New Bills Hit 'Peeping Toms,' Sex Crimes Against Children

AUSTIN (AP)—Peeping Toms and persons committing sex offenses against minors will face stricter penalties if bills swapped by the House and Senate win final approval.

The bills were among 158 passed yesterday, 100 by the House and 58 by the Senate. The mass of bills dealt with matters of so-called "local" or "uncontested" nature.

Approved by the Senate and advanced to the House—but not as an uncontested measure—was Sen. A. M. Alkin's proposed constitutional amendment to improve teacher retirement benefits.

Rep. John Crosthwait of Dallas won unanimous House support of his bill to make window-peeping a misdemeanor, subject to a \$10 to \$200 fine.

"This bill is to prevent people from standing in the flower beds and looking at women taking a bath and undressing," said Crosthwait. "And if anybody wants to object to this bill, that's the kind of thing they're in favor of."

The representatives laughed and sped the bill to the Senate.

In the upper house, approval was given three separate proposals by Sen. Doyle Willis of Fort Worth to remove fines from present permissive penalties for sex offenses against minors. This would leave provision only for prison sentences. The bill goes to the House.

Alkin's proposed change in the Constitution to allow a greater percentage of contribution by teachers and the state to the retirement fund would clear the way for minimum pensions of \$100 a month for teachers who taught at least 10 years.

The Senator from Paris estimated it would cost the state an extra four or five million dollars a year. Unanimously adopted by the Senate, the proposal goes to the House.

If it wins endorsement there, it would be submitted to voter referendum.

The Senate gave initial approval but did not act finally on a bill prohibiting picketing by employees

who represent less than a majority of the workers. As amended, the measure would require an election to determine if the strikers are in the majority.

In all, 28 House-passed measures were approved by the Senate and sent to the governor on the uncontested calendar. Thirty-two Senate measures were passed and sent to the House.

Many of them were local game and fish bills.

Others sent to the governor would:

- Establish a juvenile board in Harrison and Rusk counties.
- Authorize consolidation of rural high school districts with independent school districts by election.
- Authorize state colleges to request military and naval training units be set up for students.
- Other bills passed and sent to the House would:
- Entitle State Prison System employees to service retirement allowance after 20 years.
- Provide procedure for a national bank to convert to a state bank.
- Authorize state boards and agencies to grant easements for irrigation canals.
- Authorize counties on the Gulf Coast having islands to issue bonds for roads to them.
- The House gave final passage to 98 House bills and two Senate bills, including the following:
- Allowing Dallas County to call an election for approval of a tax on motor vehicles in the county to provide funds for right-of-way purchases.
- Setting an open season on squirrels in Nacogoches, Sabine and San Augustine counties. (Reps. Charlie Heitman of Nacogoches, author of the bill, assured the House he was not assisting in Pres. Eisenhower's reported war on squirrels at the White House.)
- Raising the minimum penalty for simple assault and assault and battery from \$25 to \$100.
- Providing for immediate written notice to the employer when an

employee makes assignment of his forthcoming wages.

Putting hunting and fishing in most counties in the Hill Country under supervision of the Game and Fish Commission.

Making it illegal to carry or bring any intoxicating beverages into a stadium or field where high school athletic contests are in progress. Rep. Crosthwait told the House this bill was backed by both the liquor and beer industries.

Bringing Tyler and Athens into the Upper Neches River Authority. Rep. Jerry Sadler of East Texas said the measure would give the cities "a little drinking water."

Allowing county commissioners' courts to exercise rabies control measures on a county-by-county basis.

Making it legal for counties to condemn a highway right-of-way within city limits, with the permission of the cities involved.

Restoring the scratch method of marking ballots in areas which do not use voting machines.

Authorizing formation of weed control districts in the Panhandle and South Plains.

Woman Has Surgery For 38th Time

WICHITA, Kan. (AP)—Mrs. Blondella Wert is recuperating nicely from her 38th operation and says she is going to live another 30 years.

"I believe this is my last operation," says the cheerful 35-year-old patient in St. Francis Hospital. "I don't know what else they could take out."

In the past 22 years, she says, she has gone to surgery in 14 hospitals in half a dozen cities for an assortment of ailments. They include hernia, removal of a kidney, gall bladder, appendix, numerous tumors, a cancer, some of her intestines, both breasts and various other parts of her anatomy.

Don't feel sorry, though.

"I've lived an active, useful, happy life so far and I expect to go on living that way," is how she explains the time she spends between operations.

And her doctor says she just might live the next 50 years as she says she will.

"She is doing very well," he said. "She had an ulcer this time and it was necessary to remove a part of her stomach. But she is about ready to go back home now."

Early Debt Retirement Predicted For CRMWD

The \$12 million Colorado River Municipal Water District project will be paid for in 25 years, instead of 30 as scheduled, E. V. Spence, general manager, predicted Tuesday in a talk at the Big Spring Rotary Club.

And the three cities it serves will have the benefit of reduced water rates when the indebtedness is retired, because they will hold exclusive title to the extensive facility, Spence said.

The CRMWD manager said the indebtedness is being retired ahead of schedule largely through revenues from oil field repressuring projects for which the district is furnishing water in Scurry County.

The district is receiving about \$720 per day from the Scurry Area Canyon Reef Operators Committee, which is now purchasing 6,000,000 to 8,000,000 gallons of water per day. The Sharon Ridge Project, for which a three-mile, 18-inch pipeline is under construction, will take another 3,000,000 gallons per day, adding about \$350 per day to the water district's revenues.

Spence pointed out that these projects are taking surplus water from the district's Lake J. B. Thomas, with pumping being virtually the only costs to the district. Revenues from these sources reduce the amount that must be secured from the cities of Big Spring, Snyder and Odessa to retire the district's indebtedness, he said.

The manager said the district expects to wind up the next fiscal year with a surplus of about \$440,000 over indenture requirements. Already, he said, the district has paid off \$75,000 in bonds ahead of schedule.

Spence said the cities of Big

Spring, Odessa and Snyder are assured of an adequate water supply for the next 35 to 40 years by the Colorado River lake and other reservoirs. He said the district now can deliver up to 12,000,000 gallons per day to Big Spring from the lake. The reservoir now is about 40 per cent full with 88,000 acre feet of water. Capacity is 204,000 acre feet.

Spence had praise for the cooperative manner in which the three cities created the district and put it into operation "without any conflict whatever."

The speaker was introduced by Jack Wallace, Rotary program chairman. Other guests at the luncheon were Al Alon, Sweetwater; Glenn O. Robinson, Miami, Okla.; Jack Arrington, Stanton; H. H. Redding, Midland; Dr. R. Gage Lloyd, Big Spring, and Dr. Richard Copeland, Brownsville.

Adlai Called 'Shoo-In' As Dem Candidate

WASHINGTON (AP)—Sen. Sparkman (D- Ala.) and Gov. G. Mennen Williams of Michigan said today Adlai E. Stevenson is a shoo-in for the Democratic presidential nomination in 1956.

Sparkman, Stevenson's 1952 vice presidential running mate, said he is convinced Gov. Averell Harriman of New York "will not be a candidate for the nomination against Stevenson."

"Stevenson is the only candidate we have right now," Sparkman declared.

There have been reports some New York party leaders would like to get Harriman in the race, despite the governor's statements he favors Stevenson.

Williams, who said he doesn't consider himself a contender, said in a separate interview that Stevenson "can have the Democratic nomination for the asking."

Williams and Sparkman said they believe the Democratic nomination has a good chance of winning.

Sen. Gore (D-Tenn.) said anybody who thinks it may be impossible for his party's candidate to defeat President Eisenhower in 1956 "ought to start adding up the city halls, the courthouses and the statehouses the Democrats have taken over."

Eisenhower has given no indication whether he intends to run again.

Uranium? You Can't Drink That

KANAB, Utah (AP)—This southern Utah desert community was in a tizzy Tuesday over a strike made by a uranium drilling crew not far away.

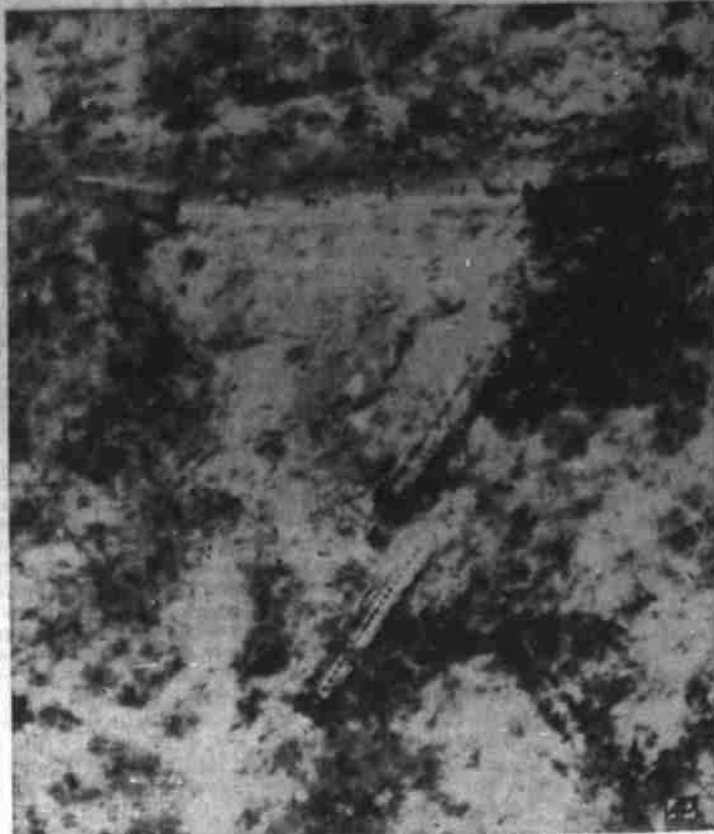

Uranium? No. Water—flowing at 100 gallons a minute from an artesian well. As one old-timer put it: "With this kind of water, that area would be better than a uranium claim."

The well was discovered on uranium claims owned by Standard Mining Co. of Salt Lake City and being drilled by Boyles Drilling Co.

China Draws Line

TOKYO (AP)—Red China has established a 50-mile-offshore line in the Yellow and East China seas and warned that it will seize any Japanese fishing boats caught inside. Kyodo news agency reported today.

Holy Week Horror

This is the first air view of the train wreck 300 miles west of Mexico City which killed 13, injured 90 as the train, carrying Holy Week vacationers, hurtled off tracks as it came out of a tunnel near Colima, Mexico. Several cars rolled down the steep side of the "Canyon of Death." (AP Wirephoto.)

CHURCH LEADER SAYS

Need So Great, Easter Message Hard To Believe

NEW YORK (AP)—Dr. Eugene Carson Blake, president of the National Council of Churches, said today the Easter message sounds "strange and impossible" to many Americans—because they need it so much.

"In too many cases, he said, people's faith does 'Not come to grips with the harsh facts of death'—an element of faith keenly needed in a world anxious about the "possibility of total war" and mass death.

"If a man wants a faith sufficient to live in all kinds of circumstances, it must be a faith which he can die by too, Dr. Blake said in an annual Easter statement for the council of 30 Christian denominations.

"Resurrection," he said, is Easter's "word of hope to all men living in the shadow of death."

"That God is, that He is the father of our Lord Jesus Christ whom He raised from the dead, and that He will receive as his sons by adoption all who turn to Him in faith—this is the Easter message."

"To Americans, largely educated in a scientific and humanistic age, this faith sounds as strange and impossible as it did to the Athenian philosophers to whom the Apostle Paul preached it on Mars' Hill 1,900 years ago.

"Like us they were a skeptical people . . . Like us, as the apostle described them, they were a very religious people. But much of their religion, like much of ours, consisted in a vague and sentimental this-world faith."

Legislatures Aim Bills At Lobby Control

CHICAGO (AP)—Some legislatures around the nation are taking a good, hard look at lobbying activities in their state capitals.

Lobbyists, according to Webster's, are those individuals who "frequent the lobbies of legislative houses to transact business with legislators."

But they have become more than that. Now their duties encompass almost anything that might impede or forward bills in which they are interested. This includes attending committee meetings and regular sessions, passing out publicity releases to newsmen, giving parties for those who might help, and buttonholing legislators on the street or in offices or hotel rooms or anywhere. In some states they are even permitted on the assembly floor.

An Associated Press survey of the 48 states shows that 21 legislatures have contemplated bills regulating lobbyists this year. Of these, 10 apparently have allowed them to die. In the remaining states they are still alive.

Ohio is thinking about a proposal to strengthen its lobby registration statute by tacking on penalties of five years in prison and \$10,000 fine for noncompliance. This would include failure to file an expense account.

In Tennessee a resolution was adopted calling for a study of lobbying by the Tennessee Legislative Council, a group of legislators who are continually looking into government problems.

Iowa's Senate has a bill which would require lobbyists to register with the chief clerk and show what organizations he represented. This is now done in the House.

Gov. George M. Leader of Pennsylvania is backing a lobbyist control bill patterned after the federal law which requires registration.

Democrats in Wisconsin have introduced two bills which would require lobbyists to report on whom they spent money.

A lobbyist registration bill has been introduced in Texas, but chances for it appear slim.

In Montana, where a bill requiring lobbyists to register was killed, Democrat Eugene Mahoney, majority floor leader in the House, said the lobbyists' bill "was the most lobbied bill in this session."

Democrat Leo C. Graybill, speaker in the Montana House, said, "Those that seem to be opposing the bill, the lobbyists, should be those who are most in favor of it."

MacArthur Aide Enters Yalta Fuss

NEW YORK (AP)—The chief aide to Gen. Douglas MacArthur says a book by Cornelius Vanderbilt Whitney "completely belies" a report that at the time of the Yalta conference the general favored Russia's entering the war against Japan.

Whitney quoted a passage from Cornelius Vanderbilt Whitney's book "Lone and Level Sands." It described a meeting between MacArthur and the late Secretary of Navy James Forrestal in the Philippines Feb. 28, 1945. Cornelius Vanderbilt Whitney accompanied Forrestal to the conference.

MacArthur at that time, the book said, surprised Forrestal by telling him he thought the war in the Pacific would end that year.

"Forrestal was visibly impressed and yet unconvinced," the book continued. "He asked the general whether he could quote him in Washington, to which MacArthur said he had no objection."

"I have given you only the highlights of this remarkable conversation. I say remarkable because here was a man in a position to know, predicting an early termination of the war, contrary to all naval thinking at the time."

Whitney said, "This eye and ear witness account completely belies the (Forrestal) diary injected into the issue of responsibility for the Yalta decision . . ."

Forrestal's diary has been one of the main pieces of purported evidence that MacArthur pressed for Russia's entry into the Japanese war before Yalta.

The diary said MacArthur "felt that we should secure the commitment of the Russians to active and vigorous prosecution against the Japanese . . ."

Morton, in his magazine article, wrote that MacArthur "stated emphatically at the time of Yalta to more than one visitor that American forces should not invade Japan until three months after the Red army attacked in Manchuria."

MacArthur also told visitors, Morton said, that he was "perfectly willing" to make concessions to get Russia into the war.

The Yalta conference was held in the Crimean Peninsula in February 1945. It was attended by

Premier Joseph Stalin of Russia, President Franklin D. Roosevelt and Prime Minister Winston Churchill of Great Britain.

Mario Lanza Fired From Las Vegas Night Club Job

By BOB THOMAS

LAS VEGAS, Nev. (AP)—Where does Mario Lanza go from here?

That was the question the show tenor pondered today after the tenor failed to appear and was fired from the world's highest-salaried night club date. The Hotel New Frontier yesterday canceled Lanza's contract, which called for \$100,000 for two weeks of singing twice a night.

Lanza, his wife Betty, their four children and two nurses were scheduled to motor back to Hollywood today. The rest of their entourage pulled out last night.

A friend reported Lanza was heartbroken by his failure to keep the date. The reason is more than professional. He expected to use the \$100,000 to rent a new house. Heavily in debt to the government for past income taxes, he now plans to rent an apartment. For the past three months he has been living in Palm Springs and preparing for the abortive night club engagement.

"He was in a good mood and talking very sensibly," a close friend said. "He remarked that he guessed 'that motion picture is my business.'"

Lanza apparently will go back to the movies. He is under contract to Warner Bros. for the James M. Cain story "Serenade."

The cause of his pullout from the much publicized show here is

still clouded. A local doctor examined him early yesterday morning and said he was in physical shape to sing. But a meeting of his backers decided that he could not sing last night. The Hotel New Frontier's bosses then ruled that his contract had been broken. Substitutes from other shows on the Las Vegas Strip have filled in for him while the hotel negotiated for a new star.

Lanza arrived in Las Vegas in time but at the last minute failed to make an appearance for his opening show Monday night. His physician Dr. J. H. McDaniel said he forbade the tenor's Monday night appearance because the singer was suffering with "acute respiratory infection and laryngitis."

It was Dr. McDaniel who examined Lanza again yesterday and then said he was physically fit to sing last night.

LOWEST-PRICE CAR

IN THE LOW-PRICE 3 TO GIVE YOU ALL THIS IS PLYMOUTH!

TOP SIX

The *thriest, smoothest six* in the low-price 3—that's Plymouth's PowerFlow 117! Its high compression ratio, combined with exclusive Chrome-Sealed Action, gives you more power from less gas, and velvet-smooth performance. You'll enjoy lightning acceleration, thanks to a special metering system in the carburetor. And Plymouth's PowerFlow engine thrives on regular fuel.

TOP SIZE

The *biggest, longest, roomiest car* of the low-price 3—that's Plymouth! Brilliant new *Forward Look* styling gives you more glamor outside, more luxury inside; plus the new Full-View windshield, swept back to give the greatest visibility in the low-price 3. And Plymouth's big size means you and your passengers will enjoy the smooth, steady ride that only a truly big car can give you.

TOP VALUE

Plymouth is the only low-price car to give you at no extra cost such extra value features as: electric windshield wipers, Safety-Rim wheels and an independent parking brake for greater safety . . . Oriflow shock absorbers for a smoother ride . . . an Oilite fuel filter and oil bath air cleaner for lasting economy. See and drive a Plymouth today—see why it's your best-buy low-price car!

WHY PAY UP TO \$500 MORE FOR A CAR SMALLER THAN PLYMOUTH?

Don't be fooled by the claims of so-called medium-price cars that they cost practically the same as Plymouth. When you compare price tags you'll find that, *model for model*, the 1955 Plymouth sells for much, much less than medium-price cars, and gives you more car for your money!

BEST BUY NEW: BETTER TRADE-IN, TOO

Eden Policies Expected To Back Western Unity

By JOHN M. HIGHTOWER
WASHINGTON (U)—An overriding concern to preserve Western solidarity against Russia is likely to dominate the policies of Britain's new Eden government just as it did that of Sir Winston Churchill.

Authorities here think it quite possible that Eden will seek early talks with top American officials. He might find such an occasion when Secretary of State Dulles goes to Europe for a North Atlantic Treaty meeting in May. He could come here to confer with President Eisenhower, though officials said there is no present plan for such a meeting.

Eden and Churchill have been closely identified for so many years that there is a tendency to consider them identical in motives and reactions. That is not true, according to men who have worked with both of them.

Mysterious Sound Worries Utahans

SALT LAKE CITY (U)—The sky over the Salt Lake Valley was alive with sound last night, and the noise prompted hundreds of residents to call newspapers and police in alarm.

As Prime Minister and foreign minister, Churchill and Eden were accustomed to disagree on many issues. Sometimes U. S. diplomats have to check and recheck both men to learn what was the true British position on some issue.

In general Churchill, the old political pro, has taken a much tougher line on many problems than Eden, the practiced diplomat, was willing to do.

One well-known difference was

Reds Admit Purge Bogged

LONDON (U)—The Soviet government admitted Wednesday that its purge of collective farm bosses has bogged down.

Most said it sounded like airplanes overhead. Others thought it was blasting, and one said it was like "a locomotive running behind my house."

Churchill Flashes 'V' Sign

Sir Winston Churchill flashes V-for-Victory sign he made famous during World War II on return to 10 Downing St. from Buckingham Palace audience with Queen Elizabeth II to resign the prime ministry. Shouts of "Good Old Winnie" sped the 80-year-old statesman to the Palace and back. Sir Anthony Eden will be the new prime minister. (AP Wirephoto by radio from London.)

'HISTORIC MOMENT'

Winnie Receives West's Tributes

LONDON (U)—Political leaders and the press of the Western Democracies lavished tribute on Sir Winston Churchill today. He even got a pat on the back from a Communist paper.

In general, the 80-year-old British statesman's departure from the prime ministry was recognized as a historic moment. He was lauded far and wide as a leading architect of victory in World War II.

"More than any other single person he deserves honor for organizing the free people's fight against nazism and fascism," said Norway's Foreign Minister Halvard Lange.

President Rene Coty of France cabled that his country, "united with Great Britain and all free peoples, renders you affectionate homage and extends her admiration and recognition."

Area Youths Place In Sul Ross Contests

Big Spring, Garden City, Gall and Lorraine 4-H and FFA members won team and individual places in the annual livestock judging contests at Sul Ross College last weekend.

The FFA teams from Big Spring and Eldorado tied for first place in the hog judging contest. Lonnie Doyle of Gall tied for third in individual judging in the hog contest.

Many agreed that Churchill's career is not over. President Eisenhower appeared before television and newspaper cameras to address

Newspaper Strike Delayed News Of Churchill Action

LONDON (U)—They never thought he would do it in the middle of the newspaper strike.

West German Chancellor Konrad Adenauer issued this statement: "It is one of Sir Winston's greatest services that the Western World now lives in freedom. All of us in the free world need his counsel and will continue to seek it."

From Britain's Communist ally Yugoslavia, Radio Belgrade praised Churchill's World War II leadership and said he was "so great" that he could "change his own errors and recognize his own mistakes."

That's what they were saying in pubs last night as word spread that Sir Winston Churchill had stepped down as prime minister.

Moscow radio reported Churchill's resignation to the Russian people without comment.

And most Britons, even the left-wing Labor party members who had been his severest critics, thought it was a pity it had to end like that.

East Germany's official Communist news agency ADN sourly said Churchill's name "has been closely tied to the Imperialist Western Powers' policy of strength and war threats."

"He ought to have had his front pages this day," said a Scottish janitor who never voted Conservative in his life.

L'Unita, organ of the Italian Communist party, said he left his high office "without applause." But Rome's pro-Communist Paese Sera called him "a great old man."

"It must have broken the old man's heart to go out with none of them fine obituaries the newspapers got ready," said a hard-faced taxi driver. "A bloody shame, it was."

The British Broadcasting Corp. gave the nation the news at 5:30 p.m. but a lot of Londoners were still working then or riding subway trains and buses home, and they didn't hear it.

Ordinarily they would have learned about this page in world history from their newspapers. But London's three afternoon dailies, along with the city's 10 morning papers, have been closed since a week ago last Friday by a strike of maintenance men.

So a great many people didn't know Winnie had done it until they stopped in at the neighborhood pub—the poor man's club in England—for their evening pints of beer.

Frances Weeg Scores In Roping At Dallas

Frances Weeg, daughter of Mr. and Mrs. Frank Weeg, captured second place in calf roping at the All-Girl World Championship Rodeo in Dallas last weekend.

She had hard luck in her bull riding, and the place in roping brought a change in fortunes for Frances had just been in a car mishap.

Her automobile was badly damaged during a storm in Dallas. She was to have left Tuesday for Rusk, where she was to participate in another girl's rodeo before returning to her studies at Sul Ross College in Alpine.

...the fuel designed for today's hi-compression engines!

Regardless of make or year, your car will benefit from Conoco Super Gasoline, the fuel that combines a controlled higher-octane rating with all the power benefits of TCP!

Whether you're the proud owner of one of these 1955 beauties, or are still getting dependable service from your present car, isn't it time you benefited from Conoco Super Gasoline with TCP? Make no mistake about it! Here is no ordinary fuel, but an astonishing new kind of gasoline that sets free every ounce of power packed into today's wonderful high-compression engines... a gasoline that virtually tunes up any engine by the time you've finished your second tankful!

Feel that powerful difference today! This week, start using Conoco Super Gasoline with TCP... after two tankfuls, you'll see why the greatest gasoline development in 31 years became the greatest success in gasoline history!

THE BENEFITS OF TCP PROVED BY OVER 8 MILLION USERS!

1. TCP boosts your car's power as much as 15% (because it neutralizes power-robbing lead deposits in your car's engine).
2. TCP gives you extra gas mileage (motorists report up to 3 miles more per gallon).
3. TCP is just like an engine tune-up (because you enjoy all your car's built-in power).
4. TCP increases spark-plug life up to 150% (because it actually fireproofs your spark plugs).
5. TCP is your guarantee of Top Car Performance (because it brings out all the extra performance of Conoco Super's higher-octane rating).

Conoco Super Gasoline with TCP*

...makes a powerful difference in your car's engine!

the name is HARMAY

One of the finest of our Family of Fashion labels is the name Harmay... these dramatically young and feminine dresses and suits have that extra quality, that added high styling that makes their label one that is much sought after... sketched is a Peasante Silk suit for Easter, with crisp pleated collar that rolls and dips beautifully; repeated pleat influence at cuff... typical of the Harmay styling and craftsmanship plus fabulous fabric. 79.95.
