Police Chief Speaks To Rotarians

Spearman Police Chief Steve Wisniewski, a native of Pampa who took over July 15 as head of the police department here, was the speaker Monday, Aug. 8, during the Spearman Rotary Club meeting at Martin's Steak Garden.

Detailing his activities during the three weeks he has been in office, he noted that he is keeping busy organizing the department, remodeling the departmental offices in the City Hall building, installing a new teletype system, hiring officers for the department, and determining the principal problems in Spearman with which his department is confronted.

Noting that animal control is one of the bigger headaches, he added that other problems locally include traffic, narcotics and juveniles.

He announced that a new animal control warden had been hired. He likewise mentioned that information is being compiled on the narcotics situation and that as for the vehicular traffic problem, as of now, the department is issuing a warning for the first time traffic violator with the second violation calling for a citation.

With the approach of school opening, Chief Wisniewski emphasized that it is particularly important that drivers observe and follow traffic signs and signals, particularly in and around schools.

He also mentioned that he is working toward a successful conclusion of the juvenile situation.

Mentioning that he has been contacting local residents to obtain their ideas, he continued

by stating that he was amenable to ideas from people in the community designed to help improve the efficiency of the department.

LSD Indictment

A resident of Perryton in Ochiltree County, David Leslie, 17 who is being treated as an adult offender, has been indicted for felony possession of a controlled substance, namely LSD, by the Hansford County Grand Jury for the 84th Judicial District Court in Spearman.

Leslie has been released under \$5,000 bond. He was arraigned in June before Justice of the Peace J.P. Vernon in Spearman and the bond was set at that time and continued by the grand jury.

Leslie was arrested by officers of the Spearman Police Department in Spearman.

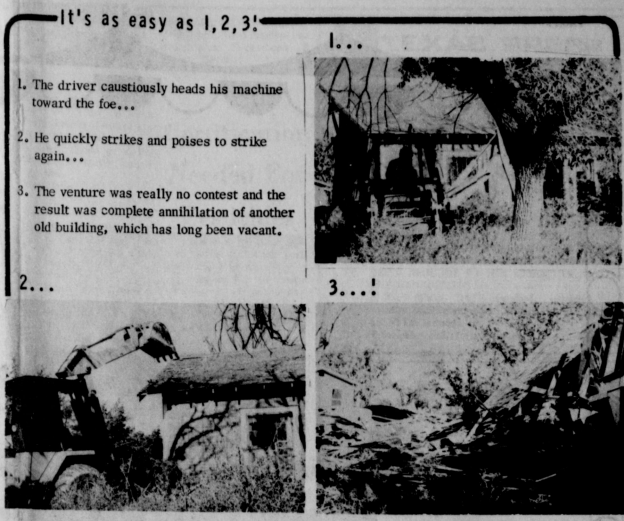

Hospital News

Patients in Hansford Hospital are Dewey Ball, Cora Garrison, Carolyn McLeod, Leslie Sims, Benjamin Vaughn, Michael Pickett, Emma Lopez, Mary Howard, and Joan Moss.

Dismissed were Linda Barerra and daughter, Eunice Spivey, Jerry Jones, Jennifer Head, Barbara Swimmer, Delphine Etling and Clydean Bolen.

The Spearman Reporter

VOLUME 68, NO. 39 THE SPEARMAN REPORTER, SPEARMAN, TEXAS 79081 THURSDAY, AUGUST 11, 1977

School Board Lowers Taxes

At the regular meeting of the Board of Trustees of the Spearman Independent School District, the tax rate was set at 1.20 for the 1977 Tax Roll, down from \$1.39 in 1976 which represents a 14% decrease for the taxpayers of the Spearman Independent School District. The total taxable value for 1976 was \$90,232,790, and the 1977 total is projected to be \$102,439,360. Orville Latham and Troy Sloan met with the Board to explain the tax situation for 1977. Latham projected a \$1,200,280 increase in local values, due to new homes, new business, etc. Sloan projected a \$11,006,290 increase in industry values, and he explained the increase was due to many factors, such as expansion and demand for all the public utilities, expansion of the Northern Natural Plant, an increase in the pipeline schedule, increases in the oil value schedule, new oil and gas wells and increases in wellhead price of some of the older natural gas wells. Sloan also told the Board that the production of oil and gas in the Spearman Independent School District was down 13% in 1976. He explained that some of the older wells were experiencing a rapid decline in bottom hole and wellhead pressure. He explained that as long as the pipeline companies were able to keep the line pressure down, the older wells were capable of producing. But the future life of the older, weaker gas wells would depend on low-line pressure or compression. Along the same line, he advised the Board that most of the oil wells were in a steady decline as they had been for the last 15 or 20 years, and that the secondary recovery projects in the water flood units were now in a steep decline.

Sloan said that the tax picture was bright for the short term, but only time would tell what the future held in terms of new drilling, prices, technology and government regulations. Industry, oil and gas production, and royalty owners pay 64% of the local school taxes.

Amarilloans Unhurt In Plane Mishap

ABRUPT ENDING -- That thump four Amarilloans heard Monday night during an attempted takeoff from Spearman Municipal Airport was not only the landing gear retracting, it was their plane hitting the hard surface of the runway in a belly-flop which damaged the aircraft but left the occupants unhurt and able to walk away from the scene.

Four Amarillo residents escaped unhurt Monday night when their private plane made a belly landing on the runway within seconds after an attempted take-off from the Spearman Municipal Airport about 9:30 p.m.

There was no fire.

Aboard the small plane were James Gillis King, 43, and his wife, Mary Louise King, 42.

their son, Ricky James King, 21, all of 114 Renegade and Shelli Singinton, about 20 years of age. They were returning to Amarillo after visiting friends and relatives in Spearman.

According to a statement given Spearman Police Department officers, King, who was the pilot, said he had lifted off and retracted the landing gear before the plane lost altitude and returned to the runway.

No estimate of damage had been set Tuesday.

The Kings contacted a daughter in Amarillo who drove to Spearman to return them to Amarillo, Sheriff's Department.

Two units from the Spearman Volunteer Fire Department were called to the airport at the time of the non-fatal mishap with SFD personnel utilized primarily for crowd control.

The disabled plane was towed from the runway where it had come to rest so there was no danger to landing and take-off operations at the airport.

Federal Aviation Administration sources indicated they would investigate if there was evidence of mechanical failure.

2 Morse Girls Are Killed

Two teen-age girls became the first traffic fatalities in Hansford County in 1977 Monday night when they were killed in a motor vehicle-pedestrian collision in Morse which investigating officers have termed accidental.

Pronounced dead at the scene on Farm Road 1775 in Morse were Donna Kathleen Gilmore, 16, and Ramona Evonne Moss, 17, both of Morse.

According to investigating officers, a 17-year-old boy from Barger was eastbound in a late model pickup truck at the railroad crossing when he was momentarily blinded by the lights from an oncoming vehicle and ran into the two girls who were walking on the pavement in the eastbound traffic lane. It was noted that both girls were wearing dark clothing.

The double fatality was investigated by Department of Public Safety officers and deputies from the Hansford County Sheriff's Department.

No charges are pending.

Services will be at 2 p.m. Thursday for two Morse teenagers killed in a car-pedestrian accident late Monday in that community.

Donna Gilmore, 16, and Mona Moss, 17, were hit from behind about 10 p.m. Monday as they walked down Farm Road 1775, which serves as Morse's main street.

Texas Department of Public Safety troopers said Samuel Floyd Smith, who was driving the pickup truck that hit the pair, was blinded by the lights of an oncoming vehicle and couldn't see the two as they

walked along the highway.

Miss Gilmore, daughter of Mr. and Mrs. Norman Gilmore, turned 16 on Friday. She would have been a sophomore at Spearman High School this fall. Born in Canyon, she had lived in Morse for the last four years.

Surviving, besides the parents, are a brother, Charles, of Morse; a sister, Mrs. Teresa Garrard of Stinnett; her grandfather Charles Friemel of Garden City, Kan.; and a great-grandfather, E. J. Friemel of Umbarger.

Miss Moss was to be a senior at Spearman High. She had recently moved with her parents to Morse from Kingston, Okla. Surviving are the parents, Mr. and Mrs. William E. Moss; two sisters, Darlene and Shannon.

The Golden Football, this year?

by Bob Fight

Over eighty boys turned out Monday morning for the first football workout in shorts. They appeared to have kept themselves in excellent shape through the summer, and showed up with so much enthusiasm one might have thought that they had just won the state championship game. Do you think they may possibly have their sights set for something a little farther than Childress this year? Who knows? The sports writers across the state seemed to know something. When that story broke about Spearman being the number one candidate for the class AA state championship, this reporter had his doubts. But watching their first workout Monday morning produced an electric feeling that has been associated with past champions. There was certainly something in the air. Maybe it was just that excitement which usually accompanies those first few practices. After the session ended though, and the players headed for the showers, it seemed to linger over the workout field, leaving one with a feeling that something out of the ordinary had been on that field moments earlier. In any case, Coach Sherwood will surely agree that it was a good workout.

If Spearman does expect to bring home that big golden football this year they will have to have a lot more going for them than just some kind of special electricity. Feelings

don't carry footballs, throw passes, execute good blocks, and make tackles. Nor do feelings create breaks; such as blocking punts, making impossible catches, breaking tackles, and kicking record breaking field goals. They don't score touchdowns and they don't control that 4th dimension which often enters into a victory, such as a doubtful call by an official that goes in your favor, or a season running its length with a minimum of injuries, on the other team having what has been referred to in the past as just an "off night".

Execution is a very important word in football. A team can hit the field with one of the most complicated play books ever devised by a coach, and execute poorly against a team with a minimum of plays in its play book that executes to the letter; becoming the loser in the outcome. The team that hits the field with that complicated play book, executes to the letter, stays in perfect mental and physical shape, plays by the rules, and channels that special emotion to its advantage, along with receiving a few breaks in its favor, will take that golden football home to its school. It sounds simple doesn't it? Its just as simple as giving 100% all of the time, working hard, doing it in the most sportsmanlike manner, getting all the breaks, and just hoping to win them one at a time. One team does it every year - only one.

County Commissioners Meet

The Hansford County Commissioners met in regular session at the Courthouse in Spearman Monday Aug. 8 for the transaction of several agenda items.

Bills were paid and the treasurer's quarterly report was accepted. Commissioners also approved a petition from Panhandle Eastern Pipeline Co. to install a gathering line across a county road in Precinct 2.

LIONS HAVE NEW RECORD ATTENDANCE

The Spearman Lions Club set a new attendance record Tuesday noon, when the entire traveling coaching staff from West Texas State brought the program. This was one of the best programs of the year, and many WT boosters indicated that they were proud of the new athletic program at Canyon.

In other business at the Club Tuesday, Lion of the year Curly Hall was unable to report on the 20,000 visitors who saw the Lions Club float in the XII parade Saturday. All three of the Lions Club ladies were present to ride the float.

Fee Changes Noted

Two fee changes concerning certificate of title and license receipt become effective Aug. 29, Hansford County Tax Assessor-Collector Helen Dry has announced.

As of that date, the cost of obtaining a duplicate license receipt to replace one which has been lost or destroyed will be \$1.00 75 cents from the existing cost of a quarter.

Also on that date, the cost of applying for a certificate of title or reassurance thereon to a motor vehicle will increase to \$3.00 over the present fee of 75 cents.

Donnell Celebrates 30th Anniversary

Oscar Donnell is celebrating his 30th anniversary in business in Spearman this week. He began operating the Wardrobe Cleaners August 1, 1947 in the same location as it is today.

His cleaning service includes free pickup and delivery here and in Gruver.

Donnell and his wife, Pat, have been active in community affairs in Spearman. They have two children, Mrs. Bethany Hagg of Houston, and Steve Donnell of Spearman.

The Donnell's wish to thank all their customers for their past patronage and pledge their continued service to residents of the county.

Over 80 boys turned out for this season's first football workout in shorts. Coach Sherwood is right in the middle of that group, and what do you suppose his thoughts are, right now?

Keim Receives DVM Degree

Glenn V. Keim of Spearman is one of the 135 students awarded Doctor of Veterinary Medicine degrees Aug. 5 from Texas A&M University's College of Veterinary Medicine, Texas A&M's College of Veterinary Medicine produces 100 percent of the D.V.M. graduates in the United States and is the largest such college in the nation.

The professional program basically involves three years of concentrated year-round work before completion of a four-year undergraduate curriculum.

Graduating with the honor of magna cum laude, Keim is the son of J. R. Keim and Mrs. Verma Gail Keim, of Spearman. Glenn and his wife, Kyma, and their two children, Kyle and Kerry Anne will be making their home in Ashland, Va.

Attending the graduation from Spearman were Mrs. Verma Gail Keim, J. R. Keim, grandmothers, Mrs. Garrett Alton, and Mrs. Vonda Keim, and Dave Keim.

The new superhighway is a masterpiece of engineering skill, yet you still can't see around the curve in the distance. Whatever lies beyond the bend is as much a mystery as it was when this was a single-lane road.

Today we are living in the space age and are exposed to fresh miracles with almost every passing hour. But we still can't "see around the bend" of life. We are as human as we ever were and have no way of knowing what is coming next.

Since the beginning of time, man has lived with this mystery. What keeps him going? For many, it is the knowledge that the answer to our fate lies in far more capable hands than ours. This is God's universe, after all, His creation, and we are His creatures.

True, you can't see around the bend. But you can equip yourself for life's journey by taking a single, all-important step. This step is toward the church of your choice.

Certification Needed For Pesticides

Persons involved in the application of restricted-use pesticides either commercially or non-commercially, to control aquatic plants and/or animals are to be certified by the Texas Water Quality Board, according to a TWQB announcement today.

It is anticipated that the U.S. Environmental Protection Agency will classify all pesticides for either restricted use or general use by October. After that time application of restricted-use pesticides may be handled only by certified and/or licensed applicators.

Certification will be granted on the basis of tests to be administered by the Board's staff and on certain other conditions which are specified in the federal law. Certifications will expire on Dec. 31 of the year in which they are issued.

According to David Barker who is in charge of the program for the TWQB, persons who use pesticides to control aquatic pests should check with that agency concerning implementation of the pesticide program. Information and materials may be obtained from his office, P.O. Box 13246, Austin 78711, or from any of the TWQB district offices. The latter are located in Amarillo, Lubbock, Waco, Danburyville, Kilgore, Orange, Deer Park, San Antonio, San Angelo, Pecos, Weslaco and Corpus Christi.

Barker stressed that the TWQB has jurisdiction for the use of pesticides only for control of aquatic plants and animals. Jurisdiction for other uses rests with other agencies. The Texas Animal Health Commission (for applicators involved in animal health pest control), the Texas Structural Pest Control Board (for persons using pesticides in buildings, commercially and non-commercially), and the State Agriculture Department (for other uses such as agricultural pest control, seed treatment, forest pest control and other similar applications.

Bloodmobile Here August 17
 Goal Is 150 Pints

The Red Cross Bloodmobile will be in Spearman August 17 at the Catholic Parish Hall, 901 S. Roland, from 10:00 a.m. to 3:15 p.m. Hansford County did not meet its quota of blood donated last year by 4 pints. The need for blood in this region has increased due to more population, which leads to more accidents and other cases needing blood. The procedure for donating will be the same as that used last year. For an appointment to donate blood you may contact Gayle Smith, 22021 Lerene Kunselman, 3138 In Gruver, Charlene McClellan, 733-2341. The quota for Hansford County for this year is 150 pints so you are urged to donate blood if you are physically able to do so, so that others may live and people in this area will have a blood bank when the necessity arises for blood transfusions.

School auditorium with the Rev. Winfred Walter, pastor of First Baptist Church, and the Rev. Jim Burkham, pastor of Morse Community Chapel, officiating. Burial will be at Lieb Cemetery Services will be at the Morse

Peggy's Pointers

Can you answer the following questions?

1. If you have young children - did they receive a measles immunization at 1 year of age?
2. When did you last receive a tetanus immunization?
3. Do you know if you are susceptible to rubella?

These questions bring out the three objectives of Immunization Action Month (August) which are:

1. Promotion of measles immunizations for the unimmunized and booster shots for those immunized at 12 months or less.
2. Promotion of tetanus immunizations, especially among the adult and older adult population.
3. Promotion of the rubella blood test for unimmunized females of child bearing age to determine her susceptibility to rubella.

"Immunization isn't just kid stuff." Although disease is dead, measles - a most dangerous disease - and rubella (German measles) are on the increase this year. Young children are very susceptible to the childhood diseases. Even adults can die from diphtheria and tetanus.

Does your "record library" have a family medical record? It may be the most important record you'll ever need.

UP, UP AND AWAY!

Twenty-three million people in this country have high blood pressure - are you one of them? Find out by having your blood pressure checked, and checked regularly. It's a great life insurance policy.

If your blood pressure is "up," don't let it get you down. You can control it with proper treatment and be healthy.

DIET IS THE PENALTY FOR EXCEEDING THE SPEED LIMIT!

In counting calories, substitute salad dressing for mayonnaise. Mayonnaise is 65 percent fat, salad dressing is only 30 percent fat.

To save money and improve health, reduce sugar consumption. Biggest savings result from cutting back on purchases of candy, sweet baked goods and soft drinks. Costs may also be trimmed by selecting unsweetened rather than presweetened food items.

Beef livers deserved consideration from calorie counters - a three-ounce serving of pan-fried beef liver has only about 200 calories.

ENERGY-FOOD

In-home food preparation accounts for 26% of the total amount of energy used in the food system. This means that the homemaker controls the use of a large amount of energy in the food system. Following are some ways you can conserve energy in preparing food at home.

Use glass utensils in the oven - especially electric ovens. Use the correct shape utensils for the heating element - flat bottom, straight sides.

Use thermostatically controlled equipment. Electric skillet instead of regular skillet on range. Electric percolator instead of coffee pot on range.

Use pressure cooker to reduce cooking time. Use more portable appliances. Use as little water as possible when cooking foods.

Turn off electric range oven during the last 5 minutes of baking time. No need to preheat ovens for foods except baked foods such as cakes, cookies and breads.

Use lids on pans when needed. Use guidelines for cooking time and a timer to avoid unnecessary opening of oven door. Lift lids on pans leave oven closed until food is ready to be placed in oven.

It is best to operate a microwave oven on a separate circuit that is grounded. A 20 amp circuit at 115 volts will accommodate appliances up to 2300 watts.

Each trip to the grocery store means money spent for gas - and other opportunity to buy 'extras' that catch the eye. Shop as infrequently as home storage facilities allow.

Shop alone - children can pressure you into buying items not on the list, adding dollars to the food bill.

"LOW-ACID" tomatoes not LOW-ACID. Only four tomato varieties have been determined as low-acid. These include Garden State, Ace, SSVF and Cal Ace, which should be processed in a pressure canner rather than a boiling-waterbath. Any variety of tomato that becomes over-ripe could reach pH values in the low-acid range, and therefore, low-acid processing in a pressure canner.

Olives and tomato ginsno must

be processed in a pressure canner because of the low acidity of olives.

CLOTHING CLUES
Fashion predictions for fall are forecasting greater versatility in dress styles - with many colors and fabrics suitable for later spring weather, and multi-purpose styles for many different occasions promise growing popularity.

A long wide zigzag with a loosened top tension is an ideal, easy way to remove basting stitches.

GOOD SEASONS

Blend your own seasoned salt. Sprinkle one-fourth cup parsley flakes, one tablespoon each of basil leaves, oregano leaves and paprika, one teaspoon celery flakes, one cup salt and one tablespoon pepper into your blender and blend until fine salt. Store in an airtight container and add to meats AND VEGETABLES FOR ADDED FLAVOR.

Bacon has graduated from "breakfast food only." It's pleasing crunchiness and delightful taste can spark up otherwise ordinary meals.

Bacon should have clear white fat evenly distributed with lean. Bacon that is too lean will likely lack flavor and have a tendency to be tough.

Casseroles with macaroni, spaghetti and noodles are popular. They're low in cost and easy to freeze. Also, they are easy to prepare using just about anything.

RECIPES CORNER

This month's recipe comes from the kitchen of an outstanding home-maker who is proving herself a tremendous asset to the Extension program in Hansford County - Mrs. Jerry Hayes.

Shelene is the new chairman of the Family Living Committee, member of Town & Country H.D. Club and winner in the cake division of the 1976 Bake-Off contest. Following is her winning recipe for "WALDORF RED CAKE".

1/2 cup shortening 1 1/2 cups sugar
2 eggs 2 oz. red food coloring
1 tsp. vanilla 1 tsp. cocoa
1 tsp. salt 2 1/2 cups flour
1 tsp. baking soda 1 tsp. vinegar
1 cup butter milk
1 cup butter or marg. 1 tsp. van. 1 cup sugar

Cook - flour and milk until thick, stir or mixture will scorch. Cool this real well, (very important).

Cream butter, sugar and vanilla, beat with an electric mixer until this is a fluffy as you can get it. Blend this in with the real mixture, beat until sugar is not granular. Mixture will be like whipped cream. Spread on cooled cake (cake must be cold or icing will melt), stack cake in 4 layers, or bake 4 small layers.

ICING
2 tble. flour 1 cup milk
1 cup butter or marg. 1 tsp. van. 1 cup sugar

Cook - flour and milk until thick, stir or mixture will scorch. Cool this real well, (very important).

Remove rings when washing dishes or applying makeup to avoid having diamonds come in contact with soaps, creams or powders since these can dull the brilliance. Clean diamonds in a small bowl or half and half water and ammonia. Use an old toothbrush to get around settings or mountings. Dry with a lintless cloth to polish the sparkle.

Handy hints I plan to practice in caring for my beautiful new diamonds! What a pleasant birthday surprise and wedding bells in October! I knew from the beginning, this county had the most wonderful people around.

"Love can light the way and make a house a home."

Sincerely,
Peggy Marras
Asst. Co. Extension Agent (HEI)
Hansford County

BE WISE WHEN REPAIRING YOUR HOME - This is the season when many people are repairing their homes or adding improvements to reduce utility bills. As a rule, it is wise to hire a local company or workman whose reputation is established. Workmen traveling through town are often not honest and may be difficult or impossible to reach should you have a problem.

Before you have any work done on your house:

1. Take plenty of time to make the decision. An honest repairman will not rush you into making a decision. Refuse to be rushed.
2. If you do not know the workman, call your local lumber yard or building supply and ask

for information about the person and his work. The better Business Bureau is also a source of information. Ask for names of local customers the person of firm has done work for.

3. Be skeptical of "miracle-working" products. For example, a spray, supposedly guaranteed to stop leaks has not proven to be an effective product.

4. Do not pay for supplies until after the work is done. A reputable repairman will not ask for money to buy supplies.

5. Be wary of the person who says you will receive a discount on the work if you are the first in your neighborhood or town to have such a "display" house.

6. Have all agreements in writing, especially the cost. Materials and time of completion. Take time to read the contract before signing. It may be a good idea to have a friend or family member read it also. Do not sign if there are blank spaces.

FREEZER MEATS: What Will A Carcass Yield?
If you purchase meat for your freezer - how much to buy, full value for your money, cost, quality, wholesomeness, service and convenience are among the factors that deserve your consideration.

Whether bulk meat purchases will be a convenient, financial success depends upon your knowledge of what you are purchasing. Do you know how much usable meat you're getting when you purchase a carcass, a side (half a carcass including both fore and hind quarters), or a quarter (either a fore or hind quarter)?

A carcass, side or quarter is normally sold by its "hanging" or gross weight. This is weight

before trimming and cutting; not the amount of usable meat you will take home.

For example, your normal yield from a beef carcass, as a rule of thumb, is 25 percent roasts. A 25 percent cutting loss on a 300-pound side of beef would yield 225 pounds of usable meat cuts.

Which quarter section of beef you buy depends on whether you are interested in quality or price. If you prefer steaks or roasts, a hind quarter of beef will yield more of these more tender cuts, but it will cost more per pound than a forequarter. A forequarter contains more of the less-tender cuts, but the yield of usable lean meat is greater in the forequarter than the hind-quarter.

OUCH! Summertime includes picnics, swimming, hiking, camping, and... mosquitoes. To most of us they are just a nuisance, but to a few they can bring pain, infection, and sometimes disease. In other parts of the world mosquitoes can be a major health problem causing yellow fever and malaria. One of the latest epidemics of mosquito-borne diseases in Texas is Venezuela Equine Encephalitis (VEE) in 1971.

The Texas Department of Health Resources recommends the following to help prevent mosquitoes from reproducing in your yard:

1. Empty, remove, cover, or turn upside down any receptacle that will hold water - particularly old bottles and tin cans.
2. Change water and scrub vases holding flowers or cuttings twice each week - or grow cuttings in sand.
3. Discard old tires or store them indoors.
4. Screen rain barrels and

opening to water tank, or cisterns.

6. Connect open wastewater drains to a sewage system, or construct separate sump or leach lines.

7. Clean clogged roof gutters and drain flat roofs.

8. Fill holes in trees with sand or mortar, or drain or spray them, as required.

9. Stock ornamental ponds with mosquito-eating fish.

10. Clean and drain evaporative coolers frequently.

It can happen! This corn field, West of Gruver, Texas, was literally hailed out last week. The hail storm stripped all of the leaves, and damaged the field so badly that it is a total loss.

Tennis Tourney Winners Named

A doubles tournament for men and women was held July 30 and 31 at the Gruver City Park. Play began at 2 July 30 and went through Sunday.

Winners of the Men's "A" Flight were 1st - Kevin Hart and Puckett Shipman of Berger. Mack Hoel and Wayne Garrett were second.

In the Men's "B" Flight, Tony Shapley and Pete Shapley were 1st, and Bill Logsdon and

Dave Barkley were second. In the women's division Kelly Hart and Rajan Martin of Spearman were 1st, and Terry Hart and Carla Harper of Spearman were second. Lee Harper and Debbie Edwards took third.

Darla Armes and Lisa Johnson received consolation.

"The most useful virtue is patience." John Dewey

Square Dancers Graduation Held

On July 28th there was a graduation dance at the County Barn for the graduating square dancers. Nineteen graduated with a lot of friends, parents, and grandparents present for the gala event. Those graduating were initiated and presented diplomas.

Paul Lopez, the instructor, called and he was presented a gift certificate from those graduating.

Seven squares were dancing which consisted of those graduating and guests from Phillips, Stinnett, Gruver, and No-

CFW Has Meeting

C.W.F. met Wednesday, August 3 at the First Christian Church in the Fellowship Hall at 2:00 p.m. with President Sandy Russell presiding.

Mrs. Debra Brown gave the lesson on "God's Reign and Christian Life Style". The program was concluded with the holding of hands in a circle for sentence prayer.

The offering was then taken. The minutes of the previous meeting were read and approved and the treasurer's report showed a balance of \$255.91.

Mrs. Betty Jean Davis presented a bill of \$13.80 for cards and three books. Several were mentioned that were in the hospital.

The standing committee reports included the following: (1) Mrs. Judy Nelson asked for members to save stamps for the International Heifer Project and (2) "Service and Action Program" gives suggestions on what they could do as projects such as the Hunger Program.

Mrs. Ruth Bryan and Mrs. Beth Phelps are Bazaar Chairpersons for the entire church to help with Bazaar crafts is a possibility.

Work days begin in September once a week on Wednesdays.

In old business Mrs. Marsha Murphy reported that they have a permanent baby sitter, Jeanie Duncan. She will receive \$126.57 a month. The board appointed a committee composed of John Trimmett, Judy Hergert, and Marsha Murphy to work on the nursery. Mrs. Sandy Russell reported on her poll that it was most favorable for the next meetings.

First Dortch Reunion held

The First Dortch family reunion was held by Mrs. Hubert Richards of Amarillo and Mrs. Desmond Kelly of Morse, Texas. The reunion was Sunday, July 31, 1977 at Morse, Texas in the Desmond Kelly home.

The five children of Mr. and Mrs. W. T. Dortch were Mack Dortch, Mary Sweeney, Corum Dortch, Ruby Carritte and John Dortch. Those present were represented by members of their families.

Those present were Mr. and Mrs. Hubert Richards and Trenton, Mr. and Mrs. Byron Tyler, Traci, John and Kelly; Mr. and Mrs. Andy Rosenberg and Cappi; Mr. and Mrs. Robert Archer, Bryan and Angela; Mrs. Keith Berry, Trava, Juno and Renee; Mr. Larry Kelly; Mr. Jack Dortch, all of Amarillo, Othobas Randy Kirk of Spearman; Jill and Stacy Kelly of Gruver; Mrs. Estine Buster of Stratford; Mrs. Freda Dortch, both of Stratford; Mr. and Mrs. Jim Dortch of Matheson, Colorado; Mr. and Mrs. Ted Bouldin and Kimberly and Steve Dortch of Dallas; Mrs. Elvena Sweeny; Mrs. Arthur Carritte; Mr. and Mrs. Wayne Carritte, Kirk and Dal- ton, all of Sanray.

Those from Morse were Mr. and Mrs. Desmond Kelly; Mr. and Mrs. Tom Dortch and Vicki; Mr. and Mrs. Joe Reising; Travis Reising; Mrs. Mack Dortch; Harold, Kelly and Wayne Dortch of Houston.

A total of fifty were present. At the close of the day a worship service was held in the yard with Rev. and Mrs. Jim Burkhart

Ruth Class Has Meet

The Ruth Sunday School Class of the First Baptist Church of Spearman met Monday, August 8, 7:30 p.m. in the home of Miss Altha Groves, with Mrs. Novak presiding.

Opening prayer was led by Mrs. Candy.

A short business meeting was held including the election of officers for the coming year.

The devotional, "On Being a Permissom" and scripture Romans 5:3-5 was given by Mrs. Denman.

Closing prayer was led by Mrs. Hutten.

Refreshments were served by hostess to Mesdames: Joe Estrelkin, Fred Hoakins, Bill Russell, Bill Candy, Woodville Jarvis, Ed Hutten, Dewey Ball, Lowell Denman, Mabel Edwards, and Joe Novak.

The next meeting will be September 5.

Arts & Crafts Guild News

Arts and Crafts Guild met Friday, August 5 in the home of Mrs. Kiff White, Sr.

Delicious refreshments were served to members, Mesdames: P. A. Lyon, Sr., Joe Traylor, Pope Gibner, Ned Turner, Beta Drought, Clay Gibner, Bill Gandy, Bill Russell, F. J. Daily, and Guy Fuller.

The next meeting will be August 12 in the home of Mrs. Guy Fuller.

Our Heritage of Faith
notes from Faith Lutheran Church

The congregation of Faith will hold a Farewell Picnic beginning at 4 p.m. on Sunday, August 14th. The picnic will be a farewell for this past year's intern couple, Harvey and Karen Faltisek, and for the Ed Zschiesche family who are moving to the Dallas-Fort Worth area this month. Harvey and Karen will be returning to St. Paul, Minnesota, where Harvey will be completing his studies at Luther Theological Seminary.

According to plans Harvey should complete those studies at the end of November, 1978, and then he will be called back to his home parish to serve in the parish ministry. The picnic for the Zschiesche's at the Faltisek's will be at the home of Mr. and Mrs. J.W. Ward, 612 Womble, Gruver, Texas.

The Panhandle Conference Convention will be held at Trinity Lutheran Church, Clovis, New Mexico. It will begin at 9 a.m. (Clovist time). Pastor Andersen

is planning to attend and hopes to have delegates from Faith and Clovis with him to the event. The election of conference officers will take place as well as the selection of nominees for Bishop of the Southern District of the American Lutheran Church. Each Conference in the Southern District is allowed to select three nominees for Bishop. Those nominees will then be presented at the District Convention to be held next April in Odessa, Texas. Each year the Conference and District Conventions are important but this year they have the added importance of electing a new Bishop for our District. We urge as many of our members to attend as possible!

If you have no home church or would like to visit with us at Faith we cordially invite you to attend worship with us. Sunday morning worship begins at 9:30 a.m. The Sacrament of Holy Communion is celebrated the second Sunday of the month.

County Pioneers To Meet

A reminder is issued for interested persons to attend the 36th Annual Hutchinson County Pioneer's ALL DAY MEETING on August 21, beginning at 10:00 a.m. at the Stinger High School Cafeteria, Stinnett.

You are asked to bring a basket dinner and enjoy a free breakfast and a day of visiting.

Officers of the Hutchinson County Pioneer Association are: Lex Board, Chairmen; Hugo Blenzer, Vice Chairman, and Mrs. J.C. Matney, Secretary-Treasurer.

1976 County Oil & Gas Production

The massive energy needs of this nation continue to grow in the face of declining crude oil and natural gas production in Texas and nationwide. Because of this, Handford County's 1976 petroleum production was as important as in any year since production began in 1927.

Economic conditions within the county were improved substantially by the marketing of crude oil and natural gas with an estimated value of \$6-million and an industry payroll said the \$4.2-million, according to a report prepared by the staff of the Dallas-based Texas Continental Oil & Gas Association.

Jack S. Blanton of Houston, president of the Association, said, "The decline in Texas' oil and gas production makes it imperative that Congress adopt policies which will encourage more exploration and drilling in the nation's No. 1 energy state. This is a facet of the energy supply problem that President Carter has not dealt with adequately in his proposals."

According to figures from the U.S. Bureau of Mines, Texas' crude oil production last year was approximately 1,199,719, 929,000 barrels, down from 1,221, 929,000 barrels in 1975, and the fourth consecutive year of decline from the 1975 figure of 1,745,764 MMcfs. Texas gas production also peaked in 1972 - at 8,657,840 MMcfs - and has fallen each year since.

Blanton said that drilling starts and expenses reached all-time highs in Texas last year and noted that this was directly attributable to a free market for crudes between concessions drilling activity and increases in proved reserves.

Handford was one of 200 Texas counties last year which produced crude oil and natural gas with a marketed value of \$100,000 or more, the same number as in 1975. The county ranked 62nd in the total estimated value of petroleum produced, realizing \$4-million from the sale of 488,200 barrels of crude oil; \$57.8-million from the sale of 75.3-million Mcf of natural gas. Payments last year to owners of royalty in the county totaled an estimated \$7.7-million.

In addition to the payment of local school and county property taxes, producers in the county also contributed to the support of state government through production tax payments calculated by the Association at \$4.5-million, with \$182,600 coming from crude oil output; \$4.3-million from natural gas.

According to the Texas Employment Commission, 310 employees worked in the industry in the county last year. This direct employment figure does not take into account employ-

ment by the service and supply firms that support oil and gas company exploration, production, transportation, and processing activities, and as a result, do not reflect the industry's full impact on the county's economy.

The search for additional petroleum continued in Handford County in 1976, with oil and gas developers spending an estimated \$16.0-million in two natural gas leases classified as a wildcard. Some \$5.7-million of that amount was lost in 18 dry holes. The 30 strikes included seven oil wells and 23 gas wells.

Processing also contributed to the county's petroleum-related economy through gas operation of two natural gas processing plants with a total daily capacity of 352-million cubic feet.

Charter Bus To 'Texas'

Mrs. Sam Graves, Continental Bus Agent in Spearman, announced that a charter bus is being reserved to go to "Texas" in the Palo Duro Canyon for August 19th.

The cost is \$16.00 which includes tickets for the performance and busfare.

The bus will be leaving Spearman at approximately 4 p.m. giving enough time for dinner in Amarillo at Furr's.

For further information or reservations call 659-3446.

College accepts Raymond Porter

Raymond A. Porter has been accepted for admission of Wheaton College as a freshman student for the 1977-78 academic year beginning September 7.

He is the son of Mr. and Mrs. R.C. Porter, Route 2, Spearman, Texas and a graduate of Spearman (Ten) High School.

Wheaton College is a coeducational Christian liberal arts college located 25 miles west of Chicago. Enrollment is limited to 1950 undergraduate students annually representing all 50 states, some 30 countries, and about 20 church denominations.

Bee shows old time spirit

Farm display planned

Donald Sell is patiently preparing for his threshing bee to be held August 13 and 14 in conjunction with the annual Wheatheart of the Nation Celebration.

And preparing for the bee is no easy task. Sell has some four barns filled with tractors and other machinery he has been collecting over the past 20 years. Having showed some of his equipment at the Perryton celebration last year, Sell decided to "try an experiment" and moved the show to his farm. I'm trying to create some interest with this year's bee, he said. If there is a good participation he plans to make it a yearly event and expand it with time.

Along with the threshing bee, there also will be a slow race with steam engines and a baker fan event.

The early day farm equipment is a striking contrast to today's modern machines. Sell will be showing tractors dating back to 1913. There will be equipment made by International Harvester, Minneapolis, Twin City,

John Deer, Hart Parr, McCormick Deering, Mogul, and Allis Chalmers.

In the late stages of this year's wheat harvest, Sell "bound up" some wheat to be used for the threshing bee. The bundles are in storage and will be brought out and processed through a threshers. The demonstration will offer a rare opportunity for viewing techniques of yesterday's farming. The bundles were cut on Sell land, between Huntoon and Booker.

Other area farmers are expected to show equipment at the bee. J. D. Wilbanks from Spearman is bringing his Case steam engine. He also might bring his Rumley Oil Pull tractor. Richard Sheldack is bringing his crossover case and several other tractors from Spearman.

Bud Bartin of Perryton is showing his Russell Steam Engine and Huber tractor, which have found semi-permanent resting places near the Ochiltree County Court House. Dan Sell of Booker plans to show his Hart

Parr model 1836.

In addition to farm machinery, Sell also will be displaying his three fire trucks and four antique cars. The fire trucks include a 1926 model Sea Graves, a 1928 American La France, and a 1920 Sea Graves. Several of his cars are in immaculate shape. There is a 1928 Reo four-door Flying Cloud, a 1931 four-door Model A sedan, and a 1926 Model Roadster. He will also be hauling some wheat in his 1929 Model A truck.

Having collected tractors for over 20 years, the last six with vigor, Sell decided several years ago it was time to begin fixing them. His efforts have paid off, as he has one of the finer collections in the entire Panhandle.

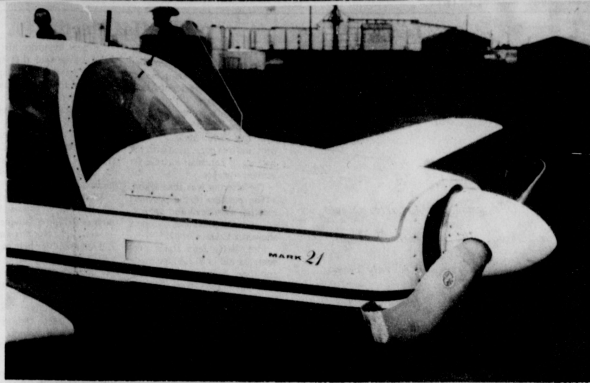

"It makes a guy feel good when you can get one running," he said. Collecting farm equipment is similar to any other collecting pastime, you spend a lot of time at it. "You would be surprised the people who will look for certain things for you once the word gets out," he

said. Sell buys machines and parts all over the countryside. "Sometimes you end up on a wild goose chase...other times I find what I want." As for price, most are reasonable, he said. "I don't buy it to sell, but it can be an investment."

The bee starts at 9 a.m. both days. There will be a threshing show at 2 p.m. On the east side of Ochiltree County, directions to the Sell farm are as follows: 10 miles east of Perryton on Highway 377, five miles south on Hwy. 2711. From Booker it's five miles south on Hwy. 23, five miles west on Hwy. 377 and another five miles south on Hwy. 2711.

Interested persons wishing to show their farm equipment or antique cars are asked to contact Sell.

Mr. and Mrs. Paul Loftin of Austin visited over the weekend with his mother, Mrs. A.F. Loftin.

SOME DAMAGE -- Four Amarilloans walked away from this private aircraft Monday night after the plane didn't get airborne. Damage is expected to be in the thousands of dollars, especially to this propeller and the engine and other portions of the aircraft. (See story on Page 1).

New Screen At Lyric

The Lyric Theater in Spearman has a new silver screen. The old one, dingy from long years of use, was taken down Tuesday, Aug. 9, and the new one put in place.

Installation of the new Super Optics screen, considered one of

the best in the Panhandle or elsewhere, was supervised by Henry Finch, technical advisor and consultant to Oklahoma Theater Supply Co. of Oklahoma City.

He noted that the screen, completely installed and ready

for use at a cost of \$2,026.18 has a very special coating consisting of small lenses which concentrate light from the projected film to provide the audience with a clearer picture. Minute openings in the new screen should also improve the sound quality, it was mentioned.

Alton Ellsworth, theater owner,

stated there is to be no increase in the price of admission.

Mr. and Mrs. Art Lynch and her brother, John Balwierczak, of Dumas, were guests in the home of his mother, Mrs. Faye Lynch, Sunday.

Hospitals save \$96,000,000

The Texas Hospital Association, (THA) today announced total savings of some \$96,000,000 to non-federal, short-term community hospitals. This was accomplished through the efforts of individual hospitals and the operations of the Statewide Hospital Productivity Center. O. Ray Hurst, President of THA headquartered in Aus-

tin, said "with this encouragement and support of our association leadership over the past two years, our Statewide Hospital Productivity Center has had the opportunity to work with over two-thirds of the hospitals in Texas as well as a number of hospitals in Louisiana, Arkansas, Oklahoma and New Mexico. Through the leadership of individual hospitals, our efforts have been to assist the hospital administration to improve the productivity of the hospital. In simple terms, this means that the public and the hospital will receive the maximum amount of return from its investments in personnel, equipment and physical plant. By assisting hospitals through the exchange of information, sharing of ideas and suggesting

better work methods, all Texas as well as our friends in neighboring states will be able to utilize the finest health care at the lowest cost. In fact, hospital costs in Texas are 20% lower than national average."

Hurst went on to point out that the Statewide Hospital Productivity Center was established 24 months ago through a contract with the Department of Health, Education and Welfare (HEW). THA and HEW each invested \$900,000 (\$1,800,000 total) to establish this Productivity Center. Since the Federal government pays about 52% of all health care costs, the Federal share of savings amounts to almost \$50 million.

Hurst said, "this \$50 million return on a \$900,000 investment probably represents the best buy the government has made since they bought Manhattan land for \$24. Although there are substantial Federal sa-

ving, the real winners in this endeavor are the 2 million patients that use the hospitals of Texas each year." It was pointed out by Hurst that these savings were being used by hospitals to offset the ravages of inflation while maintaining quality care.

Another spokesman for THA pointed out that Hurst had just returned from several days in Washington where he conferred with representatives of the Federal government and Congress concerning the success of this productivity program in Texas.

Hurst said, "we presented our program as a reasonable alternative to the Carter Hospital Cost Containment proposal (H.R. 6575). We believe that increased productivity rather than an arbitrary ceiling on hospital revenue will do a better job of containing rising health care costs while at the same time

maintaining high quality care." The Texas Hospital Association, with its headquarters in Austin, is the trade association of over 690 hospitals and health care institutions in Texas.

BULLETIN: Operation Blitz is still underway in Spearman, Drive by the Baptist Church, and see what Jr. Luby, Ralph Blodgett, the City of Spearman, Carl Archer and Hansford implement have done to some of the old houses and trees in town.

Georgia Holt (left) receives a warm hug from DeAnne Dunahoo (right) wishing her the happiest of birthdays. The WIFE organization obtained the County Barn to give their president a surprise party. Georgia was unknowingly lured there, thinking she was going to hear the Amarillo Globe News Farm Editor speak. The Amarillo editor wasn't there, but during the surprise greeting of many of her friends and members of the Wife chapter here, Georgia forgot all about the expected visitor.

Spearman residents shatter Shattuck Tennis Tourney

Spearman residents fared pretty well in the Shattuck Oklahoma Tennis Tourney, bringing home nine trophies. Results were as follows:

In the 18 and under Girls Singles, Pam Largent lost to Starbuck, 6-4, 6-2. Cindy Gressett defeated Lane 6-7, 6-0, 6-3. Cincy won 1st place by defeating Mece 6-3, 6-4. Mece of Woodward, Oklahoma was a member of the State Champion Doubles Team.

In the 18 and under Girls Doubles, Gressett and Largent teamed up to defeat Valentine and Myers 2-6, 6-2, 6-3. Cindy and Pam won first place by defeating Mece and Lane 6-3, 6-3.

In the Women's Doubles Carolyn and Cindy Gressett defeated Valentine and Gray 6-2, 6-1. Carolyn and Cindy were defeated in the semi-finals by Zodorozny and Colcourse by a score of 5-7, 7-5, 6-4.

In the Father and Son Doubles Chuck and Pat Steele defeated Bullard and Bullard 6-1, 6-0. Coach Steele and Pat defeated Williams and Williams 5-7, 6-4, 6-4 in the semi-finals and lost the finals to Myers and Myers 6-4, 5-7, 6-4.

In the over 40 Mens Singles Chuck Steele lost to Hawkins 6-4, 7-5.

In the over 40 Mens Doubles Steele and Myers defeated Richardson and Richardson 6-1, 6-2, and were defeated in the finals by Hawkins and Mece 6-4, 6-2.

In the 14 and under Boys Singles Pat Steele was defeated by Valentine 6-3, 6-2. Kevin Russell defeated Richardson 6-1, 6-3 in the quarter finals. Kevin defeated Hawkins 6-0, 6-2 in the semi-finals, and he lost in the finals to Jones of Woodward 6-0, 6-2.

In the 14 and under Boys Doubles Pat Steele and Kevin Russell won by defeating Valentine and Bullard by a score of 6-4, 4-6, 6-0.

36th division reunion set

Labor Day Weekend will bring 600 veterans of the famous Texas' own 36th Division Association for their 32nd annual reunion.

Royal Coach Motor Inn is Headquarters for the men who wore the "T-Patch" during WWII, the first American troops to invade Hitler's Europe at Salerno, Sept. 9, 1943.

The 3th Division, made up of men of the Texas National Guard were mobilized in Nov.

1940 at Camp Bowie, Brownwood, Texas, with 10,000 men. The Division strength of 18,000 was made up of draftees from Texas. Replacements were made from men of every state in the union.

Registration for the reunion starts Fri., Sept. 2, with a hospitality party that night. General assembly at 1:00 p.m. Saturday, with General Paul Adams as guest speaker, and dinner dance at 7:00 p.m. Memorial services will be held on Sunday, Sept. 4 at 10:00 a.m.

The 36th Division served in 5 major campaigns in Europe, had 15 Congressional Medal of Honor winners, and were credited with the capture of Hermann Goering and Field Marshall Von Rundstedt.

For information, contact: Amil Kohutak, membership chairman, 1933 College St., Abilene, TX 79602.

Overweight Children

That plump, healthy, happy youngster may grow up into a fat, unhealthy, unhappy older child, and later into a fat adult who is prey to all of the physical ailments that are a part of obesity.

Faulty eating habits started in early childhood often are the cause of overweight adults in later life, says the American Medical Association.

All too many mothers, with the best of intentions, nag their children into eating more than they want to eat. The healthy, fat baby who remains chubby as

he grows into pre-school and first grade years become less attractive as an individual. And the habit of eating more calories than necessary is likely to remain the rest of his life.

The parent who thinks the child should lose weight should seek expert help on how he should lose it. If it fits your doctor's counsel, here are some tips to help your youngster lose weight.

Weight once a week and keep track of the weight. Use the same scale and wear approximately the same clothing.

It isn't necessary to cut out all desserts and snacks, as long as their calorie count is included in the daily total. Fresh fruits are good for snacks.

Keep a supply of raw carrots, radishes, celery sticks and pickles for more snacking. Tomato juice or clear bouillon can serve for drinks.

Cut out rich salad dressings; instead use vinegar and lemon juice.

Trim fat from meat, take it easy on the butter, substitute skim milk for whole milk. But be sure to serve plenty of fruits and vegetables.

The most important factor in helping the obese child to reduce poundage is to handle it naturally. Don't make a point of telling the child he is on a reduced diet. Just serve the meals naturally and as a matter of course. Avoid nagging the child about his weight and his diet. It will only make him more rebellious and more inclined to snack on the sly.

Water policy study hearing held

The head of Texas' water planning agency said here this week that a national water policy ought to be combined with a national food and fiber policy and a national energy policy on an equal basis.

James M. Rose of Austin, executive director of the Texas Water Development Board, also urged President Carter to extend the deadline to develop a national policy beyond the current time frame so that congressional hearings can be held.

Rose was one of several state water leaders who testified at the National Water Policy Study Hearing held Monday and Tuesday in Dallas.

Option papers prepared by several federal agency staff people were published in the Federal Register July 15, and those testifying here declared there just wasn't sufficient time to thoroughly study and analyze the complex set of options.

"As an apparent consequence of the organizational structure of the water policy group and the speed with which the issue papers were prepared, the effort seemingly lacked clear direction and suffered from insufficient coordination among the task groups," charged Rose.

"The position and issue papers largely reflect federal agency staff level perceptions of administrative and procedural problems," added Rose.

Rose urged that water policy be considered along with national energy and food and fiber policies "because water is a major factor in the production of food, fiber, and energy. An appropriate quantity of suitable quality water is essential if we are to achieve a satisfactory level of employment and economic production at the same time we meet the direct human needs for water and provide adequate water to protect the environment."

Rose called for expansion of the definition of environmental quality in the principles and standards evaluation criteria to include the quality of the human as well as the natural environment.

He charged that the lack of standardized criteria, and the inadequate and inaccurate techniques used by the various federal agencies for measuring environmental impact is hampering and seriously delaying water resource planning and development. He urged that standard indices of environmental measurement be developed and applied uniformly in federal water project planning and evaluation.

Rose said the option papers on water rights, both ground-water and surface, fail to recognize and do not encourage state efforts... "there is reflected a great readiness, almost impatience, on the part of the federal government to intervene.

"The development of any national water policy is far-reaching and dead-serious business. At stake is the very economic future of our country. The developmental process deserves much more than the six months planned for the presidential review. I hope the President will change the time frame for this great undertaking," concluded Rose.

New Book Available In Hansford Area!

A new Christian book entitled "Voice of Cheer", written by Michael R. Flanken, is now available to the public. Rev. Flanken married the former Patsy Johnson of Gruver, and informed the newspaper that the new book is on sale at the

Gruver Drug in Gruver and also in Spearman, at Spearman Drug.

Rev. Flanken was the former Baptist pastor at Hardesty, Oklahoma. He plans to go into full time evangelism after the first of the year. He is now teaching in Hearne, Texas near College Station.

The Christian book will make a special gift for those who are ill, bereaved, homebound, lonely and for special occasions. The book is about the Gospel of John with illustrations, songs, sermons dealing with the Gospel of John.

MUFFLER

SAFETY CHECK

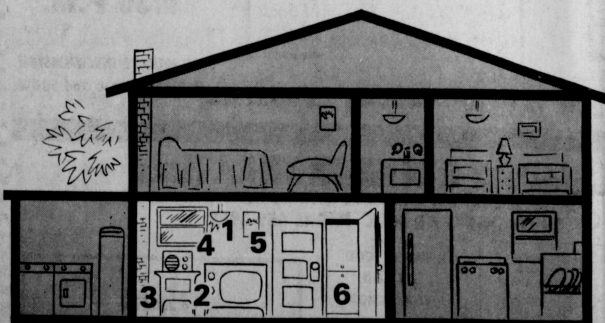

You need a new muffler when:

1. Motor noise level increases.
2. Exhaust fume odor is noticeable.
3. Holes or rusted seams are detected on muffler.

Soot deposits on the muffler are a clue to tiny leaks.

You can save energy in each room of your house.

Let's look at the den:

- 1 LIGHTING.** If possible have light switches at each room entrance exit. When you are leaving a room for more than just a few minutes, switch off the lights. Keep bulbs and fixtures clean and use fluorescent lamps wherever possible. For portable lamps, select light-colored shades or linings.
- 2 TV'S AND STEREOS.** Enjoy them—that's what they're for. But don't leave them needlessly running when you leave for more than a few minutes. Solid state TV's, stereos and radios require less electricity than tube-type sets. Instant-on TV sets use energy even when they're turned off—plug them into a controlled outlet to save energy.
- 3 FIREPLACE.** During the summer and when you're away, keep the damper on your fireplace tightly shut.
- 4 WINDOWS.** Check your windows for air leakage. Install weatherstripping around doors and windows, and if possible install storm

- windows and doors for even further energy savings. During the winter, open draperies on sunny days... during the summer, close draperies to the sun.
- 5 THERMOSTAT.** Suggested summer setting of 78 and winter setting of 68 should keep most families comfortable. When you're going to be away from home for several days, turn your thermostat up 10 degrees during summer, down 10 degrees during the winter. Locate your thermostat away from lamps or direct sunlight.
- 6 AIR CONDITIONING/HEATING UNITS.** Have a specialist check your unit each year. Clean or replace filters at least once a month. Learn about the EER (Energy Efficiency Ratio) before purchasing a new unit. If you do have a breakdown, call a qualified serviceman for repairs and ask for a written estimate of cost.
