

THE COUNTY SEAT CONTEST CASE DISMISSED

Spearman Is Assured New \$125,000 Hotel to be Completed by January 1st

County Seat Case In Brief

Called for trial Monday morning at 10 o'clock, before Judge Newton P. Willis.

Motion for continuance by contestants overruled. Postponed until Wednesday morning.

Called again on Wednesday morning; second motion for continuance overruled.

Contestants refused to offer evidence account alleged absence of witnesses.

Contestants answer with promise of attendance of practically all witnesses or depositions during trial of case.

Case dismissed account lack of evidence. Contestants gave notice of appeal to court of civil appeals, Amarillo.

Attorneys for contestants: Fischer & Fischer, Wichita Falls and Reeder & Reeder, Amarillo.

Attorneys for contestants: Judge H. E. Hoover of Canadian, Tatum & Strong, Dalhart.

The 84th judicial district court convened in Spearman on Monday morning, August 19 at 10 o'clock, Judge Newton P. Willis presiding. District Attorney Johnnie Holmesing after the interests of the county.

It is a rather busy session of court, with a large attendance it is decided that the city hall would afford sufficient room, so the sessions are being held in the school building.

Judge Willis empaneled the grand jury and that body has been busy all the week, examining many cases: Six true bills of indictment have been turned in up to Wednesday. All six indictments are felonies. The grand jury is still in session. A number of non-jury cases have been heard and disposed of. One divorce was granted and another pending for divorce was heard and judgment is yet to be rendered.

The County Seat Case

The first case of importance on the docket for this term of court was W. E. Maupin et al. vs. C. W. Gruber, county judge of Hansford county. This case is better known as county seat contest case. The case was called at 10:00 o'clock Monday morning, when the attorneys for contestants made an application for continuance, alleging that material witnesses were absent. The court refused to continue the case the term, but postponed it until Tuesday morning.

The case was called again this Tuesday morning. The contestants made application for a continuance, alleging the absence of some witnesses. The application was denied by attorneys for the contestants, by showing that 26 of the alleged absent witnesses were at that time seated in the court room, and further showing that depositions of 16 of the other alleged absent witnesses could be taken and returned to court by tomorrow, Thursday at, and the attendance of most of remaining witnesses secured during the trial of the case. Contestants did not ask to postpone the case, asked that it be continued for term. The court refused to grant application and overruled the case.

The contestants, through their attorneys, then in open court admitted without the presence of all witnesses named in the application, they would be unable to make out a case and refused to offer any testimony. The court then dismissed the case on the notice of appeal. The case will be heard by the Court of Civil Appeals sitting at Amarillo.

The only question now to be determined seems, is whether the court erred in refusing to continue the case. As the court of civil appeals is already in session at Amarillo and as a sort of case taken precedence over all others, it is thought that the matter of the final location of the county seat of Hansford county will be settled finally and for all time to come within the next sixty days.

Judge H. E. Hoover of Canadian, Tatum & Strong of Dalhart are attorneys for the contestants and Reeder & Reeder of Amarillo and Fischer & Fischer of Wichita Falls are attorneys for the county.

Visiting Attorneys

Among the visiting attorneys here attending upon the sessions of district court are: Tatum & Strong of Dalhart, J. A. Ayneworth of Shinnery, Allen & Allen of Perryton, R. Correll of Perryton, Judge Reeder of Amarillo, Judge Fischer of Wichita Falls, Judge H. E. Hoover of Canadian, Dan Hoover of Canadian, Wallace G. Hughes of Guymon, Ross G. Guyman, and Jno. F. Buckner of Borger.

Bought Wilcox Property

A. Roberts, from 15 miles south of town, recently bought the A. Wilcox residence property in Spearman and will move to town in time for the children to enter school.

Twenty Have Entered City Tennis Tournament

Tennis is becoming quite popular in Spearman. Each afternoon every court in town is crowded with players, and some real tennis players are being developed. Bob Bundy, at the First National bank, is a tennis enthusiast. He and others are sponsoring a city tennis tournament, to begin about September 12. The contest will be for men's singles and doubles, and about twenty contestants have already entered. A small entry fee is charged the contestants. This money will be used in buying trophies for the winners and in paying the cost of putting the court in first class condition. If interested in tennis and the tournament, see Mr. Bundy at the bank.

Big Auction Sale Of Jersey Milk Cows

W. W. Harbour is advertising a big sale of Jersey milk cows, to be held at the home of his brother, R. E. Harbour, 20 miles southwest of the Spearman-Shinnery road on Tuesday, August 27. About 35 head of Jerseys will be in this sale, and they are all fine young stock. If interested in real milk stock, it will pay you big to attend this sale.

Gruver Wins Fast Ball Game Sunday

Spearman and Gruver played a real ball game last Sunday afternoon on the Gruver grounds. The score at the end of the game stood 6 to 2 in favor of Gruver. Many Spearman folks went out to see the game and reported a good clean game from beginning to end. On next Sunday afternoon these teams will play in Spearman. The game will begin promptly at 3:00 o'clock, and present indications are that it will be one of the best and fastest games of the season. Manager Prewitt states that the Spearman team will be in shape for a hard battle, and confidently believes that the home boys will get away with the long end of the score.

Sauer's Furnishings Store Sale Is On

Mr. and Mrs. Otto Sauer announce a big sale at their ladies and men's furnishings store, on the east side of Main street. The sale will begin today, Thursday, and continue ten days. Mr. Sauer states that he has reduced the price of everything in the store, and while in the business is even reducing his own weight. Mr. and Mrs. Sauer have a nice line of goods and are offering some real bargains. It will pay you to visit their store during this big sale.

Moved to Gruver

Spearman lost two mighty fine folks when Mr. and Mrs. P. H. Weirfield moved to Gruver. They have established themselves in the mercantile business at Gruver and are doing nicely. Their store is located in the Dillow building, next door to the Gruver Hardware. Their many friends here will miss them from the sales force of the W. L. Russell store, where they have been employed for several years, but wish them much success in their new undertaking.

Mr. and Mrs. Walter Beck are happy over the arrival of a fine 9-pound daughter at their home, born on Wednesday, August 21.

L. S. Cotter came from Odessa last week and is a guest at the Mrs. J. D. Cotter home near Spearman, and at the Frank James home, 12 miles southwest.

Chester Mitts son of Mr. and Mrs. Geo. Mitts who has been suffering for the past year from a broken leg is very much improved. Chester has to use only one crutch now. His many friends are glad to know he is getting along so well.

Prof. and Mrs. A. H. Wilcox are spending the week in the city, guests of friends. Mrs. Wilcox had the misfortune to sprain her ankle early in the week, but is improving nicely at this time. They will leave today or tomorrow for their new home in Montezuma, New Mexico.

A. W. Johnson, prosperous farmer, was an interesting visitor to this shop on Tuesday morning. Mr. Johnson owns the J. R. Good old farm out south of Spearman, having purchased the same a year or so ago. He had the same community from near Erick, Oklahoma, where he still owns 800 acres of land. Mr. Johnson is an old, old time friend and acquaintance of J. G. B. Sparks, but he seems to have entirely outgrown this handicap of his more youthful days.

Business Houses Will Close At 7:00 For A While

A number of the business concerns of Spearman have decided that it is not necessary to keep their places of business open later than 7:00 p. m. these hot days, and have agreed to close the same at that hour. Now, that the busy harvest season is passing, there really is little need of the stores remaining open later than 7:00 p. m., and by closing at that hour the tired clerks have a chance to get a little fresh air in the open before bedtime. The firms agreeing to close at seven, beginning August 26, are: Burran Brothers, P. M. Maize & Co., Spearman Hardware, Spearman Dry Goods Company, W. L. Russell, Campbell's Store, Stone-Merritt & Company, Thomason Brothers, Hill Brothers. The agreement will remain in effect until discontinued by mutual agreement.

FIFTEEN LICENSES SINCE AUGUST 5TH

Court Clerk Ellen Johnson reports the issuing of fifteen marriage licenses since August 5th. In addition to those whose names have appeared in social news in the Herald there were: Guy Brackett of Guymon and Miss Alta Yarborough of Goodwell; W. S. Daniels of Wichita and Miss Selma Gosser of Hooker; Carson Edward Loudermilk of Hartley, Texas, and Miss Anna Theo Hunt of Dalhart, Texas; Marion A. Derwesler and Ruth Lucille Tunebach, of Pampa, Texas; Wilson Weed of Abilene, Texas, and Miss Mary Alice Trees of Dallas, Texas; Orville Slaughter and Miss Violet Dunn of Hooker; A. D. Farmer and Miss Edith Mize of Booker, Texas; Lloyd Tyler, Gray, and Miss Gladys Brinkley, Range; John Richter and Miss Viola White of Elkhardt, Kansas; Frank B. Barney and Miss Billy E. Couch, of Sublette, Kansas; Abel Joseph Spruill and Miss Anna Dorothy Klenberg, of St. Louis, Mo.

A glance at the marriage licenses issued in Guymon during the last two weeks shows what those young people of Texas think of their state law requiring them to advertise their marital intentions for five days. It is making business for the Court Clerk here, and the judges and ministers.—Guymon Herald.

Big Dance at N. T. N. Park

A big dance is advertised to take place at N. T. N. park, twenty miles west of Spearman on Wednesday night, August 28. Everyone is invited to attend and take a part in the fun-making. Good music and good order is guaranteed.

THINGS TO FORGET

- Faultfinding, nagging and worrying.
- Taking offense where none is intended.
- Dwelling on fancied slights and wrongs.
- Talking on big things and doing small things.
- Scolding and flying into a passion over trifles.
- Boasting of what you can do, instead of doing it.
- Talking continually about yourself and your affairs.
- Depreciating yourself and making light of your abilities.
- Saying unkind things about acquaintances and friends.
- Exaggerating and making mountains out of molehills.
- Lamenting the past, holding on to disagreeable experiences.
- Comparing yourself with others to your own disadvantage.
- Waiting around for chances to turn up. Go and turn them up.
- Writing letters when the blood is hot, which you may regret later.
- Thinking of yourself to the exclusion of everything and everyone else.
- Carping and criticizing. See the best rather than the worst in others.
- Dreaming that you would be happier in some other place or circumstances.
- Speculating as to what you would do in someone else's place, and do your best in your own.
- Dilating on your pains and aches and misfortunes to anyone who will listen to you.—Liberal News.

Mrs. Fred Glover and little son and her mother, Mrs. S. H. Powers, all of Benjamin, visited from Sunday until Wednesday in the T. F. Glover home in Spearman.

Ruth Prutsman of the Reporter force, who with Mr. and Mrs. John L. Hays and daughter Alta, are vacationing in California, writes that they have spent a very pleasant two weeks and are making preparations to return home the first of next week.

Mr. and Mrs. H. T. Henry and little daughter Helen, of Indiana are guests of her parents, Mr. and Mrs. G. R. Wilson of Perryton. On Tuesday afternoon, accompanied by Mr. Wilson, they visited in Spearman, and were pleasant callers at this office.

Hill Brothers Adopt Hokus Pokus Plan

The Hill Brothers Grocery and Market is now operating on the Hokus Pokus plan. Hill Brothers have built up a mighty good business during the short time they have been in Spearman and state that they are adopting the Hokus Pokus merely for the purpose of getting in a position to better serve their large and growing list of patrons. Under this system a customer may help himself or be waited on in the usual manner. He may take his choice. This popular grocery and market carries a splendid line of goods and enjoys a good business.

PICNIC, RODEO AND FREE BARBECUE AT DUMAS

Dee Hutton was in from his Moore county ranch Monday of this week, and was inviting the people of Spearman to attend the big rodeo being put on at Dumas next Friday and Saturday, August 30 and 31. There will be plenty of amusement for all, and a big free barbecue will be served to those attending the picnic. It is to be an old fashioned picnic and rodeo, with plenty of fun for all. A big dance will be staged both nights. The people of Dumas are planning to entertain large crowds, and invite you to be their guests on these two days.

The Farm Sale Season Is Opening Up

This is the season of farm sales. We this week are printing sale bills advertising a big farm sale at the J. A. Roberts place, 15 miles southwest of Spearman. Littleton & Steffen of Perryton will cry this sale and it will be headed by the First National bank of Spearman. Mrs. Roberts is advertising a large list of live stock and farming implements. Included in the list is a bunch of fine Jersey milk cows and registered hogs. This sale will attract considerable attention, as the stuff offered is good and is in demand at this time.

HEY! SCOUTS!

Just a few more days before time for the Guymon-Spearman camp. The camp starts next Thursday and scout meeting will be on Tuesday. All of you fellows who are planning on going be at the church next Tuesday for scout meeting at 8:00 o'clock, or you won't have a way to go, as we won't count on you in making our plans.

BLESSED BREVITY

There is a story, so old that to some it may be new, of an Irish section foreman who, being told to cut down his lengthy and loquacious reports, achieved a real epic of brevity in reporting the derailing of a fast freight when he wrote: "Off agin, on agin, gone agin—Finnegun!"

Even though our grandfathers may have chuckled over this story, it still points us to the real value of brevity. Almost every day we must listen to those who ramble on and on in their conversation, talking so much that they have little time to think of anything worth saying. Such random discourse is a sign of the unorderly mind, mental processes fast losing their power through lack of use.

The more we think, the less we have to say; for logical thought disposes of many considerations and leads us to conclusions which can be more briefly stated.

We hold no brief against conversation which follows thought. It is when the order is reversed, or thought dispensed with altogether, that we are bored. How easy it is to slip into the habit of just talking, or that even worse affliction of reminiscing of things or occurrences of trivial, uninteresting, pointless nature—incidents in the old home town, back on the farm, etc.

How often do men belittle themselves by what they say, being so eager for speech that their sentiments or expressed opinions do not truly represent their real beliefs or convictions. Blessed is brevity of speech, for it gives time for thought.—Southwestern Ambassador.

Edd Close Buys The Model Residence

The model five-room, modernly equipped residence built by J. R. Collard on school house street, was this week bought by Edd Close, prosperous wheat farmer of the south part of the county. Mr. and Mrs. Close will move to town in time for the children to enter school. As usual the Spearman schools are drawing many families, of the very best type, to Spearman.

DALHART GOLF CLUB EXPECTS LARGE ENTRY

A tempting array of cups, trophies and special prizes are being arranged by the Dalhart Golf club for its first annual invitation tournament to be held there August 31 to September 2. Eighteen prizes have been secured and included in the list will be trophies for the best attendance and the best team play from visiting clubs.

There will be four flights and suitable prizes for the winners and runner-up of each flight. The list of prizes are expected to tempt a large entry list from the more than 20 clubs that have been invited.

August 31 and September 1 will be given over to qualifying rounds of eighteen holes each. Match play will be held the two following days. A supper will be held on the night of September 2 for the visiting players. George Ainsworth, Henry Tuck and Ralph Waite are members of the tournament committee.

Chevrolet Sales Force Wins High Honors

The McClellan Chevrolet Company sales force contributed its bit toward making possible the announcement extending the Chevrolet advertising the past two weeks: "Over a million sold in eight months." The local force sold 475 per cent of their quota for the month of July, this being only 25 per cent short of a perfect score. The record made by the local boys was the best made in the Amarillo zone and second best in the Amarillo region, consisting of seven zones, which cover practically all of the southwest. The local Chevrolet sales force are justly proud of this splendid record for July.

MERGERS - CONSOLIDATIONS

It is funny how the public thought has changed as to business. A few years ago mergers and consolidations were called trusts and frowned upon in no unmistakable manner. The public had conceived the idea that the big company would rob the people, while it held the idea that the little business was forced to be honest.

Perhaps business ethics have changed to such a degree that the movement for mergers and consolidations which we see today no longer causes the public to mistrust the big business firm. "The public be damned" policy of yesterday has been replaced with a more or less golden rule attitude of today.

There is no longer doubt as to the efficiency of present day manner of doing business over the policies of a few years ago. That is clearly seen in the manufacture of automobiles, and the management of railroads. The public always gains when two or three struggling institutions are replaced by one strong institution which seeks to serve the public in a better manner.

Newspaper consolidations were formerly looked upon with suspicion. Twenty years ago it was the rule to have two or three weeklies in a town like the size of Canyon, while a town like Amarillo would have three or four starved dailies. The public sees today that one good newspaper in a field is better than two or three poor ones, and chooses to encourage mergers and consolidations.

All of which leads one to firmly believe that business is conducted on a more ethical plane than twenty years ago; and that the public is being better served today than ever in the past on account of better business institutions.—Canyon News.

Appendicitis Operation

Earl, the six year old son of Mr. and Mrs. Jess C. Daughette, was operated on for appendicitis at the Spearman hospital on Tuesday afternoon, by Dr. Spencer. Today, Thursday, Earl is getting along fine and well on the road to recovery.

Mr. and Mrs. J. P. Richards, Mrs. J. H. Richards and daughter Mae, visited in Borger Sunday afternoon.

Mr. and Mrs. J. E. Hays of Amarillo are visiting and attending to business matters in Spearman this week.

Sid Powers and family, Horace Faye and family and Mr. and Mrs. K. C. Lowe returned the last of the week from a trip to Colorado and New Mexico.

With the completion on Monday of negotiations pending for a week or more between E. P. Spears of Wichita Falls, and the Spearman chamber of commerce, this town is assured ample and adequate hotel facilities in the very near future. The local chamber of commerce accepted a proposition offered by Mr. Spears and he will in the very near future begin the erection of a modern hotel building here. The hotel building is to be 50x130 feet, three stories high with full basement.

The ground floor will be cut into store rooms, hotel offices, etc., and the remaining two stories will be hotel rooms, of which there will be about forty; each of which will be supplied with bath and otherwise modernly equipped.

Mr. Spears says there will be no more modern or comfortable, home-like hotel in all North Texas, when this hotel is completed.

The building will be located on Main street, in the heart of the business section. Architects are now drawing the plans and contractors are figuring the costs, etc., and it is thought that actual construction of the building will begin within a few weeks, to be completed by January 1, 1930. The cost of the hotel building will be in the neighborhood of \$125,000.00.

Kinfolks Enjoy Reunion At Lyon Home Sunday

An enjoyable family reunion and all-day visit of kinfolks was held at the home of Mr. and Mrs. Perren A. Lyon in Spearman on last Sunday. The crowd enjoyed a big dinner prepared by Mrs. P. A. Lyon, Mrs. F. M. Lyon and Mrs. A. F. Barkley, and the day was most pleasantly spent in reminiscence of days gone by. Those present were: Miss Elizabeth Lyon from Denton; Mrs. J. W. McCleskey, Howell McCleskey, Mr. and Mrs. J. F. McCleskey and Miss Eleanor McCleskey from Dalhart; Dorothy and Harvey Cherry and Walter Pipes from Shreveport, Louisiana; Mrs. H. E. Vaughn and Master Edward Vaughn from Mineral Wells; Mr. and Mrs. F. M. Lyon and daughters Dorothy, Winnifred, Jean and Catherine; Mr. and Mrs. A. F. Barkley and daughters Virginia, Reba and Gertrude and son Freeman, and Mr. and Mrs. P. A. Lyon and son Perren Jr.

Young Folks Will Attend Business College

Mrs. Yarnall has been working in Spearman for the past few weeks in the interest of Shinn's Business College of Oklahoma City. Reservations have been made for the following pupils in the fall term: Almeda Gay, Zelma Gay, Nettie Lee Williams, Gordon Park, Auburn Curtis, Clarence Gill, Will Beay, and Daniel Sheets. Zelma and Almeda Gay and Nettie Lee Williams left Sunday and entered school last Monday morning. The boys will enter on September 16.

Funeral Coach Will Arrive In Two Weeks

G. R. Wilson of the Wilson Funeral Homes, informed the Reporter on Tuesday that the combination ambulance-funeral coach which he has purchased for use in Spearman, will arrive within two weeks. This fine coach, added to the equipment of the Wilson Funeral Homes in Spearman, will be a great convenience to the people of this section.

PHYSICAL TESTS FOR GRAY COUNTY TEACHERS

Gray county is the only county in the state to require physical tests for teachers, according to County Superintendent John B. Hessey.

All teaching places in the county school system are complete, but not all teachers have turned in their physical examination certificates.

About 50 teachers will be employed in the county schools this year. Institute work will begin September 2, at Canyon. Enrollment of students will begin on Thursday and Friday, and recitations taken up September 9.

Five new brick buildings have been constructed among the 16 county schools the past 12 months, all of which will be ready for the new term except those under construction at Laketon and Eldridge.—McLean News.

Selling "66" At Hitchland

K. Fred Cline this week sold his Spearman residence property to W. A. Sutton, and has moved his family to Hitchland, where he will sell the famous "66" gasoline. K. Fred is an energetic young man and will make the Phillips people a splendid representative.

Read every issue of the Reporter.

DAIRY COW IS MACHINE FOR MAKING MILK

To produce milk a cow must get the ingredients necessary to furnish the various elements of which milk is composed.

Milk is a very complicated product. A cow is simply a machine to convert feed into milk. She takes the feed provided and without adding anything compounds the ingredients of the feed to make milk. Different food products, however, are required to make the different parts of milk, and if one of these parts is not furnished, something will be lacking in the milk. In such a case the cow is forced to draw on the reserve which she has stored up from former excesses of this ingredient. This cannot last long, however; the cow will lose weight and soon other complications will set in.

On the other hand, if too much of a certain food is supplied, it is stored up as body fat or wasted. Balanced rations prevent either of these two extremes.

Balanced rations consist of feeding the proper ingredients in the proper proportions and in sufficient amounts.

Water is the main content of milk, and cows must have it in abundance. It is said that a cow should have five times as much water every day as the milk she produces.

Butter fat and milk sugars are also important in milk production. These ingredients may be had in abundance through feeding of home grown grains.

Another important part of milk is called curd. This part is furnished from the protein part of feeds. Home grown feeds do not contain sufficient amounts of protein, and it is necessary to buy protein concentrates, such as linseed meal, to mix with home grown feeds.

A ration recommended for heavy producing dairy cows, which furnishes all the ingredients necessary for milk production, may be made up from 200 pounds ground corn, 200 pounds ground oats, 200 pounds wheat bran, and 400 pounds linseed meal. Feed one pound of this ration for each 3 or 4 pounds of milk per day, with 36 pounds silage and 12 pounds timothy hay for roughage.

RURAL EDUCATION

Rural boys and girls, some say, are denied their rightful share of the educational advantages offered by this country. The great disparity in equipment and salaries paid for educating a pupil in the city and in the country is cited. The absence of experienced teachers and the lack of capable supervision over rural education together with many other such like matters are brought to attention.

The alarmists who are distressed over the misfortunes of the country child in the matter of education present an imposing case. But some times we wonder if they tell the whole truth even though we cannot question the veracity of any of the statements given. Do they tell only part of the story? Is the country boy and girl really so unfortunate? We think not.

The value of an education cannot be measured by its cost. A capable teacher on one end of a log and a willing student at other constitutes a first class university.

Country children benefit as much as they lose by the lack of equipment. Having no elaborate gymnasium paraphernalia and no well equipped laboratories they are often forced to devise ways of finding entertainment and of working out their experiments for themselves. This stimulates the inventive genius which is always best nurtured by necessity.

Let no man assume that rural education has been at a standstill in recent years. The old days of the three Rs and a goodly application of the rod are passed. We now have ways of keeping the farm boy and girl interested in his school work—stimulated by such wonderful movements as 4-H club work.

In his club he learns not only how to play but how to tackle the business problems he must encounter later in life. He learns how to figure costs, how to keep outgo below income, and how to apply science to the business of farming.

SELFISHNESS

We agree that many community "boosting" enterprises are dictated by selfishness on the part of the sponsors. Men in business feel that they will profit as the town forges to the front.

But who can deny that their work brings much benefit to every local citizen? As the town advances in the industrial or business way isn't the average citizen, the wage earner and the salaried employee, improved? Doesn't the industrial development of a community mean a better chance for a steady job with good pay than business stagnation?

Again we agree that Spearman's enterprising citizens who are boosting to make this a better town are actuated by the motives of selfishness. But in the editor's opinion more good has been accomplished through broad gauged selfishness than through any other human motive.

FOR SALE

One section of land, four miles west of Spearman, at \$32.50 per acre. Write Dr. Haney, Spearman, Texas. 3614p.

FOR SALE

Lots 10, 11 and 12, block 2, Spearman. Write offer. O. E. HOWELL, Washington, Oklahoma.

IN THE MARKET FOR CATTLE

I have several orders for cattle to feed, for both immediate and fall delivery. Also, still buying shipping cattle. If you have anything for sale, call me. I am trying to pay top price. 25tf.

BOB ARCHER, Phone 128, Spearman.

A MATTER OF POLICY

Our columns are always open for the expression of the honest opinions of our readers. It matters little whether we agree with their written views or not. We believe in the principle of free speech. We feel that the common sense of our readers will reject error of opinion.

But our columns are always closed to the backbiter, the malcontent who seeks to further his own ends by pointing the finger of suspicion toward others. We will publish honest differences of opinion. We will not give circulation to obvious falsehood that questions the motives of people whom we know to be honest.

We adhere strictly to our own rights to express opinion. We do not expect to gain thereby the enmity of those among our readers who hold different views. We grant to others the same right, and shall never cause a difference of opinion to destroy good friendship.

This is our policy. We feel that the newspaper is a semi-public institution. We believe that it is our duty to our readers to present all sides of an issue. But it is likewise our responsibility to prevent irresponsible individuals from injuring the reputations of others.

A GROWING MOVEMENT

A trip to the National Dairy Show at St. Louis in October of next year is one of the inducements held out to 4-H club members of this section for exceptional work during the coming year. It is open to advanced dairy states, consisting of New York, Pennsylvania, Ohio, Indiana, Michigan, Wisconsin, Illinois, Minnesota, South Dakota and North Dakota.

In addition to the trips awards there will be gold medal awards to each county winner. The contest is sponsored by the Linseed Meal Educational Committee.

This is an indication of the present importance of the 4-H club movement and of how it is attracting financial support of various industrial interests. These prize awards are bound to stimulate interest in the work and help lead the future farmers of the country into practical studies of the problems of agriculture that will have a material effect upon the prosperity of our entire agricultural population in years to come.

The 4-H club movement, we have long maintained, is one of the greatest educational enterprises in this entire country. Some idea of its practical character was given the editor not long ago by a set of figures from a county in which the work is not even well developed.

There an interested party compiled figures from records showing that the boys and girls who engaged in this work made a profit on their work totalling nearly \$5,000.

This is merely evidence of its practical value. Now that the movement is receiving support from many industrial sources, it is probable that 4-H membership rolls in the future will include practically 100 per cent of the youthful population on American farms.

WE AMERICANS TALK MOST OF ALL THE WORLD PEOPLES

Americans are the greatest talkers in the world—by telephone. Annual per capita telephone conversations in the United States are 224.7. Denmark, the highest in Europe, averaged 136.8 conversations per capita. Germany, 35.5, Great Britain 28.6 and France 17.2. The only other country with over 200 telephone conversations per capita is Canada, with an average of 221.5.

It's perfectly amazing how suddenly a little gossip will divert attention from an intellectual conversation.

Now look for it everywhere

[THE NEW EMBLEM DEDICATED TO BETTER MOTORING]

What the MARLAND CONTINENTAL Merger MEANS TO MOTORISTS

THE consolidation of the resources and facilities of the Marland Companies and the Continental Oil Company, under the latter's name, is more than a corporate merger. It is a happy union of well balanced production, manufacturing and marketing operations from which will come a host of unusual advantages to the millions of customers and thousands of distributors.

Wide Field for Crude Selection
Out of a total area of more than two and one quarter million acres in eight states, Continental selects the crudes best suited for its manufactured products. Raw materials for oils, greases and gasolines may often come from widely separated regions. Continental controls its own crude supply and chooses the best for each refining operation and thus assures a standard uniform output from year to year.

Strategic Location of Eight Refineries
Economical and efficient operation of petroleum manufacture frequently depends upon the relative locations of the raw product, the refinery and the market. Continental is fortunate in that its eight modern manufacturing plants are well placed to afford prompt and economical delivery both before and after refinement. These properties are located at Baltimore, Maryland; Ponca City and Sapulpa, Oklahoma; Artesia and Farmington, New Mexico; Wichita Falls, Texas; Florence, Colorado; and Glenrock, Wyoming.

Exclusive Processes Insure High Quality
Continental refinery engineers enjoy a national reputation in the oil business. Not only have they adopted the newest and most efficient mechanical equipment for these big refineries but they have designed machinery and developed processes which are exclusive to this company. Under centralized control, these facilities now are made available in the manufacture of petroleum products of exceptional quality.

Conocoland Covers Tremendous Area
More than forty years marketing experience has spread the distribution of Conoco products over an area which reaches from the western slope of the Rockies, far east to the Mississippi River. Practically half of the United States is dotted so closely with Conoco Stations that a motorist may drive anywhere in that tremendous area without introducing other than Conoco products to his car. The outposts of Conocoland range from the Pacific Northwest to the shores of the Great Lakes and from the Atlantic Seaboard to the California boundary.

Prestige Established in Foreign Lands
The Continental coastwise and export fleet operate from terminals at Texas City, Texas; Newark, New Jersey; Baltimore, Maryland; and Norfolk, Virginia; to a dozen foreign countries. Petrol pumps deliver Conoco gasoline to automobilists in the shires of England and Conoco motor oils lubricate industrial plants in north Europe, South America and the Orient.

In brief, the joined forces of these two great companies afford greater, better service to the users of motor fuels and lubricants wherever the sign of the Red Triangle is displayed.

State Fair Catalogues Ready to Send Out

AMARILLO, Aug. 15.—With 50 catalogues sent out all over the state and Tri-State territory, general prospective exhibitors at the State Fair, September 23 to 29, have already signified their intentions to enter one or more exhibits at the fair. Wilbur C. Hawk, president, announced here today.

According to Mr. Hawk, present indications point to the greatest Fair in the history of the exposition. It is expected that there will be nearly four times as many exhibitors as at the fair as showed previous years.

Considerable interest has been shown from all sections of the territory. Mr. Hawk said, and the free show, mammoth Hagenbeck-Wallace show and other attractions are expected to help in breaking all attendance records.

Farmers, stockmen and others who intend to show at the fair this year have not yet received their catalogues and are urged to write at once to Wilbur C. Hawk, President, Tri-State Fair Association, Amarillo. Any information about the exposition will be furnished free immediately upon request.

COOL, COOLER, COOLEST

Not every one can seek the mountain glades, crystal cool lakes or shady peaks when the temperature mounts; and yet if a thinking person will observe a few rational rules, it is possible to keep both well and cool in hot weather. First of all, do not let the mind dwell upon the weather, but keep the eyes upon the thermometer—watching all the while to measure the heat.

When the weather is hot, the surface blood vessels are expanded and the sweat glands bathe the body with perspiration. By evaporation, the body is cooled, the rapidity and degree of cooling depends upon the rate at which the air is moving. Drafts are harmless in the summer time unless the cooling depends upon the rate the air is moving. Drafts are harmless in the summer time unless the cooling of the body is too rapid. A fan is as useful to the human machine as it is to an automobile. A daily bath keeps the pores open. Some exercise is essential, but over exercise in the hot sun should be avoided if possible.

Remember in dressing that dark colors absorb heat; and that loose fitting clothes allow greater freedom of movement than those which are tight or confined at any point. Foods do influence body heat. Hot weather is not the time for a high protein diet. Such choice of food causes a notable rise in temperature. One should be extremely careful to eat no over-ripe fruit, or tainted or spoiled food.

Drink plenty of good, cool water

and extra amount is needed in the summer on account of the activity of the sweat glands. Both cold and hot beverages induce perspiration, and if the humidity is not high, speedy evaporation may take place which results in loss of heat. Cold beverages take the body heat to warm them in the stomach and will carry away heat when they are eliminated from the body; hence are very valuable if not taken too fast or too cold. Plenty of sleep or at least plenty of rest even if it is hot to sleep, will aid in keeping one strong and well during the hot weather.

Lead a moderate well balanced life during the hot days, and get plenty of rest.

The positive, comparative and superlative degrees of heat rest almost altogether on the behavior of the individual and his attitude toward the weather.

NOTICE

THE STATE OF TEXAS

To the Sheriff or any Constable of Hansford county, Greeting:

You are hereby commanded to notify all persons concerned by publishing in a newspaper published in Spearman Independent Road District No. 1, Hansford county, Texas, and the limits and boundaries of which are described and defined as follows:

Said Road District is composed of Commissioner's Precinct No. 1, of Hansford county, Texas, and the limits and boundaries thereof are as follows: Commencing at the N. W. Cor. of Sec. 109, Blk. 45, H. & T. C. Ry. Co.; Thence south along the west line of Sections 109, 110, 122, 131, 138, 147, 154, 163, 170, 179, 180, 189, 190 & 191 in Blk. 45, H. & T. C. Ry. Co.; Thence south to the south line of the county, and this line shall be known as line No. Two. Then commencing at the N. W. Corner of Sec. 109, Blk. 45 H. & T. C. Ry. Co.; Thence east along the north line of Secs. 109, 108, 107, 106, 105, 104, & 103, in Blk. 45, H. & T. C. Ry. Co.; to the N. W. Cor. of Sec. 3, Blk. 4T, T. & N. O. Ry. Co.; Thence east along the north line of sections 3, 4, 5, 6, 7, 8, & 9, in Blk. 4T T. & N. O. Ry. Co.; Thence due east to the east line of the county, and this line shall be known as line No. Three; Thence due south with the east county boundary line to the Southeast corner of the county; Thence due west with the south county boundary line to the point of intersection of line No. Two, with the south county boundary line; All of that portion of the county lying south of line No. 3 and east of line No. 2, constituting and being known as Spearman Independent Road District No. 1, as

Commissioners' Precinct No. 1 of said county is described in Vol. 1, page 335 and 336, of the minutes of the Commissioners court of Hansford county, Texas, which also includes the town and municipal corporation of Spearman in said county,

for three successive weeks, and by posting notices in at least three public places in said Road District, and at the court house door of Hansford county the following notices of election:

NOTICE OF ELECTION

To All Persons Concerned:

Notice is hereby given that on Monday, August 12th, A. D. 1929, the Commissioners Court of Hansford county, Texas, entered an order that an election be held, and notice is hereby given that an election will be held in accordance with such order on the 14th day of September, A. D. 1929 between the hours of eight o'clock A. M. and seven o'clock P. M. at the City Hall in the City of Spearman, in Spearman Independent Road District No. 1 of Hansford county,

Texas for the purpose of determining whether or not the bonds of Spearman Independent Road District No. 1 of Hansford county, in the sum of Two Hundred and Forty Thousand Dollars (\$240,000.00), and bearing interest at the rate of five and one-half per cent (5½) per annum shall be issued for the purpose of the construction, maintenance and operation of macadamized, graveled and paved roads or turnpikes, or in aid thereof, for the improvement of State Highway No. 117 and its connecting roads in said Road District, and for the purpose of determining whether or not ad valorem taxes shall be levied and collected annually on all taxable property in said Road District subject to taxation sufficient to pay the interest on such bonds and provide a sinking fund for the redemption thereof at maturity, which bonds shall mature not later than thirty years from their date, and shall be issued on the faith and credit of said Road District in such denominations and payable at such time or times as may be deemed most expedient by the Commissioners Court of Hansford

Texas, this the 13th day of August, A. D. 1929.

Issued this, the 13th day of August, A. D. 1929, J. E. Womble, county clerk and Ex-Officio Clerk of the Commissioners Court, Hansford county, Texas.

J. E. WOMBLE, County Clerk, and Ex-Officio Clerk of the Commissioners Court, Hansford county, Texas. 3814

HEREIN FAIL NOT, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

Men worry a lot about their hair—when it's half gone.

Given under my hand and seal of said Court, at office in Spearman

A lot of people are broadminded until they come up against a practical problem.

Treat Your Seed Wheat

—With—

Cupro - Jabonite

The South Dakota State College of Agriculture, Brookings, South Dakota, in their extension circular Number 238, dated February 1927, entitled "Treating Seed Grains in South Dakota," by Ralph E. Johnson, extension Agronomist, makes the following statement:

COVERED OR STINKING SMUT OF WHEAT

"Stinking smut is one of the most serious. For each per cent of smut damaged to the South Dakota wheat crop each year, there is lost over \$300,000 considering average production and farm price for the past five years.

"The use of Copper Carbonate Dust is recommended to control this disease. This is a very fine, light green powder. The Copper Carbonate Dust of about 20 per cent copper equivalent or the so-called 'extended form' is recommended.

"USING COPPER CARBONATE—Use two or three ounces per bushel depending upon the severity of infection. Avoid heavy, bluish or coarse powders. It is very essential that each kernel of wheat be thoroughly coated with the copper carbonate dust. This means that the dust must be very fine and the wheat and dust be thoroughly mixed. From one to two minutes of mixing should be sufficient. If possible, use a home-made machine, a churn or a special manufactured dusting machine. A concrete mixer with a tight fitting, temporary cover is satisfactory."

CAUTION—Cupro-Jabonite is poisonous. When treating wheat a mask or at least a dampened handkerchief should be tied over the nose or mouth. Copper-Carbonate dusts irritate the mucous membranes of the nose, eyes and throat, and inhaling the dust for any length of time should be avoided.

A Safe, Sure and Economical Method of Killing Smut in Wheat.

Call at our store for further instructions in the use of Cupro-Jabonite.

ANNOUNCING
A VARIETY OF COLORS
on the Chevrolet Six
at no extra cost!

In keeping with the progressive policies that have carried Chevrolet to record-breaking heights of success—the new Chevrolet Six is now made available in a wide variety of colors at no extra cost.

Still further enhancing the inherent beauty of the marvelous bodies by Fisher, these striking new colors give to the Chevrolet Six an order of smartness unapproached in any other low-priced car in the world.

And when you drive the Chev-

rolet Six, you will realize that its performance is equally as outstanding as its beauty. It flashes away at the traffic signal. It tops the steepest hills with an abundant reserve of power. The steering wheel responds to your slightest touch. And the quiet, non-locking, four-wheel brakes are unusually quick and positive in action.

Come in today. See this sensational Chevrolet Six which actually sells in the price range of the four.

The Roadster, \$525; The Phaeton, \$525; The Coach, \$595; The Coupe, \$595; The Sport Coupe, \$645; The Sedan, \$675; The Imperial Sedan, \$695. All prices f.o.b. factory, Flint, Mich.

COMPARE the delivered price as well as the list price in considering automobile values. Chevrolet's delivered prices include only reasonable charges for delivery and financing.

A SIX IN THE PRICE RANGE OF THE FOUR

The SPEARMAN REPORTER

Successor to the Hansford Headlight Nunn-Warren Publishing Co., Inc., Publishers

PUBLISHED EVERY THURSDAY ORAN KELLY Editor and Manager Telephone No. 10

\$2.00 PER YEAR IN ADVANCE In Texas and Panhandle Strip of Oklahoma; \$2.50 per year elsewhere.

Entered as second class matter November 21, 1919, at the post office at Spearman, Texas, under the act of March 3, 1879.

This writer once read a little story written by Elbert Hubbard about folks who failed to remember small debts, and never paid them. We would like to read that story again, and print it. A small debt—the 10c to \$1.00 kind—is a debt just the same as the \$25 to \$100 kind. There is no difference in so far as principle is concerned. And a 25c account requires the same amount of book-keeping as a \$25 account.

The Lions club of McLain at a recent luncheon voted unanimously to refer all outside solicitors for advertising donations to a central committee for investigation and endorsement, or otherwise, as the committee finds the plan to be or merit or not deserving of any support. This plan is to be at the service of any merchant of McLain, regardless of membership in the club, and all beggars and schemers who blow into McLain will have to have the "ok" of this committee before they begin to make a clean-up in that good town. Folks everywhere are getting sick and tired of bums, beggars and dead-beats.

The advertising, soliciting and begging grafters are hot after the money that has been left in Guymon and surrounding country by the good wheat crop. They always follow the easy picking in the wake of good crops. Our farmers and citizens should remember that they are paying for the upkeep of the unfortunate of their own county and communities and that the floaters are nearly always unworthy sharpers. True, charity begins at home, and not in the encouragement of floaters to prey upon the unsuspecting, with cheap merchandise or begging pleas. Worthy people or concerns are sustained in their home communities.—Panhandle Herald.

Read every issue of the Reporter.

"TO OBEY" IS NEEDED

I Sam. 15:22: "And Samuel said, Behold, to obey is better than sacrifice, and to hearken than the fat of rams."

There isn't any difference in this respect from the old times of Samuel, the Prophet, and the present time, for the lesson of obedience is one of the great things this country needs mightily; as a matter of fact, maybe we need it now more than then, for do you remember of any Crime Commission as being necessary in those old days? Think of this next time you are tempted to take on a cargo of "cawn" or home-brew.

WHO'S YOUR BOOTLEGGER

While Spearman may not have its full quota of liquor bootleggers, it must be obvious to most of our good citizens that we have an over-abundance of men and women who are bootlegging many necessary commodities. And paramount among these are the bootlegging peddlers who go from house to house, looking for a sucker. These people haven't a dime invested and know comparatively nothing about the goods they sell, but they will sell you anything from a package of pins to an automobile, and will "commission" you to your destruction if you listen to their chatter. Home merchants build up a nice business on the high standard of service and quality they give their customers. The customer should appreciate this, and should not link himself up with a bootlegger who can not stand squarely behind the goods he sells, because he does not stay put in one place from year to year. The goods you buy of a bootlegger may be bought of the home merchant at a profit to both the merchant and the purchaser. The peddler does nothing to merit your business confidence.

Some fellows are always trying to take all the pleasure out of the lives of the fair sex by making light of their peculiarities, as they are termed. A cartoonist lately tried his hand on this in the way of dress or undress as he terms it. As he sees the matter, and he claims to be a close observer, she will sit around the parlor with a dress on short enough to show at least three or four inches of naked hide between where the stocking—if any—and where other feminine wearing apparel starts, but she is dressed up. She will lay out on the beaches with two-thirds of her anatomy exposed, but that's regular, too. She appears at the opera or dance with her spinal column exposed from end to end, as well as a lot of her womanly chest—still in prime form. But says the critic, she won't let her most intimate male companion see her in her pajamas, which includes a fur collar reaching from her pink little ears to her insteps—cause she ain't dressed. They're funny that way, says her cartoonist.—Brownfield Herald.

NEWSY NOTES FROM MORSE

Editor Spearman Reporter:—I wonder what you would think of a few news items from this little town. It seems to be ignored by the papers round about but it is still here and growing.

The Light and Power Company of Borger began digging holes Monday for the purpose of furnishing the residents of Morse with light and power.

Mr. Parks' new well was completed Tuesday and started to pumping water. This makes three wells dug in the town in the last three weeks.

Mr. and Mrs. Henry Reid returned Tuesday from a ten days vacation in Colorado.

Mr. and Mrs. Bob Balentine have

moved into their new home in the south part of town.

A. M. Coffee and family from the Gulf Camp east of Stinnett now occupy the house vacated by Mr. Balentine on the section east of the town-site.

The school election went off very quietly last Saturday and resulted in the election of a capable school board which is making plans to have school started with very little delay, if any. There will be no lack of teachers, judging from the number making inquiries for the school board.

Mr. and Mrs. Fowler from Ft. Worth are visiting their daughter, Mrs. Robert Balentine.

Mr. and Mrs. W. F. Harris made a business trip to Canyon Monday, re-

turning Tuesday.

Mr. and Mrs. Williams of the La Fonda Drug store returned Tuesday from a week end visit with Mrs. Williams' mother at Dalhart.

Two more new homes are nearing completion in the southwest part of town. One belongs to Mr. and Mrs. Henry Reid and the other to Mr. and Mrs. Roy Womble.

If agreeable Mr. Editor, we would be glad to send in a few items occasionally as we think we have one of the most promising towns on the Rio Rock Island.

Mrs. H. B. Towe and children returned last week from Edmond, Oklahoma, where she has been visiting the past two weeks.

Read every issue of the Reporter.

TH--AND THE NEW LEADERSHIP

by CRAIG B. HAZLEWOOD
President American Bankers Association

LEADERSHIP is a picturesque word. With it, one pictures Hannibal leading his way through the passes of the Alps--seen in his signs--or together his army of sheer magnitude of his power at Val-george. But I use some-thing that holds the astound-ingly spectacle in re-spect to the onrush of our business life. Economic progress plunges ahead un-derstand of in the history of nations of the world and every trial and financial leader is daily face to face with new and un-derstand problems requiring the courage and intelligence for solution.

...billions a year, they tell us, our country is now producing in new... The rate of increase is even... staggering than the amount. It... difficult to say where it may lead... seven ten or fifteen years.

...are moving exceptionally fast. Economic and industrial structure... facing before us problems of... and greater magnitude. Few... can see far ahead. Few are in... control, for this is a chang-... world, as even the most inexperi-... business man will readily see. Our methods of adjusting our-... rapidly to economic changes... cooperating are far from per-

...at an opportunity the leadership... ten or fifteen years from now... What an adventure it will... What responsibilities it will... the broadest shoulders that may... and! This is the challenge to... ship as I see it. In the hands of... young men must rest the respon-... for this leadership.

...Who Reached the Pinnacles... ness is full of the romance of... bers whose chief characteristic... working hard and keeping at it... was a green farmer boy who de-... would rather stand behind... after than follow a plow. He... so obviously lacking in sales... that for a time no merchant... hire him. He failed in his first... and in his second his salary... reduced. He even agreed that he... miss--but he stuck. Out of... at five stores, I believe, three...

...But he persisted and worked... And that boy, Frank W. Wool-... became the greatest retail... ant in the world with a store... city of eight thousand or more... tion in this country.

...There was another lad who clerked... grocery store sixteen hours a day... studied mathematics in his odd... ts. He became interested in... ings of the steel plant whose em-... was traded at this store. He be-... study steel and sought a posi-... at the plant. He carried a sur-... chain and drove stakes. At... he studied mathematics and en-... gineering. He did not despair. He... not be diverted. He kept the... on for seven years. And that... Charles Schwab, mastered the... industry and became one of the... y's great industrial leaders.

...There was a lad who sold papers on... When he grew up, several... men and a score of billions of... of capital were given profitable... ment through his inventions. In... middle life, Thomas Edison... ed to work twenty hours a day... cessary to achieve his purpose. Leadership is not play. Leadership... countless positions of varying... nity, of which the highest pin-... will mean almost unbearable... sibility in the new era. There... men with the fire and iron to... even for these places. Such... must have had the very finest... tion and the most grueling... Their reward will be the attain-... of these highest pinnacles of... ment, and the rendering of an... surable service to their times.

MAIL BOX THEFTS AND CHECK FORGERS

American Bankers Association in Worldwide Warning Exposes Methods and Gives Rules to Combat Them.

NEW YORK--Active operations in cities of mail box thieves, who bank communications to custom-ers containing details of their ac-counts and cancelled checks showing banking signatures, and use this mail in perpetrating check for-geries have led the American Bankers Association to issue a nation-wide warning to its members with instruc-tions combating this form of crime. Warning as sent out by James E. McLaughlin, in charge of the association's public relations department says: "The losses are being sustained by cancelled vouchers and state-ments stolen from the mail boxes of

bank depositors in apartment and office buildings, thus divulging the depositors' balances and supplying models for forged checks. As a step to put customers on guard against these methods, banks are urged to instruct every depositor to whom they mail statements of deposit accounts on the last business day of each month to notify them promptly if such state-ment are not received by the close of the next day.

"Also banks should educate deposi-tors to safeguard blank checks and cancelled vouchers as they would money. Such paper stolen by forgers soon puts real money in their hands. If all blank checks and cancelled vouchers were securely kept in safes instead of filing cabinets or desks, the check crooks would be denied their chief stock in trade, namely, genuine blank checks and signatures. Warn-ings to depositors against leaving blank or cancelled checks accessible to sneak thieves or burglars should be sent out at once.

SCRUB BULL IS HIALED TO COURT

Placed on Trial for Hindering Development and Prosperity of Dairy Industry.

Indicted for robbery, larceny, and a few other such charges, Scrub Bull went on trial for his life at Laurel, Mississippi, recently. It seems that for some time people had suspicions that Mr. Bull was hindering the right and lawful development of the dairy industry, thereby "maliciously and wilfully lowering production and de-creasing profits in the dairy business," says the Bulletin of the American Bankers Association Agricultural Commission in commenting on the case.

This, it says, was the first trial of its kind ever held in that section and was attended by several hundred peo-ple. The jury, representing every va-cation within the boundaries of the Laurel trade territory, rendered a unanimous verdict of "guilty." The death sentence was pronounced, "but during the night, before the sentence could be carried out, friends of the convict secretly spirited him away and he has not been seen since."

The arraignment came during the Milk Products Show sponsored by the banks of Laurel. People attending the show had the opportunity of also attending the bull's "trial" and went away firmly convinced of the serious-ness of lax and out-of-date methods in the pursuit of dairying. The pur-poses of both the Milk Products Show and the trial were threefold, namely: to develop public sentiment for more and better Jerseys; to foster a more cooperative spirit for dairying and livestock growing, and to promote tick eradication.

The banks of Laurel entered into a cooperative arrangement in their ef-forts for fostering agricultural devel-opment and successful farming in the community, offering \$2,165 as premi-ums to the outstanding farm workers throughout the territory during 1929. An instructive booklet has been is-sued, showing the agricultural activity of the banks, together with announce-ments of contests for farmers, exhibits in the bank lobbies and prizes offered.

BANKERS DEVELOP NOVEL INSTITUTE

The Georgia Bankers Association in cooperation with the State College of Agriculture has sponsored a series of farmers' institutes in various parts of the State of an entirely new charac-ter. The principle feature is a large and comprehensive exhibit trans-ported in four large trucks and set up at each stop. When set up it fills a space 40 by 60 feet and consists of panels, charts, and models on prac-tically every phase of agriculture, in-cluding agronomy, horticulture, agri-cultural engineering, poultry, animal husbandry, soils and fertilizers, home economics and marketing. A large electrified farm model, showing the use of electricity on the farm, model farm buildings and the ideal layout and landscaping of the farmstead, is one of the most elaborate and attrac-tive exhibits.

Local bankers in each locality visited gave the money to cover ex-penses for the transportation and in-surance for the exhibit in their terri-tory and assisted in the preliminary advertising and publicity. The Col-lege of Agriculture assembled the ex-hibit and conducted the tour through its various extension specialists.

CHAUTAUQUA STARTS WITH PLAY

Gay Comedy First Night

The Chautauqua this season is starting with the most popular at-traction possible to secure. A mod-ern play with plenty of comedy. Public taste in entertainment, just as in dress, automobiles, col-leges, and religions, varies from one decade to the next, and some-times from year to year.

PIANOS

A reliable manufacturer has in this vicinity a straight and a player piano that we would sell at a very low price on easy terms to respon-sible party or would store rather than reship. Address 3712p. Box 1041, Dept. A Chicago, Ill.

NOTICE TO LAND OWNERS

Cuts Washday Work in Half!

NOTHING you can buy for your home will do more to save your time and strength than a new Haag 75 washer, powered by a built-in 4-cycle Briggs & Stratton gas motor.

This remarkable machine is new in design, in speed and in efficient performance. It washes even the dirtiest clothes sweet and clean in a jiffy, without boiling, soaking or hand-rubbing.

When once you see a Haag 75 work, you will never go back to old-fashioned, back-breaking washing methods or be satisfied with any other machine. The Haag 75 will serve you a whole lifetime. It is economical to own and operate. Any Haag dealer will explain a most attractive easy purchase plan.

Note these features
Pressed aluminum tub.
Direct drive from motor to agitator.
All moving parts enclosed in pressure-tight gear case.
All-metal wringer--re-versible.
Finished in Venetian Green.
Legs adjustable to desired height.
Self-draining tub.

THE TOO BUSY FATHER

I'd be afraid to say to him, "Run off, don't bother me! I haven't time to hear you now, I'm busy as can be."

the 48 states and Hawaii by State highway departments working in cooperation with the Federal bureau.

The 7,022 miles improved include 1,056 miles of graded and drained earth roads, 563 miles of sand-clay, 1,293 miles of gravel roads, 189 miles of waterbound macadam, 728 miles of bituminous macadam and bituminous concrete pavements, 3,101 miles of Portland cement concrete pavement, and 48 miles paved with vitrified brick.

In addition to the improved mileage, at the end of the year there were under construction with Federal aid 4,526 miles, 8,358 of which were undergoing initial improvement, and 1,168 were being given a higher type of surface than was provided in original construction.

At the end of the year there were also approved for initial construction, 1,833 miles of highways and a further 1,065 miles to receive a higher type of surface. The total cost of the approved mileage is estimated at \$61,500,674 to which Federal funds in the sum of \$24,137,546 have been allotted.

THE TOWN THAT GROWS

Once in awhile—say a hundred years or so—a town can sit still and without effort grow into a city, just by the location of some industry which dropped in unasked.

A local citizen observes that we can always see two sides to every question in which we are not vitally interested.

NEW HUTCHINSON ROAD MAY BRING FEDERAL HIGHWAY

An important point to consider in the survey of the new route for Highway No. 117 through the northern part of this county is pointed out by the Berger chamber of commerce.

Federal courts have held that federal roads shall most nearly follow a direct line between two chief cities or points along the general route, and cannot digress to take in other places that would sacrifice distance needlessly.

States, in following the federal road building plan, and in an attempt to secure federal aid on building highways also have adopted the plan of most direct survey.

The proposed new all-weather road will cut off some 12 miles of the present distance between Stinnett and Spearman. This saving is made by state engineers surveying the route and in event federal aid or reimbursement for building No. 117 is ever probable, the United States government will have no excuse for not approving a "shortest-distance" highway.—Berger Daily Herald.

"ONE GOOD TURN"

Jinks—I had him do that for me last year and he evidently fixed it up so every garage man in the towns along the route could also benefit by my trip.

Blinks—I am having the garage man go over my car to get it all fixed up before we start on our tour.

Work never hurts some people because they never do any.

FOR AUGUST 25, 1929

General Topic:—Rebuilding the Temple.
 Scripture Lesson:—Ezra 3:1-13; 6:4-16; Ps. 84:1-4.

Ezra 3:10. And when the builders laid the foundation of the temple of Jehovah, they set the priests in their apparel with trumpets, and the Levites the sons of Asaph with symphonies, to praise Jehovah, after the order of David King of Israel.

11. And they sang one to another giving thanks unto Jehovah saying, For he is good, for his loving-kindness endureth for ever toward us. And all the people shouted with a great shout, when they praised Jehovah, because the foundation of the house of Jehovah was laid.

12. But many of the priests and Levites and heads of fathers' houses, old men that had seen the first temple, when the foundation of this house was laid before their eyes, wept with a loud voice; and many shouted aloud for joy.

13. So that the people could not discern the noise of the shout of joy, for the people shouted with a loud shout, and the noise was heard far off.

Ezra 6:14. And the elders of the Jews builded and prospered, through the prophesying of Haggai the prophet and Zechariah the son of Iddo. And they builded and finished it, according to the commandment of the Lord of Israel, and according to the decree of Cyrus, and Darius, and Artaxerxes king of Persia.

15. And this house was finished on the third day of the month Adar, which was in sixty year of the reign of Darius the king.

16. And the children of Israel, the priests and the Levites, and the rest of the children of the captivity, kept the dedication of this house of God with joy.

Psalm 84:1. How amiable are thy tabernacles, O Jehovah of hosts!
 2. My soul longeth, yea, even fainteth for the courts of Jehovah; my heart and my flesh cry out unto the living God.

3. Yea, the sparrow hath found herself a house, and the swallow a nest for herself, where she may lay her young, even thine altars, O Jehovah of hosts, My King, and my God.

4. Blessed are they that dwell in thy house; they will be still praising thee.

Golden Text:—I was glad when they said unto me, Let us go unto the house of Jehovah.—Ps. 122:1.
 Time:—Second temple founded B. C. 537; Second temple finished B. C. 520.
 Place:—Jerusalem.

Introduction

The first recorded event in the history of the newly established Jewish nation was the setting up of the altar for burnt offerings. Thus also when the nation was established by Abraham in the dawn of Jewish history, Gen. 12:7-8, the first thing the patriarch did was to erect an altar to the One God. The time chosen was the most holy portion of the Jewish year, the seventh month of the first year of the return, the month Tiari, corresponding roughly to our October. That month contained the Feasts of Trumpets (the first day), the great Day of Atonement (the tenth day) and the Feasts of Tabernacles (the fifteenth day).

The Temple Foundation Laid. v. 10

"And when the builders laid the foundation of the temple of Jehovah." By "the builders" is meant, probably, the workman; the older commentators considered it to mean Zerubbabel and Jeshua, the directors of the work. "They set the priests in their apparel with trumpets." Some manuscripts read: "for glory and for beauty," which the law required (Ex. 28:40; 39:27-29), and which the people had recently provided (Ezra 2:69).—Pulpit Commentary. The Levites praised God with cymbals, the priests with the more dignified trumpets.

Praising and Giving Thanks. v. 11

"And they sang one to another in raising and giving thanks to Jehovah." Jewish music lacked harmony and counterpoint, but in some degree it made up by a large measure of antiphonal singing, one portion of the choir singing one part of a verse, the other singing the remainder: see Ps. 136 in which each verse has two sections.—Prof. T. Witton Davies. The Hebrew word translated "praising" appears in "Hallelujah," "praise God" (Jah), "Saying, For he is good, for his loving kindness endureth forever toward Israel." This is the refrain that was sung by one of the choirs, or a portion of a choir.

Some Wept, Some Shouted For Joy

"The old men that had seen the first house." There would be many of these, since the first temple was destroyed only fifty years before. When the foundation of this house was laid their eyes, wept with a loud voice. Clearly, not tears of joy; expressions of joy are noted in the next clause. "And many shouted aloud for joy." These were the younger people with their greater buoyancy, their springing hopes, their delight in action. They had no memories of Solomon's temple. The desolation around them meant only a chance to build. The world would make no progress were it not for the visions of youth. "So that the people could not discern the noise of the shout of joy from the noise of the weeping of the people." This mixture of sorrow and joy, here, is a representation of this world; some are bathing in rivers of joy, while others are drowned in floods of tears. In heaven all are singing, and none sighing; in hell all are

weeping and wailing and no rejoicing; but here on earth we can scarcely discern the shouts of joy from the noise of the weeping.

The Samaritans

The Samaritans were a mixed race. When Sargon, king of Assyria, captured Samaria, the capital of the Northern Kingdom, he carried off to his own country 27,280 inhabitants of Israel. In order to keep his new province from rebellion he introduced into it a large number of colonists from Babylonia, Hamath, and Arabia, and these brought idolatry with them. The result was a race partly Jewish and partly foreign, their religion a mixture of idol-worship and Jehovah worship.

The Samaritan Requests Refused. 4:3

Perhaps the Samaritans were sincere in wishing to unite with the Jews in the work of rebuilding the temple. "Let us build with you," they said. More likely, however, they wanted to be allowed to help that they might hinder. They professed to be loyal to God, but almost surely they were not. Religion always has this temptation—the world wants to be taken in. To accept the fellowship and aid of the Samaritan would have been to compromise with the world.

The Temple Finished. 6:14, 15

"And they builded and finished it according to the commandment of the God of Israel and according to the decree of Cyrus and Darius, and Artaxerxes king of Persia." Artaxerxes was king of Persia long after Darius Hystaspia, the reign of Xerxes intervening, and long after the completion of the temple; but he was a benefactor of the Jews, and for that

reason nearly four and a half years. The foundation had been laid twenty years before.

Second Temple

Zerubbabel's temple was sixty cubits broad and sixty cubits high. Solomon's temple was only twenty cubits broad and thirty cubits high. Solomon collected for his temple an immense sum; Zerubbabel's means were very slight in comparison. This second temple lasted a little more than five centuries and was followed by the more splendid temple erected by Herod the Great, begun B. C. 19. This was the temple of Christ's lifetime. It was destroyed by the Romans in A. D. 70. The present building is a Moslem church called "The Dome of the Rock" or the Mosque of OMAR.

"The Pearls of Psalms." Ps. 84:1-12

This sacred ode has a mild radiance about it, entitling it to be called the Pearl of Psalms. If the twenty-third be the most popular, the one hundred and third the most joyful, the one hundred nineteenth the most deeply experimental, the fifty-first the most plaintive, this is one of the most sweet of the Psalms of Peace.—C. H. Spurgeon.

Some have thought this was one of the Psalms that were sung at the dedication of the second temple.

central sanctuary. "My heart and my flesh cry out unto the living God." Soul, heart, flesh, reason and will, the emotions, all that makes up the psalmist's being cry out not to the temple, but to the God who dwells in the temple and gives it all its significance. A day in thy courts is better than a thousand elsewhere. I had rather hold the most menial position in God's house, than be an honored guest in the evil dwellings of the heathen.

How Much Ought I To Give
 A freewill offering unto the Lord.—Ezra 3:5.

"Give as you would if an angel
 Awaited your gifts at the door;
 Give as you would if tomorrow
 Would find you where giving was
 o'er."

Give as you would to the Master
 If you met his loving look;
 Give as you would your substance
 If his hand your offering took."

ed as a part of the home in the near future, is the prediction of Henry Ford. Its passing will be another step toward the "comfortable age" which he believes is now coming on. In an interview in The American Magazine, Ford urges young men to bend all their efforts toward the things that will make life easier and suggests the elimination of the kitchen as one of the things to be done.

"Let a young man turn his attention to inventing a kind of kitchen that can feed a hundred people," says Ford. "Think of the waste in time, money and effort involved in cooking

kitchen it will be that will take this drudgery out of the home and how the work should be done remains for somebody to find out."

... west, as the nation's newest and fastest developing market area, has become the cynosure of all eyes in American industry according to an analysis of the returns received during the past 15 months from a national advertising campaign exploiting Texas, Oklahoma, Arkansas and Louisiana, which has been carried on by Industrial Dallas, Inc.

Industrial Dallas, Inc., is a subsidiary of the Dallas Chamber of Commerce, which is spending \$500,000 over a three-year period in advertising to American industry the unexploited opportunities which exist in this territory. The campaign is being financed by nearly 800 individual and business concerns of Dallas, and such publications as The Saturday Evening Post, The Literary Digest, The New York Times, the Chicago Tribune and 15 other nationally circulated periodicals are being used to carry the message.

Emphasizing the fact that the Southwest already presents a market of 12,000,000 people, who earn and spend \$6,000,000 annually, the campaign has been stressing the necessity for manufacturers to serve this territory from within by the establishment of branch offices, salesrooms and factories, in order to out-distance competition which must meet unfavorable physical conditions resulting from a distant base of operations.

More than 2500 inquiries from every American state and a score of foreign countries received during the first year, and the establishment in Dallas and other Southwestern cities of branches of nationally known concerns at a faster rate than ever before in the history of the Southwest, testify to the effectiveness of the advertising campaign. In Dallas alone, for instance, there have been established 131 such branches since January 1, and seventy new manufacturing enterprises have begun operations during the same period.

Sales executives of Northern and Eastern concerns are particularly interested in the Southwest, according to R. L. Thornton, president of Industrial Dallas, Inc.

"Judging by the number of inquiries which have been received from sales managers, and by the letters they have sent after we have furnished them with a copy of our market possibilities which Texas, Oklahoma, Louisiana and Arkansas present," said Mr. Thornton.

"This, however, is easily understood, when we reflect that the growth and development of the Southwest has been so rapid that even many of us who have lived here and witnessed it do not fully comprehend the extent of it yet. The industrial development of the Southwest, with a great consuming market, vast supplies of many raw materials, reasonably priced power and fuel, an

... fishing in its speed. Our advertising campaign is taking this story to the remainder of the country, and although it is sponsored and paid for by a Dallas organization, it is having a tremendous effect upon every city and town in the four Southwestern states, by thus centering the attention of the industrial developers directly upon them and their section."

COMMON SENSE GREAT NEED IN HOME BUILDING

Less of false pride and more of common sense is a great need in America's home building and buying program today, is the opinion of E. B. Tyrrell, President, Michigan Building and Loan League. Mr. Tyrrell says: "Pride is laudable, yet when it creates merely a 'front' and necessitates a grim struggle to keep up this pose, it goes too far. When pride undermines happiness, it is time to call a halt.

Americans of today want the best, whether it be in the purchase of a box of candy or in a home. They want the world to know that they desire the best, and making the wish the father of the thought, they plunge. Then the struggle begins, a struggle which, though it may be kept from the eyes of the world, saps the strength of body and mind and wrecks happiness.

The desire to have the best is worthy, but when a man builds or buys a home efficacy lies in willingness to begin modestly rather than to insist on starting at the point where, after years of work, his parents have finished. If he has a lot and but a small amount of money, he might best build a modest house or even a garage on the back of the lot, then by his own effort or by hired labor put up a more pretentious house a few years later.

By so doing he probably will be able to accumulate sufficient funds to pay cash for a considerable part of the material and labor going into the house, and, with the aid of a first mortgage, eliminate the need of "junior financing," that is, taking out a second mortgage or land contract, both of which are expensive.

By this plan, a man can build once, sell his home after a few years, then build again. This process can be repeated, each time at a profit. Each repetition permits the man to become owner of a home that is more nearly his ideal and without the faults he has found in the houses he has formerly possessed.

Several merchants remarked to the editor this week that it seemed like a church directory, if of any value to the churches, should be handled by the churches, and the money received divided among the ladies aid societies.—McLean News.

Says His Wife Had Suffered For 12 Long Years—Troubles Overcome By Orgatone

Edwin Morley, well known groceryman, whose store is located at 1408 East Third Street, Amarillo, Texas, and who resides with his family at 303 Mirror Street, is enthusiastic in his praise of Orgatone, the medicine that is accomplishing such remarkable results throughout the South and West.

Mr. Morley, in conversation with the Orgatone representative, said:

"I'm convinced from the great benefits my wife has obtained from the use of Orgatone that it is an equal. Mrs. Morely suffered for twelve long years, and found nothing in all that time to do her any good. In fact, her condition kept getting worse until she began taking Orgatone. She couldn't digest anything she would eat and the gas forming on her stomach caused her to have sick dizziness and fainting spells. She suffered about all the pain and distress indigestion can cause and was so nervous she could sleep but little. Her kidneys bothered her a great deal and she had severe pains in the small of her back and was so tired and worn out from one day's end to another she did not feel like doing her own housework.

"She had almost lost faith in all medicine, as she had tried so many and got no relief. But after reading

ago and she has had the most gratifying results. Mrs. Morley can now eat and enjoy her food for the first time in many a day, and she has no gas on her stomach or dizzy headaches. She is not nervous now and her sleep is sound and refreshing, and she is like a different woman. We'll take pleasure in telling anyone what we know by actual experience about Orgatone."

Genuine Orgatone is manufactured by one of the world's greatest laboratories and is not a so-called secret or patent remedy but a new scientific bile treatment and is sold in Spearman by the Hastings Drug.

SEED WHEAT

We are installing a Calkins grader and treater in our elevator. This machine removes inferior and cracked seed, and treats with "Ceresan," a smut disinfectant manufactured by the DuPont Company. This dust will not gum drill feeds, nor retard the flow of the seed, and when properly treated insures seed 100 per cent free from all kinds of smut, and from being eaten by worms and rodents. Use 2 ounces per bushel. See ad next week. We will have treated seed on hand for sale.

THE BLUE PENCIL

Governor Moody yielded a mighty blue pencil on the appropriations bills as passed by the 41st legislature. He cut deep into these money bills, and cut in places which really hurt and hurt badly.

In spite of the fact that Governor Moody stated very frankly to members of the legislature that the educational institutions were not getting as much money from the legislature as they were entitled to, yet these same institutions were cut to a greater extent than other departments of state. This is always the case when governors start to pruning appropriations. It is so easy to jump on the educational institutions. It is taken for granted that the schools of the state are getting more money than they are justly entitled to, and therefore the governor may judiciously use his blue pencil.

Governor Moody vetoed six buildings this year, allowing only two to stand. He went after the salary schedule more than any governor in recent years.

In writing the appropriation bill, the House committee went back to four years ago, and allowed only such position* is most of the colleges as were then in existence. A contingent fund was then created for the purpose of adjusting salaries, and to allow for new positions. There was a suspicion among the legislators that this fund would fall before the blue pencil, and it was suspected that perhaps there might have been an understanding down the line that this was an easy manner for the committee and the governor to make a cut in the salary schedule without making an open attack. At least the plan, if it were a plan, worked, and the contingent fund created for each institution to meet the blue pencil.

The large institutions of the state fared very well, as the governor was more lenient in proportion to the big schools than he was to the smaller schools. The reader will understand that the old and big institutions have more political power.

W. T. will receive a total of \$507,030 for the coming two years. This is an increase in general expenses of only \$3,015 over the total for the past two years. The College was hit the hardest in salaries, \$12,500 in the contingent fund was eliminated for each year which gives the institution \$5,000 per year less for salaries than it had during the past two years. Those teachers not on the state's pay roll must be provided for out of the local fund, which will crowd this fund to the limit.

The Governor had just one thing in mind in his veto. He had set his heart upon a 25 cent tax rate no matter how unjustly the institutions of the state were treated, and no matter how the development of the colleges were hampered or retarded. The increase of the tax rate to 35 cents would have added only \$2,000,000, and cost the average less than \$1

each. To save this dollar, the Governor was willing to sacrifice the growth and development of the colleges and the institutions for the purpose of making a political name for himself. That is politics.

It was rumored around Austin all during the spring that Moody would be a candidate for a third term. His maneuvers indicate that this is his goal. It is easy to align the mass of voters up against the colleges and institutions. It is easy to cry out that the Governor is saving the tax payers millions of dollars which the colleges would have squandered had not his blue pencil have fallen too heavily. We shall see what we shall see.—Canyon News.

THE JOY OF SERVING

By John Joseph Gaines

This beautiful morning I left my bed early, put on part of my clothing and went to a front window where a rocker stood waiting. I love to watch early morning passers, while my morning paper is coming.

The newsboy presently appeared. With him was a much smaller boy—evidently a brother—not over five at the very most. This little fellow carried three or four papers under his tiny arm. Proudly he strode beside his senior, his eyes dancing with delight at the trust reposed in him. I could not hear his words, but he evidently asked if he should deliver my paper; the big brother nodded, as any great personage might nod in approval of a subordinate.

The tiny boy dashed up my steps—seven of them, and it required effort for his short legs to accomplish the man-size elevations; how he swung and glowed and smiled in the sweet morning air, wholly oblivious of the spectators' eyes that watched him from behind the lace curtain! With an expression of profound interest, he singled out one of the three papers and placed it carefully at the bottom of my door, just as near to putting it into my hand as possible; then he turned and sped away, laughing, as fast as those short legs could carry him.

His financial accomplishment could not have been over a half-cent gain—no, it was not that; the little fellow was in the glee because he could do something good—something useful for somebody, and do it well. For

W. C. ROUNTREE, M. D.

sick, I especially want you to write for my booklet.

Mrs. J. B. Massey of Odessa, Texas, Box 112, whose picture appears here writes: I wish to thank you very much for restoring my health from one of the most dreadful, miserable diseases that anyone can have. I was in bad health for several years, under care of Doctors for three years. I do not think I could have lived much longer. I am in better health today than for several years; weigh more than I ever did in my life. I believe I am rid of an awful disease that the other Doctors failed to cure. FOR FREE DIAGNOSIS AND LITERATURE WRITE: W. C. ROUNTREE, M. D. AUSTIN, TEXAS

MRS. J. B. MASSEY

him, the delivery of that newspaper was a super accomplishment. Had I been fully dressed, I might have frightened him by rushing out and seizing the darling in my arms.

Do we grown-ups get a "kick" out of the worthy deeds we do for others, if any? Sometimes I have to study awhile, before I can recall any good deed I have done lately. I have not quite become "as one of these."

CO-OPERATION OF MANY MINDS

Our country stands out unique in the entire world as the home of successful big business. Nowhere else on the globe is there anything that closely resembles in magnitude the United States Steel Corporation, the American Telephone and Telegraph Company, or the Ford Motor Company.

But while these great institutions have been founded by men of unusual genius, it must be remembered that their growth is largely due to the work of many minds. In every great

industry there is a wide variety of talent. In the laboratories are chemists and scientists. Out in the field are highly trained engineers. In the offices are expert accountants and at the heads of various departments are men of unusual executive ability. All momentous problems and contemplated new projects are subjected to the careful scrutiny of all these experts before action is taken.

In short these industries are products of the closest possible co-operation from within. Here is something for those of us who are interested in the development of Spearman. A community like a business institution cannot become great without the co-operation of the best minds available.

In all the scientific talk about the health giving value of spinach we have not yet heard a physician who has told us the obvious thing, namely that it gives you grit.

Read every issue of the Reporter.

Church and Society

Revival Meetings

A series of revival meeting will begin at the Presbyterian church in Spearman on Sunday, August 25 at 11:00 o'clock. These meetings will be conducted by Rev. E. A. Partlow of the Presbyterian church, who is a devoted Christian and a splendid speaker. All are invited to attend these services.

Snowden-McLaughlin

Miss Bonnie Snowden and Tommie McLaughlin were quietly married Monday, August 12 at the home of the Methodist pastor of Palo Pinto, Texas, at 12 o'clock noon. The couple are well known and liked in Spearman. The bride's mother, Mrs. Julia B. Snowden, and sisters, Ethel, Julia and Lucile, were there to witness the ceremony which was said by Rev. Duke. The happy couple will make their home for a while in Borger. We wish the years to come to be crammed full of happiness for them.

Hamilton-McLain

On Thursday, August 1, at the home of the bride's parents in Lake Charles, Louisiana, occurred the wedding of Lester S. McLain and Miss Ada Hamilton. Immediately after the wedding the happy young people left for a honeymoon trip which took them through Tennessee, Kentucky, Indiana, Michigan and into Canada. They arrived in Spearman last Saturday and immediately established themselves in the nice home already prepared by the groom. Miss Hamilton is a niece of Mrs. Fred Bergin and visited here last summer, when the romance began, which resulted in the happy marriage on August 1. The groom is a well known real estate and insurance man.

Endicott-Lakeman Nuptials Read at Elaborate Home Wedding

The intimate charm of a beautiful home wedding was the choice last evening of Miss Muriel Endicott, daughter of Mr. and Mrs. Charles L. Endicott of La Palma street, and Floyd Lakeman, son of Councilman and Mrs. Jacob B. Lakeman of 221 East Broadway. The service was read at the home of the bride's father and mother by the Rev. Benjamin S. Haywood in the presence of about 25 relatives and intimate friends.

To improvise a lovely altar, the fireplace in the large living-room had been banked with greenery and a wealth of pink and white flowers, overhead being suspended a wedding bell of tulle and orange blossoms. Other decorations about the home were in the pink and white motif.

While the bridal party assembled Miss Hazel Filer played the bridal chorus from Lohengrin and continued the softer strains during the ceremony.

Following the minister to the altar the bridegroom entered the room with his best man, Benjamin Kraemer of Placentia. Forming an aisle with satin ribbon streamers were little Miss Peggy Akerman and a small sister of the bride, Miss Mary Alice Endicott, both frocked in fluffy pink dresses. Miss Pauline Endicott attended her sister. She wore a peach and lavender orchid gown, fashioned with a tight bodice and a long, full skirt. Her shower bouquet was of pink and lavender sweet peas.

The bride entered on the arm of her father. Her exquisite gown was of plain pink chiffon in the Princess mode, cut short in front and flaring gracefully to an extreme length in the back. The creation was worn with silver slippers and a long tulle veil which was caught to her head with

rows of pearls ending in clusters of orange blossoms. White sweet peas were caught in the long streamers of lace and silver ribbons forming the shower from a bouquet of lilies of the valley and bride's roses.

A reception for the bridal couple was given by Mr. and Mrs. Endicott following the wedding. Mrs. Endicott receiving her guests in a becoming gown of navy blue georgette. Served with the large wedding cake were pink ices molded with white bells in the centers.

Mr. and Mrs. Lakeman are spending their honeymoon in San Diego, the bride's traveling ensemble being of brown and tan shades with all accessories to match. They will return next week to their new home at 550 South Resh street.

Mrs. Lakeman came to Anaheim with her parents two years ago, entering Anaheim Union high school where Mr. Lakeman was a senior and where the romance had its inception. She was graduated last June from the Wolfe Costume Designing school in Los Angeles. Mr. Lakeman was graduated from the high school with the class of '28 and is employed at present at Lake's Store for Men on West Center street.—Anaheim Daily Bulletin, August 8, 1929.

C. A. Robinson left Sunday for a business trip to Dimmitt.

Mr. and Mrs. Cap Westerfield of Amarillo visited Sunday with Mr. and Mrs. J. B. Cooke.

Robert Rollins of Amarillo, visited last week with his uncle, Mr. and Mrs. J. F. Berner.

Dr. and Mrs. Haney and daughter Waureka, of Lubbock, are here visiting relatives and friends.

Mr. and Mrs. J. H. Chambers and son Olin left the first of the week for a two weeks visit with relatives and friend at Nocona, Texas.

Mr. and Mrs. L. L. Faulkner and children of Gotebo, Oklahoma, visited last week in the J. F. Berner home two miles east of town.

LOST:—Lower endgate of truck, between C. D. Riggs farm and Spearman. Hinged, ironed on top with wagon box iron. Finder leave at Consumers Sales Co. Reward. 371p

Mrs. C. O. Collard and Master Howard Riddle returned Sunday from Temple and Waco, where they have been visiting in the home of her parents for the past five weeks.

W. W. Wilmeth and family returned Sunday from a two weeks vacation in the Colorado mountains. Mrs. Raymond Steadman of Colorado Springs returned home with them.

R. E. and W. W. Harbour were in from north Hutchinson county Wednesday, attending to business matters. R. E. is rapidly recovering from a recent operation for appendicitis, a fact which his many friends are glad to learn.

Mr. and Mrs. H. E. Campfield had as their week-end guests, Mr. and Mrs. C. D. Matney and daughter Miss Betty Lee, of Plomons, brother of Mrs. Campfield; Mrs. Edna Moore and daughter Eula Lee, mother and sister of Mrs. Campfield; and John Matney of Miami, also a brother of Mrs. Campfield.

Mrs. Joseph C. Jones and her son Dr. Joe Jones and family are enjoying a visit to the Pacific coast country. We received a card from Doc the other day, written on Catalina island. Doc reports that they are having a great time, but suffered a little attack of seasickness on the boat ride from the mainland over to the island.
