1985 Palo Duro report

The Palo Duro River Authority (PDRA) is a sub-political body of the State of Texas and was established by the 63rd Legislature, Regular Session, 1973, Chapter 438. The Palo Duro River Authority consists of Hansford County, Moore County, and the City of Stinnett, which was designated by the Department of Commerce in July of 1973 as a Title IV Re-development Area under the Public Works and economic Development Act of 1965, as amended.

The Palo Duro River Authority purposes to build a multi-purpose lake which will include water supply, treatment plant, distribution system, and recreation on the Palo Duro River 11 miles North of Spearman, Hansford County, Tx. This dam will impound a reservoir of 60,900 acre feet of water covering a surface of approximately 2,500 acres, with a daily sustained yield of 7.8 million gallons of water. This water will be used as municipal water supply for Gruver, Spearman, Cactus, Sunray, Dumas, and Stinnett, Texas for a combined total population of some 30,000.

In establishing this reservoir, there will be a loss of less than 100 acres of cultivated land and only two old homesteads will have to be relocated. The completed project will protect watershed lands from erosion and maintain or increase productivity, increase efficiency of use of irrigation water; reduce flooding of the roads, agricultural lands, and homestead properties in northern Texas and Oklahoma; reduce deposit of sediment on the flood plain and volume of sediment contributed to the North Canadian River; reduce streambank erosion and allow re-establishment of trees, shrubs, and other once existing vegetation long since washed away; provide incidental ground water recharge for irrigation; create surface water for waterfowl and fishery resources; improve wildlife habitat on flood plain; increase migratory water fowl protection; create opportunities for additional employment and income to households; increase demand for goods and services, and initially reduce runoff to the North Canadian River.

This site being studied by the Corp of Engineers is the only site North of the South Canadian River.

Ultimately, the reservoir will serve as a site for the storage of imported water to be used to irrigate the crop lands within the boundaries of the Palo Duro River Authority. Immediately, the reservoir will serve to attract light industry of an agricultural business nature to that instead of the present steady rural depletion and deterioration, there will be rural development, thus helping to bring about a better urban-rural population balance than is now the situation in Texas.

It is estimated that in the three year period following the completion of the dam, the Palo Duro River Authority area would gain some 1,900 jobs, these jobs would create not only an expanding population with sound economic base, but would obviously turn around the present population loss rate.

The Palo Duro River Authority in 1978, issued \$6,500,000.00 in revenue bonds for pollution control and in 1982 we issued another \$6,000,000.00 These bonds will build facilities to provide air and water pollution control at the Kerr-McKee Diamond Shamrock gasoline plant in Moore County. At the present time, the Army Corps of Engineers has completed a feasibility study and they are now pursuing the project.

The Board of Engineers for Rivers and Harbors of the U.S. Army Corps of Engineers has announced it is recommending the project. It has now been sent to the Secretary of the Army, the Office of Management and Budget, and the Congress.

This project is located over the Ogallala Aquifer which is depleting year by year. This the reason the project should be built.

The beautiful home of "Among the Neighbors" Helen Fisher is clothed in a bright, icy cover, as the temperatures dropped to near 0 this week. Helen not only has a beautiful home, with large trees, but she does an excellent job with her column each week...

to publish
letters to Santa

Once again it's that time of year for all the good little boys and girls to write their letters to Santa Claus.

This year, the Reporter has been designated as an official, area drop-off point for letters to Santa. Children are welcome to bring their letters to the Reporter office, downtown Main Street.

The Reporter will print the letters in its paper each week and in our Christmas edition on Dec.

24th, before forwarding the letters via reindeer mail, to the North Pole. Mr. and Mrs. Claus, along with all the elves, will have plenty of time to read the letters before Christmas.

But remember, all letters must be received at the Reporter no later than 10 a.m., Dec. 23rd - and the sooner the better. Letters after that date, they will not have time to reach the North Pole.

Rotary Program held here Mon.!

Mrs. Gerry Fultz brought the Rotary program on Monday of this week. The program was a Management and Leadership, and enjoyed by all present.

Jack Oakes and Dennis Robertson gave the program last week. The Rotarians learned what the upcoming bond election for Hansford Manor would include. Not only will the Manor be expanded, this bond will provide some improvements and expansion at the hospital. This will include a new kitchen and dining room to be used by both the hospital and Hansford Manor.

One guest included Robert Holland, of Perryton. Absentees were Don Hawkings, John Hutchison and Jim Shirley.

SAD NEWS:

Kathy S. Matney, Director of Development at Parkland Hospital in Dallas, cites this thought-provoking commentary that could be applicable to most any business

anywhere:

Our organization was saddened to learn of the death this week of one of our most valuable volunteers, Someone Else.

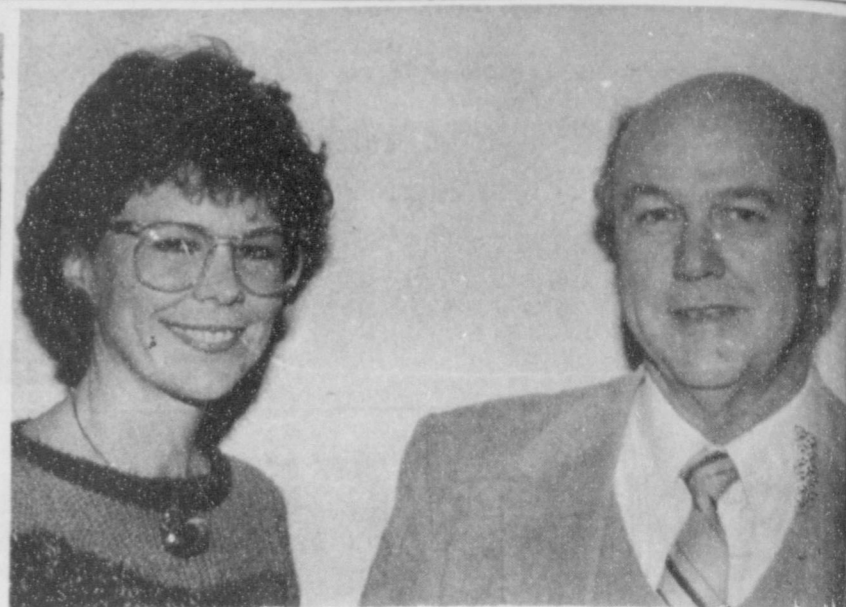

Someone's passing creates a vacancy that will be difficult to fill. Else has been with us for many years. Someone did far more than a normal person's share of the work.

Whenever there was job to do, a committee to chair, one name was on everyone's list, "Let Someone Else do it."

It was common knowledge that Someone Else was among the most generous contributors of time and effort. Whenever there was a special need to be met, everyone just assumed Someone Else would meet it. Now, Someone Else is gone! We wonder what we are going to do. Someone Else left a wonderful example to follow, but WHO is going to do the things Someone Else did?

Edgar Womble receives winning cassette from Mrs. Fultz. Mrs. Fultz gave the program.

Candy Boxwell, president of the Spearman PTA visits with Mr. Atkinson who gave the program.

Santa Crossed Unsafe Toys

Before Santa comes to town this holiday season, the Texas Society to Prevent Blindness (TSPB) Amarillo Branch hopes he will have crossed unsafe toys off the request lists children from Texas have sent him.

According to the Society, last year an estimated 5,035 children were treated in hospital emergency rooms for toy-related eye injuries. More than 80 percent of them were under age 15.

"Toy injuries can be prevented," says Gwen Frazee, Presi-

dent of the Amarillo Branch of TSPB. "However, the gifts that Santa—and parents—leave under the tree this holiday should be carefully selected."

The Society recommends that before making purchases, buyers inspect the toy and consider if it is appropriate for the child and his or her maturity level. "Toys purchased for one child often find their way into the hands of younger, less adept children," Mrs. Frazee says. "This can be especially hazardous."

The Society also suggests that shoppers keep a lookout for these potential hazards:

- Check toys for any sharp, exposed edges, points, nails, screws and pins.
- Avoid projectile items, such as guns that shoot darts or cork.
- Examine dolls, stuffed animals and other cuddly toys for rigid interior frames that can poke through outside coverings.
- Check for loose parts that can become unattached, exposing sharp metal or plastic.
- Avoid toys that can shatter.

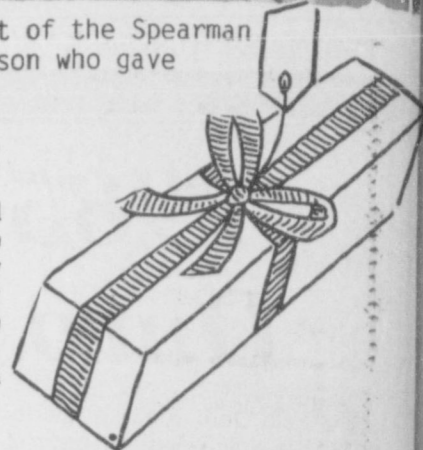

The Society is especially concerned that parents and friends continue to purchase projectile non-toys for children. These include air and spring operated guns, slingshots, bows and arrows and darts. Last year, these items resulted in approximately 3,600 people suffering eye injuries that required hospital emergency room treatment.

"This year, keep the holiday spirits happy by only giving safe gifts and toys," says Mrs. Frazee.

For further information on year-round children's eye safety, write for a copy of the Society's free brochure, "Play It Safe," to:

Prevent Blindness--P.O. Box 7602, Amarillo, TX 79114.

Founded in 1908, the National Society to Prevent Blindness is the oldest voluntary health agency nationally engaged in preventing blindness through a comprehensive program of community services, public and professional education and research.

Gruber Music Club will be having their Christmas Bazaar on December 10th from 10 a.m. to 1 a.m. at the La Casita Room at the Gruber State Bank.

Support your local Salvation Army

Joan Hawkins and Johnnie Lee are in charge of the local Salvation Army!

The Salvation Army of Spearman needs your support. The chapter of the Spearman Salvation Army would like to ask the Hansford county community for their generous donations to our local chapter. The Salvation Army is running out of money. Most people in this area do not know that we have a chapter in Spearman but we do. We need to help this organization because it is of great help to us and our community. The Salvation Army helps not only in ways of clothing, food, shelter, but also with medication, money, and transportation. For example: a elderly couple were going thru Spearman on their way to Indiana. The couple were out of

money and one of the Citizens of the Golden Spread Center spotted them on the street and stopped to see if they could help. They took them to the County Judges office and the judge which is in charge of the Salvation Army helped them by buying them a bus ticket to Indiana. The Salvation Army is a good and valuable organization which should be helped. Just like they help others. May your heart open up to them this Christmas season. The budget of the Salvation at this time is less than \$50.00. So if you can contribute just a little it will be appreciated. For more information please contact the County Judge's office.

Boxes displayed at library

A collection of boxes is on display at Hansford County Library during December, along with an assortment of very old Christmas Cards.

The postcards belonged to the late Jesse & Lula Womble and Caleb and Mary Pettitt. They date back to the early 1900's.

Sybil Miller is the owner of these collections. She acquired the cards from relatives of these old-time County residents.

The boxes, both would and tin, range from hand-decorated ones by Mrs. Miller, to 100-yr. old antiques. One is a carved glove box

made years ago by "Aunt" Dink Hoskins. One is a powder box owned by Dink's sister, Mrs. Cooke. Another is a large oval box (handmade) and painted by a woman who publishes folk-art books. A round box was painted by a man from New England who was

a protege' of Peter Ompir. Two tin document boxes, one still has original design, one restored by the owner, date back to the early 1800s.

The public may view these collections during Library hours through December.

DANNY GAMBLE

BOB HUNNICUTT

Danny Gamble and Bob Hunnicutt will be exhibiting and selling their art work at the Hansford County Library on Tuesday, December 10 from 10:00 a.m. - 4:30 p.m. The library is located at 122 Main Street in Spearman. The artists will donate 15% of their proceeds to the library.

Danny Gamble grew up on a farm in a small community near Hollis Oklahoma. He now lives in the country near Canyon, Texas, but instead of cultivating the soil he portrays the rural scenes of the Southwest with watercolor using his techniques which have made him well-known and his paintings easily recognized.

While a student at Southwestern Oklahoma University, Weatherford, Oklahoma, Danny was first introduced to art. After graduating with a B.A. degree, he moved to Amarillo, Texas where he taught in the public schools and Amarillo College for eight years. During this period, Danny developed a love for watercolor and was fascinated by the versatility of the media. His favorite subject-matter consists of windmills, old houses and barns, and other nostalgic scenes of the Southwest.

Danny conducts watercolor workshops throughout the Southwest. His paintings hang in numerous galleries and private collections in the United States and abroad.

Bob Hunnicutt was born in Achille, Oklahoma. At the age of six he moved to Spearman, Texas for two years, then to Channing, Texas where he resides today. Bob began working on area ranches at a very early age, and developed a strong love and admiration for the great outdoors and the working cowboy. His memories of rodeoing seven years, bunkhouse tales and actual experiences on area ranches have enabled him to reproduce in bronze what is actually happening on our ranches and in our rodeo arenas today.

Bob has a studio on the banks of the Canadian River near Boys Ranch where he does his research and waxes, which he then casts at his Bronze Art Foundry in Channing.

Putting some method into Christmas shopping madness can make it a more enjoyable holiday season.

People often think that planning for Christmas shopping means you get it all done in August. But you can benefit from advance planning whether you have three months or three hours to complete the task.

Write down the name of each person you intend to give a gift to, and noting a maximum and minimum amounts to be sure that the total is within your budget and that you have some left over for flexibility.

Next to each person's name, list several appropriate gifts within the price range you specified.

Group the possible gift items into categories that will allow you to shop for similar items in the same store and to go from one store to the next without having to back-track.

Finally, check the advertisements to see if the items you want to buy are on sale before heading for the stores.

When you actually start shopping, stick to your list. And as you make selections, check to see if the item can be returned,

especially if you buy it on sale.

Keep the sales receipts. One method is to use a letter size envelope for each gift receiver. Write the person's name on the envelope and place the receipts and tags from their gifts in that envelope.

If you have more than one item on a sales receipt, write what the receipt represents on the back and keep it in a special envelope. Having the receipts will help with returns if necessary.

Having a plan can make the whole process of Christmas shopping easier and give you more time to enjoy other holiday activities.

Spearmanites slip, slide, slush through bad weather

The weather dipped to new low here this week, as Sunday saw a temperature drop to 2 above zero and a repeat on Monday as the low was also 2 above zero.

The slippery, slick weather hit during Thanksgiving week, and everyone tippy-toed on the ice and almost froze out... Un-officially some temperatures dipped to zero, but officially the 2 above zero will go in the record book.

A heavy layer of ice was on the trees, and high lines, with cloudy cold weather in the area all week.

Weather men in the area are still holding their breath, wondering what the next cold front will bring to the county.

Auction to be held

The 1985 P.S.U. Rodeo Club Benefit Stud Service Auction will be held in Goodwell for the first time in several years. The location is the Stables, on Highway 54 in Goodwell. The event will begin at 7:00 p.m. Saturday, December 7.

As in past years, owners of several outstanding stallions have donated breedings which will be sold to the highest bidder at the auction. Breeding fees will generally start at half or less of the normal breeding fee. Don't miss this opportunity to breed to excellent stallions at bargain prices.
