Chinese In BUSINESS GREETS AFL PEACE GESTURE Another Victory

Town Captured As Jap Offensive Is Halted

SHANGHAI, May 5 (A)-An to spired Chinese army claimed cap-ture of Matowchen, walled city four AS THE FLORIDA WINNER VOTED miles northwest of Tancheng, a continued "rapid progress" was re ported today in erasing the second nig Japanese offensive in south Shantung province,

Matowchen was considered by Chinese commanders the key to Tancheng, which had become the southernmost point of the Japanese advance toward the Lunghai sailway, 15 miles away.

Tancheng was encircled and be-leaguered, Chinese said, though it had formed the east side of a salient until counteroffensives from the opposite corner at Talerhchwang apparently straightened out the battle line.

At the same time a sudden attack by General Miao Chen-Lieu's 57th army was reported to have driven the Japanese back toward Antung-wei on the Yellow see, in a battle along the Shantung-Kiangsu border. The attack relieved the threat of a Japanese thrust from the north at Haichow, seaport trrmi-nus of the Lunghai railway.

Pressurt was being increased on Tancheng by a reinvigorated army, which, qualified foreign observers on the war front said, had doubled its fighting efficiency and striking power since it retired, at humbled and routed Rabble, rom the sham-bles of Chapei in Shanghai and from the central government capital at Nanking.

A month ago it struck decisively at Talerhchwang, forcing a Japanese retreat ,the first major defeat of a modern Japanese army.

INSURGENTS STRIKE

HENDAYE, France (At The Spanish Frontier) May 5 (P)-Spanish insurgents struck today at both ends and the middle of the rainbow-like eastern front from Teruel through Morella to the Mediterranean at Alcala De Chivert,

Insurgent disputches said government lines had been broken both in the center and on the east, while the western wing of the insurgent army consolidated deep, gains already made in government terri-

Road Would Traverse Back Area Of City Park

The thorn in the side of local highway matters—the route to be followed out of Big Spring to the new segment of Highway No. 9 south—appeared nearer a plucking Thursday following a conference between state highway department officials, officials, county commissioners court and other interested citizens.

After a parley in which Julian Montgomery, state highway en-gineer participated, the commissioners court, through Judge Charles Sullivan, announced that a route had been agreed upon and that the court stood ready to procure the right-of-way.

The proposed route would start from a Y fork at the south end of Scurry and Gregg streets, cross the canyon east of Huges (T&P) lske, angle south and slightly west across a ridge, merging east of the scout hut in the city park, cutting across the center of the city park extension and swing slowly to the south to meet the new section south of the end of the pavement.

Underpasses Although it will pass over the area through which the city park has its new scenic drive and back nine holes for golfing, the city appeared reconciled with the promise that underpasses could be worked out whereby there would be no

Withdrawal Order In Ford Case Is **Granted By Court**

COVINGTON, Ky., May 5 (A)-The U. S. circuit court granted today the national labor relations board's petition to withdraw its request for an enforcement order against the Ford Motor company. The company, attempting to make a new test of the Wagner act's constitutionality, had sought to avert withdrawal of the request, through which the labor board had almed to put into effect its order of last December ordering the reinstatement of 29 workers and denanding the company cease alleg-

The labor board asked for the withdrawal in the light of a supreme court decision last week in department of agriculture case.

The court likewise granted today the board's request to withdraw a record of proceedings in the case, which originated last June upon a complaint entered by the United Automobile Workers of America. Judges Ben Hicks, C. C. Simons and Florence E. Allen concurred in the decision.

Philip G. Phillips, regional direct tor of the NLRB at Cincinnati, described the decision as "a comple victory" for the board.

When Temperature

Indicator Shows

Is Just Right

"There are several conditions," said Carl Strom, local Frigidaire dealer, "by which a person may be deceived as to just how cold any object may be, and in the matter of refrigerators, how safe they are. A temperature that is but a few degrees belo wroom temperature degrees below room temperature or arm, particularly if a person is more cold with fewer minutes of the "Econ-O-Lite" designed to prove the thrift, features of the box. Carnett's is offering demonstrations of the Econ-O-Lite, and is inviting the public to call and witness them.

"Stewart-Warner introduces such a feature as Econ-O-Lite because of its proved performance over years that it runs less, that it gives more cold with fewer minutes of would be entirely unfit for protect-ing food. Quite a few people think that where butter is reasonably electric refrigeration." hard, food will keep properly, yet it is a fact that conditions warm ough to permit food to spoil may still be cool enough to maintain very firm butter.

method by which to solve the problem of food safety, and that is to choose an automatic refrigerator than can establish beyond any doubt its ability to provide proper temperatures, and then proves to its owner every time the refrigerator is approached that it is doing

"That is one of the main reasons

for our special showing now in games. Mock battles will continue to May 20, with return flights to home bases to be completed by full courts of food and less me and the man and the full quota of food and ice, we are able to demonstrate beyond doubt raid warnings to civilians and that safety zone temperatures allow the safety zone temperatures allowed the safety zone temperat Equipment to be tested includes tor, an accurate device for measthe Frigidaire food safety indicaexperimental planes will be flown. safety, one which is too cold for practicability, and the one which is States camouflaged airplanes will recognized as safe by every food be used on a large scale, Listening authority, including United tSates government bureaus. This last zone is called the food safety zone.

"This is not an instrument that is shown only in the store and then removed from cabinets before de livery, but one which is a built-in part of the Frigidaire, telling the user any day or any hour whether or not the best conditions prevail in the food compartment."

ciency and economy with several types of tests. These include the "three-on-one" test, which dem-onstrates one Rollator unit is suf-

which permanence of the Rollator Improvements in the boxes themselves, the dealers say, are designed to keep the cold in, and insulation and similar features are developed to a high type of efficiency. This

also makes for quick freezing. Storage space has been enlarged and various accessories in the Norge refrigerator have been made more accessible to add to the convenience of this type of electrical refrigeration.

Initial Cost Low On MW Electric Refrigerators

All the modern conveniences of electric refrigeration plus many ex-clusive features are claimed for the 1938 MW models offered in Big Spring by Montgomery Ward. Through Wards' financing service, the boxes are available at an initial cost of \$5, with small payments plus carrying charges.

Low prices are stressed for the MW models, but the low price factor has not meant the elimination of any item wanted by the house wife in a modern electric refrigera-

The MW models have such fes tures as a twin-cylinder power unit, tures as a twin-cylinder power unit, stainless speedy freezer, acid-resist-ing porcelain interior, glass de-frusting storage dish, efficient, leak-proof cabinets, easy-open chrome door lock, heavy duty Delco motors, handy temperature con-trol, automatic defrosting control, Safety Food Guardian, roomy vege-table fresheners, bar type full width shelves.

The MW models have been tested and approved by the Good House keeping Institute, and carries has table top cabi- five-year protection plan.

> One version of the origin of the used by an engineer in the hold ignited tanks of oil.

Fire continued this morning to

biaze from the Lafayette, France's largest motorahip, with violent explosions sending flames skyward. Charred lifeboats fell into the water bemeath the single, red hot funnel. Fire fighters turned a half dozen hoses on the vessel, in drydock, but confined their efforts principally to preventing spread of the Same

Tests-Designed To Prove Economy Of Stewart-Warner

When is a cold temperature too warm? Contrary to what may be stressed in the Stewart-War thought, this is a very practical question which is being answered in a unique manner at a special refrigeration showing now going on at the local dealer for Frigidaire.

or arm, particularly if a person is more cold with fewer minutes of working in a warm kitchen. Yet running time," Carnett said in a refrigerator, such temperature "Econ-O-Lite is definite, visible

The new Stewart-Warners boast such features as pullout shelves, sliding trays, vapor scaled cabinet, reversible evapator door, enlarged ery firm butter.

"There is, however, one safe and 16-point cold control.

BRILLIANT STAR TO BE SEEN FROM TWO PLANETS

NEW YORK, May 5 (49-The most brilliant star in 40 years, formed by the planets Venus and Mars standing apparently side by side, will be visible in the western sky at 6 p. m., central standard

This will be the first time since 1898 that two major planets have come so close together. Astrono-mers say that without the aid of glasses the pair will appear to be one star. The time to begin watching the unusual approach is omorrow night.

The two stars then will be close together, noticeably closer on the sixth, and on the two nights after May 7 will separate at the same rate as their approach. Venus is moving up from the sun, down toward the sun.

Actually, in the heavens, they will be 80,000,000 miles apart. Mars will pass, at that distance, almost directly behind Venus.

It Is Winning America On Extra Value Alone!

MORE current economy-with Econ-O-Lite as visible proof MORE convenience - more "front" space-with SAV-A-STEP

MORE real improvements—with 7 you can't match at any price

Buy on Facts—Not Claims

 Don't gamble with your refrigerator dollars. Come and inspect the refrigerator whose value your eyes can prove. See Econ-O-Lite, the first visible proof of economy ever offered—and the famous SAV-a-STEP and other features that have made Stews Warner the nation's fastestgrowing line of refrigerators Then act while our special liberal time-payment offer lasts,

IN EVERY KITCHEN with Electric LIGHT ... there should be Electric COLD

ELECTRICITY is the most efficient, most economical servant a woman can have in her home. Used for refrigeration, it is as clean and convenient as when used for the hone, as safe as when used for illumination, as modern as when used for the radio.

MORE THAN TEN MILLION WOMEN now own electric refrigerators. And practically every meat market and grocery in the nation that keeps food safe mechanically, does so electrically . . . for electric cold keeps temperatures constantly and faithfully below the danger point even when outside thermometers go up into the 90's

AN Electric REFRIGERATOR will give you greater peace of mind, because you will know the food you serve your family has been kept safe. It will give you greater

pleasure, for it will freeze faster than any other type of refrigeration - providing plenty of ice cubes and producing dainty frozen salads and desserts in record time. And it will give you these advantages, plus many more, so economically that you can't afford to be without it . . . for the modern electric refrigerator actually saves much more

SEE THE NEW Electric REFRIGERATORS TODAY. Their beautiful lines and gleaming finishes will make a new room of your kitchen. Their roomy, inviting interiors will prove a constant joy. And you will be just as pleased at the low prices and convenient terms as you are at the amazing improvements and many new features you find in the new models. Consider every factor. Then do what over ten million families have already done . . . BUY AN Electric REFRIGERATOR.

After hauling this car from deeper water, firemen struggle to remove the bodies of two brothers and their wives who were trap-ped and drowned when their car crashed through the barrier of an open bridge and plunged into the Calumet river in Chicago. The legs of one victim protrude from the broken windshield at the low-

The usually quiet and uneventful meeting in New York of stock-holders of the American Telephone and Telegraph Co., turned into a cheering section for Walter S. Gifford, president, shown beside the microphone, and others who attacked Communication Commis-sioner Paul Walker's recommendation for a 25 percent cut in com-pany rates. Gifford consults Edward M. Young, aged stockholder, whose resolution criticizing Walker was passed.

PAY INCREASE FOR ENLISTED MEN IS REQUESTED

crease enlisted pay as part of the national defense program.

J. E. Nieman, appearing for the regular veterans association, said service men "still serve under a horse and buggy pay scale," with the \$21 monthly base pay of 75,000 army privates and marines \$9 under the monthly scales for CCC enrollees. He urged a pay scale ranging from \$30 up to \$150 a month. The present range is \$21 to \$130.

He estimated the pay increases would cost about \$65,000,000 annual-law.

RUNOFF LOOMS IN ALABAMA CONTEST BIRMINGHAM, Ala., May 5 (P)

HAPPY RELIEF BACKACHE Caused by Tired Kidneys

Many of these gnawing, nagging, painful backaches people blame on coids or strains are often exused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking axion acids and poleonous waste out of the blood. Most people pass about 3 pints a day or about 3 peunds of waste.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start magging backaches, rheumatic pains, less of pep, and saway, getting up nights, swelling, puffitness under the eyes, headaches and distrines.

Don't wait! Ask your drugist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes finsh out poisonous waste from the blood. Get Doan's Fills.

EPISCOPAL CHURCH LEADER SUCCUMBS

NEW ORLEANS, May 5 (P) -The Rev. Matthew Brewster, 79, leader in Episcopal church circles, died at his home here today,

He retired as rector of St. Andrew's church here in 1936. Mr. Brewster, a native of Houston, first practiced law in his native city but entered the ministry withn a few years.

He served as rector of St. Philip's church, Palestine, Tex., from 1891 to 1893, rector of Grace church, New Orleans, until 1900, and rec-tor of Christ church, Mobile, Ala., until 1917.

He is survived by his widow, the former Miss Julia Buncombe Rogers, a son, Dr. W. Rogers Brewster of New Orleans, and two grandchildren. He had made his home at Pass Christian, Miss., in

The body will lie in state in St. Andrew's church here from noon until 4 p. m. tomorrow. Inter-ment will be in Mctairle cemetery.

CANDIDATES PAY THEIR FILING FEES

Renfro reiterated he believed he is shown by the fact that while oil producer's tax burden. could co-operate with the legislature in giving the state the same type of business administration he claimed for his fox-year tenure as mayor of Beaumont.

Town Captured As Jap Offensive Is Halted

Victory

SHANGHAI, May 5 (A)-An in spired Chinese army claimed cap-ture of Matowchen, walled city four AS THE FLORIDA WINNER VOTED miles northwest of Tancheng, as continued "rapid progress" was re-ported today in erasing the second big Japanese offensive in south

Shantung province.

Matowchen was considered by Chinese commanders the key to Tancheng, which had become the southernmost point of the Japanese advance toward the Lunghai railway, 15 miles away.

Tancheng was encircled and be-lenguered, Chinese said, though it had formed the east side of a salient until counteroffensives from the opposite corner at Taterhchwang apparently straightened out the battle line,

At the same time a sudden attack by General Miao Chen-Lieu's 57th army was reported to have driven the Japanese back toward Antung-wei on the Yellow sea, in a battle along the Shantung-Kiangsu bor-der. The attack relieved the threat of a Japanese thrust from the north at Haichow, seaport trrmi-nus of the Lunghai railway. Pressurt was being increased on

Tancheng by a reinvigorated army, which, qualified foreign observers on the war front said, had doubled its fighting efficiency and striking power since it retired, at humbled and routed Rabble, rom the shambles of Chapei in Shanghai and from the central government capital at Nanking.

A month ago it struck decisively at Taierhchwang, forcing a Japa-nese retreat ,the first major defeat of a modern Japanese army.

INSURGENTS STRIKE

HENDAYE, France (At The Spanish Frontier) May 5 (P)-Spanish insurgents struck today at both ends and the middle of the rainbow-like eastern front from Teruel through Morella to the Mediterranean at Alcala De Chivert.

Insurgent dispatches said government lines had been broken both in the center and on the east, while the western wing of the insurgent ready made in government terri-

FOR PICKUP OF AIRMAIL SOUGHT

Road Would Traverse Back Area Of City Park

The thorn in the side of local highway matters—the route to be officials, county commissioners court and other interested citizens.

After a parley in which Julian Montgomery, state highway engineer participated, the commissioners court, through Judge Charles Sullivan, announced that a route had been agreed upon and that the court stood ready to procure the right-of-way.

The proposed route would start canyon east of Huges (T&P) lake, angle south and slightly west scout hut in the city park, cutting across the center of the city park extension and awing slowly to the south to meet the new section south of the end of the pavement.

Underpasses

NEW YORK, May 5 (A)-William Humphreys, president of the Tide Water Associated Oil company, told stockholders in their annual meeting today he believed the business slump had touched bottom.

He urged business to cooperate with the government, accept the in mind the welfare of the masses of the people. While suggesting business recov-

ery may be slow, he pictured the uture as filled with "promise." "We must be justified in being ptimistic," he remarked. "We mus not accept the present business re-cession as a permanent condition."

ARMY OF WOMEN IS BRITON'S IDEA

LONDON, May 5 (A)-War Minister Leslie Hore-Belisha announc ed today he would raise an army of women as part of the British war machine he is rebuilding. Having set new records for re-cruiting men, the dynamic, shiny-checked minister said there was no reason why women should not serve in a modern army.

He called a conference of wom en's loaders at the war office tomorrow to discuss how women could be drilled to assist in time of war. There was no indication, however, that he planned to put wor n the trenches.

Withdrawal Order

In Ford Case Is

COVINGTON, Ry., May 5 UP-The U. S. circuit court granted today the national labor relations board's petition to withdraw its request for an enforcement order against the Ford Motor company. The company, attempting to

make a new test of the Wagner act's constitutionality, had sought to avert withdrawal of the request, through which the labor board had simed to put into effect its order of last December ordering the reinstatement of 29 workers and demanding the company cease alleg-

The labor board asked for the withdrawal in the light of a supreme court decision last week in department of agriculture case The court likewise granted today the board's request to withdraw a record of proceedings in the case which originated last June upon s complaint entered by the United Automobile Workers of America.

Judges Ben Hicks, C. C. Simons and Florence E. Allen concurred in the decision.

Philip G. Phillips, regional director of the NLRB at Cincinnati, described the decision as "a complete victory" for the board.

By Jeane Suits

There is nothing so foriorn as the whistle of wind as it capers about the house on a moonless night, unless it is the whistle of a train in the early evening hours when hearts naturally feel an urge to be gone from familiar faces, fences and farms. In either case, we have a contrast.

The sound of strident winds beated this week with an attractive affair in the ballroom of the Crawford hotel followed by a theatre
party.

The sound of strident winds beating at the domicile door and then
angrily whipping around the corners in revengeful gusts makes one
feel a security afforded only by a
place called home — while the whistle of a train has a tendency to make one yearn for open spaces far removed from homefires, Mom's

Inquiry Ordered

LE HAVRE, France, May 5 (P) Minister of Merchant Marine Louis De Chappendelaine ordered an im-mediate inquiry into a fire which today ruined the nine-year-old French liner Lafayette in drydock

One version of the origin of the blaze was that a blow torch being

ignited tanks of oil.

Fire continued this morning to blaze from the Lafayette, France's largest motorable, with violent explosions sending flames skyward.

Charred lifeboats fell into the water beneath the single, red hot funnel. Fire fighters turned a half dozen hoses on the vascel, in drydock, but confined their efforts principally to preventing spread of the size.

Tests Designed To Prove Economy Of Stewart-Warner

When is a cold temperature too warm? Contrary to what may be thought, this is a very practical question which is being answered in a unique manner at a special refrigeration showing now going on at the local dealer for Frigidaire.

"There are several conditions," said Carl Strom, local Frigidaire, dealer, "by which a person may be deceived as to just how cold any object may be, and in the matter of refrigerators, how safe they are.

"Stewart-Warner introduces such "Stewart-Warner introduces such

"Stewart-Warner intro refrigerators, how safe they are-A temperature that is but a few a feature as Econ-O-Lite because degrees belo wroom temperature of its proved performance over degrees below room temperature or arm, particularly if a person is working in a warm kitchen. Yet in a refrigerator, such temperature would be entirely unfit for protect. rould be entirely unfit for protectproof that Stewart-Warner can would be entirely unfit for protecting food. Quite a few people think save the householder money ing food. Quite a few people think save the householder money in the protection of the protecti

The new Stewart-Warners boart such features as pullout shelves. sliding trays, vapor sealed cabinet, reversible evapator door, enlarged and more accessible storage space, and 16-point cold control.

BRILLIANT STAR TO BE SEEN FROM TWO PLANETS

NEW YORK, May 5 (49-The nost brilliant star in 40 years, formed by the planets Venus and Mars standing apparently side by side, will be visible in the western sky at 6 p. m., central standard time, May 7.

This will be the first time since 1898 that two major planets have come so close together. Astrono-mers say that without the aid of giasses the pair will appear to be one star. The time to begin watching the unusual approach is omorrow night.

The two stars then will be close together, noticeably closer on the sixth, and on the two nights after May 7 will separate at the same rate as their approach. Venus is moving up from the sun, Mars

Actually, in the heavens, they will be 80,000,000 miles apart. Mars will pass, at that distance, almost directly behind Venus.

Young, aged stockholder, whose resolution criticizing Walker was passed.

PAY INCREASE FOR ENLISTED MEN IS REQUESTED

Phone 325 service men "still serve under a materially reduced Dixon's total service men "still serve under a horse and buggy pay scale," with the \$21 monthly base pay of 75,000 of gaining a clear majerity over army privates and marines \$9 under the monthly scales for CCC encolles. He urged a pay scale ranging from \$30 up to \$150 a month. The present range is \$21 to \$180.

He estimated the pay increases would cost about \$65,000,000 annual would cost about \$65,000,000 annual an estimated 20,000 ballots still to be sourced.

RUNOFF LOOMS IN ALABAMA CONTEST

BIRMINGHAM, Ala., May 5 (P) WASHINGTON, May 5 UP)—A A gubernatorial runoff between spokesman for "the man behind the gun"—the enlisted man in the army, navy, marine corps and coast and State Representative Chaunce, guard—asked congress today to in-crease enlisted pay as part of the national defense program.

Sparks seemed likely today 'as counting of Tuesday's democratic national defense program.

J. E. Nieman, appearing for the primary ballots neared completion.

HAPPY RELIEF FROM PAINFUL

Caused by Tired Kidneys

Many of those gnawing, nagging, painful seckaches people blame on colds or strains see often caused by tired kidneys—and may be relieved when treated in the right way.

The kidneys are Nature's chief way of taking excess acids and polesonous waste out of the blood. Most people pass about 3 pints a day or about 3 pounds of waits.

If the 15 miles of kidney tubes and filter dan't work well, possonous waste matter stays in the blood. These poisons may start nagging in family. Milton Broughton, and family, Milton Broughton, and success, getting up nights, aveiling, putilises under the eyes, headsches and discinces.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give heapy relief and will help the 15 miles of kidney takes flush out poisonous weste from the blood. Get Doan's Pills.
