Around Muleshoe

Don't forget that if you plan to play high school football this fall, physicals for all freshmen through senior players are scheduled at the football field-house at 2 p.m. today, Sunday.

Head football coach Mike Wartes said all players must have the physical before suiting out for practice.

The Annual Bull Town Days Celebration is scheduled for Bovina on Saturday, August 16.

Norma Whitten, parade chairman, said they are seeking individuals, riding clubs, and groups to participate in the 4 p.m. parade.

The parade will form near the baseball park, two blocks west of Third Street near the railroad tracks.

Winners will receive cash prizes for the best floats and ribbons for the best decorated tricycles, bicycles and motorcycles.

Kerry Moore, speech and drama director from Muleshoe High School, will help conduct a two week camp for high school students at the department of speech and theatre at West Texas State University.

The camp starts today, Sunday, and will conclude on Friday, August 8.

Moore will be helping with the drama students in the camp.

Airman James D. Williams, son of Mr. and Mrs. James L. Williams, Muleshoe, recently participated in Global Shield 80, a strategic air command exercise at Carswell Air Force Base, Fort Worth.

Marine Pvt. Robert C. Posadas, son of Mr. and Mrs. Alfonso Posadas, Muleshoe, has completed the basic automotive mechanics course.

A 1979 graduate of Muleshoe High School, he joined the Marine Corps on October 1, 1979.

City, County Receive Drink Tax Rebates

State Comptroller Bob Bullock said this week the sale of mixed drinks in Texas during the second quarter of 1980 pushed the yearly total during the first six months to nearly a half-billion dollars.

Bullock said the mixed drink taxes collected during the April, May and June period amount to \$23.6 million. There were \$22.1 million in taxes collected during the first quarter.

He said his office is mailing checks totaling \$6.8 million to 209 counties and 360 cities as their share of the 10 percent gross receipts tax on mixed drinks for the second quarter.

The state's General Revenue Fund will receive the balance, \$16.7 million, of the tax money collected during the quarter.

Texas cities and counties receive a 15 percent rebate of the tax collected on

ROLLING DOWN THE CONVEYORS...One of the workmen at Barrett Produce east of Muleshoe watches potatoes as the vegetable rolls down conveyor belts and divide into the different bags to wait shipment. Although the price of potatoes remain higher than 1979, there has been a rather sharp drop in price in the last few days.

Bailey County Electric Helps Scholarship

Eleven electric cooperatives in the Panhandle and South Plains have joined to establish the West Texas State University Electric Cooperative Scholarship Fund with a gift of \$13,750.

Interest from the endowment will be used to provide scholarships each year to majors in agriculture, accounting, computer information systems and management.

The cooperatives include Bailey County Electric Cooperative Association; Deaf Smith Electric Cooperative, Inc.; Dickens Electric Cooperative, Inc.; Greenbelt Electric Cooperative, Inc.; Lamb County Electric Cooperative, Inc.; Lighthouse Electric Cooperative, Inc.; Lyntegar Electric Cooperative, Inc.; North Plains Electric Cooperative, Inc.; Rita Blanca Electric Cooperative, Inc.; South Plains Electric Cooperative, Inc.; and Swisher Electric Cooperative, Inc.

According to the fund agreement, the donors will

make annual contributions to the West Texas State University Foundation on

Local Duo At Workshop For Dancers

Sheri Hawkins and Cindy Purdy, from Hawkins and Purdy's School of Dance and Gymnastics, attended a three day dance convention in Houston recently.

They attended master classes in ballet, jazz, tap, disco, modern character and pointe. Tammy Manville, who is an Olympic gymnast, also instructed classes in gymnastics floor exercise.

The Summer '80 Gold Tour of Dance Olympus included master teachers Jo Rowan, a ballerina who danced with the Bolshoi Russian Ballet Company; Steven Boyd and Tracey Thomas, who are directors of Frank Hatchett's Company; Lynda Cache, a tap and jazz artist from New York; Anna Marie Leo and Sonny Leo, tap and jazz duo; Art Stone, an international choreographer from Chicago; Tammy Manville, the olympic gymnast from Arizona and the world-famous Nilo Toledo, a jazz choreographer and technician from Florida.

It was reunion time for Mrs. Hawkins and Toledo, as she was a former student of the choreographer.

Friday Fire Burns Weeds, Fence Poles

At mid-afternoon on Friday, members of the Muleshoe Fire Department were called to the Don Strahan Garage at the east edge of Muleshoe on Highway 84.

Firemen spent approximately an hour fighting a stubborn weed fire which consumed weeds, fence posts and scorched highline poles and elm trees.

or before September 1 of each year.

Each donor will contribute a minimum of \$250 until that cooperative has awarded \$1,250.

Scholarship recipients will be selected on a merit basis by a committee which include the dean of WTSU School of Business, dean of the School of Agriculture, and two faculty members each from the business and agriculture faculties.

Lyle Robinson, general manager of the Swisher Electric Cooperative, Inc., of Tulia, which serves portions of six counties, said he believes the cooperatives and WTSU are members of the same community.

"We appreciate WT," said Robinson, who has been with the coop for 21 years.

He said students who leave the rural areas to attend colleges and universities in larger towns and cities often do not return to their home areas.

"We need the young people who love small communities and we feel that

Sheriffs' Office Report

Officers from the Bailey County Sheriff's office arrested one person Thursday on a warrant issued from Plainview.

This week, Bailey County Deputy Sheriff James Williams apprehended two persons who subsequently were charged with driving while intoxicated. Both men were later released on bond.

Back-to-back accidents early Wednesday morning kept DPS Trooper Carey Brooker very busy.

At 4:57 a.m., the Morton's Sheriff's office reported an accident involving a vehicle and a cow four miles north of Enochs, with no injuries.

This accident was followed at 5:44 a.m. with a one vehicle accident five and a half miles west of Muleshoe

County Fair Catalog Being Distributed

4 Local Schools Plan For Opening

Harold Horne, superintendent of the Muleshoe Schools, announces the first day of instruction for students will be Tuesday, August 26.

School officials are now making plans for inservice training, registration, preparations of rooms and many other school-related activities prior to the first day of school.

REGISTRATION

On Thursday, August 21, from 8:30 a.m. - 4 p.m., all students in Richland Hills, Mary DeShazo, Junior High and High School will register on the respective campuses.

All Title I and Title I Migrant personnel will meet with Mrs. Georgia

Pena, director of Federal Programs.

All coaching personnel will meet with Mike Wartes, athletic director.

MONDAY, AUGUST 18

From 8:30 a.m. - 4 p.m. Hartsell Haws, Human Relations Facilitator, will present ways teachers can develop effective leadership abilities.

At noon, a covered dish luncheon will be sponsored by the Muleshoe TSTA and CTA honoring new personnel.

TUESDAY, AUGUST 19

During the Wednesday session, a general faculty meeting will be conducted in the high school cafeteria. Presentations will be made by Superintendent Horne, resource personnel from Education Service Center, professional organizations and a preview of new materials.

At noon, the luncheon will be catered by Southern Seas of Lubbock.

WEDNESDAY AUGUST 20

Mrs. Charlotte Croft, consultant, Nat Williams Elementary School of Lubbock, will train teachers in techniques and strategies of using learning centers in self-contained classrooms.

Mrs. Carol Horne, special education director, will give overview of the Special Education Program for the Muleshoe Independent School District. Teachers will meet in their subject area and grade level meetings. Math teachers in junior high school and high school will meet with Carrol Jan Oates, math teacher from Monterrey High School, Lubbock.

PREPARATION

On Monday, August 25, all teachers will make preparations for opening day and teachers will continue to meet in special group meetings.

First Annual Fair Plans Are Complete

Fair Days are coming to Bailey County. On September 11-13, the first Bailey County Fair will be conducted at the Bailey County Exhibition Center and Coliseum, under auspices of the Bailey County Extension Office.

Coordinating the fair will be Spencer Tanksley, Jim Irwin and Linda Mullin from the County Extension office. They will be assisted by the Bailey County Fair Association.

Eligible to participate will be any person living in Bailey, Lamb and Parmer Counties and agriculture products to be exhibited in the Fair must have been grown in one of these counties.

Tanksley explained that all divisions will be divided into age categories including: Adults - 18 and over and Youth - under 18.

A board of directors has been elected, and they reserve the right to postpone or extend the dates of the fair and make changes in the premium lists. They will interpret all rules and regulations, and add to the rules as they may deem necessary.

A premium list has been compiled, and the catalog shows all the divisions open for showing during the three day fair.

134 Young Men Register Here For The Draft

Muleshoe Post Master Tom Lobaugh has reported that through Thursday, July 31, 134 18-19 year old men have signed up for the new draft registration at the local post office.

This week was to end the preliminary sign-up, with the next registration scheduled within the next few months. After February 1981, all young men will register for the draft on their 18th birthday.

The county agent said all exhibits must be in place by 9 p.m. on Thursday, September 11 and remain in place until 5 p.m. on Saturday, September 13. The fair barn will be open on Thursday morning at 9 a.m. to receive products and the products must be picked up by 6 p.m. on Saturday or Tanksley said the items will be disposed of.

Another ruling shows that all ribbons will be exhibited until the end of the fair on the products winning Cont. Page 6, Col. 3

Fire Razes Gage Home On Saturday

Early Saturday morning, Mrs. Red Chancy woke up at her home south of Muleshoe to a brightly lighted sky.

She said she looked out the window of her home and saw a massive blaze nearby at the home of Mr. and Mrs. Bob Gage.

At first, Mrs. Chancy said she thought the barn was burning, then realized it was the Gage home. She woke up her husband, who called the Bailey County Law Enforcement Center at 4:48 a.m. to report the fire.

Firemen arriving at the home two miles south and around one-half mile west of Muleshoe, found the home totally destroyed at the time they arrived.

It was quickly learned that Mr. and Mrs. Gage were visiting a son in Amarillo.

Burned along with the home were a late model suburban-type vehicle, a motorcycle and a small tractor, all stored in the garage of the Gage home.

Firemen remained on the scene for several hours to keep the fire from beginning to spread to other outbuildings at the Gage farm.

READY FOR SHIPPING...Burlap bags of potatoes are being prepared for shipment at

Ironing Stages A Comeback

As if recession, the energy crisis and the Texas heat wave aren't enough, one home economist announced this week that ironing is staging a comeback.

It's true, according to Nancy Granovsky, a family resource management specialist with Texas Agricultural Extension Service, The Texas A & M University System.

Don't believe it, if you prefer—but if the thought (or the problems) has already occurred, the specialist assures homemakers it's not as bad as it sounds.

In fact, she doesn't mean "wholesale ironing for backbreaking hours"—only "touch up" ironing to give today's natural-fiber garments such as cotton, linen and silk, the look of complete success, along with comfort.

Even easy-care fabrics can be improved with an occasional ironing touch-up.

Granovsky is one of those perpetual optimists -- the kind of person who gently smiles her way through even the most terrifying prospects and gives hope where there cannot possibly be any. This has got to be a classic example.

Anyway she's done it again, and here's what she says about "IRONING" (she gives that air of hope even when she says the word):

"Since many of us packed our irons away when permanent-press clothing appeared on the scene, we may be wondering what kind of irons we need to help care for today's fashions," she begins.

"Despite high rates of inflation over the past six years, irons have changed little in price (she knows the reason for this is we've all avoided them like the plague, but she doesn't give the remotest hint of it)."

"Likewise, few design changes have been made, so old irons will probably work just fine," she continues graciously.

"One new development is the compact steam iron which is lighter and smaller than the standard iron but is not necessarily a bona fide travel iron."

By now her audiences realize she's serious, they are hooked, and they're listening seriously.

"Suppose you have an old steam iron, but it does not seem to be steaming properly," the specialist says anticipating a common problem.

One home remedy you may wish to try is this:

Fill the steam reservoir with distilled vinegar. Plug the iron in and allow it to steam for about 10 minutes.

For the steaming process, place the iron on a metal cake rack so the steam can escape. Be sure to set the rack on a surface that will not be damaged by heat or steam.

Check the steaming process to make certain the iron does not "steam out" before the end of the period.

Unplug the iron, turn the iron upright and let it stand overnight. Then pour out the vinegar and rinse the

reservoir thoroughly with distilled water.

Should you use distilled water or tap water for your iron?

Some manufacturers recommend exclusive use of distilled water. Other manufacturers suggest switching to tap water once in a while. Consumers Union says unless you have extremely hard water or water that is chemically softened, you can use tap water all of the time.

If you're in the market for a new iron, what should you look for?

1. Look for a full range of temperatures and easy-to-read, easy-to-use temperature settings.

Check to be sure that steam can be used at lower temperature settings. Some irons allow steam only at high temperatures.

2. Make sure it has good steam production with extra steam and spray features. The number of vent holes are really no clue to

Make A Vegetable Star

Bring out the rich taste of fresh vegetables with a beautiful glaze and a hearty flavor. Take 3 medium acorn squash, cut in halves, remove seeds and place cut side down, in baking dish with enough boiling water to cover bottom of dish. Bake at 400 degrees for about 30 minutes. Turn cut side up in pan. Then place 1½ tablespoons syrup and ¼ teaspoon butter in each cavity. Sprinkle with salt and nutmeg and continue baking 20 to 30 minutes longer or until squash is tender, basting once or twice with syrup.

Try combining ½ cup syrup with 3 tablespoons butter or margarine in skillet. Bring to a boil and simmer about 2 minutes. Then add 1 pound cooked carrots cut into 3 or 4 inch pieces. Cook, turning frequently, until carrots are glazed, about 10 minutes.

Probably no vegetable goes to the table oftener than does the onion. Whether you're serving it whole or sliced, or using it chopped, diced or grated as a seasoner, the onion is indispensable. We tend to overlook it, however, as the basis of a unique loser cost entree which helps to balance the budget yet provides hearty, good eating.

Scoop out the centers of 4 very large peeled onions which have been parboiled for 10 to 15 minutes in salted water. Chop the centers and saute' in 3 tablespoons butter until tender. Stir in 2 cups finely chopped cooked ham, 2 cups soft bread crumbs and a dash of pepper. Spoon this mixture into onion shells. Meanwhile, simmer ½ cup syrup and 3 tablespoons butter in skillet 2 minutes. Place stuffed onions in shallow baking pan and top with syrup mixture. Bake at 350 degrees for 30 minutes, basting several times with syrup mixture.

the amount of steam produced, so it can be tricky to evaluate steam production without a demonstration.

3. Check to see what weight you will be most comfortable with. Irons should be heavy enough to remove wrinkles but not so heavy that they are tiring to use.

4. Is the cord location convenient for you? Some models permit the cord to suit left-handed ironers.

5. Does the iron have a light that warns when the iron is plugged in? Does the iron have a stable heel rest?

It would seem that ironing is staging a comeback. Will it redeem itself this time?

BIBLE VERSE

"Let your speech be always with grace, seasoned with salt."

1. What is the above verse warning against?
2. Who was the author of the warning?
3. To whom was he writing?
4. Where may it be found?

Answers to Bible Verse

1. A warning against unclean speech, swearing or profanity.
2. Paul, the Apostle.
3. The Christians at Colosse.
4. Colossians 4:6.

Moving Appliances - Keep 'Em Dry 'N Clean

"Dry 'n clean" major appliance before moving them, and crate them properly -- if you really want to keep them, a home economist advises.

That may sound minor, but cleanliness and proper crating may decide if you'll get to keep the appliance after you move -- or have to discard it due to damage, Nancy Granovsky says.

A few extra steps before moving definitely will offset the expense of buying new appliances to replace those ruined in a move just because care tactics were ignored during a move, she adds.

Mrs. Granovsky is a family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Cleanliness is especially important if items will be in storage for a time, she notes.

Mildew can grow on dirty appliances, and that can cause many cleaning problems later -- mildew stains also can mar the appearance of appliances.

Also, grease left on a range can become rancid and sticky.

Of course, appliances kept

in good condition and cleaned regularly will need less work when it's time to move.

CLEAN JUST BEFORE MOVE

Whenever you do the job, make sure all removable parts -- racks, bins, trays, filters, dispensers -- are taken out and thoroughly cleaned just before the move.

Follow care instructions included in the appliance use-and-care manual.

When washing the units, give special attention to crevices, drawer or shelf slides, door or lid gaskets, knobs or handles.

Defrost freezer compartments and clean them. Don't forget to clean the evaporator pan on frost-free refrigerator and freezer units, and vacuum or dust off the compressor unit on all cooling appliances.

Rinse appliances and parts thoroughly. Then dry them.

LEAVE DOORS OR LIDS OPEN AND LET PARTS AIR DRY long enough to ensure complete drying.

Replace clean, dry parts and secure them using masking tape -- or pack them separately.

After appliances have been disconnected, tie up electrical cords. Fasten them securely to the appliance.

CRATE PROPERLY

Consult an appliance service company about any special servicing necessary before a move to prevent possible damage in transit -- some appliances need special crating steps.

Or ask the moving company.

Special crating may include adding braces or inserts to prevent the swaying of a washer tub or motor vibration -- or bolting down a refrigerator motor or compressor.

Finally, arrange for appliance servicing at the new residence -- check with the moving company to see if they will take care of this, or make arrangements with someone at the new location.

Replacement of inexpensive watches may cost less than a repair expense, advises Becky Saunders, a clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

Enochs News
By
Mrs. J.D. Bayless

Carl Hall drove to Plainview and visited his sister, Mrs. Bertha McGaugh and daughter, Dorothy, till Monday. He also attended the Hall reunion at Mrs. McGaugh's home Sunday. Brothers and sisters attending were Carl Hall, Enochs; Mr. and Mrs. Graden Hall of Bovina; Mr. and Mrs. Whitten Barber of Muleshoe; and Mrs. Bertha McGaugh of Plainview. There were 47 in attendance from Wise County, Floydada, Kress, Enochs, Anton, Muleshoe, Bovina, Dallas, Idalou, Clovis, New Mexico, and Plainview.

Timmy McDaniel of Houston flew to Lubbock where his grandparents, Mr. and Mrs. Elwood Austry, picked him up. He will be visiting them for a while.

Mrs. Lee Roy Sandefer of Muleshoe, sister-in-law of Dale Nichols, underwent surgery in Lubbock Friday and her children, Shannon and Lee Ann are staying with their aunt, Mr. and Mrs. Dale Nichols, while their mother is in the hospital.

Scott Peterson remained after his parents went home for an extended visit with his grandparents, the Buford Petersons. Another grandson, Koby Abney, of Three Way came over to visit with them also Sunday.

Mr. and Mrs. Loyd Pollard's grandchildren, Lance and Tanya of Littlefield and Wade and Brian of Whiteherrell, all spent the week with them.

Mr. and Mrs. Johnny Boyce spent the weekend with her parents, Mr. and Mrs. Ervin Koelder at Cotton Center. Johnny's sister, Lanell Boyce, spent Monday night with them.

Paula and Mike Nichols drove to Canyon Monday afternoon and spent the night with her brother, Mr. and Mrs. Donnie Nichols.

Officer Dr. G.O. Smith has been appointed as home chairman 7 A Region V.2.1. the Club consists of Bula-Enochs, Morton, Whiteface and Sundown. Lion Bradford Harris is deputy district governor of the region. Lion Boss Jerry Cox and Secretary G.O. Smith attended the first Cabinet meeting at Matador on July 20. They reported a good meeting directed by District Governor Marshall W. Cooper of Girls Town USA of Whiteface.

Mr. and Mrs. Goldman Stroud's grandchildren, Kim and Shayne Dickey of Lubbock and Marla Trull of Bledsoe are visiting them.

Visitors at the Baptist Church Sunday were Scott, Stephanie and Steven Peterson of Hillsboro. Leslie

Debusk, Koby Abney of Three Way, Shannon and Lee Ann of Muleshoe and Mr. and Mrs. Harold Carpenter.

Mrs. Goldman Stroud attended the funeral of Mrs. Floy Kirby at 10:30 a.m. Monday in Muleshoe. Burial was in the Morton Cemetery.

Mrs. Winnie Byars and her sister, Mrs. Ruby Nichols, drove to Marina, Arizona last Wednesday and visited their sister, Mr. and Mrs. J.D. Henley, till Saturday. They also visited friends and relatives at Tucson, Arizona. They drove to Albuquerque, New Mexico Saturday and spent till Monday visiting friends and relatives and did some sight seeing. They stayed with Mrs. Myrtle Hall and Mrs. Jack Bridges. They brought Mrs. Nichols' grandsons, Don and Dennis home with them.

Mrs. J.D. Bayless attended the services of Mrs. Fernie Bell of Muleshoe Thursday at the Singleton Ellis Chapel of the Chimes. Burial was at Springlake Cemetery.

Sunday dinner guests in the home of Mr. and Mrs. Chester Petree were her sisters, Mrs. Clara Williamson and Mrs. Audry Hill of Lubbock.

The youth meeting was at the fellowship hall of the Baptist Church. Those attending were Patricia Brown, Maribel Zormora, John Snitker, Rev. and Mrs. Mike Heady and Travis. They had Bible study and played games.

Mr. and Mrs. Bob Newton and son, Mr. and Mrs. Steve Newton, spent last weekend at Proctor Lake.

Loyd Crosby of Littlefield visited the Jack Austins the past week.

Mr. and Mrs. Loyd Pollard and their sons, Larry and Lamar and their families, Mr. and Mrs. Harold Pollard and their son, Steve, and their daughters, Mr. and Mrs. Joel Sinclair, Mr. and Mrs. Tommy Lewis and families attended the annual Pollard family reunion at Clovis, N.M. park last Sunday. They have met at the park for their reunions for the past 27 years. They enjoyed the day visiting and the children enjoyed fishing.

Mrs. Carolyn Snitker of Sunray visited in the home of Mr. and Mrs. Goldman Stroud last Sunday and attended the services at the Methodist Church.

Billy Newton spent last week with his grandparents while his parents, Mr. and Mrs. Steve Newton went on their vacation to Las Vegas, Nevada.

Gerry Fulton of Lubbock spent a few days with Marcus Huff recently.

Visiting in the home of

Mr. and Mrs. Clifford Snitker Monday afternoon were Mr. and Mrs. Hoyt Crane of Childers.

Company in the home of Mr. and Mrs. J.W. Layton Saturday afternoon was a grandson, Mr. and Mrs. Jackie Maze of Lubbock.

Mrs. Robert George and Brent of Lubbock spent a couple of days with her parents, the E.N. McCalls last week and helped with some work.

LOUISA'S LETTER

Dear Louisa,

We have always been a close family and enjoyed visiting and being together on special days. Now my problem is this: I married a man who works for a company that is always moving us around. We get settled in one place, the children make friends and get accustomed to school and then we have to pack up and leave for somewhere else.

Don't you think it would be better if he could get a job in some place where we could have a permanent home?

Confused--N.J.

Answer:

There is no quick answer to your problem as many things in such a case should be considered.

I realize that children

seem to have a more secure feeling if they live in a permanent home among people they know and love but I also realize that, if the family ties are close, and there is love and consideration among the members that these things can also give a feeling of security.

As to your husband's job --is it something that he enjoys doing and does each move mean a promotion? If that is so it may be a mistake to insist on him taking a job he dislikes just to keep from moving around.

On the other hand, if he is able to find a job which he likes as well as the one he has it may be a good move to settle in one place.

Louisa.

Address: Louisa, Box 532, Orangeburg, S.C. 29115

Mrs. Mickey Price Honored With Bridal Shower

MRS. MICKEY PRICE

Mrs. Mickey Price (nee Karen Franklin) was honored with a bridal shower July 24, at 7:30 p.m. Mrs. John Street greeted the guests.

WOTS Met Thursday

WOTS, "Women Of Talk Station", met Thursday, July 31, in the meeting room of Tri-County Savings and Loan for a covered dish luncheon. Helen Williams, Lois Martinec and Meldrid Williams were the hostesses.

Local ladies attending were: Jackie Self, Nora Flanary, Desi Toler and son Phillip, Jo Ann Flanary, Jo Radney, Faye Welburn, Betty Garker, Zelma Toler and Lola Goodrich.

Rhonda Carney and children, Candy and Corey, Cindy Fox and children, Jerry and Chris, Teresa Corney, Paula Corney and children, Cinimin and Amber and Gina Corney, all of Littlefield.

Also present were Remona Engram of Sudan and Pat Davidson of Clovis. Guests present were Mary Jo Lemons of Littlefield, Sandy Frazier of Clovis and Virginia Wyre of Muleshoe. Zelma Toler and Faye Welburn will be the hostesses for next Thursday's meeting.

Next Thursday Erald Gross will give a demonstration on china painting.

The serving table was covered with a pink satin cloth with a lace overlay. A marble and gold candelabra accented the table. Mrs. Price's corsage was made of pink carnations and baby's breath.

Renee' Rudd served pink cookies, punch, nuts, and mints from crystal appointments.

Mrs. Bill Franklin of Muleshoe, Mrs. Novella Price of Earth, and Mrs. G.B. Hinders of Amarillo were special guests.

The hostesses gift was a vacuum cleaner. Hostesses for the occasion were: Becky Street, Tonya Magby, Linda Tosh, Lillian Street, Mary Janice Brantly, Jan

DRUG QUIZ

by Curt Scarborough, Ph.D.
Used by permission; all rights reserved by DATE, St. Louis, Mo.
QUESTION - What should parents look for to determine if their children are on drugs?
ANSWER - Here are possible signs of drug abuse, but they also may be symptoms of other physical or emotional difficulties.

1. Fluctuation in the width of the pupils of the eyes not accounted for by changes in light.
2. Laughing excessively at things no one else thinks are funny.
3. Tendency to sit looking off into space.
4. Appearance of intoxication with no smell of alcohol.
5. Staying out longer hours than usual and giving evasive answers when questioned about it.
6. Avid reading of books and articles dealing with the drug culture.
7. Loss of appetite, perhaps with rapid loss of weight.
8. The reverse - an increase in appetite; wild forays on the refrigerator.

QUESTION - According to the Third Annual Report to Congress from National Institute on Alcoholism and Alcohol Abuse, 205,000 deaths per year in the United States are related to alcohol use. What percentage of Americans die annually from alcohol-related problems?
a) 1%
b) 6%
c) 11%
d) 16%

ANSWER - One out of every nine deaths (11% of the 1.9 million deaths in 1975, for example) were caused by alcohol.
Correct answer - c.

Do you have a question or a comment about drugs? Write: TANE Texas Alcohol-Narcotic Education, Inc., 6778 Greenville Ave., Dallas, Texas 75231

Springfield, Evelyn Pope, and Awyna Cox.

Also Wilma Magby, Renee' Rudd, Sharon Gardner, Sheryl Altman, Tyree Wagnon, Linda Bullock and Frankie Iunsford.

Hobby Club

The Muleshoe Hobby Club met Thursday July 31 at the Muleshoe State Bank reception room in an all day meeting, with 16 members and four visitors present.

Those attending were: Dollie Harmon, Modine Elmore, Fessie Hall and Delsie Hunt, visitors, and members Myrtle Chambliss, O-pal Robinson, Tallie Briscoe, Levina Pitts, Myrtle Wells, Fiddle Shafer, Mabel Caldwell, Ruth Williams, Sammie Etheridge, Mae Loyd, Ethel Julian, Jo Wilson, Veta Self, Jessie Sherwood, and Marie Col-lum.

A luncheon was served at noon. Jo Wilson demonstrated clothes pin chair. Mabel demonstrated wheat weaving.

Articles on display were crochet lace pot holder and towel, old charcoal burning smoothing iron, copper scene with windmill, egg carton and yarn dog, clothes pin chairs and wishing well, draw string crochet yarn pillow, cockle bur dogs and block glass swarn.

The next meeting will be August 7, with Tereina Pitts as hostess.

Ohio Family Visits Mr. And Mrs. Tom Watson

Visiting in the home of Tom and Mary Watson the week of July 21st were Mary's brother and family, Mr. and Mrs. John Crum-rine, seven year old son, Tom and four year old daughter, Laura of Tiffin, Ohio.

The Crumrines travelled the 1,300 miles by car and stopped at many historical places along the way. While visiting with Tom and Mary, the Crumrines enjoyed a Texas style barbecue, many other southern dishes and Mexican

food, went to Portales to eat at the Cattle Baron Restaurant and to Clovis to the zoo and park and to eat at El Monterey.

All the Crumrines were very interested in this area, having never been here before. The children loved the abundance of sand.

He is Project Manager for the Honey Creek Watershed Management Project and employed by the Seneca Soil and Water Conservation District in North Central Ohio.

While in Muleshoe, Crumrine visited with local representatives of the Blackwater Valley Soil and Water Conservation District.

Small Rooms Look Larger

Make small rooms look larger by "wall washing" -- lighting a larger area of wall, says Dr. Jane Berry, a housing and home furnishings specialist.

Such lighting draws attention toward the boundaries of the room.

Wall-washer fixtures light the wall smoothly from top to bottom and may be recessed, surface-mounted or portable, she says.

Dr. Berry is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Pat Walker's deserves a bouquet - they helped me lose 24 pounds!

Becky Hendricks' True Story:

Me, hiding in my oversized raincoat.

It seemed like everyone who came into my family's store asked me if I was putting on weight. That hurt my feelings, but I knew I had gained too much. Although I'm tall (5'10"), I couldn't excuse 164 pounds.

When I saw a newspaper ad for Pat Walker's salon close to my Stockbridge, Georgia

home, I went in for a complimentary treatment. From my very first visit, I liked the encouraging attitude of the counselors. They taught me so much about how to eat sensibly, without denying myself my favorite foods.

I really like relaxing on Pat Walker's passive exercise unit, too. Those sessions (2 or 3 times a week) kept my figure smooth and firm while I lost 24 pounds and a total of 30 inches.

Now, everyone compliments me on how good I look. I tell them I couldn't have done it without Pat Walker's.

Free Figure Analysis

Make an appointment now for a free, no-obligation consultation at Pat Walker's. We'll explain how our program works, from the no-muss, no-fuss passive exercise treatments to our belief in your right to privacy. We'll tell you how much you need to lose, how long it will take, and the total cost of your complete figure correction, based on four dollars per thirty-minute treatment. CALL NOW!

Muleshoe Twisters Gymnastic Team

Attends Gymnastic Camp

Twenty gymnasts, both boys and girls from Hawkins and Purdy's School of Dance and Gymnastics, attended Texas Summer Gymnastic Camp in Kerrville, Texas along with their coaches Cindy Purdy and Sheri Hawkins. The gymnasts received instruction in balance beam, vaulting, floor exercise, dance, uneven bars, and power tumbling. The male gymnasts received instruction on rings, side horse vaulting, pommel horse, high bar, parallel bars, floor exercise and power tumbling. The staff included Texas' most elite coaches Kenny Vineyard from Arlington, Mark Yancey from Houston, and Pat Hamilton from Arlington. The director of the camp was the Women's Olympic Coach in the 60's and has been on the Olympic staff since. Pat Yeager and his wife, Nikki, have been directors of the camp for six years. Other staff members were Coach Tom Lewis of Bryan; Coach Rich Trevino of El Paso; Coach Jerry Strickland of Amarillo; Coach Jimmy McDaniel who is a student of Kurt Thomas from Arizona State University and Susan Hill from Weatherford. The staff also included 16 other coaches from all over the states of Texas, New Mexico, and Arizona.

All of the gymnasts won the merit camper award. Each gymnast had to show excellence in seven different areas to be a merit camper. Sherri Bessire, daughter of Mr. and Mrs. Travis Bessire, won twenty merits; K - K Flowers, daughter of Mr. and Mrs. Charles Flowers, won 20 merits; Tonda Gunstream, daughter of Mr. and Mrs. Tommy Gunstream, won 19 merits; Krystal Angeley, daughter of Mr. and Mrs. Tub Angeley, won 10 merits; Caroline Liles, daughter of Mr. and Mrs. Bill Liles, won eight merits; Chandra Engleking, daughter of Mr. and Mrs. Jerry Engleking, won 15 merits; Lisa Black, daughter of Mr. and Mrs. Ronnie Black, won eight merits; Cynthia Lane, daughter of Mr. and Mrs. Lionel Lane, won nine merits; Michelle Finney, daughter of Mr. and Mrs. Bob Finney, won seven merits; and Britt Engleking, daughter of Mr. and Mrs. Jerry Engleking, won six merits.

Michael Angeley, son of Mr. and Mrs. Ken Angeley, won nine merits; Wes Hanks, son of Mr. and Mrs. Kenneth Hanks, won seven merits; Van Gregory, son of Dr. and Mrs. Jerry Gregory, won seven merits; Jay Hawkins, son of Mr. and Mrs. Richard Hawkins, won seven merits; Brett and Lance King, sons of Mr. and Mrs. Max King, each won seven merit awards; Greg Young, son of Mr. and Mrs. Jim Young, won seven merits; and AJ Liles, son of Mr. and Mrs. Bill Liles won 10 merits. Kristi Campbell, daughter of Mr. and Mrs. Buck Campbell, won the 1980 Outstanding Camper Award. Besides winning her 20 merits, she was chosen

by the camp staff for her dedication, leadership, and achievements to receive this award. She was given a gold camp pin. Todd Bessire, son of Mr. and Mrs. Travis Bessire, also received the 1980 Outstanding Gymnastic Camper Award. Todd was also chosen by the camp staff for his dedication, leadership, and excellence in achievement and received a gold camp pin. Mrs. Cindy Purdy was chosen as the Outstanding Visiting Coach. Mrs. Purdy attended a coaches symposium the entire week. She was presented a silver camp award pin from Avery Jewelers by the entire camp.

Food Facts And Fallacy

Shoppers in a nationwide survey were asked whether vitamin C added to a fruit drink gives the same benefit as an equal amount of vitamin C from fresh oranges. Sixty percent of the shoppers answered "no". But they were incorrect.

The fact is that natural and added vitamin C give the same benefit. Chemists and pharmacists have said for years that any vitamin has the same properties whether it is natural or "synthetic". Vitamins are the same chemical substances no matter where they are found.

Forty-one percent of the food shoppers incorrectly thought that people cannot stay healthy if they never eat meat, poultry or fish. In truth, people can stay healthy if without eating these protein sources if they eat alternative foods such as milk, cheese or eggs. Dairy products not only provide high quality protein, but also essential nutrients such as vitamin B12, calcium, vitamin D and riboflavin.

A large number of shoppers interviewed -- approximately 4 out of every 10 -- agreed with the statement, "If you just eat a variety of foods from the supermarket you will get enough nutrition." Eating a variety of foods is important, but it's not the same as selecting the appropriate foods for a nutritionally-balanced diet.

Selecting food for nutritional value means choosing from the four food groups of vegetable/fruit; bread/cereal; milk/cheese;

meat/eggs, according to Dairy Council, Inc. dieticians. Selection as well as variety is the key to preparing nutritious meals.

Almost a fourth of the food shoppers interviewed believed that anyone who weighs the right amount is receiving proper nutrition. Proper weight is important to good health, but cannot reveal vitamin and mineral deficiencies. The American Dietetic Association has gathered a list of commonly accepted food fallacies. The following fallacies and facts are from that list. Fallacy: Toast has fewer calories than bread. Fact: Toast is bread that has been dried and browned. Toasting decreases the water content but does not change the calorie count since water has no calories. Fallacy: Margarine contains fewer calories than butter. Fact: This is not true. The calorie content of a weight of butter is exactly the same as the calorie content of an equal weight of margarine. Fallacy: Grapefruit in the diet burns up calories. Fact: No single food has weight reduction properties. Limitations of the diet to one food will no doubt enable one to lose weight, but the body's nutritional health cannot be maintained on any one food.

BESSIRE AND CAMPBELL 1980 OUTSTANDING GYMNASIIC CAMPERS... Todd Bessire and Kristi Campbell received the 1980 Outstanding Gymnastic Camper Award at the Texas Summer Gymnastics Camp in Kerrville. Mrs. Cindy Purdy was presented the Outstanding Visiting Coach Award.

A 'Crash Course' For Fender Benders

In the minutes following a fender bender, there's a lot to be done -- determining whether anyone has been hurt, calling the police, moving the involved cars away from traffic, assessing damage, etc. And since it's also an emotion charged time, it can be difficult to remember everything you should do. Later, when it's time to file an insurance claim, or perhaps prepare for a court appearance, you might find yourself wishing you'd asked a few more questions or

recorded some additional details. To help avoid this problem, Jim Gelhard, assistant vice president of claims at CNA Insurance, has provided a handy checklist of things to be done in the event of an automobile accident. He suggests you cut the list out and keep it, along with pencil and paper, in the glove compartment of your car. Then if you have an accident, you can quickly review it and obtain all the information you need.

What To Do After An Accident

- Write Down
 - Date, time and place of the accident.
 - Names, addresses, and telephone numbers of all other drivers in the accident.
 - The insurance agents and companies of those drivers.
 - All passengers and where seated.
 - Make, model, year and license numbers of all other cars involved in the accident.
 - Prevailing weather conditions (clear, foggy, icy, wet).
 - Your speed -- and that (approximately) of the other car when the accident occurred.
 - Brief account of accident.
 - Evidence (if any) that the other driver might have been drinking.
 - Whether the other driver's license lists any restriction that would be relevant. (For example, was he/she wearing glasses as required?)
 - Evidence of injury to anyone involved in the accident.
 - Location of the cars on the road (on the berm, across the lane, on the divider).
- Name badge number, and station number of the policeman who arrives at the scene.
- Remember
 - Don't indicate how much insurance coverage you have.
 - Don't confess guilt even if you feel you were at fault.
 - Don't sign anything which might indicate that you are not physically injured. (Some injuries are not immediately apparent.)
 - Call your insurance agent and report the accident even if the damages are minor and you intend to pay for repairs yourself. Your insurance company may require that you report any accident in which you are involved within a certain period of time. If you don't report it, and the accident turns out to be more serious than you originally thought -- if the other driver develops a whiplash injury, for example, your insurance company may be able to disclaim coverage.
 - After leaving the scene of the accident, refer any inquiries from others involved in the accident to your insurance agent.

CERTIFICATE OF APPRECIATION... Joy Stancell presented Glenda Jennings, Bro. and Mrs. Crenshaw a "Certificate of Appreciation" for the work they have been doing at the nursing home. Glenda Jennings has been going to the nursing home once a week for two years to have a sing-a-long. She is the wife of Darrell Jennings of Lazbuddie. They have a daughter, Jonesee. She is a member of the Lazbuddie Methodist Church. Bro. and Mrs. Crenshaw, pastor of the Lazbuddie Methodist Church, have been going to the nursing home for about a year. Bro. Crenshaw supports the singing with his bass. Mrs. Crenshaw plays the piano. They have two children and a granddaughter.

HAVING FUN AT THE CARNIVAL....Mr. and Mrs. Danny Kelley and their two children made it an evening at the Carnival Wednesday. The Kelley children had fun riding the various children rides at the annual carnival in Muleshoe, and the parents had the fun(?) of paying for their children's enjoyment.

EMPLOYEE OF THE MONTH....Thursday morning, Carson Clayton, member of the Board of Directors for the Muleshoe Chamber of Commerce and Agriculture, presented an Employee of the Month certificate to Sherry Embry of the First National Bank for May 1980.

Texas Crop Conditions Worsen; Losses May Reach \$2 Billion

AUSTIN—Stating that the situation throughout much of the state is growing steadily worse, Agriculture Commissioner Reagan V. Brown has reported that his previous loss estimate of \$1 billion in dryland crops and rangeland may well double if appreciable moisture and normal temperatures do not come soon.

Commissioner Brown made his remarks before touring drought-stricken

Muleshoe...

Lana (Washington) Huff was named to the dean's honor roll at Texas Tech University for the first summer session. She is the daughter of Mr. and Mrs. George Washington. She is seeking a B.A. Degree with a major in advertising.

Electric...

many of these will be coming from WT," he said. "We need to bring people back to the rural towns."

Representatives of cooperatives in Texas, Eastern New Mexico and the Oklahoma Panhandle met on the WTSU campus for the annual meeting in January.

farmland near Denton with President Jimmy Carter and other state officials July 21. Brown presented a situation report to President Carter on the potential for losses in Texas agriculture caused by the heat wave and the possibility that dry conditions will prevail during the remainder of the season.

During the tour, Brown urged President Carter to expedite federal assistance to help ease the plight of Texas' farmers, including making available low-interest federal disaster loans, declaring a moratorium on federal loan repayments and expediting emergency feed programs for farmers and ranchers.

"Texas crops in the past have come through some very severe weather, so it is difficult to estimate drought damage statewide, especially since it is early in the season for some crops," Brown said. "But crop and livestock losses are mounting daily."

"Rain can change a situation quickly, but ranges and pastures are getting close to the 'point of no return.' With normal yields for the dryland acreage of cotton, sorghum, corn, peanuts, and soybeans, the crops would be worth about \$1.8 billion.

Summer crops are planted on nearly 14 million acres without irrigation. Sixty-six percent of the state's cotton crop is on dryland. However, 73 percent of the state's production is harvested on the High and Low Plains, and 41 percent of the cotton there is irrigated.

FOOD MARKETING ALERT

USDA Agricultural Marketing Service

SPECIAL ALERT: USDA's AMS suggests that consumers make full use of abundant Pork, Potatoes and Onions this August. Supplies are plentiful.

As of mid-July, the August supply situation looks like this...

RED MEATS

Pork... plentiful. August output to be 3-5% above high rates of a year earlier and 18-20% above 1977-79 August average.

Beef... adequate, although supplies are down substantially from high levels of recent years. Production to be about the same as August 1979 but about 8-10% below 1977-79 August average.

POULTRY & EGGS

Broiler-fryers... plentiful. Marketing rates to be 2-4% below last year's record, but about 6-8% above 1977-79 August average.

Turkey... plentiful, with supplies 18-20% above year earlier and 28-30% above 1977-79 August average. Cold storage holdings at beginning of month to be 35-40% larger than year earlier, while new-crop turkey output to be 2-4% above last August.

Eggs... plentiful. Output to be 1-3% lower than August 1979 but 1-3% above 1977-79 August average.

MILK & DAIRY PRODUCTS

Milk and dairy products... plentiful. Milk output will be down from the May-June seasonal peak, but should stay above year-earlier levels. While commercial stocks of dairy products will be declining seasonally, they should be adequate.

Terminology Used: PLENTIFUL — More than enough for requirements. ADEQUATE — Enough to meet normal

needs. LIGHT — Less than adequate; not enough for normal needs.

FRUITS, VEGETABLES & NUTS

Fresh peaches... plentiful. Supplies to be past their peak, but available in all parts of the country. California nectarines... plentiful from record crop. **Fresh plums** from California... plentiful, with output down from last year, but quality good and fruit sizes large.

Fresh grapes... plentiful, with fresh shipments increasing during August. **Fresh Bartlett pears**... adequate. Harvest to be underway in major producing areas during month, with supplies increasing.

Fresh limes... plentiful. August will be a heavy-volume month for the record large 1980-81 crop from Florida. **Fresh lemons**... plentiful, with summer supplies expected to be larger than during past two years. **Fresh oranges**... adequate. Canned, frozen, and chilled citrus juices... adequate.

Melons... adequate. More honeydews will be produced than last summer, but somewhat fewer cantaloupes. This summer's watermelon harvest will be down considerably from harvests of the past several years.

Raisins and dried prunes... plentiful. The 1979 raisin crop is largest since 1947, while 1979

other types. Eight classes are open for the hay category. For vegetables in the horticulture division, a total of 33 classes are listed in the division, along with eight classes of fruit.

A special category would cover ornamental gourds, the largest or most unusual crop and sunflowers. Culinary will have several categories, including 11 classes of breads; 15 classes of cakes; 12 classes for candy; six classes for cook-

ies; eight classes for pies and five classes for professionally decorated cakes and the same number of classes for non-professionally decorated cakes.

Canned fruits and vegetables are always a popular division, and include fruits, vegetables, pickles, preserves, jellies, jams, and butters.

Included in the textile division are applique, embroidery, liquid embroidery, crochet, knitting, needlepoint, quilts and

dried prune output was 1% larger than 1978 but 6% smaller than 1977.

Potatoes... adequate. Summer crop to be 16% less than last summer and 14% below 1977-79 average. **Onions**... adequate. Output of summer non-storage onions to be 11% above light crop of year earlier and 4% above 1977-79 average. Other fresh vegetables... adequate, overall. Harvest of 14 principal vegetables this summer is from about the same amount of acreage as a year earlier. This summer's acreage exceeded last summer's for cabbage, celery, sweet corn, and green peppers, was about the same for tomatoes, but was somewhat less for carrots and lettuce.

Canned vegetables, including snap beans, beets, carrots, sweet corn, green peas, sweet-potatoes and spinach... plentiful, but lima beans, tomatoes and tomato products... adequate. **Frozen lima beans, snap beans, broccoli, carrots, and green peas**... plentiful. Most other major frozen vegetables... adequate, except cut sweet corn and spinach... light.

Peanuts... plentiful. End-of-May commercial stocks were 2% above last year.

GRAINS & LEGUMES

Rice... plentiful. The 1979 crop was 4% above 1978's and 20% above 1976-78 average. Acreage planted for the 1980 crop is 10% larger than in 1979.

Dry beans... plentiful. The 1979 crop was 9% above 1978's and 16% above 1976-78 average. Plantings for the 1980 crop are up 25% from 1979.

Dry split peas... adequate. The 1979 crop was 43% below large 1978 crop and 8% below 1976-78 average. Acreage planted to peas this year is same as 1979.

comforts, rugs, tating, women's clothing, men's clothing and children's clothing. Crafts and hobbies will include various holiday decorations and items for the Holiday Parade; macrame; both professional and non-professional framed pictures and a miscellaneous show which will include ceramics; dolls; dried flower arrangement; fabric flowers; keepsake boxes; jewelry; tole painting and many other craft items.

Catalog...

Cont. from Page 1

places. Also, the ribbons and banners, will be presented for first through third place wins and a purple rosette will be awarded to the best exhibit in each category for youth and adult divisions, if there are two or more entries in each category.

Field crops will include four classes of cotton; three categories for corn and two for grain sorghum.

A total of 20 classes are open for grains and seeds, including wheat, oats, peanuts, field peas, alfalfa, soybeans, sunflowers, blackeyed peas and many others.

In bundles for forage, the six categories include alfalfa, soybeans, sweet sorghum, peanuts, millet and

Variety Of Nutrious Foods Available

Because of the highly developed technology of today's food industry, we have a wide variety of nutritious foods available to us throughout the year. Our food supply is strikingly more varied and abundant than that of our forebears. Today's sophisticated commercial processing methods safeguard our food supply, preserving nutritional value, in both transport and storage.

In the past, home preservation made nutrient losses from food hard to control. Today food processors are able to pick vegetables, for example, at the peak of their ripeness, when they have the best nutritive value and flavor. The fresh produce is transported immediately to a nearby plant, quickly blanched and frozen. The nutrient content of these vegetables may actually be greater than that of so called "fresh" vegetables which might have been harvested a week or more before they reach the market.

The majority of the foods we eat have been processed. In the simplest

terms, anything done to a food, beyond simply washing and sorting, qualifies it to be classified as processed. For example, a fresh orange is unprocessed-bottled orange juice is processed. Raw milk is unprocessed-pasteurized milk is processed. Most foods found in today's supermarkets are processed foods.

Almost all processing of food, whether done in the home or by a food manufacturer, affects the nutritive value to some extent. Heat processing has little effect on the protein, carbohydrate, fat or mineral content of a food but may alter the vitamin content. For example, truly "fresh" green peas, cooked at home under ideal conditions, will lose about 55 percent of their vitamin C content. This is not much less than the 60 percent loss of vitamin C in commercially processed frozen peas, cooked at home, or the 65 percent in canned or dried peas, cooked at home.

Our foods may be processed for many reasons, including preservation, reduction in preparation time

and flavor enhancement. The food manufacturer may also take steps to improve the nutritional value of a product. Vitamin D, for example, is often added to milk because it aids in the utilization of the calcium present in the milk. Margarine, usually eaten as a replacement for butter, is fortified with vitamin A in an amount equal to that found in butter. Since 1941, after educational campaigns failed to persuade people to select whole wheat bread over white bread, several vitamins and iron have been added to most white bread and flour to help prevent a deficiency of these nutrients in our diet.

So called "convenience foods" are always processed. They may or may not also be fabricated foods. In a recent USDA study, "Convenience Foods and Home Prepared Foods", a "convenience product" was classified as any food other than a fresh or ingredient food. Fresh foods included unprocessed food items such as meat, produce and eggs. "Ingredient foods" were processed products frequently used in food preparation, and included flour, sugar, milk, cheese, margarine, spices and plain pasta. In this study, "convenience products" represented about half the sales of food purchased for the consumption at home, and included mixes, frozen and canned foods.

With the present knowledge of food chemistry—that is, knowledge of the many components that make up our food—food technologists are able to combine ingredients to create new foods that are similar to traditional foods. These foods are often referred to as fabricated. They may have a longer shelf life; be less expensive or have desirable dietary or other attributes that their "unfabricated" counterparts do not have. Examples of fabricated foods include non-dairy whipped toppings, bacon analogs and powdered soft drink mixes. The components or ingredients that make up a fabricated food may be "natural" or synthetic.

Synthetic components are frequently exact duplicates of components or substances which occur naturally in food.

Texas Food and Fiber

Texas Department of Agriculture
Reagan V. Brown, Commissioner

THE ALCOHOL FUELS INDUSTRY in the United States may be in danger of "falling through the cracks" if it does not receive at least a fair chance to prove its potential, Agriculture Commissioner Reagan V. Brown said recently.

In an address to a major alcohol fuel symposium at Texas A&M University, Brown said, "Economic feasibility will be the bottom line in the success or failure of the alcohol fuel industry. So far, solid, unbiased information to help make this determination has not been available."

"We must determine once and for all the full and true potential of alcohol-based fuels," he said. "This will require private and public support, including a broad base of support from our Legislature, our Congress, and our public officials."

Brown stated that this support should include reasonable start-up incentives for the fledgling industry, as well as a percentage of synthetic fuels research and development funds based on the estimated contribution of alcohol fuels to meeting the nation's energy needs.

"We are playing Russian roulette with our own national security and our national economy if we don't encourage the full exploration of the potential of all alternate energy sources," he said. "This must include broad-based conservation of our existing resources, a full evaluation of biomass including the production of

alcohol fuels and gasohol, and adjusting our highly efficient and productive agriculture industry to produce food, feed, fiber, energy and chemicals."

It is sobering, Brown stated, to realize that approximately one-half of all motor vehicles on our highways today are operating on fuels produced from imported oil. The estimated drain on the American economy from purchasing this foreign petroleum will be over \$90 billion in 1980.

"Not only are 53 members of our diplomatic corp in Iran being held as hostages, but in a sense our nation is an economic hostage of the OPEC countries," he said. "This places us in a highly vulnerable and intolerable position."

There have been many false starts with alcohol fuels in the past, Brown noted. However, it is crucial that the United States not lose the momentum which now exists to fully test the potential of alcohol fuels.

There are several apparent basic advantages of alcohol fuels, including those of being compatible with existing vehicles and engines, of being environmentally clean, and of providing additional markets for agricultural products in times of surplus.

Brown noted that the value of U. S. agricultural exports has increased 5.3 times since 1977, but the cost of this country's oil imports has increased 25.9 times during the same period.

FRESH PEACH COCKTAIL

- 1 C. fresh washed peaches
- 1/4 C. sugar
- 1/4 C. unsweetened
- 1 pt. vanilla ice cream
- chilled pineapple juice
- 3/4 C. milk

In blender, place peaches, pineapple juice and sugar. Blend on high speed until smooth, approximately 10 seconds. Add ice cream and blend until softened. Then add milk, blending only until mixed. Serve in chilled glasses. Serves 2.

Stop and remember that changing times and technologies do not change the basic needs of people, reminds Diane Welch, a family life education specialist. Mrs. Welch is on the home economics staff of the Texas Agricultural Extension Service, The Texas A&M University System.

Three Way News

By Mrs. H.W. Garvin

Mike Sowder, son of Mr. and Mrs. Joe Sowder, returned home last week from Scotland where he has been

working in the mission field.

Mr. and Mrs. Rayford Masten were in Seymour last week on business.

Mr. and Mrs. George Tyson were in Amherst Tuesday entertaining the Senior Citizens.

Mr. and Mrs. B.W. Oxford from Clarendon are visiting their son the Roy Oxford family.

Mr. and Mrs. Rayford Masten attended a cousin party in Sudan Saturday night and the Masten reunion Sunday.

Mrs. Jack McCarty and children from Littleton, Colorado are visiting her parents, the Joe Sowders.

The community received rain Sunday morning. Amounts varied from one inch or less.

Mr. and Mrs. George Tyson spent Thursday until Saturday with their daughter, the Tommy Durhams, in Lubbock.

The Joe Wheeler family returned home Friday from Brownwood where they have been visiting with their son who is an accident patient in the hospital. Danny Wheeler is recovering at this time.

We wish to express our sympathy to the Reuel Kirby family on the death of his mother, whose funeral was held Monday in Muleshoe with burial at Morton.

Robert Kindle is a patient in the Littlefield hospital.

Mr. and Mrs. Jack Hodnett and family spent the past week in Fort Worth attending the State horse show. Shonne won 10th in the barrels.

Egg License Renewals Due by August 31

AUSTIN—Egg producers who do business in Texas must renew their annual operating licenses with the Texas Department of Agriculture by Aug. 31, reminds Agriculture Commissioner Reagan V. Brown.

"It is important that licenses be renewed within the time limit, since we are required to stop the sale of eggs packed in cartons bearing expired license numbers," said Brown. "License fees are based on the volume of eggs handled, so I urge producers to carefully determine their volume business to avoid paying too much," he added.

If a dealer finds he will be unable to comply with the deadline, he should contact the Texas Egg Law Section at (512) 475-3518, said Brown. Producers also are asked to give notice if, for some reason, they do not plan to renew.

Under state law, the Texas Department of Agriculture issues permits to all egg retailers, wholesalers, processors and dealers who operate within the state.

Using funds collected through the program, the Department administers extensive state-wide quality control inspections at both retail and packinghouse level. The Department also fields a team of expert egg specialists who help Texas egg packers solve costly breakage problems and other quality control difficulties.

The Texas Egg Law was brought about at the urging of the Texas egg industry. It is a self-help program which has dramatically reduced the number of bad eggs reaching the consuming public. Out-of-state producers who dumped inferior eggs in Texas were responsible for most of that

problem. Today, all eggs sold in Texas are judged by the same strict quality standards.

Last year, Texas ranked ninth in the nation in egg production, Brown noted. The top counties in Texas were (in order of ranking): Gonzales, Camp, Shelby, Denton, Caldwell, Fayette, Brazos, Nacogdoches, Bexar and Garza.

By Bill Wooley

More necessary than any tractor, more important than the best fertilizer, more critical than the highest developed hybrid, needed more than the most modern technology . . . in fact, as important as the land itself is the endangered resource called incentive. Whenever this resource is plentiful, production increases, technology continues to improve and consumers benefit by having more and better food and fiber. When incentive is reduced, production lags, fewer risks are taken and scarcity could easily become a threat. There has almost always been a good supply of incentive for the American agricultural producer. Hopefully all of us will do our part to make sure this most important of resources continues to be abundantly available.

Garments, Textile Heirlooms - How To Save Them

of the item's age, fragile areas and intended storage for best results, Mrs. Sanders recommends.

For best storage, lay items flat without folds. Do not store with pins or other metal objects such as jewelry which can rust and cause permanent damage.

Choose as large a box as possible for flat storage. Line the box with laundered muslin or sheeting to prevent the box from adding to fabric deterioration.

Pad any folds with the box lining fabric and cover the top of the fabric. Then seal the box.

Cover and hang garments made of strong fabric on padded hangers.

However, avoid packing tightly in an overly crowded closet.

Select storage with a relatively stable temperature, average humidity and darkness.

Heat will increase the deterioration of natural fibers. Extreme dryness will increase brittleness, and high humidity will encourage the growth of mildew.

Light causes fading as well as overall deterioration she adds.

Store garments and other textile heirlooms for long periods of time without damage and deterioration, says Becky Sanders, a clothing specialist.

Follow these tips to maintain them for future generations, she suggests.

Mrs. Sanders is with the Texas Agricultural Extension Service, The Texas A&M University System.

Store textile items clean and as free of dust as possible. Dust and soils often contain materials that deteriorate fabric, especially during prolonged storage.

Remove general surface dirt by brushing or vacuuming. Tumble dry nonfragile items alone on the air cycle of the dryer.

Launder soiled items, and remove all stains if possible, she says.

Fold fragile items flat on a clean screen and soak in the bathtub.

Dryclean soiled nonwashables. Alert the drycleaner

The Averaged Billing Plan From Southwestern Public Service.

"A PLAN FOR ALL SEASONS"

"My fixed income got a big break now that I'm on the Averaged Billing Plan."

"Averaged Billing makes it easier to make ends meet because it smooths out the highs and lows of your monthly electric bill. Like your friends, you can have it too. Depend on it to help... just give me a call at SPS."

"I know just about how much my electric bill will be each month... there are no more surprises."

We changed to Averaged Billing with one phone call to SPS. And now, our family budget is easier to plan."

EDITORIALS

Over-Analysis?

Because there is really little news at the moment, the political conventions are the main source of material for many of our Washington columns. And sometimes these great spectacles are over-analyzed by writers searching for something to write about.

Thus in recent days we have Haines Johnson, a good writer, telling us that George Bush was humiliated at Detroit because he was second choice, or third. We have David Broder telling us that Ronald Reagan was hurt because he flirted with having Gerald Ford on the ticket. Etc.

The truth is more likely this: Ronald Reagan made a fine, effective speech in accepting the nomination. His comments to interviewers during the convention were effective. No one faults him for considering a popular, former president as a possible running mate. It would have been a coup had he pulled it off. Gerald Ford demanded, perhaps understandably, too much. Reagan, understandably, wouldn't give up part of his presidency.

Bush wasn't humiliated in being selected. He was complimented. It isn't surprising that Ford got first consideration, but quite logical, and Bush understands that. He agrees with the effort and is a great admirer of Mr. Ford.

No one was badly hurt by the G.O.P. show. It was reasonably well done, generally very orderly, etc. The question--and it's a big one--is whether Reagan and Bush can beat Jimmy Carter and Fritz Mondale in November running on the G.O.P. platform, against all the built-in advantages for the Democrat incumbent.

Revamping Social Security

A study of our present social security system has just been completed by the American Enterprise Institute. Begun in 1935, the system was originally intended to provide a minimum income for those no longer able to work.

Since, inequities and welfare characteristics have invaded the system and, in the view of many and the recent AEI study, changes are needed. The major concept change should be a scaling down of benefits for those now favored unfairly and an end to discriminations against others.

Private savings should also be encouraged, perhaps with tax advantages, and minimum income should be guaranteed only to those who have contributed for 35 years. Those not covered would be eligible for supplemental security income, AFDC-aid to families with dependent children--and food stamps. These programs are already in operation.

Today's minimum social security payment, it's suggested in the study, should be terminated. It is \$122 and such aid can be obtained from other government welfare systems. The study also recommends a new system for married couples, to be considered as a single unit, whose earned benefits are split 50-50. This removes the present bias against working wives.

Finally, retirees should receive a fairer distribution of what has been paid in over the years. Lower-paid workers would still enjoy an advantage but those who earned higher salaries would not be as badly discriminated against as now.

Since social security taxes move sharply upward in January, and since reserves are beginning to cause worry about the system's financial soundness, reform is urgent.

WASHINGTON NOTES

GLOOMY FUTURE

Overcrowding, poverty and hunger will haunt the globe in the year 2000, and food and energy prices will continue to spiral, according to a report on a massive three-year study of the world's prospects for the end of the 20th Century. The report also said there will be more shortages, increased international tensions and it is likely that as many as 20 percent of the Earth's animal and plant species will become extinct.

INFLATION EASING?

Consumer prices rose 1 percent in June, with food and housing costs jumping, but gasoline costs on the decline, the Labor Department said recently.

PRICES INCREASED

Consumer prices in June rose at a faster pace than during the previous two months, but the Carter administration insisted recently that falling mortgage rates will help slow inflation during the rest of the year.

BANKS & ACCOUNTS

Banks and other financial institutions are taking in millions of dollars a year by using service charges to raid the dormant accounts of missing or forgetful customers, witnesses told a House subcommittee recently.

The Speaker Reports

by Bill Clayton

AUSTIN—The Baker v. Carr case was not the first to come before the Supreme Court concerning redistricting. Others had been considered, but dismissed because the matter was believed to be a state legislative concern. This case established a new trend.

The "one person, one vote" principle was set in the Court's majority opinion. This rule requires that each person's vote should carry the same weight and has provided the impetus for

the courts to attempt to create ideal districts. Criteria for such districts not only include population equality, but also appropriate (as defined by the court at the time) ethnic and political composition.

In 1964, the Reynolds v. Sims case established a further precedent. The majority opinion stated that "as a basic constitutional standard, the Equal Protection Clause requires that seats in both houses of a bicameral state legislature must be apportioned on a population basis." This statement is significant in that fair representation in the legislative process became an equal protection right to be upheld by the federal government and courts.

To further busy the courts, Congress passed the Voting Rights Act in 1965. This act established standards and procedures for use

in state elections. Since the passage of this law, the courts have reviewed countless redistricting plans at all levels and in every state.

These cases have become very technical in terms of determining percentage deviations in population. No longer is strict mathematical equality required. If a legitimate social purpose can be proven, deviations of even ten percent are permissible. (In one instance, a 16.4% deviation was allowed.) Gerrymandering is also permissible if it is done to maintain or create minority representation.

One would think that with the tremendous amount of litigation concerning redistricting in the 1960's and 1970's that we would be able to determine how best to follow the courts' guidelines, as well as those administered by the Department of Justice under the Voting Rights Act. However, the courts have not established any clear trend to absolute acceptability. Nor has the Department of Justice done so. Each case has been decided on its own merits. Therefore, the Texas Legislature must simply be aware of past decisions and determine how best the state's population can be represented in government.

GOLD MEDALLIONS

The U.S. government started selling gold medallions recently, but there was no rush to buy the ounce and half-ounce pieces of precious metal. The medallions are being sold through post offices and officials at branches around the country said the price of gold--even in small sizes--is just too high.

DEFICIT FORECAST, 1981

Just four months after projecting a substantial budget surplus for 1981, the Carter Administration formally estimates that next year's budget would show a \$29.8 billion deficit.

ONE HOSTAGE HOME

Richard I. Queens said recently that the militants who held him hostage in Teheran for 250 days did not attempt to brainwash him or even to get him to admit past errors in United States policies toward Iran, but added he was kept in relative isolation for more than eight months and could speak only of his own experiences.

Nursing Home News

By Joy Stanced

Byrnic Callaway of Spearman visited her mother, Mrs. Hogan over the weekend.

Lou Dell Atkinson took her mother, Mrs. Hogan for ride to her farm. While there she caught a cup of water from her irrigation well. This pleased her very much.

Friday morning Melissa Wagon and Mrs. Dawson came to help the residents make door decorations in crafts. Residents participating were Marie Patton, Ora Roberts, Marie Engram, Archie Scarlett, Charlie Garth and Edith Bruns.

Friday afternoon, Terry Bouchelle from the Ave. D Church of Christ came to share a devotional with the residents. Charlie Garth led the prayer and a song. Terry Bouchelle read Bible verses and shared his thoughts. He also led several songs. Residents attending were; Ora Roberts, Grace Kemp, Russ Duncan, Marie Patton, Effie Splawn Lottie Hall, Marie Engram, Maggie London, Dasha Dykes, Mary Stevenson, Edith Bruns, Bulah Connell, Charlie Garth, W.W. Parker, Rosemary Pool and Archie Scarlett.

Sunday morning E. B. Wilson came to have Bible study with Marie Engram, Archie Scarlett, Charlie Garth, Dottie Wilterding, W.W. Parker and Ora Roberts.

The members of the American Blvd. Church of Christ came Sunday July 27 to sing to the residents. Residents attending were Marie Engram, Ora Roberts, Bertie Hendrix, Annie Brown, Charlie Garth, Lottie Hall, Archie Scarlett, Lura Northcutt. Those visiting were Mr. and Mrs. Robinson, Ray Edwards, Mary Whitson, Cordelia Cockren, Mrs. Berry Mr. Joe Embry, and Mrs. Ed Steinbock.

Tuesday afternoon the Nursing Home and Hospital Aux. came to shampoo and set the ladies hair. They also gave manicures.

Mrs. Duncan's son and his family are here visiting from Washington.

Bertie Hendrix was visited by Mr. and Mrs. Joe Embry, Gordon Wilson, and daughter. Her family also visited.

Edna Henderson was visited by Ruby Henderson Monday.

Dr. McDaniel was visited by Susie Whately and Polly Birdsong.

Annie Brown was visited by her daughter, Mrs. Sybil Simpson of Clovis.

Alma Henley was visited by Jewel White, Mrs. Dawson, Florence Harvey, her daughter, Cleo and her great grandsons from Hou-

ston and Clara Jaregan.

Mrs. Heard was visited by Mrs. Dawson, Mary Whitson, Jewel White, Mary Whitson, Florence Harvey, C.T. Heard and family, they took her for a ride.

Mrs. Dawson visited the Nursing Home Tuesday.

Marie Engram and Charlie Garth went to the Senior Citizens meeting Monday. They were picked up by the Sr. Citizens van.

Marie Engram was visited by Jennifer Davis, Blanche Colliers, Polly Stephens and her two daughters, Lennis Engram of Farwell, Stacy Campbell, Pauline Myers, Mary Whitson, Bessie Stephenson, Sandy and Gilbert Beunrosto, Jerry Hutton. Quinn Weaver gave Marie a big sack of pop corn. She has been popping corn for the nurses and residents at night. Stacy Campbell took Marie to the Methodist Church Sunday morning.

Rosemary Pool, Marie Engram and Virginia Garcia played dominoes Monday night.

Terry Bouchelle visited the Nursing Home Tuesday.

Mrs. Underdown visited the residents last week.

The Spudnut Shop brought a big box of Spudnuts Thursday to the Nursing Home.

Mrs. Geared Reed and baby visited, Sondra and Shane.

Lula Embry was visited by Floyd and Weldon Embry Monday. Joe Embry also visited. Her husband visited also.

Friday Russ Duncan, Ora Roberts, Grace Kemp and Willie Steinbock played dominoes.

Tuesday Edith Bruns, Willie Steinbock, Grace Kemp and Russ Duncan played dominoes.

Family Land Approaching Deadline

AUSTIN--With the 1980 deadline fast approaching for registration in the Texas Family Land Heritage Program, Agriculture Commissioner Reagan V. Brown notes that some 19 farms and ranches have already qualified for the honor.

The Land Heritage Program, sponsored by the Texas Department of Agriculture, honors properties in the state which have been in continuous production for 100 years or more. In the first six years of the program nearly 1,300 farms and ranches qualified for registration.

"We are hoping that all property owners in the state who feel they may qualify will fill out application forms and return them to our office by August 15, the closing date for the current year's registration," Commissioner Brown said. Application forms are available from county judges, county historical commission chairmen, and the Texas Department of Agriculture, P. O. Box 12847, Austin, Texas 78711.

Those who seek to improve their minds will be the leaders of tomorrow.

Texas Independent Producers

In one of the strongest worded statements yet delivered by the segment of the oil industry representing the small interest holders, the president of the Texas

Independent Producers and Royalty Owners Association, L. Frank Pitts, urged Texas royalty owners to attend a July 17th United States Senate Finance Committee field hearing to be held in Austin at the 18,000 seat University of Texas Special Events Center.

Pitts stated, "The so-called windfall profit tax is robbing royalty owners all across Texas. The federal tax guzzlers have decided that royalty owners, especially retirees, pensioners, and elderly who live on fixed income, are to be punished along with the multi-national oil companies."

"Get to Austin," said

Pitts, "to show your support of Senator Bentsen's effort to take this unjustified tax off those who can least afford it. Every royalty owner needs to show that he or she is not going to stand for this governmental confiscation."

The Senate hearing, chaired by Texas Senator Lloyd Bentsen, will be taking testimony on his and other proposals to exempt royalty owners from the Crude Oil Windfall Profit Tax Act of 1980.

Pitts stated further, "This is not just a tax on oil, it is a tax on people, on rural towns, on jobs, and primarily on Texas. This tax will cost Texas \$65 billion directly over the next ten years, and untold billions in indirect economic damage to every segment of Texas. If you are a royalty owner or a property owner you should be in Austin on July 17th at 10:00 a.m. Every time a penny of revenue from the windfall profit tax hits the federal kitty the economic crunch is felt in Texas."

Leisure and Recreation Activities Face Drastic Changes In The 80's

By Robert L. Haney
TAES Science Writer

Leisure-time activities of Americans, including vacationing, will undergo many changes in this decade, according to Dr. Carlton Van Doren of Texas A&M University.

"In 1979, U.S. travelers spent \$126 billion on trips to places 100 miles or more from home," Van Doren says.

"This is more money than is spent for clothing, automobiles, or for national defense."

"Only food, housing, and income taxes exceed travel expenditures."

Is our society on a leisure, recreation, travel binge because we do not have confidence in our future?

"Quite the contrary," according to Van Doren, "we are consuming these goods and services because we see retrenchment in the future and a necessity to change our habits, desires, and values."

"A recent marketing survey shows that Americans put

vacations first on a list of 10 luxury items.

"The luxury list with items in order of importance included vacationing, dining in expensive restaurants, purchasing expensive cuts of meat, cosmetics, sporting equipment, household furnishings, alcoholic beverages, major appliances, clothes, and movies."

Inflation, energy costs, and energy availability will undoubtedly cause an evolutionary change in leisure activities and the use of equipment in the 1980's.

There will be less driving for pleasure, and a continued focus on human energy leisure activities such as hiking, bicycling, cross-country skiing, and sailing, says Van Doren, professor, Recreation and Parks Department and the Texas Agricultural Experiment Station, Texas A&M.

The Travel Price Index, compiled by the U.S. Travel Data Center in February 1980, was 270.9 (1967=100).

That translates to travel costs more than 2 1/2 times as high as they were just 13

years ago. And costs this February had increased by 25.1% over February 1979.

The Travel Price Index is a composite index consisting of the cost of food, lodging, transportation, and other goods and services purchased while away from home.

Real disposable income, by contrast, between 1967 and 1973 increased 17.5%, but between 1973 and 1979 growth was reduced to 5.5%.

"One encouraging fact amid our struggle with domestic inflation," Van Doren points out, "is that the United States is considered a travel bargain by foreign visitors."

"If this continues in the 1980's, it does have implications for our most prominent public parks."

"We can expect increasing numbers of foreign visitors at sites in the vicinity of the major gateway cities such as New York, Miami, Houston, Atlanta, San Francisco, and

Los Angeles. "We can also expect to see more use of activities provided by the private sector and an increase in some ac-

tivities supported by the public sector.

"Bowling may increase once again and theme parks, such as Six Flags, will continue in popularity."

"Shopping centers will increasingly become centers of both passive and active leisure pursuits."

"There will be pressure to increase public support for the cultural arts and handicrafts. Leisure services on school property and on other public properties, not previously utilized for leisure activities, will increase in this decade."

"The sale of expensive recreational equipment, such as recreational vehicles and boats, will remain in a temporary slump. Sales can be expected to increase as smaller, more energy efficient equipment comes on the market."

An Added Touch of Beauty

Robert Louis Stevenson said:

"The world is so full of a number of things, I'm sure we should all be as happy as kings."

God's world is filled with loveliness, but we need to add our own touch of beauty, so that we might be builders of a better world with Him. Each of us was given talents which would enable us to contribute to the world and mankind something great and lasting and beneficial. May each of us use these talents to the glory of God.

Add a touch of beauty to your life this week by attending church.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

HOMEOWNERS BEWARE

Do you have a Homeowners Form A Insurance Policy on your home?

We would like to take a few minutes of your time to explain the major differences between a Homeowners Form A Policy and a Homeowners Form B Policy.

Both Forms have a 1% deductible but with a Homeowners Form A you (not the insurance company) must pay the depreciation on damage to your home caused by fire, lightning, hail and windstorm.

For example, if hail destroyed your roof and the replacement cost was \$2,000, it could cost you up to \$1,000. for depreciation.

There is no depreciation on your home with a Homeowners Form B Policy.

With a Homeowners Form A Policy you would have no insurance coverage if a tree were to fall on your home or if your washer overflows and ruins your carpet. These losses would be covered with a Homeowners Form B Policy.

The cost of a Homeowners Form A Policy is approximately 25% less than a Form B, but it could cost you much more in the long run if you have a loss. Therefore we recommend Homeowners Form B for all of our customers.

Your agent will be happy to tell you which form you have, so take a few minutes and call him. It could save you hundreds of dollars in the future if you have a loss.

Smallwood-Harmon Insurance Agency
