ATHANS THE PROGRESSIVE TAILOR IN YOUR HOME TOWN

The Corkscrew Has Had a Turn

As the Editor Sees It What is said to be a national campaign is on to rid the country of 'bucket shops," which have fleeced so many unsuspecting lambs in the investment field.

That is good. Such piratical burzards ought to go out of business and into jail.

But why stop at bucket shops? On the boards of trade and similar bodies under other names will be found just as big knaves as any bucket shop ever boasted.

Men with millions at their com mand corner markets and force prices up to dizzy heights, and when they reach the highest possible point these manipulators quietly unload and leave others who are less astute to hold the bag when the bubble bursts as it always does. And all of this time millions of consumers are being gouged in order that the speculative gang may rake in additional profits.

Men devoid of principle wreck each other on boards of trade without qualms of conscience or the bat of an eye. They call it shrewd, financiering, and because of their ability to crush and destroy they are honored among their fellows\_and among other fellows, as woll.

A robber is a robber, whether he has his lair in a bucket or in a gilded cage in a skyscraper. Include the buzzards on the boards of trade, gentlemen. Otherwise your job will only be half done.

. . . . Many a man in the spring of youth drifts into the autumn of age vainly, waiting for the opportunity that never finds him.

In one short sentence the secrets of life's success or failure is told. WAITING FOR THE OPPORTU-NITY THAT NEVER FINDS HIM! Instead of going out and searching for opportunity, which is easy to find, he waits for opportunity to hunt him up and climb obligingly into his lap, which opportunity never does. America is a land of wonderful opportunities, but the young man who would grasp them must first seek them and find them. Success comes in no other way

except by inheritance. . . . .

No town is ever successful when the inhabitants indulge to any extent in criticising and backbiting and fighting each other.

Sending Money Out of Town Newspaper publishers and printers should take notice of these corporations that endeavor to concentrate all their purchases in some large city. These corporations depend upon the small places as feeders but some of them are of a grasping nature and for the sake of squeezing a few more cents profits they pass up the small place on patronage that rightfully belongs there and take it to some large city for investment. The Southwestern Bell Telephone Company is doing this in the printing of its telephone directories. True there are some print shops not equipped for giving a uniform directory but there are hundreds of shops in Texas that have just as good equipment for this class of work as does Dallas. Then, too, the local manager can supervise the work and save distance shops. In our opinion a dent of the United States, but will corporation that makes money out announce at a later date. The Army of the Court Gather 'round the flag, boys, and isten to Chief Justice William Howard Taft tell you about "personal in liberty.'

"Personal liberty" says the chief justice, is something the supreme court always protects. "Personal liberty" is something the "radical Republicans" have always sought to tear from the court and the constitution.

The trumpets sound again. The chief justice senses the battle renewed. The "radical Republicans" who cry out against the minimum wage and the child labor decisions by the court are only endeavoring to destroy "personal liberty," the chief justice warns.

Are you ready to be drafted into the army the chief justice is creating to rally around the court? You have your choice, either join the army or become a "radical." To join the army, you only have to answer "yes" to the following questions: Did not the supreme court protect "personal liberty" when it puts its seal of approval on human slavery, on the enslavement of the negro'

race in this country? Did not the supreme court protect 'personal liberty" when it handed down the Dred Scott decision?

Did not the supreme court protect 'personal liberty" when it killed the child labor law and thereby permitted little children to grind out their lives in mills and factories?

Did not the supreme court protect 'personal liberty" when it killed the minimum wage law and thereby permitted women to work in factories for a dollar a day or even for nothing?

By answering "yes," you become eligible for the chief justice's army. But beware, if you do not answer "yes," you are to be damned forever as a "radical."-Fort Worth Press.

Sacred to the Memory of Daisy Barnes (nee Conningham)

Born July 4, 1880 at Terrell, Texas. Died June 13, 1923 at Big Spring. We mourn her loss and grieve at her departure, for she was a loved and loving companion. Physical suffering was her lot almost from childhood's happy hours, yet she bore her burden with patience and christian fortitude.

She was a sweet child, a dutiful daughter, kind sister and loving wife. In early life she obeyed from the heart the Christian forms of doctrine as God gave her to understand her duty. Her body is now beyond the vail,
