed the night in Muleshoe after the banquet, as weather would not allow them to return to Lubbock.

Col. Bagley told of his experiences as a prisoner in North Vietnam. During the time he spoke, he based his entire talk on 'Patriotism' and 'Faith' -- faith in God, the country and his fellowman.

As he spoke, the crowd who braved the snow to attend the banquet were so quiet a pin could have been heard to drop in the building. At the conclusion of his talk, the crowd quickly stood in recognition of the former POW.

Before the special guest speaker, several awards were presented. Jimmy Wedel, president of the Blackwater Soil Conservation District, presented the 1977 Conservation Farmer of the Year.

He said the recipient farms in the Maple-Stegall area and he and his wife are the parents of three children; Mark 17; Renee, 14 and Lisa, age six. Don Lowe has been active in civic groups and with different agriculture-related boards. He farms 3,000 acres in Bailey and Cochran counties.

Wedel said "Lowe practiced conservation and had future plans for more soil conservation. Receiving the Employee of the Year plaque from Royce Hargis was Billie 'Little Un' Jones, who has been with the Muleshoe State Bank since 1952.

She thanked the officers and members of the Muleshoe Chamber of Commerce and Agriculture; her family and her 'other' family from Muleshoe State Bank.

"A person doesn't become a Citizen of the Year from January 1 to December 31 of any one year," said Howard Watson of the Citizen of the Year for 1977. "This individual, through her warmth and comfort helping youths and senior citizens, and through several years as a volunteer worker at the hospital on the night shift, is truly deserving of the honor."

Watson called Wilma Waddle to receive the plaque as "Citizen of the Year" for 1977. Bob Finney was presented the "outstanding Director" award for the past year, and Howard

School in the Clovis and Melrose areas opened to take care of the overflow of traffic who found local motels full and no where to spend the night.

The parking lot of Piggly Wiggly in Muleshoe soon filled with big trucks who stopped to wait out the storm as visibility dropped to zero in the heavy snow. However, no accidents were reported, although numerous vehicles skidded off highways into ditches. Officers roamed the highways, rescuing the stranded motorists and bringing them to Muleshoe to spend the night.

Early Friday morning, the snow stopped, and the wind quietened down, leaving creeping motorists on their way to work Friday morning. Snowplows started clearing highways and city streets and by mid-afternoon Friday, the heavy snow started melting into a slush, which was expected to start freezing late in the day.

Pictures of scenic beauty could have been taken all over Muleshoe, especially those locations where evergreens were heavily laden with the heavy wet snow. National Weather Service predicted a slight chance of additional snow Friday night before skies cleared for the weekend.

**Conference
By Governor
Slated Monday**

The 1978 Governor's Conference on Aging, originally set for February 20, has been rescheduled and will be held at the San Antonio Convention Center June 26-27, according to an announcement today by Alton O. Bowen, chairman of the Governor's Committee on Aging.

Goals and format of the conference will remain unchanged, except that the conference will be extended to a two-day meeting, Bowen said.

"It is our hope that those older persons who had made arrangements to attend the conference will continue to maintain their enthusiasm for the meeting and will join us in San Antonio in June."

Planning for the June conference is already underway Bowen said, adding, "We will increase our efforts to ensure that older Texans will have their chance to express their needs and desires at the meeting."

Robert Byrd, Senate Majority Leader:
"I believe the Senate can amend the treaty by using a parliamentary maneuver . . . aimed at avoiding the need for renegotiation of the pact."

If everyone would quit hurrying, life would move along intelligently.

**MOISTURE-VAPOR
BARRIER-A 'MUST'**

All insulation must have a moisture-vapor barrier to protect it from moisture in the home (or from outside air in some areas of Texas.)

Since insulation works because air spaces in it actually slow down the flow of heat through the insulation, it is important to keep the air spaces free from moisture or they cannot do their job.

Some moisture in a home escapes through ceilings or walls, and when it does, it can collect in places such as attics or wall cavities. If that happens, it can damage insulation, unless a moisture-vapor barrier protects it from the moisture.

ninety-seven bred heifers made a \$346 average while 212 open heifers brought \$275 each. An overflow crowd filled the sales barn on the Southwestern Exposition and Fat Stock Show grounds but bidders were cautious. Although there were not the extreme high prices paid for the top pens in past years, the prices apid overall were much more consistent.

Heifers this year competed for \$5,000 in premium monies prior to sale time. Judges were Dr. Bill Jacobs of San Luis Obispo, California; Clifford Dance of

Vaiden, Mississippi and Phil Bidegain of Montoya, New Mexico. Champion and high selling pen came from the J.E. Birdwell Ranches at Lubbock and Muleshoe. A repeat buyer, Arrington took a total of 93 bred heifers for \$34,100. Johnny Summerour of Dalhart, Texas, accepted the award for Reserve Champion Pen of heifers. The Summerour Ranch females were calved October-December, 1975, and sold safe in calf to Hereford bulls. They

went to James Snyder of Baird, Texas for \$395 each for the 22 head. First place pen of open heifers were consigned by W.K. Gordon, Jr. of Fort Worth. The 20 head of females were calved in the fall of 1976 and sold to Tom Waldrop of Corsicana for \$300 each. Second place pen of open heifers came from the Coldwater Cattle Company at Amarillo. The 22 head of September-November, 1976 females went to Arch Andrews of Archer City for \$320 each. Second high of the sale was reached on a pen of 21 heifers with calves on the ground by Angus bulls. They were consigned by George Glascock of Gresson and sold to Walter Pyle of Cameron.

GSPA Asked For Meeting In Washington

Grain Sorghum Producers Association's Executive Director, Elbert Harp, was among twenty-one farm leaders invited to the White House to confer with President Carter and Secretary Bergland concerning the problems and needs of agriculture. During the discussion the President termed the farm situation "one of my biggest problems" for which he had "no magic answer." Representing GSPA, Harp gave the President a written statement asking his direct support of three essential changes in the farm program. GSPA wants Congress to raise government levels to profitable levels. The association wants Con-

gress to require each producer in the U.S. to restrict his planting proportionately so that the total U.S. production will not exceed the amount that the market will readily consume. GSPA pointed out the immediate need of expanding foreign sales of U.S. agricultural products through trade negotiation, expanded market development programs, and liberalized credit programs to potential customers. GSPA urged the President to seriously consider the new farm legislation being presented in Congress. The President praised Congress for passing what he termed an "excellent farm bill, which will help farmers if it is administered properly and if farmers will give it time to work." Even though the President promised to keep an open mind in the situation, the Administration's general response to the discussion was not encouraged to farm leaders who are trying to attain changes in the farm bill.

The Marvels of God's Creations

WHY DO FISH LIVE IN WATER? We can answer this question partially by saying: that their lungs were created to draw oxygen from the water. However, to know how and why, we must look to God's word.

"In the beginning God created the heaven and the earth." ... "And God said, let the waters bring forth abundantly the moving creature that hath life..."

Attend Church and worship the one who created these marvels.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving in the neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.
