VC Centers Attacked After Billet Bombing

SAIGON, South Viet Nam (AP)—American pilots and Navy gunners rained tons of explosives on Viet Cong centers Friday, pursuing the routine of war in the wake of a bloody terrorist attack on a U.S. officers billet in Saigon.

Three Americans and three Vietnamese were killed and 143 persons, including 113 Americans, were wounded by blasts and gunfire that battered the 10-story Victoria Hotel before dawn.

Vietnamese police arrested two men who fled the scene on a motorbike. They said one admitted he was a member of the ter-

rorist squad and the other was highly suspect.

Expanding political unrest led Premier Nguyen Cao Ky to appeal in a speech for solidarity.

A crowd of 9,000 in Hue, the old imperial capital, was reported to have detained the secretary-general of the ruling military directory, Maj. Gen. Pham Xuan Chieu. Demonstrators marched in two towns previously unaffected by the anti-American, anti-government agitation, Dalat and Qui Nhon.

U.S. fighter-bomber operations included a sweep in support of government troops heavily engaged by a Communist detachment eight miles north of Phu My, in coastal Binh Dinh Province. A Vietnamese army spokesman said the planes killed 200 Viet Cong.

B52 bombers staged a saturation bombing of suspected enemy store and staging areas on infiltration routes into Quang Tri Province, which adjoins North Viet Nam's border.

The destroyer Robison shelled a Viet Cong camp in the Saigon River delta in support of the U.S. Marines' Operation Jackstay

and spotters said 30 structures were destroyed.

A collection of 175 Viet Cong huts eight miles northeast of Quang Ngai City was reported left wrecked or burning from a 32-shell bombardment by the destroyer Richard B. Anderson. Four sampans were sunk.

Good flying weather returned over North Viet Nam Thursday after several days of clouds and Air Force and Navy pilots executed 50 missions. Targets included a convoy of 40 trucks spotted on a highway south of Vinh. A spokesman said they destroyed or crippled 25.

The central highlands fight that flared Wednesday between North Vietnamese soldiers and U.S. 1st Cavalry, Airmobile, Division troopers flickered out at the Cambodian frontier.

The 2nd Brigade of the U.S. 25th Infantry Division, virtually unopposed on a sweep across rubber plantation country 25 miles northwest of Saigon, reported it has destroyed 73 enemy tunnels and seized considerable equipment, including 55 mines and 7,200 rounds of small arms ammunition.

Tech Entry System To Begin Operation

Temporary Stations To Be Installed

Something new will be added to the Texas Tech campus when students return from spring vacation—the entry station system.

The entry stations will be installed Thursday, the first day of the spring break, and will be in operation for the rest of the semester.

The manned stations will be located at 15th Street by the Bookstore, on Boston Avenue near the Library, on Broadway near the Museum, and on 15th Street by the Veterinary Science Bldg. The north end of Boston Avenue, near the Textile Engineering Bldg. will be blockaded, but not manned by patrolmen.

"The stations will just be temporary and movable until we work some of the bugs out of the system," Bill Daniels, chief of Traffic-Security, said. The permanent structures will be built this summer after the best locations are decided upon.

Yellow and black striped barrels filled with concrete will be used to form the entry stations for the rest of this semester. A patrolman with a radio will be stationed at each post to keep unauthorized vehicles out of the inner campus where pedestrian traffic is heaviest.

A detailed list of all the regulations limiting vehicular traffic is on Page 4 of today's Toreador. The stations will be in operation from 7:15 a.m.-3:15 p.m. Mondays through Fridays, and 7:15-11:15 a.m. Saturdays.

"We expect to have a few problems with the entry stations during the first days after the students return (from spring vacation)," Daniels said, "but after everyone has gotten used to them, we expect more good than bad."

Several changes will be made in parking areas because of the entry stations.

The spaces in front of the Music Bldg. will be made into a faculty and staff lot beginning April 14.

Three more areas for motorcycles and motor bikes have been added: in the staff area behind the Civil-Mechanical (East) Engineering Bldg., in front of the power plant and behind the Textile Engineering Bldg., and in lot 16, the parking area north of Hulén and Clement Hall.

Three additional patrolmen have been hired to man the entry stations and regulate traffic.

Student ID's May Become Colorful Laminated Cards

Tech students' identification cards may be in a stiff, plastic lamination with color pictures next year.

According to James G. Allen, dean of student life, the change in the cards is almost a reality. Allen is the chairman of a committee set up to examine and decide on the new cards.

Dean Allen said the decision will probably be made next week. The new cards should not raise the price of the present cards more than \$1.25, he said.

The cards will probably be used for two years at a time rather than one year as is presently done. The cards would be validated each semester by means of a chemical process which would change the color of a small square on the card under the plastic. As each new semester comes, another numbered square would be colored in the registration process.

The new card will also have a raised number imprinted on it similar to any credit card. This will make it possible for merchants to cash checks for Tech students without trouble with stolen ID cards and hot checks. Stores can use a device similar to the service station's credit card machine.

The ticket-takers at the athletic events will probably be able to look at the student and his picture without punching the card to allow student admission to games. The color photograph should make recognition much easier.

Allen said the cards could not be used for more than two years at a time, probably, because students' appearances change so much in three or four years usually.

He said pictures for the new IDs will probably be taken this semester for next Fall's returning students. This will take some of the load from registration week next fall.

The ID card committee is made up of the various officials whose departments and offices will be affected by the change.

On the committee are: Polk Robison, director of athletics; R. B. Price, comptroller; R. C. Janeway, librarian; Nelson Longley, director of the Tech Union; W. C. Cole, manager of Tech bookstore; Floyd Boze, registrar; Don Renner, assistant registrar; Roland Anderson, president of the Student Association; and Jerry Rawls, business manager of the Student Association.

Men's 9 Offers Belts

Persons who need seat belts for their cars will have a chance to get them on campus today.

Men's No. 9, with the backing of the Lubbock Citizens Traffic Council, will have a station located on Memorial Circle today from 8 a.m. until noon and from 1-5 p.m.

Seat belts will be installed for \$6 a pair and the installation will take about eight minutes.

Lyn McCullough, president of No. 9, said that the purpose of the drive is to increase the safety of as many students and area people as possible before the Easter holidays.

Talent Show Entries Due

Registration ends Wednesday for the Annual All-School Talent Show. The event is set for April 23 in the Tech Union Ballroom. This year's theme is "Carousel." Students can sign up at the Union newsstand.

• Court Opinion Reopens Race •

Students who have between 12 and 13 semester hours are eligible to take out petitions for the Student Senate between now and noon Wednesday.

The Senatorial election was reopened because of a misinterpretation of the constitution concerning the required hours when petitions were first made available, but a Supreme Court Advisory Opinion pointed out that the constitutional requirement is 12 semester hours.

However, only students who have less than 32 semester hours will be allowed to take out petitions during the extended period because those with more than 32 hours had an opportunity earlier, Scott Allen, vice president, said.

Petitions are available in the Student Senate office Monday through Tuesday 8 a.m.-noon and 1-5 p.m. and today 8 a.m.-noon. Deadline for returning them is noon Wednesday.

Library 'Friends' Have Anniversary

Friends of the Library, a group interested in increasing and strengthening the holdings of the Texas Tech Library, will celebrate its first year of organization with a dinner April 4 in the Tech Union.

Friends President Phil Simpson said Tech Vice President for Development Bill J. Parsley would address the 7 p.m. meeting on "Investing in Excellence." The banquet will be held in the Union's Blue Room.

Tech librarian R. C. Janeway said the group, organized in 1965, has a total membership of 87 and raised a total of \$5,394.80 last year.

Purpose of the Friends, according to Janeway, is to benefit the Tech Library by providing funds for the purchase of books and collections, by encouraging money do-

French Students Honored At Thursday Banquet

Outstanding students in literary competition and linguistics were honored at Texas Tech's French Awards Banquet Thursday night.

Pat Doherty placed first, Doug Lewis, second, and Howell Polser, third, in the essay contest sponsored by "LE'sprit francais," literary magazine published by Pi Delta Phi, French honorary.

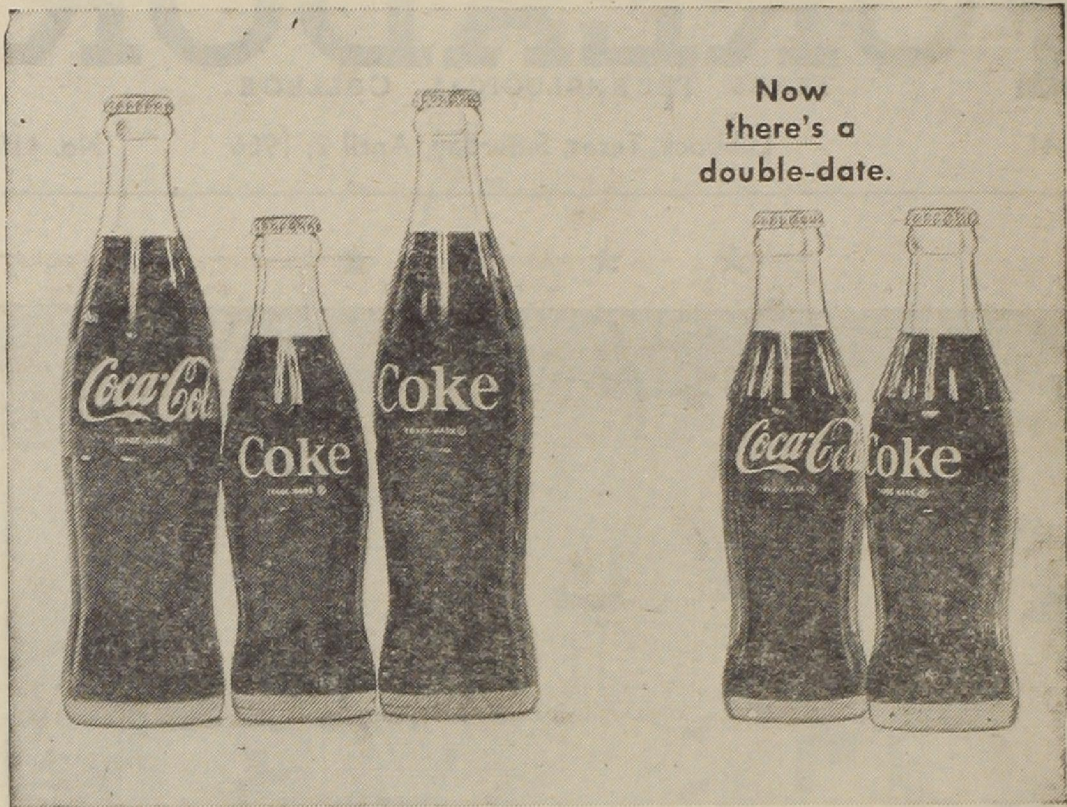

In the poetry division, Elizabeth Gill placed first, Susie Dennis, second, and Richard Morris, third. Stan Wyllie and Howell Polser received honorable mention.

French Consulate Awards for excellence in fourth-year courses went to seniors Carol Appell, Dwight Fullingim, Gena Odell, Rebecca Hord Trail and Judith Alexander, and to juniors Linda Campo, Cassandra Devlin, Joy Jasper, Pino Maurino, Leo A. Whitman and Kay Hervey.

Emily Calhoun received the French Consulate Award for excellence in third-year French.

Caroline M. Shull took top honors in second-year French and Patricia Lea Coil placed second. Barbara Ann Butler and Pam Nausley received honorable mention.

In first-year French, Carol Lynne Keller placed first, Janyth Carpenter and Nancy Eleanor Traweek tied for second. George W. Malouf received honorable mention.

Coca-Cola adds extra fun to dating—single or double. That's because Coke has the taste you never get tired of... always refreshing. That's why things go better with Coke... after Coke... after Coke.

EXAM SCHEDULE

EXAMINATION SCHEDULE FOR THE SPRING SEMESTER 1966

Time of Examination	For Classes Meeting on:
Wednesday, May 18	
8:00-10:30	10 MWF
11:00-1:30	11 TTS
2:00-4:30	2:30 - 4 TT
6:30-9:00 P.M.	8-9:30 P.M. MW and Wednesday P.M. classes only.
Thursday, May 19	
8:00-10:30	8 TTS
11:00-1:30	11 MWF
2:00-4:30	All Sections of Chemistry 141-142. Room numbers will be announced in respective classes. All Sections of Food and Nutrition 131. Room numbers will be announced in respective classes.
6:30-9:00 P.M.	8-9:30 P.M. TT and Thursday P.M. only.
Friday, May 20	
8:00-10:30	All Sections of English 131. Room numbers will be announced in respective classes.
11:00-1:30	All Sections of Accounting 234-235. Room numbers will be announced in respective classes.
2:00-4:30	2 MWF
6:30-9:00 P.M.	All Sections of French 141-142, German 141-142, Latin 131-132, and Spanish 141-142. Room numbers will be announced in respective classes. All Saturday Classes only.
Saturday, May 21	
8:00-10:30	9 MWF
11:00-1:30	All Sections of Biology 141. Room numbers will be announced in respective classes.
2:00-4:30	4-5:30 TT and all MILITARY SCIENCE classes. Room numbers will be announced in respective classes.
Monday, May 23	
8:00-10:30	9 TTS
11:00-1:30	12 MWF and 12 TTS
2:00-4:30	All Sections of Psychology 230. Room numbers will be announced in respective classes.
6:30-9:00 P.M.	6-8:30 P.M. MW and Monday P.M. classes only.
Tuesday, May 24	
8:00-10:30	8 MWF
11:00-1:30	1-2:30 TT
2:00-4:30	4 MWF
6:30-9:00 P.M.	6-8:30 P.M. TT and Tuesday P.M. classes only.
Wednesday, May 25	
8:00-10:30	10 TTS
11:00-1:30	1 MWF
2:00-4:30	3 MWF

Examination time for classes meeting for more than one hour (as 1:00-2:30) will be determined by using the first hour of the class period to find the corresponding examination period for that class meeting.

Air Force ROTC Members In Dallas For Conference

More than 20 Tech students are in Dallas today for the combined annual national conferences of the Arnold Air Society and Angel Flight from Saturday through next Thursday.

Heading the Tech delegation will be Arnold Air Society Commander Andy Kochis of San Antonio and Angel Flight Commander Virginia Fry of Lubbock.

The Tech chapters boast three national officers who will partici-

pate in the Dallas conference. They are Don Kennedy of Burkburnett, national publications officer, and Winston King, national archives officer. Glenda Straw, Tech coed from Dallas, serves as national publications officer for Angel Flight.

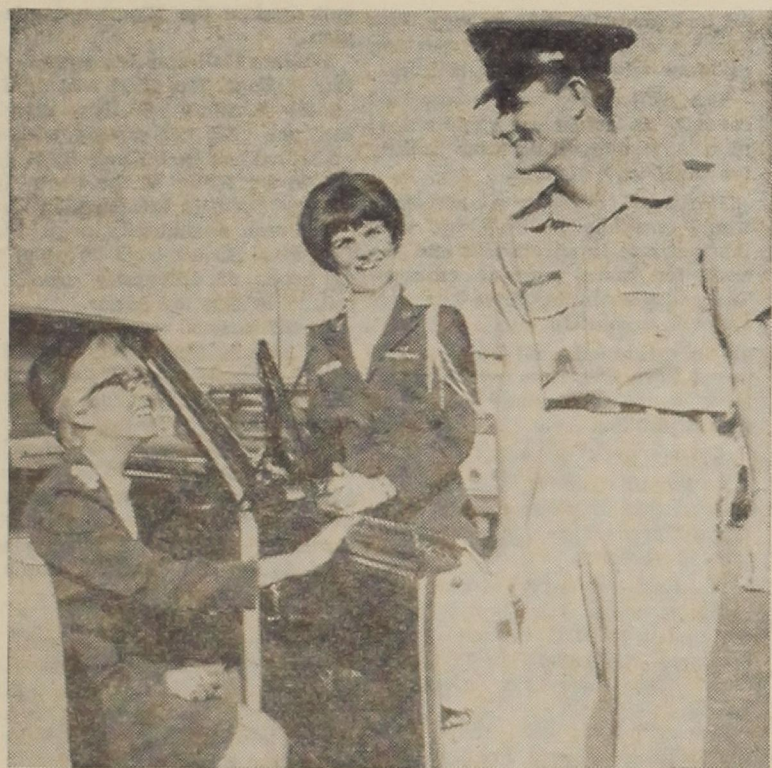

Highlighting the conference will be appearances by leading public figures from the Air Force and the National Aeronautics Space Administration. They include Gen.

John P. McConnell, Air Force Chief of Staff; Gen. Bernard A. Schriever, Commander of Air Force Systems Command; Maj. Gen. Robert R. Rowland, Chief of Staff, Pacific Air Forces; Astronauts Edward White and James McDivitt; and Eugene M. Zuckert, former Secretary of the Air Force.

The Arnold Air Society is an organization of more than 6,500 Air Force ROTC cadets who are preparing to be commissioned Air Force officers. The organization's purpose is to promote the traditions and goals of the Air Force, to foster ideals of American citizenship and to create a bond of professionalism and brotherhood among future officers.

Angel Flight members, although not enrolled in Air Force ROTC support the goals of Arnold Air Society and participate in numerous civic service projects. Angel Flights are located at 115 colleges and universities which sponsor Air Force ROTC units.

Comedian Bob Hope will serve as master of ceremonies for the awards banquet.

OFF TO DALLAS—Texas Tech members of the Arnold Air Society and Angel Flight left Saturday for the national conferences of the two groups in Dallas. The meetings will run through next Thursday (April 7). Here Arnold Air Society Commander Andy Kochis, son of Mr. and Mrs. A. A. Kochis of (303 Hartline Dr.) San Antonio, holds the car door for Angel Flight Commander Virginia Fry of Lubbock. Already seated is Carol Giraud, daughter of Sgt. and Mrs. Frank E. Giraud of (543 Cicero) San Antonio. (Tech Photo)

Edsel Buchanan President Of Intramural Association

Edsel Buchanan, Texas Tech Intramural Program Director since 1956, was elected president of the National Intramural Association at its annual meeting at the University of Oklahoma March 23-26.

Buchanan previously had served as national secretary and membership chairman for Texas. He presented a paper at the conference on "New Sports Activities for the Intramural Program."

He has a bachelor of science degree in physical education and a master of arts degree in physical education administration from the University of Michigan.

Buchanan presented details on Tech programs which have gained national interest, such as spaceball, skeet, ice hockey, sponsorship of Region I University Intercollegiate League Girls Basketball Tournament, Region I UIL Track and Field Meet and the annual Tech Summer Cheerleaders School.

He was associated with the Amarillo Public Schools before coming to Tech.

Other Tech faculty members attending were Willard Holsberry, member of the Intramural instructional staff, and graduate assistant Jack Tillinghast.

ME! AND I'LL
SAVE YOU MONEY,
TOO!

If you've never used an electric shaver before, the Norelco 'Flip-Top' Speedshaver® is a great way to find out the easier side of shaving. Its rotary blades stroke whiskers off. Never cut or nick. They won't hurt you. Neither will the price, which is about the same as a year's supply of razor blades and shave cream. P.S. If you want to spend a little more, get the Norelco Speedshaver 30 (at right). 35% closer shaves. 'Floating heads,' too. And a pop-up trimmer for sideburns. All the trimmings. From shave to price, it's clear about any Norelco—you can't get stung!

Our View On: University Happenings

The Entry Station Rules..

THE FOLLOWING REGULATIONS have been set up by the Traffic-Security Commission to govern the new entry stations, which will go into effect next Thursday.

These regulations are meant to govern unneeded, unwanted traffic on the campus, and ultimately, to provide a safer place for the thousands of pedestrians here every day.

We don't expect these rules to be perfect as they stand, but they are a start. And, the persons who wrote the rules are willing to accept any recommendations that will make the system operate more efficiently.

PERSONS ALLOWED TO ENTER

- Faculty and staff.
- College service vehicles.
- Business vehicles delivering and servicing college equipment.
- Public transportation vehicles, including commercial buses and taxicabs. These are to be used only for pick up and delivery of passengers to the inner part of the campus and not to be used for chartered buses or for taxicabs passing through.
- Private vehicles will not be allowed to enter the entry stations for the purpose of a short cut through the campus to other parts of the city.
- Visiting school buses and chartered buses will be allowed through the entry stations for loading and unloading only and will not be allowed to park in the inner part of the campus.
- Salesmen from business firms—not to include magazine or book salesmen calling on students—and insurance representatives—not to include those calling on students—will be allowed through the stations.
- Visitors:

9. Parents from outside of Lubbock County will be allowed to enter the entry stations to visit with their sons or daughters on the inner part of the campus and will be issued a visitors permit and directed by the officer at the entry station as to parking space available.
10. Parents living in Lubbock coming to the campus for the purpose of delivering college students to class will let such student off at the entry station.
11. Visitors will not be allowed to enter the entry stations for the purpose of driving through and looking over the campus between the hours of 7:15 a.m.-3:15 p.m. Monday through Friday and 7:15-11:15 a.m. Saturdays.

STUDENTS ALLOWED TO ENTER ENTRY STATIONS

- Handicapped students who require the use of a wheel chair or any other handicapped student, will be required to furnish a letter from a licensed M.D. to the Traffic-Security Department to obtain a special parking permit that will allow them to gain entrance at the entry stations.
- No student will be allowed to enter entry stations for the purpose of bringing his car to the inner part of the campus for field trips.
- No student shall enter the inner part of the campus between the hours of 7:15 a.m.-3:15 p.m. Monday through Friday or 7:15-11:15 a.m. Saturdays for the purpose of picking up or delivering projects to any department or building on the campus.
- No special parking permits will be issued for graduate students or undergraduate students for the inner part of the campus for the reason that he or she is working for any department that is located on the inner part of the campus. (Permits already issued this year will still be honored, and certain jobs will require the special permit, Daniels said.)
- No student car will enter the inner part of the campus between the hours of 7:15 a.m.-3:15 p.m. Monday through Friday or 7:15-11:15 a.m. Saturdays for the purpose of delivering merchandise for a private business or doing any kind of work for a private business. Also, no student will be allowed to enter the inner part of the campus during the designated hours in any business vehicle for the purpose of attending classes.

VOTER REGISTRATION HEARING SCHEDULED

AUSTIN (AP) — The three-judge federal court which struck down the Texas poll tax will hear arguments Tuesday on the Justice Department's motion for two additional free voter registration periods this year.

U.S. Dist. Judge Adrian Spears set the 10 a.m. hearing after consulting the two other judges on the tribunal, Circuit Judges John Brown and Homer Thornberry.

A controversy is presently brewing at Indiana University concerning the fraternity policy of Hell Week, or Trial Week.

The two opposing sides in the controversy are the University, which is against the practice on the grounds that it impairs studying and can be dangerous to a person's health, and the fraternities, who contend that a Trial Week is necessary for appreciation of initiation and active membership.

An average Trial Week usually involves curtailing of sleep and food, plus hazing. The "Week" is actually about two or three days long. Work is done, such as painting and yard duty, to improve the appearance of the house. Prospective initiates are let out to go to classes and are allowed time to study, the *Indiana Daily Student* reports.

In the past, a Trial Week acquired the term of Hell Week because extreme hazing and paddling was common.

However, the student newspaper reports that today fraternities are more academically minded and have eliminated many dangerous and useless practices from the Trial Week program.

The director of fraternity affairs at the university said that the university will recognize Help Week, where the pre-initiation activities are projects designed to benefit campus or community but that all other activities must be kept confined to the chapter house, and that these activities must not be dangerous or in conflict with study time.

A grade-point survey at the Colorado School of Mines recently disclosed that the cumulative class average is highest in the senior class and becomes progressively less with each following class.

The results were as follows:
Senior Class Average — 2.523
 (class numbering 154)
Junior Class Average — 2.385
 (class numbering 238)
Sophomore Class Average—2.277
 (class numbering 331)
Freshman Class Average — 2.106
 (class numbering 495)
 Although the freshman class made the poorest showing, there were three among them (carrying full loads) who pulled 4.00, according to the *Oredigger*. No upper classman had a 4.00. However, going to the other extreme, there

were five freshmen who failed every one of their courses, including ROTC and Gym, and there were 38 per cent who failed at least one course or more.

However, the *Oredigger* pointed out that the survey leads one to observe that a Mines student can expect his scholastic performance to improve with each succeeding semester.

★ ★ ★
 The University of Iowa may have found the solution to the parking problem where space is scarce.

The University was authorized recently to select an architect to plan a five-level parking facility for staff and visitors.

The cost of such a structure would certainly be high, but with the increase in enrollment and the need for more cars on campus, Tech may some day have to resort to such a solution.

The estimated cost for the proposed Iowa structure, which would have space for about 500 cars, was \$1-million.

★ ★ ★
 A recent poll at Texas A&M showed that Baptists dominate religious preference for spring semester students.

The Battalion reported that 1,909 students prefer the Baptist faith. Methodists ranked second among 31 listed religions with 1,832 students and Catholics numbered 1,476.

Denominations with more than 100 students include Presbyterian, 593; Episcopal, 431; Church of Christ, 340; Lutheran (NLC), 311; Christian, 180; Lutheran (Missouri Synod), 129; and Protestant, 104.

Preferences totaling more than 10 students include Moslem, 68; Jewish, 63; Unitarians, 44; United Church of Christ, 28; Hindu, 27; Mormon, 19; Christian Science, 16; Congregational, 14; and Brethren, 12.

Religions new to the poll since last year are Druid, Armenian Christian, Four Square Gospel, Jain, B'Hai and Confusian.

Other religions preferred by fewer than 10 A&M students are Greek Orthodox, Buddhist, Nazarene, Friends, Pentecostal and Seventh Day Adventist.

★ ★ ★
 The University of Texas is having some difficulty selecting an editor for the *Daily Texan* for next year.

After a close election and a close

run-off Gloria Brown, formerly of Lubbock, was named editor for 1956-67. However, that was not the end, as many supposed.

Instead, two suits contesting the validity of the Texan editor election have been filed and are scheduled to be heard by the Student Court.

John Economidy, one of the candidates for editor, is contesting the run-off election last Monday in his suit against the Election Commission.

William Hallman Jr., second-year law student, has filed suit against Gloria Brown's election, alleging that she "did not comply with the qualifications to be met by a candidate for editor of the *Daily Texan*" set forth in the Election Code.

Hallman specifically pointed out that Miss Brown lacks three of the 75 hours of university credit required to run for editor.

Qualifications were waived for Miss Brown, Economidy, and Morris Shelton to run for Texan Editor. The general manager of Texas Student Publications said the three had only minor deficiencies.

The Editor of the *Daily Texan* is elected by the student body, whereas at Tech the editor of the *Daily Toreador* is selected by the student-faculty Publications Committee.

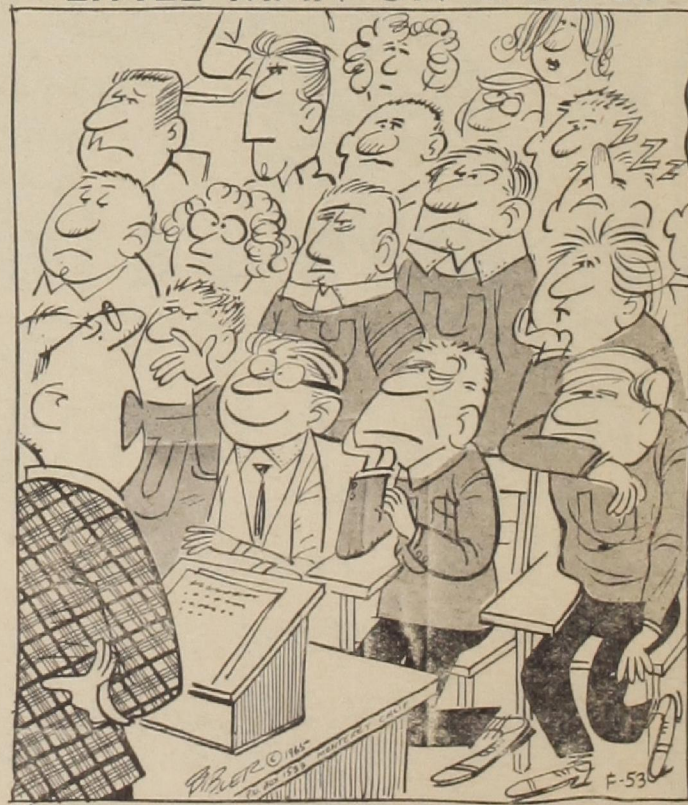

★ ★ ★
 "An inquiry among several international students at Kansas University revealed their most difficult problem has been to face and solve the problem of 'dating—American style,'" according to a report in the *Daily Kansan*.

Many of the foreign students commented that dating in America seemed to be a social requisite in order to be accepted by the rest of the group, and that girls often felt left out and unhappy if they don't go out every weekend.

One foreign student thought it was strange all the steps Americans go through before marriage, such as steady-dating, lavalier, pinning and engagement. In other countries, you date, get engaged and that is the end," he said.

Other foreign students commented that the goodnight kiss had lost much of its meaning in America and that, to many Americans, the kiss means no more than a handshake does in other countries. Many of the international students felt that many Americans kissed their dates goodnight because it was routine and because everybody else does it but not to show true affection.

LITTLE MAN ON CAMPUS

"IT WOULD APPEAR THAT SOME OF YOU MAY BE VICTIMS OF THAT WIDESPREAD RUMOR THAT I TEACH A SNAP COURSE."

Tech Trackmen Are Growing Up

MIKE LUTZ

JUDGING FROM THE number of Tech performers listed among the Southwest Conference best marks, TTrack is suffering from "growing pains" just as Big Brother, TFootball did last fall. Raider gridmen became serious contenders for the title last fall and now the trackmen are making their move. . . . Although the thinclads likely aren't ready to win the conference crown, they're making definite strides in that direction. Seldom, if ever, have so many Tech names been among the conference track leaders. . . . The Raiders have already won two meets and according to latest tabulations, several individuals are top contenders. . . . Leading Tech's bid for recognition is weightman **Ed Mooney**, who was undefeated in the shot and discus events prior to the Texas Relays. Mooney's biggest problem is a fella in a maroon warm up named **Randy Matson**, the world record holder in the shot and the people's choice to set a new standard in the discus. . . . Mooney has the second best distance in the discus with 175-1½ behind Matson's 181-8. The Tech JC transfer dropped to third in the shot in this week's statistical gatherings. He was replaced in second by Texas' **Toby Belt**, who heaved the shot, 55-5½ in the Corpus Christi Relays last weekend. . . . Mooney's best effort in the event was a 55-1 flip at the Border Olympics in Laredo, March 12. Matson tossed it 62-8 in Corpus Christi. . . .

TECH'S NEXT STRONGEST event is in the mile, with two runners listed among the top six. **Rich Kay** had the best time among SWC milers until Texas' **Richard Romo** unwound with a 4:12 in Corpus Christi. . . . Kay is now second with a 4:15 clocking. Sixth on the list is **Ronnie Davis**, who clicked off a 4:19.2 in Lubbock last week against Arlington State and McMurry. . . . **Don Parrish** and **Richard Hardy** are Tech's top sprinters. Both were clocked at 9.7 in Fort Worth in early March. A&M's **Gilbert Smith** shot to a wind-aided 9.4 at College Station for the top effort of the season. . . . And what's been wrong with the Tech baseball team? Biggest problem, according to assistant Coach **Cal Segrest**, has been pitching. But an exception to that statement has to be **David Callermen** and Segrest is quickest to admit it. . . . "He's been a great help to us this season," Segrest said, while watching Callermen nearing a shutout against Southwestern Oklahoma last weekend. "But it's not too much of a surprise, I thought all along he'd do us a fine job" . . . While Segrest was still talking, Callermen's shutout vanished when a fly ball to short left field dropped between three fielders. . . .

DUFFER OF THE WEEK: For a golfer who had never even witnessed a hole-in-one Sunday, **Andy Kandrack** of Pittsburgh is certainly (Continued Oh Page 6)

Red Raider Footballers Set Spring Training Scrimmage

The kicking game and labeling personnel "defensive" and "offensive" will be prime objectives of Coach J T King and crew when Red Raider hopefuls line up at 2 p.m. today for the first intrasquad scrimmage.

The get-together, culminating two weeks of spring drills, was scheduled in the afternoon so as not to interfere with the ABC Rodeo being conducted in Municipal Coliseum.

"Today's scrimmage won't be the true offense against the defense," King said. He said workouts have not been divided into offensive and defensive units prior to today's scrimmage.

Examine Players

"That'll be one of the things we'll try to determine in today's scrimmage," King said. "We'll spend most of Sunday examining each player and separating them into defensive and offensive teams. After that, we'll have platoons."

Tech's kicking game, left lacking by graduation losses, will also come under close scrutiny. King is looking for someone to replace all-America Donny Anderson's punting and Kenneth Gill's kickoff skills.

John Scovell and Guy Griffis will quarterback the two units. Joining Scovell in his backfield will be Kenny Baker at fullback and Mike Leinert and John Freeman at halfbacks.

Starting Backfield

Operating with Griffis will be Jerry Loveless and Bob Davis at halfbacks and Charles Graham at fullback.

King broke away from the regular workout schedule Friday and put the team through two hours of "polishing drills". King said Friday's drill would replace Wednesday's exercise to allow players an early exit for spring vacation.

Don't just sit there, Wallace Middendorp. Make a noise. Or drink Sprite, the noisy soft drink.

WALLACE MIDDENDORP SAT HERE

SPRITE. SO TART AND TINGLING, WE JUST COULDN'T KEEP IT QUIET.

What did you do when Joe (Boxcar) Brkczpluj was kicked off the football team just because he flunked six out of four of his majors? What did you do, Wallace Middendorp? And when the school newspaper's editors resigned in protest because The Chancellor wouldn't allow the publication of certain salacious portions of "Night In a Girl's Dormitory" you just sat, didn't you? You've made a mockery of your life, Wallace Middendorp! You're a vegetable. Protest, Wallace Middendorp. Take a stand. Make a noise! Or drink Sprite, the noisy soft drink. Open a bottle of Sprite at the next campus speak-out. Let it fizz and bubble to the masses. Let its lusty carbonation echo through the halls of ivy. Let its tart, tingling exuberance infect the crowd with excitement. Do these things, Wallace Middendorp. Do these things, and what big corporation is going to hire you?

SPRITE IS A REGISTERED TRADE-MARK

We'll do anything to make you happy. Even bleed for you.

This is Arrow's authentic, imported, India madras. If it doesn't bleed, you've bought the wrong shirt. Other features to look for: elbow-length sleeves, back collar button, box pleat and hanger loop. Lots of Arrow India madras shirts to choose from \$8.00 Not too much to spend, when you consider what we're doing for you. Bold New Bleed by

ARROW

We now have a tremendous selection of fine Arrow Shirts in solids, stripes, and beautiful plaids. Never before have you had so many great shirts to choose from.

BROWN'S

Corner College Ave. at Broadway

Southern University May Win

AUSTIN, Tex. (AP)—Southern University gave promise of breaking the college division wide open as it set records in the 880 and 440-yard relays and whipped up a mile relay in 3:08.0, barely over the record, in preliminaries of the Texas Relays Friday.

Randy Matson, the Texas A&M giant, flipped the shot 65 feet 4½ inches, which would have been sensational except that Matson holds the world's record of 70-7¼. It did signal the return to form of the big Aggie, who has had trouble rounding into shape after basketball and a knee injury.

Matson won one of the few finals held Friday afternoon when he hurled the discus 169-10, far short of his Texas Relays record of 188-8.

Southern ran the 880-yard relays in 1:22.9, which was within three-tenths of a second of the world record set

The mile relay time was within two-tenths of a second off the Relays record.

SANDERS TIES

GREENSBORO, N.C. (AP)—Doug Sanders birdied the next to last hole to tie Tom Weiskopf for the lead with a 135 total at the halfway mark Friday in the \$100,000 Greater Greensboro Open Golf Tournament.

Sanders, first-round leader with a 65, shot a one-under par 70 Friday in what he described as an "erratic finish." He had two birdies and a bogey.

Mike Lutz' Column

(Continued From Page 5)

becoming an expert on the subject . . . It all started Sunday when Kandrack, an eight-year golf veteran, whacked almost consecutive holes-in-one on nos. three and five on a suburban course near Pittsburgh. And adding to his wide-eyed amazement were five pars on the same front nine. He also hit two bogeys for a pro-like nine-hole total of 33. But by this time Kandrack, who normally shoots in the low 80s, was so excited he called the whole thing off and now he'll never know how he would have scored on the complete 18 holes. But there still was plenty to talk about at the 19th hole. . . .

THE MATCH PLAY METHOD of scoring Southwest Conference golf matches often hides outstanding medal play scores—and severe cases of frustration. Take A&M's Lee McDowell for instance. He shot a three-under-par 67 when the Aggies met Arkansas in a dual golf match. . . . That was all just fine 'cept he lost by 2 and 1 to Dave McCauley, a Pine Bluff sophomore, who sizzled home with a six-under-par 64, establishing a new course record. McDowell tied for second in the SWC meet last May . . . It was almost shocking to hear the score of the dual golf match between Tech and Texas Monday. Especially in view of the high optimism demonstrated by Coach Danny Mason just before the team left for Austin. "We're ready to win the SWC championship now," he told his typist. And, since the Raider linksters had been playing well of late, we had no cause to doubt. But the 4½ - 1½ loss by the Redmen is enough to make anyone wonder. We'll have to wait until next week to find out just what happened though. The linksters are entered in the All-American tournament in Houston this weekend and play Baylor on Monday in their second conference match. . . . But this is not to say all is lost. The Raiders have 36 more matches to play, more than any other team in the league. It just means the fight will be a shade more uphill than otherwise. . . . And uphill will mean overtaking Texas and Arkansas, currently tied for first place with 8½-3½ totals. The rest of the league stacks up with TCU third, 10½-7½; Baylor fourth, 9½-8½; Rice fifth, 8½-9½; A&M sixth, 7-11; SMU seventh, 6-12 and finally Tech. . . .

FOR THE MINORITY who doesn't know yet, there's a seething battle going on for the starting quarterback position at Texas Tech. And this rivalry between John Scovell and Guy Griffiths brought this kind of comment from Lubbock Coronado Head Coach Wayne Wilsher: "One of those guys is going to make a great quarterback out of the other" . . . And Scovell looks at it like this, "We can't fill Tom's (Wilson) shoes, but we can order another size and hope they'll get the job done" . . . Carole Coleman, a secretary in the journalism building is a former swimming and diving enthusiast and has the trophies to prove it. In her competitive days, she won fourth place in diving at the AAU Junior Olympics in Houston, which drew contestants from all over the southern United States. . . . Arkansas' speedy halfback Harry (better known as "Lighthouse Harry") Jones pulled a hamstring muscle in last week's Arkansas Relays and further spring activity, both in football and track, is now uncertain. Before pulling up lame in the sprint medley relay, Jones had clicked off a 10 flat 100-yard dash and had run a leg on the winning sprint relay team. . . . Another Razorback, Barry Bearden set a new school polevault record of 15-6 and is one of the favorites in today's Texas Relays. . . . Rumblings from the south have it that Baylor's passing potency will return to its old glory come September and Terry Southall is as good a reason as any. The Bruin's aerial specialist, who sat out most of last season with a broken ankle, is wowing 'em again. In a recent scrimmage, he completed 20 of 29 passes for 319 yards and three touchdowns. . . . And another 1965 "sit-out," SMU's D. J. Moore is serving notice in spring drills, he'll be ready for '66. Last week, he stampeded 177 yards overland in the Ponies' spring finale . . .

Diamondmen Take Victory Over Airmen

By GARY TILORY
Staff Writer

The Red Raider's Varsity Baseball Team pounded the Reese Airmen for six runs on 10 hits to take an easy 6-1 victory from the Airmen.

The Raiders scored two big runs in the second inning and were never threatened in the game.

John McIntyre started things off with a single to right and advanced to third on a throwing error on the right fielder. He scored as Jim Murrell singled, and Murrell was advanced to third on a single by David Callarman. Murrell scored on a single by Jim Miller.

Airmen Score

The Airmen scored their only run in the third on a throwing error on pitcher Fred Oamsted's hit. Oamsted scored on a single by Keith Brown.

The Raiders picked up another run in the fourth as Chris Galanos opened the inning with a walk. He was advanced to third on another single by Callarman. Miller sacrificed Galanos home.

In the sixth the Raiders broke loose for three runs. Galanos opened with a single and stole second. He scored on a single by Murrell and a throwing error on the Reese catcher. Murrell stole second and came home on a single by Eldon

Frost. Miller, in the meantime, had walked and stole second and had advanced to third on Frost's single.

While trying to steal second the Reese catcher tried to throw out Frost and in doing so Miller scored from third.

Callarman Pitches

Callarman went the distance for the Raiders giving up one run on two hits and he struck-out eight. He was credited with the win. Callarman has now won four of the Raiders five victories. The Raiders stand 5-6 now.

Fred Oamsted went eight innings giving up six runs on 10 hits and striking-out 10. He was credited with the loss. Reese is now 3-3 on the season.

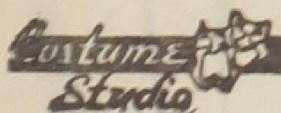

Adding to the gaiety of the Raiders' games are the Saddle Tramps. They have provided a loud speaker system for the games through the cooperation of a local bakery. They also have a scoreboard system giving an inning by inning account of the game that was conducted by a local business firm.

The Raiders next encounter F.C.U. April 8-9 in Fort Worth and S.M.U. April 11-12 in Dallas. The next home game will be with Texas Western from El Paso on the 15th and 16th.

TOWN GIRLS

The Town Girls will have a noon luncheon Wednesday in the Union. Reservations can be made Tuesday in the dean of women's office.

Scrimmage... Baughan Goes To Rams From Eagles

(Continued From Page 5)

"Our running game is coming along pretty good now," King said. "But our passing is still questionable. The receivers must come along now. We'll get a close look at how they react under pressure, this afternoon."

Starting Ends

Starting ends for Scovell's unit will be Bob Bearden and Terry Scarborough. Terry McWhorter and Bob Brewer will open on the other team.

"If we continue to get good effort, I think we will make normal improvement in spring training," King said. "We'll be able to tell out there tomorrow a little more what to expect."

The scrimmage will be conducted under game conditions with the exception of a kickoff.

ACADEMIC RECRUITING

Packets for students participating in Tech's academic recruiting program during spring vacation can be picked up at the ticket booth in the Tech Union April 5-6. All students planning to visit high schools must pick up the packet.

PHILADELPHIA (AP)—Unhappy Maxie Baughan, disenchanted with his salary and the style of defense used by the Philadelphia Eagles, was traded to the Los Angeles Rams Tuesday for two younger players and a future draft choice. General Manager-Coach Joe Kuharich, who since coming here three years ago has unloaded such stars as Tommy McDonald and Sonny Jurgensen, apparently also was somewhat disenchanted with the linebacking of the club's 28-year-old defensive captain.

Baughan also had hinted he would like to be traded to the new Atlanta Falcons. He works here during the off-season but was reared in Bessemer, Ala., and starred at Georgia Tech as a collegian.

Baughan went for tackle Frank Molden and linebacker Fred Brown, both rookies last year. Molden and Brown started several games for Los Angeles when regulars were injured.

A Rams' spokesman said both were regarded highly, and that Molden was considered a possible

fifth defensive lineman behind four veteran regulars. Brown played as a linebacker and at times as a tight end.

The Rams, however, get in Baughan the Eagles' No. 1 linebacker, who has played in five Pro Bowl games in his six seasons here since being drafted No. 2 by Philadelphia out of Georgia Tech.

Until last season, Baughan hadn't missed a game since breaking into the line-up as a rookie in 1960. He suffered muscle pull and missed two 1965 games.

His acquisition by Los Angeles made it three all-pro linebackers in eight days picked up by the Rams. They took on Bill George Thursday after his release by the Chicago Bears, and previously coaxed Jack Pardee out of retirement.

Sports Briefs

WEST PALM BEACH, Fla. (AP)—Center fielder Mack Jones has returned to the Atlanta Braves' spring training camp and faces a crucial four or five days that will determine if he is available for action when the season opens.

Jones said an Atlanta physician had discovered a bone chip "about the size of a nickel" near the top of his shoulder. He had been in Atlanta for three days undergoing medical examinations.

The outfielder has been bothered with a sore shoulder all spring.

WEST PALM BEACH, Fla. (AP)—The Atlanta Braves said Friday they have asked waivers on veteran Frank Thomas to give him his outright release.

The loss of Thomas drops the Braves to 30 players, two over the opening-day limit.

Club officials said that by giving Thomas his release before the season starts it gives him time to contact other clubs and make a deal for himself.
