

Senate Kills Salary Reduction Measures

That Big Spring people are aware of the security of their community, financially, is obvious. We do not mean that they believe there is an active war in the past. But the financial stability of the business institutions of the town is so much greater than those of so many communities today that we have much to be thankful for.

Rumor and gossip—those iniquitous demons—cause most of the misfortune that befalls business and financial institutions nowadays. We have with us already, unfortunately, those who go about with their tongues loose and their baseness it is the greater the thrill they get out of it.

There is no doubt whatever that the present depression has been caused principally by the mental state of the people brought on by those who, unmindful of the real damage they do, continue to feast upon their "hard times complex"—with their tongues loose at both ends.

The man who stands in his store door and tells everyone who chances by that his business has gone to the devil does not deserve anything else.

Today we heard a banker, known as a rock-ribbed conservative, say that he believed the flow of trade would be quickened if people got it out of their heads that the world is going where so many of them apparently wish it would go—to the devil for keeps.

Big Spring has nothing to fear. If any catastrophe should occur it would be due to plain, everyday gossip.

Keep your feet on the ground. This business of going every few days into a double-strength hazy, what breaks folks. Let the hysterical be quarantined outside the city gates!

A good example of cool-headedness was shown by the board of city commissioners and the city manager when the 1931 tax rate was fixed Tuesday evening.

They could have reduced the rate materially by applying on high and prompt payment of taxes this winter and next spring. Some cities have done that. But, disregarding as incidental (as it should be) any vote-pulling power a lower rate could create, the commissioners fixed the rate at a figure that will insure sufficient income to meet a reduced budget on a lower than average percentage of tax payments.

If the commissioners were prophets and could look ahead and determine without doubt that tax payments would average 90 per cent they could slash the rate. But they are not prophets. Their action, therefore, cuts to almost nothing any danger of a deficit at the end of the fiscal year.

And, the promise that the rate would not have to be raised if the city hall bond issue were voted was carried out. If it had not been this writer would have been one who would have done plenty of Cain-raising.

October 3 Made 'Big Spring Day' At South Plains Fair

Saturday, October 3, will be Big Spring Day at the Panhandle-South Plains Fair, officials there have announced.

Invitations to Big Spring people to send an organized delegation there have been issued by President Homer D. Grant and A. B. Davis, manager of the Fair Association.

"If you have an active hand and will have it lead your delegation the band members will be given passes," Manager Davis writes.

Saturday School Sessions Objected To By Supt. Marrs

LUBBOCK, Sept. 24. (AP)—School work on Saturdays, in an effort to make up lost time caused by starting school late in the fall, does not have the approval of S. M. N. Marrs, state superintendent of public instruction, although the state committee on accredited schools has not ruled against it.

"I object to teaching school on Saturdays," Marrs stated emphatically. "In the first place there are many families that need their children at home one day a week. There are many instances in which schools ran for six days a week. But I do not know of one that was entirely satisfactory."

Archery Club To Be Opened Here Friday

An archery club will be opened at 109 W. 2nd St. Friday morning. Ken Barnett and Bill Bonner have charge of the club and expect to furnish a new type of entertainment for the sporting fans.

Japan Takes Troops From Mudken Area

Formal Statement Of Japanese Policy Is Awaited

(By The Associated Press)

Troops are reported being withdrawn by Japanese from positions outside South Manchurian railway zone though four cities still were occupied. A formal statement of Japanese policy is being awaited.

Secretary of State Stimson's note advocating a peaceful settlement of the trouble was received in Tokyo today. Another note sent from the council of the League of Nations pledging cooperation was an indication of solution of difficulties.

Commissar of War Voroshilov, returning to Moscow from an eastern tour, declared Russian troops were mobilizing on the Manchurian border.

Dallas Salesman Sought For Death Of Cincinnati Man

CORPUS CHRISTI, Sept. 20. (AP)—Officers were enroute to Dallas last night for John A. Hill, burglar alarm salesman, arrested there last night and charged with the murder of Alfred Steinbach, 20, of Cincinnati. The skeleton was found near Corpus Christi September 2. The body was identified by the teeth. Steinbach disappeared in July. The nature of the evidence against Hill was not announced.

Pecan Leases On Concho Are Closed

SAN ANGELO, Texas, Sept. 24. (AP)—Several leases on pecan acreage in the Concho river drainage area have been closed. One of the biggest was that by J. L. Rainey, who contracted for the crop on seven miles of the Main Concho river on the Abe Mayer ranch.

Crop conditions are about 30 per cent normal in this section, while the percentage is about 53 over the entire state.

The crop this year is between two and three weeks late because of the late freezes last year, according to Rainey.

Some of the pecans are loose in the hulls now, but no hulls have opened and schoolboys' fingers are not yet stained brown from the nuts.

Until three weeks ago the pecan crop in the county seemed promising. Continued and increasing rains by pests have caused hundreds of pounds of pecans to drop from the trees. Insects have been worse than in several years.

Bitterweed Fight Advanced Further

SAN ANGELO, Texas, Sept. 24. (AP)—A recent meeting of the Bitterweed Association of West Texas resulted in the vesting of power to ask for bids on the three laboratory buildings to be erected at the Ranch Experiment station near Sonora, in Judge J. A. Whittier's commission.

The bitterweed is a range pest that annually kills thousands of sheep through poisoning. W. H. Damron, superintendent of the station, and A. B. Conner, director of the A. & M. station, will act with Judge Whittier on the bids.

Judge Whittier has three sets of plans and will ask bids on them soon. He believes work on the completed station by December 1. The state legislature has appropriated \$20,000 for the work and the federal government will furnish three men for the study of the problem. The state will give two. The buildings will cost around \$15,000 and will be of concrete.

Buildings will consist of a barn, a laboratory and quarters for the workers. Judge Whittier said the plan is to exterminate the weed rather than to seek methods of counteracting its poison.

October 3 Made 'Big Spring Day' At South Plains Fair

Saturday, October 3, will be Big Spring Day at the Panhandle-South Plains Fair, officials there have announced.

Invitations to Big Spring people to send an organized delegation there have been issued by President Homer D. Grant and A. B. Davis, manager of the Fair Association.

"If you have an active hand and will have it lead your delegation the band members will be given passes," Manager Davis writes.

Orchids? No, Cotton

To use up part of the cotton surplus southern belles are wearing flowers made of cotton in lieu of orchids. Here's Marjory Sutton, popular Vicksburg, Miss., society girl, wearing a cotton corsage.

Man Shoots Self; Bullet Is Removed

Raymond Haynes, resident of the Knott community, was in a serious condition at Bivings and Barcus hospital this afternoon from effects of a bullet wound in the head.

An operation for removal of the bullet was performed. Relatives who brought him to the hospital told a newspaper man and a physician that the shot was fired by Haynes with suicidal intent.

No motive was known for the act. It was declared.

Mr. Haynes moved recently from Oklahoma and was working for his father-in-law, Mr. Sample.

The wound was inflicted just above and between the eyes. An x-ray examination showed it penetrated to an unusual depth not to cause immediate death.

Haynes' condition was as good as could be expected, said the attending physician.

Knott Resident Undergoes Operation At Local Hospital

Raymond Haynes, resident of the Knott community, was in a serious condition at Bivings and Barcus hospital this afternoon from effects of a bullet wound in the head.

An operation for removal of the bullet was performed. Relatives who brought him to the hospital told a newspaper man and a physician that the shot was fired by Haynes with suicidal intent.

No motive was known for the act. It was declared.

Mr. Haynes moved recently from Oklahoma and was working for his father-in-law, Mr. Sample.

The wound was inflicted just above and between the eyes. An x-ray examination showed it penetrated to an unusual depth not to cause immediate death.

Haynes' condition was as good as could be expected, said the attending physician.

Abilene Man Heads New Ranger Bank

RANGER, Tex., Sept. 24. (AP)—D. Dillingham of Abilene and Ranger has been named president of the Commercial State Bank here, after completion of a merger of that institution with the Citizens State Bank. Dillingham was president of the later bank before the consolidation.

Directors explained the consolidation as an economy move, and announced sale of all real estate holdings except the Commercial Bank building, in which the merged institution will be quartered.

Hall Walker, former cashier of the Citizens, becomes active vice president, and Edwin George, Jr., Commercial cashier, is retired in that position. E. R. Maher, formerly president of the Commercial, remains a member of the board of directors. He has been living at Dallas since January 1. Other directors are Dillingham, John M. Gohson, W. D. Conway, Hall Walker, F. G. Yonker, L. R. Pierson, M. R. Newham and Edwin George, Jr.

The Citizens State was organized in 1923, on local capital entirely, and the Commercial State was established in 1928, a portion of the stock being subscribed by stockholders in the Citizens.

'Gunless' Sheriff On Duty In Crockett

SAN ANGELO, Sept. 24. (AP)—West Texas has another gunless sheriff. He is "Sandy" Willis of Crockett county, who weighs 245 pounds and stands six feet, seven inches.

Tales of his physical prowess are many. Once a man at a dance is said to have reached for him with a knife and Willis held him off with one hand, slapping him "to sleep" with the other.

Another concerns the offer of a bully who asked him to pull off his gun. "I don't wear a gun," the sheriff is reported to have said and convinced the challenger that his apparent strength is real.

W. T. C. C. Program Discussed Here

Public Expenditures Survey And Beautification Plans Principal Aims Of Organization This Year

Exhaustive examination of public expenditures and taxes in every town and for the entire region and a five-year beautification program are the principal aims of the West Texas Chamber of Commerce, speakers at the district 6 business meeting at the Settles here this morning declared.

Malcom Meek, president of the Midland Chamber of Commerce, acting for Clarence Schaubert, district director, presided. He was introduced by R. Reagan, a veteran worker in the regional organization.

Speakers were President Houston Harte, San Angelo, General Manager, D. A. Bandeen and Maury Hopkins, assistant manager.

Mr. Bandeen's remarks were principally on the public expenditures survey being inaugurated at this time. His personal record as an expert in municipal finances lends weight to the movement.

President Harte declared the purpose of the organization is to champion the causes of the western part of the state.

He said:

"It is not our purpose to usurp the functions of the local chamber of commerce, but to give the local chamber of commerce a federation through which it can make its work more effective. A great many of the local chamber of commerce problems are regional and territorial in their scope. Working single handed on these problems, not much can be accomplished, but working through an organization like the West Texas chamber, chances of success are increased.

"It is not our purpose to become involved in strictly local problems, believing that these should be handled by the local chambers of commerce. It is our purpose to give our various districts a right to designate an activity of our organization. Any single town in any given district wanting to secure the cooperation of our organization in that district, can bring the forces of the entire West Texas chamber behind that problem, as for instance the towns in District No. 6 using our Freight Bureau in order to get the cotton rates decreased.

"It is our purpose to build the West Texas Chamber of Commerce so that it will be of maximum service to every local town in handling problems which are territorial in their scope.

"I hope we are not an opportunist type of an organization, that is having no work program and working on things as they might arise. We have a work program.

"The main essentials of our work program were outlined by our Lubbock convention, through a series of six group business conferences supervised by a resolution committee, which resolutions were adopted by the convention as a whole.

"These resolutions have been formulated into a definite work program for the organization. The work is assigned to twenty different committees, each committee having a definite objective to accomplish.

"This year in addition to making definite one-year program, we have launched the idea of adopting set programs for a four or five year period of time, as for instance looking to the Chicago World's Fair, the reduction of public expenditures and a five years' beautification plan.

"We have 113 directors located in 11 West Texas towns, all of these towns affiliated with the West Texas chamber. Each director is elected by our convention as a director of this organization.

"Our 120 counties are divided into ten administrative districts, each district having from seven to twenty counties. The directors from these districts choose from their number a district director. The district director becomes a member of the executive board. The executive board is composed of the district directors and officers, which is the main administrative board of the organization.

"We are proud of our organization."

(CONTINUED ON PAGE 5)

HOOVER IN APPEAL TO LEGION

This Associated Press telephoto shows President Hoover addressing American Legionnaires at their convention in Detroit. He called on the ex-servicemen to enlist in a peace-time fight for government economy to help banish depression.

Secretary Hyde Seeks To Learn Probable Effect Legalization Of Beer Would Have On Farmer

WASHINGTON, Sept. 24. (AP)—Secretary of Agriculture Hyde announced today that the department was investigating the possible effect on the farmers of the legalization of beer.

The department would like to know how many farmers would raise hops, barley and crops of a similar nature. Many requests had been received though none had come from President Hoover. A report was expected to be made public at an early date but indications are that it would not be sent directly to the president.

Gang Indicted For Robbery

HOUSTON, Sept. 24. (AP)—Jack Jones, Barney McGanagal and J. H. Johnson were today charged with burglarizing the Weingarten Company here several months ago.

The charges resulted in Jones' receipt of a series of robberies throughout the state. Paris, Victoria, Corpus Christi and Brownsville officers are investigating others.

The trio are being held in connection with the gang killings of John Cherris and Mr. and Mrs. Chester Jones. Jack Jones said his brother and sister-in-law were killed in reprisal following the slaying of Cherris after a dispute among the gang members.

Wild Canaries Are Numerous On Bosque

WACO, Sept. 24. (AP)—Wild canaries, the majority of the Mexican species but others of several different varieties, have multiplied to such a degree that they are now quite numerous along the Bosque river valley about Waco, according to T. Gooch, federal wild fowl census taker, who is making a check for the federal wild fowl and bird authorities at Washington, D. C.

There has been a decided increase in the number of wild canaries in this section during the last decade, according to reports received by Gooch.

Many of the Mexican canaries and other types of capary birds have made this area their home, and the birds have mingled until there are many varieties, among them some warblers of unusual beauty. Amateur naturalists have obtained numerous specimens which have been mounted.

The little songsters are rather prolific and are becoming more widely diffused all the time, according to Gooch.

LEGION BEGINS DEBATE ON 'PROH' REFERENDUM

DETROIT, Sept. 24. (AP)—The Legion today voted 1,008 to 394 to ask congress to request states to submit a repeal or modification of prohibition to the voters. This was the first time the subject has ever been considered on the convention floor.

The Legion also asked congress to reestablish a council of national defense used during the war to aid in economic difficulties.

DETROIT, Sept. 24. (AP)—The Legion convention today began a debate of the resolution to ask Congress to request each state to hold a referendum on the prohibition question. Loud demonstration cries of "We want beer" greeted the introduction of the resolution on the floor of the convention.

Commander O'Neil reversed the previous ruling of commanders in allowing the resolution to reach the floor.

Scott W. Lucas, Illinois, resigning at National League Advocate of the Legion to become a senatorial candidate spoke for the resolution, saying that prohibition after thirteen years found business, professional, laboring men, young girls and all classes of people drinking liquor wherever, and whenever they can get it. It had produced machine gunning, poison alcohol, gang murders and stills by the thousands and all of which were unknown before prohibition.

HOUSTON, Sept. 24. (AP)—The Nat. Hunter Producing Company announced today the purchase of the Barber's Hill oil properties of the Humphries corporation.

The reported price was over \$3,500,000.

The properties consist of 800 acres, 25 wells having a potential capacity of 12,000 barrels or more and a pipe line right of way to the Houston ship channel.

Witness Fees Alone Suffer Stroke Of Ax

Finance Committee Reports Measures Unfavorably 11 To 7

AUSTIN, Sept. 24. (AP)—The senate today killed all pay reduction bills except the one cutting ten per cent off witness and sheriff's fees. The bills were submitted by Sterling in order to effect economies. The finance committee reported all unfavorably by a vote of 11 to 7 yesterday.

Solons Given Three Topics By Governor

Waiving Of Back Tax Penalties, Occupation Tax Urged

AUSTIN, Sept. 24. (AP)—Governor Sterling today submitted three bills to the legislature. One provided that interest penalties on delinquent taxes in all subdivisions of the state, except incorporated towns up to October 20, be waived if the taxes were paid by January 1.

Governor Sterling said this would relieve the property owners.

The second bill provided for an occupation tax of five dollars yearly on all cigarette dealers. The third provided for \$100 yearly tax for loan brokers.

42 Miles Paved In Angelo Area

SAN ANGELO, Texas, Sept. 24. (AP)—Forty-two miles of highways in Division 7 have been paved recently and construction is under way in four of the 18 counties in this unit, according to A. F. Mourne divisional engineer for the state highway department.

Paving of the Carlsbad-Sterling City gap in Tom Green, Coke and Sterling counties and paving of several miles in Brown county furnish the 42 miles of new paving. State highways in this division have a gross mileage of 1200.

Five contracting outfits are now at work in Crockett county on grading and structure in Sterling county an outfit is paving north from Sterling City to the Glasscock county line. In Concho county new work is under way and the Frog Pond and Kickapoo Creek bridges have been finished. In Coleman county grading and structures are improving the condition of Highway No. 7.

Laying of asphalt on Highway 4 in Runnels county, from Dallinger to the Concho county line, will start within the next few days. Eight bridges on the strip will be finished this month, the contract amounting to \$43,000.

Texas Tech Offers Classes At Night

LUBBOCK, Texas Sept. 24. (AP)—Night classes will be given at Texas Technological college this year in a variety of subjects, to residents of Lubbock and others who may enroll, by the extension department, J. F. McDonald, director of the extension department announced.

"We will give these night classes the same as we have done for the past three years," he explained.

"These courses will cover the following subjects, provided there are enough enrolled in each class to justify the work—geology, chemistry, business English, freshmen English, public speaking, business law, physical and health education, practice teaching and accounting."

The Weather

By AMERICAN AIRWAYS
Big Spring and vicinity 3:30 p. m. Condition of sky, scattered cumulus. Ceiling and visibility, unlimited. Wind direction and velocity, south at 15 miles per hour. Temperature 92. Dew point 68. Barometer, 30.97.

EAST TEXAS—Generally fair tonight, Friday partly cloudy.

WEST TEXAS—Partly cloudy, probably showers in north and extreme west.

Barons Batter Four Houston Pitchers To Win And Tie Count At 3 All

Series Final In Park At Houston Friday

BIRMINGHAM, Ala., Sept. 24 (UP)—The Birmingham Barons, Southern Association champions, batted out 23 hits to defeat Houston, 14 to 10 today, tying the score in the eighth and retired the side without a hit. The Buffaloes had their long range runs in action also, marking up 18 hits off two Barons twirlers.

Art's Perfect Day
Leading the Barons attack was Art Weis, who hit a home run, two doubles and two singles for a perfect day at bat. Weis, who had gotten only one hit in the series until today's game accounted for three runs.

Billy Bancroft, Barons second baseman and lead off man and Woody Abernathy, right fielder, hit home runs and each accounted for four runs. Guy Sturdy, first baseman, was the star at bat for the Buffs, collecting four hits, two of them homers, and accounted for three runs.

Birmingham started in the first, putting across one run, the result of a single by French and a double by Art Weis. Weis added another with a home run in the third and in the fourth the full force of the Barons attack broke loose, six runs crossing the plate before the session ended.

The teams left on a special train tonight for Houston where the seventh and deciding game will be played Friday. Today's victory was the second straight for the Barons. Their first victory was in the series opener and they dropped three games before scoring their victory Monday night at Houston.

Moratorium On Rent Cars To Dances If Ordered By Co-Eds

AUSTIN, Sept. 24 (UP)—Co-eds at the University of Texas today declared a moratorium of taxis for university dances.

Girls of the Littlefield dormitory are voting a no-rent-car year, not to stabilize the cotton market, but to stabilize the finances of several thousand men students.

Texas Aggie Star

Carl Meulden, Texas Aggie grid captain, spent the summer working on pipelines in the west Texas oil fields to keep in trim for the 1931 football campaign. He plays tackle.

Father Of Member Of House Succumbs

AUSTIN, Sept. 24 (UP)—W. M. Holder, 65, father of Rep. Ray Holder of Lancaster, dropped dead on the second floor of the capitol building shortly after noon today.

Heart failure was blamed. He had been a resident of Austin for a number of years and was an employe of the state board of control. Funeral arrangements have not been announced, but services likely will be held from the family home here.

LEGION ELECTS

AMARILLO, Texas, Sept. 24 (AP)—R. R. Nation is the new commander of Hanson Post of the American Legion, the second largest post in the state. He succeeds Dr. T. M. Montgomery, who becomes chaplain.

Others officers are: Nat S. Perrine, first vice-commander; Charles Lowe, second vice-commander; Otho Farrell, third vice-commander; R. D. Chase, finance officer; V. W. Hogan and J. S. Knight, sergeants-at-arms, and Cecil Ingram, historian.

Gen. Butler Seen As Candidate For Place In Senate

WASHINGTON, Sept. 24 (UP)—The routing send-off which was given to Major-General Smedley D. Butler as he retired from the U. S. Marine Corps was construed by many here to signal the approach of a new figure in politics.

The farewell program put on for Butler at the Quantico, Va., Marine base, was calculated to send him out into civilian life with a fanfare fitting his spectacular military career.

Butler will, it is expected, announce plans later to become a candidate for the U. S. senate in Pennsylvania against Senator James J. Davis, who stands for re-election next year.

Added belief that Butler would enter the political field in that state was based on remarks of Governor Gifford Pinchot, of Pennsylvania, who said last night at a smoker held at Quantico: "We are all going to hear more from General Butler."

Many believe Butler is destined to become one of the first outstanding national military figures in postwar politics. His irrepressible personality has survived the heavy restraints of marine corps routine. Butler's stem-winding exit from the marine corps comes at a moment when much attention is directed to the role of the soldier in politics.

Congress Urged To Suspend U. S. Anti-Trust Law

WASHINGTON, Sept. 24 (UP)—Suspension of the Sherman anti-trust law during the period of the existing business emergency was advocated before President Hoover today by Charles F. Abbott, executive director of the American Institute of Steel Construction.

Foreclosure Upon Electric Railway Property Sought

DALLAS, Sept. 24 (UP)—The Harris Trust and Savings Bank, Chicago, today filed an intervention suit against the Texas Electric Railway Company asking the court to order foreclosure on all physical properties in order to protect holders of bonds issued by the railway company, amounting to \$5,571,000.

Amarillo Protests Article On Helium

AMARILLO, Texas, Sept. 24 (AP)—The Amarillo chamber of commerce and local citizens are protesting an article which appeared in a recent issue of the Literary Digest on the manufacture of helium gas, and which did not mention the government plant near Amarillo.

FOR THE BEST ANSWERS EXPLAINING THE MYSTERY of the "HIDDEN QUART" AND TELLING HOW THIS QUART BENEFITS MOTORISTS

Fact No. 1—Thousands of motorists and service station men have observed that after a car has been given its first fill of Conoco Germ Processed Motor Oil and is driven 200 to 350 miles, a look at the crankcase gauge shows that about one quart of oil is apparently missing... but

Fact No. 2—These same people have noticed that on the second and later fillings with Conoco Germ Processed Motor Oil, scarcely a drop of oil will disappear during the first 350 miles, and practically none at 500 and up to 1,000 miles!

The above facts have been checked by actual tests with cars that use six quarts of oil for the crankcase, cars in good mechanical condition and driven at ordinary rates of speed. These facts will also prove true for your car, in proportion to the amount of oil your crankcase usually holds, your car's mechanical condition and the speeds at which you drive.

What becomes of the "hidden quart"? The answer is easy if you study the Facts given above and keep in mind the things that only Conoco Germ Processed Motor Oil can do. The explanation of the whereabouts of the "hidden quart" is simple—no technical knowledge of motors or oil is necessary.

Remember—The "hidden quart" of Germ Processed Oil does not escape through leakage... does not burn up, wear out nor evaporate. It is "present but unaccounted for." Fact No. 2, given above, proves all this.

After you've found where the "hidden quart" goes, you can easily see the special benefits it gives the motorist—advantages that no other oil can give.

Ask at any Conoco Station or Conoco Dealer for free Entry Blank which contains information about Conoco Germ Processed Motor Oil that may help you win. Conoco Station and Dealer employees will gladly answer your questions. Remember, you do not have to buy anything to enter this contest.

See Rules of Contest for complete details.

29 PRIZES
First Prize **\$5,000**
Second Prize - - \$2,000
Third Prize - - \$1,000
4th, and 5th Prizes - - \$500
6th, 7th, 8th and 9th Prizes - - \$100
10th, 11th, 12th and 13th Prizes - \$50
14th through 29th Prizes - - \$25

WINNERS WILL BE ANNOUNCED as soon after the contest closes as possible. Announcement of all winners will be made in this newspaper.

THE JUDGES
DR. W. B. BIZZELL, President University of Oklahoma
JOHN A. HUNTER Professor of Mechanical Engineering, University of Colorado
FRANK L. MARTIN, Asso. Dean School of Journalism, University of Missouri

THE QUESTION
"What becomes of the 'hidden quart' and how does this quart benefit the motorist?"

COMPLETE RULES OF CONTEST

- Answers may be any length not exceeding 200 words; length of answer will not determine winners. Write answers on Official Contest Entry Blank preferably, or on plain white paper. Conoco Stations and Dealers will give you an Official Contest Entry Blank free. Elaborate presentations of answers will not count in your favor.
- Write your answer in plain, simple language. Technical terms or special scientific knowledge will not influence the judges.
- Contest closes midnight, September 28, 1931, and no entries bearing postmarks after midnight, September 28, 1931, will be accepted.
- Contest open to everybody except employees and executives of the Continental Oil Company, Conoco Stations, Conoco Dealers and the Company's advertising agency, and their families.
- In case of tie, both contestants will receive full amount of prize tied for.
- You do not have to use or purchase Conoco Germ Processed Motor Oil or other Conoco products to compete for prizes.
- All entries submitted, whether or not they win prizes, become the property of the Continental Oil Company and may be used in advertising without payment, and none can be returned to senders.

CONTEST CLOSES MIDNIGHT SEPTEMBER 28th.

Opening the fall dance Season in the Crystal Ballroom of the Settles Hotel Friday Evening, Sept. 25th presenting Jimmie Green and his Settles Hotel Orchestra

Special Dance Numbers by Miss Dorothy Frost 9 till 12:30 Admission \$1.25

SUITS BREEZING IN WITH FALL'S COOL DAYS

Suit season is here again with the coming of cooler days, and Hollywood's alert eye has found three handsome designs. Adrienne Ames' jacket suit (left) has a vest of silk pique and print. Anita Page (center) chooses a dressy suit of black silk, with a pleated blouse of cream-colored net.

Famous Specialist Tells B. S. People New Rules Of Diet.

Dr. Sarah Elkin, of Chicago, one of the baker's dozen consulting dietitians, in the United States, is spending a few days in Big Spring with her friends, Mrs. Bernard and Joyce Fisher.

For the average person, who is not ill, Dr. Elkin says that one rule is not to eat between meals. Another is not to eat large portions of food. When she is helping with reducing diets, she says that she cuts down first on the amounts of the various portions.

Four Baylor Grid Stars 'On Carpet' In Probe of Hazing

WACO, Texas, Sept. 24 (UP).—Four Baylor University football stars today were summoned to appear before Dean W. S. Allen, acting president of the school, in connection with an investigation of hazing in Brooks Hall, the men's dormitory, last week.

Houston speedboat pilots made virtually a clean sweep of events on a recent race program at Galveston, Texas.

County Health Nurse Announces Dental Rates For School Children

With the cooperation of the local dentists, Mrs. M. R. Showalter, county health nurse, announces that all school children will be given a special reduction on dental work.

Forsan Bible Class Holds Fall Social

The Forsan Bible Class held its first fall social meeting yesterday afternoon at the Masonic Hall with Mrs. J. L. Johnson and Mrs. J. R. McCaslin hostesses.

Triangle Club Entertained By Mrs. Jas. Little

The Triangle Club and its guests were entertained by Mrs. James Little Wednesday afternoon at her home with a party.

Bullet-Punctured Body Found In River

HOUSTON, Sept. 24. (UP).—H. W. Oliver, 42, was buried here today. The body was found in the San Jacinto river yesterday with two bullet wounds in the head. An automobile was found about a half mile away. His wife said he had a \$600 check with him.

Public Records

Filed In Justice Court Tom R. Currie vs. W. L. Crouch. Suit for rent. SENATORS 3; YANKS 3 NEW YORK, Sept. 24. — The Washington Senators increased their hold on second place in the American League pennant race to one and one-half games as they defeated the New York Yankees 3 to 2 Wednesday in the first of four-game series.

responsible for the content of news
dispatches received by it from
non-member newspapers. All rights for re-
production of special dispatches are
also reserved.

Sensible Censorship
AN EXCELLENT way of avoid-
ing the evils of censorship of
moving pictures has been develop-
ing lately in various parts of the
country. It is the system by which
clubs, religious organizations,
civic societies and similar
groups appoint representatives to
examine current films and issue
lists of "approved" pictures.

This system is especially valuable
for the children. Many parents do
not have the time to find out for
themselves which pictures are prop-
er for their youngsters to see. In
the past they have relied too large-
ly on official censorship to solve
the problem for them.

But censorship is a repellent and
stupid solution. This new system
is infinitely better. By it, each group
can give its members the guidance
they want—and can do it without
restricting the right of outsiders to
see pictures of a different type.

OPINIONS OF OTHERS
San Saba Agent Retained

Temple Telegram:
SAN SABA county has proved its
good judgment with a unanimous
vote to retain the county agent
when by the commissioners court
this week.

A copy of the San Saba paper was
sent to the Telegram yesterday with
the notation: "We hope you do the
same." It was sent by an enter-
prising business man of San Saba
who appreciates the immense value
of agricultural extension work done
in his county.

We all hope Bell county can get
its agents back. San Saba and other
counties, no better off than we
are, have not taken any such drastic
action. They are realizing, and
Bell county's commissioners' court
evidently doesn't, that at all times
now is the time to maintain this
work.

Here's what the clipping from the
San Saba News said:
"The commissioners' court voted
unanimously Tuesday to retain the
work of the county agent in San
Saba county. A petition with only
50 signatures had been presented to
the court asking that the county
agent work be discontinued. The
court is considering many ways of
cutting expenses and economizing
in the county expenses. And it de-
veloped in the discussion Tuesday
that the county is not what it has
been quoted to be in the News."

The Chamber of Commerce and
the two service clubs, the Rotary
club and the Lions club, all three
had representatives before the court
asking that the work of the county
agent be retained. It was shown
that the individual cost to the tax-
payers of the county for the county
agent is a very small fraction of
one per cent too small to be felt
either way.

There is now a large number of
boys and girls in the county, there
is a wonderful terracing program
being accomplished, and the county
agent is the contact man between the
farmers and the government in all
relief work that has or may be
done in the county.

Farmers all over the county have
written letters, or been quoted in
the newspapers, as favoring the
program for the future of the work
there are now 17 boys and three
girls started on the project of baby
breed feeding. It would be a calamity
to deprive these ambitious, hard-
working boys and girls of this lead-
ership and assistance. And if there
ever was a time when the work of
the county agent is needed, that
time is right now in the midst of
this depression.

In this action at this time the
court will be supported by the great
preponderance of public opinion in
the county. It was a great day
work and one for which the mem-
bers of the court deserve commen-
dation, say the supporters of the ex-
tension service program."

To which we add: "Bravo, San
Saba County."

WASHINGTON DAYBOOK

By HERBERT PLUMMER

WASHINGTON—That serious-
minded, seldom-smiling senator
from Michigan—James Couzens—is
giving a new meaning to that
old description of the United
States senate as "club of million-
aires."

There have been many men
of wealth on the roster of the
senate, but there have been few
of the Couzens type. He makes
a million dollars a year, but he
likes a \$5 bill to most men.

His offer of a million dollars to
the city of Detroit for the unem-
ployed is an example, to say noth-
ing of his benefactions in other
fields.

It is estimated that his gifts to
charitable interests and public in-
stitutions in the past 12 years have
totalled almost \$17,000,000. His
greatest hobby is the relief of crippled
children.

There is a hospital in Michigan
which has an irrevocable trust fund
of \$10,000,000 placed there by the
senator to "promote the health,
welfare, happiness and develop-
ment of the children of Michigan
primarily and elsewhere in the
world."

DOWN TO THE ROOTS
But Senator Couzens has a defi-
nite theory about that, as he has
done everything else. He is fear-
ful of pauperizing unlucky people
through charity.

He believes that dealing with
children who come into the world
handicapped by crippled limbs is
the best method of escaping this
danger.

So he knows hospitals for them.
Scores suffering from infantile
paralysis go to Couzens' expense
to the Georgia spa, where Gov.
Franklin Roosevelt of New York
believes much of his recovery from
that disease was accomplished.

Frank in his utterances and ac-
tions, Couzens is regarded as the
bulldog of the senate. When he
gets set on an idea, he usually
stays set.

NO MELLON BOOSTER
He has carried on a feud with
Andrew Mellon, secretary of the
treasury, for a long time. His
idea for years has been that Mel-
lon is not so good in the post.

And it makes no difference to
him that other people might
praise the shy little Pennsylvanian
and call him the "greatest secre-
tary of the treasury since Alex-
ander Hamilton."

He claims to his opinion. It is
characteristic of the man that
when he was told that he could
obtain a million dollar reduction
in income tax on some stock
due to an unpublished ruling, he re-
plied: "Of course, I turned the propo-
sition down. I thought the
bureau was right."

HOW'S your HEALTH

Edited by Dr. Jago Goldstein, Associate of Medicine

VARICOSE VEINS
Gravity may be the force that
keeps man from flying off the face
of the earth into empty space, but
it is also his ever present task-
master, and his nemesis.

Should he chance to lose his bal-
ance even for the fraction of a sec-
ond, gravity will bring him down
to the dust, sometimes with disas-
trous results.

Every time man's heart beats, it
strains against gravity in order to
force blood to the head and neck
and to draw blood from the lower
parts of the body.

Gravity contributes to the dilata-
tion of veins, or in other words to
the formation of varicose veins.

Of course gravity is not the only
factor, or else everyone would have
varicose veins.

But still gravity is an important
force, for one very seldom sees
varicose veins on the arms while
on the legs they are very common.

The veins, as is well known, are
the vessels that convey the blood
back to the heart. Unlike the art-
eries they are thin and fairly soft-
walled tubes.

The veins of the extremities are
provided with valves which allow
blood to flow only in the direction
of the heart.

When for various reasons the
pressure on the blood becomes
greater than the veins can with-
stand, they give way and dilate.

This condition may result from
interference with the back flow of
the blood, arising from say, tight
garters, the abnormal pressure of
organs or tumors on some of the
larger veins inside the body, or the
suction action of the heart, and the
breathing movement may become
weakened.

When the veins become dilated
and tortuous, there is a stasis or
slowing up of the circulation of the
blood in the affected part.

In the more serious forms of this
condition, the surrounding tissues
become water logged, and there is
a tendency for the vein to become
ulcerated.

Tomorrow—Treating Varicose Veins
Coach Billy Laval of South Car-
olina allowed no outsiders to view
his football team's first practice
session.

Women's, Society and Club News

Ideal Club To Postpone Meet For Revival

Mmes. Edwards, Flewellen, And Ford Elected Officers

The Ideal Club elected officers at the meeting yesterday which concluded the year's work. Mrs. V. H. Flewellen was named as president; Mrs. M. M. Edwards, secretary, and Mrs. Steve Ford, reporter.

Mrs. Flewellen was the afternoon's hostess. Her home was decorated with roses and summer flowers. For refreshments she served a plate luncheon consisting of yellow and green open-faced sandwiches, moulded fruit salad, punch and cake.

Mrs. Edwards made club high score and Mrs. Frasier, visitor's high.

Those present were Mmes. Buck Richardson, W. W. Inkman, Fred Stephens, L. W. Croft, W. B. Clark, Steve Ford, Robert Piner, M. M. Edwards, and Edd Hatch, Bruce Frasier, Shine Phillips and M. K. House.

The club will not meet until a month later, postponing its meetings because of the Methodist and Baptist revivals.

Mrs. Croft will be the hostess on Oct. 21.

Rebekahs Entertained By Interesting Program

The members of the Rebekah Lodge gave a program at the meeting Wednesday evening, following the regular business meeting.

Marcell Martin gave a reading, Miss Dorothy Frost gave a dancing number, Mrs. Lee Weathers also read.

The members of the Rebekahs and the Odd Fellows concluded the program with a tableau depicting the lodge work.

Refreshments of pie and coffee were served to the members and guests.

Dave Christian Goes To St. Louis Track

Dave Christian, Big Spring race horse man, has moved his string from Kansas City to the Fairmount track near St. Louis.

Mrs. Allgood's Weekly Letter

Last Minute Details About the Howard County Fair

Dear Women and Girls:

The subject being discussed at present by club women and girls, whenever I see them, is the fair I shall tell you more about plans in this letter if I get time to write it before the paper is published this week.

This is a rushing time; while one woman is in getting help on a dress for the fair, another is calling on the telephone, and as I leave the office I meet another one needing help or encouragement. It is gratifying to see the interest you club women and girls are showing in the work you have had presented within the last year.

There will be greater competition in this fair than the one we had in 1929. Mmes. Geo. Overton, Duke Lipscomb, Earl Phillips, Walter Anderson, Frank Berends, and McKee have come to me for help with children's dresses. There are as many women working on dresses for themselves.

Artella Minton, from the Lomax Girls' club told me Monday that she was planning to bring an entry in every class offered the girls and some in the women's list. She is trying to win the trip to the Dallas Fair. This trip will be awarded to the girl doing the most creditable work during the year; and that will be determined by the fair exhibits entered by the girls. The record books and histories will show what other work the girl has done and could not bring along.

Lucille and Annie Butler, Mildred Patterson, Essie Robinson and Nellie Mae Robinson have been lately for help on their exhibits. All club girls have a chance to win this trip. If you have not planned your fair entries, come to see me about it.

The fair will be held in the Stuebaker Building at Fourth and Gregg. The building will be open and the booths ready to be filled the afternoon of the thirtieth. They must be ready for judging by noon, Oct. 1st, so it might be well to decorate them and put all non-perishable products in the booth on Wednesday.

Do not forget the meat show. Bring in a sample of all the cured meat you have on hand. This should include ham, bacon and other sugar cured products, corned

Bristows Honor Bonhams With Informal Party

Mr. and Mrs. Oble Bristow entertained with a delightfully informal bridge party, Tuesday evening, in their suite in the Settles Hotel in honor of Mr. and Mrs. W. E. Bonham, formerly of Big Spring but now of Dallas.

A color scheme of orchid added much to the attractiveness of the rooms. High score for the evening went to Mr. Collins, with second high to Mrs. Marchbanks. Practical prizes were awarded the winners. After the play a delicious lunch of finger sandwiches, sliced chicken and no-name salad and coffee was served.

Those enjoying the party were Mr. and Mrs. A. R. Collins, Mr. and Mrs. F. H. Liberty, Mr. and Mrs. Glen D. Guilkey, Mr. and Mrs. Lindsey Marchbanks, and Mr. and Mrs. W. E. Bonham of Dallas.

Justamere Bridge Club Meets With Mrs. J. B. Young

Mrs. J. B. Young was hostess to the Justamere Bridge Club at an attractive party at her home on Main street Wednesday.

The rooms were attractively decorated with flowers from one of the guests' gardens. Mrs. Van Gieon assisted the hostess in serving unusually delicious refreshments.

Mrs. Strain made high score for members and Mrs. Martin for guests.

Those enjoying this lovely party were Mmes. Dee Hilliard, R. C. Strain, John Clarke, M. H. Bennett, J. Y. Robb, E. O. Ellington, Victor Martin, Mae Battle, O. L. Thomas, Tom Ashley, Albert Fisher and E. J. Mary.

Mrs. Bennett will be the next hostess.

Local Merchants Cooperate in Free Cooking School

Among the various agencies co-operating to make a success of the free cooking school which the Herald is sponsoring during the week of Sept. 29 are the merchants and business houses of the city.

While the Herald is personally bringing Myra Oliver Dougan, noted home economist, here for the lecture course, the ultimate success which she hopes to attain during her school would be impossible without a liberal amount of cooperation from business houses. The details connected with the staging of the school are numerous.

First of all, for the rapid method of demonstration which Mrs. Dougan must follow in her limited amount of time each afternoon, she must have at her disposal all the conveniences of a modern and model kitchen. Such will be provided for her on the stage, largely through the courtesy of local merchants.

Furniture placed on the stage will come from local business concerns, as well as dishes and cooking utensils. And the materials which she will use in preparing recipes, meats, flours, bread, vegetables, fruit—all will be representative of local grocers and merchants participating in the school.

Chief in point of interest is the long list of valuable prizes which merchants will donate to be given away daily. Many will come to the school empty handed and go away with an attractive or useful article for the household when the daily awards are made.

Following is a partial list of merchants participating in the school: Handy Andy, Home Bakery, Texas Electric Service Co., Big Spring Laundry, Dairyland Products and Harris'.

Fifth Birthday Is Celebrated With Party For Friends

Hayes Franklin Stripling, Jr., celebrated his fifth birthday Tuesday by entertaining a number of his little friends and playmates at his home.

Games and contests were enjoyed and favors of balloons, toy airplanes, cars and dolls were distributed.

At the refreshment hour the white birthday cake, topped with five pink candles, was cut and served with ice cream cones and candy.

The following guests came and

brought gifts and birthday greetings to the host:

Marilynn Keaton, Shirley June Robbins, Josephine Timmons, Mae Belle Johnson, Ann Ruth Howard, Doris Ann Donald, Marjorie Potter, Sarah Jane Strange, Betty Bob Ditt, Emma Ruth Stripling, Mary Evelyn and Herbie Johnson, Jimmie Lee Mason, Laird Remel, Thomas Lee Watson, Clifton Lee Cook, Wilkins and Raymond Winn, Jr., Richard Potter, James Howard Lester, Linwood, Alfred Gene, Richard and Mary Ann Goodson.

Mr. and Mrs. M. H. Jones returned to their home in Fabens, Wednesday, after a short visit with friends in town.

J. W. Hull, S. B. Hughes, Joe Earnest, E. W. Earnest, Kenneth Fallon went to Abilene Wednesday.

FOOD SALE SATURDAY

The W.M.U. of the West Side Baptist Church will hold a food sale and bazaar all day Saturday at Linck's No. 2, on the corner of Gregg and West Third street. The sale will include home-made linens and home-baked cakes and pies.

Accept Cut In Wages

DALLAS, Sept. 24 (UP).—A voluntary wage reduction of \$2 a day was accepted today by the Carpenters' Union, the largest unit in the local building trades and about 1,300 are affected.

The new wage scale of \$8 a day will become effective Oct. 1. It is in line with wage scale reductions at

Big Spring Hi Vs. Brownfield Eleven Friday

Steer Mentors Put Players Through Stiff Practice Sessions

The Steers will have as their week-end guest the powerful Brownfield club which last year administered defeat in large doses to the Lamson Golden Tornado and continued unmolested on its way to cop the regional flag. So any and all fans looking for a setup are liable to come to with a bang when they see a real tub take the field against the Bovines.

The Steer mentors put their charges through stiff workouts this week in preparation for the coming conflict. Especial emphasis was placed on blocking and pass offense.

"The boys have shown a world of improvement. We are taking no chances of an upset, but will send our full strength on the gridiron Friday," Coach Bristow said last night.

Hildreth and Orr have about recovered from their injuries and will be seen in the game Friday. This will give the forward wall a lot of strength missing in the recent game with Roscoe Schwarzenbach was on the sick list yesterday and the opening whistle may find him watching the game from the bench. It was not announced who would call the plays in case he is not able to get in the game.

If the going gets tough we can always depend on the hefty boots of Dennis to set the opposition back down the field. A kicking game will soon wear down even the most ambitious club. While that type of play may not be what the fans are wanting, it is smart football and personally we were glad to see the Steers punt on the first down last week. When Dennis gets a little more accurate with his punts the Steer opponents are going to find themselves running back for a fifty or sixty yard punt only to see it go out of bounds, and then the burden of offense will be theirs, and what a burden that is going to prove to be when the forward wall of the Steers really swings into action.

The Sweetwater Mustangs will try a comeback after their defeat last week, at the expense of the Snyder eleven. It is this writer's opinion that the Class B gridlers are in for a tough afternoon for the Mustangs are just bound to vent their wrath on someone. Midland plays host to the Austin High team from El Paso in a game which should cause the Doggies to dig down into their bag of tricks to cop their second encounter of the year.

Angelo will entertain the Ballinger warriors Saturday afternoon in a contest which should prove interesting to the Taylormen. Colorado will be the victims of the behemoth like charges of Mayhew in a night game in Abilene. When we say victims we mean just that.

All in all a fair idea of the strength of the district 4 elevens should be had from the tussles this week.

While gathering edelweiss in the Alps three men recently had fatal falls, according to reports from Amsteg, Kiental and Thun, Switzerland.

reduction in the department's budget.

PHOENIX, Ariz., Sept. 24 (UP).—All major copper companies operating in Arizona have informed employees that wages will be reduced by 8.1 per cent, effective Oct. 1. Thousands of men are affected. Under the new scale miners will receive \$4.50 and muckers \$4 per day.

FORT WORTH, Sept. 24 (UP).—Fort Worth policemen and firemen faced cuts of 15 per cent in their salaries today, following the action of the city council yesterday in voting in executive session to limit the decrease to 25 per cent instead of a proposed 30 per cent cut.

At the same time the council voted to exempt the park and recreation department to carry its own interest and sinking fund requirements for the fiscal year beginning Oct. 1. This will necessitate a re-

Sanitary Barbers Are Defeated By Crawford Cleaners

The Sanitary Barbers won a heart breaker from the Crawford Cleaners last night by one pin.

After losing the first two games the Cleaners came back to take the third with a nice margin, but to fall just one short of the total piled up by the Tonsorial Artists.

Hall of the Cleaners won high stogie and also high total for the night's play.

This And That By Mark

This writer is looking for an interesting exhibition of the art of bluffing the old hide, tomorrow p.m. when the Steers engage the Brownfield eleven.

Capt. Flowers pulled some neat blocking yesterday. We are glad to see Bill getting in there and doing something in addition to totting the oval now and then. He is a good man when he is right—and we are going to need eleven good men and true before the district flag comes to rest over the Steer pen this year.

We are going to make arrangements to have Coach Brown's sweat shirt washed. Don't misunderstand us and get the idea that it is dirty or anything like that.

We are going to migrate; in the general direction of the gun club Sunday and see if the advance dope of the visiting gun artists is true. In case the men are as good as some would have us believe the invitation shoot should be interesting.

Speaking of passers—this Neel boy who heaves "em for the grade school boys is just about as nice as we have seen. He can make most high school artists that we have seen ashamed of themselves. Then too he can really stick a boot in the old hide. For a boy his age and size we say he is GOOD.

We are going out this p. m. and see the football heroes of Ben Daub take the Steer reserves for a working over. Ben has some neat plays among the youngsters and a big afternoon is in store for any and all who care to trek out to Steer stadium about 4:30 this aft.

Whether the United States would be willing to go that far at Geneva—even if the Japanese concurred—is considered doubtful by observers here.

There is a strong element in the navy department which believes that a battle fleet must be maintained for the present. But regarding replacement of existing capital ships when that becomes permissible in 1936, one official said: "I seriously doubt that we ever build another one."

Control of air transportation in the Union of South Africa may be transferred from the postal department to the Ministry of Railways.

Reduction To Below Treaty Provisions For Armament Seen

WASHINGTON, Sept. 24 (UP).—The administration was represented by one of its informed spokesmen as willing to carry naval disarmament to levels even lower than those established by the Washington and London treaties.

Any steps toward further disarmament, this official pointed out, will depend on the attitudes and proposals of the other powers at the Geneva conference next February. It is significant, however, that the administration is giving considerable thought to the costliness of battleships.

Undersecretary of State William R. Castle has compiled figures to show that the "long term" cost of a single battleship is a quarter of a billion dollars. He secured this estimate by totaling the ship's \$40,000,000 original cost, its maintenance for 20 years, and five per cent compound interest on the capital invested in it.

Great Britain has informally suggested to certain American officials that battleships be abolished.

MARTHA'S VINEYARD HAS 2ND ROBBERY IN 200 YEARS

OAK BLUFFS, Mass. (INS)—Even Martha's Vineyard, a quiet little island off the shores of Cape Cod, is not immune from the crime wave which has been sweeping the country. But it took 300 years for the island to record its second safe robbery.

The robbers succeeded in breaking the safe of a hotel and escaped in a small packet leaving the island with \$2,000 of which \$500 was in cash and the remainder in checks and money orders. The break was discovered several days later, but not until the robbers had returned, through the mails from Providence, the checks and money orders which they said were "no use to them."

BRECKENRIDGE, Sept. 24. (SP)—Albany will be host at the spring session of the Abilene presbytery, it was decided at the concluding session of the fall meeting here recently.

The Rev. Herbert G. Markley, of Breckenridge is the new moderator, succeeding the Rev. L. E. Gray of Strawn.

TO DANCE AT SETTLES

Miss Dorothy Frost, accomplished young Big Spring dancer, will do special numbers Friday evening at the Settles hotel ballroom, during the first of a series of weekly dances. This week's frolic will mark the first appearance of the Settles hotel orchestra de luxe.

Personally Speaking

Malcolm Patterson left Wednesday for Texas Tech where he is a senior.

Miss Maurine Leatherwood has returned from Lamesa where she has been visiting her aunt Mrs. W. E. Anderson.

The Bykota Class of the First Baptist Church is having a party at Mrs. R. L. Gommilion's.

Mr. and Mrs. H. E. Vaughn have moved back to Big Spring from Pecos.

Miss Maxine Cowan, of Stephenville, is visiting Dr. and Mrs. C. D. Baxley.

Mrs. R. L. Cannon, of San Antonio, is the guest of Mrs. E. V. Spence.

N. Y. SCHOOL TO OPEN NEW YORK (INS)—With the infantile paralysis epidemic receding after prevailing here for the past two months, health authorities have announced that city schools will open at the scheduled time. When the epidemic was at its height, it was proposed to postpone the opening because it was feared that crowded rooms might cause an increase in the number of cases. However, authorities made it plain that the matter of sending children to school during the two weeks of the term would be entirely up to parents.

ATT 100, HE CHOPS WOOD IRON MOUNTAIN, Mich. (INS)—Thomas Babcock, of Granite Bluff, near here, this month will celebrate his 100th birthday by splitting his winter's supply of wood. Despite his advanced age, Babcock is surprisingly active spending much of his time tending his large garden and the rug weaving business he has built up. His wife, several years his junior, aids him in his work.

17 RATTLES AND A BUTTON YREKA, Calif., Sept. 24. (INS)—A rattlesnake with 17 rattles and a button, believed to be the largest found in California in many years, was killed in Coyote Gulch near here by Carl Vogue, Hobert Hunter came within one rattle of quelling Vogue's record a few days later. The snake killed by Hunter was three feet nine inches long, and was nine inches in circumference.

DOG POUND ROUSES IRE BUFFALO (INS)—Complaining that the nocturnal barking of dogs in the city's pound was depriving them of sleep, 50 citizens have presented to the Common Council a petition urging it to "remove, cure or abate" the evil. A previous effort by the city councilman from the Niagra district, in which the pound is located, to have it removed to the "silk stockinged" Delaware district failed in the council chambers because the Delaware district representative gave a more convincing oration on the subject of dog pounds than the former.

Totem Poles And Zebra Stripes Invade Us

By MARGERY TAYLOR Interior Decoration Editor, McCall's Magazine, Written For The Herald

American decoration is now "going native."

Not that we are to suffer from a new rash of birch-bark souvenirs and chief's heads burned on leather. The new vogue has its inspiration in the colorful Indian art of rugs, baskets, pottery and totem poles, and the decorators are adapting it to the home of 1931 Americans.

For a recreation room, a boy's room in the winter home, or the living room of a summer camp, the Indian decorations are particularly happy.

A basement or other large room with a big stone fireplace makes an ideal setting for an Indian room. The walls might be painted green-gray while the beams, supports and ceiling might be decorated in bright Indian motifs in orange, yellow, blue and green.

Very effective in another arrangement would be gaily carved and painted totem poles set around the walls about six feet apart, and running up to the ceiling. Between them the plaster would be white and grooved in simple Indian marks as if with a stick. Indian rugs, leather and calf upholstery would be most appropriate.

A small room, such as a boy's room, might be made up altogether of Indian things. The walls would be dark blue, the furniture of pine, except for a red leather chair. Draperies would be black and white, in striking zebra stripes.

WEST PALM BEACH, Fla. (INS)—C. H. Ruggles' investment in Florida real estate didn't turn out as well as expected—so now he wants his money back. Ruggles bought the bottom of the Miami Canal, or at least part of it, from the state and paid land taxes for seven years.

Now he has found he hasn't any use for it, he told the Everglades Drainage Board. W. I. Evans, attorney for the board, advised against return of the money and suggested that Ruggles seek redress from the internal improvement fund which sold him the property in 1921.

Ruggles said he thought the drainage district might find the land useful and the board took his request under advisement.

ENGINEER SAVES LIFE ST. ALBANS, Vt. (INS)—Sleeping across railway tracks was the weakness of a man who gave his name as Joseph Goodnature. His last attempt to find solace in slumber would have proved fatal but for the quick action of Engineer J. A. Mackay in stopping his train. Mackay's action in saving the man's life brought about the commendation of Manager Edmund Deschenes.

OVER 12,000 AT BOSTON U. BOSTON (INS)—Boston University has thrown open its doors to more than twelve to fourteen thousand students for the sixty-third anniversary. Renovated and redecorated classrooms and buildings were a surprise greeting to the thousands of students.

17 RATTLES AND A BUTTON YREKA, Calif., Sept. 24. (INS)—A rattlesnake with 17 rattles and a button, believed to be the largest found in California in many years, was killed in Coyote Gulch near here by Carl Vogue, Hobert Hunter came within one rattle of quelling Vogue's record a few days later. The snake killed by Hunter was three feet nine inches long, and was nine inches in circumference.

DOG POUND ROUSES IRE BUFFALO (INS)—Complaining that the nocturnal barking of dogs in the city's pound was depriving them of sleep, 50 citizens have presented to the Common Council a petition urging it to "remove, cure or abate" the evil. A previous effort by the city councilman from the Niagra district, in which the pound is located, to have it removed to the "silk stockinged" Delaware district failed in the council chambers because the Delaware district representative gave a more convincing oration on the subject of dog pounds than the former.

"Tom Sawyers" Come In All Wool Jerseys—Shirts With Ties—Some 4-Piece Suits—

And Every Boy Too Will Delight in Wearing

Tom Sawyer SHIRTS, BLOUSES, SUITS and BUTTON-ON WAISTS

They're Made to Give Extra-Long Service

Indian Basket And Mexican Chair Fraternize Comfortably

Mexican things go logically and decoratively with Indian art. Mexican furniture is made, something like wicker, from strips of cedar or willow wands in natural color, interlaced into cylindrical supports for chair or table; the top is tightly stretched pigskin. The black Gundalajara pottery is at home in such a room.

Public (CONTINUED FROM PAGE 1)

tional set-up. Our directors are key men in each town. Our district directors are influential men in their districts, and are working most diligently for the organization.

"Our staff is reduced to a minimum, spending practically all of its time in performing the work of the organization. There are no paid membership solicitors. Every dollar raised goes to the doing of the work."

"We have a general headquarters office in Stamford, a branch office in Fort Worth, a branch office in Plainview and a branch office in San Angelo. We maintain an information bureau, a traffic bureau, an industrial opportunities bureau and a legislative bureau."

"I am convinced that we are operating in the right way. Our regional chambers are patterned after our organization. We are organized, however, in such a way that we must depend upon voluntary efforts for the doing of a large portion of our work. We provide only sufficient staff to coordinate and direct the voluntary efforts. In any organization of this sort, I am firmly of the belief that if it is not worth some voluntary effort, it is not worth being maintained at all. Of course, we never yet have obtained a hundred per cent perfection in our organization, and when we do get our 101 affiliated towns all driving in the same direction on any subject, we shall be in Texas a mighty force."

Mr. Bandeen's general topic was "Ways the directors can help the West Texas Chamber of Commerce."

He said, in part: "Our object is to give maximum of service to affiliated towns on their problems that are somewhat regional in nature. When you get 101 towns interested in a thing the force of their combined efforts is liable to get results."

"Each town has been asked to appoint a public expenditures and

tax committee. No town by itself can get much results toward reducing public expenditures except in its local government. It is our mission to create a force that will have real effect upon the state and national governments.

"It has been said aptly that public expenditures form the fastest growing industry in the United States. We spend for all purposes thirteen billions a year from public funds. This year it is estimated the total income of the people of the nation will be but sixty billions. More than \$1 of each \$7 earned goes to support of the government in some manner. In 1913 cost of government totaled three and one-half billions, and but \$1 of each \$25 earned went to help support the government."

"Graft is not the principal cause of this. After all our officials represent pretty fairly their constituents. The men who pay most of the taxes must become organized to study the problem."

"The candidate who runs for any office from mayor to congress who proposes lower taxes is elected. But the tax program goes on."

"We must quit fighting taxes and fight public expenditures. We are asking all towns to name local committees to join in this work."

Mr. Hopkins explained the various special services offered by the Chamber, including the monthly magazine, "West Texas Today," and various forms of publicity.

SHOULD MOTHER READ NOBLEVILLE, Ind. (INS)—Ralph Roudsbush, a farmer living near here, has addressed this letter to the library board. "I think that a wife who has sixteen children to care for hasn't the time to read any books and I would be pleased if you would not loan any books to any members of my family during the coming school year. The board took no action and it is presumed that Mrs. Roudsbush will not be turned down in the event she asks for the loan of a book.

Air freight of Netherlands News is reported to be keeping up to the record figures of last year.

Miss Etta Jeannette Barnett and Milburn Barnett left this afternoon to spend the week-end in El Paso.

FORCES TO STAGE A DEFENSE OF HAWAII

HONOLULU (INS)—All regular army and navy forces stationed in Hawaii will prepare for the grand maneuvers of next February by going through their paces in a two-week defensive drill between October 3 and 17, headquarters of the Hawaiian Department has announced.

The defense of Hawaii and particularly Oahu, on which island the capital, Honolulu, and the Pearl Harbor naval base are located, will be tested using all infantry, tank, artillery, air and auxiliary forces on hand. Naval units available will be used to engage an imaginary enemy fleet consisting of battleships, cruisers and destroyers simulating battleships and cruisers for this purpose.

The grand maneuvers to be held February 6 to 13 will include the United States battle-fleet and Hawaiian National Guard and the operations will be on a great scale.

BORN A RIVER CAPTAIN

PITTSBURGH (INS)—Although a comparative youngster, Al Hendrickson, 27, the youngest captain navigating the Ohio river, considers himself one of the real "old-timers." His father and grandfather steamed for nearly 60 years on the Ohio waters and clear down to New Orleans. Their traditions are Al's traditions, as he was born and bred "on the river." According to Hendrickson, his grandfather T. W. Hawley, was one of the most famous packet captains in the days when the old sidewheelers were the talk of the Mississippi.
