As a result, much corn and other grains will be offered the government under its price support program.

Just Don't Abuse Texas

The democrats aren't the only ones with trouble in their camp.

Now come reports from Waco of strife between the Creager and Hopkins factions within the republican party.

R. B. Creager, Brownsville, has dominated Texas GOP politics for more than a score of years and for years he had his finger on the important element—patronage control.

There is this distinction between the republican row and the democratic row in Texas . . . both factions in the republican party are pledged to support the party ticket.

Job Warrants Much Vigor

Visiting here briefly this afternoon will be one of the candidates for the U. S. senate—Rep. Lyndon Johnson.

That he consistently covers so much territory points up one of the reasons the Herald has supported his candidacy.

There are other reasons, too, why we have spoken up for the Johnson City man.

GOOD WRITERS DON'T BOW TO HOLLYWOOD

By HAL BOYLE
NEW YORK, (U)—The financial troubles of the movies may force the writing man back upon his own genius.

It could be a good thing for the art of letters and the men who make their living by putting one word after another for dollars.

Of course, it's a terrible blow to the intellectuals who for the last hundred years have been harvesting the richest pay crop in literary history.

That, dead subscribers, is pure balderdash and shop talk. Today there are more men with small talent making money out of writing than at any time since the earth cooled.

But scribbling was a down-at-the-heels business in modern history until a gent called Sam Johnson came along.

Dr. Johnson, "The Great Champ" of 18th Century literature, put the English language in chains with the first popular-selling dictionary.

Most of the real writers cashed in on their popularity—Shakespeare, Bobby Burns, Byron, Dickens, Thackeray, Tolstoy.

Shakespeare had to cavil both to the censorship of a capricious court and an illiterate mob.

Prizes are down in Hollywood. The *Trans* is showing through the gold but as the sun off the light in their golden locks to cut down on the *Trans* city hills, the film colony must expect little sympathy.

The Nation Today—

The Right To Protect Self

By JAMES MARLOW
WASHINGTON, Aug. 10 (U)—Two men are called as witnesses before the House Un-American Activities Committee.

One of the committee members asks the first witness a question. The man says "I refuse to answer."

When the second man takes the stand, the committee member asks him a question.

The second witness says "I refuse to answer on the ground that it might incriminate or degrade me."

Can both men get away with refusing to answer the committee's questions? No. One can, the other can't.

"The first witness who simply said 'I refuse to answer' can be cited for contempt of Congress, tried in federal court, and, if found guilty can be sentenced to jail.

In the past couple of years about 15 men who told the committee "I refuse to answer" have been cited for contempt.

Congress long ago passed a law which says a witness before a congressional investigating committee—the Un-American Activities Committee—is one—can be cited for contempt of Congress if he refuses to answer questions.

But what of the second witness, the one who said "I refuse to answer on the ground that it might incriminate or degrade me?" Can he be cited for contempt, too?

No. It's different in this case. He can't be cited for contempt because by explaining why he refuses to answer—"On the ground that it might incriminate or degrade me"—he is standing on his constitutional right not to testify against himself.

The fifth amendment to the Constitution says "no person . . . shall be compelled in any criminal case to be a witness against himself."

Washington Merry-Go-Round—

Real Estate Lobby Busy With Friends In Congress During Special Session

By DREW PEARSON

WASHINGTON (U)—The real estate lobby worked backstage with its pet congressional friends almost every minute of the special session.

Two crack writers for the real estate lobby even worked one night until 4 a. m. writing a speech for Senate Majority Leader Kenneth Wherry.

What happened was that the Republican National Committee had already sent Wherry a speech supposed to be the Republican answer to inflation.

The idea was to wash out the Mason-Dixon Line with free drinks and the promise to keep politics off the program.

All of them were set to attend when McGrath suddenly announced that segregation would be abolished at Democratic National headquarters.

Florida's Senior Sen., Claude Pepper, who opposed President Truman at the Democratic National Convention, got the gathering off to a good start by proposing a toast to Truman.

At the GOP closed-door Senate caucus last week, Sen. Charles Tobey, the New Hampshire firecracker, urged giving President Truman all the controls he wanted.

The curvaceous bathing babe is currently in a non-swimming role in "Take Me Out To The Ball Game." Then it's back to the tank.

Meanwhile, Esther and husband Ben Gage are in the real estate business. When Van Johnson chided her about the size of her own home, she had an answer for him.

Wife Dinah Shore—who's a busy gal with radio, records, etc.—and Husband George Montgomery—whose movie career hasn't been breaking any records for activity of late—are now toying with the idea of producing their own films.

Zachary Scott has long harbored a similar idea. He wants to film "The Cattle Baron," the life of his grandfather, R. B. Masterson, pioneer Texas rancher.

AMVET Representative Bob McLaughlin commented that his organization had been studying

juvenile delinquency, had found that most cases could be traced back to slum conditions which the public housing bill would correct.

That, said Truman, was one of the reasons he favored the public housing bill.

Note—Thanks to the real estate lobby and Sen. Taft's change of mind about his own housing bill, slum clearance and public housing was vetoed at the recent special session.

Harassed Democratic Chairman Sen. Howard McGrath tried to coax southern senators back on speaking terms—socially, if not politically by inviting the entire Democratic flock to a "harmony party."

Red Shrine

LENIN'S TOMB CONTINUES AS TOP ATTRACTION

MOSCOW—Lenin's mausoleum is still the most frequently visited shrine in the Soviet Union.

On an ordinary day with no special significance—at four o'clock in the afternoon when the doors of the mausoleum opened—a crowd stretched for at least 500 yards from the mausoleum waiting patiently for the opportunity to see Lenin's body and pay reverence to his memory.

Lenin's body lies in state beneath the mausoleum, preserved in a life-like state by scientists. To see it one must pass the honor guard at the doors, pass down a flight of stairs to the burial chamber where there is another honor guard standing always at attention.

Passing the revered body of their revolutionary leader many Russians including strong men weep. There is every evidence that the memory of Lenin is still as strong today among the Russian people as it was on the day of his death nearly 25 years ago.

Affairs Of The World—

Reds Start Expansion?

By DeWITT MacKENZIE
AP Foreign Affairs Analyst

Romanian refugees in Turkey report that a plebiscite is to be held in their country late this month to determine whether it shall become a member of the Soviet Union.

Should this prove true it will mean Russia is starting the long-expected annexation of her eastern European satellites. Such an expansion would further consolidate her grip on that half of the continent and pave the way for fresh efforts at further moves toward the English channel.

Should Romania vote to "join" the Soviet Union, the refugees say, the Romanian parliament will be dissolved and delegates to Moscow will be named instead.

Around The Rim—By The Herald Staff

Mr. Canning's Dream Grass

Mr. Blandings' dream house got noted about quite a bit, and thus, in simple justice, something ought to be said about Mr. Canning's grass.

Mr. Canning is our Mr. Harold Canning, who shepherds the maze of figures and pennies in the bookkeeping department. He also is the owner of a new home, and therefore the individual responsible for converting the once bald prairie, which lay in his front yard, into a verdant carpet.

Immediately there arose the question of what sort of grass should be employed to give maximum pleasure to Mr. Canning and those who should pass that way: Bermuda? Hmmmm. No, everyone has Bermuda and it requires water. Native mesquite grass? Well, hardly, for no one seems to know much about it for lawn purposes.

Passing the revered body of their revolutionary leader many Russians including strong men weep. There is every evidence that the memory of Lenin is still as strong today among the Russian people as it was on the day of his death nearly 25 years ago.

Broadway—

Adler Harmonica Gets Recognition

By JACK O'BRIAN

NEW YORK (U)—If anyone has wondered what happened to Ella Mae Morse, the gal who became a sudden song sensation after one record, "Cow Cow Boogie," let them be informed the tuneful lady has retired and moved to the Island of Guam.

It's easy to see why Russia wants domination of the Danube, when you stop to consider that it winds in and out among numerous satellites, including Romania. Naturally Moscow doesn't want Western influence at work among her slave states.

If we are indeed about to see the beginning of Russian annexation of the satellites, it will alter the military picture in Europe. Into every nation which "joins" the Soviet Union, Moscow will immediately fling her troops, so that in due course the Red armies will be up against that Stettin-Adriatic line, facing the countries of Western Europe.

There is no doubt that Russia figures on achieving all this as part of the "cold war" meantime pushing her world revolution for the spread of communism.

Public Will Foot Sea Lions Food Bill

PHILADELPHIA, Aug. 11. (AP)—The sea lions at the zoo eat a lot of fish so Zoo Director Roger Conant has decided "we're going to let the public pay part of the bill."

Butterfish, at five cents each, sold by the zoo, will eliminate the feeding costs, if the public responds," Conant said.

In connection with the new idea, Conant invited two major league baseball players to toss the sea lions their first on-the-public fish.

Fritz Wehner, Rotary president, said that the balance of the money required for the exterior renovation was in sight. Rotarians voted to contribute voluntarily to the fund.

Rotarians contributed \$218 Tuesday toward a fund for improving the scout hut for the troop (No. 1) they sponsor.

Plans are to finish the exterior of the building first so as to make it blend pleasantly with surroundings. The club had indicated this would be done last year when the school board granted permission for the hut to be placed on a corner of the grounds for the College Heights elementary school building.

Rioting Breaks Out At Iowa's Legion Meet

DES MOINES, Ia., Aug. 11. (AP)—One man was injured in rioting which broke out late last night and continued into the morning at the State American Legion Convention.

Police reported approximately 200 persons participated and that "a number of arrests" had been made. The melee occurred in the front of the Hotel Fort Des Moines, convention headquarters downtown.

Stewart Lund, commander of Webster City, Ia., post, gave this eyewitness account:

"My wife and I watched the Legionnaires from our fifth floor room. They were putting on the usual tricks, stopping cars and buses and having fun.

"Suddenly the occupant of one car—a man with a red shirt—stepped into the street, gave one of the Legionnaires a good solid blow, stepped back into his car and drove away.

"This was about 11 o'clock. About an hour later my wife and I were returning from a walk when we saw about 30 men lead by a man wearing a red shirt return. They mixed it up with the Legionnaires."

Police, reporting the situation under control, summoned the riot squad and all available patrol cars to quell the disturbance. Bricks and stones were thrown.

The injured man is Robert Peterson, 27, of Missouri Valley, Ia. Hospital attendants said his condition is not serious.

The convention ends today.

Three States Pick November Nominees

By the Associated Press
South Carolina, Arkansas and Idaho Democrats appeared to have their nominees all picked today for major November political contests.

Candidates for at least one of South Carolina's three contested congressional posts seemed headed for runoff elections, but Sen. Burnett R. Maybank held clear 10,000-vote majority over four competitors for his Senate seat, with returns almost complete.

In Arkansas—where, as in South Carolina, democratic nomination means almost certain election in November—Hot Springs Prosecutor Sidney S. McMath, 36, took a lead over former Atty. Gen. Jack Holt in the race for governor.

In all three primaries, the other major ballot battles concerned house seats.

Compton I. White, seven straight times a representative from Idaho, piled up a heavy score against Farmer Burnis B. Brigham in the race to see who will compete next fall against GOP Rep. Abe Goff—the man who defeated White in 1946.

In the same state, 27-year-old Businessman Asael Lyman led School Teacher Bert Minwegen, 26, in another congressional contest. Like Goff, Republican incumbent John C. Sanborn is unopposed.

Idaho's senatorial candidates of both parties were nominated with no opposition. They are the present Republican senator, Henry C. Dworshak, and State Supreme Court Justice Bert H. Miller.

Demonstration Slated Today In Aerial Dusting Of Crops

Aerial crop dusting has been instituted here and a demonstration arranged for 5 p. m. today.

Bill Edwards, operator of the Big Spring Flying service whose Farm Air Service branch is to conduct the dusting, said that the demonstration—weather permitting—would be on the Charles Creighton farm west of town and immediately north of the airlines terminal.

Two Piper Cub planes, especially equipped for crop dusting, have been secured for the work and will be flown by Edwards, L. W. Pearce and J. R. Smith. Technique calls for low flying so that the dust settles quickly and evenly over crops.

Edwards said several fields had been booked for aerial dusting, which is not new but which has not been employed here before on any sizeable scale.

Besides being rigged to handle any sort of dust, the planes also carry attachments for seeding, fertilizing and, if there is a demand for mechanized harvest of cotton, for defoliating.

The demonstration today is being arranged in cooperation with County Agent Durward Lewter, said Edwards.

Elaborate House Of Prostitution Found In New York

New York, Aug. 11. (AP)—Five women were arrested early today after a raid on a duplex apartment just off Fifth Ave. which a police official said was one of the most luxurious houses of prostitution discovered in the city in recent years.

Police said the establishment charged "up to \$100 and more." The apartment at 14 East 65th St. has a bar on the lower of its two floors. A private elevator connects with the street entrance of the six-story limestone building.

Mirrored walls, expensive antiques, oil paintings and fine furniture gave the place a lavish look.

Telephone wire tapping—legal in New York State—was employed by police in a three-week investigation which followed complaints.

Police said no men were found in the apartment when they raided it shortly before midnight.

The prisoners, booked early today on morals charges, included a middle-aged woman named as the operator, three young women and a Negro maid.

A woman who identified herself as Jane Reynolds, 48, was charged with keeping and maintaining a house of prostitution.

Major Circuit Races Still Far From Settled

Nine teams are still in the running for the major league flags today as the greatest of all baseball campaigns roars past the two-thirds mark.

The list includes Cleveland, Philadelphia, Boston and New York in the American League, and Boston, Brooklyn, St. Louis, New York and Pittsburgh in the National League.

Only two and a half games separate the first four clubs in the American, while six and a half games separate the first five teams in the senior circuit.

By splitting a doubleheader with Washington while the Tigers were defeating the Indians, 7-3, the A's tied Cleveland for first in games won and lost. However, since they've played six more games, the A's trail the Tribe by six percentage points. After the Senators yesterday's opener, 8-2, the A's came back to win, 11-2.

The Red Sox moved past New York into third place, two games off the pace, by flogging the Yankees, 9-6, in New York. The New Yorkers dropped into fourth place, two and a half games behind the leaders.

The Braves lost ground to both of their pursuers when they were beaten by the Giants in Boston.

The Dodgers whipped the Philadelphia Phillies, 5-2, in Brooklyn to take second place from the idle Cardinals by a fraction of a point. They also shaved Boston's margin to three games. The fourth place Giants are five games behind and the fifth place Pirates, who trounced Chicago, 5-1, in Pittsburgh, are six and a half games off the pace.

In the only other game yesterday, the St. Louis Browns advanced within a game of sixth place by vanquishing the last place Chicago White Sox, 3-1.

Bobby Feller, trying for his 12th victory went down to defeat instead when he was clubbed for eight hits and five runs in the six innings he worked. Young Ted Gray of the Tigers struck out 10 in the 7-13 innings he pitched to rack up his second victory in as many starts. Pat Mullin's 15th home run in the fifth produced three runs and pinned the loss on Feller.

A crowd of 67,091 saw the Red Sox come from behind with five runs in the eighth to defeat the Yankees. Vern Stephens' double off Vic Raschi with the bases loaded was the big blow. Tex Hughson, pitching in relief, was the winner.

Major Circuit Races Still Far From Settled

Nine teams are still in the running for the major league flags today as the greatest of all baseball campaigns roars past the two-thirds mark.

The list includes Cleveland, Philadelphia, Boston and New York in the American League, and Boston, Brooklyn, St. Louis, New York and Pittsburgh in the National League.

Only two and a half games separate the first four clubs in the American, while six and a half games separate the first five teams in the senior circuit.

By splitting a doubleheader with Washington while the Tigers were defeating the Indians, 7-3, the A's tied Cleveland for first in games won and lost. However, since they've played six more games, the A's trail the Tribe by six percentage points. After the Senators yesterday's opener, 8-2, the A's came back to win, 11-2.

The Red Sox moved past New York into third place, two games off the pace, by flogging the Yankees, 9-6, in New York. The New Yorkers dropped into fourth place, two and a half games behind the leaders.

The Braves lost ground to both of their pursuers when they were beaten by the Giants in Boston.

The Dodgers whipped the Philadelphia Phillies, 5-2, in Brooklyn to take second place from the idle Cardinals by a fraction of a point. They also shaved Boston's margin to three games. The fourth place Giants are five games behind and the fifth place Pirates, who trounced Chicago, 5-1, in Pittsburgh, are six and a half games off the pace.

In the only other game yesterday, the St. Louis Browns advanced within a game of sixth place by vanquishing the last place Chicago White Sox, 3-1.

Bobby Feller, trying for his 12th victory went down to defeat instead when he was clubbed for eight hits and five runs in the six innings he worked. Young Ted Gray of the Tigers struck out 10 in the 7-13 innings he pitched to rack up his second victory in as many starts. Pat Mullin's 15th home run in the fifth produced three runs and pinned the loss on Feller.

A crowd of 67,091 saw the Red Sox come from behind with five runs in the eighth to defeat the Yankees. Vern Stephens' double off Vic Raschi with the bases loaded was the big blow. Tex Hughson, pitching in relief, was the winner.

DOVE OF PEACE AN ANGRY BIRD
TOKYO, Aug. 11. (AP) — A fight over the peace celebration commemorating the Aug. 15 surrender anniversary is terrific.

Some 30 Japanese women's clubs got together to observe the anniversary. They all agreed the motif should be peace. Then the fight started. Every club wanted to put up someone for chairman.

The fight may be over in time for the peace celebration—provided the clubwomen get together on one of the three leading candidates still in the squabble.

Citrus Production Smaller This Year
WASHINGTON, Aug. 11. (AP) — Prospects for new citrus crops in Texas' Rio Grande Valley indicate smaller production than last season, the Agriculture Department reported yesterday.

Growing conditions in Texas were reported as favorable during July. But the board said prospective production "is short of last season."

Favorable prospects for new citrus crops in California and Florida were reported.

U. S. LOSES ROUND 2
Reds Again Block Danube Navigation

BELGRADE, Yugoslavia, Aug. 11. (AP) — The Communist bloc of Eastern Europe voted down, seven to three, today a second American effort to guarantee free navigation on the Danube.

The conference then accepted a Russian proposal for the first article of the new Danube shipping conference convention. The vote was seven to one. France voted against adoption. The United States and Britain abstained.

It was the second time in two days the Communist states of Eastern Europe beat down attempts to obtain guarantees of free navigation without discrimination on Europe's vital waterway, and showed their ability to push through a Danube pact barring the Western Powers from any say on control of the river.

Yesterday the Soviet draft for a preamble setting forth the general objectives of the conference was pushed through by a seven to two vote, over American and French objections. Britain abstained from voting.

The U. S. then made its proposal in the form of an amendment to the first article of the convention which, as drafted by Russia and as adopted, reads:

"Navigation on the Danube shall be free and open for the nationals, vessels of commerce, and goods of commerce of all states, on a footing of equality in regard to port and navigation charges and conditions for merchant shipping."

94-Year-Old Can Take Care Of Self
CHICAGO, Aug. 11. (AP) — Mrs. Alice King, 94-year old baby sitter, was free today to take care of herself—and to see movies undisturbed.

She told women's court that she had been "taking care of myself for 75 years and I think I can take care of myself now." The occasion for her court appearance as a disorderly conduct charge.

The occasion for the charge came when she bopped a couple of kids in the movie when they wouldn't take their feet off her seat. Judge William V. Daly dismissed the charge.

She declined to tell the court where she lives lest those who care to her be given publicity.

Conroe To Test Waco Tonight
WACO, Aug. 11. (AP) — Seven teams remain in the battle for the Texas semi-pro baseball championship and one of those will fall out tonight.

Waco and Conroe clash in tonight's feature game. It matches the only undefeated teams left in the race.

Strawn and Sweeney, each of which has lost one game, play in the other game. The loser will fall out of the double-elimination tournament.

Conroe beat Sweeney 6-1 last night behind the three-hit pitching of Charley Gorin.

Left in the tournament are Waco, Conroe, Sweeney, Temple, Angelo's Stars, Strawn and Dumas.

Mental Specialists Try Hand In Curing Ills Of The World
LONDON, Aug. 11. (AP) — Two-thousand specialists met here today to consider the state of the world's mental health. They would like to find some way to treat "sick" nations so as to "cure" the disease of war.

Psychologists, psychotherapists, psychiatrists and representatives of all professions concerned with the study and betterment of human relations convened for an 11-day international congress on mental health. There are to be three separate but related conferences.

"We shall try to get away from individual cases and think instead of groups and communities and nations who are sick," said the Congress president, Dr. J. R. Rees of London.

"The fact there always have been wars doesn't mean there always will be," said Dr. Nina Ridenour of New York, executive officer of the International Committee for Mental Hygiene. "We are opposed to that old chestnut that you can't change human nature. We think you can change human nature."

The way to begin, she suggested, is by showing mothers and teachers how to handle children properly. She said policy makers in foreign relations and government perhaps, should be advised by psychologists.

"Sometimes," Dr. Ridenour added, "they will make policies which

Occupations Course Has Many Openings
Openings are available for more than a score of students for diversified occupations or trades in industries training.

Stanley Cameron, co-ordinator, has returned from Vernon where he spent the summer in special instructor training work for the state board of vocational education, and is now ready to assist eligible students in signing for vocational training here.

Either he or Walter Reed, high school principal, will be available to give information between the hours of 10 a. m. and 12 noon each day this month.

Cameron explained that graduation of 15 students last year left the program with many gaps to fill. He said there were openings immediately for youths who would like to train as machinist, electricians, automobile mechanics, radio technicians, etc., and particularly in various types of industrial work. Of course, distributive (retail sales, professional services, etc.) openings are still available.

Requirements for the vocational training, a part of the high school curriculum, are that the student be 16 years of age and at least a junior in high school. In practice, the courses result in half a day on the job and half a day in related study at school.

Dr. Frank Fremont-Smith of New York commented that appeasement of a potential aggressor is not a cure, because:

"Appeasement to an adolescent who has grown beyond his proportions is not going to make a good world citizen."
