

Johnson Forces Race For Place On Ballot

FT. WORTH, Sept. 23. (AP)—Attorneys for Lyndon B. Johnson today to free the name of the U. S. Senate candidate from legal bondage in time to get it on the general election ballot. They rushed to appeal a trouncing in Fort Worth's federal district court even as the same court selected federal investigators to check South Texas voting practices. Federal Judge T. Whitfield Davidson yesterday granted rival Senate Candidate Coke R. Stevenson a continued order keeping Johnson's name off the November ballot. At the same time he ar-

Polish Leftist Party Pushes House Cleaning

Making Way For Soviet Absorption

WARSAW, Sept. 23. (AP)—The Polish Leftist Socialist Party continued to clean house today to make way for Communist absorption by purging more than a score of its top men.

All those suspected of rightist or nationalist leanings or those who opposed outright surrender to Communist demands were drummed out by the party's chief council. Minister of Justice Henryk Swiatkowski, bitter foe of nationalism, was handed the job of putting the finishing touches on Leftist Socialist plans to unite with the Communists.

Swiatkowski succeeds Kazimierz Rusinek, minister of labor as president of the party's executive committee. A council statement said Rusinek and Stanislaw Szalbe, president of the chief council, had resigned.

The statement added that former Premier Edward Osobka-Morawski had been ousted from the central executive committee.

The council ordered the purge after five days of secret debate. It listed more than a dozen other "resignations" by party leaders known to be strongly opposed to surrender of all socialist principles in the merger with the Communists.

The council filled the vacancies with trusted internationalists and strong advocates of fusion with the Communists.

More Cotton Ginned This Year Than Last

WASHINGTON, Sept. 23. (AP)—The Census Bureau reported today that 2,800,888 running bales of cotton from this year's crop were ginned prior to Sept. 15.

This number compares with 1,745,987 ginned to the same date last year and 1,255,327 two years ago.

Ginnings by states this year and last, respectively, included: Arkansas 129,619 and 135,512; Louisiana 331,019 and 192,445; New Mexico 9,045 and 2,038; Oklahoma 10,038 and 5,305; Texas 1,111,264 and 783,595.

Britain Plans New Steps For Reserve

LONDON, Sept. 23. (AP)—British plans to organize her ex-servicemen into a vast reserve pool subject to immediate call to the armed forces in an emergency.

Details of the project, newest in Britain's sudden scramble for rearmament, are expected to be outlined before the House of Commons by Defense Minister A. V. Alexander.

Reds Warned U. S. Patient, Not Weak

OIL EXECUTIVES DETAINED IN HUNGARY — Paul Rusdemann (left) of Hartsdale, N. Y., chairman of the Hungarian-American Oil Industry Company, LTD., and his deputy, George Bannantine (right) of St. Louis, are being held by political police, Hungary's Interior Ministry said in Budapest. The company is a Standard Oil Co. of New Jersey affiliate. (AP Wirephoto).

Anti-Red Affidavit Is Upheld By Court

CHICAGO, Sept. 23. (AP)—The Federal Circuit Court of Appeals in a two to one decision today held constitutional the portion of the National Labor Relations act requiring union officials to sign non-Communist affidavits.

Judges Otto Gerner and Sherman Minton upheld the constitutionality of that section of the act. Judge J. Earl Major, in a separate opinion said he believed the section was unconstitutional.

The court's opinion was on petitions of the Inland Steel Co. and the CIO United Steelworkers Union asking that a national labor relations board order be set aside.

The court unanimously upheld the NLRB in ordering inland steel to bargain with the CIO union concerning retirement pension plans.

The board had conditioned this order on the filing of non-Communist affidavits, which the union officials declined to do.

The opinion, if upheld, brings the whole subject of pension or retirement plans within the scope of compulsory bargaining.

The company appealed that part of the NLRB order making pension plans a subject of bargaining, while the union appealed that phase of the order requiring non-Communist affidavits as a condition.

Marshall Outlines Policies To U. N.

PARIS, Sept. 23. (AP)—Secretary of State Marshall said today in a thinly veiled warning to the Soviet Union that American patience should not be mistaken for weakness.

Marshall outlined the United States' basic foreign policy in a speech to the fall session of the United Nations general assembly.

He referred to the Russians and their six Eastern European satellites as the "small minority" which consistently boycotts the Balkan and Korean UN Commissions and the "Little Assembly."

"It would be a tragic error," the American declared, "if, because of misunderstanding, the patience of others should be mistaken for weakness."

Marshall served notice the United States will not "compromise the essential principles" or "barter away the rights and freedom of other peoples."

In an apparent reference to the Berlin crisis, Marshall said the United States "is prepared to seek in every possible way, in any appropriate forum, a constructive and peaceful settlement of the political controversies which contribute to the present tension and uncertainty."

The first reply to the American secretary from the Soviet bloc came from Poland's foreign minister, Zygmunt Modzelewski, who savagely attacked the European Reconstruction Program and Western efforts to unite their zones of occupation in Germany.

Gen. Carlos P. Romulo of the Philippines led off the general debate in the Assembly with a call to the small nations of the world to unite in a "third force" that could maintain a balance of power between East and West.

Romulo said "the conscience of the world deserves a stronger voice than has spoken for it during the past three years. Let the small nations, speaking in unison, be that voice."

Marshall said "the United States does not wish to increase the existing tension."

"It is its wholehearted desire to alleviate that tension. But we will not compromise the essential principles. We will under no circumstances barter away the rights and freedom of other peoples."

Marshall said it was appropriate "that we should here reaffirm our respect for human rights and fundamental freedoms."

"Delegates of the United Nations' 58 member countries should renew our determination to develop and protect those rights and freedoms," Marshall said.

"The people of the world, he added, "must not be misled by those who in the name of revolutionary slogans would prevent reconstruction and recovery or hold out the illusions of future well-being at a price of starvation and disorder today."

"Despite the co-operative action of most nations to rebuild peace and well-being," Marshall continued, "tension during the past year has increased. The leaders of other nations are creating a deep rift between their countries and the rest of the world community. We must not allow that rift to widen any further and we must redouble our efforts to find a common ground."

"We are confronted with the need to save not only succeeding generations, but our own," Marshall said.

Berlin Quarrel Route Hinges On West Note

PARIS, Sept. 23. (AP)—A British United Nations delegate declared today the Berlin quarrel will be given to the UN assembly if Russia rejects a "final three-power note" for prompt settlement.

This statement was made by Sir Hartley Shawcross, Britain's attorney-general.

The foreign ministers of Britain, France and the United States sent notes to Russia last night, asking a yes or no answer to this question: Is a Berlin settlement possible along lines already broadly drawn at recent conferences in Moscow and Berlin?

Shawcross, in response to a reporter's question today, asserted: "It is the understanding among the three powers that the whole question of Berlin will be tossed into the assembly agenda if the latest and final three-power note does not produce Russian agreement."

This was the first confirmation from an official source that the three Western powers intend to turn the Berlin problem over to the UN if Russia does not end her blockade of the German city and discuss four-power control of the Soviet mark in Berlin.

Topmost in the minds of the Western diplomats and the UN delegates were British Foreign Secretary Ernest Bevin's ominous words to the British House of Commons yesterday during the course of a statement on Berlin.

"I am not saying that we are committed to war," Bevin told the House. "We have not reached that stage yet."

Bevin's two negatives were interpreted by the world's leading statesmen here as having a pessimistic ring.

Love Of Pets Not Unanimous

CHICAGO, Sept. 23. (AP)—Municipal Court Judge Joseph B. Hermes has ordered a couple to vacate their hotel apartment in 10 days after they admitted keeping 28 pets and two tanks of fish in their home.

Sidney J. Stahl, manager of the Strathmore Apartment Hotel on Hyde Park Boulevard, told Judge Hermes other tenants had complained they could not tolerate the odors from the apartment of Mr. and Mrs. Frank L. Catalano. He said the Catalanos "do not have an apartment but a veterinary hospital."

Mrs. Catalano, 43, whose husband is a private detective, admitted to possession of two dogs, three cats, a 2-foot long alligator, two pigeons, three parrots, seven canaries, two parakeets, five cockatiels, a hamster, a tank full of goldfish and a tank of minnows.

THREAT TO STORAGE

Grain Technicality Is Near Solution

Indications Thursday were that a technicality, threatening farm storage of grains under the Commodity Credit Corporation loan, would be resolved.

The Herald had it on reliable authority that the CCC is ready to accept a recommendation that the loan deadline be extended from Dec. 31, 1948 to Feb. 28, 1949.

Under the first deadline, farm storage of grains under loan would have been impractical if not impossible. In order to qualify, the regulations held that grain to be stored must have been in storage at least 30 days before the AAA could inspect the grain and sample it for CCC loan purposes.

Even with a normal killing forest, it would have been difficult for most producers to have their grain gathered, sacked and stored for 30 days in advance of the Dec. 31 deadline. In a late frost, time would have been too short.

Farmers have two other options with their grain. They may place it with approved warehouses and elevators (available here) if they do not care to be bothered with it, or they may list grain under a purchase agreement with the CCC for delivery next spring.

Truman Says GOP To Hit Little Fellow

ABOARD TRUMAN CAMPAIGN TRAIN, Sept. 23. (AP)—President Truman campaigned for votes today among early-rising Californians with the assertion the Republicans propose only "crumbs for the little fellow."

He told a trainside crowd at Merced—in the heart of the rich San Joaquin Valley farming area—that "if the Republicans ever did anything for the farmers, it was an accident" and not "on purpose."

It was only 6:45 a.m. Pacific daylight time, when the President appeared on the platform. He told the crowd Mrs. Truman and Margaret still were not up.

However, he had made his first appearance at Modesto at 5:30 a.m. to exchange "good mornings" with a crowd there.

He apologized for not being up when the train stopped at Tracy at 5 a.m.

"I didn't get up quite as early as usual," he explained. "I have to get a little sleep. I can't go all day and all night, too."

The President tossed into the increasingly bitter political campaign today a suggestion for a "solid front" on foreign policy while he threw new punches at the Republicans on domestic issues.

For his own part, the chief executive regarded it as "foolish" to overlook problems posed by "antics of the Soviet Union," but he said he did not regard them as "insuperable obstacles to peace."

In solemn tones he told a police-estimated crowd of 25,000 persons at San Francisco's city hall that programs toward peace had been "much faster" than it would have been without the United Nations. He said the United Nations one day will bring that peace to the whole world.

Mr. Truman picked San Francisco, where he came in 1945 to witness the signing of the United Nations charter, to voice his faith in the eventual success of the United Nation, and his wish to keep foreign policy out of the political campaign.

Laney Wants Poll Tax Ended

LITTLE ROCK, Ark. Sept. 23. (AP)—Gov. Ben Laney wants Arkansas to abolish the poll tax.

In its place, Laney said yesterday, an effective system of registration should be set up. Such a system, with "an effective set of regulations," he added, would be a means of enforcing Democratic rules in Arkansas, which have been "junked and ignored."

Reminded that abolition of the poll tax was a plank in President Truman's civil rights proposals, Laney said:

"I have no objection to abolition of the poll tax on a state level, but I don't want Harry Truman or the federal government telling us what election laws we must pass."

name, had petitioned that he himself be named the Democratic nominee. The former Texas governor, in his court pleadings, alleged voting frauds in Jim Wells and Zapata Counties.

The State Democratic Convention last week certified Johnson had won the democratic nomination from Stevenson by 87 votes.

During the two-day injunction hearing which ended last night, Johnson's attorneys threw jeers, sneers and thousands of hot words at these allegations—but unsuccessfully.

"An effort to build up a smoke-screen based on fictitious claims of fraud," cried John Cofer of Austin.

And Dudley Tarlton of Corpus Christi shouted: "The case of the plaintiffs is built on surmise and suspicion and insecure testimony. They ask that the will of the people of Texas be thwarted by an injunctive process from a federal court."

Dewey Fires Barbed Shafts At Truman Deals With Reds

EN ROUTE WITH DEWEY TO PHOENIX, Sept. 23. (AP)—Swinging off the senatorial circuit today, Gov. Thomas E. Dewey fired new barbed criticisms at the Truman administration's dealings with Russia.

As his special train rolled westward toward a fourth formal campaign speech at Phoenix tonight, the Republican presidential nominee appeared ready to try some variations of the theme that Yalta, Potsdam and other decision gave the Soviets too big a chunk of the world.

He got what his aides regarded as good crowd reaction when he asserted at Santa Fe, N. M., that the GOP's major task "is to get an administration which doesn't play 'footie' with the Communists and the next day say: 'We don't like you.'"

Dewey also has been contending that the Republican Congress provided 50 per cent more funds for reclamation projects in the last two years than the Democratic Congress did in the preceding two.

That theme was expected to be a major one when Dewey discusses the problems of the Southwest at Phoenix.

Dewey, who was within 35 miles of the Los Alamos atomic energy setup in his Santa Fe visit yesterday, also may talk about atomic energy, said James C. Hagerty, his executive assistant.

Dewey left the circuit of states which have senatorial contests today when he turned westward into Arizona. He scheduled brief train platform talks at Winslow, Flagstaff, Williams, Ash Fork and Prescott before his Phoenix appearance.

He rides into California for a major talk at Los Angeles tomorrow night. California has no Senate race. Neither does Oregon or Washington, next on his schedule.

10 Representatives Named To Attend Martin's Funeral

AUSTIN, Sept. 23. (AP)—Speaker W. O. Reed today appointed 10 members of the House of Representatives to attend the funeral of Rep. Tom Martin in Fredericksburg. They are: Claude Gilmer, Rock Springs; Reuben Senterfit, San Saba; Preston E. Smith, Lubbock; Wayne W. Waggoner, Frutland; J. Blake Timmons, Amarillo; Joe Kilgore, McAllen; Durwood Mansford, Smiley; Jim Sparks, Sherman; H. A. Heidecke, Seguin; and James C. Spencer, Athens.

New Berlin Assault

BERLIN, Sept. 23. (AP)—Communists launched a new assault on Berlin's elected city government today. The official Communist press demanded the removal of Acting Mayor Ferdinand Friedensburg.

Warren Takes His Foreign Policy Plan Into 12th State

EN ROUTE WITH WARREN TO CINCINNATI, O., Sept. 23. (AP)—Gov. Earl Warren today carried his plea for a "true bi-partisan foreign policy" to Ohio, the 12th state he has visited since he started his campaign in California a week ago.

The Republican vice presidential candidate last night told a crowd estimated by police at 3,000 at Memorial Auditorium in Louisville, Ky., that the bi-partisan foreign policy is a two-way street and flayed what he called senatorial magazine exposes and best sellers on secret foreign policy deals by "extremists."

Warren said he had visited since he started his campaign in California a week ago. The Republican vice presidential candidate last night told a crowd estimated by police at 3,000 at Memorial Auditorium in Louisville, Ky., that the bi-partisan foreign policy is a two-way street and flayed what he called senatorial magazine exposes and best sellers on secret foreign policy deals by "extremists."

Barkley Pleads For Heavy Vote

NEW YORK, Sept. 23. (AP)—Sen. Alben W. Barkley carried into New York City today his plea that a heavy vote in November means a Democratic victory and retention of Democratic gains.

That was the theme of the Democratic vice-presidential nominee's first New England speech—at Bridgeport, Conn., last night—and he planned to hit it again at a meeting here tonight of the liberal party.

Warehouse Fire Death Toll At 135

HONG KONG, Sept. 23. (AP)—The known dead in yesterday's Wing On Co. warehouse fire reached 135 today as rescuers dug out 115 bodies from the still smoldering ruins.

Forty-seven were injured, 14 critically. It was the most tragic fire in Hong Kong's history. Damage was estimated unofficially at \$4 million.

Wallace Begins Last Major Campaign Trip

NEW YORK, Sept. 23. (AP)—Henry A. Wallace, Progressive Party presidential nominee, left here by chartered plane today on his final major campaign swing. The trip will take him 8,500 miles through 12 states.

NEWS CONFERENCE CASUALTY — Gov. Thomas E. Dewey gazes ruefully at a hat which he unknowingly sat on — to the amusement of the newsmen — during a conference with reporters aboard his train as he rolled through Colorado on his western campaign swing. (AP Wirephoto).

What Went on Behind The Barred Doors of the House on 61st Street?

STARTLING unpublished facts will be revealed when Mrs. Oksana Kasenkina tells her own story of how she was kidnapped by Russian officials and held prisoner in the consulate. In it she'll describe the growing terror that made her leap from the consulate window rather than return to Russia. This is only one of the amazing episodes included in this dramatic human document.

Read Mrs. Oksana Kasenkina's Own Story

Begins Sunday In THE BIG SPRING DAILY HERALD

Tele-Con Nightmare Emphasizes Climax Coming In East-West Fight Over Berlin

By Joseph and Stewart Alsop
WASHINGTON—For more than eighty days, the highest officials of the American government have been in the grip of the "tele-con nightmare," as one of them has called it. The tele-con machine will accept a message in Washington, scramble it beyond decoding, radio it across the Atlantic, unscramble it and flash it simultaneously onto viewing screens in the London Embassy, the Paris Embassy and General Clay's Berlin headquarters. By this rather horrible magic, the four capitals have been in continuous conversation since the Soviets precipitated the Berlin crisis.

Generally, the tele-con day begins at 11 a. m., which gives Ambassador Lewis W. Douglas just time to gulp down his early morning coffee and hurry to his tele-con room. Often it has continued until long after midnight in Washington, when the dawn is already breaking over Grosvenor Square, the Place de La Concorde and Dahlem.

The men involved become so exhausted that on one occasion Under-Secretary of State Robert A. Lovett told the State Department tele-con operator, "For God's sake tell Lew Douglas it's time to stop; we're not making any sense any more." The ordeal has taken a visible toll of the whole inner circle of policy makers here. But this tele-con nightmare, which hitherto has been so narrowly confined, is now at last likely to burst forth from its guarded chambers, and to become a nightmare for us all.

The Berlin crisis is, in fact, at last approaching its inevitable climax. It has unrolled slowly because of the constant difficulty of co-ordinating the views of the British, French and American partners. Before the Moscow talks began, for example, the British Foreign Office wished to send another note to the Kremlin, while Washington insisted on an appeal to Stalin. In the last few days, on the other hand, the Foreign Office and the Quai d'Orsay have argued for another appeal to Stalin. But the State Department has held that Stalin's previous broken promises have made any new Soviet assur-

ances utterly worthless, unless they are offered in writing. The British, French and American governments will appeal the Berlin case to the United Nations, as was first predicted, nearly three months ago, in this space. On this course also, it was difficult to reach agreement. (In dealing with the British and French, the American policy makers have been in the anomalous position of a soldier in the rear of a platoon urging his comrades at the front to hold firm.) London and Paris have already consented, however. The whole ugly tale of Soviet aggression, bullying, double dealing and bad faith will thus be officially spread up on the record. And after Molotov has interposed his veto in the Security Council, the U. N. General Assembly at Paris is expected to pass a heavy vote of censure.

The real question is, "What next?" In considering this question the American policy makers have been greatly heartened by the State Department's confidential public opinion polls. It is almost incredible, but nonetheless is a fact that these carefully checked and rechecked polls show 82 per cent of the American people ready to face the horror of another war rather than yield to further Soviet bullying. Considerably more than 80 per cent have specifically endorsed the stern expedient of breaking the blockade by sending an armed convoy to Berlin.

Here again, there is natural hesitation among the Europeans, who are on the firing line. But in London

Remington Threatens To File Libel Suit Against Miss Bentley

WASHINGTON, Sept. 23 (AP)—William W. Remington, temporarily suspended Commerce Department official, today threatened to file a "substantial" libel suit against Miss Elizabeth T. Bentley, confessed former Russian spy. In testimony before a Senate investigating committee, Miss Bentley named Remington as a man from whom she collected Communist Party dues as well as secret government information in wartime. Remington has denied the charges.

Remington said he would base his suit on an NBC television program, "Meet the Press," on which Miss Bentley appeared on Sunday, Sept. 12.

At a news conference, Remington made public a letter he has written to Miss Bentley demanding "a satisfactory public retraction" no later than noon, Sept. 30.

and Paris, as in Washington, wise men basically accept Winston Churchill's dictum that another appeasement in Berlin will leave a situation comparable to the situation after Munich. The Western powers will in the end stand firm, by present indications. Very broadly, a choice will therefore be made between two courses: The first course is to use the airift to maintain our position in Berlin; to accept formally the division of the world into two hostile camps, and to act accordingly. If this course is adopted, the Soviets and their satellites will certainly be

PORK CHOP BEING COMMUNIZED BY THE REDS IN YUGOSLAVIA

BELGRADE, Sept. 23 (AP)—The Yugoslav government communized the pork chop today.

This was disclosed by the communist newspaper Borba, which said the government is going into the business of raising, fattening and selling pigs.

Where did it get the pigs? About two weeks ago the government sent squads throughout the country which rounded up most of the porker population from peasants' farms. The pigs were run into

Traffic Accidents Kill 187 in Texas

AUSTIN, Sept. 23 (AP)—Traffic accidents killed 187 persons in Texas last month compared with 202 for the same month in 1947, the Department of Public Safety reported today.

Fatalities on streets and highways of Texas totaled 1,276 through August, against 1,277 for the first eight months of 1947. However, the department's statistician estimated that when final reports are received for the August period, the 1948 death figure will be 5 per cent above the figure for 1947.

The number of accidents this year was estimated at 107,961 compared with 107,826 a year ago.

subjected to economic and other sanctions; will certainly be confronted with a hastened tempo of Western rearmament, and may be expelled from the United Nations. The second course is to send an ultimatum, warning of the prompt resort to force unless the Berlin blockade is lifted. The first course is obviously more likely to be chosen than the second. But whichever is chosen, if things go so far as this, it will be time to recognize that the cold war is growing perilously hot. That is the meaning of the tele-con nightmare.

Government Pays One-Tenth of Prevailing Market Price

The government said this was necessary in order to insure an adequate supply of food for the country's industrial workers.

Borba said today this forced collection had given the government a foundation for state-controlled raising, fattening and selling of one of Yugoslavia's major food products. This was believed to be a forerunner for similar developments in other products of the profitable Yugoslav food growing industry.

Electrification To Be Extended

SAN ANTONIO, Sept. 23 (AP)—Rural electrification will be extended to 4,000 farm and ranch families in South Texas during the next 18 months, Allan Burditt predicted here today.

Burditt is chairman of the regional conference of rural electrification administration managers being held here.

The REA, he said, expects to install 2,000 miles of line within that period over the area from Austin south to Bracketville and east to El Campo.

Shortage of poles has retarded REA construction, he said.

THIS CORN JUST COMES NATURALLY

POMONA, Calif., Sept. 23 (AP)—Billy Mills, Hollywood orchestra leader, is bound to hear about this from the gag writers.

He took a second place ribbon yesterday at Los Angeles County fair—shucks, gals—his corn relish. On a different note, Mills also placed second in the dill pickle competition.

Mills says he comes by the corn naturally. It's an old prize-winning recipe of his grandmother's.

Human habit: tion at Jericho in Palestine has been traced back at least 7,000 years.

Walker Sells Bulls After Hereford Tour

Two young bulls have been sold by Cecil A. Walker, Big Spring, to Mrs. Lillian Carter, Garden City, as a result of the recent tour of Breeders association.

Temp Carter saw the two animals while on the tour and recommended them to his mother. One of the young sires was WHF Royal Prince Domino, an 18-month old animal that weighed 1,200 pounds and brought \$400. WHF Supreme Stanway, a 15-month-old bull weighing 950 pounds, brought \$300.

Among the invaders of Palestine have been Canaanites, Egyptians, Hittites, Babylonians, Philistines, Israelites, Scythians, Persians, Romans, Greeks, Byzantines, Arabs, Crusaders and British.

New Polio Patients in Houston Hospital

HOUSTON, Sept. 23 (AP)—Three new polio patients are under treatment here.

One patient lives in Houston, another is from Harris County and the third from outside the county. The new cases were reported yesterday.

So far this year local health officials have reported 145 Houston cases with 13 deaths, 157 county cases with eight deaths, and 78 out of county cases with four deaths.

Hopes So, Anyway

LONDON, Sept. 23 (AP)—A crude sign was found today pinned on the garden door at No. 10 Downing St., Prime Minister Attlee's official residence. It said: "Moscow is bluffing."

"I'M FROM MILWAUKEE AND I OUGHT TO KNOW," says MRS. DOROTHY SEVEDGE, head of Milwaukee "Blatz Service"

"Blatz is Milwaukee's finest Beer!"

"We Milwaukeeans know our beer," says Mrs. Sevedge. "Here, we brew and have our choice of America's finest. My favorite and Milwaukee's finest is Blatz!" Why not profit by Mrs. Sevedge's experience and try Blatz, today?

MY FAMILY RIDES FOR 1/2 FARE when I buy one regular-fare ticket on American Airlines!

Half fare for wife and family ON AMERICAN AIRLINES

Thanks to American's new Family Fare Plan, when an adult member of a family buys a Flagship ticket at the regular price, the other members of the family, including children 21 and under, ride for only half fare! The plan is in effect on trips started on Mondays, Tuesdays and Wednesdays (including return trips started the same days of the week, of course). And it covers Flagship travel to and from all American Airlines destinations in the U.S!

No matter how many in your family, you'll make important savings under this plan. A family of two travels for the price of 1 1/2 tickets... a family of three for only two tickets, a family of five for only three tickets.

Compare the fare! Here are samples of the average cost per person for a family of five to:

NEW YORK . . . \$62.46 LOS ANGELES . . . \$38.28
DALLAS . . . 9.66 TULSA . . . 20.45

(All fares subject to 15% Federal Tax)

Former Resident Is Dubious About Alaskan Winter

Edith Gay, for several years secretary for the chamber of commerce, is looking forward to winter with anticipation and dread.

She is at Fort Richardson, Alaska where she is bookkeeper and secretary for the Civilian Service club. The club operates facilities for recreation and entertainment, including men's and women's club-rooms, ballroom, sewing rooms, music, arts and craft, dining rooms, photo lab and others.

Prices at the commissary are reasonable enough, she writes, but when obliged to trade on the open market they soar to astronomical heights.

Stanton News Notes

STANTON, Sept. 23. (Sp) - Mr. and Mrs. J. H. Puckett, J. A. Puckett and E. M. Massey made a trip through the Carlsbad Caverns recently.

Rebekahs Name Four New Members

Four new members of the Rebekah lodge were named Tuesday evening as candidates for initiation in formal ceremony Sept. 28 at the Settles.

Daughter Born To Harold Cannings

Mr. and Mrs. Harold Cannings are the parents of a daughter, born Tuesday afternoon at the Malone & Hogan hospital.

Mr. and Mrs. M. S. Moore of Charleston, S. C. have been visiting Dr. and Mrs. T. M. Collins.

ENGAGEMENT ANNOUNCED - Mr. and Mrs. H. W. Hennig of Hamilton have announced the engagement and approaching marriage of their daughter, Nelyva Adell Hennig, to W. L. Wilson, Jr., only son of Mr. and Mrs. W. L. Wilson, Sr., of Luther.

Events OF THE COMING WEEK

THURSDAY REBELION SIGMA ALPHA will meet in Room Two at the Settles hotel at 7:30 p. m.

ROYAL NEIGHBORS meet at the WOW hall at 2:30 p. m.

LOTTE MOON YWA convenes at the First Baptist church at 8 p. m.

WOODMAN CIRCLE will meet at the WOW hall at 7:30 p. m.

MODERN WOMAN'S FORUM will meet with Mrs. J. P. Dodder, 610 Gould, at 3 p. m.

AFTERNOON BRIDGE CLUB will meet with Mrs. Ray Griffin, 608 Dallas at 2 p. m.

SATURDAY FEDERATED HYPERION CLUBS will convene at the Episcopal parish house at 3 p. m.

Only A German Peace Treaty Can Resolve Crisis In Berlin

By Walter Lippman

There may be a useful way in which the Berlin dispute can be taken to the United Nations but if a plan has been worked out, it is still an unusually well-kept secret. The crux of the problem is that in the Berlin dispute the great powers, all the middle powers, and almost all the small European nations, are directly involved. There is, therefore, almost no chance that the judgment and recommendation of the Assembly could produce a Bernadotte to represent the search for peace and justice over and above the conflicting interests and ambitions of the parties to the dispute.

Yet before we can in good conscience take the dispute to the U. N. we shall have to reconcile the fact that as a leading power in the United Nations we have a solemn obligation to work for the solution of disputes. We cannot ask the United Nations to solve a problem which we do not know how to solve. As a member of the United Nations we have to be prepared to propose a plan by which disputes can be brought to a solution.

The Berlin crisis has been developing over a period of nine months—since the breakup of the meeting of the Council of Foreign Ministers which was held in London last autumn. The four powers were unable to agree on any important features of a German peace treaty. The failure of those negotiations led to the decision that since there was no prospect of an acceptable four-power agreement on all of Germany, the three Western Allies

should make a three-power agreement on as much of Germany as they controlled.

But this grave decision left out of account the fact that though the three Western powers have a vital interest in maintaining their position in Berlin, they do not control Berlin. Berlin can be administered as a community only by four-power agreement. The Russians were quick to see the anomaly in our position: that we stood for three-power control of western Germany and for four-power control of Berlin.

There is no real mystery, I believe, about the fundamental issue of the Moscow negotiations. It was whether in return for the recognition of four-power rights in Berlin, we would recognize four-power rights in western Germany. It was never possible, we must I believe suppose, that we could induce the Russians to lift the blockade unless they had some kind of commitment from us to review and reconsider the three-power arrangements for western Germany. For if the Russians had recognized our rights in Berlin without a corresponding recognition of their rights in an all-German peace settlement, they would have suffered an immense diplomatic defeat.

Their strategic and logistical position in Berlin is, however, too strong for that. It is so strong, despite the marvel of the air lift, that the best we could have hoped for immediately was a temporary relaxation of the blockade in return for some sort of understanding to postpone irrevocable action in the establishment of a western

German government.

It follows that while the Berlin crisis might be alleviated, it cannot be resolved unless the four powers are able to negotiate a general German peace treaty. Until that is done Berlin will still be deep within the Soviet zone of occupation and Berlin will be for us a diplomatic Bataan.

Yet there will be little point in having another Council of Foreign Ministers to deal with Germany as long as the four powers hold firm in all the main positions on which they are irreconcilably divided. The

Soviet conception of a German settlement, as set forth a year ago, is quite unacceptable; it is obviously designed to bring into being a German government which would be at first the vassal and later, as Germany recovered her power, the ally of the Soviet Union. For the time being there is no possibility that our conception of a German treaty would be acceptable to the Soviet Union.

SEVEN NATIONS CLAIM SLICES

International Controls Are Asked For Antarctic By U. S.

WASHINGTON, Sept. 23. (AP)—The United States has proposed international control of the Antarctic continent, twice as large as the United States.

The proposal was made to the seven nations now claiming pie-wedge slices of the ice-covered continent, coldest on earth.

The State Department says the United States never has made any formal claims to a portion of Antarctica but reserves rights.

These are based on discovery and exploration. An American, Capt. Charles Wilkes of the U. S. Navy, was first to identify the great mass of ice and snow at the South Pole as a continent. That was 110 years ago. The other seven nations—Great Britain, Chile, Argentina,

Norway, New Zealand and Australia—have made claims based on exploration or administration. They left one wedge of the continent unclaimed.

What international control may mean the State Department has not explained. Does it mean the setting up of some sort of control commission representing all the nations of the world? Or would only the seven claimants and the United States be included in the commission? Would Antarctica's treasures be divided among the nations?

The State Department said only that an agreement is necessary to promote scientific investigation and research. Officials say the proposal is exploratory and that if a plan is approved in principle the

details will be worked out at conferences.

There have been rumors that precious materials such as uranium and gold have been found in Antarctica, and the continent is believed to have vast coal deposits. American officials have denied uranium has been discovered. They add that even if there are coal and mineral deposits Antarctica is so far from civilization shipping costs might be prohibitive.

But world distances have shortened. Antarctica, beyond the tip of the South American continent, might become a strategic war base. If the Panama Canal were closed, the only sea route from the east to west coast of the United States would be by way of the Horn. A foreign power with bases in Antarctica might disrupt such a supply line.

Great Britain has announced she approves in principle the U. S. proposal for internationalization, but Argentina and Chile are reported to have raised objections. Claims of Chile and Argentina overlap that of Great Britain. The Latin-American countries have said they will not recognize European colonies in the inter-American de-

McCamey Youth Gets Prison Term

PECOS, Sept. 23. (AP)—Fred Newton Davis, 19, who pleaded guilty to stealing \$25,347 while working as a substitute clerk in the McCamey post office, was under a two-year federal prison sentence today.

Federal Judge Ewing Thomason of El Paso sentenced Davis yesterday after hearing statements in the youth's behalf.

School Superintendent H. E. Stoker, the Rev. C. J. Mann and Acting Postmaster R. A. Johnson, all of McCamey, testified that Davis has had an excellent reputation and that he was an honor graduate of McCamey High School. A postal inspector told the court the money had been repaid. Davis' attorney, Hill D. Hudson of Pecos, stressed the defendant's youth and good reputation and asked for leniency.

fense zone, which runs from the North to the South Pole.

These are some of the issues that will be debated if the U. S. proposal reaches the conference stage.

Cominform Believed Meeting In Crimea

LONDON, Sept. 23. (AP) The British foreign office said today the Cominform—Communist International Information Bureau—may be meeting now in the Russian Crimea.

The foreign office spokesman advanced this theory in response to questions.

He said such reports had been received at the foreign office and that it had been established definitely that both Anna Pauker, Romania's foreign minister, and Klement Gottwald, president of Czechoslovakia, are absent from their capitals. Moscow reported last week that Gottwald was vacationing in the Crimea.

There also have been unconfirmed reports that Georgi Dimitrov,

Bulgaria's premier, is away from Sofia. All three are key members of Cominform.

Diplomats in Washington speculated yesterday that the absence of important Eastern European officials from their capitals indicated a meeting of Soviet satellite leaders either was in progress or had just ended in Russia.

They said they thought this either was a meeting of the Cominform or a conference with Soviet Foreign Minister V. M. Molotov, who unlike the other major powers' foreign ministers, has not gone to Paris yet for the United Nations Assembly meeting.

Prime Minister Stalin has been reported on vacation at Sochi, in the Crimea.

STOP! IS THAT MACHINE READY TO GO INTO THE SHED?

"I've got to have a little work done on that machine before harvest season."

You've probably said that more than once. Thousands of farmers have. But after the machine is in the shed for winter, it is often neglected until it's time to take it back into the field.

Here's a suggestion that will save you time and money. As soon as you finish this year with your All-Crop harvester,

implements and tools, check them over. If any repairs or adjustments need to be made, bring them to us.

Our shop is well equipped to handle all kinds of repair work, from a simple welding job to complete overhauling. Our mechanics have the knack of doing first rate work at the lowest possible cost to you.

Let's get your equipment in shape while there's time to do a good job.

Service And Price Cannot Be Separated In Competition

Court action has been instituted in Houston against a milk producers organization to restrain it and several companies from indulging in violations of the anti-trust law.

Filed by the attorney general's office, the action is based on the contention that the producers association and marketing agencies met and agreed on prices to be paid for milk and in turn on prices to the retail market.

Of course it will be necessary for the courts to decide the facts in the case if the matter is pressed to conclusion. However, the filing of this case should be noted over the entire state.

There is a growing and dangerous trend among some business operators to come together and discuss price manipulation. Much of this is doubtless with the best of intentions and with the purpose

of avoiding what the participants regard as unsound operation. The reasoning is that one producer or distributor can ill afford to raise prices by himself even if price increases are justified and indicated. This may be perfectly logical and true, yet it is the essence of monopoly and trust.

A generous percentage of business men sing the praises of the free enterprise system long and loud and point out that competition is the life blood of that system. But competition cannot be restricted to service without regard to price.

If business wishes to maintain its independence, it should act independently except as through associations which are open to public scrutiny. Bread cast upon the waters can return in many forms, not a few of them contrary to the concept of free enterprise.

Water Supply Improved, But No Reason For Complacency

Showers which came to the threshold of this city in the southeast have left one of the city's lakes (Powell) brimming. This means that this reservoir has something like 550,000,000 gallons of water, which, with the Moss Creek reserve, accounts for better than a billion gallons in our surface supply at this time.

Certainly this is encouraging news. It is no justification for complacency, however, no more than the fact that we have gone through two summers without any water shortage when all about us were facing serious water crises. Given reasonable luck, we might go through another summer without shortage, and maybe still others.

But in this country we anticipate growth. Every family and business and industry added means that much more added to the water demand.

Last year there were times when the city's ability to produce and distribute its water was right jam against the limit. The facilities were under forced draft. They came through with flying colors, but the next time a pump might go out or a well fail or some untoward difficulty might arise. In such periods of stress the margin of safety is all too thin.

Commissioners keep a close watch on this situation, and properly so. They are aware that between now and next summer it would be well if the potential delivery to mains could be increased from a half to a million gallons per day. It would be the better part of wisdom if supplementary stand-by supplies could be located and pegged. Meanwhile, the multi-city proposal for a dam on the upper Colorado river should not be forgotten as a possible long-range answer.

Affairs Of The World — DeWitt MacKenzie

Russia's Korean Proposition A Variant Of Old Shell Game

THAT'S AN INTERESTING THOUGH not particularly adroit exhibition of the old shell-game given by Russia in announcing that she will withdraw her troops from northern Korea by the new year, and calling on Uncle Sam to pull out of the north.

On the face of it this is a big-hearted gesture of amity, and is calculated thus to impress the unwary. However, we may be quite sure that if American troops did withdraw from southern Korea, the Bolsheviks would move to take over quicker than you could lose a silver dollar by trying to guess which shell the elusive pea is under.

This isn't to say that the United States might not decide to withdraw. That's a dish which still is on the fire. There are two schools of thought on this subject of withdrawal. One holds that it would be a strategic error to pull out. The other maintains that it's a mistake to stay since there is such a thing as spreading your strength too thin, and furthermore America has military forces in neighboring Japan.

WHETHER RUSSIA WILL INDEED withdraw if the United States does not, remains to be seen. The Muscovites might pull back across the frontier into Manchuria in any event. And why not? Northern Korea has been thoroughly Communized. A Soviet government has been established, and it's an open secret that the country is overrun with the Bolshevik armed secret police which spearheads the setting up of any Soviet regime. We've seen the

ruthless efficacy of such police in countries like Czechoslovakia and Poland. Moreover the Russians have organized and equipped a big Korean army on their northern zone, and judging from past events, we may be sure this force is heavily officered by Russians. Thus even if the Muscovites did pull back into Manchuria, there still would remain a big "Korean" force of soldiers and police which could be used to invade southern Korea with the idea of overthrowing the new republic there and consolidating the two zones under the Communist regime of the North. As a matter of fact, the Red government has broadcast its intention of smashing the southern republic.

KOREA IS SMALL, BUT STRATEGICALLY, she is a mighty atom. For centuries the Korean peninsula, which projects down between the sea of Japan and the Yellow Sea from Manchuria and Siberia, stood between Japan and her continental ambitions. No wonder Japan complained that Korea was "a dagger pointing at her heart." Controlled by Communism, Korea would be a dagger pointing at the heart of peace. Certainly it enters into the picture of the great new Red offensive to overrun Washington's response to the Russian announcement about withdrawal is that American troops of occupation will remain in Korea until the United Nations General Assembly considers the Korean situation at Paris. The State Department said the United States has no intention of withdrawing troops forthwith.

Broadway — Jack O'Brien

The Glamor Folk Seem To Be Avoiding The Nite Spots

NEW YORK—I was in a particularly bitter mood the other morning as I looked around at the denizens of one of our most popular traps. What I saw wasn't pleasant.

There were few of the usual glamorous clientele. Nary a movie star. The social register wasn't represented. The college kids in their white good humor jackets were packed off to bed or had shuffled off to campuses. There wasn't even a popular songwriter available, and they almost never get to bed before dawn.

That night, Broadway wasn't much fun. I saw a fellow leaning against the bar being lionized by a few lower echelon hoodlums who had been concerned in one

of the year's untidiest scandals. There were several tables whose leading social arbiters were bookmakers, con guys and dice experts at best. Their decorative ladies were of the nocturnal trade, garish in millinery, strident in conversation and idiotic in deportment after several drinks.

Very nice set of souls, I asided to the proprietor. Yes, he agreed, a nice assortment of cutthroats, but what could he do? Sure, he'd like to have an exclusive clientele, but if he stuck to the nice people he'd go busted.

"Nice people aren't staying out so late," he said. "Maybe the day of café society is ending." He looked around again wistfully. "Yep, I wish I had some of the old crowd again, but they're getting to be grandparents. Can't stand this pace. Can't stand it myself. I used to work until daylight, go home, sleep and go to a gym for a workout and a swim in the late afternoon. Now I just take a swim. I'm getting old. The old customers are getting old. And I think some of the old timers are hep to this sort of screwy existence. They know they shouldn't have been hanging out like this, and I bet they're keeping their kids at home or in places less likely to hurt them."

"Have you ever seen a picture of my daughter?" I hadn't. "She's getting to be a big kid now, goes to dances, has a couple of boy friends and they go sailing afternoons and hang around a country club out on the Island. You've never seen her in here, have you?" I admitted I hadn't. "And you won't! Think I want her to mix with my customers? Not a chance, bub!"

PARTING IS SUCH SWEET SORROW

Washington Merry-Go-Round — Drew Pearson

Truman Surveys Grief And Wonders If He Should Have Stayed At Piano

WASHINGTON—When and if Harry Truman leaves the White House, he will have saved—up until 1948—just about \$4,000 a year out of the total \$75,000 annual salary which the people of the United States pay their presidents. In the year 1948, thanks to a Republican tax cut, Mr. Truman will save more.

The president sat down with paper and pencil the other day and figured that his job as president had paid him only \$1 an hour—up until the GOP tax cut. He estimated that, getting up early in the morning as he always does, he had averaged 4,200 hours a year on the job. After taxes and other heavy expenses of entertaining and travel, he saved \$4,000 the first year and \$4,200 the second—or about one dollar an hour.

However, in 1948, thanks to the Republican tax cut, his net income will be \$12,000. "And I vetoed that bill," chuckled the President.

Today Mr. Truman is out on the hustings trying to break through his usual wall of bodyguards, servants, and secretaries in order to show the people his human side. The truth is, that despite the steady stream of callers Truman receives daily and the reams written about him, only a few close friends know the real man inside the White House. Actually, he is a loner.

Not many people know, for instance, that Truman keeps two large anthologies of poems on a desk by his bedside and, before dropping off to sleep at night, likes to prop himself up in bed and read from the classics.

His favorite are Shelley and Keats, but he can also recite at length from "Alice in Wonderland." One passage the President likes to quote is the Red Queen's remark to Alice: "Now here, you see, it takes all the running you can do to keep in the same place."

Truman also likes to read history—especially the biographies and autobiographies of his predecessors—because, he told a friend, "it is men who make history."

HISTORICAL TRUMAN Truman's secret ambition is to write the history of his own administration, but it will have to wait until his term is finished.

"There are times when I make up my mind I am going to do it and I start assembling my thoughts," he confided to a friend. "Then the pressure of work forces me to drop it. There just aren't enough hours in the day."

PET PEEVE Truman's pet peeve is the way Sen. Ferguson of Michigan has handled the former war investigating committee.

"I built that committee into one of the finest on the hill," the President complained bitterly to an associate. "Since Ferguson has taken over, he has made it into a garbage company."

REDS IN RELIGION House spy probes plan to follow up their Communist expose with a report on Reds in religion. They claim to have unearthed Soviet agents trying to infiltrate into American church groups.

The report will charge that if such infiltration was accomplished—which seems highly doubtful—the next step would be an anti-religion propaganda drive in the U.S.A. similar to that in Russia, with Red agents working from within to undermine the churches.

MERRY-GO-ROUND George Allen, ex-White House jester, is reported pulling backstage wires to block the sale of the government's Cleveland blast furnace to Henry Kaiser. George, a director of Republic Steel, performed one of the greatest political favors for Truman. He persuaded Eisenhower not to run for President.

Hollywood — Bob Thomas

Noises Of All Kinds Are Kept In Film Libraries

HOLLYWOOD (R)—A short burp, the plaintive whistle of a distant train, a cougar's cough and a gallow's clatter are a few of thousands of odd noises that are the daily concern of movie sound men.

The noises, recorded on the sound tracks of standard movie films, are kept ready for short notice use. Thus, if Mickey Rooney's sneeze comes out off key, sound men merely dub in one of hundreds on file in the library.

MGM's collection is typical. Sounds from airplanes to zippers are carefully catalogued and stored in fireproof vaults. This "library" consists of four-walk-in vaults, each holding 2,000 cans of film.

film will require a noise that calls for the mixing skill of an expert chef. The "Green Dolphin Street" script called for an avalanche. By blending the sound of thunder with the crash of falling trees, tearing timber and falling glass—done inside a glass greenhouse for greater resonance—an avalanche was achieved.

Around The Rim — The Herald Staff

Founder Of Blue Cross To Receive Honors Due

Non-stop Dr. Justin F. Kimball, the square-built 76 year-old executive vice-president of the Baylor University unit in Dallas is due to receive another honor. The tireless administrator fathered the Blue Cross group insurance plan which today removes the fear of inadequate health protection from the minds of more than 30 million members in the U. S., Canada and Puerto Rico. This time the American Hospital Association will give him one of its 50 awards at its golden anniversary dinner this coming Tuesday.

Blue Cross reached a working stage of evolution in 1929 at Baylor in Dallas after it had spent 19 years of growing in Kimball's head. The story really goes back 40 years ago to the time when Kimball was practicing law in Waco. During the period, his firm became receiver for an insurance company chain and he had to do some digging into insurance laws and mathematics. This gave him a knowledge of just what it takes to make an insurance plan workable. Later he decided that he was a schoolman and not an attorney and became superintendent of the Dallas public school system. There he found that working conditions for the city's instructors were pitifully inadequate (and I thought it was a new problem). Teachers received half pay the first two weeks of an illness and no pay at all for the rest of the time they were without work. Kimball set up a plan whereby the tutors could pay \$1 per month and receive \$5 a day while sick after the first week of illness. Kimball moved to SMU as a professor in 1924 and then to Baylor in 1929. The fireball educator found the Baylor hospital half empty, full of run-down equipment and over \$1 million in debt with piles of unpaid bills. Something had to be done. Kimball did it. There, he also found records of his teachers' sickness benefit plan. He started with these records as a base and worked out scales for a group insurance program for the hospital in the hope of pulling it from the doldrums. The plan spread from the teachers to other economic units with the speed of wind. Today it is possible for anyone, whether he be an employee of a business, a farmer or professional man, to find an organization in his community through which he can get hospital and surgical coverage in all but the most complicated cases for an amazingly small sum each month. Dr. Kimball deserves a word of recognition for his vision and hard, drugging spade-work in opening a new era in health protection—ADRIAN VAUGHAN.

Notebook — Hal Boyle

Woes Of The Sabbath Motorist: But He Brings 'Em On Himself

NEW YORK.—THE EPIC SUFFERINGS of Sunday drivers usually leave me cold. I am a lifelong and unrepentant pedestrian. I don't mind listening to the hardships of Sabbath motorists, but when their tales of woe are finished I usually still have two dry eyes. But I make an exception in the case of Joseph "Fuzzy" Macaskill, an old friend who lives in Queens. Fuzzy set out on a Sunday afternoon in a 15-year-old car to inspect five lots he had bought in a new real estate development. He took along his five-year-old daughter, Estelle, and his 22-year-old brother-in-law.

"Leave \$10 bail for appearance at 10 o'clock Tuesday," he was told. So Fuzzy forked over the 10-spot and drove on. A few miles farther he had to swerve off the shoulder of the road to avoid an oncoming car. When he swung back on the highway, he heard a sharp crack and his brother-in-law yelled: "Hey, Fuzzy, look at the wheel going past us!"

Upon reaching the development site, somewhere south of the Canadian border, Fuzzy was told by a local settler that his five lots were five miles down a one-way dirt road. One mile farther on he met a man who told him, the lots were three miles in the opposite direction.

AS THE WHEEL SPUN OFF INTO THE woods, the back end of his car settled to the highway and Fuzzy began to wonder if the wheel was his. It was. A passing motorist obligingly drove Fuzzy into the next town to get a tow car. Later, a short horn stroke into the woods, Fuzzy found his lost wheel in a bed of poison ivy. He left his car to be repaired in the nearest village and the tired pioneers continued by bus. When Fuzzy reached his house he was brushing the 50-pound bag of potatoes, the bushel of apples and the two gallon jug of cider. His brother-in-law was carrying the sleeping little girl. As Fuzzy dug wearily for his key, the door opened and his wife said: "Why didn't you wait for me this afternoon? You know I'd have enjoyed the ride." I asked Fuzzy what he did with the five lots. "I let 'em go," he said. "I lost \$150, but I figure it was a good investment in get rid of them."

FUZZY COULDN'T TURN AROUND HE had to back out the entire mile to his original starting point. On the way he stopped and bought a bushel of apples, a 50-pound bag of potatoes and two gallon jugs of cider. Night settled. Fuzzy found his car lights weren't working. He turned on his spotlight, which worked on a separate battery. A motorcycle cop drove up and said, emergency or no emergency, the spotlight was against the law. So Fuzzy was escorted to a brick court house.

Nation Today — James Marlow

German Editors Come To U.S. For Study Of Our Press Ways

NEW YORK.—FIFTEEN GERMAN editors and publishers are in this country for six weeks to learn how Americans put out newspapers and magazines. The 15-14 are men, one is a woman—are not husky-looking people. The Nazis kept five of them in concentration camps for periods ranging from months to years for speaking out against Hitler. A number served in the German army and wound up as American prisoners of war in this country or Germany. Most of them since the war have worked closely with U. S. agencies in Germany. Since the western democracies are anxious to see Germany become Democratic, it was decided a right push in that direction would be aided by bringing over here the editors who can help shape German thinking. The idea started with American editors who visited Germany after the war and talked with German newspapermen. The Rockefeller foundation became interested and Gen. Dwight D. Eisenhower, now president of Columbia University, got a grant of some thousands of dollars to bring the 15 German editors here.

thing. It gives them a chance to learn quickly about the successful handling of American newspaper problems and methods. German papers, according to reports from Germany and the first-hand statements of the editors at the institute, are pretty sorry shape. When an American newspaperman in Germany found out the German editors were coming here, he wrote to the institute: "Most American newspapermen and experts on various journalistic subjects will find it difficult to realize how little these Germans know about newspaper work. Germany has had so little to build on journalistically that, by American standards, even an outstanding German editor is a veritable amateur."

THEIR EXPENSES TO AND FROM this country and while they're here are paid out of that Rockefeller grant. They are housed at Columbia University and for at least two weeks are sitting in daily sessions at the American Press Institute held at the University. This institute was set up in 1946 with the support of American newspapers which have been sending their own editors there in a steady stream for stays of a week to three weeks. The Germans at the institute are getting pretty much what the Americans have had there: They sit around a huge oval table. Men from various fields of American newspapering—editors, writers, special reporters, photo experts, and others—come and speak to them. They question the speakers, argue back and forth, try to see how they can apply what is said to their own problems. At night they sit around the Columbia dormitory exchanging ideas and going over the day's talking.

AFTER SEVERAL WEEKS AT THE Preys Institute, the Germans will visit Providence, R. I., and Washington for a few days. Then they will be "fanned out" to various newspapers and magazines in New York and around the country. Those German editors who come from small German towns will spend a couple of weeks in the offices of small American newspapers to learn their problems close up. Those from the larger cities will spend a couple of weeks around the offices of big American papers. The German magazine editors will visit the magazines to learn their problems. Then they will return to their homeland to apply the lessons learned in this country.

Big Spring Herald, Thurs., Sept. 29, 1949

Today's Birthday—

TOM C. CLARK, born Sept. 23, 1886, is U. S. attorney general. A Texas lawyer, he took a modest job in the justice department in 1937. He moved up fast, helped evacuate the Japanese from the west coast, headed the anti-trust division and worked with Harry Truman's Senate committee on war frauds cases. Truman gave him the cabinet post in 1945. Cases against war fraud, espionage and trusts have kept him busy.

Louisiana States' Rights Sympathizers Man Defenses Against Truman Vote Drive

By the Associated Press
BATON ROUGE, La., Sept. 23.—States' Rights Democratic sympathizers manned the defenses today as Gov. Earl K. Long's supporters in the Louisiana legislature drove toward placing President Truman on the ballot.

A bill to give Mr. Truman a chance at the state's 10 electoral votes in the November general election was introduced last night in the brief opening meeting of a hurriedly called special session.

W. H. (Eva) Talbot, national democratic committeeman and one-time campaign manager for Gov. Long, immediately declared his opposition. He accused Mr. Truman of "fighting a cold civil war against the South."

The States' Righters, he added, are out to take control of the National Democratic Executive Committee and of the Democratic delegations in Congress.

Leander Perez South, Louisiana political leader who led the move in the Democratic state central committee to pledge the Louisiana party to the States' Rights candidates instead of Mr. Truman and Sen. Barkley, said he was studying the proposal and indicated he objected to a provision that the national committee might qualify candidates in Louisiana.

The measure would allow any national party committee or 100 qualified voters to place presidential and vice presidential candidates on the ballot upon certification of a slate of electors to the

secretary of state. The word "national" would precede the name of the party on the ballot. In Mr. Truman's instance he could be qualified as the "National Democratic Party" nominee. But he would be denied use of the traditional rooster symbol of the Louisiana Democratic Party. Some legislators believed the donkey, used in many other states, would be chosen. Names of candidates

Laps Have New Type Of Pest

TOKYO, Sept. 23. (AP)—Now comes a new kind of pest to plague Kabuto Cho—Tokyo's financial district.

This pest does not coerce his victims by threat or force; he does it with a smile and a glib tongue. He worms his way into stockholders' meetings by buying a small amount of stock. Once he walks among the men of finance, he praises them to high heavens for their business acumen. He gets louder and louder.

The bored stockholders can't throw him out for he, too, owns stock. Finally, to dam the praise and get down to business, they make up a fat purse for the smiling one, and politely usher him to the door.

could be submitted until the secretary of state ordered the ballots printed.

The special session followed action Sept. 10 by the Democratic state central committee declaring the States' Rights candidates—Gov. J. Strom Thurmond of South Carolina and Fielding L. Wright of Mississippi—the Louisiana Democratic nominees. Mr. Truman was thus eliminated from the ballot, and only a special session of the legislature amending election laws could restore him.

Snoring Dog Brings Elderly Couple Into Court For Divorce

CLEVELAND, Sept. 23. (AP)—A dog that snored helped bring an elderly couple into divorce court.

Mrs. Bertha Lewis, 64, insisted on having the pet pooch sleep in their bedroom, and the dog's loud snores deprived him of his slumber, Watkins E. Lewis, 76-year-old shipping clerk told common pleas Judge Samuel Sibert.

When Lewis complained to his wife, he told the judge, she moved to another bedroom.

Excavations at Pompeii were started about 1748 and the city has been about half dug out of the volcanic debris that destroyed it in 79 A. D.

One Of Chain Slaying Widows Helms Another

TIFFIN, O., Sept. 23. (AP)—One woman in sorrow today remembered another widow and her children.

Mrs. Rita Smith, 24, widowed by the fifth of a chain of six slayings by a pair of ex-convicts, forwarded a \$250 check to Mrs. Orville Taylor, of Niles, Mich., whose truck-driver husband was the last victim.

"She needs it for the children," Mrs. Smith explained. Taylor's slaying left four children fatherless.

The Mansfield News Journal paid the reward for Mrs. Smith's part in the conviction of Robert Murl Daniels, 24, of Columbus, for the slayings of John E. Niebel, superintendent of the Mansfield Reformatory Farm, and his wife and daughter two days before the Smith and Taylor killings.

The convicted youth also was accused of slaying Earl Ambrose, Columbus tavern owner.

Daniels was sentenced to death. His companion, John Coulter West of Parkersburg, W. Va., was killed at a Van Wert County road block where Daniels was captured by Sheriff L. Roy Shaffer.

Youth's Place In Community Is Stressed At Club

Describing Youth Week as the most important thing that had happened in Big Spring in the year since he has been here, the Rev. James Parks told Lions club members and guests Wednesday that "it is important, however, only as we make youth our interest 52 weeks of the year."

The Rev. Parks was featured speaker at the annual children's day activity of the Lions club at the Settles. He told men that they had a responsibility to maintain a "splendid, righteous fellowship" in their homes and to assume sound, spiritual leadership.

Example is such a powerful responsibility for adults that "we cannot escape it even though we have no children of blood kin," he said. One of the greatest gifts of God, he continued, is the "confidence and admiration" of children, and we owe unto the man who betrays that confidence.

Adults owe it to themselves and their children to make the most of opportunity which their children present, Rev. Parks contended.

"The greatest opportunities we have in Big Spring are not big buildings or oil fields, but in the

Salvation Army To Have A New State Commander

Capt. and Mrs. Olvy Sheppard will be in Dallas on Oct. 8 to join in welcoming a new state commander for the Salvation Army, Col. John A. Morrison, and his wife.

Col. Morrison succeeds Col. Charles Dodd, who is being transferred to Atlanta, Ga. as field secretary of 21 states and in charge of the assignment of officers. He will succeed Col. J. J. Hoffman, who is retiring.

Col. Morrison was finance officer for the Salvation Army in Texas several years ago and in that capacity, Capt. and Mrs. Sheppard came to know him well.

Mineral Lease Sale

AUSTIN, Sept. 23. (AP)—The State School Land Board has accepted high bids totalling \$180,777 on 14,563 acres offered for mineral lease Sept. 7.

youth of Big Spring," he asserted. Avery Falkner, vice-president, presided in absence of the Rev. R. Gage Lloyd, president, who was engaged in sessions of the El Paso Presbytery at the First Presbyterian church here. More than a score of youngsters were guests of their fathers for the program, which was arranged by Boone Horne.

Oil Hearing Set

AUSTIN, Sept. 23. (AP)—The Railroad Commission has set for hearing Oct. 15 the application of Geier-

Jackson, Inc., for a discovery allowable, new field designation, and field rules for their Southern Pine Lumber Co. Well No. 1 Cherokee County.

From where I sit... by Joe Marsh

Nicest Compliment I've Had

One of the nicest comments I've received about this column was from an editor in the Middle West I called on. And while I don't like to give myself orchids, I think it illustrates a point.

"Joe," he said, "it so happens I don't agree with everything you say, but I always like to run your column. Because it gets down to earth and talks about the right to disagree. And it only asks for tolerance towards the other person's point of view."

He went on to explain, by way of illustration, that he never had happened to have a taste for ale or beer. But that when I spoke of the right to enjoy a moderate beverage like beer, well, he was right there with me!

And from where I sit, that's the important thing: not whether you share another person's tastes or point of view—but whether you recognize his right to exercise a free choice in a free land.

U. S. Refuses Oil Equipment For Romania

WASHINGTON, Sept. 23. (AP)—A Romanian request for American oil equipment has been turned down by the United States Government. Officials disclosed that an order by the Communist-controlled nation for \$9½ million worth of machinery from an American firm was blocked several weeks ago by the State Department. The department's action came in the form of a note to the Romanian minister, who had protested the Commerce Department's refusal to grant an export license for the equipment.

The American firm—the international Derrick and Equipment Co., of Dallas and Columbus—had shipped \$1 1/2 million worth of the machinery to Romania before government export license regulations went into effect March 1. Officials said that while the company violated no laws, it sent the shipment despite State Department disapproval. That was denied by a company official, R. E. Reimer. "We have co-operated 100 per cent with the Commerce and State Departments," he declared. "At one time they told us to go ahead and take all the orders we could in Romania because it would help trade."

Romanian oil production goes exclusively to nations in the Russian bloc in Eastern Europe. Ninety-five per cent of the world's nickel is produced in Copper Cliff, Ontario.

Cleveland's Pennant Hopes Brighten As Red Sox Bow

By the Associated Press
Cleveland's pennant outlook is extremely bright today. How long it stays that way depends directly on the fifth place Detroit Tigers. The Indians beat the Red Sox, 5-2, last night to bring Boston to the American League lead, a half game ahead of the third place New York Yankees. The Yanks brushed off the Chicago White Sox, 7-2. Another victory over Chicago today would jump the Yanks into a three way tie for first as both Boston and Cleveland are idle.

Cleveland's advantage over the Red Sox and Yanks lies in the remaining schedule. The Indians have eight games to go, all against second division clubs. The Red Sox also have eight games to play, but five of them are against the Yanks, who have nine games left.

Six of Cleveland's eight contests are against the Tigers, three in Detroit and three in Cleveland. Bob Feller, who has had his ups and downs during the season, was selected by Manager Lou Boudreau to pitch the "must" game against the Red Sox last night, and the big boy came through brilliantly.

Feller stopped the Red Sox on three hits and fanned six in winning his fifth straight game and 17th of the season. He held the Sox hitless until the sixth inning, when Birdie Tebbets doubled and rode home with Boston's first run on losing pitcher Joe Dobson's single.

The Indians raked Dobson for three runs in the first inning to clinch the decision. The big blow was Ken Keltner's 28th home run of the season with one on.

The Yanks also got some great pitching as Lefty Tommy Byrne checked the tail-end White Sox on six safeties and fanned 11. Byrne blanked the White Sox until the ninth inning when two singles, a walk and double spoiled his bid for a shutout.

Byrne also starred at bat, doubling home two runs to highlight a four-run seventh inning uprising that enabled the Yanks to take a commanding 5-0 advantage.

Feller stopped the Philadelphia Athletics, 6-1, as Lefty Hal Newhouser scattered seven hits in gaining his 19th victory and 150th of his career.

In the other American League game, the Washington Senators nosed out the St. Louis Browns, 5-4, when Cliff Fanning walked Sherry Robertson with the bases loaded in the tenth inning.

The St. Louis Cardinals and Stan Musial hogged the National League spotlight. The Cards prevented the Boston Braves from clinching their first pennant in 34 years by trouncing them, 8-2.

The Braves, if they had beaten the Cards, would have won the flag, as a triumph would have eliminated both the Cards and

Brooklyn Dodgers. The Dodgers, and the Dodgers and Cards each lose one. Boston and Brooklyn have beaten 5-1 by Rip Sewell and the Pittsburgh Pirates, dropped to third place as the Cards took over second.

Boston needs to win two games to nail down the pennant. They can also clinch if they win a game.

The Chicago Cubs took a doubleheader from the New York Giants, 3-2 and 11-7. Andy Pafko drove in all Chicago runs in the first game with a homer and an infield out. The Cincinnati Reds edged the Philadelphia Phillies, 4-3, in the National's only night game.

CERDAN DRIVES RIGHT TO ZALE'S JAW — Challenger Marcel Cerdan (right) of France, smashes a hard right to the jaw of champion Tony Zale of Gary, Indiana, in the second round of their scheduled 15-round bout in Jersey City, N. J. (AP Wire photo).

Ray Robinson, Williams Top Tonight's Card

NEW YORK, Sept. 23 (U) — The boxing war moves across the river tonight to the Yankee Stadium where a Twentieth Century Sporting Club doubleheader, starring champions Ike Williams and Ray (Sugar) Robinson, ends the outdoor season.

Buried in the bilingual uproar over Marcel Cerdan's smashing upset victory, at Jersey City, this attractive outdoor show will be lucky to gross \$100,000. The crowd probably will not be over 15,000 as compared to 19,272 who paid \$254,399.20 for the Cerdan-Zale show which was promoted by the rival Tournament of Champions.

Sol Strauss, acting promoter for Mike Jacobs' organization, says \$100,000 will keep the card out of the red ink.

Lightweight king Williams will risk his crown over the 15-round route against Jesse Flores, a capable ring "cutie" from Stockton, Calif. Robinson will not try to make the 147-pound welterweight limit for his non-title 10-round with Kid Gavney of Cuba.

Both Williams and Robinson are such topheavy favorites that there is little wagering reported on either contest. They're both about 1 to 5.

SEVERE TESTS LOOM Fifty-Eight High School Games Listed For Weekend

Fifty-eight games this week-end will establish sectional strength in Texas schoolboy football.

The highest-ranking teams get severe tests. Fort Worth, Grackeville (San Antonio), Wichita Falls, Brownwood, Highland Park and Corpus Christi of the top 10 all will know they've had a ball game.

Port Arthur takes on San Jacinto of Houston, Brackenridge runs into Corpus Christi, Wichita Falls entertains Breckenridge and Brownwood plays Sweetwater in top tilts of the week.

It also will mark the start of conference play. Alamo Heights and Lanier blast the district race at San Antonio in the city conference.

Brownfield, the last school to open the campaign, goes to Lamesa Friday in a nonconference game in Class AA.

The 33 teams in the state with undefeated, untied records are due to be cut to probably 22 when the firing ceases Saturday night. In a half-dozen instances unbeaten teams meet each other. This is true in the San Jacinto-Port Arthur, Austin (Houston)-Galveston, Corpus Christi-Brackenridge, Midland-Austin (El Paso), Sweetwater, Brownwood and Greenville-Corsicana games.

The San Jacinto-Port Arthur and Brackenridge-Corpus Christi games will do much to establish the relative strength of the city conference and Class AA teams.

The week's schedule by districts: City conference— District 1—Thursday: Arlington Heights (Fort Worth) at Sunset (Dallas); Saturday: Milby (Houston) at Woodrow Wilson (Dallas). District 2—Saturday: Lamar (Houston) at Amon Carter-Riverside (Fort Worth). District 3—Thursday: Reagan (Houston) vs St. Thomas (Houston); Saturday: Forest (Dallas) at Jeff Davis (Houston). District 4—Alamo Heights (San Antonio) vs Lanier (San Antonio) (conference). Class AA— District 1—Friday: Lubbock at North Side (Fort Worth); Saturday: Childress at Borger. District 2—Friday: Fort Worth Tech at Quanah, Breckenridge at Wichita Falls; Bowie at Electra, Sherman at Vernon. District 3—Friday: El Paso high at Odessa, Brownfield at Lamesa, Amarillo at Abilene, Brownwood at Sweetwater. District 4—Thursday: Bowie (El Paso) at Cathedral (El Paso); Friday: Midland at Austin (El Paso); District 5—Friday: Jesuit (Dallas) at Gainesville, Corsicana at Greenville, Arlington at Bonham, Texas.

District 6—Friday: Paschal (Fort Worth) at Highland Park (Dallas), Marshall at McKinney. District 7—Friday: San Angelo at Mineral Wells, Grand Prairie at Cisco, Waxahachie at Stephenville. District 8—Friday: Palestine at Henderson, North Dallas at Killbuck, Paris at Longview, Crozier Tech (Dallas) at Tyler. District 9—Friday: Bryan at Waco, Denton at Hillsboro, Nacogdoches at Ennis. District 10—No games. District 11—Friday: San Jacinto (Houston) at Port Arthur, Nederland at Port Neches, Orange at Sam Houston (Houston), Beaumont at Adamson (Dallas). District 12—Friday: Conroe at Galena Park, Lufkin at Baytown, Austin (Houston) at Galveston, Gladewater at Pasadena. District 13—Friday: San Antonio Tech at Kerrville, Thomas Jefferson (San Antonio) at Austin, Harlandale (San Antonio) at Laredo, Brackenridge (San Antonio) at Corpus Christi. District 14—Friday: Texas City at Robstown, Mercedes at Edinburg, Donna at McAllen, South Park (Beaumont) at Brownsville, Freeport at Kingsville, Harlingen at Weslaco, Fallurrias at Alice, Pharr-San Juan-Alamo at San Benito.

Twins Capture Big State Title

SHERMAN, Sept. 23 (U) — Sherman-Denison was champion of the Big State league today.

The Twins, who lead the race over the full season route, last night nipped Wichita Falls 3-2 in the seventh game of the final play-off series.

A crowd of 3,000 watched a stirring pitcher's duel between Sherman-Denison's Pete Appleton and the Spudders' Sid Peterson, each giving up only six hits.

Scores:

St. Louis Cardinals	8	2
Boston Braves	2	8
Philadelphia Athletics	6	1
Washington Senators	5	4
New York Yankees	7	2
Chicago White Sox	7	2
Brooklyn Dodgers	5	1
Pittsburgh Pirates	3	2
Cincinnati Reds	4	3
Philadelphia Phillies	4	3
St. Louis Cardinals	8	2
Boston Braves	2	8
Philadelphia Athletics	6	1
Washington Senators	5	4
New York Yankees	7	2
Chicago White Sox	7	2

Pittsburgh Pirates	3	2
Cincinnati Reds	4	3
Philadelphia Phillies	4	3

LOOKING 'EM OVER

With TOMMY HART
By WACIL McNAIR
For Tommy Hart

Sports writers on the west coast who allegedly ranked SMU's Doak Walker as just a so-so football player, probably figure that they already have a backfield super-charger in their own back yard who is a cinch for all types of mythical honors this year. That would be a customer named Jackie Jensen who has been groomed for the No. 1 fullback position on Pappy Waldorf's California Bears. Judging from his initial appearance this season, Jensen will be heard from most every Saturday from now through November. Last week he transported the ball no less than 192 yards in 12 tries against Santa Clara in the season's opener. He started early with a 62-yard touchdown sprint that developed on Cal's first play of the game.

Such a performance, no doubt, caused Jensen's name to go immediately into the All-America books of some coast writers, who possess a notable tendency to follow Hollywood press agent patterns for glamorizing their sports performers. There was no mention of any kicking by Jensen, however, and if he did boot the ball results could not have been sensational because Cal punted only twice for a total of 67 yards in the game. Jensen did have one pass, but it fell incomplete. His running feats must have been good enough to draw praise from any press box observer, but the west coast boys will have a whole of a time convincing their contemporaries elsewhere that Doak could not have performed better under the same conditions.

New Arab Regime Will Sit At Gaza

DAMASCUS, SYRIA, Sept. 23 (U) — The newly formed Arab government for Palestine will be seated at Gaza, in Egyptian-occupied territory on the coastal plain 40 miles south of Tel Aviv, it was announced here today.

Jamal Effendi Hussein, nephew of the exiled mufti of Jerusalem and one-time chairman of the Palestine Arab Party, is the foreign minister, said the Palestine higher executive office here.

ENTHUSIASM GREETING BOWLING SEASON OPENING

Dr. K. R. Swain, who is beginning his second year as president of the City Bowling Association here, is tickled pink over the interest various groups have shown in plans for fall and winter leagues. Doc reports that it was no trouble at all to find eight teams with enthusiastic sponsors for the Men's Classic loop, which is the senior organization in town, and a completely new circuit featuring automotive sponsors is expected to begin functioning soon. Ranks of kegling enthusiasts have been supplemented, incidentally, by personnel engaged in construction work at the Veterans Hospital project.

MELILLO SOCKED A PROFITABLE BASE HIT

Eddie Melillo, the Midland Indian right sacker, reportedly pocketed more than \$400 after his game-winning blow in the Indian-Vernon game Tuesday night. The turn of events provided a perfect setting for a profitable lick, with two men out, the bases loaded and the home team one run behind.

SOFTBALL TEAM MAY BE BARRED FROM TEXAS PLAY

The Bluebonnet Laundry softball team of Lubbock may be declared ineligible by the Texas Amateur Softball association due to participation in the National Softball Congress meet in Oklahoma City, according to Hugh Welch of San Angelo. Welch said the state ASA commissioner, W. W. Keitham of Houston, had branded the NSC as an "outlaw" organization and advised Texas teams to steer clear of its activities.

Cosden Team Tops Bowlers

Luke LeBlau's Cosden aggregation set the pace Wednesday night as play opened in the Men's Classic Bowling league. The Cosdens mangled a total of 2,491 pins to nose out Club Cafe.

Other opening night winners were Phillips Tire, Donald's Drive In and Nathan's.

E. B. Donier and Dub Prescott tied for single game honors, with each turning in a 211 line.

Cats Take Lead In TL Playoff

FORT WORTH, Sept. 23 (U) — Fort Worth's Cats had the Tulsa Oilers one down today in the battle for the Texas League championship.

The Cats, behind three-hit pitching by Eddie Chandler, whitewashed the Oilers 7-0 last night in the opener of the final seven-game series to determine the league's representative in the Dixie Series.

Manager Al Vincent of the Oilers will send the loop-leading pitcher, Harry Perkowski, to the mound tonight in an effort to square the playoff. Perkowski has won 24 games while losing 10 this season. Worth nominated Willard Ramsdell, who has a 7-3 record.

A crowd of 9,545 turned out last night to watch Chandler hurl a masterpiece. He faced only 29 Tulsa batters.

The Cats scored three runs without a hit in the first inning. George Schmees and Homer Matney walked. John LeGros sacrificed. Schmees scored when Pitcher Mike Schultz overthrew first and Matney went to third. LeGros to second. Long flies by Dee Fondy and Irv Noren brought in both runners.

A double by Noren and a single by Wally Fiala scored another Cat tally in the fourth. A single by Gino Marionetti, an error by Charley Kress, a double by Schmees and a long fly by LeGros brought in two more in the seventh. The final run came in the eighth on a double by Bragan and a single by Fiala.

Tribe Protects Home Diamond Record To Win

The Midland Indians, who finished third in the regular season, became Shaughnessy champions of the Longhorn league, Wednesday night by clipping the Vernon Dusters 6-2 in the seventh game of their final series.

In winning, the Tribe finished its playoff schedule without a defeat on the home diamond.

The Dusters, who came within one putout of winning on Tuesday night suffered a telling blow in the final encounter when Pitcher Eddie Jacome was forced from the game with an ankle injury in the third inning.

Leland Crissman, Indian right-hander, trisled a six-batter and aided his own cause by collecting two singles in four trips to the plate.

Harry Scherling, rightfielder, was Vernon's only threat at the plate. He drove out a double and two singles in four trips. A crowd of approximately 4,000 witnessed the contest.

Gives Picture
Mrs. J. B. Young, life-long friend of the library movement in Big Spring, has made a gift of a large painting to the library.

Get the NEW MERTOX. Add a quart of water and you have a quart of medicine for a dollar. Full directions on each package. Now better health for less money.

Florida Begins A Mammoth Cleanup Job Under Bright Sun

MIAMI, Fla., Sept. 23. (AP) - A hurricane that left three dead and an estimated \$25 million damage in Florida swept farther out to sea today as the state began a mammoth cleanup job under a bright sun.

Six other persons were killed and \$3 million damage done by the storm when it raked Cuba before blowing into Florida. The hurricane was about 250 miles east northeast of Melbourne, Fla., today. It continued to move away from the Atlantic seaboard in a direction between northeast and east northeast at an accelerated speed of 16 miles an hour.

The hurricane, which lumbered through Florida at a slow eight miles an hour, crossed the coast line into the ocean near Jensen Beach yesterday. A rare double rainbow marked its end at Miami.

The weather bureau said the storm still packed winds of 100 miles an hour or more near the center. Gales extended outward 200 miles. Winds diminished along the Florida coast. The hurricane was expected to pass about 500 miles east of Jacksonville and away from the busy Atlantic coastal shipping lanes.

The ponderous storm needed 30 hours to travel through Florida on a 240-mile line from Key West to Jensen Beach, attended by thrashing winds up to 160 miles an hour. Tremendous property damage was reported at Key West, in the choice Indian River citrus area and to vegetable crops along the southern and eastern rim of Lake Okechobee.

Key West alone estimated loss at one million dollars, principally to its waterfront and shipping. More than 100 pleasure and commercial boats were sunk. Many were smashed to pieces. A 200-foot dock was swept out to sea and the city's two principal commercial docks badly damaged.

Power and telephone lines were hard hit. The island's sponge and fishing fleet was practically wiped out. Damage to boats alone was estimated at more than \$300,000. All schools on the island sustained some damage. About 1,000 trees were uprooted in Key West alone. Ten inches of rain fell there. Some Navy boats and installations were damaged but no official figures were available.

WITNESS FOR CHRIST

Presbytery Calls For Evangelism

Presbyterians adjourned their autumn convolve for the El Paso Presbytery today with a ringing challenge to evangelize by witnessing for Christ.

Dr. James Hardee, pastor of the Broadway Presbyterian church in Fort Worth, told the Presbytery and a large number of visitors in the First Presbyterian church

Wednesday evening that the future of the Church depends upon "how effectively we serve in this generation as evangelists." He said that it was the obligation of Christians to "witness from day to day what Christ means in their lives."

Fellow workers who have admired his consecration through 25 years as chairman of home missions paid tribute to Dr. J. M. Lewis, Lubbock, who retired from the post. They presented him with a pen set as token of appreciation. Rev. Matthew Lynn, Midland, succeeds Dr. Lewis as chairman of this activity.

Alert Action By Attendant Leads To Car Thief Capture

Alert action of an attendant at the Courtesy Service station at 3rd and Scurry streets was credited Thursday with capture of a car thief.

T. D. Whitehorn, state highway patrolman, said that a report of suspicious actions of a pair of men, who had driven into the station, resulted in their capture. Police answered the call when the attendant reported that they seemed to be attempting disposal of some object.

The car had made away by the time the call came through and Whitehorn gave chase, nailing the car just this side of the Mitchell county line.

One man made an oral statement in which he admitted to taking the car in California over the weekend. The other man, he said, had been picked up as a hitch-hiker in Arizona. Both were being held pending word from California. Personal papers of the owner had been left in the car and almost fit the description of the man who later admitted taking the car, said Whitehorn.

Blount To Be Guest In Truman's Train

Rep. Peppy Blount has been chosen to ride the President's special train from Austin to Waco—but he doesn't know it.

He had left for North Carolina where the University of Texas football team plays the Tarheels Saturday when the honor was announced Thursday. His mother, Mrs. R. E. Blount, said she had received word from Austin.

Rep. Blount was chosen to be guest of President Truman and his party on the special because of his activities as a Legionnaire, member of the Texas House, and as a student of the University of Texas.

Plane Makes Normal Landing, Although Trouble Was Feared

A crash truck was alerted and ambulances were dispatched to the Municipal airport this morning, but a Pioneer Air Lines plane which at first was feared to have mechanical trouble effected a normal landing without incident.

The pilot on the westbound flight, arriving here at 10 a. m., Capt. Schliegen, radioed that warning lights indicated the plane's landing gear was not properly down and locked. After precautionary steps were taken, Capt. Schliegen circled the plane in for an easy landing, and it was confirmed that the landing gear was operating satisfactorily. Only trouble apparently was in the signal system.

District Court Has Perplexing Verdict To Give

The 70th district court had a perplexing verdict in its hands from one jury as preparations were made Thursday morning to hand another case over to veniremen.

In the application of Ruth Judd for guardianship of Floyd Smith Judd, non compos mentis, appealed from county court by C. H. Powell, contestee, jurors found for Mrs. Judd on the various issues except one. She had abandoned the ward, jurors held. The court had the case under advisement before entering judgment.

Meanwhile, testimony was concluded in the case of Annie Iola Cannon versus Thomas L. Cannon, suit for divorce and division of property. The defendant contested the petition for divorce but plaintiff testified that further relations as husband and wife were impossible. She also prayed for custody of minor children.

Set for Friday was the case of J. S. Garlington, et ux versus A. L. Wasson, et ux, et al, trespass to try title. This suit, filed in June, is a continuation of a legal struggle over title to land which Garlington, a former county judge, had held in the northeastern part of the county. Garlington filed originally in 70th district court, then took the matter into bankruptcy and federal court, injecting the Frazier-Lemke act into proceedings. The case was re-introduced in 70th court, where the court declined to hear it pending an order showing it was not pending in federal court. Subsequently the district was served with mandamus to hear the case here.

AAA Meeting Is Seen Soon

Date and place of a district AAA meeting have not yet been named, but M. Weaver, county administrative assistant, said Thursday he anticipated a parley soon.

Purpose of the meeting, which might be held here, would be to outline the 1949 farm program. As for Howard county, prospects are that it will have somewhere in the neighborhood of \$70,000 set up for conservation practice payments, almost double the available amount in 1948.

Most of the payments in Howard county have been earned for terracing, with tanning earning the next greatest amount. Lesser figures have been paid out for stubble and litter management, prickly pear and mesquite eradication.

The AAA has worked closely with the Martin-Howard soil conservation district in coordinating conservation payments with conservation programs.

Scouts Will Report For Traffic Briefing

Boy Scouts who plan to assist the junior chamber of commerce in the second annual traffic safety clinic, have been urged to report Friday afternoon to Scout headquarters in the chamber of commerce office.

H. D. Norris, scout executive, said Scouts are needed for duty on both Friday and Saturday. They have been asked to report as soon as school is dismissed Friday afternoon.

Stragglers Still Signing For Draft But Rush Is Over

A few stragglers are registering at Selective Service headquarters, 112 1/2 W. 2nd, but the rush is over. By the end of the week the total for Howard, Mitchell and Martin counties is due to be over 2,800 registrants.

Meanwhile, questionnaires have gone to 813 non-veterans, non-fathers out of the 2,787 originally registered from the 18-25 years age bracket. Besides the Selective Service office, assistance has been pledged by the YMCA, the office of Joe Pond (State National Bank building), the chamber of commerce and the Lakeview (colored) school in completing the questionnaires.

Balance of the forms will be sent to other registrants after the end of September. They were forwarded first because they are most likely prospects for induction.

Youth Shaken Up In Traffic Mishap

Kellon Golden, 10, son of Mr. and Mrs. J. R. Golden, was shaken but apparently not injured in a bicycle collision at Third and Johnson at noon Thursday.

He was rushed to Cowper hospital where he was examined and released. Police said that Jane White was driver of the automobile.

Salute To Youth Is Nearing Climax

Local Salute to Youth Week activities were nearing the climax today, with events booked for this afternoon and tonight and closing features scheduled for Friday.

Finals in the bicycle race sponsored by the Salvation Army were to be held at 5:30 p. m. today. First round eliminations in that event were conducted Tuesday.

The High Heel Slipper club will present a doll style show between 7 p. m. and 9 p. m. in the Settles, as a feature event for younger girls of the city.

On Friday, city officials selected in government classes at the Big Spring High school will take over municipal duties for the day in a Youth in Government project. At 5:30 p. m. the Boy Scouts organization will begin its bicycle parade. The parade will be headed by the

100 decorated bicycles are expected to be in the procession. Starting point is on Rummels street between Fourth and Fifth. All entrants are to report there by 5 p. m.

The Big Spring Business and Professional Women's club will sponsor the final event at the high school gymnasium Friday night. In addition to an amateur program, winners in various competitive features conducted earlier in the week will receive awards and special recognition.

AMAZING FACTS about a modern washday miracle!

IT'S TIDE...

Procter & Gamble's sensational discovery! TIDE is the product of new knowledge gained during wartime research. Tide works miracles with your whole family wash... gets your clothes CLEANER than any soap made! But that's just the beginning... Tide also BRIGHTENS soap-dulled colors! As for your white things—no soap in the world will get them whiter than Tide! And Tide's wonder suds billow up even in hardest water!

ONLY TIDE WILL GIVE YOU ALL THIS: The CLEANEST, BRIGHTEST, WHITEST wash you ever hung on the line!

CLEANER than any soap! It's amazing but true—Tide washes clothes cleaner! And that goes for everything... even greasy overalls! That's because Tide not only leaves clothes free from ordinary dirt, but actually removes dingy soap film!

Actually BRIGHTENS colors! Your favorite print dresses come out brighter as Tide makes dulling soap film disappear. What's more, Tide is safe. With all its cleaning power for heavy laundry—Tide is truly safe for all your bright washable colors.

The world's WHITEST wash! Sheets and towels come dazzling white with Tide! Lady, you never used a soap that got them more dazzling white! And Tide keeps them that way, week after week!

GIVES MORE SUDS—prove it in your dishes! Kind-to-hands suds! Longer-lasting suds than any soap in hardest water. Tide cuts grease like magic... washes dishes cleaner than any soap! No suds! No cloudy film! Dishes and glassware rinse and dry sparkling clear—even without wiping!

TIDE'S IN - DIRT'S OUT!

TIDE WORKS EXTRA MIRACLES IN HARD WATER! OCEANS OF SUDS! NO WATER SOFTENERS NEEDED!

BREEDERS' TOUR — A portion of the crowd which made the annual autumn tour of the Howard County Hereford Breeders association last week takes it easy while C. A. Walker, on the Army recruiting jeep, gives them the low down on his herd over a public address system. These are part of his herd of big cows. Approximately two score persons made the visit to 17 farms and ranches where registered sires and dams were on display in testimony that quality of local registered herds is steadily improving. (Jack M. Haynes photo).

THIRTY-TWO OTHERS ARRESTED

Czech Captain Is Sentenced To Death As A British Spy

PRAGUE, Czechoslovakia, Sept. 23. (AP) — A Czech army captain has been sentenced to death, charged with spying for the British. The government said 32 other persons are under arrest, accused of spying for the United States. The captain, Rudolf Hrazdilek, was sentenced last night to be hanged for high treason and "crimes against the people's democratic regime." He was accused of turning information over to a

British intelligence agent. The announcement came during a search for persons circulating anti-government statements charging that former Foreign Minister Jan Masaryk was murdered. The government called Masaryk's death a month after the Communists seized power, a suicide. Twenty-two men and women charged with circulating such pamphlets have received prison sentences ranging from one to nine years. Another 76 have been arrested on the same count, including 14 students and two professors. Police said one of the men accused of leadership in a spy network working with American counter-intelligence agents has been identified as Josef Novotny, former counselor to the ministry of information. Meanwhile, Archbishop Josef Beran was expelled last night from the Union of Resistance Fighters, because of his attacks on Health Minister Plojhar. Beran

was accused of fostering "reactionary" attacks on a member of the government. Plojhar was suspended last June from the Catholic priesthood because of his political activity. Beran's expulsion marked the first open break between the Communist-dominated Czech government and the highest ranking Catholic prelate in the country.

CAUSE TO DOUBT MEN'S SINCERITY

MURFREESBORO, Tenn., Sept. 23. (AP) — Four county jail prisoners who were taken to a church recently to profess religion and be baptized were surprised last night, said Sheriff Earl McKnight, as they sought to dig their way out of a cell. "We heard them hammering all afternoon," the sheriff added, "but thought we would just wait awhile before we went up and let them know we knew it."

Waits On Decision For A New Trial

GIDDINGS, Sept. 23. (AP) — S. M. McClendon, Houston Negro convicted of murder in the fatal shooting of L. C. Nichols of Comanche, a white man, today awaited a ruling on his attorneys' motion for a new trial. McClendon, who pleaded innocent, was convicted and assessed the death penalty yesterday. Two other Negroes, Willie McClendon and Robert Cohen, Jr., both of Houston, are being held in the case.

Texas To Register Half Million For Selective Service

AUSTIN, Sept. 23. (AP) — State Director of Selective Service K. L. Berry said today that Texas draft registrants should total close to half a million. Reports from local draft boards are being tabulated by Selective Service headquarters today. Berry said all boards have not yet reported, even though the deadline for such reports was yesterday. Preliminary estimates placed the total of draft registration eligibles in Texas at 560,000.

Carmen Miranda Expectant Mother

HOLLYWOOD, Sept. 23. (AP) — Actress Carmen Miranda has a new role—that of expectant mother. The actress' agent disclosed that she and her husband, Film Producer David Sebastian, expect an heir—or heiress—next May.

PICKPOCKET GROUP HAS ITS TROUBLES

TOKYO, Sept. 23. (AP) — Two disconcerting faults mar the work of Tokyo's new female pickpocket detail, said their leader—a man. They are: 1. Working in Paris they have a tendency to peek over the shoulder of a working pickpocket to get evidence. That, said the man, is bad form—likely to tip off the dip. 2. They seem partial to male pickpockets. That, said the man, may be but natural—natural weakness, that is.

Commercial Plane Overturns On Tajeoff

LISBON, Portugal, Sept. 23. (AP) — A four-engine commercial air liner overturned yesterday while taking off from Santa Maria Airport in the Azores. Two of the 35 passengers, all Lisbon residents, were slightly injured.

Water Conference Set At Houston

AUSTIN, Sept. 23.—Governor Jester has announced that the coastal area water conference will be held in Houston, beginning at 9 a. m. October 20, with headquarters at the Rice Hotel. Mason G. Lockwood, consulting engineer of Houston will act as general coordinator for this conference. Papers will be presented at the conference pertaining to the water supply problems in the industrialized areas of the Gulf Coast from Orange to Brownsville. These papers will include discussions of the source of supply and also the disposal of industrial waste and the problems involved in the prevention of pollution. Program for the conference will be announced at a later date.

Wooten Named Superintendent Of Howard County Fair For '48

Lloyd Wooten, past president of the local junior chamber of commerce and currently a district Jaycee vice-president, has accepted appointment as superintendent of the 1948 Howard County Fair.

He is vice-president of the association. His appointment was announced following a meeting of the executive board, which mapped basic organization plans.

The superintendent has plunged immediately to the task of securing men and women whom he will recommend to the board of directors as chairman of some eight or 10 key committees.

Some of these fundamental divisions are agricultural, institutional and commercial exhibits, finance, catalogue, concessions, personnel

and grounds, clerk, advertising and publicity.

Under the plan which the executive board will propose to the board of directors at its next meeting, most of the basic divisions will be broken into several committees. For instance, the agricultural exhibit chairman may have sub-committees on poultry and livestock, club, crop and general, and community exhibits.

The executive board announced that arrangements had been for a carnival to operate during the week of the fair. Other preparations include ordering of ribbons for various classes. The board also instructed that membership cards be prepared and that everyone in the county be invited to subscribe to the support of the fair for a \$1 per annum fee.

At a previous meeting of the board, it was decided that the gate charge would be held to nine cents per person, applicable to children and adults alike.

Next meeting of the board is due to be called as soon as the catalogue committee is ready with its recommendations.

Weather Helping Harvest, Hurting Growing Crops

AUSTIN, Sept. 23 (AP)—Hot, dry weather in most Texas areas last week continued to favor harvesting and to hinder growing crops.

The United States Department of Agriculture reported that all areas remained dry with the exception of south central, southeastern and southern areas and eastern counties of the Edwards plateau.

Soils in most small grain areas were dry and many growers were waiting for another rain, USDA said.

Prospects for South Texas fall and winter vegetables continued good with favorable moisture conditions. Tomatoes, peppers and egg-

Wants A Campaign Against Undesirable Comic Magazines

AUSTIN, Sept. 23 (AP)—The president of the Texas Congress of Parents and Teachers is hopeful that the Congress will declare war against undesirable comic books.

"I hope that we can unite over the state and nation to drive unwholesome and violent comic books out of circulation," Mrs. J. H. Moore of Deport said in a message to the membership.

GETTING MORE THAN IN BARGAIN

WASHINGTON, Sept. 23 (AP)—You voters not only will select a president of the United States Nov. 2; you also will be electing a chairman for the commission for construction of the Washington, Lincoln Memorial Gettysburg Boulevard.

The winner of a four-year lease on the White House also gets to head the Washington National Monument Society and the National Capital Seicentennial Commission.

The fall ballot box likewise contains an added surprise for the winning vice president candidate: Chairmanship of the commission on enlarging the capitol grounds.

'Go To Church' Sign Contracted

Contract has been let by the Big Spring Pastors association to R. H. Webb for construction of a sign on the northeast corner of the courthouse lawn.

The sign will appeal for church attendance. The design calls for an 8x15-foot sign bearing the words "Attend Church Every Sunday," with a secondary message, "Big Spring Churches Welcome You."

There also will be a Scripture quotation—"I was glad when they said unto me, let us go unto the house of the Lord." These will be against a background of an open Bible.

Ford Assets Pass The Billion Mark

DETROIT, Sept. 23 (AP)—The Ford Motor Co., which began 45 years ago with a paid-in capital of \$28,000 now has an asset valuation in excess of \$1,000,000,000.

This was disclosed as the company filed its annual balance sheet with the Massachusetts state tax commissioner. The report showed a total asset valuation as of Dec. 31, 1947, of \$1,025,733,000. This compares with \$880,047,000 at Dec. 31, 1946.

Total surplus of \$732,019,000 was reported as against \$683,162,000 a year earlier.

Porter To Open Drive

HOUSTON, Sept. 23 (AP)—Republican Senatorial Nominee Jack Porter will open his campaign at Weatherford, his hometown, next Tuesday.

SOIL CONSERVATION

Grass Shows Good Results In Drouth

Conservation ranching grows more grass on the range even during drouth, ranchers at Garden City learned on a tour of the Steve Calverley, Jr. ranch last week.

Calverley, who is a rancher co-operator with the Martin-Howard Soil Conservation district showed the group range sites in good to excellent condition that grew twice as much grass this year as fair condition sites while on areas in poor condition more than half the grass died.

A. T. Jordan, Work Unit Conservationist with the Soil Conservation Service at Big Spring, pointed out to the ranchers that the kind

of grass growing on the range determined its condition and the amount of forage produced. The ranchers saw that areas in good to excellent condition were growing mostly side oats grama, black grama and feather bluestem. Clipping studies showed that these grasses produced two times as much forage this year as those areas where tobosa was the main grass. The studies also showed that the choice grasses on shallow rocky soils, which are less productive sites, grew nearly as much forage as a tobosa draw in fair condition. The draws can grow more grass than any other site on the range, Jordan said, pointing out that side oats grama was coming in the tobosa grass and would increase the production of forage in these areas.

In conservation ranching range improver use of the range which gives the choice grasses a chance to make seed and spread over the pasture. Moderate use leaves about half of each year's growth of grass which protects the soil from erosion, makes it soak up more water and protects it from high temperatures and loss of moisture by evaporation. Among other measures used by Calverley in his coordinated soil and water conservation program are seasonal use of the range, and deferred grazing.

Ranchers and farmers who made the tour of Calverley's ranch were Walter Lowe, W. J. Gibson, Harry Calverley, Steve Calverley, Jr., Arlis Ratliff, Linrel Koenig, Monroe Koenig, Clayton Bednar, Edwin Bednar, Gus Muhler, Mr. Seid-erberger, Algrid A. Hurt, James C. Frank, F. C. L. Jimek, Martin Holder, Herman Goetz, Fred Hoelscher, Robert C. Hayden, M. E. Byerley, Jr., and Jack Orlick. Others present were Max Fitzhugh, county agent, Jordan and W. C. Thomson with the Soil Conservation Service.

Guy M. Moore, manager of the Big Spring State Hospital farm, put a 40 acre field on the contour last week. Moore will farm the field on the contour to save moisture. He left a good stubble on the field and will maintain the stubble on the surface by chiseling the land to keep down blowing. Moore also plans to plant 150 acres of Abruzzi rye and hairy vetch for winter cover crops as soon as moisture is available.

E. T. O'Daniel has dusted in 300 acres of Abruzzi rye on his farm land northeast of Coahoma. O'Daniel, a rancher-cooperator with the district, will plant about 600 acres in small grain this fall of which about half will be rye for a cover crop and soil building.

A conservation planning meeting was held last week at the ranch of Mrs. G. R. Hilliger, twelve miles northwest of Garden City. At the meeting the Martin-Howard Soil Conservation District program was discussed and the assistance made available to the farmers through the district in planning and applying a coordinated soil conservation program was explained. Farmers who attended the meeting were B. H. Hilliger, Harvey Hilliger, Henry Hilliger, D. J. Cotter, J. P. Hilliger, W. L. Robinson, Marshall Byerley and G. R. Hilliger, Jr.

Construction started last week on an 800 foot diversion terrace and new spillway for a stock tank on the ranch of V. H. Wolf at Vincent. Wolf is building the diversion and new spillway to stop washing of the old spillway. He plans to sod the new spillway with bermuda grass and fence the tank out to keep a good cover of grass growing in the spillway.

Salvation Army Will Have Flag Day

AUSTIN, Sept. 23 (AP)—Gov. Beauford H. Jester in official proclamation has designated Sept. 26 as Salvation Army Flag Day and Oct. 2 as Newspaperboy Day in Texas.

Sept. 26 marks the 70th anniversary of the Salvation Army flag. The governor's proclamation directed that it should fly from the state capitol on that date.

Former Forsan Man Succumbs; Rites Set Today

Funeral services were to be conducted at the First Baptist church here at 2 p. m. today for Leslie L. Bee, former resident of Forsan who died Monday at Pampa.

Mr. Bee, who had been employed for many years with the Sunray Oil company, suffered a heart attack, and succumbed as he was being taken to a Pampa hospital. He was 68 years old.

He had resided in Forsan from 1934 until 1947.

The Rev. Mr. Devers of Paint Rock, former pastor at Forsan, was to conduct the rites. Pallbearers were to be Roy Wilson, Pat Sheedy of Coahoma, J. Newcomb and Bill Kuenster of Odessa, and Dutch Kelly, Elray Scudday and Hugh and Jack Graves of Forsan. Eberley Funeral home is in charge of local arrangements.

Surviving Mr. Bee are his wife; three daughters, Mrs. R. T. Sanders of Muskogee, Okla.; Mrs. Winona Boston, Big Spring; and Mrs. Anita Nazartie, Wichita Falls one son, Lawrence W. Bee, Odessa; his mother, Mrs. Anna Bee, Parkersburg, W. Va.; a brother, Lawrence Bee of Parkersburg; and three sisters, Mrs. Delphia Buck, Parkersburg; and Mrs. Fleisic Tisure and Mrs. Eva Buck of Akron, Ohio.

Now She Shops "Cash and Carry" Without Painful Backache

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatism, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 60 years. Doan's gives happy relief and will help the 16 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

COURT ACTION UNFOLDS STRANGE STORY ABOUT CHILDLESS COUPLE

CHICAGO, Sept. 23. (AP) — The story of a wife who was to pretend to be the mother of her husband's child by another woman—a widow—was related in circuit court yesterday.

The story was unfolded by Atty. Harry X. Cole to Judge Julius H. Miner in connection with a suit for separate maintenance by Mrs. Natalie M. Whalen, 36. Her husband, Joseph, 41, a bus dispatcher, was in court. Absent was the widow, Mrs. Lillian Wille, 36, who lived next-door to the Whalens. Her husband died in July, 1947.

Cole said the Whalens, married for 19 years, were childless until they adopted Mrs. Wille's 18-

months-old daughter, Linda, in December, 1947. He said after Wille's death, Whalen spent five nights a week at Mr. Wille's home.

In January, Mrs. Wille told Mrs. Whalen she was an expectant mother and that Whalen was the father. Cole said the three agreed on a plan whereby Mrs. Whalen would tell her friends she was expecting a child in August and both Mrs. Wille and Mrs. Whalen would live Chicago in June. The widow was to have her child under the name of Whalen.

Mrs. Wille gave birth to a daughter, Faith, on Aug. 6 in suburban Waukegan, Cole said. Then she refused to turn the baby over to Mrs. Whalen.

Mrs. Whalen filed a suit for separate maintenance. Judge Miner ordered Whalen to pay \$36 a week temporary support. He awarded temporary custody of Linda to Mrs. Whalen.

Cole told the court Mrs. Whalen "still loves" her husband. "She will take him back, but only on one condition—that Mrs. Wille give Faith to her."

Judge Miner talked to the Whalens for an hour and Whalen agreed to consider for 30 days a possible reconciliation. Judge Miner also said he hoped to consult with Mrs. Wille.

A hide is composed of three layers, an inner, a middle and an outer. The outer layer is incapable of being tanned and is removed with the hair.

Italian Chamber Votes Down Wage Increase Proposal

ROME, Sept. 23. (AP) — While some 1 million Italian government workers demonstrated yesterday for higher pay, the chamber of deputies voted down a proposed wage increase 246 to 129.

More than 1,000 state workers staged a mass meeting in Rome's Piazza Santi Apostoli in response to a call by the Communist-dominated General Confederation of Labor. Renato Bitossi, confederation secretary general, demanded that the government meet the workers' requests.

Demonstrations also were held in Milan, Florence, and other leading cities, but no disorders were reported.

An increase of four per cent in the national cost of living index last month was reported by the institute of statistics.

Hollywood Actress Conscious Again

Hollywood, Sept. 23. (AP) — Actress Rita Johnson has regained consciousness in St. Vincent's hospital after being in a coma for 16 days.

A special nurse said yesterday that Miss Johnson could recognize persons in the hospital room but still was unable to talk. The actress' condition was described as much improved.

Standard Defends Two Of Its Men

NEW YORK, Sept. 23. (AP) — The Standard Oil Co. of New Jersey last night defended two of its American employes arrested in Hungary on charges of sabotage.

A company statement said the U. S. State Department had confirmed that the two men had been arrested Saturday in Budapest and were being held incommunicado.

The two are Paul Ruedemann and George A. Bannantine, officers of the firm's Hungarian affiliate. Hungarian officials claimed a drop in the oil concern's production was due to sabotage.

The company here said "no action of sabotage or acts in any way harmful to the Hungarian oil industry could be involved" in the arrests.

Miss America Will Model Swim Suits

LOS ANGELES, Sept. 23. (AP) — Something nice in bathing suits will be on display here for a few days. Miss America's in town. Beatrice Bebe Shopp, 18-year-old Minnesota product who won the

1948 beauty crown at Atlantic City, arrived by plane last night, attended by her mother and a retinue of bathing suit manufacturers.

Brunette Bebe flashed a smile and told reporters she is "not interested in husbands or movie or stage contracts." It's her first visit to California, but she isn't here on vacation. She will somehow find time to

Ask Change In Wind Insurance

AUSTIN, Sept. 23. (AP) — Individual citizens yesterday asked the state board of insurance commissioners to revise its policy on the wind-driven rain damage clause provided in Texas insurance. Texas policy requires only a hard blowing wind of storm strength to uphold a damage claim, even though no break may be caused in roof or walls.

Those persons asking a change in policy believed this clause is keeping windstorm insurance companies from writing policies in Texas. Lime dressing for the soil can be traced to the earliest records of British agriculture.

Prospective Food Surpluses Raise Price Support Fight

WASHINGTON, Sept. 23. (AP) — The price of food is high, and yet the government is guaranteeing the farmer a minimum price for 20 major crops. Most farmers understand the principles behind price supports but not so all the city folks with grocery bills to meet. The farmers know, for instance, that while the government was guaranteeing a certain price for some crops in the past few years, it was seldom that the market price fell below the guaranteed price. So the government seldom had to step in with heavy support. Attempts to stabilize crop prices by artificial means date back many years. At first farmers tried to do it by cooperative methods, by agreeing to withhold products from markets so there would be a scarcity and prices would stay up. During the Hoover administration the Agricultural Marketing Act of 1929 was passed in an effort to keep prices from falling because of farm surpluses. The government bought grain in an effort to keep up the farmers' prices. Then the Democrats came to power and passed the Agricultural Adjustment Act of 1933. Farmers agreed to limit the size of crops in return for benefit payments. The government attempted to finance these payments through taxes levied against food processors, but this was held unconstitutional in 1936. The government then began paying the farmers out of general revenues, raised by taxation and other means. Before the war the problem was to limit crops to prevent market glut and declining prices. In wartime the government guaranteed prices to encourage the farmers to produce all the food possible. That

is one reason the U. S. had as much food as it did. Thus price support plus crop controls—limiting acreages—have been used by the government at one time to limit production, and price supports have been used at another time to increase production. What's happened now is this: We have moved once more from a situation in which a scarcity of food was threatened, as during the war, into one in which surpluses may occur. After next year the law provides the supports may be lowered, in most cases. The price at which the government supports crops is based on a complicated formula. In general this formula attempts to tie crop prices with the farmer's cost of living. If the prices of the things he has to go up, so do the support prices. If farmers' costs go down, so do support prices. After 1949 the law also provides that the more abundant crop, the less support the farmers will receive, as far as most crops are concerned. This will tend to reduce unreasonable surpluses, agriculture experts say. Agriculture experts say price supports aren't responsible—or at least entirely responsible—for high prices. They point out that most market prices have been higher than the government support price. This, they say, has encouraged production. And high production, they add, is the best way to bring down prices.

Some experts are saying price supports must be cut in the face of this record production. But in the closing hours of Congress this year a bill was passed which continued the present supports through 1949. Any new changes would have to be made by Congress, and Congress won't meet until January. That's too late to have effect on some 1949 crops, like winter wheat.

ALL THREE STORES OPEN 7 DAYS A WEEK

Squash, Corn And Tomatoes Cooked Together Adds Variety To Dinner

Squash, Corn and Tomatoes (For cups. Remove skin from tomatoes two) and cut off stem ends; cut into quarters. Melt butter or margarine, 1 small thin-skinned summer squash, 2 medium-sized tomatoes (about 1/2 pound), 1/2 cup heat; add squash, cover and cook firmly packed whole grain corn or for about 5 minutes, stirring frequently. Add tomatoes, corn, salt, 1/4 teaspoon salt, dash of freshly-pepper, sugar and herbs. Mix well, ground pepper, 1/4 teaspoon sugar. Cover and cook, stirring frequently pinch of basil or a dried herb over moderate heat for about 10 minutes until all vegetables are blended.

Method: To prepare the squash cooked but tomato wedges still wash and cut off ends, quarter and hold their shape. Makes 2 to 3 slices; you should have about 2 servings.

Buttermilk Waffles For Any Meal Is Good

Ingredients: 2 cups sifted flour, 2 tablespoons sugar, 1 1/2 teaspoons baking powder, 1/4 teaspoon baking soda, 1 teaspoon salt, 2 eggs, separated, 1 1/2 cups buttermilk, 1/4 cup butter, melted.

Method: Mix and sift flour, sugar, baking powder, baking soda and salt into medium-sized mixing bowl. Beat egg whites with rotary beater until stiff but still moist. Add egg yolks to buttermilk and beat with rotary beater (it does not have to be washed) until blended. Make a well in dry ingredients. Pour in buttermilk and egg yolk mixture. Stir slightly. Pour in melted butter and mix quickly, just enough to moisten dry ingredients. Fold in egg whites and bake on a hot waffle iron. Serve immediately with butter and maple syrup. Makes about 6 waffles.

Use Fresh Pears For Desserts

This is the time to enjoy desserts made of fresh pears. Serve them "as is" with cheese and crackers or use them in a hot dessert for a fall dinner. Here's a most delicious way to bake the pears:

BAKED STUFFED PEARS: Ingredients: 6 large pears, 6 tablespoons brown sugar, 1 teaspoon grated orange rind, 1 cup orange juice, 1/4 cup cooking sherry. Method: Peel and core the pears and place them in a baking dish with a tightly fitting cover. Put a tablespoon of the brown sugar along with a little of the grated orange rind in the center of each pear. Pour the orange juice and sherry over the pears, cover, and bake until they are tender, basting a few times, in a moderate (375F.) oven, for about 40 minutes. Serve warm.

Buttered crumbs may be made by grating stale bread until you have a cupful; then melt two tablespoons of butter or margarine in a skillet, add one-eighth teaspoon of salt, a dash of pepper, and the crumbs and stir well with a fork. Use the crumbs as a topping for creamed vegetables or some other casserole dish.

Lima Olive Casserole Is Tasty Luncheon

Ingredients: 1/2 cup salad oil, 1 cup chopped onion, 1 cup chopped green pepper, 1 minced peeled garlic clove, 1 cup whole ripe olives, 1 teaspoon salt, 1 tablespoon cornstarch, 1 tablespoon chili powder, 1 1/4 cups bean liquid or water, 3 cups cooked lima beans, 1 cup grated yellow cheese.

Method: Heat the salad oil until it is quite hot, add the onion, green pepper, minced garlic and cooking over moderate heat, stirring frequently, until lightly browned. Put the salt, cornstarch and chili powder into a medium-sized mixing bowl, pour in 1/4 cup of the liquid and blend until smooth. Add the remaining liquid and stir well. Add the sauteed vegetables, olives (cut from pits in large pieces), beans and 1/4 cup of the cheese; mix well. Turn into a casserole, sprinkle with remaining cheese and bake in a moderate (375F.) oven about 30 minutes. Makes 6 to 8 servings.

Curried Lamb With Bananas

4 lamb shanks about 4 pounds
2 cups water
1/4 cup fat
1/2 cup finely diced onion
1-3 cup flour
1 teaspoon curry powder
1 teaspoon kitchen bouquet
1 teaspoon salt
1/2 cup seedless raisins
2 bananas

Place shanks on rack in pressure saucepan with water and cook at 15 pounds pressure for 15 minutes. Or cook on top of the range for about 1 hour. Let meat cool slightly in broth. Remove meat from bones, cutting in large cubes. There should be about 2 cups of meat. Measure broth, adding water to make 3 cups if necessary. Melt fat in saucepan. Add onion and cook over moderate heat until tender but not brown, about 5 minutes. Combine flour, curry powder and salt. Stir into fat-onion mixture. Add lamb broth and cook, stirring constantly, until the gravy thickens. Add kitchen bouquet and raisins. Just before serving add bananas cut diagonally in 1-inch pieces. Cook 5 minutes longer. Serve over hot cooked rice. Makes 4 servings.

SHOVEL and HOE

A Garden Column by Virginia Scott. Presented by the Big Spring Garden Club.

Looking through the fall catalogs, we find several interesting plants of recent introduction. Clark's Giant, a new, patented Lilac is described as "the biggest and best Lilac in cultivation." This sounds good and we have every reason to believe the information correct.

The individual flowers of this Lilac are one and one-fourth to one and one-half inches across. The flower clusters are about twelve inches long and seven to eight inches wide. The color is soft Genetian Blue when fully opened. Very fragrant, also a bit more expensive than most new shrubs.

The large flowered Mockoranges are available again. Atlas is the variety most sought. It has blooms about three inches in diameter. Hardy and good in every respect. A new, double Mockorange, called "enchantment," is described as "a gorgeous shrub." Very tall, fragrant, and will do quite well in light shade.

A six foot Mockorange, Innocence, is the whitest of all. Bears great quantities of blossoms that make other varieties seem washed out in comparison. Very sweet smelling.

SOME OTHER GOOD PLANTS
Among the Floribunda Roses, Glorious seems to be of special merit. Glorious is described as well branched and vigorous. The color is Tyrian rose. The flowers are said literally to cover the plants. Semi-double bloom.

Oriental Poppies can still be planted. They are very colorful and will be an addition to almost any garden. If the colors are chosen to blend with other plants. One of the more recent and sensational varieties is Snowflake. It is pure white in the lower half, the upper half being flame-orange. Strong grower and free bloomer.

If you like red roses, the hardy climber, Thor, will be a good one to plant this fall. We planted several this spring, late, and they have sent up long, handsome branches in spite of hot, dry weather. Flowers have from fifty-five to sixty petals. Claimed by Horvath to be his finest creation.

SELECTING TULIPS
It is not too early to order Tulip Bulbs. There are many garden types, most of them beautiful. The old English Cottage Tulips are fine for cutting, the Darwins are always sturdy, and the Giant Breeders have rare colors. The Parrot Tulips have been brought up to the fancier's expectation, while the single and double Early Tulips will pep up the spring garden.

It is not hard to choose varieties from these types as they are all pretty, and if you get the color you want, you can hardly go wrong on any of them. By ordering early, you will get good bulbs and have them on hand when time comes to plant.

Some gardeners like a mixture of colors in Tulips. It is fun to see them bud and wonder what color they are going to be, also to select them for cutting from a large border or bed. For garden decoration, we like one color, but that is just a matter of personal preference. They look beautiful almost any way except when the colors absolutely clash with each other.

Good Potato Salad To Serve With Cold Cuts

For a delicious potato salad to serve with cold cuts or grilled frankfurters, try the following recipe. If you add the salad dressing to the potatoes while they're hot, as suggested, you'll find this "trick of the trade" does something for the salad.

HOMEMADE POTATO SALAD: Ingredients: 6 cups cooked, cubed hot potatoes, 1/2 cup commercially-prepared salad dressing (creamy type), 1/4 cup thick sour cream, 1 tablespoon cider vinegar, 1 tablespoon tarragon vinegar, 2 tablespoons finely grated onion juice and pulp, 1 teaspoon (about) salt, freshly-ground pepper to taste, 2-3 cup diced cucumber, 3 tablespoons finely chopped green pepper, 1/4 cup finely chopped parsley, paprika. Method: Boil unpeeled potatoes in salted water until tender. Drain, peel off jackets, cube in rather large pieces. About six medium-sized potatoes (two-pounds) will be needed to make the 6 cups called for. Put the cubed hot potatoes in a mixing bowl, add the salad dressing, sour cream, vinegars, onion, salt and pepper, cucumber and green pepper. Mix well and turn into serving dish. Sprinkle top thickly with finely chopped parsley and dust with well with paprika. Chill. Makes 6 servings.

WATER—Ruth Roman of the movie 'The Water in Trail Creek at Sun Valley, Idaho.'

Gotham's Cabbies Show Hacking Is Art

NEW YORK, Sept. 23. (AP)—The frail bodies of people in New York who ride taxicabs are entrusted to the most carefully-screened drivers in the world.

The hatless and adequate individuals who handle this city's 11,190 cabs conform to regulations that would fill the average motorist with despair.

They are hatless because it is a violation of New York law for them to wear hats.

The penalty for smoking, arguing or using obscene language while carrying passengers is instant loss of license.

At no time may their vehicles have curtains.

To qualify for a license, they must be 21, live in New York, and be a citizen of the United States. Itinerant drivers are barred by law.

They must be able to read, write, and speak English clearly, and they must pass rigid physical examinations. On the subject of physical fitness, the law is specific: "Drivers shall be of sound physique, with good eyesight and not subject to epilepsy, vertigo, heart trouble, or any other infirmity of body or mind which might render

him unfit for the safe operation of a vehicle."

Perhaps most important of all, no driver qualifies for hack duty until after he has been a licensed chauffeur or operator of motor vehicles for at least three years.

Sometime ago a survey of 50 American cities by the publication Taxicab Industry disclosed that a majority of traffic accidents involved drivers of minimum experience. The breakdown showed that 47 per cent occurred where drivers had less than a year's experience. Only 6 per cent of all accidents were where drivers had as much as 10 years' experience.

It is an indication of the concern New York feels for its citizens and visitors that a minimum of three years' experience is necessary before any cab driver can be licensed.

The records of the Police Department's division of licenses show that the big taxi fleets, composed of 6,222 cabs, are owned by some two hundred corporations. These figures are fixed by law. In addition there are 4,970 independent cabs. The total number of drivers is 25,800, of which 3,300 are Negroes.

According to the Parmelee System, one of the large fleet operators, the average cab has an annual revenue of about \$7,500 for a single shift. Drivers keep 42 1/2 per cent, plus tips. The busiest hours are reckoned from 7:30 to 10 a. m. and from 5 to 9 p. m., but a little rain keeps a driver busy all day.

It is estimated that New York's drivers carry more than a million passengers a day. The total revenue is estimated at about \$300,000 to \$320,000 a day. The average cab hauls 60 fares daily. Total annual intake is about \$115,000,000.

Arab Says Report By Bernadotte Can't Be Accepted Now

BAGHDAD, Iraq, Sept. 23. (AP)—The Bernadotte report on Palestine, including partition of the Holy Land, cannot be accepted by Arab states, Jamal Hussein said today. He is interior minister in a projected Arab Palestine state.

Hussein, a nephew of the exiled mufti of Jerusalem, expressed yesterday the "determination of Palestine Arabs to resist partition with all their might."

He arrived here for conferences with Iraqi government officials on Palestine. Both Iraq and Trans-Jordan have expressed opposition to formation of an Arab Palestine government as announced by the Arab league.

CRIPPS SEES NO IMMEDIATE WAR

OTTAWA, Sept. 23. (AP)—Sir Stafford Cripps believes there is not much possibility of a war soon.

But "accidents can always happen," he added in an interview here yesterday.

Public Hearing Set For Fired Teacher

BALTIMORE, Sept. 23. (AP)—The Baltimore school board will hold a public hearing today for Mrs. Regina Frankfeld, who was fired as a kindergarten teacher because she is a communist.

Mrs. Frankfeld's husband, Philip Frankfeld, is chairman of the Communist party in Maryland and the District of Columbia.

She was not assigned as a teacher this year because of a ruling, adopted by the school board several months ago, which bars Communists or people with "subversive beliefs" from teaching in the public schools.

PRACTICAL JOKE JUST TOO STRONG

YORK, N. Y., Sept. 23. (AP)—When an unwanted taxicab arrived at a three-family apartment house in York, the tenants decided it was just a mistake.

Then a fire engine roared up to the apartment house door take with siren screaming yesterday and a few minutes later an undertaker rang the bell.

During the remainder of the day, a steady parade of unrequested goods and services arrived, including an automobile wrecking car, two coal trucks, an exterminator and five cleaners' trucks.

The three families decided there had been no mistake and asked police to attempt to find the practical joker responsible.

Explosions In Two North Africa Areas Kill 33, Hurt 147

CAIRO, Sept. 23. (AP)—Explosions in two North African communities yesterday killed 33 persons and injured 147.

A blast in the village of Lazhouat in Southern Algeria killed 19 and wounded 100, 20 seriously. A shattering explosion in Cairo's Jewish quarter killed 14 and injured 47.

The Algerian disaster occurred when two French army trucks loaded with explosives collided. The French news agency said. Fire following the blast destroyed most of the community, causing damage estimated at \$1 million.

Cairo police said the explosion there was due to "internal" causes.

Soil Conservation Given Attention In Special Edition

PARIS, Sept. 23. (AP)—The Paris News published a soil conservation edition of 52 pages, believed to be the largest edition of its nature ever printed.

Every advertisement in the issue was devoted to the topic of saving the land. Articles by soil experts, business and professional men discuss the conservation of natural resources from a multitude of angles.

The edition is illustrated profusely with examples of good land use and the lack of it.

The issue is a prelude to the annual national meeting of Friends of the Land at Oklahoma City October 7 to 9.

Europe Flies Jews To Their New Home

PARIS, Sept. 23. (AP)—Almost 300 homeless European Jews have been flown to Australia so far this year by the largely American-financed Hebrew Immigrant Aid Society.

"This can't be happening to me," an 80-year-old woman said when she boarded the plane last week in Brussels for a flight to Melbourne.

"I've spent the last five years in freight cars and now I'm flying."

The last plane load was a flight of 50 which went to Melbourne by way of Karachi, Pakistan, Ceylon, Java and Darwin. They were destined to live at first in the homes of remote relatives whom they had never seen.

Shipping companies, who offer a limited space to refugees, forced HIAS to arrange for the air route, an official said. Only 25 per cent of the passenger lists of ships plying between Europe and Australia can be secured by refugees.

The society is gathering up new plane loads of refugees every few weeks. The homeless assemble in the Paris office where they usually come with their bottles of wine, loaves of bread and extra clothes often wrapped in blankets.

In Paris the frightened homeless Jews, many of them graduates of the worst of Hitler's concentration camps, are given new clothes and

medical attention.

From Paris the immigrants are taken to Brussels where they are put aboard giant Sabena airlines planes.

"Some of them are terrified at the thought of living in an airplane for four days," a HIAS representative said. "But none ever turns back."

Alcoholics Anonymous Impresses Outsiders As Well As Members

By LEATRICE ROSS

"Alcoholics Anonymous is such a good, sincere organization that you almost want to be a member—alcoholic or not." We heard a girl make that statement at the conclusion of the monthly AA open house. She meant it and she was right.

What do you know about the AA? Furthermore, what do you want to know?

Alcoholics Anonymous in Big Spring is about three years old. It is composed of men and women who can't take a drink of liquor—but who don't want to, anymore. They are just one drink from ill-

ness, unhappiness, mental upset.

Here are some things you should know about alcoholism:

It is a disease. You've always heard that—and it's true. A drunkard may drink because he wants to, because it gives him freedom or courage or whatever. But an alcoholic has to drink to keep his mind and body together. Alcohol gets "hold of him."

Alcoholism may begin with social drinking. There are many men and women who can chuck away cocktails with no ill effect. But there are others who just think they can. And there's the story of a weekend fishing trip, the car is loaded with liquor, but someone forgets the

tackle.

Alcoholism is cured by quitting liquor. That's where Alcoholics Anonymous comes in. The AA is a program, it's an institution, it's a way of life. The members of AA don't like it called an organization; they speak of it as a fellowship. The AA's indeed are together. They say they keep each other from drinking; they have a common need and help each other. Once they've gotten hold of themselves they can and do help others. They want to.

Alcoholism often keeps a man from his God. The AA can bring that relationship back again. It can give a man back his confidence, his assurance and his ability to be normal again.

That monthly open meeting of the AA holds for alcoholics and for those who have friends or relatives who are alcoholic. It is for the public to become acquainted

with the AA program and thus to be behind it. It is to contact some man or woman who needs help.

The AA's chat with visitors and feed them. Wives of the members are present. It makes you realize that people are still fine.

Season scrambled eggs with a little Worcestershire sauce, as well as salt and freshly-ground pepper; then serve with creamed dried beef and mushrooms for Sunday Brunch. To make this a company meal start with a fresh fruit cocktail, add popovers, lots of good strong coffee and homemade peach or plum preserves.

ARTIFICIAL KIDNEYS

Sausage Skins Are Life Savers

BUFFALO, N. Y., Sept. 23 (AP)—The lowly sausage casing does a medical job in artificial kidneys that sometimes save persons dying of blood poisoning.

Sausage skin often is made of cellulose acetate. In the mechanical kidney, the same stuff filters poisons out of human blood, just as normal kidneys do.

The mechanical kidney is a machine used outside the body. The patient's blood is pumped through it and back into his body again. Its

main value now is in last-resort attempts to save persons suffering from certain kinds of blood poisoning that develop when their kidneys fail to work.

The first such machine, a big apparatus, was invented by Dr. W. J. Kolff of Holland. Recently three Canadians, Dr. Gordon Murray, Dr. Edmund DeLorme, and Newell Thomas, developed a kidney using the cellulose filter, plus a pump. A third one, with some improvements, was designed and is operated here by Dr. George S. Slotkin, of Millard Fillmore Hospital and the University of Buffalo Medical School.

It can't substitute for or repair permanently damaged kidneys. But it can take the poisons out of blood and give the kidneys a rest. Benefits are only temporary unless the brief holiday helps the real kidneys recover and go back to work.

It may save lives in kidney failure and blood poisoning due to metals, to reactions after blood transfusions, acute nephritis, a kidney disease, or certain blood poisonings during pregnancy, Dr. Slotkin said. It does not help in chronic nephritis or in high blood pressure.

In the machine here, the patient's blood is drawn from a vein in the abdomen and then is pumped through 100 feet of narrow tubing made of cellulose acetate. This tubing is coiled around the inside of a six-gallon plastic jar. The jar is filled with a special chemical bath, stirred by a propeller. The blood is purified as it passes through the tubing. Poisonous salts in the blood pass through the tubing into the chemical bath. The tubing permits only one-way traffic for these poisons. Nothing in the bath can enter the blood. And only the toxins in the blood are small enough to pass out through the tubing. At intervals some of the chemical bath is drawn off and fresh material added. An air trap captures any bubbles or blood clots, and the blood then flows back into another vein in the patient's body. A drug, heparin, is used to prevent blood from clotting.

Dr. Slotkin's machine can operate at 70 different speeds of blood flow. The speed is adjusted to the patient's body size and blood pressure. It usually takes four hours for a person's blood to be completely de-toxified.

DON'T SHOW JUNIOR THIS

WASHINGTON, Sept. 23 (AP)—By no means show this to junior. After four years of schooling a lot of people—five per cent — can neither read nor write.

On the other hand, 20 per cent of those who hadn't even one year of school told government poll takers they can do both.

The census bureau—which is interested in facts, not in encouraging your youngster to truancy—released the figures in a survey on illiteracy.

Stassen To Appear For Amarillo Talk

AMARILLO, Sept. 23 (AP)—The Republican presidential campaign will be boosted here Oct. 15 by Harold E. Stassen, former governor of Minnesota who was defeated for the nomination by Gov. Thomas E. Dewey of New York. Stassen picked Amarillo for his only speech in Texas because his Texas delegate to the national convention was Miss Ruthelle Bacon, Republican state committeewoman from Amarillo, and because his Texas organizer, Bascom Kemp III, lives here.

More Civil Service Experts Are Needed

TOKYO, Sept. 23 (AP)—More American civil service experts are needed to put into effect Japan's law banning strikes by government workers.

Blaine Hoover, chief of the civil service division at allied headquarters, is en route to Washington today to recruit additional staff members.

How To Prepare Creamed Chicken For Saturday Night Buffet Supper

Since fowl is usually less expensive than fryers, broilers or roast-

Serve Fish Rolls For Sunday Supper

If you want a good-tasting, easy-to-make Sunday night supper dish try the following recipe. One of the handy things about this recipe is the way you can vary the ingredients: substitute another cooked fish, sometime, for the salmon; and crisp diced celery mixed with a little chopped pimiento can double for the ripe olives on occasion. Serve the rolls with a mixed salad made of cooked vegetables and hot apple pie and cheese for dessert, and you'll have a delicious meal.

FISH ROLLS: Ingredients: 1 cup ripe olives, 2½ cups thick white sauce, 1½ cups flaked canned or cooked salmon, salt and pepper to taste, 6 long soft rolls, ½ cup grated yellow cheese, finely chopped parsley. Method: Cut olives from pits in large pieces. Mix together sauce, salmon, salt and pepper, olives and cheese and heat thoroughly. Slit tops of rolls down center but do not cut through bottom crust; fill with hot salmon mixture. Sprinkle each roll with a little chopped parsley. Serve at once. Makes 6 servings.

ing chickens they are often a good weekend buy. A five-pound chicken will make the following good creamed chicken dish and there will be plenty left over for delicious club sandwiches for Sunday night supper.

The new wrinkle in this recipe is to add the celery raw, then heat it thoroughly with the diced chicken and sauce; this way the crisp crescents give a crunchy fresh-tasting touch. When I served this chicken dish recently we had baked sweet potatoes and baked crumbed tomatoes with it; a salad wasn't necessary because of the celery with the chicken. And while the oven's on for the potatoes and tomatoes you can mix up a simple pudding or cake to bake at the same time, to serve as dessert.

CREAMED CHICKEN AND CELERY: Ingredients: 4 tablespoons fat, 5 tablespoons flour, 1½ cups milk, 1 cup chicken stock, salt and pepper to taste, 1 cup thinly sliced celery, 2½ cups diced chicken meat blanched toasted almonds (if desired). Method: Melt fat in top of double broiler over direct heat but do not brown. Add flour and mix well. Remove from heat. Add milk and chicken stock slowly, stirring until smooth (with a wooden spoon or a whisk) after each addition.

Return to moderate heat and cook, stirring constantly, until thick. Season with salt and pepper. Add celery and chicken and stir well. Place over boiling water on range and reheat, stirring frequently, until celery is thoroughly hot. Serve over thin crisp toast, if desired, topped with toasted almonds.

Old Fashioned Tomato Slices

What do you serve with fish for a Friday meal? With broiled or fried fillets mashed or boiled potatoes and creamed spinach taste good; and then for color contrast and good flavor combination we suggest a plate of tomato slices seasoned the old-fashioned way, as the following rule directs:

OLD FASHIONED TOMATO SLICES: Ingredients: 1 pound tomatoes, 1 teaspoon sugar, ¼ teaspoon salt, ¼ teaspoon dried crumbled or fresh minced basil, 1 tablespoon white or cider vinegar. Method: Wash tomatoes, cut off ends and slice in about ¼-inch slices. Arrange on large serving plate. Put sugar, salt and basil in a small bowl or cup; add the vinegar and stir well to dissolve sugar and salt. Pour over tomato slices. Prepare shortly before serving time and refrigerate, basting a few times with the liquid on the bottom of the plate. After serving leftover vinegar mixture may be strained and used in a salad dressing if desired.

Luncheon Souffle With Mushrooms

Ingredients: ¼ cup butter or margarine, ¼ cup finely diced onion, ¼ cup flour, 1 cup milk, one 3-ounce can chopped broiled mushrooms, ¼ cup diced yellow American cheese, 3 eggs (separated), ¼ teaspoon celery salt, ¼ teaspoon dry mustard, 1 cup diced cooked ham or luncheon meat.

Method: Melt butter or margarine in saucepan over moderate heat. Add onion and cook 5 minutes, stirring frequently. Stir in flour. Add milk and contents of can of mushrooms. Cook, stirring constantly, until sauce thickens. Turn heat low, add cheese and stir until cheese melts. Remove from heat; stir a little of the hot mixture into beaten egg yolks; combine with rest of sauce, add celery salt, mustard and ham or luncheon meat and stir well. Beat egg whites until stiff but not dry. Fold into meat and mushroom mixture. Turn into ungreased 1½ quart round baking dish. Bake in moderate (350 F.) oven about 1 hour or until firm. Serve immediately. Makes 4 servings.

Prune Yeast Bread Adds Meal Variety

PRUNE YEAST BREAD
1 cup coarsely ground prunes
½ cake compressed yeast
1 cup lukewarm water
1 teaspoon salt
1 egg

2 tablespoons dark molasses
5½ cups sifted all-purpose flour
½ cup bran
2 tablespoons melted butter or margarine

To prepare prunes, cover generously with water and boil 15 minutes. Drain, remove pits, and put through food chopper using coarse knife. Measure 1 cup prunes. Crumble yeast into large bowl. Add water, salt and beaten egg. Stir until yeast is thoroughly dissolved. Add 2 cups flour and beat until smooth. Add molasses, bran, prunes, and melted butter or margarine; stir until thoroughly mixed. Work in remaining flour. Knead well on floured board. Return to bowl, rub butter or margarine over top, cover, and store in refrigerator several hours or overnight. Turn onto floured board and knead well. Divide dough into two parts and shape into loaves. Place in greased pans and let rise in warm place almost doubled in bulk. Bake in moderate (350 F.) oven about 45 minutes to 1 hour. Makes 2 small loaves or 1 large loaf and 1 pan roll.

Nation's Rent Bill Averages 12 Pct. Of Monthly Income

WASHINGTON, Sept. 23. (AP)—If you're paying the traditional week's wages for one month's rent, then it's costing you twice the average rent-payer's outlay, a government report shows.

Some 17 million Americans were paying out an average of 12 per cent of their monthly income for rent at the start of the year, the Federal Reserve Board said. The median rent was \$30—which means half the nation's renters paid more than that, the other half less.

The Reserve Board also disclosed that the number of home owners has risen to a record 18 1/2 million total. And it indicated that many of these wish they were renters instead.

"The acute shortage of rental units has no doubt forced many families to buy homes, often at inflated prices and somewhat beyond their means, simply in order to obtain shelter," the report said. The survey, which did not cover people who own or rent farms, also showed:

1. Some 2 million families were sharing other families' quarters rent-free.
2. Families with low-income paid out a bigger slice for rent, with a top of 21 per cent for those with incomes under \$2,000. Families earning \$5,000 or more, averaged only nine per cent for rental payments.
3. "Two-person families with no children seemed to have paid somewhat higher rents than any of those with children." And families with one child "usually paid more rent than did those with two or more children."
4. Two out of three families with incomes under \$3,000 owned their own homes—at least, they had the titles plus a mortgage on them. Among families with over \$7,500, three out of four were home owners.
5. Ownership rose in pace with age. It also was much more frequent in smaller communities than in metropolitan centers, where many are "cliff-dwelling" apartment renters.
6. The group of persons who own their own businesses or manage somebody else's—the nation's top income group—had the highest proportion of home owners. Renters in that class also paid higher sums than persons in other occupations.
7. About half of all home owners spent something on repairs and additions during 1947, with \$270 the average sum.

No Site Yet Chosen For Laboratory

WASHINGTON, Sept. 23. (AP)—Choice of an island site for the Agriculture Department's authorized \$30,000,000 foot and mouth research laboratory is still up in the air. Congress may have to settle the issue.

Department officials said today that a report to be submitted soon to a congressional committee will not recommend a specific site.

Earlier this year Congress approved establishment of the laboratory. The disease, which afflicts cattle, has been prevalent in parts of Mexico. Selection of a site was left to the department.

The law stipulates only that the laboratory be an island somewhere off the mainland coasts. Many Congressmen expressed fear of popular reaction to its establishment on the mainland, although similar laboratories have existed for years near big urban centers in Europe.

Florida racing dates next winter are: Tropical Park, Dec. 1 through Jan. 15; Hialeah Park, Jan. 17-March 3 and Gulfstream Park, March 4-April 19. Each track runs 40 days.

"The Home of Famous Hickey-Freeman Clothing"

The Telephone Company's cost of living in Big Spring has gone up, too!

When the telephone company goes to market today, it finds, just as you do, that the cost of living has gone up.

While you buy food, clothing, and fuel, the telephone company fills its market-basket with poles, trucks, cables and copper wire. Here is what has happened to the cost of these items since 1940.

A telephone pole that cost \$6.30 in 1940 now costs us \$18.11.

Building costs have more than doubled.

Telephone cable costs more because copper is up 105 per cent and lead is up 240 per cent.

In addition, the payroll is more than four times as high as in 1941 as a result of a larger number of employees needed here and because of several general wage increases that have been granted to telephone employees in recent years.

Telephone revenues are up too, for there are more telephones in use today in Big Spring than ever before.

But expenses have risen faster than revenues, and the telephone company is operating the Big Spring exchange at a loss. We are not collecting enough money for telephone service in Big Spring to pay the actual cost of furnishing the service and allow a reasonable return on our investment here.

To put earnings on a sound basis, an adjustment in telephone rates, established 20 years ago, is necessary if we are to continue to enlarge the telephone system to furnish more and better telephone service to the people of Big Spring.

SOUTHWESTERN BELL TELEPHONE COMPANY.
