Joe will be back some day, we hope soon. But meanwhile we must carry on without him and his fellow employees in uniform. A few of them we have been able to replace with men of equal experience. Others we are having to train. Some we have not been able to replace at all. In wartime there are simply not enough skilled men like Joe to go around.

As time goes on, the manpower shortage will become more acute. So will shortages of material and equipment. As a result there may be times when our service is not quite as good as you expect it to beor as good as we would like to make itbut this is unavoidable in wartime and is true of all lines of business.

We're going to continue to do our best to keep your service at a high standard despite the difficulties of wartime operations.
