ON NEWS Vivian Vance

atfield, extension speclandscape gardening for and M college says that are several odd jobs that an be done during Jan. that will make your landscaping work easier the rest of the year. For instance, she says, look your yard over with an eye toward saving steps and improving design. Often the removal of curbing, trellises or old stumps will add to the beauty of the yard. Get rid of loose sticks and stones. Of course the biggest tob during the winter months is transplanting or setting out trees and shrubs. Crowded shrubbery can be thinned out, and extra plants set around the garage and out buildings. Rose gardens and bulb beds are other winter activities that will pay dividends in the spring and sum mer. If your rose bushes are scattered over the yard put them all in one bed. A beautiful yard is the result of year round work

Some housewives, hearing of the "Cull the poultry flock to save grain" campaign may wonder about the cull chickens that will be on the market as result. In fact, a lot of us may not exactly understand the word 'cull' and the meaning of it when used in connection with poultry. But if you look the word up in the dictionary you'll find it means about the same as choose or sel ect If a hen is a good laver. with plenty of eggs to her credit she is likely to be thin fleshed because she turns most of her feed into eggs. On the other hand the loafer in the laying flock turns most of her feed into meat it makes her nice and plump for the dinner table, but no good in the flock. The good poultryman knows exactly which ones to send to market as giving the least return for the grain they eat, and marketable plumpness is one of the good guides.

As a matter of fact, the poultry husbandmen say, culling the poultry flock has been a good management practice for years.

So don't worry if you get a good "cull" hen for the table. she probable ate too much for her own good, but makes good eating for you.

#### Membership For VFW

Comander Cu Jones of the Hansford VFW announces a membership drive this week that certainly will prove attractive and profitable to at least four members of the organization.

Jones and officials of the VFW organization are anxious to get a complete membership of all eligible ex service men in this area. The VFW is offering a first prize of \$50.00 for the member who brings in the most renewal and new members to the organization. A second prize of \$25.00 is offered to the member placing second in the drive. Third place will receive a prize of \$15.00 and fourth place will gain a prize of \$10.00

Contestants must turn in 3 or more old members or new members in order to qualify for the contest. As soon as dues are paid it enables a member to begin soliciting membership in the 1948 drive.

Contest starts January 1 and will close the night of February 10th at the regular meeting of

EYESIGHT is so precious and good lighting so cheap there's no need to strain your eyes because of insufficient light.

Good lighting is so necessary for good eyesight that you should make sure that in every room of your home, or in every section of your place of business there is always enough light.

Whenever you find your eyes tiring quickly, CHECK YOUR LIGHT. It may be too weak or possibly too strong. If you can't determine the proper light yourself, call a Public Service lighting

A Public Service Company lighting specialist will come to your home, office, or place of business to give you recommendations as to how to obtain the best in lighting. There's no obligation. Just call or write your nearest Public Service office.

ports that government officials have profited from "inside" information on government commodity buying Anderson's 711-name list was the

first installment in a series which the agriculture secretary will for ward to the senate appropriations committee, simultaneously making each list public. An estimated 14,000 names are available for such list-Meanwhile the senate appropri

ations committee, as well as a house committee, were ready to start sift-ing the rolls for possible irregulari-ties and especially for leaks of in side information.

#### WARNING: On Prices

The President's council of eco nomic advisers, an astute group that sometimes functions as Mr Truman's conscience, has warned that the U. S. must return to "real price competition" if the present boom period is not to collapse into a shapeless economic mess.

In its annual report the council sharply criticized "monopolistic practices" and declared also that "Many industrial prices must come down at least in relation to

other prices and many rates of profit must subside while reasonable profitability is established in other The report surmised that the pres

ent era of prosperity was "abnormal" because of such factors as heavy exports, short crops and great military expenditures. To remedy the situation the council of fered these recommendations: Elimination of deliberate cur

e Republican congressional cam-We fear inflations with awe, as we fear the great pranks of nature. The bearded elders rumble and we fling our arms around their shanks and try to get reassured. In our country, down to now, our money always has come back, but we who respected the 20-cent franc and later got francs for two or three cents know there is nothing in nature to forbid that here. CURE IS IMPOSSIBLE

Sometimes in life it is possible to cure a situation by undoing the acts that caused it. Our inflation was caused by Roose

His only idea was to print money and put it in the people's pockets. He poured it out and the debt went up and up and still the people had little more than they had had be-

the people back to work until, in reality, the government hired them to work for private contractors in the war effort.

"I figured that would buy a lot of medicine to ease the pain of being a out to die and to pay the people at

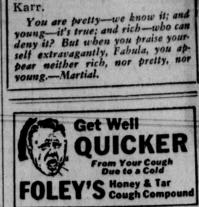

Inflation only means that the dol-

INEXCUSABLE SPENDING. Then, with the war-boom coming Roosevelt refused to rescind the 40hour week. This decision cost us billions absolutely without excuse. It was a favor to the union bosses of his own political machine. It was a terrible thing to do. It meant that millions of war-workers got pre-mium pay of 50 per cent, 100 per cent or even more, not for over time worked as boss-driven slaves but as sheer graft. They got an out right gift of \$25 a week, or more or a little less sometimes, from the government through the medium of war contracts, through a dozen thieving tricks worked out by union hosses in connivance with the war labor board and contractors.

the workers were allowed to graft, the more the contractors

Hundreds of thousands refused to work Mondays or Tuesdays unless they were guaranteed work for Satur-days and Sundays. The work done on overtime days and on overtime hours at night was worth no more than any other work. It was a raw racket and the people who squan-dered this ill-gotten loot on brass jewelry will deserve any hardship that is put upon them by the infla-

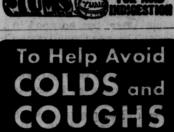

That can't be undone.

### Soil Needs Nitrogen

How lime, clover and crop residues increase the soil's nitrogen and organic matter supply and thus poost crop yields, is shown by the chart below. This drawing summarizes results of tests at the Dixon soil experiment field by University of Illinois agronomists. All three plots in the tests were limed and the crop rotation on each included corn, oats and wheat. One plot had no clover. The small grain straw was removed and the cornstalks were burned. This plot produced a four-year average of 57 bushels per acre. The second plot had the same

Morse News

MORSE - PRINGLE NEWS Well, being ill has its compensations. My parents are here now from Campo, Colorado, and enroute to Hot Springs, New Mexico where they may remain for

an indefinite time to take baths.

We're awfully slow in hearing all the Christmas vacations and trips. Next time we'll catch w up. Recently Mr and Mrs. Robert Ownbey and family spent Sunday with Mr and Mrs Stephenson of Campo, Colorado, The day was quite an occasion of celebration. They had the familv Christmas tree, and also celebrated three birthdays: Nancy Lena's, Mrs Ownbey's and Mrs. Stephenson's. Oddly enough, the next series of birthdays comes in a group too, when both grandparents celebrate birthdays in February: Jim Ownbey, Feb. 19, and W H Stephenson Feb. 17.

Of much interest to this comm unity was Laura V. Hamner's radio program "Light and Hitch. Grady Reilback, Bruce Hoff. Last Sunday she told the history Buster Bronstad went home for of Stinnett, and the previous Sunday had included the history of Arthur Womble and his welldrilling machine. Arthur has lived here for many years and his Don and Turk Hudson left on son. Bruce, is married to O E Wednesday for Missouri to be Vaughn's daughter, and they now with their mother who is under live north of Dalhart. During the program. Mrs Hammner told of biscuit-making, and the Walter State No. 1107 Harris she mentioned, is our

LOSS OF PRODUCTION

Then Philip Murray's steel-workers struck for a month in the winter of 1946 and we lost production in hundreds of things that never will be made up as long as we live. It was lost at a terribly critical time.

That called for other raises for people who had to pay the higher price of steel products.

All this was inflation, due to shortage, due to non-production, due to is 188 dress the house for 30 seconds. He
