# THE NEW CHEVROLET SIX

### Strikingly beautiful, fleet and smart -a masterpiece of Fisher styling

In the entire field of modern coachcraft no symbol

has come to mean more to the buyer of a motor car than Body by Fisher. And never has Fisher's superfority been more strikingly exemplified than in the beautiful new bodies of the Bigger and Better Chevrolet Six!

Working with the added advantage of a lengthened wheelbase, Fisher designers have been able to achieve

in the new Chevrolet a degree of smartness, comfort and impressiveness hitherto considered exclusive to cars far higher in price.

Inside and out, you will discover scores of refinements that stamp this car as a masterpiece of modern coachwork. Radiator, headlamps and tie-bar have been artistically grouped to create an unusually attractive and distinctive ensemble. Mouldings sweep back from the graceful new radiator in an unbroken line to blend with the smart new body contours. And new colors, in carefully devised combinations, lend a new individuality.

Interiors, too, are exceptional in every way. The new mohair and broadcloth upholstery is tailored with exceptional smartness. Seats are wider and deeper and more luxuriously cushloned. A deeper windshield and wider windows give better vision for both driver and passengers. And beautiful new hardware, of modern design, lends a final note of charm.

The greater quality and beauty of the new Chevrolet-Fisher bodies have

ments which have been provided in the chassis of this Bigger and Better Six. Among these Improvements are a longer, deeper, stronger frame; easier steering; a more durable clutch; a quieter, smoother-shifting transmission; and engine refinements which make the new Chevrolet's car you will be happy to drive-as well as proud to own.

The Bigger and Better Chevrolet Six is now on display in our showrooms. See it today-drive it-and learn for yourself that it is the Great American Value!

#### Mrs. Loucille Allgood Tells Of The Six Pantry Demonstrations Last Week

November is nearly at a close, winding up our 4-H pantry work for the year, as well as other demonstrations.

The six pantry demonstrations were a huge success. Mrs. Reese Adams, of Soash, found it necesbefore the meeting in her home arriving home the night before. This upset her a little, but the large crowd who attended, co not understand how it could be much better. Her shelves are located in a pantry, opening into her kitchen. Her food is preserved in small containers. This suits the need of her family. Mrs. John Smith, of Highway, is far differferent in this respect. She has some amai lcontainers in her pantry, but they are used mostly as gifts for visitors and friends with smal families. You should see her shelves in the cellar. One end and one side are solid shelves, close enough together to allow a lot of room. You know many times you see shives so far apart there is more space wasted

than used.
Mr. Smith said she lacked only nine containers putting up Wooten of Fairview has a celair full of canned foods, dried beans and poss, and home made soan Her emorgency shelves in the panity hold commercial supplies

By BOBBY CAMPBELL years of study of weather in the state of Missouri, turned philosophical and mused,

talks about the weather, but no

one does anything about it." But there were no government experimental farms in Mark Twain's time. When it rained it rained so many inches, and the old timers gauged it. When the wind blew, it blew hard enough to tumole over a barn three miles from town, or hard enough to unroof a couple of dozen river shaptles. When the sun best down, it was either "mighty hot" or "mighty comfortable," depending it is pre-sumed, on whether a tree was handy. Evaporation was nothing to trouble the natives about.

-The old tombstone of the blood-thunder 80s, now a quiet little town beside the deserted mines today mourned the death of Charles L. Cummings, once its mayor and owner of the widely known Bird Cage theatre. Cummings died last night in his seventysixth year.

A native of Oxford, N. Y., he came to Tombetone in 1880 before the iron horse replaced the piebald nag on the trail to the min-ing camp. He brushed elbows with the characters of the Old. West, the bad men who drifted in on the scent of quick riches, and became a pillar of the com-munity, aiding in the bringing of law and order.

The most picturesque of his many business enterprises was the Bird Cage theatre, where the hits of Broadway played to full houses, and where Lotta Crabtree and other old time favorites presented such plays as "Ten Nights in a
