THE SPEARMAN REPORTER, SPEARMAN, TEXAS 79081

THURSDAY, JANUARY 7, 1982

Thieves rustle herd valued at \$35,000

The Hansford County Sheriff's Department, assisted by law enforcement agencies in two states, is investigating the \$35-thousand theft of fattened cattle from the Hansford Feed Yard Christmas Eve.

Some time the night of Dec. 24, thieves cut the chain on the front gate of the feed facility and made off with 53 head of cattle bearing two different brands and two different ear tags.

Some of the beeves wore a D-BAR -- a D with a bar under-scoring it burned on the left shoulder of the animals. Stock wearing this brand will also have red ear tags bearing the name of Dan Archer, Perryton, Texas.

Also among the missing animals are some wearing an SA on the left shoulder and yellow ear tags bearing the name Scott Archer, Perryton, Texas.

Hansford County Sheriff R. L. McFarlin and his deputies are being assisted by Texas Ranger Jim Gillespie who works with Hansford County when Ranger assistance is needed and Gary Davis of the Oklahoma Bureau of Investigation (OBI). Also involved in the search for the missing livestock is a representative of the Texas-Southwest Cattle Raisers Association.

Initially, the search for the missing herd was a sweep of four states to the north hoping to discover the animals either in transit or in "holding" awaiting the next stage of such a theft: marketing or disposal.

"Fifty three head of cattle could be hidden from now on," Sheriff McFarlin pointed out. "...But there is no profit in stealing, hiding and feeding this many animals even for a few weeks. They must go up for sale sometime and if first search efforts are fruitless, such stolen animals are almost always recovered the moment they go on the market or are

otherwise disposed of by transaction."

The sheriff said that, fortunately, the holiday period for his office was very quiet allowing he and his staff to give full attention to the cattle theft investigation.

This is a theft as old as the history of the West. Practically all such cases are successfully solved. The tragedy is the cost to the taxpayer through investigation and "due process."

As the case was discussed across the county at conventions of the coffee-cup crowd, one Oldtimer observed:

"Time was when 'due process' cost the price of a rope and that was often donated."

To Host Ranger Teams

The Spearman Lynx and Lynxettes will be in action against the Perryton Rangers and Rangerettes.

The Rangers are the defending District 1-AAA Champions, and the Lynx have got a very experienced and matured team for the 1981-82 season. This will be the first District game for both. Go on out and check out the local talent at the Lynx Varsity Gym, because one thing for sure this will be a great game, as usual!

The Lynxettes and the Rangerettes will begin play at 6:00 p.m. The Lynxettes are very young, yet they have been playing long enough to be able to defend their crown. The Lynxettes are the defending District 1-AAA Champions, and the Rangerettes have lots of talent on their side. Every time that the Lynxettes and

Accidents Up In '81

In 1981, the Spearman Police Department investigated 99 traffic accidents compared to a total of 86 for 1980.

This was an increase of 13 percent.

Twenty three of those accidents resulted in injuries to 33 persons and death to a 13-year old boy, the result of a mishap Dec. 23.

There seems--according to the statistics--to be no safe days in Spearman...only those

that are less hazardous than others. These are Thursday with an average of 14 accidents and Saturday and Sunday with an average of 12 mishaps each.

Monday, Tuesday, Wednesday and Friday averaged 15 accidents each during the year.

December was the high incident month with 14 followed by May and July with 12 each. March was the safest month with only 3 accidents reported. Other statistics were

February, August and November with 9 each; April and June with 8 each; October with 6; January with 5 and September with 4.

There were 74 accidents involving two motor vehicles. There were 11 mishaps involving a motor vehicle and a fixed object. There were three one-car accidents. There were two accidents involving three motor vehicles. There were three motor vehicle-bicycle acci-

dents. A total of eight hit-and-run accidents were reported. Nineteen of the accidents investigated involved parked vehicles.

There was also one incident involving a car and a piece of farm machinery.

Spearman Police Chief Ron Robinson urged Spearman residents to exercise greatest care and obey safety and traffic rules so these figures can be much less at the end of 1982.

Filing Dates Are Here

It's time to begin thinking about local politics. Offices are opening in each of the governing entities, county government, city council and school board.

Coming up for election in November (with party primaries being held in May) are the county offices of county judge, county and district clerk, commissioners in precincts 2 and 4, county treasurer, and justice of the peace of precinct 1.

Many or perhaps all of the incumbents plan to seek another term of office. The Reporter made no attempt to contact the incumbents about their plans. Principals include judge Roy Lee McClellan, county and district clerk, Amelia Johnson, commissioners Joe Venneman, precinct 2; and George Lowe, precinct 4; Treasurer, Verna Gail Keim and

justice of the peace, Johnny Vernon.

Deadline for filing for county office is February 1.

In the city government, mayor Ralph Blodgett and councilmen Ed Garner and Ray Ingle will be looking at re-election decisions. The city election will be held April 3, with deadline for filing March 3.

The filing deadline for the school board election is March 3, 30 days before the April 3 election. Terms are expiring for Kent Guthrie and Mike Garnett.

To file county office, one must file with either the Democrat or Republican party chairmen, Carl Archer and Lola Reynolds, respectively. Filing for city and school elections is done at the city hall and school business office.

All four of these teams have players that are friends of off the court-like one very unique tennis player put it--...on the court friends play to win, off the court they are very good friends." That is a very true statement, because there are some Perryton guys and gals that have friends at Spearman and vice versa. When they get on the court to play basketball, they play basketball but after the game is over, friends get together and have a good time. By the way, in case no one has mentioned it, the District 1-AAA Tournament will be played at Stratford--as ya'll recall, this very same tournament was played at Spearman last year. The tournament will begin February 18 and terminate February 20. We will have more details in future additions of the paper--be watching.

U.S.A., 1982

The year 1982 may produce a turning point in the political and economic fortunes of the nation. The turning point, economically, should be a major one, and should occur in mid-year.

Recovery from the present recession should be evident by that time. From then on, if Reagan Administration economics work, people will save more, invest more, earn more and the private economy will expand while government does not.

Politically, Democrats may gain in off year congressional elections (off year meaning there's no presidential race). The turning point would be major if Democrats gain twenty-five or more seats in the House and hold their own in the Senate.

Santa Fe Seeks Closure Of 18 Agencies

AUSTIN, Tex., Dec. 30--The Atchison, Topeka, and Santa Fe Railway Co. has asked the Railroad Commission for permission to close agency stations serving 18 cities across the state. The company proposes to serve the affected cities through three regional freight agencies.

Santa Fe proposes to discontinue its agency in Anthony and serve that city through a regional agency in El Paso.

The agencies serving Fallet-Booker-Darrouzett and Spearman will be discontinued and the cities served through Santa Fe's Perryton agency.

The railroad also asked permission to close agencies in Beaumont, Beckville-Tatum, Carthage, Center, Cleveland, Contee, Jasper, Longview, Pinedale, San Augustine, Tenaha, and Winnie and serve those cities through a regional freight agency in Silsbee.

Before a railroad can close its agency in a particular town, the Railroad Commission must determine that the public will not be adversely affected by transfer of the agency's functions to another location.

Cities or members of the public who wish to protest the proposed agency discontinuances may do so by letter to the director of the Commission's Transportation Division. Protests must be received by the Commission not later than January 13.

If an agency discontinuance is protested, a public hearing will be set in the affected area. If no protest is received, the Commission will consider the application at a hearing in Austin.

In addition to the agency closures, Santa Fe has also asked permission to dismantle its depot buildings in Booker, Spearman, Tatum, Pinedale, and Winnie.

New Taxes

Americans familiar with the federal budget realize there must be new sources of revenue to reduce the size of upcoming deficits.

A windfall profits tax on natural gas, higher alcohol, tobacco or gasoline taxes, and other increased tax rates have been suggested. (President Reagan refuses to rescind part of income tax reductions and it's not possible to cut spending enough to meet already legislated obligations of the federal government.)

Thus withholding taxes on dividends, a limit on the amount of interest which can be deducted, taxing of health program deductions, and other new taxes are also being suggested.

Budget Director David Stockman is predicting a budget deficit rising to 147 billion in 1983 and to over 100 billion in 1982. Mr. Reagan is reported ready to accept the big deficit in 1982, but wants it reduced substantially in 1983 and 1984.

One area where significant spending relief could be forthcoming is in defense spending. If real progress is achieved in nuclear arms limitation talks in Geneva, this might brighten the picture.

The American people would understand the need for new taxes on non-essential items like tobacco and alcohol, and also a windfall profits tax on natural gas, when and if deregulated. Objections might be raised if withholding taxes on interest and dividends are levied but a limit on deductions for interest would probably enlist broad public sympathy.

The Reagan Administration would, meanwhile, do well to keep the record straight. It's not true that Mr. Reagan never pledged to balance the budget. He did--and he should admit it and repeat his pledge, with the condition that it will take a little longer.

Likewise, Mr. Reagan and his economic advisors shouldn't now say big deficits aren't inflationary. Of course they are, generally speaking. What should be said is that they are temporarily inevitable but they will be reduced as soon as possible, so that inflation can be lowered still further.

JAPAN & DEFENSE

Defense Secretary Caspar Weinberger warned recently of a possible U.S. backlash if the American people believe Japan is contributing too little to mutual security in the Far East.

VACATIONS IN U.S.

West Germany Chancellor Helmut Schmidt arrived in the United States recently for a three-week Florida vacation and a meeting with President Reagan. Schmidt and Reagan planned to discuss the military takeover in Poland and other issues of common concern.

REVOKES PASSPORT

The State Department said recently it has invalidated the visa of Ian Paisley, the Northern Ireland Protestant leader, because of the "divisive tone" of his recent actions and statements.

SIGNS FARM BILL

President Reagan signed into law a four-year, \$11-billion farm support bill, then gave poor Americans a holiday slice of the 560 million-pound cheese surplus piled in government warehouses.

About Bail

If rising crime is to be checked in the U.S., some reform of present-day bail laws is necessary. In cities especially, criminals are committing serious crimes and being freed on relatively small bail bonds, or even on their own recognizance, almost immediately. Many--one recent study in Washington, D.C. found the percentage to be above fifteen percent--commit other crimes before being brought to trial. Today many citizens' groups and victims are demanding reform of laws which allow easy pre-trial release. Some have suggested when a gun is used, or

when victims are physically assaulted, bail should not be allowed.

One of today's new and unique problems is bail jumping by drug offenders. The Drug Enforcement Administration says almost 3,000 fugitives are currently being sought for prosecution on drug-related matters after having jumped bail. This far-too-easy bail jumping has become an out for drug dealers, who make enough on one load of drugs, or one big sale, to pay bail bonds several times.

Our courts should take into consideration today's more serious crime situation in freeing those accused of serious crime. This greater protection is the right of a majority in a democratic society.

Business Owners ...

Bring safety and security up and vandalism down, with Leased Floodlighting.

As a business owner or manager, you're concerned with the safety and security of your employees, customers and property. Accidents and vandalism are costly, and interrupt business efficiency. Leased Floodlighting can give added safety and security by illuminating parking lots, stairways, entrances or other areas in which accidents could occur due to poor visibility. And brightly lighted property and equipment is less subject to vandalism. Leased Floodlighting is automatic, on-at-dusk, off-at-dawn, and gives more illumination per watt than conventional incandescent lighting. To get Leased Floodlighting for your business, just give us a call.

Is it true that clouds are much higher at the equator than in the polar areas?

Yes, clouds extend about twice as high at the equator as they do at the poles. And this is caused by the rotation of the earth.

At the poles, or at the top and bottom of the earth's axis, there is relatively little centrifugal force. But at the equator, where the earth is thickest, the centrifugal force is great and the layer of gases around the center of the earth is literally thrown outward by the greater force, and turning speed.

It is estimated that clouds at the equator extend as high as 50,000 feet or slightly higher above the surface of the earth. But at the poles clouds rarely reach up more than 25,000 feet into the troposphere.

Criminal District Court Set

Jury selection is scheduled Jan. 11, for subsequent cases to be tried in criminal district court.

Among those scheduled is that of Leroy Cata for possession of a prohibited weapon.

During the course of an investigation into the weekend death of a young woman at her home near Gruver some months ago, Cata was arrested with a sawed-off shotgun in his possession that was believed to be the death weapon.

While one of the suspects during the investigation, Cata was charged only with the felony possession in an indictment handed down by the grand jury.

This session of criminal court will not be preceded by "plea day" but Hansford County Sheriff R.L. McFarlin said he felt there would be some plea-bargaining on the opening day of the session.

If supportive proof lacking IRS plans fines for tax 'helpers'

Hold on to your income tax receipts and proofs because Washington has risen again!

The latest cataclysm in Panhandle is at the Bureau of Internal Revenue. There, an edict says any taxpayer, upon being audited and found to lack receipts and proofs for deduction claims made in his or her tax return, shall not only be held accountable but the person-attorney, professional tax consultant or seasonal tax preparer-who compiled the return shall be fined for including the claim without the proofs.

The Papers talked with Raymond Dietz, senior member of Dietz and Sons, a Borger tax consulting firm, who has successfully jostled with the IRS concerning other edicts in the past.

"It is a highly unsubtle move on the part of the IRS to force us into policing the returns for the bureau," Dietz said referring to himself and others across the nation who make the bulk of their livelihood preparing income tax forms.

Raymond Dietz is no stranger to Panhandle readers of Amarillo and Borger newspapers where his pithy, pungent articles and letters-to-the-editors have attacked many issues of the day-many of them with no little success.

Many of these readers-with the appearance of each article or letter-expect to read in the next issue that Raymond Dietz is "headed for the bureaucratic cross". If they think his published prose are strong, they should read the text of some of his letters to the IRS at Washington.

"Here is a bureau of the federal government duly authorized to collect taxes but within defined-by-law parameters of structure, function and conduct," Dietz commented. "They come up with these edicts from time to time and some of them have been allowed to stand purely from lack of opposition."

"If you are honest in your dealings with the IRS, they have no strange and awesome power over you. You have only to fear their mistakes which are many while not allowing the taxpayer any," Dietz concluded.

He cited an example of the defeat of an edict and an IRS error that was almost tragic for an area man a few years ago.

The IRS ruled that duplicated copies-Zerox, others-of forms bearing required signatures were not acceptable.

"This made it impossible to charge our clients enough to pay for the man hours required for the signing of the many forms one at a time instead of duplicating them," Dietz explained.

He received a letter from the IRS in Washington and then a phone call because he had not answered the letter.

"Mr. Director, the letter was a duplicated copy including your signature and thus, by your own edict, not admissible in any dealings between us. So, I ignored it," was Dietz' end of the conversation.

Within days the ban on duplicated forms was lifted.

A few years ago Dietz had a client, an employee of a major

oil company in the Panhandle. Completion of the client's return left him owing IRS \$516-which he did not have.

Dietz advised him to pay \$116 in cash and ask for permission to pay the remainder at \$100 per month.

IRS permission was granted IN WRITING.

Only a few weeks after final

payment was made, the IRS attached his salary for \$516. The company had a rule that any employee having his wages attached would be summarily fired.

This man had only one year to go before retirement after more than 30 years of service.

Raymond Dietz went to bat for him. The company reinsta-

ted him pending final settlement which was made with IRS paying interest on the \$516 that should not have been attached. In his letter to the IRS at the conclusion of this matter, Dietz pointed out that he had, on numerous occasions, interceded in behalf of the IRS when a client was mistaken.

"Each time I have questioned their action, I have felt as I do now--a voice crying in the wilderness-and I have gone as far as I can go," Dietz concluded. "I think this might be contested in the courts and at that time, I think the laws will bear out the fact that the IRS cannot arbitrarily but we tax consultants or attorneys

serving long-standing clients as such, in jeopardy and levy a fine.

"In the meantime, the vast army that is our profession will have to abide by the ruling and will require you, the taxpayer, to provide proof of every claim you want included in your return."

Dietz and Sons. The firm has so much business now it had to go computer.

Rather, it is the story of that "voice crying in the wilderness" without the locusts and wild honey. Well, locusts maybe. Raymond Dietz does "bug" the IRS from time to time-but more likely than not, the "sweetin'" is left out!

Appraisal For Ad Valorem Tax

The appraisal office will have application forms readily available to each individual at no charge to the individual. 1982 is the first year that open space land valuation will be beneficial to the land owners in the Hansford County Appraisal District. This is due to the results of the reappraisal of all properties in the appraisal district including farm land.

The appraisal district will make every effort to mail applications to all land owners before February 1. Mrs. Peddy indicated it would be mid-January before the prescribed form would be received in her office from the State Property Tax Board and once the form is in her hands, it will be immediately available to the individuals. If any person does not receive his application by February 1, he needs to contact the appraisal district.

Mrs. Alice Peddy, Chief Appraiser of the Hansford County Appraisal District would like to inform the land owners of specific details concerning the process of receiving agricultural use appraised values for ad valorem tax purposes. An individual claiming that his land is eligible for appraisal as agricultural land must file a valid application with the chief appraiser. Once an application is filed and open space land values are granted, the land is eligible for open space land values in subsequent years without a new application unless the ownership of the land changes or its eligibility ends.

The application must be filed before May 1. If a person fails to file a valid application on time, the land is ineligible for open space land valuation.

Hansford County Appraisal District Accepting Exemption Applications

Mrs. Alice Peddy, Chief Appraiser of the Hansford County Appraisal District announces that applications for the following exemptions are now available at the offices of the appraisal district located at 13 West Kenneth Avenue, Spearman, Texas:

1. Residence Homestead a. \$5,000 for School Tax Purposes b. \$10,000 for Over-65 for School Tax Purposes c. Over-65 for Cities and County
2. Disabled Veterans
3. Implements of Farming or Ranching
4. Cemeteries
5. Charitable Organizations
6. Youth Spiritual, Mental, and Physical Development Associations
7. Religious Organizations
8. Schools
9. Veterans Organizations
10. Community Service Clubs

of disability benefits under Federal Old-Age, Survivors, and Disability Insurance for School Tax Purposes. Each individual is encouraged to come by the office or call if they have not received these forms by February 1. To receive any of the above exemptions, a person claiming the exemption must apply for it. To apply for an exemption a person must file an application form with the chief appraiser for each appraisal district in which the property subject to the claimed exemption is located. The exemption applica-

tion must be filed before May 1 and must furnish the information required by the form to be valid.

After 1982, annual applications for residence homesteads, charitable organizations, youth spiritual, mental, and physical development associations, religious organizations and schools, are no longer necessary. Once these exemptions are allowed they need not be claimed again unless the property changes ownership or the person's qualification for the exemption changes.

Letters and letter packages (packages paid at the First-Class letter rate of postage) will be subject to a four-pound limit.

In order to facilitate the mailing of printed matter above four pounds, the Postal Service also has established an air "other articles" rate schedule. "Other articles" mail generally includes printed matter (regular printed matter, books and sheet music and publishers' periodicals), matter for the blind and small packets. Rates for "other articles" mail in excess of four pounds range from \$6.05 to \$31.32.

Air Parcel Service To Canada

The U.S. Postal Service today announced that starting January 1, air parcel service will be available between the United States and Canada, giving customers the option of mailing packages at rates other than air letter rates.

The new air parcel service is for packages weighing from one to 66 pounds, with rates varying according to weight and range. Each package sent by air parcel service must have written on it, AIR, AIRMAIL, or PAR AVION, or bear a label to that effect. They must not be marked "Priority."

Tax Exemption Of Farming & Ranching Implements

Effective January 1, 1982, implements of farming and ranching are exempt from ad valorem taxation if owned by an individual who uses them in the production of farm or ranch products. The property must be individually owned; corporate or partnership ownership will not qualify. This exemption must be applied for annually with the chief appraiser of the Hansford County Appraisal District.

The attorney general has been asked to issue an opinion on several points concerning these exemptions, some of them being:

- (1) Should the term "implements" be construed so as to include any and all types of equipment or machinery that could be used in an agricultural environment?
- (2) Would vehicles utilized in agricultural products, such as trucks and trailers, be included in the exemption?
- (3) Would equipment used to obtain water from wells or for irrigation be exempt?
- (4) Would the term "individual" as used in the amendment be limited or defined to include only persons in single person who has incorporated be entitled to the agricultural business that have sole or complete ownership of all the property necessary for pursuit of said business?
- (5) Would an individual or

When the attorney general issues his opinion clarifying the intentions of the legislature to exempt implements of farming and ranching, the chief appraiser will then allow all exemptions, according to law, on all valid applications. Individuals need to render their implements to the chief ap-

Comegys Completes Training

December 30 [FHINC]-Navy Seaman Recruit Jay G. Comegys, son of Mrs. Charles D. Perry of 906 Haney, Spearman, Texas, has completed recruit training at the Naval Training Center, Great Lakes, Ill.

During the eight-week training cycle, trainees studied general military subjects designed to prepare them for further academic and on-the-job training in one of the

Navy's 85 basic occupational fields.

Included in their studies were seamanship, close order drill, Naval history and first aid. Personnel who complete this course of instruction are eligible for three hours of college credit in Physical Education and Hygiene.

A 1980 graduate of Spearman High School, he joined the Navy in August 1981.

53rd annual tournament January 7-8-9

The Canadian high school Wildcats will be hosts to the school's 53rd annual Invitational Basketball Tournament on January 7-8-9.

Boys and girls varsity basketball teams from eight area high schools will be entered in the competition. Heading the list are the defending champions,

winners of the 1981 tournament, the Childress Bobcat boys and the Follett Pantherette girls teams.

The Bobcats defeated the

Canadian Wildcats in a blistering championship game last January, winning by two points in a double-overtime.

The Follett Pantherettes won the girls division, defeating the Canadian Wildcat girls in the championship finals.

Paired for opening rounds of the tournament in each division are Miami and Shamrock, Gruver and Follett, Childress and Spearman, and Wheeler and Canadian.

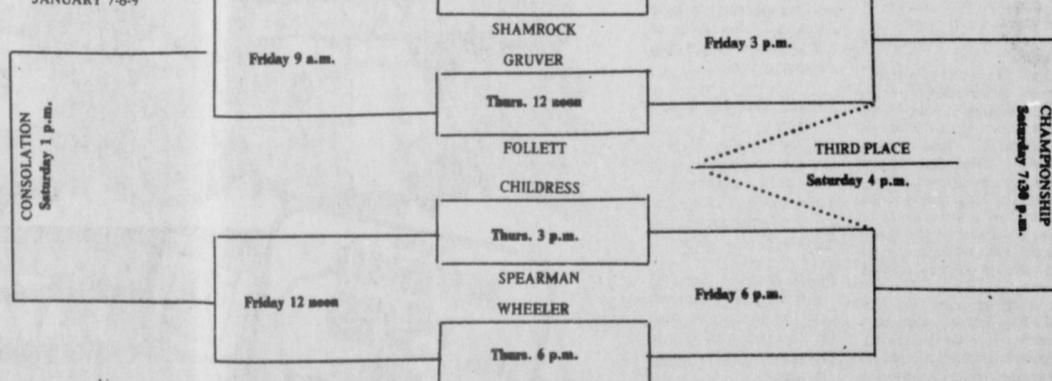

The tournament will open on Thursday morning, January 7, with first-round matches sche-

duled throughout the day. Consolation semifinals will be played on Friday morning, and championship bracket semifinals will be played on Friday morning, and championship bracket semifinals on Friday afternoon and evening. Consolation finals and third-place matches are scheduled for Saturday afternoon, and the championship games for Saturday night.

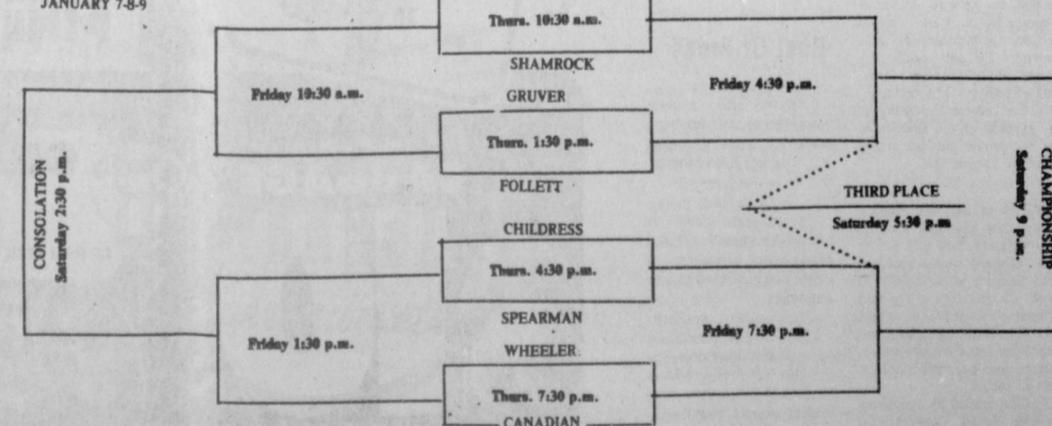

The Canadian tournament, one of the oldest in the Panhandle, has traditionally been one of the top basketball events of the season since the 1920's.

PUBLIC NOTICE

In accordance with the regulations of the Public Utility Commission of Texas, Texas-New Mexico Power Company announces the Company's intent to change rates for its entire Texas operations. The effective date of such change is January 26, 1982. All classes of customers will be affected by said proposed changes. It is estimated that the rate change will produce an increase in gross revenues to the Company of \$18,245,753, or a 7.46% increase over present rates.

A complete copy of the requested rate schedule is on file with the Public Utility Commission of Texas in Austin, and with all cities which have retained original rate jurisdiction served by Texas-New Mexico Power Company. You may inspect a copy of the filing during normal business hours at each business office of Texas-New Mexico Power Company in your area.

Hit-and-run case goes to DA!

District Attorney Steve Cross told the REPORTER just at press time his office was now in the final phase of an investigation into the Dec. 23 hit-and-run death of a 13-year old Spearman youth and the injury of his 13-year old companion.

At present, no charges have been filed.

However, District Attorney Cross said the case would go to the grand jury in the very near future.

The Spearman Police Department completed its phase of the investigation and placed the findings in the hands of Cross who said an exhaustive study of the mishap by his office is nearing completion.

At that time, all work on the case will be correlated into a comprehensive presentation for the grand jury.

The accident came on the very doorstep of the holidays and District Attorney Cross was not available in the first hours following the mishap. At the request of Spearman Police Officer Stevens and DPS Officer Max Gunn—both working on the case—the REPORTER published only the basic details of the tragedy.

Cross said the REPORTER would be apprised of the facts developed by his investigation and subsequent grand jury action in the matter.

78th Annual Farmers Union Convention Set

WACO, TX; December 29, 1981—"Family Farms for the Future" will be the theme and the topic of concern when members of the Texas Farmers Union gather for their 78th annual convention in Fort Worth on January 7-9. Delegates and members of the 10,000 member family farm organization will gather for the 78th annual convention of the Texas Farmers Union at the Kahler Green Oaks Inn for setting the annual policy and listening to important speakers.

TFU President Mike Moeller said "At a time when a real economic crisis is facing American agriculture, it is essential that the problems and needs of family farmers be recognized. Because of the passage of the 1981 Farm Bill in December, we feel this will be an excellent time for legitimate farmers and ranchers to air their complaints and plan a course of action for 1982."

In addition to confronting problems on the national level, state issues will also be addressed by the TFU convention delegates and members. Scheduled to speak are Texas Agriculture Commissioner

Reagan Brown and his challenger for the position, Jim Hightower. Both men are well known statewide and their remarks to the convention will kick off the 1982 campaign year for the agriculture commissioner's seat.

National Farmers Union President George Stone will deliver the banquet address on Saturday to the convention. Stone has been outspoken in his opposition to the 1981 Farm Bill and other moves by

Cattle Raisers Challenge New USDA Conservation Proposals

FORT WORTH, TEXAS, Dec. 29, 1981--In a sharply worded critique, Texas and Southwestern Cattle Raisers Association has come out in opposition to new soil and water conservation proposals made by U.S. Department of Agriculture. TSCRA, a 14,000-member livestock producer organization, found that "none of the three proposed program alternatives addresses U.S. soil and water conservation problems in the most effective fashion."

John S. Cargile, TSCRA president from San Angelo, Texas, said USDA's "Preferred Program" exceeds the legislated authority of the Soil and Water Resources Conservation Act (RCA) of 1977 to the extent that this group is asking Congress for an oversight hearing to assure compliance with existing legislation.

USDA, through its Soil Conservation Service (SCS), has asked all persons and groups interested in soil and water conservation to respond by Jan. 15 to USDA's revised draft through a widely-circulated questionnaire.

TSCRA claims the response form is so blatantly based in favor of the USDA's "Preferred Program" that portions of the questionnaire should not be used in judging public response.

The "Preferred Program" ignores conservation of rangeland, pastureland and woodlands that comprise the majority of the U.S. land surface. Instead, it redirects efforts from them to targeted priority areas. The latest proposals do nothing but add another layer of administration at the Washington level, while downgrading technical positions, TSCRA asserts.

"In recent years, the SCS has become so increasingly preoccupied with internal administration and peripheral programs that SCS personnel at the state level and above constitute 31 per cent of total personnel. The result has been to reduce the field force needed to provide technical conservation assistance on the ground to landowners and operators through locally governed soil and water conservation districts. In a sentence, SCS has become top-heavy at the expense of the field force and the people they are trying to help," Cargile said.

Block and the Soil Conservation Service.

For more information, interested persons may contact the local SCS and ASCS offices. In Texas, public comments should be sent to George C. Marks, State Conservationist, Soil Conservation Service, Box 648, Temple, Texas 76503 by Jan. 15.

New Sales Tax Requirements

AUSTIN, Tex.—State Comptroller Bob Bullock said Wednesday that about 1,000 Texas merchants need to be aware of new sales tax requirements on credit sales which go into effect January 1.

The new law affects merchants who make installment sales of taxable items, the amount of sales tax due in the outstanding balance and keep their books on the "cash" basis of accounting.

According to the new law, a part of the interest paid on the sales tax portion of credit sales will be taxable. This additional amount is to be reported and remitted when the regular sales tax return is filed.

If the interest on the sales tax and the unpaid balance are the same—and the rate is 18 percent or less—the state gets half the interest on the sales tax portion of the total amount being financed.

If the interest charged on the sales tax portion of the bill is different from the rate charged on the rest of the unpaid balance, the merchant must remit all of the interest paid on the sales tax portion to the state.

Taxpayers with questions about their new responsibilities should contact the Comptroller's local office nearest them or the Comptroller's Sales Tax division at 1-800-252-5555, a toll-free from anywhere in Texas.

A Chill Supper, including dessert, will be served from 5 to 7 p.m. this Tuesday, January 12, before the Spearman-Perryton games. It will be at the Junior High Cafeteria. The cost is \$3.50 for Adults and \$1.50 for children 8 years and under. Sponsored by the Spearman Music Boosters.

Macho Good Or Macho Bad?

For centuries strong men have been the accepted ideal. The winner is knight's competition in athletic competition, combat, etc., has been universally admired. Songs have been written about them and nations have made heroes out of them.

In recent decades in the United States, some have begun to criticize anything with "macho" connotation. The question in the U.S. has become—is macho good or is macho bad? Advertisers appeal to this instinct in males by suggesting they give their wives diamonds, that they buy big insurance policies to protect them.

Courts often accept the philosophy that males are the traditional backbone of their families by saddling them, in divorce cases, with tougher financial obligations than females in similar circumstances. (One divorced husband, hailed into court for back alimony payments, recently shot himself in a North Carolina courtroom.)

Women are regularly meted out lighter court sentences for killing and other crimes, on the theory that they are the weaker sex, that they are physically weaker and threatened, etc.

There are advantages, therefore, in being the weaker sex, and modern society gives women equal rights plus special considerations. That's not to say discrimination doesn't still exist in places.

It's to say males have a problem in today's super-modern world. How much macho, then, is too much macho? From chauvinistic pig to he-man-hero is only a step.

On Oil Heaters

Attractive kerosene heaters are on today's market and the public is buying them this winter as a way to save on heating bills, for backup heating and for a primary heating device.

A few words of caution are in order. Though modern oil heaters are fancy in appearance, they still are, basically, kerosene heaters like Dad used forty or fifty years ago. Although they have an automatic cutoff device, if overturned, and automatic lighting, the vital consideration to keep in mind in using combustible fuel in the home is that fires and asphyxiation are possible.

Such heaters must not be put within three feet of walls. A door to another room should be open, and if used over a period of hours, a door or window should be, at regular intervals, cracked. Manufacturers tell buyers in new-owner instruction books not to leave them on in a room and go to sleep.

Kerosene, while not as volatile as gasoline, is nevertheless a fire threat. If spilled on rug or floor, the surface becomes dangerously flammable. Owner manuals suggest filling oil heaters only when thoroughly cool, and out of doors.

The outside of oil heaters becomes very hot and can burn. If placed too near furniture, drapes or cloth material, fires can occur.

Thus kerosene heaters are not the safest thing. They may be the cheapest means to heat. And they are coming back into fashion, understandably. But care should be exercised in using them, and in storing fuel used in them.

Insurance Companies & Inflation

The favorite innovation of many insurance companies recently has been to increase policy premiums annually—without query or approval from policy holders.

This tactic is justified, the companies claim, because inflation is increasing the cost of replacement of almost anything. So, if they can get by with it, the companies add what they consider an inflationary adjustment increase when billing the homeowners, office building owner, etc.

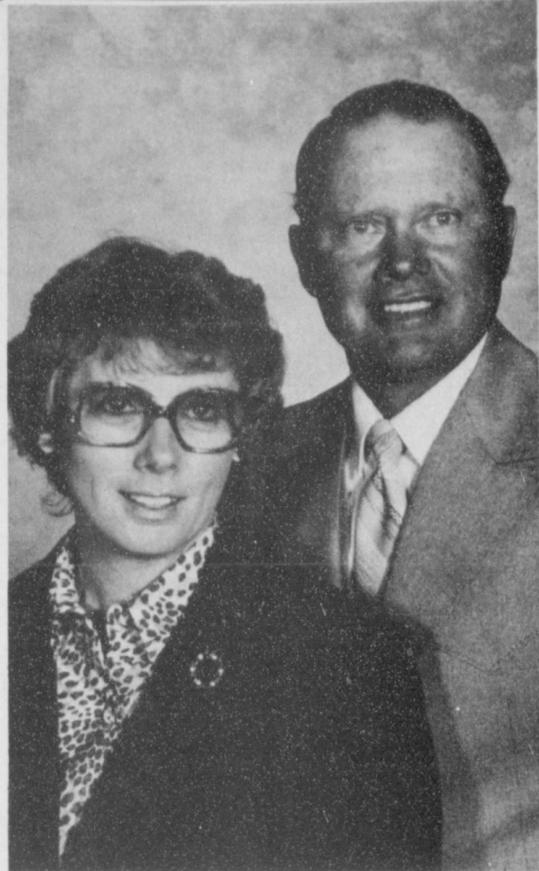

The objection to this gimmick is that the policy holder is no longer the one making the decisions on his policy—how much he can afford to pay, for one thing. Also, some policy holders might be content to insure their homes for slightly less than full replacement value, whether or not they can afford a higher premium.

The psychology of the companies' latest automatic premium hike is bad; it assumes continued high inflation and in itself adds to inflationary pressure in its small way. The worst feature of this new trend, however, is that it allows a billing clerk to raise everyone's premium without proper consultation and consent.

Engagement Announced

Mr and Mrs. Sammy Don Jones are very proud to announce the engagement and approaching marriage of their daughter, Wanda Kay to Jimmie Adams, Jr., son of Mr. and Mrs. Jimmie Adams, Sr., of Clarendon, Texas. A February 6th wedding is planned at the First Baptist Church, Spearman, at 4:00 p.m. The couple will reside at Pampa, Texas, where Jimmie is employed by Ingersoll-Rand Oilfield Products.

To Celebrate Anniversary

Mr. and Mrs. David L. Wilson of Waka, Texas, will celebrate their 25th wedding anniversary January 10, 1982. There will be a reception in their home from 2:00 to 4:00 p.m. in their home. Friends and neighbors are cordially invited. David Wilson and Marilyn Allen were married January 6, 1957 in Guymon, Okla. The event will be hosted by their children, Nancy Wilson, Mr. and Mrs. Greg Wilson, and Mr. and Mrs. Lyndel Schiffner.

Bridge Club

The Blue Monday Bridge Club met Jan. 4 in the home of Mrs. Alice Lackey. Members present were Emma Seitz, Viola Graves, Deta Blodgett and Alice Lackey. Guests attending were Opal Jones, Ruth Baker, Ora Sanders and Vi Whitson. Viola Graves had high score and Ora Sanders had second high. The next meeting will be in the home of Deta Blodgett on Jan. 18.

4 students to area choir

Four Spearman High School choral students will be going to Lubbock Saturday for the Area Choir Contest at Coronado High School. While they are there, they will audition for the All State Choir to be held in the spring in Austin. Students qualifying for the Area Choir are Denise Blackburn and Lisa Scroggs. Greg Meek is the first alternate and Jeannie Lair is second alternate. Travis Angel is the choir director of Spearman schools.

PLAN PROPOSED

Chief Justice Warren E. Burger says converting the nation's prisons into "factories with fences" could help rehabilitate inmates while taking soaring prison costs "off the backs of the American taxpayers." But American business and labor must accept and aid such prison industries if they are to succeed, he adds.

Lose Weight

The experts tell us colder weather means our bodies burn more calories keeping us warm, that the change of a colder season is therefore a good time to lose weight.

During the Christmas holidays many of us were tempted and ate too much of the traditional good things. Now is therefore an appropriate time to limit one's diet to non-fattening food and to get the exercise which takes off extra pounds.

Walking, bicycling, skiing, hunting, jogging, or even ten minutes of exercise each day at home will do much to make the average individual look better and feel better—and live longer. Nothing else in life offers better dividends than this.

Brezhnev's Logic

The latest argument from Leonid Brezhnev, Russian president, on the subject of nuclear arms reduction is highly interesting. Brezhnev sounds like a man genuinely seeking co-survival and prevention of war.

What he says about different measurements of total weapons strength, that each side has a different yardstick, is true. And it's also true that hard, sincere bargaining is needed to adjust inflated or distorted figures to more realistic totals.

It may be that the Russians, now with a decided edge, will not compromise and that Brezhnev is talking only for propaganda purposes. But it may also be that the Russians now realize the U.S. is rearming in earnest, and that they will compromise.

From Washington's viewpoint, a compromise which limits the buildup, and improves the odds, would be better than no

limitation agreement. It may be expecting too much to expect the Russians to dismantle all the weapons which have given them a nuclear edge in Europe in recent years.

PROPOSES TESTS

A Nuclear Regulatory Commission licensing board proposed recently to allow testing to lead to a restart of the Three Mile Island atomic reactor that was not damaged in the 1979 accident at the Pennsylvania power plant. But a decision by the full NRC will be required before the tests can begin.

7th Lynxettes In Waka Tourney

The 7th grade Lynxettes will be entering and participating in one of the toughest tournaments of the season--the Waka School Tournament. There are four little schools that are very tough, mainly because they have all been playing since the 3rd grade!

The teams to watch--all of these teams are very exciting--are the host team, the Waka Cubs, the Plemons Indians, the Pringle-Morse Cougars, the Springcreek Crawdads. All of these teams are very good. Players that have come from some of these schools that played Varsity ball and did a great job include: Gwenna Wilson--Waka, Nancy Wilson--Waka, Susan Davis--Pringle-Morse--there are a few more, but all of these players were great players, why? Because they had what it takes to become an athlete, start very early in life. So the 7th Lynxettes will have a hard time, but like I said before, in an earlier issue, the 7th Lynxettes are a team that works together. If one person, can't do what her friend can, they work at it until they can both do really well. They have the potential of becoming a championship team, and they will probably have to "fight" for varsity position against a few girls from Waka, Pringle-

Morse, Plemons or Springcreek. So this tournament will be a challenge, and the 7th grade Lynxettes love challenges!

Waka isn't that far away, why not make the trip to watch the 7th Lynxettes in action against a very tough team--the Pringle-Morse Cougars. The 7th Lynxettes will play at 2:20 at the Waka Gym. The tournament will be from Thursday thru Saturday--January 7 thru 9. While, there, just take a peak at the other small schools and see that experience is the key to success!! The 7th Lynxettes do have some experience--playing during the season. How will they do? Will they win a trophy? Over which team? All the questions and more will be answered this weekend, make sure and attend, it will be a very good tournament player wise!! The Waka Tournament is always a very tough tournament, a tournament that usually gets the 7th Lynxettes ready for their own tournament--the Spearman Jr. High Tournament--which will be January 14, 15 and 16--Thursday thru Saturday. The 7th Lynxettes have a chance of winning a trophy, don't be surprised if they win the First Place Trophy!!

7th, 8th & 9th Lynxettes To Travel To River Road

The 7th, 8th and 9th grade Lynxettes will travel to River Road to meet up with the River Road 7th, 8th and 9th Wildcats.

The 7th Lynxettes, coached by Coach Terry Crocker, will be playing first at 4:30--the game is for this Monday, January 11. The 7th Lynxettes have been having a terrific basketball season. Their game will begin at 4:30.

The 8th Lynxettes, also coached by Coach Terry Crocker, will be playing right after the 7th grade game. The

8th Lynxettes want to have a great 1982, by winning lots of games, one game that will be early is this one against River Road.

The final game of the night will be between the Freshman Lynxettes and the Freshman Wildcats. Coach Robin Travis has done a fine job with the Freshman Lynxettes, they plan on having a great 1982.

These should all be good and exciting games, so don't miss them. The 7th, 8th and 9th Lynxettes appreciate the support they get from their fans.

JV Lynx Lose To Borger

The Jr. Varsity Lynx played on Monday, January 4, against a tough opponent--the Jr. Varsity Borger Bulldogs. The Bulldogs came into the Lynx Little Gym to play for one reason--to win!!!

The Bulldogs started off on the right foot when the first quarter buzzer sounded to end it--the JV Lynx found themselves trailing by 8 points--16 to 8. The second quarter was a very Offensive quarter--the Bulldogs scored 21 points and the JV Lynx scored 11. The halftime score was 37 to 19 in favor of the Bulldogs. The Borger Bulldogs were playing very good. They were in high gear in the first half. They had an 18 point lead.

The Jr. Varsity Lynx are a very good team--they hustle, have a great pressure Defense, they have a great second half team.

The second half started with Byron Sutterfield scoring the first bucket of the second half. This seemed like a good sign at the time, that the JV Lynx would make an outstanding comeback--the Bulldogs called timeout so that the JV Lynx

would lose some of their momentum. That was a very smart play, the JV Lynx couldn't get back into high gear and only scored 6 points in that quarter--the Bulldogs scored 12--this upped their lead to 24--49 to 25. The JV Lynx starting pressuring the Bulldogs once again in the final quarter. They knew they had to stop the Bulldogs and they had to score themselves. Both teams would be running up and down the court, with the ball dropping in every once in-a-while for a score. The JV Lynx did outscore the Bulldogs 16 to 13, but at the final buzzer, the JV Lynx saw themselves lose the game--62 to 41--by 21 points.

There were three Freshman that played on the JV for the first time this year--Steve Burke, Mark Pearson and Ross Donahue.

The next game for the JV Lynx will be tonight against the Follett Panthers. Then on Friday, January 15, the Jr. Varsity Lynx will take on the Jr. Varsity Boys Ranch Rough Riders at Boys Ranch.

7th Lynx 'Bow' To Sunray

The 7th Lynx traveled to Sunray to play the Sunray 7th Bobcats. When the game was over, the 7th Lynx saw themselves behind 43 to 16.

The 7th Lynx, coached by Dan Shaver, played together very well. They did lose the game, but they plan on getting back on the right foot as time progresses. They know they have some rusty parts and will be working on them during this week.

The 7th Lynx will be hosting the 7th River Road Wildcats. This should be a good game, so go on out and watch the action.

The game will begin at 4:00 p.m. and will be played at the Lynx Little Gym. This is the first game of the night with 2 others. The games finish early. There are, lots of times, lots of fans in the stands.

The Spearman Music Boosters will sponsor a Chill Supper, including dessert, at the Junior High Cafeteria, this Tuesday, January 12, from 5 to 7 p.m. before the Spearman-Perryton games. Tickets are \$3.50 for Adults and \$1.50 for children 8 years and under.

WACO--Texas is sending 19 voting delegates to the 63rd annual meeting of the American Farm Bureau Federation Jan. 10-14 in San Diego. Voting delegates from across the nation, representing the AFBF's 3.1 million member families, will adopt policies to guide the nation's largest general farm organization in 1982.

Heading the Texas Farm Bureau delegation will be TFB President Carrol Chaloupka, cattle and grain producer from Dalhart. The rest of the delegates will be comprised of members of the 13-member

TFB board of directors, plus five former state directors. Main convention speakers will include Robert Delano, Warsaw, Va., grain farmer and president of the American Farm Bureau Federation; Secretary of Interior James Watt; and Senator Walter Huddleston of Kentucky, ranking minority member of Senate Agriculture Committee. Conferences are scheduled for cotton, dairy, livestock, horticultural crops, grains, natural and environmental resources, and poultry and aquaculture. The business session where policies for 1982 will be

adopted will be the final two days of the meeting. Election of directors and officers will be on the final day, Jan. 14. Steve and Pat Bearden of Santa Rosa, Cameron County, TFB's "Outstanding Young Farm Couple," will compete with other state finalists for the national title in Farm Bureau. Mr. and Mrs. Bearden are members of a family corporation which farms approximately 4,300 acres in the Rio Grande Valley. Marcy Langridge of San Patricio County, chosen as TFB Queen at the organization's recent state meeting in Corpus Christi, will be intro-

duced at a general session of the San Diego meeting along with other state queens. She is the daughter of Mr. and Mrs. Bobby G. Langridge Sr. of Sinton. Representing Texas in the national talent find program will be Pianist John Dujka of Fort Bend County. John, the son of Mr. and Mrs. William Dujka of Rosenberg, won the state talent find competition in Corpus Christi Nov. 30. Voting delegates from Texas, in addition to Chaloupka, include 13 members of the TFB Board of Directors. They are: Paul T. Macina, Shamrock; S.M. True, Jr., Plainview; Leonard Schaffner, Hen-

rietta; Joe F. Fisher, McKinney; A. Wayne Cranfill, Hooks; Vester Smith, Loop; and Roy Johnson, Desdemona. Also, Calvin Rueter, Clifton; Henry Burton, Lufkin; J.R. "Bubba" Day, Uvalde; David Fochner, Boiling; George O. White, Harwood; and James R. Adams, Odem. The five former Board members who are serving as voting delegates are: Bill Guidry, Nacadoches; Jack Osborne, Pampa; Marvin Phemister, Weinert; Donald Hebert, Waller; and Doyle Condra, Talpa. Serving as alternate delegates are past state directors John A. Smith, Cameror and T.L. Roberts, Willis Point.

7th Lynxettes 'Run Past' Sunray

The 7th grade Lynxettes traveled to Sunray to meet up with the Sunray 7th Bobcats. The 7th Lynxettes looked terrific with the final score being 32 to 11.

The 7th Lynxettes coached by Terry Crocker, played really well against the Bobcats. The 7th Lynxettes, even though they won by 21, still missed some shots that would have gone in before the 2-week vacation. The 7th Lynxettes have to have a great team, mainly because they are very

competitive in all sports--Summer and Spring as well as Fall and Winter sports.

The 7th Lynxettes will have their hands full though this weekend, because they will be in a tournament--the Waka Tournament. In this tournament, there are teams like the host team--Waka, Pringle-Morse, Plemons and Spring-creek--that are very tough. They start playing basketball since they are in the 3rd grade, which gives them an "experience" edge, sort of

speaking. The 7th Lynxettes will have their hands full, playing teams with that much experience, but they will do their best. They will play at 2:20 against a very tough Pringle-Morse team. The game will be played this Thursday, January 7. The tournament will be January 7, 8 and 9, Thursday, Friday and Saturday. Go on over to Waka, it isn't that far, and cheer on the 7th Lynxettes on to victory. Then on Monday, January 11, the 7th Lynxettes will travel to

River Road to meet up with the tough River Road Wildcats.

The Spearman Music Boosters will sponsor a Chill Supper, including dessert, at the Junior High Cafeteria, this Tuesday, January 12, from 5 to 7 p.m. before the Spearman-Perryton games. Tickets are \$3.50 for Adults and \$1.50 for children 8 years and under.

Fort Worth Fat Stock Show Expects Record Year

A record number of livestock entries are expected at the 1982 Southwestern Exposition and Fat Stock Show which begins its annual 12-day run Jan. 27 and concludes Feb. 7 at the Will Rogers Memorial Complex in Fort Worth.

Based on the number of entries counted thus far, W.R. Watt, Jr., show president-manager, said, "It appears we will exceed our last year's record entry of 15,215 head of livestock." He said office per-

sonnel continues to process entries, and exhibitors of poultry, rabbits and pigeons have until Jan. 15 to enter.

Premiums for the livestock show and accompanying World's Original Indoor Rodeo will be more than \$440,000, another record. Rodeo entries, expected to be near 900 cowboys, will be taken by the Professional Rodeo Cowboys Association ProCom office in early January.

Riding clubs, bands and

sponsors of horse-drawn vehicles are invited to participate in the All-Western Parade, scheduled to begin at 2 p.m. Friday, Jan. 29, in downtown. Parade applications, available at the Stock Show Office, P.O. Box 150, Fort Worth, TX 76101, should be returned by Jan. 15.

Neal Gay of Mesquite, Texas, has been named rodeo production manager for the Fort Worth Rodeo. He has organized a production syndicate that includes six outstanding stock contracting firms, Gay's company and those owned by Bernis Johnson, Cleburne, Texas; Dell Hall, Hulbert, Okla.; Harry Vold, Fowler, Colo.; Bradford Ivy, Fairfield, Texas, and Jim

Shoulders, Henryetta, Okla. The Rodeo ticket office in the lobby of Will Rogers Coliseum is open daily, including Sunday, from 9 a.m. until 5 p.m. Mail orders are being taken at P.O. Box 150, Fort Worth, TX 76101. Tickets are \$7 each for night and weekend performances, and \$5 for Monday through Friday 2 p.m. matinees.

When ordering by mail, send cashier or money order, state performance desired and include \$1 extra per order for return postage and handling. Rodeo performances are scheduled at 8 p.m. Jan. 27 through Feb. 7; at 2 p.m. Jan. 30 through Feb. 7; and a special performance at 10 a.m. Saturday, Jan. 30.

Comment On Sports

FOOTBALL * * * *

By Pete Fritchle

WASHINGTON, D. C. -- The most disappointing team of the 1981 pro football season had to be the Atlanta Falcons. They were picked by many to win it all and had great talent.

But--in this reporter's view--the team didn't get the leadership from coach and coaching personnel that should have been forthcoming. Time after time, in game after game, the Falcons played--there's no other word for it--dumb football.

Everyone likes Leaman Bennett and he's probably a fine person but he didn't seem to have it between the ears, or his assistant coaches didn't, and you can't win in

the NFL with tactics and play everyone knows and expects.

The team didn't adjust quickly enough to win--and in some games never did properly adjust to the defenses. Two great runners, Andrews and Cain, and a great passer, don't add up to number-one unless there is an element of variety in calls, the unexpected and diversification.

Since all other teams knew Atlanta's strengths and prospects, a little more innovative strategy and play-calling and the use of surprise, was necessary. It was painful to watch the Falcons' poor play calling and missed chances game after game.

A Chill Supper, including dessert, will be served from 5 to 7 p.m. this Tuesday, January 12, before the Spearman-Perryton games. It will be at the Junior High Cafeteria. The cost is \$3.50 for Adults and \$1.50 for children 8 years and under. Sponsored by the Spearman Music Boosters.

8th Lynx Beat Sunray

The 8th grade Lynx traveled to Sunray to play against the tough 8th grade Sunray Bobcats. With the vacation lay-off, the 8th grade Lynx did a good job on beating the Sunray Bobcats--27 to 18.

The fans could tell that the players had had a vacation--there were some shots that just didn't go in, that would have before the vacation time. Coach May said that his team had 47 rebounds--the best for the 8th Lynx in this basketball season. Both teams were the same height, so the 8th Lynx could get in the inside and have a chance to get some rebounds. The 8th Lynx had a good enough Defense to stop the Bobcats from winning the game.

As far as the freethrows--which usually win the game--didn't win the game this time. The Sunray 8th Bobcats shot an amazing 43% of their Free Throws, and the 8th Lynx shot 23% of their shots. In most games, the freethrows would have won the game, but the

8th Lynx made sure that the Sunray Bobcats didn't score more than 18 points in the game. The 8th Lynx also hit 20 percent from the field--that is pretty good.

Jeff Vanlandingham was high point with 10 points. On both sides, there were shots that wouldn't fall in that would have before the vacation. Considering the 2-week vacation, the 8th Lynx did a very good job.

So the 8th Lynx have started off the New Year in very good style. The next "victims" for the 8th Lynx will be the River Road Wildcats. The game will be played this Monday, January 11, beginning at 4:30 or so. Coach May said that the person to stop will be their big inside man. He is really tall, towering over both teams. If they can get him into foul trouble that would be perfect. How will this be done? Coach May and his team have ways of surprising opponents. The game will be played at the Little Gym, so don't miss it.

7th, 8th & 9th Lynx To Host River Road

The 7th, 8th and 9th Lynx will be hosting the River Road 7th, 8th and 9th Wildcats at the Little Gym this Monday, January 11.

The 7th grade Lynx, coached by Dan Shaver, will be playing first--beginning at 4:30. The 7th Lynx will want their 1982 part of their basketball season to be a success--by winning lots of games--and they have the talent to do it.

The 8th grade Lynx, coached by Coach Tom May, have a lot of talent and will want to beat

the River Road Wildcats and start off the New Year with a win over the Wildcats.

The Freshman Lynx, coached by Coach Ricky Smith, have been having a terrific 1st half--the 1981 part of their 1981-82 basketball season. The Freshman Lynx plan on having another terrific half of basketball. They, also, have lots of talent--each one can do 2 or more positions when needed.

Go on out to the Little Gym and check out the action.

8th Lynxettes Lose In Thriller

The 8th Lynxettes planned on starting the New Year with a new look--beating every opponent in sight. Well, this week--Monday, January 4--that almost came true, but almost doesn't count in basketball. The final score was 23 to 22.

Coach Crocker said that the 8th Lynxettes played very well, considering the time off they had. They played a very good game Offensively and Defensively. Anytime a team loses

by a point, that is very heartbreaking. But the 8th Lynxettes are tough, they did lose by 1 single point to the Sunray Bobcats, but they will be getting ready for the 8th River Road Wildcats.

The 8th Lynxettes will travel to River Road to meet up with the Wildcats. The game will be played this Monday, January 11. This is a very tough team, but the 8th Lynxettes will be ready and in shape for this game.
