

## Council Opens Activity Fee Question

**TECH POLL TAX TAKER**—Poll Tax booths set up on the campus have enabled both students and faculty to pay their \$1.75 or register exemptions for 1957 voting. Friday will be final day for paying poll tax on campus with a booth in the East Engineering Building from 8 to 12 p.m. Pictured here at the poll tax booth are Mary Cunningham, Tech employee, and AWS member Sue Shugard, an official tax taker. The booths were sponsored by Alpha Phi Omega and AWS.

### Approved TISA Resolution Suggests Compulsory Student Activity Ticket

The Student Council reopened the study of the Student Activity Fee in a regular meeting Tuesday night.

Recommendations for improving the ticket, boosting its sales, and lowering the price of the fee were approved by the council after submission by the Budget Committee.

Highlight of the recommendations was approval of the Texas Intercollegiate Student Association's recommendations to the State Legislature that the activity fee be made compulsory. If the legislature adopts the TISA resolution the activity fee could be made compulsory by the college administration and the students. Before it would become compulsory at Tech a majority of students would have to approve the move in a campus wide election.

The council recommended that the activity fee should be reduced whether it is made compulsory or not. One suggested way for lowering the price was to reduce the athletic portion of the fee by 10 per cent of the present \$15.42 that it now receives from each ticket. Another suggestion was to eliminate some of the organizations under the auspices of the activity ticket.

#### Would Lower Cost

Budget Committee Chairman David Thompson pointed out that whether the fee was made compulsory or not that an all out effort would be made by the council to lower the cost of the fee next year. He also stated that if the fee were made compulsory there was a strong possibility that it would be cheaper and would have more privileges than the present activity fee.

In response to suggestions that something be done about the size of the activity books, the council recommended that they should be combined with the I.D. Cards. If approved by the administration, this would eliminate the confusion of checking both I.D. Cards and activity books before entering athletic events.

#### Add New Features

In an all out effort to boost sales it was recommended some good drawing attraction be added to the ticket. Things that might be included in the fee are the La Ventana, Varsity Show, name bands and the rodeo. It was also suggested that married students

See COUNCIL Page 8

### Council Sponsors Spring Fee Sale

Students who do not have an activity book and wish to buy one covering spring activities may purchase one for eight dollars during registration.

Activity books purchased during fall registration are also good for the spring semester.

The activity book will cover six basketball games worth \$9.00; three Artists Course presentations, \$4.50; speech production, \$.75. Total value of activity book is \$14.25, says David Thompson, Student Council business manager.

The Student Council will receive four dollars of the eight dollars paid for the ticket for distribution among campus organizations. Two dollars will go to athletics, one dollar to the Artists Courses and one dollar to the band.

The Spring basketball schedule includes a game with nationally ranked Southern Methodist University. Students buying an activity book the first day of registration may see a seventh game with Baylor. The activity book also covers baseball games.

Artists Course presentations will include pianist Arthur Rubenstein, Canadian Players presenting "Hamlet" and Vienna Academy chorus.

"Adding Machine" will be the speech department's spring presentation.

## La Ventana Seeks Aid From Campus Clubs

Over 100 campus organizations have not completed their obligations to La Ventana, according to Barbara Pearce, La Ventana editor.

Organizations must have all information and pictures turned in

no later than Feb. 3. If they do not meet this deadline the annual will be late this spring.

Each organization is requested to send a representative to the La Ventana office as soon as possible to check on copy and pictures.

Several organizations have had their pictures made but have not identified the students in the pictures, Miss Pearce stated. All pictures must be identified before these organizational pages can be finished.

La Ventana office is located on the second floor of the Journalism Building and is open each afternoon from 1 to 5.

If all campus organizations will cooperate, the annual should be in the hands of students by May 10. However, if they do not complete their obligations to La Ventana immediately, the annuals will not be available until after school is out.

"Although 200 pages have already been sent to the publishers, this is less than half the annual," she added. "In order to get the annuals to the students before school is out, the remaining 330 pages must be mailed within the next month and a half. This cannot be done without complete cooperation from the different organizations having pages in the annual."

### Horsley Will Head Tech Vets Club

Joe Bob Horsley was sworn in as spring semester commander of the Tech veterans Club last Thursday night at the club's meeting.

Other spring officers sworn in were: Joe McAlister, vice commander; Doug Bucklelew, secretary; Dick Strong, treasurer; Carl Morrow, reporter; Don Brown, sergeant-at-arms; James Russum, loan fund treasurer.

## Tech Speech Students To Debate In Amarillo Tomorrow, Saturday

Sixteen Tech speech students will leave tomorrow morning to compete in the Golden Spread Debate Tournament at Amarillo tomorrow and Saturday.

The students composing eight debate teams will compete in three

divisions. Representatives from 15 colleges are expected to participate in the tournament.

Debaters will argue the resolution that "The United States Should Discontinue Direct Economic Aid to Foreign Nations." Preliminary debates will be held in five rounds of one hour each. Uneliminated teams will then take part in three championship rounds.

Participants in extemporaneous speaking will draw three topics on current national affairs. They will be given 50 minutes to prepare a seven-minute talk on any one of the three.

Contestants in original oratory will present 10-minute persuasive speeches on the subject of their choice.

Participating students are: Dale Karpe, George Nelson, Jack Gibson, Willis Taylor, Don Ludwig, Virginia Bray, Craig Austin, Barbara Van Horn, Tommy Reagor, Jerry Fletcher, Marlys Harris, Patricia Worley, Cheri Laurie, Carol Ann Gordon, Pat Mullens and Betsy Donovan.

Dr. P. Merville Larson, Professor and head of the speech department, and James Brennan, speech instructor, will accompany the students.

## Class Favorites To Be Nominated

Nomination for class favorites will be made today at 5 p.m. at campus-wide class meetings.

The freshmen are to meet in the Administration Building Room 364 and will discuss plans for the freshmen dance.

The Aggie Engineering Auditorium will be the scene of discussion by the sophomores of the "Hodge Podge" dance that is to be March 2.

Meeting in the Aggie Auditorium, juniors will make plans for the junior-senior prom and junior stunt night.

Seniors, meeting in the Chemistry Building, Room 101, will discuss the senior class gift and a concert to be presented by a popular vocal group.

## First Tech Snow Festival Scheduled For January

Tech-Snow Festival—a mid-winter skiing trip to the snow-covered slopes near Santa Fe, N. M.—is planned for the weekend between semesters, Jan. 26-29.

Sponsored jointly by Tech Union and Tech Ski Club, plans have been completed for the outing at Bishop's Lodge, near Santa Fe. According to Jess McIlvain, director of the festival, Bishop's is a very exclusive lodge, but the management has arranged for a tremendous reduction from regular rates for Tech students during the festival.

Plans call for the Tech delegation to leave via chartered bus on Jan. 26, last day of final exams, if possible. Sunday, Jan. 27 has always been designated Tech Day on the slopes by the lodge. McIlvain points out: There is a possibility that the city of Santa Fe might follow suit in honoring Tech students during their stay.

The group will return to Lub-

bock on Tuesday, after two full days of skiing, in plenty of time for registration for the spring semester, which begins on Wednesday, Jan. 30.

McIlvain estimates that Tech students should be able to make the trip for around \$40. The lodge has set up a special rate of \$20 per student, which includes lodging, meals, skiing and other entertainment which the management might offer.

Cost for the chartered bus will be \$10 per student, and the rest of the \$40 will include ski lessons, ski life, personal insurance and other items. McIlvain suggests that those taking part in Tech Snow Festival buy a membership card to Tech's Ski Club. The card, he says, will entitle the holder to certain benefits at any ski resort in the United States.

Tech students will not need to take any ski equipment, since

See SKI TRIP Page 8

### THE CLASSIC QUESTION

The "Classic Question" seems to have been re-opened at Tech—"To have or not to have a compulsory activity fee."

It's one of the oldest and most controversial questions in the history of the school—handed down from class to class—and after several cycles of the same process, the activity fee problem remains unsolved. Scarcely more than half the student body bought an activity ticket this year.

The Student Council's latest move is to get an activity fee that will serve the purpose for which it is designed. First to support campus activities which are dependent upon such a fee; second, to give the students something tangible and enjoyable for their money; and third, to get the fee paid by the students.

Toward getting the Council's position clear, it should be mentioned that it is not trying to "shove something down the throats of the students." Council members do not intend to make the price of education at Tech prohibitory. The move is not designed as a socialistic trend—and it's not an effort to promote the special interest groups of the campus at the expense of the entire student body.

Their first goal is to lower the activity fee, compulsory or not, and to put into the book a group of activities that will really give every student his money's worth. This constitutes a lower price for a better book. The second goal is to make sure that every student assumes his fair share of the expense of activities that benefit the entire campus population.

The council's appeal to the student body at the present is for an open ear to the problem and the improvements they are suggesting.

Before completely balking at the idea of a compulsory fee, why not first consider its advantages—see what it offers, not only in short range benefits, but in the long range picture.

The move toward a compulsory fee by the council is not merely "dreamed up," it is based on the past problems of the activity fee, upon the reflected opinion of the entire student body, and is the result of research and comparison with similar fees at colleges of like size and standing.

Careful study of the plan proposed in resolutions adopted by the council will reveal that it is trying to do what needed to be done years ago.

The solution to the activity fee problem is to improve the book, lower the price, and make the thing compulsory.

—Ross Short

### Tech Grad Elected To State Post

Waggoner Carr, Tech graduate, took over one of the most important posts in the state capital Tuesday—speaker of the House of Representatives of the 55th Texas Legislature.

Carr graduated at Tech in 1940 with a Bachelor of Science in Government. While at Tech he served as President of the Debate Club and was a member of the Pre-Law Club.

As Carr was sworn in by Secretary of State Tom Reavley, his parents, Mr. and Mrs. Vincent Carr, his wife, also a Tech graduate, his son, David, 7, two brothers, Warlick and Robert, a sister, Mrs. Jack Weldon and a dozen close friends from Lubbock were standing in places of honor on the rostrum.

"It is with deep humility and a grateful heart that I accept this office," said Carr in his acceptance speech.

"In my capacity as your speaker,

I intend to try my best to be a good and faithful servant to you."

### THE TOREADOR

The Toreador, student newspaper of Texas Technological College is regularly published each Tuesday, Thursday and Friday on the campus at Lubbock by the associated students of the College, and is financed by student activity fees, advertising and subscriptions.

### Manning Lectures Tonight At Union

"The Scientist and the Historian" is the subject of a lecture to be given by Dr. Thomas Manning tonight at 7 in the Student Union Ballroom.

Dr. Manning, history professor, is currently writing a manuscript in the field of the History of Science. A newcomer at Tech, Dr. Manning, is a graduate of Yale and has taught at several leading colleges and universities before coming to Tech.

The lecture is sponsored by

Sigma Pi Sigma and Kappa Mu Epsilon. All students and the faculty are invited to attend.

### Poll Tax Booths To Close Friday

Tech faculty members, staff members and Lubbock County residents may file for poll taxes and exemptions on the Tech campus from 8 a.m. until noon Friday.

Poll tax applications were filed Tuesday and Wednesday in the Student Union, Thursday in the Administration foyer.

Final poll tax taking will be in the lobby of East Engineering Friday morning.

Alpha Phi Omega and the Association of Women Students are sponsoring the booths and writing the poll tax receipts.

### Nobody Gave A Hoot For J. Paul Sheedy\* Till Wildroot Cream-Oil Gave Him Confidence

"Wise everybody avoid me so?" h-owled J. Paul. "Because you're such a ruffled old bird", replied his best buddy. Well that really opened Sheedy's eyes. He took a taxi-dermist down to the store and pecked up a bottle of Wildroot Cream-Oil. Now he's the picture of confidence because he knows his hair always looks its best from morning till night. So if people have been hooting at your messy hair, screech for a bottle or tube of Wildroot Cream-Oil. It's guaranteed to keep your hair neat but *not* greasy. And all the gals will go out of their way to beak to you.

\* of 131 So. Harris Hill Rd., Williamsville, N. Y.

Wildroot Cream-Oil gives you confidence

## Date For Fall Semester Examinations Are Set For January 21 through 26

Final examinations for the fall semester will be given Jan. 21 through Jan. 26, following a week of restricted activities extending from Jan. 14 through Jan. 19.

Classes scheduled for more than an hour will take the first hour on the exam schedule, and two-semester-hour-courses will take precedence over one-semester-hour courses.

In case of conflict of orientation with regular exams, the orientation exam should be given the last

day the class meets.

Requested changes in the schedule for an individual student will be considered by the Dean of the division in which that student is registered.

The schedule for evening classes applies to classes meeting one and one-half hours, twice a week. Other classes meeting in the evenings will have their examinations at the regular class meeting during the exam week.

### EXAMINATION SCHEDULE FALL, 1956

#### MONDAY, JANUARY 21, 1957

8:00-10:30 Classes meeting 10:00-11:00 MWF  
11:00-1:30 Classes meeting 4:00-5:00 MWF  
2:00-4:30 Classes meeting 11:00-12:00 TTS

#### TUESDAY, JANUARY 22, 1957

8:00-10:30 Classes meeting 9:00-10:00 TTS  
11:00-1:30 Classes meeting 3:00-4:00 TTS  
2:00-4:30 Classes meeting 1:00-2:00 MWF

#### WEDNESDAY, JANUARY 23, 1957

8:00-10:30 Classes meeting 11:00-12:00 MWF  
11:00-1:30 Classes meeting 2:00-3:00 TTS  
2:00-4:30 Classes meeting 9:00-10:00 MWF

#### THURSDAY, JANUARY 24, 1957

8:00-10:30 Classes meeting 8:00-9:00 TTS  
11:00-1:30 Classes meeting 4:00-5:00 TTS  
2:00-4:30 Classes meeting 2:00-3:00 MWF

#### FRIDAY, JANUARY 25, 1957

8:00-10:30 Classes meeting 8:00-9:00 MWF  
11:00-1:30 Classes meeting 3:00-4:00 MWF  
2:00-4:30 Classes meeting 1:00-2:00 TTS

#### SATURDAY, JANUARY 26, 1957

8:00-10:30 Classes meeting 10:00-11:00 TTS  
11:00-1:30 Classes meeting 5:00-6:00 MWF  
and Saturday only  
2:00-4:30 Classes meeting 12:00 on MWF & TTS

6:30-9:00 PM Classes meeting 6:30-8:00 MWF

#### TUESDAY, JANUARY 22, 1957

6:30-9:00 PM Classes meeting 6:30-8:00 TT

#### WEDNESDAY, JANUARY 23, 1957

6:30-9:00 PM Classes meeting 8:00-9:30 MWF

#### THURSDAY, JANUARY 24, 1957

6:30-9:00 PM Classes meeting 8:00-9:30 TT

## Senior Architecture Students To Design Building

How would you like to design a gambling casino for Acapulco, Mexico? Or perhaps a Mohammedan Mosque? If you would like to do either of these two things, change your major to architecture and in four and one-half years (nine semesters) you will get your chance.

Prof. Nolan Barrick, head of architecture and allied arts, says he gives each student in architecture a chance to apply what he has learned by designing something of his own choice in the last semester of his college work.

For the nine semesters preceding the last one, Prof. Barrick has his charges working on more conventional projects, such as the college chapel that the senior class

designed for a Texas college contest. Schools entering designs were Texas, Texas A&M, Houston, Rice and Tech.

"During the last semester the students work under supervision of the department, but their projects are not interfered with or changed, except to prevent repetition," Barrick asserts.

The department head says that the students look for idea designs in their hometown during the Christmas vacation. By the time the vacation is over, they have already started initial planning and drawing.

"Often the students design

buildings that are in their hometowns or are needed in their hometowns," Dr. Barrick declares.

He says this is the reason for unique designs such as gambling casinos and Mohammedan mosques. Some of the more common designs are oceanography stations, ski lodges, housing projects and furniture factories.

This year's senior class is composed of eight students, but Prof. Barrick believes this class to be the last of the small classes at Tech.

"We will have larger classes from here on out," the department head asserts.

### SENIORS AND GRADUATE STUDENTS IN ENGINEERING, PHYSICS AND MATHEMATICS

The Douglas Aircraft Company  
invites you to

**ON CAMPUS INTERVIEWS**

## Museum Sponsors Italian Exhibit

Tech's Art Institute is sponsoring a photographic exhibit of Italian Renaissance architecture at The Museum until Jan. 30.

This exhibition, consisting of 14 photographic panels, a title panel, and three caption panels, is circulated nationally by the American Federation of Arts, and was photographed by Rollie McKenna.

Works of three Italian architects are represented: Filippo Brunelleschi (1378-1446), Leon Battista Alberti (1404-1472) and Andrea Palladio (1518-1580).

Miss Dorothy Rylander, secretary of The Museum, invites interested persons to see the exhibit, and adds that it is of most interest to all architecture students. Admission is free.

KINGSMEN COMBO. The combo will be featured at a jazz concert Sunday afternoon at 4 in the Union. It is a band composed almost entirely of Tech students which plays for many of the campus social functions and dances. —Photo By Ross Short

### Kingsmen Combo To Be Featured At Union Jazz Session

The Kingsmen Combo will be featured Sunday at 4 p.m. in a jazz session, "The Last Blast" before finals in the snack bar area of the Union. The band is composed of John Austin, alto, tenor and clarinet; J. B. Baccus, Jr., tenor sax and guitar; Roy Boyd, piano and vocal; Dwayne Grimes, electric bass; Stan Powers, drums; Wendell Spence, trumpet; and Jimmy Whitacre, trumpet and trombone.

A semi-professional dance band, the Kingsmen Combo is composed almost entirely of Texas Tech students. The band was organized in the fall of 1954 and is a legal partnership of seven men. They played at the Jr.-Sr. Prom last year with the Four Freshmen.

The band is composed of John Austin, alto, tenor and clarinet; J. B. Baccus, Jr., tenor sax and guitar; Roy Boyd, piano and vo-

### Kappa Alpha Theta Marks Its 87th Year

Kappa Alpha Theta celebrates its eighty-seventh year as a social sorority Saturday with a luncheon in the Union ballroom.

Mrs. Turner Kimmell, Theta alumna, will give a review of "We Who Wear the Kites," a history of the organization.

All active members and pledges of the Texas Tech chapter and Lubbock alumnae of Kappa Alpha Theta will attend the luncheon.

Each Theta is asked to bring as many pennies as there are years in her age. This money is to be presented to the Institute of Logoplegics.

### WESTERN DANCE SET BY PHI KAPPA ALPHA

Phi Kappa Alpha will have a western dance before dead week Saturday night at their lodge, 2106 Avenue Q, at 7:30.

Records will furnish the music. The dance is for members, pledges and -rushes, and western clothes will be in order.

### DECKER IS ELECTED TO NEW ACADEMY

Charles G. Decker, Texas Tech professor of civil engineering, was elected to the newly formed American Academy of Sanitary Engineers at its first national meeting in New York.

The organization was formed to improve standards of sanitary engineering.

The Academy plans to issue certificates to sanitary engineers who complete post graduate studies in specialized areas, and compile and distribute lists of engineers with such specialized knowledge.

Decker has been asked to concentrate on the fields of water supply and waste disposal.

Besides his election to the academy, Decker was named a fellow in the American Public Health Assn. last fall. He is also a member of the American Society of Civil engineers.

## Archives Explained to Theta Sigs By Dr. Conner At Chapter Meeting

Explanation was made of how archives are mainly used and how journalists abuse their use by Dr. Seymour V. Conner, guest speaker for Theta Sigma Phi, women's journalism fraternity and the alumnae chapter Tuesday night.

Dr. Conner, Tech history professor and Director of the Southwest Collection at the Museum, is the former state archivist at Austin. He explained to the group something about the archives, which are very detailed old records of all types kept by city, county, state and national governments or in private collections.

Comments were made on how the records are used by journalists for extensive research and to write books on past history. He also told of techniques used by journalists when writing articles from these type of records.

Following the talk, members of both chapters discussed a possible choice of a well-known writer to speak at the Matrix Table Banquet which Theta Sigma Phi sponsors in April.

Initiation service will be conducted Sunday afternoon at 2 o'clock in the home of Mrs. James G. Allen for pledges Cathy Dickson, Helene Edwards and Janet Moore.

### Union Schedules Pre-Final Dances

Three dances will wind up activity before final exams at the Union.

Tonight there will be square dancing in the old rec hall at 7. It is a record dance sponsored by the Square Dance Committee.

"Semester Finale" will be the theme of the dance sponsored by the Dance Committee this Friday at 8:30 p.m. in the Union Ballroom.

Playing for the dance will be the Esquires. The dance is informal and there is no admission charge.

In a "Last Blast" before finals, the Kingsmen Combo will be featured at a jazz concert Sunday afternoon at 4 in the snack bar area of the Union.

## Luckies Taste Better

"IT'S TOASTED" TO TASTE BETTER . . . CLEANER, FRESHER, SMOOTHER!

LIGHTING A LUCKY? You might rub two sticks together—but it'll take you hours to see the light. You might use ten-dollar bills—if you've got money to burn. Or you might insist on matches—in which case you'll be a *Lighter Slighter!* Any way you light it, a Lucky tastes out of this world. It's all cigarette . . . nothing but fine, mild, good-tasting tobacco that's **TOASTED** to taste even better. Try a Lucky right now. You'll say it's the best-tasting cigarette you ever smoked!

DON'T JUST STAND THERE . . . STICKLE! MAKE \$25

Sticklers are simple riddles with two-word rhyming answers. Both words must have the same number of syllables. (No drawings, please!) We'll shell out \$25 for all we use—and for hundreds that never see print. So send stacks of 'em with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mount Vernon, N. Y.

DREAM GIRL of Phi Kappa Alpha—Pat Cassidy receives her roses after being named PiKa Dream Girl at their dinner dance in December. Pat received the honor over four other girls. Ralph Sherrill, president of PiKa is shown with Miss Cassidy.

### Pat Cassidy Is PiKA Dream Girl

Pat Cassidy was named Dream Girl of Pi Kappa Alpha, men's social fraternity, December 14, at the Dream Girl Dinner Dance.

A sophomore business administration major from San Antonio, Miss Cassidy will represent the Tech chapter in the National Dream Girl Contest later this year.

A member of Delta Delta Delta sorority, Miss Cassidy was a Pi Kappa Alpha Gardenia Girl last year, is chairman of the Union Music Committee, and has played the accordion at several campus functions. She played in Autumn Fantasy last year.

Attendants to Miss Cassidy are Jean Gilliland, Kay Henry and Ruth Swanland.

### PHI KAPPA PSI COUNCIL MEETS

Phi Kappa Psi, men's social fraternity, held a leader orientation council meeting between new and old officers Sunday in the Union for the purpose of transferring the business of the chapter to the newly installed leaders.

Jerry Gibner, new president, was assisted by the following officers: James Thompson, vice president; George Patterson, treasurer; Gilbert Finnell, corresponding secretary; Bill Richmond, recording secretary; and Paul Edwards, historian.

One hundred and twenty-five suggestions were made in the 30 minute suggestion period of the meeting. Twenty-six officers and committee chairmen were present.

### Choir Ends Concerts

A performance of "favorite" choral music last night and one this morning will climax the activities of the Tech Choir for this semester.

This morning's performance was presented at an assembly program at Tom S. Lubbock High School. The music group appeared last night in the Municipal Auditorium before an assembly of local Lions Club members after a 6:30 dinner in honor of John L. Stickle, International President of Lions Clubs.

Included in the programs se-

lections were "Battle Hymn of The Republic," accompanied by an instrumental ensemble from the Tech Band; "Create In Me, Oh God, A Pure Heart," by Brahms; "How Sad Flow The Streams,"

Brahms; chosen selections from "Oklahoma." Other numbers presented were "What Shall We Do With a Drunken Sailor," arranged by Terry and accompanied by Pat Cassidy on accordion and George Attwood playing string bass; "Polly-Wolly Doodle," featuring a trio of Bob Wham, Sarabeth Simpson and Betty Jo Tyer; "Joshua Fit The Battle of Jerico," arranged by Williamson; and a repertoire by "The Squires," a quartet consisting of Charles Sanders, John Matson, Don Armstrong and Robert Wham.

### Two Fraternities Set Week End Hops

Two social fraternities have scheduled activities for Saturday night.

Phi Gamma Delta has scheduled its annual winter dance for 9 p.m. in the Student Union Ballroom.

The Kingsman Combo will render music for the formal dance which is open to other social organizations.

Sigma Alpha Epsilon will have a record dance at 8 p.m. in the K. N. Klapp Party House.

The social is to be a sport dance for members, pledges, rushees and their dates.

### TWO COEDS ATTEND SOCIETY CONVENTION

Two Texas Tech coeds have just returned from Chicago where they attended two national conventions.

Laverne Dierschke and Sharon Seeliger attended the national conventions of Pi Omega Pi, national business education honorary society.

Miss Dierschke is president and Miss Seeliger is vice president of the local chapter of Pi Omega Pi.

### Drane Hall Elects Spring Officers

An election to name Drane Hall officers for next semester is being conducted today.

Candidates for president are Nancy Carlock and Gail Petersen. The girl with the most votes will be president and the other vice president.

Mary Jane Connally and Ruth Cory are secretary nominees. Nancy Wilten and Polly Green are running for treasurer. Nominated for social chairman are Marcia Barnes and Rose Cox.

Mary Alice Hardy and Manon Muncy are candidates for the office of chaplain. Three nominees for Big-Little Sister Chairman are Sharry Felton, Rosa Riojas and Polly Green.

Candidates for Publicity chairman are Mary Jane Connally, Ruth Cory. Nominated to represent Drane on the Food Service Council are Nancy Wilten, Polly Green and Sharry Felton.

Nominees were chosen by the freshman and upperclass legislators.

### Air Society To Hear SAC Discussion

Maj. Earl H. Gordon of Dyess Air Force Base will discuss Strategic Air Command operations and combat crew duty at an Arnold Air Society tonight at 7:30 in the Anniversary Room of the Union. An airman of 14 years, Major

Gordon is base flight commander of the 19th Operation Squadron at Dyess Air Force Base, Abilene. His assignments have included combat crew duty with the Strategic Air Command and various training duties.

### Home Economics Students:

**YOU may qualify for a civilian dietetic internship as a fully paid AIR FORCE OFFICER**

If you now hold—or will soon—a bachelor's degree in Home Economics, with a major in Foods and Nutrition, or Institution Management, you will be interested in the Air Force Hospital Dietetic Internship Plan. Under this plan, you are, if eligible, commissioned as a second lieutenant and assigned to an approved civilian hospital of your choice to serve a 12-months' internship. During this period, you receive the full pay and allowances of your rank (\$338.58 per month).

Upon completion of your training, you will have the chance to practice in military hospitals in both the continental U.S. and overseas. Air Force dietitians supervise all food services, including regular and modified diets. Here is your opportunity to gain valuable experience, travel and greatly further your career. For full information, mail the attached coupon, now.

## Okayed By College Bids On New Dorms

Bids for two new men's dorms have been accepted, while work on the new gym and women's dorm continues.

Contractors for Men's Dormitory No. 1 have been selected. Low bids were \$2,421,200. Contractors for Men's Dormitory No. 2 will be selected by the building committee of the Board of Directors at a later date.

Completion of the new gym and the women's dormitory now being constructed are scheduled to be completed by next fall.

## Students Plan Speech Courses

"Democratic" speech classes, in which students plan their own course according to their needs have been introduced at Tech by Dr. P. Merville Larson, speech department head.

This unique program is discussed in an article by Dr. Larson, published in the October issue of Education, a magazine devoted to science, art, philosophy and literature of education.

UNDEFEATED—The Picadors coached by Gene Gibson are well on their way to another successful season. So far this season they have defeated San Angelo Jr. College, Odessa College, Cameron Jr. College and Schreiner Institute. Members of the starting five are Dale McKeehan

of Sweetwater, Robert Echols of Amarillo, Gene Arrington of Amarillo, James Wiley of Monterey (Lubbock), and Pat Noakes of Ft. Worth. Coach Gibson is a Tech graduate and former coach, at Snyder High School.

## Basketball Scores

The Tech Varsity has a 3-8 mark for the season as they have defeated:

1. Tulsa
  2. Tulane
  3. Arizona State
- They have lost to:
1. SMU (Number 4 in Nation)
  2. Kansas State
  3. Iowa State (No. 7 in Nation)
  4. Georgia Tech
  5. Memphis State (No. 19 in Nation)
  6. Arizona
  7. TCU
  8. Nebraska

## JIM REED, OILERS PLAY TECH

Jim Reed, four-year letterman at Tech, who graduated last year will be playing in front of his alma mater once more as the Phillips Oilers take on the Red Raiders.

This exhibition game is set for 8 p.m. Jan. 19.

Reed, however, will be on the other side of the fence as he will be trying to defeat the Raiders rather than help their cause. He is the only Raider to start for four complete seasons as he was a starter his freshman year.

He climaxed a brilliant career by guiding the Raiders to the Border Conference Crown and sending them to the NCAA playoffs. Highpoint of his senior year was the 36 points which he scored against arch-rival West Texas State College.

Tuesday nights scores: Phi Gamma Delta 31, Sigma Chi 26; Kappa Sigs 40, Sigma Nu 30; ATO and Phi Deltas-double forfeit.

## A Campus-to-Career Case History

Frank R. Hoffman, B.S. in Liberal Arts, Hampden-Sydney College, '53

## Meet an Assistant Manager—Hampden-Sydney, '53

Frank Hoffman is Assistant Manager of the telephone office at Newport News, Va. Frank's office has about 25,000 accounts, and handles \$360,000 worth of business a month.

He joined the telephone company in 1953, only three years ago.

"My wife worked there first," says Frank, "while I was still in college. What she told me, along with what I learned from friends in the business, pretty well sold me on the telephone company as a place to find a career. And the interview clinched it. The job opportunities were too good to refuse."

"I began in the Commercial Department, which takes care of business contacts with customers. The training was

continuous and excellent. One of the most rewarding jobs I had was working on revenue studies involving estimates of population and telephone growth. This experience is really useful in my present position as Assistant Manager.

"I supervise the personnel who handle customer contacts. And I assist in the handling of our public relations work in the community. In the Manager's absence, I take over."

"It's a great job, full of opportunities and satisfaction. I like working with people, and I like to see my work contributing to the betterment of the community and the company. Choosing a career in the telephone business was the best move I've ever made."

Frank Hoffman chose a career with The Chesapeake & Potomac Telephone Company of Virginia. Interesting career opportunities exist in other Bell Telephone Companies, Bell Telephone Laboratories, Western Electric and Sandia Corporation. Your placement officer has more information about them.

### IT'S FOR REAL! by Chester Field

### PENNY WISE\* POUND FOOLISH

"I'm sad to say," said Tootsie Brown. "The weight I gain just gets me down. Each bite, each drop of this or that, immediately turns to fat. Some girls, I note, can eat and eat and yet they still look trim and neat. To aggravate the situation I much dislike my fat's location. I wouldn't so much want to change me, if only I could rearrange me."

**MORAL:** Rearrange your smoking ideas and find what contentment means. Get real pleasure, real satisfaction, with Chesterfield—the cigarette that's packed more smoothly by Accu-Ray for the smoothest-tasting smoke today!

Smoke for real . . . smoke Chesterfield

\*550 goes to ANN BLACKMAR, Bowling Green State University for her Chesterfield poem.

# "GIANT"

By WILBUR JARRETT

Having seen the fine movies, "Giant" and "Written on the Wind," both of which are satirical of oil barons and Texas in general, I wonder what the outsiders think about another "Giant" in Texas besides oil—Texas football.

## Texas Vs. Big Ten . . .

Many so-called experts try to say that the best football is played in the midwest with the South-west Conference lagging far behind. This is not so. In the midwest, particularly in the Big Ten Conference each state has only one big college. For example, take Ohio State. It is the only major college in the state and all of the hot-shot high school players funnel into Ohio State. Why shouldn't they have good teams? Iowa, Wisconsin, and Minnesota are also one-school-states. Illinois, Indiana, and Michigan have two big colleges.

Texas is split up by eight big colleges by which the football material is split up. Yet, the population of Texas is approximately the same as Ohio. Tech, SMU, TCU, Baylor, A&M, Texas, Rice, and U. of Houston are made of players from Texas high schools. You might say that the nation's number one team, Oklahoma, recruited a "few" boys from Texas in view of the fact that two Texans were captains of this year's Big Red Team. One was named Lineman of the Year.

## Tech Over Oklahoma?

Now that bowl games are over and a true picture of the football scene can be drawn, I think it would be in order to pick the top five teams of the nation. My choices would be 1. Oklahoma 2. Texas A&M 3. Baylor 4. Iowa 5. Abilene High. However, some people are inclined to believe that No 4 may be overrated and perhaps I should up Abilene up one notch. Another fact to consider in the listing of top teams is comparative scores between teams. This system seems to be most effective in rating teams. Oklahoma beat Texas worse than A&M and A&M beat Baylor so you see the system is really smooth. Because of this we may have to change the ratings a little. For instance—O.U. 45-T.U. 0; TCU 46-T.U. 0; Tech 21-TCU 7. This puts Tech over Oklahoma by 15 points. Maybe I underrated the Raiders. Hmhmhm. Last year by this same method, I found that Notre Dame was actually 352 points better than themselves . . .

## Swing Around The State . . .

Let's take a quick look at the major happenings at some of our friendly rivals.

**TCU . . .** Sports Editor of the TCU school paper, Dave Brown, charges that conference champs, Texas A. & M., are professional footballers. Maybe they are paid better than TCU, but Bobby Layne doesn't call Harry Gilmer an "amateur" because Gilmer gets paid less for playing professional football than Layne does.

**Texas U. . .** The University hires Darrell Royal, Oklahoma U. grad, as head football coach. Reason—O.U. comes to Texas for players; Texas retaliates and goes to O.U. for coaches . . .

**Baylor . . .** Rejoicing over the Sugar Bowl victory is still the main item in Waco. I see why. The Bears won everything—the game and fight during. Some say that Hickman's kick was prettier than a 50-yd. field goal.

**Rice . . .** Love problems have hit in a big way. The basketball team isn't meeting expectations because ace center 6-10 Temple Tucker says "I can't think of anything except my girl friend."

**Tech . . .** More records were broken this year. The Red Raiders were the only team in history to play three different conference champions and three bowl champions.

# SAE Plays H-SU 'Mural Football Champs

Sigma Alpha Epsilon, Tech intramural football champion, will journey to Abilene Saturday to meet "The Hoods", Hardin-Simmons University intramural champ.

This is the first year that the two school champions have played and it is hoped by intramural

CAREY HOBBS, Halfback and Co-Captain of SAE

officials that it will be an annual affair.

The Hoods are expected to terback, Johnny Howerton, who was an ace varsity basketballer for the cowboys last year. In the playoff game when the Hoods met the Hardin-Simmons All-Stars Howerton completed a fantastic 16 out of 19 passes to guide the Hoods to victory.

However, the SAE's may have the answer to Howerton in the person of Jerry Pearson, who was chosen Back of the Year in Tech intramural football. Pearson may have the edge on Howerton as he not only can pass but he is very adept at moving the ball on the ground.

The Hoods are expected to

have quite a weight edge over the light but speedy SAE team. The Sig Alphas met heavy teams all year and won by simply outchargin' and outplaying the heavier opponents.

Speed may be the key to victory for SAE as Bob King, J. D. Snyder, Bill Harmon, and Carey Hobbs are fast sticky-fingered targets for Pearson's aerial shots.

The SAE's will be out to protect their season record as well as their great defensive record. They won 10 and lost 1 during the season while yielding only 7 points. SAE scored 132 points themselves.

SAE starting offensive lineup:

End . . . . . Bob King  
Guard . . . . . Presley Sheppard

Center . . . . . Terry Hobbs  
Guard . . . . . Jerry Craft  
End . . . . . J. D. Snyder  
Blocking Back . . . . . Jack Chandler  
Halfback . . . . . Bill Harmon  
Halfback . . . . . Carey Hobbs  
Quarterback . . . . . Jerry Pearson

## Defense:

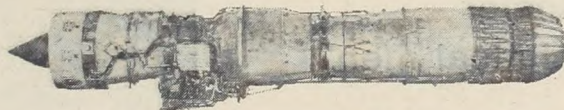

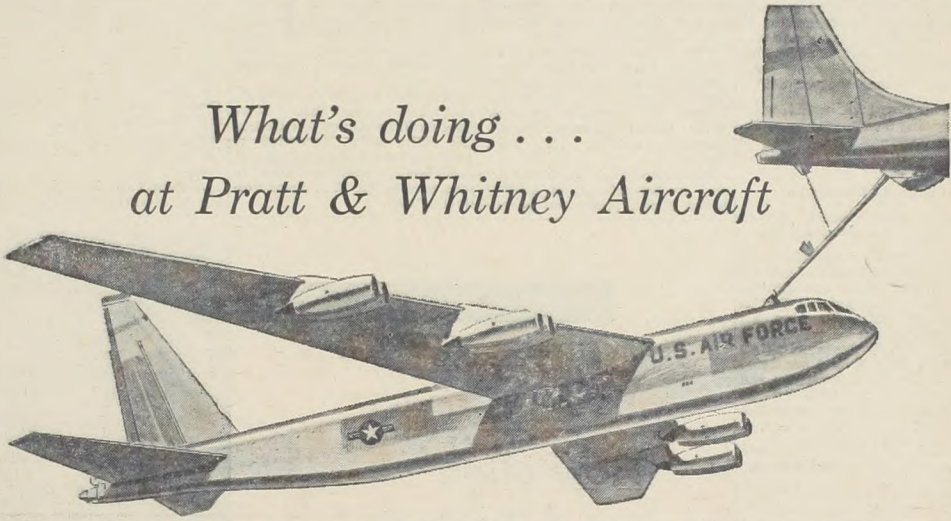

Bobby Green, and Clarence Hough sub for Snyder and Hobbs on the line while Jimmy Walker plays linebacker for Pearson.

BILL HARMON

Halfback and Co-Captain of SAE

## What's doing . . . at Pratt & Whitney Aircraft

P & W A's J-57 turbojet . . . first engine in aviation history to achieve official power rating in the 10,000-pound-thrust class. Its pace-setting performance blazed the way for this grueling mission that set awesome flight records.

The Wasp Major . . . P & W A's R-4360 whose power (3,800 hp.) and performance have never been equaled in the piston engine field.

## Mission accomplished . . . top-of-the-world and back — *non-stop*

Eight global bombers, powered by mighty turbojets, recently set non-stop records in 16,000- to 17,000-mile flights described as a "routine training mission to demonstrate the capability of the B-52 and the men who fly it". Flying continuously for as long as 32½ hours, the mammoth aircraft — each powered by eight Pratt & Whitney Aircraft J-57 turbojets — winged northward from air bases in California and Maine, over Thule, Greenland, continued to the North Pole, then returned by way of Anchorage, Alaska, to land in San Francisco, Baltimore, or Limestone, Maine.

During this spectacular top-of-the-world mission, temperatures as low as 65 degrees below zero were encountered, speeds approached 700 miles per hour, altitudes in excess of 35,000 feet were maintained, and each Boeing B-52 was refueled in mid-air several times. Powering the KC-97 Stratofreighters that accomplished the task of in-flight refueling were the mightiest piston engines ever built — P & W A's R-4360 Wasp Majors.

"Mission accomplished" . . . a brief but all-encompassing tribute — to the Stratofortress flight crews, to the Air Force's Strategic Air Command, and to the gigantic team of engineers in the aviation industry whose years of research and accomplishment represent thousands upon thousands of engineering man-hours that were required to make these record-breaking flights a reality.

## Mortar Board To Install Chapter In February

Mortar Board, national honorary society for senior women, will be installed early in February. All members and alumnae of Forum, Tech's senior women's honorary, will be eligible for initiation into Mortar Board, according to Mary Randal, Forum president.

Tech will be the third Texas institution to obtain a chapter of the honorary society. Other chapters are at the University of Texas and Southern Methodist University. Chapters surrounding Tech that approved the charter includes the University of Tulsa, University of Oklahoma, Oklahoma A&M and the University of New Mexico.

President E. N. Jones said, "The approval by Mortar Board of a chapter at Texas Tech represents the successful consummation of effort extending over a good many years on the part of Miss Sue Rainey, a Forum sponsor, and members of that organization."

Mortar Board will be the second outstanding honorary to be established at Tech this year. Phi Kappa Phi, national scholastic society installed a chapter here last month.

Membership in Mortar Board is based on scholarship, leadership and service. Members must have at least a "B" average and 90

semester hours. The Mortar Board chapter must be the only senior girl honorary organization on the campus. An institution's program must be approved by the American Association of University Women before a chapter can be established.

## Friday's Artist Course Cancelled

Having canceled all engagements in the United States to perform a season in Europe, the Dublin Players, a group of dramatic artists, scheduled to appear in the Texas Tech Artist Course Series Friday night, will not be seen.

To appear in place of the Dublin group are the Canadian Players, a cast of Shakespearean actors, who will give their performance of "Hamlet" in the Municipal Auditorium on April 1.

The drama group, directed by Tom Patterson, has appeared at the renowned Shakespearean Festival of Canada and are given high acclaim by critics in the New York Herald Tribune, Variety Magazine and the New York Times.

Students will be admitted to the play on presentation of activity books. Ticket prices will be announced at a later date.

The next appearance in the Artist Course Series will be a concert by the Vienna Academy Chorus on March 14.

## SKI TRIP . . .

Continued from Page 1  
everything needed will be available at the lodge, says McIlvain. He advises everyone to take plenty of warm clothes, however, especially woolen garments, since wool sheds water.

Of interest to girls attending the Festival is the fact that a Snow Queen will be elected to rule over the entire event, according to McIlvain, who urges all Tech students who possibly can attend to take part in the Tech Snow Festival of 1957.

## Applicants For Business Manager Sought By Varsity Show Board

Applications are now being accepted for business manager of the Varsity Show, it was announced today by Varsity Show Board Member, David Thompson.

Students interested in applying for the position should contact Thompson or Wayne Gibbens, show producer. The business manager will be in charge of the handling of all money and making purchases for the student production.

A script and a complete staff for the extravaganza will be selected early next week, according to Gibbens. Applications have been received for all other places on the staff except business manager.

Two student written scripts have been submitted for consideration. Bob Guess has written a play titled, "Much Ado About Alvis" and Warren Dunn has submitted a play titled, "Love's Labor Found." Also under consideration are four Broadway plays, "Anything Goes," "On The Town," "Wonderful Town" and "Kiss Me Kate."

A committee of four is considering the two student written scripts

and the four Broadway plays. The committee made up of Harriett McCabe, Miss Annah Joe Pendleton, Thompson and Gibbens will select the script to be used.

The all student show will be presented in the Lubbock Municipal Auditorium April 12-13.

## COUNCIL . . .

Continued from Page 1  
going to school should be able to buy the fee at a reduced price.

In an effort to financially aid campus organizations that now receive money from the Activity Fee, the group suggested that in the future all profits from the bookstore should be returned to the students. At the present time the book store profits are being used to pay for the addition and remodeling of the bookstore. In preceding years the money has been used to apply on the cost of the Tech Union building.

### Election Expenses Lowered

The council also voted to cut expenses allowed each candidate running in campus elections. Future students running for campus wide offices will be allowed \$30 campaign expenses and students running for representative positions will be allowed \$15.

The number of campaign posters and their size will be regulated. Candidates for campus wide offices will be allowed 100 posters and all others 50 posters.

In an effort to improve the looks of the campus during election time, no posters may be placed outside buildings and all posters must bear a stamp of approval from the council. Failure to fulfill these or any of the existing election regulations will result in disqualification of the candidate.

## WORK ON WOMEN'S DORM PROGRESSES

The new women's dormitory is out of the ground. The third story is up on half of the north wing and some brick work has been started on that segment. The first floor on the remainder of the north wing has been poured. Plumbing work has been started on all of the north wing. Foundation footings have been laid for the center section and the south wing.

School officials hope for completion of the new dorm by the beginning of the fall semester, 1957.

**"Van" Wolford wants to know:**

How often does Du Pont transfer technical men?

**Fred V. Wolford** receives his B.S. in Chemical Engineering from the University of Texas in January 1957. "Van" is a member of the Southwestern Rocket Society, Canterbury Club, and local Vice-President of A. I. Ch. E. Like all students, he's interested in finding out about the best opportunities offered in his profession.

**Ed Berg answers:**

**Edward H. Berg** received his B.S. Ch. E. from Cornell in 1944 and served as an Engineering Officer on destroyer duty until 1946. Since coming with Du Pont, he has worked at New Jersey plants as a Field Supervisor in Du Pont's Engineering Service Division. Ed was recently transferred to Du Pont's Design Division to further round out his professional development.

likely to be more transfers in production and sales, fewer in research.

But one thing is certain. Du Pont transfers are always purposeful. The majority are a natural result of Du Pont's continued growth and expansion. And they invariably represent opportunity for further professional development.

**W**E'VE just completed a study on that subject, Van, so I can speak with some authority.

Using technical graduates who came with Du Pont in 1949 as a base, we found these men averaged 1.7 transfers of location in 7 years. We frequently shift men from one assignment to another at the same location, to broaden them professionally. But it's interesting to note that 38% of those surveyed had not changed their location of employment at all.

Changes of work location depend a little on the type of work a man enters. For instance, there are

**Additional employment information** is given in "Chemical Engineers at Du Pont." This booklet describes in detail the work and responsibilities of chemical engineers who work at Du Pont. Write for your free copy to the Du Pont Company, 2507C Nemours Bldg., Wilmington 98, Del.
