Save Your Money

You have been fortunate enough, in the Spearman section, to raise a good wheat crop—one worth thousands of dollars.

In many parts of the United States are going to do hard work and without money this winter, and it is not so far away.

They usually depend on borrowing our money from places where it is more plentiful and where the interest is better than ours. This year our crop has been better than the one the other fellow harvested, and it is getting to be more and more difficult for us to get money to use until we raise another crop. We must learn to save what we produce. Help you SAVE YOUR MONEY.

Attention Farmers

If you expect to raise wheat free from smut next year, now is the time to do your part by dipping your seed. The cost is very small if you dip your seed but mighty expensive if you don't dip and have to market a smutty crop next year.

We have plenty of Blue Stone and Formaldehyde.

LLOYD TOMLINSON DEAD

The entire community was shocked on Wednesday morning, when it was learned that Lloyd Tomlinson, a well-known young farmer of the Kimball community, had passed away at his home at 11:20 p. m., on Tuesday, October 4. The cause of his death was appendicitis and his illness was of short duration.

Lloyd B. Tomlinson was born in Gaddeloupe county, New Mexico, on May 27, 1898, and came to Hansford county with his parents when a mere lad, where he grew to manhood. He was united in marriage to Miss Gertrude Van Zandt, on May 10, 1918. To this union were born two children, Lola Gertrude and Ira Lee. Besides the young wife and babies, deceased leaves to mourn his loss, an aged father and mother, four brothers and five sisters, all of whom were present at the funeral service.

The remains were laid to rest in the Hansford cemetery on Wednesday afternoon, October 5. A. E. Townsend conducting the services.

Old-Timers Visiting Here

Mr. and Mrs. Nelson B. Crosby came from their home in Arlington, Mass., last week and are enjoying a visit with their old-time friends of this section. They own a fine ranch on Farwell creek, north of Spearman. Mr. Crosby first came to Hansford county from Boston in 1894 and settled on Farwell creek. A year or so later he returned to the east that the children might have better educational advantages than this county afforded at that time. They still love the plains country and are enjoying their visit to the limit. Among their early day neighbors, and they were rather scarce those days, were Dillard Easterwood and Frank Andrews and the Crosbys have spent quite a bit of their time here with these two families.

A Deserving Business

One business is represented in Spearman in a way that reflects credit upon the town and community. We do not mean that there is only one—far from that—but what we do mean is that the house-moving business conducted by J. E. Tandy & Sons is indeed an asset to Spearman and the Spearman country. The senior member of the firm, J. E. Tandy, who sets the prices and acts as general overseer, never over charges a customer, but instead, the house-moving here has been done at a lower figure than was paid in neighboring towns, where there was competition, although Mr. Tandy owns the only real house-moving equipment in the Spearman country. Tandy & Sons are always ready to assist with any worthy undertaking brought forward by the citizens of the town. They made substantial reductions in the price of moving both the school house and the church, and aid in every public enterprise. They have just returned from Booker and Huttoon where they moved a bank, residence and store building, and are now figuring with local parties on several big jobs around Spearman, among them being the moving of the Arcade Theater building to Main street.

Tandy & Sons, with their immense equipment, are indeed an asset to the town and community.

Have 320 acres with 180 acres in cultivation, priced right; pay \$1000. cash. Nothing but interest for five years.

PAMPA LAND CO. Spearman, Texas.

On Friday evening, October 14, at 7:30 p. m., there will be a pie supper at the Holt church for the benefit of the Sunday school. A short program will precede the auctioning of the pies. Everyone is urged to come and help in this worthy cause.

Dr. Holmes, a prominent business man of Shamrock, accompanied by J. H. Hatcher, a live wire real estate man of that town, were in Spearman several days this week, looking over business propositions and prospecting generally. The doctor says he likes Spearman and the Spearman country very much and is thinking strong of making some investments in this section.

C. O. Drayton, president of the Farmers' Equity Union, will lecture at the Arcade Theater building in Spearman on Wednesday, October 12, at 12:59 p. m., on the subject of "Pooling Wheat." This is a subject of vital importance to the farmers of the country and all should attend. Mr. Drayton on this occasion

STIRRED HER TO INDIGNATION

Mother Simply Could Not Stand for Repetition of Odious Word by Her Small Boy.

She was apparently a lady of refinement. She had all the hall-marks of the elect. Her clothing was faultless and there was a look of keen intellectuality in her face. With her, says the New York Mail, was a beautiful little boy—not exactly a Little Lord Fauntleroy, but a little chap with big eyes and a wealth of tousled hair.

I noticed them, the lady for her dignified bearing and the boy for his bright face, as I sat down just in front of them on the suburban train. Pretty soon I heard the little boy say, evidently referring to me:

"Ain't that a funny hat that man has got on? Ain't it an old hat, mom?"

No reply.

"Ain't he a funny looking man, mom? Ain't he?"

No reply.

"Ain't it funny when a man has got a boil on the back of his neck, mom? Ain't it?" (We happened to have one that morning.)

No reply.

"Ain't there nothing to do about boils on the back of the neck, mom, ain't there?"

"Shut up!" came the voice of the lady. "If you use that word 'ain't' again, I am going to soak you on the bugle, now take it from me. How often have I got to tell you not to use that word 'ain't'?"

HAVE APPRECIATION OF LIGHT

Citizens of Colorado Town Realize What It Means to Secure the Needed Power.

You who live in cities where the electricity is a thing to be taken for granted, requiring only the pressing of a button, would appreciate it more if you could see what has to be done in Green Mountain Falls, Colo., before we have any light.

In the first place, we don't have any electric light at all until 6 or 6:30 o'clock in the evening. And the only reason that we have that, is because the men who manage the power plant, which is situated almost at the very top of a mountain, start their long and far-from-easy climb every night about 5:30 and turn on the lights for us.

It is very "found very simple and all that," but if you could see the speck that is the power house, way up there against the side of an exceedingly steep and rocky mountain; you would change your mind about it. They say the climb is about a mile. And sometimes in the midst of a severe thunder storm, when the rain is hurling itself down the mountain, and the falls are roaring in stentorian tones, and the trees are straining and moaning in the wind, you wonder that the men ever reach the top at all, and are more than thankful when the lights finally go on. For that is our only way of knowing that the men have reached there safely.—Kansas City Star.

J. H. Buchanan, editor of the Beverly (Kansas) Tribune, is here this week visiting with his family. Buck reports conditions flourishing up that way and is growing somewhat attached to the Sunflower state.

Mrs. S. H. Higgs reports that a Rhode Island Red pullet—a spring chicken—set, and is now proudly mothering eleven fine chicks. A rather youthful mother of such a large family but the Rhode Island Reds are usually equal to any task they undertake. From scratching up the spring garden to lifting the mortgage off a farm.

J. R. Collard returned Monday from Amarillo where he went last week with Mrs. Collard and the children to have their little son, John R., examined by specialists. The little fellow has not been enjoying the best of health of late and Mrs. Collard took him to their old home at Vernon to remain until his health is improved.

SCATTERING SUNSHINE

The Sunshine Makers class of the Methodist Sunday school, accompanied by their teacher and several invited guests, held a very enjoyable picnic out on the creek by the Sid Lackey place on Friday afternoon, September 30. Mrs. Lackey gave us four big ripe watermelons, which were greatly appreciated. Five auto loads of picnickers went out from town, and all reported a good time and expressed a wish that we may have another picnic in the near future.

DEVOTED TO BRITISH CROWN

People of the Island of Jersey Have for Centuries Been Proud of Their Loyalty.

There is no part of the king's dominions which has shown a more active devotion than the island of Jersey. The true Jerseyman still regards the king as the successor of the dukes of Normandy. Jersey elected to remain under the English crown in the reign of John, when the rest of Normandy reverted to France.

It supported the Royalist cause during the Civil war and harbored Charles II when he was in exile; it banished Victor Hugo because of some slighting remarks of his about Queen Victoria, and during the late war it passed its own military service act, for which there was very little need.

Moreover, not once nor twice in this rough island story has armed invasion by the French been successfully resisted. The last occasion was in 1781, when the Jerseymen, although surprised and outnumbered and deserted by their own governor, who was preparing to capitulate, defeated the enemy in a most sanguinary battle, fought in the royal square of St. Helier.—London Mail.

Plant Juice for Fish Bait.

Late in the dry season, when the rivers are low in the heart of Africa, the Gwari, who inhabit the central Sudan, set out on prolonged fishing expeditions. The natives who live on the banks of the rivers are proficient fishermen, taking great pride in their work, but the village Gwari are not very sporting in their methods. They go out for the final results rather than for the pleasure of the sport.

They pour the juice of locust tree pods into the pools, to which the streams have shrunk, and this causes the fish to leap out of the water. Wildly they leap, flopping out on the dry river bottom as often as not, but the excited natives do not wait for the fish to catch themselves. They lean over the shallow water, finding great delight in snatching the leaping fish as they flash from the river.

This custom of using the "jump juice" seems to have been handed down from time immemorial among these strange Africans.

Safety First.

"Howdy, Gap!" saluted an acquaintance, halting his team in the big road. "Hop in and go to Tumlinville with me. I hear tell that the women of the Civility league, or whatever they call it, have norted that they are going to begin cleaning up the town today. Mought as well see what comes off." "Much obliged, Zeke, but I reckon not," replied Gap Johnson of Rumpus Ridge. "Some fellers from Possum Flat rid in one day when I was there a couple of weeks ago and started to clean up the town. I'm sorter getting along in years and ain't as soople as I once was, and in the course of the anecdote I got my back sprained and my nose skinned right sharply. If the women start any trouble the Lord only knows what would happen to me. Nope!—if I was to go any place today I'd go to Mount Pilgy, whur nuth'n never comes off."—Kansas City Star.

Baby Accorded Privileges.

Captain Vidal, of the steamship Canada, which docked at Providence, R. I., wired his superiors in Marseilles that a baby boy who was born aboard the vessel during the passage from France had been named in honor of the steamer, Auguste Canada Pers Lazar. The officials extended to the little fellow the lifelong privileges of the boat, so whenever Canada wishes to visit France he may do so as a guest of the Canada or any other boat of the line.

MATTER OF DEATH IN DOUBT

Authorities Puzzled as to Whether Man's Being Pronounced Dead Makes Him Legally So.

At F. Williams, United States district attorney for Kansas, received a letter a short time ago asking his opinion as to the status of a person upon whom a death sentence has been executed, who has been legally pronounced dead, but afterwards regains consciousness and recovers.

The case cited was that of five bandits who were convicted of highway robbery in the province of Cagayan Philippine Islands, and sentenced to die by the old Spanish method of strangulation. After the execution the five bandits were placed on the floor of a church to await funeral rites in the morning. In the night three regained consciousness. Two of the three died "again" in a couple of days but one recovered, although left in a deformed condition.

The questions asked are whether the bandit who lived could be strangled again, or, if he could not, would the fact that he was legally pronounced dead prevent his being tried in the courts if he committed another crime. Mr. Williams wrote an opinion to the inquiring person, declaring that he believed that an order could be obtained from the court setting aside the first execution as having never been performed and another one ordered.

His opinion was that if the bandit were not killed, finally, he could be held amenable for other crimes, although legally he was not in existence. "Of course," Mr. Williams said, "you will probably find as many lawyers and judges disagreeing with my opinion as concurring."

FLED FROM CHEESE BARRAGE

Commander of Brazilian Warship Thought Some New Kind of Bomb Was Being Used.

Probably the strangest and most curious use to which cheese was ever put occurred in a naval battle between Brazil and Uruguay in the mid-Nineteenth century, records the Intelligencer.

The Uruguay ship, commanded by Captain Coe, in the midst of the battle became exhausted of shot. A lieutenant reported the facts to Coe.

"Powder all gone?" asked Coe.

"No, sir; lots of that yet."

"We had a darned hard cheese—a round Dutch one—for desert at dinner today; do you remember it?" said Coe.

"I ought to; I broke the carving knife in trying to cut it, sir."

"Are there any more aboard?"

"About two dozen. We took them from a drawer."

"Will they go in the 18-pounders?"

"By thunder, comodore, but that's the idea! I'll try 'em."

And in a few minutes the bombardment from Coe's ship reopened, and the enemy found more shot flying over their heads. At last one shot struck the mainmast, scattering the bits of cheese far and wide. Then another came. Then four or five more slapped against the sails. The enemy commander, unable to decide what was happening, and thinking that a new kind of bomb was being used on him, became terrorized and ordered his boat to back away. Little did he know that he was retreating from a barrage of Dutch cheese.

Last of Three Friends.

Chauncey M. Depew is the last of three distinguished friends, of whom General Horace Porter and Joseph H. Choate are dead, remarks the Detroit News. They were for years a link between the present generation and that of Civil war days. General Porter campaigned with Grant and was present when Lee surrendered. All three were noted orators. General Porter was regarded as having the superior mentality and his achievements as soldier, diplomat and railroad financier and builder made him most conspicuous.

Choate's oratory was closely associated with his winning personality. Depew's addresses are notable for their spontaneous humor and wit, while General Porter drafted speeches with infinite care and delivered them with impressive intensity and sincerity.

Praises the Y. M. C. A.

The Hon. V. S. Srinivasa Sastri, an Indian official, gives this testimony: "You have done me the honor to ask me to state what I think of the work of the Y. M. C. A. in India. It is beyond praise. I do not pretend to know all about it, but what I have seen of it fills me with admiration and gratitude. The association neglects no promising field of service. The magnitude and many-sidedness of its operations are a wonder to me, and I have sometimes felt the nonofficial organizations in India would gain in persistence and boldness of conception by a study of the aims, methods and ideals of the great movement known throughout the world by the letters 'Y. M. C. A.'"—Chicago Post.

THE STATE OF TEXAS:

To the Sheriff or any Constable
of Hansford County, Greeting:—

You are hereby commanded to
summon Chas. W. Ebel, who is al-
leged to reside in Hansford Coun-
ty, Texas, but who is absent from
the State, and his present where-
abouts unknown to plaintiff, to ap-
pear at the next regular term of the
District Court of Hansford County,
Texas to be held at the Courthouse
thereof, in the town of Hansford,
Texas, on the second Monday in
November, 1921, same being the 14th
day of said month, then and there to
answer a petition filed in the said
court on the 19th day of September,
1921, in a suit numbered 241 on the
docket thereof, wherein Theo. Dres-
sen is plaintiff and Chas. W. Ebel
and wife Margaret J. Ebel are de-
fendants; the action being alleged,
in substance, as follows:

A suit upon a vendor's lien prom-
issory note, for the sum of \$1,723.00,
dated April 27, 1918, due and payable
on or before 5 years after date, signed
by Chas. W. Ebel, payable to the
order of the plaintiff, bearing inter-
est from date at the rate of 6 per
cent per annum, payable annually,
past due interest bearing interest at
the rate of 10 per cent per annum,
and providing that a failure to pay
any annual installment of interest
on said note, would at the option of
the holder, mature the said note,
make same fully due and the vendors
lien securing payment of the same
subject to foreclosure; that said note
was executed in part payment for
the East half of section 8, block P.
H. & G. N. R. Co. Grant, in Hans-
ford County, Texas, containing 320
acres, which was on April 27, 1918,
conveyed to defendant Chas. W. Ebel,
by warranty deed executed by plain-
tiff and wife Goldie A. Dreesen and
delivered to defendant Chas. W.
Ebel, which said defendant has re-
fused to file for record. Interest on
said note has only been paid to
April 27, 1920, leaving the interest
due and unpaid which matured
April 27, 1921, and upon re-
fusal to pay same, plaintiff matured the said
note, and as provided therein, de-
fendant Chas. W. Ebel also agreed
to pay an additional sum of 10 per
cent of the principal and interest if
placed in the hands of attorney for
collection, and same was so placed
by plaintiff. Plaintiff notifies de-
fendants to produce upon the trial of
said cause the said deed herein re-
ferred to, or he will resort to sec-
ondary evidence to prove the contents
thereof. He prays for judgement,
for principal, interest, attorneys
fees, costs of suit, foreclosure of his
vendor's lien, for sale of said land,
for writ of possession, etc.

You are further commanded to so
summon such defendant, and to serve
this citation by making publication
of same once in each week for four
consecutive weeks, prior to return
day hereof, in some newspaper pub-
lished in your county, if there be a
newspaper published therein; but if
not, then in the nearest county in
which a newspaper is published.

Herein fail not, but have you be-
fore said court, on the first day of
the next term thereof, this writ, with
your return thereon, showing how
you have executed the same.

Given under my hand and seal of
office, at office, in Hansford, Texas,
this the 19th day of September, A.
D. 1921.

CARDUI HELPED REGAIN STRENGTH

Alabama Lady Was Sick For Three
Years, Suffering Pain, Nervous
and Depressed—Read Her
Own Story of Recovery.

Paint Rock, Ala.—Mrs. C. M. Sterall,
of near here, recently related the fol-
lowing interesting account of her re-
covery: "I was in a weakened con-
dition. I was sick three years in bed,
suffering a great deal of pain, weak,
nervous, depressed. I was so weak,
I couldn't walk across the floor; just
had to lay and my little ones do the
work. I was almost dead. I tried
everything I heard of, and a number of
doctors. Still I didn't get any relief.
I couldn't eat, and slept poorly. I
believe if I hadn't heard of and taken
Cardui I would have died. I bought
six bottles, after a neighbor told me
what it did for her.

"I began to eat and sleep, began to
gain my strength and am now well
and strong. I haven't had any trouble
since. . . I can testify to the
good that Cardui did me. I don't
think there is a better tonic made
and I believe it saved my life."

For over 40 years, thousands of wo-
men have used Cardui successfully,
in the treatment of many womanly
ailments.
If you suffer as these women did
take Cardui. It may help you, too.

Squirrels and Robins Fight.

A fierce lawn battle between forces
of squirrels and robins has been
observed in Mount Vernon, N. Y. The
squirrels and robins on Eleventh
avenue, Mount Vernon, have declared
war upon each other, and each day the
battles are waging bigger and fiercer.
Residents on Eleventh avenue have for
some time thrown peanuts on their
lawns for the birds of the neighbor-
hood. Three weeks ago a few robins
after eating the bread helped them-
selves to peanuts, and the squirrels
ran away. The first day a few squirrels
attacked the robins and there
was a short but furious fight in which
the squirrels saved their supper. The
second day about twenty robins
swooped down and the squirrels were
routed. The third day the squirrels
returned reinforced by an equal num-
ber and there was a battle royal for a
quarter of an hour. It was a drawn
battle, both sides leaving most of their
peanuts and crusts on the field.

Light on the Depths.

It is said that at a depth of only
200 fathoms the light of the unclouded
sun penetrating the ocean is reduced to
equality with the starlight of a
clear night on the surface. At more
profound depths the sunlight is en-
tirely extinguished. Yet there are
both light and color in the abysses,
and at the bottom of the sea. The
light is of phosphorescent origin, and
it may be remarked that in general the
fixed marine forms of life are not bod-
ily their free swimming allies in
light-emitting powers. There are il-
luminations produced by the move-
ments of abyssal fishes through the
forests of phosphorescent sea-pens,
fan corals, red corals, and other Ancy-
ronaria. The colors of deep-sea animals
are both brilliant and varied.

Japan's Fight on Hydrophobia.

The Japanese are inoculating dogs
instead of people to prevent rabies,
which is now "widespread" in that
country, says the New York Evening
Post. The bacteriologist Umeno and
his coworkers at the Kitasato insti-
tute for infectious diseases have per-
fected a method of prophylactic in-
oculation that can be given the dogs
in one or two shots. In all, 31,000
dogs have been treated and in not a
single instance has any one of them
been found suffering from rabies. In-
stead of the usual methods of killing
mad and stray dogs, the Japanese
medical experts are advocating inocu-
lation of all the dogs of Japan.

It Depends on How You Handle the Tape

The measuring of a suit is the first and
one of the most important steps. After
that comes right cutting and good tail-
ing.

Handling the tape is where I come in
on making good clothes. I know how to
measure. Every measurement I take is
absolutely correct---I've made a study
of it.

I guarantee long wear---perfect fit and
a style that is right. If you do not get
all of these in a suit of clothes which
you order from me, I will not let you
keep it.

Chicago Kahn Bros. make
my clothes in this big
daylight building in Chi-
cago and their guarantee
backs mine.

Let Me Tape You

Come in now and talk over that suit for
fall and winter. You can, at least, look
over the patterns I have.

And, you can take my word for it that
you ought not to order any suit without
seeing all the different kinds of cloths
that are in the complete Chicago Kahn
Bros' line this Fall.

You will find here just the fabric to suit
your taste and at prices that fit your
pocketbook.

Double the Life of Your Implements BUILD AN IMPLEMENT SHED

Everything
in
Building
Materials

The average life of a piece of farm machinery left unprotected in the open is about five years. Consequently it depreciates 20 per cent in value each year during its period of usefulness. On \$1,000 worth of implements left in the open there is an annual depreciation of \$200.

An implement shed will double the life of your farm machinery--will cut depreciation-down at least 50 per cent--will save you at least \$100 annually on every \$1,000 worth of implements you own. Isn't that a worth while investment, especially when you take into consideration how reasonable is the cost of building such a shed?

We have plans of a number of practical implement sheds that can be built very reasonably, and we invite you to come in and look them over at any time. Coming in to see us won't obligate you in any way, so when you think of building, think of us.

Prosperous Farmer's Wife Nearly Starved

Declaring she was actually starving to keep from suffering awful misery, Mrs. Amy Peterson, wife of a prosperous farmer of Lakeville, Mass., gave out a remarkable statement recently, in connection with her relief through the use of Tanlac.

"Sometimes I wonder how I lived through it all," she said. "I would have attacks of acute indigestion nearly every time I ate anything. Those terrible cramping pains and the distress from gas and bloating were almost unbearable and I just thought there was no hope for me."

"But now I'm eating anything and I feel as strong and well as I ever felt in my life. I've gained back all the weight I lost and six pounds besides and I know from my experience what Tanlac will do. It's the best medicine in the world."

Tanlac is sold by leading druggists everywhere.
