## New Fogging Machine To Do The Job

Dr. D. E. Hackley, Mayor of the City of Spearman as well as City Health Officer, said this week the city has purchased a new fogging machine.

Dr. Hackley, working in the name of "city health officer" contacted each City commissioner last week requesting the purchase of such a machine. It was purchased from a San Antonio firm and will arrive this week.

The City has been using a spray-mist attachment down the alleys to spray flies and insects. This has not been satisfactory at all but the new fogging machine will do the work, according to Dr. Hackley. He advises residents to stay out of the direct path of the insecticide fog, unless you are bothered with lice! In the case you are bothered with lice, this machine will solve your problem too!

1929 MODEL A, with rumble-seat belongs to Jimmy McLain, right. Jimmy is an antique car enthusiast and owns a Model A Touring car. His uncle, Lester McLain, also pictured here, remembers when anyone was proud to be an owner of one of these sports coupes! Top speed is 80 MPH, 24 miles to the gallon!

## RR Commission Hears Plea For Truck Services

Tuesday morning, Lloyd Gilley, representing Spearman Chamber of Commerce, appeared before the Railroad Commission hearing in Amarillo to read a resolution recently adopted by the local Chamber.

The resolution asked the commission to allow Thomas Camargo Trucking Company, an Amarillo firm, a permit to operate in this area.

Thomas also is appearing before the hearing showing proof why this Public Utility service is needed in this area in addition to the one already operating here.

If the Railroad commission grants this permit, a trucking terminal will be located in Spearman.

Some Spearman business men feel they need better import-export services another trucking firm would afford the city. They do not find fault with the Merchant's Freight Lines here, but many think the business is too demanding for one truck to handle it all efficiently.

Miss Linda Smith, daughter of Mr. and Mrs. Don E. Smith is home from the summer session of college at Oklahoma State University in Stillwater, Oklahoma. She will return there September 18 to attend the fall and spring sessions.

The workshop will be held at the Episcopal Church Conference Center near Amarillo on August 3 and 4, 1967. Over fifty 4-H members from District I will attend the workshop.

## FHA Appoints Committeeman

Mr. Everett E. Vanderburg of Hansford County, Texas has been appointed to the three man Hansford-Hutchinson County Farmers Home Administration Committee it has been announced today by Mr. Robert J. Holloway, County Supervisor. The appointment is for a three year term beginning July 1, 1967.

Mr. Vanderburg succeeds Mr. Ray Phelps and will join the other two members of the committee who are Roy Thomas of Gruver, Texas and Fred Cooper of Gruver, Texas. The three member committee serves in an advisory capacity to the County Supervisor and makes determinations as to eligibility for loan advances for the Agency. They are also frequently called upon by the County Supervisor to render assistance in the servicing of loans and the development of other community services.

The Farmers Home Administration does not compete with private lenders in the field of agricultural credit; however, they supplement such sources of credit and make loans on a long-range basis for the development of farms and ranches as well as improvement of community facilities, and provide housing for the rural residents. One of the most important programs is the family-type loan to young farmers in ever-increasing numbers throughout the State. Recent authorizations have been given the Agency by Congress to make loans for recreation facilities for rural residents as well as financing multiple housing for senior citizens and labor housing associations. Another of the more extensive loan programs includes that of making loans for small towns and communities for the establishment or improvement of water systems.

Four counties are serviced by the Farmers Home Administration office located in the Good Office Building, 408 S. Amberst, Perryton, Texas. The office hours are 8 a.m. to 5 p.m. Monday through Friday except on legal holidays. A representative from the office comes to the Court house at Spearman every first and third Tuesday from 2 p.m. to 4 p.m.

## Chamber Mgr. To Insitute

Lloyd Gilley, Mgr. of Spearman Chamber of Commerce, returned Sunday from a 6 day business course on Organization and Management held in Houston at the University there. The institute covered any type business, but was generally for Chamber management.

## Year's Rainfall Stands Near Normal Thru July

Rainfall in the Spearman area, boosted greatly by good rains in June and July, is now standing at 15.18 inches as of Tuesday August 1st. Monday night's rain (measured and recorded on August 1 official weather chart) measured 1.26 at the weather gauge in the H. P. Cates yard.

Although we citizens will call this part of July rainfall, it will be recorded for August since the gauge is read the next morning if moisture falls after 4 p.m.

Until the rains started in June, the total for the first 5 months of the year was only 2.58.

June rainfall totaled 4.08 and July 5.96 (counting Monday rainfall.)

Rains came in time to plant milo, but then more rain came to wash out the seed and required replanting. Some farmers have planted more than one milo crop!

However there are thousands of acres of milo in the ground which gives promise of a good fall harvest exceeding the poor wheat crop.

As usual, moisture totals vary over the country, some places get more, some less, than the city itself recorded.

The first seven months of the year records the moisture picture like this:

January	.02
February	.18
March	1.10
April	2.58
May	1.26
June	4.08
July	5.96
TOTAL	15.18

The average rainfall for Spearman is 21.53. This is averaging last 86 years record on file here in the REPORTER office.

**Helpful Hints From Me To Thee . . .**

By Vivian Warminski  
Hansford Co. Home Demonstration Agent

Are you having trouble caring for your Durable Press or Wash and Wear garments? Dating back to the introduction of the truly synthetic fiber, nylon, women discovered often by the trial and error method, that new practices in care were required.

Now with durable press joining wash-and-wear in the easy care field, the consumer might well review the care techniques that will give her the ultimate in performance.

"Dacron" Polyester is the leading synthetic fiber on the market. Most synthetics require the same care. Here are some suggestions for laundering synthetics.

First, pretreat the stains; deep soil lines on the collar and cuffs removed by thoroughly rubbing areas with full-strength heavy-duty liquid detergent, or a paste of detergent and water. Treat stains as soon as possible and allow time for

detergent to loosen the soil. Stubborn, greasy wax or oil base stains may yield only if treated with a degreaser or dry cleaner solvent before treating with a concentrated detergent.

When laundering wash and wear or durable press items, this insures a cleaner wash and avoids setting wash wrinkles. Generally, hot water removes soil more efficiently than cool or cold water. Good wrinkle-free performance can be achieved with line drying of wash and wear garments; however, for ultimate in easy care neatness, it is recommended that automatic home washing be followed by tumble drying.

With good laundry care, garments and home furnishings of dacron polyester will remain bright and clean. However, when improper washing practices are used, poor results will follow. This may

appear as an over-all yellowing or graying of white goods or dulling colors. Some of the factors causing yellowing or graying are: insufficient amount of soap or detergent; hard water; washing at too low a temperature without a special cold-water detergent; chlorine bleaching or chlorine-sensitive finish; overloading washer or inadequate rinsing.

This information was obtained from DuPont's information news letter, summer, 1967.

The Watson family will move about the middle of August.

Mrs. Craig Hutchison and son Joe and Mr. and Mrs. Jim Steve Ownbey spent the week-end in Bryan, Tex. They were looking for a house for the Ownbeys. Jim will attend Texas A and M next year.

### Mrs. LBJ Received Special Award At "Texas" Production Sun. Nite

One of the State's most distinguished citizens and the production "T E X A S" met Sunday night when Mrs. Lyndon B. Johnson, accompanied by her daughter Luel Nugent and husband, Pat, attended a performance of the show which plays in the Palo Duro Canyon State Park. Mrs. Johnson and her party arrived a few minutes before show time driven in two cars by their hosts, Mr. and Mrs. J. Ernest Batson and their son Joe. They paused to let the numerous photographers get pictures of their arrival and their greeting by the president of the Foundation, Mr. L. Pete Gilvin and his wife, by the founder, Mrs. Ples Harper and the executive vice president Raymond Raillard and the manager of the box office Miss Sally Nester. The members of the executive board of the Foundation were seated near the guests and had opportunities to visit during the evening.

In the intermission ceremonies, William A. Moore announced to the audience that the Board of Directors of the Foundation had designated two kinds of awards for the presentation in the theatre. The first is the small iron triangle given to the person who has traveled the farthest to come to the show. The second is a gold plated triangle, awarded to those who have done special things to encourage outdoor, beauty and appreciation. This special triangle was awarded to Mrs. Johnson in a ceremony in absentia some time ago, but the emblem was held to be given in person. This was carried out at the Sunday evening performance. In addition, the Nugents were given a Palo Duro T Shirt for their son with some postcards of the canyon, and a little viewer. Eddie Thomas who plays Calvin Armstrong in the show, went to Mrs. Johnson's seats in the theatre to make the award.

### COUNTY AGENT'S REPORT by Robert Adamson

#### NEW CROP DISEASE SUSPECTED ON HIGH PLAINS

A disease new to the West Texas area is suspected in some corn and grain sorghum fields. The invader is believed to be maize dwarf mosaic virus (MDMV), says Dr. Robert W. Berry, Extension plant pathologist at Texas A&M University's South Plains Research and Extension Center.

Fields heavily infected with the suspected virus have been found in the Hereford area, Deaf Smith County, as well as in parts of Farmer, Castro, Dallam, Moore, Donley, Hale, Crosby and Floyd Counties.

Infected plants show a mottled mosaic pattern of light and dark green on the new leaves as they emerge from the whorl, explains Berry. In grain sorghum, infected plants will turn bright red or reddish-brown in cool weather. The mottling is primarily brown.

Grain does not develop normally in crops infected by MDMV. On corn only a few grains may form on the cob while grain sorghum heads may be practically sterile.

This particular virus was first uncovered in South Central Texas last year in sweet corn and losses ranged from 10 to 50 per cent.

MDMV overwinters in the rhizomes of Johnson grass and is transmitted by aphids. As the tender shoots of this grass emerge in the spring, the aphids begin feeding, acquire the virus and move to susceptible crops where they transmit the disease.

There appear to be some varietal differences but all varieties examined in the area are seemingly susceptible to the suspected virus.

At this time there are no control practices which will be of benefit to susceptible crops. Many specimens of infected plants have been submitted to Dr. Robert W. Toler, virologist with the Department of Plant Sciences at Texas A&M

for positive identification of the disease. FEDERAL CROP INSURANCE Hansford County wheat farmers who are eligible for Federal Crop Insurance Corporation's program, have been given a limited amount of time to make application for 1968 and succeeding crop years.

The federally operated program's field representatives were pulled out of a number of counties earlier in the year when the drought risk became extreme in order to protect farmers already participating in the program.

In an announcement from Ben A. Jordan, state director of the FCIC, there was also good news for the irrigated wheat farmers in Carson, Dallam, Hansford, Moore, and Sherman Counties and for dryland wheat farmers in Fannin County. These farmers have recently been made eligible for the crop insurance for the coming year.

In addition, Jordan said that more land in Grayson and Collin Counties has been classified for wheat insurance for 1968 following a survey of the two counties.

Farmers interested in details about the program should contact their nearest FCIC field office or the state office in the USDA Building, College Station, Texas 77840.

Mr. and Mrs. Ray Skinner returned Monday from Ft. Morgan, Colo. Mr. Skinner has land there and they went for wheat harvest. They were gone 9 days.

Vern Laws visited his wife in Lubbock over the week-end Mrs. Laws is enrolled at Tech this summer. She will graduate Aug. 26 and receive her Masters degree in Education with a Counseling certificate.

Conquering the world always looks easier when viewed from a graduation platform.

Danny Burns of Pittsburg was elected president of the 50,000-member Texas Association of Future Farmers of America during their 39th Annual State FFA Convention in Dallas concluded July 21.

The new State FFA Sweetheart is Roxann Thurman, 17 year old daughter of Harold C. Thurman of Dumas. Danny will forego his plans to major in agricultural education at Sam Houston State College for one year while he devotes full time to representing the Future Farmers organization before civic groups, industry meetings, livestock shows, banquets and FFA functions.

Mrs. Addie Novak visited with the F. K. Banisters in Steamboat Springs, Colorado for several days. She went on to Denver to visit her sister, Mrs. Tip Anderson until she was called home to attend the funeral of a nephew in Wheeler. Addie stayed in Wheeler for a week and is now home again.

### Mrs. Jackson Bridge Host

Mrs. Estelle Jackson was hostess for an afternoon of bridge Tuesday July 25.

High score for the afternoon was won by Ruby Lair and second high by Betty Davis. The traveling prize went to Rosaloe Butt for trumping with the deuce.

Refreshments of Punch, coffee and dessert were served to the following ladies: Ruby Lair, Betty Davis, Rosaloe Butt, Verina Gail Keim, Margaret Womble, Gwen Smith, Mary Jane DeArmond, Virginia Head, Glenda Guthrie, Sylvia Robertson and hostess.

### Evans Wins High Score

Mr. and Mrs. Bill Douglas entertained their couples bridge club July 26 in their home.

Winning as high couple were Mr. and Mrs. Sid Evans. Second high went to couple Mrs. Bob Parris and Mrs. Hall Jones.

Attending were guests Mr. and Mrs. Bill Boatright, Mrs. Hall Jones, Mr. and Mrs. Sid Evans and members Messers and Mesdames Tommie White, Lawton Guthrie, Mrs. Bob Parris and the hosts.

Mr. and Mrs. Tom Sutton and daughter Darlene are in South Fork, Colo. this week on a fishing trip.

During the intermission, Mrs. Johnson was escorted to the light control booth by Joe Batson who designed much of the equipment and up there she had opportunities to see the mechanics of the production and visit with the directors of the production, Mr. and Mrs. William A. Moore, Mr. Royal Brantley, musical director, Mr. Neil Hess, choreographer and Mr. Erin Wertemberger, technical director.

After the performance which was climaxed by tremendous exploding fireworks, the Johnson party remained to greet the audience as they left and then went to visit with the cast, shaking hands with many and visiting as they went.

The cast presented the party with programs signed by each of the people mentioned and with loaves of bread baked on the grounds which is served at the barbecue.

Mrs. Carl Reed and two daughters and Mrs. Roy Lee McClellan and two daughters recently spent a week at the Daily's cabin near Taos, N. M. This week Mr. and Mrs. Don Floyd and family and Dr. and Mrs. F. J. Daily are there.

Rev. and Mrs. Calvin Springer and daughter of Wichita, Kansas spent a few days here last week visiting friends. They stayed in the home of Mrs. W. A. Schubert. He is a former pastor of Union Church.

Mr. and Mrs. Bill K. Jackson visited with Bud and Juanita Jackson and Robbie in Kelson, Texas and went on to Wellington, Texas for a Jackson family reunion on Sunday.

**Let Me See ... by Sybil**

J. L. Brock is doing more to get rid of our abundance of flies than anyone in Spearman so far! He is giving away fly-swatters. If enough of you will go by his office on main street and pick up one of these, take it home and use it, we just might see a decline in the population of these pesky flies.

Mr. and Mrs. W. R. Shaull have just returned from a trip which I have longed to make all my life. They visited and toured the New England states, and traveled altogether 3300 miles. The purpose of their visit to Elkins, Virginia was to attend a reunion of her mother's people. Although they knew no one present, they had a very wonderful time and received the prize for traveling the longest distance to the reunion.

Mr. Shaull said they stopped at a quaint old country store to get gasoline, near Elkins. The store was right out of the pages of history... still very old fashioned (merchandise and all) with seven of the most delicious looking smoked Virginia hams hanging from the ceiling.

Mr. Shaull, who is in the plumbing business here in Spearman, usually wears striped bib overalls. For dress he likes to wear the popular western type shirts... with all the pearl buttons, and a "Texas" style straw hat. In Elkins, everyone would stop him and asked where he got his striped overalls. All they ever see are the dark blue ones... they liked the stripes! They especially wanted to know where he got his shirt. They had never seen one! But the big hat intrigued them the most. Everyone wanted a big brimmed straw hat.

They stayed with one of the members of the "family"... they didn't know and had a wonderful time in their home which was a big, old two-story house... all the furniture was very old... all the beds were big, high posts... each covered with hand made quilts. These Virginians probably were so accustomed to their "old worn out furniture"... not realizing they have a house full of priceless antiques! Mrs. Shaull stopped by her old home in Lamar, Mo., and brought back some of her parent's furniture. One piece is an old side-board, another is a square stand table, both sides veneer... both pieces over 100 years old. She is in the process of cleaning them up and re-doing them.

They visited Jamestown, Williamsburg, Richmond, Washington, D. C. and 11 different states in all. Mr. Shaull liked Kentucky best of all.

Had three young men come by the Reporter office Tuesday morning looking for a place to rent. They were nice looking boys... I think. Really, I couldn't tell for sure because their long hair covered up their face! A couple of them farm for Ray Phelps. Ray asked them if they were on their way to the Barber Shop... they said "no, we're going to the Barber's funeral."

What ever the reason that makes nice looking young boys think they should have long untidy hair is a mystery to most everyone! I doubt if any one in this city would rent an apartment to the looks of these! It's a shame, really for beneath all the long flowing (dirty) locks, probably exists a real good kid! But you just can't help but associate

their "looks" with the type of no-goods you see and read about everyday in the newspapers and on TV.

I collect samplers, the kind you embroider and frame. Have a wall in my den reserved for such. I have looked everywhere and in every sewing magazine for the sampler I saw once hanging in an old church. It's the prayer of St. Francis of Assisi. He penned this in the 13th Century and it's my favorite. Many of the world's problems would be eliminated if every one of us every day repeated it. If you find this in sampler form, no matter how large... please buy it for me and I'll gladly reimburse you for it. It reads as follows:

"Lord, make me an instrument of your peace. Where there is hatred, let me show love; where there is injury, pardon; where there is doubt, faith; where there is despair, hope; where there is darkness, light; where there is sadness, joy.

Oh Divine Master, grant that I may seek not so much to be consoled as to console; To be understood as to understand; To be loved as to love;

For it is in giving that we receive; it is in pardoning that we are pardoned; And it is in dying that we are born to eternal life. Amen."
