Sugar Beet Representatives Will Meet With Local Farmers Tonight!

Four representatives of the Holy Sugar Company, S.W. Colorado, will meet in Spearman, Texas, tonight (Sept. 23) at 8:00 p. m. at the court house. These men will discuss sugar beets with the farmers and business men of this area.

450 Students Enroll In Spearman School

Mr. and Mrs. Jimmie Linn took her sister, Mrs. Johnny Barlow, and Gayle Hamilton on Monday to train for her home in Santa Ana, Calif. She has been visiting with the Linn's for the past month.

Miss Nell Close

Nell Close Ruled As District Soil Sweetheart

Miss Nell Close, runner-up in the Sweetheart Contest Aug. 22, will represent the Hansford Soil Conservation District in the Sweetheart of the Soil Contest of the Second Annual Soil Management Demonstration and Plover Contest at Pan Tech Farms, Sept. 11, 1953.

Miss Valene Henderson, Gruver, Is Elected New Farm Bureau Queen

Miss Valene Henderson of Gruver was elected Queen of the Hansford County Farm Bureau Federation Friday night of last week, in a contest held at the Lyric Theatre in Spearman.

Harold Collier, president of the local county farm bureau was Master of Ceremonies in presenting the program. There were two contestants representing Gruver, Olo and Spearman. Each girl received a gift of appreciation from the committee.

Greyhounds Gruver Schools Will Open On Tuesday, September 8th

Joe Orden, football coach at Gruver this year may be "loaded" and without a doubt the instructor will bring the Grolloping Greyhounds out of the cellar position when the football season is closed.

Joe was not available Tuesday for an interview, and he may not feel as confident about his material as this sports writer. However, Joe will have Charles Sanders back and a lot of weight in the regulars such as Bobbie McFadden, Tony McMillan, Allen Winkler (tough as a pine knot), Pat Westerfield, Eugene Wyatt, Donald Murrain, Bernie Boyd, Ed Carey, Charles Cotter, Elvin Mitts and Kenneth Mason.

This 'N That

Around Gruver

There is not much in the way of news this week. Everybody is busy. Some are planting wheat, others are harvesting such crops as corn, black-eyed peas and watermelon.

Plans for school opening are underway. School opens next week, but High School registration is going on right now. In addition boys and girls are getting ready to leave for college.

Mr. and Mrs. Earl Holtzman have just returned from a trip to Iowa where they attended a family reunion. While there they visited in Mrs. Frank Jackson's home.

Mr. Sgt. Joy Black is still in a hospital in Japan and so far has not shown much improvement. Sgt. Black is the son of Mrs. Holtzman.

Mr. and Mrs. Ralph McClellan and family spent last Sunday with their parents Mr. and Mrs. D. L. McClellan.

We were glad to see the former Louise Knutsen and her husband and two children. They are missionaries to Alaska and make their home in Fairbanks, where both of their children were born.

Lions Entertained

Lion Elms Gann was program leader for the opening meeting of the Spearman Lion club held Tuesday noon at the H. D. club.

Plans for school opening are underway. School opens next week, but High School registration is going on right now.

BLODGETT NEWS

James Kennedy went to Goodwell, Oklahoma Thursday to conduct foot ball practice.

Mrs. J. N. Blodgett, Mr. and Mrs. Orle Blodgett, and Mrs. John Kenney spent Friday in Gayton, Oklahoma visiting in the home of Mrs. Rosa Blodgett.

Glen and Marilyn Blodgett spent a few days last week with their grandmother, Mrs. Dets Blodgett.

Mrs. John Kenney and J. M. visited in the home of Mrs. Kathryn Conrade at Dumas Monday.

Mrs. Joe Cooper and children of Amarillo are visiting her mother, Mrs. Mira Desk this week.

Mrs. Smith is visiting in the home of her daughter, and family, Mrs. Claude Sheets.

Watermelon Eating Contest Will Be Held On Saturday In Spearman

Wilson Buchanan, at the court house. The winner of the contest will receive a \$5.00 first prize.

First PTA Meeting Will Be Held Friday Night, September 4th

There will be a guest speaker for the evening, plus musical entertainment. After the P. A. meeting there will be a reception in the school cafeteria.

Lynx Lynx Prepare For Game Against Canadian September 11

This year's Lynx team will be extremely light, probably averaging less than 150 pounds, compared with better than 150 last year, and many of the boys will be starting for their first time.

Reporting for first days practice, besides those mentioned above are: Bernard Dossett, Tom Bruce, Lowell Sheets, Durand Sheets, Pat Jackson and Lester McLain.

Stores Will Close For Labor Day

The public is urged to get their shopping done early this week as Monday, September 7th, is a national holiday, and many stores in Spearman will be closed.

Old Settlers Picnic

The annual old settlers picnic will be held in historic Old Nobles on Labor Day Sept. 7, 1953. An interesting and entertaining program will be presented during the day.

Bulletin

Hansford County received a boost in wheat acreage allotment Wednesday evening of this week. Here is the information.

Revised notices will be mailed to owners and operators as soon as possible. This means that Hansford County will receive only a 27 percent cut, instead of a 30 percent cut.

There has been a total of 391 applications filed for feed. Only seven have been canceled. The number of our loads of feed ordered is 66. The number received so far has been 33.

YOUR NEIGHBORS on their JOBS

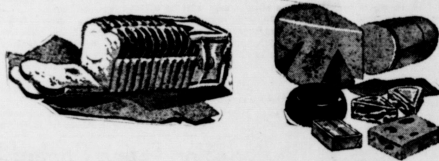

CARICATURES BY HUT HUTSON

COPYRIGHT H. H. HUTSON

Your Cut Rate Grocery features fine foods, at money saving prices. All of our personell is well trained, and we know how to buy fresh fruits and vegetable, plus high quality meat and groceries. This enables us to pass on many, many savings in dollars and cents to our customers.

We have not missed one week, since we started in business, without running an advertisement in this paper, telling the public to compare our prices with any other prices, anywhere. We will continue to operate in this manner, so that our customers will know that we are ready and willing to serve them, with competitive prices, and high quality foods.

It has often been said, that "You are what you Eat" We have foods for those on low calorie diets, or for those who want to gain weight. We have your favorite name-brand foods, and can and will fill any special orders for you.

Cut Rate Grocery And Market

PETE FISHER IS NEIGHBOR ON THE JOB

Your Neighbor on the Job, this week is truly one of the outstanding young business men of Spearman. Since this week will wind up the series of 13 page advertisements that have introduced business men of Spearman to the public, we might say we saved one of the best subjects until the last. This is not true, since we just took the business men as it was easy to contact them—but Pete FISHER, owner and manager of the Cut-Rate Grocery and Market is sure one of the finest friends this writer knows, and his record while a resident of Spearman is excellent from the standpoint of providing a first class grocery and market, and from civic activities.

Pete was born and raised over in the cotton country of Oklahoma. He started his adult life as a cotton farmer at Cache, Comanche county Oklahoma.

Mr. Fisher was shrewd enough to decide that there was an easier way to make a living than to farm cotton. In 1937 he came to Dumas, Texas and became associated with S. G. Collins and B. J. Dicht in the grocery business. From 1937 to 1942 Pete did a lot of different jobs in a grocery store and learned the business from the ground up. In 1942 favorite Uncle, (Uncle Sam) asked Pete to drop his grocery work and education and come help to win a war. Pete very dutifully answered the call and learned the job of fighting in the air corp of the U. S. Army. He did a three year hitch and came out of the army a Technical Sgt.

Pete took up in his chosen profession where he left off, and began working again with his associates in the Cut Rate Grocery store at Dumas.

In February of 1948 Pete came to Spearman and bought the Strickland and Glover Grocery and Market. Due to his training and ability, Pete has built up a business establishment that is truly tops even in a city much larger than Spearman. He combines all the features of the cash and carry modern clean grocery and market with many of the good features of the old independent groceryman.

The large store in Spearman has every modern convenience for the comfort of the customers. It is very attractive and convenient for the many, many shoppers who are customers.

Pete Fisher has been just as efficient as an aggressive civic minded citizen as he has as a good merchant. He has served on most of the important committees of the Chamber of Commerce, and has served that organization as director and president. He has served with the Spearman Lion club on many of the committees and has been director and Secretary-Treasurer of the organization. At the time Pete would have been advanced to president of the Lion club he was president of the C. of C. and begged off from the assignment.

Pete is married and Mr. and Mrs. Fisher have a two and a half year old son, Timothy, who is their pride and joy. Mrs. Fisher is a very active member of the First Baptist church and is at the present time superintendent of the primary department of the Baptist Sunday school. She is a member of a flower club in this city and has served in several offices in the club.

Mr. Fisher is a member of the Hanford Masonic Order and also a member of the Eastern Star, and at the present time is serving the Star organization as Worthy Patron.

The Spearman grocery store is a member of the Panhandle Associated Wholesale Grocery organization. This means that they maintain warehouses and buyers all over the nation and with their large buying power are able to make attractive purchases, to be passed on to customers.

The Spearman store is well staffed with efficient help. Albert Tacker is Assistant Manager of the store, Don Allen is manager of the produce department; Ray Gibson is manager of the grocery department; and Earnest Butler is manager of the market. Others on the staff include: Sammy Wyong, Don Allison, Mrs. Lois Allison and Grace Buschman.

Letter From Korea Tells Of Signing Of Peace Treaty

Dear Bill:
Just a line today to let you know that I am getting along just fine. I hope that everyone there is the same.
Well Bill, in the last letter that you got from me, I was supposed to come home in November 1952. Well I extended for a year. That time is up now. I am supposed to leave here the 27th of this month. Sure will be good to leave here, and also will be good to see all the folks and my friends there in Spearman. I still think that I have some there or at least I hope that I do.

Well Bill, I am sure glad that this is over here. I guess that 10,000 other soldiers here feel the same. I was about 3 miles from the front when they signed the peace treaty. I saw the faces when they came off the line. They were like a bunch of kids going to their first game of baseball game. I never saw such a bunch of happy men in all my life. I talked to one of them that had been on the lines for almost 11 months. He was with the 25th Infantry Division. You remember when they signed the treaty. They were to come fire at 10:00 o'clock that evening. You would think that they would all quit the minute that they signed it. But he said that around an hour after they signed it was the hardest fighting that he had seen since he was on the lines. He said that the North Koreans came in groups of 500 or more at a time and where they came from nobody knows. But he said when the time came for them to cease fire, there wasn't a shot fired 10 seconds after the hour of 10:00 o'clock. He said that it never was so quiet, during his time there. I am now assigned to a Field Artillery Battalion, with the 24th Infantry Division. We were approximately 3 miles from the line at the time we fired the rounds of 105 MM HOW from the time of the actual signing of the treaty till 10:00 o'clock that night. So you can see that things were pretty hot. Well Bill, enough of that for now.

How is Spearman now? From the way that people talk there it seems to have grown quite a bit since I have been there. Drive-in theatres and everything. Sure will be good to see good old Spearman again.
Well Bill, I guess that is all for now as it is getting pretty late. So I will close for now. Hoping to see all of you soon.
A friend Always,
Howard B. Lomax.

Cator Broadhurst Marriage Recently

Mr. and Mrs. James Cator announce the marriage of their daughter Carolyn to Charles W. Broadhurst of Gruver. The wedding was very informal in the home of the Brides parents. Rev. W. L. Porterfield read the double ring ceremony. The bride wore a brown crepe tulle dress with white roses for a bouquet. Following the ceremony the couple left for a honeymoon in Colorado Springs. They will make their home in Abilene. Mr. Broadhurst is a ministerial student in Hardin-Simmons, while Mrs. Broadhurst will take business administration.

On Buying A Car

Those interested in purchasing a new car in the near future may enjoy the most encouraging buyers market in the automotive industry in more than ten years. Already this year the automobile plants have produced over three million passenger cars. This is over half of the estimated 5,500,000 new cars which the American public will buy in 1953.

One reason a highly competitive market is expected in the near future, is the fact that defense orders are being cut at the same time when civilian production seems to be overtaking civilian demand. Thus, manufacturers face the prospect of production cutbacks in both fields. Because many banks, and other lending institutions, are tightening up credit regulations, the market is being further restricted.

Despite the indications of a highly competitive market, the evidence does not point to a collapse in the automotive field. Rather, it points to a leveling-off period, when the industry lowers its sights from the extraordinary boom peak, reached in early 1953. New car purchasers are expected to remain relatively high and no doubt, manufacturers will enjoy profits. But the new car buyer, who has been forced to beg his dealer for a car on many occasions since World War II, can look forward to bargain offers in the next six to twelve months.

No War in Europe

General Alfred M. Gruenther, Supreme Allied Commander in Europe, recently told a Senate Appropriations Committee he did not think Russia would start a European war. The general said, contrary to some predictions, that he didn't think it was going to come in Europe—in the near future.

This is refreshing testimony, and certainly frank testimony, from the North Atlantic Treaty Organization Commander. Although Gruenther admitted Russia and allied Communist satellites had superiority in ground and air force he reported a steady increase in Allied strength. Gruenther pointed out the troubles the Russians were having in such places as East Berlin, and other areas. He compared the present situation to a battle when the enemy is about to be put on the defensive and asked the committee not to whistle for Chancellor Konrad Adenauer, lest the opportunity of putting the enemy on the run be lost.

Ike On Russian Future

President Dwight D. Eisenhower revealed his thoughts on the future of Russia and the satellite states clearly in a letter to Chancellor Konrad Adenauer of the West German Republic. The President did not mince his words when he predicted the disintegration of the Russian-dominated Communist world of 1953.

In one part of the letter, he said: "I am quite certain that future historians, in their analysis of the causes which will bring about the disintegration of the Communist empire, will single out those brave East Germans who dared to rise against the canons of tyranny with nothing but their bare hands and their stout hearts as a root cause."

"I think also that those same historians will record your extraordinary steadfastness in the cause of European peace and freedom, over many, many years."

The President's statement came at about the same time General Alfred Gruenther, about the disintegration of Communist world, did not expect a war in Europe with Russia. Eisenhower, therefore,

is crumbling at the same time when the new Supreme Commander of the North Atlantic Treaty Organization forces in Europe is willing to predict that the Reds will not attack West Europe.

This picture is indeed a brighter one than the situation in Europe presented the world several years ago—and the future hopes of the free world can probably best be summed up in the President's closing paragraph, in his letter to Chancellor Adenauer:

"No one can foretell what the unfolding months will bring, but it can certainly be said that the worker's of Berlin's Soviet sector and the workers of East Germany, with the workers of Czechoslovakia, have an important place on the pages of history. May be concluding chapter of that history record the re-emergence of freedom, of peace and of happiness."

Things You Should Know About Your Local Draft Board

Ignorance of the law excuses no one. That is something everybody has heard, and it applies to a draft board's deliberations and actions, as well as to any other agency set up to administer public law.

The law makes it the responsibility of the individual registrant to do everything that the law requires of him. The law requires him to do these things within a certain time limit. If he doesn't do them, he can lose many privileges and rights given him under the law.

"It is the duty of every man registered with a draft board to be alert and protect his rights under the law," advises Brig. Gen. Paul L. Wakefield, state director of Selective Service.

"Certainly it is the moral responsibility of parents to have their sons make themselves aware of the necessity of complying with all provisions of law and regulations," he says.

"It is too bad that registrants, parents, and employers often sleep on their rights until it is too late, or extremely difficult, under our regulations, to do anything about their cases," he says.

General Wakefield says that sometimes a registrant, parents, or an employer never request anything at the board until after an order to report for induction is issued.

Registered men, parents and employers should begin to concern themselves about the Selective Service law and regulations immediately after men register. General Wakefield points out:

"The state draft director reminds all registrants, their parents, employers, public officials and citizens in general that the doors of Texas draft boards are always open to tell the people how to get information and help with draft problems."

Plan Now For Winter Grazing

There are many reasons why every farmer should make plans for winter pastures. According to F. M. Trew, extension pasture specialist, pastures provide the cheapest feed for livestock and less labor is required to handle the animals when they are on good pastures. This adds up to lower costs and more efficient meat and milk production.

Winter pastures also supply good nutrition for the animals. A check with the county agent will provide the best combination for particular section.

Last but not of major importance, Trew says, the best fertilizer dollar which can be spent is the one going for a soil analysis. The analysis will show whether fertilizers are needed and if so, the type and amount required to make the winter pasture tops.

"Put down the fertilizer if it is needed," says Trew, "for it pays big dividends and even if the crop is dusted in, the fertilizer will see its way but will be there for use of the succeeding crop."

It will be a good idea to inoculate the legume seed, explains the specialist, especially if the crop is on land which has not been planted to a legume recently and because of the effects which may have come about as a result of the prolonged drought.

The cost of inoculating the plant seed is small compared with the returns of more production and the development of the nitrogen-fixing bacteria on the roots of the plants.

Poultry Industry In Texas Provides Multimillion Income

Recently released figures reveal the economic importance of the poultry industry in Texas. According to John G. McHaney, assistant economist for the Texas Agricultural Extension Service, it takes a lot of eggs to satisfy Texans' appetite for "hen fruit."

In fact, he adds, the supply from Texas sources lacks all checking with the local country.

Trew likes to use a combination of grasses and a legume. He says the combination gives greater total production; that the forage produced is higher in protein and minerals and the grazing season is extended over a longer period. Trew suggests checking with the local county agent for the latest information on the best adapted varieties of grasses and legumes for your section of the state.

Back To Texas, There Isn't Much Time Before School Starts, But The Children Wanted to Come Back To Texas. All Eight of Us Got Into the Car and Started Out. What with stopping at every other filling station, we made fairly fast time. We came through Virginia, Western North Carolina, Tennessee, Arkansas, Oklahoma, and on home. We dropped by Dumas, Arkansas, about 90 miles south of Little Rock, to see our good friends, the Wiley Reynolds. They are running several hundred head of cattle on a place that joins the banks of the Arkansas River. Wiley has certainly done a wonderful job on the place. The fences, corals, and living quarters are something to see. The grass is back high on the cattle are mud fat. He is running about one head to the acre on most of the place, and the grass doesn't seem to get any shorter. He knows plenty about ranching, and his spread there in Arkansas, certainly shows it.

Eight people dropping in unexpectedly will throw a hotel manager into a frenzy, but not Jane Reynolds. She wouldn't hear of us not spending the night. She had a room ready for us, but she fed and slept the whole bunch and never lost any of her natural beauty or good disposition in the process. The Reynolds children, Pat and Butch, are having a good time, but expect to be back in Pampa before long.

We also saw the Kenneth Kyles and his father, "Skinner" Kyles and wife, Louise, who were doing well. It sure did the family good to run into this nest of West Texans over near the Mississippi.

THE COUNTRY WE CAME THROUGH: Much of the Southwest was settled by folks from the states that we drove through. From all appearances, the folks in that section of Virginia, North Carolina, and Tennessee are all good basic American stock, honest, God-fearing and law abiding. If you ever get a chance to drive through this part of the country, through the Blue Ridge and Smoky Mountains, don't miss it. The beauty is breathtaking.

WASHINGTON NOW: Things have quieted down in Washington and will, no doubt, remain that way until something happens on the world front or the President calls a Special Session. The grocery heads have all been notified to cut expenses. The Executive Department hopes to avoid calling a Special Session if these expenses are cut. They should have been cut a long time ago. It is the only way in the world to stop much of the waste and keep us from going further in debt.

Both Ends.

"Why do you call your house a 'bungalow'?"

"Well if it isn't a bungalow, what is it? The builder made a bundle of it and I still owe for it."

most three dozen eggs per capita of meeting the demand. In 1951, 2,921,000,000 eggs were produced in Texas. The per capita consumption was 37 eggs. Therefore, says McHaney, 259,000,000 eggs had to come from the different states to make up the difference. The existing favorable egg-fed price ratio, the rapidly increasing population of egg producers in the state would be justified in further increasing the size of their laying flocks.

Final figures for 1952, he says, show that 21,474,000 hens were on the farms of the state. Figures released on July 1 indicate some reduction in this number while the hen numbers for the nation remained about the same as for a year ago.

The Texas broiler industry has grown by leaps and bounds during the past few years and in 1951 produced \$42,334,000 for the state's producers from eggs in 1951 grossed \$13,124,000. Final figures for 1951 show that eggs represented 12.2 percent of the total gross poultry income for the state; broilers 27.5 percent and turkeys 13.5 percent.

It adds up, says McHaney, to a whopping total of \$157,328,000. Army plans to extend Regulars tour of duty in U. S.

BURNED IN ACCIDENT

Edgewood, Md. — Mrs. Ann Lou Freeman, 41 and Mrs. Jeanette P. Duncan, 36, were burned, one seriously, when they were struck by a car of flaming gasoline on State Route 24. The car had been thrown away by a motorist when it ignited as he was pouring gasoline into his car's carburetor.

SAME NAMES, NOT KEYS

Nutley, N. J. — When Traffic Court clerk called out the name of "John Duncan" to answer for a traffic violation, two men had the same name, both lived in Belleville, on the same street. The whole tangle was straightened out when the husband of No. 44, to driving without a license.

WOMAN'S WORLD

Spruce Up Kitchen With Color, Order For Warm Weather

PREPARING meals during the warm weather can be a chore, but your kitchen is a cool, inviting place, it's bound to be easier.

Kitchens in good order are especially inviting, and restful. A few hours wisely spent can bring order to shelves and drawers, and this will save you many hours in meal preparation.

That's all very well, you say, but space is at a premium. Well, then, there are several gadgets which may help to give more space. There are racks which will hold plates of all sizes, so that even a small shelf with a rack can hold a full set of plates. Cup racks are also small and will keep cups in order, or shelf hooks may be installed.

For utensils, there are easily adjusted racks which will hold all lids to pots and pans. The rack slides in and out, and you can reach whichever lid you need without disturbing or moving the rest.

Pantries cluttered? Narrow shelves are usually best installed on the back of a door which will hold all small items such as spices, flavorings, small packages of puddings, cereal, etc.

Add Color to Shelves
Bright, colorful shelves add a decorative touch to the kitchen and make it especially pleasing. If the kitchen is done in a cool color such as blue, gray or green, then yellow or red may be used for brightening the shelves. If the kitchen is in a warm tone such as yellow or red, then use the contrasting shades for a cool note.

There are paper shelveings to fit all widths of kitchen shelves, even the deep ones such as a 12-inch width. You can choose self paper and edging combined in one, also.

Special plasti-chrome finish protects the shelving paper from stains and makes it easy to clean. Use a damp cloth for wiping, and it's done! Plastic-coated edges on the paper won't will or curl in the heat and humidity of summer, either.

Tuna Roll-Up Makes A Pleasing Dish

When you're looking for something easy and economical for a supper dish, make it a tuna roll-up!

Canned tuna fish, quickly and easily seasoned with pimiento, chives and watercress is rolled in a biscuit dough spread with lemon peel and juice. Bake, and you have a tasty dish that's easy on a hard-pressed budget, too.

Tuna Roll-Up
(Serves 4)
2 7-ounce cans tuna
1/2 teaspoon salt
1/4 teaspoon pepper
1 pimiento, chopped
2 or 4 sprigs watercress, leaves and stems, chopped
Grated peel of 1/2 lemon
2 cups biscuit mix
Juice of 1/2 lemon and enough water to make 1/2 cup

1 egg yolk
2 tablespoons milk

Empty tuna into large mixing bowl. Flake and season with salt and pepper. Mix in pimiento, chives and watercress. Add lemon peel to biscuit mix. Following directions on package, prepare biscuit mix and liquid. Roll dough into rectangle about 1/4 inch thick. Spread with tuna mixture. Roll up from long side. Place on greased down in greased baking pan. Pinch ends together. Brush top with egg yolk and milk. Bake in a hot (400°) oven for 25 to 30 minutes. Slice and serve hot.

Turnovers or rubabags will cook quickly if you cut them into small pieces, lengthwise. Mash and season them as you do with potatoes for a tasty vegetable dish.

THE STATE OF TEXAS: TO ARLEDA ANN HILL BARTON AND HUSBAND, O. B. BARTON AND ALL OTHER PERSONS INTERESTED IN THE ESTATE OF ARLEDA ANN HILL, BARTON

You are hereby commanded to appear before the County Court of Hansford County, Texas, at or before 10 o'clock a. m., Monday, September 14, 1953, and show cause why, if any you have, that the final report and account of Robert Alexander, guardian should not be in all things approved and such guardian discharged and said estate closed.

If this citation is not served within ninety (90) days after the date of its issuance, it shall be returned unsealed.

GIVEN UNDER MY HAND AND SEAL OF SAID COURT this 2nd day of September, A. D. 1953.

Fred J. Hoskins, Clerk of the County Court, Hansford County, Texas.

Issued this 2nd day of September, 1953.
(SEAL)
FRED J. HOSKINS
Clerk of the County Court,
Hansford County, Texas
No. 40 P-2-1c

Mr. and Mrs. J. H. Nichols have been visiting for several days with their daughter and family Mr. and Mrs. Maurice Pullig and Teresa Annette, in Abilene, Texas. They returned home Wednesday and reported a fine trip. Maurice will teach in McMurtry College after September 7th.

Witness: Fred J. Hoskins Clerk of the County Court of Hansford County, Texas.

Given under my hand and seal of said court at my office in the court house of Hansford, this 2nd day of September, A. D. 1953. (SEAL) Fred J. Hoskins, Clerk County Court, Hansford County, Texas.

Mr. Gene Glize is recuperating at home after spending a few days in the Hansford hospital. She underwent surgery while in the hospital.

Mr. Calvin Hazlewood, Julianne, Tom and Travis of Doshanna, were accompanied home by her sister, Mrs. Joe Dan Bryan, Mike and Mansel. They have been visiting her parents, Mr. and Mrs. Hix Wilbanks.

Another daughter, Mrs. Randy Billingsley and children Bill and Gary visited with them for about ten days.

Mrs. Hazlewood and Mrs. Billingsley visited with their sisters, Mrs. Ray Phelps and Mrs. Joe Dan Bryan.

Mrs. W. L. Mackie spent Monday with Mrs. Fred Womble and helped her can corn.

Mr. and Mrs. D. B. Beson and Jimmie Ray were in Amarillo recently to call on Mrs. W. E. Starke.

Mr. and Mrs. E. M. Robb of Dalhart visited their daughter and family, the Roy Wilhelms Sunday.

Wise Birds
Manum, Okla. — Checking his air conditioning system, Claude Miller found a nest of five baby birds atop the machine. Before Miller could get the air, he had to give the birds the air, so he put the nest in a clear box and taped it to the side of his air conditioner.

High Plains Underground Water Conservation District No. 1

IT'S LATER THAN YOU THINK BUT NOT TOO LATE.

By W. L. Broadhurst, Chief Hydrologist.

Every person on the High Plains of Texas, and especially within the bounds of High Plains Underground Water Conservation District No. 1, should not only read the following statements but should study them thoroughly and then go to work with his mind, his voice, and other available tools.

CONSERVATION OF NATURAL RESOURCES.

MESSAGE FROM THE PRESIDENT OF THE UNITED STATES:

In my state of the Union message, I called attention to the vast importance to this Nation now and in the future of our soil and water, our forests and minerals, and our wildlife resources. I indicated the need for a strong Federal program in the field of resource development.

At the same time I pointed to the necessity for a cooperative partnership of the States and local communities, private citizens, and the Federal Government in carrying on a sound natural resource program.

In addition to the immediate danger of waste resulting from inadequate conservation measures, we must bear in mind the needs of a growing population and an expanding economy. At present we are faced with the need of securing adequate resources of some agricultural commodities and the need for production adjustments to gear our agricultural economy to current demands. But in the long run, we shall need to give increased attention to the improvement and the replenishing of ground-water reserves, if we are adequately to feed and clothe our people, to provide gainful employment, and to continue to improve our standard of living.

Our basic problem is to carry forward the tradition of conservation, improvement, and wise use and development of our land and water resources. To do this within the framework of a sound fiscal policy and the light of defense needs will require maximum cooperation among the States and local communities, farmers, businessmen, and other private citizens and the Federal Government.

It is fortunate that today there is a growing recognition on the part of land users and the public generally of the need to strengthen conservation in our upstream watershed and to minimize flood damage. Inadequate conservation measures and unsound land use patterns vastly increase the danger of loss of valuable top soil from wind erosion in time of abnormal rainfall and from water erosion in time of floods.

It is important, too, for groups of farmers banded together in local organizations, such as soil conservation districts and watershed associations, to take initiative with the technical advice and guidance of the appropriate Federal and State agencies in developing adequate plans for proper land use and conservation. It is equally important that we should move ahead in the conservation of water resources and the sound utilization of land resources. Success is rapidly as possible consistent with a sound overall fiscal program.

While we have indicated our major problem is to carry forward a tradition of improvement and conservation of our natural resources, the best means of achieving this objective depends on keeping up with changing conditions. For example, the problems of water resources development in the West are undergoing considerable change. The pattern of western growth has broadened substantially in recent years. Industrial expansion has been extensive and varied. Increased activities in mineral and fuel processing have occurred. Urban expansion has been well above the national average in many communities. These developments have brought about strong competition for existing water supplies and have stimulated the need for a broader approach in planning new water resource developments. As a consequence, the Federal role in the cooperative development of these resources should now be re-examined in the interest of achieving a better balanced program for western growth.

Conserving and improving our land and water resources is high priority business for all of us. It is the purpose of this administration to present to the next session of the Congress suitable recommendations for achieving the objectives set forth in this message. I am confident that the studies of government organization and functions authorized by this Congress can also make an important contribution to the solution of these problems. As the Congress moves ahead on a constructive legislative program in the resource field, it will have my full support and cooperation. We must build a balanced program for the use and development of all our natural resources.

Such a program is indispensable to maintaining and improving our standard of living as we make the future secure for a growing America.

Dwight D. Eisenhower, The White House, July 31, 1953 (The above is part of the message from Congressional record, July 21, 1953)

UNDERGROUND WATER CONTINUATION

The President has called attention to the need for a strong Federal program in the field of resource development, which includes the water beneath these High Plains. At the same time he pointed to the necessity for cooperation of private citizens, again those who depend on underground water, the Plains businessmen which include farmers because irrigation farming on the Plains is certainly big business.

Valuable top soil from the Plains is being lost each year from wind erosion and from water erosion. Cotton rows running directly down the slope toward depression is not the best way to prevent the soil from being washed in to the thousands of lakes on the Plains. Neither is it the best way to store rainfall in the soil for the use of crops and thereby require less pumping of precious underground water. What are your ideas and what are you thinking, saying, and doing about such practices?

President Eisenhower said it is important for groups of farmers to work together in local organizations, such as the High Plains Underground Water Conservation District No. 1, to take the initiative which means don't wait for somebody else to tell you what to do, in developing adequate plans for proper land use and conservation.

The President said that conserving and improving our land and water resources is high priority business for all of us and that it is the purpose of the administration to present to the next session of the Congress suitable recommendations for achieving the objective set forth in his message.

We believe the President's message is of vital importance to the High Plains people. But we do not need to wait for the next session of the Congress. We have a local underground water conservation district, authorized by the Texas Legislature and approved by a majority vote of the people who live in the District.

The High Plains Underground Water Conservation District No. 1, is authorized to formulate, promulgate, and enforce rules and regulations for the purpose of conserving, preserving, protecting, and recharging the underground water. Just what does that mean? Let's restate it in different words. The District through its elected Board of Directors shall adopt and enforce the rules and regulations that the people themselves think are best suited to provide for wise development and economic use of the underground water. The District requires that permits be obtained for the drilling, operating, and maintaining of wells that produce more than 100 gallons of water a day (100 gallons a minute) and that permits be obtained for the operation of a surface water pump which produces more than 100 gallons a day (100 gallons a minute) and that permits be obtained for the operation of a surface water pump which produces more than 100 gallons a day (100 gallons a minute).

The District is authorized to formulate, promulgate, and enforce rules and regulations to prevent waste as defined by law. It is authorized not only to provide for the opening of water-producing from the underground reservoir but also to regulate the production thereof so as to minimize as far as practicable the drawdown of the water table. The District is authorized to recharge the underground reservoir but that is difficult to accomplish during a drought.

The Directors of the District and their co-workers, the 65 County Committeemen, are promoting intelligent, trustworthy Planners, who believe in the American way of life and who believe that the local citizens should take the initiative in practicing water conservation. They are devoting much of their time and efforts toward a sound program with the hope that through the knowledge of past experiences and other facts, that the waste of underground water will be reduced or eliminated and that the supply will be developed and used wisely for the benefit of themselves and the future generations. They welcome both technical and non-technical advice that will prevent the promulgation of unsound rules and regulations which would not be in keeping with the fundamental rights and privileges of the individual American.

Again we repeat President Eisenhower's statement that conserving and improving our land and water resources is high priority business for all of us. Get in the middle of your soil

and water conservation programs. Do your part and you will contribute to a higher standard of living and a better way of life.

JAMES STAVLO WILL ATTEND CLIFTON COLLEGE

Mr. James Stavlo, a 1953 graduate of Spearman High School, has been accepted as a Freshman for the coming school year at Clifton College, Clifton, Texas. He is the son of Mr. and Mrs. Oscar W. Stavlo, whose address is Box 146, Graver, Texas.

A liberal arts course with emphasis on pre-engineering subjects is the choice of Mr. Stavlo who plans to complete his education in the field of engineering.

Registration dates for the 1953-54 school year at Clifton College have been set for Sept. 11 and 12. Classes will begin on Monday, Sept. 14. Clifton College is a two-year junior college located in Bosque County of Central Texas.

Local Group Makes Star-Telegram Pic.

Ellis J. Veale, pastor of the First Christian Church, accompanied by Anita Groves and Loren Mundy, of Spearman, attended a State Youth Convention, held in Fort Worth, Texas, the past week-end.

The three Spearman citizens had their picture put in the Fort Worth Star-Telegram, on the front page, as were the first group to arrive from the Panhandle and thereby receive the Merle Gay Jones, and Jimmie Vernon also attended this Youth Convention, and also one held in Brownwood, this week before.

NEEDED—Married man with car Call on Puler Fresh customers in Spearman and vicinity. Over \$70 week to start. We train you. Write: Manager, 1515 Popular, Amarillo.

FOR SALE—Solemn Piano is in excellent condition, walnut case, waterfall keyboard, matching bench. Fully guaranteed, will sell for cash or on terms, only \$345.00. Write Clark-Shaw Music Store, 317 North 8th, Garden City, Kansas, No. 39-2c

Choco, Arizona, August 25, 1953 Spearman Reporter.

Dear Sir: Well, I keep wondering what's so I guess you had better start reading me the Spearman Reporter pronto, before I get too far behind on all the news.

I like Arizona fine. Right in this locality, we have had plenty of rain, grass is good and cattle fat.

Enclosed is check for subscription. Please send the Reporter one year.

Thanks Bill for all the favors you have extended me. My very best to you and Fay. Mrs. John D. Leverton, Box 215—Comche, Arizona.

WANTED—Custom binding. Phone 5962F11 Graver, No. 29 41p

Mrs. Dale Davidson Honored At Coffee

Mrs. Dale Davidson of Oklahoma, Oklahoma, honored at a Coffee given by Mrs. Tom Hite and Mrs. Woodie Hite, in the home of Mrs. Hite.

The serving table was laid with a long cloth and centered with a white cloth, the centerpiece was "Flowers" and "Daisies" denoting the bride and groom.

Mrs. Ester moved and Mrs. Hite arranged for the bride's book and assisted the guests in unwrapping the gifts.

Twenty-five guests registered between 2 a. m. and 11:30 a. m. Mrs. Richard Holton and Mrs. Gladys Richardson were in the home party.

Mrs. Sallie Rosson Passes Away

Mrs. Sallie Rosson passed away Saturday at the McBride Clinic in Oklahoma City at 4:45. She had been a patient there since she had sustained a serious injury about two weeks before.

Mrs. Rosson was 84 years of age and had been in failing health for the past two years.

She had visited her sons, Verne and Charlie, many times and made friends here. Another son, Leroy, lived in this community for several years.

The funeral service was conducted at Erick, Oklahoma, on Tuesday at 2 PM in the First Baptist Church.

Mr. and Mrs. Owen Pondergraft visited relatives in Oklahoma, Kansas, and Missouri last week.

Mrs. Helen Pattison and child returned home from a vacation to Washington State Sat.

Mr. and Mrs. Bernard Barnes drove over to Amarillo Sunday to call on Mrs. W. E. Sparks.

Mrs. Roney returned home after visiting her daughter, Mrs. Bernice Dearmond and her son and family, the Rufus Roney's of Lubbock.

Mr. Weant is visiting his daughter and family, the Bill Coop

Protect Your Flower Garden

Don't let insects and pests take a toll in your flower garden. Neil Randolph, entomologist for the Texas Agricultural Extension Service says control is a matter of knowing the insects and their habits and understanding what it takes to prevent or destroy them.

For instance bagworms are probably thriving right now in their tough cocoon-like cases, principally on arbor vitae and cedars. They usually become full grown about August. If you did not spray the plants early in May your best control measure at this stage is hand picking. Be sure to burn the bagworms as you collect them.

Ants which attack flowers and ornamental shrubs can cause extensive damage. For best control, locate the nests and dust the hills and immediate vicinity thoroughly with a 10 percent chlordane dust.

Apids are small soft-bodied sucking insects, dark brown, yellow or green, and usually found on the underside of leaves. Spary plants with one and half teaspoons nicotine to a gallon of water, or dust with eight teaspoons nicotine sulphate to a pound of hydrated lime.

White flies can damage leaves of flowers and plants. Two adults are tiny white moth-like flies, and the young are found on the underside of leaves and resemble scales. When the adults are swarming, they may be controlled by dusting thoroughly with five per cent DDT powder.

The young can be controlled by spraying the underside of the leaves with three tablespoons of white oil emulsion per gallon of water.

Caterpillars feed on flowers and shrubs—either the smooth-skinned or those covered with hair. To control, dust plants regularly with five per cent DDT or five per cent chlordane dust. Red spiders are tiny insects. They are like mites, red or yellow in color and found commonly on the underside of leaves and can usually find them by locating the fine webbing on leaves and stems of the plants. Best control, the specialist says, is obtained by dusting sulphur twice at seven day intervals. There are some commercial miticides which are effective when used according to the manufacturer's directions.

of children and others in the community. The WHO in civil defense is each member of every family in the community. Special civil defense plans include organization of leaders who take the responsibility for looking ahead, train themselves and others in every phase of relief work. This includes home nursing, first aid, fire-fighting and feeding of crowds.

Check with the civil defense organization in your community to train in some or all phases of this work. Courses are offered in many Texas communities for citizens who accept the responsibility for being prepared to meet civil defense relief needs.

A special civil defense conference and work shop for county, districts, and state workers will be conducted at Texas A. & M. College, August 16-17, in cooperation with the Federal Civil Defense Administration.

Club Women To Attend Natl. Home Dem. Council. Eight home demonstration club members from Texas will attend the seventeenth annual meeting of the National Home Demonstration Council at Boston, Massachusetts, August 21-September 3, according to Bonnie Cox acting state home demonstration leader for the Texas Agricultural Extension Service.

Mrs. B. M. Harris, Plainview, president of the Texas Home Demonstration Association will report to the national meeting on the program of work achieved by the 44,000 members in Texas. She is a member of the Citizens and Family Relations committees for the Council whose objectives are to further strengthen, develop, coordinate and extend adult education in home economics, and to provide opportunities for homemakers to pool their judgement, experience.

Hospital News

Mr. and Mrs. J. D. Floyd of Spearman are the proud parents of a daughter born at 1:22 P. M. August 26th. The young lady weighed in at 6 lbs. and was named Julie Kay. Mrs. Floyd and daughter were dismissed from the hospital August 30th.

Leola Curry of Spearman was admitted for medical treatment at the hospital August 26th and dismissed August 29th. Ralph Johnson of Spearman was a medical patient from August 27th and was dismissed August 28th in a much improved condition.

Mrs. Julie McBrayer of Spearman, a sister of Mrs. Delon Kirk, was admitted for medical treatment August 23rd. Mrs. McBrayer is still a patient but has improved very much.

Mr. and Mrs. William H. Goston of Spearman are the proud parents of a new son. The young fellow arrived Sept. 2 at 3:05 a. m. and weighed 6 lbs. 11 oz. Mrs. Goston and son are doing fine.

DID YOU KNOW - A medical cure for a headache was to stand in the sun with a bottle of water on the head.

Sugar coating pills began 1500 years ago when Egyptian priests concocted over 800 better tasting medicines in special temple work rooms.

Visitors to the hospital please observe the following visiting hours: 10:00 a. m. to 11:00 a. m. 2:00 p. m. to 4:00 p. m. 7:00 p. m. to 8:30 p. m.

LOST - Between Spearman and Archer Ranch North of Gruber, head frame for a bedstead. If you have found this item get in touch with Mr. R. B. Archer, Sr.

MASTER MASONS INVITED TO PROGRAM AT GUYMON All Master Masons of this area are invited to a special program to be held at the Guymon Oklahoma Temple Tuesday evening September 8th.

Worms Are To Work On Texas Crops Worms of many different kinds are literally doing their best to devour crops and pastures in many sections of the state.

Don't Name It I forgot to report last week that my cotton picking brother had returned home. I hate to admit the facts, but I guess that I was responsible for his leaving.

Hints on Range Management Given Weather conditions must be taken into account when range management plans are being made and grazing should be on a sustained yield basis.

Recent studies, he says, show that rainfall is short one year in five in the eastern section of the state and two out of five in the western part.

We miss the old stinker timber-land and had planned to remain on this until his wife got out of the hospital in November. I sincerely apologize to him for winning all the domino games, and if he will come back for another visit I won't even play with him—I would not let him win if I could help it.

I'm getting worried about the drought conditions again. Chalmers Porter tells me that there is prospects for all the wheat in the state to be sold in the month of August moisture—losing their wheat. That is they will lose what wheat they planted in August and which has come up to a spotted stand.

Our hats are off to Justice Oakes and his assistant, Mr. Hand, who have managed to provide the court house with one of the finest lawns we have ever seen. Incidentally, Justice Oakes is evidently celebrating his hard work since he is on a two weeks vacation down in Erath county where he was born and raised.

MR. AND MRS. J. L. BRYAN HAVE INTERESTING TIME ON SUMMER VACATION Mr. and Mrs. J. L. Bryan, who take a summer vacation trip every year, had a very interesting and satisfactory trip this year.

Another thing I have been intending to write about is a trip made recently by our City Marshall and Mrs. Bill Martin. William is one of the home town boys that can certainly get along in an emergency.

Federal And State Cooperation Necessary To Solve Texas Water Problem

TEXAS Water Problem V
By Lyndon B. Johnson
U. S. Senator

(Editor's Note: This is the last of a series of articles based on a Bureau of Reclamation survey of the Texas water problem, made at the request of Senator Johnson.)

Texas' almost miraculous industrial progress during the last decade has attracted nationwide attention. Many new manufacturing establishments, big and little, have sprung up over the State. An enormous overall addition has been made to the productive capacity of the United States.

We want to continue our industrial growth. Development of large and dependable water supplies is essential to maintenance of the rate of Texas industrial growth. Water is the lifeblood of modern industry.

These supplies will have to come from water resources not used at present. That is a primary conclusion of an appraisal of the Texas water problem made by the Bureau of Reclamation.

Must Develop Water Resources
The Bureau reports that Texas has a potential water supply more than sufficient to take care of all foreseeable industrial and farm and municipal needs. Our present use of water represents only about 15 per cent of the water available, year after year, from Texas streams.

The water problem facing our State is two-fold. First, we must take steps to conserve as much as possible of the 85 per cent of the total supply that now runs off into the Gulf of Mexico and is lost to us. Second, we must devise and put into effect a distribution system that will get adequate supplies of water to the place where they are most needed.

MUST MEET CHALLENGE
Admittedly, this challenge is no puny one. But it is one that must be met. Only by meeting it can we take advantage of the unparalleled economic opportunity before us.

Every phase of our anticipated industrial development will require increased supplies of water. The Bureau of Reclamation predicts, for example, that eventually industries and municipalities in the Gulf Coast area will require an annual water supply four times as large as the present usage.

The Bureau report suggests new and revised programs aimed primarily at transforming Texas' potential water resources into available water supplies. It estimates economic gains that would come to Texas as a result of carrying out these programs. It discusses the character of the Federal interest in the Texas water problem. It outlines policies which respect both State and national interests.

SOLUTION VITAL TO TEXAS
The solution of our water problem is vitally important to Texas, of course. But not Texas alone. The entire Nation has a great stake in solving this problem. The Nation needs the additional manufactured goods and farm products that would come with greater utilization of Texas water resources.

I hope that Texas and the Federal Government will work together to solve the problem—with the rights of Texas over its own water protected to the fullest degree.

The basis of such a cooperative program is set forth in the report by the Bureau of Reclamation.

TEXAS Water Problem — V

By Lyndon B. Johnson
U. S. Senator

A coordinated, long-range water program in Texas would serve the best interest of both the State and the Nation. Such a program would increase the prosperity of both without detracting from the rights of either, provided we are able to find the proper dividing line.

We are living in a time when there appears to be a struggle between the Federal and the State Government over dominance. Personally I do not believe the wise men who wrote our Constitution looked forward to any such struggle.

Rights and Responsibilities
I believe they mapped out clearly defined authority for both Governments. I believe they thought each had definite rights and definite responsibilities.

The water program suggested for Texas in a report by the Bureau of Reclamation, following a study made at my request, seems to me a case in point.

I have transmitted copies of this report to the head of the Federal Government, President Dwight D. Eisenhower, and the head of the Texas State Government, Governor Allan Shivers. I have asked both to consider the problem—and to seek to cooperate in solving the problem.

Solution Is Possible
As one who was born and brought up in cotton country, I do not believe a solution is impossible. As one who knows something of the problems in a

land where too much sun is followed by too much water, I have complete confidence in the ability of intelligent men to balance the two factors.

This, I believe, is the kind of cooperation contemplated by the founders of this Government—

cooperation among the Chief of the Federal Government, the chief of the state Government, and the representative to the Federal Legislature. Surely, with such cooperation, we can arrive at a program which will benefit both the State and the Nation.

I am not certain whether the program advanced by the Bureau of Reclamation through its Austin Area Planning Office is the right one. But it does set forth the fundamental facts and figures about the Texas water problem. It does offer a basis for working out an effective approach to the problem.

PROPOSAL POINTS WAY
We seek a solution for our

TEXAS water problem which will preserve the rights and responsibilities of both Texas and the Federal Government.

We have a proposal which points the way to that solution, even though we have yet to determine that it is the proper solution.

We need only to make up our minds with an eye to the best interests of the people of Texas and the United States—and then act.

There is ample time for full discussion in Texas of this whole project before the next regular session of Congress. I hope it will take place.

OSLO NEWS

Promotion Day in Sunday School next Sunday at 10:00 A. M. will be held, but there will be no Bible class. Registration for communion in the sacristy will be at 10:30 to 11:00. Worship service with the Lord's Supper at 11:00 A. M. will be held. Installation service for Sunday School teachers and officers will be held. Visitors are always welcome.

Luther League meets in the parish hall at 7:30 next Sunday night. A talk by Harold Collier will be given along with reports of Bible Camp. The Junior League will meet during the period between the Senior League program and the cooperative refreshment.

The new Junior confirmation class begins in the parish hall Sunday morning at 10:00 A. M.

The circuit and W. M. P. meeting in our new congregation in Oak Cliff at Dallas, Texas will be held October 16-18.

The pastor and Sunday School teachers met for their annual meeting Sunday night. Teachers were elected for the coming year. Rev. and Mrs. John Maeksted and family have gone back to Fairbanks, Alaska. Mr. and Mrs. E. David Knutson will both go to Stillwater, Oklahoma, where they will both attend college. They are children of Mr. and Mrs. Emil Knutson.

Mr. and Mrs. Chris Rasmussen and family of Mansfield, Iowa, visited in the John O. Dahl home.

Ice Wherever They Go

THE FEW AMERICANS who haven't seen a skating road show are missing a bright, exciting package filled with bits of the ballet, circus, musical comedy and vaudeville routines. For color, rhythm and action, it's show business' biggest spectacle.

FLUID GRACE and dazzling mobility of stars like Donna Atwood, left, gives revues a fairy-tale quality.

ICE CAPADES, featuring Miss Atwood, and Ice Cycles literally skate everywhere on their own portable rinks.

STAGE FOR EACH SHOW, carried about the nation in trailers powered by International truck-tractors, is 9,000 square feet of piping. Brine is circulated through the piping which is then covered with water. Freezing action quickly creates smooth skating surface.

Lofty Quest for Uranium

EVEN MORE dramatic than the gold rush days is America's quest for uranium ore, now under way high on the rugged Colorado Plateau. At Uravan, below, ore mined in the Rockies is refined. Town was named for "ura" in uranium, "van" in vanadium.

ONCE PROCESSING IS COMPLETED, uranium, below, has a black, sticky form. Drying reduces the material to powder.

SANDSTONE near this typical mining structure yields uranium. From it are derived traces of uranium ore.

MOUNTAIN-CLIMBING International trucks, one of which is shown in background, haul the ore to mills from nearly inaccessible mines. Miners examine ore for yellow streak, proof of uranium.

You just can't buy all of these features in any other Pickup!

- ✓ NEW "DRIVERIZED" CAB!
- ✓ NEW FORDOMATIC DRIVE!
- ✓ NEW LOW-FRICTION POWER!
- ✓ NEW SHORT-TURN FRONT AXLE!
- ✓ NEW PICKUP BODY!

The most comfortable cab in the world! Soft standard and Deluxe (shown) offer new curved, one-piece windshield—53% bigger for greater visibility! New adjustable seat is wider, more comfortable—has new no-sag springs and new counter-book seat and/or! New push-button door handles! New rotator-type door latch!

Here's truck-driving at its easiest! No shifting, no clutching—smooth, responsive steering! With Fordomatic, even a heavily loaded Pickup can climb a 30% grade from a standing start! Ideal for stop-and-go deliveries. New Overdrive also available! (Fordomatic or Overdrive at extra cost.)

A Ford First—Low-Friction truck engine design! Cuts piston travel, reduces friction wear, saves gas! Ford Pickup offers choice of Low-Friction 100-h.p. Coal Clipper Six (shown)—or, for the greatest power in Pickups today, the world-famous 106-h.p. Truck V-8!

Turning diameters reduced up to 145! Ford's new wide-tread, set-back front axle gives you shorter steering angles for easier, time-saving handling. Front axle supports larger share of load for better weight distribution. New, longer front springs for smoother ride.

45 cubic feet of payload space—one of the largest bodies in the half-ton field! New bolted construction! Pickup Box gives extra strength and rigidity.

New stronger, damp-tight tailgate resists bending or twisting. New toggle-type latch holds tailgate firmly closed. Low loading height—just over 2 feet!

Step into one of these all-new, brand-new Ford Pickups today! Discover the rosy comfort of the new Driverized Cab. And while you're at it, why not take the new Ford Pickup out for a ride? Then you'll know what we mean when we say, the '53 Ford Pickup gives you more that's new for your money than any other Pickup on the American Road!
