

CAMPUS EDITOR Carolyn Minms seems all aglow as she prepares this king-sized valentine. Her happiness may vanish, however, when she gets around to mailing the card—but then again she may deliver the greeting in person. (Staff photo by Rollie McNutt)

French Must Leave Says Tunisian Head

TUNIS, Feb. 12 (P)—Tunisia demanded today the evacuation of all French forces as the price of restoring French-Tunisian friendship. The government underscored its demand with a display of increased hostility, including firing on a French patrol boat at Bizerte.

In retaliation for France's air attack on the border village of Sakiet Sidi Youssef Saturday, Tunisian President Habib Bourguiba told French to pull out her 15,000 troops and give up her strategic naval base at Bizerte.

BUT THE FRENCH showed no signs of bowing to Tunisian demands.

In Paris, the French were reliably reported ready to seek to have all French bases in Tunisia brought directly under command of the North Atlantic Treaty Organization. Then Bourguiba would have to deal with the 15-nation military force of the NATO Alliance.

ALTHOUGH TUNISIA is not a member of the alliance, she is friendly to the West. She has received both financial and military aid from NATO's biggest member—the United States.

Bourguiba's demand for the removal of French garrisons came after he talked with a string of foreign diplomats, including U.S. Ambassador G. Lewis Jones. As they conferred, an angry crowd of Tunisians outside the presidential palace clamored for action.

"OUT WITH THE FRENCH," they cried. "Give us arms."

They broke up and went home after Bourguiba announced his demand for the removal of French forces.

"That and that alone can re-establish a climate of friendship cleansed of the remains of colonialism," he said.

As he spoke his weakling army defied French might. National Guard troops barricaded the French military bases. Truckloads of Tunisian troops rushed to Bizerte to build defenses around the entrances to the port's excellent, natural harbor.

The Tunisians have threatened to block the harbor entrances by sinking ferryboats if the French try to run the blockade. This technique was used by the Egyptians in the Suez Canal during the 1956 Suez war. It took months to clear the canal again.

School Trip Features Comfort, Enjoyment

Students making the school-approved trip to Dallas Feb. 21-23 will enjoy comfort, convenience and safety in Santa Fe's El Capitan cars.

"The acquiring of El Capitan cars for the trip has boosted ticket sales, but there are still plenty of tickets left for students desiring to purchase them," says Wick Alexander, out-of-town trip committee chairman.

SOME OF THE conveniences the El Capitan cars provides are contour seats and riding ten feet above the noise of the wheels.

Activities for the train trip are jam sessions in one or all of the cars allotted to Tech. An 80-piece Tech band, which will play at the SMU-Tech game, will furnish music for the sessions.

See Picture on Page Two . . .

DEADLINE FOR ticket sales is 5 p.m. Monday. The \$14.50 tickets are on sale in the Tech Union. The tickets cover both the cost of the train trip and the cost of the basketball ticket to the SMU game.

With the recent Arkansas torpedoing of the high-flying Mustangs, the Tech-SMU game may well be for first place in the Southwest Conference race.

ANOTHER FEATURE of the SMU game will be the playing

of stellar guards Gerald Myers of Tech and Max Williams of SMU. Tech was defeated in its last outing against SMU.

A pep rally will send off the Tech delegation at 11 p.m. Feb. 21. The band will have charge of the concessions on the train.

A GROUP OF SMU students will welcome the Tech delegation upon its arrival in Dallas at 8 a.m. Feb. 22. Leaving Dallas at 1 a.m. Feb. 23, the special train will arrive in Lubbock at 10 a.m.

The SMU Engineering School will be conducting Engineering Week with an open house in the Caruth Engineering Building. A tour of the new Univac Building is planned.

TECH STUDENTS are invited to attend an engineers' all-school dance after the game.

Committee members for the out-of-town trip include Gerald Myers, Bob Byrd, Carolyn Williamson, Sandra Shields and Claude Rogers.

BSO Application Deadline Today

Today marks the deadline for returning application blanks for a Board of Student Organizations office. Blanks should be returned to Dean James G. Allen's office.

An interview is also requested with each applicant today in the Tech Union workroom. The available offices include executive chairman, vice chairman, treasurer and secretary.

These positions may be filled by any junior or senior delegate to BSO with an over-all grade point average of 1.00 for the previous semester.

The election is scheduled for Thursday, Feb. 27, at 7 p.m. in the Aggie Auditorium.

Seniors to Meet

Tech seniors will "tend to the business of being seniors" at a meeting at 5 p.m. in Ad 364.

Business will include discussion of senior invitations, caps and gowns; reports by the senior carnival and financial committees; and nominations of class favorites.

Tech Day of Prayer Observance Set For Sunday Night at Methodist Center

Texas Tech students will observe the Universal Day of Prayer Sunday.

The Rev. Mr. Robert Fudge, Disciple of Christ minister will be principal speaker at services Sunday evening in the Methodist Student Center.

The service is sponsored by the Campus Churchman's Council, including the Disciples of Christ, Episcopal, Lutheran, Methodist and Presbyterian Churches.

Tech's observance will be only one of thousands of such services at colleges and universities all over the world according to Karen Smith, chairman of the observance planning committee.

International observance of the Universal Day of Prayer is sponsored by the World's Student Christian Federation uniting Christian student groups in over seventy countries of the world.

Deadline Nears For Stunt Night

Organizations are reminded by the stunt night committee of the junior class that skit entries are due Wednesday.

Skits and a check of \$5 should be turned in to Toni Bannister. This check will be returned to the organization after its skit has been presented.

Three Finalists Vie For 'Rose' Honor

Three coeds were named finalists for the Rose of Delta Sigma Pi, national business fraternity.

Finalists are Judy Ecklund, Pi Beta Phi; Barbara Jane Hail and Sandra Hendrix, Kappa Kappa Gamma. The Rose will not be announced until the Formal Rose Presentation Dance.

Dance will be Friday, March 7, at the Hillcrest Country Club. The Rose of the local chapter will be entered in a national contest.

Each sorority elected two girls who vied for the honor. The three finalists were selected from this group by the chapter members.

'How to Tell When Boy Goes Wrong?'

by HAL BOYLE

NEW YORK, Feb. 12 (P)—"How can you tell when a boy really has gone wrong? What is the sign?"

These are the questions George and Margaret Madaille asked aloud today as they sat in the small living room of their six-room, \$75-a-month apartment in a Bronx housing development.

ONLY TWO HOURS before the father had stood by the side of his 15-year-old son, Frances Michael, as the boy, accused of hurling a 7-year-old neighbor girl to her death from a rooftop, was arraigned on a homicide charge. He had listened silently as Magistrate J. Randall Creel, in sending the boy to Bellevue Hospital for observation, warned "If it is determined that the boy . . . knew the nature of the crime, he will burn in the electric chair."

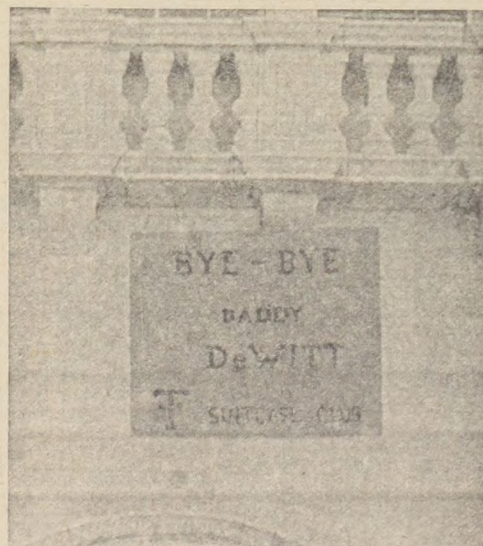

Now both Madaille and his wife were searching their hearts for the answer—Why? Why had this happened to them? Where had they gone wrong?

IT IS A multiple tragedy. The Madailles have nine children, ranging in age from Paul, 2, to Margaret, 18, the only one who lives away from home. Their neighbors, John and Rita Hegmann, have eight children.

Police say Michael told them he lured little Kathleen Hegmann to the rooftop of his apartment dwelling yesterday by promising her a dime and a lollipop, then choked her unconscious and hurled her 13 floors to her death. They say when asked why he did it, Michael replied: "I don't know."

HER OWN small children, playing on the floor, looked up as Mrs. Madaille pushed a thin lock of hair away from her tired forehead, and asked the question that many parents today ask:

"What in the world can I do? How do you know that something has gone wrong—really wrong—what a boy? What is the sign? My boy did nothing that a thousand other mischievous boys haven't done who turned out to be fine men."

APPEARING WEDNESDAY morning on the front of Sneed Hall, this banner protested against recent reports of a two year extension of contract for Coach DeWitt Weaver at the Board of Directors meeting to be held Saturday. The banner was signed "The Suitcase Club."

CAMPUS

THIS SCENE WILL BE REPEATED at 11 p.m. Feb. 21 when students making the out-of-town trip to Dallas climb aboard the "El Capitan" type cars that make up the special train.

Around the Circle

—carolyn mimms

What to do. What to do. Poor cupid is wondering what to do in this unpredictable weather. If it keeps snowing his arrows might freeze and what a catastrophe with tomorrow Valentine's Day.

But sororities, fraternities and other organizations around the Circle are coming to his rescue with Valentine dances and dinners.

Kappa Alpha Theta's Valentine party will be a dinner dance climaxed initiation of its pledges at the Palm Room from 6:30 to 11:30 p.m. tomorrow. It is a closed event.

Phi Delta Theta will celebrate with a record dance at K. N. Klapp at 7:30 p.m. tomorrow.

Traditional Valentine decorations will be seen at Pi Kappa Alpha's Valentine dance at 8 p.m. at its lodge tomorrow. It is a record dance by invitation only and the February Gardenia Girl will be presented.

Kay Williams was Pi Kappa Alpha's January Gardenia Girl. Sigma Chi will have a sports dance at 7:30 p.m. at its lodge tomorrow.

Sigma Alpha Epsilon will observe Valentine's day with a dance

at Mackenzie Terrace at 8 p.m. tomorrow.

Saturday, pledges of two sororities will be presented, Kappa Kappa Gamma will present its pledges at 6:30 p.m. in the Tech Union and a dance will follow. Sigma Kappa's presentation and dance will be at 8 p.m. in the YWCA Ballroom.

After the Tech-Arkansas basketball game Saturday, Sigma Alpha Epsilon will have a rush reception and dance at its lodge at 10 p.m.

Alpha Chi Omega sorority will have a date party at its lodge at 10 p.m. after the game Saturday.

Phi Gamma Delta will begin its spring rush parties at 2 p.m. Saturday. Fiji's will entertain rushees at the V-8 Ranch.

Sigma Nu fraternity will have a record dance at K.N. Klapp Party House after the basketball game Saturday. Rushees and their dates will be special guests for the evening.

Also, Sigma Nu had a semi-formal dance at the VFW last Friday for rushees, members and dates. Sam Baker furnished the music. At intermission, Sigma Nu's pledge class presented a program of jokes and impersonations.

Sigma Chi fraternity will have a weiner roast at its lodge at 5:30 p.m. Sunday.

Kappa Kappa Psi is having an official rush party in the Tech Union at 7 p.m. Monday.

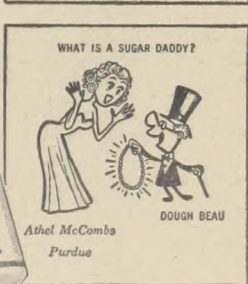

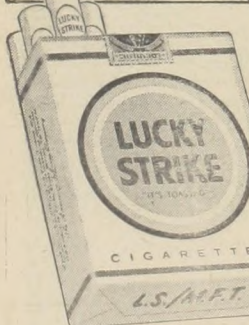

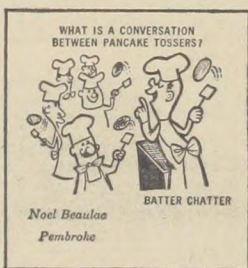

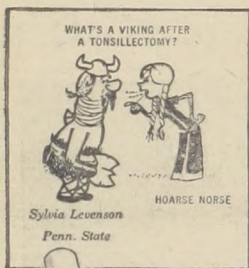

That winds up the news of activities around the Circle this weekend. Have a very exciting Valentine's Day.

Feelin' blue? Need money, too? Students, we've got news for you!

We want Sticklers!

Send yours in and **MAKE \$25**

MOST POPULAR GAME that ever went to college—that's Sticklers! Just write a simple riddle and a two-word rhyming answer. For example: What's a big cat shot full of holes? (Answer: peppered leopard.) Both words must have the same number of syllables—bleak freak, fluent truant, vinery finery. Send Sticklers, with your name, address, college and class to Happy-Joe-Lucky, Box 67A, Mt. Vernon, N. Y. Don't do drawings! We'll pay \$25 for every Stickler we use in our ads—and for hundreds that never see print. While you're Stickling, light up a light smoke—light up a Lucky. You'll say it's the best-tasting cigarette you ever smoked!

LIGHT UP A *light* SMOKE—LIGHT UP A LUCKY!

Museum Shows 19th Century Hallmark Cards

The evolution of the modern valentine is a present feature of the West Texas Museum.

An exhibit of the outstanding valentines of the 19th century from many countries of the world will be shown in the Rotunda and Art Gallery through Feb. 26.

From the famous Hallmark Historical Collection, the valentines include comic, mechanical and intricate patterns.

ONE OF THE ancient book valentines opens to show a tiny silver harp with gold strings and is imbedded in white satin. Above and below the harp are clusters of flowers and pearls. The flowers above the silver lyre are tied with a ribbon labeled "Faith".

The whole valentine is encircled with two rows of scalloped white lace spiraled with silver wire. The message on the card is written on a scroll—"May happiness be ever thine."

THE WORKS of such valentine artists as Louis Prang, pioneer lithographer, Ester Howland, famous American valentine manufacturer and Kate Greenaway, the renowned British artist, are featured in the exhibition.

Simplicity as well as intricacy is found within the display. The old-fashioned doily with detailed cut-outs shows beauty of simplicity. The valentine is a round, white doily about eight inches in diameter and patterned with tiny hearts, flowers and men. Each figure is carefully cut from the doily.

THOUSANDS OF people view the collection every year when it is displayed in art galleries and museums throughout the nation.

Included in the exhibit are two rare English mechanical valentines from the period 1870-1880, and two very rare Pennsylvania Dutch valentines from the early 1800's.

Theta Sigs Initiate Five

Five women were initiated as members of Theta Sigma Phi, national women's journalism fraternity, Monday.

Initiated were Carol Stone, Lubbock; Cathy Short, Lubbock; Carol Thompson, Georgetown; Joan Abel, Lubbock and Nita Hedleston, Big Spring. Annette Austin, Tyler, was pledged.

VALENTINES OF the 19th century are being examined by Trudy Baugh, freshman from Monroe, La., and Ernestine Hunsucker, senior from Lubbock. These valentines are part of an exhibit from the Hallmark Historical Collection on display in the Museum. (Staff Photo)

Social Fraternities Plan Rush Meeting

All men interested in pledging a Greek social fraternity are invited to a rush convocation in Aggie Auditorium Wednesday at 5 p.m.

Eligibility requires that a rushee must have completed one full semester at Texas Tech, be enrolled for at least nine hours, and not be on scholastic probation.

Presidents of Tech's ten social fraternities will attempt to answer questions which may arise.

There are only two ways to be unprejudiced and impartial. One is to be completely ignorant. The other is to be completely indifferent. Bias and prejudice are attitudes to be kept in hand, not attitudes to be avoided.

Chilean Way of Life Impresses Vigness

Dr. David M. Vigness, associate professor of history, recently returned from Chile where he was a Fulbright lecturer on American Civilization, with his black "huaso" hat and all.

The "huaso" hat, a broad-brimmed, flat-crowned black hat, is standard apparel for Chilean cattlemen and is common as the Stetson is in West Texas.

Vigness and his family spent seven months in Chile while he lectured at Catholic University at Santiago and the University of Chile in Santiago.

He reported that he found Chileans interested in the United States and like many Americans abroad, found they had misconceptions about this country because of American movies.

Questions he frequently faced concerned Little Rock, the movie,

"Giant," which was playing in Chilean theaters last fall, and America's reaction to Sputnik.

In addition to teaching contemporary American history and methods of historical investigation, Vigness was asked by the U.S. Embassy to give lectures throughout Chile on American democracy.

Vigness says there is no censorship in Chile and that they have a real political democracy, having about 25 political parties.

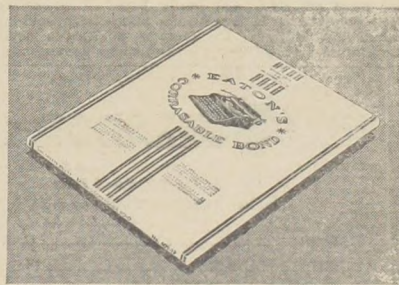

"The Chilean standard of living is higher, in many respects, than standards in other South American countries, but for the present, Chile is in economic difficulty," the Tech professor said. From the time Vigness arrived in Chile until he departed earlier this year the monetary exchange rate fluctuated from 714 pesos to \$1, to 88 to \$1.

We Go in Style This Year

THINGS ARE picking up with the out-of-town trip. At first — right after tickets went on sale — it looked as though there might not be an out of town trip. No one was buying. But sales have started and seem to be picking up, and if this continues, there will be a trip.

It is reported, however, that there are not yet near enough tickets sold to secure the train. Four hundred ticket sales are necessary. An estimated 100 plus tickets have been sold.

But Techsians have more reason than ever to make the trip this year. For the first time in the history of the Out-of-Town Trip, students will be traveling in luxury. Santa Fe Railroad announced Tuesday that High Level Chair Cars have been reserved for the trip.

Before, the cars taking Techsians out of town have been standard passenger cars. The High Level car puts the passenger 10 feet above the rails. Cars such as were used last year had the passenger only four feet above the rails. This means a quieter ride with a better view — for the daylight part of the trip.

Also, the High Level cars are larger and the chairs are more comfortable. They are the "latest and the best" that

Santa Fe has to offer.

There will be six passenger cars and two baggage cars. One of the baggage cars will be used for band instruments and equipment. The other will be for concessions. Also in the concessions car a dance is planned. Jam sessions are also on the schedule for entertainment.

There will be a pep rally before leaving Lubbock and one upon arrival in Dallas. Dallas headquarters for Tech will be the Dallas Hotel where Techsians can freshen up from the ride for the day in Dallas. Also, on hand to greet Tech will be SMU students who will provide transportation out to the SMU campus and show Tech the campus.

Since the Out-of-Town Trip is school sponsored, it is reported that class cuts on Saturday will be a matter between the student and his instructor, if the student goes in the train.

The deadline for buying tickets is 5 p.m. Monday, Feb. 17. The luxury cars, the entertainment provided (not to mention the Tech-SMU game) make the \$14.25 price more than reasonable.

Let's make Tech's Out-of-Town debut in Southwest Conference play one to remember.

BOOK REVIEW

'Rip' Ford's Indian Fighters Changed Frontier Strategy

Western gunslingers of television fame are Eastern dudes in comparison to "Rip" Ford and his Indian fighters who battled the wily Comanches in West Texas during the late 1850's.

William J. Hughes, Tech instructor and doctoral candidate in history, describes "Rip" Ford's Indian fight on the Canadian River in a current issue of the *Panhandle-Plains Historical Review*.

WHEN REGULAR Army contingents were transferred from northwest Texas to more troublesome areas in other territories, the Comanche horsemen swept through white settlements in 1857 "and the reeking casualty lists and tools of vanished or destroyed property again began to mount," Hughes writes.

The Federal government stalled in answering pleas of the settlers for more protection and finally Governor Harding R. Runnels obtained \$70,000 from the State Legislature to mobilize an addi-

tional 100 men to bolster the Ranger ranks.

JOHN S. "RIP" FORD, who had proved himself with Col. Jack Hays in earlier years, was named senior captain of the group and by February 1858 the Rangers were on the march.

"Most of the men, like Ford, carried two Navy Colts, and every man had at least one, as well as the familiar muzzle-loading rifle. The firepower of the force was estimated at 1,500 rounds without reloading," Hughes writes.

WHILE THE Rangers had no uniform, "broad-brimmed hats pulled low over the eyebrows, and high boots, into which trousers were tucked gave a certain uniformity to the column, as did the cap-and-ball rifles with walnut butts protruding forward from rawhide boots."

The punitive expedition was joined by Indians from the Texas reservations, and representatives of at least a half-dozen Indian nations accompanied the Texans,

Hughes reports. ers were the Caddo-Anadarko group, the cannibal Tonkawas, a mixed command of Shawnees and Delawares, the Wacos and the Tahuanacos.

Ford's scouts discovered a Comanche encampment in the vicinity of the Fort Smith-Santa Fe "bull wagon" road where it topped the Washita-Canadian divide. The battle began about 7 a.m. and was ing Comanches fled northward, over by 1 p.m. when the remain-

A SURPRISING AND little known fact about the Tonkawas is revealed by Hughes:

"As the Rangers again plodded through the debris of Iron Jacket's shattered village, commenting on the piles of gorgeously beaded buffalo robes, the bales of dried meat, and the heaped containers of corn-meal, salt and coffee obtained by the Comancheros, Ford was astonished to notice that among the bodies of the Comanche braves there were some which lacked hands and feet."

The reason soon became clear for "The missing extremities dangled from Tonkawa saddle bows; those wolfish people were planning a victory feast."

The battle came just in time, for one of the prisoners revealed that the Comanches were drying and packing meat for use on a campaign against the settlers and reservation tribes, Hughes said.

Ford's official report tells the true value of the expedition: "INDIANS CAN be pursued and caught in the Buffalo region — the country beyond the Red River can be penetrated and held by white men, and the Comanches can be followed, overtaken and beaten, provided the pursuers will be laborious, vigilant, and are willing to undergo privation."

The result was that the War Department changed its policy from a defensive concept to one of attack, Hughes said. After the Civil War, Army commanders like Van Dorn, Custer, Miles, Mackenzie and Crook led the long blue files into the heartland of the nomadic foe.

An example set for them, Hughes writes, "in the spring of 1858 by a hundred youthful Texans led by 'Old Rip' Ford."

bennett

The Idealist

Those young ladies, whose modesty prevented their signing the letter they recently sent us, will be delighted to hear that one of the courses they suggested for male scholars is already offered.

Dr. Ruggs, over in the math department, reportedly recognized his own statistics course in:

"CALCULATION OF Odds: A general study used in betting on horse races, football games, etc.; also how to estimate your chances in winning poker hands, crap games, etc."

Wonderful! Now girls, you can all urge your boy friends to take it.

The jukebox serenaded the customers during breakfast at the beaunity this morning.

THERE IS undoubtedly a proper time for rock-n-roll music. If things were thus ordered, we could probably arrange our schedule as to miss the bulk of the

performances. Time was when the experts were predicting this jolting type of composition would die down.

OF COURSE, devotees would still be able to pilgrimage to hear it in a few lingering favored spots, like Italian opera, snake charming and seven-day-bike-racing.

But it clings to life with a thousand critical daggers protruding from its body. Damned in every pulpit, harried by hundreds of sociological studies, its idiotic beat confines heedlessly.

STILL WE HAVE little sympathy with those who laugh at it while loading their record players with Bartok, Hindemith, Berg and associates in disharmony.

A thorough study of rock-n-roll, conducted during a period when our subscription to *Playboy* had lapsed, has led us to conclude that it is founded on mistaken logic:

All music is noise so someone has assumed all noise is music,

Placement Interviews Include Engineering, Business, A&S

Interviews listed below for this and next week afford opportunities to June and August graduates in Engineering, Business Administration and Arts and Science Schools. All companies urge men to schedule appointments regardless of military status. Additional information is on file in the Placement Office on the campuses.

Majors: CIVIL ENGINEERING, ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING, MATHEMATICS (Advanced Degrees), PHYSICS (Advanced Degrees).

Organization: CHANCE VOUCHER AIRCRAFT INC., Dallas.

Date of Interviews: Monday and Tuesday, Feb. 17 and 18.

Opportunities for assignment in propulsion, design, operations, aerodynamics, structures, electronics, development and flight test. Additional information is on file.

Majors: CHEMICAL ENGINEERING, MECHANICAL ENGINEERING, PETROLEUM ENGINEERING.

Organization: THE TEXAS CO., 135 East 42nd Street, New York 17, N.Y.

Date of Interviews: Monday, Feb. 17.

This department is responsible for foreign marketing, producing, and refining in the Western Hemisphere and West Africa. They have assignments in Columbia, Venezuela or Peru. Persons newly employed enter a new 1-year training program. A knowledge of Spanish would be desirable. Additional information is on file.

Majors: ACCOUNTING, MARKETING, MANAGEMENT, FINANCE, ECONOMICS (and others interested).

Organization: MONTGOMERY WARD, Fort Worth 1, Tex.

Date of Interviews: Monday, Feb. 17.

Men who are interested in merchandising operations with this company may secure additional details from the Placement Office. Occasional openings for women graduates.

Majors: IE, ME, BA (for Internal Auditors).

Organization: OIL WELL SUPPLY DIVISION, United States Steel Corp., P.O. Box 478, Dallas 1, Tex.

Date of Interviews: Tuesday and Wednesday, Feb. 18 and 19.

Major and Position: INDUSTRIAL ENGINEERING (1 to 2 year training period); MECHANICAL ENGINEERING — Sales Engineer trainee (6-12 month training period); Design Engineer trainee; BUSINESS ADMINISTRATION (All Majors) — Internal Auditor.

talk to men who are interested in the position at Appleton, Michigan. There are openings in numerous phases of the operations carried on in the chemical industry, including research development, design, engineering, production, maintenance, staff positions and the technical training program.

Majors: ELECTRICAL ENGINEERING, MECHANICAL ENGINEERING.

Organization: DALLAS POWER & LIGHT CO., Dallas, Tex.

Date of Interviews: Wednesday, Feb. 19.

This organization has two plants which serve the Dallas area. There are opportunities for engineers in the plant department, in the distribution department, in the engineering department, and in the commercial department. In the engineering department, the company's electrical production and distribution system is planned and designed. Additional information is on file.

Organization: BELL TELEPHONE COMPANY.

Date of Interviews: Thursday and Friday, Feb. 20 and 21.

Majors: EE, VE, ME, CE, Physics & Mathematics, Business Administration, Arts & Sciences.

Positions: Technical Operations, Business Administration, Arts and Sciences.

Positions: Business Operations, EE, ME, IE, Arts & Sciences (A.S. Degrees). **Positions:** Engineering Development and Research.

Business Administration Positions: Accounting and Statistics.

Additional information is on file.

Majors: CHEMICAL ENGINEERING, CIVIL ENGINEERING, EE, IE, ME.

Majors: IN A&S (with 6 hrs of math and physics). Bachelors' and Masters' degrees.

Organization: THE TRANE CO., La Crosse, Wis.

Date of Interview: Friday, Feb. 21.

Positions Available: 1) Product Engineering and Research: For research in fields of thermodynamics, heat transfer and fluid flow. Positions, also, in the design and development group for men with background in heat transfer and machine design.

2) Industrial Engineering or Production: Opportunities in factory administration. The training program includes such subjects as time and motion study, material control, scheduling and factory layout.

3) Opportunities of other types available in engineering.

4) Technical sales: a) Home Office Sales: For graduates interested in sales management; would plan sales programs, present new ideas for product development, improvements and other responsibilities. b) Sales Engineer: For graduates interested in technical selling of air conditioning, heating, ventilating, refrigeration and special heat transfer products.

Majors: ELECTRICAL ENGINEERING, INDUSTRIAL ENGINEERING, MECHANICAL ENGINEERING.

Organization: ALLIS-CHALMERS MANUFACTURING CO., 831 Amarillo Building, Amarillo, Tex.

Date of Interviews: Friday, Feb. 21.

Interviews are for positions with the Industries Group plants. There are a few assignments in foreign locations. Allis-Chalmers products electrical equipment, are mining and refining, and chemical processing equipment. There are opportunities in research, production, design and in sales. There is a company training program before assignment to a permanent position.

"Penny" Night Next Tuesday

Tech coeds may stay out an hour later than usual Tuesday night provided they are willing to pay a penny a minute for that privilege.

The occasion is "penny-a-minute night" sponsored by AWS. Tuesday night has been set since the Tech-Texas basketball game will conflict with regular dorm closing hours.

Freshmen, sophomores and juniors may stay out until 11 p.m., seniors may remain out until 12 p.m.

Proceeds from "penny-a-minute night" go to AWS for activities throughout the year.

Selections Begun By Mortar Board

Senior women's Mortar Board has begun selection of 1958-59 members.

Membership in the national honorary service organization is based on scholarship, leadership and service. Women must be in residence one full year at Texas Tech and have a grade average of 1.80.

Information on eligible women should be sent to Beth van Maanen, Box 259, Weeks Hall, Campus, by Feb. 15.

The tapping ceremony for new members will be in April.

Plumlee to Attend National Air Meet

Leroy Plumlee, freshman from Cleburne, has been named official delegate to the 3rd National Conclave of Sabre Air Command. Bill Holmes, freshman from Lubbock, was named alternate.

Plumlee will represent the local detachment in San Francisco, April 1-6 at a joint meeting of the National Arnold Air Society, Sabre Air Command, and Angel Flight. He will fly to San Francisco via Air Force air lifts.

Andres Elected

Melvin Andres, senior from Albany, has been elected president of the Tech Accounting Society for the Spring Semester.

Other officers are Bob Ratliff, vice president; Sue Horton, secretary-treasurer; and Norman Dreyer, reporter. Glenn Reynolds has been named BSO representative.

DISCUSSING PLANS for Religious Emphasis Week is the Worship Committee. Left to right, committee members are Gaylor Pool, Barbara Barkley and James Brewer. Religious Emphasis Week will be observed March 3-6.

Top Speakers, Programs Highlight Religious Emphasis Week March 3-6

Religious Emphasis Week, March 3-6, again brings top speakers to the Texas Tech campus.

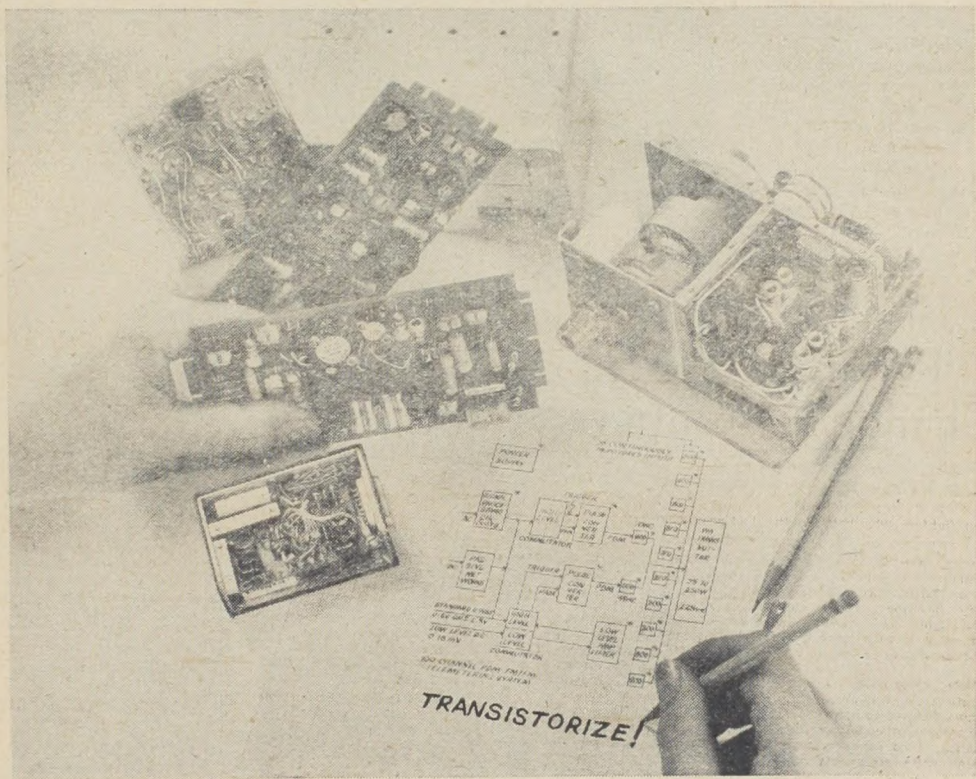

Main speaker during the week will be Dr. John Newport, professor of Religion Philosophy at Southern Seminary in Fort Worth. Dr. Newport has a Ph.D. from Edinburgh.

JACK WARD BATES, Lubbock Christian College dean, will also speak. Bates has a doctorate in history and a minor in education from the University of Southern California. He was a major and chaplain in World War II. Sheldon Hermanson, chaplain at Craig Air Force Base, Alabama, is scheduled to speak. He has a B.A. from Luther and a C.T. from

Luther Theological Seminary.

ALSO SPEAKING will be Morris Bratton, the University of Texas director of Wesley Bible Chair and Foundation. Bratton has a B.S. in organic chemistry from Southwestern University. He had four years of college football and served three years active duty in U.S. Naval Research. He also instructs Bible classes at the University.

Other speakers include W. F. Howard, Department of Student Work director for the Texas Baptist General Convention, and Thomas R. Miller, Rector of St. Christopher's Episcopal Church. Rev. Miller has a B.S. from Florida and a B.D. from Southwest Episcopal Seminary at Austin.

you can help missiles 'think' better!

Missiles are mental projectiles... "projections," actually, from your mind to paper to components to systems to complete weapons. And missile design demands our best effort to get top performance and maximum efficiency. Here's your chance to educate our missiles, applying latest techniques and newest devices in plants equipped to build components and complete systems without sub-contracting... telemetering, infrared, radar, sonar and many other systems from research through development to manufacturing.

The TI-transistorized telemetering system shown above, in this case more a "talker" than a "thinker," provides four times the radiated power in a smaller, lighter package than comparable vacuum tube systems. Not "frozen" to old design standards, it is almost completely transistorized and is completely electronic with no moving parts... a typical example of TI's policy of advanced systems engineering.

At Texas Instruments—in research, development, design, and manufacture—you will push out beyond existing limitations into new concepts and new products. You can choose from dynamic fields such as electronics, missile control and detection, infrared optics, semiconductor behavior, high speed data reduction, and many others. At TI, this pioneering approach has been so successful the company has grown 20-fold in the last 10 years to a current \$70 million volume... a growth accelerated by recognition of individual achievement... a growth you can share.

openings

ELECTRONIC AND ELECTROMECHANICAL APPARATUS—Radar, sonar, infrared, navigation, magnetics, telemetering, communications, computers, transformers.

SEMICONDUCTORS AND OTHER COMPONENTS—Transistors, diodes, rectifiers, resistors, and panel instruments.

RESEARCH—Ph.D. level for research: semiconductor materials and devices, noise, surface, ferromagnetics, infrared, microwaves, magnetics, radiation damage, high speed data reduction, etc.

MANUFACTURING—Engineers for production, planning, purchasing, cost analysis, etc.

invitation

Hitch your wagon to the Texas star... work at a plant within the city but away from downtown traffic... live within 15 minutes of your work or your play... year-around recreational, amusement and cultural activities. A Texas Instruments representative will be on the campus in a few days to give you more details. You may contact the placement office or write—

Myers-led Raiders Back in SWC Fight

by RON CALHOUN

Texas Tech's Red Raiders, by virtue of their 74-72 victory over Baylor's winless but dangerous Bears Tuesday night, jumped back into the thick of the jumbled SWC basketball race and set up a feature match against Arkansas Saturday night.

The Raiders proved they are far from out of the race as they broke a slump which has plagued them for the last two or three games, showing great incentive in beating the fired-up Bears and proving they still have the guns to take the title.

TECH LED Baylor by a comfortable margin of seven points at the half but the Bears came storming back in the last half to give the Raiders the fight of their lives. In the last ten seconds, Gerald Myers dribbled through the entire Baylor team to score the winning points.

Myers, who has not been at his greatest lately, played a terrific game, scoring 29 points. He was fouled making the last-second basket and sank the free throw, the 11th of 12 tries for the game.

The free-throw missed was his third in SWC competition. Myers leads the SWC in free throws. The Borger junior scored 13 points in the first half and matched Baylor's fire in the last half by scoring 16.

CHARLEY LYNCH was the only other double-figure man for the Raiders. He dumped in 15 big points and turned in a great floor game.

Pat Noakes, who had been out of the line-up with an injury since the TCU game, was back

in action and playing well until he fouled out with ten minutes remaining.

The Raiders had a great night as far as accuracy was concerned. They sank 20 of 26 free throws, getting 17 out of 20 in the last half. The field goal average left nothing to be desired as they hit 60 per cent in the first half and 75 per cent in the last half.

THE VICTORY, plus SMU's de-

feat at the hands of conference leader Arkansas has set the stage for a battle royal at the Lubbock Coliseum Saturday night, between the Raiders and Arkansas.

Wednesday's standings had Arkansas in the conference lead with SMU and Rice trailing by only one game. Tech was behind a game and a half.

Tuesday night Arkansas edged SMU at Fayetteville to knock

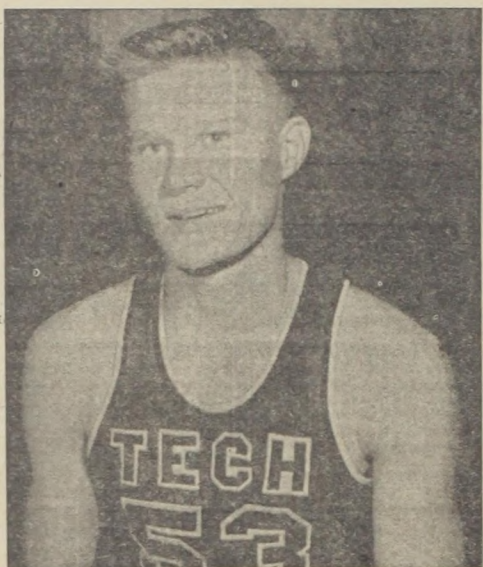

the Ponies into a third place tie with Tech. Rice beat A&M to remain in the second spot, a game behind.

A VICTORY for Tech Saturday night would put them in a position for at least a share of the title, that is, barring upsets.

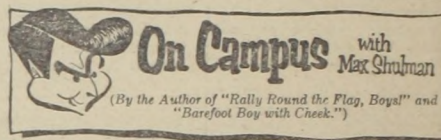

The eagerly-awaited game has been sold out for about three weeks, and from all reports it should mark the third time this

season that Tech will set a conference attendance record. The should be around 10,500 avid Raider fans that will be looking for an upset — a Tech win.

The standings as of Wed., Feb. 12:	
Arkansas	7
Rice	6
Texas Tech	5
SMU	4
Texas A&M	3
Texas U.	2
TCU	1
Baylor	0

GERALD MYERS

THE PLEDGE YOU SAVE MAY BE YOUR OWN

Today's column is directed at those young female undergraduates who have recently pledged sororities and are worried, poor lambs, that they won't make good. Following is a list of simple instructions which, if faithfully observed, will positively guarantee that you will be a mad success as a sorority girl.

First, let us take up the matter of housemothers. The housemother is your friend, your guide, your mentor. You must treat her with respect. When you wish to speak to her, address her as "Mother Sigafos" or "Ma'am." In no circumstances must you say, "Hey, fat lady."

Second, let us discuss laundry. Never hang your wash on the front porch of the sorority house. This is unsightly and shows a want of breeding. Use the Chapter Room.

Third, meals. Always remember that planning and preparing meals for a houseful of healthy girls is no simple task. Your cook goes to a great deal of trouble to make your menu varied and nourishing. The least you can do is show your appreciation. Don't just devour your food; praise it. Exclaim with delight, "What delicious pork jowls!" or "What a yummy soupbone!" or "What scrumptious fish heads!" or "What clear water!"

Fourth, clothing. Never forget that your appearance reflects not just on yourself but on the whole house. It was well enough before you joined a sorority to lounge around campus in your old middy blouse and gym bloomers, but now you must take great pains to dress in a manner which excites admiring comments from all who observe you. A few years ago, for example, there was a Chi Omega named Camille Atatürk at the University of Iowa who brought glory to all her sorors.

Camille hit on the ingenious notion of suiting her garb to the class she was attending. For instance, to English Lit she wore a buskin and jerkin. To German she wore lederhosen and carried a stein of pilsener. To Econ she wore 120 yards of ticker tape. Her shiningest hour came one day when she dressed as a white mouse for Psych Lab. Not only her Chi Omega sisters, but the entire student body went into deep mourning when she was killed by the janitor's cat.

Finally, let us take up the most important topic of all. I refer, of course, to dating.

As we have seen, the way you dress reflects on your sorority, but the men you date reflect even more. Be absolutely certain that your date is an acceptable fellow. Don't beat about the bush; ask him point-blank, "Are you an acceptable fellow?" Unless he replies, "Yeah, hey," send him packing.

But don't just take his word that he is acceptable. Inspect him closely. Are his fingernails clean? Is his black leather jacket freshly oiled? Is his ukulele in tune? Does he carry public liability insurance? And, most significant of all, does he smoke Marlboros?

If he's a Marlboro man, you know he's a lot of man. You know he has taste and discernment, wit and wisdom, character and sapience, decency and warmth, presence and poise, talent and grit, filter and flavor. You will be proud of him, your sorority will be proud of him, the makers of Marlboro will be proud of him, and I will be paid for this column.

The makers of Marlboro wish to announce that Mr. Shulman has been paid for this column and will continue to be paid for bringing you his homely philosophy throughout the school year.

WE ARE LOOKING FOR ADAPTABLE, RESOURCEFUL INDIVIDUALS—NOT JUST FOR HONOR STUDENTS. SOME NOBELPRIZE WINNERS MIGHT FEEL COMPLETELY UNHAPPY AT AN OILWELL!

Berry's Long Put Score Big Upset

PUTTER, Fla. Feb. 12 (U.P.)—A big upset as the Billy Watts of Fort Lauderdale defeated Barbara McLean and Dick Chapman 3 and 2 in the second round of the National Mixed Foursomes Golf Tournament.

The Quincy, Ill., golfer, a 30-foot putter, defeated champion Anne Fennell of Columbus, Ohio, Jack Fennell of Miami defeated Mrs. O'Brien of Richmond, Va., and Joseph McBride of New York, N.J., 4 and 3. Modestine Joanne Goodwin of Philadelphia scored 5 and 4 victory over Grant Messenger of Denton, Texas, and Jones of Dallas.

The tournament is being played at the Torquata Club course.

OUTLOOK

— bill dean

The meeting of the Tech Board of Directors this coming weekend could have a good deal to do with the athletic set-up here for the next several years.

It has been rumored that the board is prepared to offer Coach DeWitt Weaver a two-year extension of his contract that will run out at the end of the next football season.

This action would assure Weaver of being head coach when the Raiders formally open in the Southwest Conference.

It would also give him an assured tenure here of 10 years tying a record of Pete Cawthon who was here from 1930-1940.

Since he came to Tech in 1951 Weaver has won 39, lost 32 and tied four times.

In five Border Conference campaigns under Weaver, the Raiders took four championships and a runner-up spot with a record of 19-1-2.

Weaver's 1953 team won the national scoring title, held a 10-1 record and defeated Auburn 35-13 in the Jan. 1, 1954, Gator Bowl.

However, since 1956 Weaver's teams have won but four games, losing 15 and tying one.

This past season (2-8) was the worst the Raiders have ever experienced.

There have been many disgruntled alumni, fans and students most unhappy with Weaver's work the past couple of seasons, but the board apparently feels a sense of obligation to him for his efforts to help Tech obtain SWC membership. Time will tell.

Tech's thrilling last-second victory over Baylor Tuesday night combined with Arkansas' triumph over SMU has set the stage for a real showdown here Saturday night when the Porks arrive in town.

Arkansas will come here in the lead and the Raiders could really scramble the entire picture. It should prove to be interesting to the 10,000-plus fans who will probably set another attendance record.

Better come early.

25% of Baseballers Are Wage Holdouts

by THE ASSOCIATED PRESS

Twenty-five per cent of the players on major league baseball rosters, including National League home run king Hank Aaron, World Series hero Lew Burdette and New York Yankee star Micky Mantle, have yet to sign contracts for the 1958 season.

This was shown today in an Associated Press survey. The actual total of unsigned players is 158. The Boston Red Sox lead the pack with 19 unsigned, followed by Milwaukee's champion Braves with 18.

THE BETTER KNOWN players unsigned are Roy Sievers of Washington, Billy Pierce of the Chicago White Sox, Harvey Kuenn of Detroit, Whitey Ford and Bill Skowron of the Yanks, Ed Bailey of Cincinnati, Johnny Antonelli of the San Francisco Giants and Ed Mathews of the Braves.

The St. Louis Cards have signed all of their players but the others still have a lot of negotiating yet. March 1st is the official date that spring training starts.

Sievers, Aaron, and Antonelli are among those who have publicly announced dissatisfaction with the contracts offered them.

SIEVERS, the American League home run leader, has asked that his salary be doubled. He received around \$19,000 last season. He has been offered no more than \$30,000.

Aaron, who had 44 homers and 114 runs-batted-in coupled with a .322 batting average, has reported "the Braves and I are far apart."

Antonelli, an 18-game loser, is hunking a sizeable cut. He received an estimated \$35,000 last year.

MANTLE, who won the American League's most valuable player award for the second straight year, has had one salary talk with the Yankees' front office. He is asking \$75,000 this year.

Burdette has been too busy on the winter banquet circuit to say much about his contract. He is reportedly asking for a \$10,000 boost to \$45,000.

SHOWN ABOVE ARE THE WINNERS in the intramural bowling tournament. Members of the victorious bowling team, Alpha Tau Omega, are, left to right, Bob Butler, Richard Allen and Dan Addison. Kneeling is the singles champion, Jerry Cooper. Jimmy Johnson of Alpha Tau Omega is not shown. (Staff Photo)

Berry's Long Putts Score Big Upset

JUPITER, Fla., Feb. 12 (AP)—Jan Berry's sparkling putting brought a big upset as she and Billy Watts of Fort Lauderdale teamed to defeat Barbara McInire and Dick Chapman 3 and 2 in the second round of the National Mixed Foursomes Golf Tournament.

The Quincy, Ill., golfer sank three 30-foot putts. Defending champion Anne Richardson of Columbus, Ohio, and Jack Penrose of Miami defeated Mrs. Don O'Brien of Richmond, Va., and Joseph McBride of Paterson, N.J., 4 and 3.

Medalists Joanne Goodwin of Iverhill, Mass., and James McInale of Philadelphia scored an easy 5 and 4 victory over Mrs. Grant Messenger of Denton, and Frank Jones of Dallas.

The tournament is being played over the Tequesta Club course.

Name ADDRESS

Men in the know know true from false

College grads over forty suffer from a decline in their earning power.

☐ TRUE ☐ FALSE

False. In fact the older they get the more money they earn. Statistics show that the average man's earning power declines rapidly after he reaches 45. The college grad's income is still going sharply up at this point.

College educated men tend to be bachelors to a greater degree than average American males.

☐ TRUE ☐ FALSE

False. Recent studies show that Mr. College Grad is no longer avoiding the marriage license bureau the way he used to. In fact statistics now indicate that having a college degree actually lessens the probability of a man leading the bachelor life.

Jockey brand is America's best known brand of men's underwear.

☐ TRUE ☐ FALSE

True. Independent surveys prove that Jockey is not only the best known underwear in the U.S. but also in 98 countries around the world. Just shows how universally men value comfort and fit.

Men on the go go for Jockey underwear

made only by **Coopers**

JUDY LONG AND BILL LEWIS, two cast members are rehearsing for the music department's presentation, "Like You Like It." The presentation is scheduled for Sunday and Monday in the auditorium. Its purpose is to raise money for the choir's appearance on the Ed Sullivan Show.

Tech Choir Ready; Show Opens Sunday

Whether you're of the people, by the people or for the people—you'll like "Like You Like It".

The Texas Tech Choir musical will be staged Sunday at 3:15 p.m. in Lubbock Municipal Auditorium, with a repeat performance at 8 p.m. Monday.

Under the direction of Dr. Gene

Hemmle and Charles Lawrie, the show will feature student and professional dancers who will enact songs by the choir (See picture, page 8).

TWO VOCAL quartets, the Merrimads and the Impressions, will be introduced. John Gilbert, junior music major, has done many of the arrangements. Two exhibition dance teams will appear on the show.

All the choreography has been designed by Miss Jane Perry, Tech modern dance instructor. The Tech Square Dance Club, with fiddler Duke Baker will also be featured in a number.

TICKETS AT \$1 are available from any member of the Lubbock Music Club, Allegro Music Club or the Music Appreciation Club.

Proceeds from the show will help send the Choir to New York to appear on the Ed Sullivan program. From "Like You Like It", Ed Sullivan will select numbers to appear on his coast-to-coast telecast.

Dames to Decide Who'll Be King

Boys, how would you like to be king? If you would, attend Dame's Ball on March 1, in the Fairpark Coliseum.

Dame's Ball, sponsored by Mortar Board, is a formal dance honoring all "dames." All men's organizations are asked to submit king candidates to Donna Abraham, Box 3, Horn Hall, by Feb. 19. Candidates will be narrowed to five in the old Rec Hall on Feb. 23, at 3 p.m. Campaigns will be permitted by the organizations for candidates.

Candidates will be judged on physical appearance, audience applause and sex appeal. The ladies will make the final selection.

The contest will be conducted as a beauty contest, including measurements of chest and muscles.

Tickets for Dame's Ball are \$2 a couple. Profits will provide a Mortar Board scholarship.

Hubby to Be Guest Of Newcomers Club

Texas Tech Newcomers Club members will entertain their husbands at a Valentine Party Friday at 8 p.m. in the Faculty Club lounge.

Duniap's department store is providing two gift certificates as grand prizes for the evening's entertainment, which includes game and dancing.

The club is open to faculty and staff women for the first three years of their campus membership.

Other committees are decorations, Mesdames S. D. Foreman, chairman; Ray Billingsley, Nola Henson, C. H. Kehoe and W. C. McMin; and refreshments, Mrs. Nelson Longley.
