THE SPEARMAN REPORTER, HANSFORD COUNTY, THURSDAY AUGUST 14, 1953

## Public Credit Notice On Polio Vaccinations

So that everyone who wishes will have an opportunity to have their children given the second Polio Vaccine injection, the period of time set aside for administration of these injections has been extended indefinitely, or until the State Health department recalls all the surplus vaccine from the last shipment.

Since we know that there are many more children whose parents wish them to have the vaccine than have received the second injection to date, both Dr. White and I feel that we should give everyone ample opportunity as much time as we possibly can to take advantage of this service. Therefore, the vaccinations will be continued until such time as the State department of Health cancels the program.

R. L. KLEBERGER, M. D.  
County Health Officer

## Invitation To Hereford Tour Given Public

The public is invited to attend the Third Association Hereford Tour August 17th. One big day packed with adventure, visiting old friends, exchanging ideas and visiting Registered herefords galore. All good roads on the tour, barbecue with all the trimmings the noon hour. Tour starts near Goodwell, Oklahoma at PAMC College farm at 8:00 a. m. Will arrive at H. B. Hale farm at 8:50 a. m. Arrive at Rennie Hamilton 8 miles S. E. of Teschoma at 9:40 a. m. at Pronger ranch 9 miles S. W. of Stratford at 11:00 a. m. and the noon barbecue at New James farm 5 miles N. W. Kerrick 1:30 p. m. Afternoon tour go to Andy A. James and Son 2 1/2 p. m. Roy Nall 3:00 p. m. O. Pitzer 3:45 p. m. Lee Rice at 4:45 p. m. Cap Williams at 5:45 p. m. Merritt Swinburne at 6:40 p. m.

Sponsored jointly by Texas County Breeders Association, Guyton, Oklahoma; Five State Breeders Association, Boise City, Okla.; and X 1 T Hereford Breeders Association of Dalhart.

Among the more than 300 Panhandle area musicians attending the West Texas Music Camp for the past two weeks at West Texas State College, were these from Spearman. They received intensive training in band, choral and twirling work from some of the nation's top college bandmasters. The camp ends Friday August 12 at 7:30 p. m. in WT's Buffalo Stadium, when the three camp bands, the choir, and twirlers will present for the public a "grand final" concert.

From Spearman were: front row, Anita Holt, Norma Archer, Diana Witcher, Kay Chambers, Lorene Mundy; and back row, Dan Smith, Sam Watson. Spearman band director who was a camp instructor; and Robert Greever.

## Weather

Rainfall over Hansford county the past week varied from a trace to as much as two and a half inches. North and West of Gruver received heavy thundershowers. South and East of Spearman has reported several showers.

## Dona Crawford Cruce Graduates

Dona Crawford Cruce, received, with honors, a bachelor of science degree in elementary education at New Mexico A. and M. College. Dona maintained a 3.5 grade average of 3.5 during her college years and for the summer session which she has just completed, she made all A's with a 4 average.

She is a member of Phi Mu Tau sorority, was contraalto soloist for two years with the college community chorus of Las Cruces, and also served on the executive board of that organization. The Cruces, who have three small children, will reside in Amarillo, where Don is an instructor at the Airbase. Mr. and Mrs. Cecil Crawford of Spearman, attended the graduation exercises.

## COUNTRY EDITORS HONOR GRADUATE COME BACK HOME FOR A VISIT AND GETS ROPED IN TO WORKING AGAIN

Mr. and Mrs. Harold Reed and their three children, Diana, 6 yrs. old, David 4 years old and Debbie 2 years old, are here for a visit with Harold's mother Mrs. Pearl Reed and his brother Larry Reed. Harold is a very talented printer and has a responsible position with the Government printing office at Washington, D. C.

Since Harold is one of the honorees of the Spearman Reporter, and learned the trade in Spearman, we naturally expected a visit from him. In view of the fact that Billy is away on vacation and our Linotype operator Joe Eick was on the sick list we were waiting for Harold. He expected to make a long visit with the Reporter bunch, but the time and "we ain't got any time for talk—grab that apron and get to work." Guess Harold is so used to helping out the crew that he did not even stutter. He has made it possible for us to print a 10 page paper this week. Course Harold is used to doing work in the Reporter office. He and our country editor one time printed a 58 page edition of the Reporter, and one only had a old slug cutter and a lot of energy to work with.

Our thanks to Harold Reed for his help.

## YOUTH BALL GAMES

The youth teams have played some real close games this week with only a point or two between the winners and losers. Some of these games have had the crowds holding their breath wondering which one would come out ahead. The Corner Drug beat the Cut Rate with a score of 11 to 5. The Cats and the Eagles played a very close game with the Eagles winning 14 to 13. The Lions and the Owls also played a close game which kept the fans wondering. The Lions finally won 9 to 8. The Eagles met the Lions in a victory of 7 to 4.

The youth ball tournament is scheduled to start Monday night, August 15, at 7:00 p. m. First game will be the Cats vs. Owls. At 8:00 p. m. the same night the Lions meet the Eagles. The tournament will be double elimination and the games Tuesday night will depend upon winners of Monday night games.

The baseball boys will play Perryton Tuesday night August 16th at Perryton. This game will be returned Thursday afternoon, August 18th at 3:00 p. m. This game will be the final game for the baseball boys and we hope everyone will be out to support them.

The Berger tournament which the youth team was planning on attending was called off for lack of interest. It seems Spearman was the only town sending a team.

These youths have set some good records with the average of games won and lost.

Cats	6	8
Eagles	4	10
Owls	4	5
Lions	12	2
Corner Drug	5	4
Cut Rate	4	5

We hope everyone will be out to support the Youth Teams as the season comes to a close. You will enjoy the games as well as the boys and girls appreciate your coming.

## New Bible Prof. At Wayland

Dr. J. J. Bishop, Holt, Ala., will join the staff at Wayland College with the fall semester, teaching in the Division of Bible and Religion, according to Dr. A. Hope Owens. Dr. Bishop completed the requirements for the degree at S. W. Baptist Seminary during the summer.

Dr. Bishop has been appointed an assistant professor of Bible and Religion at Wayland College.

## Spearman Schools Open Sept. 1st. Enrollment To Continue All Day.

Spearman 1953 - 1956 session of school will begin Thursday Sept. 1st and students will report for enrollment, and remain all day Thursday. Lunch will be served in the school lunchroom. Those students entering the First grade for the first time are required to have had vaccination for Diphtheria and smallpox. They must also have their birth certificates, which will be filed with the Principal and returned at the end of the year.

Signed H. R. HARTMAN  
Superintendent

## Revival Underway At Baptist Church In Gruver, This Week

State Evangelist Dr. C. B. Jackson is the visiting evangelist conducting a series of revival services at the First Baptist church of Gruver. The services began last Sunday August 7th and will continue through Sunday August 14th.

Pastor Bill Burton of the Gruver church is leading the song services and assisting in the revival meetings.

Services are held at 10:00 a. m. and 8:00 p. m. daily, except Sunday, when the services are held at 11:00 a. m. and 8:00 p. m.

Much interest is being manifested in the meetings.

The large comfortable Baptist church is air-conditioned and affords all a pleasant time while attending the revival services. The public is cordially invited to attend the remaining meetings of this series.

## BUCHANAN FAMILY BLOOD DONORS

The Buchanan family have been giving blood at the blood bank in Amarillo to be transferred to the blood bank at Scott and White Clinic at Temple, for Anita Bessel, the nine year old daughter of Mr. and Mrs. J. D. Bessel of Brenham, who requires transfusions frequently, but the nature of her illness as yet has not been fully determined.

The little girl's mother was formerly Edna Buchanan, a registered nurse.

Anyone wanting to donate blood may do so at the Amarillo blood bank. They will credit the donation to Scott and White for the little girl.

## FAMILY REUNION

The Prather family reunion was held Sunday on Wolf creek near the home of the Harton Prathers.

Members of the families visiting Mr. and Mrs. Joe Day were her brothers and sister and their families; Vivian Prather of Big Springs; Mr. and Mrs. Mapes of Clapham, N. M. and the Irey family of Stratford; Mr. and Mrs. Day attended the reunion of her family, with these guests.

## BILLY TURNER WINS REORTER SUBSCRIPTION

Billy Turner won the free subscription to the Reporter when his name was drawn from the hat for correctly identifying the Mystery farm printed in the Reporter last week. The Mystery home belongs to Mr. and Mrs. Carl Clawson.

Readers correctly identifying the Mystery home included: Mrs. A. Williams, Billy Turner, Mrs. Floyd Cline, Clarence Johnson, Charles Madden, Mrs. J. C. Harris, Helen Taylor, Mrs. Homer Hart, Wayne Winkler, Vernell Catter, Mrs. L. A. Williams, Mrs. Johnny Lackey, W. I. Johnson, Mrs. Claude Sheets, Jr., Elmo Jacobs, Mrs. Roy Nollner, James Johnson, Mrs. Paul Taylor, Mrs. James Stedje, Gene Johnson, Ed Sanders, Hoos Martin and Mrs. Tom Dozier.

## SCHOOL BOARD

The County school board will meet Friday August 12 in the office of County Judge Johnnie Lee at 2:00 p. m. Business to be discussed will include special transfers from various school districts whose names were not on the 1952-53 school rolls and to approve the final state transportation payment to the Spearman Independent school district.

## DR. GIBNER AND COUNTRY EDITOR ARE READY FOR CHANGES TO BE MADE

Dr. G. P. Gibner is responsible for a suggested national change that should be made at the War Department of our nation. We are among a great many people who are distressed at the drastic punishment being given our boys who have been captured in Korea, brain washed, brutally treated, and finally in their immature judgement, have committed a crime of what is called turndown. No man can justify young folk completely in their turndown decisions. They should have punishment—but are we wondering how many of the men who try these prisoners, would have the ability to withstand all the punishment and brain washing they receive, if said officers were young and inexperienced in the way of the world?

It certainly takes a lot of strength of character and training to adhere to the program outlined for soldiers in time of war. We can understand how a professional soldier with a background of experience could have a more determined attitude than a young man who never asked to go to war, but who is picked up out of an ordinary civilian situation and told to become a hard-core soldier. We wonder how strong you would be Mr. Average Joe if you were suddenly pulled out of your snug surroundings and after a limited amount of training, you were captured in a foreign country? Would you have the guts to stand steadfast that called for exceptional strength of character—but were told to become soldiers. They apparently were willing to sacrifice their lives for their country. The fact that they made a BIG mistake under pressure, should be considered when meting out the punishment to them. Surely it will not solve many problems to take a young man from his family and place him in prison for 20 years because he lacked the training and judgement of a more seasoned soldier. Surely we can be chastigable a bit, and cut down on the severe punishment that has become the rule in cases of so called turndown.

We suggest that the War Department only use officers that have been in time of war, and who know what a soldier goes through after capture. That would enable these men to judge their comrades in arms with a more charitable angle than the so called arm chair general officers that are popular at court martial trials.

## Shrine Club Stag Meeting At VFW Hall Friday Aug. 19th

Shrine club President Jimmy Hester announces this week that the first regular stag meeting of the Shrine club will be held at the VFW Hall Friday evening August 19th. The club has been inactive for several months due to the custom of taking a summer vacation from activities.

A good feed and a bit of new business in store for club members at the August 19th meeting.

Mr. and Mrs. D. M. Jones visited with Mr. and Mrs. P. C. Sarnell of Beaver, Oklahoma Sunday.

Mrs. Jim Darnell of Amarillo visited friends, Monday. She was the former Pauline Spencer. She and her husband have just returned from a year's tour of duty in Guam.

## Hospital Thanks Spearman-Gruver Folk For Help.

We deeply appreciate the sincere attention help given by over 400 women of Perryton, Gruver, Spearman and Booker and their neighboring areas towards the care of the Holt children. Your efforts have aided their recovery.

SANFORD HOSPITAL  
Perryton, Texas

## BIBLES

It is estimated that there are over 500,000,000 copies of the Bible in existence. Yet less than this great number in circulation, the Bible continues, year after year, to be the world's best seller. Every child needs his individual Bible. A choice selection of the best Bibles economically priced at the Spearman Reporter Office. Stop by and see them.

## Weather

Rainfall over Hansford county the past week varied from a trace to as much as two and a half inches. North and West of Gruver received heavy thundershowers. South and East of Spearman has reported several showers.

## GOSSIP MEETING ATTRACTS WIDE INTEREST.

The series of gossip meetings being conducted at the Gruver, Texas, Church of Christ is attracting a wide interest church leaders announced today. The first night of the meeting a number were present from Amarillo and visitors have been in attendance from Sunray, Spearman, Guyton, Burger, Stinnett, Perryton and many other places it was said. Day services at ten o'clock in the morning have averaged well over 100 in attendance and the building has been filled to near capacity at several services at night. The twenty-two year old Evangelist, Jimmy Wilburn of Appleton, Wisconsin, has endeared himself to all who have heard him and especially the constant appeal to return to the Bible in faith and practice. Evangelist Wilburn will return next week to his work in Wisconsin.

The singing is being ably led by Tony McMillan, of Gruver, a 1953 graduate of the local high school, who played center for several years on the Greyhound football team. The series is scheduled to close with the Sunday night service.

Mr. and Mrs. Kiff White and Tommy, Miss Ora Sparks, Mr. and Mrs. Oscar McLeod are vacationing at Hot Springs, N. M.

## ARMY CREDIT ELSEWHERE.

Can be expected to carry on farming operations that are consistent with proper land use for the area and will have reasonable prospects of success with the assistance of the loan.

County committees of the Farmers Home Administration will determine the eligibility of applicant.

## Mystery Farm of County

The owner of this farm to the Reporter. The owner of this farm is requested to get in touch with the Reporter office at his earliest convenience, so we may be able to get information to write up to appear in next weeks Spearman Reporter.

The Mystery Home This Week Is The Family Home Of Mr. And Mrs. Carl H. (Dutch) Clawson

The mystery feature of this newspaper is giving your country editor a lot of pleasure. It gives us an opportunity to review the activities of some of the finest people of this world. This week is no exception in our book, Mr. and Mrs. Dutch Clawson are quite outstanding and successful. Dutch and Mrs. Clawson have endured quite a few hardships in rearing eight fine children and accumulating 1600 acres of farming land and 4300 acres of grass land in our area.

Dutch first came to Hansford county in 1923. He moved here from Sun City, Kansas, where he was born and raised until manhood. It was only a few years until he showed his outstanding judgment, in courting and marrying Bernice Beavers, who lived in the Hitchland area. The family have always lived in or near Hitchland.

Mr. and Mrs. Clawson bought the Mystery home with the two sections of farm land back in 1947. The old home was originally built by Uncle Joe Graver, and was built in 1907. Mr. and Mrs. Clawson spent more than ten-thousand dollars to modernize and improve the home place. It is now a nine room home, 4 bed rooms, two baths, and modern and up-to-date in every respect.

Perhaps more important to them, and what should be rated as their outstanding

accomplishment in life, is the rearing of the eight fine children. Both Mr. and Mrs. Clawson have worked hard to give their children many advantages that they themselves, perhaps, never enjoyed. We are not so well acquainted with the girls, but the boys have been news to this newspaper almost as long as this writer has been in business. It first started back when Max began winning special honors in calf raising. Max is now a 25-year-old married man, and lives at Hitchland on one of the Clawson places. Max was followed and even eclipsed by his brothers Rodney and Kirby. All three of these boys have shown outstanding ability in cattle raising and farming, and their parents gave them every opportunity to advance in their knowledge. The two older boys Max and Rodney who are married attended Goodwell College, and now Kirby will be attending Goodwell College again this year. Kirby is 21-years-old and single, but if any of you girls want some advice from your country editor, set your cap for this Clawson lad. He will make a fine husband.

The last of the boys is the BOSS, Charles Huff (Chuck) Clawson. He is only 4 years old, and with such talented brothers and fine parents he will likely be spoiled a bit, but we believe will turn out a true Clawson. The oldest daughter,

Wanda, is now married and is Mrs. G. E. Stevens of Norman, Okla. Mae, the nineteen-year-old daughter is a student at Texas Woman's University in Denton, Texas. Marguerite is the 11 year old daughter a sixth grade over Grade school and Caron is the nine year old daughter, a 4th grade over grade school.

Dutch runs a permanent herd of 250 cows on his ranch land. All cows are registered and half are commercial grade cows. Normally boys handle from three to five hundred steers in addition to the ranching operations. Dutch has four irrigation wells on his property located on the Oklahoma side near Hitchland and two on the Texas side property.

Mr. Clawson has been a member of the school board at Goodwell for a few years, and he has been very active in Hereford Breeder's Association in this area.

The Clawsons are mighty fine folk, and we wish all of us the high standard of citizenship and parenthood they have set for

### Too Good to Be True?

But it is true. Through the new Franklin JUNIOR INSURED SAVINGS PLAN for your child at rates one-half or one-third of what you are now paying... an estate that grows with his responsibilities and matures in cash for retirement at age 55.

- 1. Insurance protection at no cost—full return of all deposits plus face amount of contract if death occurs before age 55.
- 2. Insurance protection automatically triples at age 51 at no extra cost and with no evidence of insurability required.
- 3. At age 55 the savings plan matures as an available emergency and educational fund available to children from age 1 day to 14 years.

### THE HOME PROTECTOR

Maximum family protection on a limited budget

With the rising cost of living, more and more of your income is needed to provide present needs. You have perhaps despaired of being able to provide adequate protection for your family in case you are taken from the picture. The Franklin Home Protector was designed to meet just that current condition.

1. Maximum protection at minimum cost—an income up to \$200 per month for your family for 20 years from the date of the contract—those precious years when your children are growing up.
2. For that 20 year guarantee you make premium deposits for only 13 years.
3. Exchange provision during first 15 years.
4. If you want to use the Home Protector for retirement of a mortgage or a business debt, you may request that the death benefit be commuted and paid in one sum.

## Physical Handicaps Of Soil May Show As Trace Mineral Defic.

College Station, July—Attention of farmers has been drawn in recent months to the possible deficiency of "trace minerals" in crop growing soils of Texas. M. K. Thornton, Extension agricultural chemist, says that apparent deficiency symptoms appearing on growing plants suggests that most of them are suffering from poor drainage, nematodes or other soil-borne troubles such as compacted layers, absence of organic matter and lack of major nutrients—nitrogen, phosphorus and potash.

In practically every case of this type, Thornton explains, "deficiency symptoms disappear after the physical trouble had been corrected and plants fed adequate supplies of nutrients. The common trace minerals include molybdenum, boron, zinc, iron, manganese, sulphur, calcium and magnesium. This is not to say, the chemist adds, that there are no trace element deficiencies in Texas soils, but rather to emphasize that before dosing the soil with various chemicals, operators should understand clearly the purpose of the treatment. Some trace minerals are toxic and too hazardous to play around with.

## Worm Farm Provides Fish Bait For Every Occasion

College Station, July—Ever plan a fishing trip only to have it squelched because there was no bait? That's typical "fisherman's luck" all right, but the "no bait" part of this story has a simple remedy. An ordinary wash tub filled with the proper soil and buried in the ground should yield from 3,000 to 5,000 fishworms a year, says R. E. Callender, Extension wildlife management specialist. The tub or other bed should rise three or four inches above ground level. "Fifty to 100 worms are enough to start a tub-sized worm bed," says Callender. English redworms or "redwigglers" are preferred by most pole-and-rod experts. They are very active, prolific and reproduce throughout the year. Moisture and soil are "key" considerations in a productive worm bed. A fine clay loam containing lots of humus or well decomposed organic matter is ideal. Loam the bed in the shade and moisten with water every week or two, or more often during the summer months if needed. To provide needed drainage,

the specialist suggests cutting a two inch hole in the bottom of the container and covering it with a patch of fine copper screen wire. Don't disturb the worms too often, Callender cautions. Two such tubs would allow the use of worms from one, while the other is left undisturbed.

As for food, worms feed on the soil from which they digest organic matter, both animal and vegetable. The leaves of celery, cabbage, lettuce, turnips and other vegetables are readily taken by the worms when small amounts are worked into the topsoil. A mixture of one part kitchen fat and two or three parts corn meal also makes an excellent ration. If the worms are to be marketed, pint-size ice cream cartons containing 50 to 100 wigglers make desirable packages.

## Rights And Liabilities

Rights can be assigned but liabilities can't. Or, to state it another way, ordinarily you can sell or convey what you own, but you can't free yourself from your debts by getting somebody else to promise to pay them. The usual application of this is obvious. If I borrow \$100 from you and promise to pay it back, I can't release myself from liability to you for the \$100 by getting my neighbor to promise to pay it for me. True, he may become bound to pay it also, but I am also liable, unless you, as creditor, agree to release me and substitute him as debtor.

This simple principle, when involved in a more complicated contract, is sometimes lost sight of. For instance, Adams sells his house to Brown under a contract which calls for monthly payments of \$100. After making payments for about three years, Brown decides he wants to sell to Carver who is willing to pay him the amount of his property interest in the house, and to assume and pay the remaining \$100 monthly payments, as they become due. Now Brown ordinarily can assign his interest in the contract to Carver with or without the consent of Adams (unless the contract calls for the consent of the vendor), he can do this because it is a property right which he owns.

But because Carver has assumed and agreed to pay the remaining balance owed on the Adams contract, Brown isn't released from liability even though Carver has also become liable. The only one who can release him is Adams. Brown can't without Adams' permission, erase his name from the contract and make a stranger to the contract the only one liable under it. Adams has the right to hold Brown to his original promise.

## THE WILD FRONTIER HAS A NEW KING!

Great Features back up Chevrolet Performance: Body by Fisher - Ball-Race Steering - Outrigger Rear Springs - Anti-Dive Balls - 12-Volt Electrical System - Nine Engine-Drive Choices.

The new Chevrolet has proved itself all K-I-N-G in today's toughest driving competition!

Starting at the Daytona Beach NASCAR\*-sponsored trials last winter, the new Chevrolet swept aside all competition in its class in acceleration tests.

And since then what's happened? The latest figures on hand show that so far Chevrolet has piled up a total of 196 points to lead in NASCAR Short Track Standings by 99 points.

Second place is held by a medium-priced car. And Chevrolet's nearest price competitors are running fifth and seventh!

Come on in and try America's real, honest-Injun GO-car of the year!

America's hottest performer because it's got America's most modern V8!

\*National Association for Stock Car Auto Racing  
Drive with care... EVERYWHERE!

The kind of service you get on something you buy is important and often measures its value to you.

There is much to be considered about the Services rendered on "Land Bank Loans" such as lending abstracts, releasing parts of the security, and agreeing to oil and gas leases. These services and many others to member borrowers of our association have proved most important.

## For the FIRST Time... "Powrdyne" Gas Engine with Diesel Strength... CASE "400"

America's Finest Tractor in the 50 h.p. class...

First modern tractor engine ever built basically as a diesel and then adapted to gasoline, LP gas and distillate is the Powrdyne engine of the Case "400." It has the same five-bearing crankshaft and extra-strong construction as the Case "400" Diesel. Powrdyne combustion chamber puts a new twist into gas turbulence, provides lugging power for hard pulls, economy at all loads. Come in and see the sturdiest-built, sweetest-running engine you ever saw in an easy-riding, easy-handling tractor.

Gruver, Texas

dress with white accessories. Mrs. Luttrull wore a navy dress with pink accessories. They wore identical corsages of White Carnations.

Mr. Donald Morton and Mr. John Hardesty Jr. served as ushers.

Following the ceremony a reception was held at the Community Hall. The brides table was covered with a hand made lace cloth over yellow. The centerpiece was a three tiered wedding cake, topped by a bride and groom. Mrs. Jack Alberty of Cactus, Texas, sister of the groom and Mrs. C. B. Phelps of Wichita, Kansas, aunt of the bride, presided at the table. They were assisted by Mrs. John Wells, Mrs. A. G. Lane and Mrs. John Chohan who were in charge of the reception and made all the arrangements.

Miss Joyce Ruth Phelps, cousin of the bride, of Wichita, Kansas, presided at the guest book.

For a wedding trip to Red River, New Mexico, the bride wore a powder blue suit with white accessories. Her corsage was an orchid.

The bride is a graduate of Gruver high school and attended Panhandle A. & M. College at Goodwell.

Mr. Luttrull is a graduate of Gruver high school and attended Mid-Western University, at Wichita Falls, Texas, before entering the U. S. Navy. He is now stationed at Norfolk, Virginia.

About October first, Mrs. Luttrull will join her husband in Norfolk, until that time she will visit in the home of her parents. Mr. and Mrs. Kindy at Phillips Hansford Plant.

**ROSE GARDEN CLUB MEETS.**

The Rose Garden club met at the home of Mrs. Don Melain August 6th, 1955 at 3:30 p. m.

The meeting was called to order by the President, Mrs. Kiff White, Jr. and Mrs. Sonny Window read the minutes of previous meeting, which were approved.

Old and new business was discussed, also some new names were presented to add to prospects for new members to the club.

Mrs. Sonny Window gave a very interesting program on "The Trees Roses".

Mrs. Doyle Jackson won the Mystery Box.

Refreshments were served to Mesdames: Sonny Window, Sonny Nollner, Kiff White, Jr., Do-

### Oslo News

The R. W. Cooksey and Terry Huse families consumed a lot of the home of Mr. and Mrs. Al O. Hardwick.

Mr. and Mrs. Bill Johnson were in Oklahoma City recently. Ted Collier represented the Spearman chapter FFA in the recent convention held in Houston.

The James Stedje family and Oscar Bull had Sunday dinner in the Bill Johnson home.

Mr. and Mrs. Joe Walker spent the first of last week with his mother, Mrs. Laura Walker, at Loveland, Texas.

Mr. and Mrs. Emil David Knutson and baby girl were in an accident last week in which they wrecked their car and trailer as they were coming here from Wichita, Kansas. Luckily no one was seriously injured. Mrs. Knutson and baby, however, were in the hospital for a couple of days for treatment and observation.

Elmo Dahl and Miss Faye Spearman had a large and beautiful wedding in the Nazarene church of Hooker, Oklahoma, on Friday evening, July 29. A reception followed in the American Legion Hall. They have the congratulations and best wishes of everybody.

The Misses Kathryn Knutson and Adeline Dahl are attending the music camp at Canyon, Tex.

Last week Mrs. Mary Brandt visited for a few days with her daughters, the Mesdames Shapley and Bernstein, and their families in Amarillo.

Mr. and Mrs. Henry Moen and Gary had Sunday dinner with Mr. and Mrs. Ernest Hull and visited in the evening in the Reuben Tebest home.

A pre-school Sunday school faculty meeting was held in the personage on Sunday night.

Anson and Jewel Ward are fishing around Lake City, Colo.

Wayne Hamilton from Lubbock Air Force base visited his brother and family, the Jack Hamiltons.

Notes are being received from Mr. and Mrs. E. D. Clements that they are freezing on their vacation up there.

Mr. and Mrs. Harold Reed and family of Washington, D. C. are visiting their mother, Mrs. Pearl Reed. They drove down by way of Louisville, Ky. and visited the Floyd, Tommy Brown and Cecil Reiston.

Mrs. D. E. Hackley is home from Albuquerque, N. M. where she was in the hospital for three weeks. Dr. Hackley and Joan kept home while Mrs. Hackley was away.

Mr. and Mrs. P. K. Banister and family and Mr. and Mrs. Ellis Tisdale of Borger visited the F. K. Banister family Saturday. P. K. now has his student's pilots license.

### Blodgett News

Mrs. Beta Blodgett and Mrs. John Kenney drove to Oklahoma City Wednesday to attend the funeral of their uncle, Orlio Blodgett. They returned home Friday.

James Kenney visited in Enid, Oklahoma a few days, last week.

Mr. and Mrs. Ben Hennig and children visited in the John Kenney home Friday evening.

Mr. and Mrs. Claude Stowe visited Mr. and Mrs. Mort Lynch at Patten Sunday.

Mrs. Vera Kenney and Mrs. Velma Beck were shopping in Peerytown Tuesday.

**FOUR SPEARMAN WOMEN ATTEND TEXAS HOME DEMONSTRATION MEET**

Mrs. Fina Maize, Mrs. Bernard Barnes, Mrs. Daniel Sheets and Mrs. Joe Trayler attended the Texas Home Demonstration Assn. meeting which was held in Fort Worth August 3-4-5.

The ladies report they had a wonderful time and learned a lot of new things.

AUBREY C. HAYNES, Minister

### Research Finds New Uses For Fats & Oils

College Station, July — By chemically modifying familiar fats and oils, such as cottonseed oil, peanut oil, lard, and others, researchers may soon find surprising new uses of long-time value to farmers in Texas and other States producing products in the making of fats and oils.

Research scientists of the U. S. Department of Agriculture are chemically changing these well-known fats and oils into new substances which may be used to keep foods fresh longer, make spreads spreadable over a wide range of temperature, produce top quality plastics, and even be used in cosmetics.

These unusual modified fats and oils are known as "acetoglycerides." They have been produced at USDA's Southern Regional Research Laboratory, New Orleans, La. by acetic-acid treatment of ordinary fats and oils. Chief among their unusual properties is an exceptionally wide range of plasticity and the ability to exist in nongreasy plastic solids. These qualities make acetoglycerides of great potential value to industry. Furthermore, they can be tailored to give them properties desired for particular uses.

Various acetoglycerides are potentially important for use in cosmetics, including creams, lotions, and lipsticks—and as plasticizers. Plastics made with them have good resistance to weathering, remain clear and flexible at low temperatures. Acetoglycerides can be made colorless, odorless, and flavorless. Natural animal fats or vegetable oils used as starting make up 80 to 90 percent of the final product.

Acetoglycerides should open many new markets for our increasing supplies of edible fats and oils. At least eight companies have prepared acetoglycerides in the laboratory or pilot plant, and two of these companies now offer experimental samples to possible commercial users.

Last year the American Red Cross issued over 2,000,000 certificates to persons completing free Red Cross training courses, including safety services training and home nursing training.

### 4-H Winners Of State Fair Honors Awards Announced

College Station, July — Twenty four outstanding Texas 4-H club members—one boy and girl from each of the 12 Extension Districts—have been selected to receive the 1955 State Fair of Texas Honor Awards. Presentation will be made during the State Fair this fall.

The list of winners and their counties released by Floyd Lynch, state 4-H club leader, included the following girls: Royce Lynn Pycatt, Castro; Judine Young Swisher; Tommy Lou Lenoir, Stephens; Melba, Cooke; Dallas, Patricia Stevens, Upshur; Shirley Skains, Upton; Leslie Nell Wink, Coke; Margaret Owen, Burnet; Jean Biggerstaff, Nacogoches; Barbara Egg, DeWitt; Janet Avera, Brazoria and Adelaide Heider, Jim Wells county.

Boys include Leon Langford Farmer, Mack Shurlet, Hale; Bob Lucas, Garza; James Hollingsworth Navarro; Jerry Smith, Upshur; Carl Callahan, Midland; Jimmy Whitten, Schelicher; Jerry Hanson, Limestone; Horace Wells, Walker; Robert Pfleger, Travis; Fredwood, Liberty and John Tuf of Brooks county.

The Honor Awards are presented each year in recognition for a job well done by 4-H members. Final selection is based upon the record of achievement, leadership, production and participation in club and community affairs.

Step in... and command the most modern truck power on any job!

## New Chevrolet Task-Force Trucks

Seven new "high-voltage" high-compression valve-in-head engines!

Here's hour-saving, dollar-saving power for your job... the biggest choice of engines in Chevrolet truck history! And they're the most modern engines in the industry!

You've got it good under the hood with a new Chevrolet Task-Force truck! With two new V8's and five new sizes to choose from, you can pick the power that's tailor-made to do your kind of hauling.

**Shortest stroke V8's in any leading truck!** Both of Chevrolet's new truck V8's have an ultra-short stroke—shortest of any V8 in any design, which means that the piston stroke is smaller than the bore. The result is less piston travel per mile... longer engine life. Also, Chevrolet's compact truck V8's deliver exceptionally high horsepower per pound of engine weight. More power is actually available for hauling your loads!

**Modern 12-volt electrical system!** You get this great development in all new Chevrolet truck engines—both V8's and sixes. The 12-volt electrical system delivers twice the punch for quicker cold-weather starting (up to 30% faster cranking speed). It also provides a hotter, fatter spark for better ignition.

Come in and command the most modern truck power for your job!

**V8 or 6** you get the right power for your job!

Year after year... America's best-selling truck!

Make Farming Safe

College Station, July—The week July 24-30 should be for every Texan on and off the farm.

practice period in prevention of accidents. The period has been designated as Texas National Safety week.

The Texas Farm and Ranch Safety Committee believes that accidents on farms do not occur because farmers and their families are more careless than other citizens.

But with excess work and fatigue they often neglect necessary precautions in working with power equipment and edged tools, and in keeping in good repair articles which are used frequently.

Prevention of accidents has a deeper importance than merely work. The waste of human lives, keeping people fit to do their pain and sometimes permanent crippling resulting from accidents, and the disruption to family life when a member is injured are of even greater consequence.

The distressing thing, points out the committee, is that so large a part of accidents which are happening daily could be avoided by caution and common sense safeguards.

Hazards to life and limb in homes and farm buildings are many and obvious. A systematic check will reveal them, and knowledge of them is an urge to remove them. Falls cause more injuries in the home than any other type of accident. Looking before stepping could reduce such accidents, suggests the Safety Committee.

Finally, the committee suggests that these seven days should take on special significance. It is time that farmers and their families and neighbors pooled their efforts in making their farms safe.

Tiny Mite Identified As Carrier Of Peach Mosaic Disease

College Station, July—The culprit has been found. After a 17-year search, a mite so small that it cannot be seen with the naked eye has been identified as the carrier of peach mosaic disease.

The spread has been from tree to tree and orchard to orchard.

The discovery was made by scientists of the USDA's Agricultural Research Service working in cooperation with the California Experiment Station at Riverside.

For more than 20 years, peach mosaic has been a threat to the peach industry in areas of eight Western and Southern States.

More than 400,000 diseased trees valued at \$10 million have been destroyed in Arizona, New Mexico, Texas, California, Colorado, Utah, Oklahoma and Arkansas since 1924 in an effort to control the disease.

Spread of the disease, according to the USDA announcement, from nursery stock or budwood has been guarded against with a strict cooperative quarantine inspection and certification program.

Discovery of the mite will halt the control program; instead it represents a step forward toward the development of control methods, perhaps with chemical sprays or dusts) other than tree removal and destruction.

Although peach mosaic virus is the most destructive to peach

Questions & Answers

Q A friend of mine, on VA's pension rolls, is entitled to an additional amount of money because he is so helpless that he requires constant aid and attention. Will he receive his additional allowance even though his mother provides this aid?

A—Yes. He may receive the additional allowance even though a member of his family provides the necessary service. It is not necessary for him to hire an attendant in order to qualify for the payments.

Q—I understand that if a veteran breaks two appointments for VA outpatient medical treatment, he will not be entitled to further treatment. I broke two appointments, but each time I gave VA

at least two day's notice. Will I be barred from further treatment?

A—Since you gave VA at least 24 hours' advance notice, you will not be barred from further treatment. The bar applies only when veterans break appointments without prior notice, and without good reason for doing so.

Q—I am going to school less than half time under the Korean GI Bill. At what rate am I using my GI training entitlement?

A—VA considers that you are using your GI training entitlement at quarter time rate. For example if your course lasts for a year, you will have used one-quarter of a year's entitlement, or three months.

Q—I am applying for disability compensation a couple of years ago. VA asked me to report for a physical examination, but I never showed up. I let the entire matter drop. Now I would like to follow through. What should I do?

A—You must file a new application, since VA has considered that you have abandoned your original claim. Should your new claim be approved, payments may begin as of the date of the new application—not the old one.

Insecticides Can Rid Farm Of Mosquitoes

College Station, July—Mosquitoes can be a severe problem, as well as an annoyance, on the farm. They often cause livestock to lose weight by driving them

away from lush pastures and may also cause poultry to lose weight and lay fewer eggs, say entomologists of the Texas Agricultural Extension Service. To get rid of mosquitoes, the entomologists suggest that you first look for standing water on or near your property. Mosquitoes breed in such places as temporary rain pools, flooded areas irrigated pastures, salt marshes, ponds, and even in water caught in tin cans, rain gutters, or discarded tires.

Whenever possible, eliminate these breeding places by removing the water. In case of ponds and irrigated pastures, the entire water surface should be sprayed with an insecticide. The following sprays are recommended for controlling mosquito larvae in standing water:

(1) A one-percent emulsion or oil solution of DDT, chlordane, toxaphene, TDE or methoxychlor; or

(2) A 0.5 (five-tenths) percent emulsion or oil solution of lindane, or dieldrin, or heptachlor. Each of these should be applied at a rate of 1 ounce per 100 square feet, or about 10 quarts per acre of water surface.

If it is easier to dust the water surface, a ready-mixed 5 or 10-percent DDT dust may be applied at a rate of 2 to 3 pounds per acre. A very light mist of pyrethrum is recommended to kill mosquito larvae in fishponds and ornamental pools without poisoning fish or plants. This also is available ready for use from

entomologists. It may be residual. For this purpose, 2-percent emulsions and oil solutions are not to be used as they may harm entomologists.

**Fowl Ticks Are Unnecessary Drain On Poultry**

College Station, July.—Poultry heavily infested with fowl ticks becomes unthrifty and may lose weight during the summer months if proper control measures are not followed.

Also commonly known as blue bugs and chicken ticks, these blood sucking insects pose a problem for turkey and chicken raisers during July, August and September, says Ben R. Wormeli, extension poultry specialist.

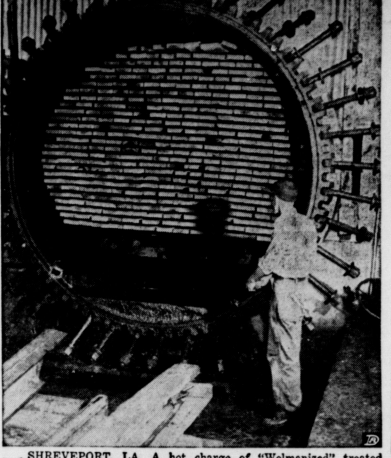

They hide in cracks and crevices of the poultry house during the day and appear at night to suck the blood of poultry. On the range ticks repose under the bark of fence posts and trees and in old lumber.

"It's easier to discover the ticks by looking for masses of them in cracks and under loose planks in the poultry house," Wormeli says. "Usually you don't know they are around until the flock shows marked symptoms of attack."

A spray containing 5 percent lindane, toxaphene or chlordane is recommended for fowl tick control. A small power or hand sprayer is effective in making application.

Apply the spray to the roosts and interior of poultry houses and

**Lumber Turned Into Termite Killer**

SHREVEPORT, LA. A hot charge of "Wolmanized" treated lumber is shown prior to emerging from a huge pressure cylinder at the Olin-Mathieson Chemical Corporation's Forest Products Division here.

The cylinder has just finished impregnating southern pine with "Wolman" salts, a solution that makes the lumber termite-proof, decay-proof, mold-proof, leech-proof and more fire resistant than untreated lumber. The salt solution termite-proof the lumber after it is pulled through the wood and under a near absolute vacuum and is then pushed back through it under extreme pressure.

This treated lumber, used for sills, posts and girders, exterior siding, floor joists, bridging and headers, sub-flooring and skirting below the first floor level, makes a home completely termite-proof.

The additional cost of "Wolmanized" lumber—which can be sawed, nailed, painted and finished as though it were ordinary lumber—is about \$100 for material costs in the average home. The lumber can be purchased through your local lumber dealer, or if he is out of stock, by having him write Frost Forest Products Division, Olin-Mathieson Chemical Corporation, P.O. Box 1125, Shreveport, La.

## Washington News Letter From Your Congressman Walter Rogers

July 29, 1955  
To The People Of The 18th District.

**WASHINGTON HEAT**  
The old age expression, "hotter than a depot stove" is a perfect description of both Washington weather and the closing days of the Congress. The sweltering heat is supposed to be unusual. It must be, because if it lasted very long, everything would be fried to a crisp. Even the rain is lukewarm.

The hectic days of the closing Congress are not unusual. It happens every time Congress starts to adjourn. It is somewhat like Christmas; no one seems to be fully prepared for it. We have gone along at a moderate pace for 53 months and are now trying to cram about three months' work into three days. The controversial legislation is being handled with dispatch, which is not too good. The trouble is that when you move too fast on these complex bills, you do not have time to properly clean them up. This results many times in the defeat of measures that could have been passed if properly and thoroughly considered. Many feel that the fate of the highway bill was a good example. The gas bill skin-drenched on about as close a margin as possible. The closeness of the vote was not due to the time the bill was considered. The history of this legislation is studded with close votes. Similar legislation barely passed the Congress in 1950 and was vetoed by President Truman. The legislation in this session was subject to 9 weeks' hearings before the committee. As a member of that committee I was in attendance at practically every session and could see from the very beginning that the vote would be very close. It was on the first vote, it was 14 for and 14 against. This meant that the bill failed. How-

ever, one of those who voted against the bill was gracious enough to move its reconsideration. The bill was reconsidered by another close vote, and was finally passed out of the committee by a vote of 16 to 15. The bill then went to the Rules Committee, where it received a rule by the very narrow vote of 6 to 5. The first test vote in the House was 210 for the bill and 203 against. On final passage, the vote was 209 for and 203 against. One member who had previously voted for the bill voted present. Many of the members are referring to the bill as the "Close Shave" rather than the "Gas Bill. We hope it does better in the Senate.

**A NEW FAD**  
Washington seems to have gone hog-wild about the Hawaiian theme. This must be history repeating itself. I remember when I was a child, every vaudeville had to have a Hawaiian act and Hawaiian music. The Chautauque (remember them?) was never without one. In fact, it got so bad that skulele sales skyrocketed and everyone ran around saying "Aloha," not knowing whether it was a good or bad word. The new fad involves digging pits in the ground and lining them with hot lava stones and getting Hawaiian chefs to cook whole pigs in them. They also make up quite a few other Hawaiian dishes that all have reputations of good taste. Also involved in the ceremony is a huge punchbowl full of Hawaiian punch. Everyone is given a large straw and are instructed to drink out of the punch bowl. This part of the ceremony remains one of the old-time round horse trough that used to sit at the northeast corner of the court house. It is not my intention to insinuate that the drinkers from one bear any resemblance to the drinkers from the other. What I had in mind was that in both instances, all are trying to drink at the same time.

**THE HOUSING BILL**  
The Housing bill finally cleared the Rules Committee after remaining there under a 6 to 6 deadlock for quite a while. The controversy hinged around public housing, and this will be the center of the fight on the Floor of the House today. Had the public housing feature been in a separate bill, there would have been very little hold-up. The reason that the housing bill as such is a "must" in the President's view, is because it contains authority concerning the entire housing program. If this bill is

passed before Congress adjourns, it could very easily be the cause of disrupting a large segment of our economy and cause great hardship in many sections. The public housing features have been opposed vigorously and have been cut down in prior years. Attempts will be made to cut them out of the bill this year, but it is my prediction that by the time you get this letter, the housing bill will have passed, with Eisenhower's recommendation on public housing repealed.

**VISITORS**  
Visitors in Washington this past week included K. B. Watson of Amarillo and Mr. and Mrs. B. G. Gordon of Pampa, Texas. The Gordons were accompanied by Dr. and Mrs. E. F. Thomas of Wichita Falls. They have been on quite an extended tour, which included New York and Canada.

## Texas Viewpoint In Washington By U. S. Senator Price Daniel

Congress has adjourned and this will be our last column until we meet again in January. It has been a pleasure to report to you and other readers of several hundred Texas weekly newspapers during the session just closed, and I appreciate the comments and suggestions which have come from you as a result of this column.

In general, this session of Congress was very successful, both for the Nation and for the State of Texas. We did not complete several important items of legislation, but they will remain in status quo until Congress reconvenes in January. The natural gas bill passed the House without enough time left for action in the Senate. Every member of the Texas delegation is to be complimented for his work on this important bill. This bill will be one of the first orders of business in the Senate next January, and I feel sure that the bill will be passed by the Senate and signed by the President.

**HIGHWAY PROGRAM**  
All the highway bills were killed in the House, but you may be sure that this important legislation will be revived next year. There is great need for additional highway improvements throughout the land, and the Federal government should bear its just share of the interstate and regional highway construction or surrender its gasoline tax to the States so they can do the job. The President could not have received better cooperation from a Republican Congress than he received from the Democratic Congress this year. In fact, it is doubtful if his program would have received as much support under Republican leadership in the Congress as it did from the Democrats. The President could not have received better cooperation from a Republican Congress than he received from the Democratic Congress this year. In fact, it is doubtful if his program would have received as much support under Republican leadership in the Congress as it did from the Democrats.

**BOYS NATION**  
Two Texas boys played prominently in the annual Boy's Nation in Washington last week. They were Bob Smith of Palestine who served as Texas Boys' State Governor, and Rolfe Johnson of Houston who served as Lieutenant Governor. These programs for acquainting outstanding young men with our State and National government are sponsored by the American Legion in co-operation with various service clubs and local organizations. They and the Girls' State programs are doing much toward educating young people to take an interest in their government.

**TEXAS AT THE SUMMIT**  
A Texan who was with the President at Geneva during the meeting "at the summit" played an important part in the proceedings. Dillon Anderson of McKinney and Houston, the President's Assistant for national security affairs ranked third on the list of persons who attended the meeting as advisors to President Eisenhower.

**TEXAS FARM RANCH Land Values Up Two % To \$70.20 An Acre**  
College Station, July—Purchase price of Texas farm and ranch land in 1954 was two percent more than in 1953, or an average of \$70.20 an acre.

Although this slight gain represented a new price level, the amount of sales dropped to the lowest gain since 1940 and the acreage transferred was the smallest in land market record history.

**NEW FEDERAL JUDGE**  
Texas has a new United States District Judge for the Northern District. Joe Estes, who was born and reared at Commerce and has been practicing law in Dallas. Mr. Estes was nominated by the President, and in the record time of one week and two days later, the Senate had confirmed his nomination. He is an outstanding lawyer and will make an excellent judge.

In a visit at the White House last week, President Eisenhower told Estes that he liked what he had heard about the new judge's legal ability and added the President, "I am also impressed by the fact that you part your hair the same as I do." Both men are practically bald.

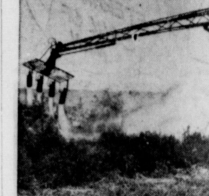

Adkins reported that owner-operators were the principle buyers in 1954 and farm size continued

to grow. Tenants made only 10 percent of the purchases. "Family-type" farm units continued to be in strong demand, bringing premium prices.

Land price increases were most sufficient in the Panhandle wheat, High Plains cotton and Lower Rio Grande Valley areas. Price declines were notable in the Upper Rio Grande area, the Palo Verde in the Rolling Plains and the

It requires 10 minutes per acre for weeding, but the Texas Red

## Flame Weeding Boosts Farm

LA JUNTA, Colo.—Often called "nature's weeding machine," flame weeding can reduce production up to 50%.

Growing in irrigation and drainage ditches, they are a source of water and increase irrigation time and costs. The weeds and other isolated areas contaminate nearby fields and are a source of cultivating and hoeing. They can also cause a loss of food values in average farm soil, robbing crops of nutrients. Mounted on a tractor which tows a mobile liquid fuel tank, the new weed burner illustrated can spray a blanket of flame to clear a mile of dense weed growth. Models mounted on pick-up trucks travel three to five miles per hour and use only 40 gallons of LP-gas (butane-propane) to burn weed growth along the average ditch bank. Burning weed growth of lesser density can be controlled at lower fuel rates. With such plants as water grass or bulrushes, growth controlled with three gas flaming applications per acre. Research tests show that after the third application it is needed to maintain a desirable soil condition. Because it is safe, economical to use and available throughout the country, LP-gas makes an ideal weed-burner fuel.

per acre (about 100 lbs. of weeds) in the Rio Grande Valley. The weeds are known as "Texas Red" and "Texas Blue".

known as thousands of friends. It is difficult to appreciate how difficult it is to be a friend since he has started since he said, "I'm heartily confident that you will do it most."

for the Student  
for the Kitchen

**Built like a desk!**

**Cole's 'UTILITY TABLE'**

Ideal for the student in the family. Homework more attractive. Use as a writer table, "TV" stand or work bench. Roomy center drawer and shelf for books and papers. Also handy in the kitchen. Rollers on four casters... opens up to 37" x 17" typewriter desk height. Heavy legs and strong piano hinges. Will last for years. Green or gray finish.

**Important thought to keep in mind:**

When it's safe to pass, make sure you've got the gasoline that lets you enjoy full working octane performance. Stop in at your Gulf station and ask the man for New Super-Refined Gulf NO-NOX. And make sure your engine is protected with New Gulfgrade H.D. Select. The motor oil that controls carbon.

**New Gulf No-Nox Gasoline delivers not just the highest octane but full working octane because it's super-refined to burn clean**

**full working octane**  
because it's super-refined to burn clean

- more complete engine protection
- extra gas mileage in short-trip, stop-and-go driving
- freedom from vapor-lock, engine stumbling and stalling
- no knock, no pre-ignition—even in today's high-compression engines

Now! For the ultimate in working octane performance, always use Gulf's super-refined gas oil team... New Gulf No-Nox Gasoline and New Gulfgrade H.D. Select Motor Oil

- The only motor oil super-refined by the Alklor Process for modern high-compression engines.
- Controls carbon
- Combats corrosive acids, rust and deposits
- Assures lower oil consumption
- Provides the toughest protection film ever developed in a motor oil
- Available in 3 grades—SAE 10W, SAE 20, 20W, SAE 30.

# Don't Name It

The country editor would like to give a plug to the people who are building new homes in Spearman for sale to the public. This writer can remember well, when he and his brother-in-law married (same year) and the bud-in-law got out on a limb and spent (went in debt) \$3000.00 for a new home. That was about 37 years ago. Your country editor was entirely too smart to get involved in a debt for a home, so we bought a run-down house at the edge of town and paid (borrowed most of the money) \$800.00 cash. It was a story and a half house with four rooms down stairs and a room in the attic. We spent days and hours remodeling, painting and improving while the dumb bud-in-law sat out in front of his house on a nice terraced lawn and entertained friends to make a long story short, we put about \$10,000.00 in the home and when we left we sold at about \$800.00 loss. This dumb relation of ours still lives in his home and has turned down more than \$8,000.00 for the home. Course he has kept the home in perfect repair, and the value of the lot increased over the period of 37 years... but he has also enjoyed comfortable living quarters—and this writer has lived in this and that and the other. The point we want to make is that a \$9000.00 house looks like a lot too much money for a young person to buy at this time. And we all want BARGAINS—but I'm giving you some good advice. BE DUMB GO in debt and enjoy wearing the new off of a home. You will never know the difference from the standpoint of finances 25 years from now, but you will sure enjoy the difference of living in attractive and comfortable home while you are paying for the house.

The writer was perhaps the third person out of about seven who have already contracted for one of the new Munday-Cooper Suburban Homes.

It is really a sign and disgrace that I have spent the money I could get hold of improving the newspaper, and made Eddie Faye and the children live wherever I could get along with the least expense. But now that I really do not especially need a new home, I am going to kick the new off of one of them. Spearman and Kinds gives a week out of plans for future improvements and getting to live with young folks—cause I'm sure that most of the kids that buy these new homes will be under middle age.

# HIS and THAT

## Around Gruver

While we were reporting on Harley Alexanders, we forgot to tell you they have taken off again. They are now in California with David and his wife. They are waiting an important event. Tell you about it later.

Mr. and Mrs. Gid Nobles has just returned from a very enjoyable vacation. They visited their nephews and his family in Colorado, and they all went to Cheyenne for the big round up. Mr. Nobles as you know is badly crippled with arthritis, but that did not stop them. They took her wheel chair along, and her nephew piloted her all over the country.

Mr. and Mrs. T. H. Fleming of Nevada, Mo. have been visiting Mr. and Mrs. Hank Lowery. They are Mrs. Lowery's parents. Her cousin from Spearman, Mr. and Mrs. Harry Crooks also visited them.

Well, we had another good rain. It was spotted, but all in all the moisture here in town we received 1.80 inches. As far East as Jewel Ward's they had over two inches. On the Winder place, Gene tells us they had over an inch. On the Ruffery house, Doc Jones says his and the Ruffery place only had .20 of an inch. Gene Fletcher, 10 miles to the N. E. had over an inch. So it was a pretty good rain.

The Gruver Chamber of Commerce will resume their meetings next week. The meeting will be held at the High School Cafeteria, Tuesday August 16th at 8:00 p. m. Please be present.

was forced to go on crutches for some time. She is getting along just fine.

Mr. and Mrs. Lum McQuinn have just returned from Odessa. They went to visit Lum's brother who has been severely burned by acid in an oil well accident. At first it was feared that he would lose his eyesight completely. The doctors now are hopeful of saving at least part of his sight.

Ernest Spivey is back in town. He and Mrs. Spivey moved to Wyoming with the I. T. Spivey's to go into business. Ernest is trying to sell the I. T. Spivey home.

During the Sunday night storm lightning struck a big hay stack on the Dutch Clawson farm, ten miles west. There were some 4000 bales in the stack. The Gruver fire department made a run out there. With the help of the farm hands they tore the stack apart and poured water on it to keep the fire within bounds. The big rain also helped. Results, about twelve hundred bales lost, and rest saved. Without the prompt work all would have been lost. The workers were all pretty well drenched but happy to have saved so much.

## HANSFORD STATION NEWS

Robbie Hibbs, son of Mr. and Mrs. Blackie Hibbs, was injured Tuesday afternoon when the horse he was riding threw him. As a result Robbie has a dislocated arm. We wish him a speedy recovery.

Mr. Ed Fawcett and children, Janet and George, will leave Wednesday for Illinois where Janet will attend grade school.

Tommy Smith spent Sunday here visiting friends. Tommy plans to leave soon for Glenarm, Kansas, to attend school.

Mr. and Mrs. Clair Stockdale and Karen are spending this week in Colorado.

Mr. and Mrs. Metlock spent the week here in Borger visiting their daughter.

Bob Driscoll, Bill Glidden and Jeff Hodges spent the week end at Fort Supply. Enjoyed good fishing and brought the proof home with them. Jack Edge is spending a few days at Fort Supply and Canton fishing and vacationing.

Roscoe Crawford spent the week end at Raton, N. M.

Nedra Kirkland and Trulene Kiriand spent the week end with Trulene's grandmother, Mrs. W. Jones of Hardisty.

Guess we can sign off by giving a little sports news. Several of the fellows have taken interest in the three hole golf course here and enjoyed several rounds each afternoon. Our teenagers have put the shuffle board to work in the evenings.

Now here is a report on the softball game at Stinnett Thursday night. Our team played good ball for several innings, then the following happened: our first baseman got one of those skinnier that went 'ta' a field! Our right fielder failed to field the ball and Stinnett players just kept coming around the horn. Our pitcher walked two then decided to let the next batter hit. He did and scored three. Our left fielder got back in time for breakfast after fielding a home run. All in all the game was enjoyed by all. We hope to use the ball diamond at Spearman one night soon for a return match. Maybe it will be another good game.

IN MOTOR TRANSPORT  
**GMC**  
LEADS THE WAY

Even its looks carry weight

A Blue Chip GMC is massively framed, ruggedly assembled and mightily engineered to do its work. It is also distinctively smart to add prestige to your business. The combination makes an outstanding investment — let us tell you more about it.

See us, too, for Triple-Checked used trucks

## Important thought to keep in mind:

There's no need to worry about starting in hot-weather traffic; no need to worry about balky hot-engine starting! Just fill up at your Gulf station with New Super-Refined Gulf No-NOX—the gasoline that's made with evaporation control to prevent vapor-lock. And always protect your engine with New Gulf H.D. Select, the motor oil that controls carbon.

## New Gulf No-NOX Gasoline delivers not just the highest octane

### full working octane

because it's super-refined to burn clean

NO GASOLINE, no matter how high the octane, will let your engine deliver full power performance—mile after mile—unless it burns clean. That's why it pays to always use new NO-NOX, Gulf No-NOX, the clean-burning fuel that gives you full working octane day in, day out. In addition, you get...

- more complete engine protection
- extra gas mileage in short-trip, stop-and-go driving
- freedom from vapor lock, engine stalling and stalling
- no knock, no pre-ignition—even in today's high-compression engines

Now! For the ultimate in working octane performance, always use Gulf's super-refined gas oil team... New Gulf No-NOX Gasoline and New Gulfpride H.D. Select Motor Oil

The only motor oil super-refined by the Alchior Process for modern high-compression engines.

- Assures lower oil consumption
- Provides the toughest protective film ever developed in motor oil

Available in 3 grades—SAE 10W, SAE 20/20W, SAE 30

## \* Plan your own smart, modern custom kitchen...

### with Built-in Electric Cooking Units

You can enjoy the step-saving convenience... the sleek, modern good looks of built-in electric cooking units... in a kitchen of your own design. Waist-high, built-in electric ovens and counter-top surface cooking units can be installed anywhere you want them... in brick, plaster or stone... or in standard wood and metal cabinets... giving you added kitchen work space and convenient storage space just below the units... right where you need it! Plan now to make the kitchen of your dreams come true with Built-in Electric Cooking Units.

\* Check the convenience of built-in electric cooking units... see your electric range dealer... or come by our office for full information now.
