# POWER FARMING THREATENED

CITIZENS of the Thirty-One Plains Counties of West Texas are vitally concerned with a proposed legislative action, which has for its purpose the retention by the State of the Gasoline Tax Money paid in by Farmers who use gasoline in Tractors and other farm equipment.

The refund amounts to over two million

dollars annually and of this amount over a million is refunded to wheat growing counties in the Northern Panhandle.

If the bill is passed it would mean that the farmers would obtain no refund on gasoline purchased for farming purposes. It would mean that the gasoline tax would be paid on every gallon of gasoline regardless of the purpose.

## This is a Serious Threat to the Existence of Small Grain Farming in the Panhandle of Texas

More Legislators come from the larger populated districts of the State. Those from the agricultural districts, for the most part, are not from "Tractor Farm-

ing" areas. They think this two million dollars annually should be retained by the state for highway funds.

### Legislators Should Have the Following Facts:

Passage of the bill would mean the greatest era of bootleg gas the state has ever known.

Gasoline sale would give away to kerosene, distillate and gas oil.

The unrest which is now beginning to manifest itself with farmers would be en-

couraged and the general distress of agriculture agitated.

Last, if the provisions of the proposed bill should be enforced it would prohibit the production of wheat in the Panhandle at the present market value of wheat and other small grain crops.

### Legislators Asked to Consider These Facts:

In considering the proposed bill, you should consider the principle involved. The gasoline tax, it should be remembered is an occupational levy collected for the use of public highways. The tax is collected for the purpose of building and maintaining of roads. Gasoline used in automobiles using the roads, by rights should

pay the tax. Fuel used in tractors on the farm should not pay the tax. That theory was what prompted the refund provision of the law. It should not be discarded now. It is obvious, however, that the Panhandle must be alert to the danger of the situation and organize to combat the pending legislation.

WE FRIENDS OF THE FARMERS who have signed this advertisement urge the members of the State Legislature who will receive a copy of this ad, to consider the Panhandle situation in all fairness, and defeat this measure which would strike a

fatal blow at small grain farmers in Texas. Since this advertisement will be mailed to the Representatives and Senators of the State of Texas, we respectfully call their attention to the fact Hansford Farmers do not abuse their refund privileges to any appreciable extent. A check of gasoline

dealers in this county reveals the fact that farmers do not put in claims for refund on all the barrel gasoline they purchase but make allowance for usage of a small supply in their cars when they traverse the highways of this state. These facts can be verified.

**Waka Parent-Teachers Observe Founders Day February 16**

A most beautiful and impressive ceremony marked the observance of Founders Day last Thursday evening, February 16th, 1933, by the Waka Parent-Teacher Association.

A very beautiful Angel Food cake adorned by four stately pink candles brought back the memory of two great women and the founding of an Association for which all humanity should be thankful.

The four candles were in memory of Mrs. Hearts and Mrs. Beiney, the National, State and the local Association.

After the following program was rendered and was exceedingly enjoyed by the one hundred and sixty present, a silver collection was taken which will be sent to the birthday fund.

The Perryton Mothers' Course sang two lovely old songs which reached the heart of everyone, "Old Black Joe," and "My Wild Irish Rose."

Mrs. Lamarter, first vice president of this district talked on the founding of the present Parent-Teacher Association.

The Mennonite choir rendered a couple of vocal selections which were very pleasing to hear.

Mrs. Raymond Powell gave a very humorous reading which surely drove old man depression away for a while at least.

The audience was also favored by a reading by Miss Mary Aynesworth.

After adjournment, refreshments were served and a social hour was enjoyed by all.

**J. H. Richards**  
Rev. J. H. Richards and family are leaving Spearman nearly five and a half years sojourn in pleasant and sweet fellowship and faithful service.

Bro. Richards accepted the pastorate of the Baptist church at this place in Sept. of 1927—a little group of forty two members who were worshipping with the Presbyterian people in their church at that time. The church, under his ministry and care has grown in spiritual activity and in numbers; the membership now totaling well over the 300 mark, worshipping in a good, substantial basement of their own, clear of debt. Bro. and Sister Richards have given their full time to the work of this church. They now have a good, live Sunday school, a very active and interesting W. M. S., a fine B. Y. P. U., a Wednesday evening prayer meeting with good attendance, and two preaching services each week.

Brother and Sister Richards will be greatly missed, not only by the church, but by the whole city and entire community. Wherever there was sickness and suffering, wherever there was sorrow, or need of comfort, wherever there was a soul hungry for the Lord, wherever there was need of encouragement or warning, they were ever ready to serve.

We have seen many of the Christian graces adorning their lives. Especially have they made us to appreciate what Paul meant when he said "Charity suffereth long, and is kind." Our loss is another's gain.

A FRIEND.

Mr. and Mrs. J. C. Jones.  
Mr. and Mrs. W. T. Coble were dinner guests at T. J. May's Sunday.

Mrs. Mae West of St. Louis, Mo. writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and further more I've never had a hungry moment."

Fat folks should take one half teaspoonful Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as tens of thousands of men and women now know.

For your health's sake ask for and get Kruschen at any drug store—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

**Get Rid of That SORE THROAT!**

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of genuine Bayer Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so before gargling take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Bayer Aspirin relieves neuralgia, neuritis, too. You may use it freely, it does not hurt the heart.

### JUNIOR NEWS

The Juniors are studying very hard for six weeks examinations. Are we going to pass them? Well, we hope so.

We are very proud of the basketball ball girls and we are eager to see the trophy they won at Stratford. We are very proud of the boys as well, and we want to compliment both boys and girls on their successful season.

Our Junior girls continue to be popular. Not to be outdone by her sister, Novelene Parker has her boy friend, who drives the big blue car, call for her after school. Don't be high hat, Novelene.

We Juniors certainly had one grand time at the party Mrs. Gower, Miss Crittenden and Mrs. Clark gave us. In fact it was the best party that has been given this year.

### SOPHOMORE NEWS

The Sophomore class is still growing. We are glad to welcome Ruby Delbrugge back after an absence of three weeks.

We have postponed our party which we planned to have this week so we can study hard for our six weeks examinations the last of the week.

We are proud of our Sophomore girls who helped win the basketball tournament at Stratford.

### GIRL'S SPORT NEWS

On Friday February 17, the Perryton Rangerettes played the Lynxettes the deciding conference game. The Lynxettes were determined to win, and at the end of the first quarter the score was 3-0 in favor of the Lynxettes. The game was one of the hottest and fastest games ever played in the high school gymnasium. The Lynxettes were still ahead at the half. During the third quarter Joyce fouled out and the girls were shifted around. During the fourth quarter the girls were neck and neck. The score was 14-14 with one minute to play. (Mr. Gunn was turning somersaults and jumping up and down.) Suddenly the Rangerettes made a field goal. Before the Spearman girls got started again, the final whistle was blown.

It was the hardest and best game ever played between the Perryton and Spearman girls.

After the game it was decided that ten girls should accompany the boys to Stratford to enter the tournament there Saturday. The teams left at 8:45 Saturday morning and arrived at 11:30. The boys played Dalhart at 1:00 and lost by a small score. At 3:00 the Lynxettes played a game with Stratford and won by the score of 18 to 10. They played Gruber in the semi-finals at 5:00 and won the right to play in the finals. The Lynxettes and the Dalhart girls played the final game. The game was close and hard fought. The score at the first quarter was 7-1 in Dalhart's favor, and at the half the score was 9-9, showing that the Lynxettes were putting all they had into the game. The Lynxettes got the lead in the third quarter and kept the lead thereafter. The game ended 21 to 15 in favor of Spearman.

Spearman placed two girls, Mildred Neilson and Lucile Womble

### IN APPRECIATION OF OUR COACH

We, the Spearman Lynxettes, wish to say that we have enjoyed and profited by our association with Mr. Gunn, our coach. He is the best and most considerate of coaches, and in his three years of coaching in Spearman he has built up a teamwork among the Spearman Lynxettes that cannot be broken in later years.

This has been one of the most successful years in basketball for the Lynxettes and we know that it was due to the patience, loyalty and interest of Mr. Gunn. We are sure that he will be successful in anything he undertakes in the future.

on the all star team. Mildred placed as forward and Lucile as guard. There was a handsome trophy for the winning team.

Our girls have enjoyed a most successful season, as no one but the Perryton Rangerettes has defeated us. As our last game has been played we wish to thank all of the people who have backed our team and helped us in so many ways.

### CARD OF THANKS

We take this means of expressing our love and appreciation to our many kind friends and neighbors who were so considerate and helpful to us during the recent bereavement in our family. God in heaven only know the value we place upon the sincere kindness and helpfulness rendered us during this dark night of our lifetime. It is our earnest desire that God may extend each of you His richest blessings.

## FRIENDS OF THE FARMER

GET BUSY BEFORE A RAID IS STAGED ON THE POCKET BOOKS OF THE PANHANDLE FARMERS THAT WOULD DEPRIVE THEM OF TWO MILLION DOL. A proposed bill was killed in Committee rooms last week which would remove the Gasoline Tax Refund from farmers. This if it should be enacted, as is still planned would take One Million Dollars out of Panhandle Farmers' pockets. Only 31 Plain counties received a gasoline refund of One Million Dollars, and if this cost is added to our production costs on West Texas farms, Power Farming will become one of the lost arts. Many Legislators, not in this section of the country can be persuaded to kill all attempts at repeal of this bill if you will write and wire your friends and kinsmen in other sections of the state.

### International Sunday School Lesson

By DR. J. S. NUNN

FEBRUARY 26, 1933

General Topic:—Jesus Shows His Power.  
Scripture Lesson:—Mark 4:35-41.  
35. And on that day, evening was come, he saith unto them, Let us go over unto the other side of the sea.  
36. And leaving the multitude, they take him with them, even as he was in the boat. And other boats were with him.  
37. And there ariseth a great storm of wind, and the waves beat into the boat insomuch that the boat was now filling.  
38. And he himself was in the stern, asleep on the cushion; and they awake him, and say unto him, Teacher, carest thou not that we perish?  
39. And he awoke and rebuked the wind, and said unto the sea, Peace, be still. And the wind ceased, and there was a great calm.  
40. And he said unto them, Why are ye fearful? have ye not yet faith?  
41. And they feared exceedingly and said one to another, Who then is this, that even the wind and the sea obey him?  
42. Mark 5:1. And they came to the other side of the sea, into the country of the Gerasenes.  
43. 2. And when he was come out of the boat, straightway there met him out of the tombs a man with an unclean spirit.  
44. 3. Who had his dwelling in the tombs: and no man could any more bind him, no, not with chains;  
45. 4. Because that he had been often bound with fetters and chains, and the chains had been rent asunder by him, and the fetters broken in pieces: and no man had strength to tame him.  
46. 5. And always, night and day, in the tombs and in the mountains he was crying out, and cutting himself with stones.  
47. 6. And when he saw Jesus from afar, he ran and worshipped him;  
48. 7. And crying out with a loud voice, he saith, What have I to do with thee, Jesus, thou Son of the Most High God? I adjure thee by God, torment me not.  
49. 8. For he said unto him, Come forth, thou unclean spirit, out of the man.  
50. 18. And he was entering into the boat, he that had been possessed with demons besought him that he might be with him.  
51. 19. And he suffered him not, but saith unto him, Go to thy house unto thy friends, and tell them how great things the Lord hath done for thee, and how he had mercy on thee.  
52. 20. And he went his way, and began to publish in Decapolis how great things Jesus had done for him: and all men marvelled.

#### Introduction

In the two great miracles recorded in the present passage Jesus in a most spectacular way great masses of air arise from it, physical wonder and the other a spiritual marvel. By calming the troubled sea he showed his power in the realm of nature. By curing the troubled man he showed his power over the world of spirit.  
It was at the close of that great day of teaching with his sermon in ten words and many unrecorded words delivered at Capernaum and the lakeside. Late in the afternoon or early night Jesus and his disciples while crossing the sea encountered the storm that was stilled at the word of the Master. That night or the next day the Gadarene demoniac was healed, but the visit did not extend beyond a single day for at the request of the Gadarene, Jesus and his disciples recrossed the sea to Capernaum.

#### 'A Great Storm of Wind,' v. 37

And there ariseth a great storm of wind. "We do not realize the greater part of our history was accomplished what we expect to be a trench, 800 feet below the level of the Sea."—E. C. George Adam Smith. The surface of the Sea of Galilee is 684.5 feet below the level of the Mediterranean. Moreover, it is surrounded by cliffs, and by hills from three to more than a hundred feet high. Therefore the sea is a very shallow body of water.

in from the Mediterranean on the west, from the mountainous region on the east; and from snow-clad Mt. Hermon to the north. It is focused by the gorges in the sides of the sea, and descends upon its surface with great force and very suddenly, sometimes when the sky is perfectly clear. Describing such a storm in his own experience, a traveller says, "the surface of the lake was like that of an boiling cauldron.—We pitched our tents on the shore, and remained for three days and nights exposed to that vehement wind. We had to double-pin the tent ropes, and frequently were obliged to hand with our whole weight upon them to keep the quivering tabernacle from being carried off bodily into the air. The whole lake was lashed into such violence as to carry away the tent-pins."—Rev. William M. Thomson, D. D.

#### Jesus "Muzzled" The Sea, v. 39

"And rebuked the wind." He addressed it as if it were a raging demon, perhaps seeing some devil or some host of devils back of its fury. "And saith unto the sea, Peace, be still." Literally, "be muzzled," as if the sea were a raging, roaring beast. The form of the word, too, means, "be still forthwith and remain so." "And the wind ceased and there was a great calm." The verb is very graphic, depicting the sinking to rest of the sea like a beast after a terrific struggle against irresistible force.

#### Who then is this, that even the wind and the sea obey him? v. 41

Only the Creator could thus have controlled the forces which, ages before, he had himself set in motion.

#### The Winds and the waves shall obey my will; v. 41

Peace, be still, peace, be still! Whether the wrath of the storm-tossed sea, Or demons, or men, or whatever it be, No water can swallow the ship where he lies, The Master of ocean and earth and skies, They all shall sweetly obey my will: Peace, peace, be still. —M. A. Baker.

#### Jesus and The Demoniac, Mark 5:1-8

After the storm had subsided "they came to the other side of the sea." They were now in the country of the Gadarenes and in the vicinity of a town whose site is not certainly known. Though it may have been well after night-fall "when he was come out of the boat straightway there met him a man with an unclean spirit." The demoniac who was doubtless also a maniac was the first to greet Jesus. No man had the strength or skill to control or check the ferocity of this wild man of the sepulchres. So it was that he continued terrorizing the whole countryside both night and day with shrieks in the tombs and his shrieks in the mountains.

#### The Man Saved, The Hogs Lost

He who was mightier than the storm that lashed the sea to fury now proves himself mightier than the legion of demons lashing this poor Gadarene to fury. To save the man and to eject the demon Jesus sternly ordered: "Come forth, thou unclean spirit out of the man!" No one but God in the person of Jesus had the power to work such a miracle. The demons protest against going back to the abyss "before the time." There was according to their statement a legion of them and the Roman legion at the time numbered 6,325 men (Robertson). They were permitted to go into the herd of 2,000 swine being kept in the pasture lands probably by a Gentile corporation or possibly by renegade Jews. The herd rushed down the mountainside into the lake and were drowned.

#### Why this destruction of property? There has been a good deal of discussion as to the ethics of Jesus in permitting such a wholesale destruction of property. The question may as well be asked concerning the destructive work of tornadoes and earthquakes.

#### The Saved Man, A Missionary

"Go to thy house unto thy friends." So the Christian's first glad duty is to tell of the

things he has done for you, and how he has had mercy on you!"

Such price shall be determined by the Secretary on the basis of index numbers for prices as computed and published by the Department of Agriculture.

Adjustment charges shall be in effect on the day following the date of approval of this Act and shall terminate with respect to a commodity one month after the end of the 1933-1934 marketing year for the commodity; except that if this Act is extended with respect to any commodity for an additional year, pursuant to proclamation of the Secretary of Agriculture under section 28, then adjustment charges with respect to the commodity shall terminate one month after the end of the 1934-1935 marketing year for the commodity.

(c) Processor required to pay any adjustment charge imposed by this section shall procure and keep posted a certificate of registry in accordance with regulations prescribed by the Secretary of the Treasury. Any processor who fails to register or to keep posted any certificate of registry in accordance with such regulations shall, upon conviction thereof, be subject to a fine of not more than \$1,000.

(1) In case an adjustment charge takes effect or is increased, there shall be levied, assessed, and collected a tax to be paid by such person equivalent to the amount of the adjustment charge or increase which would be payable with respect to the commodity from which processed if the processing had occurred on such date.

(2) If the adjustment charge is terminated or decreased, there shall be refunded to such person a tax (or if the tax has not been paid, the tax shall be abated) in an amount equivalent to the adjustment charge or decrease with respect to the commodity from which processed.

(3) Such equivalent amounts shall be established by conversion factors prescribed by regulations of the Secretary of the Treasury.

(b) The proceeds of all taxes collected under this section shall be covered into the Treasury, and there are authorized to be appropriated amounts necessary for the payment of refunds under this section.

(c) For the purpose of this section the term "retail trade" shall not be held to include the business of an establishment which is owned, operated, maintained, or controlled by the same individual, firm, corporation, or association that owns, operates, maintains, or controls any more than two other establishments of the same character.

**Existing Contracts**

Sec. 15. (a) If (1) any processor, jobber, or wholesaler has prior to the date of approval of this Act, made a bona fide contract of sale for delivery after such date of any article in respect of which an adjustment charge or tax is imposed under this Act, and if (2) such contract does not permit the addition to the amount to be paid thereunder of the whole of such charge or tax, then (unless the contract prohibits such addition) the vendee shall pay so much of the charge or tax as is not permitted to be added to the contract price.

(b) Charges or taxes payable by the vendee shall be paid to the vendor at the time the sale is consummated and shall be collected and paid to the United States by the vendor in the same manner as other adjustment charges or taxes under this Act. In case of failure or refusal by the vendee to pay such charges or taxes to the vendor, the vendor shall report the facts to the Commissioner of Internal Revenue who shall cause collection of such charges or taxes to be made from the vendee.

**Low-Value Products**

Sec. 17. ## Split-second starting at 20° below zero

Now, you can laugh at cold weather starting troubles... because the gravity of Phillips 66, the greater gasoline, right now ranges from 65.6° to 80.5°

The red line on the thermometer may sink out of sight, but this sensational high test is more than a match for the toughest blizzard that ever hit town.

Twenty above or ten below, whatever your weather, you know that every gallon of Phillips 66 which you buy is scientifically and accurately matched to its demands. So you always get a gas that gives the peak of performance, guaranteed by the process and principle which the great Phillips organization pioneered: CONTROLLED VOLATILITY.

And here's the big news: This honest high test with CONTROLLED VOLATILITY does not cost a single penny more than ordinary low gravity gasoline. You DO NOT pay any 3¢ premium per gallon. But you do get premium performance on every count, from flashier get-away to longer mileage.

When you read or hear other claims, remember that PHILLIPS IS THE LARGEST PRODUCER OF NATURAL HIGH GRAVITY GASOLINE—and this certainly qualifies us to offer world-challenging value in a high test motor fuel.

Hence we confidently promise you exceptional and outstanding results if you try a tankful of Phillips 66.

Stop the very next time you see the Orange and Black 66 shield. That is where you get extra high test without paying a penny extra. That is where you also get the amazing new Phillips 66 Motor Oil... perfect team-mate for instant starting Phillips 66 Gasoline, because it flows instantly and freely even at temperatures 62° below freezing.

**What is CONTROLLED VOLATILITY?**

In gasoline, volatility is that quality which makes it deliver perfect performance at any temperature. Since the weather can't be controlled, the only way to insure perfect performance is by CONTROLLING the VOLATILITY—increasing the volatility as the temperature drops. Phillips 66 is the gasoline with Controlled Volatility. That is why it always gives instant action even in below-zero weather... faster warm-up... flashier acceleration... less carbon and crankcase dilution. Phill-up with Phillips and you will feel the difference, because right now—this month—
