BOOK REVIEW -Spoon River Anthology Edgar Lee Masters

建建

This book is a collection of short and very interesting poems. Most of them are laid in the cemstery at Spoon River where the inhabitants are explaining, reg-retting, or perhaps enlarging upon what they did while they were still alive. The first poem desstill alive. The first poem des-cribes the various ways people die. This acts as an introduction to the rest of the book. One of the poems is about Jonathan Swift Somers, who was

Jonathan Swill Somers, who was a poet that lived in Spoon River. He planned to write an epic poem about his home town. This poem was to be in 24 books—but he died when he had written only a bit. This fragment has been printed in the back of the book I, for one, am sorry he didn't live to complete it as this short part is interesting.

We bought the paper Current Events. It is very interesting. It Events. It is very interesting. It will help us very much in geog-raphy and reading. Betty Jean Clement brought us some very pretty pot plants for our room. We guessed what we thought the score would be in the foot-ball game with Dumas vs Lynx. Don Cooke got the nearest. About half of our class attend-ed the football game. ed the football game.

Anything appearing in this column is not necessarily the opinion of the school, news-paper, or sponsor, nor is any reflection on the cha acter of any person intended.

Spearman played a very good game Friday although they were beaten. It seems that the breaks just went the wrong way for the Lynx to regain the ground they lost in the first quarter. Dumas had an exceptionally heavy team exceptionally heavy, compared to Spearman. I have been watching our boys practice, and I have the same impression of them as I have always had—they are go-ing to win some games this year. And they plan to start tomor-row with White Deer.Lets all try to beg, borrow or steal a ride to White Deer and root for the team

The school's new way of wel-coming or rather initiating the freshmen seems to be generally well accepted, especially by the fish. Both boys and girls have been privileged to carry any pro perty which the upperclassmen may choose to designate. This type of initiation will continue thru-out the entire school year as a substitute for the former prac tice of beating the stuffin out of the boys the first week of school the boys the first week of school This way no one gets hurt, and an enjoyable school year is had by both the upperclassmen and lowerclassmen That is, until some freshman gets muley and won's do as he or she is told, at which

squad. They are going over there to win if it is in their power. White Deer defeated the Lynx time there is enjoyment only for the upperclassmen. I am for this new form of initiation 100 percent with the idea that at the same time we upper-classmen are punishing the fish for something the ex-grads of with the band, they really cheered SHS have done. we are also teaching those kids self reliance. FRESHMAN INITIATED BY UPPER-CLASSMEN

We have been enjoying our work a lot this year. In general science we have been very inter-

ested in our experiments. In English our themes have helped to occupy our time. There were some very interesting ones written. The freshman initiation lasted two days-that is the worst part lasted that long. The girls were requested to wear their dresses backward-which made them look very comical to everyone. Margaret Kizziar is ill in the Amarillo hospital.

GRASSHOPPERS STUDIED BY SOPHS

In Biology we have spent the week studying and experiment-ing with the grasshopper, and in English we have been giving book reports. There's quite a collection of books the Sophomores have already read. In Algebra we are learning

ONE FOURTH TEXAS IS LEASE DALLAS -- More fourth of Texas is 10ed & lease for oil and gas ctober ment, a statewide stil. completed by the Tc³ 1 41 Continent Oil and Gas Associa-tion shows tion show's.

Out of a total of 169,130,716 acres in Texas, Texas oilmen have leased 45,402,656 acres, the association found. This is nearly 27 percent of all land in Texas. The figures were compil-ed from county tax records, rompany reports and ownership maps of individual counties. Lease and royalty payments

maps of individual counties. Lease and royalty payments on this acreage to Texas farmers and ranchers totalled over \$125,-000,000, in 1939, the association reported. This extra cash income for Texas farmers and stockmen represented an additional 27 cents from the oilman for each dollar of cash farm income, ex-clusive of Government benefit payments. Including such pay-ments, it represented 22 cents additional for each dollar of cash agricultural income in Tex-as last year. as last year.

In total return to the State however, petroleum far exceeded all agricultural products. All but three counties out of the State's 254 now have acre-inge leased for oil and gas ex-ploration or production. The ex-ceptions are Rockwall, Mason

An interesting demonstration on Accessories was given by Miss Locke in the home of Mrs C. C. Locke in the home of Mrs C. C. Beck Wednesday afternoon on Sept. 25. She spoke of the ap-propriate hat, gloves, scarf bab, and shoes for shopping afternoon and evening wear. With a suit one should wear practical work-ing shoes servicable gloves and carry a tailored leather bag, when on a shopping tour.

While for an afternoon social occasion, lighter weight shoes and more decorative gloves and hand bag should be used. Then for evening parties high heeled pumps gloves and hand bag of softer material and trim. She also commented on appropriate iswelry to be worn on different jewelry to be worn on different occasions.

In our own community we have had five destructive fires since the incorporation of our city in 1921. They were:

"East Side Goes Up In Smoke"-headline

The record shows that Spearman citizens have made great improvements in the matter of fire prevention as the years go by. We have not had a very destructive fire since March of 1933. Seven years of good record has been of great benefit in dollars and cents in the key insurance rate. City officials and school officials have been careful to abide by all the rules of the State and have gained credit rating for insurance.
