

The Spearman Reporter

THE SPEARMAN REPORTER, HANSFORD COUNTY THURSDAY, SEPT. 1, 1955

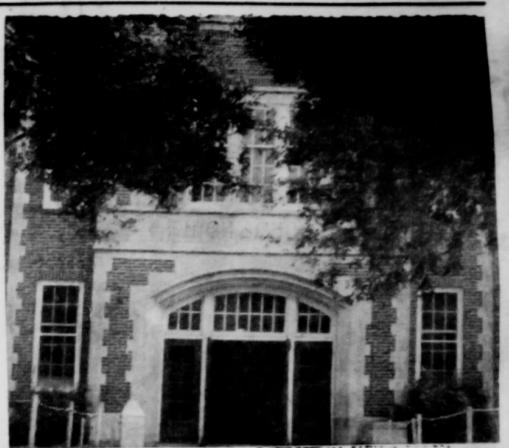

School pictured above, opened yesterday, August 31st. The school opened Tuesday, August 30th. Superintendent of the district is James Highsmith.

The Gruver High School pictured above, is well known to all graduates of the Gruver area. Supt. of schools at Gruver is A. Dooley.

Pictured above is the fine new Gruver Grade School building, one of the finest school plants in the state of Texas.

The Spearman Schools opened today, September 1st. The Superintendent of schools is H. R. Hartman. This recent photo of the Spearman High School was taken last week, along with the other school pictures.

Funeral Services Honoring Mrs. Frank Fleck Held Monday Aug. 29

One of its best citizens last Friday night, Mrs. Frank Fleck, died at a hospital in Perryton after a long illness. She was 86 years of age. Her son Bill was with her at the time she died. She was a member of the Methodist Church and had been a member for many years. Her husband, Frank, died in 1929. She is survived by her son, Bill, and her daughter, Mrs. Ruth Lee. The funeral services were held at the Methodist Church in Perryton on Monday, August 29, at 10 o'clock. The Rev. Cecil Ottlinger, pastor, officiated. Burial was in the cemetery at Perryton.

Visit With Billy Brandt

Mr. and Mrs. Dee A. Jackson and Mr. and Mrs. Fred Brandt went to Memphis, Tenn. recently where they enjoyed a short visit with Billy Brandt who is still a patient in Kennedy Hospital. Billy was improved since the visit. He was well when he returned to his home in Perryton. He is still recovering from his illness. His family is very concerned for his recovery.

Master Masons Invited To Shrine Picnic

All Master Masons and their families of this area are extended an official invitation to attend the annual Shrine Picnic to be held at N. T. N. Park West of Spearman and South of Gruver on the evening of Friday, September 16th. This public invitation will be the only official invitation to Master Masons and their families. President Jimmie Hester stated that there will be Shrine visitors from several nearby counties, including the Potentate of the Khiva Temple of Amarillo.

Mrs. Adams Is New Librarian

Mrs. Mable Hart Adams took over the duties of Hansford Public Library, Monday August 29. She replaces Mrs. Pearl Reed who resigned to take up residence in California. Mrs. Adams was assistant Librarian three months, her tenure beginning in June. She has lived in this area eleven years. She was a valedictorian of her class when she graduated from Gruver High School. Mrs. Adams has two small sons, ages 7 and 4 and lives in Spearman. She was surprised to learn that no Texas Universities offered correspondence courses for Librarians. In fact she has found out that very few States do. At present, the courses offered by the University of Minnesota seem best suited for her work. However, Mrs. Adams will consider others before she enrolls for a course. She feels that her particular work as Librarian here.

J. D. Floyd Family Move To California

Mr. and Mrs. J. D. Floyd and Family will move very soon to Buna Park, California where they will make their home. J. D. has been in the Grocery and Locker business with his father for the past several years here in Spearman. He plans the same sort of employment in Calif.

Cooperative Kindergarten Organized In Gruver

Friday, August 26, a cooperative kindergarten for Gruver was organized. The class, to start Nov. 1, will be held in one of the unused classrooms in the new gymnasium. The group was delighted to secure the services of Mrs. Bob Thom as teacher. Children who will be five by January 1, 1956, will be admitted. Registration is until September 15. Tuition was set at ten dollars a month plus a five dollar registration fee. This is to cover supplies. Most of the equipment is going to be donated by different members.

Mrs. Hudson will serve as chairman of the executive committee, with Mrs. Dayton Barkley, treasurer, and Mrs. R. A. McMillan, secretary. The meeting was attended by mesdames Bill Maupin, Don Gross, Vic Chacon, Joe Walker, Kenneth Finley, Roy Walker, Cecil Ralston, Jim Cator, Pete Cluck, Dayton Barkley, R. A. McMillan, Don Hudson, and Arnold Bayless. Members who were unable to attend were mesdames: Grover Taylor, Bobby Gruver, Harold Boyd, and O. R. Blount.

Gruver Church To Have Reception For New Pastor

The First Christian Church of Gruver will have a Reception for the new minister, J. W. Duke and family, at the Church Fellowship Hall from 7:30 to 9:30 Friday, September 2, 1955. Bro. Duke, his wife Margaret, and their three sons, Larry 9, Gary 8, and Tim 3, come from Kansas City Missouri. Bro. Duke has accepted the Pastorate at the Gruver church. Every one is cordially invited to the Reception.

Card Of Thanks

We, the family of Mrs. Frank Fleck, would like to express our appreciation to everyone, who was kind and helpful during our recent sorrow. Words cannot express all we would like to say. You were all so kind. May God bless you all.

Mrs. Potts Goes To Canal Zone

Mrs. Bob Potts flew from Amarillo to the Panama Canal Zone in 15 hours. She left last Sunday to join her husband Pfc. Bob Potts who will be stationed there a year. Mrs. Potts has been living with her parents Mr. and Mrs. Bill Martin while waiting for Bob to get an assignment.

Francis, sec. 12, blk. 1, CHUF Co. sur. location, 4 miles E. Bernstein, PD 7500.

Visitors at Garrett Allen Home

Mr. and Mrs. Neal Tragdon and daughter, Bettie Lee and Rachel of Ashboro, North Carolina, were visitors in the Garrett Allen home the past week. The Tragdon family were enroute to Yellowstone Park on their summer vacation and came thru Spearman to visit with their old friends. Garrett said he was mighty glad they made the trip this summer. They had visited him a couple of years ago before he had his irrigation well, and his farm was as dry as powder—but this year he could proudly show his friends what this country will do when a little water is applied.

Class Meeting Sunday Evening

A class meeting will be held at the Pat Cates residence, Sunday evening, 6:30 P. M. This meeting is open to all members of the class of 1941. Bring your husbands and wives.

Lynx Will Probably Be Dark Horse Of District This Year

The Lynx will probably be the dark horse of the District this year. They did not win a district game last year, but have a big majority of their boys back this year. Coach Roy Pennington announced the following boys available for this year's team, although they haven't all been out for practice, due to summer work. Jimmie Turner, 158, Jr. Billy Spiller, 165, Jr. Chunky Blackburn, 160, J. Lester McLain, 150, Jr. Jimmie Fickling, 170, Sr. Fred Hoskins, 165, Jr. Bill Wilmeth, 132, F. Charles Traylor, 114, F. Dale Jones, 170, Sr. Jerry Mitts, 121, F. Thomas Rawls, 148, Sr. Dan Smith, 147, S. Jimmie McLain, 115, F. Robert Sims, 145, Sr. Verlin Beline, 140, Soph. Danny Kingsley, 147, F. Bobby Archer, 131, F. Wayne Hudson, 160, Jr. Jerry Holland, 170, Jr. Bobby Nollner, 142, Sr. Bob Hartman, 135, F. Tommie White, 123, Soph. Donald Foole, 110, F. Jimmie Greaser, 140, Soph. Wilbur Hall, 160, Sr. Kenneth Townsend, 122, Soph. Elbert Poole, 150, Sr. Neal Jameson, 120, F. David Stavla, 140, Jr. ton, Billy Spiller, Wilbur Hull, Danny Kingsley, Elbert Poole.

According to Coach Pennington, Bill Wilmeth, Thomas Rawls, Jerry Holland, and Bobby Acher have looked very good in practice. Lester McLain has not started practicing due to Dr's orders. Chunky Blackburn has been hospitalized with the pneumonia but will rejoin the team shortly. The Lynx scrimmaged the Stinnett Rattlers Tuesday night, and will scrimmage Canadian here in Spearman Saturday night. The public is urged to attend the game Saturday night.

Old Settlers Annual Picnic

The annual old settlers picnic will be held in historic old Mobeetie on Labor Day, September 5, 1955.

An interesting and entertaining program will be presented during the day. "Cotton John" Farm Editor for the Amarillo Daily News will be on hand to interview the old timers. A Memorial service honoring the memory of those who have passed away during the year will be held. Mobeetie is the oldest town in the Panhandle, and used to be the county seat of what is now 27 counties. Last year over a 1000 old timers registered. Those attending are asked to bring a basket lunch to supplement the Bar-B-Cue, beans, and coffee. At night there will be a dance for those who enjoy dancing. Mark this date on your calendar and plan to attend and be by the old timers who are fast disappearing.

New Hampshire was the first state to declare its independence from Great Britain.

New Industry: The fine new building of the Spearman Drilling and Pump Co. is pictured above. From left to right are Charles Wilbanks and Virgil Wilbanks, owners. The attractive new building is another step in building and progress for the city of Spearman.

Some of the 125 Glamour "lads" and "ladies" Squires are seen here as nymphs, butterflies and satyrs with the deep shading of "Black Light" transforming the stage into a woodland paradise. HOLIDAY ON ICE will give 8 indoor performances at the Tri-State Fair, including Friday and Saturday afternoon matinees. For the matinee ONLY, children's tickets will be half price.

Mystery Farm of County

IS THE MYSTERY FOR THIS WEEK. We are urged to phone or write for their identification of the owner of this farm to the Reporter. The owner of this farm is requested to get in touch with the Reporter office at his earliest convenience, so we may get information for a write up to appear in next week's Spearman Reporter.

Eight Blocks To Be Paved

Freeman Barkley, stated this week that eight blocks will be paved, curbed and guttered in the city. Almost all of the grading is done on this paving, and the curb and gutter boys should show up by mid-week, Freeman stated. All of the new addition being constructed in the south part of town is to be paved with curb and gutter before the FHA will allow the new owners to move in.

This is, in the estimation of the newspaper, one of the finest programs ever undertaken. Prospective buyers of paving should talk with their neighbors who have had paving for the past eight years or so.

Winner Of Sub. On Farm Guess

Some seventeen people wrote or called in their guesses on the Mystery farm ran in last week's Reporter. Mrs. Preston Smith's name was drawn from the hat, and she had correctly identified the farm belonging to Mr. and Mrs. Gerret Allen who live about two miles South of Spearman.

I Hear A Man Say

I hear a man say as long
as he had a home, his wife's fa-
ther and mother would have a
place to stay. How noticeable it
is to see some children who are
perfectly willing for the other
brother or sister to take care of
sick parents. My wife stayed at
home for over a quarter of a
century, and worked over an
invalid father. She has been a-
waken many times when it look-
ed like her father would choke
to death from asthma, and she
would hold his head so he could
breathe.
When she looks back over
these long years of the suffering
of her father, she is so thank-
ful that she did administer to
him, with the hands of the labor
of love. The way the children
treat their parents, will be the
way they can expect their chil-
dren to treat them.

Hansford Pan Eastern Station News

Mr. and Mrs. B. F. Kirkland
and Mr. and Mrs. Jasper Steele
and children of Wetumka, Okla.
spent several days with their son
and brother Wallace Kirkland and
family.

Ralph Kennedy has been ill
several days with a bone infec-
tion in his mouth. We hope a
speedy recovery.

Several from here attended the
Company picnic at Hubbers Park
in Borger Thursday. Contests and
games were enjoyed by all. Sup-
per was served at 6:00 o'clock by
Meyers Cafe of Borger. Everyone
reported a good time.

Mr. and Mrs. Kenneth Scott
and daughter Becky returned
from their vacation spent in Ra-
ton, Eagle Nest, Red River, N. M.
and Lamar Colo.

Mr. and Mrs. L. D. Hibbs and
family have moved to Satana,
Kansas. Mr. Hibbs reported Mon-
day morning at Satana as an En-
gineer.

Mr. and Mrs. Sonny Richardson
and family spent the week end
visiting Mrs. Richardson's sister
Mrs. Bob Bawers and family of
Guymon, Okla.

Jimmy Johnson is recovering
from an infection in his leg. He
was playing baseball at Hardesty,
Okla. Thursday night and slid.
He will not be able to play any-
more games this season.

Speedy recovery Jimmy!
Ronald Rogers has returned to
Liberal, Kansas after working
here all summer. Jimmie Sims of
Hobart plans to leave here this
week so he can enroll at South-
western Monday. Best of luck to
both boys.

Pan-Eastern team won a well
played game of baseball Sunday
afternoon from Hardesty. Score
was 4-3. Johnny Morris was win-
ning pitcher and Bowles was
loser. A nice crowd watched the
game.

School started here Monday
morning. Mr. Bowman and Miss
3rd through 8th grades. Mrs. Bow-
Barbara Bowman will have the
man has the 1st and 2nd. In the
school room at the teacher age.
The High school children will
start at Spearman Thursday morn-
ing. Mrs. Kenneth Scott was low
bidder for the Bus driving job so
she will be the driver this year.

C. Of C. Letter

OIL AND GAS NEWS
We have heard lots of rumors
lately of new oil and gas well
locations but have not been able
to get any facts to verify these
rumors.

R. H. Fulton has taken a three
section farmout from The Texas
Co. On two of these sections the
leases expire in December of
this year and the other section
expires in July of '56. The sec-
tions are 7, 9 and 12, in block 2,
WCRR survey on the East edge
of the county.

According to information car-
ried in the Amarillo Daily News
the No. 3, Lasater came in for
a calculated flow of 1,056 barrels
of oil daily natural flow. This
well is located on section 72,
block 45, H&TC survey.

This the fourth producing well
brought in on the Lasater land.
The four wells came in for a
total of 3,144 barrels daily.

HOUSING
Pan-Ama Homes have fifteen
homes under construction in the
South part of town and the pos-
sibility that there may be more
before they finish. Paving con-
tractors should be at work in a
week or so.

According to information we
have received the new owners
will probably start occupying the
houses in September.

When the new addition is com-
pleted with all new houses, new
paving and a site for a new park
it will be quite a credit to Spear-
man.

In some areas in the county
where they have not had suffi-
cient moisture for dry land Maize
the irrigated grain is going to
make quite a showing.
With an estimated 150 irriga-
tion wells in the county on bu-
tane and electricity it is believed
that farmers are spending about
one quarter of a million dollars
per year more on fuel than they
would if they were on natural
gas.
Several farmers are still work-
ing on plans to get gas from
Northern Natural.

E. G. Steele Of Single Killed By A Tractor

Edward G. Steele, 71-year-old
farmer in the Single neigh-
borhood was killed when a tractor he
was operating turned over on
him. The accident happened near
Steele's house, but details on
what caused the tractor to over-
turn are not yet known.

He was born in the Old Bel-
voir community and had been a
life long resident of Douglas
County. His farm is seven miles
southwest of Lawrence. He was
a member of the Clinton Presby-
terian Church.

He is survived by his wife,
Mrs. Amelia J. Steele, and two
sons, John Edwin Steele and Er-
vin Steele, all of the home, and
a sister, Mrs. Hattie Cope of
Evansville, Ind.

Edward G. Steele was the first
cousin of the late J. I. Steele.

In 1954, 907,000 families throu-
ghout the United States were
given Red Cross financial, coun-
selling, and other assistance throu-
gh local chapter Home Service
programs.

Fatening cattle should consume
from a half to one and a half
ounces of salt per head daily.
Loose granulated salt should be
kept before the animals at all
times. Salt in this form is con-
sidered more satisfactory than
compressed block salt or rock
salt.
Rhode Island would fit into
Texas 220 times.

DALEY'S IN PERRYTON
No. 27 rtn

Research workers at the Anglen-
ton Experiment Station have
found that where tillage was not
involved, yields of perennial pas-
tures in that section were not
affected by fertilizer placement.
But disking, rotary tilling or plac-
ing the fertilizer below the sur-
face resulted in lower yields.
The use of nitrogen and phospha-
te on the pasture gave the best
yields.

Hornflies can cause beef cat-
tle to lose 20 to 30 pounds an-
nually. Producers can easily and
economically control these pests
by following a recommended live-
stock spraying program. Local
county agents have the details.

HELP MAKE THEIR HOMEWORK EASIER

with proper light
for home study

When it's easier for school-age
youngsters to see... it's easier for
them to learn! Good study light-
ing reduces eyestrain and fatigue
...aids concentration... helps
students make better grades in
school. Make sure that their study
lamps have the right-size bulbs,
the proper shades, and are prop-
erly placed to provide maximum
light on their work. See your
lighting dealer or come by our
office for lamps and right-size
bulbs for home study!

Use a 150-watt bulb for best
light from a table study lamp.
The lamp should be equipped
with a diffusing bowl and
placed as shown in illustration.
A 150-watt white indirect bulb
should be used if the lamp has
no diffusing bowl.

The Spearman Reporter

The Mansford Headlight, Published Thursday of each week in Mansford County, at Spearman, Texas

J. J. MILLER, Editor and Publisher

Second class matter Nov. 21, 1919 at the Post Office at Spearman, Texas, under the Act of March 3, 1879.

Subscription Rates: One Year \$2.50, Six Months \$1.50, Three Months \$1.00, Single Copies 4c per word; 2c a word for every issue thereafter.

Display Rates on Request

THE PUBLIC: Any erroneous reflection upon the character or standing of any individual, firm or corporation that appears in the columns of The Spearman Reporter will be held called to the attention of the management.

According to Stanley W. Cellers, of Buchanan-Cellers Grain Co. in Minnville, it is the highest yielding and best field of wheat he had ever seen, and the company has been dealing with Willamette Valley wheat growers since 1919.

Combining the huge crop took Beatty a week due to the thickness and heaviness of the wheat. Beatty stated that he used no special preparation on the field. He said that vetch had been raised on the acreage for two previous years, and the year before that, Australian peas. The only preparation of the field, according to Beatty, was the normal plowing, discing and harrowing, with only 100 pounds of fertilizer added per acre.

Here is Willis letter: Hello HONEST BILL— How's everything down Texas? Today I received a copy of the News-Register as you can see—have outlined the story about Oregon wheat.

This is a fair production per acre, but give us some good old Texas seed wheat, and you can beat this one, called "Redmond Wheat."

Signed Willis E. Peters.

Some of the meanest men in this area turned out to be Hall Jones and Oscar Donnell. Friday they phoned Jim Neely and informed him he would have 25 minutes to get ready for a fishing trip into the mountains of New Mexico. Jim turned hand sprays and arranged for some extra help to fill in at the store. He was ready and the boys came along with the boat trailing behind their car and loaded up Jim and his equipment. They went by Bill Huttons and started out— but they did not head for New Mexico. They went to a small lake

located on the Hall Jones ranch and fished all night, catching a couple of small cat fish. Jim was shore let down.

Grannie Little Faye is all up set about little Stevie taking some one else's hat Sunday. We had one of my cotton picking brothers visiting with us, and Eddie Faye did not make it around in time to Sunday School Sunday morning. She did dress Stevie in his Sunday best and slick back his hair and send him to Sunday school alone. It was his first time to walk to the church and he was all pleased that he would be trusted to go it alone. Course he did not know that I trailed him a block behind, but he made it fine—and the only thing is that he came back with one of the nicest Swiss Yodler's hat you ever saw. He started to Sunday school with out any head gear—and Eddie Faye wants to know what mother is minus an avoquillo brown swiss yodler hat with a pale streamlined white band. She will gladly return it to the mother, since Stevie has a couple of these same shaped hats, and would never wear em—but he is changed since he prionged this hat at Sunday school, and is wearing his Irene Green and Plumb grey hats day in and day out. Course Stevie did not know but what the hat should orter belong to him—so we are not going to let him know he made an error.

Stataline H. D. News

By Mrs. Bob Bery, Reporter

The Stataline H. D. Club met Wednesday at the Phillips Community Hall. Roll call was "short cuts in canning". Following the business meeting Mrs. Barnard Barnes gave a talk about her trip to Fort Worth to the T. H. D. A. 29th annual meeting.

Refreshments were served by the hostesses, Mrs. Lester Bell, and Mrs. Lester Beame to Mesdames: E. B. Morton, J. C. Wells, J. Fred Jordan, Carl Watson, Joe Bob Browning, Bob Bery and Barnes.

The next meeting will be at the Michigan - Wisconsin Community Hall Sept. 14, Mrs. Wilson Montgomery and Mrs. Bob Bery will be the hostesses.

Longhorn cattle were brought to Mexico by the Spaniards in 1521.

Obituary

Dallas Orin Reynolds, son of George W. and Sarah Reynolds, was born in Franklin County, Nebraska, November 26, 1885. Passing from this life August 21, 1955 at the age of 69 years, 8 months and 27 days in Hansford County, Texas.

Dallas Reynolds came with the family from Nebraska to Lipscomb County, Texas, to a farm south of the town site of Booker, Texas. Dallas was united in marriage to Mattie Price, August 12, 1918 in old Ochiltree, settling on a farm in the home community, near the Booker town site, later moving to Old Hansford Community.

To this union was born four boys and four girls, the oldest child a daughter, died in infancy. In 1929 Dallas moved with his family to the farm 21 miles west of Spearman, where he resided until his death.

He leaves to Cecil and Gene Reynolds, four sons, Cecil and Gene Reynolds of Borger; and Leslie D. Reynolds of Canyon. Three daughters, Mrs. Evelyn Wallace of Perryton; Mrs. Nathalie Turner of Waka; Miss Dallasene Reynolds of the home. Three sisters, Mrs. Alpha Richardson, Fresno, California; Mrs. Laura Rodebaugh, Detroit Michigan; and Mrs. Maude Winters of Dodge City, Kansas. Four brothers, Otis of Perryton; Jay of Fresno, Lewis of Escandria; Marion of Austin, 10 grandchildren and many other relatives and friends.

FATHER

Used to wonder just why father Never had much time to play. Used to wonder why he'd rather Work each minute of the day. Used to wonder why he never Loafed along the road and shirked. Can't recall a time whenever Father played while others worked.

Father never dressed in fashion, Style with him was not a passion. He had other things in view, Boys are blind to much that's going on about 'em day by day. And I had no way of knowing. What became of father's pay? All I knew was when I needed Shoes I got them on the spot. Everything for which I pleaded Somehow father always got. Wondered season after season Why he never took a rest— And that I might be the reason, That I never guessed. Saw his cheeks were getting paler, Saw his body growing frailier. Then at last I saw him die, Rest had come, his tasks had ended. Calm was written on his brow. Father's life was big and splendid. And I understand it now.

Coop Member Defends REA

We want to thank one of our members, Mrs. C. E. Terry, Skellytown, Texas, for her letter written to the Amarillo News recently regarding the comments on the Dixon-Yates-TVA controversy in the A to Izzard column. We are glad that some of our members are waking up to the fact that some of our newspapers present only one side of some controversial issues.

Her letter follows: "Dear Editor: The "A to Izzard" column leaves the impression that the TVA, REA, and almost all of the farm programs—and the farm people are subsidized by the consumers and taxpayers.

A thousand people will have read the column to one who will read this, but I'd like to get in my 2 cents worth in defense of the farmer, and of public utilities. TVA showed a net profit of the year ending in June 1954 of \$28,920,000. During the two years, June, 1951 to November, 1953 private utilities in Texas alone received a rapid amortization (in other words, a tax write off) of \$253,825,000. The tax-payers and consumers, who is shown by headlines every week how many farm subsidies he helps pay, might be interested in these tax write-offs, too if he ever got the chance to know about them!

At the present rate by 1961, private utilities will have received \$6.1 billion in subsidies. This is more than the federal power program has cost from its very beginning, plus all the loans to Rural Electric Co-operatives all over the nation, which loans are being paid off, not written off! It is a sizeable sum compared to the farm loan program, too, though we don't hear it compared by Commentators nor see it making headlines in our daily papers as do the subsidies to farm operations.

Farm people are getting weary of being held up as bad examples to the rest of the nation economy, have what amounts to subsidies in the form of minimum wages, laws, protected patents, tariffs, and subsidies in the form of tax write offs."

Mrs. C. E. (Cleo Tom) Terry Skellytown, Texas

And Mrs. Terry, you might have told Mr. Izzard that in the two weeks ending July 13, ODM issued 40 certificates on \$47,768,434 worth of facilities. Power companies and railroads led the list on these grants at the taxpayers expense. Have you seen anything about this in the newspapers or in Mr. Izzard's column?

The Santa Gertrudis breed of cattle is a cross between the Brahmas and Shorthorns.

Smith Children Killed Instantly In Car Wreck

ED - NOTE: The following story copied from the Ochiltree County Herald, carried information relative to the serious accident involving the brother of our own W. W. Smith, Principle of the Grade Schools of Spearman.

Steve and Verlene Smith, son and daughter of Mr. and Mrs. Verbon Smith of Perryton, were killed instantly and their parents injured Tuesday afternoon when the car in which they were riding struck a concrete bridge abutment near Fowler, Kansas.

Both Steve and Verlene were 4 years old. Steve was the son and Verlene the adopted daughter of the couple.

Mrs. Smith suffered a broken right arm and numerous bruises. Mr. Smith received bad injuries, cuts and bruises. Both are recovering and their injuries are not as serious as at first believed.

The accident occurred about two miles west of Fowler on a paved road which had been recently topped with crushed stone.

Mrs. Smith was driving when the car went out of control as it neared the bridge over Crooked Creek, and crashed into the abutment. Both children were riding in the front seat and were thrown through the windshield, being killed instantly. Smith was on the back seat of the car. The new Dodge car was demolished.

Funeral services for the Smith children were held Friday afternoon at the First Baptist church in Perryton at 3 p. m. Rev. O. C. Curtis of Pampa, a former Perryton pastor, officiated at the services, assisted by Rev. Calvin Cook of the People's Chapel.

Hansford Churches Join Baptist Program

Churches in the Canadian Association will join 1,800 other Southern Baptist churches in Texas this fall in a mammoth program of Schools of Missions and Stewardship. During the week of study, one night will be set aside for a "church and denomination" program.

Highlighting this week of emphasis on missions and stewardship, most of the churches will have a guest speaker one of Southern Baptist' 1,002 foreign missionaries, one of the denomination's 1,100 home missionaries, denominational leaders and stewardship speakers. The programs will also include films and other visual presentations.

Rev. R. Elmer Dunham, director of the schools for the Bap. Gen. Conv. of Texas, said the subscribe their annual budget following the week of study. Next year, Texas Baptists will give an estimated \$72 million through their local churches. Of that amount, \$8.5 million will be used for missionary work outside the local communities.

The area churches cooperating in the stewardship program include: Booker, Canadian, Follett, Gruver, Gem, Higgins, Locust Grove, Miami, Perryton and Spearman.

Social Security News Block

Some people have misunderstood the provisions of the 1954 Amendments to the Social Security Act, according to John R. Sanders, Manager of the Amarillo Social Security Office.

"We have been asked quite often if one cannot qualify for benefits as a farmer because he is already 65 or over," John R. Sanders said. "The answer to that farmer already 65 or past that age, who is continuing to operate a farm, will qualify sooner than the younger farmer but the fact that they are 65 alone does not entitle them to benefits. Age does not disqualify an individual from entering into the program. If he is actually operating a farm, he is eligible to participate by keeping his records in 1955, paying his social security tax on his farm income in 1956, and then doing the same thing for 1957. This second payment, made in 1957 would qualify him for benefits if he is already age 65 or older."

Sanderson said.

The answer to all questions about social security can be secured by contacting the representative Nat Houston or Floyd B. Ellington of the Amarillo Office who will be in Spearman on Sept. 27th, at the Court House, at 1:00 p. m. o'clock.

Aubrey C. Haynes, Minister

First settlers in Delaware were Dutchmen in 1631, who were massacred soon after by the Indians.

HIS and THAT

Around Gruver

We notice that people are beginning to use our beautiful City Park for family gatherings. That is just fine, it is what the park is for. However, number of people have been driving their cars into the park. Please do not do this. It will soon ruin the grass, and perhaps some trees may be damaged. No one would want that, so won't you please leave your car on the outside.

Mr. and Mrs. Bobby Fletcher spent a few days last week visiting their parents here. Bobby had just completed 30 days training camp, at an air force base near Tucson, Ariz. They have returned to Waco, where Bob is a student at Baylor, and Judy is employed by the Phillips Co.

Mr. and Mrs. Darrel Cooper, and Darlene and Mrs. Hootie Cline and their children, spent short vacation in Flagstaff, Arizona.

Mr. and Mrs. A. R. Bortand family are vacationing in Colorado.

Little Bradley Edwards died in Pampa, Aug. 11th. He was seven years old, but had been an invalid all of his life. He was the son of Mrs. H. S. Hay's Jr. She and her mother attended the funeral services.

Mr. and Mrs. C. A. Davis and family attended a family reunion in Hays Kan., recently. Mrs. Davis's mother Mrs. J. P. Kegan who lives in Montrose, Colo. came home with them, and will spend several weeks here.

Mr. Roy Beasley is in an Amarillo Hospital. He underwent an eye operation last week. We understand that he is making a good recovery, but it will take a little time.

Mr. Earl Holtzman underwent major surgery in an Amarillo Hospital last week. The first two days after the operation he had a rather bad time. But he is now doing very well.

I know that our entire community sympathizes with Frank Fleck and his children in the passing of their wife and mother. This was proven by the way everyone tried to help, and the great number who attended the funeral services.

We have two interesting stories about the Ayres clan. Recently they attended a family reunion in Gainesville. The entire family of Mr. and Mrs. R. C. Green attended, and that was quite a reunion in itself. Their daughter Adeline, who is now Mrs. Joel Wheeler, with her husband and two children were there. Her daughter Virginia who is now John Alley of Denver, came with her husband and two children, and R. C. Jr. and his wife came from Houston. Add to this all the family from Gruver, and you have a fine party.

Mr. and Mrs. R. C. Green gave a picnic in the City Park last Thursday evening in honor of their daughter Mrs. Joel Wheeler and their children from Billings Montana. Also Mr. and Mrs. John Alley and her two children from

Denver, Colo. In addition Mrs. Russie Burden from Monticello, Utah was thus honored.

Present were: Mr. and Mrs. I. W. Ayres Sr. Mr. and Mrs. J. M. Ayres and their children, Mr. and Mrs. I. W. Ayres Jr. and family, Mr. and Mrs. W. C. Lyle, Mr. and Mrs. A. R. Henderson and family, Mr. and Mrs. Pauline Hodges, Val Winger, Mr. and Mrs. Skeeze Riley and family, Mr. and Mrs. James Ayres and children, Mr. and Mrs. Arnold Dalton and family, Mrs. Eva McMillan and children, Mrs. Lola Baskin, and son, Mr. and Mrs. Weidon Green and children, Euline and Glenda Green. There was a total of fifty three present, and all had a big time together.

90,932 Notary Public Receive Commission

A. M. Muldrow, Secretary of the State of Texas announced that 90,932 Notary Public Commissions (new term June 1, 1955 to June 1, 1957) had been mailed to the County Clerks of the 254 counties in Texas.

108,485 persons were reappointed on June 1, 1955, but only 83,341 requalified for this new term from the various counties.

7,591 persons applied for Notary Public Commissions for the first time and were approved by the Secretary of State. Most of these new notary applicants have qualified and their Commissions have been mailed to the County Clerks.

Due to a complete revised system and the use of modern business machines, the Office of Secretary of State with a limited staff was able to appoint and issue commissions for 90,932 persons in less than three months.

Salting and watering facilities and fences on the range are excellent management tools, but how well they are used determines their value. They can be used to increase the output of the range in the form of meat and lower the per unit cost of production.

The 12th annual Farm Safety Week will soon be history but, says the Texas Farm and Ranch Safety Committee, the same will be said of many rural accidents victims unless they remember "Your Safety is in Your Hands".

Public Commissions have ever been issued. The new system required the cooperation of the County Clerks in order for it to be workable.

The Secretary of State also said, "I am extremely grateful to each and every County Clerk in Texas for their generous devotion to duty and for their courtesy in helping my office to appoint and commission the 90,932 individual who will hold office as Notary Public."

Rainbow Girls Visit In Borger

Nine Rainbow Girls attended the Order of Rainbow Assembly in Borger Tuesday night, August 23, in the Masonic Hall at 7:30 p. m.

They were accompanied by Mr. and Mrs. Buster Bannister, mother Advisor, and Mrs. Alta Fisher. Rainbow girls attending were: Mary Frances Vernon, Jo Sutherland, Janis Vernon, Susan Sheets, Carolyn Collard, Reva and Mona McLain, Beverly Morse and Roena King.

Southwestern Crop And Stock Magazine Features Hansford County Irrigation In Current Issue

At left, irrigation well on E. C. Greene farm. AT RIGHT, water applied evenly and efficiently on Mr. Greene's land.

Irrigation In Hansford County

BY MARGAET KIRK
Water is flowing every which way in Hansford County from its nearly 200 deep irrigation wells, 300 to 500 feet, plus a string of shallow wells, 100 to 150 feet, along the creeks and two centrifugal pumps lifting water from the creek beds. But it is no new business.

Jim Simmons introduced irrigation in the county sixty-five years ago, on his Palo Duro Creek farm, when water rights were easy to come by; so was a permit to build a dam. Not that one was necessary until erosion washed the banks down and changed the course of the creek.

In the beginning, irrigation costs amounted to little more than time and labor. The creek banks formed a perfect irrigation canal with its banks running flush with Simmon's alfalfa land, making it a simple process to divert the water across it with ditches.

Erosion Changed Picture
In time erosion complicated irrigation forcing Simmons to lift water from the creek bed with a centrifugal pump and distribute it over the field with a pipe, spray system.

This method was used by succeeding owners until 1950 when a season of flood damage made it impracticable for V. M. Willis, owner since 1942. He drilled an irrigation well, beyond flood bounds, and continued using the spray system.

All the while spasms of irrigation broke out up and down the creek, paid off for a brief time and then was given up for one reason or another, but usually because the wells sanded up.

In spite of predictions of the long irrigated project wearing out the Simmon's land, it kept right on doing good business. The gloom predictors hadn't taken into consideration how water erosion left rich top soil over the growing alfalfa or the fertilizer scattered in the natural process of grazing it in the off-production months.

Flurry In Late 1920's
In the late 1920's the Panhandle Light and Power Company brought about a flash epidemic of irrigation when they set up a small experiment farm at old Hansford. Their well pumped about as much sand as water but proved garden truck and melons could be produced in abundance, when watered.

Farmers along the creek drilled shallow irrigation wells and set pumps, a pre-requisite to get power lines strung to their property. Soon these wells sanded out and another irrigation project went to pot. Rains came and irrigation was forgotten.

Except the well on the old Simmon's place used to flood the alfalfa between rains to get an extra cutting of hay.

A flash of shallow well irrigation broke out in the dry 30ties. Grover Brillhart, in the northern part of the county, drilled in the dry creekbed and found it very successful for small patches; but too expensive to engineer over wheat pasture or grass to insure grazing for his ranch herds. The trend followed across the county to the southwestern line where Mike Balentine, on the old Tyler ranch headquarters, went in for alfalfa farming; making a neat profit and expanded his acreage.

News From The South
The 40ties were good years, rains came, the drought was broken and all might have done well, except history has a way of repeating itself—drought set in.

There was a right smart said in regional, plains newspapers about the irrigation of the South Plains creeping north where water got progressively deeper—until they said it would finally get so deep it would be out of the question to think of pulling water that far to irrigate.

Ray Skinner didn't go along with the idea, at all, but he kept his own counsel; it was no time to talk about an irrigation project when a country was in the full bloom of a rainy cycle. Except of course to frequently reminded Mrs. Skinner dry years would follow and he was going to try to offset them with irrigation.

Mrs. Skinner carried the opposition—too experience—to deep—too risky—too much work—too this and too that and being a school teacher, she never lacked words to back up her point of view.

Stayed With His Convictions
But all Ray Skinner saw was his honest conviction that irrigation possibilities were just too good to give up. His Son, Bob, came some from service just in time to see the rainy cycle end and give his father full support on his

irrigation beliefs plus his engineering knowledge.
So Ray Skinner put down the first deep irrigation well in Hansford County, 495 feet, in time to grow a bumper sorghum crop in 1951. He was lucky to not be in a troublesome sandy area. Besides that, Ray believes the way he staggered the slots on the casing has a lot to do with controlling the sand; his well has never sanded out. In fact, it doesn't even pump up the usual sand that ordinarily shows up after a pump has set for a while.

Irrigation caught on fast as farmers viewed Skinner's good crop while their dry land crops curled up with each progressive day of drought.

The spring of 1955 found Hansford County in an epidemic stage of deep well irrigation; most wells carry an 8-inch casing. There is a scattering of 6-inch wells and here and there is a 10-inch well. A few farmers have replaced eight-inch casing with six-inch when sufficient water couldn't be pumped. A few others reversed that situation because they were pumping more water than they had expected.

Various Types Of Spreaders
There is not much montony in all of this irrigation; some use border ditches, some gated aluminum casing, some use cement tile to carry the water across the field, some use canvas gated carriers and two farmers use spray systems. There is one, Lee McClellan, who went off at a tangent and set up an irrigation deal of his own. He had a hundred acres of suedan.

The fruition of his work was a plan to use it for irrigation; he

obtained a permit from the city commissioners and while the contour of the land made it a sort of uphill business, he solved it satisfactory by putting in a spray system, which works beautifully except on windy days.

Fuel Is Big Problem
But there are other problems that constantly heckle all operators; like finding a way to cut the fuel costs. Now, if numerous gas wells had not been brought in all over Hansford County, cost problems might have been accepted as a necessary evil.

These gas wells eventually set John Q. Farmer to wondering why he couldn't use his own gas to pull his irrigation pump. The idea spread quickly and the farmers and ranchers of the area, started a movement to get a legal permit to tie their wells on their gas wells. When that is done, the fuel cost will be considerably lower.

E. C. Greene, a full believer in irrigation, says its equipment is improving every day; even so, mistakes can be made. In this case, Greene is three voice of experience. Too busy with other irrigation projects to lay his own gated aluminum distribution line, he persuaded his son to make the installation, after assuring him there was no possible way to set it wrong. Maybe so.

But He Got It In Reverse
Completing the job, the son casually asked what made the gate gasket leak? E. C. didn't exactly know the answer; he had

V. M. Willis owns and operates the oldest irrigation farm in Hansford County. During the 65 years of constant farming of the land, he has maintained its productivity by rotation farming and cattle grazing and through benefits of silt which he caught from erosion on other farms.

never heard of one leaking on that kind of equipment—maybe the extremely cold water had caused them to expand. A week

pecting the new lead line he saw it once it wasn't just set wrong.
It had simply been installed backward!
The prolonged drought keeps forcing the graph-line of irrigation up; just where it will peak, nobody knows. Oddly, the little irrigation project that Jim Simmons got under way, sixty-five years ago, by doing what came naturally, has suddenly developed into a spreading business that is powerful big.

To All Hansford County Farmers

Since the U. S. Department of Agriculture has announced that a discount of 20¢ per bushel will be levied on certain varieties of wheat for the 1955 Price Support Program, it would be wise to analyze our seed wheat selections. The varieties that will be penalized in Texas are Red Chief, Red Jacket, Yogo, Kanking, Chiefkan, New Chief, and Early Blackhull. Blue Jacket may be added to the list at any time.

It is impossible to determine what varieties will be discounted in 1957. Therefore if the seed can be found now, it would be best to plant varieties which are high in banking and milling characteristics. The following information comes from the Amarillo Experiment Station and is based on work done from 1940 to 1954.

Varities having good to excellent milling and banking characteristics include Westar, Comanche, Concho, Tenmarq and Ponca. Wichita, Triumph, Pawnee and Kiowa are considered to have only fair milling and banking characteristics. Red Chief, Blue Jacket and Early Blackhull are inferior in milling and banking characteristics.

The information in the following chart comes from Amarillo and has been done since 1940, one exception is two years of test work done at Floydada on Irrigation in 1952 and 1954, which included:

Variety	Av. Bu.	F. H.	W. T.
Westar	17.3	5-17	56.8 12
Red Chief	16.7	5-18	59.1 12
Comanche	16.0	5-17	55.7 12
Tenmarq	15.7	5-20	55.7 12
Wichita	15.5	5-12	58.6 12
E. Blackhull	14.4	5-09	58.2 12
Triumph	15.4	5-10	57.8 7
Kiowa	16.8	5-15	57.4 7
B. Jacket	16.8	5-19	58.9 7
Ponca	15.3	5-17	56.0 7
Concho	17.1	5-15	57.2 5
Pawnee	17.0	5-15	56.9 12
Blackhull	15.7	5-20	56.7 12

IRRIGATED	Yield	W. T.	
Mestar	25.3	5-17	57.3 11
Red Chief	25.6	5-18	60.6 10
Comanche	25.9	5-17	58.2 11
Tenmarq	23.8	5-20	56.6 11
Wichita	23.7	5-12	60.6 11
E. Blackhull	21.3	5-9	61.3 11
Triumph	24.7	5-10	60.5 9
Kiowa	25.1	5-15	59.8 9
B. Jacket	25.4	5-19	60.5 9
Ponca	26.1	5-17	58.8 8
Concho	29.0	5-15	58.5 8

Texas Winners in Soil Conservation Awards Program Announced

College Station, August — Six Texans have been named winners in a national soil conservation district awards program. According to Jack Barton, extension soil and water conservation specialist, the list was released by the Goodyear Tire and Rubber Company, sponsor of the program.

The Hale County Soil Conservation District was named outstanding in Area I and Homer Roberson of Petersburg, chairman of the district board, as their representative. I. B. Rankin, Rt. 2, Plainview, was named as outstanding farmer-cooperator in the district.

Area 11's outstanding district was Frío and their representative was Henry J. Hardcastle, Jr. of Derby. Harry Bennett also of Derby was selected as the outstanding farmer-cooperator.

Winning district in Area III was Gillespie County which named Adolph O. Kneese, Rt. 2, Fredricksburg as its governing body representative and Raymond Speth of Harper as outstanding cooperator.

The six Texans, says Barton, along with 94 winners from the other 47 states will be guests of the sponsor on a trip and vacation to Goodyear Farms, Litchfield Park, Arizona. This will come in November or December.

Barton says the program is now in its third year and that after March 31, 1956 another group of outstanding conservation districts and farmers would be named.

Effective January 1, 1956, swine that have been fed raw garbage or duds derived from them will not be permitted to move interstate unless given special processing. The special processing reduce the value of hogs in some cases as much as 50 percent.

Agricultural Department To 20 Cents Per Bushel Dock Next Year's Inferior Wheat

The Agricultural Department announced Saturday that wheat growers of 23 designated "undesirable" varieties grown next year will be docked 20 cents a bushel under the growers price support program.

Local elevator officials said there were seven types of wheat that have been planted in Texas that are now on the undesirable list. The seven are Red Chief, Red Jacket, Kankling, Kanquen, Chiefkan, Early Blackhull, Yogo, and New Chief. By far the most popular in this region is Red Chief, a beardless variety.

The department will depend upon farmers themselves to certify whether wheat they offer for price support is of a designated undesirable variety. Officials said it is necessary to depend upon growers for such identification because it is difficult to determine the undesirable varieties from threshed samples.

Next year's crop will be supported at a national average of not less than \$1.81 a bushel.

The discount will be applied to varieties which the department said are of inferior milling or baking qualities. The total production of these varieties last year was about 31 million bushels out of a crop of 669 million bushels or about 3 percent of the production. A total of about 200 varieties are grown commercially.

The purpose of announcing deductions, the department said, is to encourage farmers to produce better wheat. Officials have said quantities of varies designated undesirable have accumulated into huge government surplus stocks because of no satisfactory market.

Most of the so-called undesirable varieties are planted to meet specific production problems, such as drought, rust resistance, early maturity, and adaptation to modern harvesting methods but, the department said, they have proved to be undesirable for commercial food use.

Even though some of the undesirable varieties might have protein high enough for premiums when it is shipped to the mill, no protein premiums will apply to any of the undesirable varieties. Most local farmers have indicated they would not plant

the wheat that will be docked.

Furniture Sales Go Back To School

The Retail Furniture Association of Texas is starting Monday for the furniture salesmen, buyers, and managers of the Dallas area which includes Denton, Swarthmore, Canyon, Dalhart, Canyon, Perrinton, Stratford and Panhandle—will be the classroom attending Furniture Association's Sales Clinic which is being held in the V. L. store, 2200 W. 10th Street, Tuesday, and Wednesday, 30, and 31 of August, and will also be repeated the week at the same place, day, Wednesday and 6, 7, and 9 of September.

Mr. A. R. "Dick" Dyer of the R. F. A. T. Dept. Division, who has had successful clinics in the and southwestern area, is the instructor. Mr. Dyer is one of the nation's authorities on furniture store operation. The subjects to be covered include: color, room, fabrics, carpets, plastic veneers, finishes, upholstery, construction, casegoods, and installment selling, selling home, etc.

The Distributive Department of the U. S. Department of Commerce, who are conducting this clinic, recognize the most outstanding and comprehensive in the sales training for furniture sales.

The consumer public in the Amarillo area should be proud to have furniture training in this area, that will part clinics such as these, to better serve them.

Anyone connected with furniture industry that driving distance of Amarillo is welcome to attend these clinics. Honolulu, capital of the Hawaiian Islands, is located on the island of Oahu.

Mystery Home Of County For Past Week Is Lovely Home Of Mr. And Mrs. Garrett Allen

The three bed room modern farm Mystery home printed last week is the home of prominent young old timers of Hansford county, Mr. and Mrs. Garrett Allen.

This is one of the truly convenient, efficient farm homes of this immediate area. In addition to the lovely comfortable home, a nice garage, a large barn, corrals, machine shop, 4 tin granaries, and storage buildings is included in the Mystery lay-out.

The home itself includes, in addition to the three bed rooms, kitchen, dining room, living room and service porch.

Mr. and Mrs. Allen purchased this section of land and the minor improvements 26 years ago in 1929. They have added most of the improvements during

the years they have owned the home place, since there was scarcely a good fence on the home section when they first purchased the land.

The Garrett Allen's came to Texas from their former home, Asheboro, North Carolina, a short time after they had married. They lived at Miami, Texas for 7 years before moving to Hansford county, and have lived at their home place for the past 26 years. They built the new modern home about 12 years ago.

Mr. and Mrs. Allen farm their home section and an additional 1000 acres in this area, with the help of their son Don Allen. They handle cattle, plant small grain, and are among the nearly 200 land owners of this area who have invested in irrigation.

They water some 200 acres of maize, successful in this as well as their other cattle operations.

The family includes Don Allen, 25; Dee Allen, 21 years of age; both live at home. The daughters include: Verna Gail Keim, Barbara Schnell, both living in Spearman. 4 grand children: Glenn Keim, age 8; age 6: Patricia Schnell, and Coron Allen.

Both Mr. and Mrs. Garrett Allen are members of the Methodist church. Garrett has been a member of the Farm Bureau, the Spearman Board of Commerce, and for many years he has been a member of the Spearman Independent school board.

Is Good TO BE TRUE?

It is true. Through the new Franklin JUNIOR SAVINGS PLAN you can create an immediate insurance estate for your child at rates one-third of what you are now paying... an estate that grows with his responsibilities and matures in cash for retirement at age 55.

- Insurance protection at no cost—full return of all deposits plus face amount of contract if death occurs at any time from issuance to age 55.
- Insurance protection automatically triples at age 21 at no extra cost and with no evidence of insurability required.
- At age 55 the savings plan matures as an endowment for full face amount.
- Cash emergency and educational fund available to children from age 1 day to 14 years.

THE HOME PROTECTOR
Maximum family protection on a limited budget

With the rising cost of living, more and more of your income is needed to provide present needs. You have perhaps despaired of being able to provide adequate protection for your family in case you are taken from the picture. The Franklin Home Protector was designed to meet just that current condition.

1. Maximum protection at minimum cost—an income up to \$200 per month for your family for 20 years from the date of the contract—those precious years when your children are growing up.
2. For that 20 year guarantee you make premium deposits for only 15 years.
3. Exchange provision during first 15 years.
4. If you want to use the Home Protector for retirement of a mortgage or a business debt, you may request that the death benefit be commuted and paid in one sum.

Miss Belva Sparks Became Bride Of Vern Bettis In Ceremony August 26th.

By Margaret Kirk

The First Methodist Church was the scene of a lovely candlelight service, Friday August 26th, when Belva Sparks, daughter of Mr. and Mrs. Rosco Sparks, became the bride of Vern Bettis, son of Mr. and Mrs. Bettis, of Canadian. The Rev. C. N. Van Dyke, pastor of the First Christian Church, read the single ring ceremony before an altar arch of emerald and jade palms interlaced with white chrysanthemums and flanked by chrysanthebra standards. Mrs. Rue Sanders, organist, played a prelude of wedding selections and accompanied Judy Davis who sang "Because" and "The Lord's Prayer". Traditional marches were used.

Carolyn Wilmett was maid-of-honor. She wore a blue embroidered crystaline dress styled with fitted bodice and full skirt. She wore a matching tricorn cap of sequins and carried a basket of yellow and blue daisies.

Shirley Sparks of Amarillo, aunt of the bride, lighted the candles with Gerald Hanners, cousin of the bride. She wore a pink antique taffeta dress with low neck, fitted bodice and full skirt.

Beverly Morse and Roena King registered the guests. Gweneth Ann Hanners, cousin of the bride was flower girl. She wore a pink embroidered dress. Joe Bettis was his brother's best man. J. R. Bettis, brother of the bridegroom, and Junior Sparks, uncle of the bride, were ushers.

Given in marriage by her father, the bride was attired in French lace gown over net and taffeta. The fitted bodice was

fashioned with an illusion yoke, queen Ann's collar, long sleeves coming to a point and closed with satin covered buttons. The full, three tiered skirt was worn over hoops. He fingertip veil of illusion fell from a tricorn veil of pearls and sequins. She carried out the tradition of something old, new, borrowed and blue. Her corsage was a white orchid surrounded by stephanotis and showered with satin ribbons.

After a wedding trip to Colorado, the couple will be at home in Canadian. The bride traveled in a transitional wine, cotton tweed, princess dress with pink accessories and an orchid corsage. Mrs. Sparks chose a lace dress over pink taffeta with long sleeves jacket, lined with pink taffeta with pink accessories. Her corsage was an orchid.

Mrs. Bettis attended Spearman High School. The bridegroom attended Canadian High School. He is manager of the Red Top Gas station, in Canadian.

Out-of-town guests were Mr. and Mrs. D. A. Caldwell and Billy Dean, Mr. and Mrs. Bud McBride, of Rifle, Colorado, Mrs. Lillie Wells, great-grandmother of the bride, from Chester, Oklahoma, and Mr. and Mrs. Floyd Bettis of Pampa.

Approaching Marriage

Mr. and Mrs. L. J. Cator of Gruver announce the marriage of their daughter, Virginia to Cpl. H. Ark Langley of Siloam Spring, Ark. The marriage will take place Sept. 5th in the home of the father.

Christianity Is The Same With A Jailor As It Is With A Farmer

Christianity is the answer to handling men in all walks of life. Kindness will work with both man and animals. The man that can control himself, can control the other man under normal conditions with normal people. Love is the answer to a true Christian spirit. Christ set the example on how to make an everlasting impression on the human heart soul of my I was impressed to write this story by what a jailer told me about a man in jail who had scars all over his head, where jailers had put them there to control him. He was telling me what this fellow said to him, when he went to take over the jail and to take care of the inmates. This man who was a jail-bird said, "when you are here a while you will be as tough and hard-boiled as any other jailer." I told him when I come to the place where I could not treat a man right who was locked up, I would give up my job as a jailer. He further said, most people even in jail would respond to kind treatment. And many of those that knew him, would write back after they got out of jail and thank him for his kindness to them. Any man in jail knows its a jailer's business to keep him here. Turn things over to the prisoners. A good jail-keeper knows he must keep order, and by being kind, strict, and firm with prisoners, will be the answer to law and order in jail.

This will give me a starting point to say, I know John Campbell for almost three decades. I figured he was too good a man to have to go down and deal with men who were locked up in jail. I have always known John as a Christian gentlemen. His record in handling prisoners in the Hutchinson Co. jail has proven to me beyond a doubt, that Christianity is the same in a man's heart as it is on the

cannot be run and prisoners controlled with rose water. They must recognize the fact they are in jail. John said the prisoners always liked the service he gave them, but there are always men in jail, if it took killing to get a way they would kill the jailer to do it. We have seen this demonstrated in Tex. and Okla. and the prisoners aided to make their Any man in jail or out, knows when he treated right, whether, he appreciates it or not.

I have known jailers in different parts of the U. S. who ruled with an iron hand, and they felt that was the only way to handle a prisoner. We will all have to admit, that is one way to handle a man. Men may be handled by force, but no

man can force the man to love him, even tho he is locked up. The jailer who holds the love and the respect of prisoners are those who know when they are treated right. They will help the jailer to rule those that have no respect for kind treatment. It is not an accident that John is loved by those who know him as their jailor. He has won this respect by treating a man right, even tho his freedom is taken away from him, when he is locked up. I heard a man say they had visited John and his wife and the prisoners had the same things to eat, as they had themselves. That is the answer to John Campbell's success as a jailor.

There is nothing I could say that would add anything to John

Campbell's Christian character as one of the best jailers in the world. He feels he owes it to himself to treat a prisoner like he would like to be treated if he were in his same place.

John Campbell said, that "J. B. Cooke was one of the most cooperative sheriffs that he had ever had any dealings with." If the people would elect Christian law enforcement, and cooperate with them, and stand by them in every-thing that was right, and give praise where praise is due, men would soon find out it was better to do right and live right, and stay out of jail, for they would know that good men did not want them there, and they would do all they could to help them into a better life by an ex-

ample. It pays to obey the laws of our laws. It is regrettable that the most of the things you hear about our law enforcement is that they are worse than the criminals, but when you run this information down, it came brought to justice. I do want to thank God for the depths of my heart, for the law enforcement which are trying to keep peace instead of stirring up strife by doing those things that would not show a Christian spirit in dealing with men.

The man that is cruel to animals would be the same way with it. The smile on a man's face and the softness of his voice will quiet down man or beast,

when rough treatment will only stir him up.

It is always a pleasure for me to pay homage where homage is due. Mr. and Mrs. Campbell have done a swell job as caretakers of the Hutchison Co. jail. They have won the love and respect of both those who had to be locked inside and those who know them as the citizens of the county. Their kindness and helpfulness to men in prison, will be a testimony to them that Christianity is the same to a jailer as it is to a John. Long live the memory of John Campbell and wife.

BY J. H. NICHOLS
The dome of the McDonald Observatory located on Mount Locke in Texas, is 60 feet in diameter and weighs 140 tons.

Some of the most interesting birds in the world are the unknown songbirds of the West. There are millions of these birds in Texas and Oklahoma. Old road is long.
