

Tailored Buttonholes

Tailored buttonholes for the best dress is a finishing detail many home demonstration club women are adding to the spring.

Machine basting along the center front line, and with the garment fabric next to the feed dog of the machine, stitch along the marked line of the interfacing.

Then you are ready to cut a lengthwise strip of fabric twice as long as the total length of the buttonholes and one and a half inches wide.

Then machine baste along the line. Fold under one edge of strip three-sixteenths of an inch.

Shorten the machine stitch and stitch on original tack stitching, starting and stopping on the baste line that mark the ends of the buttonholes.

We hope for this popular contracting firm that they will continue to "Move the Earth" and thus continue to serve the public.

Cooler Ride Enlarges Corn-on-Cob Market

Bigger markets for the sweet corn producer and better prices for the consumer are the goals of a science-industry program in which farmers will bag their sweet corn with ice for distribution to retail outlets in many major consumer areas.

JEST JESTIN

My brother swallowed a box of firecrackers. Is he all right now? I don't know. I haven't heard the last report.

Jarm Jopics

At least that's the opinion of Nobel Prize-winning chemist Harold C. Urey. His theory is that the moon was formed from accumulated dust particles.

Nobel Prize Winner Says the Moon Is Just a Lump of Dust

NEW HAVEN, Conn.—That moon that means so much to lovers and poets is nothing but a large lump of dust.

At least that's the opinion of Nobel Prize-winning chemist Harold C. Urey. His theory is that the moon was formed from accumulated dust particles.

Urey is one of the few men who view things sharply from the popular notion that the solar system began under conditions of extreme heat.

Urey also has something to say about the origins of the entire solar system.

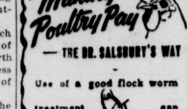

Club Organized

By Ann Vaughn

In the process of studying parliamentary procedure, the Speech Club organized a drama club to know as the Spearman Theatrical Club.

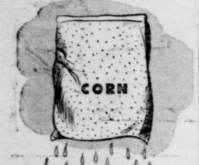

The purpose will be to participate in dramatic and speech activities. No former speech or dramatic experience will be required for membership.

FOUR SALE—1951 Plymouth Cranbrook 4 door sedan. Low mileage. H. H. Extras. Call 2161 or 5781 21-21c

Making Poultry Pay

Use of a good flock worm treatment can solve many poultry difficulties. You see, poultry worms not only cause intestinal damage.

CORN

This type of ice-bag will be used to ship sweet corn at a commercial scale for the first time this year.

1952 season will mark the beginning of the ice-bag program is undertaken on a large commercial scale.

Object of the icing is to reduce the interior temperature of the corn to within a range of 35 to 50 degrees. It was found that this range slows down conversion of the corn sugar to starch and lessens undesirable changes in husk and kernel color due to heat.

Bags used in the program are made of three-ply wet-strength paper and are perforated to permit drainage of melted ice. Each has a capacity of five dozen ears of corn and 20 pounds of ice.

Limited commercial application of the program has already established that iced corn can be shipped long distances without appreciable quality loss and commands greater interest.

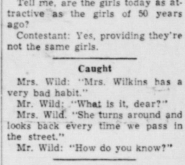

Farm Lobbies Are Not Biggest in Washington

There has been considerable talk recently about farm lobbies in Washington, but in terms of dollars and cents they don't compare with the activities of other groups who are trying to influence congress and other governmental organizations.

Figures are not available for 1951, but 1950 reports show that the two major farm groups spent about \$300,000 for lobbying activities during that year. The Farm Bureau and the Farmer's Union were the most important lobby groups, among some 41 persons or organizations registered as farm lobbyists.

By comparison, the Association of American Roadways spent \$237,000 in 1951 for lobbying purposes. The Atlantic Union Committee, a political organization, spent \$150,000. These two groups alone spent more than the two major farm groups.

One of the reasons why farmers may have an undue reputation for influencing the lawmakers is this. There is considerable lobbying activity in fields related to agriculture, the results of which may or may not be of benefit to the farmer.

ONE IMPROVEMENT

Plant nutrients made the difference in the picture above. Fertilizer was drilled with the band seeder of alfalfa (right) had no broadcast alfalfa (left) had no fertilizer.

Billings was telling a fellow commuter about the muscle-building course he was taking. "I've been taking this course for a year," he said. "Every week the mailman brings me heavier weights and bigger equipment."

"But you don't look as though you have any more muscles than I do before," commented his companion.

"Yeah, I know," replied Billings. "But you ought to see my mailman!"

TERRIFIC SPEED

A jet pilot had the job of carrying a Very Important Person to New York City. After a short time in the air he turned to the big shot: "We missed New York, sir. We'll have to circle back."

"How could you possibly miss a huge city like New York?" blurted the VIP.

The pilot confessed: "I blinked."

LONG PANTS Son: "Dad, what was your great ambition when you were a boy?" Dad: "To wear long pants. And I've had my wish. If there is anybody else in the country that wears his pants longer than I do, I'd like to see him."

Plant nutrients made the difference

Fertilizer was drilled with the band seeder of alfalfa (right) had no broadcast alfalfa (left) had no fertilizer.

Agro-nomists point out that alfalfa, clover and all types of legume-grass mixtures are well suited to summer seeding where the growing season is relatively long. One of the advantages of summer seeding is that nurse crop competition is eliminated during the hot summer months when the soil is comparatively dry.

Three essentials for sturdy, vigorous growth are: (1) good seed bed; (2) planting at the proper depth; (3) giving the young seedlings the nutrients they need for quick, sustained growth.

USDA Urges Careful Use Of Insecticides in Bins

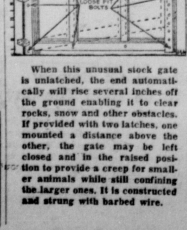

The careful choice and use of residual insecticide sprays on the walls and floors of farm bins and elevators to prepare them for the new crop, is urged strongly by the U.S. Department of Agriculture.

A grain sanitation program, which is being carried on jointly by the Food and Drug Administration, the Fish and Wildlife Service, and USDA, is expected to promote the extensive use of residual sprays by farmers and elevator operators this year to kill storage insects and help prevent infestations of newly harvested grain.

USDA officials believe that correctly used, residual insecticides can do much to maintain stored grain at top quality and save millions of bushels that are annually destroyed by insect pests.

DDT and methoxychlor sprays at 1 1/2 per cent concentration, and sprays containing 0.5 per cent pyrethrum or allethrin are recommended by the USDA. The methoxychlor, pyrethrum, and allethrin sprays are considered entirely safe and can be used according to directions without fear of health hazards. DDT sprays, however, should be used with caution and applied only at recommended dosages.

The farmer who is in doubt about a spray should consult his local county agent.

Self-Raising Gate

When this unusual sickle gate is unlatched, the end automatically will rise several inches off the ground enabling it to clear tracks, snow and other obstacles. If provided with two latches, one mounted a distance above the other, the gate may be left closed and in the raised position to provide a creep for smaller animals while still confining the larger ones. It is constructed and strung with barbed wire.

Smith & Robinson 'Move The Earth'

In reviewing the business activities of this area we wish to make favorable mention of Smith & Robinson, Grading Contractors, located at 401 S. Cedar on By-Pass Hwy. 117 in Borger.

They serve general building contractors, the oil fields, industries, municipalities and the agricultural interests with a complete earth moving service.

Smith & Robinson maintain the very best equipment and their excavating crews are fully experienced and properly supervised. Their services are in demand over a wide territory because of the interests that they serve.

This firm has made a liberal contribution to the industrial and business expansion of this territory and has always been glad to cooperate with any worthwhile movement that would increase industrial expansion and development and make it a better place in which to live and

Kills Wife Because He Loves Brother's Wife

SAN PEDRO, Calif.—Dean Dickey, 38, had been in love with his brother's wife for a year.

Dean made the headlines last year when, twice in a week, he tried to kill himself—once by swallowing liniment, again by inhaling gas.

He told police the reason was a secret love for Laurita Dean, wife of his brother, Alvin, 25. "I didn't know," Alvin said at the time. "Dean didn't say a word about his new love."

The youth recovered, and joined the navy. His family thought his young-love crush was over.

Back in port, he visited the home of a sister, Mrs. Joseph McKee, and her husband, Wesley. They chatted late and then retired.

The McKees were awakened by a shotgun blast. They found Alvin dead. Police Detective W. A. Holloway quoted McKee: "I think Dean killed himself in dependency over thinking he still loved his brother's wife."

Plane Bounces and Flies After Slipping Into Sea

TOKYO.—The story of a plane sliding off the ice deck of a carrier, bouncing on the water and then flying was reported recently by the navy.

The pilot was Lt. Com. William H. "Buck" Rogers, Austin, Tex. The plane was a Skyraider Guppy with a total crew of three.

Rogers jockeyed his ship onto the port catwalk of the aircraft carrier Valley Forge and blinked lights for launch.

United States Troops Blamed for Jap Waifs

TOKYO.—U.S. troops have fathered 200,000 waifs in Japan since the war ended, that's the assertion of the newspaper Yomiuri.

It said the figure was based on off-the-record data supplied by Japanese government officials. The officials, it said, declined use of their names because they feared the "displeasure" of the occupation.

Another Japanese newspaper, Tokyo Shimbun, said the 200,000 children were listed on government food ration rolls.

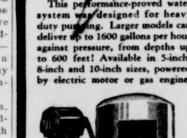

A U.S. occupation official and a Japanese government authority said the figure was far too high.

"It's way off the beam," said an American officer in the public health and welfare division of occupation headquarters. He said the situation was "a worse here than in any other in our own country."

FAIRBANKS-MORSE DEEP WELL Water Systems

In your need for water beyond the capacity of your present water system? Your water supply managed by falling water levels? You need a Fairbanks-Morse deep well head.

This performance-proved water system is designed for heavy duty pumping. Larger models can deliver up to 1600 gallons per hour against pressure, from depths up to 600 feet! Available in 5-inch, 8-inch and 10-inch size, powered by electric motor or gas engine.

Snooper's Scoops

Is it true that Nancy M. and Johnny C. are going steady or is it just talk?
We heard some more about one Tuesday night when Earl A. David C. Homer H. and another boy (unknown) were at the park with Beverly D., Patty G., Anne R. and Gwen P. The kids who were listening said it sounded like you were having a nice time.
Nancy O., what's this we hear about you and Pat W. going steady anymore?
Miss Womble and Mr. Handley seem to be great friends. At least it seemed that way Tuesday night.
Decorating the gym doesn't seem to be much fun, especially when you have to pass up a date to decorate.
Kay H., we heard that Coy H. was looking for you Sat. night. You should have been around.
Mary M. and Leon B. were together Sunday night at the cafe. Then we saw them at the school. Spec M. and Janis B. seem to like television. They are seen on main street quite often watching it.
Several couples were seen in Perrinton at the show Sat. night. They were: Judy M. and Ray M., Estelle P. and Durland S., Georgia B. and Dwan S.
Homer H. how are you and Phyllis B. getting along.
Janie K., what were you doing in the bookkeeping room with Joe G. the other night.

Senior News

Billie Jeanne Greaver
The seniors had a swell time the 17 of April, for this was their banquet night. They entered the building in their finest clothes and were escorted into the Top Hat Cafe. It was a very nice affair. The walls were of redk and there were pretty windows with red curtains. Looking out you could see the skyscrapers of Spearman. The seniors were quite surprised to see many of Hollywood famous faces. After dinner we had a dance and the music was furnished by the Top Hatters from Liberal. Everyone enjoyed themselves immensely and wish to thank the Juniors for the wonderful time.

Fashions

By Mary N. Chambers
Ann had on a pretty red skirt and white blouse.
Durland has a pretty tan nylon shirt with little green flowers in it.
Nell, your grey dress with pink and green stripes looks cute on you.
Marilyn had on a cute green and red plaid squaw dress Wednesday.
Nancy, your grey and red summer hatiste dress looked cute on you.
Marilyn had on a pretty gold and white striped blouse.
Beverly had on an unusual dress Wednesday. It is unbleached white with red bananas for trimmings.
David, your yellow nylon shirt surely is pretty.
Ann had on a pretty gold and white blouse and white striped blouse Wednesday.

Band News

By Jimmy Buzzard
We are working hard making preparations for contest which is at Canyon, April 24. We are working on our music and on our marching. We are hoping to bring home some high honors.
Our soloists are also working on their numbers. Although they are all worried about them, we know they will do fine and bring home honors for themselves and for our band.

Dedications

Sherry C. to Peyton G. - "No other love"
Homer H. to Phyllis B. - "I'm looking over a four leaf clover"
Judy D. to Jimmy D. - "Wherever you may be, Ted D. to Helen T. - "Take me in your arms and hold me"
Billie G. to Leslie R. - "Wedding Bells"
Billy N. to Delores P. "Indian love call"
Marilyn C. to David A. "Wild Horses"
Mary C. to Nick H. "String Along"
Spec M. to Janis B. "Take two to tango"
Jimmy R. to Mary C. "Hands Around the table"
Ann V. to Larry S. "Till the end of the world"
Jerry W. to Gayle M. "God's little candle"
Judy M. to Ray M. "If I believe"
Janie K. to Bill R. "If I could be with you"
Gwen P. to Bill R. "I love you truly"
Patty G. to Don D. "Because"
Earl A. to Peggy T. "Stilting Around"
Elvis P. to Belva S. "Cocoanut Grove"
Carolyn W. to Joe Mack H. "Darktown Strutters Ball"
Jimmy V. to Evelyn E. "Oh Happy Day"
Joe J. to Jeannette T. "Doggie in the Window"

Question Of The Week

WHAT DOES QUAHOG MEAN?
Estella Parrish - Some kind of a hog
Rosie Baker - Some kind of an animal.
Martha Easley - A new kind of four chop.
Janis Blandford - A different kind of hog.
Belva Sparks - A hog that did work in on fire.
Anne Riley - A pig that wins stock shows.
Miss Douglas - A pork with four chops.
Jimmy Pickling - A Arkansas hog.
Thelen Seroggs - A hog with the most rigid test that God or man or devils can subject it to.
Carolyn Wilmetth - A funny looking hog.
Mary Madden - Some funny kind of hog.
Johnny Campbell - A fish that has his love and loyalty to humanity.
Patience Keith - Some kind of mind.
Edith Ann Ooley - Its Johnny Campbell.
Louise Lee - A quick hog.
Gilbert Pendley - Quick Sand.
Elbert Pool - a fish that lives in the nose of ponds.
Bernard Dossett - A certain kind of hog.
A Quahog is a Large Species of clam or Bivalventar Mollusk.

Sophomore News

By Burl Buchanan
The sophomore class has been pretty busy lately. We had a ham shoot April 12 and plan to have another.
Ideal Boy

Smile - Wilbur Hall

Any Question

And it is said English is easy. We'll begin with box, the plura is boxes, but the plural of ox is oxen, not oces; one fowl is a

goose, and two are called geese. The plural of moose is moose; you may find a lone moose, or a whole nest or mice, but the plural of house is houses, not hies. If plural of man is always men, why shouldn't the plural of pan be called Pen? If I speak of a foot and you show me two feet, and I give you a boot, would a pair be called beet? If the singular is this and the plural these, should the masculine pronouns are, he, his, and him, but imagine the feminine, she, shes, and shins.

Fashions At The JR. SR. Banquet

By Mary N. Chambers
The girls who fought with the gold threads in the top was very pretty. She made it.
Billie Joanne had on a pretty light green ballerina formal with ruffles all over it.
Nancy's formal was yellow with a white net overskirt.
Nell had on a white formal with silver sequins scattered over it.
Deanna's was deep pink with sequins on the top.
Kay's formal was pink with a white overskirt and little pink ribbons that made bows in the back.
Marilyn's corsage was very unusual. It was white garnations with yellow rosebuds as centers. Her formal was red.
Janis had on a pretty aqua net and satin formal.
Nadine had on a cocoa brown formal that looked very nice on her.

THEME: THERE IS NO PLACE IN LIFE TO COMPROMISE ON TRUTH.

SUBJECT: CHRIST IS NOT DIVIDED

TEXT: 1 cor. 1:13 IS CHRIST DIVIDED? WAS HE CRUCIFIED FOR YOU? OR WERE YOU BAPTIZED IN THE NAME OF PAUL?
This subject will hold water and the criticism of any and all theologians. Christ is not divided. He never was and He never will be. The world is not only divided on who He was, and what He did, and what He has commanded us to do, but they have made hash out of what Christ told them to do. The division in the minds of people who have a warped mind on what Christ came to this world for, who saved him, and what He meant for them to do after He left this earth. Truth cannot and will not be destroyed, regardless of how many are abused and misled by liars and those that do not know the truth when they see it or hear it. We may compromise our faith with the devil on the truths in the Bible by not believing it or believing those that wrote it who made many mistakes but truth has never been changed. Truth and love are the laws of God and they will stand when this old world is on fire. We will sacrifice the truth, that doesn't destroy it, but it will destroy us to sacrifice the greatest and noblest principles we have in this life. When preachers have mixed up and messed up the truth or even crippled it, Truth will bear the most rigid test that God or man or devils can subject it to. Truth is unmovable. Christ was the truth and still is, and that is the reason he is not divided.
Christ is not divided on the purpose and plan of His coming into this world. He is not divided on his love and loyalty to humanity. Christ is not divided on the plan of salvation. Christ was not divided and neither was He ever tangled up by shrewd lawyers on anything in his life. He was not mixed up in court; neither was He ever deceived by the devil. Christ was never divided on sin and righteousness. He was the only man that ever walked on this earth that did not mar the pages of history with sin. He is the only perfect man that ever lived without sin. He set the only example for us to follow on this earth. He was the only begotten Son by the Holy Ghost that ever lived here on earth. We are God's creation. We came down the branches of Adam and Eve. Christ was with the Father in Heaven from the beginning of time. When God said, "Let us make man in the image of God." He was talking to His son, Christ is not divided on our salvation. His blood is the cleansing power for our salvation. His life is the guide of our Christian life to make us a success in this life and the life to come. There is no confusion in the life of Christ. Men and devils are divided on who Christ was and what His purpose was in coming to this world. What skeptics and infidels say about Christ will not divide the love and protection of God's children in this life on the power and work of Christ in this world.

One of the greatest tragedies in this life is for a father to be divided on love with his children. There should be no division in a family. Fathers and mothers should not have pets in the family. They owe one the same love and protection to one child as much as they do to another. To the sorrow of the family, this is not true in all cases. Children feel this first, then it shows up to the public that there is a jealousy among the children. What a letdown in the children when a father gets it in his mind that one of his children knows, everything and he is the only one that seems to recognize the superiority of a precocious child. He feels the rest of the children look after their mother and that is the reason they are so dumb. The families that are not divided always recognize the rights of the children as a family unit. There is no division with just fathers and mothers with their children. The good man is not divided with friends and neighbors. They are all treated alike when it comes to being fair and square with them in his dealings. Christ set the standard for Christians to go by. Those that have surrendered their lives to Him will live and die by that standard. There is no division in true Christians. O Yes! The churches are divided on everything from the janitor on up or down either way they want to go. Most churches that agree on anything unanimously is to agree to disagree. Everything will be divided and stay divided when the devil has anything to do with what it asks to divide people from the church down to any and all walks in this life. United we stand - divided we fall. I am sure we could use a modern translation and still be true to the one that said, "Bound together as Christians we stand, divided by the devil we fall and fall." It is not for the goodness of God this world would not stand until we could all get together to discuss what was making it fall. Wars are a living testimony why the human race is divided and want to kill each other on merciless battlefields.

What a blessing it is to know Christ is not divided and we can worship Him in spirit and truth! I cannot think of anything else that is not divided. Church organizations are as split as cordwood and in many cases as crooked. What has divided them? The devil! Nations are divided and wars are being fought around the world, and they cannot come to satisfactory terms. Nations and individuals will never be any closer as long as Christ is left out and pushed out by selfish men who have vain pomp and glory of this world in their own minds to rule in. Softness and greed is the only thing that divides men and nations and keeps them divided. As long as the devil is the referee we will have wars and divorces. He always stirs up instead of trying to quiet men down. The oldest division is among families. They are so stubborn and contrary that neither will give in. Take out the love and there is nothing to mix homes together. Love and justice are only permanent cords that bind men and nations together. Goodness and mercy is never divided only in love and service from man to man. The things we share with our fellow-man is divided, mutilated, and added to joy and happiness. There is no subtraction in life when we want to help others to be happy. We add to our own happiness by multiply and divide the blessings with others in this life. The only happy people we have are those that are content and happy. The only contented people we have are those who love and make others happy and contented.

Christ was not divided in his love and service with humanity but he divided both with all that He came in contact with. He divided all the most beautiful flowers with brilliant colors and the fragrance of the sweetest perfume. They are not divided in being true to men and animals but they share their beauty and color with both man and animals. They give off their fragrance and divide their seed with the wind and multiply their beauty with a new crop that blesses humanity and makes this a more beautiful world to live in. The good things in life have to be shared to keep it. The man that has no love in his heart has nothing to share. The man that has love will not and cannot keep from sharing it with the world. An established fact is that all we have to do is accept it. Christ is not divided on any of the things in this life. He divided all the good things in this world with humanity to make them happy in this life and the life to come. What a blessing it is for man to know the will of God and to be blessed. The more love and service I can share with others the more I will have for myself. This is a natural law of life that works on both ends of the line. It is not worth what we say to people that bring them to Christ but it is what we are before them that convinces them that Christ is real in our heart life. The man that will compromise on the truth will sell out and sacrifice all that goes to

stand for the truth in this life. There is no place in life to compromise and sacrifice the good things in life. Love and truth are the same. The good things in life are inseparable. The reason Christ is not divided on good and evil is because He is all good and his life and spirit ever-present and over-riding any evil that this world was ever exposed to. I am so happy that I can serve and worship a Christ that never changes with public opinion! We can always be sure when we are walking with Christ, we are in the best company that this world has to offer and we are on the straight and narrow way that leads onward. There are no forks of the road in the life of Christ that turns either to the right or the left in this life. The reason people are divided on Christ is because they have never been together with Christ. There are no mysteries in the love of Christ that will divide a believer, in Him. People who know not Christ in their hearts and minds are divided on what they don't know. The devil always works on the man's mind and heart by starting some theological argument between the non-essential in life. When Christ asked the woman at the well for a drink and offered her living water, she immediately began to ask some theological questions. "Our fathers worshipped in the mountain and you say worship here in Jerusalem." Christ forever settled the place to worship Him. He said, to worship Him in spirit and in truth. The only way we can worship Him is in our hearts. Time and place have nothing to do with our worship. This communion is a personal communion between the spirit of God and the individual heart. It is a perfect communion between God and man. How wonderful it is that we can have that perfect communion of the Holy Spirit. The devil cannot rob us of this giving worship. When a Christian realizes that he is responsible for God for his conduct and manner as a Christian he has won the victory that overcomes the world.

This 'N That

Around Gruver

Let us start off with a word of appreciation to Mrs. Jack Taber for the swell job she did last week writing this column. We really should resign in her favor, she does a much better job than we do. In fact there never would be much column if it were not for her help. So thanks a million.

Now that we have a new Mayor we hope that he and the city commission will do something about the trash that flies all over town. Some of the business places have wire enclosures for trash but with no top on them. In fact, the containers are filled with trash, the wind blows, and the trash is scattered all over. Vacant lots are full of it, because the owners are not there to clean them up. Home yards are full too, and in order to keep homes looking nice, you have to spend a lot of time cleaning up trash. All this could be avoided by simply putting some sort of cover on your container, and you could look nice and clean. How about this, Mr. Mayor?

For some time we had been hearing rumors that Mr. Brotherton was leaving as superintendent of our schools. Elsewhere you will find some information on the new superintendent. But here we wish to say that we are very, very sorry to lose Mr. Brotherton. We think he has done an outstanding job, and has made a fine contribution as a citizen. We are glad that our children were in school during a large part of his service. We wish him every success and happiness where ever he goes.

Quite a number of folk are on the sick list. "Mother" Atkinson was taken seriously ill and spent several days in the Spearman Hospital. She is better, but not well. At present she is with her son in Slinnett.

Mrs. Pete Barnes is in the hospital again at Shattuck. We do not know the nature of her illness, but she was very sick. We hope she is improving.

Mrs. L. L. Stokes underwent surgery in the Guyton Hospital last week and is making a good recovery. Mr. Stokes is an employee of the Rock Island.

Joe Miller is undergoing treatment in the Enid Okla. Clinic.

Have not heard how he is getting along.

Jake Shapley has not been well for some time, and as we write these lines he is in the Veterans Hospital in Amarillo.

Mrs. Nora Black is home from McAllen, Texas, where she spent the winter. While there she stayed with Frank Shapley's. She reports that her son Stancel Greenwood is very ill in a Reno Nevada hospital.

We are glad to know that Tommy Ward is home for a thirty day furlough. He and his brother Leslie are both serving in the U. S. S. Toledo and took part in the shelling of Wonsan Korea.

The Dan Hudsons are spending a vacation in Albuquerque N. M. Mr. and Mrs. S. C. Wilcoxon of Fort Worth have been the house guest of their daughter and son-in-law Mr. and Mrs. Don Hart.

Mr. and Mrs. Anstel Burras are the proud parents of their first child. They have a daughter, Naida Lee Burras, who weighed in at 5 lbs. 14 oz. Mrs. Burras is the former Betty Ruth McCallan, and Randolph McCallan is the proud grandfather. Congratulations everyone.

Mrs. Sam Byrne and Mrs. John R. Hanson of Glens, Texas where the house guest of Mr. and Mrs. Randolph McCallan. They are the mother and uncle of Mrs. McCallan. They were with them the furniture for Bill Lee's newly remodeled home.

CHALLENGE TO THE INDUSTRY
 -the new GMC 400-27 that outpowers and outclasses its field

GMC's new 18,000 GVW hauler not only dwarfs trucks of 16,000 and 17,000 GVW, but outshadows—and undercuts—those rated at 19,000. In fact, the GMC 400-27 is designed to outhaul any truck up to 19,500 GVW. Its new engine of progressive design is stripped of excess weight, yet built stronger to absorb the stress of really high compression. It gives you brisker response, more power and mileage from regular gas. It includes, as standard equipment, many features that are optional at extra cost on other trucks. As a tractor—or as a truck—it can increase your hauling ability, give you impressively better equipment—and save you both purchase and operating money to boot.

130 GROSS HORSEPOWER—on moving single carburetion, Valve-in-head engine, 270 cubic inch displacement, 7.5 to 1 compression ratio.

5-SPEED ELECTRIC SHIFT REAR AXLE—15,000 pounds capacity, is coupled with 4-speed Synchro-Mesh transmission, putting 8 forward speeds at the driver's command. (Single-speed axle available at a saving; 5-speed transmission optional at extra cost.)

20,000 GVW—137" or 149" wheelbase in tractors; 161", 179" or 197" wheelbase in trucks (9- and 12-foot platform or stake bodies optional).

ALSO STANDARD EQUIPMENT: 4,500 pound capacity front axle—Hydro-vac-actuated brakes—Moraine M-400 main and connecting rod bearings—Tocco-barbed crankshaft.

Your key to greater hauling profits
 A General Motors Value **Get a real truck!**

COURY MOTOR COMPANY
 Phone 5251 Hwy. 117 Spearman, Texas
 You'd be better off a real truck with your GMC dealer

Amazing the difference

TOWN TALK BUTTERMILK BREAD

Rural Schools Should Not Copy Cities

WASHINGTON, D.C.—A number of prominent educators are protesting that the 12,000,000 children attending rural schools should not copy the curriculum of the city schools.

As an example, rural children have high reading and spelling scores, but are deficient in natural and physical sciences. In agriculture, they are deficient in plant fertilizers, etc. For that reason, science should have an important place early in and throughout the curriculum.

Test-Tube City Idea Proves Popular With Kentucky Towns

LOUISVILLE, Ky.—The Kentucky Chamber of Commerce's idea of a "Test-Tube City" is proving to be one of the most successful and popular ideas adopted in the state in many years.

The plan, which was inaugurated last year, is getting the cooperation of many towns. It is an experiment in community development by which it is hoped to solve the problem of small towns and counties through the state to help themselves.

London, seat of Laurel county, was selected as the first "test-tube city." A development association was formed, committees named, and a plan of action adopted.

The Chamber of Commerce project is being tested in the city of London. A development association was formed, committees named, and a plan of action adopted.

As an example, a small eastern Kentucky community of about 5,000 population, reported after its first year:

Attracted one new industry... City-wide curbside curbside street lighting and improvements made... Three new buildings constructed in the area...

New high school, gym and auditorium started... Country club and tennis courts, 12 holes... Clothing factory, closed, mended and distributed to needy children... Month-long "Home Beautification" drive held during which sale of paint in the town was up 44 per cent in the first week and 91 per cent for the first week during the second week... Seven unit buildings raised and twelve trailers dumped inside city cleaned up and earth covered.

Whole Town Laughs At Kiwanis Club Paper

SPRINGFIELD, Ore.—The people of Springfield look forward every year to the Kiwanis Joke, a newspaper written, edited and distributed by the Kiwanis Club on April Fool's Day. Funds raised from the sale of papers and advertising is used for the town's needy kids. It is a project in which the entire town participates.

This weird journalistic creation hits the streets and the whole town takes time out to laugh. Kiwanis newsboys high-pressure everyone into buying the special edition for "whatever you think it's worth." Since the proceeds are used for the needy children in Springfield, the papers are filled with pay-outcheous prices.

The residents ally with many stories and crazy ads. Advertisers pay Kiwanians to publish copy that would result in lawsuits in any normal newspaper.

This year the club made \$1,000 for boys and girls work. Originally planned for a twelve-page paper, it came out a 14-page affair because so many merchants clamored to advertise.

Hudson Greets All Newcomers With Gifts

HUDSON, Iowa—Iowa towns are famous for their hospitality to newcomers, but fortunate indeed is the new resident of the small farming community of Hudson, Iowa.

Home Fire Drills Will Save Farm Families

Emergency Measures Can Be Worked Out in Detail

If every farm family in the nation would conduct regular fire drills in the home the loss of life and property would be reduced by more than half.

Never mind just bringing me twenty dollars worth of ham and eggs. The water bowed, ever so slight. "Sorry, sir, but we do not serve half-portioned in this hotel."

RAY THOMPSON

We Suggest You JOIN THE FOLKS OF WEST Hansford In Staging A Bigger and Better SPRING FESTIVAL MAY 29th-30th

Gruver Elevators, Incorporated

Mr. Thompson is at present time a director of the Gruver Chamber of Commerce and President of the Gruver Soft Ball organization. He was very active in the work of helping to prepare for the annual Spring Festival last year, and is already working toward another successful Gruver Spring Festival for May 29th and 30th of this year.

Thompson is a member of the Masonic order and is a candidate to go up in the Masonic order, with plans for taking the Scottish Rite work at El Paso this Spring. He states that he plans to be home a candidate for membership in the club.

Both Mr. and Mrs. Thompson plan to join the Eastern Star organization of Gruver and they have been informed that their membership can date from May 11th of this year.

In addition to Mr. Thompson, the Gruver Elevators Incorporated includes two other outstanding employees, who have been with the organization for more than 12 years. They are Dhe Lovens, who began his elevator work with Uncle Joe and Lawrence Gruver sometime more than 15 years ago; and Sam Bacon who has been a trusted and efficient member of the organization for more than 15 years. Both these men have learned the business under the hard school of experience, and with such teachers as Uncle Joe, Lawrence and Ray Thompson, we can vouch for these two fine Gruver citizens as excellent hard working citizens of a fine community.

In view of the fact that these write-ups are prepared in advance of the publication date, we can inform our readers that we fear not our observation, we can vouch for these two fine Gruver citizens as excellent hard working citizens of a fine community.

Mr. Thompson as manager of the Gruver Elevators, Inc. after the above had been written. We feel that we all will sustain a loss in losing the civic work of this fine couple, but we do want them to do the thing that they feel is best for their own future. We wish for Mr. and Mrs. Ray Thompson a very successful and pleasant future.

Name Hansford Bee Winner

A youngster who likes to read, and another who speaks 4-H work and radio were winners of the Hansford County Spelling Bees in Spearman.

Winners of the National Bee was 13-year-old Lana Craig, daughter of Mr. and Mrs. J. T. Craig, Hardesty, Okla.; and of the Junior Bee, 12-year-old Ronald McCarraugh, son of Mr. and Mrs. Loyd McCarraugh, Pexhoma, Okla.

Lana, who does 4-H work as a hobby, is a seventh grade student at New Hope Common School. She spelled against a boy and four girls from three schools in the county to win the title.

Ronald is a fifth grade student at Oslo Common School and spelled against another boy and six girls to be named top Junior speller. Five schools were entered in the Junior spell-down.

Pronouncer for the contest was Mrs. Strong, first grade teacher at West Ward School in Borger. Judges were A. L. Wilson, Jr., veteran Hansford County service officer; Jane Hart, clerk in the sheriff's office in Spearman; and Mrs. Nonda Anderson, clerk for the soil conservation and farm bureau in Spearman.

Director of the Bee was Judge Johnnie Lee, county superintendent of schools.

Gasoline Pete

BY Gene & Sparky

Do you have a wife that cooperates and our Missus sent a clipping from Columbus Dispatch (She took off for Ohio Easter to see that new grandson) to see how big league exhibition games out West. Columnist Earl Flora refers to the Pacific Coast League as the Pacific Ghost League.

It seems that their increasing jealousy of their major league brothers now takes the form of withholding major league exhibition games in Coast league cities within a week of the opening of their league season. As a result the Chicago White Sox have already contracted to move their training site to Tampa, Florida next year and the St. Louis Browns are also going to Florida.

Since Pittsburgh and the Cubs moved out to California this year we will probably have only two clubs remaining East through Texas next Spring. Woe is mine! My early April hobby is busting into bits.

Highest-powered ENGINE in the low-price field

plus all these other buyer benefits that only the New Chevrolet offers you!

Entirely new Styling Strikingly new—with longer, lower lines that set a new standard of beauty for low-priced cars. Roomier, richer interiors, too.

Entirely new Powerglide* Faster acceleration from a standing start with new automatic starting range... new power to pass in city traffic with new automatic passing range.

Entirely new Economy The most important gain in economy in Chevrolet's history! Two great engines now offer even more economy than you have enjoyed with Chevrolet in the past.

Entirely new Safety New one-piece curved windshield for greater visibility. New, sturdier construction. New, easier brake action and new Foot-Form brake pedal.

Entirely new Durability Chevrolet's new Body by Fisher is strengthened throughout. New heavier door-posts and sills. New bracing in roof and framing.

Entirely new Power Steering* Exclusive to Chevrolet in the low-price field! It permits you to park with finger-tip ease. You turn the wheel and the power unit does the work.

Pictured above, you see the great new 115-h.p. "Blue-Flame" engine—one of the most important advances in engine design in many and many a year. New High Compression! The 7.5 to 1 compression ratio is among the highest in the industry. Free-breathing carburetion, new aluminum pistons and many other features also play an important role in making this the most powerful engine in its field! Yet, both the "Blue-Flame" engine (teamed with the new Powerglide automatic transmission*) and the advanced "Thrift-King" engine (in gearshift models) offer a wonderful gain in economy, too. Why not come in and take the wheel on a demonstration drive? Why not make it soon? *Optional at extra cost. Combination of Powerglide automatic transmission and 115-h.p. "Blue-Flame" engine available on "Two-Ten" and "Big Six" models only. Power Steering available on all models. (Combination of standard equipment and iron illustrated is dependent on availability of material.)

'Hub' Crawford Shows 'Em How In Rodeo Ring

Early settlers attending the Annual Celebration and Old Timers Reunion at Spearman Friday and Saturday were highly proud of one of their number—when he, at the age of 76, won a third place in the Team Tying contest of the rodeo.

Hub Crawford, who can still show these youngsters how it was done in the old days, is the livewire oldster who copped both the third place trophy and the admiration of the contemporaries.

Rodeo officials reported following the conclusion of events that more than 300 entrants saw competition in the cowboy show out Attendance during the celebration with old timers and youngsters trooping down Spearman sidewalks after drives of hundreds of miles to arrive, was correspondingly high.

Festivities started with the Friday afternoon rodeo, then the two day program set into high gear with the Old Settlers Reunion and a three mile long parade Saturday morning. A huge barbecue feed followed at noon, and events were climaxed by the Saturday afternoon section of the rodeo.

At least 25 units were seen in the parade that featured 11 floats and five marching bands from Guyton, Okla., Graver, Buxton, Perryton and Spearman. Band trophies were presented to Guyton (1st), Graver (2nd) and Berger Junior High (3rd).

Commercial float trophies were awarded to Corner Drug (1st) and McClelland - Kessau Company (2nd).

Special event coat awards were given to Spearman Explorer Scout Post (1st), Karen and Nyma Crum (2nd) and Willard Jones (3rd).

Florence Russell of Phillips, riding her performing horse, the Karo Kid, drew repeated applause for her "dancing horse" act in the rodeo arena.

S. for the purpose of receiving the Tax Assessors lists and books for inspection, correction, equalization and approval.

FRED J. HOSKINS
County Clerk, Hansford County, Texas. 29-10

LESSON ON FLOWER ARRANGEMENT RULES FOR COMING SHOW

So much has been written on the subject of principles and rule of flower arrangement that the beginner actually knows what the major principles of design are, a general feeling of confusion is apt to be felt. Some teachers may list a dozen principles while others will say "Throw away all rules and express yourself!" In an attempt to clarify the situation, we should recognize that there are a few major or fundamental principles of design which are known to underlie all successful composition. There are five principles which appear consistently: HARMONY, BALANCE, PROPORTION, RHYTHM, AND EMPHASIS.

If the new arranger will pay close attention to the Blue Ribbon winners of competitive Flower Shows, the following deductions may be made:

1. The plant material and container used are almost invariably combined together.
2. The high scoring designs are invariably well balanced.
3. The original relationships of the design are pleasing.
4. The lines and masses within the design are so arranged that the eye may travel smoothly, not jerkily, through the design.
5. One idea, one color, one texture, predominates throughout the entire arrangement.

The deductions lead us to conclude that each of the successful arrangements must have followed the same fundamental principles which underlie every type of artistic composition.

In making our own arrangements let us remember that if any of the five major principles is faulty or lacking, our arrangement will fall. With this fact in mind we can recognize quickly the minor principles and rules relate them to their major or parent principle. Do not confuse rules with the major principles which they help to establish. As examples: Repetition is not a major principle, but a minor principle or rule which helps to achieve RHYTHM, the major principle. Contrast is a means of EMPHASIS, not a major principle. There are numerous rules which will aid in securing good BALANCE in design; also rules which help to create effective PROPORTION and HARMONY. Above all, never let us confuse elements of design, like color or texture, with principles. Neither let us call design a principle because we have observed that a successful design is the result of the application of all the major principles.

In elaborating briefly on the basic principles of design we find that the principle of HARMONY is of great importance to a flower arrangement, and its application is not at all difficult for the new arranger to understand. There must be HARMONY of color, sizes, textures and shapes among the flowers and foliage. The plant material used must agree harmoniously with its container from the standpoint of color, texture, scale and shape. Finally, the completed unit (plant material in container) must harmonize with its setting.

The flower arranger who, when creating a design with plant material, fails to achieve a visual satisfying balanced effect within the arrangement will be displeased with the design.

Call me 'Sniffles'

Yes, that name really fits me when I get a "cold." My nostrils clog-up, my head starts spinning, and I feel awful. But thanks to Dr. Salsbury's Ar-Sulfa, I've found a way to lick "colds." Ar-Sulfa in the drinking-water stops infections coryza ("colds") fast! Ar-Sulfa, that's for me! when you need positive medicines ask for...

DR. SALSBUARY'S
SPEARMAN DRUG
Your Retail Store

Why? Because BALANCE is a major principle of design. Any arrangement which appears unbalanced will fall. If a design is top-heavy or gives the impression of being top-heavy, it appears to be falling forward, we feel uncomfortable when we look at it. Such an arrangement obviously lacks BALANCE.

Likewise the combination of shapes and sizes together, if they are in good proportion and properly scaled to each other, will result in a pleasing design. Why? PROPORTION is a major principle of design and its application is so important that it will fall to please when it is artistically appraised.

Suppose the eye cannot travel through the design on smooth visual paths from the outer edge of the arrangement down to the center of interest. If such is the case, the design will lack RHYTHM, which is another major principle of design. There are numerous ways of securing RHYTHM once the purpose of that principle is understood. One way recognize color rhythm, textural rhythm, size rhythm, shape rhythm and rhythm of line in a truly successful design with flowers.

Lastly EMPHASIS, or the principle of dominance, is an important factor in any good design with plant material one idea

should dominate or be emphasized. One color should dominate, as should one texture of line and one area of solidity (center of interest). Too many colors jumbled together lack in effectiveness and distinction. A collection of too many varied textures and shapes, with no one texture or shape predominating, will fail to attract the attention. More than one center of interest will divide the attention and consequently provide an unsatisfactory result.

In conclusion, the rules which we use in making flower arrangements stem directly from a basic principle of design. The rule may vary according to different conditions or because of difference in plant materials, but it never changes. The rule is a means to an end, and one must never lose sight of the end or principle for a moment. Taken from an article by Inez A. Hamilton

Mrs. George See of Lindsey Oklahoma and her daughter are guest of the Vernie Rossos.

Mrs. Florence Reynolds, first place costume winner of Western clothes, visited with the Deon Kirks after the Rodeo, then returned to her home at Skellytown.

Mrs. Irene Foster of Slinnett was a Rodeo visitor Saturday.

Mr. and Mrs. H. L. Benjamin of Berger visited friends Saturday.

Mrs. Landrum Guest At District WSCS Meet In Pampa 4th

The Women's Division of Christian Service introduces to you Mrs. W. B. Landrum of Little Rock, Ark. as field worker. Mrs. Landrum has been a member of the Women's Division and the Board Missions and Church Extension. She has had wide experience in the Women's Society of Christian Service in her local church and as a District, conference, and Jurisdiction officer. This has enabled her to be effective in promoting the work of the society and the church since she was elected to the staff of the Women's Division in 1947. In Leadership Schools, Pastors' and Standard Training Schools, and in Schools of Theology, she is an accredited teacher. She has taught courses on the work of the Women's Division. She is an active member in the First Methodist Church in Little Rock, Ark.

Mrs. Landrum has her B. A. degree from Hendrix College, Conway, Arkansas, and has done graduate work at the University of Arkansas.

Bill Harbour of Follet was recalled old times with friends Saturday. He rode a mule after the 1963 prairie fire to administer to settlers in distress. The fire destroyed all the fuel and filled the water barrels with ash and debris, a blizzard followed the fire.

Mr. and Mrs. Dan Archer of Chillicothe attended the rodeo and visited relatives.

Bob Fuller and son Rex of Lubbock were rodeo guest of the Guy Faller.

Mr. and Mrs. Cherokee Sloan of Midland visited home folks and took in the rodeo.

Jerry Bowling is recuperating at home from an appendectomy.

Graver PTA Study Club To Meet

The last meeting of the Graver PTA study club will be held in the high school auditorium May 6, at 2:30. Everyone is urged to attend, as the subject for discussion is of vital importance to every parent and teacher. "What Youth Wants from It's World," and "Discipline, Buy By Whom" are the two subjects to be studied under the guidance of Mrs. J. R. Goodall.

On that day school will open at 8:30 a. m. and close at 2:30 p. m. so all teachers may attend. A nursery will be provided for pre-school children.

Carl Hull, WT Student, had seven of her college friends as home guest over the weekend when she visited her parents Mr. and Mrs. Carl Hull.

D. S. Traylor of Claude visited his son and family over the weekend, the Joe Trayers.

Mr. and Mrs. Dan Archer of Chillicothe attended the rodeo and visited relatives.

Bob Fuller and son Rex of Lubbock were rodeo guest of the Guy Faller.

Mr. and Mrs. Cherokee Sloan of Midland visited home folks and took in the rodeo.

Jerry Bowling is recuperating at home from an appendectomy.

Outstanding Lesson At Jonquil Club

Mrs. Rus Sanders entertained members of the Jonquil Flower club in her home Friday April 24.

Mrs. Pete Fisher gave an outstanding lesson on "What is a Flower Arrangement." This was very much enjoyed, and aptly given. She brought out many ideas on arranging flowers, among which were: Harmony, Balance, Proportion, Rhythm and emphasis. A discussion was held and a grouping of yellow tulips and greenery was correctly arranged, in accordance with the lesson given.

Following the business meeting presided over by the president, lovely refreshments were served to Mesdames: Jack McWright, Tom Staton, Virginia Latham, Billy Miller, Pete Fisher, Ralph Blodgett, and the hostess.

The next meeting will be May 7, in the home of Mrs. Jack McWhirter at 3 o'clock. An interesting program is planned for this meeting, with Mrs. J. D. Wilbanks showing color slides of the Rose Bowl parade floats, and flowers. All members are urged to be present.

Dr. and Mrs. Don Hackley and daughter of Estancia, N. M. were visiting friends in Spearman over Saturday.

Mrs. Sybil Allison of Sayre, Okla., visited her son and family the J. R. Allison over the weekend.

Refrigerators
It will not hurt to electric refrigerator to leave it turned off for a few months if people cars is taken. You should turn it off, clean remove all food, and leave the door open. If the door remains closed for a long time, a stale odor may develop inside the cabinet.

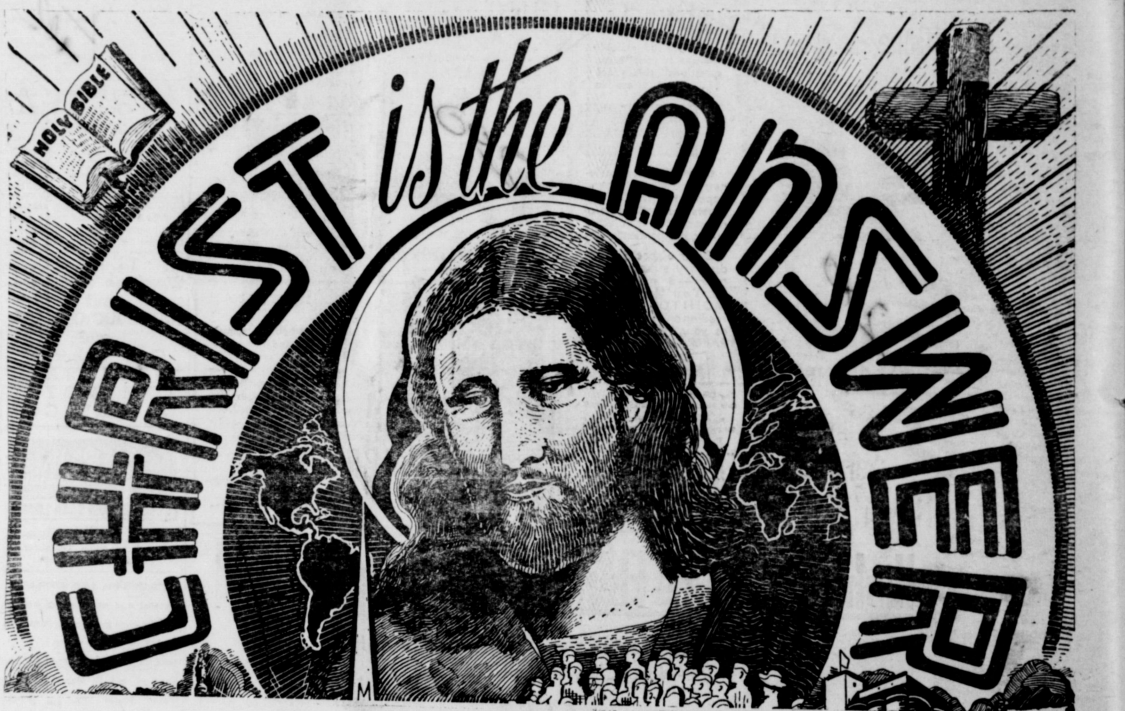

Home Sunshine
Sunshine in homes and gardens is as valuable as on the beach; and a surprising amount of it is available to those who seek it. Avoid overplanting with tall plants that shade the home grounds unduly, especially in planting near the house.

Why Coal Is Clean
Air cleaning of coal was begun 2 years ago but did not become popular until after World War II when the coal industry began to put greater emphasis on product preparation for better utility value. Washing and drying plants are also being used much more widely in bituminous coal mines.

Hot Spot
Into the yawning crater of Mt. Vesuvius volcano—the Campanian under Cortes sent Indian slaves to obtain sulphur for gunpowder.

Cotton Quota
How many yards of cotton were produced in the United States in 1950? 9,887,344,000 linear yards, enough to go around the earth 26 times!

Spacious Grounds
The White House grounds and buildings cover 16 acres.

—A WARM WELCOME AWAITS YOU!
