

## Report 42 GIs Killed Up To Date

TOKYO, July 13. (AP)—Gen. MacArthur's headquarters announced tonight that American losses in the Korean War to date have been 42 killed, 190 wounded and 256 missing.

The announcement said "losses sustained by the American forces have been greatly exaggerated in press reports from the front."

## No Additional Tax Increases Seen For Now

WASHINGTON, July 13. — Chairman George (D-Ga.) of the Senate Finance Committee said today he sees no prospect of increasing federal taxes at the present session of congress, even though the Korean situation worsens.

"There will be plenty of time for that in January, if the need arises," he said.

George formally announced the indefinite suspension of work on the house-passed \$1,010,000,000 tax bill, but he did not write off entirely the chance of some action later on this legislation.

He summed up the situation for newsmen as his finance committee concluded public hearings on the House bill.

Military leaders asked the Senate Appropriations Committee for a \$1,900,000 increase in funds to boost the strength of the National Guard.

Sens. Hayden (D-Ariz.) and Maybank (D-So.) said the committee decided to wait until President Truman submits an expected request for additional military funds for the Korean fighting before acting on the National Guard item.

The decision to put the tax cutting bill aside came, George said, after Secretary of the Treasury Snyder, following a conference with the President, advised him that it would not be prudent to cut taxes at this time, in view of the Korean situation.

The United States Chamber of Commerce, national organization of businessmen, applauded the decision to put the bill aside, and forecast the possibility of higher—not lower—taxes, if things "turn for the worse" in Korea.

## Senate Group Seeks Faster Plané Output

WASHINGTON, July 13. (AP)—The Senate Armed Services Committee unanimously agreed today that the armed services should seek faster delivery of several billion dollars worth of combat aircraft now on order.

Chairman Tydings (D-Md.) announced the group had taken that stand at a closed meeting. He said it adopted this resolution:

"In view of the present critical Korean situation and the threatening situation throughout the world, it is the opinion of the Senate committee on armed services that the military establishment should immediately give consideration to accelerating the delivery of planes on order to the maximum extent necessary."

Tydings said that "several billion dollars" worth of aircraft now are on order for the Air Force, the Navy and the Marines.

A speed-up in deliveries would mean an increase in the present rate of military spending, since original plans were to spread the cost of the planes over a long period.

## First Texas Draft Call Set Aug. 7

AUSTIN, July 13. (AP)—Physical examinations for the first Texans called by draft boards will begin Aug. 7, state selective service headquarters announced today.

First inductions will be sometime in September.

Registrants selected by local main army recruiting stations in Texas and Louisiana Aug. 7-11 including Brig. Gen. Paul L. Wakefield, state director, said.

## THE WEATHER

BIG SPRING AND VICINITY: Partly to 4 p. m. scattered thunderstorms. High tonight and Friday. Cooler today.

High today 81, low tonight 67, high tomorrow 84.

Highest temperature this date 107 in 1931; lowest this date 13 in 1937; maximum rainfall this date 3.3 in 1935.

RAIN

REPORTED ATROCITIES — Lt. D. C. Gates of Joinerville, Tex., (above) was the first to report finding the bodies of U. S. soldiers with their hands tied behind their backs and shot through the head in territory captured from the North Koreans. Gates, an officer in the Pacific during World War II, re-enlisted in the army and was re-commissioned after going to Japan three years ago. (AP Wirephoto).

## 7 1-2 Million May Be Texas' Population

By The Associated Press

Texas' chances of passing the 7 1-2 million mark in the 1950 census improved slightly today.

All that is necessary is for Harris County—which includes bustling Houston and its populous suburbs—to exceed 629,000.

Harris County is expected to pass that figure. The preliminary announcements—with Bexar and Harris Counties—the only gaps—totalled 6,387,18.

Add that 252-county cumulative total of 6,387,18 to Bexar County's 496,050 and you get 6,883,238. That's just 616,762 short of 7,500,000.

There is another factor: The preliminary figures for counties are revised from time to time, always upward, as "missing persons" are counted by the Census Bureau.

Further, all figures now being announced are preliminary. The final, official figures will come much later from Washington. Additional revisions which show up in the Washington announcement are much more likely to show additional than subtractions.

If Texas passes the 7,500,000 mark it will be a whopping gain of more than a million over the 1940 figure of 6,414,824.

## FOR NEW HIGH SCHOOL \$865,000 Contract Awards Due Today

Construction contracts totalling approximately \$865,000 are due to be awarded tonight by trustees of the Big Spring Independent School District.

School board members, who opened bids on a new High School building, gymnasium and vocational building Wednesday afternoon, said they would meet again at 7:30 o'clock tonight. They indicated that contracts would be offered low bidders for general construction, plumbing and heating and electrical work at that time.

Apparent low bidder for general construction was Busbom and Rauh of Dallas, the firm that is now constructing the Howard County Junior college plant, while A. P. Kaseh and Son of Big Spring submitted the low figure on plumbing and heating.

Bids also were received on some equipment, such as auditorium seating, stage equipment and kitchen equipment, but contracts for those items probably will not be awarded immediately.

Board members expressed satisfaction over the bids, declaring that prospects were favorable for developing the entire construction project as outlined. At a brief session following the opening of bids the board obtained estimates on equipment not included in specifications, such as classroom desks, laboratory equipment, etc.

They also received figures, they expressed belief that the entire program could be financed from the \$950,000 bond issued, which was voted several months ago.

## No Injuries Reported In Two-Car Collision

No injuries resulted from a mishap which damaged two vehicles at 1500 Runnels about 5 p.m. Wednesday, police reported.

A pickup truck, driven by Frank D. McDaniel of Garden City, and a car operated by Ada M. Lovett, of Big Spring, were in collision at the intersection, officers said. Both machines were removed by wreckers.

# B-29 Superforts Strike As New Red Push Opens

## Air Force Says One Bomber Down

By The Associated Press

TOKYO, July 13.—Korean Communist troops, severely hammered by the air force but still advancing, shifted the weight of their southern drive to the east on Thursday, away from the American sector.

A dispatch from advance American headquarters said that about 10 a.m. Thursday (6 p.m. Wednesday, C.S.T.) the Reds started two heavy attacks with about two divisions against South Korean forces in the central peninsula area.

The American sector along the Kum river below Chochiwon was very quiet while the Reds shifted their attack against the South Koreans on two flanks.

Airmen reacted quickly, working over the new Red attack zone from dawn to dusk and promising renewed strikes on the morrow. The South Koreans gave some ground but not much, the spokesman said.

Chochiwon, given up by the Americans yesterday, was pounded by B-29 bombers which carried six tons each today. Red tanks and a big road junction in the town were main targets.

The spokesman did not pinpoint the area of the new Red attack but the dispatch said it was farther than the penetrations yesterday south of Chungju.

Earlier today the spokesman had reported that Red columns of tanks, infantry and armored cars had moved 15 miles south from Chungju which is in the western battle sector northeast of Chochiwon.

This drive from Chungju leaves a deep dent in the arc across the center of the peninsula which the South Koreans had been holding fast for several days.

The spokesman said there had been some shifting of armor eastward by the Reds to support their attack.

Gen. MacArthur, in a communique covering developments reported earlier in front line dispatches, said American and South Korean forces "continued to withdraw before numerically superior forces to take up defense behind prepared positions and natural barriers."

He apparently referred to the withdrawal south of the Kum. Spokesmen at the front said earlier U. S. troops had blasted several bridges over the strategic stream.

Hurled back by North Korea's Red horde, weary doughboys dug in on the Kum River's south bank for a new defense. They had a new commander, Lt. Gen. Walton H. Walker, veteran tank fighter of World War II.

The front was relatively quiet. Presumably the North Koreans were regrouping for an assault across the vital Kum, last natural barrier in South Korea. Allied warplanes pounded transport and supply routes north of the river throughout the day.

Gen. MacArthur announced the appointment last midnight of Walter, chief of the Eighth Army in Japan, as commander of ground forces in Korea.

The Eighth Army has set up an advanced command post in Korea and taken over the job of U. S. Army forces in Korea (USAFIK).

See B-295, Pg. 9, Col. 4

SOUTH KOREAN PICTURE OF U. S. SOLDIER TIED AND SHOT—This is one of the official photographs of dead U. S. soldier found face down, his hands tied on the South Korean front. This picture was taken by Lt. Lim in Sik of the South Korean army signal photographic unit and was made available to The Associated Press in Tokyo. This was one of the bodies found when counterattacks won back temporarily the ground where the incidents occurred. (AP Wirephoto via radio from Japan).

## FRONT IS QUIET TODAY

# Yank GIs Retreat Is Orderly As Texan Covers Withdrawal

KOREA, July 13. (AP)—American troops who covered the retreat from Chochiwon said today "the withdrawal was damn orderly."

"If it wasn't we wouldn't have brought so many back," said Lt. James Bufano, the Bronx, N. Y. He said the Communists tried to "raise hell with the pull-out" but mortar and artillery fire splashed harmlessly in nearby rice paddies.

Only four shells of the fairly heavy barrage fell in the city.

Lt. Delbert Gates of Joinerville, Tex., covered the withdrawal with a machinegun "until the last man I could see was out."

Gates said some Americans headed in the wrong direction, but they have a chance of working back to their own lines. Many returned to U. S. positions during the night.

The American front was quiet today.

Battle seasoning is building confidence in the American GI. A big morale builder has been American air action even though there have been mistaken strafings of U. S. positions.

"The damned North Koreans are taking a hell of a lot worse of it than we are," said Gates. "Every time the air hits them they get a real bloody nose."

"Every time there's a fight it takes a couple of days for them to straighten themselves out."

A senior front line officer who is a veteran of the European war said "the guys (infantrymen) getting shot at don't see much of what our Air Force is doing."

"But all of a sudden there is no 'poosh' from the other side. You wonder what's going on. Then you figure it out. The air is getting them."

He said he would like to see the old "Jug Birds" (F-47 Thunderbolts) working over the enemy as they worked against Germans. Jet fighters weren't meant for this kind of business, he said, but "a Jug Bird with 500 pound bombs would really give them a jolt."

## New French Premier Seeks Cabinet Okay

By The Associated Press

PARIS, July 13. — Premier Rene Pleven goes before the national assembly today to get approval of his new middle-of-the-road cabinet.

Socialist participation in the cabinet appeared to assure its endorsement. It has the support also of the large popular Republican Movement (MRP) and radical Socialist Party, as well as of Pleven's own small Democratic and Socialist Union of the Resistance (UDSR).

To his new government lineup, Pleven named five Socialists, including party strong man, Jules Moch, as defense minister and Sec. Gen. Guy Mollet as minister of state for the affairs of the Council of Europe.

For other ministries the new premier chose six members of the Catholic MRP, four radicals (conservatives), three independents and two USDR members. Robert Schuman, sponsor of the French plan for a West European coal-steel pool, continues as foreign minister.

The Socialists had caused the French political crisis 19 days ago when they withdrew their support from the cabinet headed by MRP Leader Georges Bidault.

They had quit Bidault's cabinet in February over the question of wage increases, but had given him their votes in parliament until June 22.

Socialist support and agreement to enter the new cabinet was obtained after pledges were made that a new wage minimum would be set by Sept. 1. Allotment to them of major cabinet portfolios was the deciding factor in securing their support.

Settlement of the crisis came on the eve of France's national holiday, the Fourteenth of July, and after a plea for national unity in the face of the international crisis by the new premier.

## Navy Denies U. S. Plane Carrier Sunk

TOKYO, July 13. (AP)—A Navy spokesman said today "the United States Navy carrier on duty in the Western Pacific is still very much afloat."

The 27,000-ton Essex Class Carrier Valley Forge had been rumored sunk.

In Washington, a Navy Department spokesman denied the rumor.

## IN CONGRESS

# A-Bomb Demand Wins Applause

By EDWIN B. HAACKINSON AP Staff

WASHINGTON, July 13. — Congressional demands for threatening the Korean Communists with the A-bomb and for calling up the National Guard served today as an index to the growing seriousness with which lawmakers are treating the world situation.

Members of the House applauded yesterday when Rep. Benton (D-Tex.) said that Mr. Truman should give the Communists one week to get out of Southern Korea. If they refuse, he said, the President should then supply their commander with a "named list of principal North Korean cities which would be subjected to atomic attacks by our Air Force."

Another Texas Democrat, Sen. Lyndon Johnson, raised the proposal for immediate calling into active service more than 800,000 National Guardsmen and reservists to stiffen the battle in Korea.

Johnson made his proposal in a Senate speech yesterday, and followed it up by telling a reporter: "We are going to be forced to do this anyway in time and the sooner the better."

"Unless we move quickly there is a chance that our boys will be pushed clear out of Korea."

Sen. Brewster (R-Me.) proposed that it be left up to General MacArthur whether to use atomic bombs on the Communists. He offered this idea of his own:

"The Communists should understand that we are not spending billions for bombs out of scientific curiosity. Presumably they are designed to save the lives of American boys."

Tracy S. Voorhees, former under secretary of the Army, told a House committee that an atomic attack on the United States itself is now "more than a possibility." He said that if an attack does come, it will doubtless be a big one aimed at industrial centers.

Senator Humphrey (D-Minn.), a down-the-line backer of the Truman "fair deal" domestic program, raised some questions about the billions Congress has voted for preparedness. He said:

"I want to know what happened to all that money. I want to know why the delays now? Why the delay in getting our fleet out of mothballs?"

## San Antonio Fastest City In Growth

SAN ANTONIO, July 13. (AP)—San Antonio's preliminary 1950 population figure was set today at 406,811.

This makes Texas' largest city the fastest growing so far of the state's "big four."

The 406,811 is a gain of 152,957 or 60 per cent over 253,854 in 1940.

Fort Worth gained 56 per cent— from 177,662 to 277,947. Dallas gained 46.7 per cent, from 294,734 to 437,605. Houston—the state's and probably the South's largest figure is yet to be announced.

The preliminary figure for San Antonio was released by James W. Stroud, area census director.

Stroud also announced the Bexar County figure at 496,050, a gain of 157,914 or 47 per cent over 338,136 in 1940.

This leaves only Houston and Harris County in Texas to be announced.

## Czech Army Change

PRAGUE, Czechoslovakia, July 13. (AP)—Communist President Klement Gottwald today issued a decree wiping out all prewar Czech army regulations and replacing them with new ones inspired by Soviet experience.

REDS IN ACTION ALL ALONG KOREAN FRONT—Dark arrows show drives by invading North Korean forces on virtually the entire Korean battlefield. Red push in the west has forced U. S. troops to the Kum River's south bank where they hope to make a stand (wedge) north of Taegon, key defense center, until enough material can be brought up to counterattack. Open arrows indicate the main supply routes from port city of Pusan to the front. (AP Wirephoto).

# Pressure Grows To Seek Some Federal Power Over Industry

WASHINGTON, July 13. (AP) — Well-placed officials today reported growing pressure on the administration to seek at least limited control powers over industry to help arm the country for the fighting in Korea.

The said no specific plan yet has reached President Truman to their knowledge, nor has there been any decision on the seeking of emergency powers from Congress.

They said they expected the whole question of home-front mobilization to be placed before tomorrow's cabinet meeting. One official said there would be a "top to bottom" survey.

Some administration officials were reported to favor an early

White House request for powers comparable to those of World War II, under which automobile assembly lines would be converted to tanks and guns, and radio and television plants to radar equipment.

Others, it was said, advocate a "wait-and-see" policy, or one which would call controls into play only as needed.

Foremost responsibility for advising Mr. Truman rests on two men, Secretary of Defense Johnson and Chairman W. Stuart Symington of the National Security Resources Board (NSRB). The latter agency is responsible for industrial mobilization planning; its general position was reported to be as follows:

1. NSRB is rounding out a complete program of emergency pow-

ers but has not yet presented such a program of price, wage and material controls and materials allocation to Mr. Truman.

2. NSRB has received from the White House no request for a program of limited controls, such as a voluntary system of rationing steel or other currently tight materials.

3. The mobilization agency, as a general policy, opposes "limited" or piecemeal controls on grounds that World War II experience showed them to be unworkable.

The major pressure so far, officials said, has come from industry and from Congress members. A good deal of it originated with smaller manufacturing companies which have sought government allocations on grounds that their suppliers are not delivering enough materials to keep their plants in full operation.

With the arrival of increasingly pessimistic reports from the Korean front, there has been growing sentiment for much more drastic measures. However, the advocates of a quick plunge into home-front mobilization apparently are less numerous than those who feel that action should be delayed until the needs of the armed forces become more clear.

TRAFFIC JAM ON NARROW KOREAN STREET—Typical of the narrow dirt roads which have slowed down movement of U. S. motorized equipment to the Korean battlefield is this muddy street through a South Korean village. Vehicles are virtually at a standstill in this picture taken by Photographer Carl Mydans of Life Magazine. (AP Wirephoto).

# ALL PASSENGERS SAVED FROM GROUNDED LINER

QUEBEC, July 13. (AP) — Tugs and launches shuttled the St. Lawrence River early today removing 780 passengers from the 20,000-ton liner, Franconia which rammed into a shallow reef during the night one mile out of Quebec.

The veteran Cunard-Donaldson cruise ship hit the shallows at Pointe d'Alouette at 8:45 p.m. (EST) 45 minutes after clearing Quebec port en route to Liverpool. A company spokesman said no details could be given as to what caused the accident, but that a statement would be made soon.

Passengers, many of whom were attending a movie when the big ship hit, said there was a "terrific jolt," but no one appeared to be injured.

The Franconia's lights glittered as the flotilla of small craft plyed back and forth unloading passengers.

Witnesses said her prow was tilted up on shore, with more than 15 feet of her hull beneath the normal water line showing.

The big ship grounded within plain view of many summer residents on the Isle of Orleans.

"It seemed as if suddenly the ship was swung to starboard away from the island to avoid the crash," said Joseph Gregoire, manager of the Bellevue Hotel at Belair's wharf, "but then it happened. The ship ploughed aground with a terrific roar."

Some witnesses said that at the time of the grounding the ship was passing another vessel.

Other witnesses said that soon

after the crash they heard the ship's orchestra strike up a tune and those aboard began singing.

## In Local Hospital

Donald (Bud) Garrison, son of Mr. and Mrs. John W. Garrison, has been in the hospital for observation. Bud has been suffering from severe headaches recently.

# HAND SENATE BILL TO FIRE SECURITY RISKS

By The Associated Press WASHINGTON, July 13. — A bill giving 11 government agency heads the power to fire outright any employees they consider risky to U. S. security was handed over to the Senate today following top-heavy approval in the House.

By a vote of 327 to 14, the House late yesterday enthusiastically endorsed the proposal. It means that employees deemed to be security risks could be booted out without appeal.

There are about 800,000 federal employees in the agencies affected.

While some House members raised the cry of "dictatorship," an overwhelming majority shouted approval of giving most government department chiefs "absolute discretion" to fire civilian employees they consider dangerous to the national security.

The authority would apply to heads of the State, Treasury, Commerce, Justice and Defense Departments; the Army, Navy, Air Force, Atomic Energy Commission, the National Security Resources

Board and the National Advisory Committee for Aeronautics.

Their determination of a bad security risk would be "conclusive and final," and the only review of a case would be by the agency head himself or someone designated by him.

The door was left open for extension of the powers to other agency heads by empowering the President to designate such additional agencies he deems necessary.

The House beat down three attempts to provide appeals procedure to protect employees from unjust or arbitrary firing. A roll call vote of 193 to 144 turned down a move to provide for "employee appeal to the Civil Service Commission."

Rep. Jensen (R-Ia.) termed the bill a move "to clean a bunch of no-goods out of the government," while Rep. Chelf (D-Ky.) declared the security powers should be granted or "we're going to find a lot of so-called pansies giving away our information."

# Big Discovery Reported For Terry County

An important flowing discovery, probably from the Wolfcamp, has been reported in central-south Terry county.

Amerada Petroleum Corp. No. 1 N. W. Willard, 14 1/2 miles south of Brownfield, ran a five hour and five minute drillstem test from 8,450-8,507 feet.

Gas showed in five minutes, oil in 38. Fluid went to pits for 27 minutes and then flowed to tanks for four hours. During the period recovery was 144 barrels of 43 gravity oil. Gas-oil ratio was 431-1.

The prolific flow was through 3/4-inch bottomhole choke and a one-inch top opening. There was no water and the operator was pulling the testor.

Formation was picked as the Wolfcamp, lower permian. The important discovery is located one mile from the Adair (San Andres) pool, six miles west of the Corrian (Fusselman) pool, and 8 1/2 miles southeast of the Anderson-Pritchard No. 1 Bevers, which completed naturally yesterday for 2,280 barrels of high gravity oil and no water as a Pennsylvania discovery 9,712-9,805. The No. 1 Willard topped the Sprberry at 2,270 datum minus 4,025, which is 272 feet high to the same marker in the No. 1 Bevers. No markers have been listed since. Location is 660 from the north and east line of the northwest quarter of section 6-C-37, PSL.

Don't stand over your wells with outgrown clothing; sell them for cash thru an inexpensive want ad.

# Growing Costs Of Korean War Ditches Billion-Dollar Tax Slashing Measure

WASHINGTON, July 13. (AP) — The Korean war, with its growing costs, has ditched the \$1,010,000,000 excise tax slashing bill.

On advice from the White House that "it would not be prudent in the light of developments in Korea" to cut any taxes now, the Senate Finance Committee put the bill aside, postponing action indefinitely.

Sen. Byrd (D-Va.), a finance member, said: "In my opinion this tax bill is dead."

Many in Congress expect that the Treasury Department will ask for higher taxes rather than lower, if the Korean situation does not improve. However, it was said at the treasury that no decisions on such a request have been made.

Technically, if the situation improves swiftly, the tax cut bill can be taken up later. Few, if any, lawmakers now hold any hope for action this year, however.

It looks as though the excises, many of them imposed in World War II, will stay at least until the Korean war is over.

The House-approved bill would have repealed or reduced excises—sometimes called sales or nuisance taxes—on scores of items.

To offset a greater part of the revenue loss from excise cuts, the

measure would have put \$433 million additional taxes yearly on big corporations, plugged loopholes and made other tax law revisions.

The finance committee decided informally to shelve the bill after Secretary of the Treasury Snyder yesterday personally visited Capitol Hill. After this call, the Treasury Department issued a formal statement saying:

"After consultation with President Truman, Secretary of the Treasury John W. Snyder today in conference with Chairman George of the finance committee of the Senate and Chairman Doughton of the Ways and Means Committee of the House advised them

that it would not be prudent in light of developments in Korea to proceed with further consideration of the tax bill now before the Senate."

# Union Leader Claims Economy Group Is Becoming Anti-Labor

AUSTIN, July 13. (AP) — A union labor leader charged today that an effort was being made to "pervert" the Texas Economy Commission into a propaganda agency against the wage ideals of unions.

In a letter to Gov. Allan Shivers, Paul C. Sparks, executive secretary of the Texas State Federation of Labor, said the effort was being made in connection with the El Paso highway wage dispute.

"We believe the Ashburn has betrayed his trust and obligations as a member of the commission by writing a letter to the members of the commission, as such urging them to join the battle against the El Paso Building and Construction Trades Council, which is currently seeking by lawful means in Texas courts to enforce the state law requiring payment of the prevailing wage on public work," Sparks' letter said.

Ashburn, asked for comment on this, said the letter was an expression of his feeling as an individual and as executive vice president of the Texas Good Roads Assn. Ashburn said it was sent to members of the commission to inform them of the possible effects on state economy if labor's position in the wage dispute is upheld.

"There was no intention of implication to involve the economy commission members of the commission were not asked to participate in the fight," he said. Ashburn said the letter went out on Good

## METERS BOTHER POLICE FORCE

Utilities meters were in the police radio operator's half Wednesday night as three cases of damaged meters and lines were reported.

Police alerted the gas company to shut off escaping gas about 1 a.m. after a truck reportedly ran into a meter in back of the Union Bus terminal.

Officers were called about 3:30 a.m. to turn off electric power after a light meter was reported broken at the rear of Elrod Furniture company.

Earlier, police had called Lee Nuckies, of the city water department, to open a water meter box at 604 NW 4th. Water was flowing from a broken hydrant at that address.

## Local Delegation Leaves Friday For Capital Hearing

A three-man delegation is to leave Friday for Washington where it will represent Big Spring at a Civil Aeronautics Board hearing to determine if Continental and American airlines service should be discontinued.

The hearing has been set for Monday. CAB Examiner James A. Verner has recommended that both American and Continental landings be discontinued here.

City Manager H. W. Whitney, Commissioner Jack Smith and Chamber of Commerce Manager J. H. Greene are to represent the city at the hearing.

## Farmer Loses By 3-1 Count

# Bettye Jean Graves Is Honored With Tea

COAHOMA, July 13 (Sp) — Bettye Jean Graves, bride-elect of Raymond Wallin, was named honoree at a tea in the Coahoma Methodist parsonage. Hostesses were Mrs. Lloyd Brannon, Mrs. Jimmie Brooks, Mrs. J. A. Sullivan, Mrs. R. F. Dorsey, Mrs. Paul F. Shedy, Susie Brown, Mrs. H. A. Wise and Mrs. A. D. Shive. Graves-Wallin wedding vows will be exchanged Saturday, July 15 in a double ring ceremony in the home of Mrs. Yvonne Blakley, 817 Bovis Drive, Ada, Okla.

Guests were received by Mrs. E. H. Coston and presented to the honoree, Mrs. C. R. Graves, mother of the honoree, Mrs. Carleton Benson of Lubbock, aunt of the honoree and Mrs. J. W. Fitzgerald of San Antonio, grandmother of the bride-elect.

The honoree was attired in a dress of deep pink shadowed orange fashioned with a plunging neckline, brief sleeves and a full skirt. Her corsage was of pink and white carnations tied with silver metallic ribbon.

Sue Wise presided at the white bride's book and Wanda Shives dia-

played the gifts. Decorations featured the honoree's chosen colors of pink, white and silver. The serving table was laid with a Normandy lace cloth and centered with an arrangement of pink carnations and white stock. Silver and crystal appointments completed the table setting. Graves-Wallin wedding vows will be exchanged Saturday, July 15 in a double ring ceremony in the home of Mrs. Yvonne Blakley, 817 Bovis Drive, Ada, Okla.

Guests for the affair were Mrs. K. G. Blalock, Wanda Brannon, Elizabeth Turner, Mary Reams of San Angelo, Mrs. J. W. Fitzgerald of San Antonio, Mrs. Carleton Benson of Lubbock, Mrs. W. H. Wise, Frances Bartlett, Susie Brown, Sue Wise, Mrs. Don McKinney, Mrs. Marion Hays, Mrs. R. D. Cramer, Mrs. Paul F. Shedy, Mrs. A. D. Shives, Wanda Shives, Mrs. Bud Brannon, Virginia Kidd, Mrs. F. E. York, Mrs. T. A. Bartlett, Mrs. D. S. Phillips, Mrs. H. H. Tanner, Mrs. Melvin Tindol, Mrs. C. J. Engel, Mrs. E. H. Coston, Mrs. Jimmie Brooks, Mrs. Albert Wirth, Janylou Brewer, the honoree and the hostesses.

### Small Fry Designs

Embroider these amusing designs in vivid colors on children's clothing or bedroom linens. Hot iron transfer pattern No. 1854 contains 12 motifs from 1 by 2 to 5 by 10 inches with complete instructions. Patterns are 20 cents each. An extra 15 cents will bring you the Needlework Book which shows a wide variety of other designs for knitting, crocheting, and embroidery; also quilts, dolls, etc. Free patterns are included in book.

Send orders, with proper remittance in coin, to Needlework Bureau, Big Spring Herald, Box 229, Madison Square Station, New York, N. Y.

# Elementary Education Workshop For Teachers Is Concluded Wednesday

Twenty-three local school teachers have been attending the elementary education workshop held at West Ward School which ended yesterday. The workshop, lasting six weeks, was taught by Dr. Davis from the Education Department of Texas Tech at Lubbock.

Each teacher chose a project on which to research for a paper she presented before the entire group in the workshop. New phases of elementary education were explored by many of the teachers. Reports were heard on music and art, arithmetic, science, art, child behavior, and children's literature.

Special demonstrations were given by some teachers along with their papers. June Day of South Ward school presented an art display, and Mrs. Ruth Rutherford of Big Spring children to illustrate the presentation of a science lesson to an elementary class.

Reading, which has been found to be the biggest problem in elementary education, was the project of Ailene Hamilton of South Ward School. She gave a demonstration of activities she plans to use for first-grade children in the pre-reading period at the beginning of school.

The workshop offered six hours of credit to the teachers. These were used by many to supplement requirements of the new Gilmer-

Alken bill in Texas. Teachers attending the workshop were Mrs. Dan Feather, Mrs. Margaret Morgan, Mrs. Kelly Lawrence, Mrs. Violet Reed, Mrs. Theo Sullivan, Mrs. Mildred Bennett, Lousann Ware, Mrs. Maurice Coger, Mrs. Ailene Hamilton, Mrs. Ruth Rutherford, E. B. Blackburn

of Ballinger, Mrs. Arthur Reuckert, Mrs. Velma Grisee, June Day, Mrs. Mabel Logan, Mrs. Clara Coffee, Mrs. Emma Lee Babep Lucille Grant, Mrs. Jean Sitter, Mrs. Margaret Finney, Mrs. James Wilcox, Betty Collins and Mrs. Clifford Hale. Two Coahoma teachers also attended.

# Baptist WMU And Methodist WSCS Of Coahoma Meet In Regular Sessions

COAHOMA, July 13 (Sp) — Mrs. Bill Bostick presented the program, "What So Ever Things Are of Good Report" when the WMU of the Baptist church met Monday afternoon. Mrs. Bostick gave the message from the chapter of Prayers were of Mrs. Nixon. Others taking the program were Mrs. Paul Camp, Mrs. Mark Reeve, Mrs. R. B. DeVaney and Dorris Ray Morrison. Others attending the meeting were Mrs. G. W. Graham, Mrs. D. W. Byrns, Mrs. Floyd Hull, Mrs. W. R. Morrison, Mrs. O. D. O'Daniel, Mrs. Fred York, Mrs. M. D. Ballard and Lee York.

Mr. and Mrs. Melvin Tindol gave the fifth chapter of the mission study book, "Missions At the Grass Roots" when the WSCS of the Methodist church met in the home of Mrs. R. D. Cramer. The meeting was opened with the hymn "Faith of Our Fathers" and closed with a prayer by Mrs. Susie Brown. Watermelon was served to Mrs. Melvin Tindol, Mrs. E. H. Coston, Mrs. Susie Brown and Mrs. R. D. Cramer.

# W. E. Manns To Have Open House

Mr. and Mrs. W. E. Mann will observe their silver wedding anniversary Sunday, July 16. Highlight of the day will be an open house from the 3 o'clock to 6 o'clock Sunday afternoon in their home, 704 S. 10th. An invitation is extended to friends to call during those hours.

# Meeting Called

Announcement has been made that the Does Lodge will not meet Friday, July 14, as scheduled. The regular meeting will be held July 28. Announcement of time and place will be made at a later date.

# Two Men Fined \$300, Costs On DWI Charge

Two men charged in county court this morning with driving while under the influence of intoxicants were fined a total of \$300 and costs by Judge John L. Dibrell, Jr.

Hardest hit was Fidel Cabellas, reportedly involved in an automobile mishap, fined \$175. T. A. Hall, the other man brought before the judge, was fined \$125 and expenses.

# MENU FOR TOMORROW

**FRIDAY FARE**  
Avocado and Orange Cocktail\*  
Pan Fried Filets  
Parsley New Potatoes  
Lettuce, Radish, and Cucumber  
Salad with Sour Cream Dressing  
Berry Bowl with Cookies  
Beverage

(Recipe for Starred Dish Follows)  
**AVOCADO AND ORANGE COCKTAIL**

Ingredients: 1/2 teaspoon salt, dash of pepper, 1/2 teaspoon mustard, 1/2 teaspoon onion salt, 1/2 teaspoon paprika; 2 teaspoons elder vinegar; 2 tablespoons olive oil; 2 medium-size oranges (about 1 cup diced and juice); 2 small or 1 large avocado (about 2 cups diced).

Method: Put salt, pepper, mustard, onion salt and paprika in a small mixing bowl; add vinegar and stir well to blend seasonings. Add olive oil and beat well with a fork. Peel chilled orange so that no white membrane remains; slice in white circles and cut each circle in sixths; or cut orange segments away from membrane walls and halve each. Cut avocado in half and peel; slice and dice. Arrange avocado and orange in 4 sherbet glasses in layers, or place the avocado cubes on one side and the orange cubes on the other. Pour 2 teaspoons of the dressing over the fruit in each glass and serve immediately. Makes 4 servings.

# Johnie Kennon Is Honored With Shower Wednesday

Johnie Kennon, bride-elect of Johnny Reynolds, was honored with a shower in the home of Mrs. J. J. McClanahan Wednesday evening. Hostesses were Blity Jones and Dana McClanahan. Refreshments were served to approximately seventy-five guests.

The table was covered with a light ecru lace cloth, and the centerpiece was of yellow asters and blue daisies. Yellow napkins were engraved with "Johnie and John," in blue.

The honoree wore an orchid linen dress with white accessories and a white carnation corsage. Mrs. Kennon wore a brown and white silk shantung dress with brown accessories. Her corsage was of yellow carnations.

Dana McClanahan wore a navy and white crepe dress with white accessories. Blity Jones wore aqua voile with white accessories and a corsage of fuchsia asters. Mrs. McClanahan wore a dress of grey and fuchsia with black accessories.

# Has Plenty of Accounts

LONDON, July 13 (Sp) — Nigerian Student Obabunmi Aina got himself a six-room apartment in crowded London because he had plenty of coconuts.

Aina told a rent tribunal yesterday he paid his landlord a grocer, 80 pounds (\$224) and 3,200 coconuts as a premium for the apartment.

The coconuts? Aina asked his folks back in Nigeria for some and they sent him two tons.

# Returns From Melissa

Jackie McKinney returned Wednesday morning from Melissa where she attended funeral services for her father, Thad Parris.

# VISITS and VISITORS

Mr. and Mrs. Hartwell L. Stacks and Gloria have returned to Texarkana after spending several days here visiting Mr. and Mrs. W. J. Wilson Jr. Mrs. Stacks and Mrs. Wilson are sisters.

Mr. and Mrs. W. E. O'Shields of McKinney have been visiting relatives and friends in Big Spring this week.

Mr. and Mrs. Shelby Hall and Raymond Edward, and Mr. and Mrs. Lewis Hall will leave tomorrow to spend two weeks with relatives and friends in Russellville, Kentucky.

Jo Gregory and Amy Lee O'Dell and son Gary visited Mr. and Mrs. V. E. Best in Merkel recently.

Mr. and Mrs. H. C. Turner, Janice and Joe Alvin, are visiting Mrs. Turner's parents, Mr. and Mrs. A. F. Chapman of Route 1, Mr. Turner, a U. S. Army Engineer, has been transferred from Galveston to Fort Worth and the family is en route to their new home.

MRS. JACK KEITH TWEEDLE was Billie Doris McClain before her marriage July 1 in a single ring ceremony at Carlisbad, N. M. She is the daughter of Mr. and Mrs. H. C. McClain of Big Spring and Tweedle is the son of Mr. and Mrs. Harry Tweedle of Sterling City. The couple is at home in Sterling City where he is engaged in ranching.

# Certificates To Be Awarded On Sunday

Daily Vacation Bible School at the First Assembly of God Church will end tomorrow with a picnic. Certificates will be awarded at the commencement exercise Sunday at 11 a.m.

William Burdine has been in charge of the school which had an enrollment of 125 and an average daily attendance of 90, Mrs. C.

R. Love is in charge of music. The Intermediate Department, whose theme was "We Know the Bible is True," was taught by Mrs. Edd Wilkerson and Mrs. Jack Touchstone. Teachers in the Junior Department were Mrs. Curtis Ray and Irish June Hahn. Their theme was "The Road from Earth to Heaven."

Mrs. Hubert Clawson, Mrs. Cecil Leatherwood, Mrs. Edna Taylor, Doris Ann Hahn, and Ruby Frens were teachers in the Primary Department. Their theme was "We Choose to Do Right."

Mrs. Kirk Dyer, Mrs. Iram Keen, and Wanda Clawson taught the theme "The World God Made" to the Beginners.

# Three Link-Miriams Elect New Officers

New officers elected at the meeting of the Three Link-Miriam Club Wednesday were president, Earl Wilson, vice-president, Judy Kehrer, secretary, Lena Fay Franks, and treasurer, Gordon Gross.

Those present were Velma Mitchell, Julia Wilkerson, A. C. Wilkerson, Ruth Wilson, Lois Foresyth, Judy Kehrer, E. F. Kehrer, Rosalee Gilliland, A. F. Gilliland, Lena Fay Franks, Beulah Van Arker, B. M. Franks, Lucille Thomas, Eugene Thomas, Alma Crenshaw, Gene Crenshaw, Nannie Adkins, Irene Gross, Gordon Gross, and Ida Mae Cook.

# Bud Pettys Are Named Honorees At Open House

Mrs. Frank Morgan and Mrs. W. J. Moore honored Mr. and Mrs. Bud Petty with a housewarming Tuesday evening in their new home, 1807 Johnson. Calling hours were from 7 o'clock to 10 o'clock. Various arrangements of summer flowers were placed at vantage points throughout the house. Refreshments were served to Mr. and Mrs. Paul Jacoby, Sharon and Mike, Mr. and Mrs. Jess Sanders, Mrs. G. W. Morgan, Mrs. L. D. Jenkins and Mary Beth, Mrs. Jim McCrary and Judy, Mr. and Mrs. Rayford Liles and Christie, Mr. and Mrs. Homer Ward, Mr. and Mrs. Frank Hughes and Billy and Diane, Mr. and Mrs. James Dennie, Mr. and Mrs. Avery Falkner, Mrs. Emily Wasson, Charlene and Lavelle, Barbara Lewter, Mr. and Mrs. J. T. Killard, Marvin Ferguson, Mrs. Beth McCoy, Mr. and Mrs. Lou Carothers, Mr. and Mrs. Travis Carlton, Mr. and Mrs. B. J. Petty, Mr. and Mrs. Herschel Petty, Carolyn Halbrook, Mr. and Mrs. B. S. Petty, Mr. and Mrs. Bob Flowers, Mr. and Mrs. Red Womack, Mr. and Mrs. I. B. Lowe, Mrs. Anna Maude Maynard, Mrs. Lois Ellison, Hubert Watson, Mr. and Mrs. Garner McAdams, Mr. and Mrs. Ed Ray, Mrs. Lois Talkington, Mrs. Christine Lewter, Frank Morgan, the hostesses and the honorees.

Patterns ready to fill orders immediately. For special handling of order via first class mail include an extra 5 cents per pattern.

The SUMMER FASHION BOOK presents the best in warm weather styles, all easy to wear and easy to make. A wonderful book to round out your vacation needs, suggest cool and comfortable fashions for town, country, home. Over 150 practical designs for all ages and occasions. Send for your copy now. Price just 25 cents.

# COFFEE SMELL ELIMINATED

LOS ANGELES, July 13 (Sp) — Whatever else the smog may smell like, it won't be coffee from now on.

Smog Control Chief Gordon P. Larson gave the coffee companies a pat on the collective bean yesterday. Smoke from their roasting ovens has all but been eliminated from the Los Angeles air.

Larson said 15 of 18 plants cited are now smokeless, the other three are installing preventive equipment.

# LOST 28 POUNDS WITH THIS HOME RECIPE

As a grateful user of Barco's diet, I can recommend it to anyone. I was 160 lbs. when I started, now I have taken 28 pounds and lost 25 pounds—now 137 to 140.

As a grateful user of Barco's diet, I can recommend it to anyone. I was 160 lbs. when I started, now I have taken 28 pounds and lost 25 pounds—now 137 to 140.

# Relief From Monthly Pains - A New Sensation

For Scores of Happy Girls and Women

A new and wonderful experience has been found for many a girl and woman. No more need to rely on pain-killers for more temporary "relief" of pain and cramps due to functional disturbance. Now, by the use of Carvel each month, you can get rid of the modern type of menstrual trouble. Carvel is a powerful, yet gentle, remedy that brings you gradual relief from cramping to complete freedom from every month. Don't wait to try this blessed boon. Ask your dealer for Carvel today. Used occasionally by thousands.

LOSE 28 POUNDS

As a grateful user of Barco's diet, I can recommend it to anyone. I was 160 lbs. when I started, now I have taken 28 pounds and lost 25 pounds—now 137 to 140.

A Bible Thought For Today -

We should appreciate them when they do come! We should not wait till we are in desperate need. "Surely goodness and mercy shall follow me all the days of my life."—Ps. 23:6.

Not Question Of Mere Return, But Of A Vote Of Confidence

Due to a variety of reasons, Texas' interest in the July 22 Democratic primaries seems to be at lower pitch than in former years.

The obligation to vote intelligently is still with us, and it is incumbent upon the voters to give due consideration to the merits and the platforms of those who are bidding for public office.

For the state's highest office, the governorship, the Herald believes that Allan Shivers is deserving of a big vote to return him to the position for a first elective term.

The office passed to Shivers, upon the death of Beauford Jester, in sudden and dramatic fashion. He had to assume new responsibilities overnight. He had a lot of catching up to do on the functions of the executive department. He has, we think, done well.

While he probably has not faced many issues of tremendous import, he has handled with cool and efficient calm all those which have arisen. He has, as the saying goes, kept his feet on the ground. He has made friends with Texans and has learned a lot more about Texas, to the

extent that he now is in position to be more valuable as governor than ever before.

The story of Allan Shivers is a good Texas story. He is a native of the state, was educated in this state, has practiced law in this state, has farmed and ranched in this state and engaged in other forms of business in this state.

He has been a leader during his career. He was president of the student body while he was at the University of Texas. He has been a member of the Lions Club. He has been a bank director and a director in the citrus growers association.

He saw war service, spending two years overseas. He was a successful candidate for lieutenant governor in 1946 and 1948. He has been married since 1937, is the father of three children.

In brief, Allan Shivers' career in Texas has been the wholesome, successful, happy and honest career that Texans like. You cannot classify him as a politician, but you can classify him as a capable, conscientious young man, interested in the welfare of Texas, and able to do something about the welfare of Texas. He should make this state a good governor for another two years.

Democratic Delays Are Natural, But Not Always Truly Necessary

No democratic nation is ever geared to war, in the sense that a totalitarian power is. The democracy must pause to batten down the hatches and tighten up the screws; the aggressor totalitarian state isn't bothered with legalistic details.

All the same, this democracy has known for at least three years that it was sitting on a powderkeg. It knew disaster might strike at any moment, anywhere. It's beginning now to be apparent that many of the ordinary, obvious preparations that should have been made were not in fact made at all. Congress only a few days ago adopted the draft extension law. Although the draft machinery was supposed to be on a stand-by basis—that is, in a reasonable condition to start functioning quickly—Director Fleming declares it will take sixty days to begin the actual draft of the 20,000 young men needed "right away."

And the military authorities only this week started looking for ships to transport additional manpower contingents to the scene of battle. It seems to us a singu-

lar oversight, in a world where war might come at any moment, not to have made some sort of advance preparation to insure plenty of ships at a moment's notice. Doesn't Washington make any attempt to keep track of the ships flying the American flag, and maintain a procedural apparatus for calling them in on a moment's notice? Apparently it doesn't even know where the ships are, much less have a plan of mobilization.

And some of those wonderful new weapons the military has been talking about—where are they? Well, in the case of the newer and more effective 3.5 bazooka, which was declared a standard weapon a year ago, reporters were told by an army spokesman that just because a weapon has been made standard it's no sign it is available in quantity—it might take a year to get it in full production. Why a year, in view of what we've known all along, that it might be needed at any moment?

We have been through these experiences before, but must we go through them forever?

The Nation Today—James Marlow

Freshman Congressman Has An Idea On Pork Barrel Spending

WASHINGTON, — FOSTER FURCOLO went to Yale. So his arithmetic ought to be all right. And it really came in handy for him, as this story will show.

He's a young man, 39, serving his first term in Congress, in the House. He's a Democrat from Massachusetts. After two years here he learned what people who have been around longer take for granted.

It's this: That every year, just as surely as little boys get measles, members of Congress do two things. They preach less government spending and vote for the "pork barrel" which means spending.

"Pork barrel" includes things which cost the taxpayers money but please the folks back home where the votes are. Things like dams, flood control works, river and harbor improvements, post offices.

SOME TIMES THE PORK BARREL items may really be necessary for the benefit of the home folks sometimes, maybe not. But to get them, the home folks put plenty of pressure on their senators and representatives.

Of course, members of both House and Senate do the economy preaching. But the senators seem to make more noise. Maybe that's because talking-time is limited in the House but isn't in the Senate.

Anyway, after watching the show for a couple of years now, Furcolo got out his pencil and paper, did some figuring, and came up with this information which he duly reported to his fellow members in the House.

Year after year the Senate has been voting for bigger spending than the House. From 1946 to 1950 the Senate voted to spend about \$18,300,210,943 more than the House thought necessary.

THAT'S NOT JUST PORK BARREL. That sum includes all the things for which the Senate voted money to run the government. Pork barrel items were just a comparatively small part of it.

But — for pork barrel items, Furcolo found, from 1946 to 1950, the Senate voted

to spend about \$636 million more than the House. Very politely, though, he told the House:

"The average senator does his best to obtain whatever dams, flood control works, river and harbor improvements, highways, post offices and other federally financed projects that he believes are beneficial and necessary for the people of the nation and the people of his state."

But then he added a paragraph and, if you read it twice, it may occur to you that he has a sense of humor, for he said of the average senator (although he could have said it of the average House member, too):

"OF COURSE, HE SCRUTINIZES SUCH projects with an economy eye focused on real necessity and not with a political eye focused on the thought that an inpour of federal money into a state means an outpour of votes for the person responsible."

This raises a kind of double question: 1. Will any member of Congress, who wants to stay in Congress, be eager to displease the home folks by voting against some pork barrel item?

2. Do the folks back home really want economy in government? Or do they just want economy for someone else but pork barrel for themselves?

Furcolo suggested the following be done so members of Congress can know for sure how the majority of the people at home feel:

Legislatures, city, and county governments and citizens committees ought to go on record as telling their congressmen just how they feel about the pork barrel stuff intended for them and other people.

Museum Will Receive Buffalo Bill's Rifle

CODY, Wyo.—The rifle that Buffalo Bill used in his adventures in the west will be given to the Cody Memorial Museum here, in real life, Buffalo Bill was William Fredrick Cody.

The rifle he used in real life as a pioneer scout in the west is now in an arms collection of Walter F. Siegmund, an official of the Winchester Repeating Arms Co. The Cody museum was founded by his niece, Mary Jester Allen. Siegmund will present the rifle to the museum July 4 during the Frontier Days celebration.

Today's Birthday

GEN. LEONARD TOWNSEND GEROW, born July 13, 1888 at Petersburg, Va. Commander of U. S. ground forces in Britain in World War II. He led the Fifth Corps in the attack on Omaha Beach and later organized the 15th Army. He rose from World War I captain.

"No Hitching On"

Merry-Go-Round—Drew Pearson

Gillette Not Anxious To Embarrass Anyone Over Campaign Expenditures

WASHINGTON — Two Democratic senators in two widely separated areas appear to have widely divergent views on big campaign contributions:

No. 1 is serious-minded Sen. Estes Kefauver of Tennessee who today opens up a big probe of Florida gambling, including the third of a million dollars pumped into the political kitty of Fuller Warren to elect him governor of Florida. Warren is a Democrat and so is Kefauver, but the senator isn't letting that hamper the investigation.

No. 2 is likable, silver-crested Sen. Guy Gillette of Iowa, chairman of a Senate committee supposed to investigate big campaign contributions. When the easy-going Mr. Gillette is asked too many questions about his probe, he puts on his hat and walks away.

So far this year more big money has been pumped into senatorial primaries than almost any other year in history, both by Democrats and Republicans. But Guy Gillette just doesn't seem anxious to embarrass either party.

WHO ELECTS? Down in Miami, Senator Kefauver's investigation, beginning today, goes to the root of how the gambling rackets have become political vehicles. I haven't talked to Kefauver's investigators, but I have made a study of Florida gambling and here is the general picture he will find:

Gambling in the lush winter sportland around Florida has been divided among three gangs: A. The old Capone mob under William H. Johnston of Chicago and Jacksonville controls the dog races of the entire state.

B. The S&G Syndicate, a group of local businessmen, control the bookmaking in Miami and Miami Beach.

C. The New York mob, under Meyer Lansky, an associate of Frankie Costello, operates in Broward County, north of Miami Beach.

In order to preserve the millions in profits raked in from these areas, the gangs subsidize the sheriffs of their local counties and even the governor of Florida himself. In fact, when the Chicago gang told the S&G Syndicate to move over and let them in on part of the Miami bookmaking, the S&G Syndicate immediately appealed to the man it had helped elect to office, Dade County Sheriff Jimmy Sullivan.

Whereupon, the Chicago gang also fell back on the man it had helped elect to office, Gov. Fuller Warren. Dog-racer William Johnston, it developed, had contributed the amazing amount of \$154,000 to Warren's primary campaign, despite the fact that it was against the law at that time to contribute more than \$5,000 per person. After Warren was elected to office, of course, he got the law changed.

Another \$154,000 was given and loaned to Warren by Louis E. Wolfson of Jacksonville, also in violation of the \$5,000 limit.

Governor Warren has now found himself betwixt and between in the war of gamblers, and the Kefauver Crime Committee wants to find out what the gamblers get in return for their stupendous campaign gifts.

NO. PILERS? Meanwhile, in another part of the U. S., other sizable campaign gifts have been revealed in the good, old Republican state of Pennsylvania. This time gamblers were not the contributors, but big manufacturers.

Joe Grundy, the famed GOP high-tariff advocate, contributed \$94,000 to the Jay Cooke-John Junkel campaign in Pennsylvania to defeat Gov. Jim Duff, also Republican. Mason Owslet put up \$52,000 loaned; another \$45,000, while his wife gave \$3,000. W. T. Wright also loaned \$156,135 to the Kunkel-Cooke committee.

But in Washington, Senator Gillette did not seem much interested in these big contributions. He sent Fielding Wright, Jr.,

son of the Mississippi Dixiecrat governor, to Pennsylvania to probe the big dough shelled out by the manufacturers, but it was learned that Wright chiefly paid a social call on the Pennsylvania secretary of state.

PREFERS 'SCOUTS' Asked what Young Wright had done in Pennsylvania, Gillette said he didn't know. "Aren't you the chairman?" the senator was asked.

"Of course, but I don't keep track of every detail," said Gillette, and reached for his hat. "As a matter of fact," the senator was reminded, "all Fielding Wright did in Pennsylvania was to pick up the information that was available in the secretary of state's office. You could have gotten just as much by writing a letter."

"No, he got more information than that," insisted Gillette. "What is Wright's background as an investigator?" the senator was asked.

"I don't know." "Didn't you study his qualifications before hiring him?" "Sure," shot back the senator, again reaching for his hat. "Then how much experience has he had?"

"I'm just not going to give you that information." "Isn't it true that Wright really spends most of his time in the office of Senator Stennis of Mississippi rather than being out in the field investigating campaign expenditures?"

This time the senator not only got his hat, but ducked through the door and began walking rapidly down the corridor of the Senate Office Building.

"The senator," explained his assistant, "has to meet some Boy Scouts."

That, perhaps, explains the type of handshaking like Guy Gillette performs at a time when as much as \$1,500,000 has been spent in one primary to elect a senator, when they finally wake up to what's going on, probably won't.

Around The Rim—The Herald Staff

This Era In History Will Go In Books As An Eventful One

Birthday time is near at hand for yours truly, and it's going to be number 25. Who cares if this is the half-century mark? It's my quarter-century occasion and brother, here's one person who is mighty glad to have lived these past 25 years.

True, the past quarter-century has seen chaos, death and destruction in the world, but in what other 25 year period has a world moved so fast and furiously, recording moments history will long remember?

Granted, the late world war and to-day's Korean crisis in Korea leave little for a civilized people to be proud of, but despite this, as we look over the entire picture, the world is making progress toward eventual peace.

Whoa, don't laugh at this. I know the Korean war isn't exactly peace, but the end result of what should happen there and the means being taken, and how they are being taken, should prove encouraging.

This is shown by the fact that over 50 nations have supported the United Nations declaration of intervention in Korea in the interests of securing world peace.

If many of these same nations had done likewise in the early 1930's when Japan invaded Manchuria; in the middle 1930's when Mussolini stepped into Ethiopia; and in the last part of the 30's when Hitler marched into the Rhineland—well,

then we seriously doubt that World War II would be in the history books of today.

So it is with pride that we can say "I am glad I've lived in such a historic era—an era when statesmen and diplomats have finally, after many thousands of years, realized that an everlasting peace is only attainable by mutual cooperation and understanding."

While the UN represents a truly gigantic step towards world stability, still another step is being taken in Paris, France, where diplomats of Western European nations are planning the goal and steel road in an attempt to solve mutual economic difficulties.

Such steps will bring closer ties, not just in friendship, but in the sphere of international relations on a governmental level.

While many barriers still exist, including the supposedly formidable language barrier, men are uniting in common endeavors for mutual benefit at a pace unprecedented during any previous time.

So, I hope you'll join me in not just acknowledging the fact that we live in an historic era, but work with me, your neighbors in this country, and your neighbors abroad in seeing that this era succeeds where no other era has done.

The future of the world is in our hands. If we maintain this era's progress, we cannot fail to achieve lasting understanding and lasting peace.—FRED GREENE.

Affairs Of The World—DeWitt MacKenzie

It'll Be Tough In Korea Until Equipment Reaches The Front

MOST OF US, I IMAGINE, ARE READING the war news from Korea with mixed emotions — with vast pride in the gallant job being done by our boys against tremendous odds but with grave anxiety over how long it may take to provide sufficient troops and equipment to overcome those odds.

This is exactly the situation which we should expect in this early stage. We are undertaking to counter the carefully planned aggression of a powerful and well trained army, fully equipped.

The North Korean Communists have flung the American line back in the strategic Kum River region of South Korea. It was a blow of great strength, powered by an estimated 80 Russian-made tanks, some of which were 60-ton giants.

WE CAN SUM UP THE POSITION roughly by pointing out that the Kum River has been the Yanks' major defense line north of the City of Taeyon—Central South Korea — which has been a U. S. field headquarters.

Our men will meet with many crises like the present one while reinforcements and equipment are being rushed to South Korea.

You may recall how the combat-fatigued

Deutenant summed the position up after his contingent battled until its ammunition was exhausted and then retreated:

"Ten to one is good odds. But we can't take 100 to one odds — without ammunition. . . . Just give us the stuff."

In the next few weeks, while additional troops and "the stuff" are arriving in South Korea, we are going to encounter some tough going. However, we must accept this as the natural trend at this stage — a trend which our military chiefs expect will improve progressively until the tide turns and we sweep on to victory.

AND IS IT NECESSARY THAT WE should go through all this? Is there no way of halting the Korean war?

The London foreign office has announced that Sir David Kelly, British ambassador in Moscow, has had a talk with Soviet Deputy Foreign Minister Andrei Gromyko regarding a possible "peaceful settlement of the Korean conflict."

So the possibilities are being explored. Of course an agreement between Moscow and the western allies would be the only way in which a settlement might be brought about. However, so long as the Reds are meeting with success in Korea the prospects of any settlement are grim.

Notebook—Hal Boyle

It's Nice That No War Widow Heard The Bar Conversation

NEW YORK, (U.S.—IT WAS NICE THAT no newly-returned American widow from the Far East was there.

You know some of them are back home already with their kids—young girls, who kissed a husband goodbye in Japan, and heard a few days later he was dead in his country's service in Korea.

-And quickly the widows and their fatherless children come shuffling here by air. But, of course, they weren't going to bars. Not numbered and dazed and with duties to fulfill.

HOWEVER, SHOULD SOME WIDOW, alone and more desperate than she knew, have wandered into a typical small Manhattan bar . . . and had she listened to what she heard . . . it might have made her more desolate than before.

She might, for example, have heard this: "Well, thank God, the Lost Battalion got through!" exclaimed the tall young man.

"What do you mean—the Lost Battalion?" asked the older girl next to him. "The Lost Battalion—the Lost Battalion in Korea!" said the tall young man. "Don't you know we've had a Lost Battalion cut off for days by the North Koreans?" "No," said the girl. "I been tied up

worrying about baseball."

"Oh, you mean the Lost Battalion?" then said the older girl. A bystander would get the impression she wasn't sure of the difference between a battalion and a medalion.

"THAT'S WHAT I BEEN TRYING TO tell you," insisted the young man. "We lost a battalion in Korea and it fought its way back. Nobody here even seems to care about it."

"Well, it's nice they're all back," hedged "I didn't say they all got back," cried the young man. "I just said the Lost Battalion got back, I don't know how many of them did or didn't. But they couldn't all have made it."

"Well, really . . ."

"What is the use?" said the tall young man, bitterly. "What is the use? I shouldn't have brought it up."

As I say, it was nice that no freshly-arrived widow had dropped in all alone before going on somewhere to meet her parents. She might have wondered if she were really in her homeland.

Hollywood—Bob Thomas

Greene Tries To Referee Tiff Between British, U. S. Actors

HOLLYWOOD —Richard Greene tried to referee the Anglo-American actors' tiff today, but admitted he may get stung from both sides.

The controversy started with British protests against Irene Dunne coming over to play Queen Victoria in a U. S.-sponsored film.

Hollywood answered that it has never discriminated against foreigners here and that many English citizens have played Americans in our films. Most notable example: Vivien Leigh as Scarlett O'Hara.

Viewing the fracas, Englishman Greene remarked: "I can see the reasoning of both sides, since I have lived and worked both here and in England. The whole situation calls for a great deal of understanding."

You have to know conditions in the English industry. The best production out-

look has been dismal. When I was over there last, eight studios closed up entirely. Only a very small percentage of the actors have been working, stars as well as featured players. Naturally they resent it when an American comes over to take a role that an English star might have played.

"I can understand their anger over an American playing Queen Victoria, who is one of our great figures of recent history. I would expect the same resentment if I were cast as Daniel Boone over here. I would look pretty silly talking with my accent and having a coon skin cap dangling from my head."

On the other hand, he added, "I can understand the reasoning of American companies. They go over to make pictures that will sell at the box office in the U. S. To do that, they need stars."

**COMPHOMETER**—Visitors to the Texas Electric Show of '50 on the grounds of Big Spring High School starting Wednesday, will be able to test their "oomph" on this machine that was contrived by Westinghouse engineers. Pacing the hands on two different metal plates sets up a faint current that is measured on the meter that ranges from "Nearly Dead" to "Fully Charged." Look where the needle is now!

**Police "Greetings"**

SANTA ANA, Calif. (AP)—Instead of citations, out-of-state traffic violators in this city get greeting cards. Police Chief B. A. Hershey had some orange cards printed up. On the back is a street map which lists points of interest. On the front is a legend pointing out that "perhaps unknowingly" the motorist has broken the law.

**LEGION CAN'T MAKE IT WORK**

MILFORD, Conn., July 13. (AP)—The American Legion said today it isn't going to put on any more Fourth of July fireworks displays here unless the spectators show more appreciation than they did this year. The Legion passed the hat among an estimated 5,000 persons at its display last week and this, it said, is what it got: Eighty-nine dollars in cash; \$5 bus tokens, no good since bus fare went to a straight 10 cents more than a year ago; assorted nuts and bolts, and four and a half pounds of pebbles.

204-208 SCURRY BIG SPRING

# Variety Of Structural Steel Maintained By Iron & Metal

Structural steel of all kinds is available at the Big Spring Iron and Metal company, 1507 W. 3rd street.

Julius Zodin, manager, has announced that his concern has now in stock a variety of types of structural steel members as well as bars and rods for concrete reinforcement and other types of construction work.

Structural members are stocked in the popular "I" beam, angle iron, and channel beam types for roof and wall support. Available for use with concrete are flat iron strips for over door and window supports and knurled rods for reinforcing concrete sub structures or concrete beam wall and roof supports.

Reinforcement bars are provided in sizes ranging from 3/8ths to 1 1/2 inches in diameter. Zodin also has in stock a large quantity of wire mesh, 6x6 and 6 gauge, for use as fencing as well as for reinforcement of concrete floors.

The Big Spring Iron and Metal company also has a large supply of both new and used pipe in popular sizes.

New galvanized pipe is available in sizes ranging from 1/2 inch to two inches in diameter. Used pipe is stocked in the same sizes as well as varieties of larger diameters.

The W 3rd street concern is Big Spring headquarters for disposal of all types of scrap iron, steel, and other metals. Zodin pays top scrap prices for junk steel and cast iron, as well as for copper, aluminum, brass, lead, and similar metals. He also offers a market for old batteries and discarded auto radiators.

Another service offered by the Big Spring Iron and Metal company is that of custom building clothes line poles, cattle yards, and similar pre-fabricated steel structures.

The concern's expert welders will construct such pieces of equipment to the exact specifications of Big Spring Iron and Metal customers. Finished products will be delivered anywhere in the Big Spring area.

Proper distance for viewing a 16-inch television set is declared by the experts to be six to ten feet.

Kits have been put on the market to convert 10-inch television sets into a 16-incher.

**NEW AMBULANCE**—Part of the extensive Nalley service is that of ambulance calls. Recently added is a new ambulance — fast, comfortable and safe. It, and other equipment, is available instantaneously on call 24 hours a day. During the past month a Nalley ambulance stood by for more than three weeks at the oil well fire as a special service. Of course, the ambulance is handy for transporting non-emergency patients to and from the hospital. (Culver Photo).

# Awning Shelters Donald's Patrons

For the convenience of its customers who call during the daytime, Donald's Drive In — located at 2406 Gregg street in Big Spring — has installed a giant awning over its parking area.

The covering proves especially popular with customers who like to be serviced without alighting from their vehicles.

Donald's, owned and operated by Donald Brown, caters especially to persons who like snacks or beverages after ball games or theaters. Donald's breakfasts have

also proven very popular with customers who call at the establishment in the mornings.

The public will find it can obtain any type of food from short orders to steaks and chops at Donald's. The Mexican dinners prepared by Donald's chefs are famous all over West Texas.

Those who desire to be served on the inside of the establishment will find there is ample seating space. Comfortable booths have been installed at the concern.

The courteous approach of Donald's car hops is another factor that makes the establishment one of the most popular in Big Spring.

Car hops remain on duty there throughout the day and evening, too.

Brown has been in the restaurant business here for the past 17 years and has experienced help which has long been accustomed to dealing with the public.

# Colorado City Has Big Bank Deposit Increase Over '49

COLORADO CITY, July 19 — This city's growth is evidenced in the business barometers of postal receipts and bank deposits. The mid-year report of the Colorado City post office will show a whopping 30 per cent increase in gross receipts over 1949. The figures for the first six months of 1949 are \$21,650.49 and for a similar period in '50 are \$28,348.38. Business in the post office finance section is steadily upwards, with the influx of newcomers and heavy installment buying pushing money order sales to more than double those of five years ago.

Gus Chesney, Vice President of the City National bank reports mid-year deposits to stand at \$7,398,790 against \$5,086,877 a year ago.

# Shark "Caught" By Policeman; Bullets Got Him

ATLANTIC CITY, July 16 (AP) — A five-foot, 200-pound shark got into trouble with the police yesterday, and now he's fertilizer. Motorcycle Officer Harry Myers "caught" the fish by pumping 12 bullets into him. It had swam up a duck thoroughfare alongside the Absecon Boulevard.

A farmer, who had been annoyed by the shark swimming around his rowboat, took it home to grind it up.

# Puncture Proof Tubes Big Hit

Seiberling's Safe-Aire tires and puncture proof tubes continue to lead the popularity parade at the Creighton Tire Co., located at 203 West Third street in Big Spring.

The sealed-air tube offers protection that is unsurpassed. When pierced by a nail or any other sharp object that ordinarily results in a flat tire, the sealed-air tube simply brings into use a supply of soft plastic gum that seals the puncture.

"These tubes undoubtedly provide one of the most important safety factors that motorists need," says Charlie Creighton, who operates the tire company under his own name with his brother, Reuben Creighton.

Despite a sort of "war scare run" on tires recently, the Creighton Tire Co. has a large supply on hand for its customers.

Tires and tubes to fit any car or truck are kept in stock, and there also is a good stock of tires for tractors and earth-moving machinery.

A complete service station, featuring Phillips 66 products, is operated in connection with the tire store. Lubrication service is a specialty at Creighton's.

Nearly all the troops had moved out by Friday morning, but our did not clear the area until Saturday. The trip should take about three days. — (DON ANDERSON)

TO GAINES COUNTY

Extend Irrigation In South Plains

SEMINOLE, July 15 — The South Plains irrigation belt is being extended into central Gaines county.

Recently more than 300 people from deep West Texas and the South Plains section turned out for a demonstration.

Locals were a tract on the 13-section ranch operated by John Hill and his son, Elmer Hill, west of here. Two 160-hp motors turned a 14-inch pump to deliver more than 2,200 gallons per minute to spray young cotton. The well furnishing this volume was one of nine put down by Mr. Hill and his son in the past three months.

Hill and Ralph Bollen, Genesee, Ill., purchased the big spread from J. H. Proctor. It reputedly was one of the biggest real estate transactions in Gaines county history. George Burke of the Seminole Real Estate company handled the deal. He is a former Big Spring man, having returned to West Texas because he liked the country when he was stationed

at Big Spring Bombardier School in 1940. He resigned a position in the Big Spring post office to open his concern here.

There are 1,000 acres of the ranch in cultivation. Good water is believed to underlie most of all the area. Hill and his son, John O. Hill, will run cattle on the remainder of the spread and on two other sections. Proctor had had under lease.

The development here is being eyed closely. Many are convinced that deep-plowing, coupled with irrigation, can turn Gaines county from one based almost solely on oil and cattle to one in which extensive farming plays a key role.

Today only one-sixth of the county's 986,000 acres are under plow and most of the cultivated acreage is dry farmed. A few irrigated farms are producing potatoes and onions. The big acreage expansion furnished by the Hill demonstration is expected to lend considerable impetus. With water lying beneath at 70 to 100 feet, backers are becoming interested.

2 OFFSETS, STEP-OUT STAKED IN VEALMOOR

Two offsets and a stepout have been staked to the Brown No. 1 Lloyd Brañon, north central Howard East Vealmoor extender or discovery.

Brown No. 1 Brañon, 652.7 from the west and 667.3 from the south lines of section 18-27, H&TC, was bottomed at 7,386, and was running 5 1/2-inch casing to 7,325. After plug is drilled the test may be deepened some or it may be completed. No water was developed on the test from 7,360-86 where high gravity oil flowed at the rate of 35 barrels per hour.

Amcan and Southland Royalty with drill No. 1-18 Brañon in the center of the northwest quarter of the southwest quarter of section 18-27, H&TC.

About 40 Hurt In Vacation Train Mishap

— A SOO line special train carrying 225 eastern vacationists to Canada sideswiped a freight train here today, injuring approximately 40 persons.

Preliminary examination indicated only five or six were injured seriously. All were treated aboard the train or in doctors' offices here. Arrangements were made to take the passengers to Minneapolis later.

The 15-Pullman train had left Minneapolis at 1:30 o'clock in the morning. It carried Ohio and Atlantic seaboard hardware men and their wives, bound for Banff, Canada, en route to the National Retail Hardware Assn.'s convention in Seattle.

C. A. Pope, SOO line vice-president, said an eastbound freight train was backing into a siding near Paynesville when the vacation special arrived, that about four feet of the freight locomotive had failed to clear the main line, and that the passenger train ripped along the side of the freight.

No. 1 Gilmer Davis Well Runs Casing

1. D. Rutherford and Hoop Oil Corp. of Houston ran 5 1/2-inch casing Thursday in their No. 1 Gilmer Davis which has indicated for well pay between two Canyon-pool of Southeast Borden county.

Production was indicated on a 12-minute drillstem test of the well, 6,756-6,781 feet. Gas was at the surface in 2 1/2 minutes, mud in five and oil in six. The prospect flowed to the pits for the next six minutes at an estimated rate of 50 barrels per hour. Drill pipe then was laid down.

The No. 1 Davis topped the canyon at 6,788 feet, a datum point of 4,519 feet. This is 65 feet low to the same marker in the Amerasia Petroleum Corp. No. 1 Cora Weathers in section 94, or 2 1/2 miles northeast in the VonRoeder pool. It is 89 feet high to the Canyon top in the Rutherford and Hoop No. 1 Griffin, section 57, an 8,510-foot Ellenburger failure a mile south. Top of the pay was 19 feet below the anticipated water table for the VonRoeder pool. Location is 2 1/2 miles northeast of the Reinecke pool. It is 467 from the north and east lines of section 68-25 H&TC.

Drilling Continues; No Major Changes Reported Today

Drilling operations in this area continued Thursday without any major developments.

Goldston No. 1 Simpson, north-central Howard offset to the Seaboard No. 1 Simpson, which jumped the Vealmoor pool south, was at 6,475 feet in lime. Livermore No. 1 Currie, a Clearfork exploration in NW SE of section 29-31-2n, T&P, as at 4,391 feet in shale lime.

Sunray No. 3 Wilson, a south offset to the East Vealmoor discovery in section 16-27, H&TC, is fishing for tubing after drilling plug. Sunray No. 4 Wilson, a mile and three quarters northwest of the East Vealmoor pool, was at 6,530 feet in shale.

Gulf No. 1 Clayton & Johnson, northwest Borden wildcat in section 40-21-6n, T&P, was below 3,371 in lime. Don Ameche No. 1 Johnson, six miles north of the Good pool, still awaited swabbing unit.

Corned Beef Hash And Tomatoes Dish

CORNEB BEEF HASH IN TOMATOES

1 16-ounce can corned beef hash 4 large tomatoes

Salt to season

1-4 cup grated cheddar cheese

Scoop out center of tomatoes. Combine tomato pulp with corned beef hash. Season if necessary. Stuff tomatoes with mixture. Sprinkle with grated cheese. Bake in moderate oven (350 F.) 30 minutes. 4 servings.

The Japanese Antarctic fleet of 32 vessels made a record catch during the 1950 whaling season of 1941 whales yielding 26,600 tons of oil, plus 39,000 tons of food products containing some oil.

Hukbalahap Drive

MANILA, July 13 (AP) — Philippine ground forces today began a major offensive against 500 Hukbalahaps reported holed in near Batangas in southern Luzon.

MARKETS

NEW YORK, July 13 (AP) — Cotton noon prices were 90 cents to 91 1/2 a bale higher than the previous close. July 38.90, Oct 38.17 and Dec 38.11.

NEW YORK, July 13 (AP) — A sudden selling attack broke the back of a mild-mannered rally in the stock market this morning.

In a few minutes gains running to more than \$1 a share were wiped out. Losses piled up to around \$2 a share before the market made a fresh stand.

The pattern of the market was one which has become thoroughly familiar to Wall Street since our intervention in Korea more than two weeks ago: A mass of sell orders suddenly thrown at the market and a high speed decline—all but an obvious reason.

Selling was so intense that the ticker tape was unable to maintain its fast report of transactions on the floor of the exchange.

Motors were particularly hard hit as they have been in recent selling drives. General Motors lost 1 1/2 to 1 3/4, Chrysler more than \$1.

Merchandise fractions to around \$1 among them U. S. Steel, Bethlehem, Republic and Youngstown Sheet.

PORT WORTH, July 13 (AP) — Cattle steady; good fed steers and yearlings 28.00 to 30.00; weight steers 28.00-29.50; common and medium slaughter yearlings and heifers 25.00 to 27.50; beef cows 18.50 to 23.00; good and choice slaughter calves 28.00 to 30.00; common to medium 25.00 to 28.00; medium to good stocker steer yearlings 25.00 to 28.00; stocker cows 23.00; down medium to choice stocker steer calves 23.00 to 28.00; stocker heifers 20.00 down.

Hogs steady; good and choice 18.00 to 20.00; medium 16.00 to 18.00.

Sheep steady; medium and good slaughter 18.00 to 20.00; 20.00 to 22.00; several medium grade lots 22.00; slaughter yearlings scarce; feeder spring lambs 20.00 to 22.00; few feeder yearlings 18.00 to 20.00.

Large Military Plane Reported Down In Arizona

TUCSON, Ariz., July 13 (AP) — A big military plane crashed and exploded into a mass of flames on the rugged Galturo Mountains of Southern Arizona early today.

Six hours after the crash, search plane reported sighting wreckage and three survivors. Parachutes were spread on a ridge.

Davis-Monthan Air Force base here said the type of military plane had not been established. B-29 Superfortresses are the more modern B-50's operate out of the base regularly. Both four-engine types carry a normal crew of 11.

Scenes of the wreckage is about 40 miles northwest of Tucson in some of Arizona's roughest country.

Clifford Stahl, pilot of the CAP search plane from which the wreckage was sighted, returned to the Air Force base here and reported the location of the wreckage. A rescue party and ambulances left the base immediately.

Stanolind Announces Location

Stanolind has announced location for its No. 1 C. W. Burton, a 9,500-foot northwestern Howard county wildcat.

The venture, on a spread turned by Reece Cleveland of Midland to Stanolind, will seek the Pennsylvania Location will be 1,980 feet from the south and east lines of section 27-33-2n, T&P.

Standard of Texas contributed the southeast quarter of section 27. Other acreage turned to Stanolind in return for the drilling obligation is the north half and southeast quarter of section 22, the east 280 acres and north half of section 26, the east half of the southwest quarter of section 28, the east half of section 25, and the north half of section 40, all in block 33.

Operations will start by Aug. 1. The venture is about 14 miles northwest of Big Spring and eight miles southwest of the Vealmoor Canyon lime pool.

Bicycle Races For Kids Set For Friday

There'll be a series of bicycle races for youngsters staged by the local recreational department at Steer stadium starting at 2 p. m. Friday. It has been announced.

Prizes are in the offering to the winners and any teen-ager is eligible to enter.

The races will be supervised by Earl Crawford and Roy Baird.

Jim Sullivan Rests In Hospital After Heart Attack Today

Jim Sullivan, veteran attorney here and a brother to District Judge Charlie Sullivan, was resting in a local hospital today after he had been seized with a heart attack in his office earlier in the day.

Jim has suffered from a heart involvement for some time. His condition was believed to be improved in recent weeks, however, and he had been taking long walks to improve his health.

Dawson Wildcat Starts Sept. 1

Dan Olds of Kerrville is to start on Sept. 1 on a 9,250 foot wildcat in southeastern Dawson county.

The test, its No. 1 G. W. Grisam is to seek the Pennsylvania Location will be 660 feet from the north and east lines of section 17-34-4n, T&P, which puts it 3 1/2 miles southwest of the Spraberry pool.

Continental, UPre, Honolulu, Sun, Warren Petroleum, Mid Rutherford and W. B. Collins, Padland, are interested.

B-29s

Continued from Page 1

The latter command was abolished.

Walker commanded the famed armored "Ghost Cross" of Gen. George Patton's Third Army in Europe. He was cited by Britain and praised by the U. S. War Department (now the Department of the Army) for his co-ordination of infantry and armored groups.

Walker made a flying visit to the Korean peninsula in 1950. MacArthur did not say if Walker would return to Korea.

Gen. J. Lawton Collins, Army chief of staff, and Gen. Hoyt Vandenberg, Air Force chief of staff, conferred here with MacArthur and, presumably, with Walker.

Adm. Arthur W. Radford, commander in chief for the Navy in the Pacific, was flying from Pearl Harbor to Tokyo to confer with MacArthur.

Hospitals in Japan are now required to have central kitchens and trained employees to prepare food, thus abolishing a requirement that patients furnish someone to prepare food and for other physical needs.

Report Large Pest Damage In Past Few Days

Reports of damage to gardens, caused by insects and other pests, have been numerous during the past few days, according to County Agent Durward Lester.

The farm agent has listed control measures as follows: Snap beans, dust with five percent DDT every 10 days until pods are formed for control of the beetles, leaf beetles, thrips and leafhoppers.

Cucumbers, treat with a tablespoon of nicotine in a gallon of soapy water for aphids every seven to 10 days as long as needed, and cryolite dust for cucumber beetles every seven to 10 days.

Squash, 20 percent sabadilla dust, applied as needed, for control of squash bugs.

Tomatoes, cryolite dust, undiluted, for blister beetles, as soon as beetles appear.

General treatment, chlorinated camphene or chlordane in margins of fields, or poison bran mash in field, for control of grasshoppers; five percent to 10 percent DDT dust for blister beetles.

Nearly One-Third Of Rodeo Boxes Sold Thus Far

Approximately one third of the seats have been sold for the annual Big Spring rodeo, to be held Aug. 25, Edith Gay, chairman of the committee, reported this morning.

Rodeo fans have purchased 30 of the boxes, Miss Gay said. The new arena, under construction east of Ellis Homes, is to afford 96 boxes, each containing six seats.

Boxes cost \$25 each for the four performances of the rodeo. Price does not include cost of admission.

Lamesa GI Promoted At Tokyo Station

Pvt. Joe Z. Leamon, 19, son of Sam Leamon of Lamesa, has been promoted to the grade of Pvt. 1st Class, the commanding officer of the Eighth U. S. Army in Tokyo, announced recently.

PFC Leamon is a member of the 27th Ordnance Maintenance Co., a unit of the First Cavalry Division, stationed near Tokyo. He is assigned to the Fire Control and Instrument section of his organization as an instrument repairman.

Before entering military service Dec. 28, 1948, PFC Leamon attended Big Spring High school. He received his basic training at Camp Polk, La., and sailed for Japan on June 6, 1949.

Jim Sullivan Rests In Hospital After Heart Attack Today

Jim Sullivan, veteran attorney here and a brother to District Judge Charlie Sullivan, was resting in a local hospital today after he had been seized with a heart attack in his office earlier in the day.

Jim has suffered from a heart involvement for some time. His condition was believed to be improved in recent weeks, however, and he had been taking long walks to improve his health.

## Blind Man Confesses Bank Robbery Of 19 Years Ago

MONAHANS, July 13. (AP) — A blind man's tale of bank robbery was being checked today.

The 38-year-old man turned himself over to Sheriff W. B. McNeerlin in Monahans yesterday and said he was wanted for a bank robbery in Havana, Ark., 19 years ago. Sheriff McNeerlin identified the man as Stanley E. Hedrick.

"My conscience has been hurting me all these years. And I'd do anything to get something done about my eyes, even if it means going to the pen," he told the sheriff.

He said he had been blind for 13 years from an inherited disease. The sheriff and Hugh P. Cooper, editor of the Monahans News, heard his story.

He said he and another fellow gained \$300 from the bank robbery in Arkansas late in 1931; he didn't remember what month. He also said he was involved in a postoffice robbery at Quitaque (Briscoe County), Tex., in 1932 when he and another fellow got \$300.

Sheriff McNeerlin held him in jail while he checked the story.

Hedrick said he was born in Paris, Tex.; that he was married to a girl from Quitaque in 1933, and that his wife and two children—six-year-old and 10-year-old boy—now live at Pyote.

He told the sheriff he had been acquitted in the slaying of Harvey Babin of Plainview in a trial at Portales, N. M., in 1931.

For 19 years, he said, he has worked in Texas at various jobs—as a truck driver and mechanic. For the past six weeks, he said, he had been working as a mechanic at a garage in Pyote near here.

**HELD BY REDS—Capt. Ambrose H. Nugent, 41, of Merrill, Wis. (above) is reportedly a prisoner of North Korean forces. U. S. government monitors said a statement attributed to Nugent had been broadcast by the North Korean-controlled Seoul radio, denouncing U. S. intervention. Nugent's father, Hugh, said his son, a veteran of World War II, "would never do a thing like that." (AP Wirephoto).**

## FBI CHIEF REPORTS

### Commies Increase Underground Work

WASHINGTON, July 13. (AP) — U. S. Communists have increased their underground operations during the past year, FBI Director J. Edgar Hoover said today. The result, he said, is the heaviest work load his agency ever has handled.

In an annual review of FBI activities for the fiscal year which ended June 30, Hoover said the number of investigations involving

internal security and national defense is at a record level, exceeding the volume of similar work during the World War II years.

"The increased work load," the report said, "stems from the activities of the Communist Party and the expanded orbit of their underground operations."

"Increased security consciousness on the part of the party leadership has brought about decentralization of party administrative machinery and transfer of previously open operations to an underground apparatus."

"These developments have complicated the FBI task of maintaining coverage of Communist activity." The FBI director recently asked Congress for more than 300 additional agents, saying they were required principally for internal security investigations.

The annual report showed 8,921 convictions in FBI cases of all kinds during the 1950 fiscal year, a six per cent increase over 1949. Hoover said that in line with previous years, 96.9 per cent of all trials growing out of FBI inquiries resulted in convictions.

### Girl Vocalists Present Lions Club Program

Five vivacious young women brought down the house at the Lions club Wednesday.

They were vocalists under the direction of Mrs. Anne Gibson Houser. In the group were Jan Masters, Wanda Lou Petty, Kitty Roberts, Susan Houser, Barbara June Greer, Ann Crocker, who normally sings with them, was out of town.

For four years now these young women have been singing together in ever increasing close harmony. Wednesday they sang "Tell Me Why," "Somewhere over the Rainbow," "On the Avenue," and the novelty "Quick Silver."

Joe Pond spoke briefly on membership procedure. Roxie Dobbins, Les Snow and President Gilbert Gibbs announced they were leaving for Chicago and the Lions International convention.

### Route Carrier Checks Included In Burglary Of Herald Office

Several checks given to route boys from July 6-11 were included in the \$133 burglary of the Herald Monday night.

Because these had not yet been listed for deposit, those who gave payment to boys by check during the period mentioned were asked to call the Herald circulation department. Similarly, operators of business were asked to call the Herald if checks payable to the Herald are presented. Money lost in the burglary was on circulation collections.

### ALL IN WAY WAR STANDS

NEW YORK, July 13. (AP) — A customer asked a delicatessen counterwoman today for a roast beef and swiss cheese sandwich with Russian dressing.

"My friend," said the counterwoman, "in this detestable Russian dressing is now Mac-Arthur sauce."

### Israeli Man Killed By Syrian Gunfire

TEL AVIV, Israel, July 13. (AP) — One Israeli water patrolman was reported killed and another wounded by Syrian gunfire on the Sea of Galilee yesterday.

An army spokesman said Syrians opened fire on the Israeli vessel while she was assisting a second patrol boat whose propellers were caught in Syrian fishing nets.

He added that three of the second craft's crew were missing, apparently arrested by Syrians.

### Veteran Visits All 280 Buddies

DOYLESTOWN, Pa., July 13. (AP) — Gunther (Joe) Pretsch of nearby Blooming Glen is satisfied today that he visited his wartime buddies—all 280 of them.

Big Spring (Texas) Herald, July 1950

He left home 28 months ago in a battered army jeep. To talk with 280 of the men who had served with him in Europe, Pretsch traveled 98,000 miles into 30 states, Canada and Mexico. He estimated the visits cost nearly \$5,000.

From where I sit... by Joe Marsh

**There it Was— Right in the Middle!**

Easy Roberts mowed his lawn early last Saturday. Then he sat on the porch, and watched Handy Peterson cutting grass.

The Roberts' property and the Peterson's border each other— with no hedges or fence between them. So, when Easy notices Handy had left about a four-foot strip unmowed along the boundary, he walks over and asks why.

"That's your land," says Handy. "Mine ends here. See, it lines up with that oak tree across the road!" Easy didn't think so, so they went up and down looking for the surveyor's marker. Where did they find it? Right in the middle of their "no man's land!"

Well, they both grin and take turns finishing the job and then retreat to Easy's for a friendly glass of beer together. From where I sit, a little searching around for the truth of the matter often shows that the other fellow is as much right as you are—at which point the whole thing doesn't seem as important anyway.
