FOURTEENTH YEAR

Successor to HANSFORD HEADLIGHT

Spearman, Hansford County, Texas, June 23, 1922

Number 27

Diversify

Hard times and dry years always find the prudent farmer with more than one source of income. The wheat farmer might make a crop and he might not. The man who is successful is the man who takes the safe and surer method, and has

FOUR SOURCES OF INCOME

6 Milk Cows

6 Brood Sows

100 Hens

and one money crop

He is the man who has money in the bank, and who does not have all his property covered by mortgages. He is the man who comes through the hard times without sleepless nights and prematurely gray hair.

First National Bank of SPEARMAN

Twenty Bushel Wheat

L. R. McComas was in from his ranch on the north line of the county Monday looking after business matters. Mr. McComas says he has 250 acres of wheat that is good for 20 bushels per acre, and that it will be ready to harvest within two weeks. Len must have worked a little during the past year, as there is very little 20 bushel fall-sown wheat in the country. Spring wheat, oats and barley are good but the fall-sown wheat is short.

Mr. and Mrs. Elias Hitch, Ed Hitch and wife and Mrs. Chas. Waters, nee Miss Ruby Hitch, are here from Gaymon visiting at the Luther Cline home.

H. E. James of the Guaranty State and C. W. Carson Jr., of the First National bank, attended the Panhandle Bankers Association at Amarillo Monday and Tuesday.

Tom Haralson and two little daughters, Lottie and Leatrice, were in from Plemons Tuesday. They just recently returned from quite an extended visit with relatives and friends in Hemphill county.

A. F. BARKLEY'S Insurance Agency

We insure grain CUT or UN-CUT, THRESHED or UN-THRESHED, in the SHOCKS, STACKS or ricks, on your premises, against fire and lightning.

A match or cigarette carelessly dropped in your field may mean the loss of your entire grain crop.

A stroke of lightning may mean the loss of several stacks of grain. Rates are reasonable for this class of insurance.

ELECTRIC LIGHT, WATER AND ICE PLANT FOR SPEARMAN

F. C. Johnson of Buffalo, Oklahoma, Will Put in a Plant Here if Deal Can Be Made With City Council—Proposition Sounds Good.

J. F. Miller, who is associated with F. C. Johnson, capitalist, banker and railroad builder of Buffalo, Oklahoma, spent several days in Spearman the fore part of the week, conferring with members of the city council and other business men in regard to the establishment of an electric light, water and ice plant in this town. On account of the absence of Mayor James, who was attending the bankers' meeting at Amarillo, no meeting of the city council could be held until Wednesday night. On the return of the mayor a meeting was arranged and the matter taken under advisement by the city council. Mr. Miller's proposition sounds very reasonable and the council seems favorably impressed with it. He simply asks for a franchise and a deed to the two lots on which is located the city well and present water equipment. The council did not wish to enter into a contract which means so much to the future of the town and community, too hastily, and decided to take two weeks' time in which to make a thorough investigation. Mr. Miller will return at any time the council is ready to proceed with negotiations. The Reporter has talked to almost

every business man of the town in regard to this proposition, and all seem to be favorably impressed with it. The town needs a water, light and ice plant above all things and the council should be willing, as are a great majority of the property owners, to be very liberal with a company which will come here and put in a plant adequate to the present needs of the town, and which will keep abreast of the times; will grow as Spearman grows.

So far as is known Mr. Johnson and his associates are absolutely reliable. They are not seeking a franchise to "peddle" to another firm, but, in case they make a deal with our councilmen, they will erect a plant here and operate the same. They also agree to sell the plant to the city at cost plus interest on the investment at any time after one year the latter wishes to buy.

A water, light and ice plant is Spearman's greatest need at the present time, and the city should be willing to offer reasonable inducements to bring these enterprises to us.

Boost for electric lights, water and ice

WILL DRILL IN HANSFORD COUNTY

At last a location for a deep test well has been made within the boundaries of Hansford county. Of course these county lines don't amount to much, and are only a turning point or stopping place for the convenience of tax assessors, candidates, etc., but a fellow takes a pardonable pride in the development of his home county and can't help it. The United Panhandle Oil Corporation of Cincinnati, Ohio, have made a location in the extreme northern part of this county, and will put down a well at once. It is reported that the material will be on the ground and that they will spud in by August 1. This location is about 25 miles northwest of Spearman, and is almost due north of the Oslo school house. It is in block 1, section 8, of the strip of free school land which runs across the entire width of the county on the north side.

Very little progress was made at the Coble-Heywood during this week, as the crew spent most of the time on a fishing job. As soon as they get the water shut off with the 8-inch casing they will continue drilling until the pay sand is reached.

It is now generally conceded by oil men that the test of production of the Dial No. 1 was unsatisfactory and that the well is good for much more than 125 barrels daily. Gas and mud were interfering with pump and it was removed from the well the first of the week. On Tuesday the baller was run which seemed to open up the way and the oil immediately rose 1100 feet in the well. This well is good for something in the neighborhood of 500 barrels daily. It is located 25 miles southwest of Spearman.

No new locations in the immediate vicinity of Spearman are reported, but new scouts are seen here every day and something definite is expected soon.

JOHNNIE ARCHER WILL GET BY

A couple of years ago Sam Archer, one of Hansford county's most prominent and successful stock-farmers, bought a home at Canyon and moved his family there for the benefit of the West Texas State Normal College. His son, Johnnie, entered the normal and from accounts seems to be making good in every way. Johnnie is not whiling away his time around the "sody joints" nor is he devoting any great amount of time to the movies. Johnnie is a member of the vocational agriculture class and is learning how to make two blades of grass grow where only one grew before; how to judge stock and poultry and how to get the very best results from a milk cow and what she should eat. In fact, Johnnie is learning the things which will help him to carry on the work and business of his father. During the winter he kept a Jersey milk cow; weighed and tested her milk every day and apportioned her food. This cow in return made Johnnie a little more than \$24 per month besides keeping the family in milk and butter. This is very good wages for a school boy and Johnnie is doing great good by showing just what a school boy can do if he applies himself properly.

Mrs. Zoro B. Pirtle visited Perryton, Wednesday.

Mr. and Mrs. Johnnie Spivey and daughter Miss Anna Marie, were in from the Lakeside community Thursday.

Ben Holt, Chas. Rogers and others were in from the Holt community Thursday, all getting ready for harvest except Ben, who says he has quit harvesting.

B. ter Borg, that good Dutch gardener from the Lackey community, presented the Reporter family with a lot of fine cherries from his orchard, the first of the week. We enjoyed the cherries very much and ter Borg has our sincere thanks for same.

Building Your Character

The name of the bank with which you do business is one of the best references you can give.

A checking account stands for modern business methods, available liquid funds.

Not only does a bank account yield you monetary returns, but it returns also a dividend in good reputation.

Missionary Society

The Home Missionary Society met this week with Mrs. Somerall. This was a missionary lesson and was led by Mrs. Pirtle. After the lesson dainty refreshments were dispensed with.

The next meeting will be with Mrs. McSpadden. Mrs. Hester will lead the Bible lesson. If you fail to attend these meetings you miss something.

Rev. and Mrs. S. W. Franklin and the baby were here from Texhoma Monday, visiting with old time friends.

Mr. and Mrs. Perron A. Lyon and Perron Jr., returned Sunday from a several days' visit with relatives in Dalhart.

A postal card from Joe Jones, who is looking after business matters at Austin, states that the weather is hot down in the capital city—blankety blank hot.

G. H. Pratt and G. P. Milton, the former with the Gulf Production Company and the latter with the Texas Company, were here Wednesday looking after business matters.

Doughboys, gobs and marines, who attend the American Legion national convention in New Orleans October 16 to 21, may obtain a "bunk" for \$1.50 a day, as a result of an agreement between representatives of seven leading hotels and convention officials.

Joe Ownbey was in from the south flats country Monday, looking after business matters. Joe, like many others is expecting great development in the oil business in his section, but is not counting any chickens before they hatch.

J. A. Holmes, candidate for the nomination for district attorney of the 1st judicial district, spent the fore part of the week in the Spearman country, in the interest of his candidacy. Mr. Holmes is a bright, energetic young lawyer and if elected will make this district a good prosecutor.

Mr. and Mrs. Harry Mullins, nephew and niece of Mr. and Mrs. S. H. Higgs of the Grand Plains community, spent the fore part of the week at the home of the latter in the Grand Plains community. Mr. and Mrs. Mullins are former residents of the Black settlement, but now reside at Abilene.

Brooks for Commissioner

R. E. Brooks announces in the Reporter this week as a candidate for commissioner precinct No. 3, Hansford county. Mr. Brooks has held this important position for about two years and so far as we know has given universal satisfaction. This is one of the most important offices to be filled in this or any other county and pays the least, but someone must serve the people in this capacity. Brooks is capable of making a good commissioner and if elected promises to serve the district to the very best of his ability. Give his claims due consideration before casting your ballot on July 22.

Little Fannie Sparks fell from a horse on Saturday of last week and suffered a broken arm. Dr. Haney reports it a bad break, but Fannie is doing nicely at the present time.

D. D. Spurlock went to Hansford last week to meet surveyor Bucy and they resurveyed the lines between the places of Mr. Bivens and Mr. Roberts, and opened up a new road.—Stratford Star.

Pickens for District Attorney

E. J. Pickens places his announcement in the Reporter this week as a candidate for re-election to the office of district attorney of the 31st judicial district of Texas, subject to the Democratic primary July 22nd.
Mr. Pickens is one of the best known citizens of this section of the Panhandle, as he has served just a little over two terms as district attorney; and his tireless work in the law enforcement and vigorous prosecution of law violators has made him a prominent figure in public life.
He first came to the office succeeding

Judge W. R. Ewing who had served the district for eight years as attorney. Mr. Pickens resigned the office during the war to enter the army and served as a private until the close of the war. On his return home he was again re-appointed to the position and has served faithfully and well since.

He has made a good record as prosecutor, and has secured convictions in many cases. He is regarded as one of the coming lawyers of the Panhandle, and is ably fitted for the office he now holds and to which office he asks the voters for re-election.

Mr. Pickens stands uncompromisingly for law enforcement and for a wholesome respect for the law, and solicits the support of the voters in the primary as an endorsement of his conscientious endeavors to make respect for the law one of the outstanding features in the development of the best there is in the Panhandle in the social life as well as the commercial world.

Works for County Judge

I have decided to enter the race for county judge of Hansford county. The duties of the county judge are to preside over the county court, the commissioners court, the probate court and also, to perform the duties of county superintendent of schools. As the duties of this office are becoming more burdensome, it would seem that some experience in these lines would better fit a person for this position. As to my qualification for the office, will say that I have been practicing law for several years and also taught school for about twelve years. I have served as county attorney of Hansford county for practically three terms and my relations with all the people have been pleasant. I appreciate the support of my friends in these lines.

I will not be able to make a personal canvass of the county as I will be working most of the time in the harvest fields. If I had opportunity I would like to see each voter in person, but this will be impossible. As I have lived in Hansford county more or less for the past eighteen or twenty years, I think the people can make up their minds without personal solicitation.
If elected I will endeavor to merit the support of the splendid citizenship of Hansford county.

C. D. WORKS.

To the Voters of Hutchinson County

I am again asking for election to the office of tax assessor of Hutchinson county, the position I have filled to the very best of my ability for the past two terms. I am entering this race for the third term at the earnest solicitation of many friends, who have been my loyal supporters in the past and whose council and advice I can not well let go unheeded. On account of my past experience I feel that I can render the county more efficient service than I have in the past. I am acquainted with the tax payers of the county, am familiar with the work and know that I can give you good service as a tax assessor. I wish to thank the people of the county for their support during the past and respectfully solicit the same in the general election in November.

Very truly,
TOM HARALSON.

We Got the Plums

(The following article was printed in the Hansford Headlight when Guy Crumbaugh was editor.)

Last Thursday evening Dr. Deacon and the Editor of this family journal accepted an invitation from our friend Joe Close, the lightning rod man, to go home with him and go plum hunting Friday.

We arrived, about midnight, at the Close farm, which is one of the best farms and managed by one of the best families in Hansford county, where we spent the remainder of the night, and on arising next morning about 5 o'clock were seated to a good breakfast after which we hitched up Joe's black ponies and one of those good long eared mules to another and started for the Canadian Breaks in Hutchinson County.

Arriving on the sand hills about eight o'clock Friday morning we at once began driving over said hills which one would imagine could never be crossed by buggies, but Joe Close can drive a buggy where some people could not carry a blind bridle, and the Dr. or editor did not refuse to ride as to walk over those sand hills on a hot day would fatigue Jack Johnson or any other mountain climber.

We spent a good portion of the morning hunting plums and driving around but about noon we hit a patch that looked good and got out and three of us picked one and one half bushels of fine large plums in twenty minutes.

After eating a good dinner which had been prepared for us by Mrs. Close, we gathered more plums and about three o'clock felt tired and decided to take an invoice which proved we had six bushels of fine wild plums and all being tired except Joe and his horses, we said "call rope".

We saw our friend C. C. Logan across the hills some half mile or more and used our wireless telephone which brought him to us and he began finishing the patch we had just finished our loads from.

Dr. Deacon was very much delighted as some said Dock would not find any plums as he went once before and got no plums but the Dr. is there on picking them, after he gets all the plums he can eat.

We arrived home Friday evening tired but tickled as we now have some good plum jelly, thanks to Mrs. Joe

docket of the District Court of Travis County, Texas, Fifty-third Judicial District, wherein R. M. Thomson is Plaintiff and W. B. LaMaster, S. G. Ward, W. W. Grooms, A. F. Barkley, Edgar Thompson, W. O'Brien and Harold Knupp are defendants, wherein an indebtedness of \$3881.82 with interest on \$3528.93 thereof from January 21, 1922, at ten per cent per annum and on \$352.89 thereof from January 21, 1922, at six per cent until paid and costs of suit is adjudged to be owing to plaintiff by defendants W. B. LaMaster, W. W. Grooms and Edgar Thompson and to be secured by a first vendor's lien on the property described, that being the amount of the judgment recovered by the said R. M. Thomson, plaintiff, in the District Court of Travis County, Texas, Fifty-third Judicial District on the 21st day of January, A. D. 1922, against defendants W. B. LaMaster, W. W. Grooms and Edgar Thompson with foreclosure of lien against said defendants W. B. LaMaster, W. W. Grooms, Edgar Thompson, as well as against the defendants S. G. Ward, A. F. Barkley, W. O'Brien and Harold Knupp, and each of same, and against all persons claiming by, through or under said defendants or either of same, as hereinafter more fully set out, I, the undersigned sheriff of Hansford county, Texas, on the 29th day of May, a. d. 1922, at 10 o'clock a. m. levied upon and will on the first Tuesday in July, a. d. 1922, the same being the 4th day of said month at the Court House door in Hansford, Hansford County, Texas, within legal hours between 10 o'clock a. m. and 4 o'clock p. m., proceed to sell for cash to the highest bidder all of the right, title, interest and claim which the said W. B. LaMaster, S. G. Ward, W. W. Grooms, A. F. Barkley, Edgar Thompson, W. O'Brien and Harold Knupp or either of said persons, or any person claiming by, through or under any of said defendants, had on the 14th day of May, A. D. 1917, or at any time thereafter and still have in and to the following described land and premises, to-wit:

Situated in Hansford County, Texas, about fourteen miles northwest of the town of Hansford and known as Section 138, Block 2, by virtue of Certificate No. 33456, issued to G. H. & H. Railroad Co. and patented by the State of Texas to R. M. Thomson, assignee of W. O. Cornwell, May 14, 1917, by patent No. 580, Vol. 52, containing 653 acres of land, more or less, and known as a portion of the W. W. Grooms ranch.

The above sale will be made by me to satisfy the above described judgment for the sum of \$3881.82, together with interest and costs of suit, all in favor of the said R. M. Thomson, and the proceeds of said sale will be applied in satisfaction thereof, and the balance, if any remaining, will be paid to the defendants, W. B. LaMaster, S. G. Ward, W. W. Grooms, A. F. Barkley, Edgar Thompson, W. O'Brien and Harold Knupp, or their legal representatives, in accordance with the terms of said order of sale.

Witness my hand at Hansford, Texas, this the 29th day of May, a. d. 1922.

H. L. WILBANKS,
Sheriff of Hansford County, Texas.

NOTICE OF SHERIFF'S SALE

Sheriff of Hansford County, Texas.

Notice of Sheriffs Sale

The State of Texas, county of Hansford. In the district court of Hansford county, Texas.

The J. B. Burwell Supply Company vs. D. H. Hart and Cora D. Hart, No. 249.

Whereas by virtue of an order of sale issued out of the district court of Hansford county, Texas, on a judgment rendered in said court on the 18th day of April, a. d. 1922, in favor of the said Burwell Supply Company, and against the said D. H. Hart and Cora D. Hart, No. 249 on the docket of said court, I did, on the 9th day of June, a. d. 1922, at 4 o'clock p. m., levy upon the following described tract or parcel of land situated and lying in Hansford county, Texas, described as follows: All the north one half (N. 1/2) of section number three (No. 3) in block number three (No. 3) originally granted by the state of Texas to the public free schools and containing 320 acres of land, and belonging to the said D. H. Hart and Cora D. Hart; and on the 4th day of July, a. d. 1922, being the first Tuesday of said month, between the hours of 10 o'clock a. m. and 4 o'clock p. m. on said day, at the court house door of said county, in Hansford, Texas, in said county, I will offer for sale and sell at public auction for cash, all the right, title and interest of the said D. H. Hart and Cora D. Hart in and to said property, as the same existed on the 18th day of January, a. d. 1922.

Dated at Hansford, Texas, this the 9th day of June, a. d. 1922.
H. L. WILBANKS,
Sheriff Hansford County, Texas.

MORGAN TYPE IS USEFUL ON FARM

Horse Is Gaining in Favor in Southwest Because of Many Sterling Qualities.

POPULAR NEW ENGLAND BREED

Stallions Are Being Used on Native Light Mares to Produce Animal That Satisfies Ranchers' Chief Demands.

(Prepared by the United States Department of Agriculture.)

Because of its superiority in activity, hardiness, and stamina, the Morgan horse is increasing in popularity in the Southwest where stallions of the breed are being used to improve the saddle horses on the range. Used on the native light mares they produce a useful animal that satisfies the ranchers' demands.

Good Show of Breed.

At the Southwestern Exposition and Fat Stock show, held at Fort Worth, Tex., March 11 to 18, this year, there was a particularly good show of the breed. Sixteen horses were exhibited and there was a strong class of aged stallions. Red Oak 5249 was the best aged stallion and champion Morgan. This horse, sired by General Gates, was developed at the United States Morgan Horse farm at Middlebury, Vt. The Morgans were placed by one of the best known horse judges in the country, who described the champion as one of the finest horses he had ever seen.

Useful American Breed.

As a result of the efforts of the United States Department of Agriculture in improving the Morgan and in stimulating a renewal of interest in this useful American breed, good

This is the Type Being Used to Breed Army Remounts.

breeding specimens are now found in many parts of the country. In order to obtain suitable remounts for the service the army has placed Morgan stallions in Kansas, Missouri, Montana, Nebraska and Texas. A few are owned privately in Illinois, Missouri, and Iowa, but the stronghold of the breed remains in New England, particularly in Vermont, where it was first developed.

STATE INSPECTS HATCHERIES

Poultry Industry in Wisconsin Under State Regulation—Certificates Are Given.

The Wisconsin poultry hatcheries are the only ones in the United States which are under state regulation and inspection, according to information collected by the United States Department of Agriculture. Because of the menace to the poultry industry through the sale of young chicks of inferior quality and breeding, the state department of markets and the poultry department of the University of Wisconsin have established regulations and requirements for hatchery flocks and for hatcheries, and those that fill the requirements and live up to the regulations will be known as "Wisconsin inspected and accredited hatcheries and hatchery flocks." A list of the accredited hatcheries and flocks has been prepared and published. Chicks purchased from hatcheries on the list bear the mark of the department of markets, which gives assurance that they are standard bred and from reasonably good egg-producing strains. Inspectors issue certificates to owners of hatcheries and flocks that fill the requirements.

PLANT ONLY BEST CORN SEED

Possible to Secure Results of Another Man's Life Work in Breeding and Selecting.

Perhaps in no other farm crop is there as little excuse for planting poor seed as in corn. It takes only about a peck to the acre, and the best of seed can be planted with little expense. When one can secure the results of another man's life efforts in breeding and selecting, the small cost comes back many times the very first year.

BETTER TILLAGE FOR FARMS

Small Acreage Is More Profitable When Properly Cared for Than Large Tracts.

A small farm well tilled will give better returns than a large acreage poorly cared for. If more farmers would learn this lesson, which the gardener learned long ago, we would have better farms and the owner would likely have more ready money.—LeRoy Cady, associate horticulturist, University Farm, St. Paul.

FARMERS ENGAGED IN RAISING SILVER FOX

Estimated That \$8,000,000 Is Invested in Industry.

Problems Met Require Knowledge of Species, Treatment, Sanitation, Diseases and Parasites—Handle Wild Animals.

(Prepared by the United States Department of Agriculture.)

More fur farmers are engaged in raising foxes than any other fur-bearing animal, according to reports to the biological survey of the United States Department of Agriculture. Observations made in the field by representatives of the survey indicate that at least 500 ranchers are raising silver foxes, and that there are between 12,000 and 15,000 foxes in captivity. It is estimated that about \$8,000,000 is invested in this industry.

The industry of breeding fur-bearing animals has grown because of the

Industry of Breeding Fur-Bearing Animals Has Grown Rapidly in Recent Years.

rapid development of the modern fur trade in the last twenty-five years. The United States is the largest fur market and fur-consuming country in the world.

Many inquiries concerning fox farming are sent to the biological survey. The problems met by fox and other fur farmers require, as in the case of other live stock, a knowledge of species, temperament, sanitation, diseases and parasites. In addition, fur farmers are handling wild animals in captivity and not domestic stock. A knowledge of pelts, particularly of values and market requirements, is essential to success from the business standpoint, and this ordinarily means to visit personally warehouses, manufacturing furriers, or sales of furs. As breeders cannot always do this, representatives of the biological survey are constantly bringing before them all possible information relating to the fur industry in all its phases.

SLIDES ON BETTER FARMING

Most Popular Set Has Been One Illustrating "Better Sires—Better Stock."

Two hundred and ninety-one sets of lantern slides were loaned to extension workers in 46 states during January, February, and March by the United States Department of Agriculture for use in illustrating better methods in farming and home making. Agricultural instructors and other teachers also found the slides useful, for 451 sets were sent to schools during this time.

The most popular set has been one illustrating "Better Sires—Better Stock." Next in demand to slides on this subject were those on home grounds improvement, followed by corn production, public road improvement, poultry management, dairying, forage crops and a wide variety of agricultural and home economics subjects.

The states making the largest number of requests for slides during this period, were Arkansas, Ohio, Michigan, Illinois and Pennsylvania.

CLEAN OUT ALL FENCE ROWS

Such Pests as Grasshoppers, Wire Worms and Cut Worms Can Be Controlled.

Insect pests, such as grasshoppers, wire worms and cut worms, can be controlled to quite an extent by cleaning up the old grass and weeds on the unused land along fence lines and on waste land. According to F. A. Fenton, entomologist at Iowa State college, these locations harbor such pests, and by cleaning them up early, many insects will be killed before they start work.

Where pests have been prevalent on any area, rotation of crops will often starve out the offenders. This is particularly true of wire worms, cut worms and corn root worms.

BIG IMPORTANCE OF TOMATO

No Single Garden Crop So Easily Grown—Success Depends on Soil and Cultural Methods.

There is probably no single garden crop so easily grown, and at the same time playing so large part in the winter supply of canned goods, as the tomato. Therefore, in the face of the high prices of canned and uncanned food stuffs, more attention should be given to this valuable crop, to provide an abundant supply for the home and local market.

Successful tomato growing is largely dependent upon judicious soil selection, fertilizer application, and cultural methods. The best soil for tomatoes is the well drained garden loam soil.

IMPROVEMENT OF DAIRY INDUSTRY AIMED AT BY RECENT CONFERENCE

There is a Decided Need for Improvement in Dairy Animals and in Making the Best Use of Those Now Available.

(Prepared by the United States Department of Agriculture.)

As a result of the conference of representatives of the purebred dairy cattle associations held in Washington, May 5, at the call of Dr. C. W. Larson, chief of the dairy division of the United States Department of Agriculture, a number of important recommendations were made for the improvement of the dairy industry, especially the purebred dairy cattle business. Each of the breed associations, including the Ayrshire, Brown Swiss, Guernsey, Holstein-Friesian, and Jersey, was represented by two or more delegates. The subjects of discussion had to do with the improvement of dairy cattle, advanced registry, fairs, and sales.

No conferences of this kind had been held for several years, and the representatives expressed the desire that this one might result in the formation of a permanent organization to thresh out problems of mutual interest and to work for the general betterment of the industry. Figures prepared by the department showed a decided need for improvement in dairy animals and in making the best use of the improved animals that are now available. The average production of the cows of the United States is about 4,000 pounds of milk and 160 pounds of butterfat a year, while the average cow in some other countries produces almost twice as much. There are 30 million grade and scrub dairy animals in the country and less than a million purebreds. There are 4,566,664 American farms having dairy cattle, and only 208,251 of these farms have purebred dairy cattle. It is estimated that approximately 250,000 purebred dairy bull calves born each year are not needed on the farms where purebreds are kept. Of the purebred animals that were registered last year, about 150,000 were females and less than 75,000 males, which indicates that not half of the purebred dairy bulls are registered.

Recommend Better Sires.

Among the recommendations made by the conference were those expressing approval of plans for increasing the use of purebred bulls in scrub and grade herds, and of the plans for cooperative bull associations as being the best known means for distributing surplus bulls and introducing them into new territory. Although there is a place in this country for all the purebred dairy cattle that may be produced for some time, it was the consensus of opinion that an expert business in purebreds would help to stimulate interest among farmers at home.

A number of questions related to advanced registry were brought up. Co-ordination of effort by and between the agricultural colleges and the breed associations was suggested, and it was recommended that these organizations and institutions make special efforts to co-operate. In this connection it was suggested that the various representatives ask their associations at their earliest meetings to appoint committees to meet with the Dairy Science association to see if an improved plan for making official tests of cows can be worked out, which will be agreeable to the breeders, the associations, and the colleges that send out the official testers.

The showing of dairy animals at fairs and expositions received a good deal of attention from several angles. It was decided to recommend to the associations that they cease giving money prizes at these shows, but spend the funds in putting on educational exhibits; that more attention should be given to production records in awarding prizes at fairs and shows; that the associations represented should give more attention to educational exhibits showing the economic advantage of purebreds in dairy practice; that each association has a distinct duty in connection with the selection of suitable persons to act as judges of the various breeds of dairy cattle at fairs and shows; that no animals should be admitted to fairs and expositions unless they are from herds accredited as being free of tuberculosis or in herds under federal or state supervision, and that fairs not enforcing such a rule should not be favored with animals for exhibits.

Live Stock Sales Discussed.

Questions relating to private and public sales were discussed, and it was decided to suggest a meeting at an early date of all the dairy cattle associations with a view to drafting a code of ethics for sales that would eliminate some of the undesirable conditions. Since an excessive amount of attention is given to a few high priced to the neglect of average conditions, it was also agreed to recommend to the associations that they send in to the bureau of markets and crop estimates of the department regular re-

ports of prices paid for purebred dairy cattle.

The representatives were well pleased with the accomplishments of the conference and were in favor of holding similar ones at frequent intervals. During their stay in Washington they were received by President Harding and were addressed by Secretary of Agriculture Wallace. Dr. John R. Mohler, chief of the bureau of animal industry, attended the meetings and addressed the conference. A visit to the department's farm at Beltsville, Maryland.

The list of associations and their representatives taking part in the conference is as follows:

Ayrshire Breeders' association: Paul O. Reymann, president, West Virginia; C. L. Burlington, secretary, Vermont.

Brown Swiss Cattle Breeders' association: A. E. Bower, president, Ohio; L. E. Hull, Ohio.

American Guernsey Cattle club: Robert Scoville, president, New York; S. M. Shoemaker, Maryland; Karl B. Musser, New Hampshire.

Holstein-Friesian Association of America: Fred Pabst, Wisconsin; H. W. Norton, Jr., Michigan; D. D. Aitken, Michigan.

American Jersey Cattle club: M. D. Munn, president, Minnesota; R. M. Gow, secretary, New York; O. H. Baker, New York; C. J. Tucker, Missouri.

REFILLING SACKS IS PROHIBITED BY LAW

Food and Drugs Act Is Violated by Some Feed Dealers.

Federal Officers Have Been Instructed to Watch for Interstate Shipments of Feeds Adulterated or Misbranded.

(Prepared by the United States Department of Agriculture.)

Some feed dealers are refilling used feed sacks stamped or printed with the name of the manufacturer and the brand name of the feed that was originally in the sack, so that the names and brands are not true in reference to the feed in the sack after refilling, according to officials of the bureau of chemistry, United States Department of Agriculture, who are charged with the enforcement of the Food and Drugs act.

A feed dealer of Iowa was recently cited to a hearing under the Federal Food and Drugs act for shipping into interstate commerce a molasses feed in bags which he had refilled but which bore the name of another feed manufacturer. The sacks also bore a brand name under which the original owner of the sacks sold a stock feed of much higher grade than the feed with which the sacks were refilled.

The Federal Food and Drugs act does not require the name of the manufacturer or the brand name to appear on sacks of feed coming within its jurisdiction, according to officials of the bureau, but if the name of the manufacturer and brand are given on the sack they must be true. The Food and Drugs act prohibits the use of any statements on foods or feeds that are false or misleading in any particular.

A dealer who contemplates refilling used feed sacks on which is printed the name of another manufacturer or any statements that are not correct when applied to the product he uses in refilling the sacks should be very careful to see that all such statements are obliterated.

Inspectors have been instructed to look out for interstate shipments of stock feeds which are adulterated or misbranded in this or any other particular. Appropriate action will be taken in all cases found to be in violation of the law, it is said.

BEEES PLAY IMPORTANT PART

Especially Valuable to Orchard Owner During Rainy Season in the Blooming Period.

Bees play an important part in the production of fruit in cross pollinating and fertilizing the flowers. They carry and distribute pollen. Prof. W. A. Price, entomologist at Purdue, says bees are especially important to the orchard owner in rainy, backward seasons, during the blooming period. When it is rainy the flies, butterflies, and the wind, pollinating agents, may not function, but the bees work between showers and are often responsible for the success of the fruit crop.

FARM LIVE STOCK

IMPORTANT WORM DISCOVERY

Zoologists Find That Carbon Tetrachloride Is Effective in Destroying Parasites.

(Prepared by the United States Department of Agriculture.)

The toll exacted from the live-stock industry by internal parasites such as worms is enormous, and because of this drain on the herds and flocks the zoologists of the United States Department of Agriculture keep up an unflagging search for chemicals and treatments that may be used to combat these organisms. Recently they have discovered that a certain chemical once used in medicine as an anesthetic and now used variously as a fire extinguisher, cloth cleaner, insecticide, and solvent for fats and gums, is very effective as a destroyer and expeller of intestinal worms. The name of this chemical is carbon tetrachloride.

The effectiveness of this chemical against certain round worms has been announced by the department, but what may be the most beneficial use has just been brought out by tests on animals infested with hookworms. In the case of sheep the minimum effective dose has not yet been determined, but all the doses used, from 12 cubic centimeters to 48, in each case given in two ounces of castor oil, removed all stomach worms and all hookworms. It has been equally effective for hookworm in dogs and foxes, and has been used with success against some of the various kinds of worms that infest the digestive tract of pigs.

The fact that a species of hookworm also affects man makes this discovery of the efficacy of this chemical against hookworms in various

Alfalfa is One of the Best Forage Crops for Hogs and Animals on This Kind of Pasture Are Most Healthy.

animals of interest to medical men as well as to veterinarians and live-stock growers. Medical men are now trying it out at several places as a possible cure for hookworm disease in man, and it gives promise of success. As a result of the work so far completed, scientists in the bureau of animal industry consider that this drug will prove of special value in the removal of the various kinds of blood-sucking worms in domestic animals.

FEED FOR FATTENING STEERS

Corn and Corn Silage With Cottonseed Meal and Alfalfa Favored at Iowa College.

That corn and corn silage, supplemented with cottonseed meal, alfalfa hay and salt make the best ration for fattening steers was shown to Iowa farmers recently. Steers fed this ration made substantial gains in experiments at Iowa State college and although they were ordinary steers they made \$13 per head. This indicates that the feeding business, properly handled and where good-quality steers are started with, will pay the farmer a profit.

Other roughages, such as clover hay, corn stover and mixed timothy and clover hays were experimented with. The red clover ration made a good showing but the other roughages lost money.

Cottonseed meal was used to an advantage in these experiments and made a fine balancer for the ration. In speaking of the use of this protein feed for steers the animal husbandry men say that during the last 12 years it has been used in experiments at the rate of three pounds to 1,000 pounds of steer. It was fed for a period of one to six months with corn silage and good results were obtained.

Cottonseed meal, however, as a hog feed has caused some doubt as to its value due to toxic qualities but the Iowa station has found that when fed in rations where cottonseed meal is used at the rate of one part to four parts of ration no harm has resulted.

OBSTACLE IN RAISING SWINE

Round Worm Is One of Greatest Cause of Loss—Many Remedies, but Prevention is Best.

One of the greatest obstacles encountered in hog production is the parasites which are found where hogs have been raised for a number of years. Probably the round worm is the one which is most numerous and causes the most losses. There are many worm remedies but the best cure is prevention.

COULD NOT HIT A LICK FOR MONTHS

Petersburg Resident Says She Has About Lost Hope of Getting Better—Now Well and Happy.

"Tanlac has been such a blessing to me I can't help singing its praises," said Mrs. T. J. Archer, highly esteemed resident of 1147 Shepard St., Petersburg, Va.

"I had indigestion so bad I couldn't eat a thing without being in misery for hours, and the pain around my heart caused by the gas seemed all I could stand. I constantly had headaches and awful spells of dizziness. Then to make matters worse rheumatism in my arms, shoulders and knees almost drove me to distraction, and for three months I couldn't do a stroke of work.

"I had just about decided it was no use to take any more medicine when my husband brought me a bottle of Tanlac. Now I never have a touch of indigestion. Headaches and dizzy spells are a thing of the past, and rheumatism has left me entirely. I never have known a medicine to equal Tanlac."

Tanlac is sold by all good druggists.

All things are difficult before they are easy.

The KITCHEN CABINET

Copyright, 1922, Western Newspaper Union. Provision is the foundation of hospitality, and thrift the fuel of magnificence.—Sir P. Sidney.

SOMETHING YOU WILL LIKE

When you have roast lamb the next time, try this sauce to serve with it:

Orange Sauce.—Take one-half cupful of gravy from the roast, add two tablespoonfuls of flour and brown sauce, add the juice of two and the rind of one orange grated, or the peeling boiled in water five minutes, then removed and cut in strips. Add one-half cupful or more of boiling water, salt, cayenne and the juice of a lemon. Serve hot.

Caramel Sponge.—Soften one-fourth of a package of gelatin in one-fourth of a cupful of water. Brown one-half cupful of sugar, then add one cupful of boiling water, stir until dissolved add the gelatin and stir over ice water until it thickens. Have ready two egg whites beaten stiff, add them to the gelatin mixture; continue beating until stiff. Turn into a mold. Serve with thin cream.

Glazed Tongue.—Wash and soak the tongue over night. In the morning place it in a kettle with cold water to cover. Bring to the simmering point and cook at that temperature for several hours until the tongue is very tender. Set away to cool in the liquor. When cold remove the skin from the tongue and trim. Fasten the tip and end together with a skewer and lay in a mold. Heat three cupfuls of the liquor, add one cupful of tomatoes, a bay leaf, a slice of onion, salt and pepper as needed, twelve cloves, one or two allspice, and simmer for twenty minutes. Strain and add one ounce of gelatin which has been softened in a little water. Then cover the tongue and set away on ice to harden. Unmold and garnish with olives and parsley.

Club Salad.—Take one and one-half cupfuls of cooked chicken, twelve slices of bacon, three tomatoes and lettuce. Arrange the lettuce on individual plates, place on each a peeled tomato, a little diced cooked bacon and some mayonnaise dressing, top with some of the chicken, more mayonnaise and a sprig of parsley. Around the dish, spoke fashion, arrange four or six tiny toast points.

Baked Corn With Clams.—Take one can of minced clams, one cupful each of canned corn, dry bread crumbs, one cupful of milk, two tablespoonfuls of butter, one teaspoonful of salt, pepper, onion salt and paprika to taste. Mix the ingredients except the butter, put in a buttered baking dish and cover with bits of butter over the top. Bake one-half hour. Fresh corn may be used.

Ah, what would the world be to us, If the children were no more? We should dread the desert behind us, Worse than the dark before.

EVERYDAY GOOD THINGS

For luncheon or supper or for breakfast or any other meal the good old popover is still popular.

Popovers.—Beat two eggs until very light, add gradually seven-eighths of a cupful of milk. An easy way to measure this is to fill a cup full then take out two tablespoonfuls, if your cup is not marked in eighths; now add one cupful of flour, one-half teaspoonful of salt and beat vigorously for two minutes with an egg beater, then add a teaspoonful of melted butter and pour into well-greased granite cups on deep gem pans to bake in a moderate oven.

Cheese Soup.—Scald one quart of milk, add a slice of onion, a blade of mace and a pepper pod. Melt two tablespoonfuls of butter in a saucepan, add two tablespoonfuls of flour and when well blended add the milk, remove the seasonings and cook until creamy. Just before serving add one-half cupful of grated cheese, two egg yolks well beaten, salt and pepper to taste; stir until the cheese is melted. Serve at once.

Princess Dessert.—Whip one pint of heavy cream, add sugar to sweeten and a few drops of almond to flavor. Moisten small bits of cake with orange juice, or any canned fruit juice will do, adding, if the orange is used, some of the grated rind. Put a layer of the cream in a glass bowl, then a layer of crumbs and a few cubes of jelly, more cream and cake until all is used. Garnish with cubes of jelly and chill before serving. A few nuts will add to the food value of this dish without destroying its appearance.

Spring Salad.—Slice tomatoes and cucumbers and place them on head lettuce that has been well chilled. When serving time comes, pour over a French dressing, using five tablespoonfuls of oil, two of tarragon vinegar and one-half cupful or less of Roquefort cheese. Stir until well blended, adding salt and red pepper as needed.

If the cheese is not enjoyed that may be omitted, adding a teaspoonful of Worcestershire sauce and a few drops of tabasco.

In His Steps. For even heretofore were ye called: because Christ also suffered for us, leaving us an example, that ye should follow his steps.—I Peter 2:21.

Trusting Men. The man who trusts men will make fewer mistakes than he who distrusts them.—Cavour.

Silence Is Golden. Well-timed silence hath more eloquence than speech.—Martin Farquhar Tupper.

LESSON FOR JUNE 25
REVIEW: JUDAH'S PROSPERITY AND ADVERSITY

GOLDEN TEXT—"Blessed is the nation whose God is the Lord."—Ps. 121:1.
PRIMARY AND JUNIOR TOPIC—Mo., Who Obeyed God.
INTERMEDIATE AND SENIOR TOPIC—True and False Leaders of Judah.
YOUNG PEOPLE AND ADULT TOPIC—Some Lessons From Judah's History.

I. Central Thought of Each Lesson Gathered Around the Key Words of the Day's Lesson Subject, Namely, Prosperity and Adversity.
A good outline is the following from Crannell's Pocket Lessons:

1. Judah's Prosperity. Based on—
(1) Reliance on God, lesson 1.
(2) Courageous Venture for God, lesson 2.
(3) Business Methods for God, lesson 3.
(4) The Vision of God, lesson 5.
(5) The Law and Leadership of God, lesson 7.
(6) Wise Leadership Back to God, lesson 8.

2. Judah's Adversity. Due to—
(1) Presuming Upon God's Blessing, lesson 4.
(2) Presuming Upon God's Purpose, lesson 9.
(3) Rejecting God's Word, lesson 10.
(4) Persecuting God's Messenger, lesson 11.
(5) Disloyalty to God and Man, lesson 12.

II. Golden Text Review. Assign the texts to your class the preceding Sunday and ask them to show how the lesson illumines the text, or ask the class to prepare on all the texts and have the members of the class draw the text and give the answer.

III. Character Study or Portrait Review. Assign the following characters the Sunday before: Asa, Joash, Jehoiada, Uzziah, Isiah, Hezekiah, Hilkiah, Jeremiah, Baruch, Jehoiakim, Ebed-melech, Zedekiah.

IV. The Summary Method. This method calls for the salient facts of each lesson with a statement of its outstanding teaching. Note the following suggestions:

Lesson 1. Asa cleared the land of idolatry and called upon Judah to seek the Lord. Because he rested upon the Lord, God gave him victory over his enemies.

Lesson 2. Athaliah attempted to destroy the seed royal and then usurp the throne. Jehoiada checkmated her by hiding away Joash for six years. At an appointed time Joash was crowned king and the usurper slain. Every attempt to thwart God's purpose fails.

Lesson 3. Jesus arose from the dead, showed himself to His disciples and sent them forth as witnesses for Him. Certainty of the resurrection of Christ is essential to witness for Him.

Lesson 4. Uzziah made a notable civic and military record, but in his pride he presumptuously intruded into the priest's office. As a judgment God smote him with leprosy. "Pride goeth before destruction, and a haughty spirit before a fall."

Lesson 5. Isiah's vision of God brought him to a sense of his sinfulness. Man's supreme need today is a vision of God.

Lesson 6. Isiah foresaw the end of all strife in the world through the establishment of Christ's kingdom. Peace and restoration shall come to the earth when Christ shall come and remove from men's hearts the cause for strife.

Lesson 7. Hezekiah led his people back to God. This he did by means of the passover feast. The only way for a sinning and divided people to get back to God and be united is around the crucified Lord.

Lesson 8. Through the repairing of the temple the law of God was found. When it was read before the king it brought penitent sorrow. God accepted his penitence and postponed the evil day.

Lesson 9. Jeremiah was arrested and brought to trial because he boldly proclaimed God's word to the nation. The one whom God calls to proclaim His word should faithfully discharge his duty regardless of what men may do unto him.

Lesson 10. Jehoiakim tried to destroy God's Word by burning it. Trying to destroy God's Word will not avert His judgments.

Lesson 11. Because of Jeremiah's fidelity to God he was cast into prison. Casting the prophet into the dungeon will not turn aside God's judgments.

Lesson 12. Nebuchadnezzar captured Jerusalem and carried away the people captives. Though God's judgments tarry they eventually fall.

TO KILL RATS and MICE Always use the genuine STEARNS' ELECTRIC PASTE

It forces these pests to run from the building for water and fresh air. Bats, mice, cockroaches, water-bugs and ants destroy food and property and are carriers of disease.

KEEP IT IN THE HOUSE
The highest mountain lessons as we climb. Both Sides Pleased. "The rain falls alike on the just and unjust." "They both point to that with pride."

Important to all Women Readers of this Paper
Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be despondent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

None rules his kingdom without a sword. Children's handkerchiefs often look hopeless when they come to the laundry. Wash with good soap, rinse in water blueed with Red Cross Ball Blue.—Advertisement.

Fear of debt is the beginning of prudence. Doan's Backache and Stabbing Pills—The remedy recommended by thousands. Ask your neighbor!

A Kansas Case
W. S. Knapp, retired railroad man, 222 E. 10th St., Olathe, Kan., says: "I was all worn out, nervous and fretful, with gnawing pains in my back. The pains grew more severe and I couldn't walk and the kidney secretions were irregular. A friend advised Doan's Kidney Pills and they kept my kidneys in good shape and never fail to benefit them."

DOAN'S KIDNEY PILLS
FOSTER-MILBURN CO., BUFFALO, N. Y.

FREEDOM FROM LAXATIVES
Discovery by Scientists Has Replaced Them.

An inestimable amount of injury, according to an eminent medical authority, is done by the use of pills and salts, as most of these provide only temporary relief at the expense of permanent injury.

Science has found a newer, better way; a means as simple as Nature itself. In perfect health, a natural lubricant keeps the food waste soft. Thus it is easily eliminated, but when constipation exists, this natural lubricant is not sufficient.

To find something to take the place of this natural lubricant, medical authorities have conducted exhaustive research. They have discovered that the gentle, lubricating action of Nujol most closely resembles that of Nature's own lubricant. As Nujol is not a laxative, it cannot gripe. It is not a medicine in any sense of the word, and, like pure water, it is harmless. Get a bottle from your druggist.—Advertisement.

Continual cheerfulness is a sign of wisdom.

LEAKY ROOFS
Made watertight and leakproof with W. T. Semi-Liquid Roof Cement

W. T. Semi-Liquid Roof Cement easily applied at very small cost. Old roofs made new and guaranteed. Write for information. AGENTS WANTED.

Western Canada Land of Prosperity

offers to home seekers opportunities that cannot be secured elsewhere. The thousands of farmers from the United States who have accepted Canada's generous offer to settle on FREE homesteads or buy farm land in her provinces have been well repaid by beautiful crops. There is still available on easy terms Fertile Land at \$15 to \$30 an Acre

—land similar to that which through many years has yielded from 20 to 45 bushels of wheat to the acre—oats, barley and flax also in great abundance, while raising horses, cattle, sheep and hogs is equally profitable. Hundreds of farmers in Western Canada have raised crops in a single season worth more than the whole cost of their land. With such success comes prosperity, independence, good homes and all the comforts and conveniences which make life worth living.

Farm Gardens, Poultry, Dairying are sources of income second only to grain growing and stock raising. Attractive climate, good neighbors, churches and schools, good markets, railroad facilities, rural telephone, etc.

For certificate entitling you to reduced railway rates, illustrated literature, maps, description of farm opportunities in Manitoba, Saskatchewan, Alberta and British Columbia, etc. write F. H. HEWITT, 2012 Main Street, Kansas City, Mo.

Authorized Agent, Dept. of Immigration and Colonization, Dominion of Canada

LOOK OLD?
SPRAY this, straightly, and it makes people look every day ten years younger. It is a bottle of Q-Ban Hair Color Restorer which brings back original color quickly—steps dandruff, etc. At all good drug stores, or direct from Q-Ban, Chicago, Memphis, Tenn.

W. N. U., WICHITA, NO. 24-1922.

\$365 IN PRIZES FOR BEST RHYMES

A new contest is just being started which will interest everyone who reads this paper. Anyone can enter this Contest—anyone can win! All it is necessary to do is to write a 4-line rhyme on Dr. Price's Phosphate Baking Powder, using only the words which appear on the label of the Dr. Price can (front and back).

Isn't that easy? Everyone likes to make rhymes and here is a chance to spend a fascinating hour or two writing rhymes on this popular Baking Powder and perhaps winning a substantial prize for your efforts.

87 CASH PRIZES

For the rhyme selected as best a prize of \$100 will be given; for the second, third and fourth best rhymes prizes of \$75, \$50, and \$25, respectively will be given. And besides these prizes there will be 23 prizes of \$5 each for the next 23 best rhymes. With such a long list of prizes as these, it would be a pity not to try your hand. Here's a 4-line rhyme as example:

*Biscuits, muffins, pie or cake,
With Dr. Price's Powder bake,
The Price's Co. guarantee
No alum in the cans to be.*

As Dr. Price's Phosphate Baking Powder sells for only 25 cents a 12 oz. can, some rhymes could play up the great economy of this pure and wholesome baking powder.

All rhymes must be received by July 1, 1922. Only words appearing on the label of the Dr. Price can (front and back) may be used. These words may be used as often as desired, but no other words will be allowed. If you haven't a can of Dr. Price's, you can see one face at almost any grocery. It is not a requirement that you purchase a can in order to be eligible in this Contest.

Anyone may enter the Contest, but only one rhyme from each person will be considered. In case of ties, the full amount of the prize will be given to each tying contestant. Write plainly on only one side of a sheet of paper and be sure to give your name and address. Send your rhyme before July 1st to Price Baking Powder Factory, 1065 Independence Blvd., Chicago, Ill.

That Home-Baked Flavor

We used to think it was impossible to catch that elusive flavor that characterizes home baking—but we have captured it at least in both bread and pastries.

Our Bread has taken the place of home-baked bread in many households in this town and our business is growing—the just reward of natural goodness and superior service.

Let us bake the bread for your Sunday dinner and also deliver one of our delicious Pies—flavored JUST RIGHT.

WEAK, NERVOUS, ALL RUN-DOWN

Missouri Lady Suffered Until She Tried Cardui.—Says "Result Was Surprising."—Got Along Fine, Became Normal and Healthy.

Springfield Mo.—"My back was so weak I could hardly stand up, and I would have bearing-down pains and was not well at any time," says Mrs. D. V. Williams, wife of a well-known farmer on Route 6, this place. "I kept getting headaches and having to go to bed," continues Mrs. Williams describing the troubles from which she obtained relief through the use of Cardui. "My husband, having heard of Cardui, proposed getting it for me. I saw after taking some Cardui . . . that I was improving. The result was surprising. I felt like a different person."

"Later I suffered from weakness and weak back, and felt all run-down. I did not rest well at night. I was so nervous and cross. My husband said he would get me some Cardui, which he did. It strengthened me . . . My doctor said I got along fine. I was in good healthy condition. I cannot say too much for it."

Thousands of women have suffered as Mrs. Williams describes, until they found relief from the use of Cardui. Since it has helped so many, you should not hesitate to try Cardui if troubled with womanly ailments. For sale everywhere. E. 28

RADIO

CRYSTAL DETECTOR EASY TO CONSTRUCT

Telephone Condenser and Receivers Can Better Be Purchased—Mounting the Set.

The material needed to construct a simple crystal detector is as follows:
Piece of silicon or galena molded in a metal button, 25 cents.

Two binding posts, 20 cents.

A block of shellacked or stained wood 3 by 3 1/2 inches.

A thin strip of sheet copper or brass 3/4 inches wide by two inches long.

Mount the two binding posts on the block of wood as shown, fastening under one binding post a strip of copper or brass—see sketch—and under the other binding post a coiled up spring of fine springy copper or brass wire. By placing the button of metal con-

ments, the tuner, the crystal detector and the telephone condenser, can be mounted on a stained base of wood, say, eight inches square and one-half inch thick. This will keep the component parts of the set together, making a compact unit of the whole and also be advantageous in that it will hold the instruments while adjustments are being made.

The sketch shows how the instruments are connected with each other and to the ground. The condenser is connected to one side of the tuner and to the crystal detector. The ground is connected to the other side of the phones and the condenser and the tuner.

Lamp cord is excellent for connecting up small radio sets of this kind—it being a good conductor, well insulated and easy to handle.

HOW TO LISTEN IN

There are two variables in our radio receiver that require adjustment when it is desired to listen-in; first, the detector, and second, the slide position on the tuner. Once the slider position has been determined for any given transmitting station, it is only necessary to adjust the detector to pick up that same station again.

To operate the receiver for the first time it is best to wait until some station like KDKA is transmitting between 8:30 and 9:30 p. m. Then ad-

The Crystal Detector.

Set Mounted on Base, With Connections Shown.

taining the crystal of silicon or galena on the strip of metal and allowing the spring to make contact with the surface of the crystal the detector is complete and ready for operation.

A complete crystal detector can be purchased from 75 cents to \$2, depending upon the type.

Two other pieces of apparatus are necessary that cannot be readily constructed—they are the telephone condenser and the receivers. A telephone condenser to be used in shunting across the phones can be purchased for about 50 cents.

For use with a radio receiver of this type it is recommended that a pair of 3,000-ohm, Murdoch type, No. 56 receivers, costing \$6, be purchased. These are all the necessary parts needed for the complete receiver.

If it is desired, the three instru-

ments can be purchased for about \$10. Just the detector by changing the point at which the spring and crystal of the detector make contact until, when a nearby electric light is snapped on and off, a click is heard in the head phones. The detector is now adjusted on a sensitive spot on the crystal. By changing the slider position, the transmitting station should be picked up.

After a station is once picked up it is an easy matter to adjust the detector and slider position until maximum response is obtained in the telephone receiver. With a simple set of the kind described in this and preceding articles and a little practice one soon becomes adept at picking up a given station. The entertainment derived from listening-in is usually well worth the time spent and the money invested.

VAGARIES OF VACUUM TUBES

Peculiar Actions That Always Astonish and Sometimes Frighten the Amateur Radioist.

Everybody who has had anything to do with vacuum tubes has from time to time had them do unexpected things and give results that at the moment seem beyond explanation.

The explanation of several characteristics of these miniature giants which are met with in daily operation is sure to prove of great interest to the amateur. In cases where the actions of the tube are not understood these peculiarities have sometimes frightened people.

One instance of a newborn fan's fright was brought to attention in a letter of inquiry. The instrument had just been set up and was being operated for the first time. The tubes had been firmly adjusted and were just at the spilling point and—over they went, giving vent to the most unearthly sounds. The embryo enthusiast who looked upon the audion tube as an electric light, thought it was going to explode. He jumped away from the instrument and out of the room, and did not venture near it for several hours, and then only after reaching round the corner of the door with a long stick and pulling the battery switch off.

Similar instances have come to attention when bulbs generate vari-colored vapors in the vacuum chamber.

Moonshiners Using Radio.

Revenue officers seeking distillers of the far-famed and hard-hitting "white lightning" in the mountains of Kentucky say that many raids made in the last few months have proven unsuccessful, due to the adoption of radiophone as a means of communication among the moonshiners.

AUCTION SALE

WE WILL SELL FOR

Mrs. Sophia Martin

At the LIVINGSTON SALES BARN in Spearman, on

Saturday, June 24

Beginning at 10 o'clock p. m., the following property:

16 Head Horses, Mares and Mules

One team of mares, brown and black, 7 years old, will weigh about 1200 pounds each.

One team of bay mares, 7 and 8 years old, will weigh about 850 pounds each. 7-year-old mare has young mule colt.

One sorrel horse, 5 years old, been worked some, good saddle horse, gentle.

One bay horse, 8 years old, will weigh about 800 pounds, well broke.

One three year old filley and one two year old horse; good ones and gentle.

Two three-year-old brown fillies and a yearling colt.

One two-year-old horse.

One yearling mule, an extra good one.

One brown three-year-old filley.

One sorrel mare 6 years old, unbroke, will weigh 800 pounds.

One four-year-old bay saddle horse.

One old brown mare.

MILK COWS

Three good red cows and one Jersey, calves by side, all giving milk.

Two yearling heifers.

Farm Implements

One 31-2 inch wide tire wagon.

One 33-4 inch wide tire wagon.

One 3 inch narrow tire wagon.

One one-row McCormick binder.

One three-section harrow.

One lister.

One Go-devil.

Two disc plows.

Other articles too numerous to mention.

HARNESS

Three sets of leather and chain harness.

TERMS:---

Six months' time will be given on approved security, notes to draw 10 per cent interest from date; 5 per cent discount for cash. All property must be settled for before being removed from premises.

MAJOR-RANEY

AUCTIONEERS

First National Bank of Spearman, Clerk

VERY HEAVY

"I suppose the servant does all the heavy work in your house."
"No, not all of it. My wife makes the bread, cakes and pies."

WHY, OF COURSE

Wife—Do you suppose there ever was a person who didn't talk about his neighbors?
Hubby—Certainly. Robinson Crusoe.

OILPULL DESIGN Means Oil Burning Perfection

The OilPull tractor is different in looks as well as in performance. It sets the style in modern Oil Burning tractor design and in cheap farm power.

As a result of this perfected OilPull design and Triple Heat Control, cheap farm power is now a reality.

OILPULL

Note what has been accomplished by the perfected OilPull—(1) Lowest fuel cost, per acre worked or belt job done. (2) Lowest repair cost per year. (3) Longest average life (over 10 years). These remarkable records, due to Triple Heat Control, have definitely proved that the OilPull oil burning tractor is the final answer to the American farmers' demand for cheap, reliable power. Triple Heat Control, of course, is an exclusive OilPull invention.

You ought to know all about the OilPull. There is a size that will make money for you. If you cannot come here, we will gladly go to you.

Prices are right. Buy now.

Why Worry

If you are not a customer of ours, give us a call. Be one of our many satisfied customers. We have a large stock of first-quality merchandise and can always fill your wants at satisfactory prices.

A clean store, a clean stock, prompt service add a square deal.

Not how cheap---but how good.

P. M. MAIZE & CO.
SPEARMAN

Mr. and Mrs. J. P. Hoke arrived from Stillwater, Oklahoma, on Friday of last week, for a visit at the home of their daughter Mrs. Hayden Hart, up the Palo Duro.

Mrs. C. E. Wilson came from Amarillo the first of the week to visit with her sister Mrs. R. L. McGlellan in Spearman, and other relatives and old friends in the Grand Plains community.

Mattie Hartshorn went to Amarillo several weeks ago to make her home with her parents. Mr. and Mrs. Jess Cummins, and returned here the first of the week for a short visit with friends. Mr. Cummins has employment with the Santa Fe express service in Amarillo.

The new building on the east side of Main street, next door to McLain & McLain real estate office, is nearing completion and will be ready for occupancy early next week. It is owned by Clarence Livingston and his father and will be occupied by T. P. Tackitt's meat market.

Sid Clark moved his barber shop and tailoring establishment to his brand new cement building, first door north of the Reporter office, and is now installed in one of the most convenient and best equipped shops of the kind in the southwest. He has both shower and tub baths, in connection with the barber business, and also an excellent place in which to display his wares in the tailor made clothing line. The new building adds materially to the appearance of the west side of Main street.

Need to raise money on the farm? We have plenty of money---always ready on good loans. Inquire from here, no waiting.

AROUND THE WORLD

Haiti has no navigable rivers.

Australia has no active volcanoes.

Columbia produces the finest emeralds.

Holland has a cow to every inhabitant.

Brazil is as large as the whole of Europe.

Uruguay will celebrate its centenary in 1925.

Formosa has a world monopoly of camphor.

Ceylon produces the world's finest cinnamon.

Wales has the largest slate quarries in the world.

Persia has no distilleries, breweries or saloons.

The Fiji islands have almost no native animals.

Palentine is about the size of the state of Vermont.

Sweden is a land of enlightenment; education is compulsory.

India has 30 cities, each with a population of more than 100,000.

Japan is so mountainous that only about one-sixth of its land is cultivated.

BEFORE CHRISTIAN ERA

Egyptian children played seesaw 4,000 years ago.

The earliest mention of shoes is on Egyptian papyrus written about 2,200 B. C.

The oldest known banknotes were issued in China 2,537 years before the Christian era.

Students of ancient languages have failed to discover in them any system of punctuation.

The first lunar eclipse of which there is record occurred March 19, 721 B. C., according to Ptolemy.

The first mention of wheat is in Genesis 30:14 in the account of Jacob's sojourn with Laban in Mesopotamia.

"The Tale of Two Brothers," by Enna, written about 4,000 years ago, is regarded as the world's oldest fairy story.

Hair oil was used by the Egyptians 430 B. C. Dog's paws, asses' hoofs and dates, boiled in oil, comprised the ingredients.

Glass was used by the Romans in the time of Tiberius and the ruins of Pompeii show windows of glass used prior to the advent of Christ.

Ball games, which merely consisted of throwing and catching a ball, originated in Greece and were popular with the nobility of ancient Rome.

Fordson Often Does More In a Day Than Six Horses

The Fordson substitutes motors for muscles.

The Fordson substitutes tractor wheels for the legs of man and horse.

The Fordson takes the burden off flesh and blood and puts it on steel.

It allows the farmer's energy to be devoted to management, and not merely to operation. It gives him time. It cuts his producing costs.

There's a big story of savings made possible by the Fordson. Let us tell you. Write, phone or call.

LITTLE ONES FOR A CENT

Safety first. Sew up the hip pocket.

Hope doesn't work as hard as ambition.

Wages of sin never drain the sin treasury dry.

Joy! When the new ailment appears the old one disappears.

Speech was given us to conceal our thoughts, especially slang.

One can find out enough "things for his own good" without being told.

If music prevents crime let us have concerts continuous like the movies.

Uncomfortable it is to make an excuse for yourself that you can't accept.

When married couples quarrel in public it shows how profoundly they enjoy quarreling.

How reckless the astronomers are in exploding the doctrine that the stars were created for the enjoyment of man.--"Rhoda Montade" in St. Louis Globe-Democrat.

PITHY PARAGRAPHS,

The alarm clock usually catches a fellow napping.

One need not be a botanist to recognize a blooming idiot.

Water on the brain is seldom due to a thirst for knowledge.

A fellow is certainly up in the air

when a woman sweeps him off his feet.

If they had to turn their own grindstones fewer people would have axes to grind.

Some society people prune their genealogical trees by cutting off their poor relations.

It is from the family jar one discovers whether one has married a peach or a lemon.--Boston Transcript

OUR OWN COUNTRY

More than 20 restaurants in Greater New York are now owned and run by Chinese.

Approximately \$20 will be spent for each resident of the United States by the government as a result of and for defense purposes in the fiscal year 1923.

It is estimated that the United States has untapped wealth to the extent of \$150,000,000,000 in the more than 400,000,000 acres of land still held in the public domain.

The Chinaman on Christmas days pays all his debts and on New Year's days makes presents to his mother and sees that all her wants are attended to

Card Of Thanks

We desire to extend our best thanks to our friends who were kind to us during the sickness and the death and burial of our little A. B. Thomas. The many kindnesses shown will never be forgotten.
JACK THOMAS and family
T. P. TACKITT and family

Wheat Farmers

We have one 22 1/2 horse engine and a 32 inch Altma-T separator, which we will trade or sell on easy terms. This rig has been used only 22 days and is as good as new. Also, one brand new 24 inch Wallace separator.

Guymon, Oklahoma.

Government Loans

I represent in this territory First Joint Stock Land Bank Houston, Texas. This is a Federal Bank organized under the Federal Farm Loan Board and makes loans on the same amortization plan as the Federal Farm Loan. Loans bear interest at six per cent per semi-annually, running 33 years. The loan is fully paid out. Loans are made to the borrower. You do not have to join any local association do not have to sign any stock every member that joins. The best and best thing in a loan yet devised.
