ENJOY A "STAY FRESH" KITCHEN

Women who cook electrically enjoy matchless cleanliness. Because electric heat is as clean as electric light, there's no fuel grime

to smudge pots and pans or settle on curtains, walls and woodwork. With only a minimum of care, utensils stay bright and shiny . . . the kitchen remains fresh and new looking. If you're a homemaker who loves to cook but hates to clean, it's time you started cooking with a flameless electric range. See the new models at your dealer's soon.

TEXAS CROP WEEK SLATED

Governor John Connally has deignated TEXAS CROP WEEK as he week of October 24 to 31 in memorandum just received by he Texas CROP Director. Nornan A. Sundwall.

Texas young people of various church organizations working together in their communities will be among thousands of CROP workers during the CROP WEEK as they call from door to door in their communities seeking seeking "treats" for needy peoole abroad. CROP is the Community Food

Appeal of Church World Service and collects food, fibre and cash in communities throughout the United States for the world relief programs of the churches. It has become as much a symbol of Halloween to the young peoole of Texas as the traditional "trick or treats", black cats, oumpkins, and the rest.

The youth will join other CROP workers in the state who are seeking contributions of grain, otton, rice, livestock and cash for the overseas material aid pro-

CROP is able to provide emergency supplies for disaster vicims, milk and foods for deprived children in school feeding programs, self-help materials and food-for-wages in development reconstruction and rehabilitation projects with the contributions received in the community appeals throughout the United States.

The community CROP appeals Mrs. Ray Robertson gave the are sponsored by Ministerial story of the hymn "O Love That Associations, local Councils of Churches, and Youth Councils. Councils of United Church Women and by local CROP committees formed by the churches along with farm and civic organi-

Robert Beck, Judy Barfield, Gary WATCH THE REPORTER FOR Upchurch, Patricia Schnell, Karen Complete OFFICE SUPPLIES ac

Jack Hart, a native of Gruver, knows the North Plains and will make an effective state representative.

A Panhandle Platform

I pledge to serve the people of our district as an independent-thinking Panhandle citizen who will try to meet the problems and challenges that face us.

I favor sound progress in water resources development, industrial expansion and public education.

Efficiency and pay-as-you-go government are sound principles. I will support proposals to eliminate duplication and promote state government economy. I'm for holding the line on taxes. I

oppose a state income tax and any revision of the state sales tax to include farm machinery. Tourism must be encouraged. Tourist

dollars bring sales tax revenue into the state treasury and help the overall Texas economy.

I'm for revising the new Code of Criminal Procedure to protect the rights of law-abiding citizens as well as those of the accused. Law enforcement agencies must not be hamstrung in carrying out their duties.

"Mark Sense" Ticketing

A faster, more efficient method of recording information on long placed in effect this month in General Telephone Company of the Southwest's Perryton long distance

Called "mark sense" ticketing, the new procedure is described General's district manager Milton Caldwell as"...a purely

automatic operation once it has

passed from the operator's hands". "Although the improvements realized through the new methods are not visibly apparent to the customer, this change represents a much faster, more reliable and efficient means of recording information on long distance calls," Milton Caldwell said.

Using specially treated graphite lead pencils, operators record information such as the area code, the

called number and the calling number, wheaher the call is station to station, person to person, collect, etc., on elaborately designed tickets which include scores of boxes or "bubbles." "This new method requires use of the area code." Caldwell explained, "and it eliminates the need for giving the name of the town called."

The tickets are shipped daily

center in San Angelo where they are fed into IBM machinery which converts the data into punched cards, then tapes, and finally into printed information to be included in the customer's monthly bill. The function of rating calls is also performed automatically, eliminating the possibility of human error. Caldwell added.

The billing equipment includes an "editing unit" which automatically sorts out tickets which contain erroneous or inadequate information. Rejected tickets are then carefully checked and rechecked to insure that they reflect the correct information.

General Telephone Perryton toll center serves as the "master" long distance office for 11 area communities. The exchanges are: Perryton, Balko, Beaver, Booker, Bryan's Corner, Darrouzett. Follett, Higgins, Lipscomb. Logan & Spearman. A total of 48 traffic people are employed in General's Perryton toll center, including the company's traffic supervisor, Mrs. O'Neal Philley.

"The average number of long distance calls handled in our Perryton traffic center has increased considerably during the past

few years," Mrs. Philley stated. "Five years ago we were handling around 2700 long distance calls per average business day, whereas today the average is running close to 4000."

ed.

ound

Wors

tven

Wed.

Caldwell pointed out that the influx of calls requires constant study to determine faster, more workable means of handling long distance messages. Operating improvements such as mark sense ticketing also necessitates additional training for supervisors and

"Our operator force has been preparing for conversion to the mark sense method for several months," Caldwell explained.

Caldwell also explained that using this new method the most efficient way to place a long distance call is to give the operator this information and in this order Area Code, Called Number, Called Party (if person to person). Wait Till The Operator Asks for Your Number, Give Yeur Name Only if the Operator Asks For It.

It will no longer be necessary to give the operator the name of the town you are calling if you can furnish the area code.

Must Register For 1967 Vote

was held invalid in Febof this year by a three judge federal court. It based its ruling on the due process clause of the Federal Constitution. The court said this requirement was equivalent to a charge or penalty imposed on the exercise of a fundamental right, & it indicated that any charge for registration would be illegal. The United States Supreme Court affirmed

the decision. Immediately following the three judge decision the State Legislature was called into special session and it adopted a new regis-tration act. The major change in the law was that registration with the County Tax Collector should

nually, as they have previously into the club as a new member. done, during the period of Octo-You do not have to pay a poll tax now, but you must register. The time to do this is now. To be eligible to vote in 1967 elections, you must go by the County Tax Office and register. Deadine date is January 31.

Everyone from the age of 21 years through 60 must register n order to vote. If you are over 60, you are exempt.

Although no State or National elections of importance are on the agenda now, there will be constitutional ammendments, local bond elections school board, city aldermen etc. coming up in 1967, so it is of utmost importance that you register before
