Need For 30% Increase: Operating Cost For School Budget Up \$61,000.00!

The operating cost for the Spearman Independent School budget for 1965-66, will be up \$61,000.00, not including bonds, according to tax officials at the school. The reason for the increase cost, is due to four full time, and two part time additional teachers, regular salary increases, and \$23,000.00 to provide for the teachers pay raise bill, now pending in the state legislature. Other increases are for teaching supplies, and student activity account, and insurance. Estimated cost of plant maintenance has been reduced \$10,000.00. The increase in outlay for bonds and bond interest, is \$14,000.00. This is for the bonds issued this past spring. The school will also receive \$30,000.00 less money from the State than was estimated on the 1964-65 budget. The additional cost of operation, bonds, & interest, plus the loss of the state money, totals \$105,000.00.

L.P.G. engines run hotter than gasoline engines. That means special problems... and that's why Champlin L.P.G. Engine Oil is made with special additives. These additives keep the oil thin enough to penetrate between moving parts... thick enough to stand up in punishing heat and pressure. Change tomorrow to Champlin.

Zing into spring! Corvair by Chevrolet

The steering's crisper, the ride's flatter, the style's racier—even the grass looks a shade greener from behind the wheel of this new Corvair

For all its finely calibrated instrumentation—tachometer, manifold pressure gauge, even an electric clock with a sweep second hand for rally buffs—the most important thing that happens when you get a Corvair Corva

out on the road doesn't register on the dash. It registers on you.

You feel it in the steering—crisp and precise—as you double back on a curve. In the flat riveted-to-the-road stability of the new fully independent suspension. In the response of the rear engine (up to 180 hp available now in Corva's Turbo-Charged version).

Drop down to your dealer's now—while the trading's extra good—and see for yourself.

WEED CONTROL MEETING
You missed a good meeting if
you didn't attend the weed con-
trol meeting that featured Dr.
Allen Wiese of the Bushland Ex-
periment Station as the speaker.
Dr. Wiese is one of the leading
authorities on chemicals for weed
control.

COTTON
He told the group that it was
not too late to apply Treflan as
a pre-plant chemical for weed con-
trol in cotton and soybeans. This
chemical should be applied on
flat ground and incorporated into
the soil 2 to 4 inches with a
tandem disc. Sorghum cannot be
planted the year following applica-
tion.

There are several cotton fields
in the county that has had a
severe weed problem. I would
suggest that you consider using

Treflan to control weeds. If weeds
have not been a problem, then
it is doubtful if treflan would be
economical.

SORGHUM

Propazine 80W is an 80 percent
wetttable powder formulation of
propazine. Propazine has been la-
belled for pre-emergence weed con-
trol in sorghum for grain and
forage. It will be most useful on
irrigated fields where annual
broadleaf and grass weeds have
been difficult to control by mech-
anical means. The herbicide will
not control perennial weeds such
as field bindweed and Johnson
grass.

Because propazine must be ab-
sorbed by weed roots to be effec-
tive, application must be made to
the soil immediately after plant-
ing. Rain leaches it into the root
zone. If rainfall occurs before
chemical application, weeds may
germinate and grow through the
propazine on the soil surface.
Propazine will not control weeds
that germinate when sorghum is
watered up with flood irrigation,
because weed roots are below the
herbicide on the soil surface.

Propazine does not decompose
easily and will work well even if
rain does not follow soon after
application. Chemical drift that
may occur during application is
not toxic to cotton.

Because propazine persists in
the soil for long periods, the only
summer crops which can be grown
the year following application are
corn and sorghum. Winter wheat
may be planted the second fall
following application. Because of
the long residual period, propa-
zine use is not advised on dry-
land fields in west and northwest
Texas. Rates of propazine applica-
tion for the High Plains area
are two pounds per acre on the
silty clay loam soils for control
of both grasses and broadleaf
weeds. If careless weed or pig-
weed are the only weeds present,
one pound per acre broadcast is
sufficient for season-long control.
(Goat heads and devil's claw will
not be controlled with one pound
per acre).

Atrazine 80W is an 80 percent
wetttable powder formulation of
atrazine. Atrazine at 1 pound per
treated acre plus surfactant can
be used to control annual broad-
leaf weeds less than 2 inches tall
in emerged sorghum. Attempts to
control larger broadleaf weeds &
small grasses will probably fail
unless it rains within a few days
after application. Atrazine must
be applied in 20 to 40 gallons of
water containing 1 percent sur-
factant in 50 gallons of water.
Band or broadcast treatments,
either directed at the soil or over
the crop, are satisfactory. Sor-

ghum forage must not be fed to
livestock. Only sorghum, corn or
winter wheat should be planted the
year following strazine application.
Drift at the time of atrazine ap-
plication is not toxic to cotton.
2, 4-D is available as amine, oil
soluble amine, acid, low volatile
ester and high volatile ester for-
mulations. All formulations may
be used at 1/2 pound per acre to
control broadleaf weeds once the
sorghum is 6 inches tall but be-
fore flowering. Hybrids contain-
ing Wheatland parentage should
not be treated with 2, 4-D because
serious yield reductions and lodg-
ing may occur. Best and most
profitable results will be obtained
if weeds are treated before they
are 6 inches tall.

I have available in my office
publications on weed control.
Please feel free to drop by and
pick up one.

NORTH PLAINS RESEARCH STATION

The North Plains Research Sta-
tion at Etter recently released
information of some of the work
conducted last year. Following is
some information you may be in-
terested in. The water stress
trials on soybeans shows that the
soybean plant is most sensitive
to water stress during the early
fruiting stages, especially during
early maturation.

SOYBEAN VARIETY TEST
Variety Maturity Yield (bu.)
Hill Medium late 26.1
Lee Full season 24.4
Hinn Full season 22.6

The above varieties were plant-
ed on May 21, 1964. The water
stress trial plots were planted
June 2 and all plots were killed
by frost before fully maturing.
This is an indication that soy-
beans should be planted as early
in May as possible, especially the
full season varieties.

The Way I C It!

ROBERT CORDES, PASTOR
FAITH & OSLO LUTHERAN

At Calvary our Lord was ready
to die. He spoke His emphatic
YES to death . . . He said He
was ready to endure the cross
and proved it by six agonizing
hours on the cross. He never
flinched nor did He turn in
hatred at those driving nails into
His flesh.

How could He possibly do it?
With every natural instinct we
rebel against death. With our
whole being we shout NO! NO!
We cling to life. We pour millions
of dollars into research to gain
a few more days, to cry NO to
death. We long to live.

But we know we all must die.
It is not how we die—under an
oxygen tent, or quickly. But death
will come. Original guilt of man
brought death to all who sin. And
we are all marked as sinners.
This virus of guilt of the soul,
this killer of mankind, will never
lie stained and visible under a
microscope. No medical research
team will ever isolate it.

However our Lord knew the
remedy for sin. For that reason
He spoke His eternal YES to His
own death on the cross. His
blood was shed that our guilt
may be covered, declared for
given.

They lay His body in a grave.
But the grave could not contain
Him. He proved to the world
that we too shall live after the
grave. As He arose from death,
on His return we shall all be
raised in glorified form. Our
bodies will be reunited with our
souls for eternity.

This is what Jesus meant when
He said, "He who believes in Me,
though he die, yet he shall live;
and whoever lives and believes in
Me shall never die." This is the
Easter message—the message that
stops death and gives us eternal
hope. This is why we worship
Jesus as our Savior from death
to eternal life.

In Jesus we are ready for the
coffin and that last soft click,
hardly audible to the mourners,
when the funeral director closes
your casket for the last time. We
live in joyous anticipation of
leaving this earth and being with
our Lord. He gave us this pro-
mise of Life in His Name!

Spray Propazine to control weeds in sorghum

One spray of Propazine® 80 controls most annual broadleaf grasses in sorghum for the entire season. This can reduce or even eliminate the need for cultivating because it takes care of problem weeds. Propazine is particularly effective on pigweed (pigweed) and annual glory.

Sprayed before weeds and up and activated by moisture gives your crop an entire season's weed competition for moisture. The result? Higher more profit for you. Contact your local supplier. Geigy Agricultural Chemicals of Geigy Chemical Corporation, New York.

Mrs. Britt Jarvis Shower Honoree

A post bridal shower complimenting Mrs. Britt Jarvis, the former Linda Holt was given in the home of Mrs. Deta Blodgett April 17.

The serving table was covered with a white cloth and centered with an arrangement of stock, Smilax and Killian daisies. A silver coffee and tea service, silver and crystal appointments completed the table setting.

Misses Anne Garnett and Sue Holt served individual cakes decorated with blue bells and tiny blue flowers, blue and white mints, nuts, tea and coffee.

Mrs. Jarvis was presented a corsage of white Gladiolus accented with a miniature bride.

The Mothers, Mrs. Nolan Holt & Mrs. Billy Jarvis were pinned with white Gladiolus corsages.

We don't make cheap cars—that's for other people. But we do make economical cars, and a case in point is the Buick Special. Bear in mind, first of all, that the Special is a Buick—with all the quality, reliability and superb engineering that the name implies. Now, consider that the purchase price of a Buick Special is surprisingly modest, and the results of last year's Mobil Economy Run nailed down our claims to splendid gasoline mileage with either V6 or V8 (and automatic transmission). You may be concerned about upkeep. Don't be. The Buick Special has a full measure of built-in dependability, and it's so designed that when service is necessary it's relatively easy and economical. Take account, too, of the Special's full six-passenger roominess, large trunk, excellent ride, and agile handling. The interiors here are nicely appointed with just a dash of sportiness. The lowest-priced Buick you can buy!

Celebrating their 50th wedding anniversary, April 25th, are Mr. and Mrs. Ben B. Archer, Sunray, Texas, who will be honored that afternoon with a reception.

Hosting the 2:00-4:00 p.m. affair will be friends of the couple: Mr. and Mrs. Erwin Cartrite, Mr. and Mrs. Kent Cartrite, Mr. and Mrs. Willie Price, Mr. and Mrs.

Verlon Stevens, and Mr. and Mrs. Kenneth Dowdy, all of Sunray. All friends of the couple are invited to this reception at the Community Hall in Sunray. The Archers request that no gifts be brought.

Mr. & Mrs. Archer were married April 25, 1915, in the home of her parents, Mr. and Mrs. J. A.

King, who lived near the Canadian River, thirty miles north of Pampa. The Archers made their way to Texhoma in a buggy where they boarded the train for Canyon on their honeymoon. Their first home was 17 miles southwest of Spearman on a farm already owned by Mr. Archer. They sold this and bought a parcel of land and leased other land eight miles off of the Canadian River in Government Canyon. They were in this area from 1916 to 1929. While here Mr. Archer served as commissioner for several years of precinct no. 2, Roberts County. From 1930-1932 Archers lived in Spearman but raised cattle on a ranch they owned northwest of Perryton in Oklahoma. The years 1932-1936 were spent northwest of Romero, Texas, in New Mexico, where the Archers bought a ranch. Then in 1937 they moved east of Sunray where they bought a farm and raised registered Hereford cattle. The Archers now live in Sunray, Texas and Mr. Archer is still very active as a cattle dealer. Mrs. Archer is a real companion to her husband in his business.

The Archers can relate many interesting experiences they have

had driving cattle together before cattle trucking days. Mr. Archer especially likes to tell when they were moving over 200 head of newly weaned calves. They had left early that morning and had arrived at the Hamilton Ranch about noon. Mrs. Archer agreed to stay with the calves while Mr. Archer and the man helping them accepted a dinner invitation given by Mr. Ed Brainard's foreman at this ranch. The calves, weary from their long morning's travel, soon bedded down, seeming glad for a rest period. When the men returned they were startled to see only Mrs. Archer's horse-but where was she? When they arrived at her horse were they surprised at what they found. Mrs. Archer had unmounted her horse, layed down in the clean, tall grass a more tired calves that were bedded down all around, and was sound asleep!

Enjoying an Easter egg hunt at the home of Mr. and Mrs. Robert Novak were Mrs. Tommy White, Tammy and Terry, Mr. Bill Watson, Elfreda and Wesley, Mrs. Perry Sheets, Carolyn and Lee, Bonnie and Kim Proctor and Mrs. Virgil Hull.

Couple Celebrates Golden Wedding

Mr. and Mrs. Roy Hogan of Muleshoe, Texas celebrated their Golden Wedding anniversary Sunday April 18 with a reception and open house in the Hospitality Room of the First National Bank of Muleshoe from 2:30 to 4:30 p.m.

The couple was married April 4, 1915 in Clay county Tennessee. Mr. and Mrs. Hogan have lived in Muleshoe the past 35 years. Mr. Hogan is a former deputy sheriff of Bailey county, having served from 1938 to 1959.

The couple have six daughters, who were hostesses for the anniversary open house. They are: Mrs. Lou Dell Wilhite of Ft. Collins, Colorado, Mrs. Ada Murrah, of Muleshoe, Mrs. Bynice Calloway of Spearman, Mrs. Mattie Hicks and Mrs. Jean Henry of Muleshoe and Mrs. Myra Grimes of Spearman. The couple have 16 grandchildren and 3 great grandchildren.

The event was attended by friends and relatives from throughout the area.

Mr. and Mrs. Hogan are well known in Spearman, having been frequent visitors during the past several years.

Becky McClellan's Paintings On Exhibit

Becky McClellan, daughter of Mr. and Mrs. Roy L. McClellan of Spearman will have an exhibit of 20 paintings hanging in the junior high cafeteria during the month of April. All paintings are original with the exception of one which was done in connection with a study of Japanese use of lines.

Paintings on exhibit are of trees, buildings, still life, landscape, abstract and the three wise men painted on distressed wood. Becky recently won a first award on a painting and this painting will be exhibited in New York, City.

She is a student of Nelda Sheets of Spearman.

Mr. and Mrs. Claude Jackson, Mrs. Ella Overby and Browning Wallace of Ponca City visited with relatives in Tucson, Arizona last week.

Mr. and Mrs. Lester Mundy and children of Fluvanna spent Easter with their parents, Mr. & Mrs. E. D. Mundy and Mr. and Mrs. A. D. Sparks.

A decorated pink rabbit birthday cake and pink punch was served. The honoree and her friends enjoyed an Easter egg hunt and played various games.

Enjoying the party were, Gena Fields, Dixie Sheppard, Deann Reed, Peggy Floyd, Dana Mackie, Janie Massie, Beckie Reynolds, Kathy Brown, Rhonda Jones, Mary Lou DeArmond and Nancy Kay.

Mrs. Claude Sheets Sr. has returned home after a visit with her son and family, the Floyd Sheets of Guyton.

Mr. and Mrs. B. J. Garnett had as Easter dinner guests, Mr. and Mrs. Stanley Garnett, Miss Anne Garnett and a friend of Anne's who accompanied her home for the holidays.

Congressman Rogers Visiting Panhandle

Congressman Walter Rogers will be in Amarillo, Pampa, and other Panhandle cities from April 21, through Sunday, April 25, during the brief Easter Recess of Congress.

Congressman Rogers plans to spend Thursday and part of Friday in his Pampa office, in the Hughes Building, and will be in Amarillo most of Friday and Saturday.

On Monday, April 26, Congressman Rogers will be at Texas Tech, in Lubbock, to take part in a meeting sponsored by the West Texas Water Institute and the Institute of Science and Engineering at Texas Tech. Several hundred persons are expected to attend the meeting, which will concentrate on federal programs relating to the future of West Texas water development.

Congressman Rogers is chairman of the Subcommittee on Irrigation and Reclamation of the House Committee on Interior and Insular Affairs. His subcommittee has initial House jurisdiction over legislation authorizing water resources development activities.

On Tuesday, April 27, Congressman Rogers will be in Houston to hold consultations on the proposed Columbus Bend reclamation project. The proposal to authorize the project is one of the matters pending before the subcommittee of which Congressman Rogers is chairman.

The Congressman will return to Washington Tuesday night, April 27, in order to be present for Congressional committee meetings and House sessions scheduled Wednesday.

Gladiola's Meet

The Gladiola Flower Club met at 9:30 a.m. April 15 in the home of Mrs. Bill Partridge.

Rolls and coffee were served before the meeting opened.

Mrs. Banks, president presided. An arrangement of Jonquils displayed by Mrs. Buzard won first place.

Billy Turner of the Spearman Floral Shop gave the program on "Easter and Spring floral arrangements."

Attending were Mesdames Dorothy Eagerly, Jackie Banks, Dorothy Bazzard, Dorothy Haner, Estelle Jackson, Sylvia Robertson, Jo Larson, Barbara Schnell, and the hostess, Sherry Partridge.

The next meeting will be May 6 with Mrs. Irvin Davis as hostess.

BUTTERMILK MAKES IT BETTER.

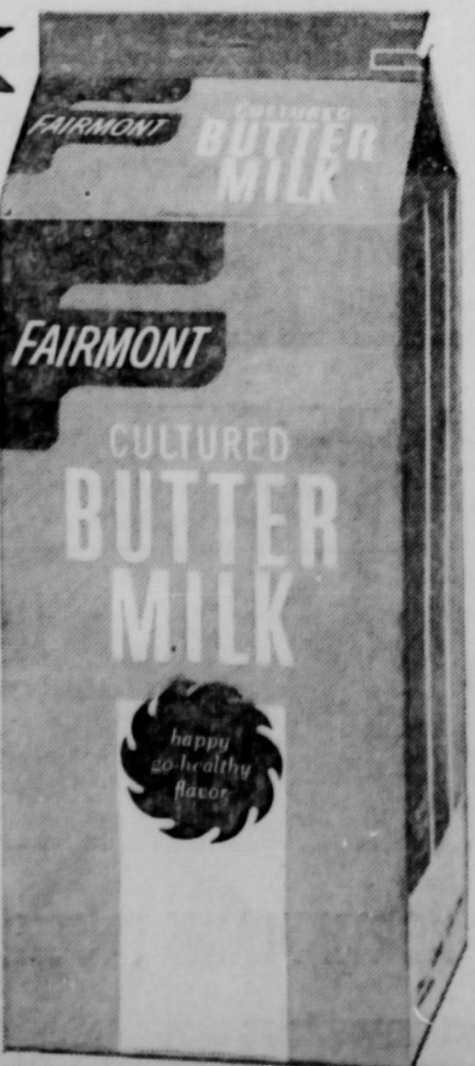

...AND FAIRMONT FRESH BUTTERMILK MAKES IT BEST

Fairmont Fresh Buttermilk gives home-baked bread a special melting tenderness... a real old-fashioned kind of goodness. Try our fragrant, moist Date-Nut loaf... you'll see.

BUTTERMILK DATE-NUT LOAF

- | | |
|--------------------------|-----------------------|
| 2 eggs, beaten | 1/2 teaspoon nutmeg |
| 2 cups brown sugar | 1/2 teaspoon cinnamon |
| 2 cups buttermilk | 1 cup oatmeal |
| 3 cups flour | 1 cup chopped dates |
| 1/2 teaspoon salt | 1/2 cup crushed nuts |
| 1 teaspoon baking powder | 1/4 cup melted butter |
| 2 teaspoons baking soda | |

Beat eggs and sugar thoroughly. Add buttermilk and beat well. Sift together flour, salt, baking powder, soda, and spices. Stir into egg mixture and mix thoroughly. Fold in the oatmeal, dates, and nuts, stirring only enough to combine. Gradually blend in the melted butter. Pour into two oiled waxpaper-lined 9" x 5" loaf pans and bake 40 to 50 minutes in a moderate oven (350°). Cool. Bread slices best if held for 24 hours. Makes two loaves.

Education In The Soviet Union Topic Of Speech At Coffee

Eta Alpha chapter of Delta Kappa Gamma entertained the Beta Delta chapter of Hemphill and Gray Counties with a coffee Saturday, April 10, at 2:00 p.m. in Fellowship Hall of the Methodist Church of Perryton.

Guests were served from a lovely table centered with an arrangement of pink roses. Flora Thompson poured. Hostesses were: Mabel Bowen, Katie Price, Maurine Flathers, Faith Kelley, Flora Champion, and Anna Belle Love. Mrs. Love, vice-president, presided, and welcomed the guests. Mrs. Champion introduced the speaker, Mr. Gilbert Mize, superintendent of the Perryton Schools, who spoke on "Education in the Soviet Union." relating observations he made while visiting educational facilities in Moscow, and Leningrad.

"Work" is a status symbol in Russia. And due to the shortage of labor, children are put to work as soon as possible. Emphasis is placed on their so-called "classless society". However, Mr. Mize noted numerous instances where some had much better living standards than others. Also some expressed desire to go to the universities to become doctors and lawyers in order to make more money. When questioned as to the possibility of this in a "classless society" they stated they could achieve this by working longer hours. Thus went many conflicting stories about equality.

Russian elementary schools are for grade one through fourth or fifth grade. Work with hands is stressed in this, same as other schools. Comprehensive schools are for grade 1 through high school. These are housed in five story buildings having one staircase. Shift schools are handled by having part of the children on work shifts, and part on school shifts. The boarding schools were the most awesome. These are for

students in grades one through high school. The children live in dorms, and come from homes where both parents are members of the Communist Party (as the parents are sent away from home so much, to do work for the party, they are unable to rear their children), or the parents are ill, or from homes where one or both parents are dead. They are regimented as in military schools. All are members of Young Pioneers (communist organization), and are solemn, shake heads if offered gum etc. They sang two patriotic songs for guests after presenting their colors, with so much volume and fire, and all looking at the ceiling, it seemed eerie.

Ninety percent of the men on the street, and many women are so-called engineers, or doctors. But this is due to a difference in the language-as technical school graduates are called engineers and registered nurses are called doctors. Their university trained doctors, and engineers compare to ours. America became upset after hearing how many more doctors, and engineers Russia had than us. So began putting so much more emphasis on math and science.

Teachers are paid for eighteen hour weeks, but do volunteer work much longer. Much time is required for them to promote communism appreciation. Heroes such as chess champions, and astronauts visit the schools.

The president of the University of Leningrad was asked if they had a Dept. of Theology. He said, "No, but we have a Dept. of Atheism." Being an avowed atheist is the first step in becoming a member of the Communist Party. So schools are designed to make good Communists.

Following Mr. Mize talk, Annie Love led the group in Singing two Delta Kappa Gamma songs, accompanied by Wilma Clark. A ten minute visitation period preceded separate business meetings of the two chapters represented.

Mrs. Mabel Bowen gave accounts of six prospective mem-

bers of Eta Alpha chapter, who were voted on, and will be accepted in the chapter in September. Members were told to send their reservations with check for the dinner to be held at the Borger Country Club May 8, to Lucille Kimmons, 9 Standish St., Phillips, Texas before May 1. Spearman residents assisting with hostess duties were Wilma Clark, Lucy Mundy and Nickie Cotter.

HOMEMAKING NOTES

by
Linda Webb, Home Dem. Agent

Keep your eyes and ears open to catch news in the near future about the Driver Improvement Course to be held in Spearman sometime in May.

Everyone needs a refresher course on their driving techniques, believe it or not. But you couldn't begin to pass a drivers examination right now if you had to! No, I'm not feeling superior, because right off the bat I'm sure I couldn't either.

This "refresher" course for adult drivers will be open to the public. No definite dates are yet available, but will be coming up in May. Begin planning now to attend.

I will be out of the office April 21-22, 28-29 attending a class in "Counseling and Guidance of Rural Youth", being offered in Pampa to Extension Agents in this area by Texas A & M University.

Sewing on some of the new knit fabrics? I hope so. Knits are fashion news now, and are here to stay.

There are 2 types of knits—single knits which drape softly, and double knits, made with 2 sets of yarns in a double stitch, which are firmer, yet flexible. The double knits tailor beautifully and usually do not need underlining.

In purchasing knits, remember a length-wise rib is "straight-of-grain"; check to be sure the rib is not severely twisted out of line.

Lining slim skirts and completely underlining the loose knits helps them keep their shape.

All knit fabrics, except those that are bonded, should be pre-shrunk before cutting. To open tubular knit, don't cut on the fold but cut along one rib close to the fold line.

Press out folds of tubular knits, if possible. Many folds will not press out completely. Place the pattern so the creases will not be prominent.

Before pinning on the pattern and cutting, lay the fabric flat without any tension-avoid stretching the fabric.

In sewing, use a medium to light tension, and stitches 12-15 per inch, or a small zigzag.

To prevent stretching, stay-stitch shoulders, neckline and armholes, and reinforce shoulder and waist line with straight seam tape.

Hem knit garments with a tailor's hem: that is, pink, machine stitch or zigzag raw edge of hem; catch loosely to garment.

Always press with the length-wise rib. Lift and lower the iron; don't stretch or pull fabric; do not steam-press.

Especially for Nylon Jersey: Use fine pins, and place them in the seam allowance.

Check the tension on a scrap of material. Short stitches should be used—about 14-15 per inch. The needle should be sharp and fine-size 11, and change it when you see it becoming dull.

Stitch nylon jersey slowly and at even speed to prevent skipped stitches and puckering.

The Home Demonstration Clubs are sponsoring a Rummage Sale and Bake Sale in the Russell Building, Spearman, Saturday, April 24th. You might find something you need there, so come on down Saturday - 8 a.m. to 6 p.m.

The last note: Once a woman never revealed her taste in lingerie except on the clothesline. Now she does it every time she sits down.

Mrs. Donnell Wins High At Bridge Club

Mrs. Garland Head was hostess to the Short Club April 20. Mrs. Donnell won high score and Mrs. McClellan second high. Mrs. Head served luncheon to Mesdames Mary Cornelius, Dorothy Faye Baggerly, Pat Donnell, Elizabeth Holton, Helen Etter, Helen Watson, Barbara McClellan and Gertrude Jones.

Galbreths Visit Six Flags, As Press Guests Recently

Mr. and Mrs. Carl Galbreath & daughters, Elizabeth, Carlissa & Zelpha spent the week-end in Dallas and the opening of the 1965 season at SIX FLAGS Over Texas.

As a press guest of SIX FLAGS the family with friends and relatives enjoyed the rides, shows and attractions from noon until closing time at 10:00 p.m. Sunday.

While at SIX FLAGS Elizabeth recognized Meg Conrey in one of the lines waiting at the log ride. The two 7th graders had quite an enjoyable visit. With Meg was her brother Jim and the Conrey children visited with our group and we enjoyed the rides to-gether until 8:00 p.m. at which time their father Ken Conrey met them at the main gate.

It was a pleasure to visit with Ken and learn his son Calvin was recovering very well from a heart operation. The youngster will return to his home in Weatherford early next week after his release from Ft. Worth's Childrens Hospital.

While in Dallas, the Galbreaths visited Mr. Galbreath's nephew and family, Mr. and Mrs. Richard Snyder, Terry and Todd and another nephew Mickey Snyder.

The Snyders were "racious hosts" to the Galbreath family. The children visited the Zoo and saw Mary Poppins. All enjoyed a sight-seeing tour, shopping in Dallas and the stock car races.

Cadillac offers the only steering wheel in the industry that both tilts and telescopes for your individual comfort.

And this is only one of many important and exclusive engineering features you can expect to discover in the Standard of the World.

When you drive a Cadillac, you are sure to enjoy an extraordinary margin of engineering leadership. Cadillac performance, for example, is so smooth and quiet that a whisper can be heard at highway limits. Comfort Control, surely the most advanced air conditioning-heating system in any automobile, serves your personal needs with the simple setting of a dial. A triple braking system provides independently operated power brakes front and rear as

well as a foot-operated parking brake that can function as a true emergency brake should the need arise. Your authorized Cadillac dealer is the one man to whom you should turn for advice about new or used Cadillacs. He invites you to discover the many reasons why Cadillac, regardless of model or year, is always regarded as the Standard of the World. Accept his invitation to drive the Cadillac car of your choice at your earliest convenience.
