Number 36

THREE-STOREY HOTEL LOOMS FOR SPEARMAN

Spearman Independent Road District Will Vote on \$240,000.00 Bond Issue

One of the very best propositions ever offered Spearman and vicinity to secure an adequate and modern hotel is now being considered by the hotel committee of the local chamber of commerce and others who are interested. This proposition comes from E. P. Spear of Wichita Falls, who with Mrs. Spears, has spent the past ten days in Spearman.

Mr. Spear proposes to erect a three-story, forty-room modern fire-proof hotel building on Main street, and to do so just as quickly as possible. The architect is now busy drawing the plans, estimating costs, etc. A contractor is in Spearman today, figuring on the proposition, arriving at costs, etc.

This is an opportunity for Spearman to secure a real hotel, something that has been badly needed ever since the town was begun, and it is hoped that a satisfactory arrangement will be made soon, that work may begin and be completed at the earliest time possible.

Certain conditions and agreements must be met and arrived at before actual construction will begin, and these are being considered by the chamber of commerce. It is thought that some sort of definite action and final agreement will be arrived at before the end of the week.

New Shop Foreman Coming To Chevrolet Plant

Manager Wm. E. McClellan, of the McClellan Chevrolet Company, informs us that he has secured the services of Harry White, who will again take over the position as shop foreman at the local Chevrolet plant. Mr. White is by no means a stranger to the people of Spearman and vicinity. He was employed at the Chevrolet plant here for about six months, beginning in the spring of 1927. He resigned this position to accept a position as mechanic with the Greenlee-Moore Chevrolet Company in Oklahoma City. He was a few months later promoted to the position of shop foreman due to his abilities and the class of work he produced and has held that position to the present date. He has the reputation of being not only one of the best mechanics, but also one of the most competent shop foremen in the southwest, and the local Chevrolet organization is feeling mighty proud that they were so fortunate as to again secure his services. Mr. White will begin his duties as foreman of the McClellan Chevrolet Company shop department on Monday, August 19.

W. L. Beck Is Improving

Master W. L. Beck, four year old son of Mr. and Mrs. Walter Beck, who had the misfortune of breaking his leg several weeks ago, is improving nicely. For a time it was feared that this break was going to cause W. L. much trouble, but the bone is knitting nicely now. W. L. can walk a few steps at a time and in a few days the cast may be removed.

Big Two-Day Rodeo At Texhoma, Aug. 24-25

Chris Saugster and Nick Walthall were in the city Saturday, distributing advertising announcing a big two-day rodeo program to be given at Texhoma on Saturday and Sunday, August 24 and 25. The gentlemen state that they have secured the very best attractions of this nature and that the two-day, fun-making will be crowded with thrills and entertainment of all sorts for young and old. A big ad announcing the rodeo will be found in this issue of the Reporter.

Read every issue of the Reporter.

Dittrich Machine Shop Company Building New Fire Proof Garage

Work is progressing nicely on the new, modern garage building of the Dittrich Machine Shop Company. This new building will be located just north of the company's present main plant. It will be built of tile, cement and brick with steel stringers, and will be as nearly fire proof as it can be made. L. C. Dittrich, manager of this company states that he is having this building put up for the Harry New Garage, and that this new business for Spearman will occupy the building as quickly as it is finished. Mr. Dittrich has wanted an auto repairing business near his plant ever since he located here, and believes that he is mighty lucky to have Harry New as a neighbor, as the latter is an able, experienced mechanic. Mr. Dittrich believes the new building will be ready for occupancy by Sept. 1. In the meantime, Mr. New is doing auto repair work in the Dittrich Machine Shop.

District Court Opens In Spearman Monday

The regular term of the 84th district court will open in Spearman on Monday morning, August 19. Court attendants report that there is a rather full docket and that the entire two weeks term will be a busy one. Judge Newton P. Willis will preside, and District Attorney Johnnie Holmes will look after the interests of the state.

This term of court is of rather more importance than the usual term by reason of the fact that the county seat election contest will be heard, very probably on the first day of the term. Many witnesses have been subpoenaed for this case and Monday will be a busy day around the court house. A grand jury will be empaneled Monday, from the following list:

Grand Jury
W. W. Grooms, I. W. Ayers, A. H. Frazier, R. L. Bailey, Jerry O'Donnell, Homer Allen, J. Boyd, H. B. Hart, D. L. McClellan, J. H. Spivey, J. T. Smith, Robert Alexander, J. A. Ward, T. P. Tackitt, Pearl M. Dixon, Frank James.

Petit Jury, First Week

Summoned to appear for service on August 19.
Geo. Detrich, M. F. Barkley, W. E. Dillow, F. B. Hughes, H. F. Dick, E. Deaner, W. T. Devore, G. K. Wilmer, A. Bernstein, C. F. Berner, C. E. Reynolds, R. W. Converse, E. C. Green, Mearie Beck, Clinton Wilson, J. H. Davis, J. S. Caldwell, W. C. Noller, J. D. Duncan, Carl W. Donovan, Howard Cline, R. C. Bennett, M. R. Grandan, J. A. Balentine, E. W. Harris, H. D. Hale, H. E. Read, D. E. Bradford, E. C. Barnes, Joe Veneman, Ralph Bort, Chas. Chambers, B. M. Harris, W. A. Shapley, A. P. Reynolds, W. L. Harris, Arthur Owen, Fred Cline, C. L. Hughes, R. R. Fullbright.

Petit Jury, Second Week

Summoned to appear August 26:
Le Roy Satterwhite, N. A. High-tower, Milton Hughes, Joe C. Miller, Peter A. Dahl, J. F. McRee, O. L. Williams, Sid Lackey, C. H. Winder, V. R. Green, D. K. Hall, J. H. Shapley, J. M. Hart, S. E. Harrison, G. W. Francis, W. N. Fletcher, C. J. Frantz, T. E. Jones, J. E. Gerber, Ed Rafferty, D. O. Reynolds, Clarence Johnson, J. O. Womble, Jack Whitson, E. S. Uppergrove, W. R. Parks, R. W. Maples, A. R. Junod, W. H. Neilson, Emil Knutson, L. W. Rosenbaum, Henry Waldrop, J. E. Tomlinson, T. C. Harvey, Delon Kirk, Fred Hoskins, V. P. Hill, J. R. Renner, C. D. Riggs.

Lions Will Meet at Dalhart

The next group meeting of Group Ten Lions Clubs, which embraces all Clubs within the Panhandle of Texas will be held in Dalhart Monday, August 19th.

Every Lion in the Panhandle who enjoys a real game of golf will have an opportunity to win a prize offered by the Dalhart Lions Club in the short tournament Monday morning.

A real dinner at the Country Club house at the noon hour with a model luncheon program put on by the Clarendon Lions Club will precede a short business meeting from one to two thirty o'clock at which time officers for the ensuing year for Group Ten will be elected.

An invitation has been extended to District Governor A. C. Kater of Houston to attend the meeting if it is at all convenient. Deputy District A. T. Holcomb, of Dalhart hopes to plan at the meeting one of the best year's programs ever attempted for the Panhandle of Texas.

Mr. and Mrs. W. L. Philyaw, son Billy and daughter Lola, have gone on a month's vacation to Georgia and South Carolina.

Visit Old Home in Iowa

Mr. and Mrs. A. R. Hull of Spearman and Clark Dawson of Eldorado, Oklahoma, a brother of Mrs. Hull, returned last Saturday from a visit to the state of Iowa. Their sister, Mrs. Mary Adkins of Cambridge, Kansas, also accompanied them on the trip. Iowa is the state of their birth, but they left that great commonwealth forty-nine years ago. They visited the old cemetery, where their mother was laid to rest many years ago. A picnic was given in their honor by their relatives, the attendance being 150 at dinner, and many came in the afternoon. All others came in the trip immensely enjoyed. Lawrence, Kansas, was reached at this place they had a slight wreck, which upset their nerves somewhat, but fortunately no one was seriously hurt.

Spearman School Will Open On Monday, September 9

Prof. R. L. Snider states that all arrangements for the opening of the Spearman schools are fast nearing completion. Prof. Snider is the newly elected superintendent of schools of Spearman Independent school district. Nineteen teachers will be employed in the beginning of the 1929-30 term, and more will be added to the faculty if they are needed. This does not include the music teachers. Agriculture will be taught in the school this year. Prof. S. E. Robinson being the teacher. He is here and is making ready to have an interesting class in this department. The school building at old Hansford was moved to the Spearman school grounds to make room for this department.

What Do You Think of Sunday Afternoon Movies In Spearman

Without stating any reason, or going into detail, the Lyric management would appreciate it very much if you will sign the coupon below, stating whether you will favor Sunday pictures in Spearman (only) moving pictures in Spearman:

YES
NO
Draw a pencil mark through the word NO if you are in favor of the Sunday pictures. If you are opposed to the Sunday pictures draw a pencil mark through the word YES. Then cut out the ballot and mail or hand it in to the Reporter shop. If a sufficient number of folks will vote, a fairly good idea of what Spearman thinks of Sunday shows may be obtained. Many people go from Spearman and vicinity every Sunday afternoon to attend moving picture shows in neighboring towns. These people and others would rather attend a show here. But Mr. Thompson would not think of operating on Sunday afternoon in the face of opposition. He would, however, like to know what the people think of the matter. He states also that should he ever operate a show on Sunday here, he positively will not operate on Sunday night—during the afternoon only.

B. F. Bennett Resigned As C. of C. Secretary

At a called meeting of the directors of the Spearman chamber of commerce, held on last Saturday afternoon, the resignation of B. F. Bennett as secretary of this organization, was accepted. The chamber of commerce is again without a secretary, but members of the board state that another will be employed soon, they think. Mr. Bennett has served the chamber in this capacity for the past several months. The organization is in splendid working order at this time, the various committees being ready at all times to carry forward any project that is brought before them. Mr. Bennett and family left Monday for Amarillo, where they will make their home. Mr. Bennett was thinking some of accepting employment with the American Automobile Association.

Sixty-two Bushels In Sixteen Minutes

A. H. Frazier, successful farmer of the Kimball community, reports that during the recent rush of the harvest season, a visitor to his farm took the time and trouble to "time" the machine to see just how fast the wheat is coming out of the spout. In sixteen minutes sixty-two bushels of wheat rolled into the bin attached to the combine. Mr. Frazier states that the field they were working in at the time was producing around forty bushels per acre. He was using a 16-foot Case combine. The visitor also made note of the fact that it required just three minutes to transfer the wheat from the combine to a truck, start the motors and get in motion again. We don't know whether this is a "record" or not, but it seems like pretty fast work to us, and we would like to hear from others who have kept time on their machines.

New Brick On Main

McLain & McLain have begun the erection of another nice brick building on Main street. It will be located on the lots immediately south of the Spearman Hardware.

Miss Chloe Oldham, who is employed at Sauer's ladies' and gent's furnishings store in Spearman, was the lucky ticket holder in the contest put on by the medicine show last week, and drew a nice diamond ring. Miss Chloe is justly proud of the diamond.

Thomason Brothers Cut Price Sale

Thomason Brothers announce that their big summer cut price sale will open today, Thursday, August 15. Brannock Dodson, local manager for this big firm, has just returned from El Paso City, where he conducted a very successful sale at their store there. Mr. Dodson states that this was one of the most successful sales he ever conducted for Thomason Brothers, and he confidently believes the big sale beginning here today will be equally as successful. "We have the goods and have them marked down to sell; there is no reason why they should not move," says Mr. Dodson. The sale will continue until Monday, August 26.

Home Telephone Company Sells to Big Concern

Mr. and Mrs. Tom Finley, who have quite successfully operated the local telephone exchange in Spearman for the past several years, have sold the same to the Western Telephone Corporation. The new owners are now in charge of our telephone service and promise some great improvements in the same in the near future. Just what improvements are to be made has not been made public at this time, but new phones will be installed where they are needed, and it is possible that a new telephone building, new switch boards, etc., will be among the greatly needed improvements to be made in the not distant future.

L. L. Dewey will be the district manager for the Western Telephone Corporation. He states that his company operates in 200 or more towns, principally in Kansas, Oklahoma, Missouri and Texas, and that it prides itself in the service it renders. This company now owns the exchanges at Guymon, Boise City, Sturgis, Keyes and Goodwell, Oklahoma, Nathan Jones is president of the concern. Mr. Dewey, the district manager, was in Spearman the first of the week on business connected with the transfer of the property.

Denzil Bradford, who with his brother Bill, formerly owned the Home Telephone Company, will be local manager for the new owners. Mr. and Mrs. Finley are making their arrangements to leave Spearman Friday, the 16th. They expect to visit about a bit and take a rest before locating permanently again.

Dave Tice Is Sponsoring An Old Fiddlers Contest

Dave Tice, the genial host at Hotel Tice, Spearman, an old-time fiddler of considerable note, is sponsoring another Old Fiddlers Contest for Spearman. A contest of this kind was held in Spearman last spring and was one of the biggest events of the kind ever held in north Texas. Fiddlers were here from everywhere, and a good time was had by all. Mr. Tice states that he will have an even better time at this contest—a bigger crowd and more fiddlers. He is sending out letters to old fiddlers of five states, and the responses are coming in already.

Perryton Will Celebrate 10th Birthday Aug. 22-23

PERRYTON, August 14.—This city expects to be host to thousands of visitors on Thursday and Friday August 22-23, at the celebration honoring the tenth anniversary of the founding of the town. The celebration is under the joint supervision of the Chamber of Commerce and the Lions Club.

One of the high spots of the birthday party will be a baseball tournament open to the southwest. Some of the fastest teams in this part of the country will be here to compete. Over seven hundred dollars in cash prizes will be awarded the winning teams. The tournament will run three days, August 22, 23 and 24 and admission to the games will be free on the days of the celebration.

T. J. Tidwell shows, the largest and best carnival attraction that makes the southwest will be here with their riding devices, shows and concessions. An attractive program of games, contests and amusements has been arranged for the children and little folks.

The American Legion will have charge of the dances which will be held on Thursday, Friday and Saturday evenings in the large spacious Donley Hall. Seven thousand square feet of polished hardwood floor will be available for those who care to dance. Gorie Young's "Frisco Stompers," a seven piece band from San Francisco, California, now playing at the Tokio Club, Berger, Texas, will furnish the music.

A squadron of airplanes has been arranged for and they will bring stunt flyers, wing walkers and parachute jumpers to provide thrills and rides for the crowds. Everything possible is being done to make the two days a complete round of good, clean amusement and the citizens of Perryton extend a real Texas invitation to the people of Spearman and vicinity, to come and help celebrate their tenth birthday.

A Big Time At Pringle School House

A community program, followed by a box social, will be given at the Pringle school house on Friday night August 23. Everyone from far and near is invited to attend, and all are guaranteed a big time. The proceeds from the sale of the boxes will be given to the school, which is beginning at the bottom but is sure to grow with the community it serves. The Alpha and Lieb communities now support the Pringle school.

Commissioners court of Hansford county met in regular session on Monday with all members present and Judge G. W. King presiding.

Routine matters were attended to, but the most important piece of business coming before the court at this time was the hearing of protests or complaints against the proposition of the issuance of \$240,000 in bonds by Spearman Independent road district No. 1, the money to be used in the hard-surfacing of highway No. 117.

After mature deliberation, the court decided to call the election, and the date for same was set as September 14. On this date, September 14, Spearman Independent road district No. 1 will vote on the proposition of whether these bonds shall be issued. The call for the election appears in this issue of the Reporter. Spearman Independent road district No. 1 covers the same territory as commissioners district No. 1, which is J. G. B. Spark's district. Highway No. 117 runs from Spearman to Stinnett.

A two-thirds majority of all votes cast in the election must be in favor of issuing the bonds, if the proposition carries.

Bond Issue Lost In Hutchinson County

According to the first reports from the bond issue election in Hutchinson county, held last Saturday, the bonds carried by a majority of five votes. The Borger Daily Herald on Monday stated that the bonds had carried and it was generally believed that they had. However, when the commissioners of Hutchinson county met on Tuesday to officially canvass the returns, it was found that the bonds had lost by four votes. That is, the proposition lacked four votes of receiving the necessary two-thirds majority. Today's Borger Daily Herald carries the following story in regard to the election:

"Hutchinson county commissioners today were prepared to call an election immediately if necessary petitions are presented, following official tabulation of Saturday's \$150,000 road bond election, which lacked four votes of the necessary two-thirds majority to carry.

"The final vote as tabulated by the commissioners was 376 for and 195 against the proposition. A petition bearing 50 qualified voters names will suffice to call a second election, according to County Judge H. M. Hood.

"The county commissioners have either the alternative of calling another election, or issuing road improvement warrants, to complete this project. Just which action they would take was not known today, although it is understood that the court is united on taking a policy that will insure quickest action on completing the paving of highway No. 117 from Stinnett to the north county line.

"It is understood that representatives of the Borger chamber of commerce have employed attorneys to contest the results of the election. It is thought that these attorneys will allege that over 100 illegal votes were cast, and that a majority of these illegal votes were cast in one box."

Over A Million Sixes Sold Since January 1

Over one million six cylinder Chevrolets have been sold since January 1, states the builders of this popular car, and this fact is attested to by the numbers on the cars now being received at the local plant of the McClellan Chevrolet Company. Manager Bill McClellan states that the cars he is now receiving all carry numbers larger than one million. Mr. McClellan states that the Chevrolet Six is giving universal satisfaction.

New Cafe Opened Bakery Coming Soon

The Club Cafe is a new business house in Spearman. L. M. Black, from Lubbock, is the manager and he is running a mighty fine eating place. The "Club" is located in the Tice building, formerly occupied by Joe's Cafe. E. W. Gregg, who is associated with Mr. Black, announces that he has ordered the equipment for a high class bakery and that it will be here soon. He intends to open up a bakery shop that Spearman and vicinity will be glad to patronize, and to turn out nothing but high class bakery products. The Club Cafe and the new bakery are welcome additions to Spearman business interests.

General Meeting of C. of C. At School House Friday Night

A general meeting of the Spearman chamber of commerce will be held at the school building on Friday night, August 16. President J. R. Collard will be in charge, and he is urging every man, woman and child in Spearman and vicinity to attend the meeting. "Important matters are to be attended to at once," states Mr. Collard, "and this general meeting is absolutely necessary and very important." The chamber of commerce is now without a secretary but this work must go on and on. There must be no let-up in the work for Spearman and Hansford county, states Mr. Collard. Every member of the chamber of commerce and all others who are interested in Spearman and Hansford county should remember this important meeting and be on hand.

Prof. Wilcox Will Teach In Montezuma College

Prof. and Mrs. A. H. Wilcox and the children, Elnora and George, arrived in Spearman the first of the week and are visiting with friends while winding up their business affairs here. Prof. Wilcox has recently resigned a position in Texas A. & M. college to accept the position of dean of the Montezuma Baptist College at Montezuma, New Mexico. He will go from here back to Austin within the next few days to attend to business matters, after which the family will locate permanently in their New Mexico home.

Prof. Wilcox will be in charge of the school building on Friday night, August 16. President J. R. Collard will be in charge, and he is urging every man, woman and child in Spearman and vicinity to attend the meeting. "Important matters are to be attended to at once," states Mr. Collard, "and this general meeting is absolutely necessary and very important." The chamber of commerce is now without a secretary but this work must go on and on. There must be no let-up in the work for Spearman and Hansford county, states Mr. Collard. Every member of the chamber of commerce and all others who are interested in Spearman and Hansford county should remember this important meeting and be on hand.

ROYALTY SALES
HURT ENHANCERS
 Landowners in the ninth federal land bank district generally have been drawn into the oil conservation movement, through a new line of lease and sales contracts which the up-

the mineral rights for all time to come, according to officials of the Federal Land Bank of Wichita. As a consequence of the sale of half of the oil and gas which may be produced from this land, which is a separate contract from the lease, the farmer not only is left to hold the stock until

such time as the oil interests may see fit to develop his land, but he also places himself outside the list of landowners to whom the Federal Land Bank will make a loan.

"We have no objection to an undivided oil and gas lease," said John Fields, president of the Federal Land Bank, "but we will not approve a loan on which the owner of the farm has disposed of any part of his royalty within 12 months. The applicant must offer all mineral rights with the surface as security for a loan."

The bank cannot loan unless the mortgage covers the full title to all oil, gas and other minerals, as well as to the surface of the land.

The new method of conservation, which involves the sale of an undivided half interest in the oil and gas produced at the time the lease is made, came to the attention of the Federal Land Bank some four or five months ago, according to Mr. Fields. It has worked successfully in western Kansas, though not with landowners who are borrowers from the Federal Land Bank, as that institution refused to forego any of its rights when asked to do so and consequently the deals with them did not go through. Mr. Fields shows the new contract as a "lick proposition."

It is described in the bank publication as follows:

"A new method of conserving oil for future developments has been put into effect quietly in recent months and many land owners in the ninth federal land bank district have an unpleasant surprise coming to them within a year or two. They will find that any oil which may be under their land has been effectively conserved for development if, as, and when needed by oil producers.

The very simplicity of the plan is what makes it so effective.

"A landowner who owns a considerable acreage in potential but undeveloped oil territory is induced to sell for a dollar or two an acre an undivided half interest in all oil and gas which may be produced from his land. At the same time he executes an oil and gas lease on the land. This lease appears to be very favorable, calling for the payment of annual rentals of a dollar or two an acre to keep it in force. The lease is made to the same oil company which has purchased an undivided half interest in all the oil and gas. The whole proposition looks like steady ready money with the possibility of a sudden wealth to the landowner. But it's too good to be true.

"The transfer of the undivided half interest to the oil and gas is finished and complete and binding.

"The oil company may, however, decide not to make the annual payments called for under the terms of the lease and let it lapse. That need cause the oil company no uneasiness.

"It owns an undivided half interest in the oil and gas under the land and the owner of the other half interest cannot execute a valid lease without the oil company's consent and participation.

The oil and gas, if any, are safely and economically conserved until the oil company needs them.

"Such an arrangement may be fully understood by those who have executed such conveyances and leases and they may be entirely satisfied.

"It would seem to be prudent however, to limit the life of the conveyance of an undivided half interest in the oil and gas to the period of time during which annual rentals are paid on the oil and gas lease. Then the landowner would be getting something while the oil company was doing its good job of conserving—Wichita Eagle.

TEXAS' "MOST INTERESTING" PERSONALITIES

The Texas Public Service Information Bureau recently asked the editors of the agricultural press daily for the names of the ten most interesting personalities in Texas. From the list received—because of the editor's explanation—stand out from a news standpoint persons in Texas were (alphabetically) these:

- Dr. Samuel P. Benson, president of Baylor University, Waco.
- W. B. Bennett, Tam Connally, Mar. 11.
- Ex-Governor James E. Ferguson, Temple.
- Minerals E. Foster, editor of the Press, Houston.
- Gene Johnson, member State Highway Commission, Tyler.
- James H. Jones, capitalist, Houston.
- John H. Kirby, capitalist, Houston.
- State Senator Thomas B. Love, Dallas.
- Governor Dan Moody, Austin.
- Dr. J. Frank Norris, minister, Ft. Worth.
- Joe J. Taylor, State Press, Dallas News, Dallas.
- Dr. George W. Truett, minister, Dallas.

Selection of Right Feeds Is Puzzling

Feeders are often at a loss to know just what to look for in buying ready-mixed feeds, because of the great many varieties on the market, and because of the different food materials needed under various conditions.

Regardless of whether the feed is mixed in a factory at the farm or by a retail feed merchant, the principles remain the same. Certain ingredients are necessary, but they change in amounts under varying conditions. A balanced ration for a beef cow would not be a balanced ration for a heavy-producing dairy cow.

The best way to secure proper feed is to watch the chemical analysis of the feed, whether it be ready mixed or mixed in a batch. Be sure that the ingredients that are necessary for a certain animal are there. When buying feed for a beef cow be sure that there is plenty material for meat production; a dairy cow must have material for milk, such as butter fat, milk sugar and curd, and so on. Proper amounts of feed are just as important as proper kinds. Feed cows in accordance with their production.

Heavy producing dairy cows need water in abundance; five times the amount of milk produced is the recommended quantity. They need carbohydrates and fat to make butter fat and milk sugar; this part is secured through regular home grown feeds in the ration, such as corn, oats etc. Probably the most important part of milk, however, is curd. A cow can produce no more milk than she is provided curd. This material is se-

cured from the protein part of feeds, but home grown feeds do not contain sufficient amounts nor the proper kind of protein and a high protein concentrate, such as linseed meal, must be furnished in the ration.

A ration recommended for heavy producing cows may be made up of 200 pounds ground corn, 200 pounds ground oats, and 400 pounds linseed meal. Feed one pound of this ration for each 3 or 4 pounds of milk per day, with timothy hay or silage for roughage.

HOW WONDERFUL THEY ARE

The ever delightful Julia Sander and her equally well known husband, Frank Orumit, now as popular over the radio as they are in the state they have graced so long are ardent motorists and recently selected this fish Hudson coupe, "The Girl from Utah." Tangara, his more recently, "No. No. Nuts!" are just a few of the successes which one or the other or both have appeared.

You Can't Beat It For Accurate Drilling

John Deere-Van Brunt SINGLE DISC GRAIN DRILL

Everywhere farmers have come to respect the accuracy of the John Deere-Van Brunt Grain Drill. They know that when they leave their planting to the Van Brunt, they are sure of an even stand of grain and larger profits at harvest time. The Van Brunt is here at our store, ready to go to work in your field.

Equipped with the famous Adjustable Gate force-feed, the Van Brunt releases the seeds in steady streams in just the right amount. Disk boots protect the seed until it is deposited in the bottom of the furrow. You get uniform seeding at uniform depth—two of the main factors in insuring big yields.

The Van Brunt is an unusually strong drill—reinforced and braced throughout.

During eighty years of satisfactory service, this drill has become known as a real money-maker for farmers—the best drill investment

Come in and see the drill of proven accuracy. It is ready to add more profits to your business

SERVICE

er Friends Marveled at Change," Says Husband

Wife Certainly Looks and Feels like A New Person, She Has Taken Two Bottles of Orgatone."

It is not what the manufacturers say for it, but the statements from multiplied thousands, who have benefited by it, that has made the world-over, famous organ today. T. K. Campbell, of Alabama St., Amarillo, Texas, in the following remarkable statement in regard to his wife's case: My wife suffered from a severe case of indigestion, nervousness, and general run down condition," he continued, "she did not have any appetite and she always looked puny. Every time she ate anything, it would hurt her, and she kept getting worse the time. She was weak and fagged out all the time, and was hardly able to do her work. She was going down hill, and one day, we read about Orgatone, and she began taking it.

We are both, indeed, thankful for what Orgatone has done for my wife. She eats anything she wants now, and has a large appetite. Her complexion was always sallow but you now talk about 'school girl complexion' for she has it. She looks much better, and has some color in her face. She rests and sleeps well at night, and all of her friends marvel at the change in her in so short a time. We both are glad to recommend Orgatone. It will do what they say it will do. It is a wonderful medicine." Genuine Orgatone is manufactured by one of the world's greatest laboratories and is not a so-called "patent remedy" but a new scientific bile treatment and is sold by Spearman by the Hastings Drug.

TO TONE DOWN YOUR VOICE

Some of us have naturally good voices. It seems as if our chests give a shallower sound than chests could do. And our habit of throwing the voice upward—which is called "talking through the nose"—is a bad one. In the French dictionary "nasillard" is given as "one who talks with a nasal twang," and "siller" is to speak through the nose; so it must be a sufficiently well recognized fault in France. The French, too, have sometimes a strange voice heard from one end of the world to the other by everybody except the speaker and the speaker's friends. They, oddly enough, seem to notice. Listening to one's own voice, as a woman, is supposed to be injurious, whenever an actress falls into the habit she is said to become affected. But, surely, any sensible woman would do well to consider the matter made by herself—long enough, at least, to change it, if she does not

like it. An educated ear helps greatly in the cultivation of an educated voice, and it would seem that the more we opened ours to disagreeable tones proceeding from ourselves, or other people, the sooner we'd improve. The ego that keeps us satisfied with a twang is most unbecomingly wise vanity. Wise vanity wants to make the best of itself. Blind egotism is satisfied to declare itself the best and quarrel with anybody who does not agree. Probably, the worst offenders in the voice matter have absolutely no idea that their metallic, high pitched tones are open to criticism and would be very angry if any one called it to their attention. But let them listen. If once they can be induced to hear themselves speak and contrast their voices with deeper, softer voices, they may be cured and achieve that "excellent thing in woman."—Vogue.

COOPERATE WITH TEACHERS

Not long since we asked a parent how his children were getting along in school. His reply was an index to the attitude which a good many parents take toward the educational interests of their children. This, in substance, was his reply:

"I know very little about how they are doing in school; I am too busy with my work to pay much attention to that, in fact I think that is the business of our teachers—to see that our children are in school regularly and that they keep up their studies in good shape."

That is a mistaken idea on the part of any parent. It is true that teachers should do all that is in their power to encourage the children to be prompt and regular in school and to apply themselves well to their studies, but in this respect the efforts of the teachers, however faithful they may be, will prove ineffectual, unless the proper co-operation on the part of the parents is given. Indifference on the part of some parents is often the cause of the poor records which their children are making in school.—Coldwater Star.

FLY-TOX is protecting millions of homes from mosquito invasion. The entire home can be freed from mosquitoes in a few minutes. Take an improved FLY-TOX Hand Sprayer and spray FLY-TOX toward and against the ceiling until the finely atomized spray reaches every part of the room. Also spray the hangings, closets and screens. It is absolutely stainless, safe and has a perfume-like fragrance. FLY-TOX is the scientific product developed at the Mellon Institute of Industrial Research by Rex Research Fellowship. Every bottle guaranteed.—Adv.

There was a time when a fool was a man who didn't know anything. Nowadays a fool is a man who knows it all.

YOUTHFUL ENTHUSIASM

An old stager in our community life who has contributed much to the development of the city in years gone by offered us a few thoughts recently on what our town needs.

"You mustn't depend too much upon us old fellows," he said. "The future of our town is now in the hands of the younger men who must take things up about where we left off. We've met with too many disappointments in years gone by and we've become too conservative in our point of view.

"When a new proposition is advanced we see all the reasons why it can't be put over with success. Perhaps we're wrong, but that's the fault of age. What the town needs now is a lot of young fellows who don't know it can't be done and for that reason go ahead and do it."

All of us may well give profound thought to his remarks. A community is not unlike a business. The time inevitably comes when young blood and youthful enthusiasm are badly needed.

If we might have the right degree

of co-operation here we would find the young men furnishing the energy and the old men supplying the judgment that comes only with long experience.

BEST IN THE WORLD

Grading report on six thousand cars of wheat that have come to Wichita during July just about cinches, this year at least, the controversial claim that Kansas grows the best wheat in the world. That slogan should in justice be broadened to include Oklahoma and the Texas panhandle, which, with Kansas, comprise the heart of the hard winter wheat belt.

Average protein content of 12.28 percent will not be exceeded anywhere. Neither will the fact that half of the harvest is graded No. 1 or No. 2. Only an insignificant percentage of these incoming cars graded below the standard required for excellent bread grain. Some of the wheat had a high moisture content, some of it was smutty and some showed a rye mix, all of these conditions penalizing to the grower. But by far the

most of it was up to snuff.

Canada and the hard spring areas of the northwest have long been scoffing at the claim of superiority for southwestern wheat. It may be to their commercial advantage to do so. But undoubtedly it will be to the commercial advantage of the southwest to go on presenting to the world the side of the case. It has plenty of facts and figures.

Even now before the senate finance committee the northern millers

are saying the southwest can not furnish wheat good enough for flour sold in Cuba. But nothing talks like official grading and in that regard this year the northern millers will have little vocal ammunition.—Wichita Eagle.

A youth charged with bigamy, having two wives at the same time pleads mental derangement. Any jury will agree at once.

All Kinds of Machine Shop Work

Outstanding Qualities You Will Like

You can now get in the new Case Model "L" tractor advantages you have long desired—advantages which will enable you to do your work better, faster and at less cost. Outstanding among its numerous desirable qualities are great power for its size and weight, remarkable ease of handling and attractive appearance.

GREAT POWER FOR ITS SIZE AND WEIGHT

The ability of the Model "L" to handle the big loads swiftly, coupled with its compact size and light weight will enable you to get more work done at less cost.

Less Power is consumed in moving this light weight tractor over the fields—more power is available for useful drawbar work. You can get onto the fields and be working at times when a heavier machine would be useless. You can use it more days in the year and accomplish more work per day.

REMARKABLE EASE OF HANDLING

Special provisions are made on the Model "L" for the comfort of the operator. All controls are placed where they can be reached naturally and conveniently.

A comfortable seat, fully adjustable, and the roomy platform allow the operator to stand or sit in any position he finds most comfortable and convenient. The front wheels respond quickly to a touch on the steering wheel, yet cannot jerk out of control. All these features and many more contribute to the pleasure you get from driving a new Case tractor and make the long working days seem short.

ATTRACTIVE APPEARANCE

Low, compact, clean-cut construction, together with neat painting and striping, give the Model "L" that attractive appearance in which owners take so much pride. The body is a blue-grey, while the wheels are Case red—a fitting combination of colors for this handsome, clean-cut, powerful tractor.

\$2.00 PER YEAR IN ADVANCE In Texas and Panhandle Strip of Oklahoma; \$2.50 per year elsewhere.

Entered as second class matter November 21, 1919, at the post office at Spearman, Texas, under the act of March 3, 1879.

Buff Stock Rises as Preach Fuller Returns to School

CANYON, August 10.—Football, basketball and track stock went up several points at the West Texas State Teachers College this week when it was announced that Guy (Preach) Fuller would be back in school this year.

Preach was one of West Texas' best tackles, and was also one of the best pole vaulters the Buffalo track team has had.

He has been out of school for two years raising wheat on the north plains, and when he was in Canyon a few days ago looked to be in perfect condition and ready for action.

Preach weighs about 185 pounds and stands about 6 feet 3 inches.—Amarillo Daily News.

His many friends in Spearman and vicinity will be glad to know that Guy, who is a son of Mr. and Mrs. R. A. Fuller of the Black community, has decided to finish his work at Canyon college. We will expect to hear many good reports from "Preach" and not all of them will come from the athletic field.

Mrs. John Young and daughter Miss June came out from Shattuck and spent Sunday with old friends in Spearman.

Mrs. Mike Thomas was a pleasant caller at the Reporter office Tuesday.

Born, to Mr. and Mrs. Carl D. Kirkpatrick, at their home in Amarillo, on Thursday, August 1, a fine son. The young gentleman has been named Donald Andrews.

Dr. Powell, eye, ear, nose and throat specialist, will be at the offices of Dr. Gower in Spearman on Wednesday, August 21. Glasses fitted, tonsils and adenoids removed.

Mr. and Mrs. J. E. Johnson and sons Edwin and Moody, from Flaxon, Oklahoma, and Mrs. Dar Ratliff from Weslaco, Texas, are guests in the Raines Tompkins home in Spearman.

Mrs. Edna Moore and daughter Miss Eulalie, who have been guests in the H. E. Campbell home here for the past several weeks, are spending this week in Memphis, guests of her son V. Lee Matney.

Billie Thomas and little Miss Allie Anne Thomas left Friday for Post, Texas, for a visit with their grandparents, Mrs. Lamond Allie Ann will also visit Mrs. Jim Thomas at Rogers before returning to her home.

Mrs. E. E. Darnell of Ashland, Kansas, Henry Knecht and George Torrey of Coldwater, Kansas, visited last week with Mr. and Mrs. Charles Darnell. Miss Dotis Darnell, sister of Charles Darnell, who has been visiting him the past two weeks returned home with them.

FOR SALE

A few Black Jersey pullets. Mrs. Lena Crawford, East Spearman.

Mrs. Hand Removed To Daughter's Home

Mrs. W. J. Hand, who was seriously injured in an automobile collision near Spearman on Sunday, August 4, on Monday of this week was taken by her daughter, Mrs. Geo. Biles, to Wichita, where she will be cared for until she recovers. W. J. Hand, husband of the injured lady, was killed in the wreck and was buried at old Ochiltree. Owing to her advanced age and the seriousness of her injuries, Mrs. Hand's recovery will be slow, states Dr. Spencer of the Spearman hospital, where she was cared for while here.

Mrs. Opal Miller Seriously Ill

Mrs. Opal Miller, who has been seriously ill at the home of her parents, Mr. and Mrs. P. H. Jamison of north Hutchinson, for the past month or more, on Sunday of this week was taken to an Amarillo hospital, for examination and observation. It is probable that she will undergo an operation for appendicitis while there. Her many friends in Spearman and vicinity wish for Mrs. Miller a speedy return to her usual good health.

Hansford County Teachers Institute, Sept. 5-6

The Hansford County Teachers Institute will be held at the school building in Spearman on Thursday and Friday, September 5 and 6. All teachers who expect to teach in Hansford county during the 1929-30 term will be expected to attend this institute. Teachers should remember this, and be on hand for the institute. Efforts will be made by those in charge to make the two day meet both interesting and instructive. C. W. KING, County Superintendent.

Death of Old Timer

Harry Clark, well known to early day settlers of this county and Texas county, Oklahoma, passed away at a hospital in Dalhart Wednesday morning, August 14, at 5:00 o'clock. Funeral arrangements are not complete at this time. He will be buried at Guyton.

Will Build New Residence

L. C. Dittich informs the Reporter that he will begin at once the erection of a new home for his family, having bought lots of G. Kelly Stout, located west of the school building on the highway.

Dale Family In Accident

While District Judge F. Hiner Dale was returning from Pampa, Texas, last Sunday evening, and making the corner where the D. C. D. turns from Texas into Oklahoma, he failed to negotiate the turn, and ran into an embankment on the side of the road, overturning his De Soto car, which was badly damaged. Fortunately he and his children sustained only a few cuts and bruises, his daughter, Beth, having a hand bruised and cut, and his boy, Dan, a cut on his face.—Guyton Herald.

CARD OF THANKS

We wish to thank the good people of Spearman and vicinity for the many kindnesses shown us during our recent stay in your city, occasioned by the untimely death of our father and severe injury of our mother, Mr. and Mrs. W. J. Hand. From the depths of our hearts, we thank you one and all. THE W. J. HAND FAMILY, and Relatives.

Sore Gums—Pyorrhea

lic places in said Road District, and at the court house door of Hansford county the following notices of election:

NOTICE OF ELECTION

To All Persons Concerned:

Notice is hereby given that on Monday, August 12th, A. D. 1929, the Commissioners Court of Hansford county, Texas, entered an order that an election be held, and notice is hereby given that an election will be held in accordance with such order on the 14th day of September, A. D. 1929 between the hours of eight o'clock A. M., and seven o'clock P. M. at the City Hall in the City of Spearman, in Spearman Independent Road District No. 1 of Hansford county, Texas for the purpose of determining whether or not the bonds of Spearman Independent Road District No. 1 of Hansford county, in the sum of Two Hundred and Forty Thousand Dollars (\$240,000.00), and bearing interest at the rate of five and one-half per cent (5 1/2) per annum shall be issued for the purpose of the construction, maintenance and operation of macadamized, graveled and paved roads or turnpikes, or in aid thereof, for the improvement of State Highway No. 117 and its connecting roads in said Road District, and for the

purpose of determining whether or not ad valorem taxes shall be levied and collected annually on all taxable property in said Road District subject to taxation sufficient to pay the interest on such bonds and provide a sinking fund for the redemption thereof at maturity, which bonds shall mature not later than thirty years from their date, and shall be issued on the faith and credit of said Road District in such denominations and payable at such time or times as may be deemed most expedient by the Commissioners Court of Hansford County.

Issued this, the 13th day of August, A. D. 1929, J. E. Womble, county clerk and Ex-Officio Clerk of the Commissioners Court, Hansford county, Texas.

HEREIN FAIL NOT, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon showing how you have executed the same.

Given under my hand and seal of said Court, at office in Spearman Texas, this the 13th day of August, A. D. 1929.

J. E. WOMBLE, County Clerk, and Ex-Officio Clerk of the Commissioners Court, Hansford county, Texas. 36t4

Everybody Come

The Show That Pleases

na Faye Ownbey, Stinnett, the first of the week with her sis Sibyl Bailey.

Bob Bailey and family returned the last of the week from a trip to Colorado.

Mr. and Mrs. Hobart Dick and Mr. and Mrs. Johnnie Lackey were Stinnett visitors Sunday.

Misses Ethel Womble and Ruby Lyons of Canyon are here visiting in the home of Mrs. Curtis Lowe.

Mrs. W. B. Hart and Mrs. Clarence Winder of Gruver, visited in the city Monday.

Mrs. Cap Richardson of Amarillo, visited relatives and friends over the week-end.

Misses Lois and Anna Lee Morton spent the week-end in Dumas, visiting their grandparents.

Jess Edwards has begun construction of a five room modern house on his farm fifteen miles west of town.

Marvin Chambers and W. H. Black returned Monday from a two weeks vacation at Yellowstone Park and other northern points.

Mrs. B. G. Yarborough of the Spearman Dry Goods Co. returned Friday from St. Louis, where she has been buying fall goods for the store.

Horace Frye and family, brother of Mrs. R. C. Lowe have been visiting in the R. C. Lowe home for the past two weeks.

Mrs. R. A. Todd and children are visiting in the home of her parents, Mr. and Mrs. A. R. Hull, in Spearman.

Mr. and Mrs. Horace Fry and family, of Brownwood, Mr. and Mrs. Sid Powers and family and Mr. and Mrs. R. C. Lowe left Friday for a trip in New Mexico and Colorado.

Mrs. C. F. Berner and little son, Mrs. E. A. Greever and daughter and Miss Laura Rowland left Friday for Joplin, Missouri, for a visit with relatives and friends.

Mrs. U. G. Nighswonger and daughter Miss Florence and son Paul of Oklahoma City are here visiting Mr. Nighswonger of the Nighswonger Grain Company.

Mr. and Mrs. Paul Thompson have moved to their new home in south Spearman. They moved a small house on to their lots, built new porches, a garage and made other improvements and now have a mighty nice little home of their own.

Commissioner J. G. B. Sparks left Tuesday morning for Springfield, Colorado. Gray intends to do a little fishing while away, and we will have something to say about his "catch" in next week's Reporter.

Mr. and Mrs. W. A. Van Cleave, 12 miles southwest of Spearman, are rejoicing over the arrival of a fine boy at their home. The young gentleman arrived on Saturday, August 10. He has been named Earl Gene.

Mr. and Mrs. Bud Parks and Miss Hilma Parks, of Lieb, visited in the home of Clyde Hazelwood Monday.

Mr. and Mrs. E. H. Barbour and son Clark of Dalhart, are visiting in the home of their sons, Berlin and Herman Barbour.

Mr. and Mrs. P. F. Hawkins, Mr. and Mrs. J. L. Jordan and Mr. and Mrs. C. A. Hair returned on Saturday of last week from an interesting trip to Colorado and northern New Mexico. They were away a week or more and report having had a very enjoyable vacation.

Miss Norma Berner, daughter of Mr. and Mrs. J. F. Berner, who has been attending summer school at Oklahoma University, will visit with relatives and friends before returning to her school at Duncan, Oklahoma, where she will teach this winter.

Mrs. A. F. Barkley and daughters Virginia, Reba and Gertrude, spent the last week-end at Dalhart, visiting in the home of her sister, Mrs. J. W. McCleskey. At Dalhart they were met by Miss Elizabeth Lyon, from Denton; Mrs. H. E. Vaughan, with her little son Edward from Mineral Wells and Miss Dorothy Cherry from Shreveport. Miss Lyon and Mrs. Vaughan are sisters and Miss Cherry is a niece of Mrs. Barkley. They all returned to Spearman Monday for a visit in the A. F. Barkley and P. A. Lyon homes.

Rock Island Service Man

Mr. Hughes, a Rock Island implement man, arrived in Spearman last night and will remain in this territory ten days, working with the local agent, Arthur Owen. While here Mr. Hughes will service Rock Island tractors free of charge, and also will explain the mechanism and demonstrate this great tractor to all who are interested.

Mr. and Mrs. Johnnie Lackey drove to Crowell the first of the week after his mother, Mrs. J. F. Lackey, Mrs. R. E. Hembree, Mrs. Lackey's sister, accompanied them home.

Miss Marie Davis of Grand Junction, Colorado is visiting her friend, Halsey Hulbert, in Spearman this week.

Mr. and Mrs. Howard Barber and family of South Haven, Kansas are here visiting Mr. and Mrs. Carl Hutchison.

Wanted, to board a lady school teacher or high school girl. Two blocks west of school house, phone 384.

A new INNER TUBE?

Let the extra miles in CONOCO gasoline buy it for you....

If you keep an accurate record of gasoline costs, you know that every extra mile you get from a gallon is so much velvet. In the aggregate these extra miles represent a handsome saving—enough to pay for those greatly desired accessories you've had in mind; perhaps a pair of new inner tubes or an extra set of spark plugs. That's why it will pay you well to look for the new Conoco Red Triangle. Fill 'er up. Then speed away for extra miles.

Fill only at the Conoco sign—the red triangle—the symbol of extra miles. Conoco gasoline is refined to produce maximum mileage without in any way sacrificing those other essentials of a good motor fuel—quick starting and rapid acceleration. It functions efficiently at every step in the driving operation with special emphasis on power and mileage.

THE GREATER CONTINENTAL OIL COMPANY

CONOCO packed with extra miles GASOLINE

LOOK FOR THE SIGN OF THE RED TRIANGLE

Economy

Spell it, pronounce it. And fix it firmly in your mind. For only the rich can afford to laugh it off in these times.

Rent, medicine, taxes, school, false teeth, interest, horse-shoes, call money; EVERYTHING YOU BUY costs a-plenty

And if you get "17 main wearings," "Fishhook body," "Hydrophobic brakes and oiling system" with "Sicks cylinders" in your automobile you probably have forgotten that the only way to spell ECONOMY---in transportation---is with four letters

Popular Radio Artist

Will Christen Chevrolet

Grace Hays, the "Personality Girl"—one of the most popular radio artists of the past two years—will christen the one-millionth six-cylinder Chevrolet with a burst of song, in the broadcasting of this company's jubilee banquet in the Masonic Temple at Detroit on Wednesday, August 14 at 8 p. m., Eastern Standard Time. She will be assisted by her accompanist Neville Flession.

The present Chevrolet Six model was announced on January 1st, 1929. The millionth Chevrolet Six will be presented at the banquet in person, and will be formally unveiled by Vice-President H. J. Klinger in the presence of 200 officials, executives, managers and district managers of his company, from all over the country. His remarks concerning this new production record will be broadcast and in addition to Grace Hays and Neville Flession, musical features will be presented by Jean Goldilette and his famous orchestra, and by Billy Jones and Ernie Hare—the popular radio team known as the Happiness Boys. Jack Donahue of the Folies—the dancing partner of Marilyn Miller—will be Master of Ceremonies. Ted Husing, of the Columbia Broadcasting System, will be the announcer.

Grace Hays is a product of San Francisco, the home of so many musical dramatic stars. She has been a singing comedienne since she was in her teens. Vaudeville knew her and loved her charm, beauty and voice, for several years, after which she achieved success in musical comedy, being featured in the Passing Show of 1926, Rainbows, in London, and more recently in the Merry Whirl. Miss Hays' most notable success, however, has come in radio, in which

her crooning voice has won the affections of millions.

The program will be heard over the national network of the Columbia Broadcasting System.

TIME THE REVEALER

Since the dawn of history some thirty billion persons have come and gone. Of this great host, less than 2,000 have loomed large against the horizon. About 225,000 have left footprints on the sands of time sufficiently deep to identify them and their deeds.

Think over these figures when you hear some one deploring the fact that the present age is not producing any super-men. Outstanding figures of history have never grown in rows like radishes—genius is sporadic.

About 250 years ago, over in Holland, there was an obscure lense grinder who lived and died in a poorly furnished room, almost friendless and alone.

After his death they found a bundle of manuscript in a drawer under his work bench. By chance some scholars saw the MSS. and realized that this simple, unpretentious craftsman, named Benedict Spinoza, had written one of the greatest philosophies of life in the whole history of mankind.

Spinoza was a genius, but no one knew it until long after he was dead. There are men now living whose names will be lauded in history, though they may be practically unknown today. It requires time to reveal true greatness. Contemporary opinion is usually contemptuous.—Dexter's Extra.

PROMOTING CULTURE

There are in this land of ours many lofty souls who scoff at the work of a chamber of commerce and condemn Americans for their pro-

clivity for "boosting" their home communities.

It is purely the mark of a material civilization, showing supreme neglect for anything of cultural value. It is a spirit dictated only by selfishness, by a will to have a larger community in which to carry on a program of exploitation.

This is their argument but is it intelligent? Isn't an active chamber of commerce an agency for the development of things of cultural value as well as of things of material value? Isn't lack of money the great drawback to the proper development of almost every community in the land?

The thinker can answer in one way only. It is the prosperous community that can afford the best schools, that can support the finest in entertainment, that can maintain the best library. Poverty never produces anything of merit. This is true of individual careers. It is likewise true of communities and municipalities.

When an active commercial organization in our city brings a new business to the community it adds much to the tax roll of the city, and it thereby opens the way to any number of enterprises of cultural value that could not be considered otherwise.

We want to see Spearman prosper. First because we feel confident we too will prosper along with the general movement. Second, because we know that our citizens will lead better and happier lives as the community forges forward in a material way.

Reckless drivers need chains on their feet more than on their tires.

COUNTRY PAPER GAINING

The notion that the country press will be replaced or damaged by the growth of the radio, the movies, or any other modern agency for entertainment and distribution of information was scoffed at by Congressman Aswell of Louisiana in an address recently.

The country newspaper, he maintains, is an essential part of its community, as essential as the court house, the school, or the church. The editor, he maintains, is closer to the lives of his citizens than even the minister or the family doctor. Every event, great or small, finds its way to his knowledge or attention.

He cited the views of Thomas Jefferson who said he would rather have newspapers without government than a government without newspapers. "The great student of democracy believed that newspapers are essential to successful popular government—that the fear of publicity is a greater

deterrent of corrupt practices than prison threats, and that an accurate knowledge of what is taking place throughout the community and nation is essential to the functioning of government by the people.

In another part of his address he sketched the development of the newspapers in this country, showing how most of the changes have been in the direction of real advancement. In this, we feel, he struck upon something vital.

We tire of hearing allusions to the "good old days" when the editor spent hours and days collecting epithets to hurl at his opponent with the next edition—when feuds in words were accepted as an essential feature of journalism. The person educated up to the modern standard to which most newspapers adhere would find the old type of publication extremely tiresome.

In short Congressman Aswell has lent emphasis to our own feeling—that the country paper is really just

coming into its own, that modern developments tend to emphasize more than minimize its importance and that it is moving step with the march of progress, adding new improvements each year.

Million Since The First of the Year

million six-cylinder Chevrolets been placed on the road since first of the year.

sensational announcement, stating as it does the greater popularity of the new six cylinder cars made at the central offices company here today as assemblants in various parts of the country were operating on the big summer production schedule in favor of Chevrolet.

in the history of the industry any other manufacturer equaled the achievement of placing a million six cylinder cars on the road in six months. In fact, more than eight months. In fact, three times as many six cylinder cars were ever produced by a manufacturer during a like period.

record-making model, probably the most famous of all Chevrolet cars, rolled off the assembly line at the huge Flint, Mich., plant on August 5. It happened to be the new Imperial sedan, indeed a few weeks ago. The glass record-breaker was welcomed at the end of the assembly line by W. C. Clegg, president, and other Chevrolet officials.

about any ceremony the car left the plant for Detroit where it will be exhibited as one of the interesting exhibits that are to be a part of the Chevrolet sales convention in Detroit, August 14-15-16. The Chevrolet sales supervisory staff of nearly 2,000 men will be on hand for the biggest convention of its kind ever held by the company.

ever rapidly with which Chevrolet cars have been produced. It is a record on to the record of a million sixes in less than eight months. It will be noted from the following tabulation of the dates when various epoch marking sixes were placed on the road:

Six	Jan. 1
10,000th Six	March 6
20,000th Six	April 24
30,000th Six	June 12
40,000th Six	August 5

early every state in the Union a share in the building of the million sixes. Pennsylvania, Ohio and Michigan furnished the steel; the South and the West supplied the cotton and wool; the

rubber came from Ohio, Illinois and California; the glass from Pennsylvania, Ohio and Illinois and the Duco and enamel from New Jersey and Michigan. More than 85,000 carloads of material were used to produce the million sixes. As officials point out, the achievement is even greater than during the same period of 1927 or 1928, during which years the Chevrolet Motor Company was the world's largest builder of automobiles. Furthermore, the change made by Chevrolet January 1 from four-cylinder production to six-cylinder production upset all previous precedents in the low priced field by causing the production of six-cylinder cars to exceed the production of four-cylinder cars for the first time in automotive history.

It is also significant to note, from automobile registrations, that since January 1, 1927, the Chevrolet Motor Company has built and produced to date more automobiles than any other manufacturer in the world. Also, Chevrolet sales for the first time in the history of the company were greater in July than they were in June, which still further emphasizes the constantly increasing popularity of the new six-cylinder car.

A REAL HERO

It is always good to read about genuine bravery.

Lieutenant Jovice, of the Jugoslavain infantry, was lecturing his platoon on hand grenades recently. He exhibited a grenade, pointed to the firing pin, and explained that the grenade would explode just five seconds after the pin was pulled out.

And just at that moment, thru some mischance, the pin fell out!

The room was full of soldiers. Many would be killed if the grenade exploded there. Out of the window was a courtyard, also full of men. To throw it out the window would kill some of them. And Lieutenant Jovice had just five seconds to think.

Quickly he ordered his men to lie flat. Then he ran to a corner and hugged the grenade tightly to his side. The five seconds passed, and the grenade exploded.

Lieutenant Jovice's right arm was torn off—but no one else was hurt.

It will be a long time before you read of a braver man than he.

We do not count a man's years until he has nothing else to count.

PAST EXPERIMENTAL STAGE

Travel by air is now definitely past the experimental stage. Again the Graf Zeppelin has brought a load of passengers safely across the Atlantic. Daily men in various lines of business are finding the aeroplane of great value.

Figures recently made public show that travel by air is no more dangerous than many other means of locomotion. The law of averages gives one almost twenty years of safety in the naval air service, with its continuous maneuvers and extra hazardous flying. The same set of figures show that one could fly in the mail service for twenty-four years before one would encounter an accident. We doubt if the same figures could be secured for motor car travel.

And it must be remembered that ordinary travel is far less dangerous than military maneuvering or air mail carrying.

The time has come, therefore, when we must recognize the aeroplane as an essential and important unit in our national system of transportation, and since this is the case it is well to consider what the effect will be upon our city. Do we need an airport in Spearman?

Many local citizens feel that we do, arguing that it need not be an extremely expensive project—that it

may bring to the city a large amount of business that goes elsewhere—and that transportation has always been the key to city growth.

This is an interesting subject, and we should like to receive opinions on it from our readers.

IS THE MOON WHITE?

The moon is not white, it is brown. Mars is not red, it is green! These are the latest suggestions of astronomers. A committee of the Carnegie Institution in Washington, reports that the apparent silvery whiteness of moonlight is due to contrast with the darkened sky. The actual color of the moon, they believe, is the dull brown of weathered rocks. This suggests that the surface of the satellite may have been weathered by oxidation at some previous time, although the moon is known to have no atmosphere now.

Mars, according to E. J. Gounod of the Amateur Astronomers Association, may be covered with green vegetation, like the earth. The reason is that the light rays have to pass through the atmosphere of both Mars and the earth, before they reach our eyes. These atmospheric filters out the blue and green rays but allow the red rays to come through.

The three reasons most often given for the red color of Mars, says Pop-

ular Science Monthly, are that the planet is "rusty" with iron rust, that red vegetation.

Another Record!

a Million

SIX CYLINDER CHEVROLETS on the road in less than eight months!

Less than eight months have elapsed since the first Chevrolet Six was delivered into the hands of an owner—and already there are more than a million six-cylinder Chevrolets on the road! And the reasons for this overwhelming success are easy to understand.

Into a price field that had hitherto been occupied exclusively by four-cylinder cars—Chevrolet has introduced a six-cylinder car of amazing quality and value. Not only does it offer the smooth, quiet, velvety performance of a great six-cylinder valve-in-head motor—but, from every standpoint, it is a finer automobile than was ever before thought possible at such low prices! Its

beautiful new bodies—which are available in a variety of colors—represent one of Fisher's greatest style triumphs. And its safety and handling ease are so outstanding that it's a sheer delight to sit at the wheel and drive. In fact, the new Chevrolet Six has completely changed every previous idea as to what the buyer

of a low-priced car now has a right to expect for his money.

You owe it to yourself, as a careful buyer, to see and drive this car. For it gives you every advantage of a fine six-cylinder automobile—in the price range of the four and with economy of better than 20 miles to the gallon! Come in today!

800 Acres of Wheat Worth 2,000 Dollars more when Planted with a SUPERIOR DEEP FURROW DRILL

Mr. DuBois Walker of Hereford, Texas has this to say about his crop planted with two SUPERIOR DEEP FURROW DRILLS—

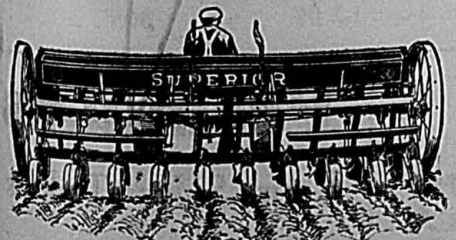

"I drilled eight hundred (800) acres to wheat, encountering wet, dry and trashy conditions. Under all conditions the SUPERIOR DEEP FURROW DRILLS functioned properly and I got a perfect stand of wheat.

Today I compared my wheat with wheat sown at the same time as mine and under the same conditions but with a regular spaced drill. I figure my eight hundred acres of wheat are worth two thousand (2,000) dollars more than they would be had I used regular spaced drills."

What the SUPERIOR DEEP FURROW DRILL has done to increase yields for this progressive farmer it has done for hundreds of others and will do for you.

If you are interested in 25 to 50% greater yields than you are now getting, you will be interested in this remarkable drill. The seed germinates quickly in the moist soil without waiting for rain. The deep furrows catch the snow insuring a plentiful supply of moisture and protection against winter killing. This is truly a remarkable drill that will increase your profits and yields.

See this great new proven drill at our store today. Sow your next crop with this drill and pay for it out of the extra profits it will bring you at harvest time.

Church and Society

Tevebaugh-Baker

Miss Ruth Tevebaugh, daughter of A. W. Tevebaugh of Edmund, Oklahoma, and Russell Baker of this city were quietly married Saturday, August 10, at Okemah, Judge Foye officiating. Mrs. Baker is a sister of Mrs. Nel McCubb and Mr. Baker is prominent young farmer of the Okemah community. Both are well known and have many friends in Spearman who wish for them a happy married life.

Meeting Continues

The revival meetings in progress at the Church of Christ, Spearman, will continue over next Sunday, August 18. Services begin at 8:30 each evening. Subjects for Thursday night: "What we teach and why we teach it." Friday night: "What must I do to be saved?" Saturday night: "The Judgment." Sunday morning: "God's word is sufficient." Everyone is invited to hear the evangelist, E. F. Oliver, on the above subjects. Come, let's reason together.

Epworth League

An important business meeting of the Epworth League will be held at the church on Sunday evening at 7:30. All leaguers are requested to be present.

Dinner Party Given to Honor Maurine Vinson

A delightful affair on Friday evening was the dinner party given by Mr. and Mrs. C. E. Foye. The honoree was Miss Maurine Vinson of Okemah, who is the house guest of Miss Lucile Maize. A lovely street and white center scheme was served to the Messrs. Maurine Vinson, Ethel Womble of Berfield and Lucile Maize, the Messrs. Bob White, C. A. Robinson, and Bob Bundy.

Mr. and Mrs. P. E. Walker and sons George and Billy, left Monday morning for a week's visit with his parents, Mr. and Mrs. P. E. Walker, of Clinton, Oklahoma.

Candy, fresh and fine, at the candy counter, at Spearman Motor Company.

Mrs. James Reed of the Blodgett community visited Mrs. A. E. Rector at her home two miles east of Spearman Tuesday afternoon.

For nice, fresh candies stop at the candy counter at Spearman Motor Company.

Clarence Morgan and family of Las Animas, Colorado, are visiting relatives and friends in Spearman and vicinity.

Misses Calie Odham, Gita Tompkins, Emma Beaves and Edna Parks spent Sunday at the T. C. Harvey home, in the Kimball community.

A good two-quint house for rent or for sale. Located on black perch and one block west of Spearman schools. See

FINIS MAIZE.

Misses Beier Harvey, Lois and Anna Lee Norton, motored out to the T. C. Harvey home in the Kimball community on Friday afternoon of last week.

Rev. J. E. Richards, pastor of the First Baptist church of Spearman, returned the last of the week from south Texas, where he has been in a meeting.

Mr. and Mrs. A. J. Williams, her father S. W. Oakes, and mother Lena and Cully Oakes, spent last week out in the vicinity of Pike's Peak, Colorado. They report a most enjoyable visit to the mountains.

This soothing bit of information came on one of the hottest days we have had this summer: "Dear Mr. and Mrs. Kelly: I am on top of Pike's Peak now, in a snow-storm. It is too cold to write. Blessed Greaves."

Mr. and Mrs. Moody Womble and children, Miss Helen Gay, and Roscoe and Robert Womble left last week for Yellowstone National Park. They expect to be gone about two weeks.

Miss Beatrice Burton, Miss Opal Olive, "Happy" McKinney, Bill Burton and Arnold Williams are enjoying a two weeks' vacation in the mountains of Colorado.

Mr. and Mrs. Clyde Hainwood and little son and Mr. and Mrs. Charles Darnell visited Sunday in the home of Mr. and Mrs. E. L. Guy, near Morse.

J. W. Buffum of Jefferson, Oklahoma, father of Mrs. Edna Luckey, Mr. and Mrs. Bert Eastiff and son Buck of Enid, visited Thursday and Friday in the home of Mr. and Mrs. Edna Luckey.

Mrs. Fannie Richardson, came from Amarillo Saturday and is a guest in the home of her daughter, Mrs. P. A. Lyon in Spearman and son Alvin Richardson at Hamstead. Mrs. Richardson is accompanied by her brother E. E. Hall of Shelburn, Missouri, who is spending the summer in the panhandle. Gene Richardson came in from Amarillo Monday night, and will accompany his mother back to their home in the city today.

THE TIDWELL SHOWS

The Tidwell Shows, biggest and best carnival company on the road, are showing in Spearman this week. The shows were opened to the public on Tuesday night and will be here until after Saturday night. This is the largest, cleanest and by far the best carnival that makes this territory and they never fail to attract large crowds. Mr. Tidwell and his helpers are real show people, and as this is the third consecutive year that they have made Spearman, the company has many friends throughout this section. Mr. Buchanan, of the inspecting department, states that the company will go from here to Derrington to help out with that town's big holiday celebration next week August 22-23.

Mrs. C. S. Elliott is here from Ottawa, Kansas, visiting her son Halcyon, of the First National bank.

Mr. and Mrs. D. W. Haslewood and family visited over the week end in the home of their son, Travis Derrwood, at Tulsa.

Mr. and Mrs. Rex Sanders and children returned from a two weeks vacation at Yellowstone National Park and other points of interest.

Bill Waldrop visited in the home of his parents, Mr. and Mrs. E. N. Waldrop at Carter, Oklahoma, the past week.

Burrage Sparks of the Sparks Confectionery, visited and attended to business in Wichita, Kansas, last week.

Mr. and Mrs. John L. Hays and Miss Ruth Franchman left Saturday for a two weeks' visit near Los Angeles, California.
