THE SPEARMAN REPORTER, SPEARMAN, TEXAS

Card of Appreciation

I take this means of expressing my thanks and appreciation to the voters of Precinct No. 4, for their vote and influence in the recent Democratic Primary election.

I appreciate your confidence, and will try to repay each of you with efficient service in the office you have elected me to serve.

Weldon Green
Commissioners Precinct No. 4

Judge Sansing On Bar Committee

Announcement was made this week by R. N. Gresham, President of the State Bar Association, that Judge T. D. Sansing of Spearman had been appointed as a member of the state Bar Association committee. Judge Sansing was appointed to serve for a term that will expire in 1957.

School To Open

Spearman Public Schools will open Tuesday, August 10, at 8:45. Students will enroll on this date and will then be dismissed, probably about 11:30, according to H. R. Hartman, Regular classwork will begin on Wednesday.

Shamrock Anniversary

A successful story typical of free enterprise working in a competitive environment will be celebrated August 9 when The Shamrock Oil and Gas Corporation observes its 25th anniversary.

Born in 1929 in the early boom-and-bust days of the Texas Panhandle field, Shamrock struggled to survive through the economic depression until its reorganization in 1935. From its meager beginning as the holder of a few scattered oil and gas leases in the Texas Panhandle, Shamrock has grown in 25 years to one of the nation's leading independent petroleum companies. At the end of 1954, Shamrock's investment in plants, properties and equipment will exceed \$5 million dollars.

Yesterday's "filling station" era, Shamrock opened its first retail outlet at Sunray, Texas. Today, more than 400 dealers and jobbers display the green and white Shamrock brand at service stations in a marketing territory that includes parts of Texas, New Mexico, Arizona, Oklahoma, Kansas, Nebraska, Wyoming and Colorado.

The completion early this year of a products pipe line already in service to Denver, and La Junta, Colorado. At each of these points—Amarillo, Denver, and La Junta—distribution deliver Shamrock products to jobbers and dealers.

From Shamrock's crude oil refinery and natural gas processing plants 12 miles northeast of Dumas, Texas, has come a steadily increasing flow of products to meet consumers demand. In addition to Cloudmaster and Trillmaster motor fuels, Shamrock products include LP-gas (butane and propane), processed natural gas, diesel fuel, kerosene, elemental sulfur, asphalt, aviation gasoline, motor oils and greases.

Shamrock's headquarters are in Amarillo and the 5,000 common stockholders are located throughout the nation and in several foreign countries.

Revival Services Now In Progress At Union Church

Pvt. Billy L. Miller Stationed at Fort Benning, Georgia

Pvt-2 Billy L. Miller, Grandson of Mrs. W. S. Thomas, of Spearman, Texas, has been assigned to Company B of the Infantry's largest instructor team, Pvt. Miller will serve as Cadre with the Army in 1953 at Amarillo, Texas, and has been stationed at Fort Jackson, S. C.

Evangelist Wm. C. Kelly from San Antonio, Texas, is now in a series of revival services at Union church which will continue through Sunday night, August 15th.

He is well known in many parts of the United States for his knowledge of God's Word which he is bringing to the hearts of those who attend his services.

Evangelist Kelly is also editor of "Gem of Truth" You may receive a copy of his latest edition upon attending these services.

If you need spiritual or physical help you are invited to attend these services.

This is God's hour of deliverance from sin, sickness, and fear. Let Him speak to you.

REVELATION 22:17.

F. F. A. Convention

SAN ANTONIO, TEXAS - The largest and finest convention of the Texas Future Farmers of America ended in San Antonio today. More than 7,000 young farmers and their guests representing more than 700 of the 900 chapters in the state's largest youth organization completed their annual convention here today.

Attendance Committee—Aubrey W. Renner.

Finance Committee—E. H. "Jack" Taber.

Membership Committee—B. W. Renner.

Program Committee—A. Dool.

Publicity Committee—Rev. Cecil Ottinger.

Education Committee—F. A. Stanley, Jr.

Civic Improvement Community Betterment Committee—L. T. Spivey.

Constitution and By-Laws Committee—Dan Johnson.

Some discussion was held relative to a date for the charter presentation meeting of the club. Members decided to allow the President, Jim Edleman to determine the date, according to the convenience of the speaker who will present the charter.

Lions from Spearman attending the meeting included: L. D. Floyd, J. B. Cooke, R. L. Jones, R. L. Kleberger, Jim Neely, Bill Miller, Wilson Buchanan and Rev. O. L. Bryant.

Notice Of 1955 Community ASC Election

All farmers and ranchers of Hansford County are hereby advised that on August 23, 1954 an election will be held for the purpose of electing community committeemen and alternate community committeemen for 1955. Those elected as Chairman and Vice-Chairman of the Community Committee shall be declared, elected as delegate and alternate delegate, respectively, to the County Convention.

Ballots will be mailed to all eligible voters in the Community whose names appear on county office mailing lists. These ballots will be mailed on August 17 and must be returned to the County ASC Office at the expense of the voter. Ballots returned by mail must be post marked not later than August 23. Ballots may be returned in person, and if so, must be returned to the county office by 5 o'clock on August 23, 1954. Farmers and ranchers eligible to vote in the community election who do not receive ballots may obtain ballots at the county office which is located at the Court House, Spearman, Texas.

Shivers Announces 11 Radio Appearances

AUSTIN, Tex. - Eleven statewide radio broadcasts have been scheduled by Governor Allan Shivers during the closing weeks of the run-off primary campaign.

Shivers will be on the air with morning and evening broadcasts as follows:

Thursday, August 12, at 6:15 a. m.

Friday, August 13, at 8:30 p. m.

Tuesday, August 17, at 6:15 p. m.

Wednesday, August 18, at 8:30 p. m.

Thursday, August 19, at 6:15 p. m.

Friday, August 20, at 8:30 p. m.

Monday, August 23, 8:30 p. m.

Tuesday, August 24, 6:15 a. m.

Wednesday, August 25, 8:30 p. m.

Thursday, August 26, 6:15 a. m.

Friday, August 27, 9:00 p. m.

Jameson Family Enjoy Attractive Vacation Tours

Mr. and Mrs. Leonard Jameson and Neil, Leonard's mother and father, Mr. and Mrs. Jameson of Amarillo, Mr. and Mrs. Bill Jones, Dale and Donny returned the first of the week from a very attractive two weeks vacation tour.

The group went through Colorado, Yellowstone Park, Cheyenne, Wyo., Montana, Alberta and British Columbia. On their return trip they visited Washington, Oregon, Idaho, Utah and into Colorado back home.

Accidents On The Increase In Area

Rural accidents investigated by Texas Highway Patrolmen in the Amarillo District during July, 1954. (Does not include accidents in cities over 2,500 or accidents investigated by other police agencies.)

A. Number of persons killed 14.

B. Number of persons injured 59.

C. Estimated property damage \$64,748.

II. Locations of accidents during July, 1954

A. State and Federal Roads 86.

B. Farm to Market Roads 7

C. County Roads 16

D. Small Towns (Under 2,500 population) 11.

III. Principal Violations as Causative Factors

A. Speeding 11.

B. Driving While Drunk 8.

C. Wrong Side of Road - Not in Passing 8.

D. Failure to Grant Right of Way 7.

E. Improper Passing 11.

In June the principal violations causing accidents were:

(1) Exceeding Speed Limit

(2) Driving While Drunk

(3) Failure to Grant Right of Way

(4) Following too Closely

(5) Wrong Side of Road - Not in Passing

(6) IV. Comparisons

A. Same month last year (July, 1953) 7 killed; 57 injured; \$54,100 property damage

B. Same month (July, 1954) 8 killed; 64 injured; \$69,830 property damage

C. This year (first seven months) 46 killed; 398 injured; \$471,325 property damage.

Texans Banks Principal Farm Lenders In State

Texas farmers and ranchers continue to go mostly to the state's banks to meet their credit needs, according to a survey by C. A. Gibber, First State Bank, who represents the Texas Bankers Association as Hansford County Key Banker.

Quoting from the thirteenth annual lending survey of the Agricultural Commission of the American Bankers Association, Mr. Gibber noted that banks were by far the largest lenders to the states farmers and stockmen during the year. On December 31, 1953, Texas banks had loans totaling \$247,389,000 at the same time in addition to their regular lending operations. Texas banks also held \$27,945,000 in C. C. C. loans under the government's farm mortgage program, which is not included in the above bank total.

"The banks have been encouraging farmers and ranchers to make better use of their present acreage through modern methods during this period of high land prices," Mr. Gibber said. "The bulk of the farm loans held by banks are production loans rather than real estate loans. Production loans include credit to finance growing and marketing of crops; breeding raising, and fattening of livestock; purchasing of modern equipment; and the like. Banks held \$238,071,000 of these production loans at the end of 1953, compared with \$59,426,000 held by Production Credit Associations and \$50,234,000 held by the Farmers Home Administration.

The remaining \$232,054,000 in farm loans outstanding in banks at the beginning of this year were made up of farm mortgages. All of the \$247,389,000 held by the state's banks at the end of 1953, compared with \$59,426,000 held by Production Credit Associations and \$50,234,000 held by the Farmers Home Administration.

Mr. Gibber reported that 858 of the 892 insured commercial banks in Texas served agriculture by making credit available to farmers and ranchers during 1953. "In this day of mechanized, highly competitive farming, making credit needs of agriculture is one of the most important services of the states banks," he said.

Army Suggestion Program Saves Two Million Dollars For Taxpayers

Suggestions submitted by Fourth Army military and civilian personnel during the recently completed fiscal year 1954, will save the taxpayers over \$2 million yearly in man hours, money, and materials, according to J. P. Burt, Fourth Army personnel director.

Sixteen thousand two hundred ninety dollars were paid out in each award to civilians in addition to hundreds of letters of commendation, certificates of achievement, and suggestion award certificates presented to both Army and civilian personnel for their adoptable ideas. Of all suggestions received, approximately 41 percent were usable, Bohart said.

Ft. Sam Houston personnel topped the participation rate for Fourth Army installations over the five-state area, with 1,000 suggestions, followed by Fort Sill, Okla., and Fort Bliss, Tex., Camp Chaffee, Ark. However, adopted a higher percentage of suggestions submitted, with Fort Hood, Tex. in second place. During the year, Fort Sam Houston and Fort Bliss personnel led in total savings accrued from adopted suggestions.

Although present Department of the Army regulations do not permit military awards for their suggestion, Bohart said, letters of commendation and certificates of achievement are included in individual files, and consideration of the award is given when the Army man or woman is eligible for promotion. Of particular interest, Bohart said, was the presentation of a commendation ribbon with metal pendant.

Ralph Blodgett Buys Wm. Glover Home In Spearman

Mr. and Mrs. Ralph Blodgett have purchased the Wm. Glover home, 160 acres of land adjoining the home and all improvements on the property.

This was one of the largest Real Estate deals made in Spearman in a good many years. This outstanding home was built in Spearman some 20 years ago, and more recently has been remodelled and enlarged. The grounds and arrangements of this residence classifies it as one of the most attractive in this area of the state.

Blodgett plans to take possession of the place by October 1. Marion Glover, who has lived in Spearman approximately 20 years says he is not giving up Spearman as his home, but he and Mrs. Glover will have to spend more time in Hamilton county where they have extensive ranch property and a lovely country home.

Wm. Baggerly Visits Toyland

Wm. Baggerly returned the first of the week from a "Toyland" land, located at Wichita Falls, Texas. He said he had purchased a lot of purchases for December deliveries at the Large White Auto Warehouse.

Mr. Baggerly took occasion to go down to Temple, Texas, on an official check-up at Scott and White. He reports that the plant is in good condition according to the Clinic Report.

Helicopters are held to be the key to future oil strikes.

Maureen Conolly wins tennis trial on Dublin courts.

New Army Uniforms

The following message, DASHED from the Chief of Information, Department of the Army, 24 July 1954, is quoted for your information:

"The changeover will be made to afternoon papers Tuesday 3 August."

"Procurement of the new Army green uniform has been authorized and will be started August 1, 1954, by the Army announced."

"No effective date has been set for the issuance of the new uniform to Army troops. It is estimated that at least 15 months will be needed before the first uniforms are available."

"The changeover will not be initiated until existing stock of OD (Olive Drab) uniforms, which have been worn for a number of years, are exhausted, fall below \$5,000,000 in value."

"Past experience in uniform changes indicates that the changeover will be completed in 15 months or less."

"Five months are required for the production of the cloth and the industry to manufacture the cloth under 'cut, make and trim' contracts and to distribute the new uniform, 6,000,000 yards of cloth will be purchased by the Army, requiring the manufacture of 1,400,000 of the new uniform."

"The procurement action following the objection to the design and color of the new uniform."

THE SPEARMAN REPORTER, SPEARMAN, TEXAS

ONLY NEWSPAPER BEING PUBLISHED IN HANSFORD COUNTY

Washington News Letter From Congressman Walter Rogers

To The People of The 18th District: **WATER—A NUMBER ONE NATIONAL PROBLEM.**

A new Special Sub-committee of the Interior Committee has been appointed to study the nation's water resources. I was honored to be included as one of the members of this Special Committee. I have long argued that too little attention was being paid to our water problems. In other words, it became the custom in this country to take water for granted, simply because we thought we had plentiful supplies. There was always quite a bit of talk about creating water reserves, but very little was done about it on a national scale.

Great reservoirs were created in the seventeen western reclamation states, and it seemed the opinion of everyone that that would settle the problem. The people in the Middle West and the eastern section of the United States apparently did not feel that there was any need for them to be disturbed about water shortages. However, the water inventories in recent years have disclosed some very disturbing situations in all the 48 states. This, no doubt had much to do with the appointment by President Eisenhower of a Cabinet-level group to work with the Hoover Commission on Government operations concerning the problems.

However, until the appointment of the new Special Committee by Chairman Miller, of the Interior and Insular Affairs Committee, of the House of Representatives, there was no legislative committee in position to act legislatively on any recommendations made by the other groups. This new committee will work in close cooperation and coordination with the other groups in putting into legislative form the recommendations of the other groups and thereby formulating a national water policy, in keeping with President Eisenhower's program. Chairman Miller, in appointing the committee, called our attention to the old saying, which is quite appropriate at this time, to wit, "No one misses the water until the well runs dry." This reminds me of a story that was told to me when I was a little boy about the Indians who were asked what he considered the

greatest benefit that had been developed by the white man's civilization. The Indian chief, without hesitating, pointed to the water hydrant and said, "Running water."

It would astound some of the city folks to know just what a meager reserve they have in their water supply. The problem is certainly a number one defense problem, because saboteurs would have little difficulty in creating absolute chaos in many of our larger cities by contamination of the water facilities.

As most of you know, we have been adjourning for the last 30 days. To date, we have not closed shop and probably won't be closed when you receive this letter. However, I hope that the House will be able to go home by the 15th or 20th, at the latest. Today we don't hurry up and get out, there is going to be some questionable legislation on the books. The closing days of the session are always, to me, the most dangerous, insofar as the possibility of unwanted legislation is concerned. This leaves very little time for debate on the measures that are brought forward. This means that very little opportunity is afforded the Members to study and understand just what the particular bill will do. In fact, sometimes the author of the bill, who is no doubt, very sincere in what he is trying to do, fails to anticipate something occasioned by his bill that he did not intend. I would much prefer to shut off the session for a month or two and afford the opportunity of studying these bills before they are passed.

Today we have been considering a bill relating to labeling of packages containing foreign-produced trout sold in the United States, and requiring certain information to appear on the menus of public eating places such trout. It seems that a fish was developed between the domestic trout producers and foreign trout. The battle seems to be taking place in the restaurants. The domestic trout producers complain that foreign trout is imported into this country and listed on menus as Rocky Mountain trout, eastern brook trout, Rocky Mountain rainbow trout, and various other descriptive names. They claim that this practice is unfair to the domestic

producer and the consumer, and that the bill should be passed, requiring foreign trout to be labeled as such on the menus in the eating places throughout this country. They also claim that, unless this act is passed, it will mean the bankruptcy of many of the trout farms in this country and the resulting loss of a source of supply for the streams and lakes of this country and trout-fishing will soon be a thing of the past.

It would seem to me that this is a matter that should be handled primarily by the several states. Federal legislation of this type is a continuing trend toward centralized government. The present administration has repeatedly stated that it opposes centralized government and desires that the trend be toward a preservation of the rights, privileges, power and immunities in the several states. I find some difficulty in understanding what appears to be good talk and had practice. Talk is not going to return any rights to the states so long as legislation is daily brought before the Congress that tends to continue to centralize this government.

18th District of Texas.

Your Senator Reports

July 22, 1954
By Lyndon B. Johnson

Recent events are driving home the vital need for a United America. The latest development is the rapid swing through Asia of Chinese communist leader Chou En-lai. In the course of that trip, he visited practically every important Asiatic official.

Our officials can only speculate as to the results of his discussions. But certainly, they are not a good omen for the free world!

It is obvious that the communist is seeking to divide all of Asia under their rule. The importance of that objective cannot be overestimated. Exclusive of Siberia, nearly 1,300,000,000 people live on the

continent of Asia. It is a treasure-house of natural resources. It is fertile and productive—capable of enormous production in food and fiber.

Mobilized under world communism, Asia's people, resources and productivity would be formidable. Against a threat of that magnitude, Americans cannot afford the luxury of partisan obstruction and endless dissension. A divided America will be a weak America and in the modern world only the strong will survive.

There are two paths to unity. One is unity through fear; the other is unity through faith and confidence. The communist has taken the road of fear. They have achieved unity through suppressed dissension. They have gained solidarity by brutally crushing any opposition.

There will always be issues that divide us. But those issues do NOT include the safety and the security of our country. Through mutual trust and confidence, Americans will unite and provide the leadership that will turn back the forces of communism.

If we are determined, this nation, under God, will survive! **DROUTH RELIEF:** I have been working with State Agriculture Commissioner John White and other state officials to place before the Department of Agriculture the facts about drouth conditions in a group of Central Texas counties.

As I pointed out in an address in the Senate, range conditions in these counties are extremely serious. There is practically no grass left. Cattlemen already have had to begin supplemental feeding of livestock. The harvest of oats and other small grains was very small. The corn crop is virtually a total loss. Water supplies are dangerously low at several points.

Cattlemen in these counties urgently need protein supplements and roughage or hay to sustain their breeding herds. If these cattle breeders are forced to sell their foundation stock, it will represent a tremendous waste of the most fragrant kind.

The cutoff day for the national drouth relief protein feed program was July 15. We are continuing our efforts to get special assistance for the drouth-stricken counties.

REA IN TEXAS: Rural Electrification Administration loans to electric and telephone borrowers during the 1954 fiscal year, which ended June 30, totaled \$241,800,000.

Texas led all other states in other the number of loans and total amounts of loans. Thirty-one loans totaling \$13,618,000 were made to Texas electric co-ops during the year. Nine telephone loans totaling \$3,646,000 also were made.

I have always supported the REA program. Its continued progress is a source of great gratification to me.

GLADEWATER BAND: One of the Texas bands in attendance at the Lions International Convention in New York recently which afterward came through Washington was the Gladewater High School Band.

We were glad to see these fine young Texans and to do anything we could to add to the pleasure of their short visit in the nation's capital. H. E. Merrifield, general manager of the Gladewater Chamber of Commerce, wrote me later: "Our people are very proud of our band and I know that they are proud of anything that comes from our wonderful State of Texas." Mr. Merrifield is right as can be.

MEMO TO SALES MANAGERS: General Telephone Credit Cards are a "must" for all traveling salesman on your staff as well as executives. They save time, simplify accounting, and are easy to keep in touch with the home office.

The average Long Distance call is completed in less than a minute.

TEXAS comes first with ALLAN SHIVERS, and ALLAN SHIVERS is First with Texans Because...

PUBLIC SCHOOLS

As a State Senator, Lieutenant Governor, Allan Shivers has supported, and sponsored or signed every major piece of legislation during the past 20 years. The Texas public school system today is more outstanding than ever before. He believes Texas must continue to meet the growing needs of our schools.

WATER CONSERVATION:

Allan Shivers is a strong, outspoken advocate of water and soil conservation. He has a far sighted program in this important area and the proven leadership to carry it through. "Soil and water conservation constitute our Number One domestic problem," he said recently.

ROADS:

Allan Shivers was one of the original sponsors of the farm-to-market road system in Texas. During his administration, more miles of farm-to-market roads and state highways have been built than in any other comparable period. He believes highway construction and maintenance should keep pace with a growing Texas.

STATE HOSPITALS

One of Allan Shivers' first official acts as Governor was to call a special session of the Legislature to appropriate administrative funds and \$3 million in building funds to improve deplorable conditions then existing for the unfortunate patients. "We have made great progress," he said recently, "and the program must be carried on."

INSURANCE REGULATIONS

As far back as 1951, Allan Shivers recommended strengthening of insurance laws to protect the public. Action is being taken to weed out unsound companies. The clean-up campaign launched by his administration will be continued.

OLD AGE ASSISTANCE

Allan Shivers, as a State Senator, wrote the first Texas Old Age Assistance Law. Two years ago, he promised the old people of Texas he would seek a constitutional amendment to increase old age pensions. That amendment will be voted on by the people next November. Allan Shivers carries out his promises.

PRISON REFORMS

Administration of the Texas Prison System today is recognized by experts as among the best in the nation. Allan Shivers began working toward this goal when he first took office, realizing that the System was classed as one of the worst in the nation. Remarkable progress has been made but, at the same time, the net cost per man per day to taxpayers has been reduced 50 per cent.

TIDELANDS

Allan Shivers courageously battled for years to return to Texas school children the tidelands, rightfully owned by Texas but unjustly seized by the federal government. He helped achieve a conclusive victory and since then, the tidelands already have added 2 million to the state's Permanent School Fund.

LOCAL GOVERNMENT

Allan Shivers believes government should be kept as close to home as possible. He is firmly convinced that the Supreme Court should give local school boards maximum latitude in handling the many difficult, varied problems that in future years, will grow out of the segregation decision.

ECONOMY

Despite the vast improvements which have been made Texas still ranks among the lowest in the nation in per capita state taxes. Unlike most states Texas operates on a cash basis without either a sales tax or state income tax. Allan Shivers is opposed to both.

CLOSE TO PEOPLE

Allan Shivers has visited in nearly every section of Texas as Governor because he likes people, enjoys talking with them and profits from their comments and advice. As a result of genuine interest in people, he and his fine family have become known and loved throughout the State as representatives of the highest type of Christian citizenship.

THE FULL PROGRAM

Allan Shivers already has been recognized as one of Texas' great governors, and as one of the best in the nation. He wants to complete the dynamic, positive program for Texas started with leadership. Upon the solid foundation already built, and with his demonstrated ability to get the job done, the people of Texas can enjoy state government at its best during the next 2 years.

DEMOCRATIC PRIMARY AUGUST 28

Miss Billie Maurene Bayless Becomes Mrs. H. J. Beasley

Wedding vows were exchanged by Billie Maurene Bayless, daughter of Mr. and Mrs. W. F. Bayless of Gruver, and H. J. Beasley whose parents live at Abilene, Texas, when they were joined in a carded ceremony in the Spearman Assembly of God Church, August 8th at 7:30 p. m. Reading the ceremony was Rev. John K. Pratt of the Spearman Assembly of God Church.

The bride wore a sea-blue streetlength dress with a pink ribbon insert at the fitted bodice, with full skirt over a pink and blue net underskirt, and pink accessories.

The maid of honor was Mrs. John K. Pratt, who chose a pink linen suit with black accessories. Best man was the bride's brother-in-law, Weldon McGuffin of Spearman, Texas.

The bride was graduated from Gruver High School in the class of 1954. The bridegroom is now in the Air Force, stationed at San Marcos, Texas. Following a wedding trip, the couple will be at home in San Marcos.

Mrs. Bill Jackson Hostess To Gladiola Flower Club

Mrs. Bill Jackson was hostess for the regular meeting of the Gladiola Flower Club August 5. Mrs. George Colard served as Co-Hostess.

Mrs. Johnnie Lee was elected to serve as Vice President for the remainder of the year. The club will have home grown flowers with the winning arrangement made exhibited by Mrs. Lloyd Buzzard.

Mrs. Lewis Schnell's arrangement, composed of borrowed flowers, was also a prize winner. Mrs. W. C. Davis exhibited the winning specimen.

Mrs. Marcus Larson gave a lesson on Modern Arrangements and Mrs. Johnnie Lee discussed arrangements for dried materials.

Members present were Mesdames Lewis Schnell, Erving Lamb, Vernon Crook, Marcus Larson, Lloyd Buzzard, Johnnie Lee, and the hostesses.

The next regular meeting will be in the home of Mrs. Don Knox on September 2.

The bride graduated with the 1954 class from the Gruver High School in the class of 1953 from Spearman High School.

After the honeymoon the couple will be at home in Spearman.

THIS and THAT

Mrs. M. Hart is enjoying a nice visit to Corpus Christi. She is visiting her sister and brother in law, Mr. and Mrs. Barker.

We mentioned last week that three of our young people were coming to the Music Camp in Canyon. Here are some more details. Mrs. Emil Knutson and her daughter Mrs. Jon Ericson, took a younger daughter Kathryn. Mrs. Butch Hale, took daughter Mona, and Mr. and Mrs. Van Buren of Phillips Camp took their daughter Cecile. All three young ladies were honored, and selected to play in the number one band. They appeared on T. V. later. While in Canyon they enjoyed a visit with Mr. and Mrs. Brotherton. We congratulate these youngsters on their musical ability.

Dayton Barkley is up in Colorado, doing some fall plowing. June and the boys are staying here to keep things moving.

Mr. and Mrs. Howard Barkley, and Mrs. Carlie Kuster with their children are enjoying a vacation in Portales, N. M. They are visiting their sister Jean, (Mrs. Mc Cleary).

Mrs. W. C. Maupin is in the Perryton Hospital suffering from a kidney infection. He has been quite ill. He is brother to Squire Maupin and makes his home at the Maupin Farm. We saw Squire in town the other day, and wondered why he was here, now we understand. The last word we had of Squire, he was sleeping under the pines in Colorado. We hope that he is better by now.

Mr. and Mrs. A. N. Evers our affable barber have just returned from a fishing trip to Antonio, Colo. Alvin left a sign on his shop that read "Gone a fishing". Leave your orders here for fish. We wonder if he got any orders, and if he got any fish.

Mr. and Mrs. Leonard French and son of Jetmore Kansas, visited his aunt and uncle, Mr. and Mrs. A. L. Mc Elhany last week. We hope they found it cooler here than at home.

Rev. and Mrs. C. E. Ottinger are vacationing in Colorado. We hope they are enjoying the cool mountains. He will be in his pulpit Sunday.

We mentioned the L. S. De Bords car accident last week. Here are the facts. All of them are home in Stratford. Mrs. Nita De Bords is still in bed and not able to walk yet. Sonjie who was critically hurt, but is doing O. K. now, and Grovenc is also

Around Gruver.

Last Friday night and Saturday afternoon I was in more rain than I have seen in a long time, but none of it fell in Gruver. It came within sight of town, and quit. We have been working in Texhoma for the last week, driving home each night after the way then. Sometimes we could barely see the pavement, and about eight miles out of Gruver we ran into heavy hail. When we got within five miles of town, the rain stopped completely. Next day as we drove back to Texhoma water was standing in the fields. Saturday afternoon we had to take our grandson to the doctor in Guyton. On the way over we again ran into showers. When we left Guyton it was flooded and it rained on us all the way, until five miles from town. The people beyond that five mile limit must be pretty good.

Mr. and Mrs. Fred Womble recently made a trip to Oklahoma City in order that their daughter, Freda Kay might go through a clinic. The young lady has been unwell lately and it was decided to have her a complete examination. We are glad to report that nothing serious was found.

Mrs. Don Gross has been confined to her home for several days, but we understand that she is improving.

Have you ever seen a two dollar bill? There may be some around one of these days.

By Lyndon E. Johnson
RED CHINA AND THE UN:
The Senate spoke with one voice against the entrance of Red China into the United Nations. We voted unanimously to write into the foreign aid bill the opposition of Congress to the seating in the United Nations of the Communist China regime as the representative of China.

The amendment we adopted also requests President Eisenhower, in the event of Red Chinese admission to the United Nations, to inform Congress of the implications of this action upon the foreign policy of the United States—together with any recommendations which he may have with respect to the matter.

I know, from the many letters that have received on that subject that this will meet with the approval of the people of Texas.

Over-All Rice Bulletin Released

College Station, July — Research that helped Texas rice farmers earn an estimated \$84,000,000 last year is now available in a combined report released by the Texas Agricultural Experiment Station and the Texas Agricultural Extension Service.

This report on Texas' second biggest cash crop in 1953—which was produced on just over a half million acres in 18 Gulf Coast area counties—is based on research done by scientist at the Rice-Pasture Experiment Station near Beaumont and the experiment station at Angleton.

The new Bulletin is "Research on Rice Production in Texas." An experiment station bulletin 773, it is available through the Agriculture Information Office at College Station, and as extension bulletin 225 will be distributed through county agricultural agents' offices.

Experimental results listed in the publication include the development and testing of new and superior varieties of rice; time methods and rates of seeding and applications of fertilizer; irrigation; weed, insect and disease control; and drying and storage of rice.

MILITARY CONSTRUCTION

The supplemental appropriations bill, as reported by the committee, included substantial sums for military construction. Among specific recommendations were the following:

An Air Force rocket-propelled bed recently raised 421 miles an hour, a record ground speed.

Wedding Held August 7th At Gruver, Texas

Identical princess frocks of light blue paper silk designed with graceful scooped necklines, ballroom length skirts complemented with sculptured sashes giving a bustle effect. They wore little hats of blue velvet with rhinestone studded veils. They carried bouquets of white carnations sheathed in shrimp net, in white umbrellas.

The bride's maids were Peggy Bort, Judy Meek, Ramona Jones and Mrs. Nell Thorsen, her sister-in-law. Their dresses were identical of shrimp silk gauge with matching boleros. They wore bouquets of shrimp net and carried fan corsages of white carnations outlined with blue net.

The bride, escorted to the altar and given in marriage by her father, was attired in a gown of white satin and lace over satin fashioned with fitted bodice employing a deeply slashed neckline and pointed sleeves and fastened with covered buttons. The full skirt had a chapel train. Her finger tip veil of illusion fell from a cap of lace and seed pearls. She carried a white orchid surrounded by white roses and strewn with satin. She carried a traditional something old, new, borrowed and blue. Don Allen served his brother as best man. Bill Glasgow, Donnie Thorsen and Billy Thorsen were groomsmen.

Joe Mack Hill and De Wayne Shapley were ushers.

The bride traveled in a light blue silk suit with navy accessories and wore a single white orchid.

Mrs. Thorsen chose a street dress of dusty rose with brown accessories for her daughter's wedding. Mrs. Allen, mother of the bridegroom, wore a navy dress of shantung with white trim. Both mothers wore corsages of white roses.

A reception followed the ceremony in the fellowship hall of the church. The serving table was laid with a linen cloth centered with an arrangement of pink gladioli, white tapers and crystal choppers.

After the honeymoon the couple will be at home in Spearman.

Mrs. Lois Schnell, sister of the

Stop Taking Harsh Drugs for Constipation

Avoid Intestinal Upset! Get Relief This Gentle Vegetable Laxative Way!

For constipation, **never** take harsh drugs. They cause brutal cramps and griping, disrupt normal bowel action, make repeated doses soon needed.

When you are temporarily constipated, get **easy** but **gentle** relief—without pain, without harsh drugs. Take Dr. Caldwell's Senna Laxative contained in Syrup Pepsin. The extract of Senna in Dr. Caldwell's is **the most natural** laxative known to medicine.

Dr. Caldwell's Senna Laxative tastes good, gives gentle, comfortable, satisfying relief of temporary constipation for every member of the family. Helps you get "on schedule" without repeated doses. Even relieves stomach sourness that constipation often brings.

Buy Dr. Caldwell's Senna back if not satisfied. Mail box to Box 204, New York 18, N. Y.

Spearman Drug

Here comes stinke!

Come on chicks, let's run for the range. We won't be able to breathe in this place for awhile. I just saw the boss mixing some more of his disinfectant. He thinks the stronger the odor, the better it kills germs. Why doesn't the boss wise up? That strong smelling, irritating stuff is old fashioned. If he'd switch to Germex, he could do a better job without the disagreeable part. Germex is made by Dr. Salsbury's.

Unemployment Figures More Promising

The last Government statistics on employment, covering the month of June, issued jointly by the Commerce and Labor Department, are mildly encouraging.

The official Government conclusion was that, taking into consideration seasonal factors, the downtrend in non-farm employment had almost completely halted in June.

The unemployment total, which has increased rapidly during recent months, showed an increase of only 42,000. This 42,000 was said to represent mostly a seasonal rise caused by the influx of June graduates into the labor market.

This slowdown and the spring increase in farm employment considerably brightens the employment picture. The Government reports shows that there are still 62,098,000 Americans employed—compared with 61,119,000 in May—and that their salaries and wages are at record, or near-record, levels.

We must await figures for July, August and, perhaps September, before we will definite and positive information as to the end of the unemployment snowball. If figures for the next two or three months continue to reflect the apparent trend, the nation will certainly have seen the worst

of the recession. On the other hand, if employment unexpectedly rise sharply, the guarded optimism which is justified at this stage will not be in order.

The Foreign Operations Administration recently announced it had sold \$6,000,000 worth of surplus butter to Great Britain. It was the biggest such sale ever made.

The huge government surplus of butter had been worrying government officials for some time and only this Spring Russian feelers reached Washington on the question of a Soviet purchase of some ten or fifteen million pounds of butter.

The British, however have agreed to pay \$6,000,000 for 14,600,000 pounds of this country's surplus butter, and the bill will be paid in pounds sterling which in turn will be used to purchase military and related goods in England needed by the U. S. military services.

It should be pointed out here that great Britain is probably the best customer the United States has in the field of surplus disposals. Congress some years ago decided to write into the Mutual Security Act provisions which would allow the Foreign Operations Administration to sell food surpluses to foreign nations.

In the last year, Britain has bought over \$72,000,000 worth of surplus farm products (of the total of \$245,000,000 sold)—mostly prunes, tobacco, lard, cottonseed oil, beef and canned fruit.

The latest surplus foodstuff sale is encouraging, in that it demonstrates surplus foodstuff can be disposed of in large quantities. This should be encouraging to farmers favoring high support prices and to those who advocate a vigorous Washington policy of disposing of crop surpluses.

WAS SHE SURPRISED? Omaha, Neb. — Mrs Joseph O. Hebenstreit, opened what she thought was a package of sliced boiled ham which she had bought from her grocery store.

Gen. Gruenther warns Senate U. S. Financing is urged to build up the R. A. F.

July steel output may exceed expectations.

Go to the church of your choice this Sunday.

THE FIRST CHRISTIAN CHURCH OF SPEARMAN, TEXAS

The congregation of the First Christian church of Spearman was organized at the close of a series of meetings held in November and December of 1926 by Brother Jasper Bogue. Original trustees for the local church were G. W. Whitson, J. P. Winder and G. W. Price, (all deceased). Charter members who are still active include Mr. and Mrs. Carl Hull, Mr. and Mrs. Floyd Hull, Jack Whitson, Mr. and Mrs. C. F. Bennett, Mr. and Mrs. D. O. Reynolds and Mr and Mrs. Hix Wilbanks.

Ministers, who served the church include Eulis H. Hill, George F. Bedford, Owen Hussey, C. F. Easton, Bill Masters, Clifford Ellis J. Veale. Rev. O. N. Van Dyke is the Parker and E. J. Veale. Rev. O. N. Van Dyke is the minister serving the congregation at this time.

Between 1910 and 1915 several attempts to organize a congregation were made by a Brother Ballenfield from Old Ochiltree and again in 1920 by Brother Bogue, who later succeeded in 1926. Brother Bogue conducted the series of meetings in the Union church building. However, on the organization of the congregation arrangements were made to meet in the IOOF hall. After meeting in the hall for several months services were held in the Presbyterian church building, until the old bank building was purchased and moved to the site of the present building in 1928. The lots had been purchased in 1927.

The present wonderful church plant and its opening for services has been featured in recent issues of the Reporter.

The above information selected from church history compiled by Brother C. F. Bastion.

OSLO NEWS

day morning for Sunday school and church. Course I expected a good sermon from our Methodist preacher and I was not disappointed. But the thing that impressed me was the wonderful way a youngster taught the Sunday school lesson. He was Dick Kilgore. That boy just thinks out the lesson and the members of the class do not have to THINK to follow his excellent presentation. . . .

Mr. and Mrs. Jewel Ward and children had Sunday dinner with the Anson Wards.

The Bill Johnsons visited Friday evening in the Lindon Hobbs home.

The Ted TeBeest family visited Sunday with Mrs. and Mrs. Marvin Andrews and daughter in Guydon.

The Clifford Hill family is going to Colorado to do some fishing this next week.

Mr. and Mrs. Clifford Stedje and Nancy had Sunday dinner with the Gordon Stedjes.

Mr. and Mrs. Archie Nelson and daughter of Amarillo visited with Mr. and Mrs. Clarence Johnson here on Sunday evening.

Virgil Tebo, Mr. and Mrs. Joe Walker and children, Mr. and Mrs. Ed Fischer and daughter and Mr. and Mrs. Willie Dahl and daughter all had Sunday dinner in the Pete Dahl home.

Several persons interested in horsehoe pitching came and went at the Joel Stavio home Sunday afternoon. Incidentally they got some cantaloupes to.

Don't Name It

Hear that the maize crop is suffering terribly. Even irrigated maize is not making the progress that it is supposed to make. However, understand that The Golden Spread has endured all the extreme heat for this year that will be coming our way—which means that with cooler nights and cooler day time, the maize will have an opportunity to mature and make some production.

Some of my friends that happen to live in the area where we only received .20 inch of moisture during my recent fishing trip to Colorado seem to think that I am losing my rabbits foot. For their information, I will state that 80 inches of moisture was recorded during my trip, this moisture falling South of Spearman as well as some North of Gruver. Kiff White, who was located at Lake City, while I was enduring the hardships of a fishing trip to bring moisture to Hansford County, phoned home and said that a lot of moisture fell on their pasture land on the river. Please, please don't bring me in a half hundred dollars and send me on another mountain fishing trip. I just can't take the rough hard work any more, regardless of how bad I would like to save this maize crop.

And speaking of Kiff White and fishing, I'm here to inform the world that Mr. White can certainly travel in luxury and get to fishing grounds prepared to catch the finny tribe. He has a contraption located in the back part of his new Chrysler car that manufactures frigid air and pumps it to every corner and crevice of the big car. I been hearing about these new refrigerators, and had the chance to look at the one located in Kiff's car, while we were fishing. I vowed you can start that motor to run functioning and it will pump run you out of the car. Recon a man should order use a little judgment, cause you could catch pneumonia from so much cold air. Understand that Hix Wilbanks installed one of them movable refrigerators in a car for Mrs. Wilbanks and let the darn thing on full blast. Fortunately Hix had to let the window down once or twice to look at calves and oil wells, and he did not catch pneumonia, but he did get a bad cold.

This writer marvels at the ability of the younger generation. They have it over old folks five different ways when it comes to rearing calves, and I guess in most other fields of endeavor. I visited with the Methodist Sun-

day morning for Sunday school and church. Course I expected a good sermon from our Methodist preacher and I was not disappointed. But the thing that impressed me was the wonderful way a youngster taught the Sunday school lesson. He was Dick Kilgore. That boy just thinks out the lesson and the members of the class do not have to THINK to follow his excellent presentation. . . .

Then there is Mrs. J. L. Brock our fine neighbor across the street from us. I know that J. L. or Lester McLain can't be responsible for their fine daughter and grand daughter. That little Miss is the most dignified, grown-up child I have ever met. Positively it is phenomenal at her maturity, her sweet disposition and her excellent manners. Fact is that I hate like the dickens to allow Stevie and Keeble Upchurch to associate with her, because they are such roughnecks that they show-up like dirt in clear water.

Twent folks are already sewing their winter clothes for their youngsters—and this is a good time to suggest to Marvin Chambers, Jim Neely and Roy Russell that next week is the time for them to make a few suggestions to parents relative to school clothes.

IMPORTANT TO TEAS: So far as Texas is concerned, the supplemental appropriation bill also was important for one item it did NOT contain I refer to the request of the Federal Power Commission for a supplemental appropriation of \$300,000 to handle the Phillips Petroleum case stands. This is the natural gas decision of such great concern to Texas.

I expressed my opposition to the Phillips Petroleum case stands. This is the natural gas decision of such great concern to Texas. Chairman of the Appropriations Committee, my vigorous opposition to the FPC request for the additional \$300,000, making three steps it will take once the issue has reached a conclusion.

(1) Texas has a motion before the Supreme Court for reconsideration of the decision; (2) I have requested the President to establish a commission to consider the matter and report back with legislative recommendations; (3) Action should not be taken until the FPC has consulted the gas industry and determined the cause of the problem.

The gas industry is a Texas asset of tremendous value. The Supreme Court decision in the Phillips case has caused concern-

ation throughout the industry. An appropriation at this time to enforce it would merely add to the confusion. Nothing will be lost by postponing a decision on the appropriation until the next session of Congress.
