People all over the county are
looking forward to the evangelis-
tic services to be held at the First
Baptist Church beginning Sunday
August 8th. Conducted by Dr.
Lee Scarborough, assisted by the
local pastors and Mr. and Mrs. C.
Kosanke.

The Preacher-Evangelist-Teacher,
writer, Traveler, will arrive in
Spearman Saturday noon, August
7th. The local pastor, Rev. A.
F. Loftin is asking that all the
people of the city and surrounding
territory come to the morning
services Sunday, and continue
their attendance thruout the short
revival campaign. Dr. Scarborough
will be in Spearman just one
week—Aug. 8-15.

Services through the week will
begin promptly at 10:00 a. m. and
8:00 p. m. Special services for the
ladies, conducted by Mrs. Scar-
borough will be announced after
the meeting begins.

Mr. and Mrs. Carl Kasonke will
arrive to take charge of the sing-
ing, Monday Aug. 9. The fine
couple are loaned to the Spearman
church by the First Baptist Church
of Ponca City, Okla. They have
had wide experience in revival
meetings and directing choirs.

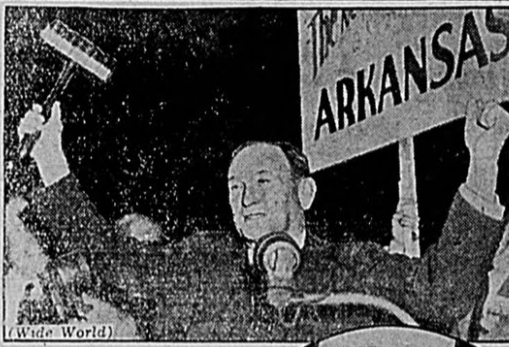

**It Isn't Your Town
It's You!**
By Jack Dionne

If there is one idea I like to
harp on, it is that which says that
a town is a reflection of its citi-
zenship, and that when they say
that a town is "dead", they sim-
ply declare that the business men
of that town lack nothing but de-
cent burial.

It is a thought that should be
pounded into the heads of the
business men everywhere. Houses
store buildings, churches, theatres
etc., don't make a town. It's the
MEN of the town that ARE the
town. If the town is dead, it's its
business men that are in that con-
dition. Pound that thought eter-
nally home, and the merchant will
be slow to say, "My town is
dead." He doesn't like to feel that
he is declaring himself ready for
embalming.

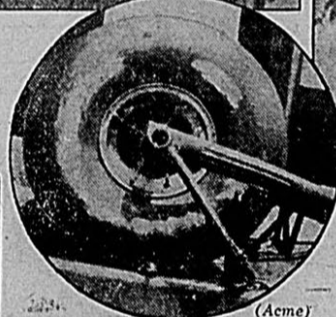

Remember this. When you see
a big rock rolling ponderously up
a steep hill, you know without
going back of it to look, that there
is some force behind that rock
that is pushing to beat the band;
and when you see a town that is
going forward steadily and sur-
ely over coming the obstacles that
all growing communities have to
encounter, riding down its little,
old-time, good-enough-for-father-
and-good-enough-for-me, obstruc-
tionists, you will know without
the question of a doubt that good
men and true are behind that
movement, and that they have
their shoulders to the job.

No Harm In Poisoned 'Hoppers

County Agent Joe Hatton is in
receipt of a letter from Dr. O. C.
Newman, head of the Newman
Hospital at Shattuck, Oklahoma,
declaring that he has not treated
a patient or does not know of a
patient in his territory, who has
suffered from the effect of pois-
on or any symptoms of the same
from eating chickens that had
eaten poisoned grasshoppers.

The rumor current in this sec-
tion was to the effect that many
people of Kansas and Oklahoma
had died as result of poisoning
because they had eaten chickens
or eggs from chickens exposed to
poison via hopper eradication
campaign. The rumor in Spearman
was to the effect that Dr. New-
man was warning the public via a
radio broadcast. This letter clears
up the wild ideas, since Dr. New-
man asks that those who are
afraid to eat hopper poison ex-
posed chickens, just send em to
him—and quoting "I am willing to
take the chance."

Mr. Hayden Stephens of the
Holt community was visiting with
Mr. Howard Dean Kelly Wednes-
day of this week.

Mr. J. C. Lee visited his parents
Mr. and Mrs. J. L. Lee of Maver-
ich, and relatives in Hamilton.

MRS. KELLY LEARNS OF THE DEATH OF F. W. KELLY

Mrs. Elmo Kelly received word
of the death of F. W. Kelly, Ft.
worth, Texas attorney and a
brother of Oren Kelly, deceased.
Death occurred at Crane, Texas
while Mr. Kelly was visiting relatives.

Funeral services and burial
will be at Ft. Worth. Mr. Kelly will
be remembered here by many local
people, having visited often in the
past years with his brother.

Mrs. Alvin Drake of Perryton,
and Mrs. Byron Simpson of Fol-
lette visited their parents Mr. and
Mrs. Claude Parker Tuesday.

Miss Marguerite Stephens of
Holt Community visited with
Ruby Ruth Kelly Wednesday.

Mary Ames of Canadian is vis-
iting her sister Mrs. S. B. Hale,
Jr., this week.

Mr. and Mrs. Stanley Key of
Perryton were transacting busi-
ness in Spearman Tuesday.

Jim Ed Wallace of Ft. Worth
was a business visitor in Spear-
man this week.

Walter Wilmeth loses
11 cows past week.

A herd of some 100 cows pur-
chased recently by Walter Wil-
meth contacted a disease, and be-
fore the herd could be properly treat-
ed 11 of the animals died. Wil-
meth was at loss to locate the
cause of the, first thinking it was
poison. A check revealed that
none of the grasshopper poison
had been distributed in the area
the cattle were located. A veteri-
narian from Pampa treated the re-
mainder of the cattle. No further
deaths have been reported this
week.

CREAM DEALERS ASK COOPERATION OF FARMERS

In a meeting with State and
Federal Food and Drug men at
Perryton last Friday, local cream
dealers agreed to ask the coopera-
tion of farmers and dairy men in
the improving of cream quality.

All cream received will be
graded by the local buyers and
the producer will be paid in ac-
cordance with the quality of his
cream.

Cream producers are warned
about using cream containers that
are forbidden by the pure food
laws. Any containers, such as, old
syrup pails, rusty cans, oil or
gasoline containers will ruin
cream for the market. In an ad-
ditional article in this paper the three
local cream buyers are asking the
cooperation for producers and
making explanation as to how a
farmer can get the most money
for his product.

Slim Cates, Mr. and Mrs. E. K.
Snider and Mr. and Mrs. Elmer
Jacobs were among the Spearman
people who attended the Perry-
ton meeting.

Shows Interrupt Heat Wave Tuesday.

Continued hot and dry weather
for the past week was interrupted
by a slight shower in Spearman
Tuesday night. The record showed
.09 inches rainfall. At Gruber
a nice shower fell Tuesday after-
noon. Van Earl Steed living 12
miles East of Spearman reported
an inch and a half rain over about
six sections in that area. However
the moisture was very slight at
Perryton and points East of Waka.

Telephone Directory Will Be Published Soon.

A new telephone directory will
be published and delivered to sub-
scribers on or about Sept. 1. All
local people desiring listing in the
directory, who have not rented
phone service before are urged to
make their contracts with the Co.
before the directory is published.
The directory will include the list-
ing of subscribers of Perryton,
Spearman and Booker.

Hitchland Girl Killed In Car Accident.

Friends of Mr. and Mrs. Carl
Clawson of Hitchland learned of
the death of their daughter Ag-
nes, which occurred near Wichita,
Kansas Friday of last week. Miss
Clawson was enroute home for a
family reunion, when the car in
which she was riding collided with
a truck on the Wichita highway.
Miss Clawson was killed instantly
and a friend from Texhoma, was
seriously.

Hazel Hurd Players To Be In Spearman August 9-10-11

The Hazel Hurd players will be
in Spearman Monday, Tuesday
and Wednesday, to give Spearman
a taste of legitimate drama by a
company with whom many local
people are acquainted.

This is the twentieth successive
year the Hazel Hurd players have
been in the show business in the
southwest.

Fred Twyman, of Kingman, is
manager of the players, and was
in Spearman this week.

Hansford county farmers are
asked to inspect their land with
a view of filing requests for the
construction of lakes and dams
in the near future. These requests
will be filed with the county plan-
ning board at the proper time.

Judge Barkley, vice president
of the Water Conservation Au-
thority, makes this announcement
and asks that land owners be read-
y with their requests when called
upon.

President Roosevelt signed the
conservation Friday which paves
the way for the water cervation
movement in the Panhandle. This
bill provides \$10,000,000 for the
purchase of marginal land. It is
contemplated that this money will
be used largely on dams and lakes.
"The whole situation looks very
good, but so far there is nothing
for certain," reported Judge Bar-
ley yesterday after a meeting of
the directors of the association
with Carl Hinton who has been in
Washington for several months.
Mr. Hinton returns to Washington
today and will try to work out the
final details.

Prospects for the construction
of Buffalo Dam at Canyon are
very good, states Judge Barkley.
Several large projects are possible
in the Panhandle, but the major
part of the money will be spent in
building smaller lakes and dams
on individual farms. It is proposed
that farmers be given contracts
to build their own lakes on their
own land. The government has
found this the most effective
method in other parts of the nation.
This provides a work program as
well as a conservation program.
Each county will be given a quota
of money, which will be distribut-
ed on the building of lakes and
dams upon recommendation of
the county planning board.
No applications are to be filed
at once, but this request is made
now so that farmers may look
over their property and see the
locations which are available so
that the county planning board
may act at the proper time.

GRUVER COOPERATING IN HOPPER FIGHT

Reports from Joe Hatton, coun-
ty Agent, indicate the community
of Gruver are cooperating more
thoroughly than any other com-
munity in the fight to poison
grasshoppers. The truck from
Spearman carried 388 sacks of
poison to the community Monday
of this week.

NOTICE to CREAM PRODUCERS
 Federal pure food authorities are demanding that cream quality be improved and that cream received at our stations be carefully graded.
 All cream that is too sour (cheesy and foamy) must be graded number two and be bought two cents under regular price. Cream unfit for use, moulded, unclean, etc., cannot be received.
 Deliver your cream often and do not bring it in unlawful containers, such as syrup pails, rusty cans, etc. A cream container must have all seams soldered and must never be used for oil or gasoline.
 Your cooperation in these matters will help all concerned and save the necessity for more drastic action to be taken by the authorities.

Nancy Hart's HOME NEWS

FROSTY DRINKS
 There's nothing more soothing to a hostess's pride than the delight and surprise of her guests when she produces a frosty drink as if by magic. But this magic requires clever planning and forehandness as well as a variety of flavors in the form of bottled syrups.
 Chocolate always is a favorite for cold drinks but there are a number of other flavors that are popular, too. A lot depends on the type of beverage as to what flavor you choose. Nourishing drinks with a milk foundation use the whole category of flavors—fruits, spices, vanilla, almond, pistachio, caramel, maple—in fact anything you may fancy.
 Drinks that are served just for the sake of their coolness are best flavored with fruits or tea or coffee.
 Fruit syrups are easy to make and will keep indefinitely in the refrigerator. Their base is a simple syrup to which the juice is added to make the flavor. A fruit syrup gives a smoother finished drink than clear juice and undissolved granulated sugar does.
 The syrup from sweet, canned fruits such as peaches, strawberries and pears may be combined with lemon juice to make refreshing drinks.
 Be sure cold drinks are not over-sweet although the beverage which is tasted at room at room temperature should be sweeter and of stronger flavor than you

want the finished product.
 A very swanky way to set fruit drinks is to drop a ball of mint, lemon or orange ice in each glass instead of crushed ice. If you are serving from a punch bowl a pint or more—depending on the ice in the ice in the bowl and pour the prepared fruit juice over it.

R. V. CONVERSE, SAYS—
 Roosevelt has successfully turned defeat on his court plan into victory. He has secured the resignation of one Chief Justice and secured several decisions favoring the new deal, and now can appoint a new judge. Not bad for a star.
 There are those who favor change in the constitution, and makes one wonder where the provides for the protection of life, liberty and the pursuit of happiness. That covers most everything, doesn't it?
 Franklin D. Roosevelt is the President of the United States but a great many people recognize Charles Evans Hughes as the real power in the country today.
 The writer was in Amarillo Monday and had a nice visit with friend Fischer, head of old age assistance in this district. Mr. Fischer seems to have the interest of the aged at heart and is trying to do a good job of sorting out those who are in need and qualify under the law of the state but it seems the law is not what we would like.
 Mr. and Mrs. Rex Sanders and family left Wednesday for a vacation trip to Colorado and New Mexico mountains.
 Mr. L. W. Austin was a caller in the J. F. Sims home Monday night.
 Mr. and Mrs. Earl Church were trading in Spearman Monday morning.
 W. H. McGreevey from Carman Oklahoma was at his farm this week end looking out for his wheat.

GETTIN' THE BUSINESS
means giving the mileage

It's up to me to make this business go, because it's mine. I never did a smarter thing than featuring Conoco Germ Processed oil, with all its long mileage for you. Talk doesn't make mileage or customers, but I can tell you what does... Oil-Plating your engine with Germ Processed oil. The patent Germ Process makes oil actually take hold of every working part and keep it coated with a durable Oil-Plating... entirely extra to the regular moving type of oil film. Oil-Plating backs up the oil film while the car is running, and never drains down during hours of parking. Then you'll never start up without lubrication. And at the end of your longest run on a hot day, your engine will still have its full safe plating of Conoco Germ Processed oil. The way it lasts gives me a right to be called Your Mileage Merchant.

Mud Delays "Monster" Hunt
NEWPORT, Ark., July 24.—Twenty feet of mud halted Navel Diver C. B. Brown's third invasion of White river yesterday in search of Arkansas' mysterious "monster" Aides pulled the Memphis man to the surface from muck and weeds of the river bed after an hour's hunt failed to disclose a trace of the creature. He saw only a big catfish and a heavy log. Some 300 spectators from Califor-nia, Arkansas, Texas, Mississippi and Tennessee lined the river banks to hear over a loudspeaker a play-by-play account of Brown's activities.

Miss Marjorie Hamilton of Longview Texas is visiting her sister and family, Mrs. Lester Mc-clain.

CHRISTIAN CHURCH

Sunday morning the minister will discuss the answer that Christ made to a question asked regard-ing some things concerning life after death. It was asked as a catch question to Him, but He answered positively and definitely and clearly for all men to come. All are interested in this study; even men of science are giving some thought to it today. Come with us Sunday morning. The evening service will be dis-continued for the evangelistic meeting over at the Baptist Church.

Christian Science

"Spirit" is the subject of the Lesson-Sermon which will be read in all Churches of Christ. Scient-ist on Sunday, August 8. The Golden Text is "No man hath seen God at any time . . . Hereby know we that we dwell in him and he in us, because he hath given us of his Spirit" (1 John 4:12, 13). Among the citations which com-prise the Lesson-Sermon is the following from the Bible: "He whom God hath sent speaketh the

words of God: for he giveth not the Spirit by measure unto him" (John 3:34). The Lesson-Sermon includes also the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "When we realize that Life is Spirit, never in npr of matter this understanding will expand unto self-completeness finding all in God, good, and needing no other consciousness" (page 264).

DR. POWELL—eye, Ear, Nose and Throat specialist will be at Dr. Gower's office, Wednesday Aug. 25. Glass Fitted, Ton-sils and adenoids removed.

Why Firestone STANDARD TIRES ARE EXTRA SAFE

TAPPING RUBBER TREES ON FIRESTONE PLANTATIONS IN LIBERIA

From these plantations comes an ever increasing supply of the world's finest rubber. Economies in producing raw materials, manufacturing and distribution make it possible for Firestone to give you so much for your money.

YOU GET EXTRA PROTECTION AGAINST BLOWOUTS—eight extra pounds of rubber are added to every 100 pounds of cord by the Firestone patented Gum-Dipping process. By this process every fiber in every cord in every ply is saturated with liquid rubber. This counteracts dangerous internal friction and heat that ordinarily cause blowouts.

YOU GET EXTRA PROTECTION AGAINST PUNCTURES—because under the tread are two extra layers of Gum-Dipped cords.

YOU GET EXTRA PROTECTION AGAINST SKIDDING—because the tread is scientifically designed.

YOU GET LONGER NON-SKID MILEAGE because of the extra tough, long-wearing tread.

Firestone Standard Tires give you all these extra value features because are first-quality tires built with grade materials and pure construction features. You SAVE MONEY because you buy this quality and extra value at such prices.

Before leaving on your vacation join the Firestone SAVE A LIFE Campaign by equipping your car with a set of new Firestone Standard Tires—today's top tire value.

DON'T RISK YOUR LIFE ON SMOOTH WORN TIRES DO YOU KNOW
THAT last year highway accidents cost the lives of more than 38,000 men, women and children?
That a million more were injured?
THAT more than 40,000 of these deaths and injuries were caused directly by punctures, blowouts and skidding due to unsafe tires?

As right is a section cut from a smooth worn tire, with normal protection worn off. Tires in this condition are liable to punctures, blowouts and skidding.

As left is a section cut from a new Firestone tire. Note the thick, non-slip tread, which provides extra protection against skidding, blowouts and punctures. Come in and see a demonstration.
