HANSFORD COUNTY

THIRD YEAR.—No. 13.

SPEARMAN, TEXAS THURSDAY, MARCH 7, 1940

PRICE \$1.50 A YEAR. —5 CENTS A COPY.

## Hansford Men Purchase 4-H Club Calves

Three high ranking calves from the Hansford county stock show were purchased by 4-H club boys from the Amarillo following the past week. The winning calf exhibited and purchased by Henry Horn was purchased by the Spearman Lion Club at a top price of 16¢ per pound. The reserve champion, and champion of the Spearman show owned and exhibited by Billie Joe Thorne was purchased by the First State Bank of Spearman bringing the same price of 16¢ per pound. Quince Thorne purchased the 4-H club calf owned and exhibited by Travis Wilson paying 12¢ per lb.

## TEACHERS HIRED

Following teachers have been selected to teach in the school system for the coming year: Mrs. E. Campbell, Mrs. Mary Miss Roach, Miss Fannie Miss Mary Gantt, Miss Lawrence, Miss Alma Mrs. J. E. Gunn, Mr Odell Washington, Miss Ethel Deakin, Miss Hughes, Mr Tad Platt, Mrs. J. B. Caldwell, Mrs Eula Frazier Goodall, Mr Fred Rattan, Miss Odessa Winkler, Mr M. W. Graves and Mr J. E. Gunn.

## Barbecue Thursday March At Lackey Ranch

Arrangements are underway to have a barbecue for 200 citizens when the club barbecue is staged by the Spearman Lions Thursday evening at the Lackey ranch. The prize will be a club baby beef of Henry Horn will be barbecued. A dandy program will be provided by the Lions club.

## MAY JONES IS NOMINATE FOR COUNTY TREASURER

May Jones this week authorized her candidacy for reelection to the office of county treasurer of Hansford county. She is the action of the primaries July 27.

## SISTER OF JUDGE KING DIES

Funeral services were conducted Thursday afternoon March 7th at the First Baptist church in Dallas for Mrs Martha Jane King Babb, 68, who died Tuesday at the home of her daughter, Mrs May Babb Cochrane, in Dallas. Interment was in Oak Grove Cemetery.

## Red Cross Nurse Will Be On Duty March 16th

Edna Yoder, Red Cross nurse who has served Hansford county on two occasions in the past will report to the local Hansford county Red Cross chapter Saturday March 16th. Yoder will work in connection with the schools of the county under the direction of the Red Cross council. The Red Cross

## CITY ELECTION TUES. APR. 2

According to information from Secretary Robert Douglas, the names of five local citizens have been filed for placing on the city ballot, in preparation for the city election to be held Tuesday April 2nd. Mr Douglas stated that the names of some local men were attached to the petition asking the names placed on the ballot. The names appearing on the petition and the office which they were asked to be

## DON'T NAME IT

WILL J. MILLER

It's just a coincidence, and perhaps this writer has not kept a complete check on facts—but so far as this writer knows, he will have the opportunity of attending a golden wedding anniversary for the third time during the 8 years he has spent in Spearman. Next Sunday March 17th marks the 50th anniversary of the marriage of Mr and Mrs Floyd Wilbanks, prominent well loved Hansford County folks. The first anniversary attended by this writer was that of Mr and Mrs Gruver of Gruver, Texas. The second was that of Mr and Mrs L. S. McClellan of Spearman.

It is a compliment to any community to count as citizens such fine people as the Gruvers, the McClellans and the Wilbanks. We hope we may have the privilege of attending the golden wedding anniversaries of many other fine Hansford county folk. Incidentally, this writer will celebrate his own silver wedding anniversary, Nov. 5, 1942. While I do not plan to have much of a party at that time, I am here and now giving the readers of this paper notice that we will have a big party in Spearman in 1967 when I invite you one and all to attend my golden wedding anniversary.

Of quite a bit of interest to Spearman folk is the fact that ITIO, Oil Co that plans to make a deep test in Ochiltree county, is making core tests on the Ivy Steel ranch just about one half mile east of the ranch house. Apparently the tests with the 3 inch rotary truck drill is for the

## Call Meeting

Chairman, R. L. McClellan of the Hansford county Red Cross chapter, has called a meeting of the Red Cross executive members and all Hansford county people interested in the Red Cross nurse service. The meeting will be held at the district court room Monday March 18th at 2:30 p.m. Plans for the new Red Cross nurse will be discussed at the meeting.

purpose of checking formations, and perhaps several core tests will be made in order to determine just where to make the deep test.

Despite the bad weather for the 4-H club boys stock show here in Spearman March 2nd., the show was recorded as one of the most successful ever held in this county. When Hansford county influential men like Walter Wilmet, Haden Hart, Quince Thorne Paul Higgs and C. A. Gibner get the urge to encourage the 4-H club boys in their experimental work, it begins to show up. These boys will truly be the future leaders of this county. It is a known fact that the future success in this area depends on cattle and improved methods in farming. The work of encouraging future leaders makes for assured success.

This writer joins just about everybody in congratulating Mr and Mrs Lloyd Campbell on their promotion in the banking business. Mr and Mrs Campbell have been truly worth while citizens in this county during the 9 years they have lived here. We are sure we express the sentiment of our people when we say that we only wish that opportunities were great enough in this county to keep these two young people living here. Since their moving means greater opportunities for them we reluctantly give them up.

Railroad Commissioner Jerry Sadler, Highway Commissioner, Harry Hines have announced as candidates for Governor. The announcement of our own red headed railroad commissioner Ernest Tompson for governor will be made this week end. This leaves governor O'Daniel in the ranks ready to enter the governor race. Perhaps there will be

# Rodeo To Be Feature Of Celebration Here April 26th

## DAVE M. WARREN PURCHASES BORGER BANK

Announcement was made at Borger today (Thursday) March 14th, that sale of the controlling stock of the Panhandle State Bank of Borger, Texas, has been completed late Wednesday afternoon. C. E. Deahl, president, and chairman of the board of directors, sold his controlling stock to David M. Warren, president of the Panhandle Publishing Co. publishers of the Borger Daily Herald, daily, Panhandle Herald, weekly and the Spearman Reporter, weekly of Spearman, Texas.

At a meeting of officers and directors following the sale vice president R. L. Grimes was elected as president of the bank, David M. Warren was elected as chairman of the board of directors, George C. Crow cashier of the bank was elected vice president, Ralph E. Boyless, comptroller of the bank was elected cashier, and H. W. Hogan, a teller of the bank was elected assistant cashier.

C. E. Deahl, one of the pioneer settlers of the Panhandle, stated that he disposed of his stock because he wanted to retire from active business and devote his time to ranching and breeding and training of race horses. Mr Deahl is 65 years of age, and has been in the banking business since 1916 when he helped organize the First State Bank of Panhandle, Texas. He was elected the first president of the Bank and served until the bank went into voluntary liquidation in 1936. At that time the personnel of the old First State Bank and some of the directors became interested in the Panhandle state Bank at Borger.

R. L. Grimes, president of the Panhandle State Bank has been in the banking business in the Panhandle of Texas for the past 14 years. Mr Grimes came to Panhandle as Vice president of the First State Bank of Panhandle in 1926. He served with the Bank until liquidation. Mr Grimes is given credit for having organized and brought to efficient operation the present banking personnel of the Panhandle State Bank at Borger. The Borger bank has become one of the outstanding banking institutions of the Panhandle area, and has won the confidence of the large industrial and manufacturing leaders of the Borger oil and carbon black fields.

David M. Warren, new chairman of the board of directors has been in the newspaper business in the Panhandle of Texas more than 20 years. Mr Warren began his newspaper business in Texas as an associate with the late Dr. Nunn of Amarillo. Mr Warren and Lindsey Nunn became partners in the Nunn Warren Publishing company, owning at one time control of a half dozen daily papers and some 15 weekly papers.

Mr Warren stated that he was happy the control stock of the bank could be made without dispossessing of a single employee or officer of the bank.

J. Weldon Boyles, president of the Universal Oil Company, of Panhandle and Borger, was elected a director in the bank organization, taking the place of the retiring chairman, C. E. Deahl.

George C. Crow, vice president of the Panhandle State Bank has been in the banking business in the Panhandle of Texas for the past 14 years. Crow was the cashier of the old First State Bank of Panhandle, and assumed the same position in the Panhandle State Bank when the Bank was organized in 1936.

## HD CLUB MEMBERS WILL BROADCAST OVER KGNC

Sixteen members of the home demonstration clubs of Hansford county will present a radio program over KGNC Saturday morning from 10:30 to 10:45 a.m.

## AAA MET LAST WEEK

A very interesting program was presented to a large crowd Monday at our regular meeting. F. H. T girls gave a playlet sponsored by Miss Hughes, home Economics teacher of the school. Miss Locke, home demonstration agent told us about some of the work that the HD clubs are doing and also showed some very nice garments made from sugar sacks.

The County HD Council chorus recently organized, sang several songs. A talk on cold storage locker systems was made by Mr Shirley. We are in hopes that the lockers will be installed by April 1st.

## FUNERAL SERVICES FOR MRS WILL SPIVEY

Funeral services for Mrs Will Spivey, who died at the Shattuck hospital, Shattuck Tuesday evening March 12 will be held at the community church in Gruver at 2:30 p.m. Today (Thursday) March 14. Funeral services will be conducted by Rev. Herbert Hughes, pastor of the Baptist Church at Gruver. Interment will be in the Gruver Cemetery.

## Hansford County Rates Third In State For Cost Of AAA Program Administration in 1939

Records compiled by the U. S. department of agriculture adjustment administration reveals the fact that Hansford county enjoys the rating of the third lowest county in the state of Texas for administering the AAA program. Dallam county and Moore county set a slightly better record than Hansford county. The record of the three lowest cost operating counties show that Dallam and Moore counties administered the AAA program at a cost of four tenths of a cent per acre and Hansford county administered the program at a cost of five tenths of a cent per acre. Ochiltree county spent seven tenths of a cent per acre to administer the program.

## District HD Agent to Be At Spearman Tuesday March 19

Mrs Doris Leggett, district Home Demonstration agent of this district will be a guest at the next meeting of the Spearman HD club to be held at the home of Mrs Mizar Tuesday March 19. HD club members from over the county and other interested in this work are invited to attend the meeting.

## GOLDEN WEDDING ANNIVERSARY

Mr and Mrs Floyd Wilbanks and their children have authorized the Spearman Reporter to print the above invitation, and explain to our readers that the invitation is to everyone living in this section of the Panhandle.

## EASTERN STAR FOOD SALE

Members of the executive board of the Easter Star organization notified this publication of a change in plans for the food sale and luncheon to be held Saturday March 23. First plans called for holding the sale in the Womble Hardware Store. Present plans call for holding the affair at the sewing room in the Collard building just north of Burrans grocery. Food of various kinds will be on sale and cake and coffee will be served during the day.

## HOMEMAKERS CLUB

Members of the club met at the home of Mrs C. E. Beck Wednesday afternoon March 13. We had our regular business meeting, then Mrs Beck gave us an interesting report on notes she took at Council Monday afternoon. She told us that there is to be a county wide windbreak meeting at Mrs Tom Dozier's March 18. It was decided that when we meet from now on in the afternoon no refreshments will be served. Our next meeting will be an all day meeting at the home of Mrs Ed Vernon. We plan to make kitchen stools.

## MR AND MRS L. B. CAMPBELL WILL MOVE TO MADISON, KAN.

Friends of Mr and Mrs Lloyd Campbell learned this week that Mr Campbell will be placed in charge of the First National Bank of Madison Kansas, and that this popular young couple plan to move from Spearman within the next 2 weeks. Mr Campbell becomes part owner of the bank stock, and will be in complete charge of the banking business Madison, Kansas in a small city of 1500 population, and the First National Bank of that City is a well established and stable banking institution. The bank has a capital of \$25,000.00, surplus of \$28,000.00 and undivided profits amounting to \$20,390.00.

Lloyd Campbell came to Spearman in 1931, where he was an employee of the First National Bank. Later he became Cashier and had full charge of the Bank in Spearman until the First State and the First National Banks consolidated, Mr Campbell became cashier of the First State Bank.

Mrs Campbell came to Spearman in 1932 at the urgent request of Mr Campbell, who slipped over to Perryton and stole her from her parents. This was one time the good citizens of Spearman approved of stealing, because Mrs Campbell has been an outstanding civic and church leader during the years she has lived in Spearman. Mr Campbell has been very aggressive in his civic and club work in Spearman. He has served in every position and office of the Spearman Lion club, and has a credit for bringing the club out of debt and with a small membership into the present active club of some 30 members with a nice bank balance. Campbell has been active in Chamber of Commerce work and helped organize the present Chamber of Commerce.

Mr and Mrs E. C. Hooper were Spearman shoppers Saturday.

## County Wide Event Planned for Band Contest Barbecue

Every day and in every way the celebration and band contest planned by the directors of the Spearman Chamber of Commerce is getting bigger and better. H. L. Heard, president of the Chamber of Commerce announced this week that one of the features of the days celebration would include a real rodeo to be staged by talent from among the cowboys of the north plains country.

Hall Jones and Wilson Buchanan, aided by the archer boys and some of the drug store cowboys of this county, have agreed to stage a home talent rodeo that will bring plenty of fun and amusement to the spectators, and lots of fame to Spearman.

Present plans call for building a rodeo lot across the tracks near the Santa Fe depot. If the present plans continue to unfold, the April Friday 26th celebration will undoubtedly be the largest ever held in Hansford county. The chamber of commerce has contacted a half dozen of the national power farming manufacturers representatives, and a display of farm machinery that will not be surpassed by the Tri-State Fair at Amarillo, is expected to be in Spearman for this big day.

Several special features are being worked out this time, and Hansford people can plan on taking care of the largest crowd that has ever visited within the boundaries of this county.

## Bowling Scores

Pekoe Cafe Bowlers have taken an outstanding lead in the Spearman bowling league. The cafe bunch have played a total of 12 games and have lost only one game. Phillips and Gruver Oilers come next having won 5 and lost 4 games.

The standing league play is as follows:

	W	L	per
Pekoe Cafe	11	1	.918
Phillips "66"	4	5	.444
Gruver Oilers	4	5	.444
W. H. Termites	5	7	.416
Diamond Oilers	4	8	.333
Spearman-Reporter	2	4	.333

## Platt Joins Radio Staff

Tad Platt who has been a member of the School staff the past two years has accepted a position with the radio station in Roswell, N. Mex. Mr Platt has assumed his teaching duties.

## COMING ATTRACTIONS ELLIS THEATRE PERRYTON, TEXAS

March 14-15—"I Take This Woman"—Spencer Tracy, Hedy Lamarr and Vera Teasdale.  
 March 16—"Showdown" with Hopalong Cassidy.  
 March 17-18—"Strange Cargo" with Clark Gable, Joan Crawford, Ian Hunter.  
 March 19-20—"The Lone Wolf Strikes" with Warren William, Joan Perry, Eric Blore.  
 March 21-22—"Three Cheers For The Irish" with Priscilla and Rosemary Lane, Dennis Moore, Thomas Mitchell.  
 March 23—"The Man From Rio" with Roy Rogers and Geo. Gabby Hayes.

### High Spots on Record-Breaking Run

the times in a motor age—these highway markers tell the story of a 100,000-mile truck test run recently completed by Chevrolet. In Mexico and every state of the Union, the truck operated on all types of roads and under every conceivable weather hazard, setting a new world record for a certified automotive operation, under the sanction and supervision of the American Automobile Association. The unit carried an average of 15.1 miles per gallon of fuel was maintained throughout the 100,000 miles, at an average operating speed of 33.07 m.p.h. Oil mileage was correspondingly high—1,972 miles per quart.

## "THANKS FOR A LOVELY EVENING..."

A new kind of beer retailing is bringing wholesome recreation to millions of Americans!

America's new kind of beer retailer wants to sell good beer, of course... but he is also keenly aware of his social responsibility to the community. He makes sure that his place is clean and inviting—and scrupulously free of anti-social influences of any kind.

The Brewing Industry wants all of beer's retailers to be of this type. We do not want any other kind. And we are taking action to eliminate any abuses in beer retailing that may occur.

We have instituted a new plan... now in effect in a few states and being extended as rapidly as possible... to protect your right to drink good beer in decent surroundings. May we tell you about it... in an interesting free booklet? Write: United Brewers Industrial Foundation, 19 East 40th Street, New York, N. Y.

BEER... a beverage of moderation

## Refrigeration Features Pointed Out By Specialist

Refrigerated food lockers, within the next few years, are going to bring about a big change in many Texas farm families' way of living.

The change will be all to the good, believes H. H. Williamson, College Extension Service. We have tried to find the weak spot in the food locker plan, but so far we haven't been able to find any," he said.

Advantages claimed for the refrigerated food locker system include:

- Saves family \$50 to \$100 a year.
- Makes fresh meat, vegetables and fruit available the year around.
- Aids in providing balanced diet.
- Makes for improved health.

Refrigerated food lockers have been operating in the Mid-West and Pacific Coast for several years with marked success.

One of the first plants in Texas was at Plainview.

### JUNIOR EPWORTH LEAGUE

The Junior Epworth League met at 7:15 Sunday March 10. Edward Neighbors and Lois Buzzard were lesson leaders. Class welcomed one new member Jimmie Shieldknight. The class was dismissed by a circle prayer. The Lord's Prayer was repeated by the entire class.

Those present were W. B. Jr., Edward Neighbors, Jo Anna Mizar, Verna Lee Gibner, Velma Ruth Fox, Deda Jo Kiker, Lois Buzzard, Ruth Swim, Jimmy Shieldknight, Mike Berry, Melvin Roy Mizar, Wilson McClellan, June Tucker.

We have new lesson material ordered, please come and take part and help make this the biggest league in the church.

God is a Spirit: and they that worship him must worship him in Spirit and in truth. John 4-24.

### FOOD SALE

The Eastern Star will have a Food Sale at the Womble Hdq. Saturday March 23rd.

## FARM TOPICS

### STRIP CROPPING IS FARM ASSET

Steep Land Is Benefited by Contour Plantings.

By W. D. LEE

Erosion control and improvement of soil fertility are both accomplished by contour strips on steep farm land. And there is the third advantage from strip cropping in that it affords protection to terraces.

Many farmers in the erosion control demonstration areas, directed by the soil conservation service, are using strip-cropping to advantage.

On slopes where the fall is not very great, it is a common practice to have two strips in row crops and a third strip in a close-growing crop, alternating in this order all the way down the hill. But on steeper slopes, where the erosion problem is greater, it is advisable to increase the proportion of close-growing crops by sowing down every other strip.

The use of legumes in close growing strips enables a farmer to gradually improve the fertility of all fields, and at the same time protect them against erosion. Some farmers report a 20 to 25 per cent increase in crop yields since they first adopted the practice of strip-cropping.

By retarding and spreading runoff water, the strips of close-growing crops at intervals down the slope keep silt out of the flow lines of terraces and prevent them from overtopping. This is especially noticeable during heavy rains.

### Usual Pasture Methods Favor Horse Parasites

Parasites attacking horses and mules are favored by the usual methods of pasturing live stock on farms, according to Dr. Benjamin Schwartz of the U. S. bureau of animal industry.

Common methods of pasturing and the habits of horses are particularly favorable to the serious parasitic roundworms or strongyles, a group which also includes the hookworm as a parasite on humans. Parasite attacks lead to a weakness and poor condition and waste of feed and may disable or kill horses and mules if the damage is not checked. Timely medicinal treatment is a desirable aid.

Once an animal is attacked by these roundworms, the natural tendency is for the infestation to increase and to spread to other horses and mules. The eggs of these internal parasites are scattered in the manure where they hatch. They are long-lived and persistent and can exist for months on the moist grasses in pastures where horses graze. Thus the animals take in parasites to renew and aggravate the cycle of infection.

For horse-breeding establishments where the high value of the stock warrants the expense, Doctor Schwartz points out the effectiveness of a relatively new heat treatment. Under this plan the manure is collected and placed in large insulated boxes where the natural heat, sometimes aided by steam pipes, raises the manure to a temperature that will kill eggs and larvae of the worms.

### Hammer Mill Is Used For Cleaning Seeds

By slowing the speed of a hammer mill, a grain grinder used on farms, soil conservation service workers have a convenient tool for cleaning the seeds of many of the trees, shrubs, and vines used in conservation programs. With it they have cleaned dry-shelled fruits such as locust, catalpa, and rebud, and fleshy fruits such as plums, grapes, hawthorns, apples, and berries.

To prevent injury to the seed, the hammer mill is operated slowly, often at only 400 revolutions a minute. With dry fruits the mill cracks the shells, but not the seed. The seed can then be cleaned with a fanning mill. With the fleshy fruits, the hammer mill smashes the pulp and a stream of water floats it away, leaving the seed on the screens of the mill.

The usual nursery method of separating seeds from pulpy fruits has been to ferment the fruits until the seeds either float to the surface or drop to the bottom of the tank. Experiments show that the fermentation process often injures the seeds so that they do not germinate freely. The hammer mill method of cleaning is not only cheaper, but with intelligent management of the mill to avoid injury to the seeds, it results in better-quality seed with a higher rate of germination.

## BOOK REVIEW

"Daughter of The Middle Border" was written by Hamlin Garland. This book and "Son of The Middle Border" are autobiographies and tell the stories of the Garland's moving west. Hamlin Garland took his works

he went... in these trips he... in his various... This is a book of exciting romance and adventure, and is one of the most interesting biographies I have read.

More than 11,000 Texas wheat producers are guaranteed a harvest in 1940, since they have insured their production with the Federal Govt.

### Two at T. C. U.

Miss Sydna Yokley, honored by The American Magazine as the "No. 1 Ranch Girl of the Nation," enrolled as a freshman in Texas Christian University at midyear. Sydna's chief classroom interest is home economics; her chief extracurricular interest horseback riding. "I just can't imagine being alive and not riding!" Sydna says. So she brought along her favorite mount—Cinnamon—and has him quartered in stables nearby the Horned Frog campus. She and her father are joint owners of the Lazy-L Ranch near Canadian, Texas. Sydna stayed out of college last fall (she graduated from Canadian High last spring) in order to accept a starring role in the Madison Square Garden Rodeo in New York City. "I like Texas better!" is Sydna's evaluation of the bright lights.

Walter Wilmeth, successful cattleman, and owner of one of the finest registered herd of Hereford cattle in the North Plains area, has proven a real friend to 4-H club boys of this county. Mr. Wilmeth encourages the boys in their activities, and each year sells club boys the pick of calves from his herd. He sacrifices some profit when he sells to club boys, because his calves would bring a higher price than he charges his boy friends in the club work.

REV. MATTHEW Doyel, Spearman Baptist pastor will attend the Baptist District Convention at Borger th 14-15.

# "Panhandle Pep" Free Stage Show At Amarillo Soon

AMARILLO — Rehearsals for the varied entertainment to be presented here during Amarillo Industrial Open House Week is underway this week when more than 250 members of Panhandle

Pen began their tricky routines. Girls, musicians, comedians, singers, and dancers vied with each other for featured roles at the first rehearsal and Dixie Dice producer of the show, announced it the best cast she has ever assembled for any show.

Maverick Club tumblers and acrobats, Stuttering Sam, radio comedian, Ernestine Mercer, scorch singer supreme, Carlton Scale's Orchestra, all are working feverishly to make the revue a smash hit for the visitors to this city April 15, 16 and 17, as guests of the leading manufacturers, wholesale, jobbers and distributing firms of Amarillo.

Open House Week is an appreciation celebration of Amarillo firms to their customers and friends. All entertainment is free to their invited guests and open to the general public. Small admission fees are made to the dances and shows to those not holding invitation tickets but all money received from this source

will be turned to the Preventorium Building Fund, a worthy charity.

Panhandle Pep is the gorgeous and elaborate stage show to climax the celebration April 17. During this show a coast-to-coast broadcast will originate from the stage through radio station KFDA and over facilities of the Mutual Broadcasting System.

Miss Industry of 1940 will be selected from among 100 girls entering from the surrounding cities. She will be feted at all dances, from theatres, over radio and in the show, officials declare.

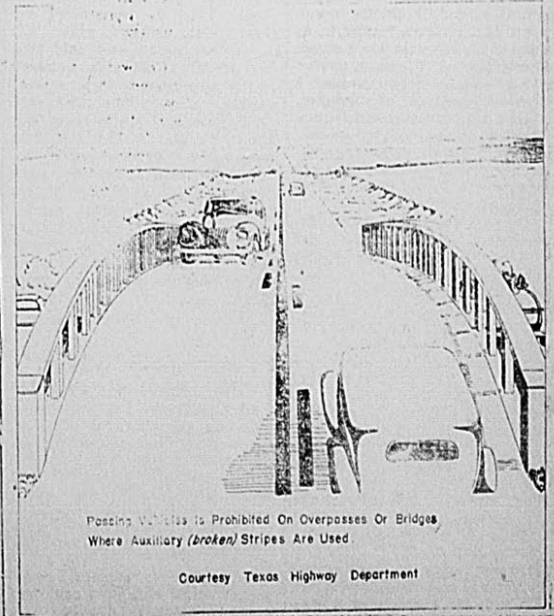

All girls wishing to enter this revue are asked to write Pat

Flynn, promotion editor, Amarillo Times, at once as the contest is limited to the first 100 entering.

GRUVER NEWS

A STORY YET UNTOLD

Boyce House, in his syndicated column in the Texas City, Texas Sun and many other newspapers has a suggestion.

"See by the papers that the derrick of the Santa Rita well, which marked the discovery of the great West Texas oil field with millions of dollars for the University of Texas, may be dismantled and re-erected on the university campus—a pleasing, sentimental gesture.

"Such an undertaking would be as worthy of a truly great university as building a telescope to study the stars or a machine to smash the atom. After all, they have stars and atoms everywhere, but oil is peculiarly the story of Texas, for this state produces 40 per cent of the oil of the United States.

Women Spies Active in War

Glamorous Females Already Have Sent Several Men to Doom.

GENEVA, SWITZERLAND.—This may be a "machine war," but not in the espionage department. To the contrary, there is growing evidence the quick-witted and glamorous women, working under the elaborate spying departments of the opposing powers, will send even more soldiers to their doom in this conflict than the last.

GARNER IS "SEASONED TIMBER"

The athletic contests of the world are usually won by young men. Seldom do we find in men over 40 that combination of strength, endurance, and speed, that makes the champion.

In times of war the men that "go over the top" are young men. As are the men who fly the fighting planes and man our battle-ships.

In industry and business there are certain types of work that can best be done by young men.

But it is a different matter to outline the policies of a giant corporation; to lead a country at war; to understand and solve the complex problems of a great nation; to be able to win the confidence of leaders in thought and in action; thoughtful persons demand confidence and the full cooperation

FOR SALE—2000 Bundles of cane feed.—See E. C. Mitts.

Only accident prevented her from delivering the plans to her superiors. It happened the French Surete had been trailing Paul Rochat, a private detective whom they suspected of espionage in French Tunisia. Rochat came to Switzerland. The Surete asked the Swiss authorities to watch him. They did—and soon found he was in frequent communication with Nina.

The result was that when Nina, carrying the blueprints and gun model, tried to cross into France, she was arrested.

A Swiss court sentenced her to five years in prison. The susceptible draftsman was sentenced to three years. Rochat, who supplied helpful information, was sentenced to 15 months, and his wife, Dolly, to six months. Had Switzerland been at war, of course, all would have faced a firing squad.

Seeds 300 Years Old Are Successfully Germinated

CHICAGO.—Pink lotus blossoms floating in a Garfield park conservatory pool this summer were germinated from oriental seeds believed to be 300 to 500 years old.

Germination of the seeds began last year in the Field museum's department of botany. Within a few weeks a shoot 7½ inches long grew from one seed.

The shoots were transferred to the conservatory and floating leaves developed. Several large pink blossoms have appeared from the erect leaves.

Botanists believe the lotus represents the longest duration of delayed germination on record.

thought—... and men of men of broad... "Seasoned Timber."

The biggest job in the United States today is the management of the nation. Greatest country that it is—inmaterial resources and in the brains to develop them—it has social and economic problems that can be coped with only by a man of keenest insight, knowledge obtained by many years of close touch with governmental affairs, and vision gained from long study of agriculture, industry and finance from a national viewpoint.

Virile, practical, influential, forceful, John N. Garner is the man of the hour, today. For 30 years in the House of Representatives and for 6 years in the vice-president's chair—thirty six years of power and leadership—he has fought for constructive liberalism in government; for true democracy; for social justice; for economic independence of the American Citizen. Seasoned in statesmanship, he has the wisdom, the practicality, the understanding of men, the insight into great problems, the extraordinary technique of politics, and the human sympathy that only the years can bring—those qualities that this great nation so vitally needs.

Galileo made Scientific discoveries after he as 70. Henry Ford, at 76, is still im-

proving the F... Judge Gary... giant United S... operation.

Clemenceau, the tiger of France guided his war weary people at 77.

Benjamin Franklin, at 81, helped to frame the American Constitution.

Gladstone, when 85, was prime minister of England.

Justice Holmes, at 90, wrote important and exceedingly clear supreme court decisions.

John N. Garner, in his intellectual prime at 69, is being called to the presidency in 1940 by all classes of the American people. He has the confidence of the farmer. He has the confidence of the working man in town and in the country. He has the confidence of the man at the head of the industrial empire and the man of financial powers. Vigorous of body and mind, powerful of conviction and courage, wise in the affairs of state, he will carry on all of the sound legislation that has been passed during the present administration.

A great patriot, a practical progressive, a constructive liberal, a wise statesman, a true Democrat a seasoned leader, John Nance Garner should be the next president of the United States. —R. T. Stuart

**Over 11,000 Texas Farmers Insure 1940 Wheat Harvest**

Each dot represents 5,000 bushels insured production. Number of crop insurance contracts—11,040. Estimated acres insured—287,600. Estimated insured production—4,943,435 Bu.

Drought and the other hazards of farming still bring uneasiness to the heart of the farmer. But for the 11,040 Texas wheat farmers who took out all-risk crop insurance on their 1940 wheat crops, that uneasiness has been cut to a minimum.

Today no 1940 crop losses have been paid.

After one year of watching

the operations of crop insurance under the 1939 AAA program, Texas wheat farmers decided it worked and as a result the number of policies in 1940 tripled the number for the previous year.

**Skidding Worst Driving Hazard**

**Safety Council Gives Rules To Prevent Automobile Accidents in Winter.**

CHICAGO.—When winter comes, automobile crashes are not far behind, and it's not always fair weather when good fellows get together—unless they're prepared for safe winter driving.

The National Safety Council, whose committee on winter driving hazards has conducted comprehensive research and tests of all problems created by "Old Man Winter," has revealed practical prevention methods resulting from the study which will do much to cut down the 40 per cent increase of deaths and accidents during winter months in northern states.

The greatest winter hazard is skidding and inadequate traction, the committee's research proved. Stopping distances without tire chains or cinders are from five to eight times longer on sleet or ice than on dry pavement, and three to five times longer on packed snow than on dry pavement.

Reduced visibility was clearly shown as the second most important hazard. Snow storms, in addition to obscuring the highway, often hide vehicles stalled because of inadequate traction. There are also more hours of darkness in winter.

While decreased traction and visibility are the principal hazards, the following "logical eleven" set of rules cover all problems of winter motoring and a study of them now may save your life or prevent severe injuries and property damage later.

**Some Safety Rules.**

1. Check electrical and exhaust systems, windshield wipers and keep brakes equalized. Keep tire chains, defrosters, and other vital equipment in good condition for use when needed. Distribute the car's load evenly.
2. Maintain adequate vision through windshield and windows. Circulate fresh air by opening cowl ventilator, rather than side windows, which tend to suck exhaust gases through the floor boards.
3. On slippery surfaces, keep speed down and the car in gear. Avoid situations requiring quick stops and sudden changes of direction.
4. Speeds on ice should not be excessive even with abrasives on the ice or with tire chains. Chains or cinders provide a needed safety factor, making 20 miles an hour on ice reasonably safe. Without them the same speed is extremely hazardous and speeds lower than 15 miles an hour are imperative.
5. The common practices of lowering tire pressure or of increasing the load give only slightly more traction and not nearly sufficient for all-around safety. These practices also damage tires. Non-skid tread tires are definitely helpful on wet pavement and to a very limited extent on snow, but they give no more anti-skid protection on ice than smooth tires.
6. Tire chains are the best self-help for the passenger car motorist. They are recommended for driving on ice and, in most instances, on snow—especially on hard packed snow. Chains on the rear wheels alone will reduce stopping distances on ice 25 to 35 per cent, and on all four wheels 40 to 50 per cent over even new tires. On packed snow tire chains cut stopping 28 per cent when on rear wheels, and 51 per cent if used on all four wheels. However, these reductions do not warrant high speeds. Chains are particularly recommended on icy hills and for heavy vehicles. Trucks with trailer units should use chains on wheels of trailer as well as tractor.
- Watch for Ice.
7. On wet and even dry pavement, always anticipate ice on bridges, in shaded spots, around curves and over hills, and when thawing temperatures are dropping.
8. Start by releasing the clutch slowly, with engine idling and the car in low gear, and accelerate cautiously to avoid spinning the rear wheels. Without chains on an icy road, it is unsafe to overtake vehicles in urban areas and hazardous in rural areas unless the road ahead is clear for at least a half mile.
9. Pump the brakes in stopping, even when using chains, to keep the wheels rolling. Slow down in gear to about 10 miles an hour, then release the clutch for the final stop.
10. Keep a steady foot on the accelerator to avoid spinning the rear wheels. If a skid starts, turn the front wheels in the direction the car is skidding.
11. When it is slippery try out the brakes occasionally to get the feel of the road.

**She Gets the Bird**  
WEST HARTFORD, CONN.—Mrs. Carl G. Hall nursed an injured robin to health and the bird adopted her home as its own. The robin likes to fly around in the trees nearby, but when she whistles it dashes back into the house through an open window.

**More Than 1,500,000 Fingerprints Filed**

WASHINGTON.—More than 1,720,000 fingerprint cards have been submitted to the civil identification service of the federal bureau of investigation since July 1, 1939, making a total of 1,505,669 cards registered in the civil identification files.

The cards have come from private individuals, chambers of commerce, civic clubs, universities and colleges, public schools, the CCC and other organizations.

**NOTICE OF SALE OF REAL ESTATE**

The State of Texas  
County of Hansford

Notice is hereby given that on the 1st Tuesday in April, 1940, being the 2nd day of said month at the Court House door of Hansford County, in the town of Spearman, Texas, between the hours of 10:00 o'clock A. M. and 4:00 o'clock p. m., I will offer for sale and sell at public auction to the highest bidder, for cash, the following described real estate, to-wit:

- Survey No. 4, containing 596.3 acres;
- Survey No. 5, containing 605.5 acres; and
- The West 76.6 acres of Survey No. 6: All in Block No. 1, Public Free School Lands, in Hansford County, Texas; and being all of the Lands owned by the Estate of Peter Simonson, deceased, situated within the State of Texas; and said sale being pursuant to the order of the County Court of Hansford County, Texas, dated Feb. 12, 1940.

Said property will be sold subject to the unpaid balance due and owing to the Federal Land Bank of Houston on two certain Deeds of Trust covering said land, executed by Peter Simonson et ux which appear of record in the Deed of Trust Records of Hansford County, Texas, and which may be assumed by the purchaser, the balance of said purchase price to be paid in cash.

Witness my hand this 6th day of March A. D. 1940.  
Joe M. Dean, Executor of the Last will of Peter Simonson, Deceased.

**POP-BOTTLE POSSIBILITIES**

Much has been written about the war, but it would be hard to find a better present-day statement of affairs than the following from George Renard, secretary of the National Association of Purchasing Agents. He says: "If the indictment I strue that we are the most emotional people in the world, the next few months will be a severe test. The shadow boxing and tryout maneuvers in the main event of the several wars in the 1939-40 tournament may make somebody sore along in March or April and start a real scrap. There is no question about which side we are rooting for, and it may not be too difficult to start a movement from the grandstand onto the field."

Peculiarly, we have as much or more interest in the preliminaries. Finland has a more universal appeal than Belgium had in 1917, and China in her war, even with Russian support, has us yelling, "Kill that bum!"

**Railroad Commissioner**

**SMU CO-EDS ADMIRE COLLEEN TROPHY**

SMU Co-eds Virginia Holland, Athens; Christine Finney, Nacogdoches; Jenny Lee Sloan, Breckenridge; Elsie Stumburg and Jo Lou Barnett, San Angelo, admiring the beautiful trophy cup held by J. E. McDonald, State Commissioner of Agriculture. The cup will be presented by Commissioner McDonald to the most winsome colleen selected at Shamrock's Annual St. Patrick's Day celebration Monday, March 18. Governor Leon Phillips of Oklahoma, Mr. McDonald and Bascom Giles head the list of distinguished visitors who, with other Texas dignitaries and 40,000 expected guests, will witness in the morning a 7-mile long parade with 55 beautifully decorated floats and more than thirty-five Texas and Oklahoma Bands. In the afternoon the crowning of the most beautiful colleen and presentation of the trophy cup by Commissioner McDonald will highlight a full day of breath-taking activity. Monday, March 18, Shamrock citizens are expecting the largest crowd ever to visit their city.

**NOTICE TO Car Owners**

1940 Motor Vehicle Licenses are now due and must be paid between now and April 1st. License plates can be placed on your cars now, and we urge you to buy them early in order to avoid such a rush at the last day.

**H. L. Wilbanks**

HOG HEALTH IS AN IMPORTANT AID TO HOG PROFITS

Jarvis, R. E. Vaughn, Hearse and O. F. Foss... resident Land-owners, Hansford county, Texas...

There's money in feeding hogs. There's no money in feeding parasites and diseased hogs...

"Clean pens and pastures pay well in holding down disease and parasites and helping to promote profitable, rapid growth..."

"A few days before farrowing time, the farrowing pen should be cleaned thoroughly..."

Wash the sow and disinfect the udder.

should be scraped out. Then it is advisable to disinfect the house thoroughly with a solution of 1/2 pint of Purina Cre-so-fec in a 10-quart pail of water.

"For bedding, clean, dry straw should be used—not too much nor too long—to cover the floor of the farrowing pen. Little pigs won't get tangled up in finely chopped wheat straw."

"A third essential step is to scrub all watering and feeding equipment well and disinfect with a solution of 1/2 pint of Purina Cre-so-fec to a 10-quart pail of water."

"Then the preparation of the sow for farrowing should be given careful attention. Bring her into the pen several days in advance. She should be washed completely with soap and water and her udder disinfected with the Cre-so-fec solution..."

"If the weather permits, the sow and her pigs should be hauled to a pasture about 10 days or two weeks after farrowing. This pasture should not have been recently used for hogs."

Feeding is an important factor, too!

"Speaking of feeding, which plays just as important a part in hog raising as sanitation, there are some definite recommendations I would like to make..."

"To give sows the things they need to make lots of milk is definitely a job for feed," he says. "Her feed must contain balanced milk-making ingredients to keep her udders filled."

"Vaccination of pigs for hog cholera at 5 to 6 weeks of age is recommended, if at all possible."

Worm pigs when eight weeks old.

"When the pigs are about 8 weeks old, they should be wormed," says Hamel. "For large roundworms (ascarids), the use of Purina Pig-sules is recommended."

WHAT ONE KILOWATT HOUR MEANS TO THE FARM HOME

Infographic showing various household activities and their energy consumption: Lighting for a whole evening's reading, Correct time for three weeks, Pumps all the water wanted for two days, Two hours of easy ironing, Two thorough house cleanings, Runs a sewing machine two months with average use, Preserves the average family's food for 15 hours, One large weekly wash.

BETTER HOMES CLUB

Sack garments shown by Miss Locke home demonstration agent were admired by members of the Better Homes D. C. club...

These garments were attractive, useful, and inexpensive.

A parliamentary contest was started by Mrs Earl Church, it will prove educational and entertaining.

Mrs Earl Church was given the secretary-treasurer work after Mrs Lawrence Wilbanks resigned. Members attending this all-day meeting were Mesdames John Kenney, J. M. Blodgett, Deta Blodgett, Earl Church, Mearl Beck, Harry Shedeck, Joe Novak, R. V. Converse and the hostess Mrs Uptergrove.

The next meeting will be at the home of Mrs Joe Novak on March 19th at 2 p. m.

HOME SCIENCE CLUB MET FEB. 29TH

The Home Science Dept. of the 20th century club met at the home of Mrs Shirley. Mrs R. Phelps was lesson leader. A lovely refreshment plate was served Mesdames D. B. Keim, John Bishop, R. B. Archer Jr., Rex Sanders, Lee McClellan, H. L. Heard, Marvin Chambers, Olen Chambers, A. F. Barkley, Ray Phelps, Hix Wilbanks, Marion Glover, S. B. Hale, T. R. Shirley, and two guests little Misses Caroline Wilmeth and Gwendolyn Shirley.

U. S. Curbs German Entry From Canada on Request

MONTREAL.—German nationals residing in Canada are being prevented by United States authorities from entering that country unless they have first obtained a permit from Royal Canadian mounted police.

The ban was put into effect at the request of the Canadian government to prevent Germans, who may be wanted here for questioning, from fleeing the country.

Quick Strip Valley City, N. D.—Here's a way of getting undressed quickly, but Andrew Wilson, 70 years old, a farmer, doesn't recommend it: His overalls caught in a tractor drive shaft. When he recovered consciousness, all he had on was his shoes and shirt cuffs. The tractor was a block away with the rest of his clothes. All he got was a bump.

The Grapes of Wrath will be shown at the Ellis Theatre, Perryton March 31 and Apr. 1.

Rev and Mrs A. F. Loftin, Estelline, visited in the home of Mr and Mrs Paul Loftin Monday.

4-H SPONSORS MEET IN HOME OF MISS LOCKE

Hansford county 4-H sponsors met at 9:30 Friday morning at the home of Miss Locke, county home demonstration agent. The meeting was an all-day one.

Miss Locke demonstrated the proper method of killing and dressing a chicken. The chicken was baked and Miss Locke served a delicious luncheon at noon. Present were Mesdames Fred Mizar, Tom Dozier, and daughter, Floyd Mitts, D. M. Womble, R. B. Hays and R. C. Bennett.

The business session was called to order at 2:30 with Mrs R. C. Bennett co-chairman in the chair. A short parliamentary drill was held.

Miss Locke gave a very interesting talk on the girls work and the duties of the sponsors for the year 1940.

The coming encampment was discussed and it was decided that the girls must go on their merit this year. That is they must fulfill their goals in order to go. We are planning a very special treat for encampment this year. We hope all the girls will keep this in mind.

SPEARMAN MUSIC CLUB

The Spearman Music club met at the home of Mrs R. E. Lee Monday evening March 4th.

A very interesting program on the theme of Art Songs was given. Mrs T. R. Shirley gave a paper on "Voices and their Classification." Vocal solo "I Know that my Redeemer Liveth" Mrs Lee. "Opera and its Various Styles" Mrs Lee McClellan. Vocal solo Mrs Robt Douglas.

Lovely refreshments were served following the program. Present were Mrs Woodville Jarvis, T. R. Shirley, H. P. Bailey, R. Douglas, John Berry, Elma Gunn, H. L. Heard, Lee McClellan and Miss Mary Gantt.

Colleen got so excited over the fire that she was mixed up Sunday afternoon. And we do mean mixed up.

R. W. Morton FOR BETTER USED CARS OF EVERY MAKE SEE YOUR FORD DEALER FIRST

Land Sale ON APRIL 2 at 2 O'CLOCK I Will sell at PUBLIC AUCTION, at the Court House, Spearman the following described Real-Estate, To Wit: 1278 ACRES, Described as Sections 4 and 5, and the West 76 acres of Section 6, all in block 1, public free school survey, Hansford County, Texas. Known as the Peter Simonson Farm, located 13 miles south and 2 miles west of Guymon, Okla., four and one-half miles north of the Oslo Church. TERMS Purchaser to assume Federal Land Bank Loan of approximately \$6,300.00, balance, CASH. Approximately 600 acres in cultivation, balance good grass land. Six room home, barn, grainery and outhouses. Fensed and cross fensed. GOOD WATER SUPPLY Joe M. Dean Executor, Guymon, Oklahoma.

Jarvis, R. E. Vaughn, Hearse and O. F. Foss... resident Land-owners, Hansford county, Texas... hereby notified that the Jury of Freeing under and by virtue of the Commission of Hansford County, Texas, will on the 26th day of March, A. D. 1940, proceed to survey and survey a section of land commencing at the Corner of Section No. 3, Grantee, S. G. R. R. Co., in said county, Texas, and running west on section lines of two miles and terminating at the Northwest Corner No. 191, in Block No. H. & T. C. Ry. County; and which road may run through section lines of certain owned by you, and at the same time assess the damages, if any, you should be scraped out. Then it is advisable to disinfect the house thoroughly with a solution of 1/2 pint of Purina Cre-so-fec in a 10-quart pail of water. "For bedding, clean, dry straw should be used—not too much nor too long—to cover the floor of the farrowing pen. Little pigs won't get tangled up in finely chopped wheat straw. The use of dusty bedding should be avoided—it causes pigs to cough. "A third essential step is to scrub all watering and feeding equipment well and disinfect with a solution of 1/2 pint of Purina Cre-so-fec to a 10-quart pail of water. "Then the preparation of the sow for farrowing should be given careful attention. Bring her into the pen several days in advance. She should be washed completely with soap and water and her udder disinfected with the Cre-so-fec solution (1/2 pint to a 10-quart bucket of water) to remove the worm eggs and disease germs which may be present to harm the young pigs. "If the weather permits, the sow and her pigs should be hauled to a pasture about 10 days or two weeks after farrowing. This pasture should not have been recently used for hogs. However, if a man must use the same field year after year, this ground should be plowed in the fall and sowed to rape, clover, rye, or alfalfa. Feeding is an important factor, too! "Speaking of feeding, which plays just as important a part in hog raising as sanitation, there are some definite recommendations I would like to make. "Plenty of sow's milk counts for more than anything else in the early growth and development of young pigs. When the sow has full udders the suckling pigs come right along. But if the udders are not full of milk—it's an altogether different pig story. "To give sows the things they need to make lots of milk is definitely a job for feed," he says. "Her feed must contain balanced milk-making ingredients to keep her udders filled. Purina experiments show that a special nursing ration is needed for this purpose. Out of many feeding tests at our Experimental Farm has been developed Purina Sow and Pig Chow. It's made of 12 different ingredients, including several sources of animal and vegetable proteins and the new vitamin G (flavin) ingredient—Purina Flave. It is built to take care of the sow's requirements during the nursing period; also to provide for the needs of the young pigs until they attain 50 lbs. weight. "Vaccination of pigs for hog cholera at 5 to 6 weeks of age is recommended, if at all possible. Worm pigs when eight weeks old. "When the pigs are about 8 weeks old, they should be wormed," says Hamel. "For large roundworms (ascarids), the use of Purina Pig-sules is recommended. These are administered with a Purina water gun and jaw spreader. The cost of worming is less than two pounds of pork per pig—and worm-free hogs have a much better chance to grow and do well."
