## County Youth Continue Winning Ways

Andrea Archer and Red Tyler Dee are shown above at the State 4-H Horse Show. Miss Archer placed 1st in three categories, 2nd in two categories and third in another at the Tri-State Fair Horse Show last week in Amarillo. William Jarvis received a second in reining with his horse, Lightning Seven, Dana Turner was 3rd in reining with Nips Good Bar and Jon Garnett placed 2nd in western horsemanship with his horse Holey's Pattern.

In Class 17, reining, Hansford youth came up with first, second and third places. Miss Archer was first, William

Turner of Spearman, captured 3rd place exhibiting Nips Good Bar.

This show is the culmination of many wins in shows throughout the area including the state show for these young horsemen of Hansford County 4-H Club.

Andrea Archer, daughter of Mr. and Mrs. Bobby Archer of Spearman, placed 2nd in Class 6, halter geldings all ages when she exhibited Red Tyler Dee. She placed 1st in the Class 6, showmanship at halter, 13 and under with Red Tyler Dee. She received another 2nd place, in Class 11, western pleasure, exhibiting Red Tyler Dee. She placed first in Class 17, reining, all ages, when she exhibited Poco Manoso. In barrel racing, all ages, she was 3rd with Poco Manoso and was also first in pole bending, all ages, exhibiting Poco Manoso.

In Class 14, western horsemanship 14-18, Jon Garnett, son of Mr. and Mrs. Mike Garnett of Spearman placed 2nd with Holey's Pattern.

They have set an enviable record under the capable leadership of County Agent, Jim Smith and the support of their parents in their many shows.

Hansford County youth continued their winning ways at the Tri-State Fair Horse Show last week in Amarillo.

Jarvis, son of Mr. and Mrs. Britt Jarvis of Spearman, was second exhibiting Lightning Seven and Dana Turner, daughter of Mr. and Mrs. Philip

## James Farmer Is Commended

The principal, Eddy Clemmons, of Spearman High School, today released the name of one Senior who is being commended in the twenty-seventh annual (1982) National Merit Scholarship Program. A letter of Commendation will be presented to James Farmer, who placed among the top 51,000 participants in the current competition.

A spokesman for National Merit Scholarship Corporation (NMSC), which conducts the Merit Program, stated, "To be designated a Commended student is an outstanding attainment, deserving of public recognition. The nation will benefit from the continued educational and personal development of students such as these, for they have shown exceptional promise. We sincerely hope that the able young men and women being honored will receive whatever assistance is necessary for them to achieve the high goals they set for themselves."

Of some 1.2 million students who entered the 1982 Merit Scholarship competition by taking a qualifying test in 1980, about 36,000 are being commended this month, as they begin their final year of high school. These participants scored high, but slightly below students in their respective states who qualified as Merit Program Semifinalists. Only the 15,000 Semifinalists, who were announced in a national news release on September 16, will receive further consideration for Merit Scholarships. In the spring of 1982, NMSC will announce the names of about 5,000 Merit Scholarship winners who will receive awards worth \$15 million for college undergraduate study.

James Farmer

## Four Local Residents Beat Putt Powell

There is a new contest in Amarillo that anybody can enter. It is a contest to see how many people can beat Putt Powell the Globe-News sports columnist in guessing correctly the winners of 10 games.

Putt Powell guessed 8 correctly out of the 10 games last week.

Out of the 70 entrants that guessed more than 8 winners correctly Kathy Beck and Jesse Burke, Spearman residents, and Kelon Morley and Sammy Pierson, of Gruver won a T-Shirt saying "I Beat Putt." All the T-shirts were mailed according to Globe-News promotion director Caroline Chamblin.

Enter this contest, you might be the next winner!!

## Immunization clinic

A clinic offering vaccines that give protection against several childhood diseases will be held Oct. 5 from 2 to 4 P.M. at the Spearman Elementary School, 511 S. Townsend, Spearman. Protection is against polio, diphtheria, lock jaw, whooping cough, measles, rubella and mumps. There is no charge.

## Lynx To Tackle Canadian

The Spearman Lynx have had a rough year. They have a great team, it's just that nothing has come together for them. The Lynx played Boise City Friday night, September 25, and lost 20-7. Dennis Randall scored from 1 yard out and Monte George booted the extra point. That was the best note of the game for the Lynx. Lots of fans have been following the Lynx this year. Lots of fans have journeyed with the Lynx to Sanford-Fritch and Gruver, and many more have filled the stands at the home games.

The Lynx starting quarterback, Stephen Tindell, has his cast off, that is good news for all the Lynx Fans.

The Lynx are now 0-4 for the season, and they are to travel to Canadian this Friday, October 2. Who knows, maybe the Lynx will get their act together and teach those Wildcats a lesson.

The game will begin at 8:00 p.m., and the Lynx would love to have lots of support from their local fans, and they'll try their best—that is really all a team can do. The Lynx have a great backfield with Jeff Lackey and Dennis Randall. As far as the ends—Monte George, Kyle Brack and so on. Guys like these are hard to find in the Panhandle area, but the Lynx have many, many great players—from Offensive lineman to the Kicker and from Defensive lineman to the Cornerback. The Lynx have a fine Offensive line helping the current Quarterback, Billy Pat Underwood. The Lynx Defense is doing real well. They showed their fans what they could do with a team that is undefeated—like the Boise City Wildcats. The Canadian Wildcats, by the way, were beaten by the Hobart (Oklahoma) Bearcats 21-7. The Wildcats had 184 total yards, while the Lynx had 165 total yards. The Lynx are ready for REVENGE

The game begins at 8:00 p.m. and will take place at the Canadian Wildcat Stadium. Y'all go on over to Canadian and cheer the Lynx on to victory. OCTOBER could be the Lynx' month of winning game after game. The Lynx have another non-conference game, that is the Homecoming game against the Guymon Tigers.

## Vote For Amendment 4

Nothing is more critical to the future of our state and its people than our precious water resources. Communities throughout Texas are facing increasing problems in planning and financing water conservation, water quality treatment and flood control projects that are absolutely essential to the well-being of our citizens. Those challenges have now been made more severe by the declining level of federal funding available.

The Texas Legislature recognized the growing seriousness of the problem by recently enacting legislation to create a water trust fund from portions of future state revenue surpluses to help us deal with this urgent concern.

Now it is up to the voters of Texas to approve the proposed plan through passage of a constitutional amendment at the polls on November 3.

Inform yourself now on this vital issue and actively support passage of Amendment No. 4. We must act now if we are to have good health, opportunity and prosperity in the years ahead.

What Constitutional Amendment No. 4 Does.

Establishes a new loan guaranty program which will allow local communities to back bond issues with the credit rating of the State of Texas. This guarantee means lower costs of bond financing, which affects the cost of utility bills. This one aspect of the plan alone means future savings of hundreds of

millions of dollars to Texas consumers.

After first meeting all the rest of the state's needs, one-half of the revenue surplus will go toward the creation of a water trust fund "nest egg" to be utilized for planning and financing of vital water-related projects in Texas cities and towns in cooperation with local authorities.

Authorizes an increase from the current 6 percent limit on interest which can be paid on more than \$200 million in unused state bonds to a more realistic 12 percent so that they can be sold for urgently needed projects.

What Constitutional Amendment No. 4 Does NOT Do.

Contrary to misleading claims of a few voices of opposition, the Amendment does not really create a dedicated fund. The legislation actually creates a tentative priority for water projects, and the flow of surplus into the Trust Fund can be controlled and redirected by a simple majority vote of the Legislature.

The Amendment does not impair the water rights from any individual, company, political subdivision or area of the state.

Passage of Amendment No. 4 will not cause new taxes for Texans.

WE MUST ACT NOW TO SAFEGUARD OUR WATER FUTURE AND THE FUTURE HEALTH AND PROSPERITY OF TEXANS! VOTE NOV. 3 FOR WATER FOR TEXAS... VOTE FOR AMENDMENT 4!

## Windcharger at Borger sparks power schemes

If you have seen the 60-foot "windmill" towering over the new post office building at Borger, the visit of Robert Entweller to the High Plains won't seem like so much wind but...

Actually that is what it was about.

Entweller was in the Panhandle in behalf of a project he and some associates had conceived: a rank of power-generating "windmills" similar to the one the U.S. Government has installed at the Borger post office. His group is eyeing the Panhandle for the same reason Borger was selected for the pilot project of the government: there is wind here.

Entweller's concept is a line of the wind-charger towers facing north (the source direction of most strong winds sweeping the High Plains) assuring power generation in some segment of that line around the clock every day.

Before the Entweller project sounds too much like Rube Goldberg of old, let us look at the Borger installation, the first of the U.S. Postal Service anywhere in the nation.

Erected at a cost of \$27,000 it will provide 40 percent of the power consumed in the 10,000 square foot post office. A 30-to-40 mile-per-hour wind will turn out the maximum 30,000 watt (30 kilowatt) output. It will

put out 25 kilowatts in a 26 mph wind, commonplace here in the Panhandle.

But, it is designed to operate in a seven-and-a-half mph wind. The 32-foot two-blade rotor is designed to capture 40 percent of the winds efficiency at any given speed. Annual output is set at 50,000 kilowatt hours or one kilowatt an hour for 50,000 hours.

An all-electric home of 2,000 square feet would use 26,000 kwh per year.

The Borger installation has a line connecting the wind-charger to the power company's equipment. At night and on weekends when the post office operations "shut down", surplus power from the unit is shunted to the power company which pays the post office department for it.

The unit is no experimental model. It was built at Burk Burnett by Carter Enterprises, recognized specialists in the construction of large wind generators.

A director for real estate and buildings for the U.S. Postal Service said a number of Panhandle sites were viewed but maps of wind currents and supportive data prompted the choice of Borger for the test site.

--And it was these wind current charts that had caused Robert Entweller and his associates to take a look at the High Plains. Based on an individual installation that would support the cost, such a generating concept might be feasible.

However, there are many flaws in the Entweller concept. Not the least of these would be licensing or franchising or both in the face of established power companies in the same area. --That is with the widespread rank of windmills across the Panhandle. Admittedly, this would provide sufficient units that some of them should be operating all the time. Too, with much electrically operated irrigation equipment going for long periods, there should be a consumption rate about equal to the output.

A part of the concept he outlined was to shut down units if output greatly exceeded consumption.

While Entweller spoke volumes about the concept and its potential, he was very close-mouthed about the organization behind it. Nor did he have any comment on deposits, charges, access to ownership of units or start and completion dates.

--Nor was he seeking investments in the project. He called his trip to the High Plains a "look-see" -- called the food

good, the people real friendly and promised a press release once a firm decision is reached on the project.

Following our luncheon meeting, we were left with the feeling that, though it was a low-key, no-sell conversation,

Robert Entweller could promote the project in the midst of the Sargasso Sea if he put his mouth -- er, mind to it.

WATCHING THE NEW CAR YEAR IN -- High Plains Texans will celebrate anything with coffee -- here the new model cars and a new grandson at Hergert's last week. From the left, Don Hergert, Mrs. Ernest Archer, Buck Tucker, Bill Jackson and Ernest Archer.

## Clerk transition made by court

Bonds for county employees, the tax roll and a pipeline easement were salient points on the agenda of the Monday session of the Hansford county commissioners court.

The bond approval consideration was routine but necessary when jobs at the level of county-district clerk are involved. So, bond was approved for the newly appointed county-district clerk replacing Marie Gould who resigned and the deputy clerk.

While most counties have little trouble with ad valorem tax rolls--and Hansford is one of them--by statute the ad valorem tax roll must be considered and approved in proper sequence. This was accomplished Monday.

The TXO production department was granted a pipeline easement after meeting the requirements of the county for

such crossings. The remainder of the session was devoted to routine transactions of county business matters.

County commissioner courts must, by statute, meet the second Monday in every month. Not all meet again the fourth Monday in each month for it is not a statutory requirement. However, many--like the Hansford county panel--do meet the second time each month, chiefly to accommodate persons with urgent business to bring before the court and to take care of situations such as the clerk's bond without calling a special session.

All meetings of the commissioners court are open to the public. The court convenes each second and fourth Monday of the month in the conference room of Hansford County Judge R.L. McClellan's chambers.

## Publication of second Hansford history set

The Stationmaster's Museum has announced that a second volume of Hansford County History will be published soon. Many Hansford County family stories were not included in the first book. Several people have expressed a desire for the printing of another book after reading the first volume. This second book is being prepared for the children, grandchildren and great-grandchildren not yet born.

The second book will be almost like Volume I, and the rules for the Family History Section are much the same. Each and every family will be able to submit a 500 word family story plus one family picture free of charge. "Old Timers" and "Newcomers" each have the responsibility of preserving their family story for future descendants. Tribute pages will be available to honor living family members. Memorial pages to write the stories of deceased family members. There will be a business/organization section to tell that part of history.

If your story does appear in Volume I, the same story will not be accepted again. However, you may update your family story in the 500 words. Do you have a new baby? A new son-in-law? Perhaps, you were only able to tell a part of your story because of the word limit. Tell the rest of your story in this second book and add a new picture.

After seeing the first book, many people told the committee that they also had pictures of Old Hansford, old school pictures, etc. Share your pictures in the second book.

This book must be completed in a very short time because of the ever increasing costs of publication. There is no time to delay. Start writing your family story now. Only a short time can be allowed.

Help will be available in each community. This announcement will appear in next weeks paper. If you have family members who now live far away, but at one time they lived in Hansford County contact them and tell

them of this opportunity to become a part of recorded history.

The first volume of Hansford County History was sold to libraries across the State of Texas, including Dallas Public Library and Houston Public Library. The book was also purchased by several University Libraries to be used in their Genealogy Research Departments. It is important to record this story for the future.

## Hospital News

Patients in Hansford Hospital are Matilda Alvarez, Myrtle Lee, Hattie Mackie, Dorothy Lusby, Gwenfred Lackey, Kathy Patterson, Ila Mae Buchanan, Jessie Cole, Jewel McClellan, Vida Townsend and Guy Remy. Dismissed were Edna Hays, Ella Hull, Jeff Bonham, John Brown, Louis Lemons and Ofelia Vela.

**STAMPS AND STORIES**

Lewis and Clark Expedition, 1804

By Stanley James

The first overland expedition to the Pacific coast and back took place from 1804 to 1806 under the leadership of Meriwether Lewis and William Clark.

Preparations for the trip were initiated by President Thomas Jefferson before the Louisiana Purchase of 1803. Jefferson's appointment of Lewis as his private secretary in 1801 was probably with a view to preparing him for leadership of the expedition.

Clark came from an old Virginia family. He was the younger brother of George Rogers Clark, who won fame in the American Revolution.

Lewis and Clark, following Jefferson's instructions, brought back a remarkable set of diaries which stands as some of the most interesting narratives of North American exploration in existence today.

Following the Missouri River with its juncture with the Mississippi to its source and, crossing the Continental Divide, Lewis and Clark explored the Columbia River from its source to the Pacific Ocean. The expedition returned to Saint Louis on September 23, 1806.

A 12-cent commemorative postal card was issued in Saint Louis, Missouri on September 23, 1981, marking the successful completion of one of the most famous expeditions in U.S. history.

Choice commercial location fronting 140 ft. on West Kenneth Street.

Immaculate 3 bedroom home, preferred southwest location, corner lot, large storm shelter, new central heat and air, new carpet throughout, fresh paint, ready for you to move in.

How big is the eye of a hurricane? Is it true that the eye is sometimes completely clear while for hundreds of miles on each side the sky is filled with clouds?  
The eye of a hurricane is never more than a few miles, wide usually less than five. It is true that sometimes in the middle of the great storm--in the eye, so to speak--the sky overhead will suddenly appear blue.  
Winds will calm down and for a few minutes a strange stillness will descend--with roaring winds just a few miles distant in all directions. This is the very center of the circular motion of the winds (counterclockwise), the hub of a great blowing circle.  
The lull soon ends and when the winds return--they are from the opposite direction--and often just as strong as before.

## STAMPS AND STORIES

Lewis and Clark Expedition, 1804

By Stanley James  
The first overland expedition to the Pacific coast and back took place from 1804 to 1806 under the leadership of Meriwether Lewis and William Clark.

Preparations for the trip were initiated by President Thomas Jefferson before the Louisiana Purchase of 1803. Jefferson's appointment of Lewis as his private secretary in 1801 was probably with a view to preparing him for leadership of the expedition.

Clark came from an old Virginia family. He was the younger brother of George Rogers Clark, who won fame in the American Revolution. Lewis and Clark, following Jefferson's instructions, brought back a remarkable set of diaries which stands as some of the most interesting narratives of North American exploration in existence today.

Following the Missouri River with its juncture with the Mississippi to its source and, crossing the Continental Divide, Lewis and Clark explored the Columbia River from its source to the Pacific Ocean. The expedition returned to Saint Louis on September 23, 1806.

A 12-cent commemorative postal card was issued in Saint Louis, Missouri on September 23, 1981, marking the successful completion of one of the most famous expeditions in U.S. history.

The Red Army Faction said to be active W. Germany.

Medfly battle under control again.

### Student Benefits Curtailed

Social Security benefits to students 18-22 attending colleges and other post-secondary schools will be sharply curtailed under a recently enacted law, Larry Mayo, Social Security Branch manager in Pampa, Tex, said recently.

First, children who become eligible for Social Security benefits after July 1982 will not receive post-secondary school student benefits.

Second, post-secondary school students who first become eligible for benefits in the period September 1981 - July 1982 will only receive benefits through July 1982 (one month for some students).

Finally, students currently receiving benefits (or child beneficiaries who begin their college or post-secondary education before May 1982) will receive limited student benefits.

Benefit rates for students who are eligible for continuing benefits will be frozen at the July 1981 level, Mr. Mayo said. Furthermore, these rates will be reduced 25 percent each year starting with August 1982, and benefits cannot be paid to students during May, June, July or August starting in 1982. As a result, no further student benefits will be paid after April 1985.

Beginning August 1982, elementary and secondary school students can receive as under the old law, except that no benefits can be paid for months in school terms after a child reaches 19. Benefits to children who are not students will end at 18 as before.

More information about student benefits and other changes in the law can be obtained at the Pampa, Texas Social Security office, located at 125 S. Gillespie. The telephone number is 806/669-3381 or call Toll Free 1-800-392-1603 for any kind of general inquiry. Call Toll Free 1-800-442-2620 for MEDICARE Part B information including claims for Medicare.

### OOLEY'S HAVE VISITORS

Recently visiting in the home of Hershel and Mary Ooley were their children. Pat (Ray) and Patricia Ooley from Riverside, California, Bobby and Marilee Ooley Bulls, Elk City, Okla., David and Hershelene Ooley Turner, Gruver, Texas, Richard and Reba Ooley and Joe and Edith Ooley Cage, Spearman, Jim and Donna Ooley, Santa Barbara, California are planning a trip in October.

They also had 10 of their grandchildren and 4 great-grandchildren visiting.

Recently visiting in the home of Adalyn Dougherty Barnes and Hershel and Mary Dougherty Ooley was their brother, Mabry Dougherty from Marysville, California.

### Digestible

You will not get indigestion if you swallow your pride now and then. -Front Line, Cedar Rapids

### Alcohol producers association forms

LUBBOCK, TX; Sept. 18, 1981 -- Alcohol producers from across the state have united to form the Texas Alcohol Producers Association, a statewide nonprofit organization which will represent all phases of alcohol production, blending and marketing.

Following an organizational meeting in Lubbock on Friday, September 18, the producers elected Ron Autrey of Friona to serve as the temporary chairman of the association. Autrey is currently engaged in producing alcohol from his family owned plant in the High Plains farming community.

The Texas Alcohol Producers Association was founded following the joint meeting called by the Texas Farmers Union and the Texas Alcohol Fuels Association. Recognizing the need for establishing a viable organization, the initial session was held in the Panhandle where most of the alcohol producing activity in Texas is a reality. Through this association, we hope to promote alcohol not just for fuel but for many other proven commercial and industrial uses," stated Autrey.

Speaking of the benefits of alcohol produced from renewable resources, Autrey proclaimed "U.S. production of alcohol reduces our dependency on imported oil and keeps dollars at home which would otherwise be flowing into OPEC bank accounts. Alcohol production creates jobs at home, provides a new tax base and will

be of benefit to both the producer and the consumer."

State Representative Dan Kubiak of Rockdale, who sponsored the bill in the most recent session of the state legislature which will provide for a temporary exemption for alcohol which is blended with gasoline, will serve as the temporary vice-chairman of the TAPA. "After many years of waiting, we now have the incentive which will allow Texas to become the number one state in producing alcohol from renewable energy sources. Texas is the number one state in agriculture and energy production and we should become the number one alcohol producer which all others look to for leadership," Kubiak remarked.

The organization will hold a meeting in Dallas on Friday, October 2 to draw up guidelines for research, dissemination of information, promotion and marketing. Final changes to the bylaws of the TAPA will be made which will allow for the election of a slate of officers and to establish a central office.

Paul Volcher, Federal Reserve chairman:

"A lasting resolution of our economic problems generally, and the interest-rate problem in particular, will be found only in success in the battle against inflation."

### Discovery center reopens

The Don Harrington Discovery Center in Amarillo, which has been closed since the first of July for equipment modifications, celebrates its reopening on the weekend of October 3rd and 4th with free admission for everyone. The attraction is Carl Sagan's "COSMOS." Public shows have been scheduled for Saturday at 1:00, 2:00, 3:00, 4:00, 7:00, 8:00, and 9:00 P.M. On Sunday shows are scheduled at 2:00, 3:00, and 4:00 P.M. Normal admission prices will apply thereafter.

"The Cosmos is all there is or ever was or ever will be." With those words Dr. Carl Sagan opens the new planetarium program, distilled from his 13-week PBS-TV series.

COSMOS' cornerstone is the belief that human beings are intelligent, that it is a joy to understand the world, that science can be conveyed in a planetarium in a way comprehensible and exhilarating without compromising accuracy.

In the Cosmic Calendar, the 15 billion years of universal history since the Big Bang are compressed into a single year to illustrate the sweep and power of cosmic evolution.

COSMOS probes spacecraft missions of discovery to the planets, black holes, contact with other civilizations in space, the births and deaths of stars and galaxies, relativity, the origin of life, time travels, Martian canals, the future of our planet and our civilization and the origin and fate of the universe.

COSMOS runs through Thanksgiving.

### Agricultural Hearings Set

As chairman of the Senate Subcommittee on Agriculture, Senator Bill Sarpalus announces that the first of eight public hearings is to be held in San Antonio at the Airport Ramada Inn on September 28. One topic to be considered will be the public funding of agricultural research. This topic deals with such areas as the state agricultural extension service, soil conservation, and agricultural extension service, soil conservation, and agricultural experiment stations. Testimony on the state farm loan guarantee program will also be taken to see how this plan could benefit qualified people who need help acquiring farm and ranch real estate to enter into or expand agricultural production.

These hearings will be held throughout the state to further communication between the various levels of the agricultural research and development programs. They provide legislators the opportunity to learn firsthand the problems, accomplishments, and goals of these programs from the people directly involved and affected by them. The information gathered will ultimately be used to aid in formulating possible future legislation to benefit the people of Texas.

For further information contact Guy Finstad at (512) 475-8781. A hearing will be held in the Amarillo Area December 10. The subjects will be elevator explosion, elevator bonding, water availability, loan guarantee and transportation of Ag Commodities.

### The Chicago Fire

On October 8, 1871, in Chicago--near or in Mrs. O'Leary's stable--straw caught fire, perhaps from a lantern Mrs. O'Leary was using while milking. (Mrs. O'Leary always denied the cow story.)

Whatever the cause, conditions were just right for a fire. It was October dry, and a brisk wind was blowing. The fire which began near Mrs. O'Leary's stable burned down 20,000 houses and buildings, left 100,000 people homeless.

Though the city was rebuilt, more beautiful than before, the great fire prompted the nation's insurance companies to ask the president to designate the first week in October as Fire Prevention Week, which he did.

Early October has been the date of fire prevention efforts ever since. This year the week starting October 4 is Fire Prevention Week.

### New state inheritance tax law

AUSTIN, Tex. -- State Comptroller Bob Bullock's office Monday reminded Texans that a new state inheritance tax law took effect this month and will apply to estates of those who died on or after September 1, 1981.

The Comptroller's office reported the new law will save Texas taxpayers at least \$20 million in death taxes the first year.

The new law did away with the state's basic inheritance tax schedule and statutes, replacing them with a law that ties Texas inheritance tax collections to a part of the federal estate taxes owed.

For example, under the old state law if the federal tax due was \$5,000, the "federal credit" would be \$500 and the state inheritance \$700, resulting in the Internal Revenue Service collecting \$4,500 and Texas

\$700. Under the new law, Texas would now collect the "federal credit" of \$500 and the IRS would collect \$4,500, using the 5,000 example.

In effect, the new law allows persons who owe federal estate taxes to deduct from the amount due the federal government any inheritance tax paid to the state. The amount is determined by an IRS formula.

The Comptroller's office said this also means that if federal estate tax rates are cut, Texas inheritance taxes are automatically dropped back.

More than 45 other states have similar laws that piggyback on the federal law.

Estates of those who died before September 1, 1981 are subject to Texas' old inheritance tax law and tax schedule, Bullock's office noted.

### WTSU Student Foundation Drive Begins

WTSU - Listen for the phone and be ready to "Make the Connection" with the annual West Texas State University Student Foundation Phone-a-thon beginning Sunday, Oct. 4. WTSU students and alumni made the connection last fall and met the Student Foundation pledge goal of \$30,000.

The Student Foundation was able to award \$13,600 for scholarships in 17 academic areas, \$4,000 for a WTSU Student Foundation Honor Scholarship program for graduates of junior and community colleges and \$2,400 for an endowment for honor scholars.

Katie McBride, a business major from Melrose, N.M., is this year's phone-a-thon chairperson. Miss McBride and the WTSU Student Foundation were so pleased with last year's success that they have set the goal even higher at \$35,000.

For the second consecutive year, members of the WTSU Student Foundation will join with volunteer callers from campus organizations and residence halls, from Sunday, October 4 to Friday, October 30, to contact thousands of alumni and university friends to raise scholarship funds. Teams of callers will meet from 6:30 P.M. to 9 P.M. on Sunday through Thursday.

Miss McBride is proud of the student turnout last year, and hopes the participation will be even greater in order to meet the new goal of \$35,000.

Prizes will be awarded each night to the individual with the highest number of pledges. The organization with the largest combined pledges in one night will be given a traveling plaque to keep until the next year. Diana Parker, Director of Stafford Hall, was the top individual caller last year with a

pledge total of \$2,318. The top organizational award went to the Herdsmen and their pledges for one night that totaled \$3,180.

Continued success of the phone campaign will provide security for WTSU students who will be receiving much appreciated scholarships to continue their education.

### Student Benefits Curtailed

Social Security benefits to students 18-22 attending colleges and other post-secondary schools will be sharply curtailed under a recently enacted law, Larry Mayo, Social Security Branch manager in Pampa, Tex, said recently.

First, children who become eligible for Social Security benefits after July 1982 will not receive post-secondary school student benefits.

Second, post-secondary school students who first become eligible for benefits in the period September 1981 - July 1982 will only receive benefits through July 1982 (one month for some students).

Finally, students currently receiving benefits (or child beneficiaries who begin their college or post-secondary education before May 1982) will receive limited student benefits.

Benefit rates for students who are eligible for continuing benefits will be frozen at the July 1981 level, Mr. Mayo said. Furthermore, these rates will be reduced 25 percent each year starting with August 1982, and benefits cannot be paid to students during May, June, July or August starting in 1982. As a result, no further student benefits will be paid after April 1985.

Beginning August 1982, elementary and secondary school students can receive as under the old law, except that no benefits can be paid for months in school terms after a child reaches 19. Benefits to children who are not students will end at 18 as before.

More information about student benefits and other changes in the law can be obtained at the Pampa, Texas Social Security office, located at 125 S. Gillespie. The telephone number is 806/669-3381 or call Toll Free 1-800-392-1603 for any kind of general inquiry. Call Toll Free 1-800-442-2620 for MEDICARE Part B information including claims for Medicare.

### OOLEY'S HAVE VISITORS

Recently visiting in the home of Hershel and Mary Ooley were their children. Pat (Ray) and Patricia Ooley from Riverside, California, Bobby and Marilee Ooley Bulls, Elk City, Okla., David and Hershelene Ooley Turner, Gruver, Texas, Richard and Reba Ooley and Joe and Edith Ooley Cage, Spearman, Jim and Donna Ooley, Santa Barbara, California are planning a trip in October.

They also had 10 of their grandchildren and 4 great-grandchildren visiting.

Recently visiting in the home of Adalyn Dougherty Barnes and Hershel and Mary Dougherty Ooley was their brother, Mabry Dougherty from Marysville, California.

### Digestible

You will not get indigestion if you swallow your pride now and then. -Front Line, Cedar Rapids

### Alcohol producers association forms

LUBBOCK, TX; Sept. 18, 1981 -- Alcohol producers from across the state have united to form the Texas Alcohol Producers Association, a statewide nonprofit organization which will represent all phases of alcohol production, blending and marketing.

Following an organizational meeting in Lubbock on Friday, September 18, the producers elected Ron Autrey of Friona to serve as the temporary chairman of the association. Autrey is currently engaged in producing alcohol from his family owned plant in the High Plains farming community.

The Texas Alcohol Producers Association was founded following the joint meeting called by the Texas Farmers Union and the Texas Alcohol Fuels Association. Recognizing the need for establishing a viable organization, the initial session was held in the Panhandle where most of the alcohol producing activity in Texas is a reality. Through this association, we hope to promote alcohol not just for fuel but for many other proven commercial and industrial uses," stated Autrey.

Speaking of the benefits of alcohol produced from renewable resources, Autrey proclaimed "U.S. production of alcohol reduces our dependency on imported oil and keeps dollars at home which would otherwise be flowing into OPEC bank accounts. Alcohol production creates jobs at home, provides a new tax base and will be of benefit to both the producer and the consumer."

State Representative Dan Kubiak of Rockdale, who sponsored the bill in the most recent session of the state legislature which will provide for a temporary exemption for alcohol which is blended with gasoline, will serve as the temporary vice-chairman of the TAPA. "After many years of waiting, we now have the incentive which will allow Texas to become the number one state in producing alcohol from renewable energy sources. Texas is the number one state in agriculture and energy production and we should become the number one alcohol producer which all others look to for leadership," Kubiak remarked.

The organization will hold a meeting in Dallas on Friday, October 2 to draw up guidelines for research, dissemination of information, promotion and marketing. Final changes to the bylaws of the TAPA will be made which will allow for the election of a slate of officers and to establish a central office.

Paul Volcher, Federal Reserve chairman:

"A lasting resolution of our economic problems generally, and the interest-rate problem in particular, will be found only in success in the battle against inflation."

### Discovery center reopens

The Don Harrington Discovery Center in Amarillo, which has been closed since the first of July for equipment modifications, celebrates its reopening on the weekend of October 3rd and 4th with free admission for everyone. The attraction is Carl Sagan's "COSMOS." Public shows have been scheduled for Saturday at 1:00, 2:00, 3:00, 4:00, 7:00, 8:00, and 9:00 P.M. On Sunday shows are scheduled at 2:00, 3:00, and 4:00 P.M. Normal admission prices will apply thereafter.

"The Cosmos is all there is or ever was or ever will be." With those words Dr. Carl Sagan opens the new planetarium program, distilled from his 13-week PBS-TV series.

COSMOS' cornerstone is the belief that human beings are intelligent, that it is a joy to understand the world, that science can be conveyed in a planetarium in a way comprehensible and exhilarating without compromising accuracy.

In the Cosmic Calendar, the 15 billion years of universal history since the Big Bang are compressed into a single year to illustrate the sweep and power of cosmic evolution.

COSMOS probes spacecraft missions of discovery to the planets, black holes, contact with other civilizations in space, the births and deaths of stars and galaxies, relativity, the origin of life, time travels, Martian canals, the future of our planet and our civilization and the origin and fate of the universe.

COSMOS runs through Thanksgiving.

### Agricultural Hearings Set

As chairman of the Senate Subcommittee on Agriculture, Senator Bill Sarpalius announces that the first of eight public hearings is to be held in San Antonio at the Airport Ramada Inn on September 28. One topic to be considered will be the public funding of agricultural research. This topic deals with such areas as the state agricultural extension service, soil conservation, and agricultural extension service, soil conservation, and agricultural experiment stations. Testimony on the state farm loan guarantee program will also be taken to see how this plan could benefit qualified people who need help acquiring farm and ranch real estate to enter into or expand agricultural production.

These hearings will be held throughout the state to further communication between the various levels of the agricultural research and development programs. They provide legislators the opportunity to learn firsthand the problems, accomplishments, and goals of these programs from the people directly involved and affected by them. The information gathered will ultimately be used to aid in formulating possible future legislation to benefit the people of Texas.

For further information contact Guy Finstad at (512) 475-8781.

A hearing will be held in the Amarillo Area December 10. The subjects will be elevator explosion, elevator bonding, water availability, loan guarantee and transportation of Ag Commodities.

### The Chicago Fire

On October 8, 1871, in Chicago--near or in Mrs. O'Leary's stable--straw caught fire, perhaps from a lantern Mrs. O'Leary was using while milking. (Mrs. O'Leary always denied the cow story.)

Whatever the cause, conditions were just right for a fire. It was October dry, and a brisk wind was blowing. The fire which began near Mrs. O'Leary's stable burned down 20,000 houses and buildings, left 100,000 people homeless.

Though the city was rebuilt, more beautiful than before, the great fire prompted the nation's insurance companies to ask the president to designate the first week in October as Fire Prevention Week, which he did.

Early October has been the date of fire prevention efforts ever since. This year the week starting October 4 is Fire Prevention Week.

### New state inheritance tax law

NEWS NOTES

**SUPER GONORRHEA**

MIAMI -- A penicillin-resistant strain of venereal disease brought to the United States from the Philippines is sweeping Dade County, giving the Miami area the second-highest case rate in the nation, health officials say. The doctors must use spectinomycin, which can cost nearly \$5 a treatment.

**RATHER UNHAPPY**

NEW YORK -- The CBS Evening News fell to last place in the ratings for the first time ever, but anchorman Dan Rather says, "if quality doesn't sell, I don't know what we can do about that."

**ON HUGHES ESTATE**

HOUSTON -- A judge approved the last two claims to Howard Hughes' estate recently, ending five years of court battles for 22 relatives who banded together to fight purported wills and attacks on the family name. The estimated estate is from \$180 million to \$2 billion.

**NEW CABINET**

LONDON -- Prime Minister Margaret Thatcher's government, underlining its tough new economic strategy, recently ordered an average 4 percent limit on 1982 pay increases for all civil servants—including the military. The Prime Minister reshuffled the government and ousted moderates opposed to her anti-inflation policies.

**EGYPT EXPELS SOVIETS**

CAIRO, EGYPT -- Egypt expelled Soviet Ambassador and six other diplomats recently charging the Soviet Union was fomenting sectarian strife and plotting against the regime of President Anwar Sadat.

**WANTS END TO STRIKE**

WASHINGTON, D.C. -- The Professional Air Traffic Controllers Organization asked the Federal Labor Relations Authority recently to make the government resume negotiations to end the 6-week-old nationwide controllers strike.

**RECIPE**

By Sarah Anne Sheridan

Serve hamburger a little different. Just add a salad, bread or rolls and a dessert if desired to this recipe for a complete meal.

**Meatballs & Beans**

- 1/2 lb. ground beef
- 2 T fine soft bread crumbs
- 2 T grated carrot
- 1 t instant minced onion
- 1 egg
- 1/2 t salt
- 1/8 t pepper
- 2 T margarine
- 3/4 t curry powder
- 1 16-ounce can barbecue beans

Combine beef, bread crumbs, carrot, onion, egg, salt and pepper in small bowl. Shape meat into 8 to 10 balls.

In medium skillet over medium heat, melt butter, then stir in curry powder. Add meatballs and brown well on all sides; cook to desired doneness, about 10 minutes. Add beans and heat through, stirring occasionally.

Serves about 3.

**Slight Shift To Soft Red Wheat Seen**

AUSTIN--Though hard red winter wheat is the major class of wheat planted in Texas, farmers shifted slightly to soft red this year.

Agriculture Commissioner Reagan V. Brown said the Texas Crop and Livestock Reporting Service surveyed farmers on class and variety planted at the request of the wheat industry.

This survey will be reported in the small grains statistics booklet, which will be published by the Texas Department of Agriculture in November. County estimates on acreage will identify the locations of soft red winter wheat acreage.

Acreage of hard red winter wheat declined from 91 per cent of all wheat in 1979 to 85 per cent in 1981. There were 6.6 million acres in this class.

**NO. HIGH PLAINS COTTON, SORGHUM PRODUCTION UP; CORN, WHEAT DOWN**

AUSTIN--The August estimates for crop production indicate that Northern High Plains cotton and sorghum will be higher with corn and wheat down slightly from 1980. Agriculture Commissioner Reagan V. Brown has reported.

According to the Texas Crop and Livestock Reporting Service, cotton and sorghum were forecast at 750,000 bales and 28,150,000 hundredweight respectively.

Corn production was estimated at 70,600,000 bushels.

Wheat production at 58,985,000 bushels is slightly behind 1980's level of 63,200,000, statewide, however a record harvest of 183,400,000 is projected.

**Mandrell and Davis to Host Country Music Awards**

Barbara Mandrell and Mac Davis will be the hosts of the 15th Annual Country Music Association Awards Show on Monday, October 12th. The 90-minute special, being broadcast live from the Grand Ole Opry in Nashville, is being sponsored for the 13th consecutive year by Kraft.

The show that heralds the outstanding performers in the country music field will have a special feature—a radio simulcast of the CMA Awards telecast. This will be followed by a special Post-Awards radio program that brings an additional 90 minutes of entertainment over the airwaves.

One of the Kraft Kitchens recipes to be shown on this year's show is Crustworthy Meatloaf. It turns an ordinary dish into something special by adding cheese spread to the meat mixture and wrapping the loaf in frozen bread dough.

**CRUSTWORTHY MEATLOAF**

- 1 loaf frozen white bread dough, thawed
- 2 eggs, slightly beaten
- 1 1/2 lbs. ground beef
- 1 1/2 cups soft bread crumbs
- 1 8-oz. jar Cheez Whiz pasteurized process cheese spread
- 1/2 cup chopped onion
- 1/2 teaspoon salt
- 1/2 teaspoon pepper

Let bread dough stand, covered, on floured surface at room temperature 1 hour. Reserve 1 tablespoon egg for glaze. Combine remaining ingredients; mix lightly. Shape into 9 x 4-inch loaf in shallow baking dish. Bake at 350° 45 minutes; drain. Roll out dough to 10 x 7-inch rectangle; let stand 10 minutes. Press dough onto bottom of greased 15 1/2 x 10 1/2-inch jelly roll pan. Place meat loaf in center of dough; fold dough ends over loaf. Cut six strips of dough on each side of loaf; cross over top. Press and seal with water. Brush with reserved egg. Bake at 350° 30 minutes. Serve with additional heated process cheese spread, if desired. 6 to 8 servings

**For lower heating bills this winter, here's**

**Weather Beaters Rule #3:**

**INSPECT YOUR HEATING UNIT**

Weather Beaters Rule #1, Insulation, and Rule #2, Caulking and Weatherstripping, are naturally followed by Rule #3, inspect your heating unit. An inefficiently operating unit uses more energy for the same amount of heat, making your utility bill higher than necessary. Call a qualified heating unit inspector to check for worn parts or loose connections. He can also clean the unit, removing dust, dirt and grime that might obstruct air flow. Don't wait 'till the colder weather puts higher demands on your central heating unit. An inspection of your heating unit today, can mean lower bills tomorrow.

AUSTIN--The August estimates for crop production indicate that Northern High plains cotton and sorghum will be higher with corn and wheat down slightly from 1980. Agriculture Commissioner Reagan V. Brown has reported.

According to the Texas Crop and Livestock Reporting Service, cotton and sorghum were forecast at 750,000 bales and 28,150,000 hundredweight respectively.

Corn production was estimated at 70,600,000 bushels.

Wheat production at 58,985,000 bushels is slightly behind 1980's level of 63,200,000, statewide, however a record harvest of 183,400,000 is projected.

**Mandrell and Davis to Host Country Music Awards**

Barbara Mandrell and Mac Davis will be the hosts of the 15th Annual Country Music Association Awards Show on Monday, October 12th. The 90-minute special, being broadcast live from the Grand Ole Opry in Nashville, is being sponsored for the 13th consecutive year by Kraft.

The show that heralds the outstanding performers in the country music field will have a special feature—a radio simulcast of the CMA Awards telecast. This will be followed by a special Post-Awards radio program that brings an additional 90 minutes of entertainment over the airwaves.

One of the Kraft Kitchens recipes to be shown on this year's show is Crustworthy Meatloaf. It turns an ordinary dish into something special by adding cheese spread to the meat mixture and wrapping the loaf in frozen bread dough.

**CRUSTWORTHY MEATLOAF**

- 1 loaf frozen white bread dough, thawed
- 2 eggs, slightly beaten
- 1 1/2 lbs. ground beef
- 1 1/2 cups soft bread crumbs

- 1 8-oz. jar Cheez Whiz pasteurized process cheese spread
- 3/4 cup chopped onion
- 1/2 teaspoon salt
- 1/4 teaspoon pepper

Let bread dough stand, covered, on floured surface at room temperature 1 hour. Reserve 1 tablespoon egg for glaze. Combine remaining ingredients; mix lightly. Shape into 9 x 4-inch loaf in shallow baking dish. Bake at 350° 45 minutes; drain. Roll out dough to 10 x 7-inch rectangle; let stand 10 minutes. Press dough onto bottom of greased 15 1/2 x 10 1/2-inch jelly roll pan. Place meat loaf in center of dough; fold dough ends over loaf. Cut six strips of dough on each side of loaf; cross over top. Press and seal with water. Brush with reserved egg. Bake at 350° 30 minutes. Serve with additional heated process cheese spread, if desired.

6 to 8 servings

**For lower heating bills this winter, here's**

**Weather Beaters Rule #3:**

**INSPECT YOUR HEATING UNIT**

Weather Beaters Rule #1, Insulation, and Rule #2, Caulking and Weatherstripping, are naturally followed by Rule #3, inspect your heating unit. An inefficiently operating unit uses more energy for the same amount of heat, making your utility bill higher than necessary. Call a qualified heating unit inspector to check for worn parts or loose connections. He can also clean the unit, removing dust, dirt and grime that might obstruct air flow. Don't wait 'till the colder weather puts higher demands on your central heating unit. An inspection of your heating unit today, can mean lower bills tomorrow.

# Spelling Bee Director Named

The director for the 1982 Hansford County National Spelling Bee has been named by the Amarillo GlobeNews and West Texas State University (Canyon), sponsors of the annual educational program.

In charge of the county's bee arrangements will be Roy Harris, Superintendent of Morse School, Morse.

The director will choose a date for the county contest and name a winner prior to April 3, 1982. The county champion will participate in the 34th Regional Spelling Bee in Amarillo on April 24 and will compete for numerous awards, including the top prize—an all-expense paid trip for two (courtesy of the newspaper) to Washington, D.C. in early June for the national event.

Rules for participation are established by the national sponsors, the Scripps-Howard Newspapers, Cincinnati, Ohio.

The two basic requirements are (1) students must not have passed beyond the eighth grade at the time of their individual school finals; and (2) they must not reach their 16th birthday on or before the date of the national finals (June 1).

Contests begin with classroom eliminations, then school spell-downs and finally the county event.

Words for study are prepared by the national sponsors. This is a small booklet containing in excess of 3,000 words. The cost is 40 cents each and the list may be purchased from Spelling Bee Editor, Amarillo Globe-News, Box 2091, Amarillo, Texas 79166. Interested students who wish to take part in the educational promotion are encouraged to obtain the booklet directly from the newspaper.

The booklet, "Words of the Champions" may also be obtained by principals and county

bee directors.

The area assigned the AGN and WTSU covers four states—the Panhandle of Texas, Panhandle of Oklahoma, parts of Kansas and New Mexico and represents 46 counties. Bee coordinator is Gene Parker, Director of Placement, West Texas State University, Canyon.

The sponsors also conduct a Junior Bee for students in the sixth and lower grades. These county winners will be guests of the sponsors at the regional contest on April 24, but will not compete unless they are also winners of the secondary contest. Annually there are about 10 who are declared dual county champs.

Additional information may be obtained from Mrs. Jeanne Bartlett, Amarillo Globe-News Spelling Bee Editor, or Gene Parker, WTSU.

# Lions Join In War Against Drugs

DALLAS, Sept. 21, 1981—Lions Clubs International members from 1,100 local clubs throughout Texas have joined the state-wide movement to fight drug abuse.

Ross Perot, Chairman of the Texans' War on Drugs Committee, formally acknowledged the Lions' participation in the anti-drug program, at a September 4 meeting of the River Oaks Lions Club in Fort Worth.

Speaking at the club's Annual International Night, Perot praised the members of the international service organization for their willingness to help solve what he described as the "State's number one social and criminal problem."

He welcomed the participation of Texas Lions Clubs, noting that they are joining the 700,000 members of the Texas Parent-Teachers Association and numerous other groups and individuals in the state-wide effort to curb illegal drug operations and adolescent abuse.

The Past District Governors Association of the Lions Clubs have formally adopted the goals of the Texans' War on Drugs movement.

According to John R. Hall, Lions Club liaison representative to the War on Drugs, the 42,000 Lions in Texas hope to make their statewide project the best in their association's history.

Hall is the immediate past president of the Tarrant County Council on Alcoholism and Drug Abuse.

He noted that the Lions' anti-drug activities will be closely coordinated with other local efforts being spearheaded by the P-T-A, school board members, ministers, local law enforcement officials and members of the State Legislature.

Appearing with Perot at the Lions' function in Fort Worth was retired Air Force Brig. Gen. Robinson Risner, Executive

Director of Drug Abuse Research and Education, whose

offices are in Austin.

Risner told the Lions Club members that his DARE coordinators around Texas are available to help local clubs plan and implement their anti-drug programs.

Recorded tapes of the presentations by Risner and Perot are available for use by local Lions Clubs. Information about the tapes can be obtained from Hall in care of P.O. Box 2191, Fort Worth, 76101.

"Plans for developing local anti-drug programs are still in the formative stage," Hall said, but he added many clubs already have some exciting, imaginative activities underway.

"I strongly urge every member of Lions Clubs in Texas to get behind this important civic endeavor. Together with the other groups already involved in fighting drug trafficking and adolescent drug abuse we can make Texas a better place to live and work and raise our children," Hall concluded.

# Vote For Proposition Five

AMARILLO - Texas Cattle Feeders Association President R.L. (Bob) Bliss today urged his fellow Texans to vote for Proposition Five on Nov. 3.

Proposition Five seeks to include livestock and poultry with all other farm products, which are already exempt from property (ad valorem) taxation. It is one of seven propositions on the November 3 ballot.

"Of the seven largest cattle feeding states, Texas is the only state which unconditionally imposes property taxes on livestock," Bliss said. "This places Texas beef producers at a price competitive disadvantage with other states. We now have an opportunity to correct this inequity."

"Obviously, where this tax is levied, costs of production are greater than where it is not imposed," he added. "As long as this situation continues, we

are increasing the cattle feeders' production costs and making cattle feeding in Texas less attractive than in other states. Some feedyards outside of Texas even advertise their competitive advantage."

Bliss said the constitutional amendment cleared the Texas House of Representatives without a single dissenting vote, indicating their recognition of the inequity. It is supported by nine Texas farm organizations.

He added that the tax represents only a minute portion of the revenues collected by local taxing authorities - about one-fourth of one percent of revenues, statewide. "But the tax is inequitable," Bliss said, "because of widespread and inconsistent administration."

"In the long run," Bliss continued, "this is a positive step we can take to help hold the line on food costs."

# Research News Report

Bushland, Texas - Increasing yields of dryland sorghum 98 percent in the Southern Great Plains is a good trick. Reggie Jones, Soil Scientist at the USDA Research Laboratory at Bushland accomplished this with "mini-benches" that held all of the rainfall for use by the crop. Conventional graded furrows produced 1071 pounds per acre of grain, while mini-benches in the same field produced 2125 pounds per acre. Mini-benches can be constructed on nearly flat Pullman soil with less than two percent slope for about \$50 per acre. "An economic analysis showed that over 10 years, mini-benches would increase returns a total of \$303 per acre," Jones said.

Jones conducted his research from 1975 through 1979. He compared graded furrows, conventional contour furrows, wide furrows, conservation mini-benches and mini-benches. All plots were 450 feet long and, except for graded furrows, were

diked on each end. Graded furrows on 40-inch centers with 0.25 percent slope allowed an average of 2.6 inches of runoff annually. Conventional contour furrows were made on 40-inch centers. Wide furrows were formed on the contour with 40-inch beds and 40-inch furrows. Orthman tri-level equipment was used to make the beds, and two rows of sorghum were seeded 40 inches apart in each furrow. These wide beds and furrows could hold twice as much water as conventional contour furrows.

Conservation mini-benches consisted of eight 40-inch rows. The top four were planted flat on the slope and contributed runoff to the lower four rows on an area of leveled soil. A motor grader was used to level the area and a border disk was used to build a dike at the lower side of the leveled area. Level mini-benches were built with a motor grader and border disk and were four rows wide.

Jones said all plots were tandem disked in early April to bury residue and allow volunteer sorghum to sprout. Furrows were made, and leveled areas were sweep tilled in early May to control weeds and volunteer sorghum. Sorghum was planted on all treatments in mid-June. All plots and dikes were treated with propazine at 1.2 pounds per acre active ingredient immediately after planting to eliminate cultivation.

Runoff control and erosion prevention were severely tested during 1978 when 5.2 inches of rain fell in less than 24 hours; 4.8 of which fell in 7 hours. The USDA researcher said that a storm this severe occurs only once in 75 years.

All treatments except graded furrow and contour furrows prevented runoff. Jones said the wide furrow, mini-bench and conservation mini-bench had enough capacity to hold all of the water.

"Conserving rainfall and preventing all runoff increased

sorghum yields from 51 to 98 percent," Jones said. Average yield was 2130 pounds per acre on mini-benches. Conventionally, graded furrows produced 1071 pounds per acre or about average for dryland sorghum on the Southern Great Plains. Sorghum on conservation mini-benches, wide furrow and contour furrows produced 1830, 1620, and 1630 pounds per acre, respectively. Jones said "High yields on mini-benches proved that using water where it falls is the best way to produce high sorghum yields on dryland." He studied soil moisture and found that water evaporated from the soil when beds were built in the contour and wide furrow systems.

Jones pointed out that constructing mini-benches is much cheaper than building larger conservation systems. On a 2 percent slope, 594 cubic yards of soil per acre would have to be moved to build a 42-foot wide bench terrace. Only 118 cubic yards or 20 percent as much must be moved to construct

mini-benches. Cost of the large benches at 1975 prices was \$250 per acre. The cheaper mini-benches cost only \$50 per acre.

The researcher calculated economic returns for the mini-benches and conservation mini-benches. He assumed a 10-year life for each terrace system, sorghum price \$6 per hundred and interest at 15 percent. "Mini-benches proved best," Jones said, if farmers want to maximize profits on dryland, mini-benches can increase returns up to \$31 per acre annually over returns from graded furrows. "Increased return in 10 years over graded furrows was \$313 per acre for mini-benches and \$227 per acre for conservation mini-benches."

# Crafts Festival Set At Borger

The Womens Division of the Borger Chamber of Commerce invites you to attend the thirteenth annual crafts festival at the aluminum dome in Borger, Texas, on October 2nd, 3rd, and 4th. The hours will be: Friday 12:00 to 6:00 P.M., Saturday 10:00 A.M. to 6:00 P.M., and Sunday 12:00 to 5:00 P.M.

Donna Lee, Chairman of the Crafts Festival says, "The women are working hard to get ready for the biggest and best crafts festival yet. We have lots of new people showing their crafts this year and many of your favorites will be back, too. Come join the fun -- October 2nd, 3rd, and 4th at the Aluminum Dome in Borger. "See you there!"

# ATTENTION LIVESTOCK PRODUCERS CATTLEMEN'S LIVESTOCK COMMISSION CO.

Box 50, Dalhart, TX 79022  
4 miles West of Dalhart on HWY 54. Brand new facilities. Auction every Friday. Start 9:30 a.m. on Hogs.

# ALL SAVERS CERTIFICATES

The new ALL SAVERS CERTIFICATE will be available October 1, 1981. Interest from the CD will be tax exempt up to \$1000.00 for an individual or \$2000.00 for married persons filing a joint return. The CD will be for a one year period with a \$500.00 minimum amount. The ALL SAVERS CERTIFICATE will be available from October 1, 1981 to December 1982. Interest rates will change once a month and are tied to 70% of the one year Treasury Bill. Persons currently holding a Money Market CD may convert that CD into the ALL SAVERS CERTIFICATE without an interest penalty.

Your money is FULLY INSURED (Up to \$100,000.00 per account.) No Brokerage Fees-- All your interest goes to your account.

IF YOUR FAMILY INCOME IS :	ANTICIPATED TAX BRACKET	INTEREST RATE REQUIRED TO NET 12% AFTER FEDERAL INCOME TAXES IS:
\$20,000.00 or less	25%	16.000%
\$25,000	30%	17.143%
\$35,000	40%	20.000%
\$50,000 or more	50%	24.000%

Interest rate of 12% is used for illustrative purposes only. The actual rate paid at the time the certificate is issued will be established as equal to 70% of the average investment on one-year Treasury Bill.

# Spelling Bee Director Named

The director for the 1982 Hansford County National Spelling Bee has been named by the Amarillo Globe-News and West Texas State University (Canyon), sponsors of the annual educational program.

In charge of the county's bee arrangements will be Roy Harris, Superintendent of Morse School, Morse.

## ALL SAVERS CERTIFICATES

The new ALL SAVERS CERTIFICATE will be available October 1, 1981. Interest from the CD will be tax exempt up to \$1000.00 for an individual or \$2000.00 for married persons filing a joint return. The CD will be for a one year period with a \$500.00 minimum amount. The ALL SAVERS CERTIFICATE will be available from October 1, 1981 to December 1982. Interest rates will change once a month and are tied to 70% of the one year Treasury Bill. Persons currently holding a Money Market CD may convert that CD into the ALL SAVERS CERTIFICATE without an interest penalty.

Your money is FULLY INSURED (Up to \$100,000.00 per account.)  
 No Brokerage Fees-- All your interest goes to your account.

IF YOUR FAMILY INCOME IS :	ANTICIPATED TAX BRACKET	INTEREST RATE REQUIRED TO NET 12% AFTER FEDERAL INCOME TAXES IS:
\$20,000.00 or less	25%	16.000%
\$25,000	30%	17.143%
\$35,000	40%	20.000%
\$50,000 or more	50%	24.000%

Interest rate of 12% is used for illustrative purposes only. The actual rate paid at the time the certificate is issued will be established as equal to 70% of the average investment on one-year Treasury Bill.

## Cowbelles Bring Don King To Booker

Mr. Don King

Calico Cowbelles of Lipscomb, Ochiltree, and Hansford counties are bringing Don King to the Booker School Auditorium on Tuesday, October 6 at 7:30 P.M.

Mr. King was appointed Secretary-General Manager of the Texas and Southwestern Cattle Raisers Association in 1966 and has served in that capacity since that time. His responsibilities include coordinating the activities of the entire 14,000 member association.

King is a member of numerous civic and fraternal organizations; a past-president of the

International Livestock Brand Conference, which is a national organization of livestock brand boards; and in 1977, was named "Man of the Year in Texas Agriculture" by the Texas County Agricultural Agents Association.

According to Calico CowBelle President Sandy Gossett, no tickets are required. "Mr. King will discuss current issues such as kangaroo meat, brand inspections and legislation. After a film on TSCRA the CowBelles will serve beef hors d'oeuvres and desserts plus tea and coffee," she said.

### Job-Matching Fair Swells

AMARILLO-By mid-September the October Job-Matching Fair had swelled to over 400 positions available, according to officials from the Amarillo Chamber of Commerce.

Sam Stennis, chairman of the Chamber's Local Industry Committee, said that the vacancies were offered by 24 area companies. More firms are expected to list permanent, part-time, temporary and seasonal positions with the Chamber of Commerce prior to the Job Fair which will be held Saturday, October 3, 9 a.m. to 3 p.m., in the Amarillo Civic Center, 3rd and Buchanan Streets.

Sam Stennis joined Donald L. Renner, Assistant General Manager of the Chamber, in urging local and area businesses, industries, health facilities, educational institutes and government entities who wish to join the skilled and semi-skilled job employee search this fall to contact the Amarillo Chamber of Commerce at 1000 So. Polk.

To date firms in Dumas, Pampa, Canyon and Borger, as well as Amarillo have indicated that they will be represented in the fair, which is sponsored by the Amarillo C of C Local Industry Committee in conjunction with the local office of the Texas Employment Commission. The Amarillo Board of City

Development supports the Job-Fair with advertising in the Panhandle and surrounding states. Additional support is also provided by the Austin office of the Texas Industrial Commission which advertises the Fair throughout the state and provides official representation for local media publicity prior to the Fair.

Skilled, semi-skilled and technical positions are available. Some firms have indicated that they will train individuals.

Area firms listed in the Job Fair by August were Ingersoll-Rand Oilfield Prod. of Pampa, S.B. Foot Tanning Co. of Dumas, West Texas State University of Canyon, and Daniel Construction Co., Borger.

Amarillo firms include ASARCO, Amarillo Copper Refinery; Farmland Industries, Inc.; First National Bank of Amarillo; FMI Quality Furniture; Santa Fe Energy Co.; Stanley Home Products; Woolco Department Store; Wiener-schnitzel; Foundry & Steel of Amarillo; Halliburton Services; Iowa Beef Processors, Inc.; Mason Hangar-Silas Mason Co.; Northwest Texas Hospital, Radio Shack, The Veteran's Administration Center, U.S. Navy, U.S. Marine Corp, Amarillo College, the City of Amarillo, and TSTI-Amarillo.

\*\*\*\*  
No teacher can do much with the brain of a pupil who doesn't want to learn.

\*\*\*\*  
The most satisfying thing in life is to be able to help some deserving person.

The Panhandle Livestock Commission Company of Guymon, Oklahoma is having their Livestock Auction every Tuesday with Starting time 12:00 A.M.

The selling will start with all classes of hogs, top hogs, sows, boars and feeder pigs of all classes, then continue into cattle of all classes, packer cows and bulls, light weight calves and feeder cattle.

A good number of light weight steer and heifer calves will be offered for the auction with a good number of native calves starting to come in every week.

We would like to invite all of you to come by our facilities and see how we operate. Our cafe is under the new management of Larry Witten with a good smorgasbord type meal offered every week with reasonable prices.

Remember we are starting the hog auction selling all classes of hogs and we are here to get the top market price for your hogs and cattle.

For more information on what we are expecting for our auction or for consigning cattle or hogs, contact Bill Blackmore here at the Guymon office. That number is 405-338-3378 or my home phone is 405-349-2254.

SERVING THE PANHANDLE OF OKLAHOMA WITH HONESTY AND INTEGRITY.

### Loans available for students

AUSTIN - The Texas Guaranteed Student Loan Corporation announced today that over \$100 million dollars in student loans had been guaranteed by the corporation since it began its administration of the guaranteed student loan program for the state of Texas in January of this year. The corporation, TGSCLC, was created by the Texas Legislature of 1979 as a public, nonprofit corporation to guarantee loans to college students made by private lenders in the GSL program.

TGSCLC was created, in part, to improve private lender participation in the guaranteed student loan program and to provide college students greater access to student loans. Joe L. McCormick, Executive Director of TGSCLC noted that the positive response of banks, savings and loan associations and credit unions throughout the state has been tremendous. McCormick pointed out that of the \$100 million dollars guaranteed to date, over 96 percent of these guaranteed student loans were made by private lending institutions.

Recently passed federal legis-

lation will restrict the student's eligibility to families with \$30,000 income or less. Families with higher incomes will have to demonstrate financial need in order to qualify for a guaranteed student loan. It is difficult to predict just how many Texas students will be adversely affected by these new restrictions which go into effect October 1, 1981.

TGSCLC is confident that the lending community in Texas will continue to provide loans to students and the corporation is dedicated to administering the guaranteed student loan program to maintain their support. In addition, Texas is fortunate in having its own state loan program, the Hinson-Hazlewood Student Loan Program, to assist eligible students who may qualify. Hinson-Hazlewood Student Loans are also guaranteed by the Texas Guaranteed Student Loan Corporation.

Students interested in making application for a Texas Guaranteed Student Loan are encouraged to contact the financial aid office of the school they plan to attend.

### Hightower's Reaction To Budget Cuts

"I was disappointed the President did not present a program that would directly reduce interest rates. High interest rates are destroying our economy and making it impossible for the program we just passed to succeed."

"I am in general agreement with the thrust of his speech, particularly with the abolition of the Departments of Education, Energy, the concept of user fees and the reduction of 75,000 federal employees. I want to now see the details of the proposals and I will base my

decisions on each issue according to how they are to be implemented."

"I was glad to hear the President call for restoration of the \$122 minimum social security benefit. Congress passed and I voted for a resolution to that effect earlier this year. Cuts must not be made at the expense of the social security retirement recipient. I intend to work with the President as a Democrat in order to see that the best and fairest solution to the social security problem is found."

## Water For Texas

The Mid-Year Meeting of the West Texas Chamber of Commerce has been set for October 16-18, in Abilene, Texas. Water Resource Development, National Issues and the "Texas 2000" program will be among topics addressed during the regional chamber's regular fall conference.

Speakers appearing on the program will include Congressman Charles Stenholm representing the 17th District of Texas; State Senator Grant Jones of Abilene, Chairman of the Senate Finance Committee; House Speaker Bill Clayton; Louis Beecher, Jr., Chairman of the Texas Water Development Board; Dr. Herbert Grubb, Director of Planning, Texas Department of Water Resources and Ray Hutchison of Dallas, Attorney and Legislative Consultant.

WTCC President Burvin Hines of Arlington stated that information on the proposed Water Fund Constitutional Amendment to go before Texas voters in November would be presented. A question and answer panel will give WTCC members present an opportunity to become better informed on this important issue.

The WTCC is the state's largest regional chamber of commerce serving 132 West Texas counties.

Registration will open at noon Friday, October 16, at the Kiva Inn. Friday afternoon activities will include a golf tournament, West Texas 2000 Committee Meetings and an evening reception.

Saturday's agenda will get underway with program sessions beginning at 8:00 A.M. The afternoon schedule in-

cludes a meeting of the WTCC Board and an address on National Issues.

The meeting will conclude with the Annual WTCC Century Club Breakfast, Sunday morning, October 18.

Contact WTCC, P.O. Box 1561, Abilene, Texas, 79604, telephone AC 915 677-4325 for reservations.

## Introducing the FIRST TAX SAVER CERTIFICATE

# How to double your investment yield in one year.★

### A new kind of investment plan.

First National Bank in Perryton can offer a new kind of certificate of deposit. Congress labeled it the All Savers Certificate. We call it the FIRST TAX SAVER CERTIFICATE. This one-year certificate allows you to put as little as \$500 or invest as much as \$16,000 and pay absolutely no taxes on the interest. (Depending on your tax bracket and whether you file individual or joint returns)

You simply deduct interest earned in your federal income tax return.

### It has big advantages for people in this area.

The TAX SAVER CERTIFICATE really benefits individuals and couples who are looking for ways to shelter their investments from taxes and still earn high interest rates. With the TAX SAVER CERTIFICATE you can make \$2000 tax-free interest if you file a joint return, up to \$1000 tax-free interest if you file an individual return. The investment rate is guaranteed for a year and it is insured by FDIC up to \$100,000.

### Your investment yield depends on your tax bracket.

The rate paid on TAX SAVER CERTIFICATES is 70% of one-year Treasury Bills. The current rate is 12.61%. Since the interest is tax-free, the true yield – after taxes – is much higher. Depending on your tax bracket, the true yield may actually be double the CD rate. ★ For instance, if a person in the 50% bracket purchases a TAX SAVER CERTIFICATE at 12.61% rate, the after-tax yield is more than 25%. Here is what tax-free interest can mean to you:

FIRST TAX SAVER CERTIFICATE		
Your adjusted gross income	Your estimated tax bracket	You would earn this tax-equivalent yield.
\$50,000 or more	50%	25.2%
\$35,000	40%	21%
\$25,000	30%	18%
\$20,000 or less	20%	15.8%

Clip and save this investment guide

### We're the First place you call.

When you are ready to invest in TAX SAVER CERTIFICATES or any of our investment certificates, contact our Money Market Advisor in the lobby of the main bank. Or call us at 435-3676. We will come to visit you at your home or business.

#### Important information for investors with 6-Month Money Market Certificates

It may be advantageous for you to consider the TAX SAVER CERTIFICATE. The 1981 Tax Act allows you to convert or "rollover" your present Money Market CD to a TAX SAVER CERTIFICATE without paying any penalty. Your tax-equivalent yield may be much higher with the new investment alternative. Consult your accountant or tax advisor.
