Peace Corps Plans Campus Visitation Volunteers To Direct Week-Long Activities

A week of activities under the direction of four Peace Corps volunteers including placement testing, a forum, speeches and showing of a special film will open Monday when the Peace Corps begins a week visitation to the Tech campus.

The four volunteers, Gill Hall, Dave Lewis, Ginny Prytherch and Richard Wantush, will speak to 45 classes on campus including government, history and English classes.

Film Scheduled

Monday and Thursday the film, "A Choice I Made," will be shown in the Agricultural Auditorium at 7 p.m. This movie, open to the public, was filmed in India and pictures what life as a volunteer is like.

"An Expose on the Peace Corps" is slated for 7 p.m. Tuesday in the Tech Union Ballroom. This event is also open to the public and will include a question and answer period.

Wednesday the group will speak at the Wesley Foundation at 7 p.m. Students may attend this speech too.

Throughout the week the Corps workers will have a table in the library where they will meet with students and answer questions concerning Peace Corps work. A Peace Corps representative will be there from 8 a.m.-9 p.m. every day and will administer placement tests at 3:15 p.m. and 7 p.m.

The Peace Corps Placement Test has no passing score. Results are merely to help the Peace Corps Selection Division evaluate a candidate's abilities in certain skill areas. Applications must be submitted before the placement test can be taken.

Applications

Applications should be made at least six to 12 months before the date of availability. Applications and tests then go to Washington, D.C., with applicants being notified of their selection or rejection within 12-14 weeks.

The candidate is free to accept or decline the invitation and may state a preference for a country. If a trainee demonstrates during the training that he meets the Peace Corps' standards, he is selected for the project although he may be dropped at any time. Only one out of every nine volunteers selected ever gets overseas.

Qualifications for a volunteer are: the applicant is at least 18 years of age, an American citizen, available to serve for a minimum of two years, and married couples must qualify for the same project and have no dependents under 18.

Judge Orders College To Reinstate Speeder

CANYON, Tex. (AP)—A district judge has ordered West Texas State University to readmit a suspended student speed-

er despite a dean's warning that "it will completely wreck the school's disciplinary procedures and those of every state-supported college."

Judge Gene Jordan ordered Wednesday the reinstatement of one of Darrel Aldridge, 21, of Lamesa, junior class student.

Dr. Paige Carruth, dean of student life at WTSU, issued his warning before the four-hour hearing. But Carruth said the school would comply.

Jordan issued a writ of mandamus directing West Texas to readmit Aldridge.

"This is clearly unreasonable," the judge said. "They cannot tell this boy he cannot drive in Canyon or any other place off the campus."

Carruth said Aldridge was placed on disciplinary probation Jan. 25 after campus police had stopped him for reckless driving Jan. 14.

The dean suspended the student Jan. 31 after city police notified the school that Aldridge had been stopped for speeding on a Canyon street Jan. 26. Aldridge acknowledged in court Wednesday that he had exceeded the speed limit.

Aldridge appealed and the college disciplinary board upheld the dean.

Fee Allocation Applications Due

Wednesday is the final day student organizations and activities can turn in applications to request funds from the Student Services Fee, according to Jerry Rawls, business manager of the Student Association.

Allocation forms are available in the Student Government Office, Ad Building 162. Forms are being mailed to organizations that had funds for 1965-66.

Tramps Seek Tech Advancement

About the nearest thing to perpetual motion at Texas Tech these days is a red-shirted, spirit-building band of energetic young men known as the Saddle Tramps.

Whether they are leading cheers at athletic events or giving a visiting dignitary the red carpet treatment, the Tramps always seek to improve and advance Tech.

That's the way it's been ever since the organization was formed in 1936 by then head cheerleader Arch Lamb, now a Lubbock County Commissioner.

Lamb, feeling that his classmates might be overly exuberant and unorganized, conceived the idea to lead that spirit into constructive channels.

With Lamb as president, the organization was born—dedicated to the improvement and advancement of Tech.

Tech Athletic Director Polk Robison probably best described the Tramps when he said, "I know of no other organization which better typifies the true spirit of Texas Tech." Robison, with more than 25 years of service to the College, is well qualified to offer judgment.

Tech football coach J. T. King describes the Tramps as "The best group to build morale among squad members and the student body that I have ever seen."

What does an organization do to earn such high praise? "We strive to work as hard as possible," said Tramp president Bob Fillpot. "We try to be mindful that the spirit we are trying to build is not just an outpouring of emotions at athletic contests, but something truly within ourselves and the student body we are attempting to serve."

The 90-member organization also works to uphold and preserve College traditions. The Victory Bells are an example. Donated by the Class of '36, they are located in the Administration Building east tower and are faithfully rung by Tramp members after each football and basketball victory.

"Banging Bertha" is a big bell carried by the Tramps to all football and basketball games. The bell, donated by the Santa Fe Railroad, is an object of personal pride for all Tramps and several times they have defended her honor against over-zealous students from opposing schools.

A little bell, donated by the Lubbock Fire Department, is rung in the Tramp section during athletic events.

A typical day during the basketball season will find some Tramps visiting workouts to lend vocal encouragement to the team. Before a recent game against Texas A&M, the Tramps presented each Raider with a workout shirt reading "Beat The Hell Out of A&M."

"The players and coaches seem to appreciate these thoughts and we are constantly on the alert for new and better ideas," Fillpot said.

On game days, a delegation of Tramps usually meet the visiting team at the airport and often provide a red carpet welcome. Such was the case for University of Texas coach Harold Bradley, who only a few days earlier, had offered criticism of Tech basketball fans.

At the game the Tramps sell programs, usher, toss souvenir basketballs to the crowd, form lines for the Red Raider cagers and "anything else we're asked to do."

Fillpot said A&M coach Shelby Metcalf has shown interest in the group and has publicly praised the Tramps as "a fine organization."

Fillpot and his cohorts are in charge of football pep rallies at the Southwest Conference Circle, built with funds contributed by the Tramps, Circle K and Alpha Phi Omega.

Another fall activity is the placing of scarlet and black streamers on cars as they drive around the Tech Memorial Circle. "This is one way to make people aware of the upcoming game and to boost spirit at the same time," Fillpot remarked.

To prove their support of last year's football team, the Tramps spent more than 300 man hours producing hundreds of signs reading, "Eat More Pork," aimed at the Arkansas Razorbacks.

The Tramps further assist Tech Athletic Department by accompanying visiting athletes on campus tours and answering questions about the school.

Always on the alert, the Saddle Tramps learned that Tech president-elect Grover E. Murray was arriving in Lubbock for a visit. Tramps met Dr. Murray at the airport and rolled out the red carpet for him.

Tramp officers include Joe Minkley, Stratford, first vice president; Jerry Bawcom, Monahans, second vice president; Jack Bennett, Afton, secretary; Harold Cain, Plainview, treasurer; and Dave Unfred, New Home; and F. E. Busby, Nolan, sergeants-at-arms.

"With 90 members," Fillpot said, "it is important that each man carry out his assigned task. By working this way, we accomplish a great deal for ourselves and for Tech."

Membership is \$5 per semester, but is on a selective basis. The number of new pledges are determined by the number of graduating actives at the end of the semester.

Tech History Prof. Paul J. Woods is Tramp sponsor.

Robison, King and Gibson, along with Bruce Stark II, are honorary Tramp members. Honorary life members are former sponsors W. C. Cole, Tech Bookstore manager, and Joe Winegar, manager of the Tech Mimeograph Department.

Raider Roundup

FRESHMAN MEN'S HONORARY Men students who are eligible for initiation into Phi Eta Sigma, should notify the Office of Student Life as soon as possible.

Eligibility requires a 3.50 average on all courses except one hour courses in which there is no final examination, for the fall semester of 1965 or for the first two regular semesters enrolled in Texas Tech.

RIC

Houston Hodges will discuss the "God is Dead" theologians Tuesday at noon in the Blue Room of the Union; those desiring lunch

may sign up at the newsstand by 10 p.m. Tuesday. The program is sponsored by the Religious Interest Council.

MUN

There will be a Latin-American caucus Tuesday at 7 p.m. in the Union, room 209. One member from each delegation must attend, and other delegation members are invited.

ALL-GIRL RIFLE TEAM

Any girl interested in joining the Girls' Rifle Team should contact Earle H. Hamilton in Social

Science, room 12 this week. Rifle experience is preferred but is not necessary.

INTRAMURAL SOFTBALL

Fraternity intramural softball managers will have an organizational meeting in the intramural conference room at 5 p.m. Monday. Residence hall managers will meet at 5 p.m. and clubs and independents at 6 p.m. Tuesday.

CATHOLIC STUDENT CENTER

Rev. Gene Sorley will speak on the teachings of the Methodist Church in light of the ecumenical movement Sunday at 7:15 p.m. in the Catholic Student Center.

UNION HOOTENANNY

The Union Entertainment Committee is sponsoring a hootenanny March 8 at 7 p.m. in the Coronado Room.

Students wishing to participate must sign up at the Union newsstand by March 1.

BSU

The BSU is sponsoring a "Bust into BSU" party Saturday at 8:15 p.m. There will be refreshments, a singing group, and games.

Book Sale To Employ 'Dutch' Auction Plan

A sale of 1,000 miscellaneous books will begin Monday at 8 a.m. in the Tech Union Coronado Room.

Tech librarian R. C. Janeway said the books represented the library's excess stock of the recently purchased Pyetell's Book Shop of New York. The 25,000 volumes purchased with the shop cannot all be used in the library, and are therefore being sold to refund the friends who helped make the purchase.

The "Dutch" auction method will be used to sell the books. The price for all books will be \$1.25 beginning Monday morning. Each succeeding afternoon and morning the price will be lowered 25 cents until Wednesday afternoon when the final price will be 25 cents a book.

Janeway said he hopes there will be a "small riot" at the sale to show that people are "hungry for this sort of opportunity."

Sponsored by the Women's Service Organization and friends of the library, the sale will include all types of books. Literature, poetry and fiction make up about 40 per cent of the volumes.

Economic books, government books, language dictionaries (English-Spanish, English-French), old hand-books and others will be available.

Committees Pass Rights Resolutions

The Economic and Social Committee Wednesday night passed the resolution on human rights in Africa proposed by the Ivory Coast after a heated debate.

The resolution concerned with fundamental freedoms for all individuals within the territory of the Republic of South Africa without distinction as to race, sex, language or religion passed by a vote of 27-13. The demands made by Ivory Coast were accepted with three amendments submitted by Tunisia.

A heated argument then began between Ivory Coast and South Africa. Ivory Coast believed a stronger action should be enforced against the government of R.S.A. They felt that the proposals submitted by Tunisia were too lax on the Republic.

A three-way triangle then resulted between Tunisia, South Africa and Ivory Coast. When final votes were in, the results were for Tunisia's proposals. Ivory Coast then made a speech against the Western Bloc and the United States. In caucus meetings during recession the Western Bloc and the Middle-Eastern Bloc accepted Tunisia's proposal.

Proposals:

- 1. That the Government of the Republic of South Africa cease its continued imposition of the discriminatory and repressive measure which are contrary to the Charter of the United Nations.
- 2. Condemns the non-compliance by the Government of R.S.A.
- 3. Calls upon the R.S.A. to liberate all persons imprisoned, interned, or subject to other restrictions for having opposed the policy of the apartheid.
- 4. Request the secretary general to liberate South West Africa imperialism.
- 5. Request that the Republic be placed under the UN Charter.
- 6. If the secretary general is unable to comply with the intervention then the Republic of South Africa be taken before the council for military settlement.

CAMPUS DANCE GROUP ON TV — Nancy Slaughter, sophomore education major, will join with another Texas Tech student, Sherry Cannon, in a ballet dance as part of an hour-long TV show featuring talent from 12 Texas colleges and universities. The girls are members of a dance group known as "Ballet Exports U.S.A."

Second Annual Talent '66 Features 'Ballet Exports'

Two Texas Tech students will be featured performers in a special television program to be shown in Lubbock at 9 p.m. Feb. 28 and 2 p.m. March 6.

The program is "Campus Talent '66," an hour-long variety entertainment "spectacular."

The students, both from Dallas, are Sherry Cannon, sophomore speech major, and Nancy Slaughter, sophomore education major.

15 Acts Featured

Lubbock television station KCBD, Channel 11, will carry the program.

"Campus Talent '66" was videotaped on the campuses of Texas Tech, Rice, University of Texas, Lamar State, University of Houston, Hardin-Simmons, Baylor, Trinity, SMU, Tyler Junior College, Arlington State, and McMurry.

According to Calvin Jones, pro-

ducer of the show, the 15 acts, "will range from ballad singers to a contemporary instrumental quartet—and just about everything else in between."

2,000 Miles Traveled

"Our production crew traveled more than 2,000 miles during the on-location shooting of the show," said Jones. "I think Texans will

be proud of what they see. These talented youngsters could step in tomorrow on almost any major network television show and do a bang-up job."

Sponsored by Southwestern Bell Telephone Company, Campus Talent '66 will be seen on 16 television stations in Texas. All stations will air the show two times.

Views Of The Reader

For Better Food Service...

MUCH HAS BEEN accomplished in the area of food service this semester with the insurance of much more to follow.

The recent meeting between the Senate Food Committee, Food Service Advisory Committee and administrative officials was only an indication of things to come.

Food complaints are almost as old as the college itself and are prevalent at many other universities. Therefore, it is especially gratifying to see the administration and student representatives working so close together to correct this problem.

Certainly we are still a long way from correcting all the food problems and complaints at Tech, but as long as the student body and administration con-

tinue to work together we can eliminate much of the controversy involving the food service.

Fortunately, the Senate Food Committee along with members of the food service advisory will continue meeting with Mrs. Shirley Bates, head of the food service, to work on other details and suggestions given by the students.

Already this group has decided to institute several changes in the present system: a continental breakfast to be served from 8:15 to 8:30, replacing poorly cooked food, serving punch at meals, etc.

However, this should be only the beginning, not the end. We hope these groups will continue to meet together and institute changes which will provide better food service for Tech students.

Food Committee Report...

EDITOR'S NOTE—Following is the complete report of the first joint meeting with the Senate Food Committee; Food Service Advisory Committee; Marshall Pennington, vice president for business affairs; and Mrs. Shirley Bates, head of the food service, to discuss the food situation.

Tuesday, members of the Senate Food Committee, vice president and president of the Student Association and members of the food service advisory committee met with Marshall Pennington, vice president for business affairs, and Mrs. Shirley Bates, head of the food service, to discuss the food situation at Tech.

Discussed in detail were suggestions and complaints compiled by the students through polls taken in each of the dorms, prior to the Christmas vacation.

The meeting was a large success as each of the suggestions and complaints were discussed in some detail. The willingness and interest of the administration and Food Service to help the students is shown by the fact that they spent four hours going over the results of the polls and by the accomplishments made during the meeting.

The ideas accomplished and those discussed are:

- At the request of the students a continental breakfast will be served from 8:15 to 8:30. It will consist of coffee, donuts or rolls, and milk for those who want a light breakfast and like to sleep an extra 30 minutes. This plan will start March 1.

- Also at the students' requests, donuts will be offered as a choice with eggs. This plan will also start March 1.

- It was discussed that sometimes some food can accidentally be overcooked or undercooked due to the large number of meals prepared and that if at anytime a student feels that the food is over or undercooked, they should return it, as the servers are instructed to replace it.

- Some students complained that

too much fried okra and squash was being served, while others requested more fried okra. It is the Food Committee's belief that these are individual tastes and though the service service would like to please everyone, they just can't.

- Some of the students complained that there was too much fat and grease in the stews and ribs. The food service is correcting this as they have changed meat companies three times in the past year trying to find better quality.

- As a result of some requests made by the students, punch is being served at some of the meals.

- Starting soon, pads will be placed in the dorms for suggestions from the students.

- And also the possibilities of an optional meal ticket were considered by Mrs. Bates, Mr. Pennington, members of the Senate Food Committee and members of the Food Service Advisory Committee together with Arthur Dana, a consultant food engineer who has worked with many colleges in the U.S. on their food service. It is hoped that he will be able to give us some suggestions on the practicability of such a meal ticket.

In summing up, the food service, the Food Service Advisory Committee, and the administration are sincerely interested in the students and in serving good meals, but it takes a joint effort between the students and the food service. Any suggestions for improvement should be taken to your dorm food representative.

The Senate Food Committee along with members of the Food Service Advisory will continue to meet with Mrs. Shirley Bates, and work on the rest of the details and suggestions given by the students.

Bramlett Comment On Recent Dance

Dear Editor,

"Well, we are set up—all we can do now is wait."

These words were spoken by one of the No. 10 hall council members. This statement was correct as the hour hand was nearing 8 p.m., the time No. 10's dance was programmed to start.

The doors were opened and a few students wandered in; for the first thirty minutes, only about a hundred tickets were sold. Needless to say, I was extremely worried, since over \$1,000 had gone into this project. Was Tech ready for an event planned as such—or do we hold the old conservative ideas, in which a dormitory-sponsored dance is completely out of the picture?

Obviously Tech is progressing from its hard shell because around 8:30, the inward flow of students was tremendously increasing. By this time the band had warmed up and they really began to "swing." The enthusiasm of the dance was catching.

However, the rotating spotlight found its way to the center of the coliseum and directed its beam on the outhouse used before the dance as a publicity stunt. It seems that we had volunteer "a-go-go" girls dancing on top of the structure at various intervals.

While all this was taking place,

I noticed certain persons and thought of others. My mind raced over the various members of the hall council and the jobs they were doing so efficiently. I recognized three figures who were overlooked for thanks. These men were identified as Max Volcansek (wing advisor in No. 10), Mr. C. H. Wallace (supervisor of No. 10), and Mr. Aubrey Lewis (coordinator of Men's Residence Halls).

After the coliseum doors were closed, the entire No. 10 council went to the Country Inn for coffee. There we relaxed knowing that the dance had been a complete success. The discussion turned to larger plans for next year, with definite ideas to be considered in more detail for the future.

I would like to thank the Tech students for their active interest in projects such as this, and especially for the wonderful turnout. Special thanks also go to the Toreador for widely publicizing this event. Without the Toreador staff's interest in this matter, No. 10's job would have been much more difficult. As a result of the dance, a scholarship fund will soon be organized. Tech is rapidly growing—let us be open-minded enough to advance our ideas to parallel the enrollment explosion which we are already beginning to notice.

Respectfully,
E. C. Bramlett
President of No. 10

Michigan State Complies Guide To 'Sophomorphism'

(ACP)—After careful research, the Michigan State News collected this guide on how to become a "sophomore" or a follower of "sophomorphism," one of the biggest campus faiths.

- Complain consistently about the cafeteria food, rising grill prices, patrolling housemothers, standards chairmen, and liquor laws. Be sure to develop the proper glib tone in discussing these issues; for instance, "Gad, but this jello looks like swampscum."

- At the same time, be sure not to get involved in any organized action to change anything you've complained about or make any constructive suggestions. Decry organizers as "rabble rousers" or "publicity-seekers."

- Decide what's cool and what's not. Then gather a group of friends and cut down people who aren't by your definition "cool."

- In debate or argument, grant the other side several points but insist that everyone recognize your rights as well. Remember that putting the blame on who started the trouble is more important than ending the argument.

- Develop an arsenal of jokes and remarks and laugh it up.

- (a) Assume people are bastards at heart and that cutting one another underhandedly is normal procedure. Above all, don't try to act better than the "bastards." Remember, be realistic. Label anyone who proffers an idea for improvement as an impractical idealist.

- (b) Or, if you favor the idealistic approach, demand immediate improvements. Join a marching and singing society. Administrative restrictions and peace in Viet Nam are good subjects. But watch out for compromises that might undermine your chances of achieving your goal.

- Decide (a) God is dead or (b) you can't prove anything. And be ready with proof of either view to last through an all-night bull session.

- Adopt the theory of free love. Discuss with a member of the opposite sex the psychological crippling created by society's restrictions on sex. Convince her to join you in building a more honest society. Believe in Hugh Hefner as a prophet of our times.

These are the tenets of the faith of sophomorphism. They foster a faith of noncommitment. Under them the "sophomore" whines about minor nuisances but does not act to correct them. He often ignores important issues, or he protests for world reform without adding the day-by-day compromise the true reformer uses.

The "sophomore" does not know people, especially those who are different. He knows only the shell of the cool and the non-cool.

In sexual relations, he regards both himself and his partner merely as objects and so creates a new dishonesty.

He argues that one unprovable belief is as good as the next, but he lacks the true agnostic's constant study of belief.

His pseudo-philosophizing can keep him from commitment to any faith that demands action. And even if his world is bastardly, must he contribute to the bastardliness?

Sophomorphism is a faith without works, and both the faith and its followers are dead.

Soil Scientist Will Discuss Loss Of Irrigation Water

Dr. William D. Kemper, research soil scientist from Ft. Collins, Colo., will speak March 5th at the annual Agronomy club banquet.

Western Agriculture Survive the Loss of its Irrigation Waters to Urban and Industrial Users?" The banquet will begin at 6:30 p.m. at the Ko-Ko Inn.

awarded to two persons from outside industry chosen by club members.

The crop judging team, soil judging team, and range plant identification team will be recognized. The crop judging team won both the national and international contest last November. The range plant identification team won the national contest in New Orleans two weeks ago. The soil judging team won the regional contest for the southern states and will compete in the national contest this spring.

The high ranking senior, junior, and freshman student in both agronomy and range management will be recognized. The outstanding agronomy student will be announced.

Dr. Kemper is speaking here under the auspices of the American Society of Agronomy. He was born in Canada. He received his B.S. degree from Brigham Young University and his M.S. and Ph.D. degrees from North Carolina State. His training has been in soil physics and he has published 40 technical articles dealing with moisture relationships in soils.

'Tartuffe' Costumes Keep Students Busy

The whirl of electric scissors and sewing machines fill the costume shop of the University Theater as the crew works to clothe the characters in "Tartuffe," the latest production.

Ramona Peebles, graduate supervisor of the shop, oversees as members of the costume crew, headed by sophomore drama major Winky Crowe, construct the costumes. Jeannie Rook, senior drama major and costume shop assistant, designed the garments.

In planning the costumes for "Tartuffe," Jeannie said the Commedia Dell' Arte approach was used. This old Renaissance Italian style of costuming dictates that the character has unique quali-

ties which should be brought out through the design of the clothing. By the exaggeration of color and design, therefore, the essence of the character is made evident.

Tartuffe, the religious hypocrite, is portrayed as a sloppy, rather shabby minister in a greasy black suit with his dirty red underwear peeking out. Orgon, the head of the ranch and a parallel to Pantalone of the Commedia Dell' Arte, appears in a well-cut, conservative grey suit to emphasize his position as a prosperous rancher and to point to his essential dignity, which he regains at the end of the play.

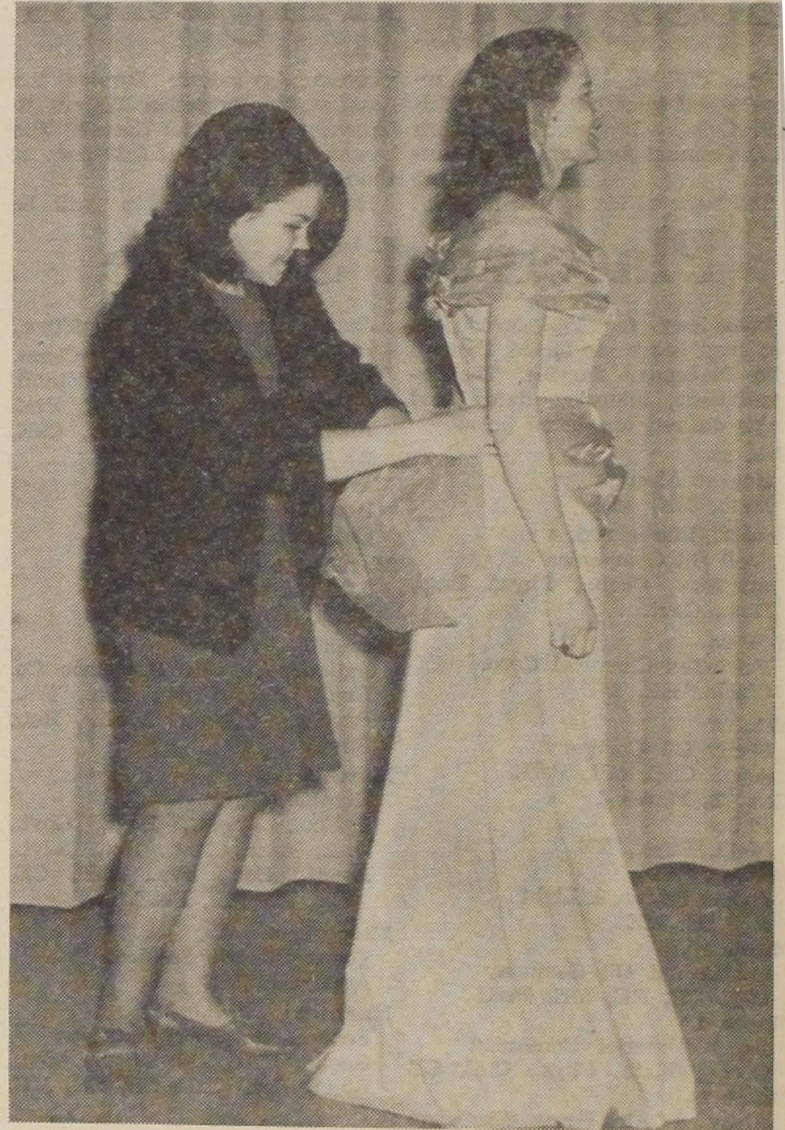

Orgon's hot-tempered son Damis dashes out in blue, heavily em-

broidered shirts and pants set off with a catching blue hat, fancy boots and spurs. Cleante is Orgon's wise, judicious brother-in-law giving friendly, homespun advice in his buckskin jacket and brown pants and boots. Valere, the dashing hero, bursts onstage in brown and white matching vest and chaps accented by a bright green shirt.

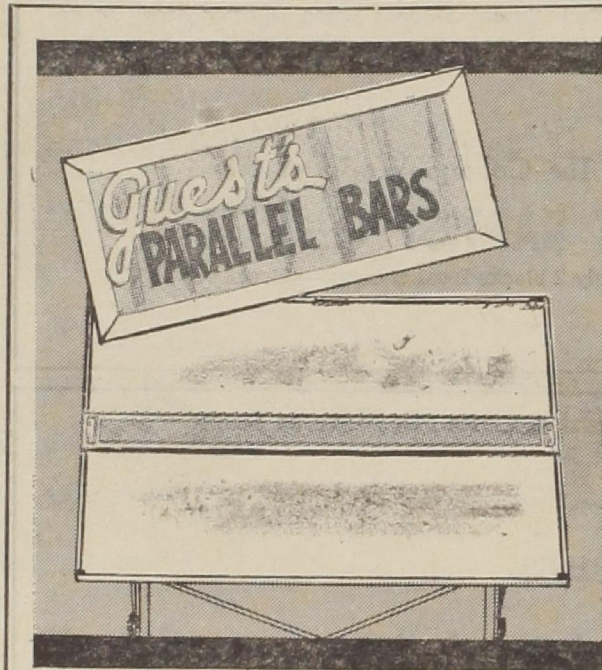

Lavender and turquoise are the colors selected for the cool, dignified and gracious Elmira, Orgon's wife. His daughter Mariane dresses in blue and yellow. The four costumes of Elmira and Mariane feature exaggerated bustles, a popular style at the turn of the century. Dorina, the Mexican maid, flounces around in a bright red and pink ruffled dress.

Researching the costumes, Jeannie consulted tests on the Commedia Dell' Arte style, a book on famous gunfighters, a history of movie westerns, and four Mad magazines with cowboy satire that illustrated the exaggerated cartoon effect desired in the costumes.

Designing started in December with the formulation of rough sketches. Conferences with the director and Mrs. June Bearden, who taught the costume design course at Tech last semester, brought criticism and suggestions. After three drafts, the final sketches were made. The costumes are still being slightly altered in the process of construction.

FINISHING TOUCHES—Winky Crowe, head of costumes for the University Theater's production of Moliere's play "Tartuffe," puts a few more touches on the costume of Elmira, played by Elizabeth McAnich. The play will be presented March 18-21.

Red Raiders Clash With Razorbacks

With no more than a mathematical chance of winning the SWC championship, Tech's Red Raiders face a defense minded group from the Ozarks tonight in Municipal Coliseum.

After the 83-82 loss to Baylor, Tech's chances of winning the conference race are about as slim as a beginning bowler scoring a perfect 300 game.

A&M and SMU are now tied for the title with identical 7-3 records. Both would have to lose two games for Tech to be able to catch up. However, both have relatively easy schedules with the exception of SMU.

Although Arkansas doesn't sport the finest won-loss record in the conference, the defense record is unsurpassed. In fact, the Raiders were held to their lowest score of the season in their first encounter with the Razorbacks. That was their first loss in the SWC race and the Porkers allowed the visitors only 65 points.

Despite the disappointing loss in Waco, the Raiders' morale is rated "pretty good" by Coach Gene Gibson.

"The team is more relaxed now yet they're still working hard at practice," he said. "Yesterday they kept working out even after I had finished with them. They will still give it their all for the rest of the season."

In addition to Arkansas' tough defense, Gibson was quick to point out two more strong points in the Porker's game.

"They have exceptional balance and are among the top in rebounding," he said.

The Razorbacks do not have a "jolly green giant" on their squad to do their rebounding, yet only one starter measures less than 6'3". He is Steve Rousseau, a 5'11" senior.

Starting with Rousseau will be John Talkington, 6'6"; Orval Cook, 6'5"; J. D. McConnell, 6'5" and Ricky Suggs, 6'3".

The Raiders will start their usual quintet of Dub Malaise, Vernon Paul, Billy Tapp, Norman Reuther and Bob Glover.

Diamondmen Scrimmage

By GARY TILORY
Staff Writer

A grand slam home run in the bottom of the fourth inning at Huffman Field ended a pitchers duel between Dick Abbott and David Callerman and led the Varsity Blacks to a 4-1 win over the Reds yesterday.

Callerman and Abbott were locked in a head-on pitchers duel until Don Champion hit Abbott's first pitch in deep right field for the game-winning home run.

Jim Miller led off the first inning with a walk off Callerman and stole two bases and scored on a long fly to center. From that inning until the sixth the Red's never threatened. Callerman got shaky in the sixth as Jerry Haggars led off with a single (the only hit of the whole game off Callerman) and was followed by a fielders choice on Ronnie Holly.

The Black team threatened in the first as Eddie Stiles got on first on an error on first baseman John Dudley. Eldon Frost advanced Stiles to third on a fielders choice and remained at first on a bad throw. Frost then stole second only to be left stranded there.

With the fourth inning, disaster fell for Abbott and company. Eddie Stiles led off with a single to right

and was followed by a Frost single to left. Glenn Kuehler sacrificed to right field and was followed by a walk to John Schuessler. This set the stage for Don Champion to hit the first pitch Abbott threw to deep right field. David Callerman coasted the rest of the game for his one hitter and the victory.

Callerman gave up one run on one hit, two walks and struck out six. Abbott, who only went four innings, gave up four runs on four

hits, two walks and he struck-out one. John Jackson, who relieved Abbott in the fourth, gave up no runs on no hits, walked three and struck-out two.

The Raiders open their 1966 baseball season on March 4-5 with a double-header scheduled for the first day at Huffman Field.

The Raiders will scrimmage again today and tomorrow they will take on the freshmen. The game today will start at 3 p.m. and Saturday at 1 p.m.

Campus Artists Offered Chance At Exhibit, Money

Prizes of \$25, \$15, and \$10 will be awarded winners of the Tech Union sponsored campus art contest. First-place winners will come part of a traveling art exhibition for the academic year 1966-67. Entry blanks, due March 9, are available at the Union Program Office.

All art work is acceptable if capable of being hung and is due at the Union by April 14. Area judges will announce winners at an open house April 17, 1966-67. Entries will remain on display until May 7, and may be picked at the Union on or after May 7. Rules set by the Fine Arts Committee are:

- 1. All media are acceptable work is capable of being hung
- 2. All works must be framed matted for hanging, not to exceed 3' x 4'.
- 3. Work done in the classroom is acceptable.
- 4. Students must be currently enrolled and must have completed their entry while enrolled at Tech.
- 5. Each entry must be identified according to title, artist category, and value.
- 6. Contestants must be willing to release their work for the forthcoming year (1966-67) should they win first prize.
- 7. Entry forms must be received by March 9 at the Program Office in the Union.
- 8. The entries must be submitted to the Union by April 14.

Galileos ...

TRW needs you. Centuries ago the thinking of Galileo, da Vinci, and Newton was thought heretic by many of their contemporaries. But, the test of time has seen such thoughts develop into the technologies of today. Now, in recent time, computer applications through scientific programming have so accelerated the process of problem analysis that the thoughts of today have become the designs of tomorrow.

At TRW, we have taken important strides in advancing technology through the use of computer applications. In Houston, adjacent to NASA's Manned Spacecraft Center (the home of Apollo), and at Redondo Beach near Los Angeles International Airport, several hundred skilled TRW programmers are applying their brain-power to further advance the capabilities of computers and computer sciences.

Deadline For Union Posts Draws Near

Deadline for Tech Union executive applications for the 1966-1967 school is Tuesday with chairman and assistant chairman applications due March 12.

Executive officers include president, vice president, secretary-treasurer, public relations director and personnel director.

Committee chairman and assistant chairman positions include Hospitality, Dance, Special Events, Entertainment, Fine Arts, International Interest and Ideas and Issues Committees.

Also being selected are members of the Public Relations Council and a newly organized Art and Design Council.
