## District 1AAM Meet Set

There will be a District 1 American Agriculture Movement Skull Session on Sunday, April 22 at 2 p.m. in the Carson County Ag at Panhandle.

Topics to be discussed in-

clude 1. organize or not to organize, 2. gasohol progress and legislation and 3. grain compact, pros and cons.

Everyone is urged to attend.

Bob Farr, local Scoutmaster on the left, Wayne Cummings, center, and Harold Howerter were guests at the Lions Club banquet last week. In the picture above, Wayne Cummings receives his "Wood Badge" award from the two local scout officials.

## History Book Deadline Extended

The deadline on the Hansford History Book has been extended until May 20 due to 33 letters being mailed to late for the April 15 deadline. All stories must be in by May 20. Please get to work on your story. That means if you have been in Hansford County for 1 month or 1 year or 75 years. This book is for your children and your grandchildren. If you choose not to put your story in, your grandchildren may say, "Well, my grandparents lived in Hansford County in 1979. I wonder why it doesn't have anything about them."

This is a new history and if you live in Hansford County please call the museum or come by and pick up one.

If you need help on your story,

some one will be in the library from 2-3:00 p.m. each day starting April 23. Bring your names, dates, etc. and we will help you all we can.

Gruver and Spearman residents wanting someone to come by their homes, please call a field representative that is listed on the letter you received. Someone will come to your home to help you.

Please type and double space your stories and count the words and put at the end of the story. You have 500 free words, but if your story is over that amount and you don't want to cut it, you can pay 10¢ a word for all extra words over 500.

If you have any questions you can call the museum at 3008 or any field representative listed in the letter.

## Deadline Set For Corn Crop Insurance

The Federal Crop Insurance Corporation (FCIC) announced today that farmers in Dallam, Sherman, Hansford, Ochiltree, Hartley, Moore and Hutchinson Counties have until April 30 to apply for all-risk insurance on their 1979 grain sorghum crops.

According to Ben A. Jordan, Jr., Regional Director, a number of significant improvements have been made in the insurance coverage for 1979 crops, including a substantial increase in the amount of protection offered on grain sorghum.

The FCIC program is designed to provide protection against natural hazards such as drought, insects, hail, disease

and excessive moisture. Coverage extends from the time a crop is seeded until it is harvested.

The program is administered through the U.S. Department of Agriculture. Locally, information can be obtained from the County Federal Crop Insurance Office, 1416 West 8th, Amarillo, Telephone: 806/376-2268.

## Gas Rate To Be Adjusted

The Texas Railroad Commission has approved an increase in gas service rates for the High Plains Natural Gas Co. which will raise bills for customers in Spearman, Perryton, Booker, Canadian, Higgins and Mobeetie.

Hearing examiner Glenn E. Johnson recommended the increased rates, indicating the new rates will lie between those requested by High Plains and those recommended by the cities at a hearing held last September on the rate case.

The company's requested rate increase was based partially on a projected cost of service of 42 cents per thousand cubic feet (Mcf), while the cities

set the cost of service at 24 cents per Mcf. The examiner's recommended rates are based on a cost of service of 28 cents per Mcf and a base cost of gas of 85.8 cents per Mcf.

Johnson said the new rates would allow High Plains a 5.93 percent return on adjusted value of the invested capital of the transmission plant serving about 2,350 residential and commercial customers.

He said the new rate structure will continue allowing the gas firm a 90 percent purchased gas adjustment—the rate of a pass through permitted for increased gas costs. The company requested a 100 percent adjustment.

Under the newly authorized

rates, High Plains may charge \$1,3286 per Mcf of gas. The old rates were \$1,2434 per Mcf.

The examiner further explained High Plains will be allowed the new rates back to Nov. 25, 1978, plus a slight surcharge, in order to recoup revenues which would have been received had the new rates become effective 60 days after the rate hearing.

The City Commission in anticipation of this ruling earlier in the year had raised the gas rate 8¢ per Mcf. According to Lenis Simpson no more increase will be necessary, and in fact after about two months when the back charges are paid off the gas rate will be reduced to city customers 5¢ per Mcf.

## W.W. Cypert Services Held

Memorial services were held at 2 p.m. Wednesday for W. W. Cypert, 82, who died Monday at Borger. The Rev. Frank Oglesby, pastor, officiated. Burial was in Hansford Cemetery by Boxwell Brothers Funeral Directors.

Mr. Cypert was born in MacPherson. He was a retired forest ranger and had served with the U. S. Forestry Service. He was a Mason and a member of Woodmen of the World and First United Methodist Church.

Survivors include his wife; a son, W. C. of Borger; three daughters, Mrs. Elsie Mathews and Mrs. Opal Barnes, both of Spearman, and Mrs. Florene Towe of Oklahoma City, nine grandchildren and 18 great-grandchildren.

## Annual Spring Dance Recital

Dismissed were Penny Thomas, Glen Mackie, Mack Haskins, Marie Bell, Larry Lackey, Chris Wiley, and son, Dwight Sumner, W. B. Powell, Mary Brown, Dennis Brooks, Hazel Martin, Ray Delano, Marvin Sparks, Dean Rogers, Elsie Mathews, Lou Padilla, and Jerry Younger.

John Cotter died at 8 a.m. Tuesday morning at Hansford Hospital.

This load of clothing, bedding, and food-stuffs is being gathered at the First Christian Church in Spearman. It will be taken to the Wichita Falls disaster area this week.

## City Sales Tax Down For April

City sales for the month of March were down 11 percent over the same period last year. The sales tax check received from State Comptroller's office for this period was \$5,845.38

compared to \$6,842.97 for the same period last year.

1979 payments to date to the City of Spearman are \$35,401.30 compared to \$40,131.20 for the same period last year.

At the same time the City of Gruver receipts for 1979

are up 21 percent over the same period last year.

The City of Gruver received a check for \$1,056.25 for the month of March.

1978 payments to date are \$6,381.99 compared to \$5,274.10 for the same period last year for Gruver.

## Fad Diets Not Recommended

COLLEGE STATION - Fad or crash diets lack many of the essentials of a well planned weight reduction program says a registered dietitian, Mary K. Sweeten, also a foods and nutrition specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

An adequate weight-reduction diet has the following characteristics:

- provide all necessary nutrients
- fits lifestyle
- has pleasant, appetizing foods
- helps curb appetites by developing regular pattern of eating
- is satisfying and prevents excessive hunger
- contains familiar foods

--helps lose weight at recommended amount of one to two pounds weekly.

However, there is a countless number and variety of fad and crash diets used for rapid weight loss, the specialist points out.

One currently popular fad diet is the "Scarsdale Medical Diet," Mrs. Sweeten says.

This is a 14-day diet that is high in protein and low in carbohydrates and fat.

Dieters may find some aspects of this diet limiting, the specialist suggests.

### EXPENSIVE FOODS

This diet contains some very expensive food choices such as lamb chops and steaks several times throughout the week. Budget-minded dieters

could use lean ground meat and less tender choices with the same calories and less expense.

One ounce of lean meat provides seven grams of pure protein no matter which cut.

### REPETITION

Another limiting food choice would be eating a grapefruit every day for breakfast.

A variety of fresh fruit or juice would serve the same purpose. Fruit choices are needed daily as a source of Vitamin C and for some carbohydrate.

Also, eating the same for extended periods could lead to an allergy to that specific food, Mrs. Sweeten cautions.

### LIMITED MILK GROUP FOODS

Milk group foods are limited in this diet--cheese slices and

cottage cheese are limited and no milk to drink is offered.

Adults require two or more servings of milk daily. Milk group foods provide three-fourths of calcium needed daily, she continues.

When dieting, drink skim milk instead of whole milk and save 90 calories per cup.

### LIMITED VARIETY

This diet is so limited in variety that it strays from traditional eating habits.

Most overweight or obese people need to learn improved permanent eating habits.

About the best result they can expect from any fad diet is the possible loss of a little weight to give them incentive to lose down to their normal weight, the specialist adds.

### RE-EDUCATION

To lose weight successfully, dieters need to be re-educated to a new way of eating and maintaining this for the remainder of their lives.

They also need sound reduction diets which are nutritionally adequate so health is not endangered, she recommends.

This is done by reducing food quantity without taking away essential nutrients by cutting foods out.

Cut down on serving sizes but do not cut foods out. The lower caloric food choices of the basic four food groups provide the guide for reducing diets.

Adults need two two-to-three-ounce servings of meat group foods, two to three cups milk group foods, and four servings each of meat group foods, two to three cups milk group foods, and four servings each daily of fruit and vegetable foods and bread and cereal group foods.

Restrict the other group foods--fats and concentrated sweets--to three servings a day, Mrs. Sweeten suggests.

## NEWS VIEWS

Zbigniew Brzezinski, National Security Adviser, on SALT talks:

"We have gained or retained one or more advantages for ourselves for every one we have granted the Soviet Union."

John Rhodes, House Minority Leader, on Carter's windfall profits tax:

"The plan, if it is a plan, is too late and not headed in the right direction."

Jimmy Carter, President:

"I will start lifting federal price controls from U.S.-produced oil as of June and will complete that process by October 1981."

Never refuse to listen to advice, but rarely follow it.

## Lawns Recovering Slowly From Winter

COLLEGE STATION--Most lawns are recovering slowly this spring due to the unusually harsh winter, says a turfgrass specialist at Texas A&M University.

"St. Augustine and bermudagrass lawns appear thin and slow to recover all over the state," points out Dr. Richard L. Duble with the Texas Agricultural Extension Service.

"Floritam St. Augustine, which is more sensitive to low temperature injury, was particularly hard hit."

What might prove helpful to many is a pollen

## On Pollen

Ten million Americans suffer each spring, summer and fall because of pollen in the air. Hay fever is the common offender, but some suffer asthma or respiratory troubles; at the peak pollen season, many become seriously ill.

What might prove helpful to many is a pollen

count chart, showing the average pollen level at various cities throughout the country. Such a chart is available free at the offices of many allergy doctors.

It may even be advisable for some to move to a more pollen-free area. One moving from a city with a pollen count of 50 to one with a count of four or five often finds instant

relief. Of course, there are inoculations, new hope in food allergy tests and also antihistamines. If these don't work, the chart will indicate where things might be better.

Alfred Kahn, President's adviser on inflation:

"An honest person has got to admit that if this program doesn't work, we may get one or another of those alternatives, whether we like it or not."

## Teenage Shoplifting

**COLLEGE STATION** - Teenage shoplifting, "ripping off" and "just-for-kicks swiping" present an increasing menace to society and a test for law enforcement officials, Dorothy Taylor, a family life education specialist, says.

Teen thefts amounted to more than \$6.5 billion in the United States in 1975. These losses caused merchants to mark up prices about 15 percent to cover losses from theft, the specialist points out.

Miss Taylor is with the Texas Agricultural Extension Service, The Texas A&M University System.

## SHOPLIFTING FACTS

The National Retail Merchants Association found these facts about shoplifting:  
--Many people don't see shoplifting as a crime and don't believe they will be punished--but hundreds are every day.  
--One out of 12 shoppers is a shoplifter.

--Shoplifters come from all income levels and are both male and female--but women shoplift more than men.

--The average shoplifter is female and 14-18 years old with a family income over \$10,000.

## WHY SHOPLIFT

Reasons for shoplifting are as varied as shoplifters, Miss Taylor continues.

Compulsion, desire for attention, kicks, peer acceptance, revenge against the establishment, drug habit support, psychological problems, or because they don't think it's a crime are some reasons.

Need is rarely an actual reason for shoplifting, the specialist points out.

In fact, 99 percent of shoplifters have more than enough money on them to pay for the stolen item.

## OTHER CRIMES

However, shoplifting is not the only crime. Removing

## Golden Gleams

Make no friendships with an angry man  
-Proverbs 22:24.

Anger makes a rich man hated, and a poor man scorned.  
-Thomas Fuller.

How much more grievous are the consequences of anger than the cause of it.  
-Marcus Aurelius.

What'er's begun in anger ends in shame.  
-Benjamin Franklin.

Anger is excited principally by pride.  
-Samuel Johnson.

The size of a man can be measured by the size of the thing that makes him angry.  
-J. Kenfield Morley.

labels or switching price tags is also theft.

In addition, buying shoplifted or stolen items from friends is against the law--possession of stolen goods, too, is a crime, she adds.

**WHO'S RESPONSIBLE**  
Parents of minors are responsible for shoplifted goods.

Also, when a teen is over 16 years old, he can be arrested, prosecuted and have the crime on his permanent record.

**WTSU Plans Special Summer Program**

Dr. Roy E. Thoman, Professor of Political Science at West Texas State University, Canyon in announcing that the Political Science Department at WTSU has received a grant from the Texas Bureau for Economic Understanding to conduct a special summer program which will deal with the free enterprise system.

This 6-hour, graduate level program, designed mainly for junior high and senior high school social studies teachers, will be offered during the 1979 second summer term. We have

approximately 30 scholarships to award. Those receiving scholarships will be able to enroll for six graduate credit hours at absolutely no cost - free tuition, fees, books, and in some cases, free university housing!

We believe that the two courses making up this program will be stimulating and beneficial. "Political Systems and Capitalism" (POSC5912-1) and "American Government and the Free Enterprise System" (POSC5991-1) will both be offered in the afternoon, with

those awarded 6-hour scholarships will be required to send us a \$30 deposit, and those awarded 3-hour scholarships will be required to mail us a \$20 deposit. This is being done to

## Thompson-Gunn marriage is solemnized in Lubbock

Jeanne Thompson and Max E. Gunn, both of Lubbock, were wed on March 24 at 3 p.m. in the Sunset Church of Christ in Lubbock. Paul Vertz, youth director of the Hillcrest Church of Christ in Abilene, brother-in-law of the groom, performed the ceremony.

Jeanne is the daughter of Mrs. Celestine Thompson of Perryton, and Max is the son of Mr. and Mrs. Gene Gunn of Brownfield.

The altar was decorated with two three point candelabras entwined with greenery.

Nephew and niece of the groom, Steven and Sally Vertz of Abilene sang "You Need Me," "You," "Wedding Song," "Annie's Song," "Candle on the Water," and "What A Difference You Made."

Attending the bride as matron

of honor was Mrs. John (Sharon) Knudson of Gruver, sister of the bride, and serving the groom as best man was his brother, Gary, of Wichita Falls.

Flower girl was Tessa Knudson of Gruver, niece of the bride, and Kroy Knudson also of Gruver, nephew of the bride, was ring bearer. Guests were registered by Julie McQueen of Corpus Christi, niece of the groom.

Given in marriage by her brother-in-law, John Knudson of Gruver, the bride chose a contemporary candlelight dress made by her mother. She carried a nosegay of yellow sweetheart roses, white daisies, and baby's breath.

The matron of honor wore a full length green dress with a floral cape, and carried a

nosegay of yellow daisies and baby's breath.

Mrs. Thompson, mother of the bride, selected a peach colored full length dress, and Mrs. Gunn, mother of the groom, wore a full length aqua colored floral print dress.

Reception held After the ceremony, a reception was held in the fellowship hall of the church.

The bride's table held a candelabra centerpiece, and the three-tiered wedding cake trimmed with yellow roses. Yellow punch was also served.

Assisting at the reception were Sherry McBride of Arlington, Marilee McBride of Breckenridge, and Cheryl Green of Lubbock.

As her going away ensemble, Jeanne chose a black pantsuit. After a trip to Possum Kingdom

Lake, the couple is at home at 6402 Albany, No. 1112, Lubbock. The bride is a graduate of Spearman High School, and attended Texas Tech University and Panhandle State University. A graduate of Brownfield High School, the groom is also a graduate of the Texas Department of Public Safety Academy.

He presently works for the Department of Public Safety in Lubbock as a state trooper.

*In Fashion*

Clutch bags have won favor in fashion circles. The smaller bag, with or without a handle, will be a complement to new spring outfits.

A stunning, casual wrap is shown in crisp, linen-look polyester. It skims the body beautifully from shawl collar to the breezy opening when you walk.

### Shaping Up Our Letters

Because so much mail sorting is done today by machines, the Post Office Department is forced to set size standards, so that odd-shaped pieces of mail won't clog machines, tear-or tear other mail--and gum up the works, so to speak.

This might be a slight inconvenience to some, but it's obviously a necessary step. Two years ago the department warned users of the mails what was coming.

After July 15th, it has just been announced, envelopes must be 3 1/2 inches high and 5 inches long, as a minimum, and not larger than 6 1/8 inches high and 11 1/2 inches long, maximum. If larger there must be a 7 cents surcharge. If smaller they may not be available. Also, they must be at least seven thousandths of an inch thick.

The mailer can also be charged a surcharge for odd-shaped pieces of mail in some cases--after July 15th. The ratio for odd sizes is that the length must be between 1.3 and 2.5 times the envelope's height. Thick envelopes or packages (more than 1/4 inch) are excepted from the 3 1/2-in-high and 5-inch-long minimum and there are other exceptions. Between now and July 15th, learn about the new size standards--and use up odd-sized envelopes.

### Financing Congressional Elections

Hearings were recently completed in the House on a bill which would amend the Federal Elections Act of 1971 to provide for federal government funding of congressional campaigns. A similar bill is being pushed in the Senate.

The idea behind this effort sounds good, at first glance. It's said only the rich have enough money to conduct an election campaign nowadays, which could cost anything from two or three hundred thousand dollars to much more. So, it's argued, let the taxpayers finance all candidates.

The fallacy with this theory is that it would, in effect, perpetuate office holders in their congressional and Senate seats. That's because a moderate limit on expenditures greatly favors the incumbent. He begins with a big staff, free mailing, travel expenses, offices in his home district, or state, and a nice salary--plus the fact that he, as a member of Congress, is news, whatever he does.

With the same financing as a challenger, the incumbent would, in effect, have an enormous advantage. Columnist James Kilpatrick suggests, because of this, that the bills now being pushed be titled the "incumbent's protection bill," and there is much in this suggestion.

We already have federally-financed presidential elections. That recent innovation hasn't been tested sufficiently yet; certainly there have been abuses and many violations. The move to have the taxpayer also foot the bill for all congressional candidates is therefore, at best, premature.

### Thunderstorms

The thunderstorm season is approaching. Statistics show these storms contain highly destructive winds plus heavy electrical charges which claim many lives each year.

Summer weather is generally thought to be pleasant and many assume thunderstorms are mostly noise and fury. However, lightning from thunderstorms in late spring and early summer kill more people than does lightning at all other times of the year combined.

There are rules one should follow if caught in a thunderstorm, according to the Weather Bureau. If indoors, one should stay there and avoid contact with electrical equipment, the telephone and plumbing fixtures. If outdoors, one should stop work on metal fences, leave tractors, especially those pulling metal implements, stay away from the tallest trees, poles and solitary fixtures and seek shelter in low areas away from water, or in buildings.

There is a last, grim word of advice. Sometimes one can actually feel the growing intensity of an electrical charge leading to lightning. The hair stands on end or the skin tingles. If you feel these danger signs, the Weather Bureau says, drop to the ground immediately. This is an omen of a nearby, massive electrical charge.

In parts of Europe it once was believed good for the crops to plant chicken feathers.

### Employees Cited For Safety Awards

Northern Natural Gas Company's Liberal Area Office, including the Spearman District Office, recognized employees with twenty, twenty-five, thirty and thirty-five years service who have not experienced a disabling injury. Fifty-seven employees were honored from Area and District Offices during a special awards banquet,

April 10th. In the Spearman District, three employees have been cited for safety awards by the company. The individuals honored were: Johnny D. White, James G. Cook, and Robert O. Cochran for 20 years service. The safety award banquet was held in Garden City, Kansas at the

Hilton Inn. Addressing the recipients were Don Iburg, vice-president of the company's Transmission Operations Division and G. L. Tribble, manager of the Liberal Area Office. The Spearman District Office operates facilities for gathering, compression and transmission of natural gas.

### April Days

The last half of April contains anniversaries to be recalled by all Americans. The Battle of San Jacinto, which forced Mexico to recognize the independence of Texas, was fought and won on the 21st in 1836. Arbor Day is celebrated in Nebraska on the 22nd as is the opening of unassigned lands on the 22nd in 1889 in Oklahoma.

April 23rd is the birthday anniversary of the fifteenth President of the nation, James Buchanan, born at Mercersburg, Pennsylvania, in 1791. As the last President before the outbreak of the Civil War he believed the federal government had no constitutional right to use military force to keep states seceding from doing so but also was prepared to defend federal property against attacks.

On the 24th in 1814, British troops attacked, captured and burned Washington. The 24th is remembered in Mississippi as Confederate Memorial Day.

General U.S. Grant, 18th President of the nation and the commanding general of U.S. forces which won the decisive battles of the Civil War, was born at Point Pleasant, Ohio, on the 27th in 1822. The 28th is the anniversary of the birth of the nation's fifth President, James Monroe, in Westmoreland County, Virginia, in 1758. Monroe negotiated the Louisiana Purchase in Paris and obtained Florida from Spain, served eight years in the White House (1817-1824) and proved to be one of the nation's great Chief Executives.

### Bullocks Says Paperwork To Be Reduced

AUSTIN, Tex.—State Comptroller Bob Bullock Wednesday said his office will step up the battle to reduce confusing government paperwork through the introduction of a new series of tax return forms this month.

Bullock said eight new tax forms will be inaugurated in an effort to make returns less bewildering for taxpayers and to reduce errors and improve efficiency in the Comptroller's Office.

"Government paperwork should be a puzzle designed to test the ingenuity of the taxpayer," Bullock said.

The new forms—which are color-coded—are used to report city and state sales tax collections, metropolitan transit authority tax collections, or make

direct payment of city, state and MTA payments and pre-payments of taxes require less information than the old forms.

Beginning this month, quarterly tax filers will receive orange-colored returns. Monthly returns are shaded green, with direct payment returns on gold and pre-payment forms printed in pink. Supplement pages are gray-colored.

Bullock said the new returns, besides the color scheme, are easier to read because of a cleaner typeface.

The forms also request less information and more logically follow bookkeeping sequence.

"There are also more explicit instructions on or near the information blocks that request information that should make

the returns easier to prepare and file," Bullock said.

The new forms are part of a series of internal improvements being made in the Comptroller's Office to improve efficiency and lighten paperwork for many taxpayers.

Bullock said most taxpayers were alerted to the changes in the returns during the past couple of months.

"However, if an individual with a sales tax account has questions, they can be answered by employees of the Comptroller's field offices throughout the state or by calling Area Code 512/475-1931 or toll-free from anywhere in Texas at 1-800-252-5555," he said.

Telephone lines are less likely to be busy early in the morning

(8 a.m. to 9 a.m.) or late in the afternoon (4 p.m. to 5 p.m.), Bullock said.

Late last year, the Comptroller's Office replaced the Texas tax permit application required of persons or firms before collecting and paying sales taxes, use taxes, or cigarette, cigar and tobacco taxes.

The revised form had one-third the number of pages of the old forms and had 25 fewer information reporting blocks.

# Superwalk For March of Dimes Set

"Sole power" will be taking over Spearman and Gruver on Sunday, April 29 when the Future Homemakers of Spearman and Gruver High Schools sponsor its first annual Superwalk. Each of the participants will be walking on behalf of over 250,000 children born each year with birth defects.

Residents who are un-

able to join the "shoe leather express" can step forward to sponsor a walker. As a Superwalk sponsor you pledge a contribution to the March of Dimes for every mile your walker covers.

John McKissack, sports director for KVII-TV, will be serving as Honorary Chairman for the Superwalk and walking with the participants.

The Superwalk will start at 1:30 p.m. at the Spearman and Gruver High Schools. The walkers from both schools will

meet and have a picnic before returning to Spearman and Gruver.

Walkers are to turn in their pledges before May 21st to be eligible for any of the prizes.

Funds raised from the Superwalk will be used in Hansford County to assist March of Dimes continue its fight to prevent birth defects through public education, professional education, medical services, research, and community service projects.

For further information Contact Stacey Gross or Mrs. Cathy Potts.

## Head Lice Still A Problem

COLLEGE STATION---Despite the highest living standards in history, head lice appear to be increasing in the United States.

Dr. Carl Patrick and Dr. Phil Hamman, entomologists with the Texas Agricultural Extension Service, say head lice problems increase in Texas' urban areas during late winter and early spring. The tiny pests suck blood, causing intense skin irritation and itching. Continuous scratching may cause skin abrasions that could lead to bacterial infection.

Head lice are grayish, flattened, wingless insects about 3 millimeters long. The adult female attaches 50-100 eggs, or nits, to the hair near the scalp. They spread easily by physical contact. Even under the best sanitary conditions, infestations may occur among school children who are in close, daily contact, point out the entomologists.

Personal hygiene and not using another person's comb, brush or hat are the keys to preventing lice infestations. Shampooing with soap and water normally will not remove nits from hair since they are attached by a "cement," explain Patrick and Hamman.

Thorough laundering in hot, soapy water (125 degrees F. or more for at least 10 minutes) or dry cleaning kills lice and nits in clothing and bedding. Personal items (hats, combs, hairbrushes, wigs) can be best sterilized.

Infested persons should see a physician, emphasize the entomologists. Medicated lotions or shampoos can be prescribed for effective control.

Also, report suspected infestations to a physician, local public health authorities or school officials so the source can be located. Prevention is the most important control of head lice, emphasize Patrick and Hamman.

### Employee Receives Award

Charlotte Davis, Business Accounts Representative with General Telephone Company in Perryton, was presented a twenty-five dollar Savings Bond awarded through the Employee Competitive Awareness Program (ECAP). The bond was presented by O'Neal Phillely, Customer Service Manager, at a luncheon at the Perryton Club on April 11.

Mrs. Davis was chosen for the award after reporting a customer who was considering purchasing his own PBX System. Marketing follow up resulted in retaining the customer and installing Touch Call and updating equipment.

Employed by General Telephone Company since May, 1967, Mrs. Davis became Business Accounts Representative in June, 1977.

### Shopping For Health Insurance

COLLEGE STATION -- Time and study put into selecting a health insurance policy pay off, says Linda McCormack, a family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

The type and amount of insurance coverage available ranges from minimum basic protection to almost all-inclusive features which pay for practically every expense associated with illness or injury, she points out.

Whether evaluating a present policy or buying new insurance, here are some key points to explore in any health care program:

- 1) What services does it cover--and how well?
- 2) How many days of coverage do you get?
- 3) Are there deductibles? And how much are they?
- 4) What are the exclusions? These are the services and/or circumstances not covered by a health insurance policy.
- 5) How long are the waiting periods?
- 6) Are you covered for pre-existing conditions? How soon?
- 7) Is the policy non-cancelable by the company?
- 8) How about maternity benefits?
- 9) What is the insurance company's record for paying claims fairly and promptly?
- 10) How about maternity benefits?
- 11) How about maternity benefits?
- 12) How about maternity benefits?

Be sure to read the portion of the policy where these exclusions are spelled out.

A new policy may not go into effect immediately. There is a waiting period, usually two weeks to a month, before you can collect benefits for illnesses.

Some companies can get very tough about paying benefits for an illness or injury which existed before the policy was issued. These restrictions are explained in the policy, and may exclude any payment for as long as two years. So, take a careful look at the policy language.

No coverage is worth much if it can be cancelled at the option of the insurance company--perhaps, because of too many claims.

To avoid this, choose a policy that only you can cancel and for which the premium cannot be increased. This feature, of course, will add to the cost.

To hold down the initial premium yet keep the right to renew, look for a guaranteed renewable policy. This permits the company to increase the premium at renewal time, but only if it does so for all persons owing that particular type of policy.

If this is important, examine the policy carefully to see what limits--in time and dollars--are placed on the coverage.

There are always companies that are more efficient than others and some that would rather fight a claim than pay it. Although no easy source of information exists for comparing claim record payments of various companies, an inquiry to the state's insurance department about a specific company will usually bring helpful facts.

Or, contact the State Board of Insurance, 1110 San Jacinto, Austin, Texas 78701.

Also, check out a company's financial standing in Best's Insurance Report, a standard reference volume found in many public libraries.

Do you want the insurance company to pay 80 percent, with only 20 percent remaining for you to pay? Or, are you willing to assume a higher percentage of these future costs in trade for lower premiums now?

## Historical Survey Committee Meet Held

The Hansford County Historical Survey Committee, Inc. met in regular session April 13, 1979 at the library. The meeting was opened by President Fred Groves with a discussion on the Hansford History Book. He reported on a meeting with the publishers who stated that the deadline on submitting stories has been extended to May 20. If you missed the last deadline, get busy. This is the last chance to get your family's story in the History Book.

Fred also reported that help will be needed for typing the stories for people who cannot get theirs typed.

A museum report was given by Ruby Saltner with 62 persons touring the museum in the month of March. She gave a report on Museum Associations that would accredit the museum if the Hansford County Committee would join. The HCHC agreed to join the American Museum Association for 1 year. The Commission has received

several replies from old car owners that will have cars in the parade.

The Old Timers Reunion which is sponsored by the Commission will be at the Traylor Ford Company again this year.

The Commission plans on having a booth set up during the celebration for selling books. Johnny Lee suggested that we talk to the Highway Department about getting signs put on the creeks that the highway crosses in Hansford County.

Meeting Adjourned.  
Those attending were: Ruby Saltner, Fred Groves, R. L. McClellan, Clementine Renner, Ruth Gurnofy, Ruth Reardon, Sylvia Robertson, Helen Boyd, Jerry Blankenship, Jack Oaks, Johnny Lee, Christine Brandvik, Lois Shieldknight, Jaunita Pierce, Francis Kilgore and Grace Lyon.

In old England it was believed that a double hazelnut carried in the pocket would prevent toothache.

## Missionary Ladies Have Meeting

The Union Church Missionary Ladies met Tuesday, April 10 in the church annex with President Doris Jean Pipkin calling the meeting to order and the opening prayer led by Willella Martin.

The ladies decided to meet the first and second meeting Tuesday of May due to Vacation Bible School starting May 21.

They chose the floor covering for the kitchen. It is to be laid sometime the week of April 16.

A discussion was held on the possible ban on T. V. of religious programs and what we as Christian groups and individuals can do about it.

The devotional, given by Sister Jesse Schubert, was the reading of a letter from a missionary in New Guinea and the reading of Psalms 37.

The meeting adjourned for luncheon and the ladies returned after the luncheon to quilt. They made 4 quilts for the mission fields.

Those attending were: Viola Smith, Patsy Burrell, Willella Martin, Wanda Burke, Jesse Schubert, Irma Pond and Doris Jean Pipkin.

Their next meeting will be April 24 in the church annex.

## Library Board Meets

The Library Board met in regular session in the Board Room Monday, April 9 at 3:30 p.m. with Chairman James Cunningham calling the meeting to order. The minutes of the last meeting were read and approved.

The librarian reported a circulation of 2163 books after the month of March 11, new cards issued and 49 new books processed.

The Library established a Memorial Fund which will be used to purchase Audio-Visual Materials.

Librarian, Rita Curtis, gave a report, on the TLA Convention which she attended on April 4 in San Antonio.

The next meeting will be Monday, May 4 in the Board Room at 3:30 p.m.

## Salvation Army Marshalls Forces To Aid Tornado Victims

The Texas division of The Salvation Army has marshalled all of its Texas forces to the Wichita Falls area to aid victims in what is known to be the most devastating tornado disaster in the history of the state of Texas, reported Captain Joseph Bennett, state disaster director of The Salvation Army headquartered in Dallas.

Major David Milkes, Texas general secretary, commands the Wichita Falls communication center located in the City National Bank of Wichita Falls. Disaster canteens from corps in Wichita Falls, Fort Worth, Dallas, Austin, San Angelo, Midland and Sherman have sent to the immediate disaster area to help feed and care for the thousands of victims.

Fifty Salvation Army officers and staff, plus many canteen volunteers are working together on a 24 hour basis during the crisis.

Captain Harvey Harwell, Wichita Falls corps commander, who has a medical background, has been able to identify many of dead and has aided in treatment of 147 of the injured.

As of dawn on April 12, Salvation Army disaster can-

teens had served meals to 15,000 victims.

The Salvation Army corps center housed over 100 of the homeless and provided 320 meals. Twenty five women volunteers are presently serving round-the-clock at the corps center preparing sandwiches to supply the canteens.

Thirty five missing persons have been located by Salvation Army officers and personnel, and next of kin or interested parties have been notified. Requests are being received from throughout the nation.

A clothing center has been set up in the Harrell School on Seymour Highway in Wichita Falls.

"The Salvation Army was extremely fortunate in having three generators supplying electricity while the rest of the stricken area was without," said Captain Bennett. "This allowed us to work at full capacity from the beginning of the emergency in helping to return the area to some semblance of order."

Meanwhile, 65 miles away in tornado-struck Vernon, Texas, The Salvation Army Service Unit committee is in action. Captain Robert Vincent, corps

commander from Midland, Texas, is on the site with a disaster canteen.

Vernon Service Unit committee members, including Mr. Harold Beam, whose home was claimed by the calamity, are working with Mr. Jim Stroter, Salvation Army field representative, in aiding victims in Vernon and surrounding areas.

"Despite the concentration of Salvation Army forces in the Wichita Falls area, regular Salvation Army worship services will be conducted as usual in corps chapels throughout Texas," Captain Bennett assured.

"All the energies of The Salvation Army in Texas are centered in this area of destruction and emergency," stated Lt.-Colonel Harlan M. Cleveland, Texas divisional commander. "We are meeting an extreme need at the point of need without regard to cost or physical energy. We know that God and our good citizens will provide from their hearts as always."

## Cattleman Blasts "Beefless Wednesdays"

FORT WORTH, TEXAS, Apr. 10, 1979--A call for "beefless Wednesdays" represents yet another ill-conceived attempt to vent the nation's frustration with inflation on a single commodity, a Texas cattleman said here today.

John B. Armstrong, president of the Texas and Southwestern Cattle Raisers Association, was referring to a campaign by the New York City Department of Consumer Affairs that calls for consumer boycotts of beef on Wednesday. He also criticized government officials who have "highlighted" beef prices as a leading contributor to inflation.

"Consumers and government officials must realize that beef prices do not cause inflation. Inflation is caused by continued deficit spending by government, unfavorable foreign trade balances and union wage demands which exceed increased productivity," Armstrong said.

The leader of 13,000 livestock producers in Texas, Oklahoma and surrounding states called for a hands-off attitude from government and challenged consumers to sharpen their shopping skills.

"The lesser-priced beef cuts like stew meat, liver and the variety meats are just as nutritious as the higher-priced cuts. Consumers should also consider alternate ways of cooking," he said.

The cattlemen emphasized that one hour's wages, after taxes, today will buy the average American consumer one and two-thirds pounds of beef, compared to nine-tenths pound in 1949.

"The fact remains that only in recent months have beef prices, from farm to retail, begun to catch up with other prices. For the last five years, cattlemen have been subsidizing consumers with bargain prices while they, in turn, have taken a financial bloodbath," he said.

The only-term solution to rising beef prices, according to Armstrong, is the rebuilding of the nation's cattle herds.

Cattlemen are rebuilding their herds, down eight million head from 1974, but warn any attempts to hold beef prices through boycotts and price cut-

tings, as was done in 1973 with disastrous effects, would force further reductions and higher beef prices.

"All that we, as cattle producers, want from anyone is the freedom to conduct our business within the economic framework of supply and demand. It's the American way," Armstrong said.

## Gasohol Bills Get Recommendation

AUSTIN--The Senate Natural Resources Committee reported both of Senator Bob Price's gasohol bills to the full Senate with a favorable recommendation Tuesday.

Senator Price called on witness, Carl King of the Texas Corn Growers Association, during the brief committee hearing. Acting Chairman of that committee, Senator Bob Vale of San Antonio, told Senator Price that the committee was all for his gasohol program and the

bills were voted out of committee unanimously.

S.B. No. 644 provides for development contracts in the amount of \$20 million to be made available to any person, corporation, partnership, municipality, etc., for the construction of gasohol or related facilities.

S.B. No. 645 provides for the state funding of a pilot gasohol plant. The Texas Energy Advisory Council will determine the amount of funding for the

plant.

"We did our homework," commented Senator Price on the favorable committee action. "I think we are getting closer to the gasohol revolution that will sweep this country in the years ahead. I am confident that the legislation will pass the full Senate," said Senator Price.

In parts of France it was considered good luck to dress up a cat in ribbons and ears of corn during harvesting.

## Current Fashions

COLLEGE STATION -- Use current fashions to emphasize best features for a "terrific" look, a clothing specialist, Becky Culp, recommends.

Current slimmer lines add fewer apparent pounds than previously popular tiers, ruffles and other extra gathered yardage, she points out.

Select sharp vertical seams, slits, single pleats and prints for added apparent height.

Ms. Culp is with the Texas Agricultural Extension Service. The Texas A&M University System.

Sharp horizontal details add width and shorten. Use them to balance the figure for a more symmetrical look.

For example, use popular shoulder fullness to balance a wider hipline, she suggests.

Muted dark or cool colors and small scale prints are slenderizing.

Bright, light or warm colors and large scale prints advance and add apparent pounds.

Cool colors include blue green and purple while warm colors are red, orange and yellow, the specialist explains.

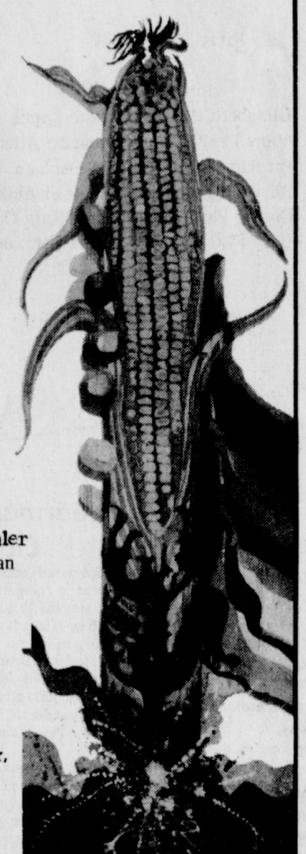

Medium weight, textured fabrics are flattering to most figures.

Shiny, bulky and stiff textures add size while clingy textures are figure revealing.

Eye catching accessories located near the face are flattering because they move the eye upward and focus attention on the face, Ms. Culp adds.

Scene from the Plum Picker's Dance in "TEXAS", the musical romance of Panhandle History by Paul Green. This show plays on summer evenings in the Palo Duro Canyon State Park, 30 minutes from Amarillo and Canyon Texas. For tickets and information write "TEXAS", Box 268, Canyon, Texas 79015 or call 806-655-2181.

Canyon, Texas.....There's a plum picking party for Elsie in "Texas" - the musical drama of the Texas Panhandle which plays summer evenings in the Texas Panhandle - a picnic for Elsie who came west from St. Louis afraid of everything: roadrunners, gopher rats, hoppy-toads.

There are dances and sack races, plum picking from the plum bushes which grow wild in the draws of the Palo Duro Canyon, and there is a blanket toss.

And Elsie comes to see beauty and grandeur in the great wide land instead of loneliness.

Her story, and that of the man in her life, will be told in "Texas" from June 20 through August 25 this summer of 1979, the fourteenth season for "Texas."

The Pioneer Amphitheatre where "Texas" plays is half an hour's drive from Amarillo and Canyon, Texas.

Amarillo is one of the great transportation centers - a gateway to the west - served by 5 airlines, 2 bus lines, and 6 interstate highways. It is a convenient stop for travelers from all directions.

For tickets and information call (806) 655-2181 or write to Box 268, Canyon, Texas 79015.

Bus service from Canyon and Amarillo is available to each performance and barbecue dinner is served at the theatre.

**USING GASOLINE**

DES MOINES, IOWA -- Iowans have been fighting the rising cost of gasoline and stretching fuel supplies by going to 400 service stations for gasohol. Iowans reportedly pumped an estimated 5.3 million gallons of the fuel into their tanks just in February.

**HIKE CRUDE PRICES**

NEW YORK -- Mexico and Indonesia have boosted the prices of their crude oil exports above the 9 percent increase approved by the Organization of Petroleum Exporting Countries.

18 Arab nations agree on boycott of Egypt.

**WASHINGTON NOTES**

**PRICES CRITICIZED**

President Carter and members of his administration criticized excessive prices and the profits that flow from them, but said increased profits are desirable on most occasions. The administration also decided to tighten a provision of its price guidelines to make it more difficult for businesses to automatically raise prices to offset higher costs.

**ASBESTOS & DRYERS**

Confronted with evidence that home hair dryers may release particles of asbestos, the government rushed to obtain more information on the possible cancer risk to those who use them.

**ON GAS RATIONING**

Energy Secretary James R. Schlesinger said implementation of gasoline rationing in the United States would be caused by world developments far more severe than a decision by OPEC to increase crude oil prices.

**ON UNDERGROUND TESTS**

President Carter is seeking to accelerate underground testing of nuclear weapons while progressing toward an agreement with the Soviets to ban such tests. Carter is asking Congress to add \$12.8 million to the \$225 million already appropriated for nuclear testing in the current fiscal year.

**ON UNEMPLOYMENT**

The unemployment rate remained at 5.7 percent for the second straight month in March, the lowest rate in 4 1/2 years, the government said. The report said there was optimism among Americans that they can find jobs.

**ON WINDFALL TAX**

Congressional battle lines are reportedly forming against President Carter's proposal for a "windfall profits tax" on oil companies, with his formula for distributing the revenues drawing the most fire.

**COMMITTEE & BUDGET**

The House Budget Committee has approved a fiscal 1980 budget with a deficit \$3.5 billion smaller than President Carter proposed.

**ON SALT TREATY**

The United States and the Soviet Union has moved "very close" to concluding a new strategic arms treaty, according to Secretary of State Cyrus R. Vance after a talk with Soviet Ambassador Anatoly Dobrynin.

**ON 'PROFIT-GOUGING'**

AFL-CIO President George Meany has criticized the rise in profits in the fourth quarter of 1978, which was the period in which President Carter's voluntary program to restrain wages and prices got underway. He said the fourth quarter increase in profits "demonstrates the greed of corporations and their disregard for the general well-being of the economy."

# UGLY

# OR

# BEAUTIFUL?

It all depends on whether or not you are a lobster-lover. To those who enjoy this succulent fruit of the sea, a lobster is a thing of beauty. To others, it seems incredibly ugly.

Beauty is "in the eye of the beholder," but, contrary to another old saying, it is not skin deep. True beauty often can't be seen at all. It is something you feel, something of which you are aware—not necessarily seen.

Beauty, for instance, surrounds you when you walk into a church. There is something in the atmosphere that you can't quite define. No matter what's been happening to you, in God's Home, you feel a sense of peace, of sanctuary.

Had that experience lately?
