No. 147

Largest Budget Ever Submitted For Study By College Officials

Texas Tech's largest budget ever—one calling for \$22 million in 1968 and \$25 million in 1969—is undergoing close scrutiny in Austin following its submission by Tech Directors and administrators.

College officials and Directors spent Monday and Tuesday in the capitol attending to a variety of College affairs. In addition to submitting the budget Monday morning, Directors also conducted a special board meeting and attended bid openings on Constitutional Amendment bonds.

Tech representatives appeared before the staffs of the Legislative Budget Board, the Governor's Budget Office and the Coordinating Board of the Texas College and University System.

The proposed 1968-69 budget calls for \$22,601,747 from general revenue the first year and \$25,235,773 the second, compared with \$10,408,139 for the fiscal year beginning this Sept. 1.

"In competition for top-notch people—that's one area where we are seriously deficient," President R. C. Goodwin told the budget hearing in explaining Tech's request for increased faculty salaries.

Formula Areas

The bulk of the request is contained in the seven formula areas designated by the Coordinating Board for Texas' 22 state-supported schools.

Formula areas include general administration and student services, faculty salaries, departmental operating expenses, library, organized research, building maintenance and custodial services.

Requests are based on an anticipated enrollment of 22,072 in 1968 and 24,850 in 1969. This fall's enrollment is pegged at 19,200.

On Tuesday, Tech Directors received and approved a bid by

Underwood Neuhaus and Company of Houston on \$1.5 million in bonds. Issuance of the bonds was authorized by voters with the passage of the Constitutional Building amendment last fall.

Depts. Separate

The Board, in its Monday afternoon special session, approved a request to separate the Department of Agronomy and Range Management into two departments—the Department of Agronomy and the Department of Range and Wildlife Management. The request will be made to the Coordination Board.

Tech administrators and all Board members, with the exception of Dr. Fladger F. Tannery of Dallas, who is out of the country, were in Austin for the special session.

2nd Term Enrollment Record Set

Total enrollment for the second summer session is 4,976, according to Evelyn Clewell, assistant registrar.

This is a 627 increase over the 1965 second summer session enrollment of 4,349.

Breakdown according to schools is 341 in Agriculture; 2,591 in Arts and Sciences; 1,179 in Business Administration; 577 in Engineering; 288 in Home Economics; and 1,060 enrolled in the Graduate School.

There are 3,081 men and 1,895 women enrolled in the summer term which began July 13 and will end with finals Aug. 16 and 17. Commencement exercises for the summer will be Aug. 20. Final figures for the first session this summer were 7,216.

ALL TOGETHER!—Tommy Taylor, member of the National Cheerleader Association and instructor at Tech's annual cheerleader school, gives Quannah School cheerleaders pointers on together-

ness. There are 621 high school and junior high students on campus for the clinic which ends today.

Susan Kay Logan Prepares For Miss America Pageant

by JIM JONES

Her blue eyes sparkling with enthusiasm, Susan Kay Logan spent a busy two days in Lubbock Monday and Tuesday trying to relate to reporters and friends the excitement and tension she felt at being named Miss Texas of 1966.

In an interview with the Toreador Monday afternoon, Miss Logan, a sophomore drama major at Tech, said there was no way to describe her feelings when Maria Beale Fletcher, the 1962 Miss America, called her name as winner of the Miss Texas crown.

"Everything I say seems to sound so trite, I was so tired and it all seemed like a dream. I think I finally realized what had happened when I got to the end of the ramp and saw some of my friends and family in the audience crying."

Miss Logan said when she arrived in Fort Worth at the beginning of the pageant, "I had never seen so many beautiful and talented girls at one time. My hopes of winning began to dim."

"Thursday night when I won the swimsuit competition, I started to tell myself, 'Don't give up yet, just keep going, keep trying.'"

Room Reservations

Any student who signed a room contract for the fall semester, but will not enroll in the fall, should notify the office of room reservations before July 31 to receive a refund on his room deposit.

Miss Logan said the swimsuit competition was the one she felt would give the most trouble. "I never even thought about winning that part so I was very surprised when they called my name Thursday night," she said.

As the field of beauties was narrowed, Miss Logan said she began to single out girls she thought might win. "When it got down to the top ten, I thought Miss Fort Worth had it. She had such a wonderful personality and the crowd seemed to like her so much."

Miss Logan was to leave for Fort Worth from San Angelo, her hometown, today where she will spend the next six weeks preparing her wardrobe and practicing her talent for the Miss America contest in Atlantic City, N.J., the week of September 5.

"There is one thing I will take time out for though," said Miss Logan. "My sister planned her wedding first and I am still going to be a bridesmaid."

Sara Logan, a 1966 Tech graduate, is getting married on Aug. 27 in San Angelo.

Miss Logan said she was not sure if she would do the same dramatic scene for the Miss America contest. She did an interpretation of Scarlett O'Hara from "Gone with the Wind" in the talent portion of the contest.

"I hope I will be able to do the same scene. Scarlett is my favorite literary character and I especially like the scene I did in which she eats the rotten radish," the stately blonde said.

"So far the best part has been coming back to Lubbock. I was so excited about seeing everyone at the airport, Denise was there

with some of my sorority sisters," Miss Logan related. Denise Humphries, Lubbock sophomore, was Miss Logan's roommate during the past year and is also a member of Delta Delta Delta sorority of which Miss Logan is a member.

"When we drove by Tech I nearly cried. I hate so much to miss school this fall and perhaps next spring too. There will be personal appearances to make all over Texas, so I won't be able to stay in school."

Do the personal appearances make the new Miss Texas nervous? "Not at all," laughed Miss Logan. "I love meeting people and being able to talk and get to know them. Even as Miss Lubbock, I made several appearances and people were always so warm and friendly."

Along with the Miss Texas crown, Miss Logan will receive a \$1,100 scholarship, a \$1,000 wardrobe, a Casa Manana musicals contract and other prizes.

Before the Miss Texas pageant, Miss Logan said she just hoped she would get in the top ten so she would do her talent competition on state-wide television.

"I never dreamed I would make the top ten, much less be the winner," she said.

And during Monday afternoon's interview, Susan never mentioned the possibility of being the 1966 Miss America. But there are many people who have no doubt they know who will win in Atlantic City on Sept. 10 and it just might be a 5-foot-9 blonde who has a fondness for Scarlett O'Hara.

The Toreador, official student newspaper of Texas Technological College, Texas, is regularly published weekly on Friday's during the summer.
 The Toreador is financed by a student matriculation fee, advertising and subscriptions.

From Tom Stover

Loan Forms Now Available

Tech students who wish to apply for 1966-67 loans under the recently-inaugurated Texas Opportunity Plan are being urged to submit their applications as soon as possible.

Application forms may be obtained by writing or calling Tech Loan Officer Thomas P. Stover, office of the dean of student life, Administration Building, PO2-88-11, Ext. 2214.

Promptness is important since approximately 45 days are required for processing applications, Stover said.

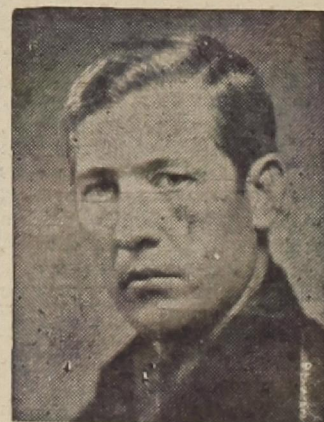

To qualify for a loan a student must be a resident of Texas, show proof that he cannot finance his college education, be accepted for admission or enrolled in good standing at Tech and be recommended by at least two reputable residents of his hometown. Entering freshmen and transfer students are eligible if they have been officially admitted by the college.

There is no minimum grade point average requirement, Stover said. Maximum loans, based upon need, are not to exceed \$1,000 per academic year and a \$5,000 total for undergraduate students, or \$1,500 per academic year and \$7,500 for graduate and professional students. Summer session loans may not exceed one-third of the amount approved for the academic year.

Borrowers are required to enroll for at least one-half the normal full academic load. One-half of Tech's normal full-time load is considered to be not fewer than eight resident hours per semester or not fewer than three resident hours per summer term. Graduate or professional students must be making satisfactory progress toward the completion of their educational programs in addition to the one-half normal load requirements.

Thursday, Aug. 4

The final Noon Forum will have Dr. J. Wilkes Berry, assistant professor of English, speaking on "Mad Jack' Donne and his Ele-

gies." Anyone wishing to eat at the Thursday forum may sign up in the Union by 5 p.m. Wednesday. The luncheons are \$1.

★ ★ ★

Friday, Aug. 5

The Friday Flick is "Five Weeks in a Balloon" starring Sir Cedric Hardwicke, Red Buttons, Fabian and Peter Lorre. The free movie will be shown in the Coronado Room at 8 p.m.

Oil Co. Awards Grant

Tech received an \$800 petroleum engineering scholarship from the Sun Oil Company, assistant dean of engineering Robert L. Newell announced.

Newell said that Johnny Neal Parker, a senior petroleum engineering major from Lubbock, would receive the scholarship.

Making the presentation to Tech were Sun Oil officials Robert A. Matteson, director of college relations, and Henry C. England Jr., manager of industrial relations.

Matteson said that as a large employer of scientific and professional personnel, his company recognizes its obligation "to encourage higher education, and is glad to have the opportunity to do so through a positive aid program."

College Museum Attracts Visitors From 27 Nations

by **KAYE TIPTON**
Managing Editor

From as far away as Holland and Loco Hill, N. Mex., visitors have come to the Tech campus to tour the West Texas Museum.

According to the guest register, representatives of Nicaragua, Australia, Germany and the Netherlands have come this month, and summer visitors from the 50 states and 27 countries have viewed the collections since June. The largest number of foreign visitors, other than Canada and Mexico, come from Japan.

Buses bringing groups to the Museum are familiar on the campus this summer.

Groups often come in busloads to the Museum. In the freshman registration program, 18 busloads, with 900 parents of entering freshmen, will stop at the Museum as part of their campus tour. The Museum is also a point of interest in the Operation Head Start program of the Lubbock and area schools.

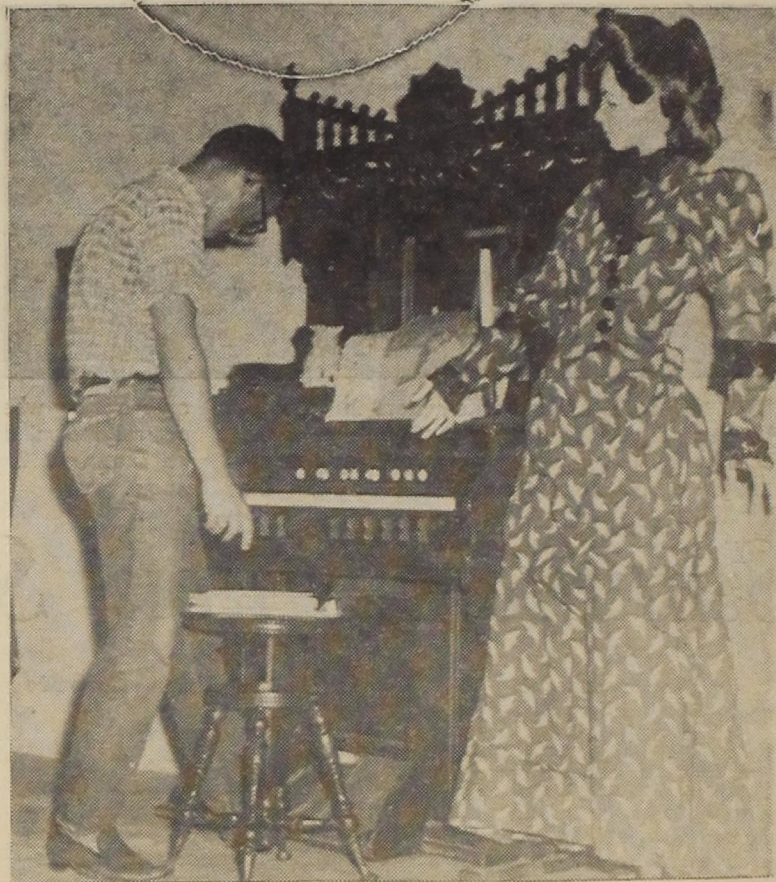

Anniversary Exhibit

Among the collections and exhibits is the Diamond Jubilee, commemorating Lubbock's 75th birthday. This authentic display contrasts the Lubbock of yesterday with the Lubbock of today. The exhibit will be shown through August.

The best-known attraction in the Museum is the Peter Hurd mural in the Rotunda depicting early days of the Lubbock and South Plains area.

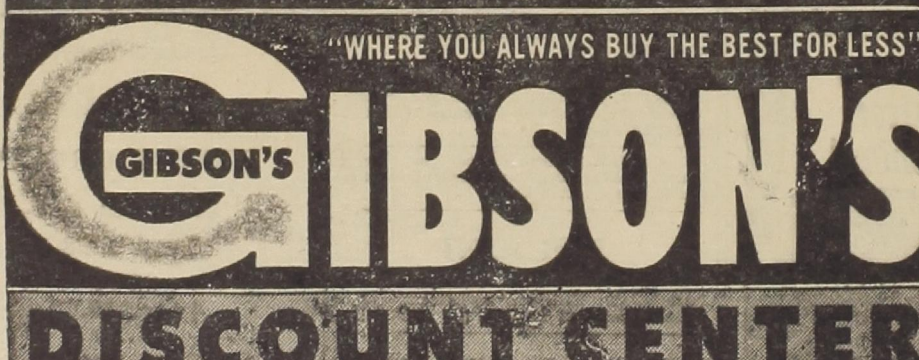

Almost always included on the agenda of official tours, the Museum has greeted such celebrities

in recent months as the Peruvian ambassador; National Maid of Cotton Nancy Bernard; author Elizabeth Borton de Trivino; Mdm. Chennault; movie producer Robert Radnitz; television actor Stephen Bolster; West Coast television personality Mary Dorr; former Miss America Donna Axum; artist Peter Hurd; and Dr. Grover Murray, Tech president-elect.

MUSEUM VISITOR—James Cook, junior, looks at an old organ which is part of the West Texas Museum's Diamond Jubilee Exhibit in commemoration of Lubbock's 75th Anniversary.
