

What does the recipe say about cooking cereal?
Add it to the boiling water a little at a time. Why? So you can control the stirring process and prevent a lumpy, unpalatable consistency. A similar principle of control is followed in roasting Hills Bros. Coffee. By roasting a few pounds at a time, the marvelous, uniform flavor is assured.

Your taste
never met coffee
so exquisite in flavor
as Hills Bros

RIGHT to the heart of your taste goes every cup of Hills Bros. Its delectable goodness is always welcome. Its flavor is free from harshness.

What a tribute to Hills Bros.' exclusive process of Controlled Roasting—a few pounds at a time . . . continuously roasted in an even temperature.

Ask for Hills Bros. by name and look for the Arab on the can. We will send you free our beautiful booklet, "The Art of Entertaining." Address Hills Bros., 2525 Southwest Boulevard, Kansas City, Missouri.

HILLS BROS COFFEE

Fresh from the original vacuum pack. Easily opened with a key.

FARMERS SHORT COURSE
AT A. & M. JULY 25 TO 30

The annual Farmers Short Course which is given at A. & M. College at College Station, Texas will be held this year from July 25 to 30. A very full program is being prepared, and will be presented during the five days of the meeting.

This course is most helpful to farmers and it is hoped that quite a number from Howard County will decide to attend the short course this year.

WHERE TEA IS DRUNK AS SOUP

It's a far cry from the ice-clinking, amber-clear liquid which is the favorite summer drink of Americans, to the "tea soup" popular in parts of Asia. In Tibet the natives make a sort of broth by boiling tea leaves with rancid butter and balls of dough, adding a little salt, and straining. The resulting mixture is drunk all day long, as we drink water.

Russian peasants also consume much tea. In their homes the samovar, or urn for boiling water, is always in evidence. Their poverty causes them to prefer varieties of tea that make a strong, dark liquor — from which an indefinite quantity of tea-colored liquid may be produced by constantly adding water. With this are taken sugar and a flavoring of lemon.

The Chinese and Japanese prefer their tea "straight" without flavoring of any kind. In Japan, the better classes consider the serving of tea a fine art; and school girls sometimes devote much time to learning its mysteries.

But the British lead the world in the consumption of tea and in its social use. The English "afternoon tea" is famous. Tea is also often drunk at regular meal times, before breakfast and on retiring. The English climate makes pleasant the use of hot tea the year around, whereas we in America must substitute iced tea in summer. There is no more cooling, invigorating drink, say the Waples-Platter Grocer Co., than a tall glass of White Swan Tea, iced. This blend is especially strong and fine-flavored, and is particularly adapted to the making of delicious, full-colored iced tea.

Early heat records point to a liberal use of White Swan iced tea in our section this summer — and its manufacturers are stimulating demand with another "Drives Fatigue Away!" advertising campaign in this paper.

IRRIGATED SECTIONS PROSPER

J. V. Wiggins who has recently made a tour of Western Texas, is of the opinion that the Pecos Valley is the greatest place on earth. We quite agree with him. On account of the floods in the Mississippi Valley and the drouth in West Texas and Oklahoma, cotton will command a much higher price than it would otherwise. Our irrigation will carry us through any dry spell. — Southwestern Dispatch, Roswell, N. M.

Mr. Wiggins owns property in this county and he has recently been in this city looking after same. We have had some rainfall since Mr. Wiggins' visit and it helped to brighten things up in most parts of the county.

THE POWER OF PUBLICITY

There are narrow-minded individuals who claim that the cost of publicity is not a legitimate expense of public service corporations. Publicity which encourages the widest use of an article is the most potent influence to reduce the expense of that article to the consuming public. Without publicity, the demand for an article is small and the cost of production is high. With proper publicity the demand for an article becomes universal and the cost of production drops to a minimum.

That is why Americans enjoy the best public utility service in the world. — utility companies are consistent users of advertising space. They have acquainted the people with every phase of their business and shown them the advantages of using electricity, gas, the telephone and street railway service. Their success is an outstanding example of the fact that advertising does pay when applied to an article or service of merit. — Ex.

Eight aviators have already signed up for the Dallas-Hong Kong airplane hop. Bill Easterwood is to give the winner \$25,000.

SICKLY, FEEVISH CHILDREN

Children suffering from intestinal worms are cross, restless and unhealthy. There are other symptoms, however. If the child is pale, has dark rings under the eyes, bad breath and takes no interest in play, it is almost a certainty that worms are eating away its vitality. The surest remedy for worms is White's Cream Vermifuge. It is positive destruction to the worms but harmless to the child. Price 25c. Sold by CUNNINGHAM & PHILIPS

The Store That Quality Built

TO STUDY ROAD NEEDS OF WESTERN TEXAS

Two members of the State Highway Commission will accompany the motorcade on the trip thru West Texas next month, their main purpose to study the road needs of this section.

It is hoped some resurfacing work on the Bankhead highway will result from the visit of the Highway commissioners.

The Bankhead Highway thru here is a fine stretch of road and another topping would put it in good condition for many years to come. If this repair work is delayed too long it is going to require twice as much money to get it back in first class condition. The state cannot afford to let the road go to the bad completely before authorizing its repair.

MRS. INEZ KNIGHT'S RESIDENCE PAINTED AND IMPROVED

The residence of Mrs. Inez Knight on West Fourth and Ayiford streets, has taken on a holiday appearance since recent improvements have been completed on the home. New porches have been added and other improvements inside and out have been made. A coating of white paint with dark green trimmings further add to the attractiveness and neatness of the home place.

J. H. Hefley arrived Tuesday from Sterling City for a few days visit with relatives in this city. Dad reports the Sterling section as needing rain.

Right now the golf fever has set in and a goodly portion of the folks won't talk about anything but golf. It must be great to be a real "bug" and it seems to get the folks who trifle with a club a few times.

It was well that the Lord did not leave it up to some good folks to design Heaven, as they would have found it necessary to build a separate heaven for each creed, or send them to the hot place. Then too they would have had to plan a negro heaven and a heaven for foreigners.

If the bond issue for \$20,000 to build a needed addition to the South Ward School building is defeated next Tuesday you will be to blame. You know this addition is needed so do not depend on the other fellow to vote the bonds; you take the few minutes necessary and cast your ballot for these needed school rooms.

This game of expecting or betting on a boom is a losing proposition. Anyway a boom carries a boomerang. A safe, steady growth is the best every time and that's the route we want Big Spring to take. Let some other town have the boom.

We used to think Germany with her "Verboten" sign at every turn was a strict taskmaster, but Uncle Sam and the legislators of our forty-eight states will soon have Germany at her worst, beat with "thou must not" laws. A law against everything is now the program.

The Texas Electric Service Co., the Texas & Pacific Ry. Co. and other large corporations would not be expending millions of dollars in improvements and extensions if they were not reasonably certain that West Texas was due for the greatest growth and development any section ever experienced. It's certain, don't you doubt it.

Why wait till fall to have your stove RELINED?

Long Troubled by Constipation

Black-Draught has been a family medicine with us for many years," says Mr. F. M. of Neosho, Mo. "I read it first in the Ladies Birth Almanac and what I read sounded so convincing I got my mind to try Black-Draught, as I had been troubled with constipation for a long time. I found Black-Draught to be the best medicine for this trouble. It gave me quick relief. I had had headaches, pains, due to toxic poison. Taking a course of Black-Draught I gave my system a thorough cleansing, and I have had little or no trouble since then. If I am becoming constipated, I take several small doses of Black-Draught, and am soon feeling fine."

FILLED WITH ROMANCE AND DRAMA, "THE VOLGA BOATMAN"

Filled with the romance and drama of Russia after the fall of the Czar, "The Volga Boatman," Cecil B. De Mille's second independent production for Producers Distributing Corporation release, strikes out into an hitherto unexplored vein of strongly entertaining photoplay background. The great song, "The Volga Boatman" served as the inspiration for the story which Konrad Bereovic wrote for the screen. Leonore J. Coffee made the film adaptation. "The Volga Boatman" will be shown at the R. and R. Lyric theater two days, Monday and Tuesday, June 27-28.

The tale is laid in Russia at the time of the outbreak of strife between the Red Army and the White Army of the aristocrats. The dramatic interest centers in the contacts between Elinor Fair, a lovely aristocrat, and William Boyd, a sweat-stained, toil-laden boatman of the Volga. Theodore Kosloff plays a strikingly dumb blacksmith, Victor Varconi, an imperious prince and Julia Faye, an exotic Tartar character. Robert Edeson is given one of his interesting character roles, as the last of a great line of Russian land owners.

The story starts on the Volga, before the Revolution, and then swings into its stride when the overthrowing of the Czar makes the whole nation a seething cauldron of upheaval. Servant becomes master, and master servant. The highlight of the picture is a great ball of the aristocrats interrupted by the shells of the Reds. Later we see the aristocrats in their silks and satins forced into the harness formerly worn by the Volga boatmen.

GULF COMPLETES RANGER LINE

The ten-inch pipe line of the Gulf Pipe Line Company, which runs from the Ranger district to the Gulf's Midland tank farm, has been completed, and is being tested with water preparatory to being put into active use, announcement was made last Thursday.

The 205-mile line, begun on April 26, was built in what is believed to have been record time for a project of the size in the territory. The extraordinary speed was possible, officials said, because of the large organization built up and the laying of advance plans by company engineers.

Completion of the line which is the second trunk line into the Edwards Platteau and the trans-Pecos section of the State, will enable the Gulf to handle about twice its present production and will lead to much development in the Crane, Ector and Winkler County fields. It will also grove a big asset to the new oil fields now being developed in Howard, Glascock and Jones counties. Transportation facilities heretofore have consisted chiefly in short field lines to loading racks on railroads.

MEETING JULY 10-24

A. B. McReynolds, the evangelist, and Miss Annabel Hall, as singer, will conduct a meeting at the First Christian Church, July 10-24. McReynolds denounces sin, sounds the warning to all who take part in sin. He holds out God's love, long suffering, and promise of salvation. You'll come just as everyone else comes. You can't very well stay away. You will love Miss Hall and her singing. Remember the date July 10-24. First Christian Church.

C. F. Hathway, P. J. Daily and J. O. Hooy were visitors in San Angelo last Sunday.

NEW CHIEF CLERK AT THE TEXAS ELECTRIC SERVICE CO.

Joe Worthy is now chief clerk at the Texas Electric Service Co. office in this city being transferred here this week from the Sweetwater office. Mr. Worthy was a former member of the office force here, having been transferred from here to Lamesa then to Sweetwater and now back here again.

Due to the increased business in this territory and the many details to be handled through the Big Spring office it was found necessary to add another man to the office force to assist R. A. Greaves, local manager. Mr. Greaves is now manager of the merchandise department and he will do the outside work for the company while Mr. Worthy will be in charge of the office work.

The Texas Electric Service Company is one corporation that is ever alert to the needs of the community it serves and they cooperate wholeheartedly in such matters without delay.

CHARGE GAMBLER MUTILATED COIN IN "MATCH" GAME

Charges of defacing and mutilating a United States 50 cent coin, the first case of its kind ever filed in federal court here, Monday were filed against Frank Douglas, of McCamey, before U. S. Commissioner A. J. W. Schmid here.

Douglas, who was arrested by a secret service agent, is alleged to have removed the face surface from the coin and to have stamped in a "tail," similar to the reverse side of the 50 cent piece.

The coin was used by Douglas in a "match" half dollars game, it is alleged, to "match" half dollars. With two "tails" on the coin, a system could be developed in which the gambler could not lose.

Maximum penalty in the event of conviction is five years in the federal penitentiary and a \$2000 fine.

Mr. Schmid, who has been connected with the commissioner's office for the past 15 years, said that the case is the first of its kind to come under his jurisdiction. El Paso Herald.

Swan Jones left Sunday for Dallas on a business trip. Mrs. Jones and son, Montye, accompanied him to Baird, where they will visit relatives and friends while Mr. Jones is transacting business in Dallas.

GARDEN CITY NEWS

Jeff Parker is now manager of the Garden City telephone service. Seventeen people have asked Mr. Parker to put them in telephones.

Mrs. Hill Long has been operating while Mr. Parker has been repairing the lines and telephones.

Mrs. M. C. Everett and Mrs. Lucy Randall are visiting Mrs. Una Bailey in Big Spring and Mrs. Bert Cole in Midland.

J. O. Bighy and family have moved to their ranch home.

The Methodists and Presbyterians started a meeting Sunday. Brother Havor, a Methodist minister from Ozona is doing the preaching.

John Lee Parker was called to Abilene Sunday by the serious illness of his sister, Ruth. She is reported to be getting along nicely.

Mr. and Mrs. Stephen Currie are at Corpus Christi on a pleasure trip. Stephen writes that he caught a fish that weighed 103 pounds and was 6 feet, 8 1/2 inches long.

W. T. Mann has put in a commission office, adjoining the telephone office.

Jeraldine Jorden of Blackwell is visiting her aunt Mrs. William Currie and her grandparents, Mr. and Mrs. J. V. Sowell.

Mr. and Mrs. Steve Calverley have moved to their place one mile east of town.

Mr. and Mrs. Geo. McDowell from Snyder are visiting her parents, Mr. and Mrs. McMaster. Mr. McDowell is repairing Mr. McMaster's house.

Mrs. Kent Dunn arrived home Thursday from Longview, after being away sometime on account of the illness of her mother. Reporter.

The Store That Quality Built

JACK HENDRIX SAYS CHAUTAUQUA IS GREAT THIS YEAR

We are in receipt of a letter from Jack Hendrix who is working with the Chautauqua this season handling the scenery etc., and following is an excerpt from the letter written to us: "The first three days of Chautauqua are great. The Quartette is excellent; 'The Patsy' is one of the best plays I have ever seen, and the Trio is wonderful. Don't miss any of them."

If the first three days are that good, so will the last three be; and we are looking forward with anxiety for the fine six-day program that we are going to enjoy this week-end and next.

Mrs. Oliver Goldsmith and little son of Waco are guests in our city, visiting their aunt, Mrs. F. M. Purser. Mr. Goldsmith, who is working at McCamey, came to Big Spring Sunday and spent the day with them.

DR. AND MRS. C. D. BAXLEY HAVE MOVED TO BIG SPRING

Dr. and Mrs. C. D. Baxley and little son, Warren, left Saturday for their new home in Big Spring, and it was with regret that we said goodbye to this prominent couple.

Dr. Baxley has been practicing dentistry in our city for the past twelve years and has proved himself a worthy citizen as well as an artist at his profession. He came here before the World War and after serving two years in the medical department of the service returned to Post and continued his ever increasing practice and has been serving Post and Garza County until the past two weeks, when Dr. M. B. Ray Jr., of Denton, Texas, bought his practice and moved here.

The number of patrons he had attracted to the favor he has won as a dentist as his patients are numbered among other counties as well as in Garza.

Dr. Baxley's place in the male quartet will be hard to fill as he organized the quartet several years ago and has always filled his place at the numerous entertainments they have given. He was an active member of the Post Rotary club, and was one of the few who ranked in the one hundred per cent attendance files.

Mrs. Baxley will also be missed by her host of friends as she was an active worker in church and social affairs.

We wish them success and happiness in Big Spring and know that Big Spring will find them enthusiastic and worthwhile citizens. Post Dispatch.

SOASH NOTES

As I have not noticed any news from this place will give a few items.

Farmers are wearing a smile on their faces since the fine rains and crops that were up before the rains are looking fine.

W. A. Hodge and family have the measles this week. Mr. Hodge declares 'tis not a very pleasant time for the measles.

We have a fine Sunday school. Young and old come and take a part. Rev. Horton preaches for us next Sunday morning and Sunday night.

The singing last Sunday evening was enjoyed. Mr. Purser and Mr. Prescott were out and did some fine singing and we bought some new song books and will be glad to have them come back and give us a lift on those new songs.

Mr. and Mrs. Verg Williams were visiting in the home of Mr. and Mrs. Ed Pierce Sunday.

Mr. and Mrs. Lee Lauterdals were the guest of Mr. and Mrs. R. N. Adams Sunday.

Mrs. Helen Copeland and son of Big Spring spent last week with her parents, Mr. and Mrs. H. Graham.

Would like to see letters from other communities.

The Herald is a welcome guest in our home every week.

A Reader.

THE STATE OF TEXAS

County of Howard,
To all persons interested in the Welfare and the Estate of Willie Porch, a Minor:

Notice is hereby given that I, G. H. Porch, guardian of the Estate of Willie Porch, a minor, did on the 22nd day of June A. D. 1927 file an application in the County Court of Howard County, Texas, praying that I, as Guardian aforesaid, be allowed and authorized to make and execute a lease for oil and gas and other minerals on the following described land belonging to the estate of said minor, to-wit:

An undivided 13-84 interest in and to the Northeast 1-4 of Section No. 41 in Block No. 31, Township 1 North, T. & P. Ry. Co. Survey in Howard County, Texas.

The Judge of said Court has set the application down for a hearing on the 2nd day of July A. D. 1927 at the Court House of Howard County in Big Spring, Texas.

The Number of the Probate Proceedings in which said application is pending is Number 243 on the Probate Docket of Howard County, Texas.

G. H. Porch,
Guardian of Willie Porch, a Minor.

The Marion Supply Company is receiving a large stock of oil field supplies which are being stored on their location at the corner of West First and Gregg streets.

NOTES FROM SALEM

The farmers are rejoicing over the three inch rain of last week. Crops are very pretty.

Mr. and Mrs. Boss Davis and family have been on the sick list during the past week.

Uncle Jack and Aunt Fannie Wilson visited Mr. and Mrs. J. I. Davis Sunday afternoon.

Mr. and Mrs. Edgar Hull and son who have been visiting relatives here left Monday for their home in Shreveport, La.

Mr. and Mrs. W. H. Robinson motored to Courtney Sunday to spend the day with relatives.

Roy Thomas of Knott and Fred Thomas of Fairview were Sunday visitors with Ben Miller and family. Cecil Miller returned with them for a few days visit.

Mrs. Foard Coates was called to Longview last week on account of her brother's death.

Bro. and Sister E. E. Mason made a short call with Mrs. W. C. Rogers Saturday evening.

Mrs. B. T. Miller and daughters, Bertha and Eva, are planning to visit Mrs. Roy Thomas of Knott Tuesday.

Mr. and Mrs. Lee Newsom and family were Sunday dinner guests with Mr. and Mrs. Virgil McGregor of Coahoma.

Tuesday evening Misses Mattie and Oma Buchanan visited Miss Louise Rogers.

Jim Robinson and sons, Coleman and Warnor, attended preaching at Midway Sunday morning.

Come to Sunday school and church next Sunday. Sunday school begins at 10 o'clock and preaching at eleven. Everyone is invited. Bring someone with you. Reporter.

"Aunt" Net Ashley who suffered a slight stroke of paralysis last week, is reported to be improved at this time.

A wonderful line of Wrist Watches to select from for the graduate—at Wilke's Jewelry & Optical Shop.

Mrs. Kirby Miller returned Sunday from Sulphur Springs where she accompanied the remains of Miss Eula Pearl Hurlay, who died in this city last Tuesday evening.

Mr. and Mrs. W. P. Edwards and Will Knox Edwards are in Mineral Wells, where they are taking treatments in hope of benefitting their health.

Mrs. W. D. McDonald and son, Cecil, left Wednesday evening for Jasper, Ala., where they will spend the remainder of the summer with relatives and friends.

HAVE YOU PASSED THIS PLACE?

Quite a long way up South Gregg street on the 1200 block lies a tiny jewel of a house. It is a small home but neatness and taste are in evidence in all its surroundings. It lies on a hill side, that unlike similar locations in our hilly community adds to its attractiveness for nothing unsightly is left lying around.

The yard is a mass of riotous blooms. Petunias, phlox and verbenas of every color are found in abundance. The white house gleams like a pearl in a gorgeous setting of multicolored flowers. You will go a long way before finding a more attractive small home anywhere. It shows what a little labor and good taste combined can accomplish for this was formerly an extremely run down piece of property. Love of home will find expression in beauty no matter how simple its setting.

We have some brand new perfume
Cunningham & Phillips.

Tuesday, June 21, was supposed to be the longest day of the year, but it got by most of us without attracting any particular notice as to its length.

Last Sunday was Fathers Day and likewise Emancipation Day and we do not know who was responsible for making June the nineteenth Fathers Day.

ST. MARY'S EPISCOPAL CHURCH
 Rector Frank H. Stedman
 Service for second Sunday after Trinity.
 9:45 a. m. Church School.
 8:00 p. m. Service and Sermon.

Will those persons who are glad to give clothes, etc. for the flood sufferers please send the things to the Parish House of St. Mary's as soon as possible.

Let us come to church and thank God for the rain—even if it is hot let us come to church as we go everywhere else.

Our cigars are kept fresh with electric atomizers.....Cunningham & Phillips.

OPERATORS FROM FLORIDA
OPEN BEAUTY PARLOR HERE

Mrs. C. F. Stinson and Mrs. H. J. Thompson of Florida have secured rooms in the home of Mrs. M. Richardson, 308 Runnels street, and have opened a beauty parlor. These two expert operators will specialize in giving Eugene's permanent waves, Marcel waves, ringlet curls, or Mae Murray curls will be given and they guarantee there will be no kinks or frizes.

Those interested are invited to see Mrs. Stinson or Mrs. Thompson for an appointment.

H. S. Miller reports only showers out on his ranch Wednesday.

Being a Woman in Silk
 (© by D. J. Walsh.)

WITH the dignity of an Elizabethan, a lovely silk-clad creature strolled with a leisure that denoted wealth into a department store that hummed with business like a beehive in June. The aristocrat observed with care various counters in the ladies' ready-to-wear and then carelessly picked up a garment from a table.

"She's evidently the daughter of a millionaire," observed the bit of humanity who stood on the other side of the counter.

"I'd like to purchase a gross of handkerchiefs," the fair customer said, "all of the same design. I am going 'slumming' and I think clean linen wouldn't be a bad gift for the poor who live in the depth of poverty."

The shop girl complied. Handkerchiefs by the dozens were brought out for the customer's inspection, but none seemed to fit her fancy. There was something wrong with all of them.

"I never cared for plain handkerchiefs," the lady in silk said. "I always prefer a design of some kind—adds a lot to the looks—don't you think?"

"But do you suppose the poor folks would really notice the design?" interposed the shop girl.

"Listen to me, little miss," snapped the silk-clad woman. "You shouldn't make such suggestions to your customers! It's your duty to wait on prospective buyers, and not make such remarks! Perhaps poor people of your mentality would not notice a piece of art! But I am glad to know that all of the lower strata of life are not of the class to which you evidently belong. A mere shop girl making a sarcastic remark to the daughter of a millionaire!"

The shop girl felt indignant, but said nothing. She, however, braced up and continued displaying handkerchiefs until her arms almost developed cramps. The task was hopeless. Practically every design of handkerchief in the establishment was displayed, but the beautiful creature could not be pleased.

"Perhaps it isn't handkerchiefs I want, after all," the lovely spoiled child of wealth asserted. "Show me something else. Let's see your stock of gloves."

The shop girl grew hot with the flame of anger. She almost lost control of her temper, but she remembered the promise made a few days before and subdued her feelings and forced a smile. Then she began on the glove stock. The story of the handkerchiefs was enacted again, but the aristocrat found nothing that pleased her.

"I'm sorry," she said indifferently as she walked away, "but really I am very choice, a bit hard to please. I'm afraid I'll have to try some other place. Nothing here seems to suit my rather highly developed taste!"

Then she left, while the shop girl turned up her nose in a fit of anger and intense hatred.

A half hour later the woman in silk climbed a winding staircase of one of the city's cheap rooming houses. She opened the door of her dingy one-room apartment and fell sobbing across the bed.

"Say, Lucy, what's the big idea?" questioned Rose, Lucy's roommate and sister in shoddom. "Why the sobs? Cheer up! I got a raise today and we'll celebrate by taking in a 'movie.' And why all the glad rags?" Lucy Graham (alias the woman in silk) wiped the tears from her eyes and smiled.

"But Rose, it was the greatest adventure of my life," Lucy said. "Of course, it was foolish of me spending all my savings for just one pretty silk dress and of losing the time. I told the floor manager over at the Emporium that I had a headache, so I laid off today, and sure pulled that 'rich-woman' stuff big on a little girl behind the lady's ready-to-wear counter at Kahn's. I tell you it sure is great stuff having the other fellow wait on you and treat you like you are a millionaire. It broke me flat, and you are gonna have to stake me till I get another pay day; but it was worth the price, being a woman in silk even for a day!"

In a palatial residence a millionaire's daughter went to her bed with aching arms and a lot of new ideas in her pretty head. The next evening she stood before the Sociology club and created a sensation by pointing out the dangers of aristocratic wealth crushing the poor of the land.

"My experience as a shop girl taught me a lot of things," the millionaire's daughter asserted. "I faithfully promised the department store head that I would observe the same rules and regulations as other shop girls, otherwise I would have soundly boxed the ears of one daughter of wealth!"

Misses Tommie Preston and Leola Bigham of Midland visited friends in Big Spring Wednesday. Mrs. Jones Lamar and daughter, Emily Jane, accompanied them home for a visit with her parents Mr. and Mrs. Sam Preston and other relatives and friends in Midland.

Ms. Etta Middleton, a beauty specialist of Dallas, has arrived in this city and accepted a position at the Vogue Beauty Shoppe.

"The Volga Boatman"
 ... AT THE ...

R AND R LYRIC

2 DAYS, STARTING MONDAY, JUNE 27

SPINNING BY CECIL DE MILLE'S PRODUCTION
"THE VOLGA BOATMAN"

A soul-stirring story of a great love, grave perils and three tangled lives. The supreme love of a princess and a plebeian boatman in storm-swept Russia. makes this the most thrilling, gripping, alluring masterpiece or screen achievement of the decade.

Luxury, poverty, love, hate, the bitter strife of hungry mobs. A princess who dared to love a boatman and heeded the urgings of her own soul—and other human emotions are woven together to make this a most romantic photoplay.

TEXAS ELECTRIC SERVICE CO. TO BUILD SUB-STATION HERE

The Texas Electric Service Co. has had a corps of engineers here for some time securing surface elevations and other data necessary to prepare the plans and specifications for the sub-station the company is going to install on the forty acre tract of land they purchased just east of Big Spring.

This sub-station will be established for the purpose of handling and reducing the electric current which is to be sent over the high line from the big power plant at Eastland. A special line is to be built to handle this 132,000 volt current from Eastland to the sub-station just east of Big Spring. There the specially constructed transformers will reduce this to 60,000 volts so it can be sent to the sub-stations at Sweetwater, Chalk oil field, Midland, Stanton, and other points West. This electric power over the high line will supplement the power produced at the company's established power plants at Sweetwater, Big Spring and Odessa.

This is an immense program and it will probably be about the first of the year before the improvements are completed. For the present the company will continue to purchase electric power from the West Texas Utilities Co. at Abilene as needed. The completion of the high line from Eastland to Big Spring will make the Texas Electric Service Co. entirely independent of any other corporation.

UPSTAIRS OF ELLIS BUILDING CONVERTED INTO OFFICES

E. H. Josey has been awarded the contract for the work of remodeling the upstairs interior of the Ellis building on the corner of Second and Main streets, and to convert same into a modern office building. Work on the same was started this week and is well underway.

Five modern office spaces will be available when the work on this building is completed and such is very much in demand just at the present time.

The law has just about taken all the joy out of fishing. In the first place you must procure a license, or be arrested. Then you must not catch certain fish of a smaller size than plans and specifications set out in the code. You must use only the fishing tools prescribed by law. You must not use artificial bait—what-ever that is; and you must not trespass on the other fellow's land. In fact it is not safe to go fishing unless a lawyer accompanies you. Verily a fellow has to be a good sport who will risk a fishing trip these days.

Joe Kimbrough of Denton was a business visitor in Big Spring this week.

Mr. and Mrs. W. F. Fahrenkamp and daughter, Billie Mae, were in Colorado Saturday to attend the wedding of E. E. Fahrenkamp and Miss Thelma Mann.

IN THE SPRING

"Every motorist has his car tuned up in the spring," says Harry Lester of the Bankhead Garage, distributors of General Tires in Big Spring. "Valves are ground, carbon removed, oil and grease applied, and often there is a new coat of paint. It is just as important that the tires without which the car would not run at all, have spring attention too. This is frequently overlooked or neglected and the motorist who ignores his tires in the spring pays for it in mileage and often in the price of new tires."

"It is perhaps not generally understood that tires give better service as a rule, in the winter than in the summer. In fact snow and slush, and even ice, which give undertraction, do not cause as much wear as hard, dry, hot summer roads, and winter protection of this kind frequently hides incipient troubles that are quickly exposed when warm, dry weather returns."

"We invite every car owner to come in and have his tires inspected before starting the summer grind. There may be small repairs to make—and there may be serious difficulties to correct. Tires need much more attention to proper air inflation from now on—as there will be no protecting cushion of snow under them to compensate for negligence. Brake adjustments should be righted, as there is no longer a nice, slippery ground coating to compensate for inequalities."

"Loads from now on must be more nearly correct on commercial jobs and distribution must be watched. Wheel alignment is another matter frequently neglected during the winter but which must be given attention in the spring, when the heavy mileage begins and when crooked wheels, wrong toe-in, incorrect camber and wobbling will have a chance to do their worst on tires."

"This advice is good—no matter what kind of a tire is used or what the nature of the job may be. With our facilities, and the special study we have given to tire engineering, we are already having lots of 'spring inspections' and invite all local motorists to save miles and trouble by driving in or telephoning us about a once-over for the tires on their cars, trucks or busses."

TO THE BAPTIST WOMEN OF BIG SPRING ASSOCIATION

Come let us rejoice together in our next Worker's Conference, which meets with us here at Knott on Tuesday, June 28.

We are anxious to have every church in the association represented. Our subject will be "The Value of Reports," as we did not get to have it at our last meeting.

Our meeting will be in progress at this time with Evangelist Ashford doing the preaching. We want you to come praying for a great meeting and for a great worker's meeting on that day.

Come one and all. We need you. Mrs. E. E. Masch, President.

The world loves the man who loves to fish. You don't find him in jail. You don't find him in the hospital. You don't find him dying young. He is the man, who, without flaunting his religion from the housetops, sees God forever in the blue skies, in the forests, in the glimmer of the stars and the rising of the moon—in everything that is a part of his beloved streams and lakes. Fishing is not only a pastime which man has created for himself. It is the greatest character-building activity under the sun for human hearts and souls. It is the man who loves to fish who helps to keep the world at its best, who is the greatest fighter for its beauties and its ideals, and all because he has come to realize and understand the great and glorious thrill of that intimate contact with nature which one finds when he has a rod in his hand. I am a fisherman. And I am going to live to be a hundred.—James Oliver Curwood.

The moth larva does but one thing and does it well—it eats and eats and eats. Carpets, rugs, upholstery, clothing, woollens and furs are riddled with holes to satisfy the enormous appetite of the moth larva. Fly-Tox kills the moth, the eggs and the larva.

Fly-Tox is the scientific insecticide developed at Mellon Institute of Industrial Research by Rex Fellowship. Simple instructions on each bottle (blue label) for killing ALL household insects. Insist on Fly-Tox. Fly-Tox is safe, stainless, fragrant, sure. Every bottle guaranteed.—advertisement.

LEADERSHIP LACKING HERE

We need an outstanding leader in Big Spring—a man who is not afraid to invest his money in Big Spring property and in enterprises which will help upbuild our city. We have quite a few boosters but most of them are not overly burdened with gold, and hence they are not able to set the pace. If some of our wealthy citizens would show a little more willingness to invest their money at home it would prove a big encouragement for others to do so.

When our city was getting a black eye because of lack of hotel facilities—home money was too timid to save the day, and it was necessary to

get a progressive citizen from another state to erect a modern hotel in Big Spring.

Outside capital is much easier secured when local capital indicates it has supreme confidence in the community.

Big Spring has a wonderful opportunity to make an important city but it is going to be necessary for our citizenship to get up and hustle.

Don't Be Embarrassed By Skin Itches

Use Blue Star Soap on affected parts, then apply Fly-Tox. It penetrates the skin, kills the cause of a healthy condition, or Cracked Hand, Foot, worm, Sore Blistered Feet, Skin Sores—all of these its wonderful healing power. A Jar, Soap 25c, etc.

A Scene from the tense-drama "FINE FEATHERS" at Chautauqua, Fourth Day.

CONVENIENT MAIL BOX OF HOUSTON GIVEN PRAISE

"courtesy mail box" for the convenience of motorists, as provided by Postmaster Roy B. Nichols of Houston, Texas, has so highly commended itself to Postoffice Department officials that First Assistant Postmaster General John H. Bartles has recommended it to postmasters of other cities where it is desirable and there is a real need for such a convenience.

The Houston box, installed because of the inability of patrons to find parking space during the crowded hours, is placed at the street level and by arrangement with traffic authorities is in a forty-foot "no parking" zone. The opening of the box faces the street and metal handles are inches long with a chain extending from the opening of the drop. Motorist may easily open the box on one hand and deposit a letter without leaving the car.

CHAMBER HAS ASKED FOR EXTENSION OF EXPRESS SERVICE

The Chamber of Commerce has submitted a petition to the officials of the American Railway Express asking that they extend the express service in Big Spring north of E. R. trucks and also on East and Third streets. If this request is granted the Express Co. will take in quite an additional number of blocks in the delivery service.

CRIPPLED LAD GIVEN CHANCE

Newsboy Seized Eating Stolen Food in Grocery Gets Helping Hand.

Fort Worth, Texas.—John Pawlowski, seventeen, has had a hard time most of his life.

John is a frail, blue-eyed Polish lad. His eyes are clear blue and his soft light hair hangs over regular, somewhat delicate features.

John hobbles along on a crutch, for he injured his left leg in the spokes of a wagon and gangrene set in, necessitating amputation.

Two years ago John's father and mother died in Philadelphia, Pa. They left enough money for a few months more of school and John went through the first year of high school.

There wasn't much work for a frail lad, clumsy with a crutch, and even selling newspapers in Philadelphia was a harder game than John could play, so he drifted southward and westward.

Same Story in Florida.

First he tried Florida, but it was the same story there. The agile newsboys sold all the papers. Something prompted John to go westward, to California, rosy pictures of which he had read in the papers.

He traveled as far as Fort Worth. The box car in which he rode stopped in the T. & P. yards. The bright windows of a grocery store shone nearby. John was hungry. He hadn't had food for days.

A special officer found John in the grocery store, the door of which had been pried open. John was eating from a can of pork and beans. He was taken to the city jail.

John rode in the emergency wagon to the district attorney's office.

"Sure hate to see him fished on," said Lonnie Wilkerson, patrol wagon driver.

Assistant District Attorney Hal McConnell placed a blank complaint in a typewriter "to take the case." He began questioning John. The crippled boy cried as he unfolded his story, closing with his confident hopes that the next city and California would be different from the places behind him.

"I can't take this complaint," said McConnell, and he took John into the office of District Attorney Martin. The story was retold there. Officials squirmed uneasily as the lad fixed his sad eyes on them.

John knew that it was wrong to break into a store, but he had been hungry, so hungry that pork and beans were a banquet feast for him. Martin asked him what he was going to do.

"I'll go on to San Francisco," he said with a note of hope still in his voice.

Wilkerson and Martin conferred at one side, and after a few minutes Martin came back to where John slumped in the grimy, soggy clothes that he had worn day and night for weeks.

Gets Chance in Fort Worth.

"Mr. Wilkerson wants to take you to his home until Monday, and clean you up so you can start selling papers here," Martin told the lad, and pressed a \$5 bill into John's hand.

"We want to give you this chance," Martin told him. "We are not going to file the case unless you force us to later."

A few minutes later John hobbled out on his worn crutch to the patrol wagon with Wilkerson. Next day he had his "chance" on the streets of Fort Worth as a new newsboy.

CHIROPRACTORS OPEN OFFICES IN WETSEL ROOMING HOUSE

Long and Burrows, experienced masseurs and chiropractors, this week opened their offices for the practice of their profession at the Wetzel Rooming house, 207 Runnels. Mr. Long is a graduate of Palmer and Carver school and has had fourteen years of experience in giving drugless treatments. Mr. Burrows is a graduate chiropractor, and he too has had experience in this work.

They have their offices open ready for business and those wishing appointments, may phone 532.

MARRIAGE LICENSES

E. E. Fahrenkamp and Miss Thelma Mann, Colorado, June 17.

Thomas R. Hall of Coahoma and Miss Aline Sullivan, June 18.

Mason D. Coggin of Abilene and Lillian Bell Henson of Stanton, June 20.

Leonard Carlton and Miss Beatrice McNew, June 22.

A fellow who won't boost the town in which he lives and makes his money is rather a poor sport. But we do have this kind of folks, more is the pity. Our town may not be the biggest and best in the world, but it's our town and we propose to be loyal as long as we make our home here.

Have you the Chautauqua spirit? Don't you believe it well to secure the class of entertainment it brings to our city, or do you believe the young people should be left free to find any kind of entertainment—when and whenever they may? Surely we want the young people to have clean, high class amusements.

If this was presidential election year there might be some explanation of the great amount of wind in the atmosphere; but since it is not we cannot understand why every little rain cloud has carried a big windstorm. Most every section of the country has had severe windstorms so far this year.

Visitors attracted to this section by the oil possibilities are more likely to grasp the big opportunities which now obtain than are the home guards. Just watch the new money pour into this section in the way of new investments this Fall. They come, they see and are convinced that big development is due here.

Herald want ads gets results.

HOME DINING ROOM OPENED BY MRS. L. E. EDDY FRIDAY

Mrs. L. E. Eddy opened a home dining room at her home, 204 Johnson street, last Friday, June 17, and is ready to serve meals to boarders by the day or week. Mr. and Mrs. Eddy have recently purchased the Joe B. Neel home on Johnson street and have remodelled and improved it, converting it into a modern rooming house. The home dining room is conducted in the same house by Mrs. Eddy. Good meals and reasonable prices will make this a popular place for customers who will eventually become regular boarders.

FINE HOME GROWN PEACHES

W. H. Cardwell, a successful Howard County farmer, and one who believes in diversification, brought a fine juicy peach to the Herald office last Friday afternoon and presented it to the writer. The peach was gathered from Mr. Cardwell's small orchard at his home place and we wish that all of our subscribers could have had a taste of it. Not only was it good to look at, but it was ever so juicy, and of delicious flavor. It was of Rogers' cling variety and a very hardy producer, according to Mr. Cardwell. Even though we have had no rain these trees thrived through the dry spell and produced fine fruit as we saw from the specimen we enjoyed so much. Had not the high winds and rain knocked the young fruit from the trees, Mr. Cardwell stated that he would have had a nice little fruit crop this summer. If the trees had had all the water they needed there isn't any telling what kind of fruit they would have produced.

We must become interested in a proposition before we can be expected to enter heart and soul in helping promote said proposition. It is therefore up to us to interest ourselves in worthwhile movements which have for their object the upbuilding of our community.

Diamonds—over 150 bargains to select from, at Wilke's Jewelry and Optical Shop—the diamond house of West Texas.

If you want to keep young, join in with the members of the American Legion in making the July 4th celebration and barbecue a whopping big success. This has become an annual event in Big Spring and every citizen should help insure the success of the occasion.

Paint that will match your house or your complexion. . . . Cunningham & Phillips.

Miss Lelvyne Rogers of Stanton visited her sister, Mrs. J. B. Dalton and friends in this city Tuesday and Wednesday of this week.

REDPATH-HORNER

MOTHER LEFT BABY ON SHIP

Captain Tells of Terrible
Five Days as Nurse to
Eskimo Babe.

New York.—The duties of the captain of a merchant vessel "tramping" its way about the ports of the world, while comprising many strange and at times not altogether satisfactory tasks, rarely, if ever before, have been known to include the job of playing nursemaid to a mis-laid Eskimo infant.

This, however, is the unique experience enjoyed, if that is the proper word, by Capt. Arthur W. Wooster, skipper of the British merchantman City of Mobile, which recently docked at the wharves of the Pouch Terminal, Brooklyn, with a cargo of spices from India.

While steaming far off somewhere on the other side of the world the ship came eventually to the port of Kamchatka, Siberia, where it docked to take on a cargo of canned salmon. While it was lying at anchor a number of Eskimo women, with their babies strapped Indian fashion to their backs, came aboard to sell fruits and vegetables and various trinkets and articles of wearing apparel to the sailors.

When the orders to clear ship and weigh the anchor echoed down the merchantman's decks, the women hurriedly scrambled for the ship's sides and, tumbling over with many wild cries, made off in their small craft, taking, it was generally supposed, all their babies with them.

It was not until the ship had steamed about 50 miles from Kamchatka, however, that Captain Wooster discovered how woefully inexact this supposition had been. His second officer came rushing up to him with the startling information that one of the acutely juvenile gum-drop enthusiasts had been discovered very much tangled up in a coil of rope between decks.

Captain Faces His Task.

Following the lead of the second officer, Captain Wooster came upon the baby, which, he declared, was "the dirtiest and ugliest infant imaginable." In addition to this, it was yelling at the top of its lungs.

"I checked it under the chin," said the captain, who, by the way, is a married man with a couple of young hopefuls of his own in a London suburb, "and did all the usual tricks in an effort to restore its good humor, if any, but all to no avail. It howled louder than ever and screwed up its little staring eyes until they were completely lost in its tear-streaked yellow face.

"I suggested that my second officer should take charge of the brat, but he refused the detail point-blank. Remembering that the best way to a baby's heart is through its stomach, I took the child along to the steward, but found that he didn't know much more than I did about acting as vater to an 'infant'—terrible, for he started right off to feed it milk.

"I quickly disabused him from this idea. We were then confronted with the problem of contriving a way to feed it some milk. My second officer seemed to think that the child was constructed on the same principle as a puppy and should be able to lap. But after several false starts and a couple of deluges of milk we gave up the idea as not being practicable. Finally, prompted by vague recollections of nursing bottles, we managed a very creditable imitation from a beer bottle and a piece of rubber tubing.

Bath Proved a Knockout.

"The next thing was to give the child a bath. This was an unfortunate inspiration, for in our clumsiness we evidently got some soap in its eye, which was the signal for a whole new series of yells.

"My next worry was where the infant was to sleep, and as none of the other officers would take it in their cabins I finally wrapped it in a rug and put it on my settee. Well, this was where I fell, for after that I had the full responsibility of this awful child."

"It had the most powerful pair of lungs for its size that I have ever heard in action. And its conception of the time to sleep seemed diametrically opposed to mine. After a hard day's work complicated by frequent excursions to attend to the child (and I cannot tell you the awful job I had to do; it just put years on me) I would retire to a well-earned rest. Just as things began to get pleasantly hazy and the cares of the day (including the baby) were beginning to fall away, a dying moan would rend the silence. My jangled nerves would respond with a jerk which completely routed all slugs of sleep. And then, with increasing violence, the storm would be upon me.

"My combined job of ship captain and nurse was making a complete wreck of me, and I am sure that if our first port had been 25 days distant, instead of five, I should have dropped the child overboard. However, we reached Karatsu, Japan, on the fifth day, and there I got a sister from the Catholic convent to take charge of the baby and, believe me, I was more than thankful to see the last of it."

Look Who's Here!

Kansas City, Mo.—The five-cent loaf of bread has come back to Kansas City after an absence of fifteen years. The loaf weighs twelve ounces.

The CREAM of Pennsylvania Oils

TO BE sure Conoco Amalie is 100% pure Pennsylvania Oil. But it's even more than that. It is made from premium Pennsylvania Crude—from the famous Franklin Field. It is the cream of Pennsylvania Oils.

That's why it has the endorsement of 207 designers of automotive equipment. They know that it will stand up and fight friction under all operating conditions. It lubricates thoroughly and completely. It's economical because you have to change it less frequently.

No wonder Conoco Amalie is the recognized choice of lubricating experts. Try it. There's a grade for your motor.

You can get it at the Conoco sign.

MATSUDA KNOCKS REID OUT
Matty Matsuda, the Peerless Jap, the undisputed and undefeated welter weight champion wrestler of the world, had all that he could do to handle his Iron Man opponent, Mike Reid of Chicago, Ill., last Monday evening at Miller's arena. The match was filled with thrills and sensations throughout the entire time that the two bone-benders were on the mat and the fans were continually cheering both parties. Matsuda was forced to use every hold and tactic to down his opponent and was on the defensive end thruout the match.

Reid was one of the most powerful and the best built men that has ever been seen in this vicinity and is without question one of the strongest men to his size in the ring today, a clever wrestler and a man that can give and take a lot of punishment, and made himself a world of friends in Big Spring who are anxious to see him back in the future as he gave the fans one of the most creditable performances that has ever been seen here, and his speed and strength made the wily Jap protect himself at all times during the match. Reid used head locks, short arm scissors and wrist locks to tire out his opponent and seemed to have the champion at his mercy with a series of flying mares which made the Jap feroxy.

Matty, as usual when he has a tough man to handle, slipped rapidly from one line of attack to the other. His sumbles and efforts to grab the Iron Man's legs, kept the Iron Man moving constantly in the last stages. Both tried slams, but short flying mares that did no damage was all that ever resulted, the champion manipulating his body and legs in mid-air to break the fall by landing on his feet.

Matsuda never looked better in any of many ring battles and used his super science to trick into a knockout to secure the first and only fall; the match ended when Reid was trying to secure a body slam a few minutes before the ending and after falling tried a short arm scissors, punishing Matsuda severely and after suffering severe pain for several seconds the wily Jap broke this torturing hold and both men went to their feet working for flying mares and body slams. Reid backed Matty into the ropes attempting to toss him out of the ring raising Matty off of his feet when the Champion grabbed the ropes causing Reid

to lose his balance and fall backwards on the mat bringing the weight of Matsuda down on him knocking the wind out of himself and the wily Jap quickly took advantage of his unfortunate predicament and quickly climbed on top applying a double arm lock to secure the first and only fall in forty-three minutes and fifty seconds of the most thrilling and sensational wrestling that has ever been witnessed in any city. Billy London, the local favorite, acted as referee, and won the praise of the fans in keeping the contestants strictly to the rules and holding the match free from rough tactics, stopping Reid from hair pulling and warned both men to work clean. The preliminaries were exciting and the largest crowd that has ever witnessed a match was present and applauded the contestants at all times. Matchmaker Faust read a challenge from Kala Pasha, the Terrible Turk, of Abilene, for a handicap match with the local favorite, Billy London, for Thursday night, June 23.

ASSIST AT OPENING OF NEW ACORN STORE AT COLORADO

Leslie White, manager of the Acorn store in this city and Carlos Black, advertising manager, were in Colorado the latter part of last week assisting in the opening of a new branch store in that city on Saturday. They report a good showing on the opening day and a very favorable outlook for this new enterprise.

PLANS MODERN SHINE PARLOR

Courtney Davies has secured a lease on the space in the Jess Slaughter building on Main street and about July 1 expects to open a modern shoe shining parlor therein. He has placed an order for six shine chairs and other equipment and will conduct a modern shine parlor. Courtney has been a success with his shoe shining business on East Second street, so with this up to date equipment and ideal location on Main street he should surely make good. It's a cinch he will give his customers satisfactory service and can be depended on to be always on the job.

We are now running four repair benches to keep up with our ever increasing Watch and Jewelry Repair business. We give you the best service possible, and at reasonable prices. WILKE'S Jewelry & Optical Shop.

COTTON IN BLOOM AT KNOTT; FINE STAND; GOOD PROSPECTS

L. E. Castle is a very fortunate farmer and he is to be congratulated by his friends throughout the county. He has an unusually good stand of cotton this season and some of the plants are already in bloom.

Last Friday Mr. Castle brought to the Herald office a cotton stalk that was at least eighteen inches high, and this one plant had twenty forms on it, two of which were already in bloom. Finer and healthier plants would be hard to find in this section and to think that they already have blooms seems almost impossible. Mr. Castle has about fifty acres in cotton with this fine stand, and 45 more acres with not quite so good a start. His cotton was planted on April 12.

It is the general belief that crops in the Knott community are the best to be found in the county. Slight rainfall at different intervals thruout the season have been a boost to the crops in this community. Many sections of the county are still suffering from lack of moisture.

AT WORK ON COLLINS BUILDING

Work has been started on the lot at the corner of East Second and Runnels streets, preparatory to the erection of a modern brick business building for Dr. T. M. Collins.

About 500 yards of dirt is to be moved in order to get the lot down to a grade level. The building, a one story brick, 50x90 feet, will front on East Second street and will be divided into several spaces which will be rented to various business firms.

OIL MEN.—We appreciate your trade and treat you 100 per cent square. Wilke, Jewel and Optician

It would be a paying proposition for every county along the Glacier to Gulf Motorway to vote bonds to construct a concrete road entirely across Texas. Lubbock has started the movement and is to vote on a bond issue of \$1,000,000 for a system of concrete roads in that county.

We take subscriptions for all magazines. Courtney Davies, Shine Parlor and News Stand. 36tf

Mrs. Frances Thomas and daughter, Willie Frances, left for Mangum, Okla., and other points to visit friends and relatives.

PROGRAM
Workers Conference Big Spring
Association with Church at Knott on
Tuesday after Fourth Sunday.
9:30 a. m. Devotional—J. H.
Gregory.
9:45 a. m. Address—Rev. E. E.
Mason.
10:00 a. m., Address—Rev. Brown
Hartwell.
10:15 a. m., Address—Rev. Mc-
Graw.
10:30 a. m., Address—Rev. G. O.
Summers.
10:45 a. m., How to Live So That
God Can Answer Our Prayers—Rev.
D. H. Heard.
11:15 a. m., Sermon—Rev. Brown,
Midland.
12 noon, Lunch.
1:30 p. m., Address—Rev. Thig-
pen.
1:50 p. m., Address—Rev. Wat-
son.
2:00 p. m., Ladies work.
3:30 p. m., Board meeting.
All speakers excepting Rev. Heard
choose your subjects.
Some of these days, when all be-
come rich, we should put over that
program of building artificial lakes
throughout West Texas. Water and
plenty of it, is about all we need to
make this the finest section in the
world. If we had water to promote
irrigation we would have California
backed off the map.
Just the fact that gas for domestic
and industrial use was available in
Big Spring would give our city a
boost. Factories and other enter-
prises looking for cheap fuel would
consider locating here, whereas you
could not interest them at present.
A whopping big fuel bill could also
be saved by home owners.

**POTASH DEVELOPMENT MAY
SUPPLANT OIL ACTIVITY**
Drilling potash tests in West Tex-
as has progressed to such an extent
that those who are interested in the
potash industry are now beginning
to get more exact knowledge of the
possibilities of this new southwestern
resource than they have had hereto-
fore.
Odessa lays claims to the title of
center of the potash field—which is
covering a lot of territory.
But although there may be other
towns in West Texas to challenge
the claim, it is a fact that Odessa is
getting down to business on potash
better than any possible rival.
There is an organization in Odessa
to go into potash mining in a truly
commercial way, with a \$100,000
payroll, a mine and a refinery.
That begins to sound interesting.
The day will come when West Texas
counties underlaid with potash de-
posits will be dotted with such mines
and with potash refineries. The fer-
tilizer business will be developed and
also the chemical business.
Potash possibilities are so big as
to make the oil industry appear
small by comparison.—El Paso Her-
ald.
Test wells in Howard County have
shown potash deposits and we may
wake up and encourage development
some day.
Just about as soon as the officers
clean-up one bootlegging road house
another bobs up, making it the chief
outdoor sport of our officers to stay
on the trail of these fellows. It is
going to be necessary to send a
bunch of them to the pen in order
to discourage the ring.
**CEMETERY ASSOCIATION
MUST KEEP ON**
There is no gainsaying the fact
that we must keep the Cemetery As-
sociation in operation. The problem
is to devise ways and means of col-
lecting the necessary funds to pay
the sexton's salary and necessary re-
pairs. This task must not be un-
loaded on two or three faithful
workers.
Most of our citizens have loved
ones buried in Mt Olive cemetery;
and all who are financially able will
willingly give some amount each
month to keep the cemetery from
being neglected.
If you have any suggestion as to
how the matter should be handled,
send it in.
Wonder if we can't do a little mis-
sionary work in having some danger-
ous spots in our sidewalks in the
business section eliminated before
NEW ROCK FILLING STATION
The new rock building at the in-
tersection of the Chalk oil field and
Glacier to Gulf Motorway, about
nine miles southeast of Big Spring, is
nearing completion. This has been
leased for a filling station by a Mr.
Bishop.
Phillips Bros, the owners and
builders also erected a rock filling
station and a rock business building
at Ross City.
It does appear as though our city
would catch up on the housing
proposition; but it seems that the
more houses are built the more folks
move into our city. A steady build-
ing program during the summer
seems assured; and a real building
program is scheduled for the coming
Fall.
It's rather strange that our folks
found they could drive an automo-
bile at a reasonable speed within the
city limits, and also observe the traf-
fic regulations without any serious
inconvenience. True, its costing the
tax payers a nice sum to show the
folks it is possible for them to ob-
serve the laws, but we guess it's
worth the price.
Herald want ads got results.

Vacation Needs

It's summer time and vacation time
What a glorious feeling it is to
skip happily away on a trip
away from work and worry
Of course to thoroughly en-
joy this vacation one must
have the proper frock for
each and every occasion

**Sport
Frocks**
\$12.50 and up

Cool and comfortable, and just
the thing to slip on in the morn-
ing and feel "perfectly at
ease." In all new materials.

The Texas & Pacific railway is
planning a special excursion to El
Paso for July 4. The train will leave
Dallas at 8:15 o'clock on the morning
of July 2, and arrive in El Paso at
7:15 a. m. on the morning of July
3. Returning leave El Paso at 9:00
p. m., July 4th.
M. H. Brasher, traveling represen-
tative of the Abilene Building and
Loan Association was a business
visitor in this city the forepart of
the week.
LET US DO YOUR HAULING
We are prepared to do all kinds
of hauling at reasonable prices. We
will also furnish you the best gravel
to be obtained. See us on phone 7.
Maxwell & Locklar. 29-1f

Miss Constance Cushing, after a
two and a half years stay in Kalam-
azoo, Mich., where she has been
attending school and college, arrived
Thursday to spend the summer
with her parents, Mr. and Mrs. W. F.
Cushing at their ranch home in
Glasscock County. Miss Cushing at-
tended Kalamazoo State Teachers
College the past year. The past
summer she and her sister, Miss
Mary Cushing, spent the summer va-
cation touring some cities in the
north and east: Boston, Mass., Wash-
ington, D. C., New York City, and
others.
Mrs. E. D. Merrill and daughter,
Evelyn, and Mildred Taylor were
visitors in Abilene this week.

Mr. and Mrs. Jim Winslow were
here the past week-end from San An-
gelo visiting relatives and friends.

**SOUTHERN ICE & UTILITIES CO.
RE-ICES 120 CARS FRUIT, ETC.**

In order to assist the Texas and Pacific railway keep up its record of handling the California fruit and vegetable shipments in fast time, the management of Southern Ice and Utilities Co. of this city does some fine team work. As an instance on last Tuesday night a crew of twenty picked men were kept on the job all night to re-ice 120 cars of fruit and vegetables. 951 blocks of ice, or approximately 143 tons of ice were required for this job.

Were it not for the fact that the Southern Ice & Utilities Co. had expended a vast sum making preparations to handle this re-icing business in quick time, it would have required several days to re-ice this great number of cars.

Misses Katherine and Margaret Bettie left Monday night for an extended visit with relatives and friends in St. Louis, Cincinnati and Pittsburgh, Pa.

BUILDING PERMITS

The following building permits have been issued by the city during the past week:

Dr. T. M. Collins a one-story brick store building 50x90 feet; estimated cost \$10,000.

M. Segell improvements to store building; estimated cost \$900.

H. C. Boatler, stuccoing residence in Cole and Strayhorn addition; estimated cost \$350.

CARD OF THANKS

Words are too inadequate to express our thanks to the people of Big Spring for their help and loving kindness shown us in the sickness and death of our dear niece and sister, Eula Pearl Hurley; especially do we thank Mr. and Mrs. Kirby Miller and Mr. and Mrs. Chas. Eberly, and others we can't recall their names.

We appreciate the kindness shown us in your homes. May God's richest blessings rest on the good people of Big Spring in our prayer.

J. A. Ledbetter and family,
Sulphur Springs, Texas,
R. R. Hurley and family,
Terrell, Texas,
And other relatives.

With a dollar bottle of our best hair tonic we will give you a fifty cent bottle of shampoo. . . . Cunningham & Phillips.

CHURCH OF CHRIST NOTES

Bible school 9:45 a. m.
Preaching 11 a. m.
Communion service 12 o'clock.
Brother Showater of Abilene Christian College gave us a wonderful lesson on last Lord's day.

Ladies Bible study every Monday afternoon at 4 o'clock.

The lesson subject is Abraham 20 and 21, review lesson.

Mid-week Bible study every Wednesday evening at 7:45.

Lesson subject being Isaac, Jacob and Esau in Sound Doctrine, Vol. 2. Everyone is extended a cordial welcome.

We want to announce that Bro. G. A. Dunn of Dallas will begin a revival here July 1. Bro. R. M. Morgan of Floydada one of the best singers of West Texas will be here to conduct the song services.

The church is fortunate in getting these two fine men of the gospel with us. We, the members, want to do our bit in helping this revival to be one of the best in the church's history.

Will P. Edwards and family returned Wednesday night from a visit in Mineral Wells. Between Mineral Wells and this city he reported showers, but evidences that a general rain was needed was everywhere apparent.

Good tourist auto camps are an asset to a community and Big Spring is fortunate in having a number of attractive and sanitary tourist parks. Treat the tourist right and he is going to speak a good word for the town all along the route. Don't forget that courtesy always pays.

A war on rats must be waged in our county. In many places the rats are plentiful, large and equipped with a wonderful appetite. Folks trying to raise chickens are having quite a task to prevent the rats devouring all the young chicks.

Baseballs of all sizes and prices. Cunningham & Phillips.

When you drive to one railroad crossing, only to find it closed to traffic then drive seven or eight blocks to one of the remaining two crossings and find a switch engine making up a train—you wish they would get busy and build that viaduct

**AUTO COLLISION WEST OF TOWN
OCCUPANTS ESCAPE INJURY**

A Peerless, driven by a tourist, ran into a Franklin tool car belonging to the Green Production Company driven by Bailey Gauce, field superintendent about one mile west of town on the Bankhead highway on Tuesday evening. The tool car was loaded with tools for the Ox-sheer well and when hit by the Peerless it was turned around and considerably damaged. The Peerless was knocked into the ditch but damage to it was slight.

The tourist stated that the lights on the approaching car blinded him and caused him to run into it.

The occupants of both cars, escaped uninjured.

PRESBYTERIAN AUX. NOTES

The regular business meeting of the Woman's Auxiliary of the Presbyterian Church will be held at the church Monday afternoon at four o'clock. All of the ladies are urged to come.

Miss Otero Lloyd who was very ill the latter part of last week is reported to be improving nicely.

Our stationery department is complete. Cunningham & Phillips.

Wichita Falls was selected as the location for the newly formed oil and gas bureau of the West Texas Chamber of Commerce.

Framed pictures at special prices. Cunningham & Phillips.

Jed A. Rix of Lubbock and Harvey L. Rix made a business trip to McCamey Tuesday.

Pat Buchanan left Tuesday evening for Marshall where he will have his tonsils removed at the T. & P hospital.

Keep Kool with Kooling drinks from a Kool Fountain. Cunningham & Phillips.

Walter Largent returned Tuesday from Amarillo where he had been for a week's visit with Gib Jackson and family.

Mr. and Mrs. Ray Willcox returned Saturday night from Temple, where they had been the past several weeks. They return greatly benefited in health.

OIL DEVELOPMENT
Continued from first page)

in a hard lime. Six inch casing has been set and everything is in readiness to bring this test in when the oil sand is encountered. The lime formation is very hard, it being impossible to drill only 12 feet each tower. Geologists state the formations in this test are running about 140 feet higher than in the Texon's Harding well.

California Co. to Drill Currie Ranch
The California Company is making preparations to make a thorough test for oil on the W. B. Currie ranch southeast of Big Spring.

Location has been made on the northwest quarter of section 215, block 29, W. & N. W. survey. A water well has been completed cellar dug, workers' cabins erected and drilling will start as soon as a rig can be moved here from Sterling County.

The California Co. is one company able and ready to make a thorough test of this territory and all are pleased to note that they have started operations in this section.

Optician, for a free examination.

Social Notes

FABRIKAMP AND MANN WEDDED
In this city are in receipt of congratulations from Mr. and Mrs. E. E. Fabrikamp and Mrs. M. E. Mann, announcing the marriage of their daughter, Miss M. E. Fabrikamp, to Mr. J. E. Mann, Saturday afternoon, June 23, at the residence of Mr. E. E. Fabrikamp, pastor of the Presbyterian Church of Col. The ceremony was performed by Rev. J. E. Mann, and about one hundred invitations were issued to members of the lodge and friends.
Dancing was in order between the hours of 9 to 1 o'clock and "The Virginians" under the direction of Mickey Rathbone furnished the splendid music for dancing.
This delightful affair proved enjoyable to about fifty couples of college boys and girls and also several out of town visitors who are visiting friends in our city.
The dance committee, Joe F. Flock, chairman; Bart Wilkinson and George White, are receiving thanks this week from the younger set for the good time afforded them at this enjoyable affair.

PICNIC SUPPER GIVEN BY PRESBYTERIAN AUXILIARY
On last Friday evening the ladies of the Presbyterian Auxiliary honored Mrs. T. S. Currie and her sister, Miss Mary Stevenson, who left Sunday morning for Wisconsin with a picnic supper at the new wells.
The crowd met at the church at 6:30 p. m. and then drove to the new wells south of the city. After greetings and lively conversation had been indulged in for sometime the picnic plates were prepared. A tempting lunch of sandwiches, stuffed eggs, olives, potato chips, ice lemonade and ice cream cones were enjoyed by all.
After wishing the honor guests a most pleasant journey and visit in Wisconsin the crowd dispensed with mutual feelings that all had spent a pleasant evening. Reported.

CHICKEN BARBECUE AT NEW WELLS SUNDAY EVENING
One of the delightful outings of the past week end was enjoyed by a group at the new wells south of the city Sunday evening, when they were entertained with a chicken barbecue.
At supper time barbecued chicken, fruit salad, toast, olives, pickles and iced tea were enjoyed by Misses Clara Jones, Marie Self, Maywood Rix, Julia Beas Nowell, Alice Dawes, Alice Graham Bishop, Winona Taylor, Lola Belle Stewart and Monroe Johnson, Hubert Rutherford, Joy Stripling, Athal Porter, Lee Porter Tyree Hardy, Albert Allen and Joseph Hayden.

ENTRE NOUS BRIDGE CLUB GUESTS OF MRS. TRAVIS REED
Members of the Entre Nous Bridge Club were guests in the home of Mrs. Travis Reed on last Thursday afternoon. Three tables of players found interest in the bridge games of the afternoon and Mrs. C. F. Duval was successful in making top score among the club members. Mrs. H. D. Hilliard made visitor's high score. Dainty luncheon covers were spread at refreshment time and a delectable plate luncheon was served by the hostess.
Mrs. Ashley will entertain the club at the next regular meeting.

DE MOLAYS WILL HOLD REGULAR MEETING TUESDAY
All members of the Order of De Molays are requested to be present at the next regular meeting which will be held Tuesday evening, June 28, at the Masonic hall at 7:30.
Visiting members from out of town are cordially invited to attend any and all meetings while in this city.
Shine Philips left Saturday night for San Antonio where he will attend the Drug convention.

HOME-COMING DANCE AT ELK'S HALL FOR COLLEGE FOLKS
Premier among the social gaieties of the week was the Homecoming Dance given at the Elks Hall Monday evening honoring the boys and girls who are home from college to spend the summer months with home-folks. The dance committee of the Elks lodge planned the affair, and about one hundred invitations were issued to members of the lodge and friends.
Dancing was in order between the hours of 9 to 1 o'clock and "The Virginians" under the direction of Mickey Rathbone furnished the splendid music for dancing.
This delightful affair proved enjoyable to about fifty couples of college boys and girls and also several out of town visitors who are visiting friends in our city.

TWO YOUNGSTERS CELEBRATE BIRTHDAY ANNIVERSARIES
Ross Collins Hammond and Miss Pauline King celebrated their sixth and seventh birthday anniversaries, jointly, on last Friday afternoon between the hours of four and six o'clock. Various kinds of games were played by the little folks after which delicious ice cream and cake were served to the guests. Everyone had a jolly good time, and wished the young honorees many more happy birthdays.
Those present were: Gordon and Nada Ruth Buffington, Vera Whittier, Daniel Jr. and Erwin Boren, Marvin Louise Davis, Gwindell and William Smith, Charline Stovall, Lendora Dell Rose, Charles Gordon Davies, Mollie Virginia Smith, Harold Plum, B. J. Avery, Charles Raymond, Ida Caroline Smith, Junior Johnson, Dorothy Campbell, Dorothy Coleman, Lavern Balch, Pauline Anderson, Marcella King, Ernestine Guiley, Jessie May Smith, Francis McIntosh, Gladys Martin, Louise, Elizabeth and Nellene McCrary, Ruth and Bobbie Taylor and Judith Pickle.

R. A. HUTCHINSON CELEBRATES 73RD BIRTHDAY SUNDAY
While Uncle Eck (as he is called by all who know him) went with his pastor for a few minutes call Sunday afternoon his relatives and friends went over to his little cozy bachelors home and prepared a delightful surprise for him, this being the date of his 73rd birthday anniversary.
The dining table was beautifully centered with a big birthday cake, decorated for the surprise, baked by his sister, Mrs. S. R. Cox and on the cake were 73 lighted candles. Each guest brought a surprise and all were placed on the table with the birthday cake.
Word was sent to Uncle Eck that he had company and when he returned home and found 45 people there, his cake, and many other good things to eat all prepared for a party the surprise was complete. He found many useful gifts too, brought by his friends.
He assured everyone that he appreciated the party and their thoughtfulness and asked that the pastor offer a prayer.

MISCELLANEOUS SHOWER HONORING MRS. H. GOODMAN
Mrs. Sam Little and Mrs. J. W. Smith most delightfully entertained with a miscellaneous shower on Wednesday afternoon, honoring Mrs. Horace Goodman.
Those enjoying this occasion were Mrs. John Rider, Mrs. Curtis McCauley, Mrs. O. B. Gaskin, Mrs. Ed Bailey, Mrs. Jim Pardue, Mrs. Jim Jones, Mrs. J. M. McCauley, Mrs. C. A. Burks, Mrs. S. N. Laws, Mrs. J. B. Stitts, Mrs. R. N. Adams, Mrs. Jim Mott, Mrs. M. L. Reynolds, Mrs. G. C. McCauley, Mrs. J. W. Smith, Misses Billie Martin, Mildred Weaver, Susie Thomas, Lillian Little, Anne Martin, Alice Smith, the honoree and hostesses.
Those who sent gifts but were unable to come were: Mrs. Louise Mathis, Mrs. Shirley Fryar, Mrs. J. W. Fryar and Mrs. Kate Legatte.
At the close of the afternoon's entertainment the guests were served delicious ice cream and cake.

YOUNG WOMEN'S SOCIETY MET MONDAY AFTERNOON
The Young Women's Missionary Society of the First Methodist Church met in regular session at the church at 3:30 o'clock Monday afternoon and only nine members were present.
All members are urged to attend these meetings, especially be present at the next regular one as important business will come up for discussion.

WILKE PARTY ENJOYING SNOW ON PIKE'S PEAK
A card from Mr. and Mrs. G. L. Wilke who are vacationing in Colorado state, brings the Herald the following news:
"We are on top of Pike's Peak, surrounded by 4 to 10 feet of Snow, and more is falling just now. Leaving here today for Denver and north to Rocky Mountain Park. The elevation here is 14,149 feet and we are about 5,000 feet above the timberline. No vegetation can grow above that line on account of the severe atmospheric conditions. We have visited the Cave of Winds, The Garden of the Gods, and many other beautiful places."

COGGINS-HENSON
In the study of the First Christian Church at two o'clock Monday afternoon, June 20, Claud Wingo, minister of the First Christian Church, performed the ceremony which united in marriage Miss Lillian Bell Henson of Stanton and Mason D. Coggins of Abilene. The happy couple will make their future home in Abilene.
Attendants at the wedding were: Mrs. Alta Henson, Miss Daphne Coggins, Jno. B. Mills, Miss Martha McKenzie, Miss Dorris Henson and Noma Atchinson.

MRS. BATTLE IN EL PASO TO ATTEND SISTER'S WEDDING
Mrs. Wm. Battle and son is in El Paso this week visiting her parents, Mr. and Mrs. J. R. Kennedy, and to attend the wedding of her sister, Miss Hazel Kennedy and J. D. Sawyer of Redondo Beach, Calif. Mrs. Battle will be a member of the wedding party, the wedding to be solemnized at the First Baptist Church in El Paso at 7:30 o'clock Saturday evening, June 25.

JOE B. NEEL HONOR GUEST AT BIRTHDAY DINNER
Joe B. Neel was the honor guest at a happily planned affair on last Friday evening when Mrs. Neel entertained with a surprise dinner, this being Mr. Neel's birthday anniversary. Around a prettily laid table an appetizing meal was served by Mrs. Neel.
Those enjoying this evening with the honor guest were: Mr. and Mrs. J. P. C. Stewart, Mr. and Mrs. J. M. Barley, Mr. and Mrs. John Owen, Mr. Duff and Byron, Willard and Junior Neel.

DELPHIANS ELECT NEW OFFICER FOR COMING YEAR
Mrs. M. W. Paulson was elected president of the Delphian Chapter at the last regular meeting held on last Tuesday afternoon. Other new officers elected were: Mrs. Travis Reed, vice president; Mrs. L. S. McDowell, secretary-treasurer; Mrs. L. L. Freeman, reporter. The program committee is composed of Mrs. Chas. Yarnell, Mrs. J. P. Dodge and Mrs. L. L. Freeman.
This session, the last of the present Delphian year, brought to a close a most profitable year's work "Modern Nations" were studied by the chapter the past year and very satisfactory work was done by the members.
It was voted that the chapter meet only twice a month during the coming year, the meeting day to be every other Saturday instead of on Tuesday as in the past.
The local chapter has made a request for the Delphian Jewel.

WINGATE-BERRY
A telegram was received Monday morning announcing the marriage of Miss Alice Wingate to Mr. D. J. Berry at Whitney Sunday evening, June 12. Miss Alice Wingate has been a teacher in the Toyah Public school for the past two years and made many friends here. Mr. Berry has been known and esteemed in Toyah for many years.
The many friends of Mr. and Mrs. Berry wish them much happiness and joy in their wedded life. Pecos Enterprise.

HIGH SCHOOL P. T. A. WILL MEET TUESDAY AFTERNOON
Members of the High School P. T. A. are urged to attend the regular monthly meeting of the association which is to be held at the rest room in the courthouse Tuesday afternoon, immediately after Chautauqua. Important business will come up for discussion and a good attendance is expected.

RETURN FROM CONVENTION
Cleo Sellers, Bill Turpin, Frank Segell and Philip Musgrove returned Monday morning from Corsicana, where they had been to attend the State convention for the order of De Molays.
Mr. and Mrs. Ned Ferguson announce the arrival of a baby daughter on Thursday, June 16.

MAYTAG COMPANY WILL HAVE FIFTEEN LOCAL SALESMEN
The Maytag Company, the largest manufacturing concern of its kind in the south is seeking a good office location and display room in our city and when a desirable one is found a district office will be located in Big Spring. These people manufacture and sell aluminum washing machines and there is a ready market for their products in our territory. Fifteen local salesmen will be engaged to sell the washing machines which will be shipped here direct from the factory in Newton, Iowa.
Mr. Bomar, a representative of the Maytag Company and manager of this district, has secured a small space in the Nall & Lamar Grocery store where his headquarters will be temporarily. He is on lookout for adequate office space and when same is secured the branch office will be opened.

SHERIFF'S DEPARTMENT BUSY
While Sheriff Frank House and deputies are not making much noise they are ever on the job and are giving the law violators plenty of trouble.
During the past two months they have made 126 arrests, mainly on charges of bootlegging, gambling and drunkenness.
Deputy W. M. Nichols at Ross City recently arrested Ralph Talley, Frank Harrison and Joe Livey on a charge of illegal possession of intoxicating liquor and they were released on bond. Twenty-one quarts of bottled in bond whiskey was confiscated.
T. J. Williams, negro, arrested on a charge of choc beer, was also arrested recently.

MISS HELEN DUDLEY OF ABILENE ARRIVED SUNDAY NIGHT FOR A VISIT IN THIS CITY WITH HER COUSIN, MISS EMILY BRADLEY, OTHER RELATIVES AND FRIENDS.

SPEEDER DESERTS HIS CAR
A man arrested by a traffic cop on the highway west of Big Spring last Thursday night made his escape but left his automobile.
As they were returning to Big Spring the man leaped from the auto while it was in motion and made his escape before the traffic cop could get the auto stopped.
The car, a Buick coupe, is being held by the officers. Working on the theory that this may be a stolen car Sheriff House has wired to the officers where the car was registered.

GULF DELIVERY TRUCK BURNS
A Ford delivery truck of the Gulf Refining Company was destroyed by fire Tuesday. The accident took place about eleven miles southeast of Big Spring.
"Boob" Mason, the driver had to make a quick jump to get clear of the burning machine so rapidly did the flames spread.
He was returning from Ross City where he had delivered a quantity of gasoline. It is thought that the exhaust set fire to the oil soaked bed of the truck.

CHANGE POWER LINE TO SHOPS
Dewey Geer in charge of two special crews, recently completed the hazardous task of changing the routing of the high power line from Gregg street to the T. & P. railway shops. This was necessary since it was impossible for the railroad company to suspend all operations at the shops for two hours or more to permit the job being carried out with the electric current cut off.

A. B. COOK & SON OPEN DRY GOODS STORE HERE
A new dry goods store has been opened in the Elliott building at the corner of Third and Runnels streets by A. B. Cook and Son, and is now open and ready for business.
The up to date stock has arrived for this store and has been placed in attractive arrangement in its location in the Elliott building. Because of lack of space the shoe department and men's wear will be dispensed with for the present, and a special price has been placed on the lot of shoes for quick selling. Some extra low prices have also been marked on the merchandise for the first few days of business.
The citizenship of Big Spring is invited to pay a visit to this new dry goods store and to become acquainted with the proprietors.

GAS FOR BIG SPRING
Sufficient gas to supply Big Spring and more, has already been developed in the Chalk oil field. It is only necessary now to interest capitalists in bringing this gas to our city so it will be available for domestic and industrial purposes.
Several groups from different cities have been here to investigate the proposition and the one convincing the City Commissioners that they mean business are able to handle the proposition and are willing to sell gas at a reasonable rate will have no difficulty in securing a franchise.
Surveys to ascertain the cost of bringing the gas to our city are now being made.

REVIVAL MEETING AT THE CHURCH OF CHRIST, JULY 1
A revival meeting is to be conducted at the Church of Christ tabernacle, starting July 1, with G. A. Dunn of Dallas doing the preaching and R. M. Morgan of Floydada in charge of the song services.
All the members are urged to take notice of this meeting and attend all of the services. Brother Morgan has some forceful sermons to deliver and under the direction of Brother Morgan the congregational singing will be one of the features of success of the meeting. Much spiritual good will be derived and many blessings are in store for those attending.
A cordial welcome is extended everyone to come.

BEER JOINT BURNS
A beer joint located about three miles east of Big Spring just off the Bankhead highway is reported to have been destroyed by fire about midnight Tuesday. Origin of the fire is unknown. No arrests have been made.

The Big Spring Herald
BY T. E. JORDAN

\$2.50 A YEAR OUTSIDE COUNTY
\$2.00 A YEAR IN COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 3, 1897.

Big Spring, Friday, June 24, 1927

NOTICE TO THE PUBLIC: Any erroneous reflection upon the character, standing or reputation of any person, firm, or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

West Texas is going to be on the map before many moons. Just watch them flock to this section when oil development is on an even keel.

Most of our people are not worrying about means and methods of helping Big Spring grow and prosper. All they are interested in is me and my son John, and just how they can pile up a few more dollars.

Hope and confidence have replaced fear of hard times in our neck of the woods. The coming of the rains last week was the salvation of our county and it is reasonably certain that fairly good crops can be made.

Anyone operating a business under any name other than his own is required to file a list of owners of the business with the county clerk. It is not much trouble to attend to this little formality and it may prevent your paying a fine.

A friendly and hospitable people cause a community to grow for it is such a people the homeseeker will select for his friends and neighbors when he is in search of a place to make his home. It pays to show visitors every courtesy.

We understand a bond issue for more paving in Big Spring is contemplated. Why not add the city's proportionate part of the cost of erecting a viaduct over the railroad tracks on Gregg street and include it in this bond issue. The viaduct is a bigger need than is additional paving.

Big Spring folks will be tempted to declare a holiday on the date the Southwestern Bell Telephone Co. starts work on the new flash-light phone system in Big Spring. It is impossible to give first class service with the present worn out equipment.

If you persist in violating one law, another section of the citizenship violate some law they dislike, and around the circle it will soon come to pass that law enforcement is a joke. You can't be a good citizen unless you abide by all our laws, whether or not you approve them.

We do not care to see conditions here such as prevailed at the oil field town of Borger and the best insurance against this is to cooperate with the officers. Let the crooks understand right off the bat that the citizenship will uphold the officers in enforcement of the law.

Beware of crooks posing as oil men who are flooding this section with "dry checks." Several slick crooks have worked Big Spring, Odessa and Amarillo just recently and buncoed the business men out of a nice sum of money. Be sure you know your man before you cash his check.

The community best equipped to handle any situation that presents itself is usually the community which develops into a prosperous city. Big Spring is especially fortunate in being supplied with every natural resource and man-made convenience, wherein we have a substantial foundation for city building.

A paved highway along the Bankhead route from coast to coast would mean great things for every town along the route, as well as for every tourist using same. A gasoline tax sufficient to pay for such a road could be levied and collected and those using the road would pay for same.

If ever the oil fields of West Texas play out, the development of immense potash fields will insure prosperity for this section. West Texas is just beginning to find herself and the world is just beginning to glimpse the wonderful opportunities West Texas offers.

Lindbergh is going to be responsible for putting a whole lot of people up in the air, just as Henry Ford was responsible for putting so many folks on wheels. When the day arrives wherein each member of the family must have a fliyer and an airship, Dad is going to give up the ghost.

WHEN OPPORTUNITY KNOCKS AT YOUR DOOR

Two years ago Colorado was the mecca of the oil men for this section of West Texas. Had we been farsighted as we should have been it would still be. Opportunity knocked vigorously. It came this way, as it always comes, but once. There is no earthly reason that can be given why other towns were able to make inroads into our rightful territory, save the fact that we were not alert as we should have been. Now our neighboring towns to the west of us have pulled a lot of business away from us they never should have gotten, and they are still getting it.

Years ago we lost the packing houses and railroads that really wanted to come to Colorado. When once lost they were lost for all time. Will it be so with the oil business? One cannot find fault with the oil operators for moving to towns that provide roads put up in condition to be traveled in all kinds of weather. There are times when conditions at the well make it imperative to be able to transport machinery and supplies quickly and in large quantities. Had we built good roads to the field at that time, we would now have the oil business corralled in this field. It is true that we have now voted to pave the Bankhead Highway but that means that for two years, or approximately that time, the highway will be an incomplete condition which men will avoid if possible. During this period of time the towns that have their roads built will get the business.

We are in grave danger of losing still another golden opportunity. A group of forward-looking young men have been trying to promote a flying club for Colorado, that might have had a national significance had they received the enthusiastic support from the Chamber of Commerce and other civic organizations that would have put Colorado on the map. Some day we shall see the mistake when too late. No town is so great or so favorably situated it can afford to beguile itself with the conviction that it is so strategically situated or of such commercial importance that it can dictate its own terms to either business ventures or progressive measures. No town is squarely in the way of any project. Most any of them can find a convenient way around or over if they choose to go that way. In these days of keen competition and struggle for commercial supremacy, business goes where it is wanted.

A town is not built by one act, nor does it live by one industry alone. Everything must fail at times. There are periods of recession in all lines of commerce. When one falls the town with varied interests is able to go ahead. The more varied the industries a town the surer its avenues for revenue. Quoting an ancient scripture, "Man cannot live by bread alone." Diversity in business is as essential as diversity in farming. Welcome every legitimate industry, but do not damn it with feint praise.—Colorado Record.

Here's a warning and a lesson for Big Spring citizens if they will but heed. We have some citizens who are of the opinion that everything must come our way whether or no. They seem to imagine that all we have to do is to fold our hands and wait; but of course they will be a surprised bunch when they wake up too late to save the day. In these days it is the city or town which gets up and hustles that brings home the bacon.

Big Spring has a wonderful opportunity to make a sizable city if our citizenship had the get up and get to seize old man Opportunity and stay on the job. He is with us now but will not remain long if we fail to carry our part of the load.

Farming is about the riskiest business in the world. A farmer may work his head off in preparing his field, planting and cultivating his crops but unless the needed rain appears his efforts have been in vain. A hail storm can wipe out a year's work in a few moments. Surely there is such a thing as luck in the farming game.

We cannot expect folks to stop over in our city if we cannot supply hotel accommodations nor can we expect oil companies to make their headquarters in Big Spring if they cannot secure office rooms. It stands to reason that the city which is nearer meeting the needs of the situation is the city which is going to be lucky. By the time the oil development is in full swing again Big Spring will be in a position to supply hotel accommodations but we are not making much headway as to providing an office building.

Mr. and Mrs. Alvin Johnson and daughter returned Monday morning from a visit with relatives in Midland.

EDUCATION AND OVERALLS

A barefooted boy in overalls still has all the education he wants in the public schools of a modern city. San Francisco, Calif., determined that in quick order when a deluge of public protest following the ousting of a boy, eleven, from one of the city Grammar schools because he attended classes clad only in overalls, forced school authorities to order the lad back to his classes.

The boy is Robert Anderson. His father is in a Government hospital, a disabled veteran of the World War. His mother has been working to support him and his sister on \$50 per month.

Robert was told by his Principal, Mrs. Alice R. Norton, to go home and stay there until he could dress more suitably for school. The matter became public.

Leaders in every walk of public life, including city, county and state officials, joined in a storm of protest against the action as un-American and an indictment of the modern school system. Three hours later Superintendent of Schools Gwinn had ordered Bobby Anderson back to school in his overalls.

"There will be no aristocracy of dress here," he said.

It was admitted Bobby's overalls always were clean and the boy always good.—Fort Worth Press.

If you are in favor of providing clean and inspirational entertainment for our young people prove it by patronizing the Chautauqua which opens in Big Spring today for a week's stay. The splendid programs are presented at a very low price, when season tickets are procured; so all our folks can afford to attend every program.

Herald want ads gets results.

NEW KEISLING GIN BEING CONSTRUCTED AT COAHOMA

The new gin that is being constructed by the Keisling Gin Co. on the south side will be when completed, a paragon of the modern gin, and will be an object denoting progressiveness to catch the eye of the passer-by as a sentinel signifying Coahoma prosperity.

The old gin building has been razed and in its place is being built this bigger, better equipped structure, planned to handle the ever-increasing production of the staple that flows into Coahoma gins in larger amounts annually.

The building will be a spacious one, with ample room for storage, etc. The main building is 84x44 exclusive of the seed and other out buildings. This is about double the size of the common gin buildings.

The used machinery that is in any way damaged is being discarded and replaced by new. A round bale press is being installed in addition to the square that has been the customary kind used heretofore. Preparations are being made to increase the capacity far above the old speed.

The work is progressing rapidly under the competent direction of R. C. Brown with occasional calls from L. F. Keisling manager of the company.—Coahoma Citizen.

DRY HOLE

The Herald learns that the oil well being drilled, two miles north of Tioga has reached the contract depth of 2750 feet and declared a dry hole.—Tioga Herald.

What's one or more dry oil wells to Tioga, when they have such wonderful water to depend on? It usually requires years to search out an oil field so Tioga need not worry if the first few oil tests do not appear favorable.

WHEN YOU WANT HARDWARE

Phone 14 We Deliver

By Mrs. Eubanks
Big Spring, Texas

Because we could get what we wanted without waste of time and knowing that we would not be overcharged because The Herald wouldn't stand for that, and as we were new arrivals in Big Spring we got busy at once, sold our old car to the Big Spring Wrecking Co., bought a Whippet from McNew, drove the new car to Ideal Service got gas and oil, then to Eaker and Richardson Garage and had lights tested and bought a spare tire, left our traveling clothes at Campbell's to be made like new,

went to the Busy Bee for lunch, then to Creath's for furniture and to the Big Spring Hardware for a stove, the wife visited the Vogue Beauty Parlor while the Couch Greenhouse got an order for cut flowers, then we visited the electrical establishment of Coleman's and asked him to inspect the lighting system put in some special fixtures that we always want, bought the fixtures and he asked us the house location, and that brought us up a snap as we had overlooked the house problem as there was no real estate advertisement on the page.

RAILROAD BROTHERHOODS END WORKING AGREEMENT

Cleveland, Ohio., June 16. -- A working agreement between two of the four great railroad brotherhoods -- the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen and Enginemen -- which has been in effect for fifteen years, was ordered abrogated by the Engineers in convention here today.
The move, culminating a split which has been developing since February, wiped out every basis of co-operation between the two brotherhoods.

Mrs. Ed Gray and two daughters returned Sunday night from a visit with relatives at DeLeon.

ENORMOUS COST OF CRIME

Crime is costing the people of the United States more each year than the combined value of all our farm products. Our yearly bill for lawlessness is greater than the debt Europe owes this country. So says the Crime Commission, an organization formed for the purpose of learning the facts and suggesting remedies.

Mrs. F. C. Neidermeier arrived Saturday from El Paso, called here by the illness of her niece, Miss Otero Lloyd.

Dr. R. L. Davis and James Davis arrived Saturday from San Antonio called here by the illness of Dr. Davis' sister in law, Miss Otero Lloyd

E. J. Headlee of Denton was a visitor here the forepart of this week.

Mrs. K. R. Woodford of Dallas visited friends in this city this week.

Mrs. Julian Eckhaus left Monday morning for a visit to her old home at Lafayette, Ind.

C. C. Nance and family left Monday night for a visit with relatives and friends in Ballinger.

Mrs. M. H. Bennett visited relatives and friends in Fort Worth the past week.

Miss Helen Wolcott returned Sunday night from Dallas where she has been under the care of a specialist the past several weeks.

I. E. Wasson, and son, Lloyd, returned last Thursday evening from Kansas City, Mo., where they had been to deliver a shipment of cattle.

Mrs. Frank Lester and daughter, Miss Pauline Lester of Los Angeles, Calif., left last Thursday night for a visit with their son and brother, Otto Lester in Mesa, Arizona.

Mr. and Mrs. T. S. Currie and children, Miss Agnes and Temp Jr., Miss Minnie Weddell of San Angelo and Miss Mary Stevenson left Sunday morning for a three weeks visit with relatives and friends in Wisconsin. Miss Stevenson who has been visiting her sister, Mrs. Currie, the past several months will remain at her home in Wisconsin.

Renew Your Health by Purification

Any physician will tell you that "Perfect Purification of the System is Nature's Foundation of Good Health." Why not get a course of chronic ailments that are undermining your vitality? Purify your entire system by taking a thorough course of Calotabs--once or twice a week for several weeks--and see how Nature rewards you with health. Calotabs are the greatest of all system purifiers. Get a family pack containing full directions. Only 30¢. (Adv.)

The oil lease crop has not been so worse the past year, and this crop is still bringing real money to the land owners in our county. The annual rentals which are coming in on leases also help out considerably and these are due to roll in for a number of years.

Mrs. J. P. Dodge and children left Tuesday evening for a visit with her mother, other relatives and friends in Venus.

Tom Good states he had a fine rain on his ranch north of Big Spring last Wednesday morning.

The H. C. Boatler home in the Cole and Strayhorn addition is being remodelled and improved this week. A stucco finish will be given the house when repairs and enlargements are completed.

Miss Lois Johnston of Fort Worth is in Big Spring visiting her father, and the Freeman family.

Mr. and Mrs. R. E. Carstarphen and sons, Bob and Jack, plan to leave Tuesday for Wichita Falls, where they will make their home. Mr. Carstarphen has been with the Gulf Pipe Line Co. in this city for six months or more.

Mr. and Mrs. R. K. Burns were in Thursday from their ranch southeast of Big Spring. They report plenty of sand but no rain out of the clouds last Wednesday morning.

J. D. Williams is here this week from Colorado. He has just returned from a trip to the Fort Davis mountain section, Del Rio and other points. He reports that rain is needed almost everywhere in the territory visited.

DAILY VACATION BIBLE SCHOOL BROUGHT TO A CLOSE TUESDAY

The daily vacation Bible school conducted at the Presbyterian Church the past two weeks was brought to a close Thursday evening with an interesting program. Sixteen children were presented with certificates at the program, receiving them for perfect attendance and satisfactory work during the school. Those who received certificates were: Betty Bean, Janie Bess Dubberly, Virginia Hilliard, Margaret Owen, Doris Cunningham, Mary Louise Inkman, Robert Owen, Margaret Wade, Ella Neill, Mary Jean Dubberly, Mary Louise Miller and Vivian Smith.

104 children have enrolled in the school during this time and all have done splendid work. More would receive certificates for their work but they were not perfect in attendance. They will receive special mention.

Mrs. T. F. Huggins was supervisor of the vacation Bible school and she devoted her time and efforts to the success of it. Her splendid teachers

and workers were: Mrs. Owen, Mrs. Wentz, Miss Mary Mullis, Mrs. Tam-sitt, Virginia Whitney, Mrs. Dahme, Mrs. Cunningham, Mrs. Dubberly, Mrs. McDowell, Mrs. Barnett, and Elza Jeanette Barnett.

Mrs. Dalbridge was in charge of the music, Elza Jeanette Barnett, the piano, and Mrs. Barnett conducted the devotional each morning. Mrs. Huggins gave the habit lesson each day. Mr. Owen had charge of the boy craft work and Mrs. Dubberly had charge of the play periods.

Much good was accomplished in all departments.

The residence of Lamar Smith on Main street is undergoing improvements and repairs this week.

Mr. and Mrs. C. T. Gooch and daughter, Tommie Lucille, are vacationing in California.

J. M. Manuel and Rev. R. L. Owen made a business trip to Odessa Wednesday.

Mrs. Harry Lees and children and Mr. Chas. Huasey and son left this week for a vacation trip to Corpus Christi.

Rev. and Mrs. C. D. Peak of Austin enroute from Midland to their home, visited old time friends in Big Spring Wednesday and Thursday.

The Clyde Fox home in Fairview Heights addition is being remodelled. An English style roof is being placed on the house, together with other improvements.

Dr. M. G. Walker and daughter of Coleman are visiting his son and brother in this city and also looking after the interest of his farm in this section. Dr. Coleman states that he would like to lease the farm for oil development.

If you can assist the members of the American Legion in putting over their July Fourth celebration, you should gladly do so. This is an annual event and it helps our city when the celebration is a big success. Invite your friends to be in Big Spring for this event.

Here's hoping the R. & R. theater interests will be forced to erect a handsome theater building on the lot at the corner of East Fourth and Main streets. If oil development strikes its stride this fall it will be necessary for them to erect this building.

NO DESSERT WILL BEAT GOOD APPLE PIE

Every Housekeeper Prides Herself on Her Pies.

(Prepared by the United States Department of Agriculture.)

"Can she bake an apple pie. Billy boy, Billy boy?" So runs the song the lady in the picture is doubtless humming as she rolls out her dough. If she knows what a good pie ought to be like, she will probably make a good pie. It doesn't particularly matter whether or not she puts in cinnamon or nutmeg. And while most people prefer, as this homemaker seems to, the "covered" type of apple pie, a good apple pie can also be made "uncovered" with pastry strips across the top. Apple pie is a wholesome dessert because it preserves a satisfactory balance between the fruit and the pastry.

Main Pie-Making Points. The main points are to make good pie paste, to use a suitable kind of apple, and to manage the oven properly. The crust should be tender, thin, flaky, not too rich, and delicately brown. The apples should be of the fairly tart, juicy, quick-cooking varieties, put in the pie uncooked, seasoned with butter, sugar and a very moderate amount of spice, usually cinnamon. There should be plenty of apples, too, but the pie should not be so full that the juice runs out. The undercrust in a leaky pie is apt to be tough and soggy. The baking should be done in a quick oven. If possible, serve pie a little warm.

The kind of fat used is somewhat a matter of personal taste. Some people like lard best; some prefer one of the hardened vegetable fats, and still others use part butter and part lard or other fat. Any fat used should be sweet flavored and combine properly

with the flour to make a flaky crust. Soft wheat flour is the best kind for pastry. The gluten that makes a good bread flour is a disadvantage in making pie crust.

Pie Crust Recipe. You doubtless have your own preferred pie crust recipe. The bureau of home economics gives the following ingredients and directions for one two-crust pie:

About 2 1/2 tablespoonfuls water
1 1/2 cupfuls sifted soft-wheat flour
5/8 to 7 tablespoonfuls fat
1 teaspoonful salt

Combine the fat and the flour. Some cooks recommend cutting the fat into the flour with knives, a pastry fork or a biscuit cutter, so the ingredients won't be warmed or handled too much, but the tips of the fingers may be used if the work is done quickly. Add the water slowly and use no more than is absolutely necessary. Roll out the dough very lightly. The temperature of the oven should be high to start with, and then be lowered rapidly after eight or ten minutes, so the filling may cook through without overcooking the crust.

For the filling you will need from four to six apples, three-fourths cupful of sugar, one-fourth teaspoonful salt, one-eighth teaspoonful cinnamon. Pack the apples into the crust carefully, so that the cover will fit evenly. They should be in this slices after being pared and quartered. Sometimes they are cut in rings after coring and paring. Sprinkle them with sugar, salt and spice mixed together. Place the upper crust on the pie. Bake for about thirty minutes.

**HEALTH
FOOD
MONEY**

RESIST that costly temptation to "let that little piece of ice in there do until tomorrow"—it will pay you. Keep your refrigerator full of ice. Ice is the cheapest commodity that goes into your home—about half a cent a pound! And when you think of the health it protects—the food it conserves—the money it saves—you can't afford not to take enough ice to meet all your needs! The few cents extra it may cost you daily will pay big dividends.

FOR INTERESTING AND HELPFUL FREE BOOKLETS ON REFRIGERATION—Check the list below and mail to Household Refrigeration Bureau, 51 Chambers St., New York City:

Notes From W T Fields

Again Drilling
The No. 1 Scarborough well in Winkler County was 1197 feet in broken lime according to a report in Angelo Thursday. It is the amount of the hole. The well, only 100 feet from the New Mexico line, has been a potential producer for several weeks—San Angelo.

Drilling Tests
Activity in West Texas is slow in spite of the fact that the amount of crude is shown by the end of last week 337 barrels in West Texas, according to Mitchell, Howard, Taylor Counties.—San Angelo.

Ector County Well
The No. 3, Ector County well at 3259 and are expected to be drilled on Saturday. It is not known what will be a large amount of oil in paying quantities.—Ector County News.

Receiver Appointed
Judge H. Atwell of the District Court Wednesday appointed C. Dunn, official of the Bank of America, as receiver for the Julian Petroleum and the California Petroleum Company. Dunn is to manage the two companies and the Glasscock well.—San Angelo.

venas at San Angelo. Other holdings of the two concerns are in California.—Dallas News.

Pecos River Bed Well Strikes Oil
Allsman & Bell No. 1 Pecos river bed test on the west bank of the Pecos river in Pecos County stood full at noon Thursday and was drilling ahead at 1037 feet in soft, gray lime. This was an increase of eleven feet in depth since noon Wednesday when there was 900 feet of oil in the hole, following a head Tuesday night reported to amount to about five barrels.—San Angelo Standard.

Humble Ricker Five Flows Steady
Humble No. 5 Ricker & Dodson in Upton County, making approximately a mile southern extension of the big production in the Independent pool, is maintaining a steady flow. In seventy-one hours, ending at 7 o'clock Saturday morning, it had averaged a fraction less than 36 barrels hourly from 2265 feet, thirteen feet in the pay lime. In twenty-four hours ending Saturday morning the well produced 856 barrels, an average of 35 2-3 barrels hourly.

It was running in tools to clean out and setting of three-inch tubing Monday was planned. The well has been making around two million cubic feet of gas, which is more than that by producers in the main field to the north. The oil tests 30 gravity and is free from water and basic sediment. There are two 500 barrel and two 1000 barrel tanks on the lease. The well is 2370 feet from the northeast line and 4509 feet from the northwest line of section 5, M. S. Denton survey. Holding the lease on 2569 acres owned by Rupert F. Ricker and Floyd C. Dodson of San Angelo. Humble is not planning the early drilling of other tests on the tract.

Texas Company No. 1F Union Land Company, is section 21, block 35, H. & T. C. Ry. Co. survey, is farther

south than Humble No. 5 Ricker & Dodson, being about two miles west and slightly south of it, but makes only about eight barrels a day on the pump from 3016 feet, two feet in the pay.—San Angelo Standard.

Cranio County Oil Operations
The Gulf made several new locations during the week. Landreth Oil Company, which has a four mile strip four hundred feet wide dividing the University and Gulf McElroy fields now has up six derricks and two are being built. This company has three fifty-five thousand barrel tanks going in.

The Magnolia Petroleum Company's O'Keefe No. 6 will be brought in the latter part of the week. The Magnolia now has seventeen producing wells, three, fifty-five thousand barrel storage tanks installed and another going in.—Ector County News (Odessa).

Gets Lime High in Winkler

Topping of the lime high in Pure Oil Company No. 2 Hendricks was the development of greatest interest in Winkler County during the week-end. It hit the lime at 2388 feet, 158 feet higher than Gulf No. 1 Hendricks, biggest producer in the area, west half mile to the west. The Pure well is in the southeast of the southwest of section 41, block B5, public school land, and at the latest report was making hole at 2430 feet.

Independent No. 1 Hendricks has plugged off sulphur water that broke in a second time when it was shot recently and pumped 40 barrels of oil from 3080 feet.

Humble No. 1 Ida Hendricks, with a total depth of 780 feet, was cleaning out at 790 feet with the hole caving. Humble No. 1 T. G. Hendricks was drilling at 415 feet.—San Angelo Standard.

Owens and Sloan Hit Oil Sand
The Owen and Sloan test well on

section 136, block 29, W. & N. W. Ry. survey, hit the oil sand at 1599 feet the first of the week. The drill was sent down to 1921.

The oil and gas showing so far is not as great as in the other tests in that territory, but a shot may change this.

This well is about a mile west of the F. H. E. Oil Co.'s test which is rated a good commercial well.

The Marland Edith K. Fisher No. 1
The Marland Oil Company is drilling around 1000 feet in their test well on the Edith K. Fisher section, about eight miles south of Big Spring.

The twelve and one half inch casing was set about 675 feet and the 10 inch casing will be set before drilling is continued much deeper.

As this test is located between producing wells on the W. R. Settles and J. B. Harding tracts it is looked upon with favor by the oil fraternity.

Johnson Well Creates Sensation

The Will Johnson well about 22 miles south of Baird and about two miles south of Mrs. J. W. Jones ranch on Clear Creek, is center of attraction in oil development in Callahan County. The well which is in rank wildcat territory, is being drilled by the Empire Gas & Fuel Company, and hit production, Saturday at 4140 feet—the deepest pay yet uncovered in Central West Texas. It was making 40,000,000 cubic feet of gas Sunday, which is the biggest gasser ever brought in in this section. The gas is saturated with oil, which leads to the belief that the well will be a good oil producer; vegetation for near two miles around the well is sprayed with oil.

Because of the heavy gas flow it has been impossible to remove the drillers tools, which are lodged in the hole.—Baird Star.

IN THE PECOS SECTION

King-Wood Pulls Pipe
The King-Wood well in Loving County is pulling pipe, now as a result of water breaking in behind the pipe the first of the week. The total depth is 2325 feet. The operators will straight-ream until able to get a shut-off of the water.

Humble Kloh B-1 Drills
The Humble Oil & Refining Co. Kloh B-1 is drilling in anhydrite with a total depth of 2360 feet. They are now making new hole after having their complete share of hard luck World Underreams.

The World well on the Duff at the intersection of the Carlsbad and Porterville crossroads is now under reaming with a total depth of 1440 feet. This well is near the old Bell well which first caused excitement in this territory, and will be given the stony stare when nearing the pay.

Deep Rock Drilling
The Deep Rock well is drilling steadily, below 3800 feet.

Humble Flores Drills
The Humble Oil & Refining Co.'s Flores No. 1 is now making new hole having cleaned out, and straightened. The total depth of this location on the Reeves-Jeff Davis line is 315 feet.

The Liano well which has been causing a great deal of excitement during its operation now has their pipe on the bottom, which is 3094 feet, and are bailing out. 2400 feet of oil was in the hole, which was struck near the bottom, but considered only a small strike. The operators will make new hole, when cleaned out. The location is about 12 miles north of the discovery.

The Champlin well is still shut down, with the pipe frozen, being unable yet to get it loose.

The Humble Co.'s Hendricks No. 1 went on tower again, fighting the heaving sand, with a total depth of 780 feet. They found 35 feet of hard stuff last week, but ran into sand again. Pipe trouble is now on the log.

The Texon well reported a rainbow at 1330 feet, and after drilling ten feet deeper ran into a flow of water which filled the hole. They will run pipe for a shut-off.

The Independent well No. 1 is on a pump and getting a small production.

The White Eagle well got their frozen pipe loose, and are drilling again. Total depth is around 1050 feet.

The Gulf Production Co. is drilling on their locations, with No. 6 on top of the salt around 1450 feet. The work on the tank farm is going ahead as fast as possible.

The Southern Crude well No. T-55-A-1, which is two miles north of the field, is now preparing to standardize the rig, with a total depth of 2371 feet.—Pecos Enterprise.

Mr. and Mrs. W. E. Buthanan and children of Ardmore, Okla., visited his sister, Mrs. W. G. Orenbaum and family in this city last week, enroute to San Antonio and other points of interest in South Texas.

WANT CLOTHING AND MEDICAL SUPPLIES FOR FLOOD VICTIMS

Everyone is urged to make donations of clothing and medical supplies to be sent at once to the flood sufferers of the Mississippi Valley.

Bring your things to the St. Mary's Episcopal Parish House and Rev. Frank H. Stedman, rector, will see that they are sent to the needy.

Old and new clothing is wanted and needed, also any and all kind of medical supplies.

Make a little sacrifice yourself and give it to this cause. Those sufferers are crying for help and they are depending on us fortunate ones to come to their aid. Do your bit!

Car of Bewley's flour—no better. The White House.

We wish some capitalist from Wichita Falls, Fort Worth, Dallas, Tulsa, Okla., or some other soapport would take a notion to erect a large office building in Big Spring. It appears as though Big Spring capital is too timid to tackle the proposition.

Anytime you have to save men by force you are shooting at the moon. Persuasion is the only method we understand; use force when persuasion has failed to keep a man from obeying the laws of our land.

Big Spring is going to be all dressed up for the July Fourth celebration. The American Legion are working faithfully to make this one of the best entertainments ever held in Big Spring.

 OF BIG SPRINGS, TEXAS.

WHAT'S DOING IN WEST TEXAS

By the
W. T. Chamber of Commerce

Floydada — Two new brick buildings to serve as business houses will be completed here within the next sixty days. Fifteen new homes, representing an expenditure of more than \$40,000 have either been completed or are nearing that stage, since January 1. These bring the total building permits this year to approximately \$85,000.

Post — The Post Hatchery has added another 12,096 egg Buckeye Incubator to their equipment, bringing the capacity to a total of 25,000.

Merkel — Contract has been let by the City Council for paving ten blocks in the business section of Merkel, and for a \$23,000 extension of water works. The paving contract calls for two and a half inch concrete base. Additional work will be done on water system at a later date.

Cloudercroft, N. M. — Hon. R. C. Dillon, Governor of New Mexico, will be a distinguished guest at the Pecos-Inter Mountain District Convention of the West Texas Chamber of Commerce to be held in this city on July 9. The regional gathering calls together delegates from almost a score of eastern New Mexico towns.

Slaton — Rapid progress is being made on Slaton's paving program which embraces work on seven blocks. Other paving to follow this project is being talked of and funds are available for this purpose.

Lubbock — The Lubbock Chamber of Commerce is making elaborate preparations for its sixth annual "Traveling Men's Stag Party and Jubilee" to be held June 25. An attractive program has been arranged for the event, and plenty of entertainment is being provided for.

Alpine — Senor L. Gutierrez Otero, Consul of Mexico, and other high Mexican officials, will be in attendance at the Big Bend District convention of the West Texas Chamber of Commerce which is to convene here July 4. The annual Cowboy Round-Up and Old Settler's Reunion of the Big Bend country will be held in connection with the regional meet. Another attraction will be that the distinguished personnel of the West Texas Chamber of Commerce motorcade party to the resort section of the Davis Mountains and eastern New Mexico will attend in a body.

Woodson — The Woodson Chamber of Commerce, in cooperation with the Throckmorton Chamber of Commerce, has voted to establish mile posts on the state highway leading from the city, on which advertising and road directions will be

placed. This is in line with the road marking campaign sponsored by the West Texas Chamber of Commerce.

Borger — Hutchinson County's mammoth road building election, authorizing issuance of \$1,250,000 in bonds has been passed.

Throckmorton — Throckmorton has met the proposal of the Texas and Pacific Railroad for a branch line from Breckenridge with the raising of a \$50,000 bonus. The line will be begun about July 1.

Ranger — Enlargement of the Oil Belt Power Plant, southwest of Ranger, is to begin this month. The improvement will increase the voltage from 30,000 to 50,000 horsepower, and will require the services of 400 men for a period of nine months.

"THE PATSY" WILL SCORE AT CHAUTAUQUA THIS YEAR

Pennant Winner of the Laugh League to Be Presented. Another Barry Connors Uproarious Comedy. The comedy was producer in New York by Richard Herndon and is by Barry Connors, the author of "Apple-sauce," "The Mad Honeymoon" and other successes.

"The Patsy" deals with the trials and tribulations of a highly sensitive young girl in the home of a modern American family consisting of a father whose love for her is the only sustaining note in her life, and her mother and older sister who are unendingly nagging and bullying her into taking the blame for everything, though hers is not the fault.

Considering herself almost a failure she takes a book which is purchased through an ad in a comic magazine and from which she learns many wise and witty sayings in order to become a social success and a "hit of the party."

To the further distress of both her mother and sister she wins Tony, the discarded suitor of her elder sister for whom she has secretly cared for a long time.

Unwittingly he is won through an effort to have Pat the man she loves by giving her six sure-fire lessons in love-making.

Attend "The Patsy" on the second night of the Chautauqua.

COAHOMA NOW A CITY

The election at Coahoma, recently, resulted in favor of incorporation by a vote of 47 to 27.

An election will be held June 28 to select a mayor, city marshal, and four aldermen.

The average family budget is divided as follows: Food, 45 per cent; rent and taxes, 16 per cent; charities, recreation and literature, 14 per cent; clothing, 12 per cent; miscellaneous, 7 per cent; all public utility service including light, gas, telephone, street car, etc., 6 per cent.—Ex.

HOW IS YOUR SPINE?

One of the glories of the human species is the backbone, which enables men to stand erect above other created beings. The Wise Man says: "God made man upright; but they have sought out many inventions."

One of the first improvements recorded in the patent office of the human race was an adjustable spine which enabled the first pair to accommodate their own desires and the Creator's commands to the wiles of the Devil. It was of further use in enabling them to make a first-class wiggle in their attempts to crawl out of the situation into which their spinelessness precipitated them. Ever since then man has been crawling. The excuse: "The woman tempted me and I did eat" has descended from father to son until today the boozier, the libertine and the murderer offer the same apology—"I was tempted." The remedy against an evil life lies largely in man himself: "When sinners entice thee, consent thou not." Have nerve to say no to sin even when dressed in its most innocent garb. It is consent that does the whole business. "All the devils on earth and in hell can't make a man herd with blacklegs and cut-throats unless he wants to frequent their haunts. Don't snivel about being led astray. Stand up, and show people you won't be led by the nose. "Consent thou not."—Ex.

TEXAS HIGHWAY BAR SIGNS

No advertising signs are permitted on the right of way of State highways according to a ruling by the State Highway Department and owners of the signs have been given a month in which to remove them. The reason for the ruling is that the signs are unsightly and are prone to make people careless of warning signs and other signs by the department which should be observed.

The ruling applies of course only to signs on the highway property and those placed in pastures and private property adjoining the highway are not affected.

The office of the State Highway Department here said if the signs were not removed at the end of the month's warning that they would be removed by the highway department itself.

If we had a few more attractions to cause visitors to spend more time in our city we would all benefit. Tourists turn much cash loose on their trips back and forth across the continent and fortunate are those places which can entertain them for a day or week or longer.

The old saying that nothing was free in the United States but air, will have to be amended since the Radio Corporation of America has just about secured a corner on the ether waves.

Improved Uniform International

Sunday School Lesson

By REV. F. B. FITZWAHER, D.D., Dean,
Monday Bible Institute of Chicago,
72, 1927 Western Newspaper Union

Lesson for June 26

Review—Life and Letters of Peter
(Read I Peter 5:1-11).

GOLDEN TEXT—Follow me and I will make you fishers of men.
PRIMARY TOPIC—Lessons from Peter's Life.
JUNIOR TOPIC—Peter in the School of Christ.
INTERMEDIATE AND SENIOR TOPIC—Peter as a Leader.
YOUNG PEOPLE AND ADULT TOPIC—Peter's Life and Work.

At best, suggestions as to the method of review have only a relative value. The individuality of the teacher, the aptitude of the pupils and the department of the school are factors which determine the best method to use. Three methods are suggested, the first two of which are in part taken from "Peloubet's Notes."

I. Peter's Characteristics.
 Among the outstanding characteristics of Peter may be mentioned impetuosity, leadership, courage, cowardice, changeableness, outspokenness. These traits and others are to be found in the quarter's lessons.

II. Biographical.
 The features to be stressed in this plan are Peter's early life, discipleship, sad fall, restoration, preaching at Pentecost, imprisonment, writings.

III. The Summary Method.
Lesson for April 3.
 Jesus had first called Peter and John to become His disciples. Afterwards he called them to become fishers of men. He first calls sinners to come to Him for salvation and then calls those who are saved to serve Him in winning others to Christ.

Lesson for April 10.
 Following the feeding of the five thousand, some were disposed to compel Christ to be king. Seemingly to prevent the disciples from entanglement in this movement He sent them across the sea. From His place of prayer in the mount He saw them struggling against the storm on Lake Galilee and went to their rescue, speaking words of comfort. At his invitation Peter walked on the water, but when he took his eyes off of the Savior he began to sink.

Lesson for April 17.
 To give the disciples a clear conception of His person, to prepare them for the dark hour of the cross, Jesus put to them two questions, "Who do men say I am?" (R. V.) "Who say ye that I am?" (R. V.) One's conception of Christ's person determines his character and his service.

Lesson for April 24.
 To revive the crushed hopes of the disciples and to show them how the kingdom was to be realized, Christ was transfigured before them.

Lesson for May 1.
 Peter's downfall began when he refused to hear about the cross. The steps in his downfall were self-confidence, sleeping at the post of duty, lack of prayer, zeal without knowledge, following Christ afar off, warming himself at the enemy's fire, and open denial. The look of Jesus brought him to repentance.

Lesson for May 8.
 Upon word by Mary that the Lord's tomb was empty, Peter and John hurriedly made an investigation. After Jesus had shown Himself to be alive by many infallible proofs He recommissioned Peter. Resurrection must be beyond a peradventure before there can be missionary effort.

Lesson for May 15.
 Fifty days after Christ ascended the Holy Spirit was poured out. When the promise of the Father was sent the disciples were empowered for witnessing of Christ.

Lesson for May 22.
 In the power of the Holy Spirit Peter wrought miracles and witnessed for Christ with such power that great numbers were added unto the church.

Lesson for May 29.
 After Pentecost Peter, who had cowered before a Jewish maid and shamefully denied his Lord, witnessed for Christ in spite of persecution.

Lesson for June 5.
 In keeping with Christ's command to witness to the ends of the earth, the missionary program had so widened as to include the Gentiles. Cornelius, a prominent Gentile of good reputation among the Jews, was used of God to break down the middle wall of partition.

Lesson for June 12.
 Peter was imprisoned for preaching the gospel. A great crisis was upon the church: The church prayed and God sent an angel to deliver Peter.

Lesson for June 19.
 Though Christians are sojourners in the earth they have responsibilities as citizens. They should be obedient to the laws of the country.

Dwell Deep

It is God's will that I should be serene and strong and brave. He does not mean for me to be despairing or depressed. Day by day He will give me a measure of strength adequate for each emergency. "Dwell deep, my soul, dwell deep!"—Christian Oil server.

True Faith

True faith detaches from the world and sits in proportion as it attaches to Christ.—F. B. Meyer.

BIG SPRING, TEXAS

Sources of Ready Income

Being Erected All Over Agriculture, Payroll, Oil and Tourists Best Bet

Special Correspondent North Star-Telegram

June 19.—Big Spring, Texas city that can boast of many sources of income. They are: payroll from railroad and tourists, lands in Howard County to be put under the agriculture one of the most reliable sources. To encourage more and better culture there is located the city limits a Federal Experiment Station is valuable to all at any Chamber of Commerce is engaged in promoting better agriculture, and has as- sisting dairy cattle, bet- ter conducting of more and more contests and the

encouraging of extension service work.

The quality of agricultural products grown in the Big Spring territory was demonstrated by winning several blue ribbons at the West Texas fair, Abilene, and the State Fair at Dallas in 1926.

The payroll coming into the city from railroad employes gives a steady income that stabilizes business during unfavorable times when other sources are more limited. This annual payroll is approximately \$1,000,000.

There has been discovered in Howard County a most profitable oil field. The oil is of high gravity. The wells are shallow and the pool covers a large part of the southern section of the county. Gas is also being found in this field, and the city is negotiating with companies interested in securing franchise for supplying commercial fuel. The proven field covers several sections. Wildcat wells are in every direction from Big Spring and the county is being given a thorough test.

Located in Howard County are several herds of registered and high grade beef cattle, the Hereford predominating. The herds of I. B. Caudle and Will P. Edwards have state

and national reputations, having won many prizes in competition at state and national shows. These herds carry blood lines of the famous Fairfax and Domino families, well known to Hereford breeders everywhere.

The city being located at the crossings of two national highways, over which travel thousands of tourists each year, makes the tourist business a substantial income. More tourists from the North and East travel the Bankhead Highway than any highway in the Nation, it is said. One reason for this is that it is 97 per cent hard surfaced.

The growth of Big Spring during the past 12 months speaks for its healthful financial condition. During this time 24 blocks of paving in the business district have been laid, a bond issue is now being submitted for the paving of 30 or more blocks of residence property. The city form of government was adopted Jan. 1, and since the new city system has been enlarged to take care of the new residence districts, this entailing several hundred meters and a "booster pump" to increase the pressure.

The Southern Ice & Utilities Company and the Texas Electric Service Company have spent in and around Big Spring this year more than three-quarters of a million dollars in their improvement programs, which meant the doubling of their capacities and the expanding of their services to adjacent territory.

In this improvement program the Texas & Pacific Railroad has come in for a quarter of a million in new tracks, concrete paving, drainage and a general fixing up of their yards and buildings.

About 60 residences have been completed during the past 12 months and seven brick business houses, with several under construction.

Big Spring boasts of being the smallest town in Texas with so many credits of college and university affiliation, the number being 32. The five brick school buildings house more than 1300 students. A school bond issue is being called to vote money to add more school equipment and more buildings in order that the increased enrollment in September be cared for.

Two new hotels are under construction and when they are completed Big Spring will have approximately 275 rooms, the increase coming as a result of the growth of the city due to the oil development.

With 23 oil companies operating within a radius of 25 miles from Big Spring, the coming in of several oil well supply companies, three new lumber yards, a dozen or more new business firms, the expansion of the water program, lighting and paving project, Big Spring is fast being looked upon as a growing city with opportunities for safe investments.

COOKERY COLUMN

Published exclusively in this newspaper by special arrangement with

Mrs. Tucker Institute of Cookery

Otis Neighbors, Director
© F. C. O. R. CO. 1927—All Rights Reserved

Refrigerator Cake

1-3 cup sugar melted in 1-4 cup of cold water in double boiler; add 4 beaten eggs to syrup, beating constantly. Cool. Cream: 1-2 cup butter, 1-2 cup Mrs. Tucker's Shortening. Work in 2 cups confectioner's sugar and add cooled egg mixture. Add 1 cup apricot pulp or 1-2 cup sliced bananas, 1 cup drained crushed pineapple.

Line bottom and sides of pan with lady fingers, sponge cake or lemon snaps. Pour in mixture and cover top with the cake. Place in refrigerator for at least 12 hours. Remove to service plate, decorate with 1 cup whipped cream and garnish with bits of candied fruit. This will keep for several days in refrigerator.

Upside Down Cake (skillet)

2 cups flour, 2 teaspoons baking powder, 1-2 teaspoon salt, 1-2 cup Mrs. Tucker's Shortening, 1 cup sugar, 1-2 cup milk, 2 eggs, 1 teaspoon vanilla, 1 cup brown sugar, 2 tablespoons Mrs. Tucker's Shortening. Fruit to cover skillet, Apricot halves, Peach halves, Orange sliced, Pineapple sliced.

Cream 1-2 cup Mrs. Tucker's and 1 cup sugar. Add the beaten egg yolks. Alternate flour which has been sifted with baking powder and salt and milk. Add vanilla and fold in whites.

Melt butter and shortening in skillet spread the brown sugar over the pan, place the fruit in skillet

in attractive designs—pour in the butter. Bake at 360 F. for 45 minutes. Turn upside down on service dish and garnish with marachno cherries, whipped cream may be spread over top.

Ice Cream Pie

1 cup flour, 5 tablespoons Mrs. Tucker's Shortening, 1-4 teaspoon salt, About 4 tablespoons water (cold), 1 pint ice cream, 3 egg whites fruit.

Cut shortening into sifted flour and salt. Add sufficient water to make a stiff dough. Roll out and bake on inverted pie tin. Chill, fill with very stiffly frozen ice cream. Cover with slices of pineapple, apricots or peaches. Beat 3 egg whites very stiff add 2 tablespoons sugar, 1-4 teaspoon vanilla. Put on mixture, brown quickly under flame. Serve at once.

Modern Paradise Pudding

1 tablespoon gelatin, 1-4 cup cold water, 1 1-4 cup boiling water, 1-4 cup sugar, 1 dozen marshmallows, 1 dozen macaroons, 1-4 pound of blanched almonds.

Soak gelatin in cold water. Pour over it 1 1-4 cup boiling water. Add the sugar and set this in a pan of ice. When it begins to chill whip until it looks like cream. Fold in 1 cup whipped cream, fruits, nuts. Mold in individual or in one large cake tin and set in a cold place to harden. Serve in slices or in molds.

HIGHWAY INSPECTOR SAYS MUST GET LICENSE

M. N. Roonsman of Abilene, district highway inspector for the State, is in Colorado this week in interest of enforcement of the highway license law and reports that all parties operating cars or motor vehicles of any kind must have license plates displayed on front and rear and those operating vehicles without proper license plates will be arrested and prosecuted. He warns all persons to acquaint themselves with the laws and refrain from violations.—Colorado Record.

A STARTLING IDEA

Chicago police finally have gotten out of patience with the crooks. It is now ruled in the Windy City that prisoners held in detective bureau cells for examination will not be permitted to smoke. "A couple of cigars bolster up a crook's nerve and help him evade police questions" said the chief. "These cells are not hotel rooms, and prisoners are not entitled to all the comforts of home."

The idea is a revolutionary one. If the method should be applied to all convicted prisoners in penitentiaries and jails we should perhaps, have greater fear of prison. If tea, coffee and other indulgences were withheld, really surprising results might be obtained.

A firm and consistent application of that method, with an accompanying requirement of labor at least as hard as that performed by the average industrious and law-abiding citizen, might introduce a new factor in the regulation of crime. And since most of the sentimentalists who favor coddling of criminals are of a class that regards tobacco and even coffee as instruments of the devil, we likely should not have much protest, except from the prisoners. — Port Worth Star-Telegram.

THE WISE GUY!

The man who thinks he knows it all is a fool who shuts the door of success in his own face. The man who is self satisfied and who concludes he has nothing more to learn from his fellows, may look at himself in the glass and say with Baalam's faithful servant: "Am I not thine ass?" When a man acknowledges himself a learner, only then is he in the path of true wisdom, no matter what his sphere. "Be not wise in thine own eyes" is the suggestion of a man who was the wisest of his time. The surest way to wisdom in the sight of others is a consciousness of personal insufficiency. There are plenty of people whom if you could only buy at their real worth in wisdom and sell them for the estimate they put on themselves you would not need to go to Cobalt to get wealth.

Miss Mary Mullis of Roswell, N. M. is the guest of Miss Virginia Whitney in this city.

Miss Vivian La Jeunesse of Ann Arbor, Mich., is a guest in our city visiting her sister, Mrs. J. Bob Austin. Miss La Jeunesse has been attending the University at Ann Arbor the past year.

We are still in the market to buy your cream. Bring us all you have. East Side Grocery and Market.

The brick and other material to be used in the construction of the one story 75x100 brick building for the Wooten Wholesale Grocery at the corner of West First and Gregg streets is now being placed on location and the work of constructing this building will be rushed.

A few field and garden seed in bulk left. The White House.

The Texas & Pacific railway company, The Texas Electric Service Co., The Southwestern Bell Telephone Co., The Southern Ice and Utilities Co. officials are able to see the handwriting on the wall, and are making extensive extensions and improvements to meet the needs oil development in this territory is certain to bring about.

INJURIES RECEIVED IN FALL FROM FOURTH FLOOR OF HOTEL

J. D. Hankins, a workman on the Crawford hotel, under construction at the corner of Third and Scurry streets, while working on the fourth floor, slipped and fell to the third floor late Monday afternoon. He received painful bruises and a dislocated arm.

He is reported to be getting along nicely.

BENEDUM "HIGH" ON WEST TEXAS OIL PROSPECTS

San Angelo, June 21.—"From the standpoint of oil I feel that West Texas today has prospects perhaps unequalled in the world," M. L. Benedum of Pittsburgh, veteran wildcatter, said here Tuesday, after he and more than 30 Pittsburgh, New York, Baltimore and Chicago bankers and brokers—most of them stockholders in the Plymouth, Transcontinental or Big Lake Oil Companies—had inspected the Big Lake Oil Company's part of the Reagan County field.

"That's optimistic, but true," added Benedum, whose 38 years' search for petroleum virtually has covered the globe. Associates seated with him about a table in a private car echoed his opinion.

Over 115 wells of the Big Lake Oil Company, all on land owned by the University of Texas, had produced 15,650,978 barrels of oil through May 31, between 250 and 300 locations remain to be drilled on the 16 sections and the extent of the proven area to the northeast and northwest not yet has been determined definitely. — Fort Worth Star-Telegram.

C. OF C. SEEKS TO IMPROVE BANKHEAD ROAD TO MIDLAND

To have the Bankhead highway paved all the way from Midland to El Paso is the aim of the good roads committee of the chamber of commerce. The proposition will be launched at the roads meeting to be held at Pecos July 23.

The first movement will be the organization of a Bankhead Highway association, composed of all the counties along the route. These counties are El Paso, Hudspeth, Coleman, Reeves, Ward, Ector, and Midland. — El Paso Herald.

MATTY TO DEFEND BELT HERE

Matchmaker Sam Faust states that he has received a letter from Matty Matsuda, the world's welter weight champion wrestler that he will return to Big Spring within the next three weeks and defend his title and belt against any welter weight wrestler with the exception of the local boy, Billy London; Matsuda barring him for his rough tactics. Faust states that Mike Reid or Billy Hallas will likely be Matsuda's opponent.

WEST TEXAS TO BE SCREENED IN BIG RANCH MOTION PICTURE

Fred Bockleman, staff cameraman for the Paramount News, was a business visitor in Big Spring Thursday on a scouting trip through West Texas. Mr. Bockleman is looking over the ranches in this section of the country in the interest of finding a location where a big cattle picture will be made by his company. He thinks the Big Spring section offers some good scenery, mountain ranges, and local color and wants to visit some of the ranches in this section and look them over with this idea in view. 5,000 head of cattle will be needed in one scene of the picture.

Cameramen from Los Angeles, Calif. will be here to screen the picture which will be produced at an estimated cost of several thousand dollars.

Mr. Bockleman will visit Midland, Garden City and other towns in the cattle belt and definitely decide the locations to be used.

Ranchers in this surrounding territory will have a golden opportunity to play up this section on the screen if they will offer their ranches for this picture.

CRUDE OIL PRODUCTION

The daily average gross crude oil production in the United States increased 11,200 barrels for the week ended June 18, totaling 7,508,650 barrels, says the weekly summary of the American Petroleum Institute today.

Oklahoma capitalists have been making bids for several pieces of desirable property in the business section of Big Spring recently. They agreed to erect buildings immediately if they could secure the locations.
