

Band Brings Home Division I Rating

Spearman High School's Band under the direction of Frank Porter brought home a Division One rating from the Regional Interscholastic League marching contest held Tuesday in Canyon.

Judges Gerald Hemphill of Enid, Okla., Eldon Janzen of Irving, and Norvel Howell of Clovis, N. M., awarded only 13 Division I ratings out of 40 bands participating in the contest. Last year 31 No. 1 ratings were awarded out of 43.

This was the first step in the three-part contest for the Band in its annual UIL competition. With a Division I win in the Marching contest, they will need Division I ratings in Concert and Sight Reading to receive the coveted "Sweepstakes" award. These two contests will come later in the year.

Tuesday's "win" is just what Lynx Band members and their Director Frank Porter needed. Porter is in his first year as Head Director for the Lynx Band.

He stated Tuesday after the contest, "I consider this as one down and two to go. This win has done wonders for our morale and has inspired the confidence needed within our ranks in order to win sweepstakes."

SHS Band twirlers receiving Division I ratings included Donna Ownbey, and Diane Gregg, High School Division.

Mrs. Chester Ferguson, 707 Townsend, is trying to locate a woman who brought a pair of her son's trousers to be altered and has never picked them up. This lady, Mrs. Ferguson forgot her name, was small, blonde and her son was in the Service stationed in Colorado.

Mr. and Mrs. Ferguson are moving from Spearman Friday Oct. 27, and the clothes left at her home for alterations, can be picked up at the home of Mrs. Donald Bowen, 18 S. Townsend.

Reporter Buys 8th Grade Plainsman Wins 40-12

In business transactions consummated last week, Wm. M. (Billy) Miller, Editor of the Spearman Reporter, purchased the Hansford Plainsman newspaper publications.

The Hansford Plainsman has been published in Spearman for the past eight years by Earl McClellan and Jim Davis, who will cease publication as of October 31.

Miller purchased the Plainsman Newspapers commercial printing and office supply departments of same.

McClellan and Davis, very popular men in this community, have not stated their plans for the future, but both men believe they will follow the newspaper trade in another city.

Spearman's 8th grade team had to use an adding machine, as they trounced the Sanford-Fritch Eagles 40-12 at Lynx Stadium Thursday evening.

Brock started the scoring as he hit Grayson for a 1st period touchdown. The extra point try failed.

Early in the 1st quarter, Jay Holland intercepted an Eagle aerial, and returned the ball to the 25 yard line. Grayson ran 5. Pierce broke away to mid-field, and Brock again picked-out Grayson for a beautiful TD pass. Again the extra point failed, leaving the score 12-0.

After an exchange of punts, Grayson broke loose for a 60 yard touchdown, but a clip nullified the run. However, a few plays later, Grayson broke around left end for a touchdown after good runs by Driscoll, and excellent blocking by the entire 8th grade team.

Again after an exchange of kicks, with 6:37 left in the half, Grayson intercepted a pass, and returned the ball to the midfield. After two line-plays picked up a few yards, Grayson broke loose for 26 yards for a first down.

With good runs by Pierce and Driscoll, the Lynx, finally scored just before half, on a 1 yard plunge by Grayson. The extra point try made the score 26-0.

The high flying Eagles returned the kick-off to the 48 yard line, and with 4th down and 1 yard to go, the Eagles put their first score on the score-board, with only 4 seconds left in the half. The half-time score remained 26-6, as the Lynx held on the extra point try.

The eagles scored another touchdown in the third quarter but the extra point try was no good, making the score 26-12. Grayson scores another touchdown, and runs the extra 2 points in the third quarter, with 28 seconds left, making the score 32-12. Another 85 yard punt return by Grayson ended the game, with a 40-12 victory for the fine 8th grade team. Outstanding play by all the 8th grade kittens high-lighted the evenings play.

At the 11 A. M. hour, Pastor Bill Hill will preach on "The Reformation and Others." Great Reformation hymns will be sung and an open-house in the fellowship hall from 3-5 P. M. will take place for those in this community who wish to attend.

Rev. Hill invites the public to "come and see our new church, get to know our members, our beliefs, during the 450th Reformation Anniversary service."

Irrigated Milo Yield Very Good

No exceptional Milo yields have been reported during the harvest now underway, but most farmers readily agree that yields this year are bettering last year's by some 25 bushels per acre.

The past week has seen the harvest get into full swing. A few farmers are "about through" some have finished and still others haven't started. One elevator Manager pegged the harvest as 45% complete.

Yield reports have been running as high as 8,000 pounds, which is 142 bushels per acre. Irrigated fields are expected to average 120 bushels. Last year's average was around 110 bushels.

Dryland yields have been varied, some real good, 45-50 bushels, and some not so good. The difference on dry land Milo is not how much rain was received, but when it came.

Another week of good weather should wind up the 1967 Milo harvest in the Spearman area.

Death Believed To Be Suicide

Jimmy Lee Davis, 43, an employee of the Michigan-Wisconsin Pipeline Plant in North Hansford County, was found dead in his home at 8 A. M. last Friday by a fellow worker.

Sheriff J. B. Cooke was called to investigate. Sheriff Cooke said a .22 caliber pistol was found near the body.

The body was brought to Spearman, then sent to Amarillo where an autopsy was performed to determine the cause of death.

Davis was born in 1924 in Guyton. He had been employed with the Michigan-Wisconsin since about 1950 and made his home at the plant.

He is survived by 3 daughters and 3 sons, all of the plant; two sisters and a brother.

Funeral services were held in Perryton Monday for Emory H. Smith, 57, a former resident of Spearman who died Thursday afternoon in a hospital at San Bernardino, California.

Mr. Smith, a native of Hansford County, had lived at Barstow two years. He was an oil field worker and a Baptist. He was a former resident of Perryton.

Surviving are sons, Dudley of Spearman and Darrell of Perryton, a daughter, Mrs. Fredonia Lee Dowden of Leesville, La.; parents Mr. and Mrs. J. L. Smith of Shawnee, Okla.; a brother, Hugh Smith of Shawnee; sisters Mrs. Dean Shuttin of Kermit and Miss Frances Smith of Shawnee and five grandchildren.

Library Expert Suggests Down Town Building Site

Mrs. Rosalyn Shamblin, Texas Library Field Consultant, met Tuesday morning in Spearman with Committees working on the proposed new Hansford County Library to be built in Spearman. Library officials and members of the finance committee anxious to "get the ball rolling" for the new Library, heard Mrs. Shamblin's ideas and suggestions concerning the proposed \$75,000,00 structure.

She urged the committee to see that the building was located as near downtown Spearman as possible. The consultant stated that a Library should not be located in a residential area, but where most of the "foot traffic" is. She suggested committees visit the Library in Dumas for structural ideas, and to talk with residents in Stratford who have just completed a fund-raising campaign for a new Library building.

A site selection committee was appointed with J. L. Brock as chairman and Magda Garnett, Frances Kilgore and Betty Porter co-chairmen. This committee is already at work on a suggestion discussed Tuesday morning concerning a downtown location.

Councilmen Look Into City Needs

City officials and councilmen continued the "look into the future" at Monday night's meeting.

A long-range study of what to anticipate in the way of water and sewage needs and funds to finance such has been under way for some weeks by City Aldermen. City Manager Darce Foshee said "we intend to keep ahead of ourselves so the City won't come up short when and if these needs do arise."

Consulting Engineer L. D. Burns of Dumas was present at the meeting to help plan water and sewage improvements.

Bob Davis of Columbian Securities Corp. of Amarillo, who is retained by the City, was also present to give financial advice.

It is anticipated that another City water well may have to be drilled within the next year and if this need arises, the drill site is ready and available. This site was purchased many months ago, through this long-range study.

Guests in the home of Mr. and Mrs. Jett Mason last week were Mrs. Walter Rothwell, Tammy and Denise of Childress. Mr. Rothwell is on a tour of duty in Korea at present.

TYPICAL of the irrigated fields in this area is this heavy milo crop on Otto Walker land 2 miles North of Spearman. Dave Wilson, farmer, completed cutting this crop Monday.

Champion 7th Grade Continues Un-Defeated Football Season

The un-defeated 7th grade, continued to roll on, as they downed a good Booker team 12-8, in a real thriller at Lynx stadium Thursday. Booker kicked off to the Lynx for the opening play of the game, and Scott Latham returned the ball to the 31 yard line. On the very next play, from scrimmage, Scott Latham ran around right end, behind excellent blocking, 65 yards for a touchdown. The Lynx fumbled on the try for extra point, to make the score 6-0.

This was the only scoring in the game, until the third quarter. Booker had kicked to the Kittens. Beedy returned the ball to mid-field, to start the third quarter. Phil Lair picked up 5 yards, and Schell ran the ball 20 yards down to the 2 yard line. Phil Lair then crashed over from the 2 for the touchdown, but fumbled the ball in the end-zone for no score.

Booker took over, and the Lynx held, with the final score for the Lynx coming, when Schell scored, giving the Lynx a 12-0 lead. Booker scored with 20 seconds left, to make the final score, 12-8. The Kittens remain un-defeated this year.

Coaches and committee officials from District 1-AA Schools met in Phillips Wednesday night of this week to work out problems of reclassification.

This came about recently when 1-AA Shamrock moved into a more Southern District, and Sanford-Fritch dropped to a 1-A district.

Drawing for schedules within the District for the next two years, and the securing of 5-non District football games was the main business for Wednesday's meeting in Phillips.

The six schools in District 1-AA include Spearman, Boys Ranch, Dalhart, Panhandle, Phillips and Stinnett.

THE PEABODY LETTER HIWAY CAFE CHESTER L. PEABODY III SERVING PEABODY III RANCH ROOSTERBURG GRUVER COUNTY

HERE YOU WILL FIND...

Me and the Old Red Rooster wuz out picken over the turnip greens patch when we seen this wring neck pheasant a comin' down the rode. Now Red aint never come in contact with one of them wring necks before, so he must of sized this bird up a underfed chicken of some kind which had got run out of a paint factory some place.

Mag wuz lookin out the back winder of the Rooster burger stand and he Hollered for me to explain to Red that a Pheasant wuz somethin like one of them wet-back dropouts and to let Red git tangled up with him. Of course me and Mag know that old Red is head-strong and will be the first one to start a fite at the drop of a feather so there wuzent nothin to but stand back and let nature take its course.

The peasant walked rite in front of Red and snatched up a shopper from rite under Red's beak. When he done that, Red clobbered him one rite accross the top of his head with his leg.

I could tell, rite off, that the wring neck never went for the kind of Tom foolery on account of he give Red a quick clip to the Gizzard with his beak.

Old Red made a quick dive at the peasant expectin to git with his wood pecker drill but the wring neck flew rite over head and landed on top of a cotton wood stump.

I seen, rite off, that he had Red bested when it come to air attack so I told Red to try and keep him on the ground a use my old Indian Holt on him as soon as he could.

After a while, the peasant come down off the stump and to a fast dive at Reds, Back Bone.

Red wuz too quick for him and he side stepped him as nee as a possum fallin out of a persimmon tree. When the wring neck come by, Red let him have one in the left eye ball so et with his wood leg. This made the peasant plumb mad a come back at Red with both claws in the air. By this time old Red had dug his wood leg in the ground so that he wood have a good foot-holt and he caught the wring neck by both feet. Red done a quick flip and flung that Peasant plumb in the weed patch where there wuz a big covey of quail. The Quail put up such a fuss that the wring neck took to the air and we aint saw him sense.

I recon this all proves that, when a peasant gits too cocky He, s Lible to end up in quail.

Let Me See ... by Sybil

I look forward to Tuesday mornings... this is when I visit Pioneer Manor. I always come away with a good feeling... and a cheery one. The people residing there are wonderful... some I've known all my life... others I do not know.

Mrs. Bertie McNabb is always sitting in the lobby in her wheelchair and we always have a chat. I usually remind her "who I am" and ask her how she is feeling. The reply is always the same... "Why I'm just fine, just fine, for a woman of my age!" Last week she wasn't walking by herself at all... this week she has been up and around on her own.

Last week she told me she was 85 years old, this week she told me she was 87! Now if this isn't progress I'd like to know what is!

The best friends I've had in my life have been Senior Citizens. One of my favorites was the late Mrs. Carrie Cotter. She used to call at my grandmother's home everyday when

I was only a child. Mrs. Cotter always wanted a cup of cold coffee. She and grandmother made coffee alike... by putting the pot on early each morning and simply adding more grounds and water throughout the day. As I grew up, my love for Mrs. Cotter grew also. She paid daily visits to her life-long friends... remembered them on their birthdays... helped them celebrate their joyous moments... and mourned with them in their grief. I always laugh at her telling how each year she took her friend (Mrs. Minerva Hayes) a gift on her birthday. Grandma Hayes sat in a rocker next to a large trunk, and each year after receiving her gift from Mrs. Cotter, would raise the lid of the trunk and lay the gift inside. This perturbed Mrs. C. no end... for she wanted Mrs. Hayes to take the towels, apron, head scarf... etc. and USE it. But each year... into the trunk with the gift. One time Mrs. Cotter decided to buy a gift Mrs. Hayes COULD NOT put in that trunk! On Mrs. Hayes' birthday Mrs. Cotter bought her a quart of vanilla ice cream... called at her home... presented her with the gift and said, "Now, let me see you put THIS in your trunk. There will never be another Mrs. Cotter... Billy and I still miss her profoundly... we stopped by her two-story home at the rim of the Old Hansford Canyon on our daily trips out to our "west 50". Her welcome was genuine... so was her cup of coffee! I never tired of her stories of pioneer life in this country... and never was jealous because she made-on more over Billy than me! Knowing Mrs. Cotter was knowing she just simply loved BOYS more than GIRLS or I could say MEN more than WOMEN. But this was because she appreciated strength... stamina... a capacity for enduring. This is what she was made of! All our Pioneers, our Senior Citizens, have this strength. You would think some of this would have worn off on me... Mrs. Cotter was friends with my grandparents, Sheriff and Mrs. R.E. Martin at Old Hansford... she watched 10 children born into the Martin family... taught them in school... saw them take wives and raise families... I visited with her when a child had her in my home after I married... spent many happy hours in hers... saw her laid to rest in ground she tread when a young school teacher... petite young lady with an 18 inch velvet ribbon around her waist... The sadness doesn't come because they have grown old and departed this life for a better one... because this is God's plan and it is not to be questioned. But the sadness comes because this "breed" of pioneers take something out of OUR life... something which dwindled some in the generation they spawned... diminished even more in the following generation... and is not seen at all in the present one.

This "breed" was endowed with more... perhaps because they had more to conquer. They belonged to yesterday... we belong to today... and the past and future have but one thing in common: They have no present. We might love the past... but we must live for the future. And those who praise the past usually condemn the present. The past is often pleasant only because it isn't there.

If we are preoccupied with the future... we do not live, but hope to live. And as we are always preparing to be happy, it is inevitable that we should never be.

THIS IS SPEARMAN

through the eyes of chet wise

The other day, I took a friend to the place "Gal Friday" and I call home. As some of you know, it's a pretty decrepid old place that we're slowly getting to take on some semblance of acceptance, as far as eye-appeal is concerned. After a few minutes in our house, the person with me made this remark; "I'll bet you and Friday are as happy in this house as any two people could possibly be."

I pondered over his remark for the rest of the afternoon and then, it suddenly occurred to me that he had gotten the impression from the general appearance of our house.

I'll have to admit that his observation was true because we are two happy people in spite of the simplicity of our environment. My visitor had seen, in a glance, that this was a home that simply looked lived-in.

I'm not trying to imply that dirty socks and shirts were strewn all over the place. On the other hand, I'm not trying to leave the impression that all was immaculately clean because, in an old house like ours, you can be dust-free at sundown and dust covered at sun-up.

We have enough pictures hanging around to give night mares to any interior decorator but these pictures seem to have a meaning and, in most cases, hold a happy memory for the two of us who see them every day.

Our chairs look as though they have been sat upon and they have. Our books appear to have been read and so they have. There is actually no rhyme nor reasoning to the furnishings in our house. Take, for instance, our Stereo-Hi Fi. It would be better suited in a more elaborate dwelling and in better furnished surroundings. Our Grand Mother clock is probably as much out of place as President Johnson would be at a Republican rally but, to the two of us, they're as much a part of the family as our useless old Tom Cat.

Our fishing gear is a true indication that we enjoy fishing. The hodge podge of photographic equipment is an indication that we are, to a degree, camera bugs. Our collection of cook books reveals the fact that both of us like to cook. That rack full of pipes, that my visitor saw, let out the secret that I, on rare occasions, enjoy a pipe full of good tobacco.

I suppose our favorite hobby is gardening and, if we can find someone to plow up our garden-plot before the ground freezes, we're going to try for a real pretty vegetable and flower garden come Spring.

Yes, we're two pretty happy people and we're mighty happy to be living in Spearman where we can rub shoulders with people like the ones I saw along the way in the past few days: Dr. Hackley and Dr. Kleeberger putting the arm twist on Gordon Parrish for leaving his phone off the hook, Nelson Bell sorting candy, Jesse Davis eating candy, Chalmers Porter eating a sundae on Monday, E. J. Copeland in a daze over maize. He says there ain't nothing that beats puttin' milo in the silo. Georgia McLeod telling about the night her daughter asked her to blow out the candles, Jimmy Shieldknight, J. L. Brock and Alton Ellsworth forming their own little group called "Victims Incorporated", Ralph Blodgett building mountains of milo. Our regrets for saying Troy Sloan was seen all over town when his wife thought he was out in the fields at work, Joe Traylor buying pills, Leonard Jameson eaves dropping, Claude Owens talking to a visitor from Gruver, Jimmy Hicks having coffee, Pete Fisher checking out groceries, Mary Brock visiting the High School, Bill Giles taking a picture, Slim Cates talking football, Frank Massad having coffee with Orville Brummett. The next time she says to you so sweetly: "Darling, when I look into your eyes, time stands still". The meaning might be interpreted "Your face would stop a clock".

Conner Helms Party Honoree

The patio at the J. D. Helms residence was decorated in a Spanish Motif for the birthday party honoring their son Conner on October 21. He was six years old.

As guests arrived each was presented with harmonicas and miniature Sombreros. For part of the entertainment, Conner and his brother Blake, dressed as Spaniards, did a pantomime to the accompaniment of a Spanish recording.

The birthday cake was made in the likeness of a huge brown Sombrero. Guests were served miniature Sombrero cakes with ice cream and punch. After being served, they enjoyed breaking the large Pinata which hung from the ceiling. This was filled with an assortment of candy.

Those helping Conner celebrate his birthday included Chuck Eaton, Wanda Jones, Brad Guthrie, Jimmy and Denny Faren, Rhonda Riley, Patty and Greta Green, Gregg Renfroe, Jeannie McClellan, Nick and Terri Sampson, Lisa Douglas, Kyle Beedy, Carrie Gilley, Melinda Cook, Kay Bames, Hunter Novak, Sam Boone, Deanne Cummings, Charlynn Rhea Sabra McCoy, Todd Brock and his brother Brent Helms.

During the 3rd week of October the S.H.S. Choir has been sight-reading several new sheets of music. A few of these are: Edelweiss, Good Old Mountain, the Benediction, Where In The World But America and Paul Revere's Ride. In preparing our Christmas program, we will be working on Glory in Excelsis, Snow Lay On The Ground and others.

A final decision was made on the girl's choir uniforms. A blue long sleeve, A-line dress with a white detachable collar was chosen.

Mrs. Ralls is the assistant choir director.

To Solicit For CROP

The youth of Spearman will meet at the Presbyterian Church, at 8:00, on Monday, October 30, to collect for CROP. The youth would appreciate everyone's generous support of this project. These donations go to help relieve the hunger of the world. Five dollars will provide fifty

pounds of high protein supplement or tenpounds of canned meat or four hundred glasses of milk. Eighty-five dollars will provide one ton of fertilizer. Twenty dollars will provide one hundred pounds of hybrid seed corn. One hundred and fifty dollars will provide an irrigation pump including motor. Three hundred and fifty dollars will provide a small two-wheel power hand tractor. Help stop hunger. Give to CROP.

the element of surprise

If you've never cooked electrically, you're due for a pleasant surprise when you do. The heat from an electric range surface element doesn't smudge or blacken pots and pans. That's because electric heating elements are flameless. They cook with pure radiant energy. So you spend less time scouring. You'll also notice that flameless electric heating elements cook cooler. They send their heat into the food by direct contact with utensil bottoms, do not waste it into the kitchen air. See the new electric ranges at your dealer's soon... for cleaner, cooler cooking the modern flameless way.

Meet a 1968 "youngmobile" from Oldsmobile.

Now that you've been introduced, why not get together?

Why not take the wheel of this Cutlass S—youngest of the "youngmobiles" from Olds. A new 350-CID Rocket V-8 delivers more power at lower operating cost. (And does it more smoothly and quietly, as well.) You say you prefer a Six? Olds has a 250-CID Action-Line 6, too. These are only openers. You can tailor Cutlass S to your fancy and finances. 4-speed stick to stereo to sporty pinstripping. Front disc brakes to dual

exhausts to Rally Sport Suspension. (All the new GM safety features are standard.) What it adds up to is this: If you like cars with a lot of pizzazz in the way they look—cars with a lot of moxie in the way they drive—your Oldsmobile Dealer is the man to see. They're the only kind he carries.
