**Texaco**

Two young men, war veterans and proving themselves to be energetic and efficient business men, operate and manage the Retail Texaco station in Gruver. They are Lee Roy Byrd and Wayne Shook.

These young men operate under the firm name of Byrd and Shook Service Station, and have really made an enviable reputation in their line of business.

Wayne Shook is 27 years of age, is married and is the proud father of a 14 month old son, Eddy Wayne. He is a member of the American Legion Post of this County, and has been very faithful worker for the organization.

Wayne landed in Hansford county in 1946 and has been a rather model young man, willing and anxious to work and get ahead. He has had considerable experience in his line of business, and you will find that he is anxious to do your service work just a little better than the next man.

Lee Roy Byrd is 26 years of age, is married and is the proud father of a baby son, Michel Lee Byrd, age one year and one month. Byrd is a member of the Hansford county Post of the American Legion and has been active in the work of the organization. Lee Roy has lived in Hansford county for 12 years and much of his time has been devoted to Service Station work. He is a past master at hard work, and has learned how to make every minute count.

Both young men are members of the Gruver Chamber of Commerce and are active in committee work of this organization. The Retail Service station, long established at Gruver, has an ideal location. It is located on the corner of Main street just west of the Post Office. It is in the very heart of the business district, and is very convenient for the public.

The station features SERVICE to customers, serving the Texaco products, plus most of the popular brands of lubricants. The Service includes washing, greasing, repairing of tires and other services featured by retail service stations.

Byrd and Shook are the representatives of the famous Mansfield line of tires for passenger cars, trucks and tractors. Right at this time they are featuring Tractor and truck tires, and are anxious to have their friends and customers check with them for their needs in this line.

The nationally known Willard Batteries is another line of merchandise featured at the Byrd and Shook Service Station. Most every one knows of the Willard line of batteries for cars, trucks, tractors and other power farming machinery. The line is one of the outstanding lines of batteries in the nation. The Byrd and Shook Station keep a representative stock of this merchandise, and are asking their friends over the area to check with the station for any need in batteries.

The Byrd and Shook station is soliciting your business on the basis of efficiency, plus standard products and accommodating service.

# Washington News Letter by Congressman Walter Rogers

**THE NATION'S LOSS**

The nation lost one of its outstanding champions last week in the passing of Congressman Joe Bryson of South Carolina. Congressman Bryson was one of the first members that I had the honor of meeting when I came to Washington in January 1951. My first impression was that I had met a true southern gentleman and a scholar. As I became better acquainted with him I became better acquainted with a man who was definitely confirmed and my respect for him grew daily. Many of you will remember him as the author of the bill to ban liquor and beer advertising from TV and radio. Although his bill had not become law at the time of his passing, his many friends and colleagues will carry on the battle that he so valiantly fought. Joe Bryson was a clean, wholesome American whose life was dedicated to Christian principles and who practiced daily those beliefs. He had taken an active part of the proceedings in the House of Representatives during the day and had joined some of his colleagues at a dinner honoring some South Carolinians at a local hotel. Joe was an ardent student of the Bible and was usually called upon for the invocation. He had just finished the invocation when he slumped in his chair and the end came shortly thereafter. His splendid personality, his gracious courtesy, and his tremendous ability will continue to be a moment of strength to those of us who had the good fortune to know Joe Bryson.

**THE AIRLINE SERVICE FOR THE PANHANDLE**

The Civil Aeronautics Board has under consideration a number of applications to extend local air service to smaller communities all over Texas. This is known as the Texas Local Service Case because all of these applications were consolidated into one case and the matter is being considered by the board for the purpose of determining which of these proposed segments should be granted and which should be denied. The

The committee of which I am a member has been holding hearings on the Elkinska Project in Alaska. This is a reclamation and cost more than \$29,000,000, and is a long way from being completed. Therefore, the Department of the Interior is before the Congress seeking authorization power project which was originally estimated to cost \$29,000,000. The project has already and funds with which to proceed to complete the project. It is hard to conceive how good engineers could possibly miss a project of this kind by \$15,000,000, almost double the proposed original estimate. This is not the first time that this has happened. But as far as I am concerned it better be one of the last times. What happens is that the original authorization is spent and Congress then has the choice of abandoning the project and throwing away the funds already spent, or coming up with more funds in order to keep from wasting the original funds. Frankly, it is a merry-go-round that is going to stop and the committee has

## Federation Club Meeting To Be Held At Hereford

Ames, Iowa, Oklahoma City, Brownwood, Wichita Falls, Plainview and Wortham, Texas will furnish the main speakers for the thirty-second annual convention of the seventh district of the Texas Federation of Women's clubs in Hereford on April 9, 10, and 11.

Headquarters for the convention will be at the Jim Hill Hotel, with the auditorium of the First Baptist named as convention hall.

Scheduled to open the three-day activities in the board dinner, Thursday evening in the ballroom of the Jim Hill Hotel, with Mrs. O. M. McGinty of Spur, district president, presiding.

Mrs. Van Hook Stubbs, president of the TFWC from Wortham, will address the convention on Friday morning on "Trends". She will be followed by Mrs. J. P. Mattox, of Oklahoma City, who will speak about "The King's Mother".

At noon the Education luncheon will be highlighted by a talk by Mrs. J. L. Lush of Ames, Iowa. She is chairman of the division of character education of the TFWC. She will also speak Saturday morning on "Family Living".

J. C. Porter, of Wichita Falls, manager of the Agriculture department of the First National Bank there will talk on "The Good Earth, Our Richest Heritage", Friday afternoon.

**Snooper's Scoops**  
Larry S. where did you get that battle scar? Did you get it from Kirleen. J. about 9:15 P. M. Monday night????  
Billy L. and Nancy M. weren't you in church Sunday night? Could it be because they sat together.  
Sally R. and Bernard D. were seen together at the show Friday night.  
Billy Nollner, what were you doing down at the corner drug store Thursday night? Looking at rings????  
Jane S. you and Wayman E. sure were a long way out in the somewhere????  
Mr. Dickson, we hear there is something wrong with one of your typewriters. Why don't you let Miss Douglas take care of it?  
Larry S. who do you write letters to during study hall?  
Ronnie M. or Sandy B.?  
Larry S. what's this we hear about you stepping out on your steady? Was it your fault or Kirleen's????  
Billy L. do you have a crush on Norma A.?? You sure acted like it at the party the other night.  
The boys baseball jackets come in - Wonder what boys will be without one in a few days?  
Ann R. It seems like you have a lot of trouble. Especially when you are down town riding around and a certain boy goes up to your house to talk to your father.  
Patty G. what's this we hear about you going steady??  
Gwen P. we haven't seen you and Bill R. lately. Where do you keep yourselves????  
Mary C. and Nick H. Nancy

**Campus Chatter**  
By Ann Vaughn  
On the last day of March the Senior Class presented one of the best plays we have seen in a long time. It was really different and we enjoyed it a lot.  
On the same day, in the morning, we had a juggler in an assembly program. He really knew his business and was very entertaining.  
Everyone's getting ready for the Inter-scholastic League meet. Tryouts have been held for side rule, number sense, spelling, typing, ready writing, and declamation. Nancy Mott, Billy Lackey, and Wimpy Jones are entering side rule, Nancy Mott and Billy Lackey are going for number sense. In spelling Sheila Sparks and Lorene Mundy are the team with Robert Greever as alternate. The typing entries are Jimmy Vernon and Peyton Gilmer. Ready writers are Marilyn Crawford and Jimmy Vernon. Mary Nell Chambers is their alternate. In declamation Larry Sparks and Ann Vaughn are Senior declaimers and Robert Simms is the Junior.

**Mrs. Hutchison Gives Interesting Talk At Lion Club**  
Buddy Chain and Mrs. Dwight Hutchison were guest entertainers at the regular meeting of the Lion club held Tuesday noon. Buddy played his banjo and gave a couple of songs, as a sort of preliminary to the coming booster trip.  
Mrs. Dwight Hutchison gave one of the most interesting and instructive talks this writer has heard in many months. She discussed her experience while living for two years at Landers, Wyoming, and teaching some 18 Indian girl students in Home Economics. Mrs. Hutchison had pictures of Indian bead work, and tokens. Mrs. Hutchison gave her listeners a vivid picture of the lives, customs, government and peculiarities of the two Indian tribes, the Arapahoe and Shoshone Indians who live on a government reservation near Landers, Wyoming.  
President Virgil Floyd announced that the Lion club would meet after this week at the H D club rooms and would be served the noon meals by ladies of the Union church.  
Announcement was made that the membership would vote on officers for the coming year at the next Tuesday meeting.

**Medlin H D Club**  
The Medlin H D club met with Mrs. Clarence Renner April 3. Lovely refreshments were served to Mesdames: John Trindle, C. W. Weaver, Joe Entreklin,

Virgil Hill, Bertha Camperman, Jack Whitson, Lawrence Dossert, Jerrill Harris, Johnnie Close, Stan Bollinger, James Sparks, Miss Betty Whitson and the hostess.  
Medlin Club enjoyed a wonderful afternoon with the State Line Club at their community building March 25.  
Miss Betty Whitson gave a demonstration on child's dress-making. Betty is very active in 4-H work and has made a lovely summer dress for her little sister Francis. She showed us how to make embroidered rolled roses, also told how to put in a covered cord in the waistline.  
Her demonstration was well done and enjoyed by all.  
Miss Gibbs was unable to be with us but she sent some valuable information on storage, some names of vegetables, and planting time in the country. Mrs. Bollinger and Mrs. Dossert presented this information to us.  
Mrs. Renner was the winner of the surprise gift brought by Mrs. Whitson. The HD Dress revue will be at Graver auditorium April 3. Mesdames Trindle, Entreklin, Renner and Sparks of the Medlin club completed the course in dress making by Miss Gibbs, and will be in the revue.  
By Reporter Mrs. Sparks  
Mrs. Durwood Cluck of Graver was a Spearman shopper Saturday.

**Revival Begins At First Baptist**  
The First Baptist Church, Spearman announces the beginning of a revival meeting beginning Sunday, April 19 and running through May 3.  
Rev. Winfred Moore, pastor of the First Baptist Church, Spearman will do the preaching, Fred Moeller of Arlington will lead in the singing.  
Morning services will begin at 10:00 and evening services at 8:00.  
Everyone is cordially invited to attend.

**NOTICE OF HEARING OF APPLICANT OF GUARDIAN TO MAKE MINERAL LEASE.**  
 NOTICE is hereby given of a hearing before the County Court of Hansford County, Texas, on the 29th day of April, 1956 at the Courthouse of said County in Spearman, Texas, on the application of Ted B. McClellan, guardian of the estate of Lanelle McClellan, whose full name is Virginia Lanelle McClellan, a minor for permission to execute a mineral lease covering an undivided  $\frac{1}{4}$  interest in the following lands:

(a) Sections 6, 7, 10, 11 and 12, Block 59, H. & T. C. Ry. Co., and West half of S. H. McElreath Survey, and an undivided  $\frac{1}{4}$  interest in the following lands:  
 (b) East  $\frac{1}{2}$  of Sec. 9, Block 59, East half of Nancy Everett Survey.

The 4-County Agricultural Workers Council meeting at Berger Monday evening, March 23, learned from top authorities that the small native grasshopper that is often found in the range country probably will be present in great numbers this year.

John Landrum and Fred Reese of the Federal bureau of entomology division of grasshopper control, reported in a survey made last fall. They found 15 to 25 hoppers per square yard on many counts. It has been found that 17 grasshoppers to a square yard will eat 50 per cent of the grass in that area. On the same basis one could expect to lose all of his grass with a population of 35 grasshoppers per

square yard.  
 When the rains come these pest will get busy. To avoid loss of grass in the grass country, ranchers have found the answer in aerial spraying.  
 The council is now planning a meeting of ranchers and others interested in Hotel Berger at Berger Monday afternoon, April 15. Landrum and Reese will be present.

**Fear Invasion Grasshoppers In Plains Area**

The 4-County Agricultural Workers Council meeting at Berger Monday evening, March 23, learned from top authorities that the small native grasshopper that is often found in the range country probably will be present in great numbers this year.

**Gruver W. S. C. S.**  
 Mrs. Barkley presided over the meeting when the Gruver W.S.C.S. met April 2. Mrs. J. E. Sluder gave the devotional, "A Shelter In Time of Storm" was given as a special in song by Medames: Barkley, Sluder, Garrett and Fox. Mrs. A. R. Bort gave the second and third lesson of the study: "These Rights We Hold". She was assisted by Medames: Harris, Shapley, Winder, Porterfield.

Medames present included: Barkley, Harris, Winder, Cline, Garrett, Bort, Ramche, Shapley, McClellan, Watkins, Porterfield, Fox, O'Neil, and Miss Neilson.

**Girl Scout News**  
 Troop 601 of the Girl Scouts met and planned an outdoor cookout for another scout troop. Those present were: Judy Owens, Elaine Blackburn, Roxie Neely, Phyllis Spillner, Linda Kay Vandenberg, Carol Ann Jarvis, and Carolyn Collard.  
 The troop met in the home of Mrs. W. Jarvis.

**CHRISTIAN SCIENCE LESSON-SERMON**  
 The question, "Are Sin, Disease, and Death Real?" will be discussed in the Lesson-Sermon in Christian Science churches Sunday. The Golden Text of the lesson is from Proverbs (12:28): "In the way of righteousness is life; and in the pathway thereof there is no death." And from Habakkuk: "Art thou not overestimating? O Lord my God, mine Holy One? we shall not die. Thou art of purer eyes than to behold evil, and canst not look on iniquity" (1:13).  
 In "Science and Health with Key to the Scriptures," Mary Baker Eddy, the Discoverer and Founder of Christian Science, explains that God's man is not truly subject to sin, disease and death because God's creation was finished and pronounced good. "God is as incapable of producing sin, sickness, and death as He is of experiencing these errors. How then is it possible for Him to create man subject to this arid of errors,—man who is made in the divine likeness?" (p.356).

**ADVANCED DRESSMAKING TAUGHT IN HANSFORD COUNTY**  
 The advanced dressmaking course in Hansford County taught by the agent, June Gibbs, drew to a close in March. One hundred and eight women were enrolled in the classes and eighty dresses were finished. The enrollment was divided into five classes and the agent, June Gibbs, met with each class. These classes were held at Spearman, Gruver, Oslo, and Morse. In teaching this course the agent used her own dress for the demonstrations and kept up a garment with each group, five dresses in all.  
 The course was given in five demonstrations, each demonstration lasting three hours. The first demonstration included pattern alteration, styling, fabric, and findings. The second demonstration was laying pattern, cutting garment, marking, stay stitching, straight seams and adding seam guide, and making buckles. The third demonstration was round buttonholes, belts, facings and interfacings, pressing, equipment and pressing, pockets, collars, fitting. The fourth demonstration setting in sleeves, joining skirt to base, joining skirt and waist, putting in zippers, and fitting. The fifth demonstration was a summary of principles of dressmaking, advantages for home sewing, review of new principles, hems - three types, hand stitches, buttons, snaps and hooks and eyes, and accessories.  
 The course created much interest throughout the county and the Farm Bureau has invited the women to furnish the program for their meeting in Gruver, April 5. The program will be presented in the form of a Adult Dress Revue. One hundred and eight women started the course

Farmers Advised On Current Fertilizer Situation

A situation, says M. K. Thornton, agricultural chemist for the Texas Extension Service, has developed in the fertilizer field which is causing concern among farmers. Ammonium nitrate, he says, is in short supply but farmers should not fail to use a nitrogen fertilizer if one is needed to boost crop and pasture yields.

Thornton's recommendation for overcoming shortage is to use ammonium sulphate. He says the supply of this material is plentiful and readily available. It contains 21 percent nitrogen, as compared to 33 percent for the ammonium nitrate. To get the same amount of nitrogen in only one half more of the ammonium sulphate. In other words, 150 pounds of ammonium sulphate would contain the same amount of nitrogen as 100 pounds of the ammonium nitrate.

The specialists adds that results from the use of the substitute should be just as good or better especially on neutral and or slightly alkaline soils. Finally, he says, don't let the short supply and high price of ammonium nitrate curtail the use of a nitrogenous fertilizer because a good one that will do the job is available.

Making Poultry Pay - THE DR. HALLSBURY'S WAY

Use of a good flock worm treatment can solve many poultry difficulties. You see, poultry worms not only cause intestinal damage. They also lower disease resistance and open the way for disease outbreaks. So play safe. Control worm infestations by using Dr. Hallsbury's Wormer. It expels tapeworms, roundworms, and scab worms!

Program for State Farm & Ranch Safety Conference

The 14th annual Texas Safety Conference will be held in Houston on March 30-31. Highlight of the meeting for rural folks will come on the first afternoon when they get together for a special sectional meeting.

Walter Hammond, president of the Texas Safety Committee, will preside at the session beginning at 2:00 p. m. in the Hunt Room of Houston's Rice Hotel. Some 1952 accomplishments in the Farm and Ranch Safety Program will be discussed by E. C. Martin, state agricultural leader for the Texas Extension Service. Martin will report on the progress being made in the organized communities of the state in preventing farm and home accidents.

Maynard H. Cox of Chicago, chairman of the farm section of the National Safety Council, will speak on "Highlights in the National Farm Safety Program."

C. T. Johnson, Sears-Roebuck Foundation and member of the state committee, will present awards to those who have made outstanding contributions to the farm and home safety program in Texas during the past year.

Chairman Hammond extends a special invitation to all farm and ranch folks and those interested in improving the safety record in rural Texas to be present.

Cotton Producers To Study Situation Before Planting

Cotton supplies have not reached the point where, if another large crop is produced in 1953, the carry-over could further depress markets and bring back control programs. Cotton producers are, therefore, being urged to study the present situation and plant in accordance with the expected demands for their products.

It appears now, says J. D. Prewitt, associate director for the Texas Agricultural Extension Service, that the demand for raw cotton in the United States this season and next will be only slightly less than last season, however, exports are expected to drop at least 1 1/2 million bales below last season and may be even lower next season. The carry-over on August 1, 1953, is expected to be, says Prewitt, about 4.3 million bales, which will be 1.5 million bales or 55 percent more cotton than was on hand a year earlier.

Cotton advisory groups have met with Secretary of Agriculture Benson and after careful study and consideration of all factors, the secretary has made the nation's cotton producers to make an 18 percent reduction in their 1953 plantings as compared with those for last year.

This reduced acreage should produce between 12 and 12 1/2 million bales of cotton. Such a crop would meet the estimated domestic and export demands and leave enough surplus to take care of the reserve needs, points out Prewitt.

Prewitt advises Texas cotton producers to think in terms of balancing cotton with other farm crops and pastures. He points out that under the 7-step cotton program, fitting cotton into a balanced farming program is the first recommended step in making production of the fleecy staple more profitable. The present situation, he explains, calls for this balance.

Unusually heavy demands for feed caused primarily by the drought and to some extent by increased livestock numbers, has reduced the amount of feeds and forages to a very low level and the acres left out of cotton this

15 People for Dinner

A farmer today has to feed himself and fifteen other people. Back in 1930 he had to supply food for 11 other people. By 1975, experts predict, for each farmer there may be 25 at the dinner table.

It would be nice if there were more land. But last year there was only 1% more land under cultivation than prewar.

What's more, there are fewer farmers. 17% fewer man-hours were spent in agriculture last year.

Yet the farmer in 1952, with less help and about the same acreage, managed to produce 40% more livestock, vegetables, cotton, grain, milk than before the war.

Who helps the American farmer in a spot like that? Electricity for one thing, and of course, more tractors, trucks, farm machinery, pesticides, chemical fertilizers, and a lot more.

One big clue to productivity is his increased use of electricity. Farmers today use 500% more electric power than in 1940.

Electricity pumps water, dries hay, keeps chicks warm, grinds feed, milks cows. In fact, the "electrical hired man" can do more than 400 farm jobs.

But the important thing is that there need be no empty plates tonight, and that this was done in a typically American way.

Many people and many companies, General Electric among them, developed labor-saving ideas and products. The best were tried and chosen. They have helped to make the American farmer the most productive in the world.

You can put your confidence in GENERAL ELECTRIC

More than one cream? WHAT NONSENSE! says Ann Delafield. Now you can avoid the waste and bother of many creams and still have the NEW Ann Delafield All-Purpose Deep Cream. This single, gold-topped jar contains all of the ingredients for cleaning, smoothing and refreshing your skin. And this is just the beginning of a whole new cosmetic line - vitamin-centered to give you the most for your cosmetic dollar. Look for Ann Delafield Deep Cream and beauty aids at your Rexall store.

Success car of the season! The 1953 Ford leads all other cars in bringing you the car you've always wanted for the money you can afford to pay. It's America's "Worth More" car... worth more when you buy it, worth more when you sell it. NEVER BEFORE has a car enjoyed such wide acclaim as Ford during the past few years. And this year, with a hull-tight Crestmark Body that's the style-setter, a new ride that's unbelievably smooth, a choice of high-compression V-8 and Six that's the envy of its field and a total of 41 "Worth More" features, the 1953 Ford steps even further out front to become the New Standard of the American Road. Ford keeps its value better than any other car, too. A check of used car dealers and owners will prove it. So join the swing to Ford. Take a Test Drive today. Planting Time For Temporary Summer Pastures Near

Recent rains in most sections of the state have greatly increased the chances for successfully setting the temporary summer pastures started. E. M. Trew, associate agronomist for the Texas Agricultural Extension Service, points out many reasons why livestock producers should use such pastures.

of the state where adapted, legumes can be planted. Trew recommends at least one acre of temporary summer pasture for each animal unit on the farm. Planting cowpeas with sudan increases the total yield from the pasture and improves the quality of the crop—either grazing, hay or silage—because the legume increases the protein and mineral contents, says Trew. Staggered plantings will extend the grazing season and improve the quality of pastures, especially when rotation grazing is practiced. Temporary fences can be used to divide the pastures into small areas which can be grazed off in a hurry and this is a recommended method for keeping the pasture growth tender and nutritious.

Trew points out that when the plants in the pasture begin to get coarse, mowing will force new growth and thus increase production. Strips, he adds, moved in the pasture, with plants left on the ground, will planting and side-dressing with the livestock.

Finally, says Trew, temporary pastures will furnish lots of good grazing, if properly managed, and by making rest periods possible for the permanent pastures, will make these permanent pastures better. Good management means staggered plantings, rotation grazing, mowing to keep new growth coming and to supply dry roughage, planting a minimum one acre for each animal unit with plants of different heights and types of fertilizers before planting and side-dressing with the livestock.

He recommends a six weeks rest for the perennial grasses at the start of the spring growing season and the use of temporary pastures to take up the slack. Then too, the temporary pastures will provide grazing during the summer months when perennial pastures do not normally furnish much grazing. If forage production from either the temporary or perennial pastures exceed requirements, Trew says, the surplus should be used for hay or silage.

The specialist says Madrid or Hubam sweetclover can be planted up to April 15 in the areas of the state north of Temple. They may be planted on clean land; overseeded in small grasses or overseeded in Johnson grass. Sudan may be planted anywhere in the state as soon as the danger from frost is past. Sweet, Common or Tift are varieties which are well-adapted but in the humid areas sweet sudan does best, says Trew. In the area

of the state where adapted, legumes can be planted. Trew recommends at least one acre of temporary summer pasture for each animal unit on the farm. Planting cowpeas with sudan increases the total yield from the pasture and improves the quality of the crop—either grazing, hay or silage—because the legume increases the protein and mineral contents, says Trew. Staggered plantings will extend the grazing season and improve the quality of pastures, especially when rotation grazing is practiced. Temporary fences can be used to divide the pastures into small areas which can be grazed off in a hurry and this is a recommended method for keeping the pasture growth tender and nutritious.

Trew points out that when the plants in the pasture begin to get coarse, mowing will force new growth and thus increase production. Strips, he adds, moved in the pasture, with plants left on the ground, will planting and side-dressing with the livestock.

Finally, says Trew, temporary pastures will furnish lots of good grazing, if properly managed, and by making rest periods possible for the permanent pastures, will make these permanent pastures better. Good management means staggered plantings, rotation grazing, mowing to keep new growth coming and to supply dry roughage, planting a minimum one acre for each animal unit with plants of different heights and types of fertilizers before planting and side-dressing with the livestock.

Chevrolet is the only low-priced car to offer... Extra-Easy Power Steering 36 42 7 15 12 44 10 The Bel Air 4-Door Sedan (above) and the "Two-Ten" 2-Door Sedan (right)—two of 16 beautiful models in 3 great new series. Power Steering! It's yours in Chevrolet for 1953 and in no other low-priced car! This wonderful new feature, optional on all models at extra cost, marks the most important advance in driver convenience and safety since the automatic transmission, which Chevrolet also introduced into its field. Power Steering makes steering virtually effortless on all roads and at all speeds. It permits you to park, even in a tight space, with finger-tip ease. It cuts steering effort approximately 80%; reduces driver fatigue; makes driving simpler, safer and more enjoyable than ever before. But come in! See and drive Chevrolet for 1953 with Power Steering and all its other exclusive advantages! Contribution of standard equipment and trim as illustrated is dependent on availability of material. MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CAR! McClellan Chevrolet Co. Spearman, Texas Gruver Motor Co. Gruver, Texas

### This 'N That

### Around Gruver

Mr. and Mrs. George Odum and family spent several days visiting relatives here. They visited Mattie Layton, The Alford Hendersons, I. W. Arnes Sr. and Carl Lyles. Mrs. Stella Henderson of Gainesville and Mrs. Bertha Layton of Denison also visited. They are all kin to one another.

Mr. and Mrs. Frank Fleck are gone again. They spent several days in Amarillo visiting their daughter Ella, then on to Wichita Falls to visit Joan E. and then on to Port Arthur to visit Bill and do some fishing. They will come back the same way.

We are glad to see Mrs. Darwood Bell and her daughter last week. Mrs. Bell was visiting her parents Mr. and Mrs. Guy Cooper.

Well we found out some more about Mr. and Mrs. Don McLean's new daughter. Her name is Patricia she weighed 4 1/2 lbs. and is mighty sweet. Her mother is the former Gwen Cator. Grandpa Buster Cator will not divide his allegiance to Mike, with Patricia.

Most of the college boys and girls were home for the Easter holidays, but we did not get to see them all. We do know however, that these were here: Mr. and Mrs. Lynn Hart, Mr. and Mrs. Bob Fletcher, Mr. and Mrs. Richard Cutler, Miss Mary Nell Morrison and James Fox. Mrs. Ruth Morrison's Easter came for Easter. Her husband is stationed on the West Coast. Charles Broadhurst brought with him as his guest David Lee of China. David is a student in Hardin Simon on a scholarship.

Clara Swanson A 2-c whose home is in Alexis Hill, visited in the home of his cousin Mrs. Fred Sanders. He is stationed at the Center Air Force base.

Mr. and Mrs. Pike Cluck and children spent Easter with Mrs. Homer Cluck.

Mr. and Mrs. Ralph Eddins spent the Easter holidays with relatives in Harman. Colo. Mr. Eddins is principal of the High School.

Mr. and Mrs. Joe Callender spent Easter with Mrs. Callender's parents Mr. and Mrs. E. A. Michael of Canyon.

Mr. and Mrs. Mike Fleming have a new grandchild of whom they are mighty proud. Mike is the butcher at I. T. Steves.

Pete Barnes recently underwent major surgery at the Newman Hospital in Shattuck. Mr. and Mrs. Barnes are glad to report that Pete is doing just fine. This was news to us, so perhaps it is to you.

Gordon Gross called his wife from Japan the other night. He had a few day leave away from the front. His mother and dad got in on the call. Naturally there was lots of excitement and not near enough time to talk.

### GENERAL TELEPHONE COMPANY ELECTS NEW PRESIDENT

Walter G. Wright has been elected President of General Telephone Company of the Southwest effective May 1, 1951, succeeding Roy Autry who has been President of the Company since March, 1949. Mr. Autry will assume new duties as a consultant on operating problems to the General Telephone System which General Telephone Company of the Southwest is a part of and will continue as a Director of General Telephone Company of the Southwest.

Mr. Autry has been associated with the General Telephone System since 1920 except for a brief period from 1941 to 1943. He began his telephone career, however, in 1915 in the Traffic Department of Southwestern Bell Telephone Company. In 1930 he accepted a position as Traffic Supervisor with General Telephone Company of California. He was promoted to Commercial Manager in 1937 and remained in that position until 1941 when he returned to his former position as Traffic Supervisor. In 1943 he returned to General Telephone Company of California as General Traffic Superintendent, and in 1946 he was transferred to

General Telephone Company of the Southwest as Vice President and General Manager. Mr. Wright, who succeeds Mr. Autry as President of General Telephone Company of the Southwest, has been in telephone industry since he graduated from Rutgers University in 1924 as an electrical engineer. His first business experience was with the New York Telephone Company, later the New Jersey Bell Telephone Company, followed by varied engineering and operating assignments with International Telephone and Telegraph Company, both in the United States and abroad. Mr. Wright joined the General Telephone System in 1931 as Chief Engineer of the General Telephone Company of Michigan. He was elected Operating Vice President and a member of the Board of Directors of General Telephone Company of the Southwest in 1952.

### Texas Production Up In 1952

Cattle slaughtered commercially in Texas in 1952 amounted to 1,175,000 head, or a total of \$1,090,000,000, as compared with 988,000 or a live weight of 784,711,000 pounds, slaughtered in 1951. The increase was caused by the Bureau of Agricultural Economics, U. S. Department of Agriculture.

Cattle slaughterings rose to 481,000 head in 1952, as compared with 331,000 thousand head in 1951. Commercial slaughter of hogs rose to 2,336,000 head in 1952 from 1,941,000 head in 1951, while commercial slaughter of sheep and lambs here in 1952 was 476,000 head, as compared with 593,200 head in 1951.

Nationally, commercial meat production for the year 1952 was 21.4 billion pounds, 4 per cent more than the 20.3 billion pounds produced in 1951. As compared with 1951, mutton and lamb production during 1952 was 25 per cent more than 1951; beef production, 9 per cent; and pork production, 1 per cent.

During 1952 a total of 17.9 million head of cattle were slaughtered in the United States, an increase of 9 percent from the 16.4 million head slaughtered during 1951. A total of 8.9 million head of calves were slaughtered in 1952, an increase of 8 percent over the 8.4 million head killed during 1951.

Commercial hogs slaughtered during 1952 totaled 77.7 million head, 22 percent more than the 76.1 million head slaughtered in 1951. The number of sheep and lambs slaughtered totaled 4.8 million head, 10 percent more than in the previous year.

For 1953, meat production will probably not be much different from that of 1952. Beef supplies will be larger, but these may be about offset by a smaller pork production which will result from the 12 percent cut farmers have made in 1952 fall farrowings and the 13 percent reduction in the expected in 1952 spring farrowings.

### Don't Name It

Sure expected to report considerable rainfall at least 5 days ago. According to the best of information if this newspaper does not report moisture on or before our publication date April 24th, there is little hope for much wheat in Hansford county. However, we have known all forecasts to fail, and crops to be made in spite of the best judgment of experienced citizens.

Of course there is a possibility of the above comment being voided if the moisture comes before our next publication date April 30th. Sure would like to make such a mistake—wouldn't even attempt to correct it in this weeks newspaper.

Guess that makes a little discouraging conditions to really put the Hansford citizen on his feet. Don't believe I have ever witnessed any more enthusiasm for the coming Spearman Celebration. Everyone is talking about the good time we will have, but the moisture comes before to forget prosperity prospects and enjoy our annual Celebration.

Believe the irrigation farmers are making better progress this year than any year in the past. They are not waiting for the rainfall. Right now many of them are sealing in a lot of soil moisture for their maize crops. Ned Tarnas reported to this writer several days ago that he had run his water 1000 hours on his land. That means that he has watered 10 to 15 acres for maize, had watered some 30 acres of well matted wheat and was starting over again. He has his maize land watered using the land leveler. Then he waters to the point of complete saturation, then levels out the latter rows and plants another watering if it is necessary before planting time. Ned has natural gas and can bring an 8 inch

stream of water to the surface for less than 10¢ per hour. This cost something like \$200.00 to install in condition to gain this cheap system. That is three thousand dollars more than the cost of his well. He paid out thirty hundred dollars to pipe the natural gas to his place and his motor cost about fifteen hundred dollars.

But when you consider the difference of 10¢ an hour and about a dollar and a half an hour, he almost pays for his extra expense in the first year of operations. That's what the farmers who have the deep lift of water must secure. The natural gas is just like a shame and disgrace for at least 2 pipelines to cross the county and not hook on as many users as we want to get this cheap fuel.

Mr. and Mrs. Albert Graves of Liberal Kansas spent the week-end with his parents Mr. and Mrs. Sam Graves. Becky Sue who had spent a week with her grandparents, went back with them.

Mr. and Mrs. Garland Head were over from Dumas to spend the week-end with their parents Mr. and Mrs. Kiff White.

Mr. and Mrs. Junior Sparks of Stinnett and Mr. and Mrs. Lowell Robertson of Perryton spent the Easter in the home of their parents the S. W. Robertsons.

Mr. and Mrs. H. A. Becker, Al Becker from Enid, and Miss Betty Becker from Ankerage, Alaska were dinner guests of their niece, Mrs. Gene Cline for Easter. Mr. and Mrs. Paul Robinson and Robbie of Press also spent their Easter vacation with the Gene Cline and Mrs. Becker.

The Howard Longs and Freddie Hoskins visited the J. D. Hesters at Tealine Sunday.

Mrs. E. C. Womble and her daughter Mrs. Art Lynch of Almodordo N. M. spent last week in Oklahoma City. Mrs. Lynch had been visiting her mother and other relatives here.

Arlan Womble replaced Buster Anderson in Teaching the Y's Business class. He started April 7.

Verne Rossen is recuperating at his home from a nerve injury that left him with a painful foot.

Mr. and Mrs. Ervin Hester returned home from Hot Springs, N. M. by the way of Ft. Worth where they visited their daughter and family, Cpl. and Mrs. Sonny Window.

Mr. and Mrs. Bob Grimes and her sister, Mrs. Lorene Goodman, and children of Borger were dinner guests of Mr. and Mrs. R. R. Allison Sunday.

Dan Dacus, student at Eastern New Mexico U. spent Easter with his parents, Mr. and Mrs. Leo Dacus and Ted.

Mrs. Elmo Kelly, a niece of the former Helen Eastwood and her little girl, from Gaymon, visited in Spearman. Mrs. Kelly reported Miss Deakin was again teaching in Gaymon. Miss Deakin taught here many years in the Math department of Spearman schools.

Mrs. E. D. Clement writes friends from South Dakota that when it isn't snowing there, it is raining.

Mr. and Mrs. Vernon Compton of Corpus Christi, are visiting their daughter, Mrs. Lona Nelson and Jerry this week.

Mr. and Mrs. Carl Tolliver and children from LaJolla Calif. visited her grandmother Mrs. Sophi Martin a few days last week. Mrs. Martin is critically ill.

Mrs. Bagley Hostess To Dahlia Club

The Dahlia Flower club met with Mrs. H. W. Bagley April 6. Mrs. Dally gave a very interesting program "Accessories" and Mrs. H. H. Crooks gave one on "Show Offs from Cast Offs".

Wright Sunday and called on the Bill Millers and Bruce Sheets. They cost something like \$200.00 to install in condition to gain this cheap system. That is three thousand dollars more than the cost of his well. He paid out thirty hundred dollars to pipe the natural gas to his place and his motor cost about fifteen hundred dollars.

But when you consider the difference of 10¢ an hour and about a dollar and a half an hour, he almost pays for his extra expense in the first year of operations. That's what the farmers who have the deep lift of water must secure. The natural gas is just like a shame and disgrace for at least 2 pipelines to cross the county and not hook on as many users as we want to get this cheap fuel.

### Fashions

By Mary N. Chambers  
Claudine had on a very pretty orange tiered skirt and chaireuse blouse. She wore a white necklace and earrings with it.

Lorette Mundy had on a pretty aqua squaw dress.

Miss Womble's printed suan dress looked nice also.

Kay, you're green nylon blouse looks pretty with your green and brown skirt.

Patty had on a new western skirt the other day. It was white nylon with green dots. She also has a solid white one.

Marilyn has a pretty green and red tiered skirt. She looks nice in it.

Nancy had on a new western shirt also. It is blue with red roses.

Nancy Archer seems to have changed her hair style. She has a poodle cut.

Gayle, you're grey dress with soft balls, hard balls, mallets, axes, knives, and a little bit of everything else. At the end he jugged with lighted torches. He did some interesting tricks and everyone enjoyed him.

Wednesday the high school was audience to be contest to decide who will enter the declamation contest at Stinnett next Friday. Jimmy Lynn and Mrs. Kirk Judged the contest. After much discuss' a they decided on Ann Vaughn and Larry Sparks. Judy Davis, Helen Taylor, Robert Sims were the other entrants. Mr. Lynn and Mrs. Kirk completed our declamers very much.

Mr. and Mrs. Ervin Hester returned home from Hot Springs, N. M. by the way of Ft. Worth where they visited their daughter and family, Cpl. and Mrs. Sonny Window.

Mr. and Mrs. Bob Grimes and her sister, Mrs. Lorene Goodman, and children of Borger were dinner guests of Mr. and Mrs. R. R. Allison Sunday.
