Why not the FLOUR that is

delicious bread and pastry?

Why not brands of coffee that

Why not buy your COAL be-

Why not the best Stock Salt?

Why not canned goods that
hane a world guarantee of

Why not pure CANE SUGAR

Why not sell your grain to an

Why not SOMETHING BETTER at the same price, instead of
something that is claimed to be JUST AS GOOD.

The tube that shows no leak when taken out and immersed in water, valve and all, may leak through the valve slowly when in the shoe and pumped up to riding pressure. ADELE.
Derived from the Teutonic Adlo, which also is the root of Adele, inside, the name is one of the most ancient known to students. The significance of the name is of the most heroic character and it was a favorite with the ruling houses of the various German principalities as far back as the Tenth and Eleventh centuries. The name in its earliest beginnings was very much the same in form and even spelling as it is today. Adele is probably the widest variation in the course of centuries.
The name was widely adopted in France, as well as in England and Italy under different forms from Adalida to Adeline.
The jewel associated with persons bearing the name Adele is the turquoise. The turquoise is held to have peculiar properties of protecting the person wearing it from harm and warning them of approaching danger by breaking. Friday is Adele's most fortunate day and her lucky number is six.
