No. 126

Tech Students To Name Cheerleaders, Executive Officers

The first Tech write-in campaign for an executive office of the Student Association ended Thursday when A. E. (Ziggy) Nicholson submitted his letter of withdrawal to the Toreador for publication today.

For Nicholson's letter, see page 4.

The campaign for a write-in candidate for vice president of the Student Association began Wednesday when a newly-formed Vice Presidential Committee of Students put its support behind Nicholson to oppose Gary Rose. Rose has no opponent in the vice presidential race.

A spokesman for the group backing the write-in candidate said they organized because they did not believe a candidate unopposed on the ballot should be elected to an executive office. Members of the committee said Thursday night that they would abide by Nicholson's decision to withdraw from the race.

Nicholson said he withdrew because of "a conflict of interests, and also because I think the best man for the job is already running."

Polls Open

Polls will be open today from 8 a.m.-noon and from 1-5 p.m. for Tech students to vote for executive officers of the Student Association and for cheerleaders for the 1966-67 school year.

Polls, manned by Alpha Phi Omega and Women's Service Organization are located at Tech Union, Ad Building foyer and at the Business Administration, Agriculture, Home Ec, Electrical Engineering, Architecture and Social Science Buildings. Polls will also be located in the Tech Union cafeteria and in the library.

The IBM ballot will be used in today's elections. Running for president of the Student Association are Bill Beuck, 01, and Jerry Rawls, 02, in Column A on the ballot.

Gary Rose, 03 in Column B is unopposed for vice president.

Secretary candidates are Karen Kitzman, 04, and Lynn Melton, 05, in Column C. Business Manager candidates are Max Blakney, 06, and Johnny Walker, 07, in Column D.

Cheerleaders

Students can vote for three boy cheerleaders in Columns E, F, and G. Candidates are Alvie Burdine, 08, Mike Canon, 09, Pete McKay, 10, Neal Myers, 11, Dennis Rawls, 12, Mike Searcy, 13, Keller Smith, 14, Ted Swigart, 15, Ronald Todd, 16, and Rex Wood, 17. Men's 10 is supporting a write-in campaign for Sonny Moore.

Students can vote for the three girl cheerleaders of their choice in Columns H, I, and J. Candidates are Kathy Arledge, 18, Betty Jane Brown, 19, Carolyn Case, 20, Sandra Coggins, 21, Leslie Duckworth, 22, Donna Duke, 23, Sally Eastwood, 24, Kay Hayden, 25, Bea McCoy, 26, Julie Parkinson, 27, Diane Shackelford, 28, and Marcie White, 29.

MARK ONLY ONE CANDIDATE IN EACH LETTERED COLUMN

	A	B	C	D	E	F	G	H	I	J
1. PRESIDENT	01	02	03	04	05	06	07	08	09	10

DO NOT FOLD

SAMPLE BALLOT—IBM ballots similar to this one will be used in today's campus-wide elections. This senior Arts and Sciences student has voted for fictitious candidates for vice president in column B, secretary in column C, and business manager in column D. He has also voided his

ballot by marking two spaces in the same column in A. This will enable him to "write-in," forcing his ballot to be counted by hand. The "O" space must be filled in for the ballot to be valid.

Science, Engineering Show Gets Underway

By Glen Honea, Bill Ryman, and Richard Williams
Staff Writers

The talents of Tech's science and engineering students will be on display as the 34th annual Science and Engineering Show begins today at 1 p.m.

The show will be open from 1 p.m. to 10 p.m. and from 9 a.m. to 10 p.m. tomorrow.

The two-day show, including exhibits ranging from chemical demonstrations to an X-15 rocket engine, is intended to show what an engineer does, to inform the public of the latest scientific developments, and to demonstrate Tech's achievements in science and engineering fields.

The show will be off in a literal whirl as an Air Force HH-43B lands on the Engineering Key to officially open the two-day event. Army helicopters will arrive later in the day.

Brig. Gen. John McNabb from Randolph Air Force Base, Texas, the director of the X-15 training program, will speak at 2 p.m. tomorrow near the flagpole at the Industrial Engineering Building. He will speak in Lubbock Municipal Auditorium in the event of bad weather.

Skydivers will parachute down onto Memorial Circle at 2 p.m. today and 1 p.m. tomorrow, weather permitting.

The YLR-99 rocket engine, powerplant of the high-altitude, manned X-15 experimental rocket plane, will be the main attraction of the Air Force ROTC display.

A U.S. Army display of Nike-Hercules and Hawk surface to air missiles will be on display along with an OH-23 Raven helicopter. The Raven is a two-man observation craft and similar models are used now in Viet Nam.

Included in the Army display will be battlefield radar and a computer to aim and fire artillery.

A mock-up of the Pershing and Sergeant face to surface missiles will be shown. They are the latest addition to the Army arsenal.

The Chemistry department will feature a hypothetical trip in space.

The space project will include all aspects from space craft construction to air-regeneration in space to re-entry to earth.

Also there will be a display of a reflecting spectrum from Mars to be compared with an iron oxide that shows similar characteristics.

Students in the architecture and allied arts department are putting out a large-scale, colorful effort in an attempt to better their second place record in the show a year ago.

A multi-colored cloth structure designed by Sam Wofford, senior engineering major from Dallas, and M. L. Henderson, senior engineering major from Trenton, will crowd the courtyard of the architecture building. The creation, winner of an inner-department contest among architecture students and allied arts students, will umbrella a rectangular pool of gravel and a non-objective work in welded steel designed by Forest Gist, junior engineering major from Seminole.

The mammoth structure, reaching 32 feet into the air, will serve to attract the public to the array of student displays inside the architecture building and as a focal

point for the entire department display.

Student displays will represent work of the department for the past 15 years and will include projects from students of five grade levels.

Projects by advertising art students will also be on display.

Tech's Science and Engineering Show will consist mainly of exhibits from various departments on campus and from the Lubbock area.

The mechanical engineering department will feature a dynamometer, Mach interferometer, and a Schlieren system. The dynamometer will demonstrate the testing of horsepower output of motors.

The Mach interferometer is used to test the surface temperature of a hot wire by measuring the heat transferred into the atmosphere.

A shock wave much like that set up by jet planes will be generated by a rocket motor and the shock wave in the nozzle will be projected onto a screen by the Schlieren system. This apparatus is used to study the characteristics of shock waves by commercial businesses.

The department of civil engineering will feature a future model interchange at 19th St. and College Ave.

Also a 20 foot long spillway will show how water flows in rivers and lake spillways.

A three-dimensional map of the Greater Lubbock area will show the land forms of the city and Buffalo Lakes.

A geodesic dome invented by R. Buckminster Fuller will be constructed to show its advantages over other structures.

Recent advances in the field of electronics will be featured by the electrical engineering department.

A transistor radio will be played receiving signals from a modulated beam of light. Also a microwave system will be employed to transmit signals to a radio.

Also a "shot gun microphone" (Continued on Page 10)

Paid Staff Positions Open

Persons wishing to apply for paid staff positions for the 1966-67 Toreador and La Ventana may address letters of application to Phil Orman, director of student publications, room 102 of the Journalism Building.

Toreador positions open are news editor, assistant news editor, managing editor, assistant managing editor, sports editor, assistant sports editor, fine arts editor, editorial assistant and five copy editors.

La Ventana positions open include associate editor, copy editor, art director and six section editors.

New ID Cards To Feature Color Pictures, Durability

James G. Allen, dean of student life, announced Wednesday that pictures for next year's ID cards will be taken beginning Tuesday.

Allen said pictures would be made from 8 a.m. to 5:30 p.m. week days and from 8 a.m. to noon Saturdays in the East lobby of the Administration Bldg.

The ID cards featuring three main changes, will be ready for returning students at the beginning of the fall semester.

Instead of paper cards which students now carry, the new cards will be plastic. The matriculation number will be embossed on the ticket which will resemble a credit card.

The most striking change will be a color picture of the student instead of the usual black and

white picture.

Allen said there is hope that the new cards can be used for two years instead of one since they will be more durable. A sticker placed on the back of the card will designate the semester for which the card is validated.

The athletic department said that the cards would not be punched at each event because identification of the bearer will be more positive.

The Student Senate said that the sticker on the back of the card will be marked to prevent students from voting more than once during elections.

The cards will be financed through the student service fee and will not cause an increase in the fee.

Regional Meet Begins

Nearly 2,200 high school students arrive at Tech today and Saturday for the Region I University Interscholastic League Meet. Approximately 24 districts from three conferences will be represented during the weekend.

Bill Daniels, chief of Traffic-Security, said the parking situation would be handled by buses in the Municipal Coliseum parking lot and in the lot north of Hulén and Clement Halls.

Dr. Holmes Webb, coordinator of the meet, said 37 trophies and 300 medals would be awarded to winners in the events. "These students represent the alert and the aggressive and the intelligent."

First place winners and some second place winners will advance to the state meet in Austin May 5, 6, 7. Second place winners who will go to the state meet are those in journalism, slide rule, number sense, typing, shorthand, science, track and field, boys' golf team, boys' golf singles, and ready writers.

Members of Alpha Phi Omega and Women's Service Organization will serve as guides, gather results, and post information on the progress of the contests being conducted on campus. They will also conduct an information center at the Tech Union.

South 'Rises Again' Today With Secession

The 101st celebration of "Old South" will officially begin with a campus parade today featuring six rose princesses and bearded members of Kappa Alpha Order.

The KAs have named six rose princesses to reign over the celebration this weekend including Lynn Ash, Cheryl Clayton, Peggy Mehafeff and Rita Reynolds.

The fraternity, established at Tech in September, 1961, will secede from the campus with the reading of the secession declaration at 4:30 p.m. today in front of Doak Hall.

The 196-67 Kappa Alpha Rose will be crowned Saturday at the formal "Old South" ball. She will then compete with more than 100 other Kappa Alpha Rose for the National Kappa Alpha Rose.

Coeds To Vie For Best Dressed

Theta Sigma Phi, professional women's journalism fraternity, will conduct its annual "Best Dressed Contest" Saturday in the Tech Union Coronado room at 2 p.m.

Fifty-four Tech coeds have been entered and will be judged on: (1) clothes sense—coordinating ensembles, (2) overall appearance, and (3) poise.

Winner will receive an engraved plaque with a bouquet of roses and will be featured in La Ventana with Tech's Most Handsome Man.

"Entrants must be at the Coronado Room and lined up by 1:30 p.m. Saturday or their names will be dropped from the contest," said Ann Brown, Theta Sigma Phi president.

Artie Shaw of KSEL radio station is master of ceremonies. Admission is 50 cents.

Contest entrants are: Peggy Adanson, Sigma Kappa; Lynda Allen, Zeta Tau Alpha; Ann Arnold, Kappa Kappa Gamma; Diane Baker, Chi Omega; Patricia Barrios, Sigma Kappa; Sue Beauman, Gamma Phi Beta; Barbara Birmingham, Alpha Chi Omega; Robbie Brown, Gates Hall; Lin Blackwell,

Alpha Phi; Diana Cahill, Zeta Tau Alpha.

Also Ann Caldwell, Zeta Tau Alpha; Donna Craig, Sigma Kappa; Carolyn Crawford, Phi Mu; Ann Damron, Chi Omega; Susan Davis, Zeta Tau Alpha; Kay Day, Alpha Phi; Linda Dawson, Alpha Chi Omega; Darlene Oswald, Alpha Phi; Celia Farha, Weeks Hall; Nan Faulkner, Pi Beta Phi.

Also Suzy Ferrell, Pi Beta Phi; Martha Eason, Chi Omega; Anita Gillen, Independent; Jane Ann Hill, Pi Beta Phi; Hadra Hines, Delta Delta Delta; Ann Horton, Pi Beta Phi; Linda Jordan, Gates Hall; Jane Kelsey, Delta Delta Delta.

Also Kay King, Clement Hall; Teresa Ann Korona, Phi Mu; Janice Hope Lawson, Sigma Kappa; Claudia Lewis, Alpha Chi Omega; Barbara Leyendecker, Drane Hall; Cheryl Ann Little, Hulen Hall; Marilyn McNeill, Kappa Kappa Gamma; Kathy Moore, Sigma Kappa; Anne Powers, Phi Mu; Penny Powers, Phi Mu; Sherrill Reagan, Gamma Phi Beta; Carol Riek, Sigma Kappa.

Also Lynn Shapire, Kappa Kappa Gamma; Melodie Shute, Delta Delta Delta; Suz Ann Lee Smoth,

Kappa Alpha Theta; Shirley Stafford, Alpha Phi; Sandy Stearns, Phi; Susan Wilkinson, Hulen Hall, Phi Mu; Lyn Waggoner, Kappa and Carol Woods, Phi Mu.

An Open Letter

Ziggy Nicholson Declines VP Write-In Nomination

Write-In Candidates...

THE RALLYING IS over, but the campaigning is continuing as Techsians face an important job at the polls today.

The voters have had five days to study the candidates, their platforms and their qualifications. And we hope they studied them with the best interests of Texas Tech in mind and not the petty politics involved with the swapping of bloc votes.

There have been many "cute" campaigns—a popular word now—but, more important, there have been serious campaigns between serious candidates who want to do the best job possible next year for Texas Tech.

It is up to the voters to decide who will do the best job; no one else can dictate to them who will run their campus next year.

THE NEWS THAT broke Wednesday came as quite a surprise and a shock to us.

Never before has a major write-in campaign been waged on the campus, but we suppose it had to come up sometime.

However, one must realize that, in most cases, write-in campaigns are futile attempts. Most of the time the voters realize—or should realize—that hurriedly-nominated "candidates" have not had the time or interest to think seriously about what may lie ahead in the future.

This means that they probably will not be too serious when it comes time to assume the responsibilities involved with the office, no matter what it may be.

True, the news that a possible write-in campaign was brewing stirred things up considerably. It has caused more interest in elections than we have seen here in several years—and this is good.

But the voters must also be aware of the "bad" side of any write-in: the wrong candidate, who hasn't considered all the work involved, could seriously hurt the future development of student government at Texas Tech.

To the Students of Texas Tech:

I would like to say that I am honored by the support and enthusiasm of the party which is backing me. Also, I want to thank the many friends who have offered me their support and have given me the assurance that the concensus they have encountered has been in my favor.

And, to those who were surprised and undecided, I want to thank them for having enough faith in me to respect my decision regardless of what it might be. To all of these people, I offer my sincere thanks and appreciation.

However, I must humbly decline the honor and withdraw from any participation in today's election.

I agree with this committee's views. I feel that students should always have a democratic choice in the executive officer elections. I do not think any office should be filled with no contest between candidates. However, in this case, I think the man most qualified for the position is the present candidate: Gary Rose.

Although I have become very inter-

ested in the outcome of campus politics after working in them so closely this year, my intentions do not lie in this immediate field.

When approached by the committee, I was flattered, but I told them that I was being considered for the position of advertising manager of the Toreador. I made it clear to them that my desire lay with this position, and its outcome would be my major concern. I have been honored by being elected to this office. I cannot do both.

I have talked with the committee and they understand and respect my decision. I hope all my friends and those who were giving me their support also understand, so that no one is offended with my declining decision.

Again, I want to express my appreciation to everyone. The consideration for this position and the support I received, and was offered, is the greatest honor I have received while at Texas Tech.

Sincerely,
Ziggy Nicholson

Student Leaders Bring Changes

Allentown, Pa. (I. P.) —"Today, student leaders at Muhlenberg show a lively concern and interest in the basic problems of education, the makeup of the faculty, and the development of the curriculum, the content of courses, the degree of requirements, and related questions."

This assessment of the school's student leadership by an evaluating committee of the Middle States Association, which visited the campus last year, is emphasized in his annual report to the Board of Trustees by President Erling N. Jensen. He also said this is an accurate evaluation.

"We have followed the policy," Dr. Jensen said in his report, "of giving the students as much freedom as they can accept in a responsible manner, which has led to the adoption of the honor system, the new regulations on the use of alcoholic beverages, and the no-curfew regulations for senior resident women."

63rd Annual Muster

Even Aggies Get Misty In Saigon

SAIGON (AP)—Texas flags fluttered and there was singing, cheering and mourning Thursday night time out from fighting the Viet as 70 graduates of Texas A&M took Cong to mark the 63rd annual Ag-

gie muster. The largest muster was held in a downtown Saigon restaurant but there were others in Da Nang and Cam Ranh Bay.

Revelry and poignancy intermingled as the graduates of the oldest public university in Texas bent elbows, swapped stories, paid tribute to deceased classmates and watched a football game film.

The boisterous Aggies tried hard to forget the war and have a good time. A color movie of the campus at College Station, Tex., entranced the Vietnamese waiters even though they didn't understand the narration.

The opening shot of the Texas capitol and the university's name sparked cheers from the grads, but filmed classroom lectures brought memories and hisses. A hush fell as a sequence on "silver taps" for a fallen Aggie appeared on the screen.

In Spirit
Then it was time for the roll call. The names of graduates who died in the past year were read and an Aggie answered "symbolizing they are here with us in spirit."

They stood and sang the school fight song. Women, always limited on the campus, had two representatives at the Saigon shindig. One was a USO representative who formerly worked on the campus and the other was a Vietnamese girl who helped the bartender.

This turned the talk to the admittance of women to regular classes—on a limited basis—at the formerly all-male school. "I hate to see it change. We fought it in

my day and won," Maj. Charlie Roper of Houston said. Roper, a 1952 graduate, hastened to add it's not that Aggies don't like girls.

Prizes Presented For Latin, Greek
Awards for excellence were presented to Texas Tech students of Latin and Greek at the Department of Foreign Languages annual Classics Banquet Tuesday. Speaker at the dinner meeting in Tech Union was the Rev. James Houston Hodges, Head of Tech's Biblical Literature Department. His subject was "Semantics and the Search for God."

First-year Latin awards went to Marilyn J. Coker, John H. Cunningham Jr., Michael L. Freeman, Ronald N. Gray, Janis R. Holmes, Beverly J. Lumpkins, James W. Pickford, Susan K. Pohly, Charles L. Biehler, Gary B. Byrd and Mary Jo Healy. Recipients of second-year Latin awards were Priscilla Cameron, Janne Koch, Marsha J. Mattox and Mary Morgan Smith. Cited in third-year classes were Phyllis M. Bichsel, Gerry E. Clark, Larry D. Hollis and Gayle Underwood. Fourth-year Latin awards went to James H. Burleson, Julie K. Parkinson, Alta A. Schoner and Patricia M. Young. Honored in Greek classes were first-year students Jo Von Bryan, James H. Burleson, Linda L. Parker and Julie K. Parkinson and second year students E. Jane Loudon and Charles D. Watkins.

'Romance Product Name, Speakers Tell Seminar'

"Creating a good image on the market place will spell success for the advertiser," delegates to Texas Tech's annual Marketing Seminar were told this week at a meeting in Tech Union Ballroom.

"Romancing the name of your product if you wish to create a feeling of warmth and friendliness," said speaker Floyd Schneider, who also stressed the importance of letting the public know about new conveniences in design and packaging as soon as the convenience is introduced.

Schneider is vice president of marketing for the Lone Star Brewing Company of San Antonio.

"Romancing" the name of a product, Schneider explained, sometimes means creating a new brand name which "catches on" with the public and soon becomes identified with the product. "Innovations in advertising, new concepts in introducing an old product in a new package can often be the means of revitalizing a company," he added.

"Marketing Innovations: Are You In Step?" was the theme of the one-day meeting at which approximately 300 business administration students, business men and faculty member heard discussions relating to new approaches to merchandising.

L. O. Luther, branch manager of National Cash Register Co., Lubbock, discussed "Marketing Facts or Fiction." Closing speaker was E. T. "Terry" Condre, also of Lubbock, whose topic was "Putting Marketing Ideas Into Action." Condre is division manager for Investors Diversified Services.

The meeting closed with an informal discussion session at 2 p.m. featuring the speakers as group leaders.

Area NHS Group To Visit Tech

Members of the National Honor Society in Lubbock and surrounding areas will get a "taste of college life" when they visit the Tech campus Saturday.

Junior Council, both old and new members, are sponsoring an academic recruiting day to encourage scholastically outstanding students to attend Tech.

The day's program, which begins at 9 a.m., includes a welcome by Scott Allen, vice president of the Student Association, and Lewis Jones, dean of men.

The students will visit various classrooms, tour the bookstore, attend a session on the "Opportunities for Freshmen at Tech," and tour the Tech Union, the Science and Engineering Show, the University Theater, the Library and a dormitory.

The concluding feature will be a panel discussion of questions and answers with Donald Cates, assistant registrar; Peggy Griffith, Panhellenic rush chairman; Roland Anderson, president of the Student Association; and Bob Fillpot, president of Saddle Tramps.

SPRINGFIELD, Ill. —If Vernon Schafer and his wife are seeing double these days, it's no wonder.

His wife gave birth Wednesday to the couple's fourth set of twins, giving them a total of 12 children.

"I guess everyone will just have to pitch in," Mrs. Schafer says. "My husband takes his vacations and keeps house when I go to the hospital."

One - Act Play Contest Continues

Students from three Region I conferences are competing this weekend at Tech in the Interscholastic League one-act play contest. The plays will begin at 3 p.m. today and tomorrow and run until a break after the fourth play, then begin again, at 7 p.m. Today, Class A schools will present their plays as follows: Fabens, "The Sandbox," by Edward Albee; Lorenzo, "1984," by George

Orwell; Canadian, "The Boor," by Anton Chekov; "Queens of France," by Thornton Wilder; Roscoe, "Gammer Gurton's Needle," by I. E. Clark; Plains, "The Glass Menagerie," by Tennessee Williams; Hale Center, "Rise and Shine," by Elda Cadogan; Menard, "Riders to the Sea," by John M. Synge.

Tomorrow, plays from Class AA schools will be presented as follows: Haskell, "The Madwoman of Chaillot," by Jean Giraudoux; McCamey, "Six Who Pass While the Lentils Boil," by Stuart Walker; Dalhart, "Othello," by William Shakespeare; Floydada, "Impromptu," by Tad Mosel; Quanah, "Antigone," by Sophocles; Mason, "The Devil and Daniel Webster," by Stephen Vincent Benet; Slaton, "Early Frost," by Douglas Parkhurst.

Winners of the Class B contest, held last night, will be announced later.

Critic judge for the plays is Dr. Charles Schmidt, chairman of the department of speech and drama, Sam Houston State College, Huntsville.

Admission charge for the plays is 25 cents for children, and 50 cents for adults. All plays will be presented in the University Theatre.

ITS Elects Officers; Dollins Is President

The International Trade Society held its annual election of officers and discussed plans to organize a local chapter of Delta Phi Epsilon, the National Professional Foreign Service Fraternity at its monthly meeting Wednesday.

Plans were also made to apply for membership in the James West International Student Exchange Program which organizes the exchange of business students among 40 member nations.

Students exchanged under this program have the opportunity to apply their classroom knowledge to actual practice in foreign countries.

The society also made further plans to explore the possibilities of setting up a student owned and operated export company. Such a company would provide scholarships for participating students.

New officers elected were Harold Dollins, president; John Cope, vice-president; Keller Smith, secretary; Tom Esmond, treasurer and Earnest Casstevens, membership chairman.

With its broad scope of operations and a national affiliation, the International Trade Society will

provide opportunities for first hand knowledge of foreign service and practical experience both in business abroad and in local export operations.

Government, economic and international trade majors may attend the May Society meeting.

CHEERLEADER

SURE, most of us believe in God. But have you outgrown Him? Does He mean anything in your life? How do you picture Him? Is He just a remote Force . . . or sort of a fatherly but outdated Man Upstairs? Who is God, what is He . . . really?

IS GOD OUT OF DATE?

Or couldn't you care less? Like the college coed who said, "Yes, I believe in God, but I'm not nuts about Him." What is God like? You investigate insurance, education, new cars . . . why not seek a satisfying answer to what God is like? His Son, Jesus Christ, visits our planet in Person . . . entering our world of death, taxes, and tension. And He stays with it! Christians know He cares and shares.

A claim of this importance is worth exploring. You can investigate it by sending for this free, easy-to-read 48-page booklet, IS GOD OUT OF DATE?

WHY NOT FIND OUT FOR YOURSELF?

LUTHERAN LAYMEN'S LEAGUE

For Summer School Registration

Summer Packets Available

Registration packets for the first summer session are now available for students who were enrolled at Tech during the spring semester.

Registration permits and residence verification cards (Form H) may be picked up with the student's I.D. at the counter of room 160 in the Administration Building.

The permit card has been pre-punched with basic identifying information. The rest of the information can be filled out and returned

to the registrar by May 2. When the permit is validated, registration times will be assigned in the order in which correctly completed permits are turned in.

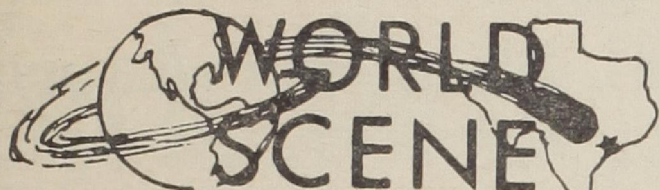

Students must turn in completed residence cards to the Dean of Women or the Dean of Men for verification before the registration permit will be validated.

Validated permits for all students will be distributed in room 165 in the Administration Building

about May 23.

Registration for the first summer term will be June 1 from 8 a.m.-noon and 1:30-5 p.m., and June 2 from 8 a.m.-noon. There is no late registration. Classes begin June 3.

All students who are not enrolled now can be approved for admission or re-admission. Undergraduates go to room 162 and graduates to room 150 in the Administration Building.

By THE ASSOCIATED PRESS

HONOLULU—Comedian Danny Kaye says the morale of U.S. fighting men in Viet Nam is phenomenal.

Arriving in Honolulu after entertaining troops in Viet Nam, he called them "the greatest fighting force I've ever seen."

ROANOKE, Va. The peasants in a small Vietnamese village are going to find life a little healthier thanks to two Roanoke, Va., grandmothers.

Mrs. C. A. Staton and Mrs. W. R. Colwell sent \$658—the first installment on a necessary \$700—to finance a village dispensary.

They learned of the need for the facility through correspondence with their grandson, Sgt. Ira Black and Capt. Alex C. Miller, an Army doctor.

"We didn't do this for self-praise," said Mrs. Staton. "We felt it is what God wanted."

ADELAIDE, Australia—Mrs. John F. Kennedy and Sen. Robert F. Kennedy, (D-N.Y.), are to be invited to Adelaide for the opening of the J. F. Kennedy memorial rose garden Nov. 22.

SAN FRANCISCO—The mayor's beat is City Hall.

Mel Wax, 47, a reporter for the San Francisco Chronicle, was unanimously elected mayor of Sausalito, Calif., by the City Council.

Wax has covered San Francisco City Hall for many years.

Sausalito is across the Golden Gate Bridge from San Francisco.

BERKELEY, Calif.—The daughter of Communist party historian Herbert Aptheker has resigned in protest from the Campus Rules Committee of the University of California in Berkeley.

Miss Bettina Aptheker, 21, was reported to have quit the post because the committee acted on a proposal she advanced while she was away on a speaking engagement.

DETROIT—An 11 per cent drop in the market price of American Telephone and Telegraph stock was "substantially" due to an investigation by the Federal Communications Commission, AT&T Chairman Frederick Kappel told the annual stockholders' meeting Wednesday.

The stock fell from \$66.75 Oct. 27, when the FCC inquiry was made public, to \$57.50 Wednesday. The commission is checking charges of AT&T and its Bell System companies and the prices Bell pays for Western Electric Co. equipment and services.

AT&T has trimmed its 1966 expansion program from \$4.2 billion to \$4 billion, in line with President Johnson's request to cut expenditures, Kappel said.

AUSTIN—A Texas A&M student whose great-grandfather was blinded in a dynamite explosion just after 1900 says he has invented "eyeglasses" for the blind.

Forrest Mims, III, 21, a slender six-footer with short, dark-brown hair and unblinking blue eyes, has been working on his invention since he was 15.

He perfected it too late to help his great-grandfather, George Meyer of Lufkin, who died two years ago at 86.

"Now I just want to get financial backing from a foundation so I can set up a nonprofit scientific research laboratory and produce the glasses," he says.

A mechanism in the glasses employs the radar principle, sending out an intense infrared light beam that bounces off objects and returns to the glasses. A hearing-aid plug attached to the mechanism

emits a hum that increases as the distance to the object shortens.

The tiny invention, transistorized and powered by penlight batteries, has a range up to 12 feet.

MONTREAT, N.C.—Election of a moderator to succeed Dr. S. J. Patterson Jr. of San Antonio tops Thursday night's agenda for the opening of the Southern Presbyterian Church's General Assembly.

Dr. Patterson, 66, a layman, will deliver his report opening the six-day meeting. The election will follow.

Three ministers who are expected to be nominated for moderator are Dr. Frank Caldwell of Charlotte, D. R. James Fowle, Chattanooga, and Dr. Rupert McGregor of Columbia, S. C.

Among 73 resolutions up for action is a proposal that the assembly censure the church's division of Christian Action for inviting Martin Luther King, Negro Baptist preacher, to speak at the last assembly.

The resolution, filed by a South Carolina church, also asks censure of the division for its invitation to Dr. Gayraud Wilmore Jr. of the United Presbyterian Church who spoke on race relations at the 1965 assembly.

Another resolution asks for withdrawal of the church from the National Council of Churches.

LOST: White gold Tech Sr. ring, initials LMO inside. Reward Ph. PO5-7101, ask for Mac.

Exhibits Display Talents

(Continued from Page 1) much like those used by radio and television sports coverage will be shown.

The gas laser was broken and will not be shown.

The chemical engineering department, celebrating its recent accreditation by the American Institute of Chemical Engineers and the Engineering Council for Professional Development, will feature a nuclear level controller to keep the level of liquids in tanks even, that was contributed by the Monsanto Chemical Co.

Also on display will be an automatic flow controller that will keep the same flow through a pipe regardless of the pressure.

A 15-minute movie on the advances of Nylon will be shown continuously in Room 101 of the chemical engineering building.

All laboratories in the department will be open for tours by the public.

Ash trays made on the spot for the public from a phenolic

resin will be given away.

A fuel cell will be in operation, and other displays will include distillation towers, plant models, and a heat exchanger.

The petroleum engineering department will feature a gas chromatograph that analyzes the component gases of natural gas.

Well survey equipment that can tell whether a well is drilled vertically or not, and if not at what angle it is drilled will be shown.

Textile engineering will show the public the processing of cotton from the bale to the bolt with guided tours through their laboratories.

Also an all synthetic thread will be spun in the display.

A force platform will be featured by the industrial engineering department. The platform can tell the exertion on a worker while he is operating any type of plant equipment.

The audience will be able to get a rough estimate of their learning rate at the display also.

The agriculture engineering department will show a pictorial panorama of the evolution of farm machinery in room 106 in the textile building.

The transition from past to present will be shown in power equipment, preparation of the land, planting equipment, harvesting, and processing methods.

All displays in the show will be secretly judged by scientists and engineers mingled in the visiting spectators and awards will be presented to the best displays.

Aggies Near First SWC Win

COLLEGE STATION, Tex.—Never in history have the Texas Aggies won the SWC tennis championship.

But, right now they lead the standings with a 23-1 record, have lost only eight points in their last 62 and present a tremendous challenge to defending champion and pre-season favorite Rice.

The Aggies play Baylor here Saturday and close out SWC play against Rice in Houston next Tuesday. Rice is now second at 15-3 and faces SMU and TCU before finishing against the Aggies.

Following a loss to Lamar Tech, Coach Omar Smith's Aggies have run off nine straight wins. In order, they beat LSU, 8-1; Minnesota, 8-1; Pan-American 4-2; Michigan State, 6-3; Texas Tech 6-0; 5-1; Oklahoma City, 7-0; SMU, 6-0 and TCU, 6-0.

The six-man varsity squad includes Richard Barker, Luis Rojas, Joe Tillerson, Dean Dyer, Ricky Williams and Pete Faust.

If the Aggies get past Rice, 6-0 and Rice sweeps its matches with SMU and TCU, A&M would need only a 3-3 split with the Owls to win the title. Even a 4-2 loss would give the Aggies a tie.

Flagg, Johnson Given J. C. Slonneger Award

Leo W. Flagg, president of Johnson-Fagg Inc. of Tulsa, Okla., and the late Douglas O. Johnson were named recipients of the J. C. Slonneger Award Thursday at the Southwestern Petroleum Short Course at Texas Tech.

The award was established in 1960 by Short Course directors for presentation to persons who, in the opinion of the board, have made outstanding contributions to petroleum production technology.

A plaque was presented for outstanding contributions to the petroleum industry through research and publications pertaining to the design, manufacture and application of specialized equipment for analyzing and correcting pumping well problems.

Flagg accepted Johnson's posthumous award. He was treasurer of the firm until his death in 1965. The award is in honor of J. C.

Slonneger of Dallas, a retired mechanical engineer and the first recipient. He retired from Continental Supply Company in 1956.

Flagg attended Oklahoma State where he received a bachelor's degree in industrial engineering. He has been in engineering work pertaining to oil field pumping problems in both the United States and foreign countries since 1937.

Johnson received a degree in electrical engineering from the University of Minnesota. He was engaged in sales engineering and consulting pertaining to oil field pumping from 1936.

Flagg has been involved in the design and manufacture of specialized equipment to fulfill production equipment needs including dynamometers and kindred test equipment, hydraulic pumping systems and well head equipment.

FASHION LEADERSHIP FROM AMERICA'S FAMOUS SHIRTBUILDERS AT FINER CAMPUS STORES EVERYWHERE

Tech Sets Full Sports Day

Lockney Lad To Lead UIL Meet Miners, Raiders Will Meet On Tech's Diamond Today

Melvin Sissney of Lockney holder of the fastest time in the state 440 yard dash will lead same 600 high school track stars in the Region Track Meet here today and tomorrow.

Sissney has run the 440 in 48.1 this year. The closest man to him in this meet will be Stinnett's Jim Wells who ran the quarter in 49.0.

The meet will start today at 9 a.m. with the class B field events. The finals in the class B field events and the beginning of the running events for classes B, A and AA will begin at 12:30.

Tomorrow there will be the field events for class A and AA and the final running events for all three. Time for the meet will be the same as today.

In most classes the meet will break down into a three or four team contest.

In class B it looks like Wheeler gets the nod to take first place. Booker, the defending champ, and Rule have very fine teams and

Netters Meet In Duel Match

The University of Texas and Texas Tech will meet in a conference tennis match today at 2 p.m. at the varsity tennis courts.

"The Longhorns are going to be pretty tough. They tied Rice, who is leading the conference and is defending champs," said coach George Philbrick.

"We are coming along pretty good this season but we have an inexperienced team this year. Dub Malaise is the best player we have right now," remarked Philbrick.

So far this season the Raiders are in sixth place in the conference standing. They have a 4-20 record but they are 1-4 for the conference. A win against the Longhorns would keep them from having a real bad season this year.

In the first conference game Tech lost to Baylor 4-2. The Aggies defeated them 6-0 in College Station. Then in Houston the Owls defeated the Raiders 6-0. The Raiders came home to be defeated by TCU 4-2. Finally the Raiders hit the won column as they defeated the Mustangs here 6-0.

"Depending on how the other schools come out I really don't know where we stand in the conference so far," said Philbrick.

The Texas match will mark the last conference game for the Raiders this season. Their last match of the year will be against Hardin-Simmons University here on May 7.

they are going to give Wheeler a run for them money.

In class A it could be Cohoma, as they have their two relay teams and six individual men here. Hale Center, Idalou and Springlake all have very strong track teams and they will make the Coham boys put out all they have to win.

Class AA will show the most excitement but it might be McCamey coming out with the winners trophy. They are fielding two relays and have 13 men in the meet. Stinnett, Denver City (defending champ) and Brady all have a good chance to keep McCamey from making it a run away.

The winners and placers in each class and event will be the ones that will make the trip to Austin on May 6 and 7 for the state finals.

The boys to watch will be: Jim Wells, Stinnett AA 440 49.0 Dennis Lane, Brady AA Shot put 59'1"

Discuss 164'5"
Fred Cooper Stinnett AA 880 1.57.3

Wayne Smith, McCamey AA High Jump 6'5"

Mike Mosley Cohoma A 880 1.55.2

Tom Smith, Pep B 880 not available

Broad Jump, not available
Melvin Sissney Lockney, AA 440 48.1

If the weather's willing the Tech Red Raiders and the Texas Western Miners will square off in a double header baseball game here today at 1 p.m.

So far this season the Miners are 11-9 and the Raiders are 6-11.

"On the basis of record they must have a pretty darn good ball club to beat some of the teams they've beaten," said Burl Huffman about the Miners.

The Miners have beaten such teams as University of New Mexico, University of Nebraska and Oklahoma. All these teams are very good ball clubs this season.

The Raider's encountered a very improved Southwest Oklahoma team this past Monday. They (Tech) lost the first game of the double header in 17 innings 2-1 and lost the second game 4-0. In the first game David "Strongman" Callarman went the distance for the Raiders allowing only six hits and two runs. He allowed only one earned run. In the second game it was Robert Hayes and Pat Abbott teaming up to try and stop the Bulldogs. Hayes got credit for the loss as he went five innings giving up four hits and three runs.

"We just couldn't get the runs when it counted. We scored one run in 24 innings. It wasn't our hitting because we hit the ball well but it was right at them," remarked Kal Segrest.

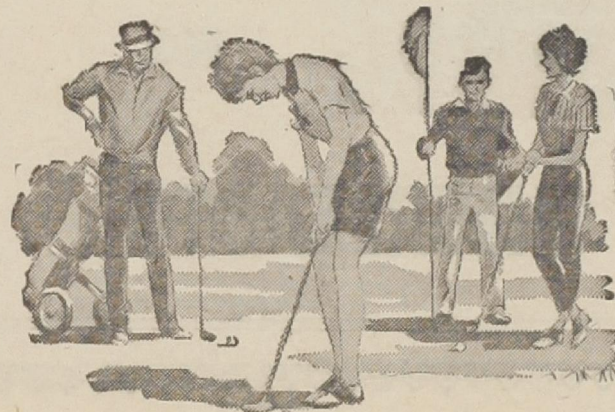

"We are in hopes that the students will come out and see the two games today. I feel like they will see a good ball game. We have been playing good ball all season long but we just haven't gotten the breaks," said Huffman.

In the series between the two teams the Miners and the Raiders are deadlocked at 1-1. Last year the Raiders won the opener 5-4 but lost the nightcap 15-6.

The Miners have 10 returning lettermen from a 12-13 season. Their

big gun is Jay Christopher who hit .320 last season but had 61 doubles. The leading hitter for the team was Larry McFarlin who hit .368 last year.

The two teams will square off in a single game tomorrow at 2 p.m.

Holt's Sporting Goods NEW ENLARGED golf department is now complete.

Come in and see HOLT'S wide selection of McGregor, Spalding, Wilson, and H&B woods and irons; the outstanding Conally Kanga Par shoe; HOLT'S full stock of Atlantic golf Bags.

HOLT'S "Bargain Barrel" features all irons at \$4.95 and all woods at \$6.95.

In SWC Triangular Meet

A&M, Baylor To Meet Tech Here

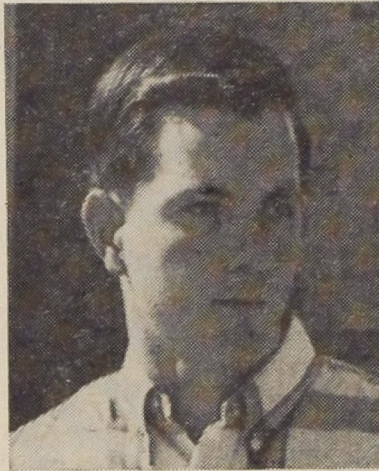

**DONNA
DUKE**

FOR

CHEERLEADER

PETE McKAY

CHEERLEADER

At least four Tech stadium records are in danger of falling this Saturday as the Raider thinclads host Texas A&M and Baylor in a triangular meet.

Leading the potential record breakers will be Aggie muscleman and world shotput record holder Randy Matson. The Olympic medal winner will be out to better the 63-5 1/3 put he made here two years ago. Matson's top toss this year is 65-10 1/4.

Baylor's Darrel Ward, co-holder of the pole vault record is likely to soar above the 14-6 mark he, Rice's Warren Brattlof, and Texas' Steve Guynes set in 1964. Ward's best year is 15-2.

Possible Contender

Texas A&M's Mike Schrider, who has leaped 6-6 in the high jump this season, is a possible contender to break the 6-5 3/4 record set by Tech's Dub Thorton in 1959.

Matson is also a favorite to better his 176 feet 9 1/2 inch record in the discus set here in 1964. His best this year is 191 feet 6 1/2 in.

Other records seriously threatened to take a tumble are the mile relay and the 220-yard dash.

Baylor's best in the relay, 3:12.1, is within .2 a second of Rice's 3:11.9 run here in 1964.

If A&M's Gilbert Smith can clip .2 off his season best of 21.1, he can break the 21.0 John Roderick ran here for Southern Methodist.

Defending Champs

Defending Southwest Conference champions in five events will be competing in the meet, including Tech's Ronnie Davis, who captured the three mile run in last year's SWC meet.

Four Aggies pace own the other titles, including Matson in the shot and discus, Schrider in the high jump and Dan Meadows in the javelin.

According to previous performances this season A&M is a slight favorite to edge out the Bruins for the meet championship. Pre-meet points given on this year's performances find the Aggies with 65 5/6, Baylor 65 and Texas Tech 37 1/6.

Although the Aggies are favored to win the most points Baylor is picked to capture the most first places.

Probable Baylor victories are in both relays, both hurdles, the 440-yard dash, pole vault, javelin, and the broad jump.

A&M's chances for wins are in the shot, discus, high jump, 100-yard and 220-yard dashes.

Tech is favored in the distance events, the 880-yard run, the mile and the three mile.

Some possible upsets could be in the making this week end.

Tech's Rich Kay has the best time for the mile this season. But Baylor's Dale McDonald and the Raiders' captain, Ronnie Davis, finished ahead of Kay in a triangular meet on the Abilene Christian College track last week.

Chuck Smith of Baylor has the best time in the high hurdles, by .2 second over A&M's Steve O'Neal and by .4 second over the Raiders Art Carroll. Smith barely edged Carroll at Abilene, and the home track advantage could mean an upset.

Field events will start at 5 p.m. running at 5:30 p.m. Admission will be \$1 for adults, 50 cents for all other except Tech students, admitted with their activity cards.

Buon Compleando, Roma!

ROME (AP)—The government of Rome celebrated the city's 2,719th anniversary Thursday by opening seven civic projects. They included three public parks, a park addition, a waterworks, an automobile underpass and a system of traffic lights along a highway to the seashore.

The officially accepted legend is that Rome was established in 753 B.C. when Romulus fortified a village on the Palatine Hill.

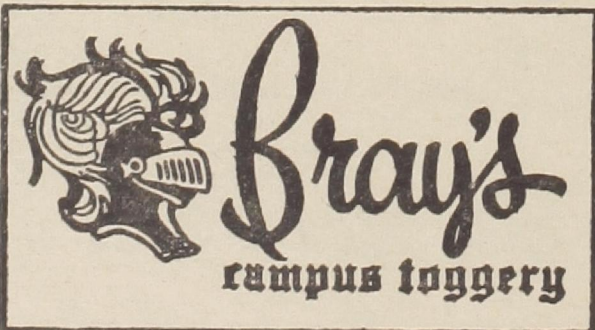

shall we dance?

or perchance to dream...

Whether to a Pajama dance or to bed, you'll dig these wild night shirts with matching cap and scuffs. Or, if you recline more on the conservative side of the bed... there's regular pajamas... all in matching his and hers or individuals. Striped, plaided, paisley'd in bedroom colors.
