Important School Census Forms Are Out

School census forms have been sent out through students this month and the completed forms are to be returned as early as possible, and not later than January 31. All children who will be six and under eighteen years of age on September 1, 1968 must be enumerated.

Parents of students who will begin school for the first time September 1968 and who do not have other children in school have been asked to contact either the superintend ent's office or one of the school principal's office to obtain a census blank.

If you know of a child who will be six and does not have a blank please report that information to Allen Alford. elementary principal or to the superintendent's office.

Gathering information for the 1968-69 school year through this census count is very important and the cooperation of all parents is sought.

Payment of certain state funds is based on the number of school-age persons counted in this census. Every child missed on this enumeration means a loss of money to this school district. THE LAW requires parents

fill out a census blank for EACH CHILD who will be attending school next year, 6 years of age and under 18. Even if your child has graduated, if he is still under 18 he too must be counted. This also includes married children still under 18.

The Republican Women remind every citizen of Hansford County, from 21 to 121, to register on or before January

Oil Company Official Asked To Give Views On School Tax

American Oil Company, Lubbock, was invited to appear before a called meeting of the Spearman school board Monday morning of this week.

Luscomb, representing the biggest taxpayer in the school district, was asked to be present at the meeting to give his views concerning the tax situation of the Spearman school. Pan American Oil Company paid \$68,888.00 for school taxes in 1967. The company's assessment is over

3½ million dollars. Speaking in generalities, Mr. Luscomb did a lot of comparing and concluded that Spearman had a very expensive school! The speaker noted that per-capita spending in the Spearman school was high in comparison to other schools of the same size and category.

Luscomb offered no complaint nor criticism of the Spearman school system but he did hint that oil companies thought the school spent too much money and added the thought that an "expensive school" does not necessarily produce "a good education.

Facts & figures divulged by the company spokesman had been requested by members of the Spearman school board and were well received at the 10 a.m. meeting.

School board members pre-sent included Lloyd Buzzard, Max Baggerly, Roy L. Mc-Clellan, Ray Moore, Joel Lackey, Marvin Jones and Hershel Jones. Ray Phelps & Ellzey Vanderburg, board of equalization members, were also present along with school officials Dr. Bill Reeves, Orville Latham, James Pendergraft and Troy Sloan.

At the regular meeting of the school board Tuesday night, action was taken concerning the budget and taxes for the coming year. Minutes of the meeting follow:

Motion made by Marvin Jones, seconded by Hershel Jones that the West Texas Chamber of Commerce be notified that the Board of Trustees recommends that a study be made to determine the feasability of the institution of a statewide sales tax to supplement local property taxes for schools and that provisions be made to retain said revenue in the local school

district. Motion carried. Motion made by Ray Moore and seconded by Marvin Jones that taxes be collected in September with a 2% discount, no other discount to be allowed, and that the 1968-69 bud. get not exceed the 1967-68 budget (\$998,000.00). This

Elementary students number 383, the same amount of students enrolled in grade and junior high while high school

has 358 students. With many schools in the Panhandle area having to close because of the amount of absentees due to illness, Spearman schools opened its doors after the holidays to the usual amount of students.

However, Monday morning of thisweek the picture was beginning to change. Forty pupils were absent from elementary school and 35 from grade school. Classes began at the grade school with only 20 pupils absent but before noon 15 more had been sent home due to illness.

In high school only 19 were absent when classes took up, but by noon the total had climbed to 25. Some students came to school ill just to take mid-semester exams and left when tests were concluded.

County health officer, Dr. Damon Gregg, said Monday morning that Spearman was definitely having quite an epidemic of flu. However, the doctor said he felt the epidemic (which began Friday) was at it's peak Monday and would begin declining by mid-week. Dr. Gregg said more than one type of flu was evident. Some patients are experiencing stomach cramps while others complain of aching and chilling. Length of illness varies from 24 hours to 78, if no side effects de-

The doctor spoke of one interesting sidelight: out of a company which employs 52 men (all of which had the flu vaccine) not one absenteeism had been reported due to flu.

The county health officer advised people to stay away from public gatherings as much as possible, get plenty of bed rest, drink lots of liquids and stay home!

taxpayers are reminded they have until January 31 to remit their 1967 taxes. After that date current ad valorem taxes will be placed on the delinguent rolls and penalty and interest charged,

A check with the county tax collector, J.B. Cooke, shows 90 percent of the tax roll has been collected for a total of \$541,627.83.

Most city taxpayers also took advantage of the 3,2, and 1% discount by paying before the December 31 deadline. City tax collections show \$87,935.76 of the \$104,592.57 tax roll collected as of December 31, (83%). This figure compares with \$84, 336. 17 collected by this date in 1966 when the total tax roll amounted to

\$103,000.00. \$2,247.77 worth of delinquent city taxes have been paid for 1967 which is a big increase over the \$29, 42 which had been collected by Dec. 31 in 1966.

Spearman Independent School district tax roll shows \$741,609.00 has been collected thus far which is 89% of the \$829,971.00 tax roll.

This compares to 1966 figures when at the end of Dec. \$696.085.00 was collected, or 88% of the \$788, 493.00

Holiday Deaths Stand At 80

The Texas Department of Public Safety closed its 'Operation Deathwatch, 'inclusive period of Christmas and New Year's week-ends, with 80 traffic fatalities, 20 less than the 100 traffic fatalities estimated prior to the holidays," stated Major Luther Moore, Regional Commander of this area.

These 80 traffic deaths resulted from 71 fatal crashes as compared to 1966's 65 crashes and 90 deaths. Fortythree of these fatal accidents were one-car crashes resulting in 47 deaths as compared to 1966's 34 fatal crashes and 40 deaths. Twenty-five of these fatal accidents were two-car crashes resulting in 29 deaths as compared to 1966's 28 fatal crashes and 45 deaths. Three of these fatal crashes were three-car crashes resulting in four deaths as compared to 1966's two fatal crashes

and three deaths. Of these 80 traffic deaths, 61 were males and 19 were females as compared to

1966's 65 males and 25 females.

The Lubbock Region rec ed four of these 80 traffic deaths as compared to three in 1966. One was in Lubbo County, one in Haskell Cou ty, one in Parker County, as

Let Me See ... by Sysil

Neither snow, nor rain, nor heat, nor gloom of night" kept Spearman mail couriers from the swift completion of UEST their appointed rounds Monday...bringing with them many 5¢ stamped letters for which I had to pay the addi-tional penny before they would leave my mail! Seems many postal patrons either forgot that postage went up to 6¢ as of Sunday, or else they just couldn't purchase the new stamp. The thought even crossed my mind that perhaps they
KNEW the postman would collect the needed postage from
ME! I really didn't mind paying the extra 1¢ "postage due" ... until I found most of the mail contained statements! Maybe I'll deduct a penny

from each of these accounts. Some of the New Year's predictions for our future real-ly intrigued and excited me.. others left me a little disap-pointed and feeling hopeless. Did you read the list of 100 inventions to watch for? The reading was a little extensive, extreme, and uninteresting until I came to no. 16: "relatively effective appetite and weight control." (this was the reason I was feeling hopeless.
.. I had just read the fashion forecast where dresses now have the belt ban lifted... shape is back...fitted clothes e Mn are IN.) According to one fashion expert the no-belt-ff W shift era has resulted in approximately 2 extra inches around milady's waistline. Size 10 had long ago abandonof 25 for a more comfortable 27 inches. Now that explains a its old waist measurement

Ш

lot to me. I had WONDERED where that extra 2 inches came from...but it never dawned on me it came from wearing loose, non-fitting dresses. No doubt about it.... freedom spreads (the article stated) and now the SQUEEZE is on again. Another thing I had concluded long ago is that the size of clothes had either CHANGED...or else some of these ole gals were pulling my leg by saying they still wore a size 12....I'd swear most of them were MY size!...Any-way it's now a CINCH... belts and shape are back. No more comfort girls! No more making ourselves believe (by wearing shapeless clothes) that we are STILL size 12. From NOW on, it's going to show!... However, bear up until the prognos-ticators come through with our

'weight control" method. The further I read on the list of 100 inventions, the more excited I got. Ideas come thick & fast! "Human hiber-nation for short periods (hours & days) or extensive periods (months & years.)" Now I realize this is talking of use of cyborg techniques...but whose to say! By that time I'll be ready for any kind of vacation, even

the deep-freeze kind! Number 21 talked of "controlled sleep"....man what I could do with this one! I hope it comes out in the form of a pill... (Billy would go for that) otherwise I'll have to slip it into his milk! Imagine...him staying awake when company

Possible techniques for control of individuals & organizations...practical use of electronic stimulation of the brain. ... new, reliable drugs for control of mood, personality & alertness...control over the basic constitution of an individual. .. extensive use of robots and machines "slaved" to humans... .. individual flying playforms.

Now don't tell me YOU don't get some ideas too!

Was glad to read learn the unsightly auto graveyards that now dot the countryside would soon be cleaned up...until I came across the statement that the mashed up, hammered down, rolled up & melted down journed to Fellowship Hall for bodies would be made into NEW coffee and cake served by automobiles! new cast iron bath Jewell Turner and Judy Creatubs! and what-not! So don't cy. kid yourself, that new car you buy is really 12-year old junk. .. and your new bathtub, under its gleaming porcelain, might be an old Edsel!

Study Club Will' Donate \$100 To Library Fund

The hospital ship Hope was the program topic at the January 8 meeting of the Spearman Study Club. The club met in the home of Mrs. Kenneth Evans with Mrs. Don De-Armond as co-hostess.

Mrs. Robert Adamson conducted the meeting and individual roll call was answered. Club members will be assist-ing with the Mother's March January 21 for the March of Dimes. A vote was taken and the club will donate \$100 of the proceeds taken from their home tour to the library fund. They also discussed the satellite program for retarded child-

Robert Adamson came and showed the film "Hope in Pery." Mrs. Richard Baxter concluded with information on the ship Hope. The hospital ship, which is helped by offerings from the club, is the fa-mous ship which goes to foreign countries introducing medical ideas and new sanitation methods.

Attending were Mmes. Jim-my Vernon, Perry Coursey, Bert Sheppard, Sandra Ladd, Robert Adamson, Jimmy Shieldknight, Richard Baxter, Herman Boone and the two hostesses.

All 1968 Voters Must Register By Jan. 31

This week marked the opening of a statewide newspaper campaign organized by Secretary of State John L. Hill to promote voter registra-tion in Texas. One feature of the registration drive is the publication of an application form which voters may cut out and mail to the county tax assessor-collector, who acts as the registrar of voters. The form is printed below, and publication will be repeated each week during January. The deadline for registration is January 31.

One of the new laws enacted in 1967 makes registration necessary, for the first time in Texas history, for persons over 60 years old who live in rural communities and towns under ten thousand population. Heretofore, persons over 60 were required to register only if they lived in a city having more than ten thousand inhabitants. Many tax assessor-collectors have expressed a fear that lack of information concerning this new requirement will bring about disfranchisement of many elderly voters through their failure to register.

In order to vote in statewide elections, a person must meet the following qualifica-tions on the day of the election: he must be over 21 years old and must be a citizen of the United States; he must have resided in Texas for one year immediately preceding the election; and he must have registered for the voting year in which the election is neld. In order to vote in local elections (county, school district, etc.), he must also have resided in the county six months immediately preceding the election. Residence in the city for six months is required for voting in a city election.

A new law enacted in 1967 permits voters who move from one Texas county to another within the period of six months preceding an election to vote on statewide offices and issues if they have lived in the state for a year. Formerly, a voter was totally disfranchised for a six-month period following removal to another county unless the county from which he moved was in the same congressional, legislative or judi-cial district as the county to which he moved. A constitutional amendment adopted in 1966 authorized enactment of the new legislation.

The Texas Election Code enumerates "idiots and luna tics, and all persons convicted of any felony except those restored to full citizenship and right of suffrage or pardoned" as classes of persons who are not qualified to vote.

Texas voters must register annually. The 1968 voting year will begin on March 1, 1968, and will end on February 28, 1969. The registration period for the 1968 voting year began last October 1 and will end on January 31, 1968. Any citizen of Texas who now possesses the necessary qualifications for voting or who will attain them by February 28, 1969 may register during the current

registration period. Except for three limited classes of voters, all persons wishing to vote at any time during the 1968 voting year must register by the January 31 deadline, even though they may not yet possess full qualifications for voting. The only registration permitted after January 31 is (1) by persons who move into Texas after October 1, 1967, (2) by persons who become 21 years old after January 31, 1968, and (3) by former aliens who are naturalized after January 31, 1968. The first and second classes may also register during the regular period. Registration certificates issued to persons not yet qualified to vote are marked to show the date on which they will be-

come qualified.

Any person eligible to regis-er may apply for registration without delay. For the infor-mation of families needing ter may apply for registration by mailing an application form to the county tax-assessor-collector of the county of his residence. Registration certificates will be mailed before the beginning of the voting year on March 1 to persons who apply by mail.

Mail Voter Registration Certificate (1) to above permanent address, (2) to my temporary address at

I understand that the giving of false information to procure the registration of a voter is a felony

Voters may also register by applying in person at the county tax assessor-collector's of fice or at a registration substation.

The husband, wife, father, mother, son, or daughter of a voter may act as the voter's agent in applying for registration if the relative is a qualified voter in the same county. Except for these listed rela tives, which do not include those related by marriage, no one may act as agent for another in applying for registra-

Voters who have not already applied for registration are urged to cut out the application form which appears on this page, fill in all the blanks, and mail it to the county tax assessor-collector

more than one application blank, this form will be reprinted throughout January and other members of the family may use a form published at one of these later dates. Additional forms may also be obtained from the county tax assessor-collector.

Miss Ceedell Anderson Becomes Bride Of Pfc. Clayton Cochran

Donna Ceedell Anderson became the bride of Pfc. Clayton Lee Cochran, Jr.

The marriage unites the families of Mr. and Mrs. Seaborn Anderson, 407 SW 12th, and Mr. and Mrs. Bill Cochran, 507 SW 12th, Spearman. The Reverand Roy F. Can-ada, pastor of the First Bap-tist Church of Sunray read the service at 7 p.m. on De-

Vows were pledged beneath an archway decorated with emerald leaves and plumosus fern with white satin bows. Flanking the arch was candelabra trees draped with garlands of smilax. Aisle pews

and Skipper Robinson. The bride, given in marriage by her father, wore a formal floor length wedding gown of imported chantilly lace over white taffeta designed with a fitted bodice, sabrina neckline and long sleeves. The tiered skirt of lace and organza fell into a chapel train. Her veil of imported illusion, bordered in chantilly lace, fell from a crown accented with aurora borealis crystals and pearls. She carried a cascade bouquet designed from a single white orchid surrounded by white roses and tied with white sat-

in streamers. For her daughter's wedding Mrs. Anderson chose a bone sheath dress with which she wore green accessories. Mrs. Cochran was attired in a beige sheath dress and brown accessories. Both mothers wore corsages of white pom pom mums.

Reception guests were received immediately following the ceremony in the fellowship hall at the church.

The bride's bouquet was used on the serving table

which held the silver punch bowl, silver coffee service and the beautiful three tiered cake. Miss Francis Whitson of Canyon presided over the silver punch service. Miss Jerrie Grange of Lubbock served cake and Mrs. Jon Goodall poured the coffee. Miss Penny Gaither registered guests from a table centered with a silver candlestick and bud vase hold ing white and pink carnations.

When the bride left on her wedding trip she was wearing a green and white tweed dress and jacket ensemble with black accessories. The white orchid from her bridal bouquet was pinned to her shoulder. Both Mr. and Mrs. Cochran

are 1966 graduates of Spearman high school. The bride attended WTSU one year. She is now a student of Northwest Texas Hospital School of Nursing. The bridegroom attended Amarillo Junior College before entering the Marine Corps. He is now stationed at Camp Pendleton in California.

A dinner, hosted by the groom's parents, honored members of the wedding party on Dec. 23. Showers honored the bride in Spearman Dec. 2 and by her classmates at the nursing school the week preceding the wedding.

the Reporter's PERSONALITY OF THE WEEK

Running an operation such as T G & Y, on Main Street, in Spearman is not exactly an easy chair job. It is the sort of business, that requires the unusual type of young business man, who can take and carry out orders, keep in tune with the many trends and new ideas in the mass of merchandise offered to the public and maintain a well trained store personnel. Nelson Bell has shown that he is the typical young man for the job. He has constantly maintained a cheerful, bright store where people enjoy shopping..in spring, summer, fall and winter, his merchandise is in keeping with the season, well before the season arrives. Such occasions as Christmas, Easter, Mother's Day, Father's Day and other special days, always bring forth merchandise to fit the occasion. He realizes that the combination of price and quality is the ammunition to produce a quick turnover of goods and that a quick turnover is the key to a successful operation. It is the rule rather than the exception, that you'll find one or more tables of close out odds and ends on special sale... Nelson Bell believes that holding merchandise from one season to the next is the surest way of creating a man sized hangover. Our personality of the week, like any variety store operator will occasionally over-buy on what appears to be a red hot item. . When he does make a rare mistake of this kind, you'll find him wasting no time in slashing prices of this merchandise and moving it out of the store. He makes no bones about checking his competitors prices in order to keep his own price schedule in line with the competition and he fells his competitors are priviledged to follow suit. At the present time, T G & Y, is taking on a new look and with the expansion underway, new display areas and methods are coming in evidence. He is always ready and willing to render his friendly assistance in finding a spool of thread or helping you decide on curtains or drapes for the living room window. It is well to note that his clerks are of the same friendly disposition. One reason for his keen interest in the operation is that he shares in the profits of the business and that's a pretty fair shake for anyone to shoot for. He's always ready to share his bright friendly smile with friends and strangers alike and you'll find that it sort of rubs off on you. His faithful service with the Spearman Chamber of Commerce has proven his interest in the community and we believe he'll contribute much to its' future growth and development.

POINT II-RESEARCH & ANALYSIS

As we mentioned in Part I of this series, it could be the town with the most attractive Main Street or the neatest park and schools, that gets the new industry, but in any case, it will be a town which is able to present itself well in facts and figures.

Remember, any industry first and foremost must make a profit.

Therefore to the industrialist there is no such thing as a "good labor force, or a "good" water supply, or a "good" tax structure. He wants to know exactly what the labor force is: men, women, skilled, unskilled; what is the water supply in gallons-the consumption; what the tax structure is in detail...he will want to know the facts and figures on subjects such as these for the past, present and projections for the future.

complaining about how it's getting harder and harder to stay in business and realize a profit. I knew one small businessman who over a period of thirty years, became a millionaire. This man was a merchant in a town like Spearman. He started out with/a small stock of goods and very carefully replaces his merchandise when he sold it. This man was a careful buyer and when the opportunity arose whereby he could buy in larger quantities, at lower prices, he proceeded to do so. He and his wife were the sole operators of the store where they put in long hard hours, year in and year out. They lived in back of the store, thereby curtailing their living expenses. This man discounted all of his bills, thus taking advantage of the two percent discount. The merchant did all of his shopping in his home town and this eliminated the need of an automobile. He kept a bright clean store that was attractive to his customers and he always greeted them with a friendly smile... The business apparently flourished and expanded into a double store, with new lines of merchandis Finally, at the end of thirty years, the storekeepers great uncle died and left him the sum of nine hundred ninety nine thousand dollars thereby making him a millionaire.
