MILLER

Ike Celebrates 10th Year Sat.

Ike Baggerly, is celebrating his tenth anniversary in Spearman this week by giving his many customers attractive prices.

Mr. Baggerly opened the first Helpy-Selfy Grocery store ever operated in this county. Later he changed his style of business to conform to most of the fea-

tures of cash groceries, but no longer secured the Helpy-Selfy franchise. Mr. Baggerly has many friends and customers in the county, and features attrac-

tive prices for a quick turn-over of merchandise, keeping a fresh stock of staple and fancy groceries and vegetables at all times.

Morse High Has 10th Commencement Program

The 10th commencement exercise of the Morse High School closed another successful year of education for the thriving community Southwest of Spearman Thursday evening May 18th. The closing school activities included the Junior-Senior Banquet held April 18, Senior play "The Absent Minded Professor" held on May 9th, Vesper Services held May 14, Class night and the 7th grade commencement, held on May 16, and the graduation exercises held May 18.

A half inch of rainfall which fell today (Thursday afternoon) brings the total moisture for the Spearman area to .92 inches for May. The shower was in a narrow strip and fell south of Spearman and East. Morse and Gruver failed to get rain. Stinnett and Berger both reported rain with heavy hail at Berger. Some hail fell with the rain in this area but not enough to do any damage.

Rainfall of Week

Rainfall Wednesday afternoon that measured .10 inches at Spearman, where the moisture was greatly needed, is reported to have measured from 1-4 inch to a full inch northwest and west of Gruver and in the Morse area. Moisture in this section of the county was not so badly needed, but will help to insure the already promising yield of wheat.

SPEARMAN BLUE JAY'S LOSE TO PERRYTON CLUB

Spearman's Blue Jay ball club tasted the first bitter pill of defeat Sunday May 21st when they journeyed over to Perryton to contest our permanent rival. In giving up their first contest of the season the local ball club provided such an interesting competition that a running account of the play would sound like an alibi for the club. Two costly errors chalked up 4 scores for the Perryton team, and aside from this temporary lapse the local boys kept the Perryton team digging hard to earn their victory. From all account of the game coming to Spearman the Perryton team only earned one run. The score could just as well have been 1 to 0.

Receive 315 Additional Parity Checks Monday

VACCINE ROUND-UP WEDNESDAY, MAY 31

The annual Parent Teacher Association Round-up for children entering school next September will be held upstairs in the McLain building on Wednesday May 31st. Mrs. Rupert Vaught, chairman of the Health Committee and Miss Yoder, Red Cross nurse will have charge of this. Dr. Gibner, Dr. Gower and Dr. Daily have offered their services for this work. Cards are being sent to the parents of these children notifying them of the approximate time their children will be taken. Time of appointment may be changed by getting in touch with either Miss Yoder or Miss Vaught.

Ford Truck Show Will Be Here May 26; Also Free Picture Show

Arrangements have been completed for the Spring Truck Show which will be presented by the R. W. Morton Motor Co May 26 beginning at 9:30 a. m. "Science Rules the Rouge" an added feature of the show will be shown free at the LYRIC theatre beginning at 9:45 and continuing until 12:20. The public is cordially invited to attend this free show and also to inspect the most complete truck line that has ever been manufactured by the Ford Motor Co.

Tragedy Hits Gruver Last Sunday

Two of Gruver's best loved citizens, Mr. and Mrs. Clarence Kauffman, suffered a great sorrow last Sunday. Fred Leroy Kauffman was born on Nov. 23, 1934. His brother Norman Franklin Kauffman was born on January 4, 1937. Both of these children passed away in an Amarillo hospital last Sunday. Norman at 3:15 a. m. and Fred at 6:15 p. m. To have lost one child would have been sad but for two of them to pass away within a few hours of each other is pure tragedy. The whole community mourns with them.

Workers Conference At Gruver Tuesday May 30

Tuesday May 30, the Trans-Canadian Association Workers Conference will meet in Gruver. The theme of the days program will be "Christ's Church." Rev. Doyle, pastor of the First Baptist Church and Rev. Herbert Hughes pastor of the Baptist church at Gruver are both on the program.

Decoration Day Program

Decoration Day program will be held at the Lieb cemetery on Tuesday May 30, Decoration day. The public is invited. A basket dinner will be spread at noon.

Hopper Poison Available For Spearman Homes

Hopper poison is available free of charge to property owners of Spearman, Morse and Gruver. County Agent Joe Hatton urges that those who locate hoppers on their lawn, or on vacant lots adjoining their property come to either of the two stations in the county and secure poison free of charge for eradicating the pests.

Need Job Printing?—Call 10

Sheets pitched a good game and had excellent support, as only 4 errors were chalked up against the team during the afternoon, but two of these errors represented the bulk of the score board report. Manager Schnell says he does not have an alibi to offer, but believes he had a mighty good team in the contest, and with any sort of break will win from Perryton when they visit Spearman Tuesday May 30.

Doc. Joe E. Brown Jones Brings in The Big Egg

Doc. Joe E. Brown, Jones, of Gruver came in Saturday with an egg that measured 8 1-4 inches around longways, and 6 3-4 inches around the small way. The egg weighed 1-2 pound. Doc. says it was the products of one of his white leghorn hens. This places another feather in his cap, since Doc. raises some of the biggest watermelons of this area.

Band Concert Postponed

By agreement between Bandmaster Fred Rattan and officials of the Chamber of Commerce, the opening band concert that was scheduled for Friday has been postponed to Saturday June 10th. At that time the new \$350.00 Band pavillion will be officially opened.

Vacation Bible Schools

Vacation Bible Schools at the Baptist and Methodist churches are enjoying outstanding enrollment and healthy interest as the classes are being instructed. At the Baptist church the enrollment was 90 Wednesday of this week and 60 were enrolled at the Methodist church.

MR. AND MRS. CLAUDE SHEETS RETURN

Mr. and Mrs. Claude Sheets moved to the Coy Holt neighborhood this week. Claude will put in an irrigated crop at the Holt farm. Mr. Sheets is just able to be up and on crutches as result of an explosion of a pump. A small piece of the pump cut a 9 inch gash in Mr. Sheets right leg. His son-in-law, Archa Johnson also sustained a painful injury when the pump exploded.

HOME GROWN

Revival To Start At Church of Christ Sunday

Evangelist Tillman B. Pope of Alvord, Texas, will conduct the meeting for the church of Christ at Spearman, Texas. The meeting is to begin Sunday morning May 28th and continue till June 11th.

Evangelist Pope has been preaching almost twenty years. He is 42 years old. He has served the church as local minister at the following places: Fort Smith, Ark., Corpus Christi, Tex. Butler, Mo., Muskogee and Okmulgee, Okla.

His evangelistic work has taken him into the following states: Arkansas, Missouri, Texas, Oklahoma, Mississippi, Louisiana, Tennessee and Alabama. He has conducted but few meetings where there were not a goodly number of additions to the church.

IMPORTANT NOTICE

Summer fallow and winter wheat loans are now available through the Emergency Crop Loan Division of the Farm Credit Administration to farmers, who cannot obtain credit elsewhere. These applications are being taken in Emergency Crop Loan Office in the Court House and will continue until June 30, 1939.

Commencement Program For Gruver High School

The Commencement Program Gruver High School, was held Tuesday May 23rd at the auditorium. A great crowd of friends and relatives gathered to see the class of 1939 receive their diplomas and shift the tassel on their hats to the graduating side and to listen to salutatorian Wilma Turk and valedictorian Dorothy Hart. Both of these young ladies gave a good account of themselves and gave every indication that they and the rest of the class intend to solve their problems and make a success of their lives. We surely wish these young people success in their chosen fields.

The commencement address was delivered by Judge J. E. Honts of Dalhart, Texas. The Judge's address was a masterpiece of inspiration. His subject "Life's Rhythm." Following this Supt. McCollum presented the diplomas.

Wayne Wallace At Pekoe Cafe

Wayne Wallace, who worked in Spearman several years ago in the cafe business, has accepted a position as cook for the Pekoe Cafe. Wayne has been engaged in the cafe business since leaving Spearman having held positions with the Silver Grill at Amarillo and a large cafe in Hereford.

Mr. and Mrs. Fred Rattan and Mr. and Mrs. Paul Loftin Visited

Mr. and Mrs. Fred Rattan and Mr. and Mrs. Paul Loftin visited in Trinidad, Colo., Raton, N. M., Santa Fe and several other places Friday thru Sunday.

Perren Lyon, Bill Russell and R. L. McClellan returned from Texas Tech this week.

Processional, Mrs. R. H. Moser Invocation, Mrs. H. S. Durham. Announcements, Supt. W. A. Gillispie. Song, Grade Chorus. Salutatory Address, Ben Gillispie. Saxophone solo, Earlene Chisum. Talk, Maxine Holloway. Talk, David Jameson. Trio, Earlene Chisum, Ben Gillispie and Virgie Lee Dortch. Introduction, Supt. Walter A. Gillispie. Address, by Mr. Marvin McKee, Dean of P. A. M. C., Goodwell. An Earl High School Orchestra. Valedictory Virgie Lee Dortch. Awards R. H. Moser Presentation of Diplomas Supt. Gillispie. Benediction Rev. Herbert Hughes.

Blue Jay's To Play Picked Ball Team Sunday May 28

What promises to be one of the most interesting games of the present season is scheduled for Sunday afternoon May 28 when the Blue Jays of Spearman will play the PSC team, representing the pick of ball players from 3 oil camps near Berger. Manager Schnell is not to op-

tomistic about the Sunday contest, but believes the Spearman club will give the visitors a real contest, and hopes for a win.

Todate the Spearman club has only suffered one defeat that from Perryton last Sunday. On Tuesday May 30th the local club will play the Perryton club in Spearman.

Hansford County Gets Favorable Publicity

Abilene Paper Features Conservation Work Done During Past few Years

Hansford county received some very favorable publicity as result of the Chamber of Commerce sending the county agent Joe Hatton, and W. M. Glover to the West Texas C. of C. Convention. First off, the sign that was to be used in the parade was lost, and C. of C. officials wishing to offset this error took occasion to bring the work accomplished in this area before the entire delegation from over the state. Then, only about 15 counties of all attending were featured in the Abilene paper, and Hansford county was selected to receive a large 8 column double-deck head, with a 2 column re-

view of conservation work. The story as it appeared in the Abilene Daily Reporter is printed below.

Soil and water conservation in Hansford county prior to 1938 is reviewed here. Hansford county is situated in the top of Texas Panhandle, its level acres broken only by the leisurely meanderings of the Palo Duro, Coldwater and Frisco creeks—waterways that were once peaceful valleys, only to become, during the past 18 years, a sewage system to dispose of excess water that man allowed to ruthlessly cut across his flat plowed fields and rush in madness, ever gathering force, to the Beaver, Cimaron and on to the Mississippi. Along about 1920 the county began changing rapidly from a

cattle country to a wheat farming region, until today there is approximately 350,000 acres in cultivation and 200,000 acres in grass.

The high plains is a region subject to violent changes in climatic conditions—changing from periods of long droughts to short devastating floods. For years after much of the range land had been put under the plow wheat producers knew nothing of conservation and cared less. The years were good — wheat was seeded in the fall and harvested in the early summer, after which the land was plowed with a one-way plow and left until time for another seeding. However, lean years followed the good and dust storms became a habit, taking thousands of tons or rich top soil

and depositing it in hummocks and in fence rows and spreading it over grass lands. When the rains came they usually came in down-pours, falling in sheets on the face of the level fields and unfurrowed pastures and sliding on off into roadside ditches and on into the creeks, gathering force until they became a powerful, raging monster that swept down the valley, destroying hundreds of acres of fine sub-irrigated alfalfa, ruining thousands of acres of grass, and miles of fences. After viewing the wreckage left by the dust storms and floods farmers in the county began wondering, and talking about what to do. The first conservation work was fostered by Frank Wendt, county agent, and through his

R. V. CONVERSE SAYS

The reporters have disappointed the public and some individuals who expected large headlines and lots of space to be given to the details of the visit of His Majesty the King of England. What has happened is not commonly understood, but some of the boys must have come to the conclusion that with an ace in the hole it is not best to give so much publicity to the drawing of a King.

When one comes to think about it, 48,000 pounds of beef is not much beef, especially when it is canned. It is a small car load, the American Navy can handle a car load of meat in a short time and will be in the market for more canned meat. It is proper that we put ourselves in a position to furnish meat and good meat at the right price, then we will get the contract. Unless some political high-binder wants to force a little deal so that they can use it to make the President unpopular. Politics is politics and anything goes.

Serious thought is being given to the number of jobs that are available and the more than 7 million men that have no chance to have a job. It is expected that new development in the building of new roads, improvements in railroads and expansion in the house building industry will make room for some of the idle and the rest will be taken care of through larger subsidies and increased PWA checks. Every thing is set for larger checks to the farmers in 1940.

Concern is being expressed over the fact that government spending is at or near its peak and the idle have not all been absorbed, however, we need not expect much change for the better as long as we have several classes of people who cannot benefit under Social Security. Some one must support social security or it will get mighty lonesome.

Boss Pendergraft of Kansas City, has just been dethroned and given 15 months in the Federal prison. Wonder if this is any punishment for the way he had his servant Jasper Bell persecute Dr. Townsend before the House Investigating Committee that was supposed to investigate plans for old age benefits.

From now on, every day brings us nearer to that bumper crop we are expecting next year, the one benefit to be derived from the continued dry spell is that when the hoppers begin to move

around they will not find sufficient moisture or feed to induce them to stay with us. The situation in Europe is just smoldering while the King visits us. The situation in Europe is just history about Rome falling while Kings were having a good time.

We will soon have a government corporation to buy rolling stock for the rail roads and permit them to use it under lease at low rates. This and a lot of other things are being done so that the owners of seven or 8 billions of dollars that is now idle can be put to work or invested in securities that carry the government guarantee. Why not have a government corporation that will buy tractors and combines and rent them to the farmers in season. Then we will have a lonesome time without the collector looking for our allotment checks.

Yours,
R. V. Converse.

OSLO NEWS

The following are my announcements for Sunday May 28, Pentecost Sunday: Sunday School 10 a. m. Morning worship 11 a. m. Sermon Theme "The Surpassing Greatness of the Legacy which Jesus left to His Disciples" Luke 11:5-13. The new lights in the church will be dedicated at this service. Everyone is welcome. The Luther League will meet at the church Sunday evening at 8:15 o'clock.

NEWS ITEMS

At services at the Oslo church last Sunday five young people were confirmed in their christian faith. At noon lunch was served to all who stayed. After lunch the confirmands and others who wished to do so partook of the Lord's supper. Those confirmed were: Leona Knutson, Luella Hill, Doris Dahl, Clifford Hill, and Edwin Ramsey, who lives at Brownfield, Texas. A large audience, particularly in the morning, was present. Thirty four partook of the Lord's supper in the afternoon.

Those attending the confirmation service outside of Oslo were: from Tyrone, Mr and Mrs. Albert Munson and Mrs. A. Holcomb; from Odessa, Mr and Mrs. Chas Francis and children; from Brownfield, Mr and Mrs. Palmer Ramsey and children; from Guymon Mr and Mrs A. Paulson from Hooker, Mr and Mrs Oscar Klingsick; from Gruver Mr and Mrs Bennette and daughter, Mrs. Mary Brandvik, Mr and Mrs Loyd Frier, Mr. Joseph Rios, Mrs. Betsy Stavlo and Elvin Stavlo and Miss Eveline Reinertsen from Hitchland

Mr and Mrs Arnold Thorson. Miss Eveline Reinertsen who for the past two years has been teaching in the Gruver school, was given a sum of money at the services in the Oslo church last Sunday in appreciation for what she has done for the congregation and community in the past and as an expression of love which everyone in Oslo has for her. Miss Reinertsen is leaving Oslo but everyone hopes that she will be back for a visit at least once in a while.

Mr Elmer Jensen and daughter, Elvera, and Opal Fadness, who has been staying at the Jensen home during the absence of Mrs. Jensen drove to Beaver to the hospital Sunday afternoon to see Mrs. Jensen who is convalescing from an operation. They hope that Mrs. Jensen can come home this week.

Since four young people from Oslo are in this year's graduating class from Gruver High School, the community was well represented at the Class service at the community church last Sunday evening.

The seniors of the Gruver Hi School were honored with a party at the Gus Olson home on Thursday night. Marcella Olson, Emma Hill, Selma Hill and Clifford Stedje are Oslo's seniors this year.

Mrs Robert Alexander, Genevieve Olsen were Guymon visitors on Tuesday of last week. On Wednesday Mrs Alexander was a Spearman visitor.

Last Wednesday afternoon the connection with the high line of the Panhandle Power and Light Co was made and the current providing electricity for the Oslo community was released.

Mr Giles from Gruver with the help of several members from Oslo installed electric lights in the church and parsonage on Wednesday of last week.

Miss Marie Stedje came home from Borger last week end to be present at the confirmation service in the Oslo church and at the Class service for the seniors of the Gruver Hi school last Sunday. Her niece, Leona Knutson, was confirmed and her brother Clifford is a member of the graduating class of the Gruver High school.

BLODGETT NEWS

Mr and Mrs A. D. Reed had the following guests for Sunday dinner Mr and Mrs C. C. Beck and two granddaughters, Mr and Mrs S. J. Powell, Miss Leona Emnick, Mr and Mrs E. C. Cooper and granddaughter. Mr and Mrs Simm and Kenneth Killian. In the afternoon Mrs E. S. Uptergrove, Roy Lee and Mrs. Henry Keith and Della Beth were also visitors.

Mr and Mrs J. Simm were transacting business in Perryton Friday.

Mr and Mrs Earl Church were callers in the Blodgett home on Monday night.

The W. M. Deck girls were visiting in the W. Y. Williams home last week.

Mrs J. M. Blodgett attended the graduation exercises of the 7th and 8th grade pupils at Dalhart Thursday.

Harvey Moore spent the week end with his brother at Dalhart.

Mr and Mrs J. F. Simm and Kenneth Killian spent Sunday evening in the Blodgett home.

Mr and Mrs Mearl Beck and Deta Blodgett were shopping in Amarillo Saturday.

FARM TOPICS

EARLY GRAZING IS NEEDED FOR COWS

Fertilizing Small Area Is Found Good Plan.

By H. R. Cox, Extension Agronomist, New Jersey College of Agriculture, WNU Service. Of the various measures which may be employed to furnish more and better pasture for a dairy herd, the fertilizing of a small area of the permanent pasture to furnish early spring grazing is one which is adapted to many farms. Although a fairly large quantity of fertilizer is needed per acre, the practice is economical in the long run provided the soil is good. The procedure is as follows:

In early spring apply from 800 to 1,200 pounds to the acre of a high nitrogen mixed fertilizer, such as 5-10-10, 5-10-5 or 5-8-7. An application of lime should also be made if the soil is strongly acid. The area treated should be one acre to every eight cows. Best results will be obtained if this fertilized area is fenced off from the rest of the pasture. Permanent grass pasture so treated may be turned on when the grass is four or five inches high, which should be about 10 days in advance of the time cows are normally turned out on untreated pasture.

This early grazing will save a considerable amount of barn feeding at a time of year when pasture is most welcome to the herd. About the time this treated area is grazed off, the untreated pasture is ready for grazing. After the grass on the treated area has made a renewal growth, the cows are returned to it. This method of rotation grazing conserves pasture, since it reduces tramping to a minimum. A further benefit is that the phosphoric acid and potash in the fertilizer would exert a beneficial effect for several years to come.

If the same area were given an additional application of sulphate of ammonia or nitrate of soda about June 1, at the rate of 200 pounds per acre, additional benefits would be derived. In a dry summer, not much effect could be expected from this second application during the hot weather, but the fall growth of the grass should be increased and the pasture season should be lengthened somewhat in the fall.

'Epidemic Tremor' New Worry for Poultry Men

A disease known as "epidemic tremor" is one of the newest to cause concern to the poultryman. It was described in 1932 by Dr. Jones of the Harvard Medical school. Since that time it has become fairly widespread.

It was given the name "tremor" because of the characteristic symptom, tremor or vibration of the head and neck. One poultry authority, in describing what is believed to be the same disease, called it the "jitters." The technical name, however, is far more dignified—"infectious avian encephalomyelitis." It is one of those diseases caused by an infectious, filtrable virus. It can be transmitted from a diseased to a healthy chick by inoculation of material from the brain.

Chicks sometimes show symptoms as soon as 24 or 48 hours after hatching. It is usually a week before outstanding symptoms are noticed. The first sign is a dullness of the eye.

What's Found in Straw

Straw supplies nutrient elements as well as organic matter, according to Associate Agronomist J. W. Ames of the Ohio Agricultural Experiment station, who goes on to say that a ton of straw will furnish about 10 pounds of nitrogen, four pounds of phosphoric acid, 25 pounds of potash, and 1,800 pounds of organic matter. The best return from the fertility elements in straw is obtained when it is used as bedding and made into manure. Plenty of straw provides for maximum absorption of the liquid excrement that contains the most valuable part of the nitrogen and potash in manure.

Isolate New Horses

Horses newly purchased in preparation for spring work should be kept isolated from other horses for at least two weeks. This is particularly to guard against the danger of influenza, which may seriously impair the usefulness of all horses on the farm during the spring work season, says the Prairie Farmer. The disease is contagious, and caution should also be exercised in placing horses in strange stalls, where they may pick up infection.

Keeping Roosts Clean

Cleaning the dropping boards under the roosts daily, or twice weekly, is important in maintaining healthy and sanitary conditions in the poultry house. If it is not possible to clean the house frequently, the droppings should be permitted to fall from the roost poles to the floor, several feet beneath. The birds then will be troubled less with odors and gases from the droppings. The space under the roosts should be fenced with wire netting.

HOLT NEWS

A large crowd was out at the Holt school house Monday night to attend the singing school. The teacher Z. D. Lee of Hartford, Arkansas did not arrive. After the group enjoyed singing several special numbers Mr. Rorson and Mr. Jenkins called Mr. McClung in Arkansas to find out why Mr. Lee did not come. It was voted to get Ivan Stobaugh of Arkansas with the Bradford Trio. To begin the school Tuesday night.

The school began Tuesday night with a good attendance with Ivan Stobaugh conducting the 12 night school beginning at 8 o'clock each meeting will last 1 hour and 45 minutes.

Much interest was being shown at the first lesson everyone is invited to come and bring someone with you.

Mr and Mrs Jim Ownbey and daughter Nancy, Mr and Mrs D. Terry and children, Mary Fern, Estelle and Harlan, Mrs Kirk attended the singing in Borger at the Assembly of God church in Borger Sunday afternoon.

Harlan Terry was a recent guest of James Beck in the home of Mr and Mrs O. K. Pendergraft.

Miss Betty Ruth Beck had as his Friday and Saturday guest Miss Dorris Harbour.

Mr and Mrs Charlie Davis were Friday guests in the home of Mr and Mrs Pete Files and daughters Rose and Anna Mae of near Spearman.

Mrs D. B. Kirk and Mrs Olin Womble of Spearman visited friends here Tuesday evening and also attended the singing school while here.

Mr and Mrs O. K. Pendergraft have as their guests Mr and Mrs Powell Pendergraft and son Paul Wayne of Enid.

Charlie Jackson and son Windell has returned home from a visit with relatives and friends in Reed, Mangum and Blair, Okla.

Mrs Tom Allen and children Newell and Norma Jo, and John Will Van Cleave and Mrs. John Allen were shopping in Borger Monday afternoon.

Mrs M. C. Scott and daughter Dorothy Nell visited with Mr. Scott in Borger Monday afternoon.

Charlie Rosson made a business trip to Borger Tuesday morning.

Mrs Ora Schroeder visited with Mr and Mrs Tom Harrleson of Bowie, Texas in the home of Mr and Mrs Stanley Harrleson in Spearman Tuesday evening.

FOR SALE — Two oil stoves. Cheap. See D. E. Bradford NO. 7

efforts a number of farmers terraced and contoured their fields. Very little experimentation had been done on the plains and, therefore, the best type of conservation practice for this area was not known.

A. F. Barkley, with the help of Wendt, ran the lines and built some terraces in 1932—these being among the first constructed in the county. However, the terraces proved to be unsatisfactory as they were too narrow and small. It was not until some years later that it was found that the type of terrace needed for land was a low, broad-based terrace, one that would handle the water and yet could be crossed with combines and other large machinery.

Most of the farmers realized that contouring and terracing was a thing, and yet it was impossible to get more than a few to put this into practice. Most of them farmed with large tractors and heavy machinery, making it hard to turn at the end of the contour row. Another objection was that many farmers had no furrowing tools, implements being tractors, drills, combines and one way plows.

The first thing that made the entire farm population contour-conscious was the 20-cent emergency listing program in 1935. Early that spring the wheat blew out. Farmers were broke, credit was gone and their fields were blowing away. An appropriation was secured and farmers were told they would get 20 per acre to list their fields to stop them from blowing—provided they were listed on the contour. The program was cursed and discussed, and the contouring caught most of the cussing. In the end, the farmers contoured. The county bought eight farm levels, crews were trained by the county agent, G. L. Boykin, and the lines were laid off in record time. This program not only did much to stop the fields from blowing, but it performed a real service in showing the farmers that they could contour, and that contouring would pay.

Early in the spring of 1936 Vernon Martin was employed as assistant county agent in soil conservation work, being an employ-

ee of the extension service and receiving technical training and a part of his salary from the soil conservation service. Martin spent his entire time in furthering conservation work, and through his efforts thousands of acres were contoured and terraced. In the spring of 1936 he ran 110 miles of terrace for one operator, Emil Knutson, who lives in the northwest part of the county. Knutson built his terraces, for which he received a soil building payment under the AAA program. In 1937 the terraced land produced 10 bushels of wheat per acre, while some of the unterraced land, planted in an adjoining field, made only three bushels per acre.

INCREASED YIELDS

Each year since 1935 farmers have noted the increased yields they secured from wheat that was planted on summer fallowed land on which the moisture had been conserved. In a normal year almost half of the total rainfall comes during the last part of June. To be effective the land must be prepared to hold the water before the heavy rains hit.

In 1936 Frank Wallin, who farms in the north part of the county, contour summer fallowed his wheat land while Arthur Wallin, his brother who farms adjoining land worked his land straight. At harvest time Frank produced just twice as much wheat as did Arthur. Since that time Arthur has contoured all of his land and Frank has gone a step further with his conservation work, terracing 480 acres of land in the fall of 1937.

Altogether, there was 125,000 acres farmed on the contour in 1937 and 16,000 of terraced land in the county. This, compared with a few hundred acres terraced and contoured three years earlier. The biggest contributing factor to the increase in soil conservation work in the county can be attributed to the payments made under the AAA program, and the 20-cent emergency listing programs of 1935 and 1936.

Encouraged by payments offered under the agricultural conservation program, farmers started planting sudan and sorghums for cover crops and found that these fibrous rooted plants did much to prevent loss by wind erosion. In 1936 there was about 50,000 acres of land protected from blowing by sudan and sorghum and in 1937 there was about 80,000 acres protected by these crops.

In the spring of 1937 the Oslo community was particularly hard hit. Almost all of the wheat had blown out and the entire district seemed to be blowing away. In an effort to formulate some plan to halt the destruction of the land a meeting was called at the school house and the farmers of the community talked their problems over with G. L. Boykin, county agent, and Vernon Martin, assistant county agent. It was agreed that concerted effort was necessary — so every every farmer pledged to plant a strip of sudan around each field. The sudan made a growth, and when the wheat was seeded in the fall it came up to a good stand. Protected by the sudan strips, the wheat did not blow out, and the

farmers harvested the crop in 1938. Jay Jones, who the Oklahoma fields in Oklahoma, it to not been far around his field, stopped the dust, made approximately per acre. WILL NOT REQUIRE 1940 MARKETING QUOTAS

Any possibility that wheat marketing quotas might be proclaimed to regulate the movement of grain in Texas this summer was erased by information received at AAA headquarters here this week.

The total United States wheat supply is estimated at 974 million bushels as of July 1, which is 47 million bushels less than the level required for a marketing quota proclamation under the Agricultural Adjustment Act, the report said.

With word that no wheat marketing quota referendum would be called came an announcement also that the 1940 national wheat acreage allotment will be 7 million acres greater than this year's allotment of 55 million acres.

The May 1 crop report of the Bureau of Agricultural Economics indicated the Texas wheat crop this year will be around 30,860,000 bushels, compared with 35,046,000 bushels in 1938 and a 10-year average production of 32,038,000.

Charles Thomas of Pampa, wheat farmer and member of the Texas Agricultural Conservation Committee, said news that marketing quotas are not necessary will be welcomed particularly in the North Plains section of the state, where prospects for a wheat crop are especially good.

Estimated abandonment in Texas is placed at 27 percent of the wheat acreage seeded last fall, leaving 2,939,000 acres for harvest. Indicated yield per acre is 10.5 bushels on the acreage remaining for harvest, compared with 9.0 bushels in 1938 and a 10-year average yield of 10.2 bushels.

NEW SOIL SET-UP IS EXPLAINED

Responsibility for beginning and carrying out a coordinated program of soil and water conservation under the recently enacted State Soil Conservation Act is placed squarely upon the landowners themselves by the terms of the Act.

This information went to Texas county agricultural and home demonstration agents in a letter prepared by C. Hohn, soil and water conservation specialist of the Texas A. and M. College Extension Service, and which contained a summarized explanation of the new act. The summary was drawn up by Paul Walsler, state coordinator of the U. S. Department of Agriculture's Soil Conservation Service, who is stationed at A. and M.; M. R. Bentley, Extension Service agricultural engineer, and Hohn.

First step in starting the program - the election of prenent committeemen and selection of county delegates to the district convention, has already been carried out as a result of the elections of May 15. These delegates met in the five district conventions on May 22 and elected the members of the state board.

These board members will meet at Temple on May 29 to set up the state organization. In addition to the five elected members, the board consists of five advisory members - Dr. T. O. Walton, president of Texas A. and M.; Clifford Jones, president of Texas Tech; Robt. Manire, state vocational agriculture director; J. E. McDonald, State commissioner of agriculture; and Walsler.

In its May 29 meeting, and subsequent sessions, the board will consider the location of its office, creation of soil conservation districts, assistance to the districts and coordination of the districts, plans to secure cooperation and assistance of federal and state agencies, and the aid to farmers. At the present times he said three routes were open, namely; a price fixing bill, or a processing tax; or parity price on farm products. Ferguson being of the opinion that parity payments is the immediate solution and in all probability would receive the approval of congress.

President Roosevelt told Ferguson he would be in favor of a parity bill not to exceed 250 million dollars. This, Ferguson pointed out, in the case of wheat would mean about 90c a bushel. For example, if the market price is 60c, the parity payment plus the conservation payment would amount to about 90c per bushel. Other farm products would benefit in proportion. In view of the fact that the president would approve parity payments, Ferguson feels his plan has made considerable progress.

T. H. D. A. District Meet In Amarillo May 16

Hansford County was better represented for the District Meet than any county of District one that consists of 22 counties. Those representing Hansford County were Mesdames R. C. Bennett, Don Bennett, Le McClellan, Hix Wilbanks, A. F. Barkley, Frank Davis, Walter Davis, O. L. Williams, W. A. Van Cleave Tom Allen and Pearl Locke.

Land use planning was discussed by Miss Ruby Mashburn District Agent, the purpose of land use planning is to set up a systematic inventory of agricultural resources in each county and to have farm people themselves develop a plan for the proper utilization of these resources. Land use planning is part of the U. S. Department of Agriculture's program of placing responsibility for agricultural policies in the hands of farm people. The Texas Extension Service has already laid the foundation for the program in Texas through intensive work with committees in selected counties. Land use planning started in the Panhandle in December 1937-1938. Following this discussion each county was called upon to give a report of the work accomplished and were very happy, Hansford's report came up with the other reports.

In the afternoon a very interesting business meeting was held. After business meeting Mrs. J. M. Bridwell gave book review, "This Troubled World." College men's chorus followed. Miss Elizabeth West, librarian Texas Tech gave many interesting points on "Educational Facilities in Spain as compared with ours in Texas", Miss West said that the people in Spain loved football as well as we do in Texas, and that football was considered the main sport there. She found that Catholic religion was taught in most of the schools.

The most fascinating yet, is that they still use carriages for recreation and that many farmers use crucked sticksto cultivate their small farms. Chorus from two counties were given by club women. Mrs. W. G. Kennedy told about her trip to Washington D. C. that she made lately. Mrs. Ruth Dezell talked on the possibilities for rural libraries. Those who missed the meeting in Amarillo and the Short Course at Canyon missed more than words can express.

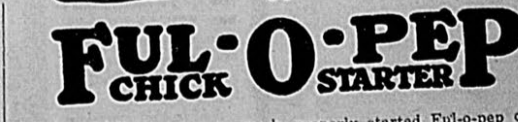

atmosphere. But to go to the back door there were five hounds to take the interest and food of the family. College men's chorus followed. Miss Elizabeth West, librarian Texas Tech gave many interesting points on "Educational Facilities in Spain as compared with ours in Texas", Miss West said that the people in Spain loved football as well as we do in Texas, and that football was considered the main sport there. She found that Catholic religion was taught in most of the schools.

Since the District Meet was planned the day before Short Course at Canyon made possible for us to stay over and attend. After we arrived, going to the Home Economic room, there were there we went to main auditorium for general assembly. Mrs. J. A. Hill of Canyon gave welcome address. In connection with Mrs. Hill's welcome address she gave a very beautiful picture of how we live to day in comparison with yesterday. And how the Extension Service has helped rural and urban people to make better homes, in which to live. Back in covered wagon days people carried their produce to the market, forgetting that the family needed a part of this for the table. Going in the bed room you could not see any pictures hanging, draperies or rugs that was necessary to give the room a pleasing atmosphere. But to go to the back door there were five hounds to take the interest and food of the family. College men's chorus followed. Miss Elizabeth West, librarian Texas Tech gave many interesting points on "Educational Facilities in Spain as compared with ours in Texas", Miss West said that the people in Spain loved football as well as we do in Texas, and that football was considered the main sport there. She found that Catholic religion was taught in most of the schools.

When a district is created, 2 supervisors are appointed by the board to secure a state charter and to provide for the election of three district supervisors. All supervisors must be landowners within the district and must be actively engaged in agriculture. Supervisors may engage district employes as needed, will keep records, carry out control measures in state lands and on other lands with the consent of the owner, enter into cooperative agreements with governmental agencies and landowners, and present range-use regulations. Such regulations or ordinances, to be put into effect as binding upon the landowners within the district, must receive a favorable vote of 90 percent of landowners voting upon them.

The district supervisors may also acquire, maintain, and dispose of property in the name of the district, administer erosion control projects, and require contributions in the form of services, materials, and so on from landowners. Districts may be discontinued after five years upon petition of 50 landowners within the district and by simple majority of votes in the ensuing election.

FUL-O-PEP Chick Starter has the wonderful oatmeal base! Also contains Concentrated Spring Range - many health benefits of fresh pasture. Balanced in minerals, vitamins, proteins and carbohydrates. Save up to 1/3 to 1/2 on feed cost by following the Ful-O-Pep rearing plan.

FUL-O-PEP is not mere mash - in reality it is a concentrate containing a great variety of proteins, vitamins and minerals. That is why you can feed large amounts of poultry oats and other grains with it to cut down your feed cost and to build healthier, more productive flocks. That is why your Ful-O-Pep neighbors have fewer losses and more net results. Call on us for properly started Ful-o-pep chicks - seed corn, sudan, African millet cane, hegari and all other field seeds. We have a large stock of tested, dryland seeds, best quality and reasonable prices. Ask about our Early Bird millet grain mixtures. SPECIAL on our truck this week from the Rio Grande Valley, fresh tomatoes, potatoes and citrus fruit. R. L. PORTER GRAIN AND SEED COMPANY Distributor Gold Medal, Silk Floss and Quaker products.

This Week In Wheat Marketing Under Washington Government Control

Whether there will be a revision of the tax laws to eliminate levies which are hampering business expansion seems somewhat more doubtful now than it did a short time ago.

The reason for this doubt is the refusal of the President to give his indorsement to the tax-revision program prepared by the Secretary of the Treasury and his staff, working in cooperation with the chairman of the Congressional committees having to do with tax matters.

There is a strong inclination on the part of Congressional leaders to go ahead with a tax revision program regardless of whether the President approves or disapproves. Secretary Morgenthau may present his program to Congress without Presidential indorsement.

The President has not said that he will not approve a tax revision bill if passed, but he has let it be known that he will not let any program which would reduce or repeal existing taxes be put forward as an Administration measure.

Washington observers are somewhat puzzled by Mr. Roosevelt's attitude. Early in the year the announced policy of the Administration was "appeasement" of business.

Resolutions Offered
At the meeting held here of Chamber of Commerce of the United States, remarks were made by business leaders and extremely critical of the Administration's policies. Some of the President's intimates seized the opportunity which such criticism afforded, to point out to Mr. Roosevelt that the business interests of the nation did not seem to be grateful to him, but were decidedly non-cooperative. That, in the belief of many Washington observers, accounts for the change in the Presidential attitude toward tax-relief.

The second part of the President's departmental reorganization program, like the first part has met with general approval. It provides for consolidation and shifts of bureaus from departments where they don't belong to places where they fit, which every President for years has been trying to get Congress to approve.

The President's estimate of money savings by reason of these changes is \$1,250,000 a year. There is no doubt of Congressional approval, even though Congress is in a spending mood.

Last year, when Congress added \$212,000,000 to the Agricultural budget for farm relief, the President warned them that they must find enough additional revenue to cover the increase. Congress promised to do that, but didn't. Now it is adding nearly \$400,000,000 to this year's Agricultural budget, and making no move to impose additional taxes sufficient to cover the increase.

Vote-catching Scheme
It is the unanimous opinion in Washington that this is a pure vote-catching scheme and nothing else, and there is great criticism of the refusal of the Senate to go on record as to how they voted on this appropriation. It was passed by a voice vote.

All the talk about economy which was heard on Capitol Hill early in the session has dropped to a whisper. The slogan of "recovery instead of more reforms" is no longer heard. There is nothing such as a concrete recovery program in Washington, either in the Executive Offices or in Congress.

The national income is disappointingly low, and shows no signs of early increase.

The one bright spot in the economic situation, as most careful observers here see it, is the home building boom. That is growing rapidly in every part of the nation. The system of insuring building loans set up by the F. H. A. is considered by many to be the most successful of all the New Deal's achievements. Under it private capital is more and more freely getting to work and hundreds of thousands of new homes are being built.

Much of the confusion of minds which everybody can observe in Washington can be attributed to the war scare. There is no doubt that all the war talk has had the effect of diverting the attention of many men in high office from internal affairs.

There is a considerable faction who believe that "big business" would like to see war, even if it involved the United States. That feeling is at the back of much of the neutrality talk, especially the proposals for preventing Americans from doing business with any

American wheat producers are caught in a world situation which finds virtually every exporting country using some form of government assistance to increase the price received by domestic producers.

Jess Watson, wheat farmer and member of the Texas Agricultural Conservation Committee with headquarters here, finds this to be true after a study of world wheat production and trade reports.

Despite shrinking outlets for world wheat, the world's major exporting countries have increased acreages and fought the stiffened competition by maintaining production levels.

Major net exporting regions include the United States, Canada, Argentina, Australia and the Lower Danube region.

In the middle '20's, the average wheat acreage per farmer in the United States was 100 Per Cent Taxation.

Proposals are being made for a system of wartime taxation which would take as much as 100 percent of profits made from the manufacture or sale of military materials.

The apprehension of war involving the United States is fading in official circles here, however. Indeed, there is a growing belief that no general European war is likely in the near future, if at all.

The nearest to war that Washington envisions is the war between the C. I. O. and the A. F. of L. The C. I. O. won the first major battle, with Governmental support, in the coal strike. Commentators here are recalling John L. Lewis's demand that the President should do something, after the election of 1936, to show that he was grateful for the \$500,000 contributed by the United Mine Workers to his Presidential campaign fund.

Cynical folk are suggesting that the official attitude in the bituminous coal mine tie-up amounted to a payment of that debt. The mine operators called it a strike, but the Department of Labor called it a lockout. And the miners won their demand for the closed shop.

total wheat acreage in exporting countries, not counting Russia, was around 130 million acres. In the middle '30's, this figure had been increased to 145 million acres, and for the 1937-38 crop year the acreage was 15 million acres greater, or 160 million acres. This increase of the '20's was about the size of the entire wheat acreage of both Australia and Argentina for the 1937 crop.

While acreage and production levels showed no sign of material decrease, net exports from the exporting countries (excluding Russia) in 1937 dropped 75 million bushels below the average of the middle '30's and 300 million bushels below the average of the middle '20's.

Forms of government assistance being used in the struggle for export markets are as follows:

Argentina: Grain-regulation board purchases wheat at fixed prices whenever world prices fall below minimum established by the government. The government has complete control of foreign exchange.

Australia: In most years government pays bounties and makes direct grants to wheat producers.

Canada: Canadian wheat board buys from producers at guaranteed minimum price and sells at the best price it can obtain, sharing an excess, if any, with participating producers, but charging loss, if any, to the national treasury. Government considering subsidies on acreage basis now as alternative.

Danube Basin Countries: Complete government control of wheat exports. In these countries the most effective means of moving wheat into export has proved to be bilateral treaties of agreements with certain wheat exporting countries of Europe.

Soviet Russia: All trade in wheat is government controlled.

W. P. A.
The Texas State Procurement

Officer for Works Progress Administration at San Antonio has issued invitations to bid for truck services on an indefinite quantity (open-end) contract for the fiscal year beginning July 1, 1939. These bids are to be returned prior to June 10, 1939 and opened on that date, according to announcement made by A. A. Meredith, Administrative Officer, today.

The bids will be taken for truck services on a county-wide basis, and contracts will cover the entire fiscal year from July 1, 1939 to June 30, 1940.

Bid invitations are being sent out by the Procurement Officer to all truck owners who have held prior contracts, or, may be otherwise registered with that office.

Any other interested truck owners in Administrative Field No. 16, which includes the twenty-six Panhandle Counties, who do not receive a bid invitation may secure same at W. P. A. Area offices in Amarillo, Childress, and Shamrock.

In those counties where W. P. A. construction projects are in operation, truck owners should contact the project superintendent who will assist in securing invitations to bid.

It is the desire of the district W. P. A. office that all interested truck owners secure these bid invitations and submit them to the Procurement Officer since all truck services for the next fiscal year will be secured only from those who submit bids at this time.

All trucks must receive inspection and be accepted by local W. P. A. safety representatives before contracts may be issued for their services.

All persons submitting bids will be allowed to account only, covering one or more offered for hire.

COMPARE Firestone CHAMPION TIRES FOR Value! Safety! Price!

TIRE	SAFETY-LOCK CORD BODY	GUM-DIPPING	2 Extra Layers of Safety-Lock Cords Under the Tread	GEAR-GRIP TREAD	Speedway-Proofed for Highway Safety
Firestone CHAMPION	✓	✓	✓	✓	✓
ANY OTHER TIRE					

For Your Decoration Day Trip protect your life and the lives of your family by equipping your car with a set of new Firestone Champion Tires. Compare this amazing tire with any other tire on the market in safety, in value, in price! Then you'll know why car owners everywhere acclaim it the sensation of 1939. And you'll realize why motor car manufacturers enthusiastically adopted it for their 1939 models. Only in the new Firestone Champion Tire do you get these patented and exclusive construction features:

- Safety-Lock Cord Body** is made by more tightly twisting together the fibers in each cord providing far greater strength—and greater strength means greater safety. **Another exclusive Firestone safety feature.**
- Gum-Dipping**, a new and advanced Firestone process, safety-locks the fibers, cords and plies together, counteracts internal friction and heat and gives greater protection against blowouts. **Another exclusive Firestone safety feature.**
- Two Extra Layers of Safety-Lock Cords Under the Tread** provide greater protection against punctures and more securely lock the Gear-Grip tread to the Safety-Lock cord body. **Another exclusive Firestone safety feature.**
- Gear-Grip Tread** has more than 3,000 sharp-edged angles which grip the road with a sure-footed hold to prevent skidding. It is so deep, so tough, so long-wearing that it is setting sensational new non-skid mileage records. **Another exclusive Firestone safety feature.**
- Safety-Proved on the Speedway for Your Protection on the Highway**—Firestone Gum-Dipped Tires hold all the outstanding records for safety, speed, mileage and endurance. In fact, for 19 consecutive years, Firestone Tires have been on all the winning cars in the annual 500-mile Indianapolis Race. **Another exclusive Firestone safety feature.**
- Price**—All of these extra advantages are yours at a price no more than you would pay for an ordinary tire and Firestone Champion Tires are backed by the Firestone Lifetime Guarantee—no time or mileage limit. **Another exclusive Firestone economy feature.**

FLOYD ROBERTS
1938 National Race Champion
More champion race drivers select and buy Firestone Tires for their racing cars than all other makes of tires combined. These men, whose lives depend on tire safety, know tire construction and they refuse to risk their lives or chances of victory on any other make.

PAUL ROBERTSON IS PRAISED BY WYOMING SPORTS SCRIBE

Well! I want to get it off my chest so here goes.

What I am talking about is the fight last Friday night at Fort Warren between Paul Robertson of Longmont, Colo., in which the decision was awarded to Ackziger...

I am not one to berate the officiating at any kind of an athletic contest and innumerable times I have made the statement that the crowd should never do so...

—Geo. H. Brown, Wyoming Eagle

SPEARMAN H. D. CLUB

The Spearman H. D. Club met May 15th at the home of Mrs. Floyd Mitts with Mrs. Hardin as co-hostess.

A letter was read from the Chairman of Education Mrs. McKnight, to put before the clubs for an additional fund of five cents per member to finance expense of the vice president.

The next meeting will be on June 5th. At the home of Mrs. R. B. Archer Jr when the style show for the club will be held.

BETTER HOMES H. D. CLUB

Do not use Clorox in hot water to bleach clothes, said Mrs. Clint Bennett in the discussion on laundry, when the Better Homes Demonstration club met in the home of Mrs. J. M. Blodgett on Tuesday May 23.

Clothes will be much whiter if lye or some other ingredient is used to soften the water. In using lye one tsp. to the boiler of water is about right.

Testing pressure cookers was demonstrated by Mrs. Deta Blodgett and Mrs. Joe Novak. Refreshments were served to mesdames J. M. Blodgett, Deta Blodgett, Clint Bennett, Earl Church, Merle Beck, E. S. Uptergrove, and H. Shedeck.

Robert Douglas, student at Texas U. returned home this week.

Ives, Beginners Dept. Rosalie Hughes. All parents are invited to send their children to this school.

Some 12,000 visitors and Delegates were in attendance.

Equalization will convene as a Board of Equalization on Monday June 5th, 1939, at the High School Building in Spearman, Texas, as required by Article No. 7206 of the Revised Civil Statutes of the State of Texas for the purpose of receiving the assessment lists or books of the Assessor of said District for examination, correction and equalization, appraisal and approval.

NOTICE OF MEETING OF BOARD OF EQUALIZATION OF SPEARMAN INDEPENDENT SCHOOL DISTRICT

Notice is hereby given that A. L. Jackson, Geo. F. Buzzard and W. M. Glover, members of the School Board of the Spearman Independent School District, Hartsford County, Texas, appointed by the Board of Trustees of said district as a Board of

Bruce H. Sheets Secretary Spearman Independent School District.

MANSFIELD TIRES ARE 3 WAYS SAFER. CORD-LOCK SIDEWALL DURO-MIX TREAD 700% SAFER BEAD. Includes image of a tire and descriptive text.

Mansfield Tires are 3 Ways Safer because they are built three ways differently from other tires. Mansfield Cord-Lock construction puts more tough cord fabric into the sidewall. Their wide, flat treads are made of Duro-mix rubber that wears longer in grinding service. Their high tensile piano wire beads are seven times stronger than actually needed. Mansfield Tires equip thousands and thousands of cars and trucks in every part of the country today because wise motorists wanted Mansfields and bought Mansfields—they did not get them as equipment tires. If you, too, want extra safety and extra mileage, let us show you Mansfield Tires to fit your car. You'll quickly see their extra value.

R. E. LEE OIL CO. MANSFIELD Tires EXTRA MILEAGE. Includes logo and brand name.

WREN LOFTIN BECOMES BRIDE OF FRED HOLT AT CHURCH WEDDING WEDNESDAY MAY 24

The marriage of Miss Wren Loftin, Amarillo, daughter of Rev. and Mrs. A. F. Loftin and Fred Holt of Spearman took place in the First Baptist church of Spearman Wednesday evening May 24 at 8 o'clock. Rev. A. F. Loftin, father of the bride read the ring ceremony before an altar decorated with calla lilies, palms and fourteen large white candles in candelabrae.

The bride wore white marquisette with matching accessories and carried a bouquet of pink rose buds and lily of the valley. Mrs. Paul Loftin, sister-in-law of the bride, was matron of honor and Nolar Holt, brother of the groom, served as best man. Joanna Gover and Joan Hoskins were flower girls. Rev. Doyel and O. C. Holt were ushers.

Mrs. R. E. Lee sang "I Love You Truly", and "Because", accompanied by Miss Mary Gantt. Miss Gantt also played the wedding march.

After the ceremony a reception was held at the home of Mr. and Mrs. R. E. Lee, Mrs. O. C. Holt and Mrs. Paul Loftin presided at the table.

The mother of the bride wore a navy blue lace dress with gardenia corsage and the mother of the groom wore navy sheer with a like corsage.

After a wedding trip to Yellow Stone Park, Colorado, the couple will be at home in the Holt community 12 miles south of Spearman.

The bride finished Spearman High School and received her degree from West Texas State, Canyon. The groom finished Spearman High School and is a Senior at Texas A. and M.

FORMER SPEARMAN GIRL MARRIES TULIA MAN

Announcement has been made of the marriage of Lady Maurine Archer and John H. Lea which took place in Amarillo, April 26, 1939. Judge H. W. Duke officiated.

Miss Archer is the only daughter of Mr. and Mrs. J. Dan Archer of Amarillo. The Archer family are pioneer residents of the Panhandle. Miss Archer was married on the 21st wedding anniversary of her parents. She graduated from Spearman Hi in 1935, and received a B. A. degree from West Texas State, Canyon in 1938, where she was a charter member of the Eta Iota Chapter of Alpha Psi Omega, National Dramatic Sorority. For the past year she has taught in the Tulia Public School. Mr. Lea is the son of Mr. and Mrs. J. H. Lea of Tulia. He is a graduate of Knox City High School and is now attending professional school in Amarillo.

JENNINGS - CONVERSE

A marriage of interest to the younger set of this county, was that of Ray Valet Converse of Spearman and Miss Jean Jennings of Canadian. The wedding vows were taken Monday May 22 and the Methodist pastor, Rev. D. S. McCree officiated.

Ray Valet is the young son of Mr. and Mrs. R. V. Converse, of Spearman. He graduated from the Spearman High school in 1937 with honors in the school band and school athletics. Mrs. Converse is the daughter of Mr. and Mrs. O. A. Jennings of Canadian and has been an employee of the Santa Fe railroad for many years as conductor on one of the trains out of Canadian for the past 12 years.

BAGGERLY'S Tenth Anniversary Sale Saturday and Monday May 27-29

This business firm celebrates the 10th anniversary of doing business with the finest people in the world this week.

To say that we appreciate your patronage and cooperation during the past 10 years of good bad times, expresses the situation only mildly. We have ever attempted to keep fresh staples and merchandise and SELL IT QUICK for a small profit.

This business opened the first Helpy Selly grocery store in this county, and while we do not hold the title for this class of merchandising store at the time, we do attempt to sell Quality merchandise at as low a margin of profit as it is possible.

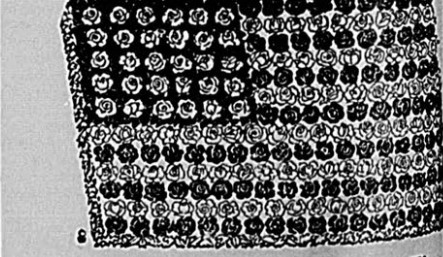

THANKS AGAIN

—for your patronage during the past ten years and let me express the hope that conditions will improve so that each and all of you may enjoy health, prosperity and happiness.
