

**LOOKING OVER THEIR HOMELANDS**—Five members of Tech's Cosmopolitan Club indicate the locations of their respective homelands on the globe. Left to right, they are: Alaor Altafin, Brazil; Martha Wanner, Switzerland; Agit Sanghui, India; Yung Myung Kim, Korea; and Habib Raiszadeh, Iran. The Club will play host to Texas Tech students and faculty and Lubbock townspeople at a "get acquainted" open house Tuesday at 8 p.m. at 2501 19th St., the home of Dr. and Mrs. William E. Hall.

**WILL REPORT ON STARS AND SCIENCE**

## Famed Astronomer To Talk

Latest knowledge about stars, and their possible relation to scientific progress will be reported tonight by Dr. Bengt Stromgren, famed astronomer.

Dr. Stromgren will bring the keynote address at the opening session of the second annual meeting of the Astronomical Society of the Southwest at 8 p.m. in the Tech Museum auditorium.

He is director of the University of Texas' McDonald Observatory, near Fort Davis, and the University of Chicago's Yerkes Observatory, Williams' Bay, Wis.

Professional and amateur astronomers from at least six states are expected for the meeting scheduled today and Saturday on the Tech campus.

"The key to atomic energy was first recognized in the stars, in the process by which their substance is transformed into heat and light," Dr. J. H. Rush, Tech physicist in charge of meeting

arrangements, pointed out. The sun and most other stars are prodigious "hydrogen bombs" in which the fusion of the hydrogen atoms into helium goes on

### Thespians Gather Tomorrow For High School Speech Meet

Students numbering approximately 250, representing 19 high schools, are expected to attend the annual Texas Tech Speech Meet tomorrow on campus, according to Leslie Davis, director of the meet.

Activities will begin at 8:30 a.m. with a general session in the Aggie Auditorium. At 9 a.m. junior and senior declamations will be held. Members of the speech faculty will be in charge.

Miss Helen Lindell will be in charge of the juniors and Miss Patti M. Grubb will head the senior group.

At 9:30, poetry reading and extemporaneous speaking will be held. Dr. Cecilia Thompson will be in charge of poetry reading and Miss Annah Joe Pendleton will head the extemporaneous speaking.

Ronald Schulz will be in charge of all one-act plays presented. They will begin at 9 a.m. and last through 5 p.m. All debates, directed by Prof. Davis, will commence at 9 a.m. and finish at 5 p.m.

At 12 noon a luncheon will be held in the Tech Union Ballroom for all participants in the meet. At this time all students winning honors in the individual events will be presented. At 5 p.m. another general assembly will be held in the Aggie Auditorium, and winners of one-act plays and debates will be announced.

Students from speech classes will assist in operation of the tournament and judging of events.

Anyone wishing to attend any activities of the meet will find a schedule of events posted in the Speech Building.

continually, he added. Dr. Rush said Dr. Stromgren's talk will include discussions of stars that may not be as old as the earth (a planet), how these stars and other types of stars possibly are formed, what determines their life histories, and what becomes of them when all their hydrogen fuel is used up. The knowledge may be of much practical value as the age of the atom and space travel unfolds.

The public is invited to attend Dr. Stromgren's lecture, Dr. Rush said. The famed astronomer will speak in a way everyone can understand, not in highly technical language and mathematical terms, Dr. Rush added.

Dr. Stromgren has been honored for many outstanding scientific discoveries during a long career in astronomical research.

### Tow-Away System Goes Into Effect

Effective Thursday, a tow-away system for cars violating traffic regulations will be enforced.

Any student or staff member violating any rule or regulation concerning parking on the campus will be subject to having his vehicle towed away and impounded, according to a statement from the Traffic Committee. A vehicle is subject to being impounded if it is unlawfully parked in a restricted area, in a loading zone, in a driveway, on a street, or on the turf, the committee said.

Any vehicle thus impounded may be recovered by contacting the Traffic Office between the hours of 1 and 5 p.m. The Traffic Office is located in the Aggie Pavilion. A recovery fee of \$3 will be charged, plus 50 cents storage charge for each additional day that the vehicle is impounded.

The towing company will be responsible for damages to the vehicle but will not be responsible for loss of or damage to the contents of the vehicle.

# Honor Roll Lists 352 Techsans

Thirty-five Tech students achieved a straight "A" average during the fall semester, Registrar W. P. Clements announced today. Seniors led the field with 16 straight "A" students; freshmen were second with eight; juniors were third with seven; and sophomores had four. By divisions, Arts and Sciences, 15; Business Administration, 8; Agriculture, 6;

Engineering, 5; and Home Economics, 1.

Three hundred and fifty-two Techsans were listed on the fall semester Honor Roll.

The list contains the names of students enrolled for 12 semester hours or more during the fall semester who ranked in the upper five per cent of their division.

Students making all "A's" included Amarillo—Dianne Thomas, Arts & Sciences senior, Dean Bob Pavillard, Agriculture sophomore; Borger — Peter Snow, Arts & Sciences freshman; Breckenridge — Don Pendleton, Agriculture junior; Brownfield—Richard Ridgway, Agriculture senior; Crystal City—Mary Knickerbocker, Arts and Sciences junior; Dumas — Delmo Maurer, Business Administration sophomore; Dimmitt — Ray Joe Riley, Agriculture senior.

Fritch—Delmo Risley, Business Administration sophomore; Blooming Grove—Lloyd Simpson, Agriculture senior; Littlefield—Turner Jacobs, Business Administration senior; Levelland—Grace Wheeler, Arts and Sciences freshman, Derry D. Harding, Arts and Sciences sophomore; Knapp—Ellis Huddleston, Agriculture senior; Fort Worth — Jerry J. Lobdill, Engineering freshman; Munday — Millie Smith, Arts and Sciences senior; Plainview—Alvin Gregg, Arts and Sciences senior.

Lubbock — Ernestine Dobbins, A&S senior; Royal M. Hagerty, A&S senior; Paula J. Hudgins, A&S freshman; Nancy Kainner, A&S junior; Zoe Kirkpatrick, A&S senior; Pat Patrick, A&S freshman; Kathryn Sharp, A&S senior; and Gerald Woolam, A&S freshman.

Eugene Brock, Business Administration. See HONOR ROLL, Page Six

## Cosmopolitan Club To Host Techsans

Texas Tech's foreign students will demonstrate their own brand of hospitality Tuesday (Feb. 28) to fellow students and townspeople when they sponsor a "get acquainted" open house.

The open house to be held from 8 to 10 p.m. at the home of Dr. and Mrs. William E. Hall, 2501 19th, is sponsored by the Cosmopolitan Club, official organization for foreign students.

Current membership includes 18 foreign students and three foreign-born American students. They include:

Alaor Altafin, Brazil; Ricardo de la Vega, Guatemala; John Larsson, Sweden; Cesar Pieve, Venezuela; Habilullah Raiszadeh, Iran; Thomas Stewart, Canada; Udo Strasilla, Germany; Roberto Villa-Garcia, Peru; Martha Wanner, Switzerland; John Zangas, Greece; Alfredo Zabroky, Mexico; Woo Yong Cha, Yung Ki Kim, Yung Myung Kim, all of Korea; Kareem Habeeb and Ahmad Kayyali, both of Jordan; A. T. Sanghui and Satya Pal Sood, both of India.

Foreign-born American members include: Oflia Wood, Mexico; Fred Lavish, Germany; and Bill Patimis, Italy.

Dr. Loyal Gould and Dr. Henry Shine of the Tech faculty are co-sponsors for the organization.

### Dr. Gould Named Fulbright Adviser

Dr. Loyal N. Gould has been named Fulbright and foreign study adviser at Tech to meet the increased demand for liaison work in that field.

"We're receiving more and more opportunities for Tech faculty members, students and graduates to do foreign study and we want to be sure those opportunities are made known to them," Dr. G. E. Giesecke, Tech academic vice president, said in announcing Dr. Gould's appointment.

Dr. Gould, a foreign languages department faculty member, has had wide experience in travel and study abroad.

"Foreign study grants are available here from at least 24 different foundation and other agencies," Dr. Gould declared.

"Those groups are particularly anxious to encourage foreign study by persons in the Southwest," he added. The agencies prefer to award the grants on a representative geographical basis, but so far they've received more applications from the East and West Coasts than from interior regions of the country.

"The funds are available here to qualified Tech graduates as well as current students and faculty members," Dr. Gould emphasized.

In addition to serving as Fulbright adviser and institutional representative for the Rhodes Scholarship Trust, Dr. Gould will counsel and help make arrangements for Fulbright, Page Eight

## Changes To Make KTTC 'Enjoyable And Informative'

The campus radio station, KTTC, is undergoing changes designed to build it into an entertainment medium enjoyable as well as informational to students of Texas Tech, according to Dr. P. M. Larson, station sponsor.

With the advent of the spring semester, KTTC has a program of reorganization in progress. But to various technical difficulties in the past the station has been irregular in its broadcast hours. KTTC is regularly scheduled to broadcast Monday through Friday from 5 to 12 midnight.

"A shortage of personnel in the past has hampered the station considerably," Dr. Larson said. At present however, several persons working with the station have either had past professional experience or are currently engaged in radio commercially in Lubbock.

Among the present KTTC personnel are: Bob Sewell, program director and currently a disc jockey at KDUB; his assistants, Jim Wright, also of the KDUB staff, Paul Foraker, who formerly worked at KERP in Kermit, Gerald Coleman, who is connected with KLLL, and Bill Wornack of KCBT. Dwight Carver is assisted on the engineering staff with professional experience from Louis Drennan and Ray Gordan of KCBT-TV.

"Although many problems remain to be worked out, the station is showing a great deal more promise than has been exemplified in the past," says Dr. Larson.

"It is hoped, however, that those problems can be solved in the ensuing months and that with the initial days of the 1956 fall semester KTTC will be on a solid foundation which will provide Texas Tech with some of the finest in collegiate broadcasting," he added.

### Seed Growers Plan 2-State Meet Here

Seed growers from the West Texas - New Mexico area will hold their 15th annual meeting at the Texas Tech Aggie Auditorium Mar. 3 from 9 a.m. to 5 p.m.

Highlight of the one day meet will be a panel discussion on hybrid sorghum production headed by Dr. Harold Loden, plant breeder for the Paymaster Farms in Plainview. Other panel members will include growers from the Lubbock and Chillicothe branches of the Texas Agriculture Experiment Station.

Other topics to be covered include: revision of the Texas seed law, outlook for certified seed in 1956, new crop varieties to be released for certification, West Texas corn production, irrigation, planting practices for West Texas crops, and certified seed packaging and processing.

Dr. Clark Harvey, Tech department of agronomy will serve as program chairman.

### From Telephone Call to Dead Week

We received a long distance call Monday night from Joe Scott, editor of the SMU Campus. He wanted to know the reaction of Tech's students and faculty concerning the recent SMU statement that it favored permitting Tech to enter the Southwest Conference.

And well he might ask!

In direct opposition to the previous attitude of SMU officials Scott and his paper have waged a vigorous campaign for SMU's vote to be cast in favor of Tech's entrance into the SWC.

Before the Faculty Athletic Committee's meeting Monday, the SMU student Council passed a resolution (13-3) addressed to the committee concerning the Tech bid to enter the SWC.

The text of the resolution—according to a Campus editorial which appeared Friday—was not published in order to "permit the committee to study the resolution and if possible comment on its contents."

By Monday noon the text now seemed fairly obvious, (See Resolutions, Page 3) and the comment . . . Well, it's very seldom that Tech rates a two-line banner headline in the Avalanche-Journal . . . "SMU BACKS TECH FOR SWC! RED RAIDERS FANS JUBILANT."

What does it all mean, though? It means that Southern Methodist University favors Tech's entrance into the SWC—period.

As was pointed out in a Lubbock Evening Journal front page editorial, "other schools have changed from time to time in the past. That could happen again."

Some are incurably optimistic. More power to them. Others are equally incurably pessimistic. Well, they've been right in the past.

We just hope we're in this office during dead week putting out an "extra" with our biggest type proclaiming "AT LAST."

Bob Rooker

### It's A Sad Situation . . .

West Texas cotton farmers have a right to kick when it comes to the cotton acreage allotment.

After all who wants to drive around in last year's air-conditioned Cadillac.

The Toreador, student newspaper of Texas Technological College, is published each Tuesday and Friday on The campus at Lubbock by the associated students of the College, and financed by student activity fees, advertising, and subscriptions.

#### COLLEGE GRAPEVINE . . .

### College Pro Gives Students Ten Tips

By CLAYNELLE ROOKER

From time to time we have listed various ways to please professors, get through college without studying, etc., but all of these suggestions have been penned by college students. Pageant Magazine carries an article on "Ten Ways to Get Through College Without Even Trying" which was actually written by a college professor, Robert Tyson of Hunter College.

Let's listen to a pro.

1. Bring the professor newspaper clippings dealing with his subject. If you don't find clippings dealing with his subject, bring in clippings at random. He thinks everything deals with his subject.
  2. Look alert. Take notes eagerly. If you look at your watch, don't stare at it unbelievably and shake it.
  3. Nod frequently and murmur "How true." To you, this seems exaggerated. To him, it's quite objective.
  4. Sit in front, near him. (Applies only if you intend to stay awake.)
  5. Laugh at his jokes. You can tell, if he looks up from his notes and smiles expectantly, he has told a joke.
  6. Ask for outside reading. You don't have to read it. Just ask for it.
  7. If you must sleep, arrange to be called at the end of the hour. It creates an unfavorable impression if the rest of the class has left and you sit there alone, dozing.
  8. Be sure the book you read during the lecture looks like a book from the course. If you do math in psychology class and psychology in math class, match the books for size and color.
  9. Ask any questions you think he can answer. Conversely, avoid announcing that you have found the answer to a question he couldn't answer, and in your younger brother's second reader at that.
  10. Call attention to his writing. Produces an exquisitely pleasant experience connected with you. If you know he's written a book or an article, ask in class if he wrote it.
- From Tarleton State College, Stephenville, Texas.  
Last night I held a little hand  
So dainty and so neat,  
I thought my heart would surely burst  
So wildly it did beat.  
No other hand ever held so tight  
Could greater gladness bring  
Than the one I held last night,  
It was  
Four aces and a king.

expressed by our university president, Dr. Willis Tate, on February 20 when he stated that S.M.U. is going on record publicly in favor of having Texas Tech in the Southwest Conference.

This is a decision that the great majority of the SMU students have been looking forward to for some time now. You will be interested in the enclosed resolution which our Student Council passed at our last council meeting, February 15. This resolution was sent to the SMU Faculty Committee on Athletics. It was not to be released to the press until this week so that the committee could have a chance to study it before their meeting. We of the council feel that it was one of the determining factors in bringing about the change of policy regarding the admission of Texas Tech.

It will be good to have a school of your stature and prestige in the Southwest Conference. Best of luck!

Sincerely,  
Richard Deats, president  
Students' Association

Dear Mr. Rooker,

I would like to take this means of commending your firm stand on the side of a free and uncensored college press in America. At the same time Willie Morris of the Daily Texan deserves commendation and congratulations upon his desire to defend the free, uncensored college press.

However, I must part beliefs with both yourself and Willie Morris when it comes to the point of what you're using the free press to defend. Morris, probably a

student of Dr. C. Ayers, one of our more advanced liberals, was using The Texan to promote the notorious idea that political progress and federal control are synonymous. On one hand you cry for freedom, a free press, and all of freedoms blessings and on the other you embrace pure governmental control and political progress as being synonymous. The sum total of these two completely opposite political beliefs adds up to nothing more than gross inconsistency.

Sincerely,  
Rex McKay

Mr. McKay, we were supporting Willie Morris on the issue of whether or not he had the right to free editorial comment. As far as the particular issue involved in this comment is concerned, we neither supported nor disagreed with the Texas editor.

Dear Mr. Rooker,

This is just to express a faculty member's appreciation for the active editorial interest you are taking in the question of freedom of a college or university newspaper to editorialize on public issues. I am not sure you are on sound ground as to the "weakness" of the Regent's legal position. But the principle of free discussion of the issues that affect our lives seems to me to be a fundamental ingredient in any educational institution worthy of the name.

Sincerely,  
J. H. Rush

We appreciate your interest as a faculty member. Thank you for your letter. However, the words concerning the "weakness" of the Texas Regents were those of Willie Morris — not ours.

# SMU Council Passes Resolution

February 15, 1956

BE IT HEREBY RESOLVED THAT:

We, the members of the SMU Student Council, do hereby petition and respectfully request the Faculty Committee on Athletics to re-consider and re-evaluate its position concerning the admission of Texas Tech into the Southwest Conference, for the following reasons:

(1) Texas Tech has become a major school with an enrollment of over 7,000—second in size only to the University of Texas among state supported colleges in the State.

(2) Texas Tech would add to the educational prestige of the conference due to its high academic standards and diversified program. (Includes a doctoral program of recognized quality and stature.)

(3) The area surrounding Tech is economically strong enough to support Southwest Conference athletics.

(4) The addition of Tech would benefit the Southwest Conference athletic program by adding an additional 1,000,000 or so avid sports fans living in an area rich in natural resources and potentialities, an area which is thickly populated and economically strong enough to fully support conference athletics in this area.

(5) Texas Tech has developed a well rounded athletic program, including football, basketball, baseball, track, tennis, golf, swimming, and fencing. This program would be an asset to the conference. Tech would be a worthy competitor for SMU, as has been recognized by TCU, A&M, Baylor, and the University of Texas.

(6) Tech is attaining a position of nationwide recognition and prominence, a position which would be an asset to any member school. The admission of Tech would not diminish the standing and prestige of the conference.

(7) We also feel that the Southwest Conference could be expanded to include one more member school. Realizing that this would necessitate a more carefully planned athletic schedule, we nevertheless believe that the mechanical problems concerning such a schedule could be worked out in such a manner as would enable all the schools to play all the other member schools.

What young people are doing at General Electric

**Young manager handles finances for \$40,000,000 business**

General Electric is made up of more than 90 product departments that operate as individual "businesses" — each conducting its own legal, financial, manufacturing, engineering, marketing and research activities.

One of the most important of these businesses is the Technical Products Department that makes broadcasting and communications equipment and semi-conductor devices. Responsible for managing the finances of this \$40 million business is Robert H. Platt.

**Platt's Work Is Important, Responsible**

In the next ten years, the Technical Products Department is expected to reach the \$100 million mark — more than doubling its present size. This is a big job. And it requires Platt to keep tabs on everything from tax, cost, and general accounting to payrolls, budgets and measurements, credits and collections, and internal auditing.

**25,000 College Graduates at General Electric**

Experience gained in the Business Training Course and as a traveling auditor gave Platt a variety of financial experience. Like each of our 25,000 college-graduate employees, he was given the chance to grow and realize his full potential. For General Electric has long believed this: When fresh young minds are given the freedom to make progress, everybody benefits — the individual, the company, the country.

Educational Relations, General Electric Company, Schenectady 5, New York

**ROBERT H. PLATT** joined G.E. in 1941 after receiving his B.A. at Colgate University. He served 2 years in the Navy, attaining the rank of Lieutenant (J.G.). He is also a graduate of G.E.'s Business Training Course.

### Music Department Features Concerts

Concerts, tours and a symposium will be among the featured activities of the Texas Tech music department for the spring semester. The Texas Tech Concert Band

#### 'MR. AND MRS. DANCE' SET AT UNION TONIGHT

A Mr. and Mrs. Dance, the first of several programs for married students to be promoted by the Tech Union, will be held in the Tech Union Ballroom from 8:30 to 11:30 tonight.

The Esquires will furnish music for the dance. There is no admission charge.

The dance, although it is especially for married students, is open to everyone.

will present a program March 4, at 3 p.m. in the Band Room of the Music Building. Members of the band will play also for the National Bandmasters Association meeting in Santa Fe, N.M., March 7-10.

Mrs. Helen McCarty, former faculty member, will give a piano concert at 4 p.m. March 18 in the Museum Auditorium.

The Tech choir will be on tour in the Fort Worth and Dallas area March 19-21.

A concert by the Tech orchestra will be presented March 25 in the Music Building.

The department will conduct a symposium of contemporary music May 4, 5 and 6.

### Museum Display Is By C. J. Laughlin

The grace and beauty of the Old South is being graphically portrayed at The Museum on campus in a series of photographs by C. J. Laughlin, New Orleans photographer and lecturer.

The exhibit, scheduled to run for approximately three weeks, includes selections from 96 photographs of plantations in the Mississippi Delta and Natchez regions. Built in the early 19th century before the Civil War, these homes show adaptations of Greek architecture designed for the hot, humid climate of the region. The wide, spacious verandas, and the continuous two-story porches around houses are familiar structures.

Sponsored by the Departments of architecture and allied arts and Tech Art Institute, the exhibit is brought from the New Orleans Museum.

### Sigma Kappa Initiation Tomorrow

Sigma Kappa sorority will hold its initiation ceremonies for 18 fall pledges at 2 p.m. tomorrow in the parlor of First Christian Church.

Those to be initiated include: Kay Aker, Anda Anderson, Pat Burden, Sue Dickson, Marlys Harris, Marcia Hebert, Lucy Hicks, Shirlene Irvin, Kathryn Jeffus, Carole Jacobs, Kathleen Jones, Gail Owens, Patricia Pence, Susan Robbins, Carole Thompson, Susan Weatherford, Gayle Rea Williams and Joan Wimberly.

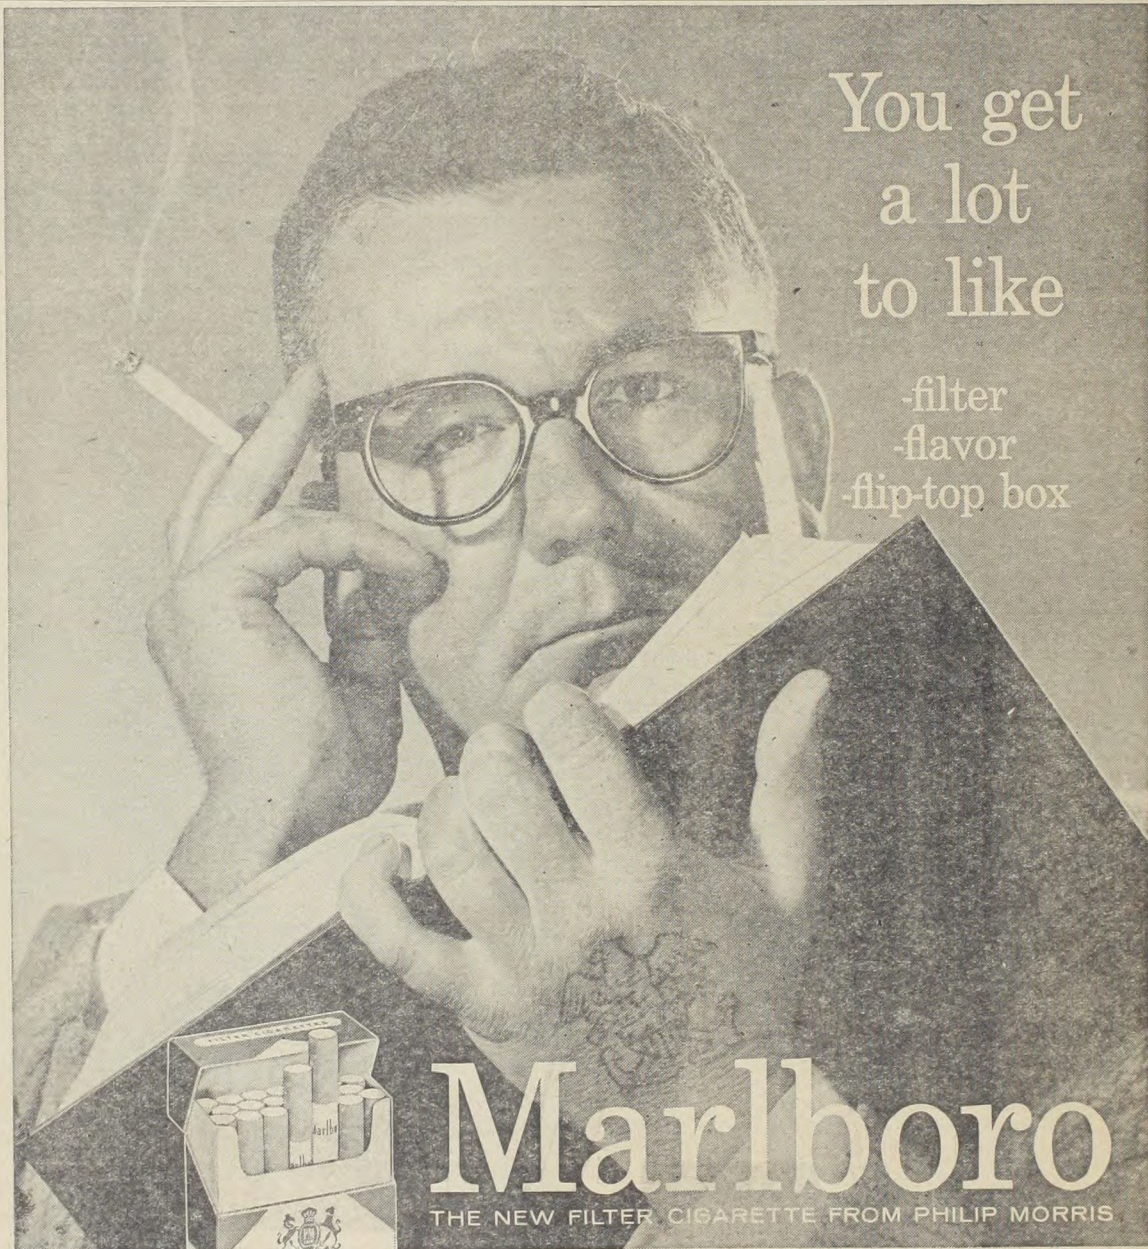

A banquet will be held in honor of the new initiates at 7 p.m. Saturday in the Lubbock Women's Club. Sunday at 9 a.m. the sorority will hold a model meeting in the Lubbock Women's Club, then attend church services as a group at First Christian Church.

### PHI GAM DELTA DANCE SCHEDULED TONIGHT

The Lambda Tau chapter of the fraternity of Phi Gamma Delta will hold its annual dinner dance tonight at the Lubbock Country Club.

The formal reception and dinner will begin at 7 p.m., according to Wendell Dorsett, dance chairman. Music will be provided by the Scotchmen.

Eight new Phi Gam members initiated Thursday, Feb. 16 are Chuck Beatty, Roy Boyd, Sonny Henry, Robert Koonce, Jack Lawrence, Robert Nemir, Don Pope and Jerry Wales.

### Combos to Battle In Jam Session At Union Monday

A Band Battle between the Kingsmen Combo and the Dunbar Combo will be held in the snack bar of the Union Feb. 26 at 3 p.m. This event regularly scheduled on the Union Calendar for Feb. 19, was changed because the Dunbar Combo had a conflicting engagement. Therefore, this in a series of union sponsored jam sessions will be held the following week at the same time. Members of the music committee which sponsor the sessions are Marilyn Miller, chairman, Carolyn Tapp, Beverly McCormick, Susan Bower, Gail Owens, Sue Dickson, Martha Mack and Bob Huff.

Zeta Pi Chapter of Sigma Nu has selected Joan Pember, a freshman from Slaton, White Rose Princess for February. Miss Pember is a Home Economics major.

Sigma Nu officers elected for the spring semester are Jessie Adams, commander; Douglas Perkins, lieutenant commander; Melade DeGaish, treasurer; Steve Rogers, marshal; Robert Dinjar, chaplain; and Charles Clark, recorder.

### Delta Sigma Pi Initiates 20 New Members Tuesday

Twenty men of the Business Administration Division of Tech received their pledge pins Tuesday night as they were initiated into the spring pledge class of Delta Sigma Pi.

New pledges are Grady W. Allen, Hal Anenberg, John T. Buchanan, Allen D. Elwood, Bill Feuerbacher, Don Green, Lowell C. Green, Gerald J. Guerrieri, Jr., Hal Knight, Donald Ray Lackey, J. C. Lewis, Jimmie Boyce Love, Charles Allen Pierce, Jr., John R. Potts, Don R. Reynolds, Rolly Seawell, Delbert E. Shedd, Mack B. Tomlinson, Marvin M. Watson and Bill C. Wylie.

Pledges are selected on the basis

of overall grade-point average, character, and attitude. Twenty-seven new members were initiated into Delta Sigma Pi from the fall pledge class.

The twenty spring pledges will be initiated into the professional Business Administration and Commerce Fraternity in May. Bob Sampson is pledge trainer.

### NEWMAN CLUB HAS RELIGIOUS RETREAT

The Texas Tech Newman Club held its annual religious retreat on Feb. 17-19 at the St. Elizabeth's Parish in Lubbock.

Father Edward Chrisman, of St. Elizabeth's Parish in Snyder, was the retreat master.

The retreat gave students an opportunity to improve their spiritual life and begin the season of Lent properly, Liz Wilson, Newman Club reporter, stated.

Track Squad Preps for Spring Season

By WILBUR JARRETT

Coach Delmer Brown's trackmen will have a full schedule of track meets this spring. Major attractions which they will attend are the Border Olympics at Laredo, Southwestern Recreational Meet at Fort Worth, and Texas Relays at Austin.

Other highly regarded meets in which the thinclads will participate are the West Texas Relays at Odessa, North Texas Relays at Denton, and the Border Conference meet here.

Coach Brown's championship hopes were somewhat depleted at midyear when several of his outstanding freshman track boys left school for various reasons. He lost Bobby Locker, sprinter from Iraan, Johnny Henderson, 440-man from Amarillo, and Joe Renfro, hurdler from Sonora. In addition, David Lloyd and Stanley Vickers, both great weight men, had dropped out of school earlier. Vickers had placed high in the discus throw in the state meet while Lloyd was the national prep champion in the shot put.

Offsetting the loss of these boys

are the fine showings by other members of the squad. Larry Palmer, the freshman from Midland who jumped over 13 feet last year, is reportedly looking very good for this early in the year. Ray McDonald, the Border Conference co-champion, is coming along fine as is freshman hurdler Neil McMullen from Lubbock. Leon Chester, the magnificent sophomore hurdler from Andrews, is doing well also. Last year Leon spiked several points as a freshman.

This is Coach Brown's first year at Tech and will probably be a building one.

Red Raider Track Schedule includes:
March 9 and 10, Border Olympics at Laredo.

March 16 and 17, Southwestern Recreation, Fort Worth.

March 23 and 24, West Texas Relays, Odessa.

March 28, Triangle Meet, (East Texas, ACC), at Abilene.

April 6 and 7, Texas Relays in Austin.

April 14, North Texas Relays in Denton.

May 5, Ten College Meet, Portales, New Mexico.

May 11 and 12, Border Conference Meet here in Lubbock.

RAIDER REVUE

By FLOYD WOOD

Toreador Sports Editor

Maybe we shouldn't tear down the "barn" after-all.

Tech's last two losses to Texas Western and New Mexico A&M have served to dramatically underline the inadequacy of the 1955-56 Raiders when playing away from home.

When at home in the warm, friendly confines of their own gym, the Techs have been completely unbeatable. Of course, other teams spot us approximately 18 to 20 points when they come to Tech. Most can't get used to the strange surroundings of the "barn" until it's too late.

Possibly the Raiders will still win the conference crown. It's a pretty sure thing that they can beat the Miners and Aggies here next week while these schools are on a hard road trip. This, combined with a loss which the visitors will probably suffer to either H-SU or West Texas State, will be the combination we need.

But even if we do win the championship it will be a hollow victory with a 13-11 record to carry into the NCAA playoffs. Our out-of-town record has been 11 losses and five victories. While at home we have won six times and not been officially beaten.

Maybe we shouldn't chide the Raiders. But it's only because we honestly believe that they are the best team in the league and have top possibilities, especially with Coach Polk Robison at the helm. But the off again-on again theme this year has got the fans somewhat puzzled.

Don't write home for money—write Lucky Doodles!

The easiest \$25 you'll ever make!

A raft of students have already earned \$25 in Lucky Strike's Doodle drive. By June, hundreds more will. Better get with it. It's like taking candy from a baby.

Do as many Doodles as you want. Send them, complete with titles, to Lucky Doodle, Box 67A, Mt. Vernon, N. Y. Include your name, address, college, and class—and the name and address of the dealer in your college town from whom you most often buy cigarettes.

If we select your Doodle, we'll pay \$25 for the right to use it, with your name, in our advertising. And we pay for a lot of Doodles that never appear in print! Talk about easy money! This is it!

# Techsans Face Important Games

A pair of "win-or-else" games face Texas Tech next week when they entertain Texas Western and New Mexico A&M in Border Conference action.

Texas Western's Miners play the Raiders Monday night and the New Mexico Aggies will be here Wednesday night.

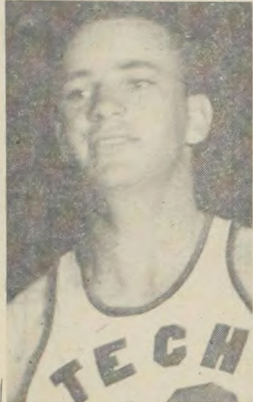

Coach Polk Robison's quintet suddenly find themselves in second place with A&M and TWC tied for first place. Should Tech defeat both of the squads, the three schools will be tied for the top spot in the conference.

Unravelling of the situation may be up to either Havin-Simmons or West Texas State, who also play host to the Miners and Aggies next week. A loss to Tech and either of the other two schools by both A&M and TWC will give the Raiders the crown.

After a streak of fabulous scores and convincing victories

Tech suddenly collapsed again this week on a road trip to El Paso and Las Cruces and fell from the league lead.

Monday night the Miners picked

**SOPHOMORE FORWARD—**Royce "Rooster" Elam, 5-foot 11-inch physical education major from Mergargel, was captain of the Mergargel high school basketball squad for two years prior to his entering Tech. Elam, son of Mr. and Mrs. Lloyd F. Elam of Mergargel, had experience on the Tech freshman squad.

out an 83-65 victory over the arctic-cold Raiders.

Tuesday night A&M rallied with seven minutes remaining to whip Tech, 68-65. The Raiders' "big three" were unusually quiet with the exception of steady Du-Wayne Blackshear, who made 18 points. Gene Carpenter and Jim Reed collected 11 and 10 points, respectively. Bobby Wilson had a good night, making 14 points.

Jim Loomis of A&M paced the game's performers with 25 points.

The Techs held a 33-26 half-time advantage. However, in the final portion they mustered only 32 points, while the victors made 42.

Tech's forces were weakened when Reed, Carpenter, and Sterling Gibson left the game with five fouls each.

## Tennis Courts Being Finished

Construction work on the seven tennis courts behind Tech gym will be completed soon, according to Dr. Mary B. Dabney, professor of women's physical education.

The courts, which will serve approximately 300 students, have been resurfaced. They will provide better drainage and better playing surface than the former gravel court, said Dr. Dabney.

## J. Paul Sheedy\* Was An Udder Failure Till Wildroot Cream-Oil Gave Him Confidence

The boys were having a bull session in Sheedy's room. "It's no yoke," beefed Sheedy. "Heifer-y girl I ask for a date turns me down flat." Then Sheedy's roommate spoke up: "There's good moos tonight J. Paul. Try some of my Wildroot Cream-Oil on those cowlicks." Sheedy did and now he's the cream of the campus. Wildroot keeps his hair handsome and healthy looking the way Nature intended... neat but not greasy. Contains the heart of Lanolin, the very best part of Nature's finest hair and scalp conditioner. Get Wildroot Cream-Oil, America's largest selling hair tonic. In bottles or unbreakable tubes. Gives you confidence... you look your best. There's no udder hair tonic like it.

\* of 131 So. Harris Hill Rd., Williamsville, N. Y.

**Wildroot Cream-Oil gives you confidence**

## Intramurals In Final Play

With the intramural basketball season nearing its end, several teams have virtually clinched a playoff berth, while others are having a down-to-the-wire fight for one of the top spots. The two teams in each league will be eligible for the post-season tournament, to be held soon as the season round-robin schedule has been completed, and all make-up games have been played. In case of ties for the top slots, a play-off game will be scheduled.

Setting the pace in the independent League No. 1, and always a ready threat to cause a stir in the tourney is the BSU cage team. The Baptists kept their undefeated record intact last week at five wins by trouncing the Firehouse Five team, 51-24. Currently holding down the number two slot in the league are the Vets, another fine independent team, with a 4-1 record.

Standings tightened up considerably in the independent league No. 2 last week, as the previously undefeated Goodies went down to the Nameless Wonders, 33-29, in a defensive battle. This left the Goodies with a 4-1 record for the season. They are being pressed by the Rangers, who sport a respectable 3-1 mark, and the Nameless Wonders, who by winning their third straight, brought their record up to 3-2.

In the dorm league, another team showing the way is Gordon Hall which preserved its undefeated record Tuesday by edging an inspired Bledsoe quint, 44-43. Their season mark is 5-0. Fighting for runner-up position in the dorm league is Doak Hall and the Second Longs, with identical 4-1 slates.

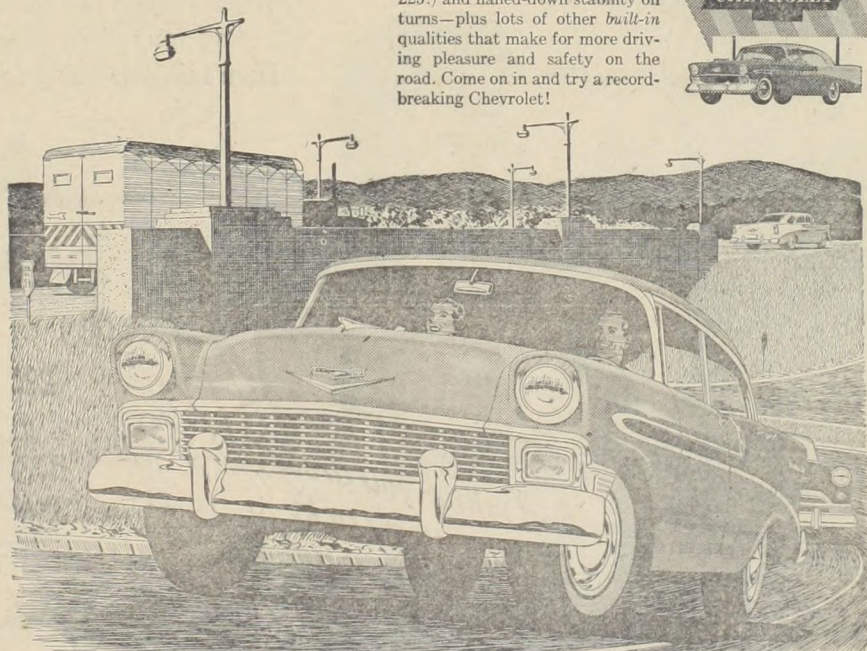

In the fraternity league, the powerhouse is Phi Kappa Alpha, which is making a runaway of the league race with six wins and no defeats. Trying for a tournament berth is Phi Delta Theta, in second place with a 5-2 record, while Kappa Sigma Alpha is threatening in third with a 4-3 mark.

## Get a record-breaking run for your money!

Only Chevrolet puts you in charge of the dynamite action and sure-fire handling qualities it takes to break the Pikes Peak record! Better try it before you buy any car at any price.

Almost everybody likes a real road car. And nowadays you no longer have to pay a king's ransom to own one. They're going at Chevrolet prices! For the new Chevrolet is one of the few truly great road cars being built today!

It has to be to hold the stock car record for the Pikes Peak climb. It has to have cannonball acceleration (horsepower now ranges up to 225!) and nailed-down stability on turns—plus lots of other built-in qualities that make for more driving pleasure and safety on the road. Come on in and try a record-breaking Chevrolet!

The Bel Air Sport Sedan—one of 19 new Chevrolet beauties. All have directional signals as standard equipment.

# Noted Scientist To Speak Here

By La DOYCE LAMBERT  
 "I have never known anyone who has ever had a single criticism of him."

These are a few words of praise spoken by Dean John R. Bradford, dean of engineering, about his close friend Dr. Ralph T. Overman who is to speak in the Student Union Ballroom at 2:30 p.m. Sunday.

Dean Bradford recalls many things about Dr. Overman who is currently Chairman of the Special Training Division of the Oak Ridge Institute of Nuclear Studies. The atom expert is particularly adept, says our engineering dean, at talking on the co-existence of science and religion.

Dr. Overman's visit here Sunday will include a discussion of "What With the Atom?" in which he will insist as he has many times before that science and religion do not contradict each other.

Many unusual expressions, interjections of humor plus an excellent speaking ability make Dr. Overman a personality that no student will want to miss, according to Dean Bradford. "I would highly encourage anyone who is interested to hear this talk," Dean

Bradford declared.  
 Dr. Overman, besides being a very deep-seated religious thinker, is one of the country's foremost nuclear scientists. He is literally

ments for grants from such groups as the International Institute of Education, Ford Foundation for the Advancement of Education, the American-Scandinavian Foundation, and Swiss-American Society.

Dr. Gould said government grants also are available from Switzerland, Italy, France, Spain, Great Britain, and most South American countries.

one of the founders of Oak Ridge and is highly enthusiastic about the future of mankind with atomic power.

Because he has shown his ability to discuss intelligently the role that atomic power and religion have in common the Atomic Energy Commission is sending Dr. Overman on a tour of the major campuses of the Southwest. Although Tech was not originally on his itinerary, he agreed to come at the invitation of the Tech Baptist Student Union and will be the house guest of Dean Bradford.

The talk is not in any way denominational and any student or others who are interested are invited to attend.

## Tech Union Starts Photo Show Mar. 3

Outstanding examples of contemporary photography will be exhibited at Tech Union from March 3 through March 17, according to Alice Wells, Arts and Exhibits Committee chairman.

The photographs, 110 in all, are a Popular Photography Traveling Salon. The exhibit includes the work of leading professionals and amateurs from all over the world.

The pictures were selected from prize-winning entries in Popular Photography's annual \$25,000 International Picture contests.

A wide variety of subject matter, ranging from dramatic and human interest type of photographs to landscapes, highlight the exhibit.

### MUSEUM TO PRESENT

The Museum on Tech campus will present the last in its series, "Indian Legends of Long, Long Ago," in the planetarium at 4:30 p.m. Sunday.

Norman Cole will deliver the lecture and point out the constel-

### LAST OF LEGEND SERIES

lations associated with each legend. Cole a freshman physics major from Fort Worth, is a student assistant at The Museum. He was previously associated with the Children's Museum in Fort Worth, where he taught astronomy.
