Coffee Crumb Cake for Many Occasions

A CUP of coffee and a slice of coffee cake "go together" like the proverbial ham and eggs. The particular coffee cake illustrated above lives up to its name, for it is really flavored with coffee and is as delicious as any you ever tasted. Serve it with full-strength steam coffee and you'll have a breakfast full of energy and satisfaction with which to start the day.

This versatile recipe for Coffee Crumb Cake is so downright delicious that it can easily serve as a dessert for luncheon or supper as well as a breakfast treat. The addition of coffee as a flavoring and soya flour makes this recipe unusually interesting. When combined with a heartening full-bodied cup of coffee, you have an unbeatable combination. Here is the recipe for Coffee Crumb Cake. It's tested, of course.

Coffee Crumb Cake

- 1 1/2 cups sifted flour
 - 1/2 cup soya flour
 - 1/2 cup brown sugar
 - 1/2 teaspoon salt
 - 1/2 teaspoon cinnamon
 - 1/2 cup shortening
 - 3 teaspoons baking powder
 - 1/4 teaspoon soda
 - 1 egg
 - 1/2 cup cold coffee
 - 1/2 cup chopped nuts
- Mix flour, soya flour, brown sugar, salt, and cinnamon, and sift together. Cut in shortening until mixture is as fine as cornmeal. Measure 1/2 cup and reserve for topping. To the remainder of the mixture add baking powder and soda, and mix thoroughly with fork. Beat egg, add coffee and stir into flour mixture. Pour into deep pie pan and sprinkle with reserved mixture and with nuts. Bake about 1/2 hour in moderately hot oven (400° F.).

Wartime Lighting Suggestions

HOW TO GET MORE LIGHT FROM YOUR PRESENT EQUIPMENT

Eliminate Colored Bulbs

Amber-orange and flament bulbs in round or flame shape give a mellow, amber lighting effect, but there is a considerable loss in light to obtain it. Replace them with inside-frosted lamps of the same wattage and you'll get a lot more light from the same amount of current. It's a good idea, too, to see that bulbs are equipped with shades to prevent glare and to direct light where it is needed. We'll gladly help you in any way we can to make the most of your lighting.

OTHER WAYS TO CONSERVE LIGHT

1. Remove and clean lamp bulbs and lamp bowls regularly. Dry thoroughly before using again.
2. Keep shade linings light. Clean or brush regularly. Repaint or reline dark-colored paper or parchment shades.
3. Sit close enough to the lamp to get all the help it can give your eyes.
4. Avoid direct glare from lamp bulbs by using shades deep enough and wide enough.
5. Arrange furniture so one lamp can serve two people. But be sure lamp is not too far away from either person.
6. Turn off lamps not in use! Lamp bulbs use critical materials. Make them last longer.

SOUR NOTES

Rosanne Porter
 The high school band made the scheduled trip to Morse Monday night. We all had a good time playing marches, overtures and popular pieces. Jean Hill and Barbara Daily played two numbers on their violins. We also had five twirlers who entertained the audience while the band played "Our Director." There were several Spearmanites, who helped carry band members back and forth. We certainly do thank them for doing that.

For the last two weeks we have been having a lot of challenging for first, second and third chairs. The results of these challenge tests will be in the paper next week.

Snooper

There was something said about a picture going around. Was it really yours, Floydian?

Dick Beck seems to have a different girl every week. How do you manage?

Lee Brown, who was driving your car around Sunday?

Dorothy H., your temper got out of control Sunday night, didn't it?

The gossip seems to be centered on Leroy Sloan this week. Why wouldn't you let her sit in the front seat with you, Leroy, or did the lady have reasons? Why could you have been lying on main street Sunday night, and just why were you and Billy Joe at a certain place in the southeast corner of town; don't you know they are in college now? Oh well, you may be brother-in-law yet.

Wilma and Sammy weren't doing bad Sunday night. Who were they or should we mention names?

George B. seems to be pretty true to the Navy! Does she turn them all down, or just that certain one?

Now every girl gets a good-looking bracelet like that. How do you do it, Norma Jo?

Doris, from all appearances, you're beating someone's time.

Arlys, did you enjoy the preview Saturday night? You should have.

June, you don't want to believe the truth, do you?

Someone seems to have gone climbing Sunday night, didn't they? Why all the skinned limbs and limping people?

A certain black Chevrolet seemed to serve as a bus for some certain group of students and ex-students. Where did that group disappear to anyway?

It seems as if Rosemary should be more careful with those kind of notes!

Louis and Gene Schnell, Sammy May, Bill Keahy, and Miss Alma Overby have received their picture proofs and we all agree they are good.

LUCKY JOE!

Yes, they call him "Lucky Joe" because every year he gets his crops in at the right time without any worries about time-wasting breakdowns. But there's a secret about this fellow Joe.

He's just sensible. He always checks his machines long before he needs them to be sure of getting parts.

Another thing, he won't buy anything for his McCormick-Deering Farm Equipment but GENUINE IHC PARTS.

He's not lucky!

The NEW Winning of the West

The first unit of the Santa Fe System Lines back in 1905

JUST 75 years ago this week, October 30, 1868, rail was laid on the first unit of the Santa Fe System Lines—a 17-mile stretch in Kansas from Topeka to Carbondale.

Today, Santa Fe System Lines are over 13,000 miles long, serving people and products from Illinois to California, and from Colorado to the Gulf of Mexico.

Looking Ahead

Farsighted men, even years back, began looking ahead to the Southwest and West not only as a land of enchantment and natural resources but as the coming theater of industrial expansion in this country.

The war has brought home the soundness of this vision—big things are happening today in the states of Santa Fe land.

States served by the Santa Fe

Thousands are flocking to Texas—great state of farm, factory and free enterprise—to man its booming plants, cultivate its soil, and ride its far-reaching ranges.

Kansas is becoming famous for its plane factories and munition plants, as well as its golden wheat fields.

Arizona is winning new fame in the fields of agriculture, live-stock, mining, and as an aviation center.

Oklahoma's oil is writing bright new pages in the science of war, and advances for the peace to come.

Freight cars are rolling out of New Mexico

loaded with essential copper, potash and zinc, as well as steers and sheep.

Illinois, Missouri and Iowa are saying it around the world with factory and food products.

The lead and silver and coal from Colorado's mineral-filled mountains are doing great things toward winning a war.

And in California, steel mills, shipyards, power dams, plane plants and lumber mills are working around the clock to supply more, more, and more of the sinews of war.

Santa Fe all the way for U. S. A.!

We of the Santa Fe are too busy "keeping 'em rolling" for Victory to take time off to celebrate the 75th anniversary of the laying of our first rail.

This is, however, an appropriate time to point out how important to the development of this New West has been the linking together of its States by Santa Fe rails. We are naturally proud to be part of this great development.
